

CUBS, SOX TIED FOR LITTLE LEAGUE LEADERSHIP

Giants Whip Sox

The Morton Little League was thrown into a mild scramble Monday when the Giants took the measure of the Sox 10 to 4, leaving each team in the League with two defeats.

Two rained out games were the difference in the standings: the Cubs and Giants having won only two games, the Cards one, and the Sox three.

The Giants built up an early lead of 7 to 0 off Charlie Ledbetter and coasted to their win. The Sox started a late rally but it fell short in the last inning.

Giants Over Cubs

The Giants won their first Little League game of the season here Thursday and made it a decisive

one by beating the front running Cubs 8 to 1.

The win for the Giants enabled the Sox to take over the League lead all by themselves.

Jimmie Bilbrey was the effective winning pitcher keeping the Cub hits well scattered.

In the Minor League game of the day the Cubs beat the Giants,

Sox Edge Cards

The Sox pushed across four runs in the 5th inning of a Little League game Friday afternoon to ice what had been a close game with the Cards.

The Sox, current leaders of the Little League, led all the way but saw their lead pared to 6 to 5 in the 4th inning. The final count was 10 to 6.

In the final outcome, both pitchers doled out about the same num-

bers of walks and hits. It was a bit of foolish baserunning that hurt the Cards cause the most. They saw three men thrown out on the bases in foolish plays. One tried to stretch a short double into a triple. Another was nipped at home plate when he should have stayed on third base.

Cubs Nip Cards

Rapping the Cards by a 14 to 11 margin, the Cubs of the Morton Little League battled their way back into a tie for first place, Tuesday.

The victory gave the Cubs a 2-2 record and tied them with the Sox as the League continued in its 3rd week of play.

The defeat dropped the Cards to the bottom of the league with a 1 and 3 record.

MINOR LEAGUE STANDINGS

Through Wednesday, June 12			
SOX	3	0	1,000
CUBS	2	2	500
CARDS	1	1	300
GIANTS	0	3	000

A Tie Game

Note: One Minor League game postponed by rain.

Sox Continue To Lead Minors

The undefeated Sox clung to their lead in the Morton Minor League as they clubbed out a four run win over the Giants in a game played on Monday afternoon.

Bill Stiver's boys led all the way for their third win of the season. The victory gave them a full game lead on the Cards who were also unbeaten but had played only two games, one of them a 12 to 12 tie with the Sox.

On Tuesday, the Cubs took advantage of five walks and a hit batter to win over the Cards though out-hit, six to two.

The win gave the Cubs a 2 and 2 record while the Cards had a 1 and 1 record.

Maple In Softball Lead; Meets Morton With Leadership or Tie At Stake, Friday

Maple, with a tricky infield hit in the 7th inning, kept first place in the Morton Softball League Monday night as they edged Lovelland, 3 to 2 in by far the best game in league play this season.

The winning run scored from first base as a spinning ball rolled foul and then spun back into the playing field before reaching first base.

The win kept Don Lamar and Company unbeaten in three games, one complete round of play, with six rounds to go.

Lamar and Elvin Johnson had a suggested round end all this week.

On Tuesday, Morton kept breathing right on the leader's heels by lashing Muleshoe, 12 to 4, postponing their second win against a lone defeat at the hands of Maple.

Carl Kernell bested Orville Le-

wallen in the pitching chores.

These results set up a game tomorrow, (Friday) between Morton and Maple, as one of the top early games of the season with a tie for first place riding in the balance if Morton can whip Maple.

Tonight (Thursday), Muleshoe and Lovelland will get together, and may play a double header since these teams have a rained out game to make up.

Morton Slaps Lovellanders In Softball Tilt

Beaten in their first Softball League game by Maple, Morton's West Side Merchants team bounced back Thursday night to gain a 16-11 win over Lovelland and get back in the pennant chase.

Coasting behind Carl Kernell's steady, effective hitting and a barrage of walks, hits, and errors, the Morton team tallied 8 times in the last half of the second inning to overcome a 1-0 deficit, and after that were never behind Lovelland managed to close up the gap in the 5th with three runs but Morton came back with two in the bottom half and it was 10 to 4. Then Lovelland whittled off three more runs in the 6th and it was 10 to 7.

Big blows for Morton were a home run by Ken Burkes with a man on base in the 6-run 6th, and a sister and brother-in-law, Mr. and Mrs. Bobby Smith.

Big blows for Morton were a home run by Ken Burkes with a man on base in the 6-run 6th, and a sister and brother-in-law, Mr. and Mrs. Bobby Smith.

Big blows for Morton were a home run by Ken Burkes with a man on base in the 6-run 6th, and a sister and brother-in-law, Mr. and Mrs. Bobby Smith.

LITTLE LEAGUE STANDINGS

CUBS	3	2	600
CARDS	1	3	250

Note: Three Little League games postponed by rain.

White Sox Blast 16 to 11 Win Over Yanks

The White Sox, rained out in a first scheduled Babe Ruth appearance the first week of play, came on strong in a make-up game last Thursday to blast the Yanks by a 16 to 11 count.

The Yanks were behind most of the way, but not out of the game. White Sox pitcher was on the mound for the winners and Tootsie Davis led off for the Yanks.

Earl Nairn and Fred Morrison are managers of the new White Sox team and Johnny Vanover is handling the managerial duties for the Yanks assisted by Wayne Gilham.

The two teams went after each other hammer and tong with the Sox posting an early 10 to 2 lead. By after five scorching innings, thanks to a four run rally in the last half of the 5th inning, the Sox bottled back to a 12 to 12 tie game.

The tie left the Sox with two victories and no losses while the Cards have won one and lost none.

Sox - Cards Play 12 to 12 Tie In Minor League

The proposed battle between the Cards and the Sox of the Morton Minor League, both undefeated, certainly didn't disappoint anyone.

Friday, least of all the members of the two teams.

The two teams went after each other hammer and tong with the Sox posting an early 10 to 2 lead. By after five scorching innings, thanks to a four run rally in the last half of the 5th inning, the Sox bottled back to a 12 to 12 tie game.

The tie left the Sox with two victories and no losses while the Cards have won one and lost none.

Jaycees Vote to Publish Brochure On City, County

A brochure for Morton, Cochran County, and the "Texas Last Frontier" is being planned by the Morton Jaycees.

Following approval of the idea Monday by the club membership, Elwood Harris, president, continued the discussion at the 6:30 a.m. regular second Tuesday meeting of the Jaycee Directors at the Eastside Cafe.

Bill Glassford was named chairman of the committee to develop the brochure.

Present at the directors meeting were S. M. Monroe, Bill Bridge, Roy Tarver, Jr., Eddie Irwin, Joe Seagler, Dexter Nebhut, Harris & Glassford, and C. D. Knott, a new member.

Other discussion by directors centered on the planned dog inoculation program, the X-Ray unit, and the coming clean-up campaign.

The proposed brochure, to be printed to fit a regular business envelope, would give an over-all picture of the area's culture, agriculture, and business developments.

It would be made available for sending to individuals, clubs, organizations, and chambers of commerce.

In presenting the idea, Glassford told members of the club that many individuals, companies, and organizations now seeking information on this area either fail to have their requests answered, or individuals here must sit down & write a personal letter giving area information.

Tentative plans call for necessary funds for development of the brochure to be secured through promotional advertising.

FEELING BETTER

FRESHMAN SENATOR'S VIEWS—A close up view of Washington will be given by Texas' new junior senator, Ralph Yarborough, in San Antonio on June 28-29, Texas' U. S. Senator from Austin will give his reaction to the Washington scene in an address before the Texas Press Association at TPA's 78th annual convention.

GOVERNOR TURNS REPORTER—Texas' Gov. Price Daniel will turn reporter June 28-29 when he presents a "Report to the Press" during Texas Press Association's 78th annual convention in San Antonio. From his position on the "inside track" Governor Daniel, himself publisher of the Liberty Vindicator, will speak the newsmen's language when he addresses the press of Texas.

DRAMATIC COMEBACK—A dynamic tale of how a small town in Oklahoma made a return from its deathbed to a bustling industrial city will be told Texas publishers at the 78th annual convention of the Texas Press Association, June 28-29, in San Antonio. Speaker will be a former Texas newsmen, now one of Oklahoma's youngest daily newspaper publishers, Jack Stamper of the Hugo Daily News. He will tell "The Hugo Story."

EASY READING—Texas newspaper publishers will be given practical pointers on how to make their newspapers easier to read, by more effective use of type, at the Texas Press Association's 78th annual convention, June 28-29 in San Antonio. Howard N. King, nationally known typographic expert from New York City will be the speaker. He is with the Intertype Corporation, manufacturer of typesetting machines for newspapers.

MEETS THE PRESS — Public reaction to the acts of the 55th Legislature have been both hot and cold. Texas publishers will get the viewpoint of the Speaker of the House of Representatives when Waggoner Carr of Lubbock addresses the Texas Press Association in San Antonio, June 28-29. He will be one of the headliners at TPA's 78th annual summer convention.

TEXAS' SERIOUS WATER PROBLEM—What Texas should do about its water problem will be told Texas publishers when they meet in San Antonio, June 28-29. The speaker will be Sen. George Parkhouse of Dallas, chairman of the Water Resources Committee. The occasion will be the 78th annual summer meeting of the Texas Press Association.

LEGISLATURE PASSES FOUR LAWS AIMED AT CURBING RECKLESSNESS, VANDALISM OF MINORS

Laws aimed at curbing the excesses of youth of Texas, in habits and in general recklessness, were passed by the Texas Legislature this past week, and are to be enforced by local officers and judges as a step in the right direction.

1. Youngsters 14 and over can now be fined \$100 for speeding, for Driving While Intoxicated, or for driving without a license.

2. Parents will be liable up to \$300 for property damages by minor children.

3. This includes property destroyed in acts of vandalism.

4. A special "license" will be needed for driving motor bikes & scooters.

Local officers and the local Justice of the Peace had complained recently that it was too difficult to get licenses taken away from minors who were repeat violators of traffic laws.

The new laws are slated to go into effect on August 22.

COTTON SPECIALIST LISTS CAUSES OF AREA-WIDE SEEDLING DISEASE

LaVaughan Ray, cotton specialist of the Lubbock Experiment Station, said this week, in an interview with C. D. Knott, local FFA teacher, good hot weather will go a long way toward snapping cotton out of the effects of a seedling disease that has been found in cotton all over the Plains area.

Ray described the seedling disease as sore shin and seedling blight, a disease that is most harmful in cold, damp weather.

He said seedling diseases are caused by a number of seedborne & soil inhabiting fungi and bacteria that are most harmful during periods of cold, damp weather.

The most practical method of control is proper treatment of the seed with a recommended disinfectant.

Knott showed 100 stalks of cotton from the J. A. Jackson farm 2 to 3 miles east of town. Ray recommended if 2 to 3 plants per foot were infected the farmer should plant over.

Whiteface FHA's Plan Program For Next Year

Officers of Whiteface Chapter of FHA met June 7 in the Homemaking department to plan next year's program and yearbook.

Those present were Gloria Nedely, President; Becky Baker, vice-president; Zada Snodgrass, secretary; Sandra Powell, treasurer; Nita Moore, reporter; Bobbie Cagle, historian; Mary Ann Smith, Parliamentarian; Mary Nell Stegall, song leader; Mary Kay Rankin, pianist; Carolyn Johnson, director; chairman; and Mrs. Cunningham, sponsor.

VISITED IN TATUM

Mr. and Mrs. J. A. Verron and their granddaughter, Billie Nantz, spent last weekend in Tatum, N. Mexico, visiting their son, Oscar, and his family. The Verrons visited with their daughter, Mrs. Tottie Willis of Roswell who was in Tatum at the time.

TO ATTEND MUSIC SCHOOL

Miss Gwen Baker left Friday for Dallas where she will enroll in Stamps School of Music for the summer semester. She will also visit friends and relatives in Ft. Worth, Dallas, and Paris on weekends and prior to returning home.

WILL YOUR WIFE BE A WIDOW THIS YEAR

because someone wanted ALL of the road?

Every day, in communities all over America, scores of wives become widows because of traffic accidents that *don't have to happen!*

This year alone, over 40,000 Americans will die on our roads, according to the mounting rate.

HERE'S HOW YOU CAN HELP STOP TRAFFIC DEATHS NOW

1. Drive safely and courteously yourself. Observe speed limits and warning-signs. Wherever drivers stay alert and obey the law, deaths go DOWN!
2. Urge your police and courts to enforce the law strictly! Wherever enforcement is strict, deaths go DOWN!

Bounty For The Bride

HAPPY THE BRIDE THE SUN SHINES ON—and to improve an old adage—happier still the bride who brings sunshine into the first and all-important attempt at meal planning.

Sugar Information, Inc. has developed a delicious Sunburst Cake recipe that's simple to make and as tasty as anything one could ask for. Although June has always been associated with weddings, it's also the time we celebrate National Dairy Month. So, in honor of the occasion we've topped this cake with ice cream.

Ideal to serve at showers and parties as well as after a light summer snack, the Sunburst Cake, topped with a generous scoop of his favorite ice cream, is sure to make as big a hit with the man in your life on his high anniversary as it will the first time it is served to him.

SUNBURST CAKE

- 1/2 cup butter
- 1 cup sugar
- 3 egg yolks, beaten until very thick
- 2 cups sifted cake flour
- 2 teaspoons baking powder
- 1/2 teaspoon salt
- 1/2 cup milk
- 1/4 cup orange juice
- rind of 1 orange

Cream butter and sugar until light and fluffy; add egg yolks and blend thoroughly.

Sift together flour, baking powder and salt.

Add flour mixture alternately with milk to butter and sugar. Beat well.

Stir in orange juice and rind.

Pour into greased and floured 8x8x2 pan.

Bake in pre-heated (350° F.) oven for 55 minutes or until cake tester inserted in center comes out clean.

By Eddie Irwin

WE SUPPOSE there will be some folks who don't like it, and there will be a lot who don't agree with the theory behind it — but we'll bet there are few law officers, attorneys, judges, city officials, or probably few people who are in a position to be exposed to juvenile prankishness or meanness; destructiveness, or fun; whichever you want to call it — who aren't glad to see the Legislature tighten-up on the juveniles with laws to make both they and their parents more responsible.

naturally . . .

THE SHOE MAY BE on the other foot tomorrow. Any of us may be raising a youngster who will be a real community problem later on. Then we, like other parents, will probably be guilty of berating the officials and saying "my boy or girl wouldn't do a thing like that."

facts are facts . . .

FOR YEARS we have been berating the "old fashioned" parent who hasn't kept pace with society in his thinking. We've heard it said, and probably proved, that a changing society has nearly made a car a necessity for a high school junior or senior. They have so much running around to do, we can't keep pace with them by taking them everywhere they have to go and in fact, parents can't even spare the family car that long.

in nearly everything . . .

WE DO we're used "live modern" — adjust our thinking to the modern approach of living, psychologists, modern education, etc.

if this is the right . . .

THEN IT FOLLOWS we must also accept streamlining of our legal concept. When you suddenly wake up and realize a teen ager is in a position to need to be at the control of a 2,800 to 4,000 pound machine of destruction, you also have to give those whom he may come in contact with some protection. That's what the new series of laws are designed to do. They protect people whose property is destroyed by juveniles or minors, to the extent of \$300 property damage payable by the parents of the errant child. They protect folks against drunken minors who may be driving a car by making the minor liable for a stiff fine, just like his elders. The theory is that the parents will exercise some control if they have to shell out enough money.

unfortunately . . .

THE ONLY WAY to get at many folks is through their pocketbook, or through jail sentences. It has been strongly advocated, though not yet passed, that in some repeated instances of minors violating laws, the parents should have to go to jail. That could be a law of the future, but we strongly doubt it. But we are glad, at this time, for a responsibility law on youth who drive cars, and who maliciously destroy property.

when it rains out . . .

IT RAINED in this country, the news among the sports fans. But when it rains out a rained out game is almost sensational. At least its an unusual amount of water for this country. Saturday we had one of the earlier rained out games of the Little League and only got one half of an inning "in" before a heavy shower caused the game to be called off.

tomorrow . . .

AS YOU probably know by this time, is Clean-up Day in Morton. We sincerely hope you'll all take note and get your home yards cleaned up tonight, and your business localities tomorrow. The thing we have all been griping about the most for the past couple of months, months — flies and mosquitoes, will be many times more easily controlled if we all clean-up yards, and a specific thing — if we all will see that those old tires, etc. in our yard, that collected water during the recent rains, are dumped out.

you may be . . .

HANDICAPPING one of the blondest breeding spots in town in your backyard, or behind your business location and just never thought about it. Do something about it today, won't you?

the citizen's committee . . .

NAMED EARLIER in the year by the School Board to study the various phases of the Negro School problem will report back to the overall chairman sometime later this week.

then the chairman . . .

WENT REPORT back to the School Board, the findings of the group, which will constitute something of a recommendation as to what the Board should do in the way of solving some problems that exist.

quite a group . . .

OF PERSONS took advantage of the swimming pool opening last weekend, and if the weather remains hot, the pool's receipts may soar the highest they've ever been.

a lot of the . . .

DO NOT SCARE that hurt the pool's attendance the first three weeks of operation is now over. A huge percent of our people have had their polio inoculations. This should mean that a lot less people will be afraid to bring their kids to any type of public gathering. This had been a big blow to gate receipts at the pool in past years.

Sunday . . .

THERE SEEMED TO BE a fair sized crowd at the pool, but the crowd across the way at a baseball game between two Spanish-American teams was almost as

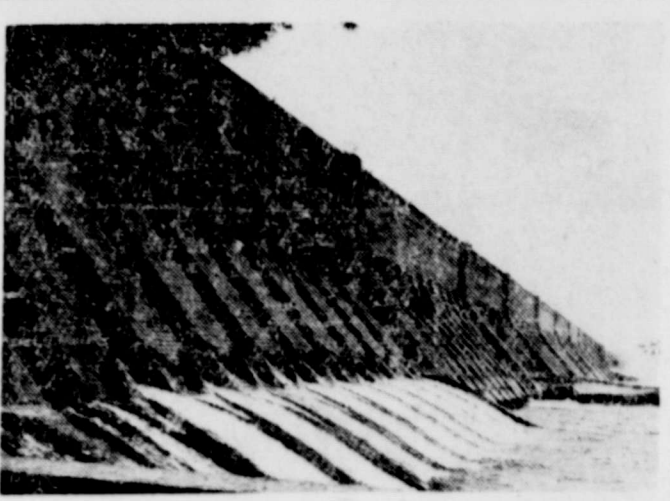

large. In fact, we seemed to note a lot of fathers watching the game. Guess that's one way of making those kids were enjoying the pool. Two segments of a family happy at the same time.

speaking of . . .

SWIMMING, AND the like, we haven't been able to take advantage of it, but they say there has been large crowds at Monument Lake, and at several other lakes in Bailey County, created by the recent rains — just boating, water skiing, and swimming and wading.

haven't heard . . .

OF ANY FISHING, but if the rains

Given of life and death, a source of feast and famine—such is the mighty River Nile which dominates the fortunes of the Egyptian people. Indeed, without the Nile there could be no Egypt, for the waters are the lifeblood of a parched and desert country. The soil is fertile only along the banks of the river, at its triangular delta and in the artificially irrigated sections.

The ancient Egyptians learned how the waters of the great river could be controlled to bring the floods into productive use. They dug channels across the higher lands flanking the river, to carry excess water to low-lying lands farther away. After the Arab conquest in 640, much valuable work was done in irrigation. A revolutionary change in the method of controlling the Nile took place in the 19th century, when cotton was first introduced into Egypt. Although it soon became apparent that Egypt could produce the world's finest cotton, the old irrigation systems failed to provide the frequent and constant watering that the cotton plant requires. Therefore, Egyptian engineers built deep canals to conduct the low-level waters of the summer to cotton fields and built dams to protect the crop from inundation during the flood season.

Cotton flourished so rapidly in Egypt that soon greater canals like the Ibrahimia were built. Then early in the 20th century, a large dam was built at Aswan, some 550 miles south of Egypt's Mediterranean coastline. The Aswan Dam was enlarged three times. Several other dams and barrages were built along the Nile to supplement the irrigation and flood control projects.

The High Dam, envisaged also at Aswan, will dwarf all its predecessors in size and ultimate utility to the Egyptian people. A huge, 300-mile long lake will be created to eliminate the old danger of famine when the Nile is low. An additional two million acres of desert land will be irrigated. Irrigation authorities believe that Egypt's cultivated land will be increased through the increased irrigation capacity by nearly one-third, and her agricultural income boosted by fifty per cent. In addition, the High Dam will give rise to new industries by providing ten billion kilowatt-hours of electrical power a year.

ins continue to come, we suspect here will be someone trying a little of that. As far as we are from ake country, these rain-made waters should prove plenty popular.

it's been so long . . .

SINCE WE'VE HAD the kind of a wet season in Cochran County that we now have, there's a little conflict in opinions among the farmers, and agricultural men as to just how bad this "root rot" that has developed on a lot of the cotton, really is. Some say, leave it, and you'll lose a lot of it, but the loss is not worth gambling that you will get another stand of cotton "up." Others ploughed it up and replanted, as late as it is.

in this paper . . . ARE TWO REPORTS on the situation from two different men. They are published simply as opinionated reports and we wouldn't even think of saying what is what, except that everyone seems to agree that the cause of the root in-

fection is a combination of superfluous water in spots and cold ground temperature.

whether chemical . . . TREATING, replanting, ploughing, or just waiting for more good old sunshine is the best answer, frankly, we don't pretend to know.

Rev. Robinson Is Preaching At Las Vegas

The Rev. Ollie S. Robinson, pastor of the First Baptist church, and son Tommy are in Las Vegas, Nev.

this week, Rev. Robinson is conducting a revival in the Baptist mission in Las Vegas. The meeting will close Sunday, June 13. In the absence of the pastor, Rev. Old Drennan will conduct services Sunday morning, and Elmer E. Eley will be in charge of the evening services.

J. A. Vernons Will Observe 45th Anniversary

Mr. and Mrs. J. A. Vernon will celebrate their 45th anniversary of marriage, Sunday, June 16.

They expressed their desire to have all friends visit them from 8 to 7 p.m., Sunday.

The Vernons were married at Texarkana, June 16, 1912. Six children were born to them, five of whom are still living. They are O. D. Vernon, and Mrs. Bud Nairn, both of Morton; Oscar Vernon of Tatum, N. Mexico; Mrs. Hazel Pankston, Dallas; and Mrs. Dottie Wilks of Roswell, N. Mex.

The J. A. Vernons are members of the First Baptist Church of Morton.

Jiddah: Port Of Mecca

On the west coast of Saudi Arabia, a short distance from the holy city of Mecca, lies Jiddah—a city with a long history and a prosperous future.

Throughout the eighteenth and nineteenth centuries, Jiddah had thrived as the port of entry for millions of Moslem pilgrims making the annual pilgrimage to Mecca, and as a transit point for Indian and African merchandise bound for Egypt and northern markets. But the harbor city never experienced "boom town" prosperity until the discovery of oil on the eastern coast of Saudi Arabia in the twentieth century.

The discovery of rich oil deposits in 1935 created a new demand for imports and banking facilities which brought overnight wealth to the port. Merchants and artisans from all over the Arab World flocked to the city and, with the exception of the war years, business flourished. In addition, a new wave of immigrants arrived in 1948 after Saudi Arabia opened its doors to the Palestine refugees.

The twentieth-century Jiddah is a far cry from the town described by a seventeenth-century traveler as a place "accursed by nature and debarred of heaven's blessing." The climate has not changed, but a new water system, electrical power and such conveniences as air conditioning and refrigeration made life in the city as pleasant as many other cities in the Middle East. Lush gardens now decorate modern sections of the city and new buildings are rising everywhere.

During the past six years the population of Jiddah has more than doubled and the historic Great Wall which once surrounded the ancient town has been torn down. This wall was built originally to protect the port from sea-launched invasions.

Today the old Jiddah is fast disappearing and a new city of modern outlook is rising in its place. Venerable high coral block structures with latticed balconies and delicately carved teak doors are being abandoned in favor of modern stucco villas and streamlined office buildings, many of Egypt design.

Recent population growth has put a strain on existing public utilities and buildings, but construction proceeds at a rapid pace. Jiddah now boasts a new port, complete with a two-berth steamer pier; a new airport with a modern terminal building and spacious hangars and adjoining the airport, the city's first completely air-conditioned hotel.

The cook looks attractive in a striped cotton chambray dress by Swirl. Crochet-edged tuckings trim.

Tall, Cool and Delicious Drinks

Need new ideas for cooling milk drinks this summer? Here are two recipes from the Borden Test Kitchen for tall, cool and delicious beverages—Spicy Fruit Flip and Mocha Frost. Drinks made with instant Starlac nonfat dry milk are nourishing for it is regular top-quality pasteurized milk with only the fat and water removed. It is rich in protein, calcium and riboflavin, and is known as "the heart of milk".

Instant nonfat dry milk mixes immediately, even in ice water. Use it as you use milk—for drinking, cooking and baking. Instant nonfat dry milk is so inexpensive. The family-size package makes 12 quarts of nonfat milk for as little as eight cents a quart. There are two other packages to meet the individual family's needs—a one-pound package which makes five quarts of nonfat milk, and a pre-measured package which has three individual envelopes, each making a quart of nonfat milk.

SPICY FRUIT FLIP
 (Makes 4 8-oz. glasses)
 2 medium-size bananas, sliced 1 quart liquefied instant Starlac nonfat dry milk, chilled
 2 tablespoons lemon juice nonfat dry milk, chilled
 1/2 teaspoon powdered ginger

Beat together banana slices and lemon juice with a rotary beater or electric mixer; stir in liquefied instant Starlac nonfat dry milk. Beat until well blended. Blend in ginger.

STARLAC MOCHA FROST
 (Makes 1 8-oz. glass)
 1/2 cup water 1 teaspoon instant coffee, or 2 tablespoons instant Starlac 1/2 cup chocolate ice cream nonfat dry milk powder 1/2 cup chocolate ice cream

Pour water into a deep 1-quart bowl; sprinkle instant Starlac nonfat dry milk powder and instant coffee over surface. Stir until dissolved. Beat in ice cream until melted and frothy.

Mon Millers, Longtime Residents Complete Move to Dawson County

and Mrs. Ermon Miller and long-time residents of Morton and Dawson County, were in Dawson last week to complete their move to Dawson County. Mrs. Miller has called Morton her home since 1926 with her parents, and Mr. Miller has been active in the church and community work here.

Miller has served as superintendent of the Sunday School department of the Methodist Church for some five years. He is past president of the Morton Lions, and was president of the Morton Chamber of Commerce during the time ground work was done toward construction of the County Activities Building and the County Swimming Pool, which had been advocated among other groups as well as the Chamber. Although he has called Morton his home since first moving here, he was associated with the FHA at Childress and Farwell from 1939 to 1941. In January of 1942 he entered the U. S. Air Force, serving until February of 1946. Immediately prior to his present association with the FHA here, he was Dodge - Plymouth dealer for

this area for some 10 years. Other civic activities that Miller has been engaged in includes fund-drive chairman for the Scouts, director of the Morton Cemetery Association, and Chamber of Commerce director.

VISITED BOB WEEDS

Visitors in the Bob Weed home last week were Bob and Maurine Word and Vanessa from El Paso, Texas. Mrs. Word is the former Maurine Weed.

The Words have gone to Ardmore, Oklahoma, to spend two weeks with Bob's mother before returning to El Paso.

Word has recently re-enlisted for an additional six years with the Airforce.

Also visiting in the Weed home this week were Mr. and Mrs. Bert Whitson and their three children from Lubbock.

Morton Tribune

MORTON, TEXAS, THURSDAY, JUNE 13, 1957

MISS BRENDA ELAINE McCALL WEDS ROBERT LEE GEORGE IN CEREMONY AT ENOCHS BAPTIST

Wedding rings were exchanged by Miss Brenda Elaine McCall and Robert Lee George at three o'clock June 1, in the First Baptist church of Enochs, Texas.

Parents of the couple are Mr. & Mrs. Erelous N. McCall and Mr. and Mrs. R. R. George.

Magnolias highlighted the altar

which was centered with an arch covered with vines and flowers. Officiating was the Rev. Charles Vanlandingham, and Mrs. John W. Gunter played wedding selection and accompanied Gerald Moore of Las Vegas, N. M., who sang, "O Promise Me," "Whither Thou Goest" and "The Lord's Prayer." Given in marriage by her father, the bride wore an original gown of Chantilly-type lace over net and satin in blush pink. The bodice featured a high neckline framed by a satin collar outlined with lace appliques embroidered with iridescent sequins. Long sleeves were finished by sequin-embroidered satin cuffs. Accenting the center front was a full-length princess panel held by a pleated satin cummerbund.

Serving as best man was Joe Dale Doak of Meadow. J. C. Pearson carried the rings. Ushers were Ralph George, brother of the bridegroom and Junior Austin.

Miss Lorretta Locker registered guests at the reception. Presiding at the table were Misses Sharon Holt, Glenda Tidwell, and Janell Seagler. A four-tiered cake highlighted the table which was covered with white net over lime green.

The couple planned a wedding trip to Ruidoso and Cloudcroft, N. M. For this the bride chose a light blue dress with white accessories.

Mr. and Mrs. George will make their home in Lubbock where the bridegroom is attending Draught's Business college. Both are graduates of Bala High school.

By HOMER E. THOMPSON

SEEDLING COTTON DISEASES

This is one of our worst years in so far as getting cotton up, growing and healthy. There are many seedling diseases that affect young cotton. When germination is poor then the conditions are right for seedling diseases. When ground is wet, it is cold, and this condition is right for seedling diseases. If soil is wet for long period of time, then air cannot circulate around the roots. Moisture, air, and temperature make a big difference in soil trying to grow young cotton.

The roots are affected from slightly to severe. It can even deform the tap root of cotton and it can go into club root. Club root cotton does not produce much, if it survives. It could go up into July apparently healthy and then die after it has loaded up fruit. The little tap root may appear to have a knobby root on knobby, soft-brownish, or even black and cuts off the transportation process and causes the plant to strangle. If it does not die while young, the plants could linger on indefinitely and always be weak plants. There is nothing that can be done about it now. Some cotton is so severely damaged it should be replanted. Yes, even at this late date. We have made some awfully good early June cotton. Yes, the early diseased cotton may be much later if left as it is, then the June planted cotton.

If you have a good stand and you have 50 per cent good stalks of cotton with healthy roots, leave it. If you have 60 percent or more of all stalks of cotton pulled up with a poor root system and turned brownish or black and drying up, you'd better replant. The early planted cotton is much more severely hurt and if the leaves look good better examine the roots. The black and brown spots on the leaves are the disease too.

Thrips have done little damage. If you do not replant, suggest you start your early season control within 10 days. Give three sprayings at weekly intervals.

In severe diseased cotton it is the opinion of the writer that it should be replanted. In border-line cases, leave it, it will always be slow and act stunted. To sum it up — this is a bad year on the start. Let's hope the season is extended by a late frost.

CRABGRASS CONTROL IN BERMUDA TURF

Dicofol methyl arsenate is suggested for control of these two turf weeds in the revised B-203 "Home Lawns." This chemical is packaged with ample directions on the container for crabgrass control, but at present no directions are given for Bermudagrass control. Also, the material varies in concentration, depending on the manufacturer. So I am setting out suggestions for use of the material on Dallisgrass, based on the results of a years' research by our turf people.

The best time for application is mid-spring to early summer when Dallisgrass is making rapid growth. Fertilizing, mowing and watering should be stopped for 48 hours following application. The material is poisonous and the precautions stated on the container should be carefully observed. Do not saturate the soil with this material in the root zone of desirable shrubs or trees. Do not use it on St. Augustine grass. To make a solution for spot treatment, use 6 tablespoons of material containing 12.75 net total soluble arsenic (or 4 tablespoons of approximately 20.5 net material) and 1 tablespoon of liquid detergent per gallon of water. Apply the solution as a spray or mop wetting the foliage thoroughly. Four gallons of this mixture are required to cover 1000 square feet with a broadcast spray. One application should give good control.

You may get a copy of the bulletin B-203, "Home Lawns" from the County Agent's office.

"He sure knows how to pick 'em!"

Bridesmaid: You mean Lucille... or are you talking about their Oldsmobile?
Best Man: Both! But I was really looking at their car. What a beauty!
Bridesmaid: They sure are a lucky couple.
Best Man: And smart, too. That Olds costs less than you'd think. It has a style that will stay in style. They get real comfort... a wonderful ride... and the big Rocket Engine...
Bridesmaid: She looked so lovely...
Best Man: They'll really find out how smart they are to own an Olds at trade-in time. Why, an Olds brings a better price than lots of the most expensive cars, even after a couple of years of use.
Bridesmaid: You know what I wish? I wish that someday...
Best Man: That you can own an Olds? Don't waste your wishes. Let's take a ride in my Golden Rocket 88. Maybe your dreams'll come true sooner than you expect.

SEE YOUR AUTHORIZED OLDSMOBILE QUALITY DEALER

PERSONALS

I AM NO LONGER RESPONSIBLE FOR MY WIFE'S ACTIONS

(Since she got her new kind of Ford)

"If she is unbelievably happy at 7:00 A. M. every morning, I now hold her 1957 Ford responsible. If she is off for the day at 7:02 A. M., I suggest that it is the power of Ford's Thunderbolt V-8 engine. If she appears vastly more style-conscious, it is the longer, lower lines of her new kind of Ford that have made her so.

"If she arrives home remarkably refreshed, I refer you to the lower, more comfortable seats, the wider wrap-around windshield and the other peace-of-mind features of her new 'Inner Ford.' If she's just a bit more spoiled, don't blame her. With optional power steering, power brakes, power windows and seat—who wouldn't be?"

"And if she is constantly raving about the savings her new car brings her, she's merely confirming what I've been telling her about Fords for years! Sure, we're a two-Ford family now. But even having one Ford in the family was more fun than you can imagine! Try a new '57 Ford at your house. It's Terrific!"

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Every farm home needs a good windbreak planting that will afford protection from the cold winter winds, prevent snow from piling up around buildings and lots, prevent sand from doing the same, and will generally make a more pleasant and comfortable place in which to live and work.

During the summer months nothing can add more to the beauty of the home than the background of varying shades of green afforded by a well planned windbreak. Yard beautification with shrubs, roses and annual flowers is more easily obtained and much more effective with this kind of background. Furthermore, the protection from blowing soil in the farm yard makes these beautification plantings possible. It also keeps a lot of dust off the window sills, furniture and floors.

Why not have a farmstead windbreak? Too much drought? Work? Cost? None of these should prohibit any farm family from enjoying the many benefits and comforts of this valuable improvement to the farm home. Yet in the Cochran SCD only about nine percent of the farmsteads have good windbreaks.

It takes work, lots of work, to successfully grow a good windbreak, but by present day methods it is more a matter of time than hard labor. For successful results, ground preparation for tree planting should usually start the year before planting. The heavier soils should be summer fallowed for a season to give the best results. The proper location of a windbreak sometimes requires the changing of fences and relocation of lots and field lanes. Advance planning can help lessen the work needed and greatly increase the chances of success. Obtaining the trees and planting them can be accomplished easily and without more effort than it takes to contact the Cochran Soil Conservation District Office.

Cultivation of the trees is the major item of labor involved in growing a good windbreak. Trees must be cultivated the same as any other crop if a high yield of benefits is to be reaped. Unlike the annual crops, trees cannot be 'laid by' in three or four months but must be watched for five or six years until their growth has produced sufficient cover to shade out weed growth. Modern equipment makes this job chiefly a matter of time to get it done. Such tools as a spring-toothed harrow, tandem discs and various sub-surface tillers do an excellent job of cultivation between the rows of trees. For cultivation of trees in the row, hand hoeing is the old fashioned, back-breaking method. There now are several machines, easily attached to a farm tractor, that will do this job in much less time and with no more effort than it takes to drive the tractor.

After carefully looking at the factors involved in growing trees, it is apparent that a good windbreak is easily within the reach of every farm family. Were the cost of money, labor, and land ten times as great, a good windbreak would still be a sound and profitable investment and return annual dividends in comfort and beauty that cannot be measured in dollars and cents.

VISITED IN SILVERTON
Miss Lorena Long, daughter of Mr. and Mrs. Garvin Long of the Maple community, returned Sunday after a two week visit in the home of her great aunt and uncle, Mr. and Mrs. Clyde Lightsey of Silvertown, Texas.

NEWEST HIGHWAY TRAVEL MAP IS BEST EVER PRODUCED ON TEXAS

The official highway travel map of Texas, completely redrawn to include 450 towns not shown in previous years, has just been released by the Texas Highway Department. D. C. Greer, State Highway Engineer, announced today these maps are being dispatched as rapidly as possible to fill a backlog of thousands of requests and new requests are pouring in daily. Greer said each year one-half of the map is replaced by new information. "Maps are made free" the State Highway Department commented, "and they are secured either by writing to Austin, or to any of the District Travel Information Bureaus maintained by the state."

Inch for inch, the map—which is possibly one of the most widely known travelogues of the state—gives more travel guidance about the largest state in the union, than any comparable printed matter of such handy size.

A new cartographic system employed to produce the 1957 map made possible the addition of thirty per cent more information. Multi-lane highways, farm-to-market highways and state and federal highways are indicated. Key altitudes also are noted, and roadside parks as well as state parks are indicated. The new map contains more detailed information than its predecessors.

All streams and public lakes of major size are shown, and cities with a population of fifty thousand or more are marked as city insets. Color photographs on the back side of the map picture Texas' recreational, industrial and landscape attractions. A running account of Texas history and the state's natural resources, climate, size, recreational facilities and industries are included in the backside information.

Greer estimated that approximately 1,000,000 copies of the map are being distributed. The map is available for sale at a price of \$1.00 per copy. It is available in both pocket and full size editions.

Mrs. G. W. Elliott is Hostess to County Line HD's

Mrs. C. W. Elliott was hostess to members of the County Line Home Demonstration club Tuesday.

Members present were Mrs. E. H. Montgomery, Mrs. C. W. Elliott, Mrs. A. B. Henderson, Mrs. Lillian C. Brown, Mrs. Chas. C. W. Elliott and Mrs. Lella Petty, Home Demonstration Agent.

Next meeting of the club will be June 20 at the home of Mrs. Montgomery. The meeting scheduled for July 4, has been changed to July 2 to meet in the home of Mrs. Courtney.

VISITORS TO TUCUMAN
Visitors in Tucuman, N. M., this week were Sheriff and Mrs. H. Hancock. They were visiting in the home of Mr. and Mrs. R. C. Lane.

Attention Farmers!

Yes, there are good, practical reasons why so many West Texas farmers are changing to Panhandle Mutual Hill Association hail insurance. A few of the reasons are listed below:

1. The Panhandle Mutual Policy is the only cotton policy that does not have a replant clause.
2. We do not adjust cotton on the stand population basis.
3. We do not defer our losses until fall.
4. Our adjustments are prompt and honest adjustments made by local adjusters.
5. This is a farmer's company.
6. No interest charge on our notes until after maturity.
7. The only company which has an arbitration clause in the bail policy.
8. Our policy is written to fit the West Texas cotton farming conditions.
9. We limit our liability per township and PER section so as to avoid overloading.
10. Another important feature is the fact that we now have an astrographic reinsurance with the Lloyds of London as added protection to our west Texas farmers against heavy hail years.

FISHED AT CONCHOS
Neal Rose and Hume Russell left Thursday afternoon for a few days fishing at Conchos Dam. They returned Sunday night.

SUMMER ROSE

Rose printed cotton satin is featured in lady-like swimsuit by Galt of California. Suit fits long or short waisted figures, thanks to the elasticized shirring. Cuffed bodice with bow is flattering.

Highlights and Sidelights FROM Your State CAPITOL

JUSTIN, TEX. — Fifty-fifth legislators will have a shorter than usual "vacation." Gov. Price says he will call them back, probably about October, for a special session.

A Dallas grand jury already has indicted Ben Jack Cope, one-time ICT manager, on charges of theft and embezzlement. Authorities are trying to get him returned from South America so he can be tried.

WHO WHAT WHERE & WHEN — Texas' off-again, on-again Insurance Commission is still a prime source of speculation.

Past legislature passed laws abolishing the old board and enabling the governor to appoint new members. It also directed the commission to move within three years from its leased office quarters into a building to be erected with insurance tax revenue. And it passed dozens of new restrictive insurance laws for the new commission to administer.

Old board members Mark Wentz and John Danie promptly resigned. But Gov. Danie refused to accept their resignations. He said they'd have to stay on until their successors were named.

Then Atty. Gen. Will Wilson ruled the insurance tax revenue couldn't be used for a new building. It goes into the general revenue fund and is already earmarked for other things he pointed out.

And, until the new commission gets going, insurance men over the state are uncertain as to how to comply in detail with some of the new laws.

ETHICS QUANDARY — Just who should do what to comply with the new code of ethics is still being discussed in the Capitol.

Some 163 legislators and state officials have given the secretary of state statements about their connections with businesses under state regulation. Assets ranged from Cuban Oil Companies to small town dry goods stores.

Sec'y of State Zolle Steakley said failure to file such a statement could be grounds for removal from office, but that he didn't have authority to enforce it.

Gov. Danie said he saw no need for his filing, since the constitution prohibits a governor's serving as officer or director of a corporation under state regulation. But he suggested the secretary of state might ask for an attorney general's ruling to clear up other points about the law.

BONDS GO BEGGING — First sale of the second \$100,000,000 issue of Texas veterans land program bonds attracted no takers.

In today's "tight money" market the constitutionally prescribed 3 per cent interest doesn't lure buyers, said Land Commissioner Earl Rudder.

He said the bonds would not be offered again until conditions improve.

CROPS LAG — After years of longing for water, most Texas farmers now are trying to "recover" from the rains.

State Agriculture Commr. John White estimates flood damage to crops at \$50,000,000 or more. Cotton planting deadlines had to be extended by the state office because farmers were delayed in ploughing their wet fields. Even so, some crop loss was foreseen, from inability to plant.

In some areas of North Texas small grains were reported hurt by too much water. But dryland farmers in South Texas said they could use a little more moisture.

WASHINGTON AND SMALL BUSINESS

Assistant Attorney General Victor Hansen, head of Justice Dept. anti-trust division, has emphasized on what could, with deep enough investigation, turn out to be case of major importance.

In both Tulsa, Oklahoma, and Las Vegas, Nevada, bakers have been indicted for conspiring to fix prices on bread, other baked goods. In both cases, the local anchors of the nation's two largest neo-monopoly C.W. Hansen bakery operations headquartered in New York City are named, along with local bakers.

Several months ago Senate Small Business Committee issued comprehensive report on how monopoly control is being wrapped around the "staff of life."

Most everyone seems to have feeling bread prices in many areas are fixed. Presumably Federal Trade Commission, supposed to know about such matters and stop them, has some inkling of situation. Yet FTC seems to continue activities to scribbling over advertising claims of regional independents while big national chain bakers say what they please.

So, Justice Dept. could perform outstanding service to nation. As already stated in both cities the two big national combine bakers are involved as well as the regional operations. With out attempting to prejudice the case, assume the government wins both, and assume further that in each instance the fine is set at \$10,000. For the big national concerns, this would be a small penalty, but \$10,000 could hurt the local bakers.

Therefore, it would be interesting to see how the Justice Dept. would handle this case.

4. A State Archives and Library Building for which Legislature appropriated \$2,500,000.

5. A Texas Employment Commission Building and an Insurance Commission Building. Lawmakers told each to move from rented quarters, but money for new buildings is not immediately available.

SPECIAL SESSION — Though still four months off, Gov. Danie's plan for a special legislative session in the fall is already generating lively discussion around the Capitol.

There is sentiment both for and against. A "memorandum" was reportedly circulated asking persons to write the governor and ask him not to call the special session. It predicted the bills the governor wants would fare no better than before. A long-time House member was believed to be the author of the memorandum.

But if the session is held, Rep. Tony Korioti of Sherman says he hopes the governor will submit small loan regulation as an emergency measure. Korioti's "loan shark" control bill died in committee last session.

NEW "STATES" FORMED — While Texas lawmakers take a break, some probable leaders of the future are trying their hands at government in Austin.

They are nearly 1,000 high school students from over Texas who came to the Capitol City for Boy's State and Girls' State. Texas Department of the American Legion and the Legion Auxiliary sponsor the "states" annually as citizenship laboratories for outstanding youngsters.

Participants hear talks by ten officials from the governor down, then form political parties, nominate candidates and elect officials of their own.

Aim is to give students a first-hand understanding of politics & government.

ROAD BUILDING SPEED-UP — Texas State Highway Commission is moving swiftly to take advantage of new laws designed to speed up highway construction.

A meeting of the Commission & key personnel was to be held in Houston this week. Objective: to hasten the day when heavy traffic can move safely and smoothly along multi-laned super-highways with no crossroads.

Principal legislative changes are (1) provision for state to give 50-50 with cities and counties on land buying costs and (2) new authority for the state to obtain land for and have control of super-roads through cities.

expected to mount high from wind, hail, rust and insects. And, continued heavy rains have washed out more fields, delayed much-needed work in others.

Any more rain will mean complete loss of North Texas grain crops, according to observers. U. S. Dept. of Agriculture reported weather too wet and cool for cotton in all areas but South Texas.

Even so, the stored-up moisture makes farmers generally hopeful. With some clear weather now, it is said some might yet get the best crops in years.

For ranchers the outlook is even better. Hill Country Hereford Association reported record-breaking sales as grass grows higher, cattle fatter.

BUILDING BOGS DOWN — Continuous rain has brought construction to a "virtual standstill" in many parts of Texas this year.

Building authorizations for the first four months of '53 were one per cent higher than last year, reports the Bureau of Business Research. But actual construction was 4 per cent less, due to the weather.

Increase in the authorization totals was attributed to higher costs rather than more building.

BUSINESS ACTIVITY UP — Almost all indicators show Texas business moving slowly but steadily, ahead of what it was in 1952.

University Bureau of Business Research reported April, 1953, was 6 per cent better than April, 1952. Retail trade was up 8 per cent over last year with family clothing stores showing the biggest jump—39 per cent.

Bureau analysts foresee "good" retailing for the rest of the year, but with "fierce competition" and a "ruthless squeeze on profits and margins."

VISITS DAUGHTER, FAMILY — Mrs. M. M. Cudd of Perryton, Texas was a guest in the home of her daughter, Mrs. Jerry Barton, June 1 through June 5.

TO SUMMER SCHOOL — Deanna Rose, daughter of Mr. & Mrs. Neal H. Rose, returned to Texas Tech last week to enroll in summer school.

Mustafa Ben Halim: Statesman Self-Made

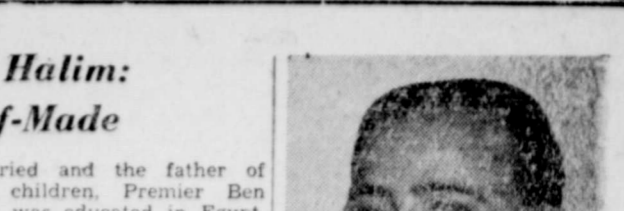

Mustafa Ben Halim, the Premier of Libya since April 12, 1953, is in many ways a human symbol of the nation he represents—young, energetic and undaunted by the multitude of problems facing the newly independent country.

Ben Halim, now thirty-six years of age, assumed the post of Premier at a time when his nation was faced with the difficult and delicate negotiations over the question of foreign bases in Libya. Shortly after taking office, he successfully concluded an agreement with the United States concerning Wheelus Air Force Base. In the summer of 1953, he signed a treaty with France providing for the evacuation of French troops from the areas they had occupied in Libya ever since the Italians were driven out during the Second World War.

Married and the father of three children, Premier Ben Halim was educated in Egypt, where he received an architect's degree from Alexandria University. But he soon found himself concerned with the building of his country's economic and political future. His public life began in 1949 as Minister of Communications in Cyrenaica, one of Libya's three provinces. He held this post until the fall of 1953, when he was appointed Minister of Communications in the Libyan federal government.

Since he assumed the premiership, he has held the position of Foreign Minister simultaneously. A man of frank speech and direct answers, Ben Halim is appreciative of Western friendship and economic support. Yet Libya's Premier is critical of Western attitudes toward the nationalist struggle of his African neighbors. He describes the oppressive French military operation in Algeria as "one of the biggest shames of the nations."

"One cannot see how a people who are trying to achieve their independence should be treated the way they are treated now,"

ceremonial fire was conducted and camp honors were bestowed.

Accompanying the girls on the trip were Mr. and Mrs. Elmer Smith, Mr. and Mrs. Lloyd Miller, Mr. Harold Drennan, Mrs. Fred Blackdale, Mrs. Truett McCustion, Mrs. Ed Lytle, Mrs. W. G. Freeman, Mrs. M. C. Ledbetter, Mrs. Wilson Wilson and Mrs. E. O. Williams.

NEW JURY AT WORK

Texas generated more troubles than any grand jury could see in two months. Hence, a brand new Travis County jury begins this week.

Some 163 legislators and state officials have given the secretary of state statements about their connections with businesses under state regulation. Assets ranged from Cuban Oil Companies to small town dry goods stores.

Sec'y of State Zolle Steakley said failure to file such a statement could be grounds for removal from office, but that he didn't have authority to enforce it.

Gov. Danie said he saw no need for his filing, since the constitution prohibits a governor's serving as officer or director of a corporation under state regulation. But he suggested the secretary of state might ask for an attorney general's ruling to clear up other points about the law.

BONDS GO BEGGING — First sale of the second \$100,000,000 issue of Texas veterans land program bonds attracted no takers.

In today's "tight money" market the constitutionally prescribed 3 per cent interest doesn't lure buyers, said Land Commissioner Earl Rudder.

He said the bonds would not be offered again until conditions improve.

CROPS LAG — After years of longing for water, most Texas farmers now are trying to "recover" from the rains.

State Agriculture Commr. John White estimates flood damage to crops at \$50,000,000 or more. Cotton planting deadlines had to be extended by the state office because farmers were delayed in ploughing their wet fields. Even so, some crop loss was foreseen, from inability to plant.

In some areas of North Texas small grains were reported hurt by too much water. But dryland farmers in South Texas said they could use a little more moisture.

Texas already has received more rain in the first five months of 1953 than in the entire year of 1952. Sample totals for '53: Dallas, 36 inches; Austin, 24 inches; San Antonio, 19 inches; Greenville, 44 inches.

NEW BUILDINGS SLATED — From four to six new buildings are to go up soon, moving toward the eventual creation of a "state government center" clustered around the Capitol. In the offing are:

1. A State Courts Building, now under construction, to cost about \$3,750,000.

2. A State Office Building, for which contracts have been let and site-clearing begun, to cost about \$4,000,000.

3. A Central Power Building to furnish heat and air conditioning for the Capitol and other buildings. Authorized by Legislature with a directive that it be ready by October 1958.

ADVANTAGES of CAPITAL STOCK COMPANY for CROP-HAIL INSURANCE

1. Losses paid in full regardless of number or amounts of losses occurring in any season.
2. Claims are paid within a few days after settlement of loss.
3. Rates are based on County experience for a five year period.
4. Insurance can be written 100 per cent to value of crop.
5. Policy is in force until November 15th of each year on open cotton.
6. Financial conditions and rates inspected and approved periodically by the Texas Board of Insurance Commissioners and the governing bodies of their home states.
7. No assessment — no pro-ration of losses.
8. Any mortgage for the premium applies only to the one crop insured for the year insured.
9. Rates for Cochran County per \$100 of insurance are: General Form—\$10.50; Excess of 10 per cent—\$7.00; Excess of 20 per cent—\$5.25.

WHY re-enlist in the small-car army?

READ THIS STARTLING FACT

5 out of 10 Smaller Cars wear a Pontiac Price Tag —yet none gives you Any of Pontiac's Advantages

PONTIAC GIVES YOU UP TO 8.9% MORE SOLID CAR PER DOLLAR!

Not one of the smaller cars can give you the heavy-duty construction, the road-hugging heft and solid security that surround you in every Pontiac. Yet Pontiac's the nimblest heavyweight you ever managed—and your Pontiac dealer can show you more than six dozen advanced-engineering reasons why! Pontiac has gone all out to make this genuine big car the best behaved beauty that you ever had the pleasure of kissing. You'll find Pontiac's exclusive Precision-Touch Controls make steering and braking the surest, easiest you've ever experienced! Park it, cruise it, try it in stop-and-go traffic... this is driving the smaller jobs can't duplicate.

PONTIAC GIVES YOU 4 TO 7 INCHES MORE WHEELBASE!

The small cars extend bumpers and fenders to look big—but Pontiac puts the extra length where it counts—between the wheels! Pontiac's longer stride sweeps the bumps instead of riding on them. And this extra length shows up inside, too, in stretch-out space for six footers. Add to Pontiac's bonus in length the all-new suspension system and you have an exclusive Level-Line Ride no car can surpass... and a built-in sense of direction and security that will appeal you for the smaller cars forever!

NOTE: If you want the ultimate in both economy and extraordinary performance, new Tri-Power Carburetion is available at extra cost on even the lowest priced Pontiac models! It's America's newest power advance and exclusively Pontiac's at so low a cost!

Pine Adds Luxury Look To Bathroom

Do you have a bathroom that is so sterile as to give a very cold impression? Or perhaps one that is so antiquated that it needs a complete overhaul? If so, one of the most practical and economical ways to rejuvenate a bathroom is to panel it in cedar as shown here, or one of the other fine woods from the western pine region.

Besides breathing life and warmth into tired rooms, this treatment offers an opportunity to build in needed storage space. If you have stepped dripping from the shower and reached for a clean towel that wasn't there, you know how handy it is to have supply within reach.

Fortunately, walls paneled in western pine woods readily accept moisture-resistant finishes, and are them ideal for bathroom use. No matter what the style of the lavatory, a handsome enclosure can be built around it providing convenient storage for such necessities as soap, towels and tooth paste.

W. W. Stegall Children Together For the First Time In Their Lives

Twelve children of a pioneer South Plains family were to get together for their first reunion in Whiteface Sunday.

The surviving children of W. W. Stegall were to come from West Texas, New Mexico and the West Coast to attend the reunion.

Stegall first settled in Dickens county in 1883 and helped organize Swisher county in 1890. Stegall was the first treasurer of Swisher county. An uncle, James N. Browning, was the first state representative from West Texas. Browning also served as Lt. Governor in 1898.

Another uncle Joe Browning, was a Texas Ranger with Sul Ross. He participated in the Medicine Mound battle in which Cynthia Ann Parker, wife of Nacano Comanche chief, and mother of Quanah Parker, last of the original Comanche

chiefs, was captured. Sunday's reunion was the first gathering of all the children James Elwood Stegall, 69, Whiteface, left home before the three youngest children were born.

Ages of the 12 living children total 680 years. Two of the children are deceased.

Those expected to attend were James Elwood Stegall, 69, Whiteface; Mary Francis Rodgers, 67, Barstow, Calif.; Nancy Vesta Arthur, 65, El Paso; Sarah Elizabeth Peters, 61, Modesto, Calif.; Wilma Jesse Peters, 60, Whiteface; Olive Bane Osteen, 58, Modesto, Calif.; Lena Alice Peters, 56, Whiteface; Georgia Ann Martin, 49, Turlock, Calif.; Joseph Hardy Stegall, 46; Joseph, Oregon; and Pearlmary Pauline Poe, 43, Aztec, N. M.

Gospel Meeting Ends at Eastside Church of Christ

People from the Whiteface congregation and 13 other neighboring congregations attended the services of the recent revival meeting at the Eastside Church of Christ, according to Byron Willis.

Willis said not only the attendance, but the singing and preaching "encouraged and edified" the church. J. V. Davis was visiting evangelist.

Dr. Fisher and family of Lubbock were included among the visitors for lunch in the park and singing in the afternoon, Sunday.

The church extends an invitation to everyone to attend their services. Bible classes for all ages begin at 10 a. m. Communion is at 11 a. m. Singing is at 7 p. m. and preaching at 7:30 p. m. each Lord's Day. Bible Study begins at 8 p. m. Wednesday. Brother Dewayne Dennis will be doing the preaching.

SERVED AS BRIDESMAID
Mrs. Robert Huckabay served as bridesmaid in her brother's wedding at Albuquerque, Saturday. Her brother is Norman Newton of Lubbock.

BRIDESMAID FOR COUSIN
Miss Sue Currett was bridesmaid for her cousin, Nancy Lee Coats, Sunday, June 9, at the Methodist church in Shallowater.

CAFE TO CLOSE FOR WEEK
Mrs. F. E. Grove of the Coffee Shop closed her business Sunday night for a week's fishing trip. Everybody wanted off at the same time, according to Mrs. Grove, so they just decided to close up. She will go to Lake Texhoma to fish and plans to reopen the cafe next Saturday morning.

Assembly of God School Ended

Commencement Friday night marked the close of Vacation Bible school at Morton Assembly of God church.

Handwork included leather craft, copper work, model airplanes, basket weaving, and coasters.

Teachers for the school were Mrs. Howard Rae Scoggins, Mrs. Johnny Scoggins, Mrs. Luther Fitzgerald, Mrs. H. T. Clarke, Mrs. Clarence Thurman, Mrs. Ted Jones & Mrs. J. T. Studdard.

A total of 75 students enrolled.
