Right and Wrong Way to Store Eggs in Refrigerator

If you can't drop an egg into the frying pan without breaking the yolk, perhaps you aren't storing the eggs correctly in the refrigerator.

There's a right and wrong way to store eggs in the refrigerator. And the right way, Myrtle Murray, extension home marketing specialist of Texas A. and M. College, says is standing on the small end with the large end up.

Here's why. The large end contains an air cell just inside the shell. If this end is down, the weight of the egg presses against this air cell, causing the air cell to rise and gradually loosen the membrane. At the same time, the yolk, because it's heavier than the "white" part, rises from its normal position in the center of the egg to the top, or small end.

When the yolk floats to the top, it becomes attached to the membrane and may stick there. This is why it's often so hard to break egg-shells and drop the yolks out without breaking them.

Yolks in eggs stored large end up will remain in the center, and not float to the top where they'll stick to the membrane.

Miss Murray says that 640 farm wives from 35 Texas counties report selling eggs on a grade basis.

The way eggs are candied before they are packed and marketed has quite a bit to do with maintaining their quality, too, she says.

Riding Circle Around Whitefaces

by Art. N. Wall

On Monday the 28th there will be a picture show at the Whiteface school auditorium. This show is sponsored by the senior class. The proceeds will go to that class.

Miss Margaret Spurlock entertained about thirty couples at a dance in the Stanolind Oil and Gas company's recreation hall on Friday the 18th. Mr. and Mrs. Guy Spurlock chaperoned the couples. The crowd consisted of the young folks of this community and they all enjoyed themselves. The fun ended at 12 midnight and all agreed this should be repeated more often. Such good clean fun as this entertainment chaperoned by a reliable elderly couple such as Mr. and Mrs. Spurlock, should be repeated. At least we would know where the kids are.

Master Delbert Thompson, age six, son of Mr. and Mrs. Cecil Thompson, is sick with pneumonia this week.

Mr. Ueal Lamb and Mr. Jack Tigue of Borger, Texas were visitors in Whiteface last Monday the 21st. Mr. Lamb and Mr. Tigue were here on business and visiting friends.

Mrs. Brooks, art teacher in the Whiteface school was operated on this past week in Lubbock. To all reports she is recovering nicely.

The Women's Missionary Society will meet Monday the 28th at Mrs. Hayes B. Robbins home. This is an organization of the Methodist church. A recreation program for all members is planned and one can be assured of a pleasant afternoon at the Robbins' home.

Mrs. Sid Mesecher was operated on this past week. Mrs. Mesecher is recovering at her home nine miles south and west of Whiteface.

Mr. Joe Murphy of the Hotel and Coffee Shop in Whiteface had his room robbed of money of a considerable amount on the night of the 24th. The robber or robbers on the morning of the 25th had as yet not been picked up.

Easter is nearly here and the churches of Whiteface are planning Easter programs. If you have not been attending church as often as you should now is

the time to start and take an active interest in these forthcoming Easter activities. All of the churches need your presence through the year and Easter would make a wonderful time to pledge yourself to attend and work with the church of your choice.

Our farmers on the average have about a week to ten days more of plowing. With lots of moisture in the past two months and more in all probability will fall in these near-Spring months this land should yield a good harvest. The farmers rate it. They have battled sand storms a long time now.

Master Tommie Wall, turning eight years old on the 28th will entertain at a birthday party the afternoon of the 26th. Kid, you are really growing up.

Roping strays—Saw a bright red fire truck in Whiteface today. It is something our town needs. I wonder if they bought it or are intending to buy one.

\$3,355,713 Saved By Army in '48 on Civilian's Ideas

Suggestions made by civilian employees of the Army have saved \$3,355,713 in the past year, according to information received by Major Harold Fulghum, Commanding Officer of the U.S. Army and U.S. Air Force Recruiting Station at 203 Postoffice Building, Lubbock, Texas.

"The savings were realized by putting into effect about 3,037 ideas submitted by employees in the Department of the Army to improve the efficiency of operation in the Army," said Major Fulghum. "The suggestions adopted were from among 16,055 ideas presented during 1948 under the employees' suggestion program which was established in June 1943."

The first local chapter of the American Red Cross was organized at Dansville, N. Y., in 1881.

Chevrolet Gives Added Feature In Car Brakes

A new method of bonding the brake lining to the brake shoe that has already proved itself in more than 3,000,000 brake assemblies has been announced by W. F. Armstrong, general manager of the Chevrolet Motor Division.

The statement included the disclosure that the development already has been installed on 1949 passenger cars. Chevrolet is the first major manufacturer to adopt for its full passenger line a type of brake construction that has been the object of laboratory research for several years.

"The improvement represents a definite and important contribution to automobile economy," said Armstrong. "To owners it means double life for brake linings and the elimination of rivet scoring of drums. In the case of conventional riveted linings, brakes are good only until the surfaces wear down to the heads of the countersunk rivets which attach linings to shoes. With the unitized lining, almost the entire lining thickness is usable."

According to Armstrong, the innovation marks a milestone in production techniques as well as an engineering accomplishment. Exact standards of cleanliness, temperature control and test procedures assure a bond between brake shoe and lining far stronger than any forces encountered in brake service. In addition, the process involves batteries of especially designed manufacturing equipment.

AN EDITORIAL

Another year has rolled around for the Morton Tribune. If the reader will look at our masthead he will see that this issue is Volume X, Number I. This symbolizes the Tribune's first issue of its tenth year in Morton.

At the same time the Tribune is celebrating its third anniversary under present management.

That we were accorded a place in the life and heart of the community since coming to Morton is attested by the events of the past three years.

The agricultural, livestock, and oil developments of West Texas and Cochran County in the meantime has contributed mightily to the growth of Morton and today it is a thriving center of better than 3000 people.

The development of Morton and its trade area is reflected in our own growth. In the past three years the circulation of the Tribune has more than doubled.

The past three years have been marked by several plant improvements for the Tribune. Additional machinery has been added to cope with the growing demand for a larger circulation and more commercial work, and present plans call for further plant improvements.

Since the Tribune has changed hands, the staff has felt a constant gratitude for the wholesome friendship and whole-hearted support of its advertisers and readers. We wish to take this opportunity to express our sincerest thanks.

Morton today, has a modern equipped hospital, opened to the public in 1947. Business firms total well over 100, the entire square has been paved within the past three years and street lights have been erected. Additional paving has extended into the residential area.

More improvements for Morton and Cochran county are on the agenda. Progressive merchants are constantly improving their buildings and stocks of merchandise for the convenience and benefit of their customers.

Outstanding among the characteristics of this area is the friendliness of our citizens. Each newcomer is welcomed and accepted with open arms; from there on it is up to the individual to prove or disprove his worthiness.

Morton is well blessed with several fine churches and all have pastors with outstanding ability. The schools both in town and in the rural areas are showing marked improvement as time goes on. Recent additions and modernization of the colored school reflects the farsightedness of the school board.

One of the finest banks in the area is located right here in Morton. Only this year the bank doubled its capital stock, increasing dividends to 110 per cent.

All in all Morton is one of the better small towns in the entire plains section.

Bill Would Clarify Salary Confusion

One big trouble with county government is lack of central responsibility. The forming and carrying out of broad policies are diffused. Each major department is its own independent duchy, responsible only to the vagaries of political fortune.

In Austin, a bill is proposed which would improve the situation. The Commissioners Court—logical head of county government but lacking power to exercise authority—would be able to set salaries for all county and precinct officials. Definite brackets are set. It is not a grant of dictatorial power, but a practical step toward more responsibility by those who should exercise it.

Inasmuch as the court directs most finances—and must take the criticism that goes with it—it should have more control over spending the money.

Revising salaries now requires a bill for each item in the Legislature—a waste of time and money. The revision logically rests with the court which knows the local situation and must control it.

The bill now contemplated would affect only Harris and Dallas Counties. But the principle of Commissioner control over finances for which it is responsible should be adopted for all counties. —Dallas News.

BAN ON SECRECY

The desirability and need are to be regretted for a bill like one prepared this week for submission to the Texas Legislature by Rep. Preston E. Smith, of Lubbock.

Mr. Smith's measure would require all State boards, agencies and bureaus which spend public money and/or form public policies to hold open meetings at all times.

It is unfortunate that conditions have existed, and continue to exist, which call for legislative correcting. It is regrettable that there should be reasons even to consider a measure which undoubtedly would place some agencies under handicaps at times. The authority to hold closed meetings protects the public interests if the power is not abused.

The trouble in Texas is that this authority has been abused—flagrantly abused in many instances. Many public groups—of which the Board of Regents of the University of Texas is an extreme example—have surrounded their proceedings with entirely too much secrecy. They spend public money and transact public business. Yet they repeatedly have taken the attitude that it is none of the public's business as to what they do.

Such official groups can blame only their own excesses and abuses for whatever need exists for a law like that proposed by Representative Smith. Those boards either must improve their own conduct voluntarily, or become reconciled to the certainty that sooner or later—possibly during the present session of the Legislature—they will be compelled to transact public business where the public can observe what takes place.

Surveys reveal that gum-chewing stenographers are faster typists than their non-gum-chewing sisters—which proves that women are happier when working their jaws.

According to a book publisher, only a person who has suffered can write a modern novel. If that's true, then we'd say that anyone who has read a modern novel can write one.

Compared with the British inch, the American inch is two millionths of an inch too long; which is the least we Americans have ever stretched anything.

Next time the wife uses our razor for sharpening a pencil we're going to remember that powder puffs make fine shoe shiners.

Tribune, Morton, Cochran County, Texas, Thursday, March 3, 1949

Letter to the Editor

Mrs. Ann England, Editor
Morton Tribune
Morton, Texas
Dear Mrs. England:

This will thank you for the February 24 issue of the Morton Tribune. I desire to sincerely compliment you and your husband on your entire publication. It is well written, well arranged, and altogether readable. It was liberal of you to give the 10th anniversary banquet of the Morton Lions Club such an extended article.

With best wishes, I remain,
COURTEOUSLY YOURS,
Doyle D. Jackson, Professor
Education and Psychology
Texas Technological College

Ed. note: Thank you Dr. Jackson, we couldn't resist your very timely and complimentary letter that came in just as we were going to press with our anniversary edition.

10-Year Master Expansion Plan Adopted for Tech

A 10 year master expansion and improvement plan for Texas Technological college to cost approximately \$4,000,000 has been adopted by the board of directors. Specific details for beginning several projects this spring are under consideration.

First attention will be given to the expansion of the buildings of the college divisions, board members decided in their regular February session.

Some \$1,960,000 has been designated from the college's unappropriated funds to begin the initial portion of the expansion and improvement program. A report by the board's building committee, headed by Chancellor E. Weymouth of Amarillo, on priority of construction and definite allocations of funds is expected at the April 11 board of directors meeting in Austin.

Included in the board's allocations was approximately \$500,000 for the addition of two three-story wings to the Administration building. Other definite decisions included \$100,000 for emergency improvements, such as construction of sidewalks, landscaping and paving dirt parking lots, and \$60,000 for improvements in the water system.

Board members officially adopted a policy of non-support toward establishment of a medical college branch.

MR. AND MRS. CHARLES BELL MOVE TO OKLAHOMA CITY

Mr. and Mrs. Charles Bell left last Friday for Oklahoma City where they will make their home.

Mr. and Mrs. Bell have lived in Morton about one year and have made many friends.

Mr. Bell has been associated with Hopp and Bell Oil Company, distributors of Cosden products.

Mrs. Bell has been employed by Morton Electrical Supply in the record department.

MRS. BELL RECEIVES WORD OF HER SISTERS DEATH

Mrs. Charles Bell received a message Saturday, Feb. 19, that a younger sister living in Canada had died while undergoing surgery. Mrs. Bell talked by long distance telephone to her mother and other relatives in Canada Saturday night and they advised against her trying to make the long trip to Canada for the funeral.

Local Farmers to Austin for Meet With Legislation

Several farmers have already indicated their willingness to go to Austin Monday, March 7. They will leave Sunday afternoon or Monday morning early enough to reach Austin by noon March 7. This concerns House Bill No. 49 on farm to market road legislation.

All farmers who can go contact Roy Lewis or the county agent's office. The farmers who have expressed opinions that they may go are: Roy Lewis, E. V. Thompson, Glen Thompson, C. G. Shaw, G. C. Keith, E. P. Farmer, Ralph Gardner and a few others.

Roy Lewis, president of the Cochran County Farm Bureau believes a minimum of three cars with four or five farmers to each should go from Cochran County.

Those who can go are requested to meet in Judge Thompson's office Saturday at 2:30 p. m. March 5, in order that arrangements for transportation can be made.

Irrigation School To be Held Fri. At Veterans Hall

Friday, March 4, from 10 a. m. to 3 p. m. an irrigation school will be conducted by Mr. Bob Thurmond, Extension Irrigation Specialist, at the Veteran's Hall, Morton. All farmers who are interested in irrigation are welcome to attend this school. It is a school for farmers who have irrigation wells or are contemplating putting down wells.

The school Friday will discuss topics on irrigation as:

1. Methods of water application; 2. Pump plants; 3. Gravel packing; 4. Planning irrigation system on the farm; 5. Time of water application; 6. Methods of reducing water losses.

Film slides will be used on irrigation practices. Homer E. Thompson, County Agent will assist Mr. Thurmond in this school. The time again is 10 a. m. to 3 p. m. Friday, March 4, at Veteran's Hall.

LUBBOCK BUSINESS VISITORS

Mr. and Mrs. N. H. Lovelace and daughter, Mrs. Bill Garrett, were Lubbock visitors, Wednesday.

"Daughter of Belle Starr" to Show at Wallace Theatre

One of the most outstanding casts of young players to be found in Hollywood has been gathered for the Alison Production of "Belle Starr's Daughter," the new Twentieth Century-Fox release opening Sunday at the Wallace Theatre. An action-packed drama about one of the most colorful and exciting periods of the Southwest, the film's screenplay was written by outstanding screen hits as "High Sierra," "Little Caesar" and "This Gun For Hire."

As in all Burnett pictures, a strong cast of expert action players was one of the prime essentials and George Montgomery, Rod Cameron and the sensational newcomer, Ruth Roman, were chosen to head a list of top players.

"Belle Starr's Daughter" recounts the action-packed adventures of the high-spirited daughter of the famed Bandit Queen who found herself marked as the prize in a fierce battle between a rugged U. S. Marshall and the Southwest's most dangerous bandit.

So many people need sympathy nowadays that you shouldn't waste any on yourself.

LEHMAN NEWS

Lehman Sunday school was fairly well attended Sunday. Members urge everyone not in Sunday school elsewhere to attend and help build the class. The class is very grateful to Misses Betty Monroe, Janelle Jones and Glenda Evans who come out from Morton each Sunday and work with the class.

Rev. and Mrs. T. L. Pond and children of Tarzan, Texas, spent Friday night and Saturday with his brother, J. W. Pond and family.

Mr. and Mrs. P. E. Liles spent Saturday evening visiting with the W. G. Freeland family.

Mrs. W. G. Freeland and son, Billy Bob, were in Amarillo, Monday, February 28, where Billy Bob is receiving medical care.

Mrs. F. L. Fred and son, Malcolm, accompanied their daughter and sister, Donna Madge, to her home in Borger last week.

Robbin Castle has returned home from the hospital and is reported in an improved condition.

The Lehman H. D. Club met Wednesday with Mrs. E. L. Fred. Mr. and Mrs. W. H. Benton of Smyer visited Tuesday, February 22, in the L. C. Keith home.

Reported on the sick list this past week were Nancy Sanders, Vickie Lynn Liles, Mrs. E. B. Moore and Mrs. L. C. Keith. A speedy recovery is wished for all.

PINK AND BLUE SHOWER HONORS MRS. MAWHINEY

Mrs. Paul Liles was hostess to a pink and blue shower honoring Mrs. Cliff Mawhiney on Friday afternoon, February 25.

In a series of games, prizes were awarded to Mrs. O. B. Huckabee, Mrs. Mawhiney and Mrs. Jim Clampitt.

The honoree was recipient of many lovely and useful gifts. A refreshment plate of jello, cake and hot chocolate was served to Mesdames F. L. Fred, Jim Clampitt, O. B. Huckabee, Cliff Mawhiney, L. C. Keith, J. W. Pond, Bill Reid, Bert Darland, Olen Darland, P. E. Liles and several children. Many gifts were sent to Mrs. Mawhiney by those unable to attend.

PONTIAC PRICES DECREASE

In accordance with General Motors price reduction statement, Pontiac Motor Division announces a \$15.00 reduction on the list prices of all Pontiac models effective immediately.

Lindsey Attends Two-Day Purina Feeding Program

Mr. R. K. Lindsey and nephew Winfred of the Lindsey Feed and Seed Store and Mr. Andrew Esary, instructor of vocational agriculture in Morton Schools, attended a two day Purina feeding program in Ft. Worth last week.

Four hundred and forty dealers and business managers from various sections of Texas attended this meeting. Besides intensive sessions on proper feeding of fowl and livestock the men were entertained with a variety of programs during a banquet and two luncheons.

New Vitamin B-12 Gives Promise of Better Production

The newly discovered vitamin B 12 gives promise of being of great practical importance in swine and poultry production, Carl M. Lyman and J. M. Prescott, of the Texas A. and M. College department of biochemistry and nutrition, report. A recent study, reported to the Journal of Biological Chemistry, is looking forward to the establishment of a reliable method for determining the vitamin B 12 needs for swine and poultry.

Hog feeding tests the Texas Agricultural Experiment Station workers have under progress are showing marked increases in growth rates as the result of adding a commercial preparation of B 12 to their regular rations.

No satisfactory way has yet been established for analyzing this vitamin in feedstuffs and animal tissues, though a number of scientists over the nation are working on the problem.

The full possibilities of B 12 cannot be developed until a practical system of analysis of the new vitamin is perfected. Texas A. and M. research workers report progress in the determination of this vitamin through a microbiological method.

Price-Cost Squeeze Is Reaching Out For The Farmers

The price-cost "squeeze" is reaching out for the farmers. And there isn't much they can do about the "fixed-cost" end of it. Farm operators can't plow off the cash out-lay for labor, fertilizer and materials. But they can adopt improved farm practices that will lower their cost of unit production.

That's what C. H. Bates, extension farm management specialist of Texas A. and M. College, says about the pinch of high production costs and sagging incomes farmers generally are feeling. A recent drop in meat animal prices has the producers wondering "What next?" about the net returns in livestock production. And nearly everywhere people are asking questions about how to meet this situation and still keep fairly good living standards.

To be a profitable farmer, you've got to study the farm business carefully, says Bates, and work toward more efficient production. Whether the farm need is for new machinery, a dairy barn, a tractor or a pasture fence, the "pay-off" should be increased goods per worker. In the long run these added investments not only pay for themselves, but lower costs and increase net profits. High yields from crops help lower costs, too.

It takes good management to keep the farm factories humming at top levels. Better livestock, fertile land, and the right kind of machinery are the standbys for making profits. These are obtained by planning and aiming for the best.

Most farmers can improve some phase of their operations. They need only to plan to better utilize the same resources—land, livestock and modern equipment, says Bates.

SUNDAY IN DENVER, COLO.
Dr. H. W. Sanders, Mr. and Mrs. R. D. Ormand and Mr. and Mrs. Carl England spent Sunday in Denver, Colorado.
They made the trip in Dr. Sander's twin motor Cessna, five passenger airplane.
While in Denver Dr. Sander's visited his brother and family. Mr. and Mrs. England visited his baby sister, Mrs. Lauren Conger of Durango, Colorado, who is a patient in a Denver hospital.

CLEAN-UP TRAIN IN BULGARIA

A special hospital train with bathing and disinfecting facilities is being operated by the Bulgarian Red Cross in the interior of the country. At one industrial city recently 3,969 persons had baths on the train and 77,206 mattresses, blankets, and pieces of clothing were disinfected during a ten-day period.

BRITISH RC HOMES FOR AGED

The British Red Cross now operates eight homes for old people and offers volunteer assistance in similar institutions run by other organizations.

RC FOUNDER HELD ARMY POST

Clara Barton, founder of the American Red Cross, was appointed superintendent of the Department of Nurses for the Army of the James during the Civil War.

Among early films was a first aid movie produced in 1912 by the Edison Company under Red Cross auspices.

The Greek Red Cross operates anti-tuberculosis centers for examination and inoculation of children, one in Athens and four in the provinces.

BRIEF VISITORS MONDAY

Mr. and Mrs. Lee Minyard visited briefly in Morton Monday night. Mr. and Mrs. Minyard moved recently from Morton to Hagerman, New Mexico where Minyard-Ormand have a new jewelry store.

DEAR FRIENDS:

We wish to take this means of expressing our deep and sincere thanks for your many kind deeds during the illness and death of our husband, son and loved one. Especially do we thank Hadley Kern and Gordon DeMint. They were so kind and helpful in caring for our financial needs.

Mrs. Sally Williams, Mr. and Mrs. Ranzie Williams and family and other relatives.

Chickenpox Sets High Record for 7 Year Median

AUSTIN—With the present incidence of chickenpox almost twice as high as records indicate for a seven year median, Dr. Geo. W. Cox, State Health Officer, issued a statement today declaring "It is a great mistake to treat even light cases of childhood diseases such as chickenpox, measles, mumps, scarlet fever or whooping cough as though they did not amount to much. That sort of treatment makes it possible for these diseases to spread and cause serious outbreaks among children and the resulting lowered resistance makes them easy victims to other forms of infection."

"Some of the most serious epidemics of chickenpox which we have had, have been traced to mild cases—that is, to cases so light that a doctor was not called. In some instances the children have continued to go to school and to associate and play with other children. In others, after they have been kept at home for a few days, they have returned to school and have scattered these germs among their schoolmates. Eventually a group of cases—sometimes very serious ones—have developed from the carelessly-handled mild case. The result was another epidemic that could have been prevented."

The State Health Officer said that the family doctor is the best judge of the seriousness of such childhood diseases, and suffering and anxiety will be avoided if the child showing symptoms of illness is put to bed and a doctor's advice sought and followed.

GIVE!

The American Red Cross last year spent \$12,171,000 for disaster relief and rehabilitation in 303 operations throughout the country. Your contribution is needed to help rebuild shattered lives and homes during the coming year. Give through the 1949 Red Cross Fund Campaign.

An obstinate man does not hold opinions; the opinions hold him.

Tribune, Morton, Cochran County, Texas, Thursday, March 3, 1949

McCasland and Mr. Stalcup. Mrs. McCasland is the former Louise Stalcup and Mrs. Stalcup is the former Lura Lee McCasland.

Fat Stock Show at Lubbock Slated For April 21, 22, 23

Entries are now being received for the Sixteenth Annual Junior Fat Stock Show, which is to be held in Lubbock during the period March 21, 22, 23, 1949. The show, which is held for 4-H Clubs and F.F.A. Chapter members of twenty-six South Plains Texas counties, and three Eastern New Mexico counties, is sponsored by the Lubbock Chamber of Commerce, Board of City Development and Panhandle South Plains Fair Association.

A total of \$973.00 is offered as premiums to young livestock exhibitors, and new classes have been provided for Angus steers and Southdown lambs this year. In addition, an auction is held at the conclusion of the show, where business firms of Lubbock and the surrounding towns buy the livestock at prices well above market. Mr. Morris Seigler, Auctioneer of the Lubbock Auction and Commission Company, is to serve as Auctioneer. An attractive entertainment program is being arranged for the boys during their stay in Lubbock. Tickets will be furnished to the exhibitors, which will permit them to attend one of the Lindsey Theatres, and a Barbecue is planned on the second night of their stay in Lubbock. At this barbecue, prize monies and recognition will be given to the winners of the various classes and divisions of the show.

All exhibitors must have their entries in to the Fat Stock Show office by not later than March 11th, or postmarked on that day, to be eligible to compete in the show. Entries must be prepared and submitted by County Agents or Vocational Agriculture teachers who supervise the work of the boys.

There are not nearly so many complaints about the weather as there would be if the government regulated it.

THE AISLE IS LOADED—WILLIS FOOD STORE.

BOYCE HOUSE 'Gives You Texas'

Man boasts himself the lord of creation and we take great pride in the achievements of our athletes.

Glenn Cunningham ran a mile in four minutes and four seconds—but an elephant can run a mile in three minutes! And the deer, greyhound, racehorse, whippet fox and Mongolian wolf are faster than the elephant.

A West Texas jackrabbit can run a mile in one minute and fifteen seconds, which is more than three times as fast as a man.

The gazelle and the pronghorn antelope (I think there are a few of these latter out in the Big Bend) can go a mile in one minute. But fastest of all runners is the cheetah (whatever that is), who can travel at the rate of 70 miles an hour.

Then take the running broad jump. Jesse Owens once leaped 26 feet, 8 1/4 inches—but a kangaroo can jump 39 feet.

And, relatively speaking, consider the flea. If man could jump as far as a flea, size considered, we could stand flat-footed and jump over the San Jacinto battlefield monument.

A few Irish sayings: Young man, you'll be troubled till you marry—and after that you'll never have rest.

Great cry but little wool, as the devil said when he plucked the pig.

It's a lonesome washing that there's not a man shirt's in.

Never put your hand out further than you can draw it back.

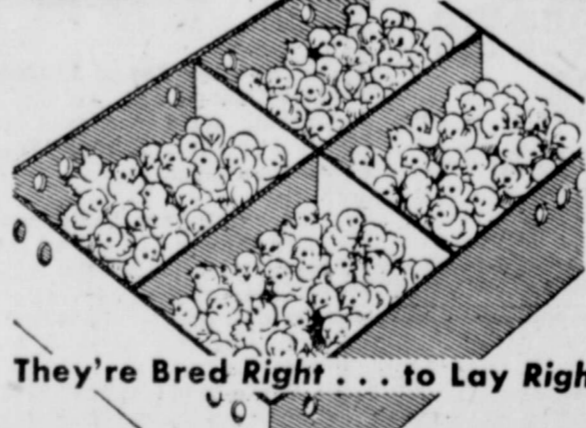

A good horseman is the man standing on the ground.

You hear of this and that new volume as the "Book of the Month." But what the world needs is to get back to the Book of Eternity, the Bible.

Snowflakes falling against a rapidly moving plane can cause sufficient static electricity to interfere with radio reception.

Certified Seed Growers to Meet Wed., March 9th

Farmers of western Texas interested in certified seed production are invited to attend the annual spring meeting of Certified Seed Growers March 9 when the agriculture division at Texas Technological college is host.

A program directed toward the future of certified seed and crop trends which will result from the proposed crop program now in the process of formulation at Washington, D. C., will be featured.

Speakers will make various talks concerning certified seed. Additional features of the program include a demonstration of application of seed disinfectants by the Slurry method, a short motion picture, and a roundtable discussion on seed certification by the guest speakers and Don Jones, superintendent of the Lubbock experiment station, and R. E. Karper, agronomist, also participating.

Anyone interested in beginning production of certified seed is urged to attend the meeting. The program will open at 9 a. m. and close at 4 p. m.

Now is the Time To do the Work On Your Garden

If you are planning a "good garden" for late spring and summer, now is the time to do the work, warns Dr. A. W. Young, head of Texas Technological college's plant industry department. The spading, plowing and fertilizing should be finished in the next few days, and English peas, radishes, lettuce and onions planted at once.

Rich barnyard fertilizer ought to be worked into the soil several times, using about 10 tons per acre, Dr. Young said. Fertilizer that is pretty well rotted and does give best results that is worked well in the upper 68 inches of soil. The amount of straw (which should be very slight) will make a lot of difference in garden results by determining the nitrogen content of the soil and the way the ground retains water.

By planning a garden now better selections of seeds and plants that will actually be put in the ground later may be accomplished.

Farmers Showing More Interest in Farm Machinery

In this period of mechanization, farmers are showing more and more interest in the selection and care of farm machinery. Texas A. and M. College agricultural engineers find special machinery for highly specialized farm and ranch jobs require large investments and depreciation of this machinery eats deeply into the operators profit margin if it is not properly cared for.

During the year, Texas county agents held numerous farm machinery field days. As a result, farmers were given an opportunity to become acquainted with new machinery and to actually see it perform, says W. L. Ulich, extension agricultural engineer, in his annual report.

Five area tractor maintenance clinics were held in the state last spring. County agents and local 4-H Club leaders from 73 counties were given training at these two-day clinics. Those trained in the area clinics returned home and they were responsible for holding 105 county tractor maintenance schools. The attendance of these schools was 4,183. Savings can be made in the amount of gasoline used and the life of the tractor increased, if the principles taught at these schools are followed. These two items can materially increase the farm income, especially in areas where the investments in power machinery is large.

Farmers continue to build equipment. In 1948, 24,388 blueprints were sent to 218 counties and 19,346 pieces of equipment were built from these plans. Welding schools were held in 26 counties and 1,426 farmers were taught the techniques of welding. Machinery repairs by welding was stressed in the schools, concludes Ulich.

New Scholarship Established at Tech This Year

A new scholarship, the David C. Storey Memorial, has been established at Texas Technological college this year, and will be in effect at the close of the current semester.

Founders of the scholarship, Mr. and Mrs. W. D. T. Storey of Littlefield, specify the award of \$50 each semester is to be given the male student who in his junior year letters in tennis, has a 2 point, or B scholastic average, and has proved himself a campus leader.

The fund has been set up in memory of their son, David, who was graduated with a BS degree in agriculture from Texas Tech in 1943. He was a varsity tennis player, winner of a Double T, and was an outstanding student leader during his college career.

Pfc. David Storey was killed Feb. 26, 1945, in combat in the European theatre.

Mrs. McCasland Honored at Bridal Shower Feb. 15

Mrs. Burl McCasland, nee Louise Stalcup, was honored Tuesday, February 15 with a bridal shower in the home of Mrs. Melvin Chandler.

Sharing hostess duties with Mrs. Chandler were Mesdames E. L. Polvado, Hobbs Rossier, O. D. Chesshir, and D. A. Ramsey.

Approximately forty guests called and brought gifts. Many others unable to attend sent gifts. A refreshment plate of cake and coffee was served.

Jeter and Shaffer Senior Favorites

Jamettie Jeter and Wayne Shaffer were the senior favorites for this year. They too, will have an honored place in the "Lohab", school annual. Jamettie is planning to enter college next fall. Jamettie has been the Staff's "Valentine" for this year, is senior class secretary and makes honor rolls.

Jamettie Jeter

Wayne Shaffer

Wayne plans to attend college in San Angelo. He has made a fine Senior class president and served as co-captain on the football team. He is a friendly, polite fellow who is always grinning.

Grades Report

The 4-1 class is in the second week of a Cleanliness and health contest. Mrs. Watson says they have shown a marked improvement. John Stockdale enrolled in this class recently.

Mrs. Wingham's third grade is doing some experiments in science. They planted some beans which they are watering with alcohol that they made. They are also making a thermometer.

7-1 bought two new pictures, "Song of the Lark" by Broton and Gainsborough's "Blue Boy," with money made from a candy sale.

In basketball the seventh grade beat the sixth grade in two games. The boy's score was 18-14 while the girls won 7 to 3.

Mrs. Ina Fern Gray has the measles and Mrs. Fred Stockdale is substituting for her.

The grade school can boast of the new doors on their building, and the primary rooms have added small white tin signs with black letters indicating the first, second and third grade.

After buying instruments for the rythm band the first and second grade rooms purchased a paper cutter and some records for the record player.

Charles Luker and Jean Newman have been absent from Mrs. Beard's room because of measles.

BOOKS RECEIVED

"Remembrance Rock" by Carl Sandburg and "Mahatma Gandhi" by E. Stanley Jones have recently been received for the library, according to Lanora Jackson, librarian.

Texas History students will be interested in "For God and Texas" a biography of P. B. Hill by Petyon, and "The Father of Texas" by Barker.

Other books received are "Straw in the South Wind" by Joseph, "Fire" by Stewart which has been selected as a Book-of-the-month, "Speaking Frankly" by Byrns, who tells of his experience as secretary of state, "Sea Bee" and "P.T. Boat" by Henry B. Lent.

GIRLS PLAYED SPADE IN DISTRICT MEET

The girls basketball team played one of the very best games of their season when they encountered Spade in the district meet last Tuesday night. At the half scores were 10-12 Morton Indians.

With Spade getting the lead of 23-20 near the end of the game, they held the ball for the last four minutes. Scores for the game were Betty Monroe, 9 points; Estelline Weed, 5 points; Doris Wages, 4 points and Jamettie Jeter, 2 points.

CARE Adds New Package to Its Growing List

Ever since CARE's first food shipments arrived at Havre in May, 1946, this non-profit, private relief agency has carved itself a bright and honorable and ever-widening place in communities the world over. It is a revered name to hundreds of thousands of individuals and families and orphanages and schools where its special food, blanket, wool, layette and linen packages—generously contributed by the American people—have meant the difference between health and sickness. Supported by twenty-six relief, religious, cooperative and labor organizations and approved by the United States and European governments, CARE has come to be identified with the best traditions in American life—the will to help the needy, fulfilled by direct action.

Now CARE has added a new package to its growing list—one that literally goes to the roots of self-help, which is the best kind of relief. It is a seed package, containing twenty eight varieties, or more than three pounds of tested vegetable seed, ranging (alphabetically) from beets and beans to turnips. Designed to give the greatest possible yields, the package will grow hundreds of pounds of vegetables—if they arrive in Europe in time for spring planting—or enough to feed a family of eight. A special package, designed for Italy only, contains twenty pounds of hybrid seed corn. Planned by agricultural experts and approved by the United States Department of Agriculture, the seed package has remarkable possibilities.

Since the seeds must be in the ground by March for southern Europe and by early April for northern Europe, immediate action is indicated. They can be ordered for all of Austria, Belgium, Italy, France, Greece, Poland, western Germany and all of Berlin. CARE points out that orders cannot be accepted after April 15. For \$4. delivery guaranteed, the CARE seed package can give Europe "the green light". To switch it on, checks should be made out to CARE, mailed to 50 Broad Street, New York 4.

TRUE WISDOM

It is indeed true that the average person today is seeking after wisdom. If it was not for a desire to obtain wisdom you would not see schools, colleges and universities all over the United States. There are three principal factors obtained in either of these institutions; wisdom, knowledge and character but neither one alone would warrant so great an effort as is being put forth. Almost every individual has an inherent craving for more knowledge and wisdom. Wisdom is one of the greatest needs of the day in the entire world. God gives us much wisdom and the right kind of wisdom. Solomon gives great instruction along this line when he said: "Therefore get wisdom, and with thy getting, get understanding." It is true that wisdom comes first and without it a man can make no plans for the future.

and he shall know them, for the ways of the Lord are right, and the just shall walk in them; but the transgressors shall fall therein." The reason this is so true, is that the transgressors does not have that true wisdom. He is not happy and the way before him is dark. Solomon said, "Happy is the man that findeth wisdom, and the man that getteth understanding; for the merchandise of it is better than the merchandise of silver, and the gain thereof than fine gold."

The man that has true wisdom is able to look ahead. He can see into the future and out beyond the grave into eternity. He is able to realize that while living in this world he should prepare for the life to come. He is able to see that the things that he is able to lay in store here will soon decay but the things that he is able to obtain for the life to come will never decay. A man is indeed wise who is able to obtain that knowledge and really put it into practice. There are some that think they are wise, who defy and make fun of the Bible. Such persons are to be pitied because they are just a ball of ignorance rolling around in the form of human flesh.

FUTURE TEAM WINS OVER BROWNFIELD

The next-year's team from Morton journeyed to Brownfield Tuesday night and came back with a 27-19 victory over the same club from Brownfield in an overtime contest.

With only seconds remaining in the regular contest, Clarence Moore pushed in his only field goal of the night, a one-handed hook shot to send the game into an overtime period.

The Morton squad lost no time breaking the 19-19 tie and quickly ran up an 8-0 score the 3 minute period to make the final count 27-19. Hill had 10 points to lead the home club into the second round contest against Union.

FHA WILL ATTEND MEETING

"Approximately 48 girls will attend the bi-annual district FHA meeting Saturday in Whiteface," according to Nell Brown, president. This is the first time for a group to attend from Morton.

The meeting will be from 9:30 to 4:30 at the Whiteface school. There will be between 30 and 40 schools represented, Nell added.

Officers will be elected and installed for the following year. There will be some skits presented by other clubs. Mrs. Marie D. Benham, Home Economics instructor, will accompany the group.

At present the Homemaking II group are planning houses, selecting color schemes and studying correct furniture arrangement. They will begin sewing on material other than cotton this week. Forty hours is required on their home project.

The Homemaking I class, which consists of freshmen girls, are now making cotton skirts.

MOSLEMS USE RED CRESCENT

In Moslem countries a red crescent is used in place of the red cross employed by Christian nations, adhering to the Treaty of Geneva. Iran employs a red lion and sun.

Bledsoe 4-H Club Meeting Held in School Building

A 4-H Club meeting was held in the Bledsoe school building Thursday, February 17. The following officers for the coming year were elected. President, Kenneth Altman; Vice President, Jimmy Kennedy; Secretary and Reporter, Bobby Altman.

County Agent Homer Thompson discussed the rules and regulations for the Chicken of Tomorrow Contest.

Members present for the meeting were: Bobby Altman, Kenneth Altman, Joe Chaddick, Edsel Young, Jimmy Kennedy and Weldon Young.

This Will Taste Good in Texas

RECIPE OF THE WEEK
Hot Tamale Pie

2 cups meat (cooked and ground)
1 1/2 cups gravy or meat stock
1 clove of garlic (minced)
6 ripe olives (chopped) (optional)
1 quart stiff cooked mush
1 tablespoon raisins (chopped) (optional)
2 tablespoons chili powder
1 teaspoon salt

Mix meat, gravy, garlic, olives, raisins, chili powder and salt. Line the bottom of a casserole with mush, pour in the meat mixture. Cover the mixture with a top layer of mush. Bake in oven at 375°F. for 30 minutes. Serve hot from the casserole.

COMPLETE MENU
Hot Tamale Pie
Tossed Vegetable Salad
Crackers or Toasted Rolls
Canned Pineapple
Milk

Come in and see the new **DE SOTO**
On display beginning Saturday March 5th

Let us show you all the new features of this great car

Here is what thoughtful people everywhere have been looking for and hoping for!

Here, at last, is a car that gives you all the best features of modern design without demanding sacrifices of your family's comfort, safety or convenience. It was designed to fit YOU . . . instead of you having to fit into it.

You don't have to wriggle into the new De Soto. You walk in . . . and you keep your hat on. The steering wheel doesn't hit your knees. There's more leg room for all passengers, front and back. And not only are the windows and windshields bigger.

You can see out of them . . . because you're sitting on luxurious chair-high seats.

Yes, it's a thrill to look at. But you won't have to rebuild your garage to get it in. A dented fender doesn't mean an expensive body job. And you can still change a tire, if you have to.

Ride? The smoothest you ever had. Drive? De Soto lets you drive without shifting. New features? Come in and see them all. No matter what car you thought you were going to buy, compare it with this brilliant new De Soto. Then decide.

Tune in "HIT THE JACKPOT" every Tuesday night, all CBS stations

DE SOTO FEATURES THAT MEAN MORE ENJOYMENT EVERY MILE
