

## Judges And Commissioners Call For Overload Law Enforcement

The West Texas County Judges and Commissioners Association recently called for the intensified enforcement of laws to stop overloading and ruination of state's highways and roads.

The enforcement request was made in a resolution issued by Judge Otha F. Dent of Littlefield, association president.

The group called upon the State Department of Public Safety to "intensify a strict enforcement" of the highway laws, "particularly those offenses of overweight oversize and speeding of heavy commercial vehicles."

In the resolution the judges pointed out that the state has only 32 license and weight inspectors now employed to patrol the state's 33,645 miles of highways.

The judges urged each county to initiate vigorous and sustained program of law enforcement to protect the roads, bridges and highways of the state.

This selfish and ruinous practice of overloading the roads is destroying them faster than they can be rebuilt or replaced and is

placing an extra heavy and unfair tax burden upon citizens who used said roads and respect the laws," continues the resolution.

## Mr. Cavalier In Morton Monday

Tall, handsome and dressed in a costume representing one of the most romantic periods in history, Mr. Cavalier arrived here Monday. Mr. Cavalier headed a friendly force of several automobiles bearing banners heralding R. J. Reynolds Tobacco Company's new, extremely mild King-size Cavalier cigarettes.

Following the parade, Mr. Cavalier dismounted from his unique musical car and mixed with crowds in the shopping district. He dispensed complimentary Cavalier cigarettes to the curious among whom were many members of the fair sex who frankly admired the young gentleman.

Cavaliers are now on sale at stores all over town.

## MESSAGE TO OUR CITIZENS

On Monday, May 15, the U. S. Savings Bonds Independence Drive opened throughout the nation, continuing through the Fourth of July. Its symbol is the Liberty Bell, encircled by the campaign theme: Save for Your Independence—Buy U. S. Savings Bonds.

The year-around Savings Bonds program, of which this annual campaign is an important part, fosters the spirit of self-reliance and the urge for self-betterment that, along with individual enterprise, inventiveness, productivity and thrift have carried us steadily forward since the first settlers braved the wilderness to build a free America.

Through regular savings we build up reserves against misfortune and provide income for our later years, thus lessening the burden upon others. We accumulate funds for worthwhile purchases and investments. The buying power we store up (individual savings in E Bonds alone exceed \$34 billions in cash value today) helps to stabilize business and employment through the years.

As your Mayor, I urge all to participate in the Savings Bonds program. The more we spread the habit of regular savings, through the savings plan, the more we shall have done for ourselves, our community and our nation.

In honor of the Liberty Bell, hallowed symbol of the American principles by which we live and grow and prosper, I call upon our citizens to buy U. S. Savings Bonds.

ROY T. TARVER,  
Mayor, City of Morton.

## Combination Loan Provision To Be Discontinued Soon

Veterans Administration has issued instructions setting October 20, 1950, as the effective date of the provisions of Public Law 475 terminating combination, or second mortgage loans, as provided under Section 505 of the Servicemen's Readjustment Act of 1944, Robert W. Sisson, Manager of the VA regional office has announced. This is to carry out the provisions of law requiring that this type of loan be discontinued not later than December 31, 1950.

To effect this transition in an orderly manner, and giving full consideration to the interests of veterans and existing plans of veterans and the home building industry, four dates have been established for four successive steps.

Under the law, combination loans are of two classes. One class requires that the loan have prior approval of the Veterans Administration before a guaranty will be issued. In the other class, known as supervised loans, no prior approval is required. Two of the steps in cutting out combination loans apply to prior approval and two of them apply to supervised loans.

The steps are as follows: After July 20, 1950, prior approval of second mortgage loans will be generally withheld unless the first mortgage loan is at a rate of 4 1/2 per cent or less.

After August 20, 1950, guaranty will generally be refused on supervised loans except where the first mortgage loan is at 4 1/2 per cent or less. After September 20, 1950, certificates of approval will not be issued on new applications for prior approval on combination loans. After October 20, 1950, combination loans will not be guaranteed. All loans already in process prior to this date will be completed.

## Travis Shelton Announces For District Attorney

Travis Shelton, who has resigned effective June 1 as an assistant county attorney of Lubbock County, made a formal announcement Saturday in connection with his candidacy for district attorney of the 72nd judicial district of Lubbock, Hockley, Crosby and Cochran counties.

Shelton served as an assistant county attorney of Lubbock County for 13 months. He is 29 years old, married to the former Mary Metcalf of Lubbock. He has lived in Lubbock county since 1930, when he moved from Tascadero, California.

Shelton was born and reared on a Lynn county farm, the son of Mr. and Mrs. S. L. Shelton of Tascadero. After attending public schools of Wilson and Taboka, where he was graduated, he entered Texas Tech. He attended there three years prior to the war, working his way through school at various jobs that required an average of 40 hours of side work a week. His legal education was interrupted by 43 months of service in the Armed Forces, 22 months of which was spent in the Pacific.

Upon discharge from the service, Shelton entered the University of Texas Law school and, while in attendance there, was elected as a member of Phi Kappa Phi, honorary legal fraternity, and was graduated with a bachelor of laws degree in January, 1949. He was admitted to the State Bar of Texas in November, 1948.

Shelton is a member of the State Bar of Texas, the Lubbock County Bar association, the Lubbock Lions club, the Lubbock Social Welfare association, and the Methodist church.

Announcing his candidacy for district attorney, Shelton said: "I fully realize the importance of the responsibilities of the district attorney's office and in making this office I am asking the people of the 72nd judicial district to place in me their trust and confidence that I will discharge the duties of this high office fairly and vigorously. I believe that my experience as an assistant county attorney of Lubbock county, where I have participated in the trial of more than 100 criminal cases, will qualify me to serve the people of this district as your district attorney in a capable manner.

"I pledge full cooperation with the courts and all law enforcement officers in an all-out effort to prevent organized crime, and to prosecute to the limit of the law those who have been charged with violation of the criminal laws of the State of Texas.

"I will call on as many voters of the 72nd judicial district as is possible during the 60 days to assure you personally that I will work hard to elect to justify your confidence."

Grade School 4-H Club at Whiteface. Mrs. Cecil Masten is leader of the senior group and Miss Mabel Ann Manley, Cochran county home demonstration agent, has supervised her 4-H work.

Winning statewide honors is not new to the Keith family. An older brother and sister have both won trips to National 4-H Club Congress in addition to many county and district awards. The father and mother have for many years been active supporters of the 4-H program in Cochran county and are themselves demonstrators.

Miss Keith's activities in church and school affairs and her scholastic rating in school were all considered by the committee that made the final selection.

Last year more than 1,000 youths from every state and Canada attended the various sessions of the leadership camp. The purpose of the training is to help the young people discover and develop their best selves so they can help others.

Carl Meziel of Menard county was chosen as the outstanding four-square 4-H boy and will attend the August 14 to August 27 session of the camp.

## REEL NEWS

By Wallace Theatre

Although science has found a way to induce rain artificially, it remained for Hollywood to devise a method of making clouds. This unnatural phenomenon was accomplished during the filming of Paramount's Technicolor action drama "The Eagle and the Hawk."

Most of the picture was shot on location in Arizona where clear, blue skies threatened to hold up production because cameraman James Wong Howe insisted he needed clouds for proper scenic effect. He got them, too, when someone suggested using skywriting planes.

It's getting so a farmer's daughter isn't safe these days—safe from the movies, that is. The latest corn-fed beauty to forsake the farm for fame is lovely Donna Reed, who co-stars with Alan Ladd in Paramount's thrill-packed newspaper drama, "Chicago Deadline."

The Denison, Iowa, miss, who was once a 4-H Girl, joins the ranks of such rural-born actresses as Ann Sheridan, Brenda Marshall, Jean Peters and Coleen Gray, all of whom had to remove hayseed from their hair before making the trek to the film capital.

In fact, until she arrived in Hollywood to attend college, Miss Reed had never worn high heels or used a stick of makeup. And it was her refreshing natural beauty that won her a motion picture contract after she had been crowned campus queen.

Nonetheless, she believes country girls planning film careers should be equipped with more than sun-tans.

"Take all the dancing lessons you can manage," she advises. "And when you feel like giving up those piano lessons, remember they may come in handy later on. Acquire as much poise as possible without becoming artificial, and read all you can on both sides of questions." It worked for Donna Reed.

As a rule, whenever an actor finds food in front of him for a scene in a picture, he eats just enough for the scene to be completed and then the food is removed.

## Why "Moose" Changed His Mind

Last week, parents were calling Moose Jackson on the phone—and kids were hooting at him in the streets. All because Moose fenced in his field near the depot, where the kids like to play ball.

Moose got sore the way folks acted—refused to budge. Then Doc Sherman, who likes to play center-field himself sometimes, decided to "use a little psychology."

Over a friendly glass of beer at Andy's Garden Tavern, Doc says, "Sorry this came up, Moose. We were thinking of asking you to umpire—what with your professional

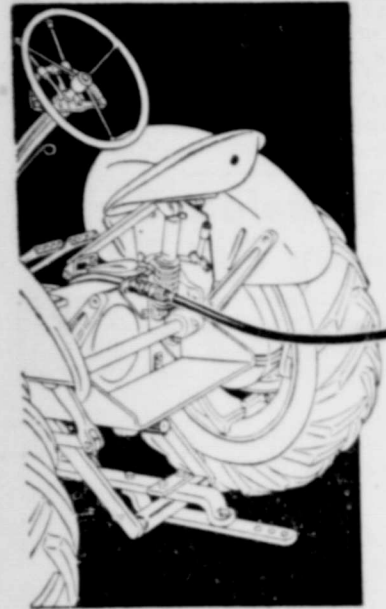

experience and all." (Moose used to play a little semi-pro ball.)

That did it! Next day Moose put up a stile over his fence. In return, the kids promised not to cause any damage. From where I sit, when you try to understand the other fellow's point of view—like his personal preference for beer or coffee—and then take into consideration the will of the majority, why things seem to go better all around.

## Lions Hear Talk By Dr. Metzner

Dr. W. R. T. Metzner of West Plains Hospital spoke to Morton Lions Wednesday, May 17 on progress and research made in the past in treatment of cancer and its possible future eradication.

Dr. Metzner cited most common occurrence of cancer as in the stomachs of men and uterus in women, saying, "cancer is curable or arrestable only if diagnosed in early stages; and early diagnosis depends on the individual as much as the doctor."

Continuing, the speaker said, "Cancer is an insidious disease and by the time it becomes painful it has spread to such an extent that cure is almost impossible."

Dr. Metzner said that most people who suspect they have cancer become so alarmed they refuse to see a doctor, hence delaying early diagnosis and possible cure.

He gave a brief summary of research work that has been done in past including experimental tests for diagnosing cancer and development of surgical, radium and x-ray techniques for removal and treatment of cancer.

M. C. Ledbetter gave report of nominating committee. Additional nominations were accepted from the floor.

Tom Arnn Jr., and L. W. Barrett were in charge of the program. The speaker was introduced by Lion Arnn.

Visitors other than the speaker were Rev. Joe Wilbanks, Emil Timian, Lubbock; and Lynn Reeves of Big Spring.

**Heart Disease No. 1 Texas Killer, Says Dr. Cox**

Austin, Texas.—Heart disease is the number one killer in Texas and last year there were 18,003 deaths from diseases of the heart, said Dr. George W. Cox, State Health Officer.

What kind of a heart have you? The periodic check-up with your physician will tell you. The Tuberculosis Survey in the state conducted by the Texas State Department of Health has brought to light many non-tuberculous abnormalities, some of these have been heart conditions.

The three present major forms of heart trouble are: rheumatic heart disease, high blood pressure and coronary heart disease. Rheumatic heart disease, the most common type of early life, occurs as the result of one or more attacks of rheumatic fever. It is a public health problem for which very little has been done, yet with early diagnosis and proper medical care during the acute and convalescent stages, children who develop rheumatic fever can be largely spared from rheumatic heart disease in later life.

Another major cause of heart trouble is high blood pressure or hypertension. This is the most common heart disease of middle age. There is a great deal that is not known about this disease, but we do know that it is most common in people who are overweight, and that it is associated with long, continuous nervous strain, high tension and constant worry. Treatment of high blood pressure is fairly successful in the majority of cases.

Coronary heart disease is a disease of the arteries which supply the heart muscle itself with blood. A majority of persons survive the first attack, and with good medical care, rest and common sense precautions, may even live a normal life span. Syphilitic heart disease can be prevented by early and adequate care of the systemic disease, a problem which has been simplified by the use of penicillin.

Research in the medical sciences is constantly improving the outlook for the cardiac patient, yet each individual must assume the responsibility for obtaining the benefits of this knowledge from his physician for himself and family.

**OVER HEARD ON THE FAIRWAYS  
AT MORTON COUNTRY CLUB**

By V. L. L.

Ex-Mayor and present President of MCC, T. L. (Tom) McAllister is experiencing a lot of good-natured "ribbing" since his trip to Denver City last Sunday.

It seems Mr. Mc turned in 90 for qualifying score and was placed in the fourth flight which he promptly won, \$50.00 in trade at Denver City stores was the award. The "catch" seems to be that he had to shoot three under par in order to win one of his matches.

Apparently the DC golfers think the ex-Mayor whitewashed his score as it has been reported that they are offering a \$10.00 reward to any one who will notify members of Denver City Country Club when he will be "through town" again.

It is rumored that Snowball Willis, James St. Clair and J. D. Hawthorne were not very happy last Sunday afternoon when Dr. Lawson fired a 35 (or one under par) at them; thanks to a lucky putter. Don't giggle but Snowball still throws the golf clubs.

Bill Williamson is still 'cussin' that iron pipe fairway marker he hit two weeks ago in his match with Fifer Ramby. Bill didn't practice this shot in his numerous practice sessions.

'Tis rumored the recently organized Women's Club plan to hire some one to keep the club house looking nice and clean also drag the greens once a week. This gets a hearty 'amen' from all the golfers.

Hume Russell has agreed to teach anyone who wishes to learn, "how to putt."

Members of club are wishing that Willard Cox and Hume would hurry and get the "parking space" finished at club.

No's 1, 3 and 5 greens, certainly need oiling and those responsible for them are urged to finish their job.

The tennis court should be finished—so those who do not play golf could entertain themselves while waiting for their golfing husbands.

New benches and tables recently donated to club are genuinely appreciated and hearty thanks to all those responsible.

Several members have been enjoying picnic lunches at the club lately; they and their families go out after working hours.

**OFFERS TO PAY FRIENDS  
IF HADACOL DOESN'T HELP**  
HADACOL HELPS SUFFERERS OF  
VITAMIN B<sub>1</sub>, B<sub>2</sub>, NIACIN AND IRON DEFICIENCIES

Mrs. Wallace tells her granddaughter, Maynell Wallace, over the phone how HADACOL brought relief to her.

Mrs. Belle Wallace, 449 Formwalt St., S. W., Atlanta, Ga., is so grateful to HADACOL for the messages it has brought her that she has recommended HADACOL to a number of her friends. She told them she would pay for their bottles of HADACOL if it didn't help them. She explains with a smile that she hasn't had to pay any of her friends, because HADACOL has helped them.

Mrs. Wallace, who is 74 years old, has five children, seven grand-children and two great-grandchildren. She was suffering from a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron, which HADACOL contains.

Mrs. Wallace said: "I couldn't sleep or eat until I started taking HADACOL. I'd lie awake and toss and turn until the small hours of the morning. I was highly nervous. I couldn't even thread a needle. But, since I've been taking HADACOL, my nerves are as steady as a rock. I couldn't eat because my stomach would puff and bloated and fill with gas. I am on the 7th bottle of HADACOL and my stomach is so much better."

**Appetite Good**  
"I have a good appetite and my stomach does not bloat or fill with gas. I sleep like a log. I have recommended HADACOL to a number of friends and have seen, too, I'd pay for it, but I didn't have to because HADACOL did help them. HADACOL has done me more good than anything I have ever taken."

**Why Be Satisfied With Temporary Relief?**

HADACOL also helps build up the hemoglobin content of your blood (where Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs—even to the eyes, hair and nails) to help repair the damage that such a deficiency may be causing there. Countless thousands are benefiting from HADACOL. Why don't you give it a chance to help you? Why continue to suffer? Remember, HADACOL doesn't give temporary relief. Instead, it treats the real cause of your illness when, as so often, it's due to such deficiencies. That's why it's so effective; that's why it is accomplishing such amazing results.

**You'll Feel Great . . .**

. . . with the first few bottles you take, or your money back. There is only one HADACOL and it is sold on a strict money-back guarantee. So give this remarkable HADACOL medicine a chance to help you. It's never too late to start taking HADACOL. Many who despair of improvement found that HADACOL was almost like a miracle for them. Remember that HADACOL is amazingly different and amazingly effective because it treats the real cause of deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron. Make up your mind to take HADACOL regularly. Refuse substitutes. Insist on the genuine. You can't lose a cent, because it's sold on a strict money-back guarantee. Only \$1.25 for Trial size, Large Family or Hospital size, \$3.50.

### --annegrams--

—by ann england—

Had such a nice time at our own party last Tuesday night. All the members came — which meant we didn't play bridge but just sat in the middle of the floor and listened to everyone talk.

Crickett Hickman came by earlier and brought us a beautiful bouquet of American Beauty roses and larkspur in various shades.

And on top of all this Ann Monk did all our telephoning the day of the party.

Too, Mattie Ramby came ahead of time (enroute to the lovely bridal shower being held that same eve in the Roy Hill home for Marie Baldwin) to leave a bridge table and setting of sterling silver.

We only have enough sterling silver for eight place settings—wish we had more—but then it hasn't been too far in the past when we just wished for flatware.

Remember that while we were living in California when we invited guests for dinner we also asked them to bring along their knives and forks unless they expected to eat with their fingers.

And that is just what most of us did at the Country Club barbecue the other night. There were plastic spoons and forks but nearly all preferred to tear into that delicious barbecued chicken with fingers.

Dr. and Mrs. Metzner and their little red haired son were guests of ours along with the Turner Beards, Chester Bairds, Beth Garwick and Van Greene.

Think everyone had a wonderful evening (at the club that is) and the chicken, prepared by Hume Russell, was as good as we have ever eaten.

Van left a new record at Vagabond House and we've played it clear through to the other side. Usually do that with a nice new tune. This one is all about three men on a totem pole or some such foolishness.

Heard that Cathy Huggins did exceedingly well at her piano recital one afternoon last week and looked especially sweet in her little formal dress.

They loaned us an air gun the other day. Don't know exactly what we will do with it as we couldn't hit an elephant at three feet with a .410. Might be useful for scaring off boogers.

Once when we were a little girl a burglar got in our house and Mama had presence enough of mind to scream at Papa. "John get the gun there is someone in the house." It worked—the intruder apparently didn't know Papa didn't have a gun.

Thought we had troubles when along came a note from Vern Sanford, manager of Texas Press Association, with a form about a yard long for us to fill out—wanted to know among other things when we were born and why—the former question we could answer but the latter has never been satisfactorily explained.

Then Maud Green down at Kermit (editor of West Texas Publisher) decides that all the gals connected with West Texas newspapers should write a piece for the Publisher in order to get out what she calls an all Nylon edition.

Sounds mighty strange but we heard that at graduation exercises the other night for Morton High School seniors there were one or more of the students expecting to graduate who were told as they walked up on the stage that they were NOT graduating.

In Mentioning donors of benches and tables for Morton Country Club the names of Alton Burlison of Higginbotham-Bartlett Lumber Company and C. B. Markham were left off. The list was printed in Tribune as given to us but nevertheless it seems Mr. M donated one of those large tables and the lumber company the other.

Ladies of the club took up a

collection at a meeting last fall and used the money for playground equipment which is certainly being enjoyed by the small fry.

Children of club members are also learning to play tennis. The club has a fine double tennis court.

Census report for Morton and Cochran County hasn't been completed yet but all indications are that there are only 6000 people in the whole county. Morton proper somewhere in the neighborhood of 2300—slightly less.

We'll still maintain that it isn't quantity but quality that is most important and we have the latter.

A card from Bill and Isabel Proctor vacationing in New York with her mother.

Expect we will be getting more cards from NY as two more of our favorite people are there. Roger Southall on a holiday and Winston Redwine for some serious study in music.

The spouse says, "nobody is entirely useless; even the worst of us can serve as horrible examples."

#### Helen Pearl Crow, Hardin-Simmons Graduate

Abilene—Helen Pearl Crow is one of 290 students who will receive degrees from Hardin-Simmons university May 29. Miss Crow, daughter of Mr. and Mrs. Fred Crow, will receive a Bachelor of Arts degree.

Over 300 candidates receiving degrees in five various fields will hear Dr. John Wesley Raley, president of Oklahoma Baptist University, speak at Hardin-Simmons University's fifty-eighth annual commencement exercises May 29.

Preceding the commencement address at 10:00 a.m. Monday morning, Rev. James Landes, pastor of the First Baptist Church of Wichita Falls, will deliver the baccalaureate service Sunday morning at 11 o'clock.

Four degrees, Bachelor of Arts, Bachelor of Science, Bachelor of Music, and the Bachelor of Business Administration, will be presented to 290 students completing their work at the university. 20 candidates for a Master of Arts degree will receive diplomas.

Dr. Raley, president of OBU for 16 years, is known all over the nation for his speech making. He has delivered sermons and addresses on an average of one a day for fifteen years and averaged traveling 100 miles a day in making such appointment for 15 years. He has been called upon to speak before various State Baptist Conventions in twenty different states, ranging from Pennsylvania into the deep South and across the nation to California.

Dr. Raley received his A. B. degree from Baylor University in 1923, and received his Master of Theology degree four years later at Southwestern Baptist Theological Seminary at Fort Worth. In 1933 he received his Doctor of Theology degree from Eastern Baptist Theological Seminary in Philadelphia. He was awarded his Doctor of Divinity degree in 1935 from OBU, and last year Baylor University awarded him his Doctor of Laws degree.

Honorary degrees of Doctor of Laws will be awarded at the H-SU commencement exercises to George Anderson, C. M. Caldwell, both of Abilene, and Floyd D. Golden, president of Eastern New Mexico University at Portales, New Mexico.

#### WHITEFACE H. D. CLUB HOLDS MEETING FRIDAY

### Ramsey Announces for Lt. Governor

Austin—Ben Ramsey of San Augustine, who has a long record of service in both houses of the legislature, today formally announced his candidacy for lieutenant governor of Texas.

The tall East Texan resigned his spring as secretary of state in order to prepare to make the race. He was appointed secretary of state in January, 1949, after the late Governor Beauford Herrington and continued to serve until Governor Allan Shivers when he took office.

Ramsey began his political career in 1930 when he was elected to the House from San Augustine County. He served in the House four years and in 1940 was elected to the Texas Senate, where he served eight years.

The East Texas Senator has always been held in high regard by his fellow members of the Legislature, regardless of differences of opinion, and the Senate demonstrated this in 1947 by electing him President Pro-Tempore of the Senate.

Ramsey, born and reared in San Augustine County, has been a leader in the advancement of electrical electrification in the state. For the past ten years he has been attorney for the Deep East Texas Electric Cooperative, and during this time this pioneering utility has grown into one of the largest and most financially sound in Texas.

Ramsey attended the San Augustine public schools and the University of Texas. After leaving the University in 1931, he began practicing law in San Augustine, and immediately became interested in the serious soil conservation problem of the state. He has been active in the farm-to-market road improvement program.

After leaving the Secretary of State's office in Austin, Ramsey and his wife returned to San Augustine where he resumed his law practice. He has been active in all community affairs and has been a member of the Methodist Church for most of his 46 years.

Ramsey said he is running for lieutenant governor because he is convinced that the thinking people of Texas must take a more active interest in their state government, to solve their own problems in their own way.

Ramsey has been a consistent supporter of improving educational opportunities in Texas, and the farm-to-market road improvement program.

### Medicine King

SENATOR DUDLEY J. LeBLANC

HADACOL sales or shipments have reached the amazing total of 5,000,000 bottles since January 1, more of any one tonic than has ever been sold in so small an area in so short a time.

Senator Dudley J. LeBlanc, Founder and President of The LeBlanc Corporation, Lafayette, Louisiana, makers of HADACOL, said the sales and shipments would have been far greater if his company could have obtained enough material to meet the demands.

"We have been several hundred thousand bottles behind in shipments since January 1," said Senator LeBlanc. "It looks like we just cannot catch up because every time we increase production the demand increases."

Senator LeBlanc credited the South's heaviest newspaper schedule with much of the success of HADACOL.

### Social Security Officer to be Here

John Hutton, manager of the Lubbock social security office, will be at the Morton post office at 1:00 p.m. on May 25, 1950. He will be available to answer questions about social security and to take claims for possible benefits under the old-age and survivors insurance program.

Remember — retired workers who have reached age 65 may qualify for monthly old-age insurance payments by filing application as soon as they reach their 65th birthday, providing they have worked long enough on jobs covered by social security.

ROY SMITH spent Sunday in Floydada with his mother.

### Chronic Diseases Big Problem for Texas Doctors

Austin. — State Health Officer George W. Cox believes chronic diseases represent the biggest problem facing health officials today.

Recent statistics compiled by the Bureau of Vital Statistics, Texas State Department of Health, show:

1. One-third of all deaths among 15-29 year olds are due to chronic diseases, with tuberculosis being the leader.

2. "Well over half" the mortality in the 30-40 age group is due to chronic disease, with heart trouble, cancer and tuberculosis being the leaders.

3. "Almost 8 out of 10" deaths in the 45-59 bracket are caused by this disease classification, with the proportion rising to 85 per cent for those 60 to 74 years old.

4. For those 75 and over chronic diseases cause 82 per cent of the total mortality. The slight decrease in percentage over age 75 is because of the high susceptibility to accidents, pneumonia, and influenza among the aged.

"When chronic disease is mentioned, all too many people think of the problem as being confined to the middle-aged or older," the health chief said, adding that such an idea was not consistent with the facts.

The term chronic, Dr. Cox explained, means the opposite of acute. When applied to a disease, chronic means of long duration. That would mean cancer or tuberculosis is chronic, while smallpox or poliomyelitis is acute.

"The significant thing," Dr. Cox indicated, "is that the chronic disease classification cause one-third of all deaths among young people in the 15 to 29 age bracket."

"Obviously, that makes the teen ages the first age at which the diseases assume a major mortality role."
