

# Whiteface-Lehman School Consolidation Issue Carried In Election Tuesday

## Voters Elect Crockett Sheriff-Tax Assessor-Collector

Proposal Favored  
At Lehman 47-37,  
At Whiteface 85-4

After several unsuccessful attempts to consolidate with another school district, Lehman voters finally found the necessary solution Tuesday when they voted 47 to 37 to consolidate their school district with Whiteface. The school district will be known as Whiteface Independent School District.

It was the third time that Lehman voted on a proposed consolidation. The other two times the proposal was defeated by Lehman. That Whiteface voters would approve the proposal, was a foregone conclusion. They gave it an 85 to 4 margin in favor but according to the election rules both communities had to vote in favor in order to carry the consolidation. The final ruling affects approximately 77 pupils from the Lehman Common School District. They will now attend classes in the modern, Whiteface School Building completed only two years ago. The Whiteface school district will be charged with transporting the Lehman students to and from Lehman. The proposal does not affect the 28 students who have already been granted permits to transfer from Lehman to Morton this school year. Those transfers are in effect for the remainder of the year. Applications for transfer are granted or rejected by the county judge and the commissioners each year.

### Old Timey Shoes On Display At Child's Store

L. B. Childs has on display in his show window a pair of boy's shoes thought to have been made about 75 years ago. The shoes were brought in by O. Hurley of Star Route 2, Morton. He has owned them for 27 years. The little shoes are in excellent condition and apparently never worn. The leather is finished, the soles rather thick with a brass rim attached between the sole and upper portion of the toes. While well made and sturdy there is no determining shape in the right and left shoe. Child's new shoes and boots along with the old pair; this comparison serves as an example of improvements made in the art and shoe makers art in the last few years.

### Morton Lions' Board of Directors Appoints Committeemen For Year

The Board of Directors of the Morton Lions Club has announced the appointments of committeemen to function this year in Morton. Regular weekly meetings will be resumed sometime in September but the actual date of the first meeting has not been announced. The Lions Club regularly meets every Wednesday in the Methodist Church. The meetings are postponed for the summer because of the heat and because the many members leaving on vacations. W. B. Cox was named head of the Attendance Committee with J. Wolfenberger and L. W. Barrett also serving on that committee. In charge of Constitution and Bylaws are Chairman, P. B. Rambo, G. W. Thompson, and Roy Hickman. Finances are designated to Chairman T. K. Williamson, Paul Goodman, and R. Hickman. M. C. Ledbetter heads the Education and Information committee composed of himself, Carl Macon and Homer Thompson. Membership is handled by Chairman J. B. Knox, W. C. Wright, and Scott Hawkins. Morton Mayor Tom McAllister, Carl Ray and L. B. Childs will handle the Program and Entertainment Committee with McAllister acting as Chairman. Publicity is taken care of by Chairman Carl England, R. C. Rockland, and Bud Nairn. They also double as a committee in charge of Bulletin Editing. M. C. Ledbetter is head of United Nations work and Willard Cox will act as greeter. One of the most important functions of Lions work throughout the country, aid to blind people, is handled locally by the Blind Work Committee. Carl Macon heads this committee. Arthur Leddall and Jack Bullard are also members. These three men also form the Boys and Girls

### Texas' Draftees Expected To Total About Fifteen Hundred Each Month

The goal of the Selective Service Act, put into effect early this week, is an Army with an average daily strength of 837,000 men, a Navy up to 666,882 men and an Air Force up to 502,000. This information from Maj. Gen. K. L. Berry, Texas Selective Service Head, means that the armed forces indicate they can use about 30,000 inductees a month for the first year. Each of the Army, Navy, and Air Corps will be allowed to enlist so many 18 year-olds. The Army may enlist 110,000, the Navy is allowed 36,000 and the Air Corps can use 15,000 one-year enlistees. "A quota will be set up to determine that each state sends its fair share of inductees," states Berry. That will mean approximately 1,500 per month will go from Texas. The quota system will determine how many men are in the classification immediately available throughout the country, then as they are called Texas will be expected to send 15 percent of the total in each call. The first call is expected in about October. According to the

### Arthur Cook Acts As Registrar For Sel. Service Act

The local registration board for all men registering under the Selective Service Act, is located in the court house. Arthur Cook, County Service Officer is handling the registration on the third floor. The office will be open from 8 a. m. to 5 p. m. each regular registration day.

### Morton Students' Registration Date Friday, Monday

It's back to school for Morton grade school and High school students next Monday. The dates for registration of all students have been announced. Registration of all Juniors and Seniors and football players at Morton High School will be held tomorrow morning and afternoon according to Carl Macon, Superintendent. All teachers are to report to the High School Building at 9 a. m. Friday morning, September 3rd to receive enrollment instructions. The enrollment will begin at 11 a. m. tomorrow with all football players reporting to register. At 1 p. m. Juniors and Seniors will register. All Juniors and Seniors who register on Friday will not be required to attend school on Labor Day, Monday, September 6. On Monday all other students must enroll. Operation of the new lunch room will begin on Tuesday, September 7 so do not plan to eat at school on Monday.

Robert W. Sisson, Manager Veterans Administration, Lubbock. Mr. Sisson will be one of the honor guests for the American Legion Installation services at Veterans Hall here Thursday night, September 2.

### Morton Mexican Receives Fines For Shoplifting

A middle aged Morton Mexican woman received a double fine in Court sessions Thursday when she pleaded guilty to charges of shoplifting. Sheriff Hazel Hancock arrested the woman after receiving a call from the B. H. Rhoderick War Surplus Store. Hancock received a description of the woman from Rhoderick after the proprietor had missed some of his stock. She had stuffed the stolen articles, which included nine pillow slips and some small novelties, into a large handbag. The woman had approximately \$15 worth of stolen articles taken from the Rhoderick Store and St. Clair's Department Store. Tried in the Justice of the Peace Court for a theft of less than \$5 from St. Clair's, the woman received a fine of \$20 and was fined \$25 and costs for stealing more than \$5 worth of goods from Rhoderick.

### First Cotton Bale Will Be Auctioned Here Saturday

Cochran County's first bale of cotton for the 1948 season, will be auctioned off to the highest bidder on the northwest corner of the square, Saturday afternoon at 2 p. m. The 550 pound bale belongs to Thurman T. Smith. It was ginned at the Coop Gin.

### Registration Dates

Every United States citizen between the ages of 18 and 26 must register. The date for your registration is listed below. If you were born:

In 1922 (After Aug. 30) register Aug. 30.  
In 1923, register Aug. 31 or Sept. 1.  
In 1924, register Sept. 2 or Sept. 3.  
In 1925, register Sept. 4 or Sept. 7.  
In 1926, register, Sept. 8 or Sept. 9.  
In 1927, register Sept. 10 or Sept. 11.  
In 1928, register Sept. 15 or Sept. 16.  
Before Sept. 19, 1930 register Sept. 17 or 18.

Thereafter any male person reaching the age of 18 must register within five days after reaching 18.

### Evans Warns All Male Citizens To Report To Board

W. B. Evans, Morton Area Selective Service Head has advised the Tribune that he has reason to believe some of the male citizens between the ages of 18 and 25 are not registering with Arthur Cook, County Service Officer. All male citizens, regardless of disabilities or previous service must register according to the law. Five years imprisonment and or a \$10,000 fine may be levied on any man who fails to comply. According to the official announcement ignorance of the law will not be considered a legitimate excuse. Men born after Aug. 30 but in the year 1922 were supposed to register Monday and Tuesday. Other registration dates are listed at the top of this page.

### Stroud Will Open Morton Super Dog Business Today

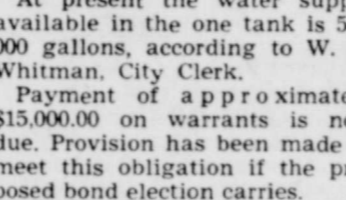

Morton has a new business establishment to day with the opening of the "Super Dog" stand one block west of the Ford Motor Company. W. F. Stroud of Levelland is the owner of the new snack bar that will feature Super Dogs, frosted malts, and cold drinks. The motto of the company is "Serve Yourself and Save." The Super Dog is a somewhat glorified version of a hot dog on a stick. The hot dog is cooked in a batter and when done the batter jacket takes the place of the bun. Stroud has announced that free malts will be given away from 5:30 to 7 p. m. tonight as a get acquainted offer. Regularly the stand will be open from about 3:30 in the afternoon till 11:00 at night. Super Dog stands are operating successfully in Levelland, Lubbock, Brownfield and Littlefield. Each stand is owned by an individual proprietor.

### Local Nine Enters Playoff Sunday Facing Ropesville

Morton's State Line Baseball Nine, having finished the season on top of the State Line League, enters a two out of three game playoff series Sunday afternoon at Slaughter Field with Ropes. Ropes finished the season a few games behind Morton in second place. Morton defeated Ropes in a thrilling ten-inning game contest here last month, 3 to 2. Buck Huckabee, who twirled that win for Morton will be on the mound Sunday for the locals. The game is scheduled to start at 3 p. m.

### City Commission Declare Emergency Ask For \$100,000 City Bond Election

In order to extend water mains and improve existing ones and to put in additional fire plugs within the city limits of Morton for the protection and safety of residents, the City Commission in a meeting Monday night, asked for a \$100,000 bond election. After this decision was made Morton city officials began making arrangements for holding a \$100,000 bond election September 18, to determine whether or not the taxpaying property holders of the city deem it necessary to expand the city water supply system. As was pointed by Mayor Tom McAllister at a meeting of the Chamber of Commerce last week, the growth of Morton has far exceeded its improvements and because of this rapid growth the need for immediate action has arisen. At present the water supply available in the one tank is 50,000 gallons, according to W. K. Whitman, City Clerk. Payment of approximately \$15,000.00 on warrants is now due. Provision has been made to meet this obligation if the proposed bond election carries. Members of the C of C in open discussion agreed that Morton's water storage situation could easily become a problem if provision for improvement is not made immediately. In planning the proposed improvements, consideration was also given to expansion of Mor-

George Mahon, Congressman from 19th district. Mr. Mahon has been invited by the Jesse R. Bond Post of Morton American Legion to attend public installation of officers here Thursday night.

Bill Hartgraves, Morton Net Coach. Hartgraves, a 20-year old, Highland High School graduate was a school mate of Bill Yarbrough, recently appointed Morton Assistant Football Coach who resigned two weeks ago. Hartgraves will assume the duties of assistant Football Coach and will instruct mathematics at school. Hartgraves was born in Maryneal, Texas and attended Highland High School at Roscoe, where he participated in football, basketball, and track. While at MacMurray he worked out with the basketball team but did not play football. At present the basketball schedule has not been announced but it was anticipated that practice sessions would not be started until late in November.

### Club House Plan Will Be Discussed At Meeting Tonite

Members of the Morton Country Club will hold a meeting at the Court House tonight at 8 p. m. to elect new officers and discuss several important topics concerning the club. On the list in addition to the election, are the planning of the Second Annual Morton Country Club Golf Tourney, and a discussion about the building of a proposed Club House. Some members have expressed the desire to have tennis courts and other additions made to the Club grounds located about three miles Northeast of town. All members are urged to be present and have a voice in the matters.

### Legion Officer Installation Tonight, Congressman Mahon Plans to Attend

Word has been received that Robert W. Sisson, Regional Veterans Administration Manager, and Congressman George Mahon are planning to attend the Jesse R. Bond post American Legion Installation, tonight. The Lubbock team will take charge of installing the 49 officers for the local post after which talks will be made by some of the honored guests and refreshments will be served. More than 500 veterans of the vicinity, both members and non members have been invited to attend. One of the highlights of the program will be the singing of a Barber Shop Harmony Quartet, known as the Westernaire quartet of Lubbock. Homer E. Thompson, popular Cochran County Agent will be installed as Commander of the post. Thompson, born in Vernon, Texas 40 years ago, lived in Dimmitt and Hereford during his youth and only came to Morton in July of 1947 when he was appointed county agent. Since his arrival he has acquired a host of friends. Married and the father of a 7-year old son, Billy Ed, Thompson served more than five years in the armed forces during the last war. Among the time he spent in service training schools was an 8 month stay at the famed Yale University where he was studying the principals of military government. He studied the language, customs, and rituals of the Japanese and later served in Japan and Korea. He was officially attached to a cavalry unit in addition to his service with the military government outfit. Officers to be installed include Thompson, Commander; Jim Gast, First Vice-Commander; O. D. Vernon, Second Vice-Commander; Arthur Cook, Adjutant; Roy Turney, Finance Officer; Roy Hill, Historian; Ralph Roberts, Sergeant at Arms, and Woodie Combs, Chaplain.

### Morton Merchants Dollar Day Sales Slated for Monday

Despite the fact that the September edition of Dollar Day falls on a holiday this month, it will be held the first Monday in the month as planned, September 6. The sometimes celebrated holiday, Labor Day, also falls on September 6. Labor Day is usually celebrated in larger cities but the majority of smaller towns do not unanimously recognize it. Expanding to include more Morton merchants each month, Dollar Day has become a regular feature in the city and has met with the solid approval of housewives and other shoppers as well as the approval of merchants. Reports from business proprietors of record turnovers on Dollar Day are not uncommon.

### SS Representative Postpones Visit To Morton Mon.

Due to the fact that Monday, September 6, is Labor Day, a scheduled appearance in Morton of the Old Age representative has been postponed. Labor Day is recognized as a legal holiday by most governmental offices but so far as has been reported, only the first State Bank and the Morton Tribune will be closed in Morton on that holiday. The Morton schools will open Monday despite the holiday.

### Kilmer B. Corbin Elected Senator From 30th District

Those queer tricks that figures sometimes play gave the key to the Cochran County Sheriff's race last Saturday when a lopsided, 92 vote margin in the Neely Ward Precinct gave H. D. (Her-man) Crockett every one of his winning votes over W. V. (Son) McKay. The real photo finish however, occurred in the U. S. Senatorial battle between Coke Stevenson and Lyndon Johnson which was nip and tuck right down to the wire. Awaiting complete returns from the Democratic State Executive Committee, both candidates were sitting tight. Final unofficial tabulation gave Stevenson a victory by a scant margin but Stevenson would not concede until the committee gives its official report, September 13. Kilmer Corbin, receiving heavy support from Cochran County, along with many others, defeated incumbent Sterling Parrish by nearly 8,000 votes to capture the State Senatorial Post from the 30th District. In the sheriff's race, Crockett captured only one precinct in addition to his home town and that one, Neely Ward gave him the 135 to 43 tabulation. With Morton polling a 293 vote majority in favor of their home town candidate, Crockett forged into an early lead but McKay counted on by many to carry all the outlying precincts, gained back 264 votes in his hometown of Whiteface. He outpolled Crockett by 20 votes in Bledsoe and added 9 more in Lehman to gain back exactly 293 votes. Here is the county vote by Precincts:

	M	W	B	L	NW	T
<b>SHERIFF</b>						
Crockett	542	13	48	13	13	751
McKay	249	277	68	22	43	659
<b>STATE SENATOR</b>						
Corbin	521	87	65	26	114	813
Parrish	233	192	51	7	63	546
<b>U. S. SENATOR</b>						
Stevenson	383	159	58	14	90	704
Johnson	386	124	58	21	81	676
<b>Morton: W-Whiteface; B-Bledsoe; L-Lehman; NW-Neely Ward; T-Total vote.</b>

### LOOKING AHEAD

By George S. Benson, President, Harding College, Searcy, Ark.

#### DAINGEROUS MALADY

What the Russians stand for has lately come under heavy attack from almost every group or individual in America. We are almost unanimous. Current Congressional investigations at last seem to be hitting pay dirt. Russia herself, by strangling little Czechoslovakia and conducting the "cold war," has been losing some of her friends. Influential Communists are deserting, once they see what Russia's "ideologies" really are like.

These things are important. But dangers to America do not arise solely from what Russia is and what Russia does. Russia surely casts dark shadows on the world's future. But the present sorry muddle of things was not accomplished singlehandedly by Russia. To pass the buck by blaming Russia, is to focus all the trouble there. We cannot escape blame so glibly. This nation like many other nations of the world, became infected with the disease of "statism." It is still a dangerous malady.

#### In Our Generation

No matter by what name you call it, state control has grown in almost every country you can name. This has happened in our generation. After World War I, politicians in many nations sensed their opportunities for power. Usually, this power was obtained through economic tyranny. Heavy taxes, false money, and tinkering with production and distribution kept the tyranny in power. Finally, it was Germany, Italy, and Japan that brought on another terrible war.

They were the "statist" nations. In each of these nations aggression against other countries followed aggression against the individual at home. Little nations, weakened by statism of their own, were easy victims. When their people did not care to resist and nothing seemed worthwhile, totalitarianism could find easy pickings. Now, statist Russia continues this sorry business.

#### Recognize The Infection

The infection of statism is at its worst in Russia, but we have not escaped it in America. We cannot always call it Communism, for unfortunately it does not always wear the name. Yet its effects are unmistakable. It demoralizes everything. Those in government can then justify a growing hunger for more and more power. Statesmen lost their vision to become mere politicians. They come to believe that the state can do everything.

The citizen is demoralized by statism. He gets to the point where he does not resist inroads on his liberties. He becomes a slave of the state. He is willing to follow evil courses no matter whether his heart tells him they are wrong. Resistance is simply not worthwhile. This is an exact picture of the German people before and during World Wars I and II. It fits also the Italians and the Japanese in World War II.

#### America's Danger

The picture fits Russia, too. It is the statist, government-controlled countries that soon take their people down the road to war. Nations do not foment wars when the people have a say-so. The greatest danger in America today is that we shall adopt one by one the ways of statism, even while denouncing Communism. This is what Russia would like to see us do. Instead, we must learn to identify the infection, no matter what label it may carry.

One label we are learning to avoid is Communism, but our understanding of it is usually pretty sketchy. Read and study "Communism in Action", a 140-page booklet, prepared by the Library of Congress. Copies may be obtained free from: American Wage Earners Foundation, 30 N. LaSalle St., Chicago, Ill. This is a factual study that will show the results of statism in Russia. It will convince you that neither you nor America could be better off under government managed economy.

#### BOYCE HOUSE

### 'Gives You Texas'

A politician, known for the length of his speeches, was given a writup in a newspaper, which began, "John Doakes spoke last night and this morning."

The origin of a favorite expression of political orators eulogizing their candidate goes back to Gen. Edward S. Bragg of Wisconsin who, in seconding the nomination of Grover Cleveland for president, said that the young man of Wisconsin "love him for his character and iron will but"—looking at the Tammany Hall delegates—"but they love him most for the enemies he has made."

History has told of Sidney, that gallant soldier, who lay mortally wounded, when an orderly lifted his head to give him a cooling drink of water. Nearby, an enemy, likewise mortally wounded, moaned for water and Sidney, thrusting the cup from his own lips, commanded, "Give it to him."

An incident which rivals that for profound courage took place during the Civil War. The body of a Confederate colonel was found at Gettysburg. In his hand was a note, which read:

"Tell my father I died facing the foe."

He had written the message with his left hand as his right hand had been shattered—and, for ink, the dying man had used his own blood.

The hairspring in a lady's wristwatch is less than 1/2 the diameter of an average human hair and vibrates 18,000 times an hour.

## Henry H. Sides Aboard Destroyer, Hank

Henry H. Sides, seaman recruit, son of Mr. and Mrs. Mal. Sides of Whiteface, Texas, sailed from New Orleans Naval Reserve training aboard the destroyer USS Hank which will engage in mock maneuvers in the Caribbean. Sides is representing two districts in taking their training aboard one of the modern destroyers in a four-ship bound for Port-au-Prince, Haiti. They will be given drills, battle problems, and refresh their pre-training and acquaint them with the latest developments in equipment.

two-week cruise, which will practice under simulated war conditions, will consist of combined operations of planes, submarines and the quartet of sisterships destroyers.

Reserve trainees and regular crew members of the 2,200-ton Hank will see the island discovered by Columbus in 1492, and now the sole negro republic of the Americas. The island's early political history was characterized by revolution and bloodshed. Fourteen years ago this month, President Roosevelt recalled a U. S. cruiser which had landed Marines at Port-au-Prince to occupy the country and restore order. This time, bent on a much different mission, sailors from the visiting ships will be granted two days liberty in Haiti's capital city.

## -- annegrams -- by ann england --

The spouse lifted the beginning and ending paragraph of a last week—he takes more liberties with us than anyone we know.

More nice things happened last week—to us that is—Mr. Klein or Cline as the case may be got the engraving of Cochran county court house back to the office here in time to be used in the paper after much frantic telephoning between Morton and Amarillo and vice-versa.

It was all our fault—despite the fact that we told Mr. K or C that we sent the picture along with the others—we didn't.

Then too, we had a lot of compliments on the Tribune. Including a telephone call from Bill Clark of the Avalanche-Journal, B. C. has been writing the stories of South Plains towns for the A. J. and appreciates the work entailed.

Ermon Miller called Wednesday night to inform us that there were discrepancies in the story, notably that Mr. J. L. Winder owned the first store here and not Henry Cox.

We knew when we gave Eddie the assignment it would be extremely difficult to gather the material and in probability a lot of errors would be made but we wanted to take that chance.

Records of Cochran county and Morton are pretty rare—as a matter of fact, Tom McAlister told Chamber of Commerce members at a recent meeting that prior to 1940 no records were kept of the City of Morton. However Eddie secured most of the material from County records.

We are so glad Mr. Sisson and George Mahon were invited out here for the American Legion installation—gives us a chance to dress up the paper with their pictures.

You may not know it but one of our jobs is to gather the material from week to week that makes up the Tribune. And it isn't every week that we can find interesting stories or an excuse to use some good looking man's picture.

Saturday we decided to have broiled steaks and mushrooms for Sunday dinner even if we couldn't afford it. Time for preparation is practically nil with exception of french fries that of necessity must accompany the steak.

We usually get the potatoes ready far enough in advance to leave the slices in cold water for an hour at least before frying, then of course each individual slice must be thoroughly dried.

Salad is generally nothing more than lettuce and tomatoes and we ALWAYS serve hot biscuits and honey with broiled steak—no particular reason except that we like honey and biscuits.

The spouse isn't overly fond of mushrooms so we get most of them and he gets ALL of the french fried potatoes.

It's a good thing we love having company and invite guests at the slightest pretext or Vagabond house would never get cleaned up.

Wonder if visitors like the nibbling type of food we put out for these little get-togethers? One of these days we are going to give a party and surprise every one by serving blackeyed peas and corn bread.

Noticed a good article one day last week on "cancer" in the Woman's Angle, a column conducted by Margaret Turner of the Avalanche-Journal.

It is our firm opinion that all people—especially females should have periodic examinations by their physicians in order to detect any abnormal growth or possible disease before it is too late to correct same.

All the youngsters around town getting ready for school opening next Monday, some are enthusiastic while others wish they could delay the return to school awhile longer.

We have heard of a new gadget that brushes, curls and inserts a bobby pin in the hair all in one operation—that we want to see.

We receive nice letters all the time but one lately that filled our heart with joy ended thus, "Thanks again for living and being so nice. We all love you very much." Of course it does put us under an obligation; how could we possibly be unkind when our friends set such a goal for us?

Another letter too, from Merle Nelson of Atascadero, California. The Nelsons are favorite friends of ours and one fall after a three months European trip we three met in Chicago. Merle didn't feel equal to all the running around so we made the shows with Nels.

At one time we lived in their home in California and have often remembered the time one of our best boy friends from San Francisco called to see us and Nels ran him off because he thought he was a magazine salesman, bill collector or something equally undesirable.

Saw darling little Warren, son of Tye and Odessa Williamson, bawling his eyes out the other day because he thought his granddaddy Williamson was going off and leave him.

We are indebted to Norine's mother for some of the most delicious strawberry jam, apple jelly and sweet pickles we have ever eaten. Mrs. Frazier also sent us a huge bouquet of beautiful asters from her flower garden.

Bill Brock came in this week to help the spouse in the mechanical department. Now when we yell "Bill" there will be three silences instead of two while each one waits to hear which Bill we mean.

The spouse says, "There are two kinds of wives who make husband's very uncomfortable; the wife who doesn't know what she wants and won't be happy till she gets it and the one who knows what she wants and can't get it."

### MRS. WORLEY RETURNS FROM VISIT IN VALLEJO, CALIF.

Mrs. G. E. Worley returned recently from Vallejo, California where she had been for six weeks with her daughter, Mrs. Cloye Bryant and family.

Mrs. Worley greeted a new grandson, Michael, born to the Bryants on August 12. Since returning from California Mrs. Worley has also visited her mother, Mrs. J. M. Lester at Blum, Texas. Mrs. Lester has been ill but was improved slightly when Mrs. Worley left.

### NOTICE TO BIDDERS

Bids will be received until the 6th day of September, 1948 until 10:00 O'Clock A. M. on the remodeling of the Court House in Cochran County, Morton, Texas. Plans and specifications will be on file in the County Judge's office at Morton, Texas and Haynes and Kirby's office, 1902 Dixie Drive, Lubbock, Texas. The Commissioners' Court reserves the right to reject any and all bids. G. W. Thompson, County Judge, Cochran County. 27c

## Be Sure Children Are Physically Ready for School

AUSTIN—Dr. Geo. W. Cox, State Health Officer, urges the parents of all children who will respond to the school bell for the first time in September to be sure the child is physically ready for school duties.

"First and foremost is the need for vaccination against smallpox. Parents and physicians should see that children are vaccinated before they are one year of age; however if not done previously, at school age vaccination becomes absolutely necessary," Dr. Cox said. "If your child has not been vaccinated, have it done immediately so that the scar will be completely healed before school opens."

Immunization against diphtheria is also highly desirable, Dr. Cox believes. This disease, which causes serious illness and deaths among young children can be prevented with toxoid. The child who has never been protected should be given this safeguard against a dreaded disease. Even though he may have been immunized as a baby, doctors and health officers usually recommend an additional dose of toxoid to strengthen immunity before entrance into school.

"In addition, before you send your child to school you are urged to take him to your family physician and dentist for a thorough examination," Dr. Cox adds. "You will want to know that he is in good physical condition and can compete with the other children on equal terms. If the check-up reveals any weakness or defect there will be time to build up his general health and correct dental defects before school opens. Don't let your child start his school life with any avoidable handicap."

### "Dream Girl" Has Broadway Run

Paramount's "Dream Girl", which shows Sunday and Monday, Sept. 5-6 at the Wallace Theatre, has had a long and successful run as a play. Written by Pulitzer Prize-winning Elmer Rice, "Dream Girl" piled up 347 performances on Broadway and then hit the road, convulsing audiences from Coast to Coast for 21 weeks.

For Betty Hutton, who plays the title role, "Dream Girl" provides an entirely new and different type of vehicle. Betty is seen as an idealistic society beauty, whose notions about love and life get her into some strange situations.

Playing opposite Miss Hutton is Macdonald Carey, handsome ex-Marine, in his first starring role, as the "wolf" who wins her.

### Poultry Specialist Lists Ways To Cut Heavy Egg Losses

Five eggs out of every hundred are lost on Texas poultry farms because of poor handling. Hot weather has a lot to do with it, says F. Z. Beanblossom, extension poultry marketing specialist of Texas A. and M. College. And Texas still faces a long period of hot weather before things begin to cool off this coming fall.

Going back to last year's egg record, Texas poultry flocks laid over 75 million dozen eggs during the hot summer months of June, July, August and September. Now, five percent of this number is more than 3 1/2 million dozen eggs. That's how many eggs had to be thrown out because they weren't handled properly. Looking at the money side of it, that many eggs are worth around a million and a half dollars.

Beanblossom has a few ideas for the flock owners that will cut down egg losses. To beat the heat, he suggests that farmers collect eggs from the flocks at least three times a day. Don't leave the eggs in the nests too long. Get them into a cool, moist room and leave them there at least 24 hours before packing them.

A wire basket allows for lots of air circulation around the eggs. It's about the best thing there is to collect eggs in. Pails, boxes or woven baskets keep the gathered eggs warm and the air out, so use a wire basket. And don't fill it all the way to the top.

A few degrees of heat makes a big difference, says Beanblossom. Freshly laid eggs held at 90 degrees lose as much quality in 20 hours as eggs held for three days at 70 degrees, or for 24 days at 50 degrees.

The best humidity for eggs is around 85 to 90 percent and a temperature of 32 to 60 degrees. The lower the temperature within these limits, the better the eggs will keep.

Eggs take up odors easily and quickly, says Beanblossom, so keep them away from such things as lemons, onions, kerosene or mustiness.

MR. H. S. HAWKINS made a business trip to Amarillo first of the week.

MISS IONA PURVIS spent the week-end in Littlefield with friends and relatives.

### "Emperor Waltz" To Show Sept. 8-9 At Wallace

The Wallace Theatre will roll out the red carpet next Wednesday and Thursday, Sept. 8-9 for Paramount's Technicolor romance-with-music, "The Emperor Waltz", with the King of Song, Bing Crosby, and lovely Joan Fontaine in the starring roles. The film is the most lavish and elaborate to come out of the Paramount Studio since before the war and report has it that nothing to equal it has yet come from Hollywood.

Crosby plays an American phonograph salesman in Vienna of 1901, and his love affair with a countess (Miss Fontaine) rocks the Austrian capital and a considerable portion of the Tyrolean Mountains. The salesman and the countess are brought together by their dogs—Bing's common fox terrier and Joans aristocratic French poodle. There is a good deal of hilarity in the development of the dogs' and their owners' respective romances.

The story situations are as original as only co-authors Charles Brackett and Billy Wilder could make them. Brackett, who also produced the film, and Wilder, who directed it, have been responsible for some outstanding film hits—"The Lost Weekend", "To Each His Own", "Double Indemnity," among others.

Bing and Miss Fontaine are supported in "The Emperor Waltz" by Roland Culver, Lucile Watson, Richard Haydn and Harold Vermilyea. Among the tunes Crosby sings in the film are "Friendly Mountains," "The Kiss in Your Eyes" and the title song—"The Emperor Waltz."

MISS NORINE FRAZIER was a week-end guest of her parents in Sudan.

#### NOTICE TO BIDDERS

The Commissioners' Court of Cochran County, Texas, will receive competitive bids until 10 o'clock A. M. September 13, 1948 at the Court House in Morton, Texas, for the purchase of two tandem drive, diesel powered (100 H. P. Minimum), power control motor graders, with electric starters, enclosed cabs, heaters, 14.00-24 tires, 12 foot moldboards and with 2 foot left hand extensions, and one used GALION motor grader, and one used AUSTIN-WESTERN motor grader to be traded in as part payment for the new machines. Bids are to be submitted in accordance with legal bidding requirements, and the Commissioners' Court reserves the right to reject any and all bids.

G. W. Thompson, County Judge, Cochran County, Texas.

#### THE STATE OF TEXAS NOTICE FOR PUBLICATION OF FINAL ACCOUNT

TO THE SHERIFF OR ANY CONSTABLE OF COCHRAN COUNTY, TEXAS—GREETING:

L. John Crawley, administrator of the estate of Fred Crawley, deceased, having filed in our county court his final account of the condition of the estate of said Fred Crawley, deceased, together with an application to be discharged from said administration, you are hereby commanded, that by publication of this writ once in a newspaper regularly published in the county of Cochran, State of Texas, and said publication shall be in not less than ten days before the return date hereof, you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, in said court on or before Monday, the 13 day of September, A. D. 1948, when said account and application will be considered by said court.

Witness, T. W. Pierce, Clerk of the County Court of Cochran County.

Given unto my hand and seal of said court at my office in the town of Morton, Texas, this 30 day of August, A. D. 1948.

(Seal) T. W. PIERCE, Clerk County Court, Cochran County, Texas.

A TRUE COPY, I CERTIFY: A. H. HANCOCK, Sheriff, Cochran County, Texas By H. D. Crockett, Deputy Sheriff.

#### SHERIFF'S RETURN

Came to hand on the 30 day of August, A. D. 1948, at 9:10 o'clock, A. M., and executed on the 30 day of August, A. D. 1948, at 9:30 o'clock, A. M., causing a true copy hereof to be published for ten days before the return day hereof in the Morton Tribune, a newspaper published at Morton, in Cochran County, Texas. This return is accompanied by the affidavit of the publisher of said newspaper, as required by law.

A. H. HANCOCK, Sheriff, Cochran County, Texas. By H. D. Crockett, Deputy Sheriff.

**Routine Checks For Dairy Farmers Produce Clean, High Quality Milk**

Small grain pastures, stomach worms, dry pastures, quality milk and sire service make up a list of five things the Texas dairyman can check on about this time of the year, says G. G. Gibson, extension dairy husbandman of Texas A. and M. College.

When it comes to the small grain pastures, plan at least one acre for each cow. And remember, planting time is just around the corner. Talk to your county agent about the recommended varieties and practices in your county.

Stomach worms don't bother the older cattle much, but the calves and yearlings are sometimes hit pretty hard by them. Symptoms of stomach worms are loss in weight, general weakness, anemia, and a rough hair coat. The animal often develops a "pot belly," and this swelling may later appear under the jaw—called "poverty jaw" or "bottle jaw." Calves and yearlings should be given the best drained, cleanest pastures, and should be kept off the worm infested areas from 6 to 12 months.

Phenothiazine can be used to a good advantage to cure the worms, but should not be given to lactating cows since it discolors the milk.

Most of the pastures over the state are dry right now. Everybody could use a little rain. Until you get some, give the cows all the hay and silage they can eat. If they don't need it, there won't be any loss, and if they do need it, they'll pay you well for it.

Bacteria control is very important when it comes to this business of producing and selling high quality milk. Clean, safe milk comes from healthy, properly milked cows with clean equipment and the milk cooled promptly. Producing clean milk is not a big job, says Gibson, but it does require attention to the

little details. You can keep the bacteria out of milk by: keeping cows healthy, using clean equipment, following clean milking methods and prompt cooling and delivery of milk.

Sire service of some of the nation's best bulls is available to Texas dairymen in many sections of the state through the artificial insemination program. Your county agent can tell you whether or not there is a technician in your county. If not, then there probably is in the neighboring county, says Gibson.

**Public Invited To Opening Of Whiteface School**

H. P. Clemons, superintendent of Whiteface Schools, announced September 6 as the opening date for Whiteface schools.

An invitation has been extended the public to attend the opening exercises beginning at 10:30 a. m. George Mahon, United States Congressman from this district will be principal speaker.

Buses will run the regular route on Monday, September 6, with school being dismissed at noon.

"Classes will begin Tuesday, September 7 and the serving of lunches will begin on that date," Clemons said.

**RETURN FROM PENNSYLVANIA**

Mr. and Mrs. Harve Andrews returned Friday from Lancaster, Pennsylvania where they had been at the bedside of Mrs. Andrews' mother, who has been seriously ill for several weeks.

**Notes Of Interest On Agriculture**

All Texans have been urged by Governor Beauford Jester to attend the sixty-third annual State Fair of Texas in Dallas, October 9 through 24, "where the youth of the farm, the ranch and the city find the inspiration for fine citizenship and happiness."

The sum total of all the small amounts of fat in the average American kitchen adds up to quite an amount. When the kitchen grease is no longer usable as food, strain it into your fat salvage container and sell it to your meat dealer.

A good jelly should be bright, of good color and clear. And when taken out of the glass, it should keep the shape of the mold.

It's only good, common sense to take time out to keep equipment in the best of shape. The time spent repairing and replacing parts is only a small part of the cost of careless handling, and the dangers of such equipment are even more.

Wax applied to the dustpan helps the dust slide off easily, prevents sticking when applied to the tops and bottoms of drawers, and prevents rust when applied to the painted surface of washing machines.

Weeping lovegrass, adapted to the well drained soils in all farming regions of Texas, withstands extreme summer drought and heat.

**RETURN FROM CHICAGO TRIP**

Mr. and Mrs. Lloyd Evans, daughter, Mrs. Billy Dane Burns, Mr. Burns and Mr. and Mrs. C. M. McMaster returned Friday night from a vacation trip to Chicago, Illinois.

**WOMEN WATERCOLORISTS EXHIBIT ON DISPLAY AT TECH**

An exhibit from the national Women Watercolorists opened on Sept. 1 the annual series of art shows sponsored by the Art Institute at the Texas Technological college museum.

The pictures will be on display throughout the month of September and will be open for public inspection every day.

A number of outstanding contributions are included in the exhibit forwarded to Lubbock by the women's national association.

**LAZY J T M RANCH OF MORTON, WINS POLO TROPHY—**  
In a spectacular polo game played July 25, at Libertyville and witnessed by over 12,000 persons Morton's Lazy J T M Polo team won the coveted trophy presented by the Arlington Farms team of Libertyville, Illinois.

Pictured above are Lazy J T M players receiving the trophy.

reading from left to right they are: Tommy Cross, California; John Mather, Morton; Tom Mather, Morton; Stanley Taylor, Morton; and Mrs. Tom Mather.

The famed Arlington Farms team won eleven out of twelve starts in International Polo, losing the eleventh game to the Lazy J T M, who in the past season have won fourteen games out of fourteen.

### UNCLE SAM'S SELECTIVE SERVICE

1. Q—What is the purpose of the new Selective Service law?  
A—To train a body of men capable of defending the nation and to select the men for this duty by the fairest method possible—registration of every man 18 through 25 years old, regardless of wealth, influence or social position. From this registration will be chosen those men 19 through 25 years of age who are deemed best fitted to receive 21 months of training.
2. Q—Is this the first peacetime draft?  
A—No. The first was in 1940.
3. Q—How many men will be affected by the Selective Service law?  
A—Military authorities estimate 9,600,000 men will be registered in the United States and its possessions. In Texas between 550,000 and 575,000 men are expected to register.
4. Q—Who administers the program?  
A—President Truman has named Maj. Gen. Lewis B. Hershey as national director of the Selective Service System. In each state the governor acts as co-ordinating head and names a state director. Gov. Beauford H. Jester has named Maj. Gen. K. L. Berry, state adjutant general, to hold this position in Texas.
5. Q—When will the Selective Service law go into effect?  
A—President Truman has issued a call for the registration of all men 18 through 25 years of age who are living in the U. S. and its possessions. Registration in Texas will take place on the following days: On Aug. 30 persons born in 1922 after Aug. 30, 1922, will register; on Aug. 31 or Sept. 1 persons born in 1923 will register; on Sept. 2 and 3 persons born in 1924 will register; on Sept. 4 or 7 persons born in 1925 will register; on Sept. 8 and 9 persons born in 1926 will register; on Sept. 10 and 11 persons born in 1927 will register; on Sept. 15 and 14 persons born in 1928 will register; on Sept. 15 and 16 persons born in 1929 will register; on Sept. 17 and 18 persons born in 1930 before Sept. 19, 1930, will register. Persons born on or after Sept. 19, 1930, will register on the day they are 18 years old or within five days after they are 18.
6. Q—How long will the law be in effect?  
A—Until June 24, 1950, unless sooner terminated by the two houses of Congress.

**MRS. W. A. LINDSEY VISITED IN ALBUQUERQUE LAST WEEK**  
Mrs. W. A. Lindsey visited last week in Albuquerque, New Mexico with a cousin and friends. She accompanied her son, Sgt. Bill Lindsey and family and Mr. and Mrs. Vincent Vialle to the New Mexico city.

The Vialles and Lindseys were enroute to San Francisco, California where they visited Mr. and Mrs. Amel Glaser.

**HOLLEYMAN VISITORS**  
Mrs. A. E. Holleyman was visited last week by her son, J. I. Holleyman of San Bernardino, California, Clyde and Mrs. Holleyman of Marfa, Texas.

**RETURN FROM VACATION**  
Mr. and Mrs. L. A. Cochran returned last week-end from a months vacation trip to the Pacific Coast and northwestern states.

### THANKS A MILLION FOLKS:

I appreciate the wonderful support given me in the second democratic primary held last Saturday.

I am still at your service and any time that I may help you I will be glad to do so.

Again my deepest thanks,

**W. V. (Son) McKAY**

### WAA Releases All Extra Government Buildings For Grain Storage Space

All available surplus government buildings in West Texas will be released for emergency grain storage use in answer to requests to the War Assets Administration by a number of congressmen and farm organizations representing six midwestern and southwestern states, it was disclosed today by Colonel Karl E. Wallace, regional WAA director at Grand Prairie, Texas.

In a move to make immediately available urgently needed storage space for grain sorghum and other products threatened with spoilage because of lack of

warehousing facilities in the area, the War Assets Administration has designated the Grand Prairie office as focal point for throwing open surplus government facilities. The Denver and Kansas City WAA offices will relay storage requests from states in their regions.

The action followed wires sent to Jess Larson, War Assets Administrator, by Congressman George Mahon in behalf of his district and those of five other congressmen. Similar requests have been received by KAA in the last few days from Walter

Hammond, head of the Texas Farm Bureau Federation, and from other farm cooperatives, all indicating that the storage situation is critical.

"All suitable buildings not yet sold nor classed by the military as contaminated will be made available to ease this situation," Colonel Wallace said. He added that the program called for utilization of surplus facilities by organized agricultural cooperatives and bonded grain warehouses.

Structures to be used include the greater portion of the sprawl-

ing Pantex Ordnance Works near Amarillo. Negotiations with WAA for transferring this installation to Texas Tech college are now in progress, but Texas Tech will cooperate in allocating maximum space, it was indicated.

The WAA will also release available portions of the South Plains Airfield, Lubbock. As they are needed, facilities in Oklahoma, Kansas, Nebraska, New Mexico and Colorado will be designated for emergency storage purposes.

Mr. D. W. Williams, vice president for agriculture of Texas A. and M. college declared that the Bluebonnet Ordnance Works, which the college recently acquired from WAA, would be made available. Producers needing warehousing space, he said, should contact Mr. H. O. Hill, director of the Bluebonnet plant or Mr. J. D. Prewitt of the extension service at College Station, Texas.

### H. D. Agent Gives Tips On Canning Of Ripe Tomatoes

**By Mabel Ann Manley**  
Tomatoes are beginning to ripen all over the county. They are one of the richest sources of vitamin "C". If properly canned they retain much of this needed vitamin.

According to an experiment made by the U. S. D. A. Bureau of Human Nutrition and Home Economics tomatoes canned by the cold pack method not only retain more of the soluble vitamin "C" but tastes better.

These directions are given for canning tomatoes by the cold pack method in Extension publication C-224 "Can Fruits in Water Bath."

Select firm well ripened tomatoes. Put in wire basket or thin cheese cloth bag. Dip in boiling water 1 minute or until skin cracks. Plunge into cold water immediately. Remove core and skins and pack into container whole. If fruit is ripe, press together so that juice will cover solid pieces. If more juice should be added, use hot tomato juice made from the over-ripe or broken tomatoes. Add 1 teaspoon salt to each quart.

Place the container with lid placed loosely on in the water bath. The water in the cooker should come about two-thirds up the side of the jars or cans of tomatoes. Place the lid on the canner and start counting the time when the water starts boiling count ten minutes. Remove the tomatoes from the cooker and tighten the lids. Return them to the water bath. This time the water should be about 1 1/2 to 2 inches over the sealed container. When the water boils start counting the time again. This time let it boil for 25 minutes. The results will be canned tomatoes that taste good, look good and are rich in vitamin "C".

It pleased God by the foolishness of preaching to save them that believe.—1 Cor. 1:21.

### I Speak for God

My message is not my own but God's. I preach the Bible, God's Book. I beg men to accept His authority, seek His will, and go His way.

My preaching assumes that man is a moral being; he can choose right—he is responsible for doing evil. He can be persuaded to act. HE CAN CHOOSE GOD.

I do not induce awe by the pageantry of a ritualistic service, nor do I threaten with the power of an ecclesiastical system. I appeal for a decision of the will based on an enlightened mind.

I convince men of

- The folly of sin
- The wisdom of godliness
- The love of God

I implore men everywhere to

- Turn from sin
- Turn to God
- Accept His pardon offered through Christ

Necessity is laid upon me; yea, woe is unto me if I preach not the gospel.—1 Cor. 9:16

**LEGAL NOTICE**  
 THE STATE OF TEXAS,  
 COUNTY OF COCHRAN,  
 CITY OF MORTON.

**NOTICE OF BOND ELECTION**  
 The Resident Qualified Prop-  
 erty Taxpaying Voters of Mor-  
 ton, Texas, Who Own Taxable  
 Property Within Said City And  
 Who Have Duly Rendered the  
 Same For Taxation:

Take Notice That An Election  
 Will Be Held Within, For And  
 Throughout The Boundaries Of  
 The City Of Morton, Texas, On  
 The 18th Day Of September, A. D.  
 1948, the same being the third  
 Saturday in September, 1948,  
 at the place and at the place  
 particularly set forth in the  
 election ordinance adopted by the  
 City Commission of Morton, Tex-  
 as, on the 30th day of August,  
 1948, which election ordinance is  
 as follows:

"AN ORDINANCE by the City  
 Commission of the City of Mor-  
 ton, Texas, determining the ne-  
 cessity for the extension, enlarge-  
 ment and improvement of the  
 Water System of said City; as-  
 certaining the advisability of  
 submitting to the resident prop-  
 erty taxpaying voters of said  
 City, who own taxable property  
 within said City and who have  
 duly rendered the same for tax-  
 ation, a proposition relating to  
 the issuance of the negotiable  
 interest bearing coupon bonds of  
 said City in the amount of \$100,-  
 000.00 to finance such improve-  
 ments, extensions, improvements  
 and enlargements; prescribing  
 the place and time for holding  
 such election, the qualifications  
 of the voters, the maximum inter-  
 est rate and maturity of said bonds,  
 and submitting the proposition  
 of the levy, assessment and col-  
 lection of a direct continuing an-  
 nual ad valorem tax against all  
 real and personal property with-  
 in said City, sufficient in amount,  
 to pay the interest on and pro-  
 vide a sinking fund for the re-  
 demption of said bonds as the  
 same matures and accrues; pre-  
 scribing the manner of holding  
 said election; enacting provisions  
 incident and relating to the sub-  
 ject and purpose of this ordi-  
 nance and declaring an emer-  
 gency."

Whereas, the City Commission  
 of the City of Morton, Texas, af-  
 firmatively finds that it is ad-  
 visable and to the best interest  
 of said City that certain exten-  
 sions, enlargements and improve-  
 ments to the Water System of  
 the City of Morton, Texas, be  
 made immediately in order to  
 preserve and protect the health  
 and safety of the Citizens of said  
 City; and

Whereas, it is deemed advis-

able and necessary that the ne-  
 gotiable interest bearing coupon  
 bonds of said City should be is-  
 sued for the purpose of financing  
 the cost of such extensions and  
 improvements; and that it is  
 necessary and expedient that an  
 election be held within and for  
 said City of Morton, Texas, for  
 the purpose of submitting to the  
 legally qualified resident prop-  
 erty taxpaying voters of said City,  
 who own property therein and  
 who have duly rendered the same  
 for taxation, a proposition to de-  
 termine whether or not such  
 bonds shall be authorized for  
 said purpose and whether or not  
 ad valorem taxes shall be levied  
 annually against all property  
 within said City for the purpose  
 of paying the interest on said  
 bonds as it accrues and redeem-  
 ing such bonds as they mature:

Now, Therefore, Be It Ordained  
 By The City Commission Of The  
 City Of Morton, Texas:

**Section 1:** That an election be  
 held within and throughout the  
 boundaries of the City of Morton,  
 Texas, on the 18th day of Sep-  
 tember, A. D. 1948, the same be-  
 ing the third Saturday in Sep-  
 tember, 1948, such date being not  
 less than fifteen days nor more  
 than thirty days from the date of  
 this ordinance, at which time  
 there shall be submitted to the  
 resident qualified property tax-  
 paying voters of the City of Mor-  
 ton, who own property therein  
 and who have duly rendered the  
 same for taxation, the following  
 proposition:

**PROPOSITION**  
 Shall the City Commission of  
 the City of Morton, Texas, be  
 authorized to issue the negotiable  
 interest bearing bonds of Morton,  
 Texas, in the amount of One  
 Hundred Thousand and No. 100  
 Dollars (\$100,000.00), bearing in-  
 terest at a rate of not exceeding  
 four per centum (4%) per annum  
 from date and maturing at such  
 times as may be deemed most  
 expedient by the City Commis-  
 sion, serially not later than thirty  
 years after date, for the purpose  
 of enlarging, improving, extend-  
 ing and adding to the water sup-  
 ply system of the City of Morton,  
 Texas; and shall there be an-  
 nually assessed, levied and col-  
 lected upon all taxable property  
 within the City of Morton, Texas,  
 while said bonds or any of them  
 are outstanding, a tax sufficient  
 in amount to pay the annual in-  
 terest on such bonds and to pro-  
 vide a sinking fund for the re-  
 demption at maturity?

**Section 2:** Said Election shall  
 be held under the provisions of  
 and in strict conformity with the  
 Constitution and Laws of the  
 State of Texas, including Chapter

I, Title 22, Revised Civil Statutes  
 of the State of Texas, and all acts  
 amendatory, complementary and  
 supplemental thereto.

All persons who are legally  
 qualified resident property tax-  
 paying voters of the City of Mor-  
 ton, Texas, who own property in  
 said City subject to taxation and  
 who have duly rendered the same  
 for taxation, shall be entitled to  
 vote at said election.

**Section 3:** The ballots for said  
 election shall have written or  
 printed thereupon the following:

**OFFICIAL BALLOT**  
**PROPOSITION**  
**For The Issuance Of The Water**  
**System Extension Bonds And The**  
**Levying Of The Tax In Payment**  
**Thereof.**

**Against The Issuance Of The**  
**Water System Extension Bonds**  
**And The Levying Of The Tax In**  
**Payment Thereof.**

As to the above proposition,  
 each voter shall mark out with  
 black ink or pencil one of the  
 expressions, thus leaving the  
 other as indicating his vote on  
 the proposition.

**Section 4:** That said election  
 shall be held at the City Hall in  
 Morton, Cochran County, Texas,  
 which the City Commission finds  
 is the usual and customary place  
 for holding all elections in said  
 City and that said City has only  
 one election precinct therein re-  
 garding all City Elections; and  
 the judges of said election shall  
 be as follows:

Willie McCulloch, Presiding  
 Judge; W. E. Evans, Associate  
 Judge; Mrs. H. B. Spotts, Clerk.

**Section 5:** That notice of said  
 election shall be given by posting  
 a substantial copy of this ordi-  
 nance at the City Hall Building  
 and at two other public places in  
 the City of Morton, Texas and  
 such notice shall also be publish-  
 ed on the same day in each of  
 two successive weeks in a news-  
 paper of general circulation pub-  
 lished within the City of Morton,  
 Texas, the date of the first publi-  
 cation to be not less than four-  
 teen (14) days prior to the date  
 fixed for said election.

The Mayor and City Secretary  
 shall cause such notices to be  
 prepared and posted and pub-  
 lished as above provided; and  
 they shall make due returns  
 thereof to this City Commission.

**Section 6:** Immediately after  
 said election has been held, the  
 officers holding the same shall  
 make returns of the result there-  
 of to the City Secretary of the  
 City of Morton, Texas, for can-  
 vassing by the City Commission  
 and shall return the ballot boxes  
 to the City Secretary for safe-  
 keeping.

The manner of holding such  
 election and canvassing and  
 making the returns thereof shall  
 be governed by the general elec-  
 tion laws of the State of Texas,  
 when not in conflict with the  
 provisions of the hereinabove men-  
 tioned statutes, and the City  
 Commission will furnish the  
 necessary ballots and other elec-  
 tion supplies requisite for said  
 election.

**Section 7:** The fact that it is  
 affirmatively found by the City  
 Commission of the City of Mor-  
 ton, Texas, that there is urgent  
 need to proceed with the matter  
 of the enlargement, extension  
 and improvement of the Water  
 Supply System of the City of  
 Morton, Texas, in order to make  
 the same more convenient for the  
 public at large and for the pur-  
 pose of promoting, protecting and  
 preserving the health and safety  
 of the citizenship of said city,  
 creates an emergency and public  
 necessity, demanding that the  
 rule requiring the reading of this  
 ordinance on more than one day  
 before final passage, be suspend-  
 ed; and such rule is hereby sus-  
 pended and it is ordained that  
 this ordinance shall take effect  
 and be in force immediately up-  
 on its passage and adoption

PASSED, this the 30th day of  
 August, 1948  
 APPROVED, this the 30th day of  
 August, 1948.

Attest:  
 T. L. McAllister,  
 Mayor, City of  
 Morton, Texas.

W. K. Whitman, City Secretary,  
 City of Morton, Texas.  
 (Corporate Seal of City)  
 Certificate of City Secretary

THE STATE OF TEXAS,  
 COUNTY OF COCHRAN,  
 CITY OF MORTON.

I, the undersigned City Secre-  
 tary of the City of Morton, Texas,  
 DO HEREBY CERTIFY that the  
 foregoing is a true and correct  
 copy of an ordinance calling an  
 election to be held on September  
 18th, 1948 to determine whether  
 or not the bonds of said City  
 shall be issued to the amount of  
 \$100,000.00 for the purpose of en-  
 larging, extending and improv-  
 ing the water system of the City  
 of Morton, Texas (and of the  
 minutes pertaining to its adop-  
 tion) and that it has been prop-  
 erly enrolled, placed in the office  
 of the City Secretary and approv-  
 ed by the Mayor, having been  
 recorded in volume 2 at page 91  
 et seq. of the minutes of said  
 Commission. I certify that such  
 ordinance has not been amended,  
 altered or rescinded in any man-  
 ner and is now in full force and  
 effect.

Given under my hand and seal  
 of said City, this the 30th day of  
 August, 1948.

W. K. Whitman,  
 City Secretary, City of  
 Morton, Texas. 28c  
 (Corporate Seal of City)

## THREE-MINUTE SERMON

By T. L. (Jack) Bullard, Pastor  
Missionary Baptist Church

### BOUGHT WITH A PRICE

At intervals down through the world a price has been set on men. Slavery is one of the most horrible things that we can think of today yet it is one of the most common things among us. The greatest price that was ever paid, was paid for mankind. I wonder if we as men today ever stop to think just what the price was and who paid it. Christ paid that price and it was suffering and death, on the cross. He sacrificed more than the whole world was worth, just for man that had become mired in sin. In Mk. 10:45 this thought is given: "The Son of man came not to be ministered unto, but to minister, and to give his life a ransom for many." Paul states that he gave his life for all, to be testified in due time.

Let us think for a moment of our being bought. No man would be willing to buy a car and let someone have it to go out and peddle booze, rob a bank, or to kill men on every hand. You would say, "That is my car and I will use it for my own service. I paid my money for it and I am the one that is going to use it." I wonder why we are that way? The other fellow is just a man like we are and maybe he is not able to pay the price like we did. Yes, but let him work and pay the price and get one for himself or do without. Brother, our souls and lives are not ours. They have been bought by someone else. Why not use the same considera-

tion about ourselves as we would our car. Paul said in I Cor. 7:23, "Ye are bought with a price, be not yet the servants of men." Since the Lord has bought us with a price and we are his very own why deprive him of our services.

One of the greatest mistakes that man makes today is refusing to do service for the Lord after he has paid the price for our souls. We will admit that the Lord has paid the price and then manifest by our actions to others that we want to serve Satan. It is a downright shame for men to have such an attitude, nevertheless our actions prove just that. We should not serve the Lord just because we are afraid not to, but we should serve him because deep in our heart we want to. The Lord paid for the service of men but the Devil is getting it. Brother, it is our choice to sow whatsoever seed we choose but it is going to be the Lord's choice to give the rewards. Some one is going to look back upon life some day with deep regret but it will too late then. Why not consider now while there is time and reconciliation can be made.

## Plan Your Home...

around these Electrical aids to Better Living

Whether you're planning to build or remodel, electric aids to better living are a "must" to today's modern home planners.

You'll want to plan your home around handy, work-saving electrical appliances—cool attic ventilation, an efficient, economical all-electric kitchen.

And all through the house make sure there is Adequate Wiring, and plenty of electric outlets for radios, lighting, fans, vacuum cleaners—all the appliances you will want to live better—electrically.

You'll find it the economical way of living, too—because electric service is cheaper today than ever before.

# Strikes Cause Huge Production Loss

We are giving you herewith a summary of the production losses of the International Harvester Company due to strikes, during our current fiscal year, which you are at liberty to pass along to interested people in the Government. We are also giving you information as to the nature of our various work stoppages and the issues involved.

I can perhaps best begin to give you an idea of the extent of these losses in relation to the unprecedented demand for our farm machines, by giving you some figures for the post-war period, covering the years 1946, 1947 and 1948 to date.

In those three years, our Company lost the production of 57,500 farm tractors due to strikes in our own plants and in the plants of suppliers furnishing us component parts.

In that same period, we lost the production of 9,150 combines and 16,234 corn pickers.

All of these machines are quite basic farm machines, vital to the farms in nearly every section of the country. The 57,500 farm tractors, which were lost, for example, were equal to half of our total farm tractor production in our 1947 fiscal year.

Taking our current 1948 Company fiscal year (November 1, 1947—October 31, 1948) we had, as of August 13, lost the following production of key farm machines as a direct result of strikes in our own plants and in the plants of our suppliers: Farm tractors, 6,788; combines, 4,950; corn pickers, 7,057; and automatic hay balers, 510.

In addition to the above losses, we sustained the loss of three full days of production and some additional losses in seven of our farm implement and twine plants, three of our farm tractor and one of our industrial power plants due to a general strike of the Farm Equipment Workers Union (CIO) against our Company in June of this year. It is impossible for us to estimate accurately the losses on our hundreds of individual machines due to that strike, but it was substantial. The losses were sustained on practically all of our farm machinery lines.

In addition, we had a two-week wildcat strike by this union at our Canton, Illinois, plant where we make plows, cultivators and other tillage equipment. Substantial losses were suffered in the production of these items for that two-week period, which it is not possible for us to estimate accurately.

The three-day general strike of the Farm Equipment Workers Union, mentioned above, resulted from disputes that occurred over renewal of individual plant contracts with that union, involving the date of application of an 11-cents-an-hour wage increase which we had offered to all unions, and certain contract amendments desired by the Company. The dispute was settled by the union accepting the date for the wage increase offered by the Company and by the Company withdrawing its request for contract amendments.

The contract negotiations with this union were made difficult this year by the fact that this union, at a national convention held in February, had decided not to certify under the anti-Communist section of the Taft-Hartley Law. That decision was reversed, however, during the period of negotiations with the union, and certain officers of the union relinquished their positions.

The Company has had a long experience of unsatisfactory relations with this union in the plants where it is the recognized bargaining agent. There have been a large number of work stoppages in violation of existing contracts, which account for a large share of production losses in our farm implements and tractors. Indeed, our production losses this year have been due in very large part to such work stoppages in violation of the contracts. If the union had lived up to its contracts, our production losses this year would have been relatively small.

For example, we had a three-week work stoppage at our Auburn, New York Works, where we lost production of the 510 hay balers mentioned earlier in this letter. Our heavy losses in combine and corn picker production this year are due to a current work stoppage in violation of the new 1948 contract at East Moline Works. The two-week strike at Canton was in violation of the then existing contract at that works. The contract violations consist in the main of certain departments of the plants or the whole plant stopping work

without following the grievance procedure of the contracts.

Every such loss of production of course, brings its respective hardship to farmers. We have had a striking example of that in the current losses in combines and corn pickers at East Moline Works. Many rice farmers in the rice-growing area of Louisiana and East Texas were counting on our delivery of new combines, which they had long had on order, to harvest their 1948 rice crop. We can do very little about supplying those combines, even if the East Moline strike should end now.

The cause of the East Moline stoppage was the demand by the union that the Company give up its contractual right to classify employees into job classifications for purposes of establishing rates of pay. The Company could not accede to such a demand without forfeiting its fundamental right to manage its plants.

Beginning yesterday, August 17, we have had a strike in six of our plants in which the United Automobile Workers (CIO) have bargaining rights for employees. These plants are Fort Wayne, Springfield, Ohio, and Indianapolis Works building motor trucks and motor truck engines; Melrose Park, Ill. Works, building diesel engines and power units, Evansville Works, building our refrigeration products, and Memphis Works, where our cotton picker and southern tillage tool lines are built. This strike potentially will affect our entire operations through the inter-dependence of our respective plants upon each other.

For example, our Farmall tractor plant at Rock Island, Ill., making two models of farm tractors, has only a 13-day supply of crankshafts which it receives from our Melrose Park Works. Unless a substitute source of supply can be obtained, our farm tractor production will be seriously curtailed at the end of that time.

We had many reasons to believe we could reach a settlement with the UAW for these six plants without any strike. Negotiations were under way for many weeks. Mutual agreements was reached on many provisions of new contracts. Finally, in order to avert a strike, the Company offered to sign complete new contracts at the six plants to be made up (a) of the new provisions mutually agreed on in negotiations between the two parties, and (b) the incorporation of provisions from existing contracts, where it had not been possible to reach agreement on changes. If that was not satisfactory to the union we offered to extend the present contracts for 30 days to allow time for further negotiations.

The union rejected these proposals and demanded that we sign an agreement which would have been quite incomplete. It would not have settled all the issues at any of the six plants, and in the case of Melrose Park, Evansville and Memphis Works, it would have left numerous important issues unsettled. The Company could not accept this proposal, and the strike resulted.

I should point out that in addition to the loss of the complete new machines set out in this letter, we have lost the production of a large volume of repair parts, so essential to our customers to keep existing machines operating.

These numerous strikes against the International Harvester Company would make more sense if our Company had a reputation for paying sub-normal wage rates. But the contrary is the fact. Prior to the recent 11-cents-an-hour general wage increase, our Company had an average wage rate of \$1.53 1/2 cents an hour for factory employes (exclusive of overtime) and since that time of \$1.64 1/2 per hour. Under our incentive system of pay a great many employes have earnings substantially in excess of this average.

It has long been our policy to pay the prevailing wage rates or better for similar work in every community where we have manufacturing plants. Our wage rates, for example, are higher than the average prevailing in the automobile industry (one of the best paid metal working industries) and higher than the average of the farm implement industry. In fact, Harvester employes are among the very best paid employes in all the metal working industries.

Sincerely,

JOHN L. McCAFFREY, President  
International Harvester Company.

### Roosevelt County Fair Slated For September 15-18

The Roosevelt County Fair, September 15 through 18, with agricultural and livestock exhibits, midway show, rodeo, and matched roping, is ready to go. Roosevelt County, situated in one of New Mexico's most productive areas, again invites exhibitors to participate.

Catalogs for the fair are off the press and may be secured at the Chamber of Commerce office in Portales. Included in the exhibits will be beef cattle, swine, dairy cattle, horses, poultry, agriculture, and horticulture. Future Farmers of America, 4-H Clubs, and Home Demonstration Clubs will also have displays.

On September 16 and 17, the Roosevelt County Mounted Patrol will sponsor a rodeo at the Fair Grounds and \$1250 is being offered in prizes. Events include calf roping, bronc riding, bareback riding, bull riding, and bulldogging with a \$250 prize in each event. Only amateur performers will participate.

On September 18 at the Fair Grounds, the Patrol will present a steer roping contest with a \$1200 purse. Eight ropers—two steers each—will compete.

To top off the fair will be the Midway Show with no general admission. Also, no admission is charged to enter the Fair Grounds.

Judge Kilmer Corbin, of Lamesa, Texas, elected State Senator in second primary election held Saturday, Aug. 28th.

**Mrs. E. A. Miller Hosts Wesleyan Guild August 30**

Mrs. E. A. Miller was hostess to the Wesleyan Guild at her home on Monday evening, Aug. 30th.

Mrs. John Alford gave the devotional, preceding a program on Puerto Rico which was presented by Mrs. Carl Alexander, who spoke briefly on the people, their language, geography of the country, politics and the work of the Methodist Church in that country; Mrs. Elra Oden followed with a resume of the accomplishments of Christian Service by the Methodist Church.

Concluding a business session a refreshment plate was served to the following: Mesdames I. D. Hawthorne, Carlos Alexander, Carl Alexander, Elra Oden, Frank Barker, John Alford, M. C. Ledbetter, Raymond Ross, Billy Ray Proctor, Courtney Sanders, John Tice, David Todd, and Joseph Michel.

**James Franklin Henderson, 31, Died At Watson Residence Sunday Morning**

James Franklin Henderson, 31 year-old 15 year resident of Watson, Texas died Sunday morning after a lingering illness of three years.

Henderson, while working in a war plant in California from 1941 to 1945, was one of 17 men who suffered a poisoning malady from paint. Several of these men died from the effects of the poison and James grew steadily worse until Sunday morning at 4:30 a. m. when he passed away.

Born September 1, 1917 at Ralls, Texas, Henderson came to Bailey County soon after where he spent most of his life. He was married to Naomi Fine in 1938.

Survivors in addition to his wife are his mother, Mrs. Lily Schrimsher of Odessa, Texas; three sisters, Mrs. Bob Harvey, Hugaton, Kansas; Mrs. Leroy Sherman, Bainbridge, Maryland; and Mrs. Jess Modlin, Odessa, Texas; and a grandmother, Mrs. Fanny Cox, Carter, Oklahoma.

**MULESHOE BUSINESS VISITORS**

Bill Garrett and mother, Mrs. E. D. Garrett were visitors in Muleshoe Saturday. While there Bill received dental work.

**CARD OF THANKS**

We wish to thank our many friends and neighbors who helped us during the illness and death of aunt Allies Smith. We especially appreciate the beautiful flowers. May God Bless Each of You.
