BARBECUE AND MOVIES ON IRRIGATION

4-H and FFA Boys are sponsoring a chicken barbecue at Morton School lunch room, Friday night, eight o'clock, May 12. Farmers interested in irrigation are especially invited to attend, as well as their families.

Now Is The Time To Combat Flies In the Homes

Austin, Texas, May 4.—"Go in and out the window" is a line from a children's game which thousands of little youngsters have played for years. It may be used to describe something else, too. For flies like to go in and out windows. Dr. George W. Cox, State Health Officer reports that fly infestation will be heavy this year. So, now is the time to kill those early flies.

These pests love to buzz around in uncovered garbage pails, stables, old privies, and in homes around uncovered food. Do you have a metal garbage pail with a tight-fitting lid? Are screens on your windows and doors in good repair? Waste should be removed from stable often, for horse manure is one of the chief breeding places of flies. Children can help to keep flies out of the house by keeping screen doors closed, and sweeping the floors that enter the house.

Flies carry germs on their fast-moving wings, in their tube-like mouths, and on their furry legs and feet. What are some of the diseases they spread? Typhoid fever, dysentery, and tuberculosis are spread by these insects who feed on germ-laden feces.

Clean-up campaigns, screening, and spraying with insecticides are the best methods for getting rid of flies. Special care should be used in the use of DDT or other insecticides. Directions should be followed carefully. Let's clean up on the new crop of flies to protect the health of our families.

Mud Lake Gets "Cleared Up"

County officers got a notice from the government not long ago, asking them to change the name of Mud Lake. Seems it's a pond, not a lake, by government standards.

Because it lies entirely inside our town limits, we asked to do the name-changing ourselves. Figured we'd think up a brand-new name. Mud Lake's really not very muddy — sort of pretty, in fact.

County people said go ahead, so we held a Town Meeting. Everyone suggested something. Windy Taylor thought "Taylor Pond" would be nice, because his place borders

School Land Funds Bring in Total of \$250,000,000

Austin, May 4.—The two permanent school funds of Texas passed the \$250,000,000 during the month of April, a big-sized wad of cash any way one regards it.

And, according to Land Commissioner Bascom Giles, whose office administers the state school lands, such a balance was not achieved without dealing with many and varied entrepreneurs.

Royalty payments and cash bonuses contributed the major portion of the quarter-billion, Giles explains, but other means of revenue also helped.

For instance, granting leases brought \$40,000 to the permanent

public school fund during the last fiscal year while rental of easements across the two-million-odd acres owned by the University of Texas brought in some \$25,000.

The University's handsome cash balance, in excess of \$100,000,000 was also augmented by 26 water leases, one of them to the City of Crane for \$300. Mineral lease holders in the U-T domain are welcome to water for drilling rigs, but nary a drop more. Terms of the water leases vary in almost every instance, Commissioner Giles explains.

The are still other uses for the state school domain. A lease near Toyah, where a "sulphur earth" used in the manufacture of commercial fertilizer, netted \$475.20 during 1948. In Ward County there are strips of soil heavy with sodium sulphate; eight lease-holders "mine" it and convert it into "salt cakes" for cattle. Last year this activity resulted in \$4,342.54 for the school balances.

Quite regularly Commissioner Giles issues "prospecting permits" to prospectors who are quite sure they can locate more valuable metals within the school terrains, but the royalty returns from such ventures are almost nil. In 1948 the school funds received \$33.57 as their share of production of silver lead and copper in Culberson County.

The best of the Colorado River right at Austin yields some \$600 monthly in royalty payments, Giles said. Out in Terrell and Brewster Counties three tracts of school land are leased because of the candleilla weeds growing on the ridges; this weed can be made into sealing wax. Total returns to the school funds in 1948—\$52.10.

The production of lechuguilla, another Texas native weed, is still in the experimental stage. The leaser, who plans to use the sap for furniture varnish and the fiber for the manufacture of brushes and ropes, paid \$100 for the surface rights to the tract. No royalty has yet been received.

Safety Slogan Announced by Texas Safety Dept.

Austin, Texas, May 4.—"You are the other fellow!" That's the pointed slogan adopted by the Texas Department of Public Safety to emphasize the 1950 traffic safety program. The brief statement, says Colonel Homer Garrison, Jr., Director of the Safety Department, gives the lie to the false assumption held by many motorists that "it's the other fellow you have to watch to avoid accidents." That the assumption is false is emphasized by statistics compiled by the Department showing that 61% of the rural fatal accidents during 1949 involved but one vehicle and one driver.

N. K. Woerner, Chief of Statistical Division of the Texas Department of Public Safety, has predicted an over-all increase of 6% in Texas traffic fatalities for 1950 which, if fulfilled, will set an all-time high for the State. Incomplete figures for March, 1950, shows a death toll 39 greater than the same month last year and the first three months of 1950 reflects a 15% increase over January, February and March of 1949 with the current year's figures not yet complete. These same figures show that the trend of one-driver fatal accidents is still holding true to form with 80% of the rural fatal accidents, through March, involving a single driver.

One phase worthy of a second glance in the 1950 picture, thus far, is the problem presented by motorists in small towns and villages and on unnumbered rural roads. In towns and villages with a population under 1,500 an increase in traffic deaths of 35% is noted and the unnumbered rural roads shows an upward trend of 34%. This compares with a 5% increase in rural numbered highways and a 11% decrease in the larger urban areas.

"One thing is made clear by these rural and one-driver figures," says Garrison, and that is that speed is still the greatest threat to life and property in the field of traffic safety." He further pointed out that there was an increase of 49% in the rural fatal accidents so far this year which carried the mere notation "ran off roadway." In these cases, "the other fellow" was the man at the wheel.

C. OF C. DIRECTORS VOTE TO ESTABLISH CREDIT ASSO.

Directors of the Seagraves Chamber of Commerce voted to establish a retail merchants association at a meeting held Wednesday night at the community building.

Designed to furnish credit information to local firms, the association will be operated as a function of the chamber of Commerce.

Mrs. Gladys W. Workman, secretary of the Retail Merchants Association Lubbock, was present at the meeting and gave the directors a detailed account of the functioning and operation of a non-profit credit service. Mrs. Workman has been associated with the Lubbock association for 26 years.—Gaines County News.

AUDIT OF CITY BOOKS CONTINUES THIS WEEK

An audit of all city books, begun here April 17, is not expected to be completed by Certified Public Accountant Harold Bollinger of Lubbock for something like two weeks, City Secretary L. E. Mabe said Tuesday morning.

Delay was caused last week when Bollinger was called to Tennessee on business, Mabe said. An assistant has been working at the city hall this week, however, though Bollinger's return is not expected until today.

Checking of city bonds began Monday morning. Already completed by accountants was a check of city tax rolls.

The city council voted at a meeting on April 10 to have all city books audited.—Hockley County Herald.

COUPLE IS JAILED ON HIJACKING CHARGE

A Levelland man and his wife were being held in separate county jails this week in connection with a Sunday night, assault on another Levelland resident, it was reported this week.

Patrolman Dan B. Boone said that Robert V. Taylor was being held in Cochran county jail awaiting \$10,000 appearance bond, and his wife, Letha, was being held in the Hockley county jail on charges of hijacking Charles E. Mallory, typewriter repairman, of Weimhold Office Supply.

Mallory, who had driven the couple to Littlefield in his car, said that they were headed toward Tatum, New Mexico, the last thing he knew. They had started to Tatum, he said, because Mrs. Taylor had said her father was on his death bed there. Taylor was driving the car.

Mallory was picked up Sunday night outside of Morton in a daze suffering from head lacerations. His car was found abandoned east of Morton the same night the couple was arrested.

Mallory was taken to Morton hospital for treatment after he was picked up.—Hockley County Herald.

CHANCE FOR RURAL PEOPLE TO GET TELEPHONES

The long felt need for rural telephones in the Lorenz area, as well as all other areas of the county, can be supplied now if everyone interested will make the proper effort in that direction.

The appropriation by Congress lately has made it possible for Telephone Cooperatives to be organized and operate in the same manner as the R.E.A. which has supplied nearly all the farm homes with electricity.

The South Plains Rural Telephone Cooperative, Inc., has been organized and the way is now open for any one who desires a telephone and who cannot get one from the Telephone Company to have this service.

All one has to do, but there is only a short time it can be done—about 30 days, is to secure an application blank, fill it out and turn it in with a \$5.00 deposit.

The information is that if the subscribers do not get on the dotted line in thirty days, there will not be another opportunity for a rural telephone for at least five or ten years.—Lorenzo Tribune.

CONTRACTS LET FOR NEW ELEMENTARY BUILDING

Contracts totaling \$219,913 were awarded Saturday by the Levelland School board in connection with the construction of an eighteen-room South Elementary school building to be erected one block east and two blocks south of the Levelland Senior High School building.

The general construction contract went to low bidder, Ray Givens, Lubbock contractor, for \$184,000. The plumbing and heating combination contract went to Bell Plumbing company of Lubbock on a bid of \$23,537.

The electric construction was let to Bud Nairn of Morton on a bid of \$12,376.—Hockley County Herald.

POST OFFICE SHORTENS HOURS, REDUCES DELIVERIES

Reductions in local postal service in compliance with recent order of the Postmaster General went into effect here yesterday when delivery of mail residential and commercial districts was cut to one per day. Postmaster G. K. Denman said. Closing time of the post office was moved up from 6 to 5 p.m. on week days, but Saturday hours will remain the same—8 a.m. to 12 noon.

Routes will be delivered in the afternoon, making the service a few hours later.

Parcel post deliveries will be made once a day as in the past.—Moore County News.

CLEAN-UP WEEK

W. C. Wrights Attend Chicago Convention

Rev. and Mrs. W. C. Wright left Sunday night following church services for Chicago to attend the convention of Southern Baptists. They were joined in Clovis, New Mexico, by Rev. and Mrs. Maddox.

About 25,000 Southern Baptists arrived in Chicago Sunday and Monday for Tuesday night's opening of the 93rd meeting of the Southern Baptist Convention. Nearly half will be delegates, called messengers.

It will be the first time the convention has met in a city north of the Mason-Dixon line. This probably is the largest church convention numerically in the world.

"Freedom's Holy Light" will be the convention theme which is based on the St. Luke IV, 18-19 text: "... He hath appointed me to preach the gospel to the poor, He hath sent me to heal the broken hearted, to preach deliverance to the captives... to set at liberty them that are bruised..."

Dr. Hobbs Chairman
Rev. Dr. Herschel H. Hobbs of Oklahoma City is chairman of the committee on order of business.

The Southern Baptist Convention, having no legislative function, embrace nearly 30,000 churches, with about 7,000,000 adult members, probably the largest protestant denomination in the United States.

The Methodist Church, which includes children in its membership, lists more than 8,000,000 members. Three thousand new Southern Baptist congregations have been organized since 1940, the official handbook of the denomination reports, with 463 new churches added since the 1949 convention.

In Chicago Coliseum
Convention sessions will be in Chicago Coliseum. The highlight of the meetings will be a united Baptist evangelistic service in Chicago Stadium Friday night, when 25,000 persons of all Baptist groups will participate.

A 1,000-voice Negro choir will lead the singing. Rev. Dr. J. H. Jackson, pastor of Olivet Baptist Church, Chicago, and Rev. Dr. Robert G. Lee of Memphis, president of the Southern Baptist Convention, will be the preachers.

How to Park

A survey of high school driving instructors by the Chevrolet Motor Division discloses parking as the toughest maneuver for students to master. The above photo-diagram illustrates correct procedure. First, stop close and approximately even with the car ahead. Next, cut your wheels sharply right, and back up until your front right bumper just clears the rear left bumper of the car ahead. Then, cut your wheels sharply left, backing slowly until alongside of curb.

--annegrams

— by ann england —

Vacuum sweeper salesmen had field day here last Friday. When that sand closed in on us around 6:30 p.m. Thursday we asked the spouse if the clouds looked as if they were cyclonic. He said, "You don't think I'm going out and TRY to see the clouds through all this do you?"

★ **Anyway it mustn't have been very bad in Lubbock as Cliff Blackburn was able to stand on top of Avalanche - Journal building and take a picture of it—the dust clouds boiling over Lubbock that is.**

★ **Remember Mama used to tell of Grandma using sand for scouring purposes. At the time we sort of wondered but can say now that sand will definitely clean all the dirt out of a bath tub—not only that but it takes the enamel too.**

★ **We didn't hear of any actual damage as a result of the sand storm but foliage was shredded—some trees even lost good sized limbs. Buds were beaten off the roses at Vagabond House and small plants whipped.**

★ **Saw some mighty fine stock at the Fat Stock Show here Saturday. TRIED to make pictures but the hogs and steers were not too cooperative. They are as fitly and temperamental as movie stars.**

★ **4-H Club ladies of Cochran County served delicious lunches of barbecued meat, beans etcetera. Cute little Pat Masten brought us a plate and said, "this is compliments of an unidentified friend." We accused Lloyd C. Miller and Homer E. Thompson of buying our dinner but both denied having a dollar. Have a hunch that Van Greene is the one responsible.**

★ **Isn't that little Jack Dale Smith a honey? We haven't met his parents but are quite fond of the grandparents Smith and Auntie Sue.**

★ **Mrs. J. W. Guter was in the other day ordering recital programs. Told us she was going to A. and M. for mother's day with John—they call him little John but he isn't. Anyway when we saw John thought him handsome but Byron is equally good looking—he came in later to pick up the programs. Mr. and Mrs. G. must be mighty proud of their sons.**

★ **The love bug must have bitten everyone in the community. Never heard of so many weddings: including Dexter Nebhut and his pretty blonde fiancée, Vivian Vestal. They plan to marry on June 12.**

★ **The new evening supervisor at West Plains Hospital is a pretty thing—but awfully tiny; she is either going to have to fatten up or carry a rock in her pocket to keep from blowing away.**

★ **She and the new doctor, his wife and son, arrived just in time to experience one of our better dusters.**

★ **Dr. Metzner was unusually kind, when we interviewed him, spelled out Lovola and Physiology without even being asked. Either he can tell by looking or Artie had tipped him off that he can't spell worth a darn. In writing our introductory story of Dr. M it just occurred to us that the highly technical titles used in his medical writings might not mean much to those persons who haven't a medical dictionary handy, (after all, if we knew it all, there would be no need for doctors). Anyway a lot of his studies and writings have to do with cancer; it appears he has written something on how to go to sleep without one of those things over your nose or a needle in the back; getting people out of bed soon after they've been operated (we did this and it works beautifully); and what to do if one has a sudden stomach ache.**

★ **Mrs. A. R. Dick, who lives in our guest house very kindly offered to tend the roses. Sure enough she is out bright and early each morning cutting weeds, watering and so on. Hope the roses are properly appreciative and bloom profusely for her.**

★ **Which reminds us—an avocado seed we planted in the hole in living room floor has started growing and we expect to have avocado salad most any time. The gardenia hasn't done so well so the spouse will have to keep on buying corsages, for a while anyway.**

And have we been eating cake? Geneva Nicewarner came in one evening not long ago with one that was simply wonderful and then Thursday Mrs. C. A. Baird sent in the biggest and best angel food we ever tasted.

★ **Not only have we been eating cake but arrived at hospital Friday afternoon just as the staff was sitting down to home made ice cream brought in by Mrs. Drennan. It was good and is simply elegant for waist line purposes—expanding, this is.**

★ **The Nicewarners, Williamsons and Stricklands out on plutocrat avenue (South Main Street) have the most beautiful lawns. The Murray Crones are working on theirs and have a good start; we understand that Helen and Truman Doss are going to start the lawn at their gorgeous new home just as soon as construction is finished.**

★ **Haven't seen the Tucker and Hatcher homes but those who have say they are both wonderful; with large rooms, lots of windows etc. However the Doss place has the most plate glass we nearly ever saw. There are huge picture windows on both east and west sides.**

★ **BETTER SMILE, STRANGER**
An Easterner was being driven by a rancher of a blistering and almost barren stretch of West Texas when a gaudy bird, new to him, scurried in front of them. The Easterner asked what it was. "That is a bird of paradise," said the rancher.

★ **The stranger rode on in silence for a time, and then said: "Pretty long way from home, isn't he?"**

★ **THOMPSONS ATTEND AIR MEET IN PAMPA**

Judge and Mrs. Glenn W. Thompson and children, Treva Jo and R. E. flew to Pampa last Sunday morning where they joined 150 other pilots and fliers in a breakfast and sight seeing tour of the city.

★ **Because of poor visibility the Thompson plane was grounded once before reaching Pampa. One plane enroute to the meeting cracked up with all occupants receiving injuries, it was reported by Thompson.**

★ **The Thompsons spent Sunday night with relatives at McLain, returning Monday to their home here.**

★ **MR. AND MRS. W. J. BAKER and daughter, Mrs. Gaylor Shaw of Bledsoe, visited here Tuesday with their daughter and sister, Mrs. Lucille Rosetta.**

★ **SUNDAY IS MOTHER'S DAY—SHOP AT MINNIE'S FOR YOUR MOTHER'S DAY GIFTS.**

1936 Study Club Hold Last Meeting

Mrs. P. B. Ramby was hostess to the 1936 Study Club for the last meeting of the current year, Wednesday afternoon, May 3. There were 16 members present and three guests, Mrs. W. W. Williamson, Mrs. Joe Nicewarner and Mrs. Roy Hill.

The program, a study on, "The South in Fiction" was concluded by Mrs. James St. Clair and Mrs. R. C. Strickland.

Mrs. L. F. Hargrove, Federation chairman, presented Mrs. Albert Morrow with half dozen roses for answering the most questions on Federation during the past club year.

Mrs. C. M. Cravy, retiring president, gave gifts of cups and saucers containing cacti to each past president and honored them with a musical reading, "When Earth's Last Picture is Painted," she was accompanied at the piano by Mrs. St. Clair.

During a business session members agreed to extend membership in the club to 25 and voted to fine members \$1.00 each for failure to notify hostess when unable to attend.

Installation dinner will be held Wednesday, May 17 with Mesdames E. Greer, F. F. Roberts, Joe Gipson, Jess Burns and J. B. Knox as hostesses.

Morton Merchants Appreciate Your Business, Invite You to Shop in Morton

Morton Chamber of Commerce in co-operation with business firms of the city are sponsoring a weekly Trades Day program at which time cash awards will be given away.

The first drawing will be held Saturday afternoon, May 13, at four o'clock on the court house square. Ticket holders must be on hand to receive award.

Tickets may be secured from firms participating in the Trades Day program. When shopping be sure to ask for tickets.

Business firms of Morton and the Chamber of Commerce invite the entire trade area to Shop and Save in Morton. Prices and quality of merchandise offered for sale in Morton compare favorably with stores everywhere.

The function of a Chamber of Commerce is not to indulge in idle boasting, but to act as a clearing house for ideas and concerted civic enterprise; in an effort to help solve the community's problems; to improve its facilities;

to make it more attractive as a center in which to trade; and to make it a more desirable community in which to live.

This program, originated by the Chamber, was designed for this purpose. The Chamber of Commerce is grateful for whole-hearted cooperation shown by participating firms in this venture; which was designed as a mutual get acquainted program for Morton business firms and citizens of the community.
