RAY LEWIS NAMED GENERAL SUPERINTENDENT ...

FAT STOCK SHOW set for March 13, 14

A committee of men interested in promoting the annual Cochran County 4-H and FFA Fat Stock show met Monday, at the County Activities Building, and set March 13 and 14 as the dates for the 1959 Show.

The group elected Ray Lewis as General Superintendent of the show for this year, and set another very important meeting next Monday night, February 2, at 7:30 p.m. in the Banquet Room of the Activities Building.

Others named by the group last Monday night, to head up the various activities in connection with the show, were:

Bill Ward, superintendent of the beef cattle division;
Ray Brown, superintendent of the same division;
Thomas Lynch, superintendent of the lamb division;
Lewis Walker, chairman of the weaners-in committee;
Bill Crane, chairman of the hog-raising committee;
Hazel Hancock, chairman of the building and grounds committee;
Roy Hickman, chairman of the herdsmen and showmanship awards committee.

Bill Glassford, chairman of publicity;
Col. John E. Holloman, auctioneer;
James Carroll, chairman of the selection of judges;
And, J. W. McDermott, Leland

Scifres, V. E. Collins and H. S. Hawkins, as the Sales and Promotions committee.
Supt. Ray Lewis has urged all committeemen and any other interested persons, to attend the meeting next Monday.

T & C Study Club MOD Coffee Saturday Morning at Act'y Building

The Town and Country Study Club reminds Mortonites this week about their annual March of Dimes project, a coffee, Saturday morning, from 9:00 until 11:30.

Members of the club urge all folks who regularly take a morning coffee break, to come to the Activities Building Banquet Room for their coffee, Saturday, and the proceeds will go toward a worthy cause.

Someone to Win Free Prescriptions At Morton Drug

Some lucky family is going to receive all their doctor's new prescriptions free from April 1 through the rest of 1959 at the Morton Drug Store.

The announcement was made this week by Charles Jones, owner and pharmacist at the drug store.

Here's the way you make yourself eligible for the drawing Mar. 31.

Each time you have a new prescription filled at the Morton Drug your name will be placed in a box. On March 31, one name will be drawn from the box.

The individual whose name is on the paper drawn, will be entitled to receive free, all new prescriptions for themselves and their family for the balance of 1959.

Prescriptions taken to the Morton Drug for the first time during the two-month period, that is, copies of prescriptions filled elsewhere, will be considered new prescriptions and entitle the individual to have their name placed in the box.

Other details will be found in an ad in this publication of the Tribune.

With all of the privileges we enjoy as citizens of these United States; with all of the freedoms we have; with all of the advantages we maintain — we are worthy of none of these if we are not willing to shoulder the responsibilities that go with them.

One of the greatest of these responsibilities is to cast a ballot; to take a stand; to help point the right direction.

This we cannot do in Texas, without first paying a poll tax.

To give away these privileges and to put all of the responsibilities on someone else because we disagree with the theory of poll taxes; because we are too indolent to take our share of the burden; because we are too lazy to put out the effort — is surely a sign of our weakness as an individual; is an expression of our ignorance and selfishness — is in fact a traitorous action to our country and our fellow man.

TO ROSWELL

Mr. and Mrs. J. D. Hawthorne visited his sister and family, Mr. and Mrs. K. Crouch, at Roswell over the weekend, as they took a son, Don Sharon Hawthorne, to

New Mexico Military Institute to enroll in junior college.

Also visiting their sons at NMMI were Mr. and Mrs. E. L. Willis and Mr. and Mrs. Burge Tucker.

Two Local Youth Enroll at NMMI

Two more area youths have enrolled at New Mexico Military Institute during the second semester, it was revealed here this week.

It brings to a total of six the number from here enrolled at the Roswell school.

Don Sharon Hawthorne, a graduate of Morton High School, who attended Texas Tech last semester, enrolled in the junior college at N.M.M.I. He is the son of Mr. and Mrs. J. D. Hawthorne of Morton.

Lowell Hatcher, who was a sophomore at Morton High School, reported to N.M.M.I. last Wednesday for the second semester.

He is the son of Mr. and Mrs. Pat Hatcher of Morton.

Bro. T. L. Bullard Rites Held at Laneville, Tex.

Funeral services were held Saturday, January 24th, at 11 a.m. at the First Baptist Church in Laneville, Texas, for Rev. T. L. (Jack) Bullard, former pastor of the Missionary Baptist church of Morton.

Bro. Bullard, who pastored in Morton for 8 years, and once wrote a weekly sermon for the Tribune, died at 11:00 a.m. on Thursday, January 22, after suffering a heart attack.

The 55-year-old preacher was pastor of the church where the services were held. Bro. E. D. Keller, manager of the Baptist Book Store at Dallas, conducted the final rites and deacons of Bro. Bullard's church served as pallbearers. A number of pastors over the Association were honorary pallbearers.

Masonic graveside rites were held in Gilmer, Texas at 3 p.m., January 24th.

Bro. Bullard is survived by his wife, Wanda of Laneville; two daughters, Mrs. Mildred Burns of Arlington and Mrs. Monnye Nichols of Lufkin; a step-daughter, Mrs. Paul Robinson of Muleshoe.

Mr. and Mrs. Junior Cooper of Morton and Mr. and Mrs. Ralph Gardner, also of Morton, attended the Bullard services.

R. B. Cockerham Dies; Services Held Monday

Funeral services were conducted by Rev. J. E. Harrell, pastor of the First Methodist Church of Morton, Monday, at 1 p.m., for 38 year old Radie B. Cockerham, of Morton.

He was the brother of Mrs. Cora King Baker of Morton.

Mr. Cockerham died at 3:10 a.m., Sunday morning, in the Cochran County Hospital.

He was a retired truck driver and had been in ill health for some time.

He was born March 12, 1900 at Purcell, Oklahoma.

Mr. Cockerham moved to Morton from Hereford, four years ago.

Burial was in the Amherst Cemetery at Amherst, under the direction of Singleton Funeral home of Morton.

Survivors include a sister, Mrs. Baker; three brothers, C. R. Cockerham of Wichita Falls, Tex.; L. W. Cockerham, of Littlefield; and O. D. Cockerham of Sudan; a son, J. P. Cockerham of Borger; and one granddaughter.

Twenty-one nieces and nephews also survive.

A daughter, Ruth Cockerham is deceased, as well as two sisters, and his parents.

County Moves to Combat Rats

OPERATION RAT — is the big talk among Cochran County farmers this week — and should remain big talk for the next month.

And it should be the big talk among all residents — not just the farmers.

Next, Saturday, January 31, the kickoff of the month long campaign to cut down on the rat population in Cochran County, will be held.

"This is a 'Remember Your Neighbors' program," County Agent Homer Thompson reminded this week. "Do it yourself, AND get George to do it TOO," he advised.

"Purchase bait, any kind, and put it out next week. Get a plentiful supply and keep it out for 30 days — as the bait is eaten — replace with full sacks. Never let the rats or mice go hungry. This is everybody's business, working together."

The bait will sell at 25 cents per pound. No farm needs less than 10 lbs., the agent continued to advise, adding that some rat harboring farms will need from 40 to 50 lbs. This is the bait that will be put out by 4-H Club leaders and boys. The point is, to get any kind of bait, wherever you please, and then keep it out for 30 days. Don't run out, replace daily, if necessary. What your neighbors do, will also determine whether

you get rid of your rats or not. Remember that rats have destructive ways, and WILL TRAVEL.

In a brief meeting Monday, Jan. 26, the Rat Campaign Committee tried to complete all the odds and ends in the final planning for the kickoff Saturday, Jan. 31.

A few 4-H Club boys and Leaders will assemble Friday afternoon after school, Jan. 30, to package some of the rat bait in ready-to-serve paper bags for distribution on Saturday. The bait will sell for 25 cents per pound and it can be purchased from these four points on Saturday: Brown's Grocery, at Bledsoe; B&B Grain Company, of Lehman; Forrest Lumber Company, at Whiteface; and at the Courthouse, in Morton.

Stop where you see the sign RAT BAIT on a pickup at each of these points.

Now there are many good baits sold on the market and the committee urges you to purchase it from any source. The point is — the committee wants you (every farmer) to purchase (1) a 30-day supply now; (2) put out some of the bait next week; and (3) keep some bait out continuously for 30 days. This should be done on every farm in the county, and on adjoining farms across the county line.

Memorial Library For Late Pastor At First Baptist

The Robinson Memorial Library was officially opened on Jan. 18, at the First Baptist Church here. Named in memory of the late Rev. Oille S. Robinson, pastor of the church, the library was started with books of Rev. Robinson, contributed to the church by Mrs. Robinson.

The library is located across the hall from the church office. Individuals may donate books to the library, and it will be open a few minutes before and after each church service.

Librarians are Mrs. Rupert Thompson and Walter Taylor. Members of the library committee are Mesdames Harold Drennan, chairman; H. B. Barker, R. J. Hill and T. D. Marshall.

County Reached 57 Pct. of Goal In Bond Sales

W. W. Williamson, chairman of the Cochran County Saving Bonds committee, has announced that 1958 sales in this county totaled \$28,063.00 which equaled 57.3 per cent of the 1958 goal. December sales were \$3,042.00.

"December sales in Texas were 15 per cent greater than December, 1957. Total state sales for the year were \$171,851,685 or 98.2 per cent of the year's goal. Sales in the nation last year were \$4,689 million. While sales increased 4 per cent last year, redemptions of matured and unmaturing bonds decreased 11 per cent," Williamson continued.

"The U. S. Treasury Department is grateful to those who gave so much of their time and effort in promoting the sale of bonds. Bankers who sell bonds as a free service to both customers and nation, advertising media who donate advertising, volunteers who are active on the local committees and hundreds of others make this great thrift program possible," the chairman continued.

THE TIME IS GROWING SHORT ...

POLL TAX PAYING DEADLINE IS SAT.; ONLY ABOUT 700 HAVE BEEN ISSUED

With only three more days in which to pay poll taxes, Cochran County residents were showing a marked apathy and disinterest in any elections that might come up in 1959.

Either just plain "not interested" or else satisfied that there will be no important elections in 1959 — folks haven't shown even a moderately heavy interest in maintaining their right to vote.

As of Wednesday morning at 10 a.m., the office of Tax Assessor - Collector in Morton had issued less than 700 poll taxes, not even 50 percent of the total usually recorded here.

Mrs. Otha Denny, Assessor - Collector, warned, somebody had better get on the ball and talk it up in Cochran County, or else it would be a good year for some sort of a sneak election such as

a liquor vote, or a bond issue. True, no elections of this sort are being contemplated, as far as the public knows.

There will be a school election. There always is. And, with the talk about the county hospital and a need for a clinic, talk about the County not having much funds on hand, and other vital issues in the forefront of the news, there is no telling what kind of an election might be called.

The Tax Office had no official figures, since one book was out at Whiteface. The Tribune failed to get a closing report, Wednesday. But an unofficial tabulation at 10:00 a.m. Wednesday put the total paid at just under 700 and 11

exemptions had been issued. Saturday, January 31 is the deadline, and since offices close at noon, prospective voters had better hurry to get the \$1.75 paid while its on their mind.

30 Days; \$150 For Assault On Local Officer

A Morton man was reported to have been assessed a \$150 fine and given a 30 day jail sentence in County Court, Wednesday morning, on a charge of aggravated assault against a peace officer.

H. J. Short, pled guilty to the charge of assaulting Walt Sandefer, local patrolman, Tuesday night, after having become unhappy over receiving a traffic ticket.

Short was treated for a scalp wound at the Cochran County hospital, following the incident which occurred late Tuesday night.

To Preach Sunday At Miss'nary Bap't

Austin Steadman of Lubbock is to be the preacher Sunday at the Missionary Baptist Church in Morton, it was announced Wednesday night.

Mothers March Nets Around \$300 For National Foundation Fund Drive

An unofficial total of \$288.12, which is expected to go over \$300 when the final total is announced, was collected by the 42 women who took part in the Mother's March, here Tuesday night.

Mrs. Bill Harris, chairman of the Mother's March, an annual March of Dimes activity, offered her sincere thanks to all the mothers who marched, to all who donated, and a special thanks to the Young Matrons Study Club, whose members were heavily represented in the group of mothers.

The March began at 6:30 and was concluded, in anticipation of the fact that many Morton folks would be attending the ball games and wouldn't be home after 7:30 or 7:50.

The mothers gathered at Joe's Drive-In to count the money and were treated to coffee and doughnuts.

Mrs. Harris said all groups checked in except two blocks, and she anticipated that the money to be turned in by those groups would send the total over \$300.

Mother Dies At Knox City

Funeral services for Mrs. Joe S. Smith, 83, were held at 2:30 p.m., Monday, Jan. 19, at the First Baptist Church in Knox City.

She was the mother of Mrs. Byron Lee of the Whiteface area, a frequent visitor to Morton, and a great aunt of Mrs. Dab Henry.

The Henrys were in Knox City for the funeral.

PLAINS WINS, 50 - 43, TUESDAY

Indians, Muleshoe Play Crucial District Games Here Friday Night

After a hard fought battle in which they gave it the old college try, but just couldn't get enough shots at the basket against the rangy Plains Cowboys, the Morton Indians will get back to District warfare, Friday night, in a crucial battle on the local court against the Muleshoe Mules.

The Indians, tamed by a 50 to 43 count, by the high flying Plains quintet, Morton's fourth loss of the season, will have to do a better rebounding and shooting job against Muleshoe to stay in the ZAA Title Chase.

Muleshoe, an eight point winner over Morton in their first meeting on the Mules' Court, is one of three teams tied for the district

lead. Abernathy whipped the Mules and Morton edged Abernathy, to keep that three way tie going.

Tuesday, though trailing until the final half minute of the game, Muleshoe tied up Lockney, won the game into overtime, and went.

Morton had a poor night at Muleshoe, percentage-wise, also, a factor they expect to improve upon, Friday.

The Morton Maids will also have a little "getting even" to do on their own hook. They lost to the Muleettes, but they had three girls out of action that night, including their top scoring forward and one of their best guards.

In Tuesday's game, Morton was all out to win — of that there could be no doubt. They carried the fight to Plains, outshot them by percentage, but fell considerably below their usual percentage in the long run just didn't get enough shots to win. They carried 17 of 55, for a respectable, but not great, 31 percent. Plains, thanks to the rebounding work of tall and talented Jim Williams, got 71 shots and made 19.

Plains could have garnered an even more substantial margin at the free throw stripe, but hit only 12 of 24 tries. Morton, connected on nine of 12, but again, just didn't get enough tries from the charity stripe.

Several factors loomed large in the Morton defeat. One was an extremely cold first quarter. Another was the loss of Clyde Brownlow on fouls with five minutes to go and Morton only three points be-

Nath Crockett Services Held Here, Tuesday

Funeral services were held at the County Activities Building in Morton, Tuesday, at 3:00 p.m., for Nath Crockett, 65, who died in the Cochran County Hospital at 10:45 p.m., Sunday, following a heart attack.

Rev. James E. Harrell, pastor of the Methodist Church, of which Mr. Crockett was a member, conducted the services assisted by Rev. Houston Walker, pastor of the First Baptist Church, here.

Burial was in the Morton Memorial Cemetery under the direction of Singleton Funeral Home of Morton.

Mr. Crockett, who was bus superintendent for the Morton Schools, had worked for the schools here for a little over 25 years and had also been a member of the Morton Volunteer Fire Department for about 20 years. Hewas still active in both duties though he had suffered light heart attacks previously and had been in poor health for some time.

A former resident of the Ballinger - Winters area, he had lived in Morton for twenty - six years.

Survivors include the wife; a son, Herman, of Ellinwood, Kan.; three daughters; Mrs. R. P. McCall of Enochs; Mrs. H. C. Moudy of Ellinwood, Kan.; and Mrs. Don Bridges, Lubbock; four sisters Mrs. Clyde Fowler, Dallas; Mrs. Thelma Hines, Dallas; Mrs. Frank Hamilton, Dallas; and Mrs. Jack Carville, Ballinger; three brothers J. S. of Albuquerque; and Eli and Awaft Crockett, both of Winters; and 11 grandchildren.

The state's number one money question is "will there be higher taxes?" has quickly resolved itself into a new but firm conclusion among lawmakers.

There seems to be little doubt that the 56th Legislature is going to raise taxes.

The question now is "where, & how much, shall taxes be raised this session?"

Rep. Frank Seelton, considered at top House tax authority, has proposed a general sales tax designed to raise \$67 million a year for "aid to education."

Seelton's general sales tax would apply to most products except foods, food and fertilizer. In support of his plan he says tax "will hurt the little man in Texas far less than Gov. Daniel's tax program."

The Governor in his inaugural address indicated that he could bring the state out of its money dole with a smaller tax program than the one used to solve similar problems encountered by the 55th Legislature.

The Governor, at this time, has not made public the details of his program. Neither has he altered his estimates of another \$60 million a year over and above already anticipated state income during the next two years.

Gov. Daniel is scheduled this week to reveal his emergency action to obtain sufficient general fund money to complete the present biennium ending Aug. 31, with the state's books in balance.

The House of Representatives has considered transfer of money from surplus of a program within the Department of Public Safety and from an unspent, "unneeded welfare fund" in order to provide \$2,300,000 for a biennial legislative expense bill.

Even the offer, which has successfully managed to escape state taxation in many past legislatures, is being eyed, among other items, as a likely candidate for 1959.

At this time, the state's number one money question is "will there be higher taxes?" has quickly resolved itself into a new but firm conclusion among lawmakers.

There seems to be little doubt that the 56th Legislature is going to raise taxes.

Right now, five million American families are living in below average homes.

And a few programs set up to help these people into better housing are handicapped because there isn't enough money available to properly do the job.

In addition, funds haven't been available at all under past programs for building homes in rural areas, in small towns and on the farms.

Believing that something must be done about these needs as quickly as possible, I have joined in sponsoring the Housing Act of 1959, which I feel will provide for them.

It will extend and expand such programs as Federal Housing Administration insurance authorization, contracting authority for public housing, low-rent public housing, a revolving fund for college housing loans, and direct loans to veterans. But the biggest change in the law provided by the bill is the direct loan to veterans provision which provides credit for building homes in small towns and on the farms.

In the past, federal credit for housing has helped force people off the farms and into the small towns and into the cities, simply by furnishing credit for homebuilding in the cities, and denying it in the country.

This is more than another housing bill — this is a bill to equalize housing benefits, and give the country man a square credit deal with the big city home owner.

It will help stop the flight of people from the small towns to the cities by furnishing long time low interest rate credit for home building in the country.

The need for quick action in these programs is painfully clear. For example, there are now more than 50,000 veterans who have asked for loans to build their own homes but, because of lack of money available, haven't had their applications approved yet.

These loans can be made only in areas where credit is not available from other sources. This bill, among many other things, proposes 300 million dollars be made available to clear up this backlog and help these veterans and their families.

Senator RALPH YARBOROUGH Writes from DC -

By U. S. Senator RALPH YARBOROUGH

(JAN. 22ND) - Within a few years, we may see many thousands more tourists attracted to the Texas Gulf Coast for vacations at the seashore.

This is sure to happen when we are able to establish Padre Island National Park in compliance with a bill I filed in the Senate shortly after the new session opened.

This bill, S. 4, would keep for public use a substantial portion of the southernmost 115 miles of the Texas coast. This beautiful, half-mile wide natural beach, with its mild climate and beautiful wild-life, is one of Texas' greatest recreation resources.

Properly developed, there is no question that as a national park, Padre Island would become the winter park of America just as Yellowstone, Yosemite, Glacier National and the Great Smokey Mountains are summer play grounds.

Looked at from a standpoint of historical interest, Padre Island is one of the closest links Texas and the United States have with the past, for it was there that one of the earliest explorers set foot on the New World soil. The explorer, Alonso Alvarez de Pineda, a Spaniard, in 1519 sailed the Gulf coastal waters from Florida to the Mexican port of Tampico, and mapped the coast for future navigators.

I am asking state legislators and other officials to enact necessary supporting state legislation on this subject and I hope that all Texans will give their backing to creation of Padre Island National Park.

get their homes. A very similar bill passed the Senate last year but lost out in the House. However, considering the changes which have been made in the Congress, I believe a very effective law can be worked out which will meet the urgent needs of the nation's housing problem.

Dear Friend: A new Congress, confronted by new problems, convened one week ago tomorrow. Important work has been accomplished. But the major tasks are ahead.

Overriding all issues is the major problem facing all the people of the world — peace.

At home we face the challenge — and opportunities — of a growing population's ever-increasing need for homes, schools, medical facilities, and food.

These challenges must be met; the opportunities seized. I am confident they will be.

But the attack must be based on bold thinking and creative ideas. This calls for knowledge based on intensive studies, that need to be started now.

We must determine what we have. This calls for searching examination of such possible fields as: natural, human, cultural, and scientific resources; cities and the scope of urban renewal; educational opportunities; disease and care of our senior citizens.

The list is long. Some studies must be secured from the Chief Engineer, Maintenance Operations (File D-18), Texas Highway Dept., Austin, Texas OR from Mr. Oscar L. Crain, District Engineer, Texas Highway Department, Lubbock, Texas. Usual rights reserved.

This includes gaming and maintaining the nation's lead in the race for outer space. This we cannot now claim. But it must be achieved. I am confident it will be.

It was one year ago this month that the Senate Preparedness Subcommittee concluded its hearings into the satellite and missile program. The final act of that bipartisan group was unanimous adoption of a statement. It urged decisive action by the military on 17 specific points.

The first hearing by the new Senate Committee on Aeronautical & Space Sciences is now being planned. Its first work will be to determine progress made in the last 12 months.

But this is now evident. The people of this nation must mobilize their minds, their unity, their will to do. And this is imperative not simply to exceed the Soviets. It is the launching point from which we move to new frontiers of freedom.

This has been a good week, a busy one. Much has been accomplished. But a simple, two-syllable word is causing me increasing concern. It is called "surplus."

This nation now has on hand about \$9 billion in surplus commodities. That's a lot of food. And it is food that must be put to use. The cost of not using it comes high.

Just to store this surplus, the Administration estimates that it will be spending by next July 1 at the rate of \$1,027,528,000 a year. This is a costly luxury. It is one that this nation cannot afford.

The need for action to solve this problem is urgent. The Congress will have before it a new farm bill. Within it must be the key to unlock this problem called "surplus." There is now under study by

some very able Senators a broad plan. Briefly this plan would: Allow a farmer to plant all he wants to.

Assure him 100 per cent parity for that portion of his crop consumed in this country.

Provide that the portion of his basic crops sold in export would be offered on the open market.

The goals are these: Aid the farmer by easing restraints on his own free enterprise. Lighten the load on the taxpayer. And in doing this, help our friends and allies of the free world to help themselves.

This the Senate intends to do.

CHANGE IN MEETING DATE Members of the C & I Investment club were being advised this week that the regular meeting night, the second Thursday night in February, was the night of the Lions' Club Ladies' Night, and in order not to conflict, the C&I Club will meet the first Thursday night, Jan. 1.

Farmers, HERE'S FACTS ABOUT COTTON DELINTING

You can plant your fuzzy, flame, gas delinted, saw delinted or wet acid delinted. We recommend the wet acid process. Here's Why:

1. Seed stays in contact with the acid for a period of only 30 seconds or less.	13. Gravity table floats out the weak seed.
2. Water is used to neutralize.	14. Treating prevents seed rotting even in cold, damp weather.
3. Does not eat the bags.	15. No sticks, stems, or dirt to clog up the planter.
4. Wet or green seed can be safely delinted.	16. In warm soil, seed will sprout in 12 hours — a stand can be had in 4 days.
5. Can be safely stored and used for a period of several years.	17. Less moisture is required for germination.
6. Does a more thorough job on angular leaf spot and other seed borne diseases.	18. For only one point of lint cotton per acre you can have your seed delinted using the wet acid process.
7. Heat is used only to dry seed after the acid has been washed off.	
8. More uniform planting.	
9. More even stand.	
10. Quicker emergence.	
11. Plant faster.	
12. Get bigger yields.	

For those who would rather have saw delinted cotton, we will have our saw in process by the first of February.

A phone call will get you complete details —

Plastic Coat Protects Guardian Of Our Shores

The menace of sudden attack upon the American shore and American cities has been greatly reduced by radar "islands", constantly on the alert and stationed in the North Atlantic.

Officially known as U.S.A.F. Station, Georges Bank, one of them is located approximately 160 miles southeast of Boston. Measuring 200 feet in length and placed 178 feet above the ocean floor, it maintains a constant "watch" on the skies.

One unexplainable speck on the radar screen inside—and scores of continental defenses instantly spring to action.

To protect these radar installations has been a problem until recently. Wide temperature changes and salt water tend to

As a Notary Public, Charles Richard Yarbrough 94, of Chandler (Henderson County) has put his seal on a great many official documents. However, the one he notarized Wednesday (December 31) held special significance. It was the State Oath of Office for his son, Ralph, who was just reelected to the United States Senate from Texas. The oath was administered in the room in which the senator was born in the Yarbrough home at Chandler. The elder Yarbrough, once a Justice of the Peace at Chandler and a former mayor there, counseled his son to "be a good job."

Levitt — His Name is On Every U.S. Map

Nation's Biggest Home Builder **Men Who Make America Great** **Brooklyn Boy Who Made Good**

By LOUIS JAMES

William J. Levitt's fame is certain for at least one reason. His name is on every United States map at least twice. He is probably the only living American with two large cities named for him; and soon there will be a third—Levittown, N. J.—in the booming Delaware River Valley halfway between Trenton and Philadelphia.

WILLIAM J. LEVITT
SKETCH BY LOUIS JAMES

A 50-year-old Brooklyn-born dynamo, he was typed by Fortune Magazine as the "Henry Ford" of the home building industry. Levitt has built more homes (over 50,000) than any man in the country—and turned the building industry upside down doing it.

A wiry man, who talks fast in a husky authoritative voice, Levitt is a fearless pioneer whose methods upset all existing production ideas. Home building will never be the same.

When cement was unobtainable in the country, he bought a freighter and imported boatloads of German cement. When nails went off the market, he promptly bought a nail factory.

Homes by assembly line

On Long Island, when Levittowners complained about lacking a central meeting place, Levitt built a \$250,000 Community Center and gave it to them as a Christmas present.

Levitt builds houses like Henry Kaiser used to build Liberty

ships—bringing mass production and prefabrication into close, high gear.

Timing is the key. His specially trained crews move from site to site with precision, doing their specific jobs with assembly line smoothness. It takes a heap of planning, and Levitt is a whiz at it.

Levitt grew up on the turbulent Brooklyn streets, adoring the Dodgers, scrapping, attending local schools. He spent three years at New York University, but a restless urge caused him to withdraw to join his father's small home building firm.

Today, he heads Levitt and Sons, Inc., the nation's biggest home-building firm, a king-size success story.

Russians are awed

Once they used to build 35 homes a year and thought it good. Now, Levitt builds that many in a day.

Even the Russians, who also like to build big, are awed by Levitt. A film about Levittown has been shown in at least 13 Russian cities.

His business is so volatile and competitive, he has to keep his finger in many pies. He does it by reading economic reports, trade papers, the Wall Street Journal and local papers.

Levitt has a motto, learned when he was with the Seabees in World War II. It is "Can Do!" As his conferees — and competitors — will testify, he does!

How to Get 16 Ounces To A Pound

A store can package a 5-lb. or 10-lb. paper sack of potatoes that in a few days will weigh ounces less. The explanation: evaporation.

Tests were made on potatoes shipped in 10-1 lb. paper bags. Over a transit of a little over a week they lost 4 oz. per 10-lb. bag.

What is more, in the drying out, the potatoes also suffered some loss of flavor and texture.

A new film package made of Bakelite polyethylene provides maximum weight-retention and freshness, according to recent tests evaluated by the U.S. Department of Agriculture.

Test findings show that after two weeks of storage at average temperature, potatoes packed in this seamless poly-

Whiteface HD's Set Crafts Day For Feb. 12

The Whiteface Home Demonstration Club discussed "Now in the Garden" at the January 22 meeting in the home of Mrs. Ted King.

Timely suggestions for both the vegetable gardener and the flower gardener were presented.

How a garden demonstrator in Central Texas rooted many rose cuttings was presented as a paper; it is hoped that local club members can learn from her experience.

The Council Recommendations were studied and most of them accepted as guides for further study.

Plans for a craft meeting to be held February 12 at the home of Mrs. F. Z. Payne were discussed. Final plans are to be made Feb. 12 at the meeting in the home of Mrs. H. J. Knox, when the program will be "Beauty Problems and Grooming."

A social visiting hour followed.

the program: doughnuts and coffee were served to Mesdames E. Z. Payne, H. J. Knox, C. W. West, G. C. Keith, Maude Lisenbee, and the hostess, Mrs. Ted King.

The program committee hopes to have a special leader for the program on Feb. 12. Visitors are extended a special invitation to attend any or all meetings.

 (continued from page one)

Still another was Jeff Jones' cold spell, when he missed ten of his most favored shots in a row.

Williams, too, was a big factor. The big fellow grabbed off 20 rebounds, half of the Plains' total. He tallied 21 points to lead all scorers, seven on free throws, though he missed six other attempts from the free throw line.

Morton managed to get 30 rebounds, a fair share, considering the Plains' height advantage.

The Indians, with a hot spell to open the second half, took a four point lead, and looked like they might go on to win, but here is where Williams did his best rebounding. He managed to get the ball enough times for Plains to offset the Morton better shooting.

Zuber's 11 points was high for Morton while Soney had 10 for the second best effort.

Coffman, another tall boy, plunked in 13 points for the winners to give Williams strong support.

In the B game, Plains ran away

from Morton's youthful B team, a 57 to 31 triumph, in a game where once again, cold shooting was the biggest bugaboo for Morton.

Meixner had 14 points to pace Plains, and Joe Dan Morrow, a boy who will be remembered as one of the toughest ballhoops the Indians faced last fall, had 11.

Bob Pyburn collected 11 points for Morton; Steve Middleton had nine, and Bill Ed Thompson got eight.

CONCRETE CORRECTION

The Tribune hastens to make a correction on a story published in the Tribune last week, listing Roy Hickman as this year's Cancer Fund chairman. It should have read Willard Cox, is chairman of the County's Cancer group.

Why do foreign countries want to get into cotton farming just now? The answer is simple: There's a lot of money to be made there. . . . at least there is if the U. S. government keeps a high floor under prices. . . . let's take a look at what's going on in Africa. . . . while you have to fight to keep your cotton acreage, one African country is urging its farmers to increase cotton production. . . . why? . . . the reason given by the African government is this: "as long as major cotton growing countries keep a prop under their prices we should increase our cotton production. . . . this is what the bulletin to farmers said. . . . and it isn't just one country either. . . . all along the west coast of Africa you can find more cotton being grown. . . . this season will see nearly 3 1/2 million bales grown in the dark continent. . . . production has shot up more than a third within the past 10 years. . . . and one African official makes the blunt statement that free market prices will mean all kinds of trouble when it comes to competing with American mechanization, science and know how."

Cotton trade representatives will meet on Jan. 27 to discuss the present method of cotton price quotations and how the spot quotations are used to establish loan differences. . . . meeting has been called by USDA at request of producers. . . . will be in Dallas, Texas. . . . It's possible that some changes may be made in the present system.

Bugs vs. Bugs
Field tests are underway to kill insects by germ warfare. . . . it works like this. . . . spores of a bacillus are spread over the crop. . . . when the insects move in, to feast they are infected by the germs and die. . . . we don't know how it works with cotton pests, but it sounds good, doesn't it?

Certainly!!

Cotton is the fiber most homemakers use and prefer for such items as draperies, table coverings, bed clothes, scatter rugs, etc. . . . a check of nearly 3,000 households was made across the country in the USDA survey.

Hot Cotton
Some cotton farmers want a research project started to develop a warm-blooded cotton. . . . a plant that won't be delayed by cold during planting season and won't let a spell of cool weather slow up its growth. . . . what's needed is a seed that will germinate and grow at temperatures below 73° F. . . . if such cotton is developed it could mean quite a change in the more northern areas of the cotton belt both in farming methods and in risks.

ONE TO GROW ON

By Fred V. Hein, Ph.D., Consultant in Health and Fitness, Bureau of Health Education, American Medical Association.

"One To Grow On" is a happy birthday thought. But no one should supply all the nutrients youngsters need for healthy growth. For proper development boys and girls need foods that build and repair tissues, foods that supply energy, foods that furnish each of the vitamins and minerals. It takes plenty of all kinds of all good foods to do the job. And during growing years, plenty is the key word.

"Johnny is shooting up like a weed," you say. And that's not all talk. Johnny, or Mary for that matter, may grow several inches in a few months. It takes plenty of the protein foods — meat, fish, poultry, eggs, cereals, milk, cheese — to provide all the building blocks (amino acids) needed for healthy development. This need is greatest, of course, in rapid growth periods.

Rickets is a deficiency disease in which bones fail to develop proper strength and shape. But doctors seldom see a case of rickets today. That's chiefly because boys and girls now have fortified milk to drink. Milk is their best source of calcium, which along with the vitamin D in fortified milk helps to ward off this bone-warping disease. As nearly everyone knows, milk is also a rich source of protein. An apple a day may not keep the doctor away for Johnny and Mary. But fruits and vegetables are a vital part of their diets. Vitamin C, for example, is often in short supply among children. Citrus fruits or other C rich foods such as tomatoes, green peppers, cabbage, or berries

each day can step up this intake to proper levels. Dark green and deep yellow vegetables are important for vitamin A. And don't forget the starchy vegetables to help caloric requirements. Healthy children furnish a good example of perpetual motion. Their constant and vigorous activity demands plenty of the carbohydrates found in bread, cereals, potatoes and the like. Many of these foods, contrary to popular notion, furnish considerable good-quality protein as well. Enrichment of bread and other cereal products assures valuable B vitamins and iron.

In addition, children need a certain amount of fat. Milk, eggs, and even lean meat have more than you think. Ice cream and other desserts furnish some. And who wants to eat even the best bread or rolls without butter or fortified margarine. On sweets be realistic; eaten as dessert they fulfill a need. For dental reasons, it's good to brush teeth immediately afterwards. When that's impossible, a "swish and swallow" will help.

General dietary advice cannot be applied to all children. Obesity may be due to overeating, underactivity, or other problems. A seemingly under-nourished child may be only thin, or he may have some underlying health problem. In either case medical help is needed to determine causes.

But for the average child here's your quick "run-down" on foods for good growth. Meat type—2 or more portions each day; bread and cereals—4 or more portions; milk—4 or more glasses; fruits and vegetables—4 or more portions. Watch C, check green and yellow, potatoes too; fats—depending on needs; sweets—as desserts; watch the heavy child; special problems—you and your doctor.

Four Get Top Honors at MHS

Four girls, a junior, a sophomore, and two seniors have received the Gilt Edge honor, the past six weeks at Morton High School.

Susie Hawkins and Carol Leavitt were the all A seniors; Mary Ledbetter was the lone junior on the list, and Shirley Miller is the honored sophomore.

In connection with the honored group, the Morton High School National Honor Society and Student Council are now sponsoring Honor Roll pins. Any Morton High School student who make the Gilt Edge, or the all "A" and "B" honor roll for a six weeks period, will receive a pin to wear until the next six weeks. The pins are to be re-distributed every six-weeks. These pins are to encourage and recognize good scholarship in Morton High School.

Students who made the A-B Honor Roll the past six weeks are: Seniors: Myrlan Cox, Gary Middleton, Clyde Brownlow, Denise Rose, Carolyn Cook, Perry Don Seaney, Patsy Sybert, Wendell Holloman, and Judy McCuiston.

Juniors: Jackie Brown, Henrietta Bedwell, Janice Lebow and Butch Nairn.

Sophomores: Ruby Daniel, Paul Belcher, Terry Hans, Karen Haralson, Viola Smith, Earl Ward, Charles Smith, Vivian Ledbetter, Patsy Amyx, R. E. Thompson, and Leon Jeffcoat.
