Morton Faces Nine Game Grid Card; Bill Yarbrough New Assistant Coach

Morton's hopes for one of the best High School teams in the history of the school received a boost in the arm Saturday with the signing of a McMurray College football star and graduate, Bill Yarbrough, as assistant football coach this season.

Yarbrough was an outstanding member of Morton Coach Melvin Crawford when the two squared off against each other in High School gridiron battles.

Plans for an extensive preseason training session got off to a good start Monday morning when the prospective players met at the school house for a strenuous exercise drill. Throughout the week the boys are exercising in condition and by Friday, Crawford hopes to have 40 boys ready to make the training trip to Boaring Springs, Texas.

Location and arrangements for the camp have been completed. Representatives of the school and the Quarterback Club, sponsors of the trip, a cook has been secured from Matador to take care of the food situation and arrangements have been made so that the Morton squad will have furnished only the pots and pans.

The possibility of Morton arranging scrimmage sessions with other teams in training has been announced. Coach Crawford feels that the experience gained in competition is the best available after the boys return home from preseason scrimmages on the home field are likely.

After they return home the boys will have approximately

two weeks before the opening game of the season with Whiteface, Aug. 10.

The 1948 Football Schedule complete with one open date, has been completed. A tough, thorough schedule, it includes games with 9 teams, the toughest grid squads in the district. Highlight of the season will be the clash with Lubbock High on October 8 at Lubbock.

The schedule includes 5 home games and 4 away from home not including the open date which may be filled later.

The Morton "B" Team will open competition one day earlier than the Varsity when they travel to Whittharrel to open the season September 9.

Consolidation Election Slated For August 31st

The Scholastic fate of Lehman school children, left hanging in the balance after a defeat of a proposal to unite with Morton Independent School District, will have another chance to be settled August 31st when Lehman and Whiteface voters go to the polls to decide whether or not the two schools will consolidate.

Hardly had the results of the other election been announced when a petition to County Judge Glenn Thompson asked for a vote on the new proposed consolidation. It would seemingly indicate that parents of the school children in Lehman want Lehman consolidated with another school despite the fact that the town's total vote defeated the previous attempts.

The attempt to bring out a strong vote will face the same difficulties encountered in the Morton-Lehman voting two weeks ago. Voting, comes right after the Democratic Primary election and to many of the county's voters it seems silly having an election every time they turn around.

W. E. Prather has been named presiding officer at the Lehman voting polls and Claud Bowden will preside at Whiteface. Both men will name two judges and two clerks to assist them in holding the election and completing the election return to the County Commissioners' Court within five days after the election.

If the election is carried children of both Whiteface and Lehman would go to the Whiteface School. At the present time 25 transfers have been granted to Lehman scholastics going to Whiteface this year and 28 have transferred to Morton for the 1948-49 school year.

The election will be held in the school building at each of the School Districts.

Mrs. J. R. Evans Hockley Pioneer Dies At Hospital

Death came Friday morning to Mrs. J. R. Evans, mother of Lloyd W. B. Evans of Morton at the West Plains Hospital and Clinic. Mrs. Evans who was 76 years old had been a resident of Morton for a short time having moved here from Brownfield on Mother's day, this year.

Funeral services were held at the First Baptist Church, Saturday at 10 a. m. with Bro. Wright preaching the sermon. Burial was at Clyde, Texas.

Mr. and Mrs. J. R. Evans were Hockley County pioneers before the county was settled and Mr. Evans was the first County Judge of Hockley County. At that time Mrs. Evans lived at Ropes.

When the first World War broke out a son Elbert Evans joined the service and was the first Hockley County soldier killed in that war.

After a period in which Mr. and Mrs. Evans were active in helping to settle and organize Hockley County, they moved to Brownfield. Mr. Evans died about a year and a half ago.

Survivors of Mr. and Mrs. Evans include five sons; Lloyd W. B. Evans of Morton; Ronald Evans of Meadow, Texas; Edward Evans of Dallas, Texas; R. I. Evans of Yellowstone Park, Wyoming and a daughter, Mrs. P. J. Nettles of Brownfield who survives.

Brock Hodnett, Burge Tucker Chosen Directors By Association Members

The annual West Plains Health Association meeting for members and visitors was held Saturday afternoon at 3 p. m. in the School Auditorium as members elected Brock Hodnett and Burge Tucker, Directors.

Tucker was reelected to office in one of the two positions to be filled by elections this year according to the constitution and by-laws of the Association. Hodnett replaced Bob Ramp as the other Director.

Speakers were the auditor, Edwin Merriman, who presented the audited account of the books for the past year and the two doctors on the West Plains Hospital Staff, Wendell S. Dove and Frank Barker.

Merriman congratulated the Association upon the remarkable fact of being able to make expenses in their first year of operation. The Association, organized for the purposes of aiding the community and not to make money, showed a cash profit of approximately \$83. In the first year.

D. E. Benham was chairman of the meeting acting for M. A. Bennett who was ill and was forced to turn over the chairmanship duties.

Flying Club Adds 2 Members; Bans Acrobatic Flying

Addition of two new members to the Morton Flying Club at a business dues paying meeting held Tuesday, August 3, has been announced by Ruel Kelly.

Pete Rogers and Van Greene are the new members that increased the Club membership to fifteen.

Main business affairs conducted resulted in a proposal to prohibit members from engaging in acrobatic flying with the exception of those acrobatics required of members attempting to obtain private and commercial licenses.

The Club voted to accept this proposal in the best interests of the members. It was pointed out that the Club plane is considered safe for nearly any type of stunt flying but this practice cuts down the life of the plane. Since the plane is for the use of all Club members it was deemed best that they make it last as long as possible.

The Club plane has flown a total of 300 hours since its purchase. This represents an approximate total of 24,000 miles in which only one minor accident has been recorded.

Inclement weather decreased the amount of hours flown by members during the past month. Local thunder showers and wind storms in the afternoon have cut down the ideal conditions usually sought for in pleasure flights.

Kelly's report stated that "all members had been working together nicely in trying to make the Club a safe and enjoyable sporting Club."

Revival Meeting At County Line To Start August 13th

The Baptist Church at County Line will hold a revival beginning at the evening service, Friday, August 13, eight o'clock. The meeting will continue through Sunday, August 22.

Earnest Stewart, ministerial student at Hardin-Simmons University, Abilene, Texas will be in charge of the preaching service. Another student from the same school, Ted Cotton, will conduct the music for the revival.

W. A. Harris, pastor of the church, is extending an invitation to the public to attend these services.

Morton Radio And Appliance Opens In New Location

Oscar Vernon, owner of the Morton Radio and Appliance Store has announced it's reopening this week.

The Radio and Appliance was recently located next to the Coffee Shop on the Northeast corner of the square. Both stores moved to new locations because of the construction of the new Wallace Theatre.

New location of the Morton Radio and Appliance Shop is one door south of the Steak House.

"C'mon Chum Pay That \$18 You Owe For 1933 Taxes"

One of the most interesting items in the audited report of the City books received last week from C. S. Williams, Auditor, is the page devoted to delinquent taxes which shows that taxes are still owed the city since 1933.

The \$3.45 of 1933 taxes collected last year leaves taxpayers still owing the city \$18.52 from 1933 tax levies. Each succeeding year until the present time, some taxes are listed as delinquent. Approximately \$40.00 are owed for 1934, \$50.00 for 1935, \$30.00 for 1936, and \$25.00 for 1937. All of these are approximate figures.

More than \$1300. is still owed the City of Morton for last year's taxes and the tax receipts for 1947, when all collected, will total \$3,958.37.

JACK RUSSELL is attending the Methodist youth camp at Ceta Canyon this week.

Books Reveal \$8,000 Worth of Bonds Retired by City During Past Year

Eight thousand dollars worth of Water Works, Paving, and City Hall bonds were retired during the last year leaving the City of Morton \$165,500 in debt on five major city building programs.

The audited account of City books received last week shows bonds outstanding April 1, 1947 totaled \$173,500 for the 1934 Water Works Series, 1941 Water Works Series, 1945 Water and Sewer Series, 1945 Street Paving Series, and 1945 City Hall Series.

On the old 1934 outstanding Water Works Series, \$500 worth of bonds were retired during the past year leaving a total of only \$500 worth of bonds outstanding. The city also retired \$500 worth of the 1941 Water Works Bonds leaving an additional \$7,000 needed to erase that debt.

The major 1945 projects have until 1965 to run before the debt is marked off the books. The Water and Sewer Projects at a cost of \$105,000 is being reduced at a rate of \$4,000 per year until 1951 when the rate begins an increase that will eventually see the city pay \$7,000 a year for 1963-4-5.

A total of \$2,000 has been checked off the Street Paving Bond Issue leaving a balance of \$44,000 owed and another \$1,000 was paid last year on the City Hall bill. The City Hall and Fire Station was built at a cost of \$20,000 of which the city still owes \$17,000.

Morton officials spent \$34,902.21 last year to run the city but

they received a total net income from these operation expenses of \$29,375.31. Other expenses totaled \$7,065.00 and left the City a grand total of \$22,956.37 in net income.

Of the 1947 taxes the City collected \$20,650.39 leaving a total of \$3,958.37 in delinquent taxes for last year. An additional \$1,606.50 in delinquent taxes from other years was collected and with interest and penalty payments the net tax receipt total for Morton last year was \$22,143.21.

The City had \$643.24 on deposit with the First State Bank on April 1, 1948 but a dozen outstanding checks totaling \$611.12 left the City of Morton with \$32.12 in the bank.

Two Methods For Price Protection Of Grain Listed

Farmers in Cochran County can protect the price of their grain crops this year through two methods, G. C. Keith, Chairman of the County Agricultural Conservation Committee, points out.

Purchase agreements will be offered to farmers as a means of price support on 1948 crops of wheat, corn, oats, barley, rye and grain sorghums, Mr. Keith said. Terms will be practically the same as on the 1947 crops.

Under purchase agreements, the producer states the maximum quantity of the commodity upon which he wishes an option to deliver to the Commodity Credit Corporation. The producer may then sell his grain on the market at the market price, or he may deliver to CCC any amount of his grain crop up to the stated maximum at the price support figure. CCC will accept the grain under purchase agreements during the 30 days following the maturity of the 1948 loans, which is April 30, 1949, or earlier on demand.

Both loans and purchase agreements may be obtained at the County Agricultural Conservation office.

Price-support and loan rate per bushel on 1948 Grain Sorghums in Cochran County is \$2.28 per hundred pounds stored on the farm.

Church Of Christ Opens 20 Meeting Daily Bible Series

The Church of Christ opened their series of daily church meetings yesterday morning with the first of 20 meetings to be conducted here in the ten day period through Aug. 20.

Brother Lloyd Moyer will talk on various Bible subjects twice daily. The morning meetings will be held at 10:00 a. m. and the evening services are conducted at 8:30 p. m.

The public is cordially invited to attend as many of the services as possible. Bro. W. A. Brown is Pastor of the Morton Church of Christ.

Canned Food For The Coming Winter Needed At Boy's Ranch, Ranch Farm

A plea to the generous people of Cochran County for food stuffs to help maintain a staff of 150 boys at the Boy's Ranch and Boy's Ranch Farm throughout the winter, has been received from Firman Haynie, Superintendent of the Ranch Farm.

The Ranch located at Tascosa and the Ranch Farm at Springlake are supported and sponsored by the people of the Panhandle. The more than 150 boys, whose only home is the Ranch or Ranch Farm are eating well this summer thanks to good gardens.

"Lack of canning equipment and garden space must force the boys to depend upon the generosity of the people of the Panhandle to tide them through the winter," Mr. Haynie stated.

It is hoped that within two more years the equipment may be added and extra garden space purchased to augment the meager winter food supply now available.

The Ranch Farm is asking everyone who can afford it, to set aside a few cans of food stuffs from their personal canning stock for the boys at the Ranch. The labeled food stuff can be stored at one central deposit depot until it has all been gathered. The

E. Smith Named Primary Principal, Morton Schools Set To Open Sept. 6

The faculty for the 1948-49 school term of the Morton Public Schools was completed last week with the appointment of Elmo Smith as Elementary School Principal.

Mr. Smith is the 31st member of the faculty which includes both the Elementary and High School Principal and an assistant football Coach. Smith formerly was Elementary Principal at Ranger, Texas.

Wendell Watson is principal of the Senior High School which has twelve instructors. Six teachers of Junior High School have been named and another eleven elementary school teachers have been appointed.

A meeting of the School Board set September 6 as the official opening date of school this fall. Registration days for High School students will be announced at a later date as well as the date for the first faculty meeting.

It was also decided at the School Board meeting that school will not be dismissed this fall for the cotton harvest.

The list of teachers includes three newcomers to the elementary school in addition to the principal, Mrs. Fern Gray, formerly taught in Benjamin, Texas. Her husband will work for the Highway Department while they make their home in Morton. Mrs. J. J. Graham formerly taught in Old Glory, Texas. Her family has also moved to Cochran County.

Mrs. L. B. Patterson is the other elementary teacher serving her first year in Morton. Her husband will also teach. He is the only new addition to the Junior High School staff.

The Senior High School has seven new instructors. Joseph Michael, graduate of McMurray College will teach Science and Mathematics, Alan Bryan will instruct in English and Speech and Miss Betty Barnett is an addition to the English and Journalism Department.

Hospital Receives Many Visitors On First Anniversary

The West Plains Hospital-Clinic celebrated a year of operation Saturday with an open house attended by more than 200 people.

Guests were ushered throughout the building and shown the various pieces of equipment that have been added during the past year.

Congratulatory telegrams were received from Roy Davis, Manager of the Lubbock Cotton Oil Mill and from Elma Slaughter, of the Slaughter-Carpenter Estate near Dallas.

Among the out of town guests were Carroll Smyers, of the Lubbock Branch Veteran's Administration Office, Edwin Merriman of Lubbock, and Hoyt Welch of Alabama.

Punch and cookies were served to the guests by Mrs. D. E. Benham, Mrs. Roy Hickman, Mrs. M. A. Bennett, and Mrs. A. A. Fralin. Mrs. Glenn Thompson and Mrs. Fred Young were in charge of the registration book that recorded the names of 141 of the visitors.

Extensive Repair Program Started On Morton School

Work began this week on a full scale repair and redecorating program on the Morton Elementary and Junior High School buildings, Senior High School Principal, Wendell Watson announced. The repairs are expected to be completed before school reopens.

The contract calls for roof repairing, complete electrical rewiring of both school buildings, new ceilings throughout, and a complete repainting of the interior.

Mr. Watson stated that windows are broken in several places and will have to be replaced and new outside doors will be installed wherever needed.

All windows and doors are to be weatherstripped and equipped with new screens as soon as possible.

The large scale repair program also calls for some new rooms to be constructed. Three new rooms will be created out of present unused space.

School Cafeteria Will Be Equipped For 700 Students

Wendell Watson, Principal of the Morton Senior High School has announced that the proposed new Cafeteria will feed approximately 200 people every twenty minutes.

Arrangements have been made to secure adequate equipment to feed 600 to 700 children. Work has been started on the lunch room which will be located in the barracks building west of the Primary School Building.

If present plans are carried out, Mr. Watson pointed out that the elementary children's lunch periods would be staggered in order to take care of all who desire to eat at school.

A supervisor for the lunch room has not been named, although several applications are on file.

Morton Receives Nearly Half Inch Of Rain, Tuesday

Morton received it's first real August rain Tuesday night when a total of .46 inches was recorded at the Conservation Office.

The heaviest rain in the county however, was reported outside of Morton where the rain began in the middle of the afternoon. No figures were available but it was believed to be considerably more than fell in Morton.

Information On Gins In Operation Sought By Agent

Homer E. Thompson needs information concerning the gins to operate in the county this year.

The County Agent has requested that all gin owners or operators turn in information to him concerning the name and address, the correct name of the gin for 1948, and the name of the gin as listed on the bond for sampling.

The name on the bond and the correct name of the gin must be the same as listed on the Smith-Dovey application," Thompson warned. The combination of the name and class card tags ordered for the gins should be the same as the name of the gin and not necessarily in the gin manager's name.

All gin managers are requested to contact the County Agent about this matter if there is any doubt as to the specifications and requirements.

The time to plant fall gardens has rolled around. The gardener that plans to plant fall potatoes will find these tips useful. Cover the seed potatoes with gunny sacks and straw and keep them moist until they sprout. Open the ridge that the potatoes are to be planted in late in the evening, just after sundown, is best. Plant the potatoes early in the morning while the ground is cool. Fall potatoes should be planted deeper than spring potatoes.

Now is the time to plant pole beans, turnips, tender green, and mustard. Fall radishes can be planted about the fifteenth. Leaf lettuce can be planted about the same time. If fall carrots are planted, cover the seed bed with a board to keep the moisture in and help bring the delicate young plants up. When the plants have come through the ground remove the boards late in the afternoon and give the bed a gentle but generous sprinkling. The water should be turned on the young plants until the ground is thoroughly soaked.

Four-H Club girls in Cochran County are turning in poultry. In visiting the girls last week the County Home Demonstration Agent found that Shirley Taylor, Mary Lee Bolton, Pat Masten and Audrey Faye Ward had friers that were ready to eat. The girls are raising chickens as a part of their food demonstration. Some of the girls have pretty gardens, too. One of the best seen belonged to Carolyn Moore. Carolyn's garden is small but she has had lots of fun growing vegetables for her family to use. She also has been helping with a garden "up in the field" near the irrigation well. Mary Helen Keith and Shirley Taylor are doubling up in gardening and poultry. They are producing a lot of nice vegetables.

The County Home Demonstration Agent has been visiting girls who entered the County Dress Revue. She plans to see each one of them during the month of August.

A new bulletin has been received in the office. This bulletin is L-79, "Simplify Your Work." Those who like to look at pictures instead of read should enjoy this little 2 page bulletin. LEHMAN COMMON SCHOOL DISTRICT NO. 5 ORDER OF ELECTION TO CONSOLIDATE SCHOOL DISTRICTS

STATE OF TEXAS)
COUNTY OF COCHRAN)

WHEREAS, on the 6th day of August, 1948, a petition was presented to me for an election to be held in the Lehman Common School District No. 5 of this County on the question of determining whether or not a majority of the legally qualified voters of said district desire that Lehman Common School District No. 5 of Cochran County, shall be consolidated with Whiteface Independent School District of Cochran County for school purposes; and

IT APPEARING that Cochran County contains a population of 3,735 according to the last United States Census; and

IT FURTHER APPEARING that Lehman Common School District No. 5 has been heretofore properly established by order; and

IT FURTHER APPEARING that said District so established contains an area of more than nine square miles and that no other District has been reduced in area below nine square miles by reason of the creation of this District;

NOW, THEREFORE, I, Glenn W. Thompson, in my official capacity as County Judge of Cochran County, Texas, do hereby order that an election be held on the 31st day of August, 1948, at the school building in Lehman Common School District No. 5, of said County as established and now constituted, to determine whether or not a majority of the legally qualified voters of said District desire that Lehman Common School District No. 5 of Cochran County shall be consolidated with Whiteface Independent School District of Cochran County for school purposes.

W. E. Prather is hereby appointed presiding officer for said election, and he shall select two Judges and two clerks to assist him in holding the same, and he shall, within five days after said election has been held, make due return thereof to the Commissioner's Court of this County as is required by law for holding a general election.

All persons who are legally qualified voters of this State and of this County and who are resident voters in said District shall be entitled to vote at said election, and all voters who favor the proposition to consolidate the said Districts for school purposes shall have written or printed on their ballots, the words:

"FOR CONSOLIDATION"

And those opposed to the proposition to consolidate the said Districts for school purposes shall have written or printed on their ballots, the words:

"AGAINST CONSOLIDATION"

Notice of said Election shall be given by posting three notices thereof in three public places within the boundaries of said District for twenty days prior to the date of said election.

County Judge, Cochran County, Texas.

Sixty Texans Died Needlessly Of Appendicitis

AUSTIN—Sixty Texans died as the result of appendicitis during the first five months of 1948, according to figures released by the Texas State Department of Health.

"This figure does not appear large compared to the deaths from cancer, tuberculosis and heart disease", Dr. Geo. W. Cox, State Health Officer said, "but with the knowledge that these sixty Texans died needlessly, the figure is tragically high."

More than anything else, Dr. Cox said he would attribute fatality in appendicitis to the complacent attitude of the people concerning the disease. It is not put in its "proper perspective." Too often, the Health Officer said, people have the vain hope that the prolonged pain in their stomach ache will "wear off." He cautioned that the stomach ache which lasts more than three or four hours should be considered a serious matter.

Appendicitis killed 60,000 people in the United States and Canada last year, Dr. Cox said. He warned that young adults are especially susceptible to attacks, and that appendicitis is a leading cause of death among children and adolescents.

"Operative techniques have been improved to the extent that an unruptured appendix can be removed with great safety," Dr. Cox said. "It is therefore apparent that the negligence in appendicitis rests with the patient who fails to seek prompt medical attention."

He said it was imperative that the patient lie quiet until the doctor comes as moving about disturbs the inflamed parts. He strongly urged against taking laxatives in cases of suspected appendicitis.

Announcement of 1948 Cotton Loan Program Made

The details of the 1948 Cotton Loan program covering upland cotton planted in 1948 have been announced by the U. S. Department of Agriculture.

The average loan rate for 7/8 Middling cotton, gross weight, will be 28.79 cents per pound which is 92 1/2 percent of parity price of cotton on August 1, 1948. The parity price Aug. 1 is 31.2 cents per pound. This is an increase of 2.30 cents per pound over the loan rate last year of 26.49 cents per pound.

The rate at Morton for 15/16 Middling cotton will be 30.46 cents per pound. Premiums and discounts for grade and staple in the 1948 loan program will be related in relation to the loan rate of 15/16 Middling cotton.

Forms and complete details are available through approved cotton warehouses, approved lending agencies and Agricultural Conservation Committees. Cotton loans will bear interest at the rate of 3 percent per annum and will mature July 31, 1949. Loans will be available May 1, 1949.

CHEVROLET'S OLDEST DEALER

Chevrolet's oldest dealer is located in a town of only 800 population. W. J. Hubbard first took a franchise on July 31, 1913, and for 35 years has sold new and used cars in Francesville, Ind. Hubbard's anniversary was recently observed in Detroit where he was guest of honor at a luncheon tendered by Chevrolet officials.

Mahon Appeals To Make Effective Government Loan on Combine Maize

Congressman George Mahon reported to the Tribune this week that he had personally appealed to the Secretary of Agriculture, Charles Brannan, to use the full force of his office to make effective the Government loan program on combine maize. He explained that much of the West Texas crop was not yet beginning to move and that plans should be perfected now to avert millions of dollars in losses to West Texas farmers.

Foreign demand for American grain has receded and the price of grain has sagged. Mahon said that some Central Texas farmers were already selling their grain at 50¢ per hundredweight below the loan rate.

Under the law the producer is entitled to a loan of 90 percent of parity on his combine maize, but loans are dependent upon the availability of storage, and the law will not be effective if storage arrangements cannot be made. Adequate freight cars and storage were not available during the war years but the market price for grain was above the loan rate and there was no serious question as to a support price and no considerable demand for loans.

Mahon said that if the loan on grain sorghum should not be available many producers would sacrifice their grain sorghum below the support price, but that if the loan were available the market price should remain firm above support price levels.

Secretary Brannan advised Mahon that the Department would intensify its efforts to move the wheat crop out of the pipe line insofar as possible and would give sympathetic assistance in trying to meet the situation confronting producers of combine maize.

Following a long distance telephone conversation with Walter Hammond, Head of the Texas Farm Bureau, Mahon in his capacity as Chairman of the Texas

Congressional Delegation, appointed Congressman Poage of Waco as chairman of a committee of six members to cooperate with Texas farmers and the Texas Farm Bureau in finding ways and means to meet the situation. A large additional amount of storage that will be acceptable to government loan officials will be necessary.

QUOTES ON COTTON

Best in 20 Years—"If I were to sum up in a single sentence the outlines of cotton's future—based upon world facts and expert opinion—I would say that the outlook for American cotton in the years immediately ahead is better than it has been in at least two decades."—Secretary of Agriculture Charles F. Brannan.

New Wealth—"The only value which the cottonseed crop possesses is that which is added after the seed has left the farm and gin. This value, which represents a new source of wealth to the South—just as much so as if an equivalent value of petroleum or gold had been found—has been created by the combined forces of manufacturing technique, chemical research and marketing effort."—Dr. N. R. Whitney, Proctor and Gamble, Cincinnati.

Strength in Union—"Cotton and livestock are joined together today in a balanced, permanent agricultural program. In that union there is strength, and opportunity for greater progress for both cotton and livestock."—A. L. Ward, National Cottonseed Products Assn.

"WHEN HE IS COME"
Let us for just a moment consider, John 16:8. "And when he is come, he will reprove the world of sin, and of righteousness, and of judgement." We find that the writer here was using the words that Jesus spoke. He was speaking of the Comforter, the third person in the God head. It is true that there are many things done and said that the Holy Spirit puts blame for doing and saying that he is not guilty of at all. Here we find that the Lord said that when He was come he would reprove the world, or rebuke the world, of three different things, sin, righteousness and judgement.

First let us notice sin. The Comforter is going to reprove the world of sin. Why should he reprove or rebuke the world of sin? Because they believed not in the Lord Jesus Christ. Had the world believed in the Lord when he was here then the world would not receive his rebukes for sin. The world did not believe in him therefore they must undergo rebuke. Let us bear in mind that every person that does not believe in the Lord is going to be rebuked for it. If you believe in the Lord then the Comforter will not rebuke you.

Second, of Righteousness. There are many things being done today that men call righteousness that does not please the Lord. If the righteousness that we have, does not exceed the righteousness of the Pharisee we will be reprov'd for it. Jesus said that the Comforter would reprove the world of righteousness because he was going to the Father. As long as the Lord was here his righteousness had it's way in the hearts of men. He knew that when he was gone that men were going to establish their own righteousness and he was warning them that they would be reprov'd for it. This is exactly what happened and the world is being reprov'd for it today.

Third, of Judgement. Yes judgement has been, is and will be upon the world. The prince of this world is being judged every day by the individual. We are judging him by our lives and through our living we are telling the world while to us. Every time that we refuse to do his bid-dings, we judge him not to be worthy of our service. May we be careful of the judgement that we

amending Section 15 of Article XVI of the Constitution of the State of Texas, by adding thereto a provision that the husband and wife from time to time may in writing partition between themselves in severally or into undivided interests all or any part of their community property, whereupon without prejudice to the rights of existing creditors the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse; further providing that such Constitutional Amendment if adopted shall be self-operative and self-executing, providing for the submission of this Amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Section 15 of Article XVI of the Constitution of the State of Texas be amended so as to read as follows:

"Section 15. All property, both real and personal, of the wife, owned or claimed by her before marriage, and that acquired afterward by gift, devise or descent, shall be the separate property of the wife; and laws shall be passed more clearly defining the rights of the wife, in relation as well to her separate property as that held in common with her husband; provided that pre-existing creditors, may from time to time by written instrument as if the wife were a feme sole partition between themselves in severally or into equal undivided interests all or any part of their existing community property, or exchange between themselves the community interest of one spouse in any property for the community interest of the other spouse in other community property, whereupon the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse.

This Amendment is self-operative, but laws shall be passed prescribing requirements as to the form and manner of execution of such instruments, and providing for their recordation, and such other reasonable requirements not inconsistent herewith as the Legislature may from time to time consider proper with relation to the subject of this Amendment. Should the Legislature pass an Act dealing with the subject of this Amendment and prescribing requirements as to the form and manner of the execution of such instruments and providing for their recordation and other reasonable requirements not inconsistent herewith and anticipatory hereto, such Act shall not be invalid by reason of its anticipatory character and shall take effect just as though this Constitutional Amendment was in effect when the Act was passed."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas at an election to be held throughout the State on the second day of November, 1948, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"FOR the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interest community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Those opposing said proposed Amendment shall write or have printed on their ballots the words:

"AGAINST the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election, and have same published as required by the Constitution for amendments thereto.

A Dissertation On Dirty Dishes

By Mrs. J. A. Gowdy

(Written while attempting to ignore a batch left over from last night's company.)

I abhor dirty dishes, but with not quite the purple passion that I do the washing them, I have approached the subject from every possible angle only to meet with the same results. I have tried ignoring them not only for meals but for days, yet there inevitably comes a time when the family is hungry, the dish cupboard as bare as Old Mother Hubbard's, and nothing but a beer-can opener and an egg turner crouch in a far corner of the silver drawer. Neither of which would lend appreciably to the graciousness of a formal setting.

I have tried springing blithely up from the table and snatching the family's plates from under their collective noses while they are still swallowing the last bite of baked custard, but before my halo has had time to become properly adjusted, both sides of the cabinet—and usually the top of the stove—have in some mysterious fashion, become stacked high with dirty dishes again. So I ask you, "what's the use?"

I have even tried slipping up on my blind side and subtly changing my own attitude toward them, but no amount of re-conditioning nor rationalizing has helped a whit.

I have tried gazing dreamily out the kitchen window while I mentally re-landscaped the entire backyard or made over my last year's formal into a nifty little number that would dazzle the crowd, but to no avail. I finally come back to earth to find the water grown cold, the grease beginning to congeal around my wrists, and the exact number—by count—of dirty dishes that I started out with.

I have read a few articles and even one poem singing of the ethereal beauty and soothing effects of a lovely pan full of warm soapy water. I hope the authors are resting quietly in some nice peaceful institution. My only reaction to their efforts was a feeling of "Phooey! Poetry and dirty dishes. You might as well write a poem extolling the beauties of bed-wetting!"

I did run across one quotation, however, with the general idea that the sum total of all education is the ability to make yourself do what you know you have to do, at the time it ought to be done. I clipped it out and thumb-tacked it above the sink, not with any expectation that it would do any fundamental good, but I did think maybe I'd re-read it once or twice and spend a pleasant moment contemplating how clever I'd been to think of sticking it up there. But there it stayed, yellowing and water-splattered and curling at the edges until it became as much a part of the every day scene to which my mind had become oblivious as the dust on the two top slats of the venetian blind. I knew they were there, the dust and the clipping, but if my eye inadvertently lighted upon either, it shied quickly away. Finally one day in a fit of rebellion I snatched it down and flung it in the general direction of the waste basket, silently demanding why any educated person allowed herself to be maneuvered into a dish-washing position in the first place. And that was the end of that feeble effort.

I have at last developed a philosophy of sorts, that in some measure alleviates the struggle between my hours-from conscience and my rebellious soul, to the effect that as much as I have to do, I can't possibly get through with the things I don't like to do. I'm sure there are any number of flaws to be picked in such a philosophy, but since I have evolved it myself to fill my own need, I am loathe to be over-critical.

And another thing, where some women claim they don't have a peaceful moment while there is a dirty dish in the house, I have become so accustomed to them that I am acutely uncomfortable and ill-at-ease if, by some miracle, I find they are all sitting smugly on the shelf. If this should happen early in the morn-

ing, I don't accomplish another thing all day. I'm through with my work, and so take a magazine and a sandwich to the living room. On the other hand, if the kitchen is piled high, I can turn out an unbelievable amount of work, because I must hurry and finish anything I start, since the dishes are yet to do.

All this has led me to the unshakeable conviction that women and dirty dishes have a natural antipathy for one another like cats and dogs, oil and water, brothers and sisters, and nothing can be done about it. I am resigned to the fact that dirty dishes, like the poor, "ye have with you always," and that my own personal struggle with them is indeed a mortal combat. The betting runs about even as to whether I whoope or get whooped, but I am thoroughly convinced that any woman who says she doesn't mind to wash dishes has either lost some of her marbles or is an out and out liar!

EDITOR'S NOTE: One would almost be inclined to believe that Mrs. G doesn't like to wash dishes.

Of course there is no question in anyone's mind, most of all ours, but what we HAVE lost some of our marbles along with a few other things, and it might be said that we are given to exaggeration BUT we don't mind washing dishes—not at our house that is and especially since Norine comes so gallantly to the rescue when there are dirty dishes in abundance.

Miss Joyce Ann Goodman Becomes Bride Of Frank Bolton Friday Evening

Miss Joyce Ann Goodman, daughter of Mr. and Mrs. H. E. Goodman, and Mr. Frank Bolton, son of Mr. and Mrs. Bruce Bolton, were married Friday evening, August 6, at the Missionary Baptist Parsonage with Rev. T. L. Bullard reading the double ring service.

Attendants were Miss Rose Silhon as maid of honor and Mr. Moon Lytle as best man.

The bride was wearing an aqua two piece suit with black accessories and a shoulder corsage of pink carnations and tube roses.

Wedding guests were Mr. and Mrs. Mike Dawdy, Mrs. H. A. Barnes, Mrs. T. M. Tanner, Mrs. Bruce Bolton, Mrs. H. E. Goodman and daughter, Betty.

Immediately following the ceremony a reception was held at the home of Mr. and Mrs. Dawdy for the bridal party and wedding guests.

The bride's table was centered with a three tiered cake in the

bride's chosen colors of green and white, embossed with roses and doves, topped with a miniature bride and groom and surrounded by fresh flowers and fern.

After a wedding trip to Budo-so, New Mexico, the young couple will be at home in Morton.

Mrs. Bolton is a 1946 graduate of Morton high school. Mr. Bolton is a navy veteran now employed in Cochran county oil field.

LOOKING AHEAD

By George S. Benson, President, Harding College, Searcy, Ark.

"HOUSING" SOUNDS GOOD
Public housing proposals, like so many other measures that would take America "way down the road to Socialism," come up in nearly every session of Congress. A government housing program, known as the Taft-Eliender-Wagner bill found enough support in the recent Congress to get through the Senate. It failed in the House. Bills of this type have at least nine lives, and you can expect to see more of them later.

It sounds good to nearly everybody to say that "low-income families" are entitled to housing. When the real issues are all clouded-up with emotion and sentimentalism, there are some who will vote "yes" without taking the trouble to get down to facts. I, too, favor "housing." Housing is essential for everybody. But I am also aware that the needy, the unemployable, the very lowest-paid workers, do not get into public housing projects.

What Is Low Income?
From all reports, the situation at a 550 family unit government project in New York State is typical. The law states that a family earning more than \$1,700 cannot qualify there for an apartment. Yet, half the families in the project have incomes above the minimum, some up to \$3,000. Only a very few destitute families ever get into government housing. They cannot pay the high maintenance and operating costs. Even government rents are too high for them.

I say these things to shed light on the arguments of the planners, who dote on the goodness of the government. Their sentimental propaganda serves no purpose but to mislead. The T.E.W. bill promised to build houses for "low-income families". Perhaps there are 10 million, perhaps 20 million, maybe 30 million. What's the measuring stick for a "low-income" family? Who would decide about this? And where would they be put?

A "Dormant" Program
The Supreme Court in New York recently ruled that \$4,500 is low income, and it refused to put tenants out of public housing because their incomes were that large. You see, the whole scheme has been designed to put the government permanently into the

housing business, not to help the needy. There are those who want to use wasteful, inefficient housing experiments for political purposes. They want both big and little czars, so that all necessities of the people may be taken care of.

A joint committee of the 80th Congress found that the Federal Public Housing Authority, even with a "dormant" program, employed 6,371 persons and used up a budget of more than \$11,000,000 a year. A major part of FPHA's activities were devoted to creating a desire on the part of the public to depend completely upon a benevolent government. Nor has the FPHA overlooked its opportunities to set up systems of political patronage.

To Get The Vote
The T.E.W. bill calls for 500,000 units of housing over the next five years. Despite the tremendous cost of \$7 billion, this amount of housing would not even begin to satisfy all the "low-income" families. But it would be enough to satisfy many a politician. Think of the possibilities for keeping the party vote in line. "Low-income" families may be found anywhere. Why couldn't the government projects be put up where they would bring in the vote?

Despite all these dangers, the sorry part is that public housing can give us no expanded production of materials, no additional skilled construction workers. In short, it cannot relieve the housing shortage. Besides real discouragement to more private housing construction, the government would extend its powers over all the people through public housing. We must not be fooled this way into accepting Socialism.

Three European capitals, Vienna, Budapest, and Belgrade, are all on the Danube River.

A JOINT RESOLUTION
proposing an amendment to Section 28 of Article III of the Constitution of the State of Texas, so as to provide for a Board for apportioning the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment, providing for the issuance of the necessary proclamation by the Governor, and making an appropriation.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Section 28 of Article III of the Constitution of the State of Texas be amended so as hereafter to read as follows:
"Section 28. The Legislature shall, at its first regular session after the publication of each United States decennial census, apportion the state into senatorial and representative districts, agreeable to the provisions of Sections 25, 26, and 26-a of this Article. In the event the Legislature shall at any such first regular session following the publication of a United States decennial census, fail to make such apportionment, same shall be done by the Legislative Redistricting Board of Texas, which is hereby created, and shall be composed of five (5) members, as follows: The Lieutenant Governor, the Speaker of the House of Representatives, the Attorney General, the Comptroller of Public Accounts and the Commissioner of the General Land Office, a majority of whom shall constitute a quorum. Said Board shall assemble in the City of Austin within ninety (90) days after the final adjournment of such regular session. The Board shall, within sixty (60) days after assembling, apportion the state into senatorial and representative districts, or into senatorial or representative districts, as the failure of action of such Legislature may make necessary. Such apportionment shall be in writing and signed by three (3) or more of the members of the Board duly acknowledged as the act and deed of such Board, and, when so executed and filed with the Secretary of State, shall have force and effect of law. Such apportionment shall become effective at the next succeeding statewide general election. The Supreme Court of Texas shall have jurisdiction to compel such Commission to perform its duties in accordance with the provisions of this section by writ of mandamus or other extraordinary writ conformable to the usages of law. The Legislature shall provide necessary funds for clerical and technical aid and for other expenses incidental to the work of the Board, and the Lieutenant Governor and the Speaker of the House of Representatives shall be entitled to receive per diem and travel expense during the Board's session in the same manner and amount as they would receive while attending a special session of the Legislature. This amendment shall become effective January 1, 1951."
Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the state on the first Tuesday after the first Monday in November, A. D. 1948, at which all ballots shall have printed thereon:
For the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment.
Against the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."
Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.
Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this state.
Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated, to pay the expenses of such publication and election.

Use Of Atlacide Reported Success By County Agent

"The need for Johnson grass killer, Atlacide, is a much discussed subject since the crops are about laid by," says Homer E. Thompson, County Agent.

Mr. Thompson has been doing some spraying in small spots throughout the county with success. On August 6, 1948, two little patches of Johnson grass near Morton were sprayed and the grass on top is already dying. The patches sprayed on highway 290, the road to Whiteface, are at the big dip south of Lloyd Evans' house on the right hand side of the borrow ditch. They are easily recognized.

"Do not use and then cultivate," continued Thompson. "Use three pounds per square rod as a spray or dust after you have laid by your crop. Leave it alone for 45 days and then the tops and roots will all be dead."

The grass killing chemical, Atlacide, can be purchased from some dealers in Morton at a cheaper price than in Lubbock or Plainview. If interested, contact your county agent for complete information as to the purchase and use of this chemical.

The recent finding of oil again at the "ghost town" of Leeray (on the Eastland-Stephens county line) after the spot had been deserted 20 years ago as "played out" reminds me of the time that I started an oil boom at Leeray—probably the shortest oil boom on record.

Leeray sprang up about 1919 in a wilderness of wolves and mesquite when oil was struck. The C. & N. E. railroad, building from Cisco to Breckenridge, built through the town, which grew to a population of perhaps 6,000. Then dry holes were hit and the people moved on. The buildings were torn down; piles of rubbish and streets, rapidly being reclaimed by grass and brush, were the only reminders of the one-time boom town.

It was late in 1923 that a friend of mine and I visited the scene. I had in mind writing an article on the "phantom city". My companion had a box camera, which he set up on a tripod, and took pictures. A small brick vault stood all by itself—thousands of dollars had been stored there. The bank building had been torn down but the little vault was considered not worth the trouble of salvaging.

The sun was shining that Saturday but it was a deceptive sunshine, as though it mocked the hopes of which Leeray was the graveyard. The temperature was cold and a strong wind added a penetrating keenness that was almost numbing.

Someone saw the two visitors and assumed that the camera on a tripod was a scientific device of some kind. So the report spread that Leeray was being studied for further oil development. On Monday morning, when the oil company offices in Eastland opened, landowners of the Leeray area were waiting, ready

CARD OF THANKS

We wish to express our sincere gratitude for all the expressions of sympathy, at the time of our mother's illness and death.

to lease their land. When the official of one company said that he was uninterested, the landowners went on to another until all the offices had been visited, then they sadly returned home. The oil company officials scratched their heads as they puzzled about the sudden "invasion" of landowners from around Leeray.

And that's how I started an oil boom which lasted from Saturday through Monday.

But like the character in the comic strip who was "born 30 years too soon", I was just ahead of developments by something like 25 years. Leeray is now the scene of a revival of oil activity.

That cold, wind-swept day, I had been walking around on soil under which lay a treasure of deeper oil. Recently, six wells have been drilled in the vicinity—two of them in the townsite itself. In fact, one of these deeper producers is only 200 feet from where that old bank vault stood.

Well, anyway I have a picture of the vault.

Solution of Labor Problem Seen In WTCC Request

Solution of the Mexican seasonal labor problem is seen in a request made this week by the West Texas Chamber of Commerce Latin-American Commission to the Texas Good Neighbor Commission in seeking executive action by the governor. This action would include a proclamation by the governor, calling on all mayors and Chambers of Commerce in every town in Texas to use their efforts to prevent discrimination. The WTCC group would have the governor issue executive orders to the Texas Employment Commission to exercise greater control over movement of the Mexican workers, to prevent exploiting by "jeffes" and otherwise causing overloads in communities unprepared for the influx of hordes of seasonal workers.

This plan was presented to Thomas L. Southerland at San Angelo by Claude Meadows, Sr., chairman of the WTCC group. After its preparation by General Manager D. A. Bandoen of Abilene. For more than a month the WTCC has been getting letters from city and Chamber of Commerce officials in West Texas, outlining steps taken to provide accommodations. It was pointed out that these letters are from the highest official and civic authorities and speak with authority in their promises.

Southerland has been asked to transmit the letters to the Mexican government in an attempt to have lifted the ban against importation of Mexican workers. The following points were made in the presentation:

1. That there are organized activities in every community to eliminate racial discrimination.
2. That there are organized activities to provide necessary temporary and permanent housing, eating and entertainment facilities and many such facilities have already been extended.
3. That educational and religious advantages are offered without discrimination.
4. That there is a parity in compensation, and Mexican workers are paid on the same basis as any others for the same type of work, and the wage scale in West Texas is considerably higher than in Mexico.

"On the basis of these pledges, we respectfully request that the Good Neighbor Commission of the State of Texas:

1. Urge the Governor of Texas to issue an official proclamation calling upon all City, County and Chamber of Commerce officials of Texas to take necessary steps to see that no discrimination exists in the treatment of migratory workers coming from Mexico.
2. Urge the Governor by executive order to request the full cooperation of all state agencies, such as the Texas Employment Commission, to exercise their every legal power to prevent discriminations and to establish

Livestock Life-Lines

Cows must form pleasant associations with milking if maximum production is to be attained.

Foot rot is likely to be prevalent among sheep and cattle crowded into muddy corrals and wet pastures.

In pigs, a deficiency of pantothenic acid, one of the B vitamins, may produce a condition resembling mange.

Swine are not susceptible to the bovine type of brucellosis, but cattle may contract the swine type of this disease.

Pasture rotation is as necessary for the health of animals as crop rotation is for the successful production of crops.

Good roughage is supplied by pastures only when they are green and growing, not when they are dry, brown and short.

Improper feeding, crowding, and exposure to bad weather during transportation are important causes of shipping fever in livestock.

Semi-annual testing of vacuum gauges on milking machines will mean less trouble in the milking shed—especially, less mastitis.

The iron reserve stored in the liver of a pig at birth usually is exhausted after about seven to ten days when sources of iron other than the sow's milk are not provided.

DISTRESSED

A U. S. Navy submarine commander was distressed when he surfaced after having been depth bombed by the Japanese and found an unexploded bomb lodged on the submarine deck. The resourceful skipper however, loaded the bomb on a rubber life-raft and carefully sailed away.

a definite good neighbor practice. "It is further recommended that copies of these proclamations and executive orders be transmitted through the Texas Good Neighbor Commission to the proper authorities in Mexico, with the request that the ban against Mexican Nationals entering the United States may be lifted."

WHITEFACE INDEPENDENT SCHOOL DISTRICT ORDER OF ELECTION TO CONSOLIDATE SCHOOL DISTRICTS

STATE OF TEXAS
COUNTY OF COCHRAN

WHEREAS, on the 6th day of August, 1948 a petition was presented to me for an election to be held in Whiteface Independent School District of this County on the question of determining whether or not a majority of the legally qualified voters of said district desire that Lehman Common School District No. 5 of Cochran County, shall be consolidated with Whiteface Independent School District of Cochran County for school purposes; and

IT APPEARING that Cochran County contains a population of 3,735 according to the last United States Census; and

IT FURTHER APPEARING that Lehman Common School District No. 5 has been heretofore properly established by order; and

IT FURTHER APPEARING that said District so established contains an area of more than nine square miles and that no other District has been reduced in area below nine square miles by reason of the creation of this District;

NOW, THEREFORE, I, Glenn W. Thompson, in my official capacity as County Judge of Cochran County, Texas, do hereby order that an election be held on the 31st day of August, 1948, at the school building in Whiteface Independent School District of said County as established and now constituted, to determine whether or not a majority of the legally qualified voters of said District desire that Lehman Common School District No. 5 of Cochran County shall be consolidated with Whiteface Independent School District of Cochran County for school purposes.

Claud Bowden is hereby appointed presiding officer for said election, and he shall select two Judges and two clerks to assist him in holding the same, and he shall, within five days after said election has been held, make due return thereof to the Commissioners' Court of this County as is required by law for holding a general election.

All persons who are legally qualified voters of this State and of this County and who are resident voters in said District shall be entitled to vote at said election, and all voters who favor the proposition to consolidate the said Districts for school purposes, shall have written or printed on their ballots, the words:

"FOR CONSOLIDATION"

And those opposed to the proposition to consolidate the said Districts for school purposes shall have written or printed on their ballots, the words:

"AGAINST CONSOLIDATION"

Notice of said Election shall be given by posting three notices thereof in three public places within the boundaries of said District for twenty days prior to the date of said election.

G. W. THOMPSON,
County Judge, Cochran County, Texas. 26c

Here's proof the Gas Refrigerator

STAYS SILENT LASTS LONGER...

Only Servel is Guaranteed for 10 years

More and more Texas families prefer Servel! For Servel is the one refrigerator that offers permanent silence, longer life—and proves it with a ten-year guarantee!

Why is it possible to guarantee this modern refrigerator for ten years? Servel has no moving parts in its freezing system. No motor or machinery that can wear or cause noise.

But a different, simpler freezing system is only part of the story. The new Servels bring you every new food-keeping feature, too. Come see the famous Gas Refrigerator—first choice of more and more Texas families. See it today.
