# PENTECOS

we never come to an understanding of the teachings of the "If you will take the DAY OF PENTECOST and the Acts away from Church of Christ

eachers they would be lost". If they mean the first Pentecost after the resurrection of The Truth Christ from the dead, then, I ask you to ider the day, and you will see its im. HOLY The feast of Pentecost was observed by the Jews many times previous to this time in A. D. 33, but this is the only PENTECOST that has anything to do with the Christian SHALL

First, let us consider a few prophetic facts: SET FALE 1 The word of the Lord was to go forth from Jerusalem (Isa. 2:3)

404

2. In the last days of the Jewish economy, God would pour forth of His Spirit on all flesh, (Jew and Gentile), (Joel 2:28-29) 3 Jesus delegated unto Peter (apostles all included) the au. thority to open the way into the church and to state the terms of pardon under the new covenant (Matt. 16:18)

4 In a converssation with His apostles after the resurrection promised to baptize them in the Holy Spirit (Acts 1:5). 5. They were to tarry in Jerusalem until the power came pon them (Luke 24:49; Acts 1:4).

6 The new message of salvation through Christ was to be ached first at Jerusalem (Luke 24: 45-49)

We find all this fulfilled in Acts 2. The occasion was the day Pentecost. The apostles were waiting in Jerusalem, They were baptized in the Holy Spirit, Filled with power, Peter eached the death, burial, and resuurrection of Christ as facts the first time in the history of the world. These facts nstitute the gospel (1 Cor. 15: 1.4)

Peter also stated the terms of pardon (Acts 2:38) Three sand of those who heard the message, repented and were baptized. Thus in Acts 2 you find the Day of Pentecost and how church had its beginning.

Second, Pentecost was the day of beginnings: The beginning of the preaching of the gospel, The beginning of the rule of the Spirit (John 14:26), The beginning of salvation through Christ (Acts 2:37-47) 4 The beginning of the Christian era (Matt. 5:17; Col. 2:14). The beginning of the church of Jesus Christ (Acts 2:47; Eph 1:22-23; 4:4: 5:23)

they have ....

Most of us interpret the value of research in terms of immediate benefits. Research means that we get a better automobile, an improved gasoline, or an outstanding motor oil.

.0

At Baytown Refinery, the Humble Company maintains one of the finest laboratories in the petroleum industry for that kind of research.

But behind the study that goes into the improvement of the products it sells, Humble for years has fostered basic research related to the discovery and production of oil and natural gas.

The United States uses so much oil from day to day, and needs so much more to provide for the emergencies of national defense, that studies leading to the discovery of new supplies

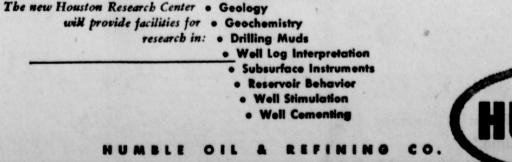

• Fluid Mechanics

Geophysics

and the more efficient management of existing reservoirs are more important than ever before. Consequently, Humble's expenditures on this sort of research are the heaviest in the Company's history and its staff of research scientists is larger than it has ever been.

To house the expansion of these research sections, Humble recently completed its new Research Center at Houston and will formally dedicate it this week end.

Here the scientists of the various departments involved in the discovery and production of oil will utilize common facilities, and here they will have the stimulation of close association with other scientists whose efforts are dedicated to a common end.
