Astonishingly Quick Relief Follows the Use of Hunt's Lightning Oil

People suffering with INFLUENZA or with just an old-fashioned bad cold will be glad to know that HUNT'S LIGHTNING OIL rubbed on the neck and chest promptly relieves the pain and soreness of throat and lungs.

There is nothing new-fangled and unknown about HUNT'S LIGHTNING OIL. It is a time-tested and proven remedy that has afforded relief to thousands of people for the past thirty years.

A doctor who for many years has used HUNT'S LIGHTNING OIL in his practice for the treatment of Pneumonia, rubbing it thoroughly on the cheat and on the sides over the pleural envities, states that he has found it to be more efficacions than any other external remedy that has come to his attention.

A well-known man, sick in bed with INFLUENZA, suffered agonies with the pain in his cheat and a burning sore throat. Shortly after rubbing HUNT'S LIGHTNING OIL on his neck and cheat, the congested, stopped-up feeling in his lungs disappeared and the fiery soreness in his threat eased up. In twelve hour's time he felt like a different man.

A lady suffering from INFLUENZA reports that she suffered intense pain in the lungs and her throat was an sore she could hardly swallow. She was surprised and delighted to find that by applying HUNTS LIGHTANING OIL night and morning the soreness and

MRS. NELSON O'SHAUGHNESSY PEACE DELEGATES HAVE BEEN CHOSEN

BESIDES PRESIDENT, LIST IN CLUDES LANSING, WHITE HOUSE AND BLISS.

Washington.-The United States representatives at the peace ce have been selected, and will be: President Wilson.

Robert Lansing, secretary of state. Henry White, former ambassado: to France and Italy.

E. M. House.

General Tasker H, Bliss, representative of the American army with the supreme war council at Versailles

This announcement was made Friday at the White House and it was assumed the president goes as president of the United States and that Secretary Lansing, Mr. White and Colonel House, and possibly also General Bliss, will be delegates with ambassadorial rank.

The president had already an-nounced his intention of going to France "for the purpose of taking part in the discussion and settle ment of the main features of the treaty of peace," and it was not likely that he would remain throughout the session of the peace confer ence. The delegates will sit as the representatives of the United States throughout the conference.

There was only one surprise in the statement—the appearance the name of General Bliss as of the representatives. It had been military representatives of the Unit-ed States on the supreme war coun-cil would take part in the discussion at Versailles, but the general idea had been he would be attached to the delegation in a military capacity just as Admiral Benson probably will be present as spokesman for the navy in the general problems to

The premiers of Great Britain, France and Italy are expected to attend the peace conference as representatives of their governments, but like the president, may not remain throughut the conferences

Secretary Lansing, who heads the delegation proper, became Secretary of state in June, 1915, when William Jennings Bryan resigned rather than sign a note to Germany in the Lusitania case, which he thought might lead to war.

The three-hour artillery preparation merning had driven the enemy to his pest dugouts and the advanced assault troops were in the trenches throwing gas bombs and grenades down the stairways into the underand bombproof shelters before the Boches could get upstairs.

Reducing Strongholds

Between the three different lines of intrenched positions the Boches had installed series of strong points, machine gun nests, sometimes emplaced in concrete and steel piliboxes, or else merely set in strong, natural, commanding positions.

The advanced waves of storming troops going forward in open order, worked their way between the strong points, often by worming along for cor siderable distances on their stomachs, or by crawling on hands and knees woods or along ravines. The most advanced waves were en-tirely safe from the machine gun positions once they passed them, as Boches usually could not work their guns toward their own rear, the em placement having been organized with a view to firing ahead or on the flanks only. · Furthermore, if the Germans fired toward the rear, they would reveal their presence to the succeeding attacking waves which would put them out of action before they could swing around again.

When this country entered the great conflict it is no exaggeration to that there were no more than one thousandth of the mechanics needed to make the repairs necessary to keep a great air fleet in the air. To take from the airplane industries the few me chanics who did know airplane wor would have been simply a case of "rob bing Peter to pay Paul," inasmuch as the mechanics in the factories are vi tally necessary for production. A new industry has therefore sprung up in this country, and that industry is or-ganized under the name of "Air Service Mechanics' Schools,"

There are two such schools in operation, one at St. Paul, Minn., and the other at Kelly Field, South San Antonio, Tex. These schools are in effect factories, the product being high grade airplane mechanics and the ray material from which they are made garage men. carpenters, blacksmiths metal workers, tailors, etc. The two schools are conducted on identically the same basis and produce all the tradesmen that are needed for the aero service squadrons. First Tests.

A student's life from the m of entering the air service to the time when he finds himself a competent air plane mechanic in a service squadron at the front is something like this: He is first inducted or drafted, assigned to the air service, and ordered to one of the mechanics' schools. Upon his arrival he is trade-tested by a technical board formed for that purpose and classified as a possible motor mech cian, an airpiane mechanician (air-plane mechanicians do the rigging of all airplanes), a fabric worker, an electrician, or any one of the trades which are required. The trade test board uses a man's past record as a basis for determining his probable ability. If he has been a garage man and has from the hangars and assembled, ready specialized on the upkeep of trucks, he will probably be trained as a chauffeur. If he has specialized more or be trained on ignition with particular reference to that very delicate mechanism, the Liberty ignition system. The trade test finished, the man is

Then, after about two and one-half onths of this work, comes the day o which all mechanics look forward, the day when the actual field work of "keeping the ships in the air" begins. There are flying officers at each of the mechanics' schools. They are there for the purpose of flying the planes which the mechanics work on, in order that the fighting service squadrons at the front may be simulated and that the mechanics may be given their final The airplane mechanic is assigned to a theoretical service squadand that squadron in connection with the school and remains there for two weeks doing nothing but the work in which he has been trained. Flying fairly low, seeking parties of Germans or war material to bomb, two officers in one machine were fired upon from a sunken road. The pilot dived and the airplane machine quickly accounted for four Germans. Very quickly the Germans hoisted a white flag in token of surrender.

The airmen were in a dilemma, as however, and ordered the Germans out of the road—65 of them in all. They obeyed. Then rounding up the party British lines. They circled over them with the ever-menacing bombs and machine guns until they encountered a lot to a prisoners' cage.

An International Service Built on Tiny Profits Per Pound

Some industries have been able to get in step with war demands more quickly than others.

In many cases mighty plants have sprung up-but at a prodigious cost.

The packing industry was able to adapt itself to unheard of demands more quickly, perhaps, than any other industry. And this was because the vast equipment of packing plants, refrigerator cars, branch houses, etc., had been gradually developed to its present state of efficiency, so that in the crucial hour it became a mighty international system for war service.

And how had this development taken place?

Not by making vast inroads into the capital wealth of the country, but largely by using, from year to year, a portion of the profits, to provide for expansion.

Swift & Company's profits have always been so tiny, compared with sales, that they have had practically no effect on the price of meat (amounting to only a fraction of a cent per pound).

And yet the owners of the business have been content with reasonable returns on their capital, and have been able, year after year, to put part of the profits back into the business to provide for its

These fractions of tiny profits have been repaid to to the public many fold in the form of better service, and better and cheaper meat, and made it possible for Swift & Company to meet, undaunted, the sudden cry for meat for overseas.

Could any other method of financing a vital industry involve less hardship to the people of the country? Could there be a better instance of true "profit-sharing" than this return in added usefulness and in national preparedness?

Back Feel Achy After Grip?

COLDS and influenza leave thousands with weak kidneys and aching backs. The kidneys have to do most of the work of fighting off a cold or a contagious disease. They weaken—slow up. Then you feel dull and draggy, irritable or nervous, and have headaches, dizzy spells, lame back, backache, sore joints and irregular kidney action. Give the kidneys quick help and avoid serious kidney troubles. Doan's Kidney Pills are always in unusual demand after grip epidemics as so many people have learned their reliability. Doan's are used the world over. They are recommended by your own friends and neighbors.

A TEXAS CASE.

Mrs. R. F. Harris, 408 E. Asylum St., Terrell, Tex., says: "I suffered awfully from rheumatic pains and kidney complaint. I was so sore and lame I could hardly bend my back or get out of a chair after sitting for awhile. In bad weather I had rheumatic pains in my hips and limbe and across my shoulders. The kidney secretions were irregular in passage and the least cold settled on my kidneys, making my suffering worse. Doan's Kidney Pills reheved all symptoms of kidney complaint and the rheumatic pains left."

A TEXAS CASE.

D. A. Connally, Gilmer St., Sulphur Springs, Tex., says: "When I take cold it seems to settle in my kidneys and causes backache. I have severe pains through my kidneys, especially when stooping or lifting and the kidney action is very irregular. The kidney secretions contain a brick-dust sediment. At these times I always use Doan's Kidney Pills and re-ceive prompt relief."

JOSEPH MADE RULER OF EGYPT.

LESSON TEXT-Genesis 41:33-44.
GOLDEN TEXT-He that is faithful in a very little is faithful also in much.—
Luke 16:10.
DEVOTIONAL READING-Pealms 48.
ADDITIONAL MATERIAL-Genesis 39:

Thirteen long years have passed since his brethren sold him. They have been years of fiery testing for Joseph, but his faith is triumphant. There is a mighty contrast between loseph in the pit at Dothan and Joseph as prime minister of Egypt.

1. Joseph Made Prime Minister of

Egypt (vv. 38-44).

1. The Occasion (vv. 14:32).

It is the interpretation of Pharaoh's In his dreams Pharaoh saw seven fat kine coming out of the river, followed by seven lean ones, which de-voured the fat ones. This dream was followed by another in which he saw seven ears of corn come up on one stalk, rank and good, only to be devoured by seven thin ones. These dreams produced uneasiness in Pharathem he sent for the magicians and wise men of Egypt to interpret them to him. Upon their failure to interpret them, the chief butler calls to mind the prisoner who had interpreted his dreams two years before. Pharaoh hastily brings Joseph from prison and places his dreams before him. Joseph disclaimed wisdem for himself, but confidently asserted his faith in the wisdom of God. God is pleased with wisdom of God. God is pleased with those who will thus lean upon him in the crucial hour, and will never disappoint them (James 1:5). Little did Joseph's brethren, he Ishmaelites who carried him into typt, or Potiphar whose slave he become, realize what the future would brag to him. His years of suffering all waiting were part of God's plan for his discipline and education. It is od's law for those who would reign, but they sufand education. It is vod's law for those who would reign, but they suf-fer, "If we suffer, we shall also reign with him" (2 Thighy 2:12), Loseph's evaluation from Joseph's exaltation from a state of humility is a fine illustation of Christ's humility and exaltan (Philpplans 2:9, 10).

11. Joseph's Naturalization . 45).
As soon as Pharaoh thus exa ... him
he changed his name to Zapn ...paaneah, an Egyptian word having arying designations; as "Salvation world," "The prince of life of the world," "The revealer of section" "The food of life," etc. No double was Pharaoh's purpose to design him as the preserver of life, the venler of secrets, the interpreter dreams, and the author of the plan which Egypt was saved from the awfu famine. He thus was naturalized, and his civil status rendered compatible with his official rank. Then Asenath, the daughter of the priest, was given him to wife. Intermarriage with this caste completed his naturalization by elevating him to social position. Jo seph's elevation was to save the world from famine. Christ's elevation was to save the world from spiritual death. All unknown to his brethren, the Jews, Christ is now at the right hand of the Father, the Savior of the world from its famine of death. As Joseph received a Gentile bride in the time of his rejection and exaltation, so Christ is now receiving a Gentile bride (Romans 11:25).

III. Joseph's Wise Administration

He first made a careful survey of the land, then organized his forces and looked after the details of the work. He did not use his power and position for himself, but to save others. He did not idle his time away, for he knew that only seven short years remained

Each capsule contains about one dose of five drops. Take them just like you would any pill. Take a small swallow of water if you want to. They dissolve in the stomach, and the kidneys soak up the soil like a sponge does water. They thoroughly cleanse and wash out the bladder and kidneys and throw off the trouble. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gail-stones, gravel, "brickdust," etc. They are an effective remedy for all discusses of the bladder, kidney, liver, stomach and allied organs. Your druggist will cheerfully refund your money if you are not satisfied after a few days' use. Accept only the pure, original GOLD MEDAL Haar-en Oil Capsules. None other genuine.—Adv. LETTERS FROM FRANCE

The following letter was received by Miss Sophia Walker of Admiral from her brother, Vernon Walker, who is with the A. E. F.

Miss Sophia Walker,

Dear Sister: How is this old tifully. world serving you? I am feeling fine as can be. I just like one day of being away from home 3 months, it doesn't seem long to me. The 315th Sanitary Train, A. P. O. 770 reason is I have moved around so much. I am drilling now.

This is the prettiest country I ever the grass and flowers are sure pretty.

I saw a Frenchman plowing cows this morning, and they were his milk cows. You can see most anything you want to see. I saw the people once again after a little spell of making wooden shoes, that is the lagrippe. We have all had the same only kind of shoes they wear in thing, have three men in the bospi-France. There are sure some pretty tal now, but are expecting them back girls in this village. There was a soon. This is sure a bad country wedding here today, a French girl for sickness, it rains so much that it and an American soldier. There keeps us wading in mud and vater was a French soldier in on a furlough most of the time. But we boys q and you ought to have seen them the Q. M. C. don't have but a ver meet. I don't think I will learn to little of outside work to do. Abo talk French, wish I could.

there is a phonograph here and we have lots of music and it sure does sound good to me. All of the Baird boys are still together and all o. k. We sure did have some good time running the Germans after the first battle. Everything looks good now and sure do hope the war will be over soon for I have got enough and we get back to the good old U. S. A. lohad a letter from Vernon, said he was fine and dandy, and likes it fine. am glad he does for if he didn't he wouldn't be satisfied.

What is Monroe doing? Guess he is fine now with two girls, and guess that would make him feel big don't you. That was bad about Odran Green being dead, and John McGowen, too, sure did think lots of John.

Will close for this time, answer soon, Love to all.

Oct. 31st. 1918 Mr. Atba Chambers,

Dear Brother: I received your letter of Oct. 6th that I was glad to receive, but as you say I haven't been acting like I cared to hear from be very long from the news of the you as I haven't been writing as I should, but am going to write more often from now on.

I am glad that you have been moved to Camp Bowie, write and tell me what is going on at my old home, and in Ft. Wirth. Yes, I fear if you do not come

over right away that you will be too

late to see any of the fighting as I hear better news very day about the war. Will try tell you something The Star since 1889, been at it too of the people od the country over long to quit now. here. One o the worst things that I see about ais country is to be walking don the road and see an old lady plwing with a turning plow, pulling o turnips, cutting grain with a odle or driving two or three horses a bay wagon, and maybe she ho 2 or 3 little children at the house take care of. If the people confouly take a little tour through the country they would not hesitate ley call war. I was dissatisfied nd thought that I was having a hard time while in the States, but since I have seen what is going on in this country and what bard shape the people are in, I said to myself, .If I get back to the good old U. S. A. I will be contented with most anything."

We have had but very little cold weather yet, we haven't had any ice that I knew of, but there has been several big frosts.

We have just been relieved from the front and are taking a rest.

I forgot to say that the boys are always glad to see the "Y" man, as he is our best friend over here.

Well I believe I have about run a new town you can see with our the folks that I am fat and sassy. From your loving Bud.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble, I would have pains and a heavy feeling after my meals, a most disagreeable teste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard
