Special Water Importation Plan to be Shown to Groups

Rev. J. Frank Peery, pastor of the First Methodist Church, represented Bailey County as one of the 80-member WATER, Inc. group which spent four days touring California's mammoth state water project and brought back much knowledge, films and maps concerning the project.

The purpose of the tour was to learn how water could be brought in from water supply points to West Texas.

On January 16, Rev. Peery will speak and show the films and maps to the Rotary Club and the Lions Club will hear the program on February 14.

The Farm Bureau has also indicated they would schedule a meeting for the program and Rev. Peery said he would make arrangements with any other group interested in seeing how this gigantic water operation is being carried out in California.

The 80-member Water, Inc. group, which spent four days touring California's mammoth state water project, returned to the Pnahanah this week confident that Texas can do the same thing and more - irrigate the High Plains with Mississippi River or other imported water.

California's \$2 1/2 billion project which moves water from the northern mountain areas to the southern area serves as a smaller model for Texas' ambitious plan.

Dedicated to the purpose of importing enough water to supplement a diminishing underground supply, the Texans went to California for answers. And they found them.

Three juveniles were taken into custody at 11 p.m., Thursday which resulted in the recovery of merchandise taken from the Fair Store in a burglary Wednesday night or early Thursday morning.

The burglary was reported by owner of the store, Charles Isaac, when he opened the business at around 9 a.m., Thursday. City police and Bailey County Sheriff's department began the investigation which led to the arrests.

Entry was gained to the building through the air conditioning on the roof of the building.

The youths, all Latin Americans, were 12-year, 14-year and 16-years of age.

Young filed on the Democratic ticket for the Primary Election to be held May 4, 1968.

Merchandise included an assortment of shoes, walkie talkies, transistor radios, several watches, both ladies' and men's, earrings, a variety of switch blade knives, shirts, belts, different styles of jackets and coats, pistols, holsters, rifles and bullets.

The assortment of merchandise recovered included a total of 39 items.

Making the arrest were City Policeman Larry Hensley, City Policeman Jackie Turner, Sheriff Dee Clements and Deputy Bobby Henderson. The youths were apprehended at the bus station as they were in the process of boarding the bus for Uvalde.

California's \$2 1/2 billion project which moves water from the northern mountain areas to the southern area serves as a smaller model for Texas' ambitious plan.

Dedicated to the purpose of importing enough water to supplement a diminishing underground supply, the Texans went to California for answers. And they found them.

They learned it is engineering, financially and politically possible to move millions of acre feet of water annually if it becomes a necessity.

Walls of the fertile San Joaquin Valley which furnishes 45 percent of the nation's fruit and vegetables were running dry and Los Angeles needed more water for its teeming population.

California had no choice but to approve the multi-billion dollar project. Neither does Texas, Russell Bean of Lubbock, a director of Water, Inc. believes.

Bean told the group that it is engineeringly possible to import water to West Texas and it will be done because the nation is dependent upon this area for its agricultural production.

He said Washington knows the important role the High Plains plays in filling the country's grocery cart and the federal government will support the project.

But there are enormous obstacles to overcome, primarily

The financial status of Bailey County shows marked increase through the bank called at the close of business December 30. Deposits in the two Muleshoe banks showed an increase at the close of 1967, as compared to the same period last year.

Tri-County Savings and Loan also shows an increase over that of the previous year.

Deposits for the two banks totaled \$13,901,257.41 and Savings Accounts at Tri-County stood at \$3,714,735.61 at the close of business December 31, 1967.

At the same time last year the 1966 annual report showed a combined total deposit for both banks of \$12,461,193.17 and Tri-County Savings and Loan savings were \$2,377,366.18.

The dollar figure for increase on deposits at the two banks for 1967 over that of 1966 is a combined total of \$1,250,064.24.

Increase for Tri-County during the 1967 year is \$1,337,367.43. Both figures boost the increase to \$2,587,431.67 over all.

Assets for the First National and Muleshoe State Banks are \$15,261,693.86 as compared to \$13,830,303.12 at the close of business in 1966.

Assets of Tri-County Savings and Loan increased during the year from \$2,800,885.25 to \$4,258,059.66.

Total loans and discounts of the two banks are \$8,225,850.68 compared to \$6,487,323.22 when the annual report was completed.

The economic outlook is showing a good trend over much of Texas. Much of this has been credited to good crops and good prices.

The agricultural boost to the county economy came as a surprise at the end of the harvest season.

Early spring storms washed seedlings out of the ground, then much cotton, vegetables and sorghum suffered damage in other storms through June and July.

Among other problems which seemed to keep the farmer busy was a new type disease to sorghum and corn, the Dwarf Maize Mosaic Virus which struck the Plains.

What was reported to be damaged about 90 percent due to a late freeze.

Vegetables first thought would produce about one-half the amount expected when planted turned out much better than average.

However, bumper crops were harvested on sorghum, corn and cotton.

Another boost to the pocket-books of merchants and towns

A Salute to Area Clubs and Presidents

MRS. LOUIS HENDERSON

Featuring this week, Mrs. Louis Henderson. Mrs. Louis Henderson lives in the Three Way community near Stegall, where her husband is engaged in farming. She lived in Lynn County, Wolford and Ropesville, prior to moving to Three Way in 1956. Mrs. Henderson is the mother of two sons, H. D. (Herb) Henderson, who lives in Wolford and Bobbie Joe of New Deal. She also has four granddaughters and one grandson. Mrs. Henderson is a former Home Demonstration club member and served as THDA chairman of Bailey County for three years. She also served on 4-H County committee one year and is a former member of the Muleshoe Study Club. She is presently a member of the Goodland Bible Study Club.

The Hobby Club has a luncheon and open house each year, showing articles which have been made by the members. Crafts from the Hobby Club are shown and prizes are won at Fairs in the area. From time to time, the Hobby Club has an all-day work meeting with qualified people teaching the members creative arts and crafts. The Hobby Club contributed for shrubbery for the "Mule Memorial" site. They have also distributed gifts to patients in the Muleshoe Nursing Home. Also have had members show and demonstrate crafts to other clubs of the county.

Due to the establishment of the Drivers' License division office of the Texas Department of Public Safety requiring all the space in the Texas Highway Patrol office, a new meeting place is being sought by the club.

They recently appeared before the City Council and made a request for a community club room, as space is posing a problem. Meetings are being held in the homes of members. The club meets each first and third Thursday of each month at 2 p.m.

The members invite visitors and new members.

Mrs. Henderson is better known as "Mae" to her friends and club members and has won outstanding achievements and awards in Farm Bureau.

Mae is a charter member and was recently elected president of the Muleshoe Hobby Club.

The club was organized approximately nine years ago and has at present, 25 members. The purpose of the Hobby Club is to learn to do, by doing. To exchange ideas and talents, to create artistic crafts from things that are usually thrown away or discarded, as well as creating from new materials.

The Hobby Club practices good public relations by exchanging all day meetings with Hobby clubs from other towns and communities, making and displaying hand-made articles.

Annual Staff Working Diligently Toward Meeting The Deadline

By John Gulley

Annual staff members have been diligently working, preparing to meet the April 1 deadline. Most group pictures have been made and the smaller individual events remain to be journalized.

John Gulley, editor, reported that a real treat, in addition to being the 58th anniversary edition, will be in store. Each division page will be a different color, consisting of art work portraying the theme. The cover will be a "cloth" structure, consisting of two full colors with a school emblem. Two full color transparencies will be inserted, one will be the endsheet color page, and the other will be a picture of the dedicatee, placed on page 8. These have been made and are now at the publishers.

After the April 1 deadline, one hundred more pages will be sent in May; the remaining pages, including end-of-school banquets and graduation, then, we should receive completed yearbooks about August 1.

Other annual staff members this year are Clifford Black, asst. ed.; Sharon Hutton, treas.; Bobby Allison, Betty Harbin, Lindy Kerr, Diane Bryant, Dana Moore, Johnnie Shelton, Jean Haskins, Dean Black, Johnny Embry, Kerry Beddingfield, Beth Black, Harry Lopez, Donnie Thomas, Jim Warren, Mickey Minckler, Jim Wolf, and Don Huff, photographer.

Teacher Profile

Mrs. Ellen Glover graduated from Eastern New Mexico University at Portales in June 1967, with a B. A. degree in elementary education. Her husband, Charles, farms west of Muleshoe. They have two sons, Steve, in the sixth grade, and Mike, in the fifth grade. Mrs. Glover is teaching first grade at Richland Hills. She says she enjoys it very much.

Rehearsal for Flower Drum Song in Final Stages Now

"FLOWER DRUM SONG"

Muleshoe High School's Fine Arts Department has begun the final stage of rehearsals for its fourth musical production - Rodgers and Hammerstein's "Flower Drum Song." The curtain will rise on the colorful production at 8 p.m. on Saturday the 27th and Monday the 29th of January.

"Flower Drum Song" is the oriental-flavored story set in Chinatown, San Francisco. An eternal square is created when a nightclub operator refuses to accept a graduation present from his parents. The present is a mail-order bride, and he gives her contract to a friend.

The songs include "Love,

Look Away," "Grant Avenue," "Chop Suey," and "I Enjoy Being a Girl." The show includes an exciting nightclub act and a festive Chinese wedding.

The Fine Arts sections of the school have continued to make this one of the most thrilling and heartwarming plays ever presented on the MHS stage.

Advanced tickets are on sale for \$1.50 and tickets may be purchased at the door for \$1.75.

Explanation "I know why we shouldn't despise our enemies," said little Mary. "All right," said the teacher, "tell us." "Well, we ought to like what we've made."

DECA Contestants Chosen

By Winn Watson

Through eliminations, the participants in the Area Distributive Education contest have been chosen. Diane Bryant is our representative for the Sweetheart contest. Though the competition was tough, Neal Knight and Jimmy Bruton have been chosen winners in the sales demonstration contest.

Knights demonstration portrays the qualities of a typewriter and Bruton showed the advantage of permanent pressed clothing. Giving speeches proved to

be very informing and enjoyable. Walter Little and Sandi Hopper were our winners in this phase of the contest.

We DE students know that interviewing for a job can sometimes prove to be very rough. Showing poise and intelligence in this contest were Gail Phipps and Kay Killingsworth. These students will all participate in the area contest at Odessa in February. We want to wish all of them the best of luck so that they may participate at the state contest in Houston during March.

Bula News

by Mrs. John Blackman

A blanket of snow covered the ground Sunday afternoon. Snow began falling about 4 p.m. and continued intermittently through the night, no wind, and it was beautiful falling.

Bible classes were held twice daily from Monday through Friday at 10 a.m. and 7:30 p.m. at the local Baptist church the past week. The book of Luke was taught by the pastor, Rev. Leo Buschur. Thirteen were enrolled in the study course and had an average attendance of 10 for the week.

Students and teachers are busy this week preparing and getting ready for mid-term tests coming up the last of this week.

Mr. and Mrs. Horace Bratcher of Levelland visited and were luncheon guests Friday of Mr. and Mrs. W. T. Thomas. Mr. and Mrs. Risinger attended the funeral at Floydada Friday for his uncle, David West, who had lived in Floydada.

R. E. and Cecil Jones received word Sunday that their mother, Mrs. W. D. Jones, of Quail had become severely ill at her home near Quail and was admitted to the Wellington hospital. Both R. E. and Cecil are with their mother.

Rev. Leo Buschur of the Bula Baptist Church invites the public to come and hear the guest speaker at 11 a.m. and 7:30 p.m. services for Sunday, January 14. The speaker will be a foreign missionary student at Wayland College, Mahesh Chauda.

Funeral services were conducted Sunday afternoon at the local Baptist church for Albert Thomas Flowers of Tahoka, Mr. and Mrs. Flowers had lived in the Bula community for several years, moving from here to Tahoka in 1953. He has one daughter living at Bula, Mrs. John Latham. Other daughters other than Mrs. Latham are Mrs. John Eaker of Tahoka; Mrs. H. R. Hinson, Lovington; Mrs. Glenn Yaught, Hobbs; and Mrs. W. G. Stewart, Eunice, N.M.; three sons, Welton and Kenneth, both of Houston and James of Ira.

All the children and hosts of grandchildren and great-grandchildren besides nieces and nephews were here for the funeral.

He underwent surgery at the

Methodist Hospital, Lubbock, a few days prior to his death.

Mr. and Mrs. Dewitt Tiller and children drove to Clarendon Friday to attend the funeral for Mrs. Tiller's grandmother, Mrs. H. M. Reid. Other relatives of Mrs. Reid living in this area are a daughter, Mrs. John Adduddell of Lubbudde, Mrs. Ruby Reid and children of Littlefield and Mr. and Mrs. Jack Adduddell of Littlefield. Mr. and Mrs. Buck Medlin of Bula also attended the funeral.

U. S. ARMY, VIETNAM---Army Private First Class Ervin G. Stroud, 23, son of Mr. and Mrs. Ervin G. Stroud, Enochs, was assigned as a fire direction computer with Headquarters Battery of the 30th Artillery's 1st Battalion in Vietnam December 12.

His wife, Elva, lives at 805 S. W. Fourth, Morton.

Danny Thomas Completes Special Course

FT. POLK, LA.,---Army Private Danny K. Thomas, 20, son of Mrs. Thelma J. Thomas, Farwell, completed nine weeks of advanced infantry training December 8 at Ft. Polk, La. His last week of training was spent in guerrilla warfare exercise.

Jerry D. Morris At Sheperd AFB

SAN ANTONIO-Airman Jerry D. Morris, son of Mr. and Mrs. Claude L. Morris of 601 S.W. Fifth, Dimmitt, has completed basic training at Lackland AFB in Tex. He has been assigned to the Air Force Technical Training Center at Sheperd AFB, Tex. for specialized schooling as a medical services specialist. Airman Morris, a 1963 graduate of Dimmitt High School, received his B.A. degree in 1967 from Texas Technological College.

During his guerrilla training, he lived under simulated Vietnam conditions for five days, fighting off night attacks and conducting raids on "enemy" villages. He was taught methods of removing body parts, setting ambushes and avoiding enemy ambushes.

Other specialized training included small unit tactics, map reading, land mine warfare, communications, and firing the M-14 rifle, M-16 machine gun and the 3.5 inch rocket launcher.

Pvt. Thomas' father, William A. Thomas, lives in Perryton.

Extension Economist Looks at Year Ahead

The economy of the United States can be expected to continue to expand during 1968 and the consumer's disposable income will also continue to rise.

This is part of the "Economic Outlook for 1968" by John G. McHaney, Extension economist at Texas A&M University. He based his outlook on the assumptions that the conflict in Southeast Asia will continue without major escalation, the proposed income tax surcharge will be enacted as evidence of renewed strong economic expansion piles up, and that interest rates will ease off during the first quarter of 1968 as the tax surcharge takes effect.

With these assumptions considered, McHaney says that the consumer's disposable income will rise with advances in output, employment and wage rates. Social security benefits will be raised, and although a tax increase may moderate the rise in disposable income, the consumer will gain in buying power.

Prices can also be expected to rise further with the indicated increases in expenditures for consumer goods, capital outlays and government purchases, McHaney believes.

The total government spending for goods and services continued to rise during 1967 and will probably do so during 1968. The growth in government spending at the state and local levels rose about 12 percent in 1967 and McHaney sees a

similar increase in 1968. The federal purchases of goods and services, mainly for defense, also rose in 1967 but the rate of increase slowed through the year and McHaney predicts continuing rising but at a slower pace than in 1967.

McHaney says that early surveys of businessmen's capital expenditure plans for 1968 point to an increase of about five percent which is a modest one, but reasonable in light of the average utilization rates in manufacturing of less than 85 percent of capacity in 1967.

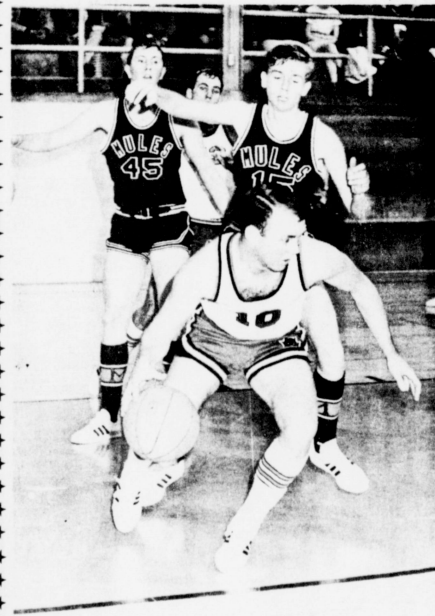

Demand for housing is growing and can be expected to continue to grow in 1968, but McHaney forecasts limited growth because of tight credit conditions.

Government investigations disclose that practically every railroad grade crossing accident is caused by carelessness. The flasher lights are flashing the green and coming down. You can hear the train if you hurry, but what does it profit a man to hear it there one or a hundred times if he's unlucky? Does it?
