Ford Tractors To Be Shown Friday, Saturday

Friday and Saturday, March 20 and 21, will be the big days for demonstration here of the new Ford "Select-O-Speed" system, C. M. McMaster, area dealer for Ford tractors, announced this week.

The "Select-O-Speed" tractor, which has ten speeds forward and two reverse, will be demonstrated Friday and Saturday from 2 p.m. to 4 p.m. (both days) on the Jim Hill farm, one-half mile west of the Morton High School.

The new system of transmissions available in L.P., diesel, and gasoline tractors, boasts no clutching to change speeds, no shifting of a lever — but fingertip power shifting throughout the entire range of speeds while on the go and under load.

Speed range in the ten forward speeds begins at one mile an hour and continues through 18 miles an hour.

The gears, which are constant mesh gears, may be disengaged easily for towing of the tractor.

A cordial invitation has been extended area folks to attend the demonstrations.

Over 300 Persons Are 'Blood Typed'

A total of 301 persons were typed for blood on Thursday and Friday of last week in the first phase of setting up a "walking blood bank" for the Cochran County Hospital. It was stated this week by Dr. D. D. Dennison, in offering a hearty "thanks" to all whose help made it possible.

"The response was exceptionally good, I believe," were the words Allsup used in describing the turnout. He said there were persons with every type of blood who came to the hospital during the two day period. He emphasized that of the persons who came forward, not all wanted to or could give blood. But all were typed. He said that fact

New Sign for Truett's Food Store

An attractive new addition to the lighting in Morton recently was a flashing store sign erected by Truett's Food Store. Each different colored letter of the name "TRUETT'S" lights up in succession and then the entire name flashes once before starting the cycle again. In conjunction with the new sign, new paint, and new display counters, Truett's is observing an "appreciation and remodeling sale" this weekend.

New Front and Extension Set for Clarke's Dry Goods

Morton is getting another bit of modernization in its downtown section when Clarke's Dry Goods completes "putting on a new face" on their east side of the square building, next door north to Western Abstract Co. Rev. and Mrs. H. T. Clarke, who own and manage the store, are also contemplating fixing up some in the near future on buildings to the north of the store, although no plans have been completed. Rev. Clarke also said he would add approximately 40 feet to the length of his building. If things go according to plans, the building, believed to be one of the first brick buildings erected in Morton, and known for years as the Lackey Building, will have a new glass and stone front by Saturday. The work is being done by C. J. Phillips, son-in-law of the Clarks, out of charcoal hollow hill stone, aluminum and glass.

Local Principals Are Rehired; Board Continues Talks On Need For Equalization of Taxes In School District

Morton's three school principals were rehired for the coming year at the same salary except for \$60 bonuses earned from the State, at a regular school board meeting held Thursday night, March 5, at the same time Morton schools were holding "open house."

The action came after considerable discussion about the principals and their work, but it was a unanimous vote moved by Jack Wallace and seconded by Buck Huckabee. The re-hiring was recommended by Supt. John Barnes.

In other major action the board authorized Mr. Barnes to contact a valuation firm and find out what their fee would be for tax consulting services on personal property in the school district — other than oil properties.

The Board, with all members present, was under the direction of W. P. Houston, president. Supt. Barnes read the minutes of previous meetings and after they were approved, the board discussed various items on the monthly bills which were then approved in the amount of \$4,608.96.

Members Wallace and Houston mentioned that it would be well to have teachers who are buying larger quantities of supplies locally, to split up the business among the merchants handling that type of supplies, but no vote was taken.

Supt. Barnes read the text books adopted by the text book committee and passed the necessary forms to be signed. Huckabee moved to adopt the reports and Raymond

Capitol NEWS

The present legislative session is now past the half way mark, and most all of the really controversial legislation is still pending. Thus, it appears that the last 60 days of the session will be fairly busy.

APPROPRIATIONS - TAXES

The appropriations measures and the various tax measures are, of course, still pending in committee. If all the appropriations are approved which have been requested, Texas would probably have a state income and a state sales tax.

Need of it don't wait these type bills as then we simply have to wait for budget. Of course, the

problem is where. Everyone always says "don't trim me, trim somewhere else."

Taxes and appropriations will be our big headache during the latter part of the session.

HALE-AIKEN PLAN

Another big fight is coming up on the Hale-Aiken Committee's recommendations. Included in the plan are higher pay for teachers, extra assistant superintendents, six years for teachers, drivers education courses, raising various allocations and allotments and some other items.

All of these would contribute toward better schools, but if ALL of the program is enacted for the whole state, it would cost an additional \$82 million dollars the next two years. A 1 1/2 percent general sales tax would only raise an estimated \$7 million. I use this only in comparison.

Thus, you see we are having serious money problems here in Austin.

Very sincerely yours,
Bob Bowers,
State Representative
District 98

Yarborough's Report**

These are perilous times. Not since Pearl Harbor has our country been in such grave peril. Not since I have been in Washington have I written to you on so grave a subject. Khrushchev and his Communist co-conspirators for world domination have set a time bomb for the West by ordering us to get out of Berlin by May 7th. It's up to us to either defuse the bomb or be destroyed by it. In open violation of the Yalta and Potsdam Agreements, Khrushchev has ordered the Allies out of Free West Berlin surrendering it to the Communist dictators. We of the West, the United States, England and France, owe a duty to freedom. We are in Berlin by solemn international agreement. We owe a duty to keep the torch of liberty lit in West Berlin. If we let the Iron Curtain of Communism engulf West Berlin, we will have seen a second Munich in our time; a second Munich more terrible and more disastrous in its results than the first.

What's happening in West Berlin? Since the Iron Curtain of Communism lowered over East Germany, more than three million people have escaped from East Germany to the freedom of West Germany and to the West generally. One quarter of a million people per year flee Communist domination in East Germany and come to the West. About 4,000 a week escape from East Germany to the West and most all of these have come through West Berlin. Khrushchev has said that he is interested in the people in Berlin. That is true. Khrushchev is interested in the people in Berlin because he doesn't want these living witnesses of a quarter of a million of them

more subjects in order to enrich a student's education. Instead of achieving the desired effect, the extra courses were being used by some students in order to get enough credits to graduate in three years — which, according to most educators is not good.

The change then, is aimed at keeping students in school for the full three years of high school under the present plan of education.

Here are the new graduation requirements adopted by the school board at a recent meeting by a vote of five to one:

To be eligible to graduate from the Morton High school certain requirements must be met. These requirements are defined below.

Notary Public Commissions Will Be Renewed

Secretary of State Zolie Steakley has announced that he will reappoint persons now holding notary public commissions but that such persons must re-qualify by the filing of a new oath and bond with the County Clerk of his residence between June 1, and June 10.

Steakley emphasized that notaries public should not send requests for re-appointment or for commissions directly to the Secretary of State. The law specifically requires the County Clerks to approve notary bonds.

Any person, not now a notary public who desires appointment should apply to his County Clerk between April 1, 1959 and May 20, 1959. Application during this period will assure prompt attention before the rush procedure of re-appointing present notaries.

Secretary of State Steakley further pointed out that each person applying for a commission as a notary public must be at least 21 years of age and a resident of the

county for which he is appointed. **VISITING DAUGHTER** Mrs. W. G. Briley is visiting in Morton with a daughter and family.

The exact name and permanent address of the applicant must be furnished the County Clerk.

Homemaking I, II, and III, Home and Family Living, Chemistry, Biology, Physics, General Science, Journalism, Speech, and Secondary education in Driver's Training.

Correspondence Work — credit will be approved only as make-up work in case a student has failed the course in a prior semester. Correspondence courses will not be approved toward graduation for any other purpose. Correspondence courses should be taken during the summer months so the student can be credited with the work at the beginning of the fall school term.

2. Credit requirements for graduation.

A. A student will be required to complete a minimum of sixteen (16) credits for graduation. Eleven (11) of these credits are required and five (5) are elective.

Letter from Yarborough

This Nation faces the problem of cutting Government expenditures in the face of an exploding population.

Basically, the Nation's needs are multiplying faster than the replacements. Those of you facing the problem of buying clothes for growing school-age children know exactly what that means. What is bought today threatens to be too small tomorrow.

Housewives can picture the problem of setting an additional 8,000 places at the dinner table every night. That's what is happening over the Nation.

Day in and day out we're gaining almost 8,000 more persons than

we had the day before. One person is being added to the population about every 12 seconds. We're gaining at the rate of 7,855 a day and the average is 2,864,000 a year.

That's how fast this Nation is growing.

And all of this growth creates new demands. There is demand for more homes, more schools, more churches, more hospitals. There is increased need in the broad fields of health, transportation, education, finance and welfare. All these increased demands on both government and business.

There is also another important fact we need remember.

There are now in this Nation more than 14,000,000 men and women 65 or older. And this number is increasing at the rate of more than 400,000 a year. The majority of these people are no longer working. But here is a great reservoir of mature talents, experience and know-how. I wonder if this isn't a tremendous resource now being wasted.

This situation spells out both problems and opportunities. It means that in our search for the right road to economy, we must avoid short-cuts that could lead to world stagnation. We must recognize that this is a dynamic period of expanding needs as well as changing times.

Our job is to economize, to cut expenditures where spending can be cut. But in doing that, we must balance the tremendous needs of today against the known demands of tomorrow. That is the goal I expect the Senate in this session to achieve.

was of extreme benefit to the person who was typed as well as to the hospital, even though many are not prospective donors. He said in a month or so another drive will be made to give others who could not be there Thursday or Friday, who forgot about it, or who did not quite understand it, another chance to have free blood typing.

He offered his sincere thanks to the members of the Town and Country Study Club whose efforts in registering, sponsoring, and actively pushing the drive were responsible for its success.

Allsup said he would have a breakdown on the numbers of each type of blood for those interested, this week.

4-H Club Meetings
 All 4-H Clubs will meet this week except the County-Wide 4-H Club. It will meet at 7:30 on Monday evening, March 23, in the American Legion Hall. Earl Cox is president of the County-Wide Club.
4-H Concessions Stand
 The Girl's 4-H Concessions Stand at the 4-H and FFA Fat Stock Show was successful in spite of the blowing sand on Saturday. The success of the venture was due to contributions of pies and sandwiches from various clubs, as well as discounts from grocery stores. Mrs. Lewis Walker was in charge of the stand. She was assisted by other Home Demonstration and 4-H Club members. A total of \$86.00 was cleared.
 Money made at the concessions stand is used to buy prizes for the Dress Revue, Dairy Foods Contest, year pins and to pay for other expenses of 4-H Club work.

IT PAYS TO KEEP RECORDS
 Is your family satisfied with what your income buys? Or do you occasionally wonder where all the money goes?
 More Texas families are making the most of their income by keeping better household and farm accounts. Mrs. Eula Newman, our extension home management specialist, says interest in the family economics demonstration is increasing in counties throughout the State. Records help families to see where income goes, and where it comes from.
 The only time you can manage your money is before you spend it, says Mrs. Newman.
 Account keeping will show where your spending has been wise or what habits you would like to change.
MONEY FAMILY STYLE, an extension bulletin, gives you down-to-earth suggestions for family money management. You may get a copy from this office.

DAIRY FOODS DEMONSTRATION CONTEST
 The 4-H Dairy Foods demonstration contest will be held in the County Activities Building Saturday, April 18. Should there be Vegetable Teams competing those contests will also be held that day. There will be junior and senior divisions in each contest.
WHEN YOU BUY A HAT
 Do you sit or stand when you try on a new hat? It pays to do both, according to our Extension Clothing Specialists.
 Others will see the effect of the hat in relation to your whole silhouette. An honest look in a full-length mirror will help you to study the hat in relation to your height, width of shoulders and hips. Look better in hats with some brim.
 The mature woman usually looks for an effect of irregular, which softens and flatters. Picture hats, halos, off-the-face hats, small brow revealing turbans and toques are for younger faces that do not have mature lines. A hat that is slightly tilted on the head may subtract years from a woman's age.
 Remember that your hat is a frame for your face. Choose a color that flatters your complexion, and at the same time harmonizes with your costume.

DOUBLE DUTY
 Doctors have long felt that polio shots given to pregnant mothers also help to protect their children from the disease, but the first clinical confirmation of this comes from Dr. Gordon C. Brown of the University of Michigan School of Public Health. From studies of 142 pregnant women, he reports that the infants showed vaccination benefits up to three months after birth. Pregnant women are widely recognized as one of the most polio-prone groups in the country. This new evidence shows us indeed.
 (From MEDICAL TIMES, Vol 87, that polio shots are a 2-for-1 value.)

Gov. Daniel Sets Lions CCC Week
 Gov. Price Daniel has declared March 16-21 as Texas Lions Camp for Crippled Children Week to focus attention on the unique camp at Kerrville which has provided free summer recreation for 3,529 handicapped children during the past six seasons.
 The camp was conceived and chartered 10 years ago this month. It is supported by 37,000 Texas Lions and their friends, who have contributed approximately \$1,500,000 to construct and operate the camp.
 (The Morton Lions Club is an active participant in support of this camp and thus may send handicapped children to its summer camps. Anyone knowing a child that is eligible to receive such a trip should contact Babe Vanlandingham, or any other member of the Morton club.)
 The camp's facilities are designed especially to serve the blind, deaf, mute and crippled. Fifteen permanent buildings including a chapel, infirmary and giant recreation center — dot 504 hillside acres.
 The camp, probably the only one of its kind in the world, is free to any eligible handicapped boy or girl in Texas between 7 and 16. The camp's capacity is 720 a summer and it has been operating at full strength since 1956.
 The children camp out under the stars at Inspiration Point, learn to swim in a specially designed pool, develop talents in the spacious arts and crafts building, many of them learning new skills; participate in stunt night and camp-wide activities — and have fun in general.
 Prospective campers are being sought now for the six, two-week sessions this summer. Applications are handled only on the local level by the 780 Lions clubs in the state, who also arrange transportation to and from the camp.
 Now is the time to refer the names of handicapped boys and girls to the local Lions Club for the placing of applications.

Observing of District Rules Important in Contemplated Water Well Drilling

Do you plan to drill an irrigation or commercial water well? If you do, and you expect to produce more than 69 gallons per minute from the well, you should read the following paragraphs.
 The rules of the High Plains Under-ground Water conservation District provided that wells drilled within its bounds of jurisdiction and producing in excess of 69 gallons per minute be spaced certain minimum distances from wells in the immediate vicinity.
 4-inch well must be a minimum distance of 200 yards from the nearest well.
 5-inch well must be a minimum distance of 250 yards from the nearest well.
 6-inch well must be a minimum distance of 300 yards from the nearest well.
 8-inch well must be a minimum distance of 400 yards from the nearest well.
 10-inch well must be a minimum distance of 440 yards from the nearest well.
 The District's rules further provide that a person who desires to drill must first obtain a well drilling permit.
 To assist either the landowner or his agent in filing an application for a well drilling permit, each county has an office and a Secretary.
 Before contacting his local County Secretary, the well drilling applicant will need the following information:

1. Name and mailing address of the owner of the land on which the well will be drilled.
2. The legal description of the land.
3. The measured distance from the proposed drilling site to the two nearest property lines or quarter - section lines.
4. The measured distance from the proposed drilling site to the three nearest wells. Dist-

The drilling permit is valid for a period of 4 months from the date of filing.
 When the well is completed and the log of the underground formations is supplied to the district, the \$10 deposit will be refunded in full. The landowner is responsible for this information.

In Texas... Ford is the best buy...

...and it's the "best-looker" too

Trust Texans to choose the one new car that's beautifully sensible

This year, with a wide choice of designs, Texans have made their minds up overwhelmingly for the spectacular 59 Ford.

Ford has the classic simplicity that people of good taste prefer . . . wonderfully crisp and clean lines without brassy ostentation.

And just see how sensible this beauty really is. Discover how Ford is built for people. Notice how the extra-wide doors open all the way out . . . make it easier to enter. See how all six passengers—even the man in the middle—have the comfort of full-depth cushions. There's plenty of leg, hip and head room, too.

Of course, every inch of every Ford is built for savings. Ford's standard engines, Six or Thunderbird V-8, thrive on regular gas, saving you up to \$1.00 per tankful. Ford's new aluminum muffler is built for double life. You can save on oil, too . . . for Ford needs a change only once every 4000 miles. And Ford's Diamond Lustre Finish never needs waxing.

With all this new beauty and economy, is it any wonder Ford's out front for '59? Come see the car acclaimed by Texans . . . now on display at your Ford Dealer's.

For the most beautiful view of all, look in and check Ford's amazingly low price . . . the lowest price of the best-selling three.
 — And check the seat of convenience, the built-in floor, the savings on loan charges.

59 FORD Come people-test it . . . come savings-test it!

216 Bandages Are Prepared for Cancer Patients

Twenty ladies sponsored by the Home and Country Study Club in conjunction with the Cochran County Cancer chapter, met last Thursday, March 12, to make bandages for use of cancer patients and the work was termed "a very successful day."

The Executive ladies met on Thursday night and also made bandages. In all, 216 bandages were

made and are ready to be sterilized.

Another meeting has been set for Thursday, March 26th, at 9 a. m., in the Activities Building, to make more bandages.

Anyone in the county who can help is needed. The session will last all day or whatever part of the day is needed. Workers are urged to bring a sack lunch and a thimble.

Election Board Is Named Here

A four man election board for the April 4th School Trustee Election for the Morton Independent School District was recently named by the Morton School Board in the same meeting at which they called the election.

The Board will consist of Tom McAllister, Lloyd Miller, Mrs. Lloyd Hiner and Mrs. Tye Williamson.

Alternates named included B. H. Tucker, Roy Weekes, Mrs. John Crowder and Mrs. Charles McDer-

Whiteface Group to Make Bandages

WHITEFACE (Sp) — We need old white shirts and old white sheets to make into bandages and pads for future use of cancer patients. Mrs. Hubert Taylor, Whiteface Community chairman of the Cancer Crusade announced this week.

Persons having such items to give to the Crusade are asked to leave them in Whiteface at either the office of Verne Beebe or the Forrest Lumber Company.

A later date will be set at which time to make the material into bandages and pads.

Over 200 Attend 'John Deere Day'

Tom McAllister and Gene Huggins, proprietors of McAllister-Huggins John Deere dealership, this week offered their thanks for a fine turnout last weekend at the annual John Deere Day, Friday, March 13.

McAllister said over 200 persons ate dinner with them and estimated from 100 to 175 attended the movies and other portions of the day.

City Adopts New Phone Ordinance

The City of Morton adopted a new ordinance Monday, at the regular meeting of the City Council, regarding the Telephone Franchise. The ordinance was introduced by the group and Paul Farrar, district man for General Telephone, told the group, the matter of signing an agreement with REA of a contract between the two phone companies "should be just a matter of formality." He said the matter of approval from Washington would take more time than anything.

The City revealed they had received a percentage of 73 out of every 100 replies in favor of the Extended Area Service.

The group also discussed with local firemen about the need for fire sirens located around town to arouse firemen in an emergency. That plan is being worked out by a committee of firemen who will report back to the commission at a later date.
