NUMBER 12

Cemetery Group Places Order For Sprinklers

A bid of \$1,000.00 submitted by the Loran Distributing Company for the installation of a sprinkler system at the cemetery here was accepted by the cemetery's board of directors Monday night.

The opening of the bids followed an announcement last week by the association that bids would be accepted Monday night, opened and read.

Other actions taken by the directors included the placing of an order for Bermuda seed to seed the east and extreme west portions of the cemetery, and the passing of a resolution making all areas east of present markers reserved for flat memorial markers.

Also committees were named to investigate the preparing of the soil for seeding.

It was announced that trees ordered earlier could not be shipped this year due to the lateness of the season.

All directors were present at the meeting, S. M. (Smiley) Monroe, president; Mrs. Len Chesher, secretary-treasurer; Mrs. Gen Benjamin, G. E. Nichols, and Bill Glassford.

Funeral services were held at RioVesta, Sunday afternoon, for H. C. Taack, 78-year-old brother of John H. Taak of Morton, Star Route.

The brother died Saturday. He was the sixth of 10 boys in the family to pass away. Four sisters are still living.

John H. was unable to attend the funeral services.

Bledsoe Man Is Candidate For ENMU Degree

PORTALES (Sp.) — T. F. Singleton of Bledsoe is one of 122 candidates for degrees at Eastern New Mexico University this spring.

Singleton is seeking a Master of Arts degree in the field of Education. He is the only Cochran Countyman on the list released by the school's news bureau last week.

A total of 36 are seeking MA degrees. Baccalaureate services are to be held Sunday, May 29, and Commencement, Thursday June 2nd. The honors convocation is today.

L'men To Conduct Methodist Services

Services in the First Methodist Church of Morton will be conducted this Sunday by laymen of the church in the absence of the pastor who will be attending annual conference in Lubbock.

M. C. Ledbetter, charge lay leader, will conduct the morning service, with Ermon Miller, superintendent of the Sunday School, bringing the message.

J. C. Stripling, teacher of the Asbury Class, is the speaker for the evening service, eight o'clock. Members of the church are urged to attend these services. The public is cordially invited.

Terrapin Derby Set June 18th

The Cochran County Sheriff Posse and the American Legion will sponsor, for the second year, the Terrapin Derby on June 18th, it was announced this week by Legion Adjutant Albert Morrow.

The derby, in which terrapins of all descriptions from many parts of the country are placed in the center of a circle and race to the outside, was held last year for the first time in Morton and drew large crowds and a large entry list.

The co-sponsoring organizations will again supply a load of terrapins, from which one can pick out his own racer or he may find his own terrapin and enter it.

Anyone interested in entering a terrapin should contact Albert Morrow.

This year the race will be held in downtown Morton, as near the square as possible. Admission will be free to watch the event.

Morrow expects several out-of-state terrapins to be entered.

Pledge Service Tues. Afternoon

Plans are being made for the Woman's Society pledge service scheduled for Tuesday afternoon, May 31st, two-thirty.

Mrs. J. W. McDermott, treasurer, will be in charge of the program, assisted by Mrs. J. D. Hawthorne, the vice-president. The group will meet in the parsonage. Members of the Marcia Hinds Circle are meeting with the Tuesday Afternoon Circle for this program.

DISPLAY AWARDS — Elwood Harris, local FFA instructor poses with his boys and their recently awarded banners in various judging activities in area and district competition.

LITTLEFIELD CAPTURES FFA RODEO CROWN WITH 52 POINTS; MORTON PLACES SECOND

Littlefield's FFA chapter produced the top cowhands in the second annual Morton-Bula FFA Jr. Rodeo in Morton last Friday and Saturday as disappointing, but still profitable crowds attended the two night show.

A small afternoon parade preceded the event and threatening weather undoubtedly cut into Friday's attendance, plus the fact that several other things had been slated around the country.

But FFA instructor Elwood Harris of Morton said the two clubs did make a little money on the show and expressed his appreciation to all who helped stage the program.

Littlefield took home the trophy by running up a total of 52 points. The team competition wasn't even close. The Lamb County team captured three of the six event championships with Johnny Fields leading the way. Morton's 24 points were good for second place, Bula had 19; Meadow 17; Levelland, 10 and Whiteface, 5.

Ribbons and banners were awarded and Littlefield gets to keep the team trophy until next year's affair.

Morton captured one first place and two seconds. The other firsts went to Meadow and Levelland. Two boys were injured in the competition, both on the first night.

John Hodnett, competing in open class, was taken to the local hospital after he was pitched from a

bare-back bronc ride, onto his back. Dick Greer, Morton FFA was shaken up considerably in a bronc ride and then when he was thrown again in a steer ride he was reinjured. Both boys were ok the next day. Greer with a sore and tender black eye to show for the incident.

Barton Spencer of Littlefield completed the calf roping. Posting times of 24.1 and 23 seconds flat his overall total of 47.1 on two calves took top honors. Two Bula boys, Wendell Jones and Dusty Bogard started strong with 19.5 and 19 seconds on the opening night. But Jones failed to get his calf the second night and Bogard took 37 seconds on his. Billy Settles of Meadow was second with a 48.3 total and Bogard captured third with a 54.3 mark.

In cow riding, Levelland's Jerry Primrose was given the most points by judges for his ride. Little Jimmie Cunningham of Morton was placed second and Johnny Fields of Littlefield was third.

In the bronc riding competition, Fields came back to post a 1st place. Bruce Trotter of Littlefield was second and Eugene Watts of Littlefield was 3rd. That gave the Lamb Countians a sweep of that event and almost assured their victory. In these riding events, the competition was at its best and fans all over the area remarked how many of the boys, apparently unskilled and unpracticed, gave it

all they had to help make it a great show.

In ribbon roping, Settles came back to become the other double winner. He captured first place with a total time of 39.7. Wendell Jones of Bula roped two in 49 seconds for second place and David Mardacai of Littlefield posted a 58 second time to take third.

Littlefield won the trailer race event with the Morton team placing second and Whiteface third for the Antelope chapter's only points of the show.

Morton got its only first in the barrel race, a girl's event as Judy Holloman had stiff competition but won both nights from Bula's Sara Jones. Judy's times were 21 seconds and 17.5 seconds. Sara had times of 23 and 23.

The officiating, judging and ring handling were carried off excellently. There was some confusion as to which event was next, lack of enough rigging for the brones and cows forced them to mix up some of the events. But the fans got their money's worth and the show was exceptionally well planned. The stock was in good shape for the show.

In pre-rodeo palmetto polo competition, the FFA boys won over the Morton Sheriff Posse on the opening night by a 6.3 margin. The game, an innovation to the area, will be played regularly by our posse when the area teams get organized into regular competition.

Last Rites Held For Mrs. McCord

BULA (Sp.) — Funeral services were held in Bula, at the First Methodist Church, Tuesday afternoon at 3 p.m. for Mrs. Robert L. (Buster) McCord, 34-year-old mother of five children.

Mrs. McCord died in the Lubbock Methodist Hospital at 9:15 a.m. Monday. She had been rushed to the hospital there over the weekend when an infectious condition became suddenly worse. She'd been ill only a few days.

Bailey County residents, the past three years, the McCords had moved there from Youkum County where the family had resided for a number of years. McCord is at present farming at a Route One, Sudan address in the Bula community.

The funeral was under the direction of the Greenwood Funeral Home and graveside rites were held at the Plains Cemetery, before burial.

Survivors include the husband, two sons, Don Robert and Arthur Dale all at home; one married daughter, Mrs. Virginia Burt of Corpus Christi and two daughters at home, Joy Mae McCord and Velma June McCord. Also, three brothers and one sister survive, from Seminole: El Paso, Claude and Mesquite.

Memorial Service At The Cemetery

Though only a few places like the local bank, the post office and perhaps some of the county offices will be closed, Morton will observe Memorial Day, next Monday with a memorial service at the Cemetery.

The occasion will offer a good chance for local people to see just what plans are in mind for the cemetery and what condition it is now in.

The service will be held at 9 a.m. with Jesse Brookshire, Church of Christ Pastor delivering the sermon. The ceremony, completed with flag bearers, firing squad, and taps, will take about a half hour.

Merchants are invited to close and attend the half hour service and, even if they can not close, are requested to fly their flags throughout the day.

Veterans are requested to gather at the Veterans' Hall at 8:30 a.m. in Khakis, according to Homer Thompson, post Post Commander of the VFW. The Memorial service is co-sponsored by both veterans organizations.

IOOF TO HAVE ICE CREAM SUPPER

An ice cream supper has been announced for members of the IOOF lodge here Tuesday, May 31, it was stated this week. All IOOF members are invited to attend.

SWIMMING POOL OPENS JUNE 1, CHARLES PAINTER IS MANAGER

Morton Golfers Finish Strong At Denver City

Baker Van and T. K. Williamson of the Morton Country Club won two flight 9-hole matches apiece in the Denver City one day 9-hole golf tourney last Sunday before bowing out.

Van, competing in Flight Two defeated Snoball Willis, 3 and 2; then edged Bob McAlister, 2 and 1, and lost an 11 hole thriller to Sawyer Graham in the semi-finals.

Williamson, in the fourth and last flight, defeated Ray Brandshaw, 2 and 1; edged Tom Allison, 2 and 1 and then was tripped in his semi-final by R. E. Dyer, 2 and 1.

Other Mortontites also fared well. Snoball Willis and Button Silvers, after losing their first match, did right well in the consolation of 1st and 2nd flights. Willis defeated Spike Haje, H. L. Scarborough and George Stewart, 2 and 1 each, to win his consolation crown. Silvers beat N. D. Nixon and Leon Long, 2 and 1 and 1-up in his first flight consolation matches. He was ousted in his first match by Gano Tubb, 1-up.

Tom McAlister, competing in the championship flight, lost his first match to D. E. Adair, 2 and 1 and didn't compete in the consolation.

In third flight, Neal Rose beat W. C. Harrison, 3 and 2 and then lost to W. T. Leon, 1-up.

Luke Cole lost to R. B. Brown, 1-up and then won three straight matches over Luke Hall, Stony Hennington and Connie Meador for that title.

Joe Nicewarner couldn't compete at the last minute and Dr. N. A. Monk defeated Gordon Edgeman 4 and 3 but lost his second match to Neal Vanant 3 and 2.

This Morton came up with three consolation winners and a total of 14 victories against 8 defeats.

Texas Company Drops Out Of Softball Loop

Texas Company of Sundown, the last entry into the league, announced Tuesday night, through Howard Shaw's manager, that they were unable to field a team and would not compete this year.

As a consequence the schedule will be redrawn with the 8 teams in the circuit.

With the eight team loop, instead of nine, several more games are possible during the entire summer season, that is several more games per team. The invitational tourney and all star game will be only slightly changed as to date.

Sam Kelley To Spray Grass In Aerial Test

An aerial demonstration of an attempt to get rid of Johnson grass by aerial spraying will be begun here Saturday morning at 7 a.m. at Horace Gilmore farm, 2 miles west of Morton on Highway 290 north side of the road.

County Agent Homer Thompson said today three types of spray will be tried one, vernal, one straight naphthalene and one mixture of half kerosene and half naphthalene. He estimated it would take 3 to 4 applications at two to three week intervals to completely erase the Johnson grass but figured the first application should cut it at least 50 percent.

Gilmore will furnish the mixture and Kelley is giving the demonstration free of charge. Everyone is welcome to observe, and even if they cannot observe the first spraying is urged to drive by the Gilmore farm later and see the results.

Barbecue Planned For Friday Night

The Morton Country Club will host a barbecue supper, Friday night, May 27th at which occasion women's club golf trophies will be awarded, according to Luke Cole.

Those who plan to attend are asked to be sure to bring what

Cochran County's swimming pool will open officially next Wednesday at 1 p.m., weather permitting according to Charles Painter, manager.

Plans call for the pool to remain open until about 8 p.m. and later on, if nights are hot, the pool will remain open longer, Painter said.

The local coach said his full staff will be ready by the time the pool opens. Right now he has named Geraldine Ramsey and Dick Kennedy as pool workers along with Monte McElroy as one of the lifeguards.

Those interested in swimming lessons may call at the pool during swimming hours beginning June 1st to get registered. Classes will be arranged according to the number and age of applicants.

The filters have been cleaned and the pool has been repainted according to Painter. Pools will remain the same as last year. The pool will be open each day of the week at the same time. Rates for high school students and adults are slightly higher on weekends and holidays.

Baileyboro Couple To Get Degrees At Wayland College

PLAINVIEW, Tex. (Sp.) — Mr. and Mrs. C. T. Cunningham, Jr., Baileyboro, are among the 57 candidates for degrees at Wayland College and will take part in the formal exercises at the College on May 29 and 30.

Mrs. Cunningham, who is the former Sylvia Coffman, daughter of Mr. and Mrs. C. A. Coffman, Arch Route, is a 1948 graduate of Three-Way High School, Baileyboro. Prior to enrollment in Wayland she and Mr. Cunningham attended New Mexico A & M College.

An education major and religious education minor, Mrs. Cunningham plans to teach following her graduation.

Mr. Cunningham, a ministerial student, is the son of Mr. and Mrs. Claud Cunningham, Baileyboro. Throughout his college career, he has been employed part-time by Wayland College. He is majoring in Bible and minoring in psychology.

Edgar Allison Herron, manager of Gloria Baptist Assembly, Gloria, N. M., will deliver the baccalaureate address the evening of May 30 as the climax to a week-end of activities honoring the seniors, including a reception by President and Mrs. A. Hope Owen and a luncheon by the Association of Former Students. Rev. William Caswell Bryant, pastor of First Southern Baptist Church, Colorado Springs, Colo., and Rev. Jones Weathers, pastor of First Baptist Church, Brownfield, Texas, will deliver the baccalaureate and missionary sermons. The three guest speakers will be presented with honorary degrees at the commencement exercises.

Loss of Eye Fails to Stop Local Girl

Jo Ellen Landrum, six-year-old daughter of Mr. and Mrs. O. D. Landrum of Morton, lost one eye as a result of an accident which occurred just five days before school began last September. Parents and teachers were concerned about the handicap since it was soon before school began. It is often very difficult to adjust to school routine to say nothing of such a sudden handicap as the loss of an eye.

Jo Ellen has pleasantly surprised all who were interested in her school progress and adjustment. She not only adjusted to school routine and having only one eye at the same time, but has excelled in her school work. Several standardized tests have been given this year as well as constant teacher appraisal. On every occasion Jo Ellen has excelled enough to be in the upper 3% of her class. She does excellent manuscript handwriting and beautiful art work. She is as well adjusted as children who have no handicap and shows much interest in her work. School personnel who have had contact with Jo Ellen expect her to progress far in the academic field.

Little League School Monday

All boys interested in Little League competition are advised to fill out one of the League applications. Parents must also sign. Then the boys that are between the ages of 8 and 15 should report to the softball diamond, Monday May 30th to get ready to kick off the school.

Managers and assistant managers are also requested to be there or to have someone there to keep a report on the boys. The school will be conducted for at least one week before the managers, the directors and the players agent will gather together for the auction of the players.

Boys under 8 years of age should wait until after the schooling is completed and teams drawn. Then they will be summoned for minor league competition, t together with any boys who were old enough but not drawn in time enough to make the Little League teams.

Any boy who lives and goes to school in Cochran County at Morton, Whiteface or Bledsoe or who attends school in the Bula School district is eligible.

Four Little League teams are ready for competition and two Pony League teams are about ready to go. . . that is, all but the player selection, it was announced this week after a meeting at which managers, sponsors and other league officials were approved.

In the Little League, J. W. McDermott and Lloyd Evans will

sponsor the Sox; James St. Clair will be sponsor of the Cubs; Forrest Lumber will be sponsor of the Cards and Morton Power and Light will sponsor the Giants. In the Pony League setup, Williams' Gin will sponsor the Indians and Hawkins Olds and Allsup Chevrolet will co-sponsor the Yanks.

Names of manager for the Little League teams have been named. Dr. N. A. Monk will manage the Sox with Leon Patterson as assistant manager. For the Cubs, Jerry Winder will be manager and Ermon Miller will be assistant manager. For the Cards, Hub Cadenhead is manager and Andy Behrens, assistant manager. Harold Drennan and Fgpd Payne are manager and assistant manager of the Giants.

Waydel Hill and Jim Middleton will manage the two Pony League teams but as yet have not drawn for which team they will manage.

A total of 90 uniforms have been ordered, 60 for the Little League and 30 for the Pony League. The minor leagues, a competition under the Little League in age and ability, will be furnished with all-over T-shirts and caps. As yet it is not known how many teams will be in their classification nor who will manage those boys.

Pony League and Little League teams will be limited to 15 players per team. So the 90 boys who qualify in the schooling and are bid on by the managers and assistant managers will be the ones selected.

Jim Middleton, school director asked all boys between the ages of 8 and 13 to report to get their number any time Monday afternoon. School will start at 5 and run till 7 or 7:30. The pony league boys should drop by and register but will not be schooled. They will be divided into two teams later. Only the 8-13 year olds be ready for schooling, please. If you haven't filled out your application blank, drop by the Tribune and do so. One parent must sign this blank.

Glen McDaniel has been named umpire-in-chief and he has a sizable group of volunteers from which to select his complete staff.

M. C. Ledbetter is League Contact man, between the Morton league still to be named are official scorekeepers.

A call was issued this week for five women who will volunteer to serve as scorekeepers. The only requirement would be that they agree to give one evening a week, from about 6:30 until 7:30 to keep score. If they are interested, they are asked to sign up with Mr. Ledbetter and as soon as a total of five are ready, a short two or three hours of schooling will be in order. Then an official scorekeeper will help them for the first night or two in order to help them keep the records straight. The importance of the scorekeepers is reflected in the fact that batting averages

Humble Oil Asks Motorists to "Slow Down, Live"

In its annual appeal to motorists to drive carefully over the Memorial holidays, Humble Oil and Refining Company, Texas' largest, asks that motorists "slow down and live" during the 101 days from Memorial Day through Labor Day.

Their annual appeal appears in an ad in this publication of the Morton Tribune.

The ad follows along the lines of the endorsement given by the Governor's Conference asking for a nation-wide safe driving program between the holidays.

WHITEFACE CUB DEN SETS ADJOURNMENT

Den One of the Whiteface Cub Scouts met in the home of the den mother Mrs. Ray Carter, Tuesday, May 17. The boys had a picnic and played baseball and other games.

They decided to adjourn for the summer.

Cubs answering the roll call were Jack Brock, Gary Paxton, Keith Berry, Gary Stanley, Wayne Brooker and Tommy Carter.

With Your... COUNTY AGENT

By Homer E. Thompson

Sprinkler Irrigation Clinic
This clinic is for sprinkler irrigation equipment dealers and distributors, county agents, SCS personnel, and FHA Supervisors.

The clinic will be held two days, May 26 and 27 (Thursday and Friday) at the Jessie Randall School, Brownfield, Texas.

Mr. John Schunk who is chairman of the Educational Committee for Sprinkler Irrigation Association will provide all the instruction, except that portion dealing with soils, which Mr. James A. Coover, survey supervisor of SCS, will give.

Mr. Schunk is one of the outstanding authorities in U. S. on sprinkler irrigation. He is co-author of the forthcoming text book on sprinkler irrigation. For this reason, let me urge every sprinkler dealer and distributor in Cochran County to attend this school. If you wish to spend the night, please call Mr. Grady Elder, Chamber of Commerce, Brownfield, Texas for reservations.

The program for first day (Thursday) begins at 9:00 o'clock. These subjects will be discussed and taught in the order mentioned below:

- Date to be considered and factors affecting design in sprinkler irrigation systems.
- Terminology and units
- Soil characteristics of the high and rolling plains area.
- Irrigation designs (1) Plant, soil, water relationships (2) System capacity requirements
- Lateral layout considerations
- Lateral design and adjusted system capacity requirements
- Special evening session to answer questions and discuss special uses of sprinkler equipment such as frost protection, application of fertilizers, mechanical moves, pressure control valves and specialized equipment for reducing labor.

Second day:

- Main line design considerations
 - Computing total head with related problems
 - ump and power considerations
 - Sprinkler system design problems
 - Summary
- 4-H Club News**
On May 31 and June 1 and 2 there will be a three day boys' and girls' 4-H Joint Camp held at Lubbock, Texas for District Two, Extension Service. A maximum of 7 boys and 7 girls are permitted to attend from each county. These 7 boys have been selected to attend: Jerry Bryant, Bobbie Sleman, Louis Young, Billy Ray Stovall, Richard Houston, Dan Keith, and Lee Bernham. The 7 girls attending are: Lois Moss, Mary Ann Smith, Lawrita Todd, Patsy Webb, Dixie Lovelace, Brenda Brotherton, and Becky Baker.

Dan Keith and Jerry Bryant have completed their records to be submitted for state competition to attend a week's leadership training laboratory in recreation, outdoor cooking exercises, games, and initiative in leadership development. Three boys and three girls will be selected from one county in this district. The county selected will be primarily on the records of the group selected. This is an all expense paid trip for the county group selected.

4-H Cotton
Several 4-H boys already have plans for their cotton demonstrations underway for this year. Ray Tucker, R. E. Thompson, William (Sonny Boy) Dewbre, have received Storm Proof 99 variety cottonseed free from W. A. Anton, Lockhart, Texas. Kenneth Millisap, Melvin Ray Chandler, and Donald Rhea Chesshir have received Paymaster 54 cottonseed from the Paymaster Farm, Aikon, Texas. This seed was furnished free also.

Wesley Lloyd, R. E. Thompson, Max Hawthorne, Sharon Hawthorne, and James Ruthardt received Empire cotton seed free from the Ferris Watson Seed Farm, Garland, Texas.

These boys have already secured the seed and perhaps have it planted by now. There will be several varieties planted this year. Last year we had about 12 varieties with 35 entries in the contest. Each contestant is required to have at least 50% interest in 5 or more acres of cotton. There is no recommended variety for the contest as it is based on yield per acre only.

If other boys wish to get free seed of the Paymaster 54 variety, contact me immediately.

All contestants shall designate his 5 acres, measure and stake it, draw a general map of the entire farm and designate the five acres on the map. This shall be done before July 1st. On the map will be the boy's name, location of farm, variety of cotton planted, whether irrigated or dry land, and show measurements of the cotton land where it is staked off.

Each boy will learn how to measure land and compute land measurements. Chains may be secured from the ASC office, if needed.

measure the land. If you need help in computing measurements, please bring map and figures into the county agent's office.

Remember July 1st is the deadline for getting your map into the County Agent's office. Some boys have several varieties, so you may have through most of June to determine which 5 acres you wish to enter in the contest.

Hybrid Corn

For those who are growing hybrid corn this year for the first time in Cochran County the following is a satisfactory method of commercial control of corn ear worms. A one percent DDT — five percent oil and water emulsion — gave 70% worm free ears. Small sponges dipped into the solution

were pressed against the silk mass of each ear. First application was made when 50% of the ears were silking.

Good control also was obtained with two treatments of ¾ percent DDT and 3½ percent oil and water emulsion made with a fixed-boom — tractor — mounted sprayer and a third application made with one percent DDT and 5% water and oil emulsion on the individual ears of corn. Treatments were made at two or three day intervals.

For more information on each worm control write the Agricultural Information Office, College Station, Texas for Progress Report No. 1753.

Home Demonstration Agent

Leila Petty

Clothes Moths
Before you put your winter clothes away again you might need to put on a moth killing campaign. The clothes moths that are ordinarily troublesome are small and have a wingspread of about half an inch. They feed upon animal substances such as wool, hair, fur, feathers, and a wide range of commodities manufactured from these materials.

For control of moths, spray the interior of close walls, particularly around the baseboards and edge of the floor, with 5% DDT. Sweaters and other woollens which are to be stored for several months in dresser drawers may be protected by spraying the drawers thoroughly with 5% DDT. The garments also may be dusted lightly on both sides with 5% DDT dust. Care should be taken to prevent the introduction of larvae or eggs on the material to be stored by first dry cleaning them.

Furs and feathers may be lightly dusted with DDT. The powder can be easily shaken out before garments are worn.

Coats and suits may be sprayed with a 5% household spray containing 5% DDT. They can be hung in dust proof garment bags. Household spray has a base of colorless kerosene that does not stain wool garments or upholstery. Dry cleaning kills all forms of moths at the time of treatment, but does not impart resistance.

Bulletin No. 151 named "Household Insects" is available from this office.

FRESH PINEAPPLE

Fresh pineapple deserves a more important place in the family menu planning. A cupful gives about a third of the daily allowance of vitamin C, according to Miss Mae Belle Smith, our Extension specialist in consumer education.

The first pineapples on the market come from Puerto Rico. As they pass their peak the Cuban varieties are in full season. Texas consumers can expect lower prices when the Mexican crop begins to move into the markets.

Fruit experts tell us that a ripe pineapple in good condition has a fresh, clean appearance with distinctive dairy orange-yellow color and a decidedly fragrant odor, according to the specialist. The eyes are flat and almost hollow. Usually, the heavier the fruit in proportion to its size the better the quality.

Pineapple-Strawberry Cup is a

delicious dessert you might try during this season:

- 4 cups fresh or canned pineapple, spoon size cubes
- 3 cups hulled strawberries
- 2.3 cup to 1 cup powdered sugar
- ¼ cup finely chopped mint leaves

Drain pineapple and arrange in alternate layers of berries and pineapple. Sprinkle each layer with sugar. Sprinkle mint over top. Chill thoroughly. Serve in sherbet glasses. Serves 6.

GARDEN NEWS

Okra is usually planted during the cotton planting season. Louisiana Green Velvet and Clemson Spineless are varieties recommended for this area. Louisiana Green Velvet is especially recommended for freezing.

4-H CLUB NEWS

Dixie Lovelace will attend a camp planning school at Lubbock on May 28. Dixie is chairman of the Recreation Committee for the 4-H Club Girls' District Camp. Her committee is in charge of the class periods in recreation as well as the two night parties. Dixie is also the elected Song Leader for the Camp. The District Camp for Girls is June 21, 22, 23. It will be in Lubbock.

TAKE PART IN DANCE RECITAL

D'Rose and Hap Rogers Danforth children of Mr. and Mrs. Fred Danforth of Texico, N. M., will participate in Jimmie Allman's School of Dance recital tonight, Thursday May 26, at the Marshall auditorium in Clovis.

Appearing as guest performers on the program will be Darryl, Tommy and Lowell Bowman, sons of Mr. and Mrs. D. C. Bowman from Morton residents. The Bowman brothers who have been making recordings in Clovis are billed as radio, TV and recording stars.

The Danforth children, will appear in tap dance routines and D'Rose will do acrobatics. All were former residents of Morton, Mr. and Mrs. H. O. Rogers are grandparents of the children.

DELAYED BY RAIN

Mr. and Mrs. Billy Joe Mohrwood returned to Morton late last week from Marjorie Falls where they had been attending the funeral of her

uncle. A heavy rainy spell washed over one bridge and forced them to stay a couple of days longer than they'd expected. Billy reported making good use of the inclement weather by going fishing with a couple of relatives and bagging around 300 lbs. of fish.

Lubbock Nine Edges Sundown By 6-3 Count

The Lubbock Merchants, behind the timely hitting of Carl Ince, L. W. Utley and Randall Reiger, and taking full advantage of passed balls on catcher Dee McInturff of Sundown, handed Howard Shaw a 6-3 defeat in the first game of the season played on the local diamond Saturday night.

Utley and Randall (Rusty) Reiger pitched effectively but not superbly. In fact, with the exception of McInturff's inability to catch Shaw pitcher Clyde Mantooth, it was a very close game. "Mac" hadn't much experience behind the plate with a hurler of Mantooth's calibre. MacInturff is regularly a first baseman. Mantooth struck out eight men in going all the way for Shaw, and allowed two walks and seven hits. But the Lubbock team took advantage of every break. They tallied three of their runs on passed balls.

Utley started on the mound for Lubbock, went four innings and left with a 3-1 lead. But Reiger, after allowing Sundown to knot the score at 3-3 in the bottom of the 5th inning, became the winner when his mates plated three tallies in the 6th. Reiger loaded the bases in the 7th but escaped without a run scoring.

The peppery Ince, hammered two hits, a single and a double, walked once and was hit by the pitcher once. He tallied three times for Lubbock. Utley got two hits, Randall Reiger only one but he blasted another line drive that the left fielder smacked just in time. For Howard Shaw the performance was good, much better than last year's appearances in Morton but they fielded only four men that played with them in exhibition games here last year.

ROBERTS VISIT SON

Mr. and Mrs. Tom Roberts spent last weekend with their son, Daryl Roberts, at Grandfalls, Texas. Daryl is office manager of the Santa Rosa Refinery there.

DON'T BE A HURRY BUG!

SLOW DOWN and LIVE!

An Appeal for 101 Days of Safe Driving

During the summer months—from Memorial Day through Labor Day—highway traffic fatalities are high. So high that the Governors' Conference has endorsed a nation-wide safe driving program during the 101 days between the two holidays.

Only you, the motorist, can make this campaign a success... If you, and every other highway traveler, will resolve to drive at a safe speed, to follow the recommendations of Safety Associations for safe highway driving, literally hundreds of lives will be saved during this summer's travel. One of them may be your own.

Wherever you drive this summer, PLEASE DRIVE SAFELY

Safety Associations recommend that you follow these simple rules for a safe vacation trip:

- Observe all posted speed limits; don't hurry, ever.
- Regulate the speed of your car to highway and traffic conditions.
- Don't drive too long—stop when you're tired.
- Observe all highway caution warnings—slow down for curves, when descending steep hills, etc.
- Don't drink when driving.
- Follow the golden rule of traffic courtesy: give other motorists the same consideration you'd like for them to give you.

Ask Your Preacher

where the Bible says that babies were ever baptized, if he has been practicing that doctrine. Of course if he has not been teaching and practicing infant baptism then you need not bother him with the question. It is to people who have preachers who teach and practice baptizing babies that we address this appeal. Please go to your preacher and ask him for the passage that says that babies were ever baptized in the days of the apostles. Of course he will know right where to find it — if it is there — and he will be most happy to show it to you. Then will you please sit down and write me a card or letter telling me where to find it. I have been hunting for it for a long time, but have been unsuccessful in finding it thus far. I really need some help in finding a case of this kind in the Bible, for I want to follow the Bible in all things. If the Bible teaches that babies were baptized, then I want to start doing it. So please help me out by asking your preacher for the text.

If he refers you to the cases of Lydia and the jailor in Acts 16, telling you that their households were baptized and that included their infants, just ask him if households always include infants. In other words ask him if it is possible for a household to exist without having infants in it? I wonder if you don't know a number of households that have no infants in them? Don't you recall some households in which the children are all grown? Don't you recall some that have no children in them of any age? I am quite sure that you do.

Lydia's household was made up of the women that were associated with her. Acts 16:13. It is evident that if she had been married that it would have been her husband's household. And Acts 16:34 tells us that the jailor "believed in God with all his household." So all the members of his household were old enough to believe which proves there were no infants in his household. So a household baptism offers no proof for infant baptism. Tell your preacher that he will have to do better than that and actually give you a text that says babies were baptized. If he has been teaching you to baptize your babies, you have a right to ask him for scriptural authority for it. So don't let him off until he finds it for you.

"Build Organic Matter into Soil," Farm Bureau Speaker Tells Youth

O. F. Armstrong, Texas soil conservationist, put a new slant on conservation farming when he addressed some 40 young men and six farmers at a recent county-wide meeting sponsored here by the Cochran County Farm Bureau.

He was introduced by Merlin Roberts, president of the local bureau. Special guests were W.H.A. and Boy Scouts.

Addressing himself to the young men present, Armstrong said those entering the farming profession today have the greatest opportunity ever.

"Know-how, improved seed, improved insecticides, and modern machinery have placed today's farmers in a much better bargaining position for his share of the nation's consumer goods," he said.

Anybody can plant, cultivate, and harvest, he declared, but the farmer who applies technical assistance and know-how to rebuild and maintain his soil is the man

Garden Club's Placement Show Set June 14th

The Cochran County Garden club will sponsor their annual placement show, Tuesday night, June 14, at the Cochran County Activities building.

The show will be something quite different from any previous show, members state. Depicting the life of a person with narration by Mrs. T. M. Tanner, songs, poems and floral arrangements will add in the theme of the show.

The diary to be read, portrays such important events as birth, days, Christmas, graduation, wedding, Mother's Day and many other important events.

A large picture window will reveal the arrangements as the narrator and other personnel carry on with the program.

The group met recently with Mrs. Maurice Lowallen and Mrs. H. O. Rogers presented the program on Lay Lilies, Mrs. T. D. Marshall and Mrs. R. J. Hill were elected as new members.

Mrs. Rogers and Mrs. Roy Hill, who attended the third annual Garden club short course at Texas Tech, reported to the members that the course was very interesting and informative.

When the group met with Mrs. Rogers, the latter part of April Mrs. L. A. Cochran presented helpful information on verbaena culture and Miss Leila Petty, County HD Agent was a special guest.

Bula Trounces Refinery; Morton Edges Maple In City League Tilts

The Bula Bulldogs overhauled Liano-Grande 17-1 and Morton edged Maple's Farmers in a 9-7 thriller, Monday night to become the first two winners in the City Softball League this year.

Bula's victory was lopsided all the way. The Bulldogs grabbed two runs in the first and added seven in the second and were never headed. The game was called at the end of the top half of the 5th frame because of the 10-run rule.

Wayne Caffey hurled for the Bulldogs and did a fine job. He fanned six batters and walked only one. He issued just two hits and but for a center fielder playing way in for one play, might have posted a shutout. Noting that the Plantmen were having trouble getting used to Caffey's hurling, the outfielders played in close. Childress dumped a looping fly ball over the center-fielder's head and scampered all the way around with the only Liano-Grande tally.

The refinery men used two pitchers. Childress started and went two innings giving up nine runs. Bridges finished up.

The second battle was a real thriller though marred by some costly errors. The hero was Ben Keuhler, newcomer to this league who slapped a Don Lamar pitch far over the left fielder's head.

liners and then threw them away at first base and also dropped a popped fly in right field. First baseman Amos Sedgwick bobbed two throws before he could settle down. These, plus the inability of catcher Mike Flannigan to hang onto the pitches helped Morton's Trintekmen to six unearned runs in the first two innings, and a 7-4 lead.

Bill Mann made up for his errors with a bases unloading triple to plate the first three Maple runs in the top of the second inning and then scored the tying tally.

After the second inning, it was Morton's turn to get generous. They allowed two unearned runs and found the score tied 7-7 at the end of four and one half innings, as a ground ball rolled through shortstop Ralph Soliz, center fielder Andy Behrends and left fielder Buddy Hanna for a four base error.

Following Keuhler's dramatic clout, in his first time at bat after replacing Cooper in the lineup, Morton had to throttle the farmers one more time before the time limit ran out. This they did effectively though pulling one play that is supposed to be taboo in softball. With two out and a man on first, they walked Ed Neutzler intentionally. When Mike Flannigan's ground ball was misplayed by the first baseman the bases were loaded but Mickey Sowder bounced out to the pitcher to make the strategy look good.

Both teams, with the exception of their first game errors, looked

considerably stronger than they were last year. Maple had added power from Don Lamar and Henderson and aging Amos Sedgwick is one of the area's better batters.

Morton, in combining both the West Side and Hawkins teams, came up with a solid all around lineup and a fairly strong bench.

Increasing Cotton Sales Main Work of Council, Bureau Told

"Consumption is the Council's job," the increased consumption of bales of cotton and tons of cottonseed as translated into sheets, rugs, margarine and the many hundreds of other products of this versatile agricultural commodity," John T. Gregg, National Cotton Council representative, told Cochran County Farm Bureau directors Thursday night.

Gregg, who lives in Lubbock and represents the council in a large area here, was invited to the meeting by Merlin Roberts, bureau president.

Other activity by the directors included wires to Austin state Senators opposing the proposed increase of gasoline tax from four to six cents, the 3 cents per \$100 valuation property tax to support a \$100,000,000 run-off water program for the state, and wires to Washington, D. C., opposing the increase of the minimum wage from 75c to \$1.25 and the unionization of Mexican farm laborers.

They made tentative plans for a meeting with county farm officials and members of the county commissioners court to hear representatives from Palmer County outline their method of destroying weeds and unwanted grasses in bar ditches.

In his talk, Gregg said that the

Less Friction with Trop-Artic Motor Oil!

In the experiment below, the slide on the left is coated with ordinary motor oil, while the one on the right is coated with TROP-ARTIC All-Weather Oil. When two steel blocks are dropped on the two slides at exactly the same time, the one on the right slips down nearly twice as fast as the one on the left. The reason is: less friction with TROP-ARTIC oil.

FRICITION SLOWS YOU DOWN WHEN YOU USE ORDINARY OIL

NEW TROP-ARTIC OIL KEEPS FRICTION LOW

IT'S PERFORMANCE THAT COUNTS!

New Phillips 66 TROP-ARTIC reduces friction far more effectively than any ordinary oil. By reducing friction, it extends gasoline mileage. And it can reduce wear, even to the extent of doubling the life of an engine. It can cut oil consumption 15% to 45%. It keeps pistons cleaner. New TROP-ARTIC is the first all-weather type motor oil to meet the highest standard ever established for automobile motor oils, the Mil-0-2104 Supplement 1 Test. Get TROP-ARTIC from your Phillips 66 Dealer.

Honor Students In Junior High Receive Awards

Honor students from four grades received awards of merit at the Junior High graduation exercises, Tuesday night.

From the 8th grade, receiving awards were Susie Hawkins, Betsy Demere, Perry Don Seane, Judy McCulliston, Denise Rose, Carolyn Cook and Myrlan Cox.

From the 7th grade, Mary Ledbetter, Peggy Reed, Jackie Neal Brown, Rita Kern, Joyce Fannin, Henrietta Bedwell and Charlene Spencer received awards.

Awards to 6th graders were to Shirley Miller, Viola Smith, Valva Leflet, Patsy Amyx, Ruby Daniel, Robert Weir, R. E. Thompson and Johnny Hancock.

Fifth graders receiving awards were Penny Farmer, Carol Carter, Suzanne Nichols, Sandra Cunningham, Stevie Middleton, Paula Barnett, Lois Courtney, Ginger Stovall.

SENIOR CLASS ON TRIP TO KERRVILLE

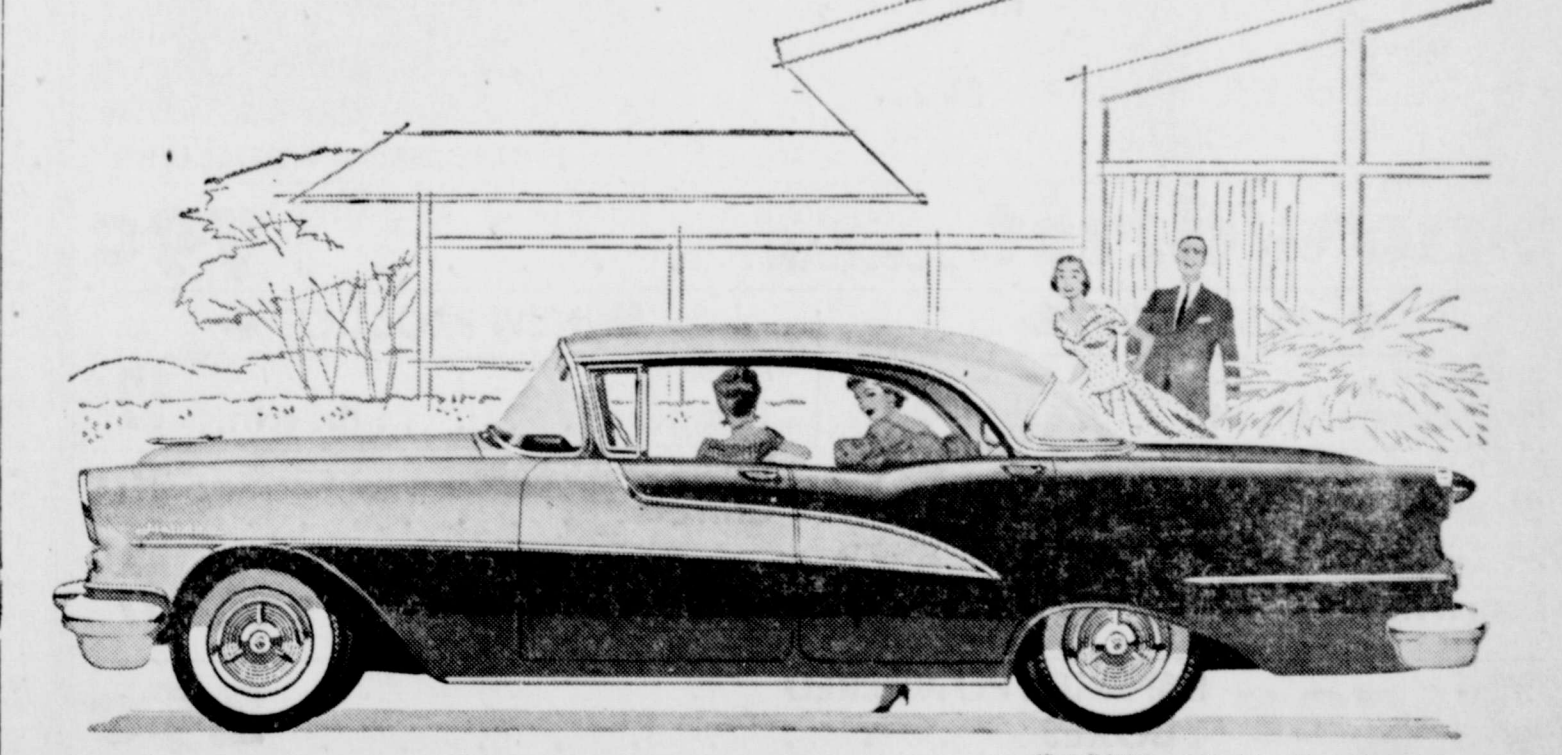

The Morton Senior class will leave, Thursday, May 26th bound for the Lazy H ranch at Kerrville where they will spend three days.

The entire senior trip will take five days. Four of the room mothers will accompany them as chaperons.

MORTON VISITORS

Mr. and Mrs. Wayne Caffey and Mrs. Courtney Moudy and children of Ellinwood, Kansas were in Morton this past week visiting friends and relatives. Caffey's parents live at the Phillips Camp, south of Morton and Mrs. Caffey and Mrs. Moudy are daughters of Mr. and Mrs. Nath Crockett of Morton. Wayne stayed in a Lubbock hospital for a couple of days when they arrived. He'd been hit on the side of the head by a heavy pipe, as he worked in the oilfield just before they left to come to Morton. The glancing blow missed his eye by a couple of inches.

LEGAL NOTICE NO. 68
To any Sheriff or any Constable within the State of Texas—
GREETING:
You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Cochran County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION
THE STATE OF TEXAS
O FRANK L. HALL, Defendant,
Greeting:
YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Cochran County at the Courthouse thereof, in Morton, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 11th day of July A.D. 1965, to Plaintiff's Petition filed in said court, on the 25 day of May A.D. 1965, in this cause, numbered 1072 on the docket of said court and styled Barbara Jeffries Hall, Plaintiff, vs. Frank L. Hall, Defendant.

A brief statement of the nature of this suit is as follows: to-wit: This is an action by the plaintiff Barbara Jeffries Hall, against the defendant Frank L. Hall wherein the plaintiff sues the defendant for a divorce and restoration of her maiden name, and as grounds for such action the plaintiff alleges that defendant was incapable of entering into a marriage contract by reason of the fact that he was not legally divorced from a former wife, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.
The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Morton, Texas, this the 25th day of May A.D. 1965.

Attest: Mrs. Lee Taylor Clerk

News From Bula and Enochs . . .

Mrs. Oscar Grusendorf underwent major surgery at a Lubbock hospital last week.

Grandma Autry was improved for a time last week after treatment by a Lubbock specialist, but became very ill again on Saturday, May 21st.

Cotton planting was underway on most farms during the 3rd and 4th weeks of May, in the Enochs and Bula communities. Cotton was up on part of the Jim Clausen farm and several others, by May 22nd. Recent rains in the communities added up to around 1 inch around Bula and to 1 1/2 inches around Enochs. Half two weeks ago, swept through the area just north of Enochs, covering the area like a winter snow storm with hail up to golf ball size and hen egg size, followed by heavy rains. Several small twisters were sighted in the area during more recent rains, but no damage was reported.

The Enochs Cemetery was the scene of improvement last week when 42 trees purchased by the Ladies Homemakers Club of that Community, were set out. Forty Arizona Cypress trees were planted along the border on the north and west sides of the Cemetery, at a distance of 8 ft. apart. Two 5 ft. tall evergreen trees were planted beside the front gate with Iris around the base of each. In earlier years the ladies club had hung a large sign over the gate with the words "Enochs Cemetery" on it.

Much other work has been done by the ladies club in the Cemetery, which has been their chief project for several years. Recently the E. A. at Muleshoe announced they will pay the electricity bill for four years for the well if the ladies had the meter connected. Development of the water well had been a chief project, earlier years, by giving plays during past years, by sales of handwork and serving suppers to various groups.

ROY GENTRY, of Forrest Lumber Co. in Morton, is reported home this week recovering from a foot infection.

Know Your Government . . .

By Rep. J. O. Gilham
Due to the fact that I had to make a short trip home last week, I did not get the chance to write my little column, but want to give you now a little run-down on just how things are coming along at the old State Capitol. Under the constitution, we are supposed to finish our labors in 120 days and come home, and believe me, most of the members are ready to come home. This is especially true since our pay stops at 120 days. Yesterday was the last day that we will get our pay, so for the rest of the time we are here, we will have to work without pay. It is my opinion that we will likely be here for at least another two weeks anyway.

We still must pass the general appropriations bill which supplies the funds to operate our state departments, hospitals, public schools and colleges. As I have previously advised you, this bill has been under consideration by a conference committee for over a month, now. The conference committee is composed of five members from the House and five members from the Senate. This committee has a very hard job indeed. The completed bill will call for an outlay of some one and one half billion for the biennium beginning next September 1, with about 210 million coming from the general fund. It is estimated that the completed bill is about 2 million less than the House version and about 5 million more than the Senate bill. Since the completed bill will call for appropriations of some 60 million more than appears available during the next two years, it will be necessary to pass a tax bill of considerable size.

As you know, the House passed a tax bill some two weeks ago and it has been under consideration by the Senate for some two weeks now. They conducted hearings on the bill and received many amendments which were sent along with the House bill to a sub-committee, who will draft a Senate bill. Presuming that the Senate passes their committee's bill, it will then have to come back to the House and if the House should accept the Senate bill, then that would be the end of the journey for the tax bill. But it is very improbable that the House will accept the Senate version without some amendments, so it is very likely that the tax bill, like the appropriations bill, will be finally drafted by a conference committee composed of five members from each house.

When a conference committee bill is presented to the House and Senate for approval, no amendments can be added. We will either have to accept the bill as drawn by the conference committee or not accept it, but usually both the House and the Senate accept the bills as drawn by conference committees, although there are always some who vote against such a committee report.
As you know, it is necessary under the constitution for all bills carrying an appropriation to be certified by the Comptroller. In other words, he must certify on the back of the bill that it is his opinion that there will be sufficient funds available during the next biennium to provide for the expenditures covered by the appropriations bill. The Governor will not and cannot sign such bill, unless the Comptroller has made such certification. You can see that the Comptroller has to make some rather difficult decisions. He has to do a lot of guessing about the amount of money which, in his opinion, will come into the State Treasury during the next biennium. A lot of it is guessing as to how much taxes the State will collect from the various sources. He does not know exactly, for instance how much money the State will collect from cigarette, gasoline, gas, oil, sulphur, or any other tax the State collects for he does not know how much of these products will be produced and sold.

Have You Filed Your Tax Rendition?

Be sure to sign the sheet either at the office of Assessor-Collector, or with the deputy at Bledsoe or Whiteface, BEFORE JUNE 1st. You must sign it to be eligible for a homestead exemption.

Tax Assessor-Collector HAZEL HANCOCK

Double Ring Ceremony Unites Ladeane Cravens, Jackie Murphy

The First Presbyterian Church of Morton was the scene, recently, of the wedding of Miss Ladeane Cravens, formerly of Morton and Jackie Murphy, ENMU student.

Rev. Homer C. Akers officiated over the doubling ring, candlelight services. Ladeane is the daughter of Mr. and Mrs. Clyde Cravens of Star Route Two, Morton and Murphy is the son of Mr. and Mrs. W. A. Murphy of Clovis.

GARDEN CLUB HOLDS ANNUAL BREAKFAST

The Cochran County Garden Club met Tuesday, May 24th, at the Cochran County Activities Building for their annual breakfast and modeling contest.

White gladiol, candlebra and green palms decorated the church as Mr. Cravens gave his daughter in marriage. Her younger sister, "Pawana sang "Always." Gary Blair sang "Because" and "The Lord's Prayer." Chloe Ann Garten accompanied them at the organ.

The bridegroom was made of white imported chantilly-type lace over net and taffeta, designed with a high neckline. The neckline was outlined with applique of lace.

The bride's gown was made of white imported chantilly-type lace over net and taffeta, designed with a high neckline. The neckline was outlined with applique of lace.

Mrs. and Miss Jackie Murphy

Three Way News . . .

By MRS. FRANK GRIFFITH

Monument Lake W.S.C.S. met Monday May 16 for an all-day quilting. Mrs. Cecil Cole, vice-president, presided over a business meeting after the covered dish luncheon at noon.

Mrs. D. C. Rainwater opened the session with a prayer. Devotional was given by Mrs. Pete Tarlton. Three Chapters from "Man and God in the Country", were reviewed by Mrs. Tommy Galt.

Officers elected to take office June 1st were Mrs. John Shackelford, resident; Mrs. Cecil Cole, vice-president; Mrs. Pete Tarlton, recording secretary and treasurer; Ms. Leon Reeves, secretary of promotion; Mrs. Tommy Galt, Secretary of Missionary education Mrs. Cass Stogall, secretary of Christian social relation and local church activity; Mrs. Clyde Krebs, secretary of Spiritual Life and Youth Work; Mrs. Cecil Cole, Children's Work; Mrs. J. G. Arnn, secretary of Literature and publications of student work; Mrs. Louie Jordan, secretary of supply work and Mrs. D. C. Rainwater, secretary of Women.

Mr. and Mrs. R. E. Warren and Gary and Sheron of Manassas, Va., visited the Bird Warrens recently. They went on to Fort Worth accompanied by Mrs. Lela K. Warren, mother of R. E. and Bud.

Commencement exercises for the High School students were Tuesday evening at 7:30.

Proclamation was played by Kay Cole. Invocation was read by John Criner, high school principal, Salutatory by Pauline (Warren) Dupler, Class Will by Arlen Simpson, Vocal Number by Joan Reeves, Sue Warren, Elizabeth Dupler and Peggy Fowler. President's Address by Will Coleman. Valedictory was by Maudian Eubanks.

Mr. Criner presented awards to high school students who had perfect attendance for the Year. They were Bonnie Bates, Don Richardson, Sue Warren, Juanita Wall, Barbara Mitchell and Betty Arnn.

Supt. Archie Sims presented high school diplomas to Mary Sue Byars, Will Coleman, Lois Ann Collins, Stella De Hoyoz, Wane Donald, Zane Donald, Pauline (Warren) Dupler, Maudian Eubanks, Norman Phipps, Ida Faye Rentfro, Mary Ann Short and Arlen Simpson.

The class motto was "If You Can't Find a Way, Make one." Benediction was read by Rev. Bobby Rowe. Recessional was played by Barbara Mitchell.

Three Way Home Demonstration Club met with Mrs. Ann Lynsey

Thursday afternoon, Mrs. Mollie Stinson, Co. Home demonstration agent, gave a talk on home redecoration.

Members present were Mesdames Chige Klutts, Mildred Welch, Lenora Nesbitt, Faye Krebs, Florence Ennor, Pearl Lynsey, and the hostess.

Next meeting will be June 2 with Mrs. Krebs.

Mrs. Vivian Arnn and her mother have just returned from an extended visit in California.

Don Knox, who has been in ill health for the past few months was rushed to the West Plains Clinic of Majahoe Sunday. He was reported to be suffering considerably.

Mrs. Mildred Townsend and Mrs. Bob Sandlin were called to Aspermont last week due to the death of their brother, Mrs. Sandlin stayed until Saturday with her mother at Aspermont.

Grade school commencement exercises were Thursday May 19 at 7:30 p.m. in the high school auditorium.

Proclamation was rendered by Kay Cole. Invocation by Rev. A. R. Coleman. Lorena Long gave the salutatory address. The class sang "Singing in the Rain" and "May the Good Lord Bless and Keep You." Class Will was read by Lonnie Eakles, Valedictory by Virginia Klutts.

Mrs. Sam Green presented awards to grade school students with perfect attendance for the year. Claude Spens, grade school principal presented diplomas to Drilma Boozer, Mickey Coleman, Gloria DeHovoz, Billy Dupler, Lonnie Eakles, Leslie Fine, Doyle Fowler, Vester Gilliam, Narcissa Herrera, Betty Hutton, Nan Johnson, Sue Johnson, Donita Jordan, Paula Klutts, Lorena Long, Jane Miller, Gwendia Lee Parker, Ava Lou Pierce, Curtis Pierce, Mike Polard, Hansford Tunnell, Billy Wall, Wesley Warren, and Linda Welch. Rev. C. Martin read the benediction and recessional was played by Roy Cole.

Guests in the home of Mr. and Mrs. D. P. Brinker the past weekend were Mr. and Mrs. Lynda Cagle and children of Tatum, N. M. Major and Mrs. Harold Brinker and children of Gulfport, Miss., Mr. and Mrs. Glenn Brinker and children of Tatum, N. M. and Mr. and Mrs. R. B. Wittner and Terry of Lubbock.

Mrs. Cagle, Mrs. Wittner, Glenn and Harold are children of Mr. and Mrs. D. P. Brinker.

B. B. Johnson, son of Mr. and

Mrs. Baker Johnson suffered a multiple fracture of the right arm Thursday when he fell while playing.

Wage Increase Would Hit Farmers Hardest

Washington, May 3 - An increase in the minimum wage will hit farmers hardest, witnesses representing the cotton industry told the Labor Sub-committee of the Senate Committee on Labor and Public Welfare here today.

Roy Forkner, a ginner of Lubbock, Texas, testifying for the National Cotton Council, said that increases proposed by more than 50 bills before the Congress would serve to reduce still further the cotton farmer's income.

The sub-committee is studying proposed amendments to the Fair Labor Standards Act. These would increase the minimum wage from 75 cents to as much as \$1.35, and extend its coverage.

"With costs all along the line up and volume down, what will happen if I am forced to raise wages?" Mr. Forkner asked.

"I will have to compete with employers who would have to pay the new minimum, regardless of whether the 'area of production' exemption applied to me as a ginner or not," Mr. Forkner said. "It is inevitable that an increase in the minimum will increase the wages I have to pay. I have no choice but to pass them on to the farmer in the form of an increase in my ginning charges, he answered."

Forkner was one of several industry leaders testifying for the Cotton Council in opposition to the proposed amendments. Others were H. L. Wingate, Pelham, Ga., Georgia Farm Bureau president and a Council vice president; George H. Sherman, a cotton warehouseman from Haynesville, La.; and Robert F. Patterson, Trenton, Tenn., a cotton oil mill operator and spokesman for the National Cottonseed Products Association.

Wingate pointed out that the farmer would be hardest hit by an increase in the minimum wage and extension of its coverage - that higher processing and handling costs would have to be passed on to the grower. The cotton producer, on the other hand, would have no way of recovering this loss.

"When we analyze the effects of raising wages or increasing coverage of the minimum wage law, we find that the farmer pays the bill in the processing and handling of farm commodities," Mr. Wingate, a member of the board of directors

SENIOR GIRLS FORM 4-H CLUB

Saturday morning, girls interested in forming a Senior girls' 4-H club met in the office of the Home Demonstration Agent, Miss Leila Petty.

The following officers were elected: President, Barbara Waitrip; Vice-president, Dixie Lovelace; Secretary, Margaret Hodges; Reporter, Edna Waitrip. Other members of the club are Christena Wilson, Brenda Brotherton and Donna Barnett.

Federation, declared.

"That would be bad enough if that were the only effect, but in addition to getting saddled with those increased costs the farmers own wage bill would go up sharply, since he competes for his labor with the handlers and first processors in the small towns, villages and rural communities where the gins, warehouses and oil mills are located."

Mr. Wingate, Mr. Forkner, and Mr. Sherman all criticized the present interpretation of the "area of production" clause in the Wage and Hour Law. This clause exempts handlers and first processors of agricultural commodities from the minimum wage requirements. Interpretation by the Wage and Hour Administrator, however, severely restricts the coverage of this provision.

"The Congress plainly said that the 'area of production' meant the area where the commodity is produced. The Wage and Hour Administrator has described the area in which cotton and other commodities are produced in relationship to the distance the gin happens to be from the nearest town of a certain size," Mr. Forkner pointed out.

He said his own gin was in Lubbock County, one of the top six cotton-producing counties in the United States, yet because the city of Lubbock had a population of more than 7,000, the Administrator would rule that no gin within three miles from the city's limits was in the area where cotton was produced. Actually, he said, cotton is grown much closer to the city limits.

Mr. Forkner urged strongly that the committee define the "area of production" as being every county in which the crop in question is grown commercially, and all counties adjacent thereto.

The ginner spokesman is a member of the executive committee of the Texas Cotton Ginners' Association. He served two years as President of the Plains Ginners' Association. He was recently named Texas "Ginner of the Year."

Engagement Of Mary Ann Harris Is Announced

Rev. and Mrs. R. W. (Ike) Harris of Enochs announce the engagement and approaching marriage of their daughter, Mary Ann, to Marvin Richard Skinner, son of Mr. and Mrs. M. H. Skinner of Buja.

The wedding has been set for 4 p.m., Friday June 3rd, at the First Baptist Church of Enochs. Rev. Harris will perform the ceremony.

Both Skinner and Miss Harris are graduates of Buja High school and Miss Harris formerly attended the Morton schools. Skinner is a freshman at Texas Tech this year.

Letter To Editor

We really enjoy our home paper and hope you all have had lots of rain, as we still haven't had any rain and it's dry here in Carlsbad, N. M. We like it here very much but our good old home town of Morton is hard to beat. We want to say hello to all our old friends there. Charles and Lillie Trapp.

TO BE WED . . . Mr. and Mrs. Earl Stowe announce the engagement and approaching marriage of their daughter, Neoma Joyce Stowe, to Gerald Ramsey, son of Mr. and Mrs. S. A. Ramsey. The wedding has been set for June 3rd at the First Baptist Church in Morton, Texas.

AUSTIN REPORTS

AUSTIN, Texas — Right down to the wire, the Legislature fought out the battle of taxation.

Pay of the legislators — \$25 per day — stopped May 10. So there was all the more reason, from their point of view, that the toughest, most complex and controversial problem of the session be solved as soon as possible.

First the House passed a tax bill, increasing or putting new levies on gasoline, cigarettes, snuff, stamps, uranium, and beer dealers.

When this bill went to the Senate, amendments were introduced to tax auto storage and parking lots, jewelry furs and clothing, storage warehouses, airlines, real estate brokers, chemical manufacturers, hotels, tourist lodges, department stores, and chain stores.

Committee Hearings

Sen. Dorsey Hardeman, chairman of the Senate State Affairs Committee, scheduled hearings at most as fast as amendments were introduced.

First witness was E. H. Thornton Jr., chairman of the State Highway Commission. He asked that the states tax on gasoline be set at six cents per gallon, instead of the present four cents. (The House bill increased the gasoline tax to five cents.)

Gov. Allan Shivers had advocated a two-cent increase in the gasoline tax to provide for the state's highway needs.

He continues to express the hope that there be no income or sales tax.

That the Legislators will complete the tax bill and adjourn within two weeks is Shivers' guess.

Big question is whether the House will accept what the Senate does — especially if it changes the gas levy.

Political Aspects

While they were discharging their legislative duties some members were thinking seriously about the political campaigns of a year hence.

Mentioned often as potential candidates for Governor have been John Ben Shepperd, U. S. Sen. Price Daniel, Lt. Gov. Ben Ramsey and Sen. Jimmy Phillips.

But a new face entered the picture this week when Sen. Otis Lock of Lufkin was approached by friends who urged him to give serious consideration to the race for governor in 1956.

Shivers Returns

Gov. Allan Shivers brought much news back with him from Washington.

In a long press conference he made the flat assertion that the Democratic Party cannot nominate another left-wing candidate and win.

He repeated that he did not in-

tend to support Adlai Stevenson as the nominee for President next year.

He praised the work of U. S. Sen. Landon Johnson as Senate majority leader.

He stated that he had started negotiations with U. S. Interior Secretary McKay, looking to the solution of technical problems involving control of tidelands oil and gas leasing — and he expressed the opinion that Texas' tide land problems were more technical than legal.

Shivers may ask the Legislature to set up state control over the distribution of polio vaccine. His decision will follow a conference with Dr. Henry Hojle, state commissioner of health.

One of Shivers' first visitors on his return from Washington was 12-year-old Bernard Andrews. He is spelling champion of the Negro elementary schools of Houston.

Young Andrews told the Governor and Rep. Charles Murphy of Houston that the hardest word he had to spell in winning the championship and a trip to Austin by aeroplane was "zephyr".

Parik Bill Passes

Ready for Governor Shivers' signature is the long fought parks bill.

Jointly sponsored by Rep. Charles Murphy of Houston and Sen. Carlos Ashley of Llano, the measure provides for \$25,000,000 worth of bonds to build tourist accommodations in state parks.

It calls for the erection of lodges at Inks Lake in Central Texas, Eisenhower State Park on Lake Texoma, and Atlanta State Park on Lake Texarkana.

Scheduled for construction first is a 101 unit resort hotel and lodge on Roy Inks Lake, to cost approximately \$1,000,000.

Later construction would be at Possum Kingdom Lake, Lake Whitney, and Falcon Reservoir.

The entire program is self-liquidating.

Veterans Land Program

Loopholes in the veterans land program will be plugged if bills by Rep. Dolph Briscoe and Rep. Buckshot Lane meet with Senate approval.

These two House-passed measures would set up stiff requirements and regulations for land purchases and place full responsibility for administration of the program on the shoulders of the chairman of the Veterans Land Board.

Land Records

Land Commissioner J. Earl Rudder says there have been no changes in the minutes of the veterans land board.

At the April 27 meeting of the board, Governor Shivers and Attorney General Shepperd released affidavits saying that the minutes of 80 previous sessions contained gross mistakes — and Shepperd moved that notations be made showing that the minutes had been corrected.

"You can read the original minutes just as they were written in the record," Rudder told the House special investigating committee.

Highlights and Sidelights FROM Your State CAPITOL

B. Vern Sanford
AUSTIN, Texas — This may be the final week of the 1953 Legislative session.

Gov. Allan Shivers' guess for final adjournment made two weeks ago, was May 25. It appears now that the Legislature may beat that date by a few days.

Overshadowing everything the past several weeks has been the big tax bill. But it is reaching its final form. Only a long hassle in the House, over acceptance or rejection of Senate changes in the \$100,000,000 new tax measure will cause further delay in adjournment.

Optimists thought final agreement might be reached by Friday on the tax bill. This would unlock the big bill and a half dollar, two-year appropriation bill on which conferees already have agreed. If and when that is done the Legislators will go home. They have been serving since May 10 without pay.

Final agreement on the constitutional amendment reviving the veterans land program — passed in different form by the two chambers — and on the \$100,000,000 bond issue to add water districts — amendment in the House to change the form of taxation — would round up major business.

Both branches virtually abandoned efforts to pass any more of the untouched calendar bills.

A final vote on Sen. George Parkhouse's "Port Arthur Strike Bill" in the House, early this week left it awaiting only Senate concurrence or conference action. The bill prohibits picketing to force an employer to recognize a union or to force workers to join it, unless the union represents a majority of the employees. It authorizes a court to order an election to see if the union has the majority.

Already passed was Parkhouse's "Ford Motor Bill" to deny unemployment benefits to workers idled because of a strike of their union in some other plant of their employer.

Hanging fire in the House was the third of Parkhouse's labor bills, authorizing suits for injunctions and damages in picketing or strikes contravening the "Port Arthur bill."

Insurance Remedy
One of the major jobs that faced the legislature has been completed, says Lt. Gov. Ben Ramsey, by the passage of four insurance bills. This is what the measures do:

Plug up legal loopholes that permitted promoters in the last four years to sell \$100,000,000 in worthless insurance stocks.

Require fire and casualty insurance companies to have capital of at least \$150,000.

Require stock life companies to have \$100,000 capital and \$100,000 surplus and prohibit future organization of \$25,000 limited capital stock companies. Limit investment in home office buildings to one-third of a company's assets.

Define the authority of the State Insurance Commission to act as a board and authorize it to make stricter and more frequent examination of insurance companies. Provide for the commission to review the management operations and financial plans of proposed new companies.

Shivers Shepperd Talk
Governor Shivers and Atty. Gen. John Ben Shepperd appeared before the House investigating committee to talk about the veterans land problem.

Shivers remarked that he had been criticized because as a member of the Veterans Land Board, he had not discovered any of the irregularities.

"Regular checking by the state auditor failed to uncover any wrong-doing," Shivers said, "and it is well known that irregularities were discovered outside the land board's records."

Both Shepperd and Shivers assured the committee that no change has been made ordered in the minutes of the Veterans Land Board.

Where errors occurred, it was pointed out the original minutes were rubber-stamped to show that corrections were made in the minutes of the April 27 meeting.

Land Bill Debated
On the Senate floor, there was debate on a bill which the House has passed and which is aimed at preventing future villany in the veterans land program.

Rep. Dolph Briscoe of Uvalde is author of the bill which would more strictly regulate land sales and introduce new safeguards in administration of the program.

Surprise Development
Biggest development was the surprise call by Justice of the Peace Travis Blakeslee of a court of inquiry, at the request of Attorney General Shepperd, to start a six-week check of the operation of the entire billion-dollar General Land Office under former Commissioner Bascom Giles.

This involves money of state land sales, the leasing and sales by the Board for School Land Leasing, the Board for Mineral Development of University lands, The tidelands leasing is in the school program.

Shepperd said other VLB members, G. V. Shivers and new Land Commissioner J. Earl Rudder, joined him in requesting the court of inquiry.

Sen. Jimmy Phillips charged it

was a publicity gimmick to head off a legislative investigation of the Land Office, proposed in pending House resolutions.

District Judge J. Harris Gardner rendered judgment in the first civil suit by the state to forfeit a block veterans land deal and recover the money. This verdict was against Sam R. Ward, involving a \$33,000 sale of Zavala County land to eight veterans.

Less oil
Texas has far fewer cases of polio this year than last, according to State Health Department reports. Total for the year to date was 196 as compared with 293 at the same time in 1954. Dr. L. P. Walter, acting health officer, said that so far there was only one case of polio among the 479,000 children who got free Salk vaccine, and one case among those who received commercial vaccine.

Texas State Society
Last Sunday the Texas State Society held a noon "brunch" honoring the House and Senate Democratic leaders, Speaker Sam Rayburn and Senator Landon Johnson. Texans in Washington, 902 of them members of the State society, and a majority of them in attendance, took note of the unusual fact that our State holds both of these important offices in the Congress and paid just tribute to the two Texans so chosen by their colleagues.

The Senate last week recognized the 20th anniversary of the establishment of the Rural Electrification Administration. Texas leads the nation in the number of farms served by electricity and in total miles of rural electric lines. Twenty years ago when REA began, less than three out of every 100 Texas farms had electricity. Today 90 out of every 100 farms in Texas have this service. Before REA, 11,466 farms were served by electricity in Texas. Today more than 292,000 farms are enjoying the benefits of electricity supplied by cooperative under the REA program.

Texas electric cooperatives have repaid \$31 million in principal on the loans secured through the REA. \$4 million of which has been in advance of the due date. \$17.5 million of interest has been paid the Federal Government, and there are practically no delinquencies on loans and interest payments. This is an impressive record.

Locally Owned
Although the Federal Government through the REA and its loans to cooperatives plays an important role in the development of the cooperatives are owned by the persons whose homes and farms are benefited by the supply of electricity. The local owners, officers and managers of these organizations deserve great credit for their accomplishments. The program stands now as an eloquent testimonial to the good that can be accomplished through genuine cooperation between the people and their government, when the government truly serves the people and does not attempt to reduce them to servitude. This valuable working alliance must not be tampered with and must not be handicapped by actions or attitudes here in Washington.

Hearings Held On Natural Gas
Hearings have been completed in the House and are now in full swing in the Senate Interstate Commerce Committee on legislation to eliminate federal control of the price independent producers may charge for natural gas. As a member of the Senate Committee, I am participating in the hearings. The proponents have made out a good case and now we are hearing the opponents who fear that a free and competitive producing industry will mean higher prices for consumers in non-producing States.

Actually, the price which the producer receives for natural gas is a very small part of the cost to the people who use the gas piped from Texas into cities of the North and East. It amounts to only ten per cent of consumer cost. Several Texans have appeared before the committee in favor of the bill to exempt independent producers from federal control. General Ernest Thompson of the Texas Railroad Commission, who is highly respected in Washington as the nation's outstanding authority on conservation of oil and gas, made an excellent witness, as usual.

Appropriations for Texas Projects
The Civil Functions Subcommittee

of the Senate Appropriations Committee started hearings last week on funds for Texas projects. Funds have been recommended in the President's budget for two Corpus Christi projects — removal of the traffic "bottle-neck" by replacing the Baswell Bridge over the harbor entrance, and extension of the Tule Lake Channel in the Port Aransas-Corpus Christi Waterway. We appeared in behalf of these and other Texas projects which included Colorado River Channel to Bay City, Guadalupe River Channel to Victoria, Galveston Seawall extension, Waco Dam and Reservoir, Trinity River development, and Dallas Floodway.

YOUR COUNTY AGENT
Fattening Yearling Steers
Texas Agricultural Experiment Station has released a very startling bit of information about stillbirth and terramycin. The 140 day feeding test was completed April 6.

Progress notes have been made on a 38 and 100-day feeding trial conducted at the Spur station this year using hormone and antibiotic materials in fattening rations for yearling steers. This report gives the data on a 140 day feeding period with these materials.

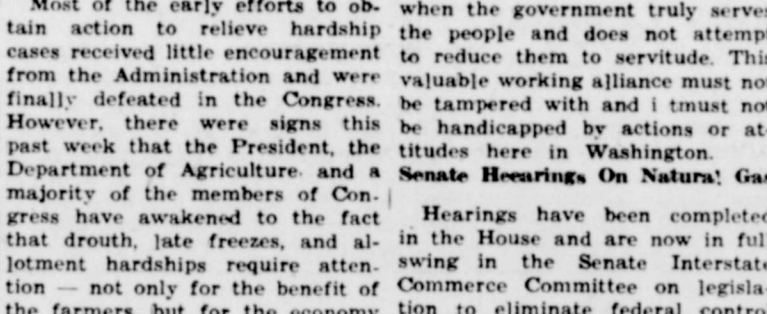

The 25 steers used in this test were choice quality Herefords weighing an average of 758 pounds. Before the test period started, the steers were fed 2 pounds of cottonseed meal per head daily with the sorghum silage full fed for a 10-day adjustment period. Then the

Diethylstilbestrol (DES): Four lot groups over the 140 day period were 2.86, 2.75 and 2.21 pounds per head daily for the steers fed levels of 10 mg., 20 mg. and none respectively. The steers fed 10 mg. gained 72 pounds more on the basis of market weights than those which were not fed the hormone, and had an advantage of 45 pounds in carcass weight. Dressing percent and carcass grades were practically the same for the 3 groups. The steers fed the 2 levels of stilbestrol required 21 and 18 percent less feed respectively per pound of gain than those not fed the hormone. Net returns were \$14.47 and \$10.00 per head more for the steers fed stilbestrol than for the control group.

In two previous tests the shrink amount to market was over 2 percent higher for the steers fed stilbestrol. The shrink was only 1 percent higher in this 140-day test. For further information contact your County Agent. I am sure the information will be of interest to farmers and ranchers feeding dry lot and to 4 H Club boys, as this shows a definite gain when using these elements.

EVERYTHING FOR THE BUILDER
MORTON, TEXAS

Most Modern Trucks Your Money Can Buy!

Only new Chevrolet Task-Force trucks bring you all these truly modern features! If you don't get these up-to-the-minute advantages, you're getting an old-fashioned truck—and stand to take a licking at trade-in time!

Fresher air in all kinds of weather. New High-Level ventilation takes in air through louvers at cowl level.

New Overdrive. Optional at extra cost on 1/2-ton models; Hydra-Matic optional on 3/4-, 34- and 1-ton models.

New concealed safety step. A safety feature—steps stay clear of ice and mud. Out of sight with doors closed.

Tubeless tires standard on 1/2-ton models. Greater blowout protection— they deflate more slowly if punctured.

Power Brakes standard on 2-ton models. An extra-cost option on all others. Reduce driver effort; add to safety.

Power Steering. Driving's so much easier with turning effort reduced as much as 80%. Available as an extra-cost option.

Styling that works for you. In two design treatments—styling that catches the eye, calls attention to your business.

The latest in cab comfort and safety. More durable construction; softer seat action; many new conveniences.

New panoramic windshield. For a broader, safer view of the road. And there's more glass area all around.

New suspension, front and rear. For a smoother ride. Frames are more durable with full parallel side members.

King-size 12-volt electrical system. Count on quicker starts even in cold weather, and still have a husky reserve of power.

Year after year, America's best selling truck!

Come in and see the most modern trucks for any job...

FOR THOSE WHO have been anxiously awaiting the opening of the county swimming pool, Judge Stockdale said last week that no definite date had been set, but that it would open as soon as the employees have had time to get it in shape for the coming season.

WASN'T OUT in Morton until Wednesday of this week, and Coach Charles Painter will supervise the pool this year, he and his staff couldn't get to work until today. Judge Stockdale figures "about the 1st of June" but that date isn't definite.

THAT ISN'T DEFINITE is what the Commissioner Court ordered audit will be completed. As best we can find out the auditing firm has been at it quite a while but they've been unable to complete the later years because the reports from which they make their compilations were not yet completed by County officials.

IS AS GOOD as ours, one Commissioner said it probably would be about August, but he also added it was just an estimate and nothing definite. One thing about it, all of those who bellyached that an audit wasn't needed, should be able to see now that it was needed. It makes no difference whether anything unusual is turned up in the records that can't be accounted for, or not. The main thing is if the records were in such shape that it takes an impartial auditing firm nearly a year to audit them, and if lots of the County reports weren't up to date until the audit demanded that they be brought up to date, if we haven't accomplished another thing, we may have seven or eight years of

county records up to date.
Thursday...
WE HAD ANOTHER 1.1 inches of moisture in Morton, for those of you who might be keeping a record and have no gauge, and then on Thursday night, or rather early Friday morning we had another .03.

TO JOURNEY AROUND the county last weekend, and we found quite a bit of moisture all around, especially around Whiteface and at Enochs. On Thursday, it was still a little too wet to plant but they're expecting to get in the fields by Friday morning if they had no more rain.

WRITTEN OVER the weekend, but if the softball games this week or throughout the season are anything like the game played between Morton and Llano-Grande last Friday afternoon, they'll be wild ones. We lost track after 11 home runs were hit in the first four innings of that game.

GERALD BLANSITT the Trinidad High school boy who comes to the area to visit his relatives each summer and last year lost that class ring? Well sir, if you know him, you'll remember he's a husky kid. Two weeks ago, when Alfred Coats was in Austin trying for the high jump championship in Class B division, Blansitt was shattering all records in the Class B shot-put as he not only won the Class B title but also beat out the higher classification winners with a 52 foot toss.

WHO ENJOY THAT sort of thing, the Travelogue being sponsored by the 1936 Study club, will be an interesting program. The girls who saw a kind of sneak preview of what's in store, at the L'Allegro installation the other

night, said Mrs. Casey is not only an interesting speaker but she has fine films and a wealth of interesting information about the lands she has toured.

MISTAKE LAST week in referring to Corpus Christi's ex-president of the Jaycees as Bill Williamson's nephew. He is in reality his son-in-law. Our apologies.

FROM OUT Maple way, fell off the curbing in front of Smith's Furniture the other day and suffered two breaks, a break in the left arm above the elbow and one in the right wrist. She is 77 years old. Two passersby helped her to the Cochran County Hospital.

FORMER MORTON resident who recently married and moved to Kansas where he's working in the oilfields, slipped and fell on the evening before he was to come back here for a visit and was in a Lubbock Hospital, reported getting along alright.

TAKING STEPS TO repair a large number of small gas leaks in the local system, it was revealed last week at the Council Meeting. The percentage of gas being lost was about 15% higher than could be considered ordinary, according to the City Engineer.

HAD FOUND about 150 leaks in just covering about half the city's gas lines. Later a crew was to be hired to come in and make the necessary repairs, although the city did not give the "go ahead" signal for the repair work yet. The leakage, amounting to approximately 25%, would cost the city considerable amounts of money. In fact, it was estimated that two months savings could nearly pay for the cost of repairing the leaks.

THREATENED TO, but didn't postpone the parade Friday afternoon but it did deposit about another .04 of moisture. That makes better than 5 inches of rain here since the first of the year and that's pretty good for this part of the country.

THEY HAD THINGS just a little mixed up at the FFA rodeo Friday night, due to lack of rigging for the broncs etc, the boys

came up with one thing you always know will be there. They had lots of competitors who were willing and able to put on a good show.

BOYS LACK IN experience they make up in enthusiasm. They did a real fine job, only wish a few more parents had come out to see them work. And the palmetto polo match was interesting. It's a little slow and drabgy at times but it is interesting. After Friday's match was over, the posse men must have decided that Paul Wylie would make an excellent player for their team. Paul, playing with the FFA, seemed to have the best trained pony of the lot and as soon as you witness a little of the game, you suddenly realize how important it is to have a well trained mount.

CONFUSION IN PLANNING, something that happens to even the most experienced rodeo planners, the FFA boys did a real fine job last week in carrying off the two day junior rodeo. Total number of entrants wasn't quite as large as was hoped for but all the boys hustled well and some fine times were turned in.

THE TWO BOYS slightly hurt Friday night, suffered no more than some bad bruises. Dick Greer reportedly had an unusual thing happen, something that doesn't happen to so very many people in a lifetime, he got a lick in just the right spot beside his eye and the eyeball popped out. It was quickly replaced in the socket and he's little the worse for the incident.

TOOK HOLD Saturday night with a fair sized crowd witnessing some fine pitching and some real good competition. Then on Monday of this week the regular season got underway with a bang.

CONTINUED TO fall this past weekend, with scattered, light showers hitting in spots all over the county, leaving very little moisture but every bit helps. Planting is really in hegarri (that's a pun, son) in the county, despite the fact that some of the farmers are holding off waiting for a little more moisture. But one dry-land farmer expressed the sentiments of many when he went

ahead and planted though some of his neighbors said he was foolish. Said he, "I've spent the past two or three years waiting for that gullywasher that never came, now I'm planting while I can and if it comes a big rain and washes me out, I'll just plant over again."

Whiteface Woman Gets Degree From Texas Tech

A Whiteface woman is among thirty-eight spring candidates for graduate degrees at Texas Tech, according to Dean Bryan Gates of the Graduate School. The number include one candidate for a doctoral degree, and 37 for the master's degree. Commencement exercises are to be held at 8 p.m. Monday May 30, in Jones Stadium. The Whiteface woman was Zula Meers Knight, seeking a Master of education degree.

Bula Becten In Baseball Playoffs

BULA (Sp.) - Bula's Bulldogs beat themselves out of the playoffs Saturday, May 14th as they dropped their second straight game to Whitharral in a best of three series. Entering the 9th inning of the District playoffs with a 3-run lead, Bula made three errors to lose the final battle, 9-8. They had lost the first playoff game held in Lubbock a few days earlier. In winning Whitharral qualified to face Petersburg in the bi-district playoffs.

BIBLE SCHOOL SET

Vacation Bible School at the Morton Church of Christ will begin July 11th it was announced this week in the weekly church bulletin.

"THINKING BIG", WILL GET THE JOB DONE

Often times success comes from "thinking big". In planning fairs, rodeos, and other things that are big undertakings in small communities, we can fail because we delegate the job of coordinating and planning to "little men" who aren't busy, and who have plenty of time. We can easily overlook the men who

are overworked and loaded down, because they are known to be people who will get the job done. This past week the Chamber of Commerce called on three men to help them stage a County Fair. Three men who are known as workers - men who can get the job done. It is sincerely hoped that these men will serve, or can find the time to serve. If we plan now, "thinking big" we'll put on a fine Fair along with our annual rodeo, even though

we start with a city of people who have had virtually no experience at all in staging a Fair.

At the close of a two-day tour of the new 'dust bowl' Secretary of Agriculture Ezra Taft Benson called a meeting of the Governors of the 10 most afflicted states, together with state and federal officials and experts, for July 1 in Denver. Its purpose will be to discuss a long-range program for alleviation of "dust bowl" conditions.

The Great Plains Agricultural Council, which has been working on just such a program since the 1930's. Composed of federal, state and land grant college officials and with headquarters at Manhattan Kan., seat of Kansas State College this organization has compiled many special long-range studies of the peculiar problems of Great Plains agriculture, and issues a quarterly analysis compiled from reports from the agricultural agents of the more than 400 counties in the region.

Soil Blown Away
Its latest such compilation, as of April 1, showed that conditions then were bad, but not quite as bad as on the same date the year before.

But "April was the cruellest month" in 1955 at least. Only one April storm that drove across the plains carried any beneficial amount of moisture, while this and several others brought high and ravaging winds that lifted millions of tons of topsoil and carried it eastward.

Some of Mr. Benson's aids in this area had been inclined to discount the severity of the situation, and one had told Denver newspapers (remaining anonymous) "that the drought conditions in eastern Colorado had been 'much exaggerated'."

But in his tour, Mr. Benson was impressed with the plight of the citizens of this "thirsty land." He landed at Denver accompanied by a group of Department of Agriculture officials and Washington correspondents, and after an evening meeting, rode through the region. He was accompanied on the Colorado part of the tour by Gov. Edwin Carl Johnson of Colorado.

Dust Line Nearer
Mr. Benson found that the dust-blow line, which last year really didn't begin until one got 75 to 100 miles east of Denver, has now crept close to this city and its companions along the eastern face of the Rockies.

A Denver newspaper printed a picture which was reprinted throughout the United States showing a young man in Thornton, a new Denver suburb, removing a half-inch layer of dust from his lawn with a vacuum cleaner.

Another such picture showed a man in Pueblo digging his auto out of a dust drift that had half-covered it; and a press association dispatch told of a cow in Pueblo County that had walked up a huge dust-drift until she was on top of the barn roof, which promptly caved in under her weight.

The tragedy of the situation is that this same dust—which has in recent weeks dropped over eastern states—has been blown away from around the roots of plants and grasses over a large area where people depend on the land for their living.

Later the plants themselves, roots and all, may follow the soil into the sky.

Soon tumbleweeds, piling up by thousands, may close a whole fence along a country road, and make a barn in which the accompanying dust may catch until the roadside ditch is filled and a huge dust-drift may reach across the road. Such a drift will stop a car as efficiently as a deep snowdrift.

Feed Scarce
Meanwhile, millions of acres of winter wheat could be blown bodily out of the ground, or with-

out from lack of moisture, or freeze out.

The harried farmer looks and hopes for a little rain to moisten the soil enough to plant his last resource for a crop—the drought resistant sorghums that have spread widely throughout this region in the past few years. But this spring, even that recourse is so far denied him, as the prairie winds have continued to blow under a heating-drying sun.

The so-called "suitcase farmer," who farms this country in good times, but packs up and leaves it to blow in bad times, has been accused of being the villain in the piece. This year, however, as one veteran rancher puts it:

"We have a drought too, and grasslands that have never blown before, are now blowing. Range conditions are the worst since 1935 in many parts of the region, and stores of livestock feed are down."

Benson Appalled
All of this the deeply concerned Mr. Benson saw. At the end of his two-day tour he pronounced this a grave emergency. Even as he had left Washington, the experts of his department had announced that the dusted-out area now covers 13 million acres or about 20,000 square miles (nearly the size of West Virginia), and that with the area in danger of blowing, the total crisis-region now covers more than 40,000 square miles (the size of Ohio).

Where the soil is dusted out not only hope of a 1955 crop is gone, but the soil has been indefinitely damaged and may never again produce as it once did. Soil Conservation Service studies show that soil so damaged in the 1930's never came back to anywhere near its old fertility.

At a luncheon meeting at Lamar, Colo., in the heart of the state's southeastern dust area, Mr. Benson confessed himself appalled by the damage he had seen and appealed to his hearers to pray for rain. He said that 80 per cent of the dusted-out area can be safely farmed "if water and soil conservation measures are used, and cropping systems are planned as though every year may be a drought year."

At Lamar, Mr. Benson faced a ticklish political situation. His subordinates recently canceled federal crop insurance in nine Great Plains counties.

Insurance Risks

The reason was simply that these counties had become such bad risks that the administrators of the insurance program felt they could no longer be safely carried. Payments to "droughted-out" farmers last year ran up to three to four times the amount of the premiums these same farmers had paid.

Two of these counties are southeastern Colorado counties, where farmers have collected crop insurance on blown-out crops and used it to tide their families over and buy seed for the next year. Now, they are deprived of this resource, and a number of them are poised to ask searching questions of Mr. Benson.

His officials solved this by whisking him away from the luncheon to continue his tour immediately after he finished speaking.

Proposals have already been made that the government either rent or buy millions of acres of the dusted-out land and put it into grass, with strict conservation measures to prevent a recurrence. But Mr. Benson does not seem disposed to embark on any program that will mean vast expenditures by the federal government on the scale of the 1930's.

Government's Role

Instead he conceives of the role of the federal government as to work with state and local government, and the men on the land.

With respect to the states, he might well complain. For state governments in this area have done very little toward meeting the emergency needs of their own people, but have contented themselves with calling the people's plight to the attention of the federal government, and asking federal aid.

The federal government has advanced \$5,000,000 for emergency work against an expected appropriation by Congress, but none of these states have matched the federal money.

The 1955 emergency will be over for the year by the time the Denver meeting convenes.

Invited to this meeting are the Governors of the states of Colorado, Montana, North Dakota, South Dakota, Wyoming, Nebraska, Kansas, Oklahoma, New Mexico and Texas.

Softball Schedule

Schedule for the coming week of play in the City Softball League.

Thursday, May 26th
Bula vs Morton
Llano Grande vs Three Way
Friday, May 27th
Howard Shaw vs Muleshoe Pr.
REA vs Enochs
Monday, May 30
Llano-Grand vs Morton
Three Way vs Howard Shaw
Tuesday, May 31
REA vs Muleshoe Pr.
Bula vs Enochs

Shaw, Enochs Win Games In Softball Loop

Howard Shaw Construction of Sundown and Enochs joined Morton and Bula in the unbeaten circle of the City League, both winning looped margins over their opponents.

Howard Shaw pounded out an early 19.1 lead and coasted to a 19.6 triumph over REA of Muleshoe in a game that saw the ejection make seven errors in one inning.

Shaw used several men on the mound, finishing up with McCollum. Hits sprayed all over the field but Johnson's homer was the most damaging blast.

In the second game, Johnny Van hurled a three hitter, all of them singles as Enochs punched out 13 safeties and grabbed a 13-1 win over the Muleshoe Printers. Cal Johnson poked a two run homer

and Van a solo circuit clout to help the cause. Enochs gathered up 5 runs in the first frame, added four in the second and four in the third to coast in. But for an Enochs error, Van would have preserved his shutout although he had to leave seven men on bases in the game. He walked three men and struck out eight in the 5-inning abbreviation.

Blacky Lackey, as a roving player also helped the Enochs cause considerably. He fished out a single and a double and also played flawlessly in the field.

Two Muleshoe hurlers walked six men and hit one to do their own cause considerable damage.

GETS MASTERS DEGREE

Miss Oveta Smith, daughter of Mrs. D. T. Smith of Morton is in Morton visiting her mother and brother and family, Mr. and Mrs. Elmo Smith. She has just received her Master of Education degree in the field of Religious Education, from the Golden Gate Baptist Seminary at Berkeley, Calif. She has not announced any future plans nor how long she will remain in Morton.
