Just how much can one man give to his Country and his People?

When the man is Thomas Alva Edison, there is almost no limit. On February 11, when we commemorate his birth 104 years ago, we are aware, to an even greater degree, of the debt we and other free peoples owe his inventive genius... genius which helped us harness the great power of electrical energy and make it work for us.

His more than one thousand patented inventions range from a lead battery, giving our armed forces greater maneuverability than any other, to our electric lighting system which is so vital to our way of life... from an x-ray tube to a fluoroscope... from a phonograph to the movies. Indeed, it is with the deepest gratitude that we today again offer our tribute to Thomas Alva Edison, benefactor to us all.

Last Tuesday we again enjoyed the annual visit of pretty, little Mrs. J. D. Lindsey (she owns Tribune building); as usual she brought us a gift. This time a jar of luscious apricot preserves. Apricots were grown on a tree in Mrs. L's yard.

★ Couldn't help but smile when reading Elmer Akin's letter to his folks. It seems that before being hospitalized Elmer had sent all of his money home and after getting to Japan he found several items in the hospital PX that he wanted, mainly a "high powered camera." Elmer wrote, "I must be camera crazy or something." On that score Elmer certainly isn't alone.

★ Stalking around last week, bundled up in everything we possessed, in an effort to keep warm we couldn't help but think of our servicemen in Korea. Practically every letter has mentioned the extreme cold. Robert Weed said, "we freeze all the time." The awful part is they aren't going anywhere. Most of us were only out long enough to get from our warm homes to warm offices and vice versa.

★ We haven't graduated to an electric blanket yet but have been snuggling down with a heating pad. The first night we put that thing in bed we were reminded of a hot flat iron wrapped in cloth that mama used to use on cold nights. Of course that was way back when.

★ When we were quite small that is and before the vogue for baby sitters so if papa and mama were going to a party we went along. Papa had one of the nicest buggies in the community, rubber tired wheels with yellow spokes and since there were three of us, our buggy had a driver seat and two horses were driven to it.

We aren't a collector, and old things, unless useful, mean very little but there is one thing we'd like to have and that is an old timey scratchy lap robe. The one we remember in particular had a big dog in the center.

★ We've had several compliments on last week's "Allsup" special and would like to say here and now that our friend Allene Curry did all those delightful personality sketches of Allsup staff. Of course we had to feed A on three week-ends and take her on a trip to Tucumcari but probably would have done it anyway.

★ Needless to say we appreciate very much Allene's help. She writes well—when she is in the mood and can be persuaded.

★ A nice note from Mrs. Robert Hill at Big Spring:

Dear Ann: I hope that I can say this, and it is OK with you. I feel like I have known you for a long time, but still I have never seen you. After reading your paper for two years, and enjoy every word of it. I hope I can call you a friend.

★ Thanks, Mrs. Robert Hill. Thank you very much Mrs. Hill.

★ Pretty Dorothy Ormand left last week with her parents-in-law of Sudan for a holiday at Galveston, Texas. The senior Mrs. O. is a charming and graceful person.

★ Understand Reagan will soon go back into active service as a Colonel.

★ Nearly everyone has some sort of copper planter and often after a few months they corrode. If you are just buying one, coat with paraffin before putting the dirt and plants in and it will not corrode.

★ We are always looking for a new "dip" for potato chips, crackers or toast rounds and this one made with avacados is delicious: Combine a cup of sieved calavos with 1/4 teaspoon curry powder, 2 teaspoons vinegar, a few drops tabasco sauce, salt and pepper to taste.

★ Several people have complimented our green salads and we are sorry we can't give a recipe. But we haven't one—just make the salad up from whatever happens to be handy—ditto the dressing. Liking lettuce we use a lot of it and vary other ingredients, using anchovies occasionally—boiled eggs, cheese, tomatoes etcetera.

★ Now that Norman and Ann Monk are back in town we will have to start identifying ourself as ann e again.

★ Ann is going to have a baby—Ann M. that is, and they are both thrilled to a polka dot.

★ So sorry to have missed a visit with Mrs. Gowdy Saturday morning. She came by for that purpose and we were out.

★ We were goggle eyed over a beautiful new Oldsmobile last week but the spouse finally had to tell Mr. H. S. Hawkins that we were just fresh out of money.

★ Sizes are sometimes deceiving. At times a man's thumb has a woman under it.

Girlstown Advisors Hold Regular Monthly Session

The monthly meeting for Girlstown was held Tuesday evening, January 30, in the main building at Girlstown with Miss Amelia Anthony presiding.

During the business session it was decided to have a regular advisory Board of fifteen members, and have five classifications for the members: finance, publicity, public relations, business manager and grievance.

A social hour was enjoyed after the business with folk and square dancing. Representatives from Lubbock, Whiteface, Morton, Levelland and Sundown were present. At the close of the evening, coffee and cake was served to the guests.

Kenneth Bryant Stationed at Great Lakes

Kenneth C. Bryant, seaman recruit, USN, of Route 2, Morton, Texas, is undergoing recruit training at the world's largest Naval Training Center, Great Lakes, Illinois.

Recruit training is the sharp break between civilian and Naval life in which the new Navy man learns the fundamental principles of the Naval service.

In the course of his training the recruit is taught seamanship, Navy customs, terms, basic ordnance, gunnery signaling and navigation.

Upon completion of his training the recruit is assigned either to units of the Fleet or to a service school for specialized training.

Pictures Made For Garden Club Flower Contest

Pictures of flower arrangements by members of Cochran County Garden Club were made Friday evening by Mrs. Carl England at the England home.

These pictures will be entered in a contest sponsored by District 1 Garden Clubs.

Two large arrangements by Mrs. Roy Hill were photographed in her home. One was a table arranged for a tea and the other a shadow frame entitled, "I'm Dreaming of a White Christmas."

Mrs. C. W. Davis, president of the garden club, had two arrangements; one, a table for a child's birthday party. The centerpiece was a cake, shaped, frosted and decorated as a circus wagon replica, drawn by pink ceramic ponies. Tiny bouquets in antique orange cups, set on paper doilies with heart cut-outs marked places for small guests. The second was a modified Japanese arrangement employing flowering branches and figurine.

Mrs. Elizabeth Greer's arrangement featured a Southwestern theme. She used Cacti, with driftwood and a Mexican water jug as background.

Mrs. A. A. Fralin used rose colored gladioli in a low crystal bowl with green tapers for her arrangement. Mrs. J. A. Gowdy made a formal arrangement using Ming tree and accessories on a dark cocktail table.

The arrangement by Miss Mabel Ann Manley was composed of roses and greenery. Mrs. England used small white chrysanthemums in a Brass bowl on a teakwood stand.

Entries will be sent in as soon as pictures are ready.

Maxine Tyson Recovering From Appendectomy

Miss Maxine Tyson, daughter of Mr. and Mrs. John Tyson of the Maple community, was operated on for appendicitis at Canyon Hospital, Tuesday, January 30.

Jake's Cafe Makes Large Collection

In the current polio drive credit goes to Jake Carroll, operator of Jake's Cafe, for turning in the largest single collection from a place of business in Morton.

Mr. Carroll asked Thursday the iron lung replica be accepted since it was filled to capacity.

The remarkable thing about the collection is that Mr. Carroll's is one of the smaller businesses in Morton and customer traffic is not as great as in the larger places.

Mr. Carroll not only contributed generously to the drive but brought attention of his customers to the iron lung.

What Is A Newspaper?

By WILLIAM R. NELSON

Every American old enough to read is familiar with the home newspaper. Yet, how much do the readers know about it? How well do they understand its problems and actions; its place in their lives, in the community, state and nation? Just what is a home town newspaper?

Dictionaries have varied definitions of "newspaper," but none contains the full meaning of the word. Even journalism's "Hall of Fame" editors have given widely different definitions of what we in the United States call newspapers.

and a partnership in which the owners, the advertisers, the readers and the community all have interests. In addition, it is a manufacturing plant for production of printed matter.

Unlike a food store, it cannot feed its community's people. But it advertising columns can nurture the food store.

It cannot render banking service, but newspapers have been banks' best protection against the damage misinformation or misguided interference might cause.

Tasks To Perform

This newspaper does not practice medicine, but it can play a vital part in preventing disease or the spread of epidemics. It is not a lawyer or a court, but it can prevent or correct injustice.

Neither the publisher, nor the members of the paper's staff will claim superior status in the community. They admit only that the paper tries to do its job. But to the outsider, whether President of the United States or traveling salesman, when the mood and measure of this community is desired, the place to go for the information is the office of the home town newspaper.

The Parallel of History

Let the man speak:

"In every quarter and at every moment, the hand of Government was felt. Duties on importation, and exportation; bounties to raise up a losing trade, and taxes to pull down a remunerative one; this branch of industry forbidden, and that branch of industry encouraged. . .

Then, too, we find laws to regulate wages, laws to regulate prices, laws to regulate the investments of money; custom-house managements of the most vexatious kind, aided by a complicated sliding scale of such perverse ingenuity that duties varied on the same article, and no

man could calculate beforehand what he would have to pay.

"The tolls were so onerous as often to double and quadruple the cost of every article.

"A large part of all this was by way of protection. The money was raised, and the inconveniences suffered, not for the use of Government, but for the benefit of the people. In other words, the industrious were robbed, in order that industry might thrive. All the most important interests have been grievously damaged by the attempts of legislators to aid them . . . by an interminable series of regulations, all intended for (industry's) good, and all inflicting serious harm."

The man who spoke thusly was Henry Thomas Buckle. The nation of which he spoke was France, a pioneer of such "social reforms." The book from which the quotation was taken is Buckle's "History of Civilization in England." It was published in 1857.

It contains a lesson for Americans. For the period of which Buckle wrote coincided with the decline of France as a world power.

IT'LL TAKE ALL WE'VE GOT

Looking Ahead

By George S. Benson
President, Harding College
Searcy, Arkansas.

LETTER FROM A VETERAN

Surveys have been made which show that the various phases of the Harding College National Education Program are reaching a combined audience of about 25 million people every week. A heartening compensation for those of us who work in directing and operating this widespread effort on behalf of maintaining the American way of life is the contents of the mail that flows in from all sections of the nation and from all kinds of people.

More and more people are beginning to put their minds to work on the national issues which once seemed so remote but which now have begun to be recognized, properly, as affecting the future, life, liberty and happiness of everyone. Nothing gives me greater encouragement than a letter from someone who is sincerely struggling with these national problems, or who has arrived at a personal conviction, and is willing to back up that conviction with high moral courage.

Yes Or No?

Such a letter recently came to my desk. Whatever we may think of the writer's expressed convictions, the fact that he is grappling with problems that concern us all and the high moral quality of his citizenship, ought to be a strengthening tonic for everyone. That's the chief reason I'm nassing it along.

"This morning, while working about the house," he wrote, "I heard your radio program—the story about Lebanon Immigrant who found opportunity and happiness in this county, and I decided to write to you concerning my views on this economic struggle which is approaching. I am a school teacher and coach, having a very modest income. Recently we teachers received a communication on which were a series of questions we were asked to answer. One question asked whether we would like to have a substantial increase in salary. An amount was mentioned that would make any teacher's heart flutter. If we were opposed to this nice salary increase, we were asked to register our opposition.

Making His Point

"The State Legislature was to convene soon and the survey going throughout the state to all teachers was to accumulate their opinions on the matter and seek to justify a request for additional funds. The fear is that teachers will again begin to leave for war work in war industries. Such a possibility is not in my mind as I am a member of the Air Force Reserve and probably will

have another tour of duty. But I was opposed to the salary increase and as far as I know I have been the only teacher in our system who is opposed.

"The point, now, of my letter is to make the suggestion that somewhere, some place, the people of the U. S. should face reality and realize that if our ruinous spending continues we are apt to end up as the Roman Empire, victorious in every war but a decadent civilization, ruined economically. In your position you have a voice and perhaps if enough people voice their feelings to you your voice or pen can do something in high places that I, as an individual can't.

Bothersome Questions

"Why doesn't the government conscript labor and pay the same as to service men? Why not begin to roll back some prices? Why not begin to roll back Army and other pay, especially in the officer rank (I am commissioned officer)? Why can't the American people be made to feel that war is not the time to make money or live as usual? Why not get us all mobilized, pull in our belts and realize that Democratic victories are not apt to continue forever unless we all sacrifice? How, in the face of pictures and releases coming from Korea, showing and telling of hapless millions of starving, migrating, freezing people, can conscious and conscientious Americans who profess to be Christians, demand more and more.

"Let's pull in our belts and go to work—sensibly."

This is the kind of soulsearching and willingness to sacrifice that our country can stand a lot of. And his act of writing the letter, however debatable may be its contents, is fulfillment of one of the truly important demands of American citizenship. As an individual he can be influential in "high places." Such sober thoughtful letters are the kind that influence the acts of our elected public officials.

Blue Wins This "Hunt"

Cappy Miller's coon dogs—except for one of them, Old Blue—are about the finest hounds in the county. Blue's too friendly and easy-going to care much about hunting. He doesn't act the way we think a good dog should, so we figured he'd never amount to much.

But a fellow comes around Saturday looking for a good dog to photograph for some advertising. And the dog he picks is Blue! Says Blue's happy, friendly face is just the one to attract people's attention. So Cappy gets more money for that picture than his other

dogs will ever take in hunt prizes.

From where I sit, that should teach us not to look down on humans, when they act differently than we think they should. For instance, maybe you think tea goes best with food. O.K.—but don't size up wrong the man who enjoys a bottle of beer at mealtime.

Like Blue, I guess we're all "different" in one way or another—but that doesn't mean we don't have our good points, too!

THE LAW AND YOU

By ROBT (Bob) KIRK
Attorney, Lamb County

Do You Know why there must be court action upon the will of a deceased person?

This a protective measure set up by the legislature to protect the estate of the deceased. If it were only necessary to file a will in the County Clerk's office when a person died, there would be no assurance to those who examined the records later, that a false will had not been filed instead of the true will. By requiring that the will be proved to the satisfaction of the Court that it was the last will and testament of the deceased, it becomes a link in the chain of title to any real estate owned by the deceased. Should any person have reason to doubt the genuineness of an instrument offered to the Court as a will, then he has an opportunity to examine the same, and present to the Court his reasons for believing the will not to be genuine. Then the Court can examine into the matter, and after hearing all the evidence for and against the question can pass upon whether the will should or should not be accepted.

Tribune Want-Ads Get Results.

Progress shown by this Session of the Texas Legislature, in getting down to business right from the start, is such a change from past Legislatures that much talk is heard as to the reason why.

Many believe it is because of the war and the seriousness of the times.

Others say it is because Speaker Senterfit was able to announce committee assignments on the first day. No doubt the Speaker put in a lot of hard work on organization before the Session started, and on his own time, for legislators are paid for the 120 or so days the Legislature is in actual Session.

But the Speaker, himself, is the first to say that he alone could not have accomplished the change; and he, repeatedly, has commended the entire membership for their attitude and effort.

As one member expressed it: "Sure we've changed. Times are different, so people are different. Got to strengthen the economy, they say. Everybody's building. Everybody's busy. New styles, new methods, new everything. Some of this newness just rubbed off on the Legislature."

Maybe so. Anyway, it is not for us to reason why so much, but to accept this change in legislative processes for the good that it is, and be glad for it.

Lately your neighbor's children have added to their knowledge of horticulture by pulling up by the roots most of the shrubs and flowers set out at a cost of about \$500. Muleshoe Downs Morton Girls To Win Tournament

By CHARLES SPENCER

Muleshoe took first in the Morton girls tourney Saturday night having defeated the Morton girls in the finals.

The Muleshoe lasses beat Levelland by a narrow 1 point margin in the first game, the score being 33 to 32. Malone and Locke each made 10 points for Muleshoe while Alexander of Levelland scored 24.

In the second game of the tournament the Whiteface "B" string beat Morton's "B" team 22 to 6. Mills and Cooper sank 2 points apiece for Morton. Wylie, highpoint player of Whiteface, contributed 5 for her team.

Threeway downed Smyer 56 to 46 taking the third game. High point players of this tussle were Tyson of Three Way, 27 points, and Schulle of Smyer, 22 points.

In the fourth and final game of the first night Morton scored a victory over Muleshoe after playing overtime. The scores were 30 to 28. Of Morton's 30 points 20 were divided equally between Waller and Doyle. The other 10 were made by the following: Baldrige, 6; Mills, 3; and Kennedy, 1. Wagner scored 18 for the Jennies. This was used merely as a filler and was not important to decide the winners of the tourney.

At the end of the first night the teams which were undefeated were Whiteface's "B" team, Three Way, Morton, and Muleshoe.

As the second day's activities got under way Smyer rolled Morton's "B" team 43 to 28; this game was played at 2 p.m. Friday. Weed of Morton chipped in 10 of the 28 points the remainder being divided unequally among Moore, Cox, Cooper and Shakespear. Schulle dropped 18 points for Smyer.

Morton's "A" team was more successful in the second game when they beat Three Way 33 to 27. Doyle of the Morton Maids, made an astounding 29 points while Waller scored the remaining 4. Tyson donated 18 for Three Way.

Next in the series of hard fought battles the Muleshoe Jennies nosed out the Whiteface Heifers 29 to 20. The Jennies' Malone and Graves tied for high point honors with 11. Peters a Heifer, beat them both with a tally of 12.

In the last game of the second night Levelland went down before Smyer 45-38. Jordan of the victorious quintet from Smyer made 22. Carr from Levelland got 14.

Three Way started the last lap of the race right February 3 by skinning the Heifers with a final score of 27 to 20. Tyson again was high point man for Three Way donating 11 points. Half of Whiteface's final score was contributed by Peters.

In the final game the Muleshoe Jennies triumphed over the Morton Maids, thus winning first in the tourney. The final scores were 25 to 13. Nine of Morton's 13 was made by Doyle; 3 more points were credited to Baldrige. Malone made 25 for the Jennies.

C.Y.T. District Soil Conservation News Report

Those completing a Soil Conservation plan on their respective farms are A. M. McBee, J. L. Harris and R. R. St. Clair.

Applications have been received for Soil Conservation assistance from G. W. Thompson, Roy Dophson, J. L. Edwards, E. Dick Slaughter, J. W. Pond, F. H. Lightner, Ike Johnson, Louis Mitchell and L. P. Barker.

Considerable terracing has been done within the C.Y.T. Soil Conservation District during the month of January, 1951. Leo Cunningham, living eighteen miles south and four miles west of Morton, has constructed seven and two tenths miles B. B. Herwell and Arvid Cunningham, neighbors in the Familiner Community, are building a complete terrace system on their respective farms. "Uncle" Bob St. Clair, living three miles south of Maple has terraced one labor and in the process of terracing one other.

Ford Hawkins and Huckabee, another neighbor team, have constructed a diversion terrace on the upper side of their respective farms. One end spills on Ford's pasture and the other end on Huckabee's pasture. Ford is terracing all of the remaining slope on his place. One mile of terrace has been staked for Alvin Ray, who lives three miles east and four north of Morton. J. L. Harris, living four miles west and five north of Morton has terraced his entire farm.

All cooperators of the C.Y.T. Soil Conservation District who are interested in a complete wind break on their farm please notify the Soil Conservation Service clerk at Morton.

Marshall Grocery At Bledsoe Burned to Ground

The Marshall Grocery Store at Bledsoe burned to the ground early last Friday morning.

Ten Morton volunteer firemen responded to the call for help but the pump and fire hose on fire truck froze en route to Bledsoe from Morton. Firemen were able to save a building next door, which is used both for business and place of residence.

The call from Bledsoe was received in Morton between 4:30 and five o'clock Friday morning.

Carroll Lilljedahl Establishes Record

Carroll Lilljedahl, 13 year old son of Mr. and Mrs. J. B. Lilljedahl, established somewhat of a record recently when he only lost two days from school while having surgery on an elbow.

Carroll, a seventh grader, had never missed a day at school before this.

A broken arm isn't too unusual for a 13 year old boy, but Carroll's was in the elbow; the injury occurred while Carroll was playing basketball and was severe enough to require open reduction in order to reduce the fracture.

PERKINS THEOLOGY QUADRANGLE

SMU COMPLETES SCHOOL PLANT FOR TRAINING MINISTERS—Perhaps unique in the history of college construction is the Perkins School of Theology Quadrangle on the campus of Southern Methodist University. School officials believe that it is the first seminary plant designed and brought to completion in one continuous operation. Costing approximately \$3,500,000, the seven-building quadrangle will be dedicated to the training of ministers and Christian workers on Feb. 8. Shown in the aerial view are, left to right in the foreground: Kirby Hall, the Perkins Chapel, and the Bridwell Library; rear, left to right: E. B. Hawk Apartments, Paul E. Martin Apartments; S. B. Perkins Dormitory, and A. Frank Smith Dormitory. Insets show Mr. and Mrs. J. J. Perkins of Wichita Falls, for whom the school is named. They are long-time benefactors of SMU and principal donors to the development of its theology school facilities.

Whiteface Lions Club Needs To Be Reactivated

By ART N. WALL

It seems that the Lions Club of Whiteface has failed to have a large attendance for some time. The membership has been very inactive. This grand old organization of Whiteface, ramrodded by that charter member, Mr. Capps, has done worlds of good in our community. If anyone had headaches caused by weighty community problems, they would pour their heart out at the Whiteface Lions Club luncheon. There, they were sure of sympathetic ears and maybe their problems would be solved. If their problems were not solved, they could drown their worries in good food and at least leave the Lions meeting in a better frame of mind.

It would be a shame for this organization to die out, and it should be seriously considered to give the Lions organization of Whiteface, a final meeting and a complete discussion before letting it fold up.

WHITEFACE MARCH OF DIMES DRIVE NEARS END

Our schools of Whiteface and Mr. Jack Holman of the Home Theatre should receive March of Dimes Trophies if any were issued for remarkable achievement in March of Dimes Work. G. W. Garrett of Forrest Lumber Company is also to be commended for his fine work.

Mr. Holman and Mr. Garrett took the March of Dimes drive to the businessmen of Whiteface and other individuals and our businessmen are to be highly admired for the way they responded to Mr. Holman's and Mr. Garrett's plea for contributions. Mr. Holman and Mr. Garrett and our businessmen raised \$253.40. There were some people of Whiteface who were not in business who contributed to this amount. The majority of this money was raised by our businessmen. Considering that Whiteface has not many businesses this amount is very good.

Mr. Jack Holman of our Home Theatre was not satisfied though. He struck out a homer for the March of Dimes with a matinee on the afternoon of Jan. 19th for school children. Mr. Holman using his take for the March of Dimes which amounted to \$95.34. Still not satisfied, Mr. Holman again contributed a show on the night of Jan. 30, which he called the March of Dimes show and which with ticket sales and donations netted \$110.10. Uncle Sam wanted his dues though, so \$14.56 of this amount was mailed to the Internal Revenue office in Lubbock. With his Home Theatre Mr. Jack Holman gave to the March of Dimes of Whiteface community, \$195.88. Mr. Holman worked hard last year on our March of Dimes program. This year he came back stronger than ever and without his assistance our March of Dimes drive would not have been the success it was. Last year, Mr. Holman and the Home Theatre, contributed to the Cochran County March of Dimes, \$178.23.

Our churches of Whiteface did well towards the March of Dimes. The Church of Christ of Whiteface last year and this year contributed strongly towards the polio campaign. Last year the Church of Christ of Whiteface gave \$100.00 towards the county's polio fund but this year this progressive church has a building program lined out, and building material already on the ground, so because of this the congregation decided \$50.00 was all they could give towards the polio fund, which sum is indeed very good considering the size of this little church. A little church like this giving fifty dollars towards the March of Dimes and going ahead with a building program too, is something to be admired.

Here it is to be pointed out that the Methodist Church and Baptist church of Whiteface gave strongly towards the March of Dimes through contributions of their congregations. These two churches did not check on their contributions. If they had done so we would have had figures

broken down for each of these two churches. As it is we only had the containers to go on. The Baptist Church container held \$15.07. The Methodist Church container held \$2.69. Members of these two churches should remember that next year, give half of your donations through your church or all. Either way that is suitable, but give your church a chance to credit from your donations.

All told the three churches of Whiteface gave \$67.76. Girlstown could not forget that Marie had polio. Miss Anthony wanted to do something for our

Whiteface Third Graders Win Dimes Drive Contest

Third grade students of Mrs. Fred Danke and Mrs. O. C. Rankin, Whiteface, came out first in the March of Dimes Classroom contest.

The two grades combined turned in \$19.97. These small children have won the admiration of the entire community for their efforts.

March of Dimes. We talked of our New Year's party and the nice time we had, and so on the night of January 20th a March of Dimes party was given. All donations went to the March of Dimes Cochran county. When the square dancing was over and no more coffee was left in the big pot, the donations were counted up. It came to \$36.90.

On February 2nd all containers in the business district were gathered up and the contents counted. There were 24 containers placed in business houses and the total contents amounted to \$50.77 which shows our businessmen were pushing all containers. This was very good and even when the contents of the containers were being counted often the business houses would toss in another dollar.

The Whiteface school at this writing is still on the March of Dimes. As of Saturday night, Feb. 3rd a rough count from the basketball tournament was around \$187.00. The school still has a container in each class room which will be picked up on Monday the 5th. So as it stands we have no exact figures from our Whiteface school unless they can be obtained and rushed in to catch the press time of this edition of the Tribune.

During the tournament of the 1st, 2nd and 3rd at Whiteface March of Dimes trophies were awarded. If a school wins these trophies three times in three successive years the March of Dimes trophy becomes that school's property. This is a new award in trophies as far as is known, and can become a big thing in sports.

Broken down, Whiteface March of Dimes figures are as follows: Petition circulated by Mr. Holman and Mr. Garrett for donations from businessmen—\$253.40
Churches 67.76
Home Theatre 190.88
A later donation through Home Theatre 5.00
Girlstown 36.90
Containers in business district 50.77

Total \$604.71
If Whiteface Schools run to 187.00

Total \$791.71
All funds are deposited in the First State Bank of Morton Texas for March of Dimes, Cochran County.

Concerning the sum of \$604.71 of this amount \$163.50 was turned over to Judge Fred Stockdale during the absence of March of Dimes chairman of Cochran County, Mr. Glenn Thompson. This sum of \$163.50 was made up of checks that required Mr. Thompson's endorsement.

Last year, Whiteface donated \$829.00 towards Cochran county's March of Dimes. It appears very likely we will go up to this sum again and go by it just slightly.

When Whiteface school's contribution is checked it will appear in the Morton Tribune. We will then have a complete total of all funds contributed.

(EXTRA)
Whiteface schools have contributed towards March of Dimes \$297.23 through their tournament of Feb. 1, 2 and 3, which amount also includes containers in the class rooms.

It is to be remembered that all school children were allowed to attend the matinee on the afternoon of Jan. 19, which netted the March of Dimes \$95.34. Included in above amount Whiteface school children have contributed all told \$392.57 to March of Dimes.

This brings the grand total for Whiteface for the 1951 drive to \$901.94.

Whiteface Needs A Booster Club

By ART N. WALL

There is no denying Whiteface needs some sort of an active organization to handle community affairs. The Lions club has been attending to this but the members have been very prominent by not showing up at the meetings.

Now for example here is this Boy Scout charter. The Lions Club has been attending to this, now no Lions Club, no charter. That charter costs \$75.00.

This was all being kicked around at a discussion up at school on the night of Feb. 3rd and it suddenly dawned on us folks that were sitting in on this discussion, that what Whiteface needed more than a good five cent cigar, was a booster club.

Everytime we needed a little money we wouldn't be buttonholing some old boy down at the postoffice for a dollar or five bucks.

In a booster club we could have a lot of fun and do a lot of good too and we could have handled this Boy Scout business as easy as anything.

Look what our Quarterback Club did! Man, those boys really did some good. But you see they are only active during the football season. It's a shame we can't have something like their set up, the year around.

We are going to have community and county affairs from now on and we need an organization that is composed of our businessmen and farmers and oilfield workers. Good issues we could discuss and the bad issues we could discard. We could work with our churches, schools, community and county.

For instance now the P.T.A. is to be asked to sponsor our Boy Scouts. Our P. T. A. has very little money and they are trying to buy a coffee urn.

If we had a Booster Club we would have a sponsor for our Scouts.

Our next P. T. A. meeting will be held on Feb. 12th. There this writer is going to ask who would be interested in the organization of a booster club. If there is sufficient who would be, then we can meet somewhere in school to lay plans for organizing.

Whiteface Boy Scout Troop Is Seeking a Sponsor

By ART N. WALL

Just reversed, is the condition of the Boys Scouts in Whiteface from the Boy Scout issue in Morton. The Boy Scout activities in Morton have come to a standstill while in Whiteface it is very active but lacks a sponsor and too, —and this is the sad part,—it lacks \$75.00 to renew its charter which expired the first of February. Mr. Frank Ford, as fine a scoutmaster that ever led a troop of boys, is a worried man indeed. Here he has an active troop, and a good assistant by the name of Mr. Clyde Carson, who is employed by the Morton Tribune, but Mr. Ford has no sponsor and he sure needs that \$75.00 for a new charter bad.

It is awful rough right now to go back and ask our people for more money while they are still groggy from the March of Dimes Drive, and these heavy taxes socking them hard too, but we just simply can not let our Boy Scout troop die.

If the kids failed to take an interest in our scouting program it would be something different but by gosh, they turn out at the meetings and they work at the scout business.

These boys have cleaned up yards in Whiteface and did other odd jobs, to try to get money for their uniforms. We people in Whiteface are not the kind to stand back when something like this has to be done so Mr. Tanner, Mr. Garrett will be dropping around to see some of us boys so let's have a dollar or two ready.

You got to admit, folks, a good Boy Scout program is one sound ground to raise a boy on and we are fortunate to have a good scout program going on in Whiteface. Let us keep it that way.

Mr. Frank Ford, your sixth grade teacher, gives lots of time to the Boy Scouts of Whiteface. He lives north and west of Leh-

man several miles, and has made numerous trips back and forth to Whiteface to work with our scouts. Mr. Carson drives from Morton to help Mr. Ford with our boys. Both men are the right type for this work and we are lucky to have them, though we will in all probability lose Mr. Carson to the scouting program which is being revised in Morton.

Right along with this \$75.00 for a charter which of course is needed now, is the financing of a scout hut. Any old kind of building would do for this and let the kids fix it up. If anyone has an old building it would be a good thing to report it to Rev. Clar-

ence Bounds, Mr. Tanner, Garrett, Mr. Cunningham or A. scouting program.

The thing now is that \$75.00. Don't wait till Mr. Tanner or Garrett come along to tap you for it. You know they got jobs to take care of too. Just walk down to Forrest Lumber Company and give to old G. W. He will place in the right hands. Coach Sasser will work on this financing committee too, and will see this scout money is placed in the right manner. Let us do this our support.

Shows Shown at Famuliner Meeting

Thursday, January 25, 1951, the Famuliner Community held its regular meeting of the Good Neighbor for adults, and a meeting of the boys and girls of the "Wide Awake 4-H Club." This meeting games were played and special action accounts were discussed. About 100 people attended this meeting.

This night meeting was attended by County Home Demonstration Agent, Mabel Ann Manley and the County Agricultural Agent, Homer E. Thompson. Slides of work done in the community and showing improvement work and community activities carried out were projected on the wall in color; so all could see what has been accomplished. The slides were shown by

Two Weeks' Resume of Lion Activities

Approximately 48 members of Morton Lions Club heard Highway Patrolman Newberry in a "Safety" talk at the January 24 meeting and luncheon of the organization.

The two major causes of highway accidents, according to Newberry are driving too fast and driving while drunk.

Newberry listed several other causes for accidents including: driving in wrong lane or on wrong side of highway; passing in a "no" passing zone; following too close to vehicle ahead; disregard of "stop" and safety zone signs; carelessness at intersections and failure to give right of way. The highwayman pointed out that the driver coming from right has right of way on an unmarked intersection. Mr. Newberry stressed the importance of parking properly on highways, when forced to stop for tire repairs, etc., in order to avoid accidents.

In closing Mr. Newberry told Lions, "Cochran County had one of the best safety records in the state during 1950, with only one serious accident reported."

Guests for the meeting other than the speaker were T. W. Rowland, Vic Sauer, Guy Carpenter, entomologist A. & M. Extension Service, Dr. Brinley, Del Rio; E. L. Banks, Levelland, Joe Sneed and George Graham.

The program was under the direction of Scott Hawkins.

Artie Hicks was program chairman for the January 31 meeting, at which time Raymond C. Ross spoke to the group on "Scouting," its place in the community, what it means to members and qualifications necessary for scout instructors.

Mr. Ross, P. B. Ramby, and R. D. Ormand were appointed by the president, Murray Crone, to investigate possibilities of scout reorganization in Morton.

Lloyd C. Miller, was appointed publicity chairman for Lions Club.

Leon Lane of the Farm Bureau Federation was a guest. Approximately 35 members were present.

Home Ec Students Invited to ENMU

Invitations have been issued to over 50 high schools in New Mexico and West Texas, including Morton and Whiteface, for home economics students and instructors to attend the fourth annual hospitality day on the Eastern New Mexico University campus, according to Miss Olga Saffry, associate professor in home economics.

Activities of the day will include home economics movies, talks on home economics careers, a luncheon, a tea, a style show, and a tour of the University campus.

Last year over 350 high school girls and their instructors enjoyed the day and the attendance this year should exceed that figure, Miss Saffry said.

F.F.A. Boys Visit Fat Stock Show In Fort Worth

By JERRY RUZICKA

Twelve F.F.A. boys, along with the teacher, Mr. H. J. Walker attended the Southwestern Fat Stock Show at Fort Worth, January 26. Mr. Rex Faulkner also accompanied the group and took five boys in his car.

The boys saw some of the best in cattle, sheep, and swine during F.F.A. Day at the Fort Worth Fat Stock Show. Livestock and poultry breeders and feeders, F.F.A. and 4-H Club Boys turned out from Texas and other states as far away as Iowa with approximately 8,000 entries in the various divisions of the show.

Other near by chapters attending were: Brownfield, Anton, Muleshoe and Whitharral chapters. They also attended the show and rodeo, Saturday afternoon at 2:00 p.m. the boys who went to the rodeo all agreed that it was well worth seeing.

The boys who attended the educational show and F.F.A. Day Jan. 26 were: Tommy Gattis, Carl Ray, Jim Goodman, Rex Faulkner, Bobby Faulkner, Ed Knox, Pete Lindsey, Bennie Hansom, Harvey Zuber, Richard Hancock, Milton Martin, Clyde Ward, and Jerry Ruzicka.

Everyone making three day trip and some who did not have a chance to go would like to attend some major fat stock show next year.

Those who went feel that it was not only educational but leaves an inspiration to do more with their own livestock.

Show Sponsored by Local Implement Dealer Draws Large Attendance

Farmers of this community, their families and friends, were in town en masse on Friday night, Feb. 2 to attend a program sponsored by Bedwell Implement Co. local farm implement dealer.

Main event on the program was the showing of two feature films in color. One of the films, entitled "Havens of Peace," was a tour of several small nations where peace has existed for centuries. They were mainly agricultural nations that managed to make a little go a long way.

The other film, entitled "The Soil Is Good," pointed out the importance of the soil to the welfare of a nation and what must be done to preserve the topsoil. It revealed, too, how modern equipment on the farm is helping the modern farmer do more with less help.

In commenting on the program and on the gratifying attendance, Mr. H. B. Bedwell, whose firm was host for the night, stated that, "We are grateful for the nice turn out despite very disagreeable weather."

In India and China, where people starve to death every year, we understand that conservatives declare that what helps business helps the people.

Punchboard Game Turns to Swindle

Merchants throughout Dumas and the North Plains have been alerted to be on watch for a punchboard team, which left results of smooth operation at a Dumas Service station last Wednesday. The team is being hunted now in the general Amarillo area by Sheriff Paul Gaither of Potter County.

The swindle routine began here when a man driving a Cadillac auto pulled in at the Dumas gas station and sold the merchant a punchboard, which carried a winning punch of \$160 in cash. The vender then left.

Wednesday afternoon, his accomplice appeared, driving a Lincoln car. He strolled in punched out the winning number and claimed the \$160. The store owner argued with the man, but finally agreed to pay \$60. It was determined a short time later that the men operate as a team.

Moore County Sheriff John Easley has cautioned merchants in the area to be on the watch for similar situations and to report such cases immediately. —Moore County News.

plaintiffs against the Beckham County Medical society, as defendants, Aug. 28, 1950.

The plaintiffs charge the Medical society with professional boycott and conspiracy. The plaintiffs in their original petition charged that doctors who are members of the hospital association are being denied membership in the Beckham County Medical society because they are charging lower medical fees than members of the society.

Attorneys for the plaintiffs said at the hearing that Judge Keen was personally acquainted with several members of the Beckham County Medical society and therefore might show prejudice in hearing the damage suit. The judge ruled against the motion.

Then attorneys for the plaintiffs filed notice of an appeal to the Oklahoma State Supreme court from the judge's refusal to disqualify himself. —Amarillo Times.
