BIRTH OF A TORNADO occurs when a cold and a warm air mass collide, and the heavier cold air is deflected above the lighter warm air. In this topsy-turvy situation, a tongue of cold air dips into the warm air, which in turn moves upward to fill the void thus created. As the warm air rushes upward in a spiral motion, other warm air is sucked upward from lower levels, until the ground is reached. The funnel is made visible by condensing moist air, dirt and debris. As the twister leaves its trail, Red Cross, civil defense and other public services rush in to care for victims, while the Federal Civil Defense Administration stands ready with financial aid to assist in temporary repair of devastated public facilities in a major disaster. a substantial building.

• The southwest corner of the basement of a fram house is safer than in a brid or stone house. If there is no basement, lie down on the

west corner) • Urban schools: Stay isside, away from windows; remain near an inside wall on a lower floor. Avoid audi-

toriums and gymnasiums. Rural schools of frame construction: Teachers should remove children to a FOR SALE - Roses, shrubs, and WASHINGTON AND

niversary of one of the greatest

have been arbitrarily deprived of the leader-

standing men developed by the Republic.

national recognition as the out-standing military leader of the war, his greatest work was per-

In comparatively short time MacArthur changed a centuries old rigid monopoly system of business in Japan into a working

It is a matter of histo following his removal, Japanese economy reverted to old stran-

gling feudal-monopoly system.

But it puzzles many in Washington, why this great clearly demonstrated talent and ability has been allowed to remain unused by government especially when there is so much lip serv-

ice to restoring full free economy in America.

Since his retirement, American leadership seemingly has lacked anyone who can give both nation and world clearcut state-

in the world would plunder gi

ship and coun-sel of one of

haps in building free enterprise in Japan.

ment of American aims and objectives. No one was ever in doubt on MacArthur's position.

No one could have ever black-mailed MacArthur, be it ind-

vidual, or nation. Neither did he hold any fuzzy ideas America should applogize for the fruits of its free enterprise system. In fact, in Japan, he labored to help the Japanese emulate the

American system. Probably ne er has success been treated

But while he could overcome centuries of Japanese feudal of the Acheson-Dulles clique in its mad postwar rush to build some global contraption with bil-lions of American tax dollars to fulfill some purpose that even they cannot define.

Thus, there is sub ulation on why his clear headed talents are not again being used in the service of the Republic

And in past few weeks or months this speculation is increased by fact that apparently no one, whether it be British Prime Minister, or head of Israel, seems inclined to place much confidence in the direction of American policy. Thus, say these commentators, if MacArthur were in government, there That position was perhaps best summed up by him several years before World War II when he stated that free enterprise © National Pederation of Independent Business. If alacase commentators, if alacase their would be no doubt at home of abroad as to whether the U.S. has a policy, and precisely what that policy seed.

Milestones in Medicine by Marquerite Clark

cillin, was found by chance when a spore of the mold, penicillium, fell on Alexander Fleming's laboratory dish. But not all of the modern antibiotics were discovered by accident.

against tuberculosis and many other diseases is Streptomyci It was isolated by a Rutger's bacteriologist, Dr. Selman A. Waksman, after five years of steady digging in the soil.

when Dr. Paul R. Burkholder of Yale University turned up a sample of soil from a field in Venezuela. From it came

also came from streptomycetes. So powerful is this mold extract that it has spread its killing power into the virus field.

Attention Farmers!

Yes, there are good, practical reasons why so many West Texas farmers are changing to Panhandle Mutual Hail Association hail insurance. A few of the reasons are listed below:

The Pahandle Mutual Policy is the only cotton policy that does not have a replant clause.

We do not adjust cotton on the stand population basis. We do not defer our losses until fall.

Our adjustments are prompt and honest adjustments made

by local adjusters. This is a farmer's company.

No interest charge on our notes until after maturity.

The only company which has an arbitration clause in the 8. Our policy is written to fit the West Texas cotton farming

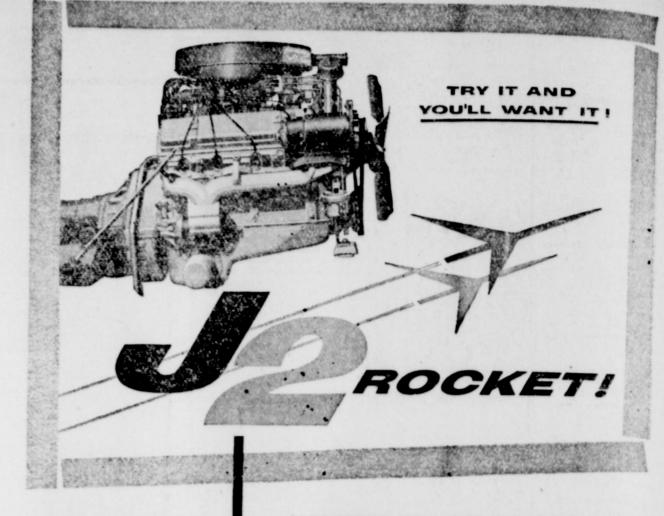

9. We limit our liability per townships and PER section so as

to avoid overloading. 10. Another important feature is the fact that we now have cat-

astrophic reinsurance with the Lloyds of London as added protection to our west Texas farmers against heavy hail years,

AGENT : MRS. PAT SMITH

Located at Prof Angley's Office, East of the Bank Southside Square, Morton

SECONOMY WHEN YOU WANT IT!

greater gas mileage. in the J-2 Rocket a single two-barrel carburetor serves the engine, at peak efficiency, for all your ordinary power needs.

You choose your own kind of performanceyou're in economy range up to 3/4 throttle. Yet you enjoy famous Rocket action all the way.

YOU NEED IT! All three carburetors

(six barrels) go into action, automatically, whenever the occasion demands. Push your foot to the floor, and you have extra safety power on tap to whisk you up the steepest grade, or out of the path of danger. Here's alert action for added safety in any driving situation!

OLDSMOBILE NOW OFFERS YOU THE MOST EXCITING NEW ENGINE DEVELOPMENT SINCE THE FIRST HIGH-COMPRESSION POWER PLANT!

Greater economy for all normal driving! A greater reserve of extra safety power for the exceptional situation! That's why Oldsmobile's new J-2 Rocket Engine* is like two engines in one. And you, the driver, are in complete control of how you want to travel. For practically all driving needs you enjoy the fuelsaving economy of a single carburetor. Or, a touch of the accelerator past the three-quarters mark will Optional et extra cost on all Oldsmobile models.

bring two additional carbureters into use. This gives you gas-saving performance over a 50 percent broader operating range plus a reassuring reserve of power that means added safety. If you have not already tried the J-2 Rocket. your nearby Oldsmobile Dealer invites you to come in for a drive soon. Be his guest for a J-2 test. You'll find it is a totally new and wonderful driving experience.

Trinity Baptist

Afternoon Singing Set Sunday The Trinity Baptist Church of Morton has invited folks from all over the area to take part in a Church Singing, next Sunday afternoon, May 12th, at 2 p.m. in the

church, located directly across the

street diagonally from the Veter-

an's Hall in Morton.

Boy Meets Shoe Latch

Active youngsters, forever in a hurry, may trip over shoe late m, or not bother to tie them at all. But this is all changed now. A new shoe fastening device called the shoe latch, recently developed, is bringing about a better day for active boys. Nothing to tear, nothing to thread, nothing to align. A simple press-down latch, adjustable to the foot, holds the

To open it-presto!-you simply pull it up. It is covered with leather and looks smart and neat. Young sters love it, and so do mothers

Time of the Twister

Springtime is tornado time. Springtime is tornado time.

In the unstable transition from winter cold to summer heat, great masses of cold and warm air collide. When the heavier cold air is forced above the lighter warm air, funnels sometimes form to relieve the topsy-turvy situation. This is the twister.

SOME 800 TORNADORS by

SOME 800 TORNADOES boil up each year in the United States. When they strike, local civil de-fense and the Red Cross speed to

special weather eye to the rescrie.

Spring is the time for a special weather eye to the tornado-spawning southwest. Last year, for instance, every major tornado occurred between February and May. On one day—April 3—four giant twisters killed 30 persons, injured 415 and caused an estimated \$13,760,000 damage.

There is no way to prevent a tornado. But early warning, proper precautions and speedy rescue of victims can save lives. In addition, disaster funds administered by the Federal Civil Defense Administration can provide emergency repairs and restoration of vital community facilities when Federal assistance is authorized by the President to augment State and local efforts.
