VOLUME XIV MORTON, TEXAS, THURSDAY, JANUARY 20, 1955 NUMBER 46

House Burglar Nabbed . . .

Local Officers Charge Lubbock Man With Saturday House Burglary

Local Sheriff Department officers arrested Charlie Amundo Rodriguez, of Lubbock, yesterday afternoon and formally charged him with house burglary in connection with last Saturday's wave of break-ins.

Rodriguez was placed in the Morton Jail yesterday afternoon and denied any connection with the break-ins. However, 12-year-old Danny Hall, who was babysitting with the children of Mr. and Mrs. S. M. Monroe, Saturday night when one of the break-ins occurred, viewed the pictures of the suspect and stated "it looked like the man."

Hall raised up out of bed and started the burglar in the Monroe residence, that night. He got a good look at the man as he rifled a pair of pants standing in the entrance of the bedroom closet. When Danny raised up the man fled through the front door and dropped a glove beside the pants he was rifling. He also dropped the empty billfold at the front door.

Danny described the man as wearing a blue coat, having a mustache, being a Mexican, and having a smooth face. He got a good look at him and told officers he would know him. He picked Rodriguez

out of a group of pictures along with one or two others.

When arrested Rodriguez was wearing the blue coat and the mate to the glove he dropped in Monroe's house was found in his 1950 model Pontiac.

Local officers, giving a great deal of credit to Lubbock Highway patrolmen, moved fast to pickup Rodriguez. Looking for a red car going out of Morton after the burglaries, local officers sent out an alert, Highway Patrol car 521, patrolling near Carlisle, noted Rodriguez' car traveling toward Lubbock at 2:30 a.m., about two hours following the local break-ins. They knew Rodriguez from previous contacts.

Three Homes Here Entered, Two Residents Surprised the Intruder

Morton homes were the target of a burglar last Saturday night two of the local residents surprised the intruder in their house and the third sleeping through the act.

The intruder, described by at least one of the persons who caught him in the act, is known to have entered four homes here and one in Lubbock and is believed to have also been in a house at Whiteface.

Arrested, Charged With Cow Theft

D. F. (Sonny) Ford, Jr., formerly of Bledsoe, was arrested at Denver City and returned to Morton, Monday night to face charges of cow theft.

Ford entered a not guilty plea and his bond was set at \$1,200 which was not put up.

Several out-of-town quartets are expected to take part in the program. The public is invited to attend. Mrs. Lonzo Scoggins is leader of the group.

High School War Whoop Sponsors MOD Talent Show

MORTON, Texas, January 10, 1955 - The high school student newspaper, WAR WHOOP, is sponsoring a Talent Show which will be held January 24th at the County Auditorium for the benefit of March of Dimes. The show starts at 7:45 p.m.

Several schools in the area have been asked to send entries. Anyone who can sing, play an instrument, dance, or do any other kind

WELFARE CASES BEING INVESTIGATED

The major item passed before the City Council Monday night concerned the placing of all city employees on social security, but perhaps the most important matter concerned what may be a double-barrelled effort on the part of the City Council and the County Commissioner's Court to check into excessive county welfare bills.

The social security measure was passed unanimously. It would mean that a certain few employees who never before could have been covered by social security will now be included on the nationwide program. It would mean a weekly pay-

ment by both the recipients and by the city and, in the long run, will cost the city an estimated \$800 per year.

The welfare list came into discussion when one of the County Commissioners appeared before the council seeking ways in which the city might aid the county in footing what has amounted to a \$2347 bill for the past two months. Some of this money is spent by the county paying for utilities for the families who cannot pay their water and gas bills.

The commissioner discussed at length a problem that has seemed

to have gotten out of hand in the past year or so. In order to halt the increasing number of county handouts, many of which perhaps might not be necessary, he told of a new court ruling in which the Commissioners will be responsible for investigating the hardship cases in their precincts. No more will a credit slip for just so much money be issued on request. Instead, the Commissioners will investigate the circumstances, and in cases where the husband or older sons and daughters can work, will attempt to help find them a job.

The City Commissioners, highly interested in the matter and in-terested in cooperating with the county, wherever possible, will also look into the situation. They will also look over the list of families receiving commodities through the federal commodity surplus program. More than 800 names are reported on that list in this county alone.

The gist of the checkup was this. In the words of one of the spokesmen, "if there are individuals or families receiving this surplus food that don't need it, they are simply cutting down the amount available to those that do need it." It was suggested the city might help by paying utility bills where possible or by having work for some of the destitute families.

As for the present overburdened county list, it will be cut down, one of the commissioners assured the council. Every woman who comes seeking aid while her husband is

ing the church program, R. E. Dunham and Henry Zielinski will serve as ushers.

Meanwhile some of the parishioners continued to work feverishly each night this week and in their spare time readying the interior of the building and all of the decorations.

A host of visiting dignitaries of the church are expected to attend.

William McCamish Killed Saturday; Oilfield Accident

Funeral services were held in Morton at the Church of Christ, Monday at 3 p.m. for William Eyrdd McCamish, 29-year-old oilfield worker who was killed instantly on the job last Saturday when an explosion occurred as he welded an oil line.

McCamish, who lived with his family at 403 1/2 East Park Ave. in Hobbs, N.M., had lived for many years at Bledsoe, and was the son of Mr. and Mrs. Lee McCamish of Bledsoe. His widow is the former Era Pearl McCasland of Morton.

The services were handled by Rev. Carl Kinnaird, Baptist pastor from Bledsoe, Byron Willis and R. C. Strickland of the Morton Church of Christ and Tom Williams of Bledsoe. Interment followed in the Morton Cemetery.

McCamish was working near Oil Center Saturday morning when the accident occurred. He was killed by fragments of the control valve which was shattered by the explosion at the Stanfield lease, a few minutes before Saturday noon.

Born in Scott County, Arkansas, McCamish started school in Homotubby, Oklahoma, later attended school at Bledsoe. He graduated in 1945 and married Era McCasland at Bledsoe on January 19, 1947.

He had two children, Herman Lee who is now six years old and Linda Carolyn who is five.

He started oilfield work in 1948 and had lived in Hobbs for about 7 months. He was a pump truck driver for Halliburton Oilwell Cementing Company and was a member of the Church of Christ. His hobbies were fishing and hunting.

Other survivors include three brothers, Herbert, Clark and Fank, all of Bledsoe and one sister, Barbara of Hobbs, N.M.

Serving as pallbearers at the funeral were F. S. Moreland, Johnnie Sufferidge, Gene Watson, Andy Baldwin, Raymond Gunn and Allen Gerred.

ST. ANNES CHURCH BLESSING TO BE RECEIVED

St. Anne's Catholic Church of Morton, built by local parishioners during the past two years, will receive its blessing next Tuesday, January 25th in a ceremony conducted here.

The blessing and dedication is set for 4 p.m. and will be followed by Solemn High Mass, at 4:30 p.m. to be sung by the combined choirs of St. Phillip's and St. Anne's Churches. It will be followed by a dinner to be served at 6 p.m. in the Activities Building dining room.

Printed invitations have been sent out to more than 100 persons including Ex-Lawrence J. Fitzsimmons, Bishop of the Amarillo Diocese, all Monks, nuns and Priests of the Amarillo Diocese, and all members and parishioners of St. Phillip's Church of the Mother Church and St. Anne's. In addition, the public has been extended a cordial invitation to attend the dedication and the Mass.

Father Franc's Hyland is pastor of the new church as well as pastor of St. Phillip's church of the Mother Church is a mission church of St. Phillip's.

Ground was broken on the new tile structure, located two blocks north of the Levelland Highway in the Eastern sector of town, in February of 1953.

The structure was built at an approximate cost of \$17,500 which was supplied by individual donations and from the Bosen Estate and extension program.

The building itself has tile walls, frame roof with asbestos shingles and asphalt tile floors. It was built almost completely with volunteer labor under the direction of Fr. Hyland. Only a few interior jobs remain to be completed. Services have been held there for the past 54 weeks even though the building was not completed. A mission was held for one week during October of 1954.

In addition to the planned program, members of St. Anne's Altar Society will conduct a reception for visiting dignitaries as they arrive. Dur-

Here It Is Your Chance At Page One Ads

O.K., some of you merchants. You've asked for it.

Next week, up to 96 inches of front page advertising will be made available on a first come first served basis, for one time only.

The reason, the March of Dimes drive. Here's what you'll have to do.

Bring in the ad and check right then for what space is available. Make out a check in advance to the March of Dimes for one dollar per inch. That's all there is to it. We'll donate all our time to making up the ads and all the money. We'll not keep one cent of the money.

In other words we'll donate \$96 to the March of Dimes. You'll get the advertising space which actually should be worth more than \$1 per inch on page one, and at the same time you'll know the money is going to the March of Dimes drive.

Your ad may consist of any kind of copy. However, we will mention now, that one merchant has already asked for space for an ad in which he will donate his profits to the March of Dimes.

We submit that this would be a doubly good way of boosting the drive. Remember, we cannot charge this, and are responsible for billing it, drawing up the ads, etc. You bring it in and pay, we'll see that it gets in the paper on page one.

Only 335 Pay '55 Poll Tax

Total paid poll taxes had reached the pitifully low total of only 335 in the office of Tax Assessor-Collector by Monday noon, according to deputy Dub Hodge.

W. V. (Son) McKay made arrangements to have a book of receipts with him for the convenience of Whiteface residents. Anyone in Pct. Two can purchase a receipt from him.

The total through Monday noon was only about one-fifth of the average total for the county and approximately one sixth of the total eligible. January 31 is the deadline for payment.

The Journalism class is sponsoring the show as a part of their study of advertising methods. Members of the class are: Charlene Brent, Sheila Chandler, Dixie Darland, Pauline Cox, Nancy Hinner, Joyce Hanna, Gloria Nations, Barbara Jeffries, Lyndell Burleson, Jimmy Cook, June Scott, Bootsie Shakespeare, Johnnie Shelton, Barbara Stovall, Mary DeBord, and Geraldine Ramsey. The teacher is Mrs. Marvin Wilson.

Legion Polio Supper, Games Here Tonight

American Legion Post 374 will attempt to do their part tonight for the 1955 March of Dimes fund drive as they sponsor a spaghetti supper and bingo party at the Legion's Hall.

Supper will be served at 7 p.m. for all interested and bingo games will be held immediately following the supper. All proceeds will be turned over to the MOD fund according to Albert Morrow, Legion Adjutant.

Tickets are on sale for the supper at 50 cents per person. Everyone is cordially invited to attend either the supper, or the bingo games or both.

HERE'S WHY WE NEED YOUR CONTRIBUTION

A check for \$400.00 from March of Dimes headquarters in New York was received here today by the Cochran County Chapter of the National Foundation for Infantile Paralysis.

Jack Wallace, chapter chairman, said the check would help pay the costs of care already provided for polio patients at home or in local hospitals.

"This money is another example of the help available to local chapters from national headquarters," Mr. Wallace said, "and it relieves the financial pressure on our chapter for the time being."

"We now are doing everything we can to insure the success of the 1955 March of Dimes in Cochran County so that we will be ready to give financial aid to local polio patients during the year," he said. "Fifty per cent of funds raised stay right here in our area."

Mr. Wallace stated that the other 50 per cent of 1955 March of Dimes money will go to national headquarters for other polio-fighting programs.

"These programs include (1) polio prevention, part of which is the purchase of standby supplies of polio vaccine so that if the vaccine is declared effective this spring and is licensed, it can be made available almost immediately to 9,000,000 children throughout the country; (2) continued scientific research aimed at the ultimate prevention of this crippling disease; and (3) professional education for personnel urgently needed in hospitals and laboratories," he said.

C of C Continues Efforts To Find Rent Houses Here

At least two homes are ready for construction under the recent prodding of a citizen's meeting to find homes for the workers at the Lehman plant and another five or six are to be constructed, was the sum total of the information brought to local businessmen Tuesday night at the third citizen's meeting.

Neal Rose and L. W. Barrett are building, Rose, a three bedroom rent home, and Barrett, a two bedroom affair. Five others are considered "very interested."

Another meeting of Morton businessmen and Lehman Plant workers was conducted here Friday evening under the sponsorship of the Morton Chamber of Commerce as local folks attempted to work out the problem of housing for the 25 families that are starting immediately maintenance of Llano-Grande Gasoline Plant.

Approximately 30 persons drank coffee served by members of the Morton Jaycees and were introduced to one another in the "welcome coffee."

Efforts continued this week to work out any plans that are available for providing two and three bedroom homes for the new families. Workers at the plant have indicated they would like to live in Morton if houses could be made available. At present only some small two and three room homes are available and most of them are furnished.

The majority of the plant employees have children and also have their own furniture.

PAY YOUR POLL TAXES

\$30,000 Sale Through Auction Opens Monday

Monday night, and every night thereafter of next week until all items are sold, will be auction night in Morton as \$30,000 worth of furniture will be sold on the block according to Mrs. Cora King, owner of Morton Furniture Store.

Three auctioneers, all of Muleshoe will be on hand to conduct the sale. Auction will get underway at 7 p.m. Monday night. Everything new and used, will be sold from wall to wall.

Included in the list of items to go will be suites of all kinds, individual furniture pieces, some appliances, furnishings of all types. Clayton Myers, Emmett Cross and Kenneth Bozeman will conduct the auction.

Campfire Girls MOD TOTAL Reaches \$123

The Morton Campfire groups raised their March of Dimes total to \$123 in two weeks last Saturday when the 8th grade Wetomachieks took over where the Cheheles had left off the previous week, and added \$27 in donations through booths set up around the town.

Taxes Due Says County, City

Both the City of Morton and the County of Cochran reminded residents this week that January is the last month for payment of current taxes without a penalty assessment.

Due January 31st, are all city and county taxes for the current year. A three percent discount was allowed in October, two percent in November and one percent in December. Taxes this month may be paid without any penalty. After February 1st, the penalty starts.

County taxes should be paid at the office of Sheriff-Tax Assessor, Collector in the Courthouse. City taxes should be paid at the City Hall.

BOARD MEETS TONIGHT

The regular meeting of the Morton School Board was again postponed earlier this week but will be held tonight, Thursday, at 8 p.m. in the High School building according to Tax Assessor-Collector R. H. McCasland.

Ford Tractor Demonstration Set For Friday, 2 p.m.

Last year the sands blew . . . this year the snow fell, and the fall brought smiles throughout the territory, but at C. M. McMaster's tractor house the snow brought laughter with the smiles . . . as folks dropped by to kid him.

It seems "Mac" scheduled a tractor demonstration about a year ago that ended in a sand storm. Saturday's demonstration of the new 800 4-row Ford tractor was halted by a pleasant sort of weather.

So "Mac" will try again Friday, January 21, at 2 p.m. on the T. D. Marshall farm just east of McDermitt Liquefied Gas company, weather permitting; otherwise Saturday.

edlines..

By Eddie Irwin
ALITTLE MORE rain and snow this last week and according to those who have been here awhile, this begins to look more and more like the January of 1948 when the last real bumper crop was raised in Morton.

there has...
BEEN ONLY ABOUT a half inch of measurable moisture but we've had enough mists and frosts and light snowfalls so that a little good is bound to result.

we took...
A ONE DAY, rush trip to El Paso Friday and all along the way we ran into mists and light rains so at least a 350 mile portion of Texas and New Mexico has benefited by the moisture.

our gins...
HAVENT QUIT completely for the season and it begins to look like we'll be a lot closer to that 4000 bale mark than even the most optimistic wanted to admit. It'll be about a month yet before we get a final report from all the gins.

WELCOMING COFFEE for several of the boys out at the new plant, Friday, in the activities building and appreciate the fact that the Jaycees served the coffee to help the Chamber of Commerce. Approximately 30 of the business men and plant workers got together, mostly to discuss proposed housing which is sorely needed.

in case...
YOU'RE AMONG the skeptical group who refuse to concede that anyone might gamble on building a rent house for the future of Morton. Check and see L. W. Barrett and Neal Rose have already completed most of their pre-building plans. Three or four others have said they are interested, and have said they will build. We need at least 25 houses out of the project but if we only get 10 it'll be a big help.

these boys...
ARE ANXIOUS to find places to stay. They'll probably all be at work by the end of this week. If you know of any way to help them, do so immediately.

our boys...
DIDNT FARE so well at Seagraves, taking lopsided pastings from Stanton and Sundown while they did defeat Loop in a consolation bracket encounter. But this is a young team. Remember they are void of three men who played first string ball last year and were counted on to do lots this year.

thus we...
HAVE A TEAM made almost entirely of juniors and underclassmen. For the amount of experience they seem to be doing pretty well.

as for...
OUR MORTON MAIDS they've been better but their 42-39 defeat at the hands of Whiteface last week was certainly no disgrace. Coach Paater's girls almost pulled a tremendous upset.

latest...
IN THE SERIES of March of Dimes contributions is \$25 from the local sewing club, total proceeds from the auction of a quilt they made. The auction was held last Saturday before the drawing. George Burkett bought the quilt.

and speaking of...
DRAWINGS, Saturday's was the last. Left over funds will be deposited in the Chamber of Commerce fund to promote a County Fair.

there's still...
A TREMENDOUS LOT of people who haven't paid their poll tax. January 31st is the last chance. Actually, no election has been called this year. But there's a strong likelihood that some will be called. If you intend to reserve for yourself, the right to voice your opinion on any proposed bond issues, etc., you'd better pay that poll tax today.

there's a new...
DAY COMING, is the theme local Commissioners have been singing to the list of perennial welfare cases in Cochran County. Heretofore the people who need help (and maybe a few who didn't) were given help when they asked for it. They were given a chit for groceries and they went to the store and did the purchasing.

when welfare...
AMOUNTS TO a thousand dollars a month and over, it gets to be a problem. When much of the destination is caused because the husband refuses to work, it's an even bigger problem. These people, as long as Santa Claus is waiting, will always be around for a hand-out.

heard about...
A NEW RACKET, this week, which was pulled on one Cochran County citizen whose name we'll delete.

a man...
KNOCKS ON THE door of a house after dark and asks to talk to the man of the house for a moment. They step out on the porch and he asks if it isn't true that the man owes a bill to a certain hospital nearby.

it happened...
THIS MAN had just paid his bill so he said he had and went in the house leaving the visitor standing there. However, if he hadn't, he probably would have volunteered.

ed to pay the bill and some un-
identified stranger would pocket
the money and walk away.

this could . . .

BE WORKED WITH lots of
different companies and the man
doing the collecting could even
find ways to get correct informa-
tion to make it appear authentic.
The moral would seem to be, check
closely before you pass money on
to an unidentified bill collector.

THE PRECAUTION to begin

locking your doors at night. It
hasn't been necessary before, for
a long, long while, but evidently
some big-time house thief has
worked his way toward these parts.
He broke into four places in Mor-
ton one night last week and prob-
ably one in Whiteface. Then he
dropped some papers he took from
one of the Morton homes in a
Lubbock home on a subsequent
burglary.

chances are . . .

HELL BE BACK, Why? Well
sir, he got into three houses here
and finally made off with \$80 at
one place. That's easy pickings.

**Strong Need For Stubble Mulching
Emphasized With Recent Winds**

The dust storm which have oc-
curred already this fall bring re-
newed interest by everyone in ways
and means of controlling wind ero-
sion. One of the practices which
Supervisors of Soil Conservation
Districts and technicians of The
Soil Conservation Service suggest
as being most effective is stubble
mulching. This practice is defined
as using farm equipment in seed-
bed preparation, planting and cul-
tivating so as to leave the stubble
or residues of previous crops on
the soil surface.

This definition raises the ques-
tion with farmers and equipment
dealers alike as to just what imple-
ments and attachments are avail-
able for doing this type of farming.
The practice originated in the
wheat producing areas of the Great
Plains and the Northwest. Equip-
ment has been developed which
permits leaving all the stubble on
the soil surface throughout the
seedbed preparation and planting
phases of wheat production. How-
ever, there are more and quite dif-
ferent problems in applying the
practice to row crop farming in the
Cochran Soil Conservation District.

In recent years a number of im-
plements and attachments have
been widely used for stubble mulch-
ing as seedbed preparation for cot-
ton and sorghums. These include
chisels and ordinary sweeps as at-
tachments on tractor toolbars and
field cultivator type implements.
Tandem disk harrows are also
being used. Perhaps the most com-
mon adaptation is to reduce the
angle of operation and the speed
of an ordinary oneway so that
much of the stubble is left on the
surface. All of these implements
and attachments are limited in
effectiveness in that they cover a
considerable portion of the stubble
and they cannot be adapted for use
in planting and cultivating row
crops.

In order to have effective re-
sults on the soil surface through-
out the planting and cultivating
periods, it is important to have
equipment which will leave all the
stubble on the surface during seed-
bed preparation. The arge sweeps
with coulters attached which are
used for seedbed preparation on
wheatland can also be used for
seedbed preparation for row-crop
production. They are now available

from most equipment companies.
They are made for special pull
type carriers but most of them can
also be used on tractor toolbars.

Equipment is also available for
planting row crops which will
leave practically all the residue on
the soil surface. An attachment
which is becoming popular with
irrigation farmers is what is com-
monly called the loose ground at-
tachment for listers. It is a double
disk opener which can be attached
to an ordinary lister footpiece by
removing the lister bottom. On a
flat seedbed prepared with the
large stubble mulching sweeps
mentioned above, these disk open-
ers can be used to shove the residue
aside so that the crop can be sur-
face planted. Or if a furrow is de-
sired the disks can be set deep
enough to make a furrow similar
to that made by a lister.

Under dryland conditions the
amount of residue will ordinarily
not be enough to present a problem
during the cultivating operations.
The residue is easier to handle on
the surface than it is mixed in the
surface soil during cultivation. If
a furrow is made with the loose
ground planting attachment the
first cultivation can be done with
knife cultivators. Later cultivations
can be done with the ordinary
sweep type equipment, by reducing
the number of footpieces and in-
creasing the size of the sweeps if
necessary. If the stubble is heavy
enough to present a problem during
cultivation, it can be overcome by
using a rotary cutter to reduce the
length of the stalks before seedbed
preparation is started.

Recent results from experiment
stations and use of the method by
farmers indicate that 20-24 inch
row spacing of sorghums will give
increased yields over the common
40 inch row. If this method con-
tinues to give satisfactory results it
will simplify the problems of tub-
be mulch farming for sorghums.
Deep furrow type grain drills and
small listers on toolbars can be
used for planting the narrower rows
as they have proven satisfactory in
heavy stubble. Cultivat on with this
method of planting is usually limit-
ed to one or two operations with a
drag harrow or rotary hoe. After
this shading by the crop itself is
effective in keeping down weed
growth.

A message from
Charles Jones
"Your Pharmacist"

ACCORDING TO
THE LATEST statistics,
you are going to live a
great deal longer than if you had been born in your
grandparents' times.

THIS HAPPY STATE OF AFFAIRS is credited
to the following basic reasons:

1. THE ALMOST MIRACULOUS RESULTS obtained by the use of the Anti-Biotic drugs and Chemo-Therapeutic agents.
2. THE MORE GENERAL USE OF VITAMINS, which strengthen and fortify our bodies against the many types of serious infections, which formerly were responsible for a great many premature deaths.
3. THE GROWING TENDENCY TO CONSULT A PHYSICIAN before an illness becomes serious, and to follow his instructions more carefully.

AS YOUR PHARMACIST, we consider it impor-
tant to keep informed about all the latest advances in
Pharmacy and Medicine. Your physician knows that he
can prescribe any of the newest discoveries, with the
assurance that we will be able to compound his pres-
criptions.

Choice To Learn Skill or Trade Big Reason For Joining Corps
 More than 60 per cent of the men who join the Air Force today do so because of the better chances of learning a skill or trade, according to T. S. J. C. Barnett, head of the recruiting station at San Antonio.
 A recent poll conducted at Lackland Air Force Base brought out this fact. "The survey covered a cross-section of newly-enlisted personnel from the various age groups, educational levels, community populations, and geographic locations. "Another interesting aspect brought to light by this survey was that nearly 15 per cent would like to earn commissions and fly for the Air Force," Sgt. Barnett added. "And there are many people in Morton working at various trades who can attribute their degree of skill and higher wage earnings to the technical training received during their tour of duty with the Air Force."
 "With the Air Force's expansion program of nearly a million people in uniform by 1957, any young man or woman entering the Air Force today has splendid opportunities since there are over 40 available technical career fields which cover hundreds of rated specialties," concluded Sgt. Barnett.

Your POLL TAX Is Due PAY IT TODAY

Several very important topics may well come before the voters during this year, though none yet have been planned.

For instance:

If Morton were to vote on a bond issue to extend water fa-

cilities, you could not vote without a paid poll tax.

If Morton were to vote on adding or repairing sewer facilities, your poll tax payment receipt would be your right to vote.

If a beer or liquor election

were called, you could not vote unless you had paid your poll tax.

If we were to vote on an extension of the City Limits, only through a paid poll tax could you preserve your right to vote.

JANUARY 31, IS THE DEADLINE

Butane Dealer, J. W. McDermett Has Big Part In Meeting

J. W. McDermett of the McDermett Liquefied Gas Co. of Morton has been slated for an important part in a series of events scheduled to take place in Austin, January 21, 22 and 23. He will participate as a member of the board of directors of the Texas Butane Dealers Association, Mr. McDermett represents Association District No. 14 on the official board.

First of the series of three events will come on January 21, when directors of the association will hold their first meeting of the calendar year. They will plan activities of the organization to cover the time until the end of June when the association fiscal year ends. Second event will be the annual mid-winter membership meeting of butane dealers composing the association. More than three hundred members are expected to attend, according to Mr. McDermett.

Third and crowning event of the series will be the formal dedication on Sunday, January 23, of the association's new permanent home building in the Capital City. The local man will join other members of the board in formally accepting the fine new structure from the contractor and turning it over to the membership.

"Our Texas Butane Dealers Association is the first organization of the kind in the country to build and occupy its own headquarters," Mr. McDermett said. "We are naturally very proud of this fact and of the tremendous strides accomplished by our industry during the ten years the association has been active. Our Texas group is the largest of the kind in the na-

tion and has been credited with many 'firsts' in advancement of the butane industry in the service of the public."
Butane gas now serves well over a million Texans as domestic fuel for cooking and heating. In addition it is widely used in agriculture and industry and Texas leads in its use as motor fuel for trucks, buses, tractors, automobiles and stationary engines, Mr. McDermett said.

Scout Com'teemen Are named At Troop 101 Meeting

Twelve parents and Boy Scout leaders of Troop 101, met Monday night, January 17, 1965 in the banquet room of the Agricultural Building, Morton, Texas.

Mr. Robin Sullender, Mustang District Boy Scout Commissioner, and David R. Stanley, Troop 106 Committeeman, from Levelland met with this group. Mr. Gene Benham called the group together and assigned specific duties for adults in the local Troop 101.

These assigned to be responsible for specific duties are as follows: Aquatics — Wayne Walthall; Soil Conservation — Fred Collins; Farm Records — Homer Thompson; Citizenship — M. C. Ledbetter and Fred Stockdale; Safety, public health service — Olen Harris; Finger printing — Hazel Hancock; Firemanship — Fred Morrison and Elra Oden; Animal Husbandry — Ermon Miller and Peques Houston; Plant Cultivation — Homer Thompson; Communications — Gene Huggins and Tom McAllister; Transportation — Glenn Thompson and Van Greene; Building and plans — Homer Thompson; Machinery and Mechanics — Ed Howell; Electricity — Fred Morrison; Arts — Dr. Darwin Stringer; Camping, outdoor sports — E. O. Williams, J. D. Hawthorne, and E. L. Willis; Camp Craft — Ermon Miller.

We were advised that the District summer camp will be held this year, 26-28 of June at Camp Salazar. It has all the facilities required, even fishing available and is located about half way between Menard and Eldorado, Texas. The boys will not have to do any cooking, but will take bed rolls and tents, we were informed. The advancement committees will be there and the boy scouts can earn their merit badges at camp. Professional aquatic men and others will be hired and on hand for the encampment. Mr. Benham advised that he is going to do his best to bring an advancement committee for local Troop 101 to the encampment. The camp dates have not been determined, but will be before June.

Dr. Dan Brown is still the local Scout Master — but we do not know how long we can hold him. Long time we hope. Elra Oden is an explorer leader — all are doing a fine job. The explorers need to work more closely with the troop, and I believe hard in that direction. Thanks to everybody for accepting his share of responsibility.

It's questionable whether the world loves a cheerful giver half as well as the cheerful giver loves himself.

TOP YOUNG MEN HONORED

GRAND PRAIRIE, Dec. 26— On the night of January 15, the Five Outstanding Young Texans of 1964 will be honored at a banquet in Midland. For the past 15 years the Texas Jaycees have sponsored the selection of five outstanding young men in the state of Texas as a part of their program celebrating another year of service. (Governor Shivers has proclaimed the week of January 14-21 as Jaycee Week.)

The five men to receive this coveted award for the year 1964 are: Howard E. Butt, Jr. of Corpus Christi; Ben H. Carpenter of Dallas; Dr. Denton A. Cooley of Houston; Jack W. Gray of Denton; George F. Pierce, Jr. also of Houston.

A panel of distinguished judges met at the state headquarters of the Texas Junior Chamber of Commerce in Grand Prairie on December 18 to select the Texans from numerous entries received from throughout the state. The panel included: Charles E. Board, president of Braniff International Airways; J. Harold Dunn of Amarillo, president of Shamrock Oil & Gas Corporation; G. L. Farned of Baytown, plants manager of Humble Oil & Refining Co.; Houston Harter publisher of San Angelo; Charles P. McGaha, president of City National Bank of Wichita Falls; Dr. Willis M. Tate, president of Southern Methodist University of Dallas; and James E. Taylor of Austin, executive director, Texas Motor Transportation Association. F. E. Hightower of San Angelo, national director of the Texas Jaycees, served as co-ordinator of the judges. Mr. McGaha will report for the judges at the January banquet in Midland.

Attorney General of Texas John Ben Shepperd will make the principal address at the affair honoring the recipients.

Howard E. Butt, Jr., 27, who was born in Kerrville, now lives in Corpus Christi with his wife, Barbara Dan, and their one son. Serving as vice-president of the H. E. Butt Grocery Company, Butt is in charge of store operations, advertising, merchandising and personnel for the 62 supermarkets, 3 bakeries, an ice cream plant, cannery, coffee roasting plant, a beverage plant and 4 warehouses. Approximately one-third of his time is spent speaking engagements and lay-religious activities expounding his convictions that America's moral and spiritual re-emphasis must be voiced by laymen as well as ministers. Since 1946 he has made over 1,500 appearances in 22 states, the district of Columbia and 7 foreign countries and has spoken on numerous college campuses during Religious Emphasis Weeks. Butt accepts no payment for his work with travel and all other expenses being defrayed by the H. E. Butt Foundation.

Ben H. Carpenter, a 30 year old insurance company executive, farmer and rancher, resides in Dallas with Betty, his wife, two daughters and a son. Carpenter, a Dallasite, is executive vice president of the Southland Life Insurance Company, employing more than 1,600 employees and salesmen and with more than \$900 million of insurance in force. He is also president and general manager of The Crockett Company, a real estate in-

vestment firm. In addition, he is general manager of extensive farm and ranch properties located in six Texas counties. He is a director in the American Brahman Breeders Association, the National Finance Credit Corporation, the Texas Livestock Marketing Association, the Texas Beef Council and the Texas and Southwestern Cattle Raisers Association. Since 1951 he has served as Chairman of the Livestock Sanitary Commission, which is the state's principal regulatory agency for the livestock industry. He is active in the Dallas Chamber of Commerce, the Trinity Improvement Association and the Dallas Agricultural Club, working constantly with the 4-H Clubs and Future Farmers organization.

Denton A. Cooley, an M. D., is 30 years old, was born in Houston and still makes his home in that city with his wife Louise and three daughters. Dr. Cooley is a surgeon specializing in disorders of the heart, blood vessels and lungs. A heart operation employing many of the techniques developed by Dr. Cooley was performed by Dr. M. E. DeBakey, also of Houston before a nation-wide television audience recently. In addition to his

regular practice, Dr. Cooley is an assistant professor of surgery at Baylor University College of Medicine. This is his fourth year as a full time member of the faculty. He is active in the Texas Heart Association, serving as a director in the Houston District Chapter. He is also active in the Harris County Medical Society and the Texas Society for Crippled Children. He is a member of several professional societies including the American Association for Thoracic Surgery, American College of Surgeons and the Society for Vascular Surgery. He has also been elected to membership in the Western Surgical Association and the Southern Surgical Association. One of Dr. Cooley's most recent accomplishments was an exhibit on the surgical treatment of aneurysms and thrombo-obliterative disease of the aorta which he developed for the 1964 general session at San Francisco of the American Medical Association. This exhibit received the Hektoen Gold Medal Award as the best among 1,500 scientific exhibits for original investigation and presentation.

Jack W. Gray and his wife, Nancy, make their home with their

two daughters in Denton, his birthplace. Gray, 31, is serving as county judge for Denton County. Through his untiring efforts the citizens of Denton County have witnessed a continuing fight during his tenure of office in their behalf. A new highway is under construction through Denton, an increase of over fifty per cent in farm-to-market road building, the securing of re-locating county roads due to be covered by new lakes, a clear docket in county court, a remodeled courthouse, and a balanced budget are all accomplishments of Judge Gray. Judge Gray is active in church work and in all leading civic and youth groups in Denton—striving to make it a better place to live.

George F. Pierce, Jr., 35, is an architect by profession. Born in Dallas, Pierce and his wife, Bette, and two children now live in Houston. The excellence of his work is reflected in the many schools, public buildings, office buildings, industrial structures and homes he has designed. Pierce has brought honor to his profession by the superior quality of his work. This is evident in that he has won many national awards in architectural design. The most recent of these coming from a national publication to be awarded in 1965 on the basis of work accomplished in 1964. Over \$5 1/2 million of architectural work was either completed or commissioned by Pierce in 1964. Interested in building good character and citizenship as well as buildings, Pierce is active in the Sam Houston Council of the Boy Scouts of America. At the present time Pierce is donating his services for designing new camp buildings at the new "El Rancho Coma" camp in West Texas. He is active in a number of civic clubs and a charter member of St. Luke's Methodist Church, having served on the Board of Stewards for four of the seven years since the church was organized.

The Five Outstanding Young Men of 1964 are: Howard E. Butt, Jr. of Corpus Christi; Ben H. Carpenter of Dallas; Dr. Denton A. Cooley of Houston; Jack W. Gray of Denton; George F. Pierce, Jr. also of Houston.

Jim Lindsey Is Bowie's Latest Citizen To Be Speaker of the House

By J. Q. Mahaffey
Editor, *Texasian* Gazette
AUSTIN, Texas—It had been one hundred and two years since a speaker of the Texas House of Representatives came out of Bowie County and a goodly company of us—two score and more—were present and full of pride when Jim Lindsey took the oath and dedicated himself to that service today. We were mighty pleased that his election was unanimous and that no one opposed him.

"A tall pine from Bowie County—general Jim Lindsey" he had been called in a second nominating speech by J. Gordon Bristow of Big Spring, and the home towners liked it.

Jim Lindsey was born fifteen years and a few days after Sam Rayburn of Bonham, another youngster took the same oath of office in the 32nd Legislature, Rayburn, who now at 74 has served longer than any other man as speaker of the United States House of Representatives, had turned 29 a few days before he was elected. Lindsey will be 29 on February 1.

"Indian Capers" Choral Department February Show

"Indian Capers of '55" the first in what is hoped to be an annual production of the Morton Choral Department, will be presented, Thursday, February 3rd, in the new County Auditorium, according to Joe Carroll, Choral Instructor and production director.

Built around more than a dozen different choral combinations, production numbers, faculty and specialty acts, and talent from throughout the choral department, the variety show will be a new type show for Morton, much in the same pattern of the Eastern New Mexico University production "Swanee" which made such a hit recently.

Some of the featured acts will be the Rhythmettes, the Quintones, the Junior and Senior Chorus, tap dance routines, vocal and instrumental solos, the pee wee quartet, the junior high quintette, faculty capers, several major production numbers, and many others.

Advanced ticket sales will include reserved seats at \$100, general admission at 75 cents, 50 cents for students and children under school age will be admitted free.

3 Area Residents Related To Couple Buried In Lamesa

Double funeral services were held in Lamesa's Clark Methodist Church for Edgar T. McClain, Sr., and his wife Mrs. Euna May McClain, who died one day apart earlier this week.

Mrs. McClain was a sister of Mrs. C. W. Gallion of Maple a half-sister to C. L. Taylor of Baileyboro and a step-sister to A. F. Hutchinson of Goodland.

Mr. McClain died Sunday morning following several years of ill health and Mrs. McClain suffered a stroke and died the following day. Two daughters and a son also survive.

McClain was a member of the Methodist Church and Mrs. McClain was a member of the Church of Christ. Burial of the couple was in the Lamesa Cemetery.

PAY YOUR POLL TAXES BY JAN. 31

Texans Award is restricted to young men between the ages of 21 to 36. It is not necessary for the recipients to be a member of a Junior Chamber of Commerce. It is interesting to note that the average age of these young men is slightly under 31 1/2 years.

Other events scheduled in Midland include an Executive Committee meeting of the Texas Junior Chamber of Commerce with State resident Rocky Ford presiding. The meeting will convene at 1:00 p.m., Saturday, January 15.

Town and Country In Study About Mental Health

In observing the annual Mental Health Week program, members of the Town and Country Study club heard a review by Mrs. Roy Hill of the book, "I'll Cry Tomorrow" by Lillian Roth.

The book traces the mental and

physical regrowth of an actress who had become an alcoholic.

The Club met in the home of Mrs. A. A. Fralin, hostess. The following members were present: Mesdames Hill, Andy Behrends, W. B. Cox, Fred Collins, Fralin, LeRoy Johnson, Keith Kennedy, Tom McAlister, Fred Stockdale, A. J. Sanders and Bill Glassford. Appreciation for the loyal support given the Town and Country March of Dimes was expressed by Mrs. LeRoy Johnson, president.

ATTEND SCHOOL

Mrs. Georgia Schon, proprietor of Georgia's Beauty Shop, and Mesdames Virginia Moore and Tina Kaykendall, of Virginia's Beauty Shop attended a hair tinting and styling show at Hotel Lubbock, Sunday afternoon.

A NOTE

I have received through the mail a copy of the article in last week's paper with the following note written on it: "All very interesting Mr. Brookshire, but am wondering why you didn't mention a certain Mr. Alexander Campbell?"

I am sure the querist had in mind the Alexander Campbell of the great restoration movement. If this is not the one you had in mind if you will be so kind as to let me know who you are, then I shall be happy to contact you and find out just which Alexander Campbell you meant. I have and do welcome any Bible question, or Bible related question. However, I would appreciate it if you will be so kind as to sign your name to the questions when mailed in.

The reason I did not mention Alexander Campbell was because of the fact that I try to limit my articles to a certain amount of space each week and I had already used up more than my usual space.

Be it far from me to minimize the great work done by such men as Martin Luther, John Calvin, John Knox, John Smythe, John Wesley or any other man who had a part in the breaking away from the hierarchy that held the world in subjection. I feel that I shall never be able to express or pay the debt of gratitude to such men who were willing and not afraid to defy the Catholic church, had

it not been for them, we might still be in religious bondage, afraid to express our independence, or to worship God as we might wish. Martin Luther gave back to the world an open Bible. John Calvin, in a very scholarly manner, emphasized the sovereignty, and the dignity of Jehovah. Then came John Wesley, and put into the religion of the time, heart-power, spirituality, that warmth and devotion from the love of which the world was then suffering. All of these men taught great many things that were true. And be it remembered that truth is a universal matter, not to be monopolized by any religious set or order. Whatever Martin Luther taught that is true, I gladly and willingly accept, and the same is true concerning any that followed after him and even to this good day. Christ said, "You shall know the truth and the truth shall make you free" (John 8:32).

The things that I have condemned and sought to emphasize is that these men, (and the same is true for any other men or man), had no right to do is to organize or form a religious body that the Bible does not mention and teach things that the Bible does not teach. Be it to their credit that most of them had no desire to form any new religious body and spoke out against such in as much as they recognized that the Bible mentions only one church. No doubt that many of these men were completely and wholly honest in their religious views, willing to discuss, defend and that even with their lives their positions. However, at the same time they were willing to change their positions when shown their mistakes which is a commendable thing on the part of any individual. I am sorry to say that I have heard many who are members of the churches that are in the world today as a result of their work say, "I would not change if I knew I was wrong" or a few to say "I would die and go to hell before I would change." May the Lord have pity, and mercy on the individual who has that attitude.

In spite of all the good that may be said concerning these or any other man, they did not die for me and salvation is not in their name. Jesus Christ died for me, salvation is in his name and in none other and I was baptized in the name of Christ. (See Mat. 28:19-20; Mk. 16:15-16; Acts 2:38; Acts 4:10-12).

More about this in next week's paper.

Church of Christ

Morton Jesse Brookshire, Minister

Three Way News . . .

By Mrs. Frank Griffith

Bernice Kirby was on the sick list last week. . . .
Mr. and Mrs. Cash Pollard made a business trip to Lubbock Thursday.

The Three Way Seniors are rehearsing their 3 act play entitled "Swing Your Partner" to be presented in the school auditorium sometime in January.

The High School basketball teams went to Bula January 11 for two conference games. The girls were defeated and the boys won their game. The teams played at Pettit Friday night. Again the girls lost and the boys won. The boys have won all their conference games so far.

The teams go to Pep Friday night for more conference games. Tuesday Jan. 25 they will be host to the Bula team. The grade school basketball teams played Causey at Three Way Thursday night. The girls won and the boys lost. The grade school teams will be in a tournament at Sudan this week. They will play Rogers at Three Way Jan. 27.

Snow covered the Community Saturday morning after a shower of rain Friday evening. Around 3 inch of moisture resulted from the precipitation.

Mrs. B. B. Neeley Sr. of El Paso, the paternal grandmother of Mrs. Ted C. Theford, has been visiting in the Theford home since Dec. 28. She returned to her home this week.

Due to the icy pavement, Jim Henry Johnson flipped his car west of Goodland Saturday. He and his mother, Mrs. Baker Johnson, had been to Causey to make a telephone call to Muleshoe to find out the condition of Mr. Hanover, father of Mrs. Johnson and to tell them they would not be in to see him because of the bad roads. On their way home the car skidded and turned over on the right side. No one was injured, but Jim's car was dented considerably.

Kathy Wittner daughter of Mr. and Mrs. Adolph Wittner was confined to her home last week with the measles.

Mr. and Mrs. Billy Knox moved to Bula this week where Billy will be engaged in farming.

Mr. and Mrs. Homer Waldrop of Muleshoe visited in the home of Mr. and Mrs. Frank Griffith Sunday afternoon.

Guests in the Zemy Boozer home Sunday were Mrs. Oscar Telchick and Nancy of O'Donnell, Mr. and Mrs. Curtis Wilborn and

Mrs. Rose Reviews "The Cotton Road" For Book Lovers

Mrs. Evelyn Rose reviewed the book, "The Cotton Road" by Frank Feuille Thursday evening for members of the Book Lovers.

Mrs. Truman Doss, hostess, served refreshments to the following members: Mesdames L. B. Gibson, Joe Gipson, J. A. Gowdy, LeRoy Johnson, M. C. Ledbetter, H. A. Owens, Neal Rose, Evelyn Rose, Hume Russell, A. E. Sanders, Frank Weir, Iva Williams, and Bill Glassford.

BORGER VISITORS

Mr. and Mrs. Merlin Roberts visited in Borger Wednesday and Thursday in the home of Mrs. Roberts sister and husband, Mr. and Mrs. R. J. Vinson.

Mr. and Mrs. Vinson, former Mortonites are the parents of Borger's first baby of the year. The baby, a boy weighed eight pounds at birth and has been named Phillip Graig.

COME BACK HOME

The F. H. Lattner family has moved back to Morton from Bakersfield, California. The Lattners moved to California about two years ago.

children of Muleshoe and Brenda Griffith.

Jerry Walker spent Sunday with Bailey Griffith.

Others on the sick list are Mrs. Charlie Clair, and Bonnie Bateas.

The Goodland Bible Study club held an all day meeting in the home of Mrs. Leon Reeves for the purpose of quilting a quilt. The quilt will be sold to raise money for the club.

Mrs. Butler Is WMS Hostess

The Helen Nixon circle of the Baptist W. M. S. met Monday night Jan. 16th in the home of Mrs. W. M. Butler. A royal service program was presented by Mrs. J. C. Buchanan, Mrs. Roy Greer, Mrs. Earnestine McCasland and Mrs. Lowell Webb.

A special song was given by Mrs. Wayland Walton, a social hour followed the program.

Other members present were, Mrs. C. B. Qualls, Truett McCusiston, N. H. Steed, Bill Crone and the hostess Mrs. W. M. Butler.

Lockheed Offers Scholarships

Students who are seniors this year at Morton are eligible to apply for a four-year university scholarships offered by the Lockheed.

Each of 15 awards, sponsored by the Lockheed Leadership Fund, calls for full payment of tuition, and fees and \$500 per year for personal expenses to the winner.

The sponsor emphasizes that leadership in school and community activity, good citizenship and personality are as important as scholastic ability in competing for the awards.

This is the third year that the Lockheed Leadership Fund has offered the scholarships. Ten of the four-year grants are for engineering majors and five are for students who plan to take up studies relative to the aircraft industry, including accounting, law, business administration and industrial relations. Each of the 15 colleges and universities cooperating with the Lockheed program to develop industrial leaders will select a winner this school year. To get the names of the institutions and full details of the program, see the bulletin board or check with the principal's office.

Mrs. Chester Head Shower Honoree

Mrs. Chester Head was honored with a stork shower in the home of Mrs. Robert Richards Thursday afternoon.

Hostesses for the occasion were Mesdames Bob Cook, W. E. Akins, Wayne Aikay, Marvin McDaniel, Joe Graham, Rob Richards, Ronnie Gast, Fred Kelly, B. W. Bolton and W. G. Hefflin.

Refreshments of cookies, mints and coffee were served to approximately 25 guests.

VISIT LITTLEFIELD

Mr. and Mrs. Mike Walden and girls, Mr. and Mrs. Lee Stewart, and Mrs. Sallie Walden, all of Morton, spent Sunday in Littlefield with the R. V. Armstrongs.

MORTON JAYCEES

"Selfish" Oil Titan Gives Millions Away

Hardly anybody blinked an eye when Hugh Roy Cullen gave two and a quarter million dollars to the University of Houston last winter. Hardly anybody in Texas, anyway.

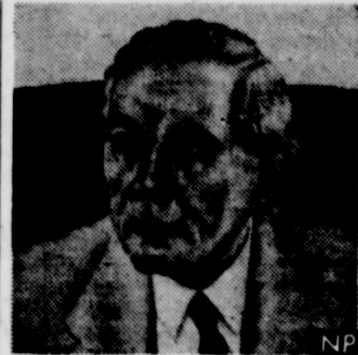

This big-hearted, impulsive, outspoken, ruggedly individualistic oil millionaire has given away over \$160,000,000. In one 48-hour period he gave over a million dollars to each of four separate hospitals, setting an all-time record in generosity. And in 1947, he set up the Cullen Foundation to dispense his wealth in systematic if somewhat overwhelming fashion.

"My wife and I are pretty selfish about our giving," he explained recently. "We want to see our money spent while we're still alive, so we can enjoy the spending." The story of what one newspaperman called "the biggest heart in Texas" is told in a new book, "Hugh Roy Cullen, A Story of American Opportunity."

Cullen acquired his wealth as a wildcatter in oil, starting from scratch, with little more than courage, faith, obstinacy and uncanny instinct. His philanthropies started early in life. "I've always wanted to help people," he says. "I guess I was as eager to help people when I was poor as I am now. It is my conviction that unless a man is generous to begin with, the richer he gets the tighter he gets."

Years of hard work and determination made Cullen the uncrowned king of the wildcaters, a legend in his own time. By his middle years, still drilling vigorously, his unbounded wealth was matched by his unstinting philanthropies, since he felt that the riches he had extracted from American soil should be used to serve the needs of his less fortunate fellow-citizens.

As Speaker of the House Joseph Martin commented on his absorbing life story, "The story of Hugh Roy Cullen should be required reading for any pessimists who believe that America is a nation of vanishing horizons. . . . As long as our country produces men of the character of Roy Cullen, it will go forward."

Hugh Roy Cullen

Mr. and Mrs. F. B. McClintock and children have moved to Tahoka where he will engage in farming. Mrs. McClintock, the former Mary Jean Weekes, is the daughter of Mr. and Mrs. W. J. Weekes.

EDITORIALS

NEEDED URGENTLY. ONE ACTIVE LEADER

A sudden effort on the part of the Chamber of Commerce to interest local men into building rent homes for at least 20 families of gasoline plant workers; has created quite a bit of talk.

The gist of many conversations has been that Morton has reached an important crossroad in its possible future. On the other hand are those who echo, what cross-road, what importance.

From this corner it appears that Morton has reached the point where something needs to be done, if we are to insure a future for this city.

Thus far, Morton's growth has been evolutionary but in no manner revolutionary. It has never been a "boom type" growth. The City has remained in existence mainly as a supply center for approximately 7,500 people in the "Last Frontier" trade area.

Only as new ideas slowly evolved in the farm area around Morton, did the city's business locations increase. Two or three slight delvings into oil exploration in the county brought some transient oil workers. A very few stayed to make Morton their permanent home.

But through it all, in the last 10-15 years the boys who should know have shook their heads and said, "Morton can never amount to much." As proof they point to the lack of any means to attract industry. The one point that was more important than all of these, but one they didn't talk about out loud, was the lack of effective leadership.

Somehow there wasn't to be found the one man or group of men who wouldn't take "no" for an answer. Some were very successful in their own right, but they had little time left to push the success of Morton as a city. They offered their money and their name in support, but they had none of the commodity that was most needed, time.

Spasmodically, things have been done. We've had paving projects, sewage lines, at least one housing boom. But all of it has been more or less natural growth. Nothing spectacular. Until recently, there has been little of permanency upon which to anchor ideas of the future.

What is it that has suddenly brought Morton to the "crossroad" that must be dealt with. Well, to begin with, we haven't suddenly arrived. A group of people have just "suddenly" noticed something that has been taking place for about the last two years.

In 1948, people had more or less forgot about the ways in which Morton had missed the boat. They had ceased talking about how a refinery once could have been built here, but for a little support it needed and didn't get. The county was having a good crop year. Other things were forgotten.

Then the lull began to start. Slowly at first, then a little harder,

As the drouth continued here, a cotton acreage control was slapped on the nation. Diversified farming was unknown here. Again the blow was felt deeply.

Today, though it has been done the hard way, Cochran County farmers are slowly pulling themselves out of the depths of debt. More and more irrigation is being used every day. Sprinkler systems have made poor four-inch wells in effective watering media.

On top of that a gasoline plant has finally moved into the county giving promise, in many ways, of stimulated business. What now? Is that where we stop? Do we sit by and wait for someone else to suddenly decide he wants to build a plant near Morton? Or wait for the government to suddenly discover this is ideal country for a submarine base? These things, the most natural or the most impossible, don't just happen. They are the product of the combined efforts of the people of the community.

This week the Chamber started people talking about the need for good rent houses in Morton. Even that subject hasn't been covered. Not only do we need nice rent homes for these families who are moving in to operate the plant, a good share of our people who were already here would like to have a nice, two bedroom home to rent. A good share of our local residents are tired of living in three room chicken coops, because something better was not available.

How many prospective residents do you imagine we've lost through the years because of lack of nice homes? When we have our problems looking for teachers, doctors and other professionals, does the lack of homes play an important part? Don't you bet one penny it doesn't. Don't you bet a penny that isn't part of the reason we have no dentist today, no optometrist.

But houses aren't our only problems. Some of the very reasons we don't have houses for rent should be settled first. Why is it so hard to obtain loans for houses in Morton? Why is a home in Morton worth so much less than the same home in many other towns?

To increase the value of property and increase the loan potential we must have proper zoning throughout the town, expanded sewage facilities, ample water, good gas lines. A fine hospital, good schools, strong churches we already have. But there are many other things we lack... things that help build communities.

And number one today, just as it has been all along, is proper leadership. If we have among us, the men to push Morton into expansion we certainly are not utilizing the talents of that man or those men. Our Chamber of Commerce is woefully weak in total accomplishments. The directors are doing the best they can but without complete merchant support, without the proper leader, their accomplishments are very slow.

Yes, we're at those crossroads. If we ever expect to see a greatly expanded Morton, we must get to work. We must bring forth our leaders and put them in the saddle, or go out and recruit some leaders.

Complacency won't get the job done. Fear that you might make one of the local businessmen, or a potential customer mad, doesn't make for progressive businessmen. Fear of competition, stifles initiative. Fear of what the church might think is one of the most unhealthy relationships that can exist anywhere. The churches, through the combined efforts of their pastors, forming a ministerial alliance, will act as the proper check-rein on improper ideas being carried out by the people. The rest of the initiative in bringing new types of businesses, recreation, etc. is up to the businessmen.

The chances are against it, but there could be a railroad in the future. However, it won't just come to Morton. We would have to bring it here by promises of the erection of graneries, a cotton compress, or any other thing that might promise freight traffic which would sustain the railroad.

This isn't the only crossroad we'll ever come to, in the future of Morton. There have been some before. There will be more.

This is simply a time when action may accomplish great things, and lack of action, may forestall our opportunity to move ahead, many years.

MISS OLLIE JONES, SHOWER HONOREE

Miss Ollie Jones was honored with a bridal shower in the home of Mrs. H. T. Clarke, Thursday afternoon.

Hostesses for the shower were Mesdames Clarke, Truett McCuis-tion, W. A. Lewis, M. A. Tanner, J. T. Studdard and Marie Peters.

The refreshment table was laid with a round lace cloth. Cake, coffee, nuts and mints were served to approximately 30 guests.

Letter to the EDITOR . . .

ALIENS MUST REGISTER IS RENEWED WARNING

Marcus T. Neely, District Director of the Immigration and Naturalization Service, El Paso, Texas warned today that every alien who is in the United States on January first must report his address to the Commissioner of Immigration and Naturalization during the month of January 1955. In addition, any alien who is temporarily absent from the United States during the reporting period shall report his address within ten (10) days after his return to the United States.

The fact that an alien registered in 1940 and has submitted address reports in the past does not relieve him of the responsibility of again furnishing his address during the month of January 1955, regardless of whether his address has changed during the past year.

If the alien has applied for naturalization papers but has not as yet been naturalized he still must comply with the law and submit an address report card. If an alien is a visitor or student in this country and is in the United States on January 1, 1955, he is also required to report his address. All alien children over the age of 14 are required to report their address, and parents of alien children under 14 years of age are responsible for the address of such children.

Alien Address Report Cards are available at all United States Post Offices and Immigration Offices. This is a simple form which the alien fills out and signs. He then hands the completed form to any Post Office clerk or Immigration employee.

If an alien willfully or inexcusably fails to report his address during January 1955 he may be taken into custody and deported from the United States. He may also be fined and imprisoned before such deportation.

If any of your friends are aliens who are required to submit this address report, Mr. Neely asks that you please pass this information along to them so that they will be aware of this requirement.

The secret of success lies in finding a more efficient way of doing your work—not running away from it.

OBSERVES BIRTHDAY

Jon Paul Goodman observed his fourth birthday with a party at his home Tuesday, January 11. Little friends helping Jon Paul celebrate were: Rhea Jane Brown, Donald and David Brown, Celeste Cross, M. Ke Doss, Ann Dunham,

Margaret Ledbetter, Melissa and Chip Monk, Danny McCasland, Billye Nairn, Rusty Rowden, Gail and Travis Rowland, Sandy Sanders and John St. Clair.

Sending birthday gifts but unable to attend the party were: Joe Bowers, Flecha Lowe and Billie

Rae and Mike Proctor. Others attending were: Mrs. Dan M. Brown, Mrs. Alton Burleson, Mrs. Robert Cross, Mrs. N. A. Monk, Mrs. Bud Nairn, Mrs. N. A. Rowland, Mrs. Courtney Sanders, Mrs. James St. Clair and the hostess, Mrs. Goodman.

NOTICE TO TRAPPERS

The Commissioners' Court of Cochran County has ordered that the present bounty being paid on coyotes be discontinued on February 1, 1955.

Therefore, no bounty will be paid after February 1st, 1955.

This 10th day of January, 1955.

Custom Royal Lancer

Custom Royal Lancer V-8 in dramatic new three-tone exterior styling.

A car of noble proportions, gallant and gay, and born to rule the road in flashing style!

In every age, there are those who are not content with the humdrum, the commonplace.

If you are one of these, the Royal Lancer speaks directly to your heart.

For here is a car that fairly breathes adventure. You sense it in the bold forward thrust of its hood, the sweep of rear deck, the rakish slant of the New Horizon windshield.

Its beauty is not calm and placid, but eager and alive—the measure of performance that stems from the most advanced aircraft-type V-8 engine on the road.

And should you choose to make this car yours, you will have this assurance: In any company of automobiles, there is nothing to challenge the distinction of your Royal Lancer by Dodge.

Lions Raise \$225 for MOD In Tie Auction

The Morton Lions raised more than \$225 for the March of Dimes Wednesday in an auction of ties which included the ties of two guests on hand.

Ties worn by the various members were sold for as high as \$11 to individuals on several provisions. Some were cut off on the spot and the owners had to wear them the remainder of the day, some were swapped, some were left "as is."

The auction supplied the main part of the business and entertainment at the weekly luncheon. The club also voted to sponsor a girl entry in the Town and Country Style Club's Beauty Contest and Study Show. A three man committee was selected to designate a Lion's entry.

Eleven Percent Of Vehicles Are Inspected

Approximately 11 percent of the vehicles in Cochran County have complied with the 1955 State of Texas motor vehicle inspection law according to L. W. Wilhite, Lubbock inspector.

Wilhite appeared here Monday and said that 340 out of an estimated 3,000 vehicles have received the new stickers. April 15 is the deadline.

There are five inspection stations in Morton. Miller Motor Company, Allsup Chevrolet, Hawkins Oldsmobile, John A. Mills Ford dealer and Ed Howell Motor Company are qualified inspection stations.

Wilhite reminded Cochran Countyans to avoid the last minute rush and have their cars or trucks inspected as soon as possible.

Escape Injury In Accident Near El Paso

Three Morton men escaped injury on a trip to El Paso Friday when their car was sideswiped by another car.

Bill Glassford, E. H. Irwin and T. J. Simpson were in the Glassford car 10 miles outside of El Paso at about 6:30 a.m. Friday morning Simpson driving. The car was sideswiped by a Buick Roadmaster sedan passing them from the rear. The Buick careened off the highway and hurtled some 600 feet into the sandy field beside the road finally hitting a three foot sand embankment, jumping it and coming to a stop. One man in the Buick, Gus Axelsson an employee of Standard Oil Company of Texas was injured and hospitalized with back and chest injuries. Two other occupants of the Buick, driven by M. P. Parret, vice-president of the company, were uninjured.

Parret said his car started skidding as he pulled alongside the Glassford car, evidently the rear wheels had slipped off the pavement which was wet from a misting rain. The Buick was badly damaged.

Simpson kept the car he was driving on the pavement and guided it to a stop without very much damage. The local men were going to El Paso on a one day business appointment.

Baylor Puts Atomic Energy To Work

Atomic energy is to be put to work for the benefit of mankind at Baylor University Hospital in Dallas. Charles R. Moore, chairman of the Dallas executive committee of the Baylor board of trustees, announced this new advance for the treatment of cancer. Mr. Moore stated that plans have been completed for installation of a new "Theratron" Cobalt 60 Beam Cancer Therapy unit at Baylor University hospital.

The cobalt therapy unit is a new type of giant X-ray-like machine which utilizes radiation from atomic energy to penetrate the skin and retard or destroy the growth of cancerous tissue. In discussing the new unit Dr. J. E. Miller, chief of the department of radiology at Baylor University hospital, said: "The principle of X-ray therapy has been used in the treatment of cancer for a long time, but the new Cobalt machine makes possible deeper penetration with less harm to normal tissue than was ever possible before." The installation of this advanced machine will place Baylor University hospital among the leading centers for treatment of cancer in the United States.

Shepperd Is Honored By People of Duval

BY CARO BROWN ALICE DAILY ECHO

Members of the "praying grand jury" of Duval County and scores of citizens crowded into a tiny courtroom in Alice recently and presented Attorney General John Ben Shepperd with three citations commending him for ending political tyranny in the "land of murder and mayhem."

The presentation was a surprise to Shepperd, who was in Alice to surrender his captaincy of the Duval investigations to local District Attorney Sam Burris.

Lean booted ranchers looked on as Otto Brandt, foreman of the "praying grand jury," read a scroll which praised Shepperd as "a public official with the courage to risk his fortune, his reputation and his public career in order to lift his fellow citizens out of their intolerable condition."

The packed courtroom was silent as pretty Mrs. J. J. Trevino of Benavides, president of the United Mothers and Wives of Duval County, handed Shepperd a citation praising him for "purchasing with courage and Christian integrity the right of our children to grow up uncorrupted and unafraid."

Lawrence Warburton, Sr., president of the Duval County Clean Government League, cited the Attorney General for restoring Constitutional rights to citizens who he said had been "pushed around for forty years."

Husky, black-haired Sam Burris, who defeated Parr-favorite Raeburn Norris for District Attorney in Duval County, named Shepperd's fifteen major accomplishments in the strife-torn area since his office began legal actions there in February, 1954.

He said Shepperd had ended violence, stopped the packing of grand juries, made possible the first impartial grand jury in the county's history, and aided in returning 104 fellow indictments against county officials. He rid the county of gun-slingers, cleaned up elections, caused the disqualification of the biased District Attorney, and encouraged Federal investigations of George Parr for income tax evasion, Burris declared.

Shepperd told the 100 or more Duval residents that he felt it was time for primary responsibilities in the Duval investigations to be shouldered by local authorities. He turned over their direction to Burris.

"As long as we are needed, we won't quit," he said, "but we'll be working for the District Attorney."

The Attorney General estimated that at least half a million dollars in stolen Duval County funds could be recovered through tax payers' suits to be filed this year.

"The longest ride I ever took," he told the group, "was on the morning of February 9, 1954, when I rode ten miles from Alice to the Duval County courthouse. I thought of what might happen if my efforts failed, and George Parr had been able to show he was stronger than the combined forces of the State. I thought of its effect on unborn citizens who would in time realize they had no barrier against a political boss wherever he might raise his ugly head."

Shepperd said he could not accept the citations for himself without giving credit also to Governor Allan Shivers, Homer Garrison, Jr., Head of the Department of Public Safety, the Texas Rangers, Federal Officials, U. S. District Attorney Malcolm Wilkey, State Auditor C. H. Cavness, and Republican National Committeeman H. J. (Jack) Porter. He said Porter had not been publicly recognized before for his "great help in cutting red tape."

The grand jury citation declared Shepperd had "risked political suicide and laid himself open to vicious slander and personal law suit to help the people of Duval County."

"He justified our faith that this generation would not pass away until it raised to public office a man who valued the lives, the fortunes and the well-being of his fellow citizens above his own," it concluded.

LEGAL NOTICE

NO. 55
NOTICE TO DEPOSITOR
BIDDERS
THE STATE OF TEXAS
COUNTY OF COCHRAN

Notice is hereby given to any and all Banking Corporations, Associations, or Individual Bankers in Cochran County, Texas, that on

able at the present time. Treatments with this machine are said to be effective on 15 to 20 percent of the patients who are not helped by the previous available lower voltage and with all patients treated, there is more effective treatment with less adverse effect to normal tissue.

Dr. Miller stated that especially trained personnel will be required to operate and maintain this advanced equipment. He said further "we are fortunate in having Dr. John T. Mallams on our radiology staff who has had experience with this modality of therapy."

According to Baylor radiologists the cobalt unit is ten times as powerful as standard therapy available at the present time.

Saturday Morning, February 14, 1955, at the Regular February 1955 Term, at 10:00 o'clock of such morning in the Commissioner's Court Room in the Court House at Morton, Cochran County, Texas, such Court will consider bids for contract to become Depository for the Public Funds of Cochran County, Texas, for Depository for the Public School Funds of the Common Schools of Cochran County, Texas, and for the Public Trust Funds of Cochran County, Texas.

All such bids should be prepared in accordance with the Laws of the State of Texas as contained in Chapter 3, Title 47, Revised Civil Statutes of Texas, 1925, as amended, and presented to Fred Stockdale, County Judge of Cochran County, Texas, on or before the day and hour mentioned for consideration by the Commissioners' Court in Regular Session setting on such day at such hours of such day in the place mentioned.

This notice to bidders shall be published in some newspaper published in Cochran County, Texas, for at least twenty days before such day, and shall also be posted at the Court House of Cochran County, Texas, in the City of Morton, Texas, for at least twenty days before such day.

Fred Stockdale, County Judge, Cochran County, Texas.

Full instructions as to preparation of bids may be obtained from Fred Stockdale, County Judge of Cochran County, Texas, at his office, in the City of Morton, Texas. This 10th day of January, 1955.
