## Jaycettes Lead MOD Drive "Over The Top"

Cochran County's emergency "March of Dimes" drive ended with \$17,761 collected, Glenn W. Thompson, County Chairman, said today.

The drive more than eclipsed the goal of half again as much as was collected last spring and Thompson gave most of the credit to the Morton Jaycettes and the success as close to home in Morton as it will ever get. Several of the merchants supported special days in which they turned profits over to the drive.

The Jaycettes, and their work was echoed by Thompson, offered their sincere thanks to all who aided the tremendous need and for the second time in a year, dug down deep in their pockets when the call for help was sounded.

## Cover Crop Plan Is Approved; PMA Will Help

A special cover crop practice has been approved by the PMA office for Cochran County farmers to help prevent further soil erosion; should drought conditions continue.

Fred Collins, technician for the Soil Conservation Service said Wednesday, the practice has been approved. It was recommended by Collins and L. L. Taylor, County ASC chairman, in a letter to the administrative officer of Agriculture, Stabilization and Conservation, Lester Young.

In effect the adoption of the practice means this: The PMA will pay up to 80 percent of the cost of seed and fertilizer to farmers who will undertake the practice.

Eight varieties of cover have been approved and the cost charge per acre varies from \$4.80 to \$12.90. According to Collins, protection of the land from winter erosion is badly needed.

A complete list of the varieties of cover crop, minimum seeding rate lbs. per acre, and cost share per acre plus the rules which must be followed, is available from Collins or at the PMA office.

Among the covers approved are singletary peas, Dixie Wonder peas, rye, Austrian winter peas, madrid, alfalfa, hairy vetch and 200 lbs. of 6-23-0 fertilizer or its equivalent.

All legume seed must be inoculated and the cover crop must be seeded not later than Oct. 15, 1954," Collins said. The only way in which fertilizer may be omitted is in a case where the County Committee determines, on the basis of past experience, that it is not needed. Grazing is not permitted. The harvest of hay is permitted but the crop or stubble must be left on the land until the time seed are normally formed. The crop may not be harvested for grain or seed.

Anyone interested should check into the situation, as soon as possible.

### "New Yorker's" Cartoon Preaches Valuable Sermon

Editor's Note: The following article, though written for Dallas Morning News, we believe has its application to the "Last Frontier." We hope you find it helpful.

By JOHN F. ANDERSON JR., D.D.

Who would think that a cartoon in the New Yorker magazine could preach a sermon?

Several years ago, that publication printed one of its famous comic-strip-type drawings depicting an interesting event at a small road bridge. Approaching the bridge, plainly marked Load Limit Eight Tons, was a truck also marked on its side, eight tons.

When the truck was about in the middle of the bridge, a bluebird alighted on the top girder. At that point the bridge gave way and crashed with the truck into the

river below, to the obvious surprise of the bluebird.

The bridge was built, as indicated, for eight tons; the truck weighed exactly that. The bridge could hold up under its load limit, but not under eight tons and one bluebird.

Of course, the incident is wonderfully absurd. Most bridges could stand up under their load limit and quite a number of bluebirds extra. But any bridge in the world has its breaking point somewhere—a point at which the bluebird would actually be just that much too much. It isn't really the bluebird that breaks it down; it is the fact that the eight tons are already present.

Dallasites have bluebird troubles, too. A man is driving home over the Central Expressway at 5:12 p.m. Pulling onto the side road at Fitzhugh, he stops for the signal horn honks behind. In a quick fit of rage he turns and curses the offender.

What happened? It wasn't the sound of the horn that caused him to lose his temper so violently. The hard day at the plant with the superintendent, sending for him to correct two mistakes, the parking lot attendant who didn't bring the car for ten minutes, the two trucks cutting in front of him on Pacific—these were the eight tons on his nerves. The horn was only the bluebird.

Follow our friend home to the apartment in East Dallas. He greets his wife with a curt remark that is no more unloving than usual and is astonished to see her burst into tears. Why should she blow up over a trifle? Again, the "trifle" is the bluebird.

If the husband could have observed the endless march of little irritating episodes that occurred with the children and the tradesmen who came to the kitchen door, he would have realized that at 5:30 his wife had about reached her load limit. Knowing this, he could have lifted by a tender greeting instead of weighing down with his thoughtless jest.

We do well to watch for warning signs of one bluebird too many. There is always a load limit. Although that is except in one remarkable exception. Contrary to much popular opinion, God is not like that bridge having an ultimate load limit, however high. Our little prayer cannot possibly be the extra bluebird.

Today then, as we face life in the city and feel that our load limit is so great, how good it is to accept the invitation of the inspired poet who wrote in Psalm 55:22: "Cast thy burden on the Lord, and He will sustain thee."

If we do that, no bluebird problem in the world can break us down.

#### 50 From Here Attend Best Farm Tour

A total of 45 Cochran County farmers attended the special tour of Paymaster farms at Akin, Texas last Friday witnessing cotton and sorghum varieties grown side by side with equal treatment.

County Agent Homer Thompson said the program was highly successful in that so many farmers from the county attended and received the valuable information.

Thompson said the farmers saw through conclusive evidence just how varieties of cotton stand up against one another, saw how rotation affects croplands; saw special hybrids that won't be on the market for several years but are the coming things in cotton seed and grain sorghum.

# THE EUNUCH

The Acts of Apostles records some of the more significant acts of some of the apostles (and early preachers). These are intended to serve as examples for the entire Christian era. We wrote last week concerning the 3,000 conversions on Pentecost, this week we consider another one found in Acts, Chapter 8. We consider this by the part each personality had in the conversion.

**1. WHAT THE ANGEL DID.** The angel, as a special messenger of God instructed Philip, the preacher, to go south to, "the way that leads from Jerusalem to Gaza." (v. 20). Philip obeyed, thus walking by faith and not by sight.

**2. WHAT THE SPIRIT DID.** The Spirit told Philip to "join himself to the chariot." Notice that the Spirit "said" unto Philip (v. 29). He did not move him, but said to him in audible tones: "Go near, and join thy self to the chariot." (vs. 29-30) The Spirit did not say or do anything to the sinner. The Spirit has never told anyone directly how to be saved, but operates through the Word of God (Jno. 6:63).

**3. WHAT THE PREACHER DID.** The eunuch was reading from the fifty-third chapter of Isaiah, concerning the suffering of Jesus. Upon joining himself to the chariot, Philip began at "the same scripture and preached unto him Jesus." That is, how that Jesus fulfilled these scriptures, and no doubt about the life and teachings of Christ before his death.

**4. WHAT THE SINNER DID.** As they were riding along they came to "a certain water" and he asked what hindered him from being baptized. Why did he want to be baptized? The answer is evident. Baptism is not mentioned in the Old Testament scriptures, the only part of the Bible that was in writing at that time. Hence in preaching Jesus to the eunuch, Philip also told him about baptism. But in as much as faith in Christ must precede baptism, Philip said, "If thou believest with all thine heart, thou mayest." (v. 37). The eunuch then confessed, "I believe that Jesus Christ is the Son of God," after which he was baptized (vs. 37-38). It is worthy of note, that nothing is said of his repenting. In as much as repentance is a complete change of attitude, and the eunuch's attitude was right, the thing he needed to do was OBEY which he did.

**5. WHAT GOD DID FOR THE EUNUCH.** The eunuch obeyed God, hence God pardoned his sins as he does all others who obey him (Acts 2: 38-39) Heb. 5:8-9) But in as much as "God adds to the church" those that are saved (Acts 2:47) he added the eunuch to the church.

Then we notice that after his obedience to the Word of the Lord "the eunuch went on his way rejoicing." (v. 39).

If you want to change breakfast from a mad dash and a bite of toast to something easy and fun, here's how.

If the family is willing to try, these five ideas will make breakfast pleasant and nourishing.

Plan ahead This seven time, simplifies preparation, lightens grocery shipping and is economical.

Advance preparation saves time and energy. This may mean setting the table the night before, squeezing fruit juice, cooking dried fruits. Minutes saved in advance add to morning bliss.

Work together Everybody help prepare and serve breakfast and then eat together. You might find that returning thanks will make the day more livable for all family members. Eating together is more pleasant than four or five breakfasts on the run.

Organize your kitchen so everything is conveniently located near its point of use.

The pattern for a good breakfast is fruit or fruit juice, cereal, milk, sugar, and/or egg and/or meat plus bread, butter or margarine and milk.

If your family has been fortified for the day with a good breakfast they can do their work or play with plenty of energy. Then comes the next meal. With steak on the plentiful supply list why not try this recipe for Swiss Steak served with candied sweet potatoes, string beans, cabbage slaw, rolls, butter, apple pie and milk.

Trim excess fat from 1 1/2 lbs. round steak, 1 1/2 inches thick. Add 1 teaspoon salt and 1/4 teaspoon pepper to 1/2 cup flour. Divide flour mixture Pound half of it into each side of steak using the side of a saucer. Brown meat in hot fat quickly on both sides. Add 1 clove garlic minced, 2 large onions sliced, 1 stalk celery diced, 1 tablespoon Worcestershire sauce and

## Hale County 4-H Girls Win District 2 Award

Yolanda Ellis, outstanding 4H Club girl from Hale County, received the District 2 4-H Girl Scholarship of \$500 Saturday September 18, at a meeting in the Home Economics Building at Texas Tech.

The scholarship was presented by Mrs. Jack Knox of Lubbock who represented the home demonstration club women in the 20 counties the comprise District Two. Miss Ellis received the scholarship that is offered each year to the outstanding 4-H girl in District 2, which includes this county, who plans to attend Texas Tech and take Home Economics. She will use the scholarship to further her Home Economics Education at Texas Tech. She will be a sophomore this year.

Yolanda is the daughter of Mr. and Mrs. Elmo Ellis of Plainview. She is a member of the County Wide 4-H Club and her mother is the adult leader of this club.

Yolanda was one of the 4 Texas 4H Club members to attend the National Camp at Washington during 1954. She has received numerous awards during her 4-H career. In 1949 she was the delegate to the State 4-H Round-Up from Hale County. In 1950 she was the State Achievement winner and County Gold Star Girl and placed first in the wool division of the State Dress Revue. In 1951 she became a member of the Talent Club and made the tour. The same year she was awarded an all expense trip to the 4-H Club Congress in Chicago in Clothing Achievement and was declared one of the national winners. In 1953 she was awarded a trip to the American Youth Foundation at Shelby, Michigan.

Her 9 years in 4H have been packed with demonstrations and activities. Clothing has been a favorite but food preparation, gardening, poultry and bedroom im-

provement too have received major attention. She has never passed up an activity which had a place in her overall 4-H program. She has given demonstrations and taught others but still has found time to participate in community, church and school affairs.

# EARLY FUMBLES PLAGUE INDIANS; MORTON DEFEATED BY HARD HITTING OLTON MUSTANGS, 32-6, FRIDAY

By Eddie Irwin

The Morton Indians found the Mustangs, minus R. V. Allcorn but bringing with them a shiftiness and power of two Olton running backs a little too much equalled his efforts took advantage of a seemingly endless process of first quarter breaks and indicated nor as deserved.

Indians could see what was happening. But that time it was too late for victory but not too late to fight back.

Halfback Bobby Straw and fullback Danny Smith were the boys who lugged most of the leather for the wild bosses and both of them exhibited as much running skill as the Indians are likely to see again this season in two men, they cut well, faked nicely, ran hard and fast.

But the breaks that went against Morton were not the kind that could have gone either way. They could go only against Morton because it wasn't until halftime the Morton boys realized what had happened. Olton was stealing the ball, and doing a good job of it.

On the opening kickoff Morton toted the ball to their own 40 yard line where the Morton had was smothered. Out of a welter of four men who ganged him, Olton came out with the ball as a host of Morton fans beside the play screamed that the opposing player had "stolen" the ball after the play was over. That, plus some of the fine running carried Olton to their first TD. Straw made most of the gains but Smith carried the all important two yards a few plays later. Big Co-captain Jimmy Priest missed the first of three straight kick attempts.

The next fumble was Morton's fault. After being halted for a series of downs, Coats got the ball to punt and failed to get a good hold on the ball. He fumbled and Olton recovered on the 31. Smith bulled to the 13 and three plays later was awarded a touchdown on another confusing play in which the officials placed the ball on the one yard line and then, as Olton prepared to put the ball into play, suddenly decided it was a TD. Again the kick for point failed.

During that series of downs Morton's penchant for breaks, all bad, continued. On Smith's 18 yard gallop, he fumbled the ball. Though it looked like he had been tackled the whistle did not blow and Morton scampered after the ball and retrieved it, only to have it taken away by the officials.

Again the kickoff and again the ball stealing episode. Wailer was stopped and then Straw waded in and took the ball out of his arms and Olton was allowed to keep the leather.

This time the visitors took to the air, quarterback Guy Granberry hitting end Don Powell with a 20 yard pass for the third score. The kick was low.

The third play after the second half opened was the biggest play of the night for Morton. After racking up one first down, Sid Harrison took the ball on a quick opener handoff over right guard and streaked 41 yards for a touchdown. A bad center prohibited any chance for the point.

## Garden Clubbers Set Plans for Annual Exhibition

"Chrysanthemum Culture" and "Preparing Specimen for Horticultural Exhibit" was the topic of the afternoon recently when the Cochran County Garden Club met with Mrs. H. D. Barnes. It was the club's first meeting of the new year.

The talk on preparing specimen was timely in that the annual club flower show is to be held soon. Mrs. J. S. Boydston and Mrs. C. W. Davis discussed the two topics.

The meeting was opened with highlights of the coming year discussed and outlined by Mr. A. E. Sanders, president. The pilgrimage this year was to visit the Dahlia farm near Portales, N. M., Sunday, Sept. 19. The group left from the home of Mrs. W. L. Miller at 2 p.m.

At the next meeting, Sept. 29, "Design in Flower Arrangement" is the topic. Mrs. Herman Bedwell will host the club at a meeting which will be devoted to planning arrangements. Members are requested to bring flowers, containers and equipment to work with in learning methods of designing.

The Flower Show is set for the County Activities Building, Saturday, Oct. 2. The theme of the show etc. will be announced as soon as possible. The public is invited to take part.

Present at the last meeting were Mesdames Fred Collins, Roy Hill, Lenora Jackson, Charles Jones, W. K. Lindsey, H. O. Rogers, T. M. Tanner, Bedwell, Boydston, Davis, Miller, Sanders and the hostess, Mrs. Barnes.

Morton held their own through two series of downs in the third period and then defensive back James Holloman, caught behind an intended pass receiver was hailed for interference on the Morton four yard line. A 15 yard penalty set Olton back but Straw made one of his finest runs of the night as he plunged over left tackle, wove back up the middle and over for the score.

The second half was much closer as far as competition was concerned. Olton put on one concerted drive late in the third period and climaxed it with the final touchdown as Straw raced five yards early in the fourth period. Each team lost the ball once more on a fumble and twice Morton boys tried to even those first period breaks by attempting to steal the ball but they were neither as adept nor as quick. Both teams fought hard all the way. Olton never letting up and Morton playing harder all the time.

It was a game in which Morton will gain a great deal from the experience. One thing they learned, and it is a valuable lesson. They won't wait for the officials to give them the benefit of the doubt. Sometimes they will, more often they won't. But we've a sneaking suspicion Messers V. F. Bailey, Everett Peel and Gene Foster, all of Lubbock, won't get much praise from either Olton or Morton for their indecisive officiating last Friday.

# Mrs Harris Describes Tour Of Europe As L'Allegro's Speaker

The L'Allegro Study Club met in the home of Mrs. N. A. Monk Tuesday night, Sept. 14 to hear Mrs. Alvie Harris, lecture on her European tour. She accompanied the lecture with slides.

Approximately 30 other guests, in addition to the club members attended the program as Mrs. Harris showed the pictures and related incidents to each.

Touring England through Mrs. Harris' lecture, the guests saw beautiful landscaped gardens with flowers and shrubs growing in profusion. They saw buildings such as Windsor Castle, Buckingham Palace, London University, Westminster Abbey, the Houses of Parliament and the Tower of London on the banks of the Thames River. The architecture was of such beauty it's difficult to believe the buildings have stood for so many centuries.

It's difficult to believe the buildings have stood for so many centuries. The guests, through the medium of the slides saw the ruins of once proud Rome which has been kept for the sake of historical value. The campanile or bell tower famed as the leaning Tower of Pisa 4 1/2 miles west of Florence was shown. Mrs. Harris told that Italy has 1026 people to the square mile and

only one third of the land is tillable. A plot of ground no bigger than one half of our average size rooms grows the fruit and vegetables to feed a family of eight, for one year." She noted that many children were seen with flapping shoes because the families are too poor to buy shoe strings. The price of a pair of shoe strings costs a family the day's meal.

The tour continued by way of France by the famed Louvre Museum, greatest of the palaces of Paris with several departments of different kinds of classical art and easel paintings.

Mrs. Harris described and showed pictures of a quiet typically Hollandish scene with a houseboat being drawn up a small canal. She told how barns and living quarters were incorporated under the same roof.

were described in Munich and Nuremberg, Germany. The buildings have been reconstructed with no signs of the past war, she said. In touring the different countries, Mrs. Harris said an outstanding fact was the effort and desire to preserve the past and to make their countries as beautiful as possible.

### edlines..

By Eddie Irwin

WITH TWO grocery stores throwing their big sale last week and another sponsoring an appreciation sale, we suddenly found ourselves with considerably less room for news than we usually have. Naturally there's little we can do about that.

you can't... JUST SUDDENLY add pages. It takes a good deal more time to add pages than one would think. To add more pages we must plan about a week in advance.

thus... SEVERAL THINGS we'd wanted to comment on in our column had to be omitted, as well as a few things we did comment on, which never got off the machine, the stories of five club meetings, some front page material and the resolution we mentioned in last week's paper.

foremost... AMONG THE DESIRED topics of conversation is the decision to call to a vote whether or not an audit will be held. It's a good decision, we think. In fact, we'd prepared an editorial to that effect so happens...

WE THINK the fact that the general populace seems to want an audit, overbalances the other objections to it, such as the fact it'll cost some money, and the fact that we have a county auditor on our payroll and some seem to think he should make the audit, and several other reasons too numerous to mention.

until... SOMEONE DEVISES a better scheme of running a government, our government is still a government of the people. Though the men elected to office have certain duties to perform, by and large, their movements should be guided by the will of the people. Where it is thought the people might not be wise enough to have complete control over a situation, laws are formulated to govern the actions of the officials. I wouldn't, and neither would you, vote for a man we expected not to listen to the voice of the people. When an office holder suddenly forgets his obligation to the people (too often he does), he suddenly becomes an ineffective administrator.

looking... AT THE AUDIT from a businesslike standpoint, it's needed. The people have a right to expect a complete accounting of what has taken place. The court members can use this history as valuable reference material in future decisions they will have to make.

memories... JUST AREN'T reliable enough. That was proven at the meeting last week when the men who are in a position to know, couldn't remember enough figures to answer certain questions which were asked by those attending the meeting. That only proves that the records are valuable and should be consulted often. Yes, memories aren't reliable enough to record the day after a court session takes place, what was said and what transpired. The minutes of a meeting are supposed to be taken as a meeting progresses, not because the men are crooks and want to pull a "fast one" on the people, but because memories aren't reliable enough.

cause memories aren't reliable enough. We get statements, facts, words twisted and garbled in a hurry.

precisely... WHY WELLS always holler for complete records of various meetings, soon after the meetings take place. That's one of the reasons we elect a clerk or secretary of a group. That's a major duty of his or her office.

be sure... OF ONE THING. Political double talk, personal grievances between politicians, sudden rushes of business, misinterpretations of the law, etc., do not offer an excuse to office holders for not doing the official duties of their office.

looks like... FROM WATCHING the first of the Indians games this year, the fans won't be able to say the boys aren't hustling. The Indians got some demoralizing breaks last Friday night in losing to Olton by a lopsided score. But, those who saw the game and understand football, could see where a break or two in playing or in the poor officiating could have meant all the difference in the world. Of course, let was just as bad as far as Olton was it be recorded here, the officiating concerned. They looked like the better team last week and more'n likely deserved to win. But they did get the most breaks from a set of officials who didn't look like they knew what they were doing most of the time. Bad officiating makes it hard on both teams to turn in a creditable job.

big factor... AS WE SAW it was the fact that the boys never gave up. They kept right on battling and eventually turned in one of the games' most perfectly executed plays, the quick opener over the right tackle that shook Harrison in the clear for the score.

don't miss... THE GRAND OPENING of Bud Nairn's Gulf Station, Saturday, it's nice in a period generally termed as a recession, too see people with enough faith in the future to open up a new business.

and O. D... WILL BE OPENING his East Side cafe within a few short weeks. That building will be a real credit to the rest of the East Side of the square. Now, if only... Oh well.

another thing... WE WANTED to comment on last week was the program put on by the Blackwood Bros. Aside from the extra heavy commercializing, which seems to be the usual thing these days according to those who have attended those programs the singing was not just good, it was tremendous.

we haven't... HEARD ONE word against the quality of the singing and few we've talked to haven't expressed the sentiment that they wanted to see the popular singing group again, as soon as possible. Is our hope the Javices won't be content to sit back and let whatever profit they made run completely out before they book some other type of program for Morton. They've taken the lead with two very fine shows, the ENMU choir and the Blackwood Brothers.

now... THE IMPORTANT thing is to continue to set the pace in providing top notch entertainment, and not to lower their sights but to keep looking only the better entertainers who are known for the fine programs they present. The old saying costing only a little more to go first class, and meaning

more satisfaction in the long run is surely true in a case such as this.

understand... MANY HAVE WONDERED why we are no longer mentioning a certain program that is carried on each Saturday afternoon on the Square.

the idea... THAT MAKES it illegal is the chance. Rather than worry about it, or worry about way to get around it, it's much easier to just not mention it in the paper. You can find out from any of the merchants the full details each week.

thus... ACCORDING to postal authorities, any idea that involves someone winning something by drawing or by any method which could be called chance or lottery, cannot be mentioned in something that

goes through the mails. an interesting... EPISODE OCCURRED the other day when B. T. O'Connell of the Texas Employment Commission (Lubbock) was in Morton trying to gather some kind of overall statistics for an economic survey.

we being... ONE OF THOSE towns just on the border of being large enough to have a full time Chamber of Commerce man, etc., naturally didn't have any figures available. So, Mr. O'Connell had to arrive at his figures by a hit and miss interview method. He could count on the number of water meters, light connections, scholastics, people on County Relief, bank deposits, irrigation wells, etc., being correct. But it was just a case of how pessimistic or how optimistic the person being interviewed might be, as to whether his overall population figures would show an increase or decrease.

for instance... WERE SURE lots of businessmen would think it has decreased because times have been a little hard. However, if they check actual books, many would show an increase in overall business but perhaps a decrease in net profit.

people with... RENT HOUSES think the population has gone down. The rent houses are vacant more often and for longer periods of time. But, in that because there are less people or because there are more homes being built?

and... WHAT ABOUT Morton? Seems to us the population has decreased a little, but more people seem to guess that it increased.

we had... QUITE A TALK with Lex Key the other day about the farm he's moving to in Washington, sometime early next year. If you are an avid sportsman, the move Lex is making would be a good one.

He's moving into excellent hunting and fishing country. He also says the land is good, somewhat like the terrain we have here, sagebrush country. Believes it would be capable of a good cotton crop. Only thing is, you'd be an awful long ways from a gin. The rainfall is slightly less than ours (if it could be any smaller). You're not far from a junction point between four rivers, probably all well stocked with fish. Some of the land is already in cultivation, some is not. His farm will be a little larger than most of the farms up there. Around 150 acres.

sounds like... A REAL INTERESTING move.

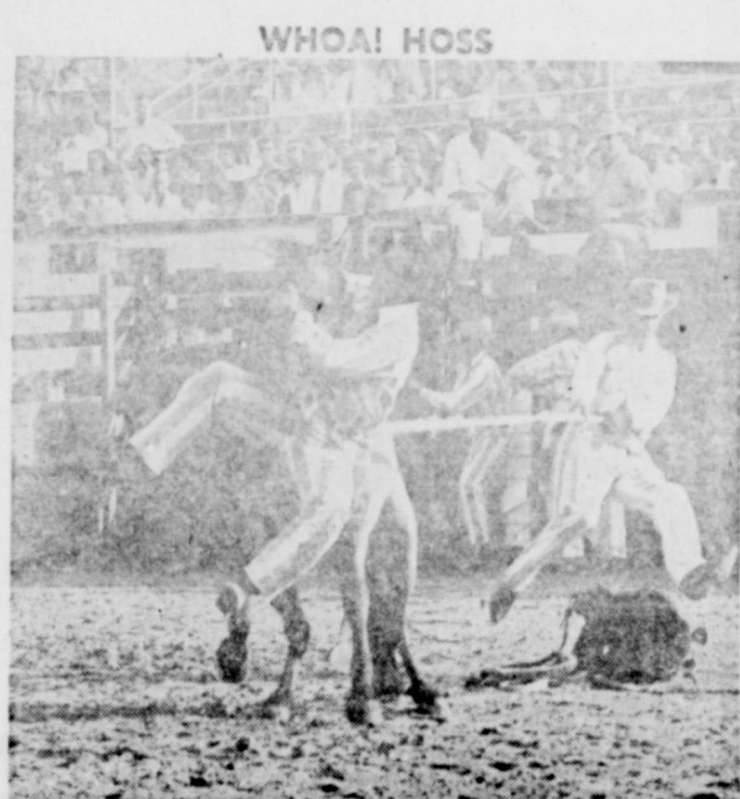

Sure hope it pans out well for him, but not only the color guard, the City of Morton as a whole will be sorry to see Lex go.
