Brother of James St. Clair Is Fatally Injured Tuesday Night

L. St. Clair, about 42, of Mulshoe was killed around 8:30 Tuesday night when his 1949 pickup truck overturned nine and a half miles west of Mulshoe. The deceased and brother James had just returned from a fishing trip to Possum Kingdom. Mr. St. Clair arrived at his home here at six o'clock and about nine received the message about the death of his brother. St. Clair died apparently instantaneously from internal and chest injuries, attendants at the Robert Funeral home, where the body was taken, said. He was lying alone at the time of the accident.

The accident occurred at 8:30 p.m. on U. S. highway 70 only one and one-half miles inside the Bailey county line, the sheriff's office reported. The new-model Chevrolet pickup overturned, apparently twice, officers said, throwing St. Clair out the door on the driver's side. His body was tucked up about 50 feet from the wrecked vehicle which was lying on its top, according to an ambulance driver.

Owned Several Area Stores
St. Clair owned dry goods and variety stores in Andrews and Brownfield and owned a considerable amount of land besides.

Son's Story Helps Convict Father For Shooting Mother to Death

A 72nd District Court jury recommended a verdict of life imprisonment for Leo Nichols, 37, farm worker of near Whiteface, at 8:22 p.m. Tuesday, for the pistol slaying of his 29-year-old wife, Erisa. The state had demanded the death sentence.

The jury had received the case at 4:21 p.m. after only one day of testimony in which the 10-year-old son of the couple took the witness stand as the state's star witness, putting the finger on his father as having fired the fatal shot at the family's farm home early in the night of Oct. 14, 1949.

Defendant Shows No Emotion
Nichols, who sat throughout most of the day's testimony, including that for the defense by his slight, gray-haired mother, Mrs. Maggy Nichols, showed no emotion when the verdict was pronounced by Judge Dan Blair. His only reaction was a slight leaning forward in his chair. He remained seated until ordered to accompany officers from the courtroom.

Returned to Levelland
The defendant was taken back to the Levelland jail in the company of Ranger Razz Renfro and Raymond Waters, in whose custody he has been since the start of the trial Monday.

The trial required only two days, selection of the jury having consumed all of Monday. Tuesday's testimony, for the most part went speedily and smoothly. More than 400 persons crowded into the courtroom, adjoining hall and offices and kept their seats even during the noon recess and time taken for preparation of the charge to the jury late in the day.

Youth Takes Stand
Bobby Jack, the handsome schoolboy son of the defendant, was the state's star witness during the day. He took the stand after Dr. Raymond Reed of Levelland, the state's first witness, had testified that one shot from a .38 caliber pistol struck Mrs. Nichols in the right side of the chest, punctured the right lung, severed the spinal cord and lodged in the upper back. Mrs. Nichols died eight days later.

Homer Thompson Elected to Post of Texas A. & M. Club
Homer E. Thompson was elected vice-president of Texas Aggies Club in the annual San Jacinto meeting held in Littlefield last Friday night.
Leon Ransom of Levelland is new president of the group.

YOUTH TAKES STAND
Bobby Jack in addition to testifying in the midmorning session also took the stand briefly as the final witness of the day.

Bobby Jack testified that his father had been drinking, describing him to the court as "kinda drunk," early the night of the shooting. The youth told the court that he and his mother returned from the cotton field when they met Nichols at the family home after he returned from working the fields.

Knife Thrown Onto Roof
The family was near the chicken house when the first incident leading to the shooting occurred, the youth told the packed courtroom.
He said his father had opened the blade of his pocket knife and was aimlessly throwing it into the wall of the chicken house when it sailed onto the roof.

Then Loaded His Gun
The elder Nichols then followed his wife to the house, got the pistol and loaded it, the son told his listeners.
Bobby Jack said he then fled, gaining cover behind a large cactus bush in the front yard. Nichols reportedly then snapped the gun several times, not aiming necessary anywhere near his son, but calling out to his wife:

"I'm going to see how close I can come to Bobby Jack's feet," the boy testified.
It was then that one shot came close to the youth, the court was told.

Witnesses Shooting Of Mother
Bobby Jack then told the court that he went around the house and entered by another door where he found his father and mother, the former with the pistol.

Orville Tilger Speaks on Cancer At Lions Meeting

O. L. Tilger, Cochran County Cancer Chairman, told members of the Lions Club Wednesday "why" everyone should support the crusade.
"Cancer is a disease that calls for early discovery and prompt, thorough treatment, he said. If everyone knows and remembers the seven danger signals of cancer, and will see his doctor at the first warning sign, we will have gone a long way toward ridding Cochran county of this ancient enemy. We need funds for research, and to carry out a year-round program of service and education. Organization such as this has overcome many other diseases. It is time cancer, Texas' second largest killer, is licked the same way."

Tom Arnn Jr., second vice-president, presided for the business meeting, at which time a suitable material expression for Morton school students who helped with the minstrel was discussed.

Lion Arnn appointed the following committee to investigate: Paul Goodman, chairman; Jack Rice and P. B. Ramby. This committee is to confer with school heads and report back to the club.
Visitors present were Rev. H. G. Weins, Fresno, California, Arlee Barnard and John C. Gilliam, district engineer of F. H. A.

LITTLEFIELD CLERKS RECEIVE PRAISE

Clerks in Littlefield stores must be on the ball—at least some of them—judging by the remarks made recently by a lady shopper from Morton.

KICKING THE NEWS AROUND

Well, John L. Lewis did it again just like Notre Dame, the Yankees and Joe Louis. You bet your two-bits on 'em and know the jury can't convict you for gambling when you collect. It's a cinch. The poolroom dude from K. C. was so exhausted from the struggle that he's heading for another three weeks' vacation in Florida where coal is just disagreeable black stuff you read about in the papers, but don't mention above a whisper in the gilded halls of chance where the retired racketeers play tiddle-dawinks for steam yachts and mumble peg for chorus girls on the hoof.

Sometimes I think old Bushy Brows would fit in the Secretary of State's job better than any of the double-doomed boys from old Hot Dog's kindergarten class. He could throw the book—Shakespeare unabridged I mean—at Joe Stalin, and give "good old Uncle Joe" cards and spades and skin him at the game of "Veto."

And he wouldn't get "Krocked" into any exclusive interviews whining about how Joe had outsmarted him.—Ed Erard in The Kingsville Record. —Liberty Vindicator.

Eighteen cars were in Sunday's race and twenty in the main event on April 16.

The local racer is high points on time trials for good track records.

His Punch is His Signature

Was on the train up to Central City the other day and when the conductor came around, I asked him why their ticket punches make such odd-shaped holes in the ticket. "Every conductor in the country has a different design for his punch," he tells me. "Some even show up a fellow's preferences. Now take mine. The hole it makes looks like a beer goblet." Sure enough! Then he went on to say that the punch is just like the conductor's signature. Makes it easy to trace tickets... to check up if something happens.

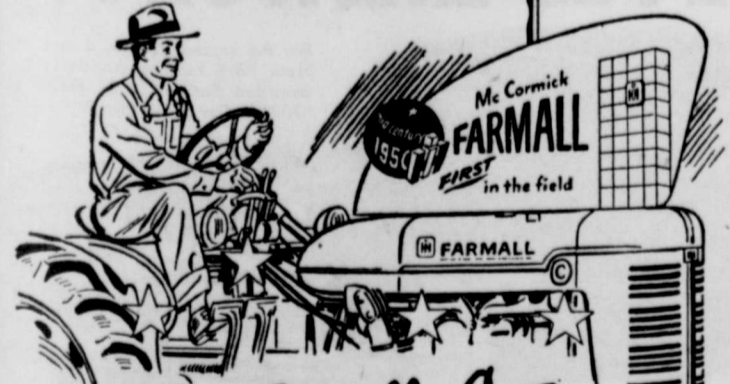

From where I sit, even though your ticket is punched differently from mine, it still gets you where you're going. Just like people with their opinions. You might like coffee, another person, tea—and I'll settle for a temperate glass of beer. But what does it matter, so long as we respect the right of the other to have tastes and opinions? We're all trying to go in the same direction — towards a friendlier, more pleasant world for all of us.

--annegrams--

Wednesday (last) Francie Hawthorne invited us to a club luncheon in Muleshoe or some place-which of course we could not accept, mainly on account of Wednesday is press day.

Too, we always try to get to Lions Club on Wednesday. All this buzzing around brings to mind a portion of Evelyn Boyd's talk at the Panhandle Press meet in which she said, "Most small town newspapers need to develop their own public relations—they should make an attempt to have some one from the paper on hand for every civic meeting." Well Evelyn is a clever writer and public speaker but if she can tell us how one person can cover more than one meeting, where several occur simultaneously, she is also a magician. We love going to all these affairs—it's just that we can't spread it out thin enough to get around to everything. Missed the sewing club the day Mrs. C. A. Baird had it and of all the places we like to go and people we like to visit the Bairds are way up top on our list. Mrs. Cass Stegall and her two year old daughter, Madalyn were in one day last week. Madalyn was all over the place and is a darling brown eyed blonde, she has older brother who has beautiful blue eyes. Hope we didn't get the names mixed again—generally we confuse Mrs. C. S. with her sister, Mrs. Tommy Galt. But those two Gaddy gals are both blonde, pretty and charming so it may not make too much difference. Their papa and mama, Mr. and Mrs. T. G. Gaddy, have already gone to their summer home in Ruidoso. The Stegalls and Galts live out Threeway, among a lot of other mighty fine people. Felt right amused one day at lunch; Lonnie Allsup, Leslie White, Ted Wood and Jimmy Chapman were talking about rats and one of the boys said, "Why we have rats so big on our place that the cats are scared to death of them." Last time we knew the whereabouts of the Wesleyan Guild apron Mrs. J. W. Askew had it. The Guild needed a little money so Mattie Ramby hit on the idea of sewing patches on an apron, underneath each patch is 1c for each inch waist measurement of the person sewing on the patch. One of the nice things about that apron is that Jack Rice, who is manager of Cobbs, let Marlene Daniels make it during store hours for the Guild—free of charge. Speaking of waist measurements we are again having mind over matter trouble, its this continuous eating we're subjected to; weight of 130 wouldn't be too bothersome except the only clothes we own were bought when we weighed 124. Donna Todd told us Friday that her mother, Mrs. R. C. Sanner of Slaton just loved this column. Well D has no idea how much her telling this pleased us. It did leave a sort of curious feeling tho and we dashed right back to the office to read as just to see if we could find anything interesting or amusing. It is written in jerks—by a jerk and usually after reading proof on the thing that is the end of it as far as we are concerned. Think we mentioned the Red Cross in this column last week but something else reminded us of the speed in which they operate. While dining with directors of the Chamber of Commerce Tuesday we were all talking about the tornado and M. C. Ledbetter, who is county chairman, said the first he knew it had hit in Cochran County, was when the St. Louis office of Red Cross called him about midnight to find out if the county needed disaster crews sent in. When something happens right at home the Red Cross is appreciated more than when we read of what they do in Arkansas, Missouri or some other place far removed. Notice by the paper that Orville Tilger is cancer chairman for the current fund drive. Cochran county's quota is low—considering the amount of money it will take to put the program across. If any of you ever watched a friend or loved one slowly die of cancer (and it is a long drawn out painful disease) we feel sure you will be generous with your contribution. A large percentage of the money raised is used in research—which is of extreme importance in fighting the disease.

Reading over the spouse's shoulder notice he has been made a director in Texas Safety Council. Also invited to the annual convention in Houston, May 13—which we doubt his attending. Glad to see Mrs. Jack Rice back in the store after a seige of illness. Luther Buchanan, good looking junior, missed school and his work here in Tribune office a few days last week because of a bad throat. Minnie Ola Cox has also been on the puny list with a throat infection. Neal Rose is another who has been ill—he and Paul Goodman missed C. of D. directors meeting last Tuesday because of illness. The C. L. Taylors tell us they expect to get moved into their beautiful new building around June 1. Haven't talked with Mr. Blankenship lately but the theatre seems to be coming along nicely and all of us are looking forward to its opening. The spouse was over looking around and said the interior was going to be something extra special. That Mrs. Salsen from Whiteface who spoke to the Camp Fire Girls last Thursday afternoon is a striking brunette. And when she put on polynesian sarong looked very much like an island princess. She had all sorts of souvenirs to show the girls—also pictures, beautiful hand made silver pieces and one of the most gorgeous string of pearls we've ever seen. Puts our little bitty string of sure enough out of the oyster pearls in the shade. A newspaper is a good advertising medium if it is a good newspaper.

FRED STOCKDALE Lawyer Morton, Texas

Mrs. H. P. Clemons, Whiteface Hosts Garden Club, Tuesday Night, April 25

Members of the Cochran County Garden Club met with Mrs. H. P. Clemons, Whiteface, Tuesday night, April 25.

Mrs. C. A. Baird gave an instructive and interesting paper on "How To Keep Up With Your Spring Bulbs." This discussion was of particular interest to club members since this year theme has dealt chiefly with bulbs. Practically every member of the organization planted quantities of bulbs last fall, following the flower show, at which time around 2000 bulbs were sold.

Mrs. Baird first discussed Daffodils explaining that they increase by division; new bulbs develop within the old ones, increase in size, and finally separate and split off. This process continues year after year, a dense clump of bulbs is gradually formed in a small space, and the individual bulbs compete for plant food and moisture. Result: such overcrowding that it is physically impossible for the individual plants to develop to normal size, and a progressive decrease in size of the flowers. The remedy is simple. Merely take up the plants, separate the mats of bulbs, and replant them. Tulips, the speaker said, unlike Daffodils, increase by multiplying. The Tulip—or at least the garden forms of it, is a hungry bulb and demands high culture and generous feeding. Even in a well enriched border the flowers deteriorate rapidly in size. An annual or biennial taking up of the bulbs is desirable if one wishes continued good performance from the original stock. The lifting of the bulbs is best done when the foliage has turned yellow, and the stems have become soft at the bottom. Tulips are best kept out of the ground after digging. Surplus soil is shaken off and bulbs placed in flats, where they may be cured for 3 or 4 weeks. They are then cleaned, sorted for size and put in paper boxes or bags to be kept until time for planting.

Mrs. Lester Baccus, president had charge of the business session; at which time it was voted to dispense with the spring placement show because many of the plants were frozen and flowering in the various gardens had not been regular. Mrs. Baccus reported on the spring convention held recently in Midland. Members exchange plants and a collection of plants and shrubs boxed to send to Goree Prison. Mrs. Clemons served a refreshment plate of coffee and rubber pie to Mesdames T. M. Tanner, C. A. Baird, Fred Collins, A. Fralin, Albert Morrow, C. R. Davis, Baccus, Hessie B. Spohn, Homer E. Thompson, Tom Arnn, Roy Hill, Carl England, Hube Lindsey, Otho Dennis and Miss Effie Knot, Lanora Jackson and Mabel Ann Manley. The club will meet with Mrs. Tom Arnn, Tuesday night, May 2.

MR. AND MRS. OLIN HARRIS were Saturday visitors in Muleshoe.

usually October is early enough. Hyacinths are not usually thought of as long-term outdoor flowering bulbs, but with good drainage they will give satisfactory results for many years. They increase slowly and replanting is not necessary. A round table discussion of bulbs and plants followed Mrs. Baird's talk; this was directed by Mrs. C. W. Davis.

GLEENDA EVANS

DARREL BOWMAN

Morton School News

"Papa Says, No!" Friday, May 5

BY PATSY BARTON
Glenda Evans and Darryl Bowman have been selected to play the leading roles in the band play, "Papa Says, No!"

Glenda will play the part of Janet Page, an attractive girl of nineteen, who wears stylish and becoming clothes. Darryl will play the part of Jack Prescott, Janet's fiancé, and a likeable young man of about twenty-two.

Other characters selected were Freddie Stockdale to play the part of Alonzo K. Page, a big business man of about fifty-five. Martha Bledsoe will play Miss Luella Watts, a meddlesome old maid of about fifty.

Edith Lightfoot will act the part of Mrs. Helen Carter, a pretty widow of about forty-five. Tommy Bowman will play the part of Mrs. Carter's son, a good looking man of twenty-two, who has played female roles in many college plays and makes an attractive girl when dressed in feminine clothing.

Ronnie Gast will act as Bill Sykes, the clerk of Miramar Hotel, and a good-natured young man of about twenty-five. Burlie Taylor is a bellhop of about

nineteen, and at the moment is especially interested in Toots, the elevator girl, as played by Juanice Cooper, who, like other young ladies, she wishes her fellow to toe the mark—which means trouble for Joe.

Janice Grimsley will play the part of Sallie, a pretty girl of about twenty and a waitress in the hotel. Jowynn Chesher plays the part of Liz, another waitress in the hotel coffee shop.

Bobby Gast plays the part of Mrs. Hawkins, an odd woman of about 40. Jack Russell is the detective, who is about thirty. Charlotte Lindsey plays the part of Genevieve Hawkins. She is the "brat" type and about 12, dressed in rather childish clothing.

"Papa Says, No!" takes place in the lobby of the Miramar Hotel, a small hotel in Florida. One end of the lobby has been converted into a coffee shop. The time is about five-thirty in the evening, and continues through until the early morning.

"Papa Says, No!" will be presented by members of the band, Friday, May 5, at 8:00 p.m. in the high school auditorium, according to Fred Danforth, director.

A New Book 'The Endearing Hills' Received Recently by School Library

"The Endearing Hills" by Janice Holt Giles was received last week by the library.

This is the story of Had Peirce who had, with his family, lived in Piney Ridge, Kentucky, all of his life. His family had lived there since the first Peirce had been granted 600 acres of land for his services in the Revolutionary War.

Not that the land itself had much to offer—it was hilly, rocky, almost barren, and good for very little except raising tobacco, but few of the Peirces ever left.

CHORAL CLUB SINGS

The Choral Club will sing "Indian Summer," "Moonlight Bay," and "Minka" at the piano recital presented by Mrs. L. L. Price tomorrow evening at 8:30 p.m.

Betty Rhyne: "How do you keep Byrd from reading your mail?"

Jeanette Shue: "Easy. I stick my letters in her Geometry Book."

Had loved the hills and people, but within him, unlike his family, friends and relatives, was an urge to get away.

But the ridge had its pull, and young Had stayed—bound by the hills and his duty to the family—years of hard times when he forgot his dreams and bent to the struggle for sheer existence—years brightened only by the fiery, beautiful Lily Mae, too willing, too glittering, to be true.

Disillusioned, seeing nothing ahead but the backbreaking work and the limitations of the Ridge, Had finds in the Army his way toward personal freedom.

Then the war came and he met Mary. Later on came the city, marriage, an important job, easy living, and success. He had attained the goals he had set years before, but now he found himself harried, ruthless, discontented. He had come far from the barefooted mountain lad, but had he come into his own place? Who was Had Peirce anyway?—Suddenly he knew the answer.

Presenting this play three nights, the class sponsors, Glenn Reeves and Mrs. Bob Rhyne states that approximately \$200,000 was cleared.

This three-act mystery-comedy held the suspense of approximately 900 people during its 3 nights of presentation.

The thundering and lightning throughout this play was so realistic that you would almost think it was really raining.

JUNIOR TEENS PRESENT PROGRAM

The Junior Teens Campfire Girls presented a program last Monday afternoon.

The presentation was attended by high school and grade school students. Pamela, played by Norma Ruth Wright, a character in the negro play, "Axin Her Fadder" stole the applause of the crowd. Other girls in the program were Carolyn Cox, Nancy Blackley, Jean Henry, Doris Gardner, Sue Macon sang a solo, "Down By the River Side," Carolyn Moore gave a reading and Shirley Robertson tapped to "South."

This group is sponsored by Mrs. Carl Macon and Mrs. C. A. Moore.

TO COMBINE SWING,
CLASSICS, HUMOR**

Henry L. Scott, pioneer in con-
cert humor and alternately de-
scribed by music and drama
circles as "The Will Rogers of the
Piano" and "The World's Most
Versatile Pianist," will give a
unique recital of classics, swing,
and concert humor at the Level-
land School auditorium on April

29 at 8 o'clock. Cochran Coun-
tians holding membership in the
association are asked to keep
this date in mind for the third
and final concert of the cur-
rent season.

Motion pictures and radio have
shown that much can be done
toward the broader appreciation
of music through the medium of
entertainment. A particularly
striking example of this was a
motion picture that made the
works of Chopin familiar to every
one almost overnight.

Henry L. Scott believes that
blending the arts of drama, hu-
mor and music on the concert
stage will in the long run do the
most to make America music
conscious. With this in mind, he
originated the idea of concert
humor. Concert humor is based
on the premise that humor has
a place in the concert hall just as
much as in opera, in literature
and in the plastic arts. The re-
sults of his pioneering work are
already showing themselves in
the concert field. The "solemnity
only" idea is changing and his
"opera formula concept" of
drama, humor, and music is
taking its place.

The value of a new art form is
often estimated by the import-
ance accorded it in the field of
education. Dr. Alton O'Steen,
dean of music at the University
of Alabama, after hearing Scott,
exclaimed, "His expert blend of
music and humor are long over-
due on the concert stage. He will
I'm afraid, win more converts to
serious music than all our con-
cert courses." As one university
president expressed it, "Henry L.
Scott's concert is the greatest
single contribution to the ad-
vancement of music and art hu-
mor in America today."

Henry L. Scott is not only a
brilliant interpreter of Chopin
and Liszt, but an authority on
popular styles and rhythms as
well. This in itself is more than
can be said for many concert
pianists.

Greatest of all perhaps is his
gift as a humorist. Scott says,
"Piano practice has often meant
twelve to sixteen hours of study
a day, but I have never worked
at anything so hard as in my
constant efforts to originate and
project the intangible something
that makes people laugh." His
first Carnegie Hall concert was
such an uproarious success that
Kyle Crichton, foremost celebrity
critic, in a feature article and
review of the recital for Colliers
magazine said, "He literally re-
duces the patrons to hysteria
with a new form of art." Life
magazine went to Carnegie Hall
on the occasion of his recent re-
turn and subsequently devoted
the better part of three pages of
pictures and text descriptive of
the event, referring to him as
the "Will Rogers of the Piano."
Henry L. Scott's concert is at one
and the same time a thought pro-
voking and hilarious musical ex-
perience long to be remembered.

**Sunshine Can Be
Healthful and
Injurious to Body**

Austin, Texas, April 27.—Sum-
mer weather is just around the
corner and many Texans will try
to acquire a sun tan as quickly
as possible. Dr. George W. Cox
State Health Officer today re-
leased a statement concerning
the danger of over exposure to
the sun.

"Sun Stroke is not thought to
be due to the heat of the sun,
but to certain direct effects of
the sun on the human brain. It is
likely to occur after the sun has
shone excessively on the back of
the head and neck," Dr. Cox ex-
plained. "This can be prevented
by protecting the head and back
of the neck from the sunshine,"
he added.

Dr. Cox asserted that exposure
of the skin to the sun has some
virtue since the action of the
sunshine tends to kill the germs
on the skin. Further sunshine
produces vitamin D from the fats
in the skin and this product is
absorbed and used by the body.

"In general the good effects of
sunshine are not due to the
heat rays but ultraviolet rays,"
Dr. Cox stated. "It must be re-
membered, however, that it is
these same rays which burn the
skin and extensive application of
direct sunshine to the skin may
produce painful and severe burns
which actually may endanger
life."

The State Health Officer ad-
vises those who wish to obtain an
extensive suntan to get it by slow
degrees. Expose small portions
of the skin to the sun for a short
period of time. When tanning is
established, exposing a greater
area for a longer period of time
should prove safe and comfort-
able.

MR. AND MRS. WILLARD
COX and daughter, Carolyn, were

lyn competed in the Interschol-
astic league in declamation divi-
sion of Junior A girls.

Feather-bedding scheme of Firemen's Union to put an additional
fireman on diesel locomotives has been

CONSIDERED TWICE!

Fact Finding Boards appointed by Presidents Roosevelt and Truman
have said these demands were "devoid of merit" and they were

REJECTED TWICE!

Now the Firemen's leaders seek to paralyze railroad transportation
to compel the railroads to employ a wholly unnecessary additional
fireman to ride on diesel locomotives. This scheme is plain

FEATHER-BEDDING!

LEADERS of the Firemen's union have
called a nationwide strike starting with
four great railroads on April 26. These
railroads are the New York Central, Pen-
sylvania, Santa Fe, and Southern.

The union claim that a second fireman
is needed on grounds of safety is sheer
hypocrisy. Safety has been dragged into
this dispute only in an unsuccessful effort
to give a cloak of respectability to vicious
feather-bedding demands.

After a careful study of the first de-
mands of this union, a Presidential Fact
Finding Board on May 21, 1943, reported to
President Roosevelt that there was no
need for an extra fireman on diesel
locomotives.

Again, on September 19, 1949, after a
second hearing on the union leaders' de-
mands, a second Board reported to Presi-
dent Truman that: "there presently exists
no need for an additional fireman... upon
either the ground of safety or that of
efficiency and economy of operation."

Safety Record of Diesels is
Outstandingly Good

Although the railroads accepted the Board
findings, the union leaders have brazenly
rejected them. They represent that an

extra fireman is needed for "safety" rea-
sons. Here's what the Board had to say
on that point:

"The safety and on-time performance
of diesel electric locomotives operated
under current rules have been notably
good..."

"Upon careful analysis of the data sub-
mitted on safety, we have concluded
that no valid reasons have been shown
as a support for the Brotherhood pro-
posal under which a fireman would be
required to be at all times continuously
in the cab of road diesels. The proposal
must be rejected."

The real reason behind these demands is
that the union leaders are trying to make
jobs where there is no work. In other
words, a plain case of "feather-bedding."

The railroads have no intention of yield-
ing to these wasteful make-work demands.

**"The Safety Record of Diesels
is Outstandingly Good..."**

PRESIDENTIAL FACT FINDING BOARD REPORT
Read these excerpts from official reports
of Presidential Fact Finding Boards:

"The safety record of Diesels is out-
standingly good, and it follows that
the safety rules now applicable have
produced good results."

"The safety and on-time performance
of Diesel-electric locomotives operated
under current rules indicate that
Diesel-electric operation has been safer
than steam locomotive operation..."

Remember! These are not statements of
the railroads. They are just a few of the
many similar conclusions reached by Presi-
dent Truman's Fact Finding Board which
spent months investigating the claims of
the union leaders.
