Cochran County Agents Attend 2-Day Meeting

County Agent Homer E. Thompson and Mable Ann Manley, County Home Demonstration Agent were among the 175 persons attending the 2-day Conference of Extension Workers, held in Big Spring Friday and Saturday of last week.

The conference was composed chiefly of county extension workers in a three-district area. Principal speakers were from the Extension Service division of Texas A. and M. College.

One of the outstanding speakers, an official of the college, compared extension work with the educational system of the college. He pointed out that different departments were under men qualified for the job and charged with the responsibility of doing that job and tying in with his co-workers.

The research and experiment branches of the College have formulated plans whereby information they have gleaned can be passed swiftly on the county workers, thereby benefitting the farmers.

An interesting part of the program was a skit showing ten separate ways to bring information to the farmers, including, newspapers, radio, charts, slides and movies, and the best way of all, actual demonstration.

The conference is being held this week in Amarillo.

The Ford tractor agency, owned and operated by McMaster-Lackey, will be in the new location by October 1, Mr. McMaster said early this week.

The implement concern has purchased the John L. McGee building, located two blocks east of the square and just across the street south of the water tower.

The front section of the building is 28x100 feet and will be devoted to parts sections and office. The shop section, 56x30 will contain a completely equipped repair section, not only for

Appeal Made To Voters By County Judge To Pass HJR 24 November 2

An appeal to voters to pass HJR 24, a constitutional amendment which will repeal the 30 cent ad valorem tax for state purposes, to be voted on Nov. 2, is being made by County Judge G. W. Thompson. This will require a vote for the amendment No. 7 as it appears on the ballot, Judge Thompson said.

"This is the first opportunity the county government has ever had to increase its own revenues without adding to the over-all tax burden of the people," the judge said.

"This is possible because it amounts to a diversion from the state. It will not increase individual tax bills because when relieved for county purposes, the homestead exemption still will be allowed.

"Therefore Cochran county will be allowed to keep this revenue at home for use in soil and water conservation and farm-to-market roads and municipal water supply development, just as many other counties are now being allowed to do through a remission of their state taxes. This diversion will not injure the state, which now has a surplus estimated at \$100 million because this surplus represents an amount equal to almost ten years collections of the present ad valorem tax, and there should be no necessity of creating a sales or any other type of tax for state revenue.

"This is of particular interest to West Texas counties, because they have such tremendous need for more local revenue and only two counties in West Texas are receiving tax remissions now while 40 or more in other sections of the state receive all or

part of their taxes back."

The proposed Williams-Holt bill sponsored by the West Texas C. of C. an enabling act which will be necessary after adoption of the amendment, will assure a business-like, efficient administration of the funds for road, soil conservation and municipal water supply purposes. Such revenues available, without the addition of taxes in West Texas, can build far more roads, accomplish far more conservation practices and offer greater financial relief to municipalities than any other previously submitted by the legislature.

The state today has seven times more money per capita to spend as it had 25 years ago, while the average West Texas county has only one-half as much to spend per capita. Surely this diversion of public funds, therefore, is justified, the judge pointed out. People interested in good local government should work for and support this proposed amendment, which is No. 7, on the ballot.

The amendment has been endorsed by the West Texas County Judges Assn., the County Judges Assn., of Texas and the West Texas Chamber of Commerce.

Indians Dropped 13-19 Decision To Sudan Hornets

The Morton Indians dropped a 13-19 decision to the Sudan Hornets in Sudan's Masten Stadium Friday night before a record crowd of Indian boosters.

Morton kicked off to open the thriller and took the ball on their own twenty on downs. On the second play Glen Yearly found an alley over his right tackle and galloped 80 yards for the first score of the game. McDaniel's kick was perfect.

The powerful Hornet squad started a sustained march that netted a score a few minutes later, but failed to make the extra point. After a series of fumbles on the part of both teams the Hornets scored with completed passes and runs. They converted the extra point and took a 13-7 lead.

Early in the second half Morton came back to tie the score when Yearly went over from the one foot line, following another long run. The game rocked along at 13-13 until the closing minutes of the game when the Hornets again got loose and made the winning tally.

The Indians have three more games of conference play this season, all home games.

Tahoka will be here next Friday night, followed by Sundown and Mulshoe the succeeding Friday nights.

Sample Ballot Of Nov. 2nd. Election Published In This Issue Of Tribune

The Official Ballot for the November 2 election is carried in this issue of the Tribune to acquaint the voters of the area with the huge instrument.

Space limitation necessitated the omission of the right hand column, write-in, carried on the official ballot.

Seven political parties, plus a write-in column, are represented on the ballot. Texas election laws permit a mixed vote on a General election. Any name, in any column, that is left unmarked will be counted as a vote for that individual, thus the so-called "loyalty pledge", whereby a given party is supported straight down the line, does not apply. Only in a General election is mixed voting permitted.

In addition to casting ballots for their chosen candidate, voters are to pass on eight amendments to the Texas Constitution. These amendments should receive careful consideration.

Study the sample ballot carefully before going to polls.

Morton Indians Meet Tahoka Bulldogs Friday

The Morton Indians for the first time in four weeks will go into a game ruling as slight favorites when they play host to the unpredictable Tahoka Bulldogs here Friday night.

Tahoka was the biggest disappointment of the district this season. They were picked by pre-season dopesters to repeat as district winners in the south half of district 4A, with only Post expected to be in the race by the time the season moved into the home stretch.

The two teams have not met a common foe, but Morton's versatile passing and crushing ground game should install them as favorites.

The Bulldogs just didn't have it, though, and last week were virtually knocked out of a shot at the title by the big Post Antelope team.

Meanwhile, Morton has been the surprise of the district, showing great power in upsetting a strong Slaton team, 12-6.

Morton will have the advantage of the home field and will be out to avenge the humiliating 58-0 defeat handed them by the Bulldogs last year.

Two Local Men Return From Pheasant Hunt

Two local hunters returned Sunday night from a week's pheasant hunting trip to South Dakota.

Tye Williamson and Tom Arn, Jr., members of the Morton Gun Club, and ardent shooting fans, reported a successful week of hunting near Winter, South Dakota.

The game laws of that state permit the taking of five birds daily, and near bag limit was taken all five days of shooting, Williamson said.

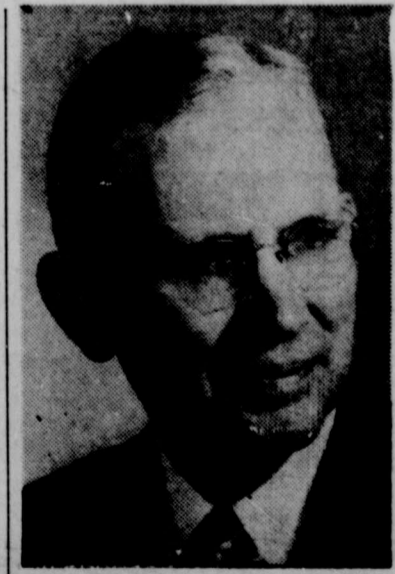

Pheasant hunting is becoming a major sport with sportsmen and South Dakota plays host to hunters from all states during the bird season.

M. D. Temple, Republican Candidate For Congress From Nineteenth District

Lubbock business man, Republican leader in West Texas for past ten years, Republican chairman of 30th Senatorial District Member of Republican State Executive Committee, Candidate for Congress from the District in 1946.

Offering candidacy for Congress again this year in campaign to make Texas a two party State, Texas has the opportunity this year to break away from the traditional southern "brass collar" and vote a national ticket that represents the only National Party before the electorate today. The Republican Party has always sought to unite strengthen, never to weaken or divide the people of America. The Republican Party has not promised magic solutions for the grave problems which challenge us today, but has promised integrity, vision and good will among men in the approach to these problems.

We offer the voters of Texas today an outstanding National ticket. We appeal to them to forget party prejudices and support the development of a two party system for Texas. The vote scandals in some south Texas counties are the result of a one party rule. The once great Democrat Party has fallen apart at the seams, it is today pitifully divided and disrupted.

Mohler D. Temple

West Texas can profit by voting the Republican National ticket and supporting the administration of our two great leaders, Dewey and Warren.

For the first time in history Texas will have a Republican in the United States Senate. Jack Porter, the Republican candidate, is going to be elected on November 2 with the support of all loyal Texans who stand for honest government thru honest elections.

Theatre Contractor Plans To Start Work Within A Week

The new theatre will be located southeast of the square, next to Morton Drug. Plans call for a seating capacity of almost 1,000 and will be one of the most modern theatres in the entire Wallace circuit.

Political Tradition Will Be Broken In General Election Says Lloyd Wheelock

"Political tradition will be broken in Texas in the General Election next Tuesday when Jack Porter, former Democrat, now a candidate on the Republican ticket, is elected to the U. S. Senate," Lloyd Wheelock, state campaign manager, declared today.

"Democrats, Dixiecrats and other Texans who believe in clean government and honest elections, form the backbone of Jack Porter's strength," said Wheelock.

"Porter's strength is not confined to any one section of Texas or any group of citizens," said Wheelock. "It is statewide and comes from people in all walks of life. Texans are convinced that Porter is qualified to fill the high office of U. S. Senator and they have serious doubts about the legality of the Democratic nomination. They also know that Porter will be seated when elected."

Wheelock said that the belief of most Texans that fraud had been committed in several South Texas counties was one of the main factors in the swing to Jack Porter. He cited the overwhelming vote cast in Duval County in favor of Lyndon Johnson as one of the big reasons Texans will break party lines and split the ticket.

"The Democrats know that in Duval County, Lyndon Johnson received 4611 votes and his opponent, Coke Stevenson, 40 votes in the runoff primary," said Wheelock. "Thus Johnson received more than 99.1 percent of all the votes cast in that county. This is a greater percentage than the communist party receives in Russia."

Jack Porter

Jack Porter, who was born on a farm in Parker county, is a strong advocate of States' Rights, protecting the Tidelands for the school children of Texas, the Bill of Rights and constitutional government. In his campaign he has stated he will bitterly oppose the F.E.P.C. legislation of both Republicans and Democrats and that he will vote his own convictions and not those of any party.

"My first consideration will be whether it is good for my country and state," said Porter.

Porter, who was a private in World War I, came up the American way from a poor boy to a successful businessman. He has been married 31 years and has one son and two grandchildren. He is a member of the Methodist Church.

Wallace Blankenship Given Credit For Contribution To Plains Communities

In the October 2, 1948 issue of the Showman's Trade Magazine, "Box Office", Mr. Wallace Blankenship was given credit for his contribution to the communities of the South Plains. Mr. Blankenship, president and part owner, of the Wallace Theatre Circuit, was established as one of the pioneers of Spanish-speaking pictures in West Texas.

important asset in easing one of the more difficult labor problems of a large farming area. At the same time he has been and is doing his considerable bit toward the promotion of good will and understanding between the Mexican and people of the United States."

Mr. Blankenship for several years has sponsored Spanish-speaking pictures for the Spanish people who come to this area each autumn to help with the harvest of cotton and grain. In past years he has operated from one to three houses on his circuit for these people. This year some 20 Spanish features have been bought from Azteca and Clara Mohme in San Antonio to be shown in six different theatres in six different cities, on the Wallace Theatre Circuit.

It is estimated that 50,000 to 60,000 Spanish-speaking persons come to the South Plains each year to help with the harvest. Opportunities for entertainment were few. Naturally the laborers became dissatisfied. That's where Mr. Blankenship's program came into the picture.

"Where this entertainment has been provided, according to reports to such organizations as the Lubbock Chamber of Commerce, farm labor has been better satisfied and more productive. Fewer clashes have occurred among people who do not understand each other's language."

This year, Spanish-speaking pictures are being featured by the Wallace Theatres in Levelland, Morton, Ralls, Tahoka, Lorenzo and Petersburg. Mr. Blankenship hopes that this bigger program this year will continue to be the asset it has been in the past.

Cochran 7-Step Cotton Committee Adopted Resolutions At Meeting

At a recent meeting of the 7-Step Cotton Committee of Cochran County the following resolutions were unanimously adopted and copies forwarded to the head office of the Farm Bureau and to Congressman Mahon:

1. Whereas the Smith-Doxey Cotton classing grades provides for no differential grade values between the regular standard grades of cotton, we, the 7-Step Cotton Committee of Cochran County resolve that: The Commodity Credit Corporation be requested to establish a loan value on cotton within half grade value. Thus benefiting the farmer rather than the buyer. Example (SM LT. Spot receives the same loan rate as SM Spot grade). We further resolve that the above loan differential be adopted immediately, so that farmers may receive benefit for 1948 crop and that all government organizations effected by this change be notified.

2. We, the 7-Step Cotton Committee resolves that the U.S.D.A. Cotton Classing Branch office located in the Lubbock region be provided with ample cotton classifiers, clerks, recorders and laborers to give a one-day classing service to the farmers of this region on all cotton reaching the Lubbock Office.

3. We further resolves that the Lubbock Cotton Classing office be provided with humidifying machine for each office where cotton is classed, so all cotton will be classed under ideal conditions. Thus the staple length of cotton in this static, arid area will conform more nearly to the staple length of cotton in the Houston and Galveston area.

3. We, the 7-Step Cotton Committee resolve that the Commodity Credit Corporation approve storage facilities at the South Plains Army Air Field, Lubbock, Texas, for Cochran County farmers for both cotton and grain sorghum for loan purposes.

Signed: Charlie Cravy, 7-Step Cotton Committee, Cochran County, Morton, Texas; Roy Lewis, President Farm Bureau, Cochran County; E. V.

Thompson, Secretary Farm Bureau, Cochran County. Since this resolution was adopted storage facilities for grain sorghum at the Lubbock Army Air Field has been granted and local farmers are using these facilities.

By DOUGLAS MEADOR

Nature keeps her patterns intact across the broad expanse of creation. Men rise to greatness on the shoulders of others. Except for the little rocks in the composition of a mountain, large rocks on the peak would be denied their sublime vistas.

It was inevitable yet I protected a secret hope that fate would be kind enough to shield me from the club-footed truth. I wanted to go on and live out my days without knowing ghoulies had violated temples of America's most romantic era, the era of the pioneer cowboy. A plastic saddle in pastel shades is being offered for sale. It is like perfume poured into camp coffee; white kid gloves holding a branding iron. It is a pagan idol on a pulpit beneath a arbor.

What does death gain when love is gone; the winds press a lifeless tree to the earth.

Only the most cunning enemy ever resorts to the use of flattery.

Some of the modern cereals taste like a clever blending of mesquite beans and dry grass removed from the roots of trees in river drifts, with just a faint whiff of burnt bone.

Far below the mad rushing stream of youth, near the deep still pools of retrospection, the man and woman met, like two leaves on the waters brought together by whimsies of wind. Here in the golden twilight of life's autumn they have found serene understanding; compassion, fears and jealousies are behind them as a storm whose thunder has become silent and they walk in the sublime path of experience. The metal is tempered and true; their hearts are free of hidden thoughts and the fires of ambition are little mounds of cool, white ashes. Perhaps winter is not far away but their love is dry, strong fuel to warm many splendid years that might otherwise have been chilled with loneliness.

With the advent of frozen foods, the modern young bride is spared the necessity of learning to operate a can opener. Less experience is needed to tear away a paper carton.

John Bull is the English prototype of Uncle Sam.

Good News For Redistricting Of Texas' Districts

When Democrats and Republicans see eye-to-eye on anything during an election year, that's news!

In this case its good news for redistricting according to John Ben Shepperd, state chairman of the non-political Texas Committee For Redistricting. Shepperd has announced that gubernatorial candidates of both parties are urging passage of Constitutional Amendment Two on the general election ballot November 2nd to provide for automatic redistricting.

Governor Beauford H. Jester, Democratic choice for re-election, pointed out to the committee that he has long been a firm advocate for regular redistricting and has included it in his platform each time he ran for governor. "Amendment Two is a most desirable addition to our state constitution," Jester declared. "I recommend its ratification to the people of Texas without reservation."

Republican gubernatorial candidate Alvin H. Lane was equally strong in his support of Amendment Two. "I am heartily in favor of its passage," he stated. "Regular redistricting is most desirable and should win general support."

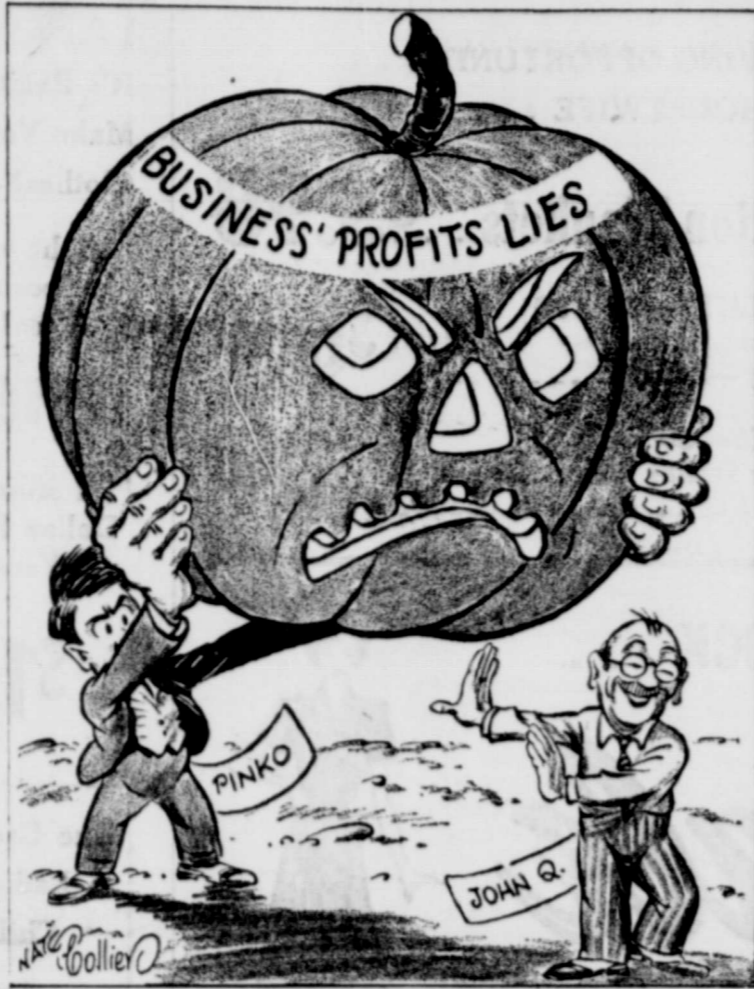

Passage of Amendment Two has been endorsed by six former chief executives of Texas Shepperd disclosed. They include ex-Governors Alfred, O'Daniel, Moody, Neff, Hobby and Ferguson. Both Lt. Governor Alan Shivers, Democratic candidate for re-election, and Taylor Cole, his Republican opponent, are supporting Amendment Two. Shepperd stated in pointing to the non-partisan nature of the measure.

Endorsements have also been received from three former Lt. Governors, seven former Speakers of the House, the League of Women Voters and all regional chambers of commerce throughout the state. A non-political organization, the Texas Committee For Redistricting, composed of more than 1000 prominent Texans is heading the campaign for passage of Amendment Two.

Dates of the last Crusade were from 1096 to 1099 A. D.

Texas Voters Have Privilege to Vote For One Of Seven Political Parties

Texas voters will have the privilege of voting for one of seven political parties, plus a write-in column on the General Election ballot.

Six parties have presidential candidates and running mates, including the Democratic, Republican, State's Rights, Prohibition, Progressive, and Socialist parties. The State's Rights and Socialist Parties drop out of all state races, leaving a choice of four. The so-called 'loyalty pledge', whereby a voter is committed to vote a straight party ticket, is not effective in a General Election. Any candidate on the ballot may be chosen or rejected, as the voter chooses, and the ballot will be disqualified because of mixed voting.

The major parties, Democrat and Republican, have candidates down through District positions and the Prohibition and Progressive Parties have candidates vying for some State offices. The two major parties have candidates for Congress and National and State Representatives.

None of the county candidates, all listed on the Democratic ticket, have opponents. In addition to electing candidates for office, voters are to vote on 8 amendments to the Texas Constitution. The affirmative of these amendments are: (1) provide Workmen's Compensation Insurance for county employees, (2) redistricting the state into senatorial and representative districts, (3) permitting husband and wife to divide community property without prejudice to rights of pre-existing creditors, (4) provide for succession to the office of governor, (5) provide a \$3,000 exemption for homesteads, (6) compensate county law enforcement officers on a salary basis, (7) eliminate ad valorem taxes for State general revenue purposes after January 1, 1951, and authorize the counties to levy this tax, provide for the \$3,000 homestead exemption and permit tax levies in counties having tax donations and (8) provide retirement compensation for Appellate Court Judges and Commissioners and District Judges on account of length of service, age or disability and for their reassignment to active duty where and when needed.

CARL ENGLAND attended to business in Lubbock last Thursday.

John Ben Shepperd, Gladewater attorney and former president of the U. S. Junior Chamber of Commerce, has accepted the chairmanship of the recently organized Texas Committee for Redistricting. The committee, which is non-political seeks to assure fair representation in the Texas Legislature for all counties by urging voters to support Amendment Two on the general election ballot November 2. Passage of Amendment Two will permit redistricting in Texas for the first time in 27 years, Shepperd pointed out.

Want To Join Our Club?

Newcomers to our town are puzzled when they hear talk of "The Barbecue Club." Want to know who can join, and what the purpose is.

Well, the answer is: any one can join who's neighborly inclined. The purpose is simply to enjoy good food, good beer and ale, good conversation—all towards getting to know one another better.

Every other Saturday, at one farm or another, the pit is dug, and the fire started. And by sundown, neighbors from miles around have come together—the women

contributing cakes, pies, and coffee, the men contributing the meat for barbecuing, and the beer or ale.

From where I sit, it's this simple wholesome side of country life in America—its spirit of good-fellowship—that makes for tolerance and better understanding between neighbors.

As I say, Neighbor, any one can join up! So come along a week from this Saturday.

Good Amendment To Vote For, Last On Nov. 2 Ballot

Texas will have eight chances to amend its Constitution on Election Day, November 2nd. One change that is sound and practical is in the short, one-sentence amendment, listed last on the ballot.

This authorizes the legislature to set up a retirement system for judges on our appellate and district courts because of age, illness or disability. Thirty-one states already provide for retirement of the judges. Texas does not, but it should.

It is important that judges in high position have a keen, quick mind, able to work long hours and solve knotty problems. The strain is great. When a man reaches the age where he feels he cannot cope with these problems speedily and adequately, he should be able to step down gracefully and live out his life in dignity.

A retirement plan would make that possible, where our present system does not. Few judges can save enough out of their salaries to retire when they should and want to. Instead, they have to keep running for office. Sometimes this means people who go into court don't get the speedy, decisive action they should.

The retirement amendment is a good one. It would be justice for the judges who serve so long and so faithfully, and more importantly, it would save the taxpayers money to have a more efficient court system.

A naturalist says that alligators are harmless so long as you can keep their mouths closed. For that matter so are gossips.

Pirate Treasure

Now! You've never seen her in the movies—she's Corky Crowley alias "Miss Texas." "International Beauty of 1948" and a number of other beauty titles. Corky's latest is "Queen of the Keys" for the "Palmolive Treasure Chest." When the chest is open, you may win \$100 a month for life (or \$25,000 in one lump sum) or one of over two thousand other prizes. Who wins Corky? ... Well, Hollywood should if they are on their toes.

Beauty Queen Contest Sponsored Candidates Selected By Clubs

"Beauty Queen of Morton High" is a contest being sponsored by the War Whoop staff. All school organizations and classes are invited to enter a candidate. Any organization wishing to enter a candidate are to submit the name with a \$2. entrance fee not later than Wednesday, October 27, 1948 at 4:00 p. m. to Mrs. Danforth in the office.

The staff is providing for

photographs of the candidates to be made at the local studio, at no extra charge to the candidate. These photographs will be mailed to some impartial judge who will select a Beauty Queen and two attendants from the group.

Although several names have been mentioned as potential judges, the staff is considering writing Jack Baily, Master of Ceremonies on the "Queen for a Day" program.

Tentative plans are for the crowning ceremony the later part of November. In addition to this a program will be presented.

All candidates will have their pictures taken in formal probably Thursday or Friday.

Absentee Balloting Deadline Friday In General Election

Absentee balloting in the November 2 General Election continues through Friday, according to County Clerk Joe Pierce.

Texas Election Laws require a four-day period between the last of absentee voting and election day.

Ballots for absentee voting may be secured from the Clerk's office until the deadline and since this is a presidential election year it is doubly important that every voter exercise his privilege and duty by casting a ballot.

Efficiency & Economy in an all Electric Kitchen

There's little "kitchen heat" from an electric range, even when you have all the cooking units and the oven in operation. When you cook electrically, you use only enough current to heat the cooking utensil, none is wasted to heat up your kitchen. With dependable electricity, and the scientific construction of heating units on your electric range, you can cook many dishes with the cooking unit "off," once it's heated.

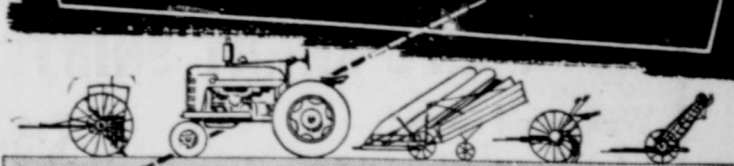

Those are just a few of the reasons why more and more folks are going "all-electric." Look over the new ranges, refrigerators, roasters, and other appliances and see if you, too, won't want to go "all-electric."

Cochran Bull Wins Top Honors At Dallas State Fair

Senior champion honors in the four-state Gurnsey show at the State Fair of Texas went to Primrose Nixie's Heartbreaker, owned by Johnnie Brooks of Morton.

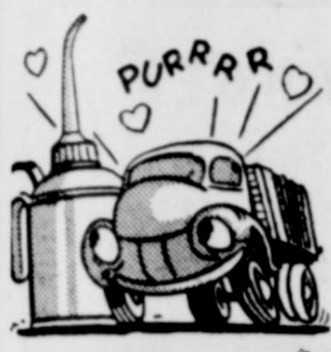

The blue ribbon Gurnsey bull had taken top honors the previous week in the Tri-State Fair at Amarillo.

The division in which Mr. Brooks' animal showed was an event restricted to Texas entries. Junior and championship bull was shown by J. T. Lively and Sr. prominent show animal breeders of Dallas.

Mr. Brooks' animal was shown with entries from various parts of Texas, competing with animals specifically raised and selected for show.

Did You Know--

Ten years ago, cotton was the stepchild of the fashion industry. The average American woman wore cottons only in the kitchen and while she was about her household duties.

Today, as a result of tremendous promotion pressure, cotton is the queen of the fashion world.

WHAT WITCH HUNT?

"No Communist, no matter how many votes he should secure in a national election, could, even if he would, become President of the present government. When a Communist hears the government of the United States—and that day will come just as surely as the sun rises—the government will not be a capitalist government but a Soviet government, and behind this government will stand the Red army to enforce the dictatorship of the proletariat."

Please read the above quotation again. Could an American have said that? Or does it sound

like a message from Moscow? Indeed, everything in that statement is un-American. It was written by William Z. Foster, head of the Communist Party in the United States. This statement is reprinted in large type on the back of a pamphlet prepared and distributed by a Committee of the U. S. House of Representatives. This is the Committee that is accused of "witch-hunting."

Sworn Statement

Nor is the Congress guilty of distributing the sayings of Communists as propaganda for the Soviets. The publication which carries Mr. Foster's sworn statement is very much anti-Communist. The booklet is called: "100 Things You Should Know About Communism in the U.S.A." It is one of a series of five publications "on the Communist conspiracy and its influence in this country as a whole, on religion, on education, on labor and on our government."

By giving Mr. Foster a prominent position on the back cover of this booklet, our Congress hoped to show Americans that native Communists really condemn themselves whenever they open their mouths. In the quotation, there is revealed Communism's greatest appeal: the lust for power, and the urge to dominate others that some people have. There is revealed also its greatest weakness, for people everywhere do not like to be dominated by force. People like to be free.

Light and Facts

The Congressional Committee to which I refer is the Committee on Un-American Activities. If you have ever listened to the palaver of Communists or the "fellow travelers" (Communist sympathizers), the chances are you have heard this Committee of Congress strongly criticized. Like the committee says, the right answers given in the booklet, by using the facts, must certainly infuriate the Communists. It is true also that many of these right answers will shock the average citizen who has not studied the "ism" closely.

It is not my purpose to apologize for the Committee on Un-American Activities. No apologies are needed. It has done a great service to the American people in a time when light and facts are needed to clear up so much confusion. If the Committee has made minor mistakes in the course of its work, it has at the same time done a glorious job in reselling our people on the American way of life. It has opened the dark secrets of Communist conspirators.

Hired Men

No wonder these men and their fellow travelers are infuriated. Perhaps they would not expect Congress to live up to its obligations as representatives of the people. Congress knows that there are persons who would take their own evil advantage of America's freedom. Through the method of the Congressional investigation, our representatives in Congress have helped to unmask these conspirators who are hired by a country that wants to control the world.

The Communist policy is to break down existing nations any way they can, and in the confusion to seize control. They will promise every kind of "better life", but they have never been known to deliver it. As an American, I am thankful for the work the Committee has done. I say with the Committee: "You know what the United States is like today. If you want it exactly the opposite, you should turn Communist. But before you do, remember you will lose your independence, your property, and your freedom of mind."

Forty-five Texas Counties Send Tots To Gonzales Warm Springs Foundation

Texas' own warm springs treatment center for crippled children is now doing its part in alleviating suffering and physical damage caused children stricken by polio in the current epidemic. Children from forty-five Texas counties are now being given treatment at the Gonzales Warm Springs Foundation hospital.

Requests for beds at the Foundation are steadily increasing as hundreds of those stricken with polio this year being their long convalescent and rehabilitation period. Complete care is offered at the Warm Springs treatment center under the direction of an active staff of 21 outstanding doctors. Skilled nurses, physical therapists and other technicians at the Foundation work under the guidance of Dr. Peter M.

Keating, resident medical director, who is well known in medical circles of the nation.

"Every Texan can be proud of the Gonzales Warm Springs Foundation and the work it is doing," Ross Boothe, president of the charitable organization said. "Our hospital is approved by the American College of Surgeons and our work has the backing of leading health agencies and organizations. The Foundation is now placing its full facilities at the disposal of every county in the state, for the use and benefit of physically handicapped children."

"The purpose of the Foundation is to provide the best facilities for the treatment and care of crippled children," Boothe continued. "The services of the Foundation are available to all agencies working for the betterment of crippled children, as well as to individuals."

Since opening in 1914 with two buildings and 26 beds, the Foundation has been expanded until now it has six major buildings and 110 beds.

1 1/2 Billion Dollar Road Block!

RAILROADS MUST OPERATE around the clock every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employees.

They want 48 hours pay for 40 hours work—in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25c an hour for every employe!

You'd Pay the Bill!

Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employes an annual raise which would average \$1500 per employe!

The total cost of this would be no less than 1 1/2 billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads,

they must have still further rate and fare increases.

Demands Unreasonable

These employes have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48c an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10c an hour.

Railroads Run for Everybody—Not Employes Alone

The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. Everybody who enters railroad employment knows this.

Strike Threat

On September 18, 1948, the leaders of these 16 unions began taking a strike vote. But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!

Parasites Cost Texas Stockmen Plenty of Money

Most of the stockmen know there hasn't been much grass in the pastures and on the range this year. There hasn't been enough to feed the cattle, so there sure isn't enough to feed the cattle parasites too. But lots of farmers and ranchmen are feeding them, and it's costing an awful lot of money to do so, says C. A. King, associate extension entomologist of Texas A. and M. College.

Cattle that are free of parasites have a better appearance, are healthier and more productive than cattle that have to keep switching flies off, or rubbing against the fencepost to scratch the ticks. Cattle lice and four kinds of ticks are the parasites that bother cattle most in the winter time.

Cattle are bothered by lice more in the winter and early spring when the hair is long, so the best time to treat cattle for lice is the fall of the year. Both rotenone and DDT are good for the control of lousy cattle. If you use rotenone, two treatments two weeks apart will give a good lice control. Here's the recipe: one pound of 5 percent rotenone and 10 pounds of wettable sulphur for each 100 gallons of water. Or you can use 50 percent DDT wettable powder to each 100 gallons of water.

Four ticks common to Texas cattle are the Lone Star tick, the spinose ear tick, the Gulf Coast ear tick and the winter tick. All are blood suckers and cause the cattle to lose weight if there are enough ticks.

Farmers and stockmen will notice better and bigger gains on their livestock if they keep the lice, ticks and mites away, especially during the winter months, says King.

BOYCE HOUSE

'Gives You Texas'

Joe Naylor of San Antonio has made an outstanding success as a publisher. Some of the books bearing the Naylor imprint have achieved great sales and have received praise from such far-away journals as the New York Herald-Tribune, to name one.

But not from the Dallas News. Lon Tinkle, the college professor who edits the News' book page, seems to have a policy of ignoring Naylor books or "damning with faint praise."

Which leads up to an incident this summer at the Writers Conference in Corpus Christi where Tinkle told of a visit to New York, where he was introduced to Harold Ross, editor of that clever and sophisticated magazine, The New Yorker. Ross acknowledged the introduction (said Tinkle) with:

"If you are from Texas, where is your manuscript?"

And then Ross said in substance, "Texas is writing and producing more good books than any other part of the country."

Tinkle having completed his story, then presented different notables to the Writer's Conference. When he presented Naylor, the publisher responded with a verbal punch that, in prize-ring parlance, he "brought up from the floor." In a tone that sizzled with sarcasm, Naylor said:

"It should not have been necessary for you, Mr. Tinkle, a book page editor, to have to go all the way to New York to find out that good books are being written and published in Texas."

The audience gasped, then laughed and applauded. Tinkle staggered back as though the words had been a blow.

That round, at any rate, was Naylor's.

The new superintendent entered a classroom on opening day. There was so much noise in the room that the superintendent seized the tallest youth and shoved him out into the hall. A girl spoke up, "Superintendent, now that you've put the teacher out of the room, can we go home?"

It is not bad luck to postpone a wedding, so long as you keep on postponing it.

Mrs. J. C. Reynolds, the former Blackie Hill, has been back in the bank for a few days. Looked mighty natural to see Blackie in there. However keeping up with her young daughter, Pamela Jo, and looking after her home keeps her busy these days—too busy for a full time job anyway.

Everything seems to be shaping up fine for the Hallowe'en party being given Saturday at Veterans Hall by the Legion and Auxiliary. The free floor show will be in the nature of a style parade with various merchants furnishing merchandise.

Williamson Insurance Agency
FIRST STATE BANK BUILDING
MORTON, TEXAS

and Roy have been in a whizz for several weeks now over construction of a new business building on South Main street. It is almost completed.

There was a beautiful winter bouquet arrangement on the spinet piano in the Taylor living room and Pyracantha on the mantle. We always enjoy going to the Taylors because the house is so pretty and the folks in it pleasant.

Last Wednesday we were distressed about our noon meal since Lions were entertaining on Thursday night but Carl Ray came to our rescue and took us to lunch at the school cafeteria.

Now we are wondering if we can't manage some way or another to eat out there two or three times a week, the food is good, the price exceedingly reasonable and the company grand.

Because everything had to be brought from scratch it has meant the outlay of a bunch of money from school funds but Carl Ray is of the opinion the lunch room will pay its own way.

Hope everyone had as good time at the Lions party as we did. We had guests and the spouse very gallantly permitted us to do the introductions—he humors our whims as an exhibitionist and actually doesn't seem to mind.

Gene Williamson played throughout the dinner hour—beautifully too. The V. V. Williamson's have five sons and we just wonder if they are all as charming and accommodating as Gene—they probably are—we know their mother and she is extremely nice.

We admired M. C. Ledbetter very much for the clever introduction of his wife's mother, Mrs. J. A. Gowdy, who was his guest. Mrs. L. stayed home with the four young Leds and also to get ready for a trip to Waco for Baylor homecoming.

A little confusion ensued as Paul Goodman introduced his charming wife and attractive Donna Todd as his guests. David Todd arose immediately and announced that Mrs. Todd was his guest.

We always get too excited to eat so Mrs. Askew fixed us up with a lunch to take home—we

did and thoroughly enjoyed it.

LeVerne Mullins escorted to the party by Van Greene looked mighty sweet in a grey suit, off the face hat and a gorgeous corsage—must have been white orchids—anyway very very pretty. Ruth Caldwell of Seagraves, was wearing carnations in her blonde hair. She was with handsome Max Hancock of Sundown, and they were both guests of Van's.

Mrs. Walter L. Taylor wore a shoulder arrangement of red rose buds as did Mrs. Glenn W. Thompson. The flower business was right brisk Thursday from the looks of the corsages at the party.

Mrs. Todd and Mrs. Goodman each had white mums, as did Mrs. L. W. Barrett. Mrs. Bill Harris wore an arrangement of small white chrysanthemums in her hair. Mrs. Louder, the entertainer, had a halo corsage of orchid asters but pinned them to her fur stole as she said she bounced so while playing the accordion she was afraid she would lose them.

Mrs. Earl Crum was mighty fetching in a black two piece faille—she has beautiful grey hair and brown eyes.

We wore a little black velvet number that we are very fond of and a lei of small yellow mums tied with gold ribbon—used the gold evening bag given us by the gals on our birthday—and wore gold sandals—so open we can't walk in sand. Van carried us to the car—the spouse was busy with Nene and her accordion—besides he doesn't care whether we get sand in our shoes or not.

Frothy Mrs. McDermott was there with her handsome husband. They were almost hidden from us so couldn't tell what she had on—something brown tho.

Practically the whole town of Morton attended the football game in Sudan Friday night. Every one went completely wild when Glen Yeary made that 71 yard dash right at the beginning of the game.

Heard a rumor that Mr. Masten said he didn't say he would build a stadium. We have no idea what Mr. M. has told other folks but we definitely remember his telling us about two years ago that he intended to build a stadium here.

Of course a person can always change his mind but we were under the impression only women folks took advantage of the privilege.

Life is a mirror: if you frown at it; it frowns back; if you smile, it returns the greeting—Thackeray.

The band accompanied the Indians to Sudan and performed on the field during the half time intermission.

HERE IT IS, MORTON!

The 1949 FRAZER

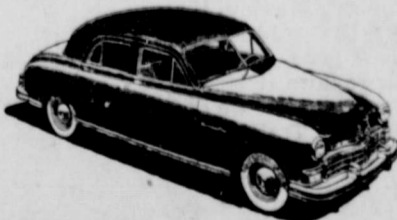

Trailblazer--of cars to come!

Once in a blue moon the stylists and engineers outdo themselves. They create a car that goes beyond today and sets the pattern for cars of the future.

This is what they have done with the FRAZER for 1949!

Low, sleek and differently handsome it is the trailblazer in style of cars to come. Its exclusive colors and fabrics have made the world's leading fashion designers fall in love with it. They call it "the dream car".

The same car, the FRAZER for 1949, has even won the hard-to-win hearts of the test drivers who must relentlessly punish a car mile after mile for weeks on end. They say the Frazer makes such driving no punishment for them. Its driving ease and riding comfort "make 600 miles a day a breeze," they say.
