MORTON, TEXAS, THURSDAY, JULY 28, 1960

NUMBER TWENTY-THREE

## Rites Held For Infant Daughter Of Ex - Mortonites

Funeral services were held Wednesday, July 27th at the First Baptist Church in Quannah for the 11-day-old infant daughter of Mr. and Mrs. Ansel Outlaw, former Morton residents.

The little girl, named Nancy, was born Tuesday at Quannah. She died on July 15th.

Services were held at 10 a. m.

## Negro Open Air Gospel Meetings Start Monday

Beginning Monday, and continuing each weekday night, Monday through Friday, for a two week period, Bro. W. A. Brown of Clovis, N. M., will conduct open air gospel meetings for Negro residents, just east of the Williamson Gin, in Morton.

The meetings, to be held each evening at 8:30 p. m., will find Bro. Jack Evans, a student of Eastern New Mexico University of Portales, N. M., assisting.

Everyone is invited to this gospel series.

## Gospel Meeting Opens Aug. 7 At Eastside

A Gospel meeting has been announced for the Eastside Church of Christ, Morton, beginning Sunday, August 7, and continuing through Sunday, August 14.

Minister J. V. Davis of Lubbock will do the preaching. Services will be held weekdays at 7 a. m. and 8 p. m. and Sundays at 10 a. m., 10:30 a. m., and 6:30 p. m.

## Church of Christ Revival Continues

Old friendships were being renewed in Morton this week by Evangelist Denton Thompson who is conducting a gospel meeting at the Church of Christ, 202 Southwest Second and Taylor Streets, Morton.

Minister Clyde Strickland reported this week large gatherings were attending the Gospel Meeting series.

The Meeting, which began Sunday, July 24, will continue through Sunday July 31.

In issuing an invitation to all to hear the fine words of Bro. Thompson, Minister Strickland also reminded of the daily Bible School Classes in session at the church from 9 a. m. until 11 a. m. He reported enrollment up to Wednesday had increased to 141 persons in the classes for all ages.

Weekday services are held at 8 p. m. Sunday services will be at 10 a. m. and 7 p. m.

Minister Thompson, who now serves a church at Clovis, Calif., was evangelist at the local church for some three years.

## Special Meeting Held Tuesday School Board Notes Tax Complaints

The Morton Independent School District Trustees held a called meeting Tuesday night in view of sudden public reaction to tax notices sent out the previous week.

The meeting was called to decide if public reaction against the raise in school district valuation was justified, or if measures needed to be taken to better inform the public why the valuation was increased.

Immediate public reaction seemed to be against the raising of values on the basis that the school district action could be inflationary and would tend to raise the cost of school operation.

Re-stated at the Board meeting were the main objectives in the "new" tax plan, which is to be put into effect this year. They were (1) that the new card filing system of classification of all properties in the school district would bring the district closer to an equal tax valuation than it has operated in previous years; and (2), that if in the future, it should become necessary to vote bonds for more school buildings, unless the valuation of the school

district is increased it would be impossible to hold such an election... the value of the district simply will not, under law, allow voting of enough bonds to build

See (SCHOOL TAX) Page 12

## COMPARISON OF SCHOOL DIST. EVALUATION and TAX RATES

The following chart is a list of school districts and their valuations, drawn up from 1958, to show how Morton ranks in value, tax rate, amount of local money spent on maintenance of the school, and amount of local money going toward bonded indebtedness.

The quick check will reveal that with the increase of Morton valuation to \$22,000,000 and the tax rate drop to between \$1.15

and \$1.20, this school district will compare favorably to other schools in this chart.

The amount of local tax money collected last year was \$4,000 more than this chart showed for the previous year. The amount of tax money to be collected under the proposed new plan, will be within \$2,000 to \$3,000 of last year's figure.

| SCHOOL DISTRICT  | VALUATION  | TAX RATE |
|------------------|------------|----------|
| PLAINVIEW        | 58,054,920 | 1.60     |
| DUMAS            | 52,961,190 | 1.89     |
| LEVELLAND        | 51,200,000 | 1.26     |
| BROWNFIELD       | 36,500,000 | 1.87     |
| HEREFORD         | 30,996,777 | 1.70     |
| PHILLIPS         | 30,418,030 | 1.50     |
| MULESHOE         | 21,298,100 | 1.60     |
| ABERNATHY CANYON | 20,750,000 | 1.90     |
| TULIA            | 19,500,000 | 1.75     |
| LITTLEFIELD      | 18,017,758 | 1.30     |
| DIMMITT          | 14,698,302 | 1.40     |
| SUDAN            | 13,574,436 | 1.50     |
| FLOYDADA         | 13,195,108 | 1.50     |
| LOCKNEY          | 12,500,000 | 1.50     |
| OLTON            | 12,086,000 | 1.80     |
| HALE CENTER      | 11,200,000 | 1.50     |
| SPRINGLAKE       | 9,758,485  | 1.30     |
| PETERSBURG       | 7,781,380  | 1.70     |
| MORTON           | 6,986,719  | 2.00     |
| AMHERST          | 3,933,835  | 1.70     |
| COTTON CENTER    | 3,500,000  | 1.50     |
| WHITHARRAL       | 2,903,600  | 1.50     |
| SPADE            | 2,471,000  | 1.50     |

Denton Thompson

## DATE IS SET FOR COCHRAN COUNTY'S BUDGET HEARING

Tuesday, August 16, at 10 a. m. is the date and time set for the annual Cochran County Budget Hearing, by the Commissioners' Court.

The proposed budget, now on file in the Clerk's office may be examined by the public and any taxpayer interested is invited to attend the hearing.

## Second Report From Jamboree . . .

By DAVID ROSS  
 Tribune Correspondent

NATIONAL JAMBOREE, COLORADO SPRINGS, COLO. — July 25, Saturday night a troop of Scouts from West Virginia visited our troop. All the boys wanted to know if we all owned a lot of horses and western stuff.

Sunday, 45,000 boys went to the Protestant service, the largest church service of youth in American history.

Today, Monday, we went to a rodeo where we saw some of the outstanding cowboys in the world.

(According to the Jamboree Journal, published daily at the Jamboree, it was a terrific rodeo. In addition to the 350 men working on the rodeo and taking part as contestants, 110 head of rodeo stock were used. The breakdown: 25 bareback horses, 25 saddle broncs, 30 Brahma calves, 20 Brahma bulls, and 10 arena horses.)

In a few minutes we will be going to a big campfire where we will most likely see a famous person.

(Scheduled to appear were Herb Shriner, The Sons of the Pioneers, Pat Brady and his jeep Nellie Belle, and the Jody Drill Team of Lackland Air Force Base, San Antonio. Later stars included the Lennon Sisters.)

(An additional report from the Jamboree will be found on page 8 of this publication of the Morton Tribune.)

## D. Jackson Legion Post Commander

D. Jackson of Jackson Farm Ranch Store, Morton, was elected commander of the Jesse Band American Legion Post here Thursday night.

Other officers for the coming year are expected to be elected at the next regular meeting of the post, the first Thursday night in August. Roy Aikin, post commander, said.

Jackson saw action with the U. S. Army during World War I, serving from Nov. 25, 1940, through Jan. 26, 1946.

He began service with the 36th Infantry and later was transferred to MP duty in Seattle, Wash. In 1944 he was moved to Alaska.

After moving to Cochran County in 1951, Jackson farmed in the county for three years. He has lived here from 1951 to 1960.

In April of this year he took over operation of the feed store on North Main, Morton.

He and Mrs. (Ava Lee) Jackson were wed in 1941. They have three children, Nancy 14, Jimmy 8, and Treva 6. They are members of the First Methodist Church, Morton.

Jackson's parents are Mr. and Mrs. G. W. Duke of Morton.

## Northwest Texas Methodist Retreat Begins Aug. 5

The annual Northwest Texas Conference "Retreat" for Methodist men will begin at 4 p. m. Fri., August 5, and continue through Sunday, August 7, at Ceta Canyon.

Dr. Carl J. Sanders of Richmond, Va., R.H. Bond of Dyersburg, Tenn., and Dr. Paul Gallowsay, the conference's new bishop will be speakers.

## Appearance of Snake Causes Household Alarm

A snake . . . regardless of the variety . . . can make for excitement almost anywhere — especially under a baby's bed.

And that's why there was an undue amount of excitement at the Delmas Dobson home Wednesday morning on East Lincoln.

When first noticed, the snake, about 30 inches in length, was attempting to climb one of the legs of the baby bed.

Mrs. Dobson immediately called the sheriff's office for help. Marvin Ray, city marshal, quickly drove to the Dobson home.

He found the snake, a bull snake, was creating plenty of anxiety. Peace Officer Ray quickly made pieces of the snake.

## Methodist Plan Fall Revival September 11 - 18

A fall revival has been announced for the First Methodist Church, Morton, from Sept. 11 through 18.

Rev. Lester L. Hill, pastor of the First Methodist Church, Seminole, will conduct the meeting.

The announcement came this week from Rev. H. F. Dunn, pastor.

## NEW TRUCK WILL BE PURCHASED BY THE COUNTY

Cochran County will receive bids until August 8, on a 1960 model two ton truck, it was announced this week in a legal ad published in this issue of the Tribune.

A 1952 Chevrolet truck will be traded in on the new truck to be used by Pct. Four.

## BASED ON ADVANCE TICKETS SOLD . . . FIFTEEN GIRLS IN RODEO QUEEN CONTEST

Five more girls have joined the contest for being named queen of the "1960 Texas Last Frontier Rodeo."

The additions bring to a total of 15 the number of girls, each with a sponsoring businessman, who are selling advance tickets to the rodeo for the honor of being named queen. The queen will preside over the rodeo, which includes appearances at the rodeo and in the rodeo parade.

The five new names announced by rodeo secretary Beth Gandy, are: Evelyn Ainsworth, sponsored by Ailsup-Reynolds Chevrolet; Ruby Daniel, sponsored by Cobb's Department Store; Barbara Jenkins, sponsored by Lebow's Cafe; Sue Turner, sponsored by Virginia's Beauty Shop; and Dorothy Smith, sponsored by Piggy Wiggly.

Also, Mrs. Gandy had two corrections in names previously announced. They are Laquita Sue Masten, sponsored by Ideal Gift

## Shop — MORTON'S DOLLAR DAY MONDAY

Shop and Jacquita Faye Jonas, sponsored by Morton Malt Shop

The other eight, previously announced, were: Judy Williamson, Forrest Lumber Co.; Imogene Betts, Herb's Gulf Service; Patsy Walden, Durwood's Texaco Service; Penny Farmer, Doss Food; Zada Snodgrass, Storage, Inc.; Barbara Shakespeare, Ray's Hardware; Marvalene Hoffman, Morton Co-op Gin; and Lynda McCarty, Willis Food Store.

## LIQUOR LAW IS EXPLAINED

Sheriff Hazel Hancock this week, in response to recent situations in which local and area drivers were noted and reported drinking and driving, (though not intoxicated), released a quoting of the law concerning the situation, in an effort to make citizens conscious of the law violation.

The sheriff ascertained that people falsely reason that since they are allowed to have up to a case

See (LAW) Page 8

## Board Named To Govern Use Of Act'y Bldg.

In a special trip last June, a group of interested citizens of Cochran County visited three neighboring counties with Judge Glenn Thompson, for the purpose of determining policies these counties maintain in their operation of the Community Buildings.

At a special meeting July 7th, the Commissioners' Court of Cochran County discussed this trip and considered copies of rules, regulations and charges, submitted by these counties.

Finding that these other counties operate their Community Buildings with a Board of Directors, and this system seemed to be more effective than the method used in Cochran County, the Commissioners appointed a nomination committee to name a Board of Directors and put such a plan in operation in this county.

Fourteen nominations were submitted.

Continued From Page One

## MORE RAIN AND HAIL RECEIVED EAST OF MORTON

Parts of Cochran County received more rains over the weekend, rains which in some instances brought more crop destroying hail.

The rainfall, officially gauged in Morton at 25 of an inch Sunday evening; and 56 of an inch Monday (the reading was taken at 5 p. m. each evening) was reported to have left two inches of water in the area just east of Morton. Don Fincannon, 2 miles east reported the two inch fall.

The hail was received east and northeast of Morton. Among those reporting considerable crop damage were Earl Polvado, Al Mullinax and J. D. Hawthorne. Several others farming in an area approximately a mile east of Morton, also received hail.

## VISIT RAMSEYS

Mr. and Mrs. R. L. Tisdale and children of Loop, Tex., visited Friday night with their aunts, Misses Alva and Eliza Ramsey and uncle S. A. Ramsey and family. They all enjoyed a chicken supper at the hotel.

## Plans Set for Little League Finale Picnic, Night Game Set Saturday

In a meeting held Saturday, the Morton Little League set up play-off of the final regularly scheduled games of the present season, and a season ending night game.

Dates of the playoff games were outlined and the final event will be a picnic ball game at the County Park, next Saturday.

Boys will come with their bathing suits, and uniforms, and will go directly to the swimming pool, in uniform (to be admitted), at 5:30. At 6:30 they will get out of the pool and go to the park to enjoy a picnic dinner which will be spread.

All parents of Little Leaguers are urged to bring their family and a covered dish and attend. Umpires, sponsors of teams, and little league officials are also urged to attend.

At 8:00, all will retire to the Babe Ruth Park where the lights will be turned on, and the boys will divide into two teams for the final game.

The final game, a 9 inning affair will feature every boy on every team.

During the final game a trophy will be presented to the Sponsor of the Cards, symbolic of the league championship.

Players are urged to bring with them a change of clothes. After the final game, boys will change into their street clothes and uniforms will be turned in to their managers.

The final games of the season will be played today (Thursday) the Sox vs. the Cubs and tomorrow (Friday) a double header. The first game, Giants vs. the Cards, starts at 4:00 p. m. and the final game of the regular season, Giants vs. the Cubs will be played at 6:00 p. m.

## 33 Blankets Donated to Chilean Victims

Thirty three blankets and \$32.40 in cash has been sent to Church World Service for Chilean Relief from the First Methodist Church, Morton.

The project was started in this area by Joe Salem of Sudan.

## St. Clair's Opens Clearance Sale In Dept. Store

St. Clair's Department Store annual "Summer Clearance" begins Friday, July 29, at 8 a. m. on the westside of the square, Morton.

Lloyd Hiner, manager, extends area residents an invitation to be on hand when the doors open Friday.

## WILL CONDUCT SUNDAY SERVICES

Rev. G. W. Wilkinson, who recently held a meeting at the First Assembly of God Church, Morton, will conduct the services here Sunday, it was announced.

## WILL SPEAK AT SUNDAY NIGHT METHODIST SERVICE

Ghulam Zakriya and Khan Ahmad Khan of West Pakistan will speak at the regular Sunday night services, July 31, at the First Methodist Church, Morton, it was announced this week by Rev. H. F. Dunn, pastor.

The public is invited to attend the service. Following their talks, the two visitors will be served refreshments in Fellowship Hall.

## More Teachers Resign Here; Total of Fifteen Lost This Summer

Another trio of teacher resignations were received by Morton Friday, even as Supt. Barnes was out around the county trying to fill 12 previous resignations the school had.

The newest resignations took the man and wife team of the school system, Mr. and Mrs. Robert Hahn, and Mrs. Hahn in the grades and Hahn as a school director. They were moving to Santa Fe, N. M.

(Duane) Knott was the

## SPONSORED BY RIFLE CLUB . . . INVITATIONAL SHOOTING MATCH SET FOR SUNDAY, AUGUST 7th

Cochran County's first Invitational Shooting Matches, sponsored by the Pioneer Rifle Club of Cochran County, will be held August 7th at the caliche pit, one mile north and one mile west of Morton.

Listed on the program of events will be (1) at 9:00 a. m., shotgun competition, on 25 clay pigeons, 15 yards handicap, entrance fee, \$2.00.

(2) Bench rest rifle competition, 100 yards distance, 5 rounds of ammunition, any rifle and sight combination eligible, entrance fee \$2.00.

(3) Three center fire position, high power rifle competition, with any rifle and sight combination eligible, 100 yards distance, 5 rounds fire at each position, entry fee, \$2.00.

(4) Pistol competition, NRA short course, 25 yards, 10 rounds slow fire (1 minute time limit per round); 10 rounds timed fire (2 5 - round strings of fire, 20 seconds each); 10 rounds rapid fire (2 5 - round shot strings at 10 seconds each); entry \$2.00.

(5) 4 position, 22 calibre rifle fire, metallic sights only, 10 rounds each position, entry fee \$2.00.

Shooting medals will be awarded to the first three placers in each of these events.

Anyone desiring can enter the grand aggregate total of competition for \$9.00 entry fee and winner of this will receive a plaque symbolic of the overall shooting score.

## Free More Teachers Resign Here; Total of Fifteen Lost This Summer

Another faculty member who resigned. Knott has accepted a position at Tom S. Lubbock High School. He was Morton's ag teacher.

Other man and wife teams that left the school this summer are Messers and Mesdames Eli Douglas, Bob Vanoy and Pat Hughes. The recent resignations brought to a total of 15 the number of positions to be filled this summer. However, some have already been filled.

### AREA MAN SUGGESTS THIS FOR TIMELY READING ON ONE OF NATION'S BIGGEST EDUCATION PROBLEMS

#### LETTERS TO THE EDITOR . . .

(Note: J. D. Hawthorne of Morton brought the following article by the Tribune office this week. He indicated it might be timely reading for area folks. Coming from the West Texas Livestock Weekly of July 7, 1960, it is entitled "Unregistered Bull in a Hotel Lobby.")

"Erv" Mitchell of Roswell passes along a clipping from the Lincoln County News, (Carrizozo, N. M.) dealing with a subject which is causing headaches in many places: the rising cost of education and the question of how much school value the taxpayer is getting for his money.

The Taxpayers Assn. of New Mexico has released a statement saying that a tabulation of school revenues and children attending school during the 11 year period from fiscal 1950 - 60 shows "that present sources of revenue for operation of the public schools is

more than adequate to handle increased enrollment and cost of living."

The study shows that in 1950 it cost \$29,378,620 to operate public schools in New Mexico compared with expenditures of \$83,434,400 in 1960. This is an increase of 184 percent. Average daily attendance in 1950 was 120,707; in 1960 it was 203,680 or an increase of 69 percent. Average expenditure per pupil jumped from \$243.39 in 1950 to \$410.63 in 1960, an increase of \$167 per pupil, or 69 percent.

"If we deflate these costs to dollars of constant value in order to compensate for the increased cost of living, the figures are \$239 for 1950 and \$327 for 1960," the association says. "If we go back to 1945 we find the deflated pupil cost is \$154. In other words in just 16 years the cost per pupil of education in New Mexico has doubled, after allowing

for the increased cost of living. "The important thing is that this increase in revenue has come from the same sources without any increase in tax rates. With these facts in mind we wonder about the basis which substantiates the cry in the dark: 'Where are we going to get the money to finance education in the future?'"

"In spite of this terrific increase in school expenditures, some educators are now talking about increased taxes to increase expenditures, for schools. Before increased taxes for education are considered, perhaps such questions should be answered as:

"Are our children twice as well educated as 15 years ago? Are they twice as well prepared to go to college? Are they twice as well prepared to face the world?"

The New Mexico Taxpayers Assn. release poses some doubt about a favorable answer to

these questions by citing a couple of recent public opinion surveys among high school students.

In one survey this question was asked: "Who contributes most toward improving living standards — business, government, or union leaders."

"The answer will surprise you!" exclaims the tax group release: "Most high school seniors said that business is bad for the country. Fifty-six percent contended that government should eliminate economic problems by taking from the rich and giving to the poor. Sixty percent favored government control of the press, radio and television."

"In another questionnaire answered by 6,000 high school students, 25 percent of the boys and 53 percent of the girls said that government should operate and control banks, electric utilities, railroads, and the steel industry. And these surveys reveal that over 60 percent of these students believe that the profit motive can be eliminated without hurt in the American system.

"More than half think most

people are incapable of deciding for themselves what is best for themselves, and therefore government should make the decisions for them."

"How long can we have a free enterprise system when our high school students do not understand the system under which they live?"

"Robert W. Jackson, western regional public relations director observed in a recent speech that

totalitarianism never had and never will need a majority of the population behind it. Only five percent of the Russian people belong to the Communist party. All we need to destroy democracy and private enterprise in this country is just a reasonable nucleus of people who don't understand and don't want these things — say, about a quarter of the boys and a third of the girls."

of emergencies.

Tentative arrangements for use of the building may be made by contacting the Secretary of the County Judge. Final scheduling of such use must be made in person and by signature. Fee to be paid at that time or one week before scheduled meeting.

These regulations and By-Laws may be amended or added to at any time by regular action of the County Activity Building Board.

### Early Sunday Fire Guts Inside of The Main Cafe

An early Sunday fire which was discovered around 5 a. m. at the Martinez Cafe, next to the Wallace Theatre, on the east side of the square, gutted the inside of the cafe.

The blaze, in the ceiling, was battled by Morton Volunteer Firemen who ran into an unusual ex-

perience as they answered the alarm. At almost the precise moment the fire alarm went off, the bottom fell out of the sky and a torrent of rain poured down in Morton.

Many startled sleepers awoke with the fear that a tornado alert was being sounded, since the alarm and the storm broke at precisely the same time.

The building, one of the few remaining wooden structures on the square, was filled with smoke and it took some 20 minutes to douse the flames and another 20 minutes to clear out the smoke.

The building, owned by Mrs. D. T. Smith, also houses a domino hall, which had smoke damage but no flame damage.

The cafe, leased by Paul Baker, was being operated by Snow Martinez. There was no indication as to what started the blaze. It had been closed since early Sunday morning, but the blaze evidently had burned for at least an hour or more.

### Certificates for Those Using Activities Bldg.

THIS IS YOUR BUILDING - THESE ARE YOUR RULES - ABIDE BY THEM or forfeit your rights to the building. The building is available at a small facilities maintenance charge, for the use of any person or group of persons so long as the activity meets with the approval of the County Activity Building Board.

VISIT WITH SPEAKER —

Shown are Mrs. M. H. Wisely, Speaker of the House Sam Rayburn, Jerry Don Wisely, Danny Wisely and Dewayne Hull, as the group stopped by Bonham recently for a visit to the Rayburn Library, and then to the Rayburn home, 3 miles west of Bonham, on U. S. Highway 82. Mr. and Mrs. Henry Whitney of Lubbock accompanied the Wisleys, and Henry, a brother of Mr. Wisely, received an invitation to come in. The well known Texas Democrat joined the group in the yard and consented to have his picture taken with the West Texas group.

### Rules, Regulations for Use of Activities Bldg.

By - Laws and Regulations Facilities, Maintenance Charges For Use Of Building

AUDITORIUM: (all day or night) \$15.00 (for shorter periods) per hour \$2.00

**Pony Show Set at Pampa's Rodeo, August 1**

The shut gates for the 16th annual Top o' Texas Rodeo at Pampa, will swing open Monday, August 1, with the Kid Pony Show scheduled for that afternoon and night.

The rodeo proper will begin Tuesday night, August 2, at 8 p. m. preceded by a giant street parade at 3 p. m., led by the Amarillo Air Force Band.

Bill Tidwell, parade marshal, has issued an invitation to the Riding Clubs, Ranch entries, Civic Club entries, and Commercial Divisions to place entries in the parade which will form on West Foster Street at 2:15 p. m.

Prizes totaling more than \$5,000 supplemented with many handsome trophies to winners in the respective events will be the target of some three hundred cowboys and cowgirls expected for the big event. An Official American Quarter Horse show is scheduled for Thursday and Friday, August 4 and 5, with a record number of horses from the Southwest expected to be entered.

The colorful cowgirl's contest which is considered one of the top Cowgirl's events in the nation will feature more than forty girls from the Southwest. A handsome hand-stamped saddle will be presented.

# Highlights and Sidelights FROM YOUR State CAPITOL

By Vern Sanford

Austin Tex. — If the brackish, "hard as bricks" water common to many parts of West Texas can be made suitable for domestic use, Texas' available water supply would be materially increased.

To this end, the State Water Board has approved a de-mineralization research project to be carried out by the board, University of Dallas and Texas Electric Service Co. Board will put \$20,000 into the work.

Board engineers say total demineralization is not necessary and that it is possible the process can be accomplished at an economically feasible cost.

In another move to increase available water, the Board has set a series of hearings on cancellation of water appropriation permits that have not been used.

First 10 of the permits to be reviewed are scheduled for hearing Sept. 22. Some of the permits date as far back as 1918.

**DPS ASKS BOOST** — With more traffic to patrol and more crime to fight, the Department of Public Safety will ask the next Legislature for more money to increase its staff.

Col. Homer Garrison Jr., DPS director, has presented a budget calling for \$16,461,260 for 1962 and \$17,720,166 for 1963. This compares to \$12,420,490 allocated to DPS for this year and \$13,353,272 for the new fiscal year beginning Sept. 1.

Requested increases would allow the addition of 200 new highway patrolmen, 10 Texas Rangers, four narcotics agents and four intelligence agents.

Supporting his request, Garrison

made this grim forecast: 29,000 more major crimes will be committed in Texas in 1963 than 1959. This is apparently a continuation of the trend which saw major crimes rise 45 percent in the past five years, rising to 175,851 in 1959.

**PAROLE EXPANSION SOUGHT** — Texas Board of Pardons has a plan for saving the state some money.

But to do so the Board says it will need more money to invest in enlarging the state's staff of parole supervisors. Since the paid parole system got underway in 1958, the Board says it has saved \$3,000,000. It costs that much less to pay a supervisor to keep tab on a parolee than it costs to board and clothe a prisoner and make relief payments to his family.

The Board feels it needs a 70 man parole staff, rather than the present 40 — to do the job. For this, the Board is asking a appropriation of \$1,466,819 for the next two years. This is an increase of \$480,863, or nearly half a million dollars, over the present biennium's appropriation.

Board contends this extra investment will save the state \$2,500,000 in prison costs, plus offering a better chance of returning more men to useful, law abiding places in the community.

**GIL FLOW UNCHANGED** — Texas Railroad Commission has announced an 8 day producing pattern for the Texas oil industry in August — the same as for July. Daily allowable will be 2,630,069 barrels a day.

A majority of producers appearing before the Commission said there is still an oil glut in Texas and continued restriction is needed to protect the market.

Commission action came in the wake of a declaration by UT's Bureau of Business Research director that oil is no longer king in Texas. Even with foreign import limits, said Dr. John Stockton, supply outruns demand so that production has had to be held down to 8 to 12 days a month for the past two years.

Stockton foresees no improvement. Texas, he said, must develop new industries to bolster its economy or lose out to more dynamic areas.

**PARKS SURVEY SET** — State Parks Board has announced the Texas Research league will make a study of its operations and report to the next Legislature.

League is a privately financed non-profit government research organization which studies state agencies at their own request.

State Auditor C. H. Cavness has recommended the Parks Board

## Is Federal Aid A Permanent Answer?

More we, lost, and more's the pity!

The announcement this week that three more local school teachers will not return to teaching in Morton in the fall, once again casts the spotlight on the fact that those teachers with no strong ties, are always looking forward to a better pay offer . . . and they can't be blamed for that.

But these problems, usually discussed with reference to individual teachers and individual community problems, rather than as an overall warning sign, get more serious all the time.

We try to break it down into a community problem by calling the teachers by name and quoting actual paycheck figures. We scream and holler, "look what's happening in Morton," and the folks who don't want to recognize the problem holler in retaliation, "the same thing is happening everywhere."

Truth of the matter is that both sides are correct in what they are thinking, even if they don't express themselves as clearly as they should.

A goodly majority of schools across the USA have these same problems, and these problems should be high on the list of things that need to be corrected.

They who warn that the federal government will correct them if states, counties, and communities don't, are also right.

They who warn that teachers over the country as a whole are underpaid, are right.

They who stress that teachers, as a whole, are not as overly interested in monetary repayments as some economic groups of workers, are also right.

While the need for more money is one of the important problems, there are others that affect the loss of teachers right here in Morton.

Teachers leave here seeking social acceptance; seeking better working conditions; seeking a situation in which they themselves can feel that they are doing a better job of teaching.

And there's a long list of implications from two sides of thinking that can also be proved right.

But the serious factors are often overlooked in the light of the various pro's and con's that these sides argue. The real picture of which direction in which we are traveling, and the factors that are "like breezes blowing us in this direction," and the thinking that might allow us to change directions, seldom seems to be painted.

We cannot begin, in one short editorial, to go into the social factors that urge people to study to become teachers, and the social factors that completely demoralize them and later drive them out of the teaching ranks.

We cannot offer concrete solutions of these problems. But we can see clearly that it is in "temporary solution" of these problems that we are losing conservative thinking across our great nation.

People are becoming liberals, and some radicals, in quest of solution to problems that conservatives have not come up with an answer for. And the fact that these liberals will wake up some day in the future and say, "Oh, we were wrong, we stepped into a trap looking for a pipe dream," will not make any difference. For by that time, both the liberals and the conservatives will be suffering the consequences.

Federal aid, as has so far been advanced, is not the solution to the problem, and we know it.

But federal aid does offer, for some, a temporary relief, that seems better to grab at than nothing at all.

It all falls back on the question of whether the individual in a community cares enough to work for solving of these problems on a community level. All indications are that the majority of the people have developed enough of a selfish attitude that they do not care enough, unless it is their own problem.

The ultra liberal platform advanced by the Democratic party, and the one promised (at this writing) by the Republican party, came because the conservatives failed to come up with solutions to problems. We cannot blame the liberals. The conservatives have failed, temporarily.

Our only hope for the future is for the liberal thinkers to work hard, for liberal thinking has already worked out temporary solutions for many. It will be hard to convince those who have benefitted temporarily from liberal legislation, that continuation of these ideas will bring about destruction, ruin. Yet the conservatives must face up to this task, if this nation is to have a future.

Teachers need more money, but not from the federal government.

Teachers need improved working conditions, but not from the federal government.

Teachers need better tools to work with (including

more classroom space) but not from the federal government.

And, one of the most important of all, teachers need social acceptance, but this won't come from the federal government, either.

## Jaycees to Meet

### At Local Cafes

The Morton Jaycees voted Monday, at their regular luncheon meeting, to begin meeting at local cafes rather than hqld meetings in the Activity building on Monday, until attendance picks up.

During the summer the attendance has been so sparse as to make it impossible for the club to pay a guaranteed fee for having the meals prepared.

Several members have been out of the city for several weeks, or the better part of the summer. Nine members were on hand for Monday's meeting.

Scenic, quaint, metropolitan, recreational capital, year 'round weather — these words, true as they are, just don't describe San Antonio adequately.

This historic city has a little of everything.

It's the home of the Alamo and has many old and famous missions.

It's America's Venice, too. You can glide down the San Antonio River that meanders through the city. Your gondola or cycleboat will take you along the same river banks where a quiet Indian village once stood. You'll see beautiful semi-tropical plants and flowers. You can stop off at a sidewalk cafe for an adventure in exotic foods too.

Better plan a long stay in San Antonio. There's so much to see that you'll never want to leave.

## GETS SCHOLARSHIP AT RICE INSTITUTE

Butch Nairn, one of Morton's standout gridlers for the past three years, has accepted a scholarship at Rice Institute, it was announced recently by his parents, Mr. and Mrs. Bud Nairn of Levelland.

Butch took the competitive ex-

ams, and was interviewed by Rice authorities and passed with flying colors.

## TEXAS TECH CLASSES BEGIN SEPTEMBER 19

And classes begin Sept. 19, 1960, for the fall semester at Texas Tech.

That's the announcement from Texas Technological College, Lubbock.

Orientation and counseling programs for freshmen begin Sept. 12 at 8 a. m. Formal registration of all students will be Sept. 14 and 17.

### Miss Barbara Bryant, L. S. Salser, Jr. Are Wed in Ft. Worth Ceremony

The Riverside Methodist Church in Fort Worth was the scene of a double ring service, Saturday, which united in marriage, Miss Barbara Ann Bryant and L. S. Salser, Jr., both of Lubbock.

The Rev. Richard Millsap officiated at the service which joined in wedlock the daughter of Mr. and Mrs. Charles Audrey Bryant of Ft. Worth and the son of Mr. and Mrs. L. S. Salser, Sr., longtime residents of Whiteface.

Given in marriage by her father, the bride wore a gown of pure silk bombazine fashioned with a portrait neckline highlighted by appliques of Alencon lace. From the figurine bodice flowed a billowing waltz-length skirt. A softly pleated sash trailed to the hemline. She wore a half circle lace mantilla veil attached to a headpiece of flowers. Her bouquet was of pink aristocrat roses atop a white Bible.

Mrs. Jerry Cooper, of Lockney, aunt of the bride, serving as matron of honor, wore a pink lace dress with portrait neckline and tiny sleeves. She carried pink roses and white carnations fashioned in a half-crescent bouquet. A flat pink satin bow with demi veil was her hat.

Lisa Cooper, cousin of the bride, served as flower girl. Harley Hughes of Lubbock was best man and ushers were Kenneth Wayne Bryant and Weldon Ray Bryant, brothers of the bride. Mrs. Bill Hendricks was organist and Oris Baldwin sang.

A reception followed in the fellowship hall. Members of the house party were Miss Lynda Bryant, cousin

of the bride; Miss Judy Salser, sister of the bridegroom, of Whiteface; Miss Marcia Ainsworth and Miss Dolores McCurdy. The couple plan to reside at Lubbock temporarily after a honeymoon in New Mexico. Mrs. Salser chose a white shirtwaist dress embroidered with lace panels for traveling. Her accessories were white and she carried a corsage of pink roses.

The bride graduated in 1959 from Texas Tech with a B.A. degree in art. She has also attended Arlington State College. She is now employed by the display department at Hemp Hill - Wells in Lubbock.

Salser graduated from Whiteface High School where he was a star athlete and attended Hardin - Simmons University. He served with the U. S. Marines. He is employed by Hunter Construction Company of Lubbock and plans to continue his studies at Texas Tech.

### SHOWER HONORS MISS STEPHENSON

A coffee and miscellaneous shower, honoring Miss Delores Stephenson, bride-elect of Wayne Davis, was given Saturday, July 16, in the home of Mrs. Roy Hill.

Co-hostesses were Meses. Bob Ramp, Chas. Jones, Truett McCuiston, Wayne Mitchell, W. E. Angley, T. D. Marshall, Roy Brown, Elma Searney, H. B. Bedwell, Roy Allsup, Jack Baker, Iva Williams, Bea Yarbrough, and Miss Jackie Outlaw.

The serving table was laid with net over blue and silver and crystal appointments were used.

The centerpiece of mums, white and blue, made like a wedding cake, with a bride and groom on top, carried out the bridal colors.

About 60 guests attended with many gifts sent by those not able to attend.

### LINDA WELCH IS SHOWER HONOREE

Miss Linda Karen Welch bride elect of Tommie Wall, was honored with a bridal shower, Wednesday, July 20 in the home of Mrs. Roy Tunnell.

The lace covered service table was centered with a wedding cake arrangement of white and blue mums topped with miniature bride and groom.

Other hostesses were Mrs. Garvin Long, J. C. Snitker, Bob Newton, John Gunter, Perry Fort, Hansford Tunnell, James Fine, Elwynn Julian, H. H. Snow, A. P. Fred, Zed Robinson, R. M. Gibson, Bob Adams, and Grace Vanlandingham.

The hostesses' gift was a Sunbeam mixer.

About 50 guests called and others sent gifts.

The wedding will take place July 28, in the Enochs Methodist Church.

### ENJOYING TRIP TO MEXICO CITY

Mrs. W. W. Smith of Morton, who is with a group touring Mexico City, writes: "This is a dream city, cool, picturesque, and friendly." Among other sites she says they plan to see are the floating gardens, the pyramids, and a bullfight.

The group left the weekend of July 17 and expect to be back this weekend.

Mrs. Smith is making the tour in the interest of improving her Spanish.

When school starts this fall she will be teaching Spanish and English at the Wilson Schools.

### ANOTHER SON FOR AUSTIN STEADMANS

Rev. and Mrs. Austin Steadman announce the birth of a second son, named Timothy Wayne, weighing 6 lbs., 11 oz. The youngster was born at 7:10 a. m., Friday morning, July 22, at the Methodist Hospital at Lubbock. The other son, just a month less than 3 years old, is Terry Allen. Grandparents are Mr. and Mrs. E. M. Howell of Corsicana and Mr. and Mrs. T. H. Steadman of Dallas.

### SON FOR CARROLLS

Mr. and Mrs. Joe Carroll of Roswell, N. M., formerly of Morton, are the parents of a son, named Keith Allen. The infant weighing 5 lbs., 13 oz., was born July 21.

# SOCIETY

### TURNEY FAMILY REUNION HELD SUNDAY AT HOME OF MRS. AILENE MASTEN

The children and grandchildren of Henry Turney gathered Sunday in the home of his daughter, Mrs. Ailene Masten, for a family dinner - reunion.

A total of 36 members of the family attended. One daughter of Dallas, and her family were unable to attend because of illness in the family.

Others attending included Mr. and Mrs. Frank Turney and daughter of Dallas; Mr. and Mrs. Charlie Turney and family of Portales; Mr. and Mrs. Walter Reeves and boys of Plains; Mr. and Mrs. Doye Turney and family of Enochs; Mrs. Freddie Ziessel and children, Lee Carroll and Beverly Kay, of Littlefield; Mr. and Mrs. Roy Turney, Mr. and Mrs. James Turney, and families, Henry Turney, Mrs. Ailene Masten and Terry Pace, all of Morton.

### PAKISTANIANS VISITING IN CITY

Two Pakistanians have arrived in Morton where they will study until August 6th, various agricultural procedures of this area.

The men, part of a large group of their nationality who have been in this country since February, are Ghulam Zakriya Shaikh and Khan Ahmad Khan.

In an interview this week they explained that groups of U. S. and Pakistanians are engaged in an exchange program between three colleges of the two countries. Professors and students at Dacca University in East Pakistan are exchanging with students and Professors at Texas A & M College.

Students and professors at Peshawar University in West Pakistan are exchanging tours and information with those at Fort Collins, Colorado.

And students at Panjab (Lahore) University are exchanging with students and professors at Washington University in the U. S.

In addition, governmental workers are also studying methods of agriculture in each other's country and helping teach methods of solving various problems.

### MORTONITES ON SPRING HONOR ROLL AT WAYLAND

Plainview (spl.) - Four from Morton are among those listed on the 1960 Spring Honor Roll recently released by Dean Cecil Cosper at Wayland Baptist College.

They are Henrietta Bedwell, daughter of Mr. and Mrs. H. B. Bedwell; Judy McCuiston, daughter of Mr. and Mrs. Truett A. McCuiston; Belva Stokes, daughter of Mr. and Mrs. S. A. Ramsey; and Elizabeth Dupler, daughter of Mr. and Mrs. Hugh Dupler.

Mrs. Stokes and Miss Dupler received their bachelors degrees from Wayland in May, while Miss McCuiston completed her freshman year this spring and Miss Bedwell is presently enrolled as a sophomore at Wayland.

### HOME FROM VACATION AND MEETING

Rev. Clifton W. Jernigan, assistant pastor of the First Assembly at God Church, Morton, returned Monday from California where he conducted a revival at the Alameda First Assembly of God Church.

Also, Rev. Jernigan attended the wedding of his brother while in California. Regarding the National Democratic Convention, he reports, "I saw it on TV."

### LEHMAN HD'S HAVE SESSION ON SKIRT MAKING

The Lehman H. D. Club met in the home of Mrs. Claude Drennan, July 20.

The council picnic was discussed. The Club decided to help pay Mrs. Lewis Walkers' expenses to the state meeting in Brownsville, Sept. 13, 14, 15. The picnic for the Lehman club was cancelled for a while, no date was set.

Miss Petty gave a demonstration on a skirt that fits. Refreshments were served to four members, Mrs. Edward Brownlow, Mrs. Charles Sanders, Mrs. Lewis Walker, Mrs. Claude Drennan and their children Nancy, Gail and Christy Sanders and the home demonstration agent, Miss Leila Petty.

The next meeting will be held September 7 at the home of Mrs. F. L. Fred.

"Secret Pal" gifts will be exchanged then.

### VISIT IN BARRETT HOME

Mrs. Lola Simpson and Miss Ada Odell, sisters of Mrs. L. W. Barrett of Morton, were visitors this week in the Barrett home, Mrs. Simpson and Miss Odell live at Tatum, N. M.

### BROTHER SUFFERS STROKE

Rev. and Mrs. H. T. Clarke of Morton left Monday for Altus, Okla., where Rev. Clarke's brother Clarke, was reported in critical condition following a stroke. Making the trip with them is Ronny Phillips, grandson.

### HOME FROM VACATION

Mr. and Mrs. Bernie Haley and daughter, Barbara Ann, returned this week from a vacation in Central Texas. Haley is manager of the Wallace Theatres here.

**WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER**

No one argues with the activities of legislatures and authorities in making people recognize their family financial responsibilities instead of letting their dependents become charges of the taxpayers.

Some great and extensive work has been done by authorities in forcing the irresponsibles to look after their own, instead of adding to the burdens of taxpayers.

This is C. W. Harder quite a simple principle, that of people being responsible for their own. Yet it seems too complex for understanding by those schemers who throw the American taxpayer's money away in foreign give aways.

A prime example is the millions of dollars American taxpayers are throwing into Ceylon to develop this large rich island in the Indian Ocean.

There is only one fly in this ointment. Ceylon is a member of the British Commonwealth.

As such, Ceylon belongs to a big family that covers a fourth of the world's land area on which live 683 million people, or almost one-fourth of the world's population. The headquarters of this large family is in London where the Queen holds the title, among others "Head of the Commonwealth."

But where would one think the money to develop Ceylon further comes from. From the American taxpayer.

© National Federation of Independent Business

There is no substance to the rumor that the schoolchildren of Ceylon are being taught a new national anthem which goes in part "God bless the Queen and keep the American taxpayer solvent," but fact remains the U. S. taxpayer is shelling out millions to Ceylon.

This is tantamount to a family occupying a house and conning his neighbor into keeping the place in repair for them.

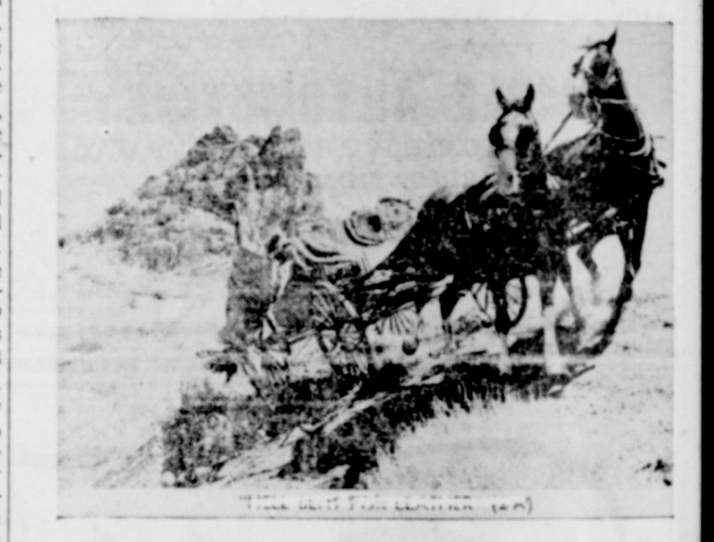

Until 1948 Ceylon was a British Crown Colony which meant that British interests made money out of the island without plowing much, if anything, back into developing the island. That has been left for U. S. taxpayer to accomplish.

But of course, as a member of the British Commonwealth, Ceylon will always be tied commercially and in other ways to London, so profits made out of American-financed expansion will end up in London.

For one thing, Ceylon produces about a half million pounds of tea per year. It is possible tea from Ceylon played a part in a certain incident in Boston harbor.

This is just one of the many items that are getting the people of the nation to look with wide-eyed askance and indignation at the billions poured out in foreign give aways.

After all, what business firm will spend its own money to develop an account for a competitor. If that happened, heads would roll at next stockholder's U. S. taxpayer is doing in Ceylon, a small but basically rich member of the British family of Commonwealths.

—A thrilling scene from the motion picture "Hell Bent for Leather" which will star Audrey Murphy and co-starring Felicia Farr. This show will make a one day stand only, Saturday July 30th, which is free popcorn day at the Rose Theatre.

# edlines...

By Eddie Irwin

PROBABLY never before in the history of the conventions have the people of the United States been better educated as to what makes a political convention tick, than they have this year.

the reason...

OF COURSE, is the complete coverage of the conventions through the media of television. Never has television done such a thorough job of covering and evaluating the happenings at the convention.

of course...

THE EVALUATION being done by top notch news analysts, nevertheless, can go far astray. Even though the vast viewing public has seen the inner-workings of political campaigning, and had seen what they felt were "rigged" conventions, nothing at a political convention can be taken for granted.

a convention...

IS MADE UP of a gathering mob of delegates, candidates and onlookers... and, like any other mob, it can change its course radically if a given situation happens to trigger it off. Though vast multitudes have cried out against the "cut and dried" aspect of the conventions, in other years the conventions have been just as "cut and dried," and yet, in an explosive moment, the picture was changed completely, and a hitherto unnoticed candidate walked off with the nomination.

that the expected...

CAME TO PASS, in the instances of Sen. John Kennedy and Vice President Richard Nixon, is no indication that it couldn't have wound up another way. It is merely testimony to the thoroughness of pre-convention work on the part of these candidates.

there were no doubt...

A GREAT MANY persons fooled with Sen. Lyndon Johnson an avowed "non-vice presidential candidate" suddenly becoming one. It was

Shop — MORTON'S DOLLAR DAY MONDAY,

just a few years ago (or seems so) that a relative political unknown (Wendell Willkie) received the Republican nomination in a convention upset.

what the public...

NOW UNDERSTANDS, better than it has heretofore, is what a tremendous effort goes into the planning of the pre-convention campaign by the various candidates. If this be "rigging", then it will have to be called such. But in actuality, it is simply hard, politics... and the political game, on that level, is a ruggedly competitive game.

at the convention...

THE PERMANENT Chairman is a powerful man. If he manipulates carefully, and quickly, he can keep the convention in control. If he lingers, a moment too long, he can find the convention in an uproar by a well timed motion from the floor, calculated to trigger off a debate, to upset the plan of things.

we can't help...

BUT AGREE WITH the British conception, that with all of this foldor, the political process sometimes takes on the appearance of a three ring circus, of a foolish game.

Considering the tenseness of the world situation, and the fact that notwithstanding the remarks of Democrats and Republicans, the United States of America, as the most powerful voice of the Western World spend too much time playing the game, and not nearly enough time getting down to business.

the British view...

IS THAT EVERY TIME an election year rolls around in the USA, diplomatic processes are set back a year, because America has little time for world wide diplomacy, they are too busy playing the game.

and yet...

WE MUSTN'T lose sight of the fact that these opportunities to play this game, which are given to all Americans on the precinct level, and fewer, on the state and national levels, are the rights that have kept us a free nation.

the truth is...

IF MORE AMERICANS would "play the game" on the precinct level... would take an active part in the political workings of our government, we would strengthen our freedom, rather than place it in jeopardy.

being one of...

THE FEW VOWED Republicans in this Southern Community, we had a visit the other day from the Republican Committeeman from this Senatorial District. One of the remarks he made was to express a dislike for the 'unit rule' that ties up delegates from a state, committing them to vote for the candidate supported at the state convention. And yet, this rule is one of the few ways the folks at home have of knowing their delegates will carry out the wishes of the people who elected them as delegates.

it matters not...

WHETHER YOU BE Democrat or Republican, a participation in the political processes of election will help you better understand what it all about. Everyone should take part. In doing so, they will not only get a better understanding of political processes, but they might be surprised at what political ideas they have been previously supporting by voting one way or another.

and for just...

PLAIN INFORMATION, don't rue the fact that you could not attend the national convention. You probably got a much better picture through TV... though to be sure, you couldn't get the feeling of being there, nor the opportunities of being a part of the process, that you could if you were a delegate.

## NEW RULES —

Continued From Page One

mitted to the Court, and seven members were appointed to the Board, to serve for one and two year terms.

Members appointed for one year terms were Mrs. J. C. Reynolds, and Mrs. Hume Russell, Morton and Mrs. Alvie Harris Bledsoe; Mrs. G. C. Keith of Whiteface and to two year terms; Vern Beebe, Whiteface; B. R. Stovall, Morton and Alton Ainsworth, Bledsoe.

On Thursday, July 21, the Board called a meeting and officially organized the Board, electing Vern Beebe, Chairman and B. R. Stovall, vice chairman. Mrs. J. C. Reynolds was elected secretary.

The Board worked on a set of By Laws and Regulations and these were submitted to the Commissioners' Court, read and approved by the Court.

The Court asked Judge Thompson to convey their thanks and appreciation to the Board members for their time and efforts.

A copy of the new by-laws and regulations, and a copy of an information sheet prepared for those using the building, are contained on page 2 in this issue of the Tribune.

## Whiteface Girl Leads Balloting

Eighteen year old Helen Guajardo of Whiteface, daughter of Mr. and Mrs. Robert Guajardo, Rt. One, Morton has taken an early lead in the contest for being named queen of the Spanish Fiesta, at Levelland, September 14-15-16.

Miss Guajardo, along with four Levelland girls, is seeking the honor which also carries with it a one year scholarship at South Plains College, Levelland.

The attractive Whiteface High school graduate of the Class of 1960, had 3495 votes compared to 3370 for her nearest competitor, Tuesday.

A vote is cast for each 10 cents contributed to the funds to sponsor the Fiesta.

Fourteen business firms in Morton made contributions on behalf of Miss Guajardo, who, with her representatives who are assisting her, has only contacted a small number of business houses.

Vote totals for the contest will end at 11 p. m. on August 20th. Anyone wishing to cast votes for Miss Guajardo can do so by contacting her, George Pompa, Miss Audelia Pompa or Miss Anita Pompa, all of Whiteface.

## VISITING IN FARMINGTON

Mr. and Mrs. D. W. Bolton of Morton are visiting relatives this week in Farmington and Durango, N. M.

## ATTEND ASSEMBLY

Ladies of the WMU First Baptist Church left Thursday (today) to go to Gloride Baptist Assembly near Santa Fe, N. Mex.

Those attending from Morton are Mesdames Charles Jones, E. E. Thomas, Bill Crone, D. F. Burris, C. B. Jones, Roy Hill and T. D. Marshall.

The ladies will return home Sunday night.

## GARDEN CLUB

### WILL MEET MONDAY

Cochran County Garden Club will meet at 8 o'clock Monday evening, August 1, in the home of Mrs. W. C. Benham, 703 West Grant Street. Mr. Ed Thomas, District Supervisor of the Soil Conservation Service, will present the program on Soil Conservation. He will also show pictures of Japanese gardens made while he was in Japan.

## More Than 110 4-H Clubbers Attend Annual Rally Day Here

Over 110 4-H Club boys and girls and visitors registered Tuesday for the annual County 4-H Rally Day.

Activities began at the swimming pool in the County Park. Sack lunches were eaten in the park during the noon hour.

After lunch Bob Nieman and Earl Cox directed games in the Banquet Room of the County Activity Building. The scene then shifted to the skating rink where falls were plenty but spirits still high until good-byes were said at 4:00 o'clock.

Special guests were Mr. Khan Ahmad Khan and Ghulam Z. Siskh of Pakistan. Khan did not think the boys and girls quite as exuberant as the 4-H members in his own country. No person would dare walk by the swimming pool with his clothes on without being ducked, and the sacks would never have been safe from being hidden.

## July 24-30 Is Farm Safety Week

July 24-30 is Farm Safety Week in Texas by proclamation of Governor Price Daniel, and National Farm Safety Week by proclamation of President Eisenhower.

"I urge all Texas families to increase their vigilance against needless accidents," Governor Daniel said, "and further encourage interested organizations and individuals to participate in this program."

One and a quarter billion dollars each year is what our farm accidents are costing us in the United States, according to the Texas Farm and Ranch Safety Council. One single, costly accident can change a profit to a loss.

Many farm accidents are needless and a result of carelessness, either at work, in the home or on the highways. They can be prevented.

Drive Safely! Work Safely! Live Safely! Practice safety and enjoy farm life!

Gary Cooper seeks the aid of Virginia McKenna in solving the dilemma of the mysterious wrecking of his ship at sea in MGM's thrill-packed "The Wreck of the Mary Deare," film version of the Hammond Innes best-selling novel. Also starred is Charlton Heston in his first film role since triumphant "Ben-Hur."

## VISITING IN GLASSFORD HOME

Mrs. J. O. Glassford of Cleburne mother of Bill Glassford of Morton is visiting this week in the Glassford home here.

## IN CONFERENCE

Rev. Fred Thomas pastor of the First Baptist Church is in Bible Conference this week at the County Line Baptist Church north of Shallowater.

## VISIT IN ODESSA

Mr. and Mrs. Dean Jackson and family of Morton were visitors over the week end in the home of a brother of his in Odessa.

## Weeds Can Be Dangerous...

There have been no reported cases of encephalitis in Morton and Cochran County. For this you can show your gratefulness by knocking on wood, crossing your fingers, or any other such foolish gesture... or, by trying to do the things that will help prevent this in the future.

One of the number one things that we, as citizens can do, is to keep all of our vacant lots, or areas surrounding our lots, such as alleys, etc., clear of infectious and noxious weeds.

A second step would be to try to persuade our neighbors to do likewise. With carefully chosen words and a right attitude, most folks will be persuaded to do the job that needs to be done.

A third step is for the city to get to work and offer assistance through its machinery on areas that have been left to long for the individual to care for, or on areas where no one is around to care for it.

Threats, griping, neighborly fusses, or no other method will work nearly so well as an overall community approach toward betterment for all. Most of us have been guilty at one time or another. Up to now, guilt doesn't make much difference, if we all get to work to eradicate this disgraceful blight.

But to wait until some person contacts a disease, directly because of our community negligence, would make this guilt important to us all. It would stamp us all as guilty.

Legal Notice

Legal No. 206  
NO. 95

ESTATE OF EUGENE ROGERS DECEASED IN THE COUNTY COURT OF COCHRAN COUNTY, TEXAS FINAL ACCOUNTING TO THE HONORABLE G. W. THOMPSON, JUDGE OF SAID COURT:

Now comes Eula Rogers, Administratrix of the Estate of Eugene Rogers, deceased, and respectively herewith presents her final account with said Estate as follows: to-wit:

Since qualifying as said Administratrix, the following property belonging to said Estate has come into my hands:

- I. Real Property, NONE
B. Personal Property,
1. The inventory of the place of business commonly known as Rogers Grocery, in Morton, Texas, Value of \$1,800.00
2. Bank account in the name of the deceased, on deposit in the First State Bank, Morton, Texas, \$4,022.13
3. One pick-up truck, make 1959 Chevrolet, value \$1,000.00

In addition to the above, the following items of income have come into my hands as Administratrix:

- NONE
III. The following debts of the Estate have been paid:
Funeral expense of Eugene Rogers, Singleton Funeral Home, Morton, Texas, paid by, Eula Rogers, in the amount of \$1,230.00
Surety Bond for administration of estate of Eugene Rogers, paid by Eula Rogers to Williamson Insurance Agency, in the amount of \$30.00

IV. The debts and expenses still by said Estate are:

- A. Re-imbursment to the person named in paragraph three (3) hereof.
B. Cost of Administration, court cost and Attorney's fees \$240.89

The following property of said Estate still remains on hand:
A. All the property set forth hereinabove in paragraph one (1), less \$1,000.00, heretofore advanced to Eula Rogers from the Bank account, leaving a balance in said account of \$3,022.13 now on deposit in the First State Bank, Morton, Texas.

VI. The person entitled to receive said Estate, and the amount to which such is entitled, according to Probate Laws of the State of Texas, are as follows:
A. All the above listed, inventoried and appraised estate is to pass Eula Rogers, widow of the deceased, in its entirety, unless it is accounting should be properly and validly contested by any unknown heir of the deceased, Eugene Rogers, after the publishing of this final accounting of said Estate, in accordance with the Laws of this State, said contesting must occur within the time prescribed by law or same shall forever be barred.

VII. The following advancements and or payments have been made by me as Administratrix, from the said Estate:
Those previously set forth herein and no other.

VIII. I, Eula Rogers, present proper vouchers in support of each item of this account, and ask that the account and vouchers be filed with the Clerk of this Court.

IX. No inheritance tax is or has ever been due or owing to the State of Texas, with respect to any interests or properties passing through the hands of the Administratrix herein, or otherwise, as is evidenced by the inventory and appraisal of this Estate on its face being insufficient in amount to cause such tax to be due or owing.

(signed) Eula Rogers
EULA ROGERS

THE STATE OF TEXAS)
COUNTY OF COCHRAN)
BEFORE ME, The undersigned

authority, on this day appeared, personally Eula Rogers, Administratrix of the Estate of Eugene Rogers, deceased, who, having been duly sworn on her oath, says that the above and foregoing account contains a correct and complete statement of the matters to which it relates.

LAW —

Continued From Page 1

of beer in their possession for transportation from a liquor store or bar to their home for purposes of consuming same at home; that they are also allowed to have less than a case of beer in their possession at any time, and can consume same at random.

This, of course, is far from the truth. The actual law, in a dry territory, is made for the purpose of preventing anyone, without exception, of violating the rights of other citizens in a dry area . . . one of which is not to be confronted with the use of alcoholic beverages in public.

In the interest of "passing the word", though most residents should be familiar with it, the Sheriff has asked the Tribune to publish the following quoted excerpt from the law:

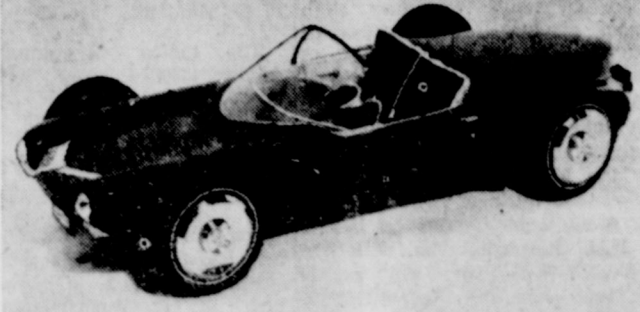

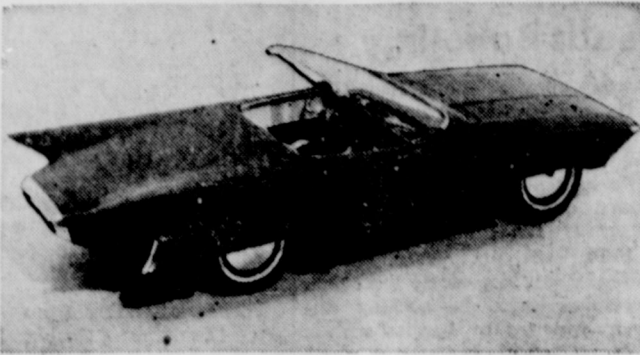

Sec. 4 (c), (1). It shall be unlawful for any person to consume any alcoholic beverage in any public place, or for any person to possess any alcoholic beverage in any public place for the purpose of consuming same in such public place, at any time.

(2) Any alcoholic beverage possessed in violation of this Section is declared to be an illicit beverage and can be seized without warrant to be used as evidence of violation of law, and any person in possession thereof or who otherwise violates any provision of this Section may be arrested without warrant.

(3) Any person who violates any provision of this Section shall be guilty of a misdemeanor, and upon conviction, shall be punished by a fine not exceeding Fifty Dollars (\$50).

Repeated protests of citizens may bring about the necessity for an all out drive to halt those who persist in breaking the law, without any regard for others, and often times in a contemptuous manner.

Young Texas Designers Win Honors

TEXAS BOYS who designed and built these sleek model cars for the 1960 Fisher Body Craftsman's Guild model car competition have won first state awards of \$150. The upper car was entered by Darwin Hawthorne of Greggton. The lower car was built by William D. Payne of El Paso.

Texas Boys Win National Awards In Fisher Body Annual Contest

Two Texas boys have been named among the nation's best model car designers and builders in the 1960 Fisher Body Craftsman's Guild model car competition.

The young men received \$150 first state awards for the model cars entered in this year's competition. Darwin Hawthorne of Greggton is the senior division winner and William Payne of El Paso, the junior division winner.

Other state winners are: John Knesek of San Antonio as the senior division second state winner of \$100 cash; and Ashland Brown of Prairie View who won an identical award in the junior division.

Third place honors of \$50 were won by Robert Straight in the senior division. A like award was given to the junior division winner, John Steiner. Both boys are from Houston.

James Bright of Austin; Robert Murphy of El Paso; Paul Whitson of San Antonio; Heriberto Cord-

ero of Del Rio; and Dan Goodwin of Dallas won \$25 honorable mention awards in the senior division. Similar awards went to Junior division winners Ronald Jetter of Big Spring and Lee Davkins of Fort Worth.

The awards won by these young men are part of \$117,000 in cash awards and university scholarships offered by the Fisher Body Craftsman' Guild this year.

MORTON'S DOLLAR DAY MONDAY

Busy Round of Activities Keeps Jamboree Scouts Jumping Writes David Ross, Tribune Special Correspondent

(Editor's Note: The following letter was received from David Ross of Morton who is attending the 5th National Jamboree at Colorado Springs, Colo. Also attending from here are Ray Luper Charles Ledbetter, Mike Doss, and Bill Hanson. Raymond Ross of Morton and Orville Rankin of Whiteface are adults serving as assistants at the Jamboree.)

July 23, 1960 NATIONAL JAMBOREE, COLORADO SPRINGS, COLO. — I am sorry for not writing sooner, but we have had a very, very tight schedule.

We, the seven buses in our tour group, left Lubbock Monday morning (July 18). We slept at Pueblo Colo., where we met some boys from Florida, some of whom even had alligators to trade.

The next day we went to Denver and saw the Denver Museum. Wednesday we went to Colorado Springs where we set up camp.

Thursday we went to Pikes Peak by car and had very much fun. Friday was the official opening of the Jamboree. Friday night we went to the Grand Arena where we saw many beautiful things.

Jim Arness, or the Matt Dillon of TV, was there. We 55,000 boys saw a grand opening of about 300 flags go into the arena.

We heard the president of Scouting speak to us then we saw a pageant of American history.

At last they had the fireworks, the best part of the show. It was very beautiful, 55,000 boys sat spellbound looking at \$5,000 worth of fireworks that were beyond imagination.

All during the Jamboree there is much trading going on. Patches, horned toads, cow horns, necker-

chief slides, furs, rocks, and many other things.

To give you a better look at the Jamboree I have enclosed the daily paper for two days and will send you all seven.

I have to stop now because in 23 minutes we are going to have a campfire and entertain a troop of Scouts from Ohio.

I'm sorry this is my first letter.

RECOMMENDED in The Official 1960 Guide for Controlling Cotton Insects

NEW EFFECTIVE ECONOMICAL STROBANE COTTON INSECTICIDE WITH DDT

Five years of testing across the Cotton Belt have proved the outstanding effectiveness of STROBANE as a cotton insecticide.

Now STROBANE has been combined with DDT for added effectiveness. The STROBANE-DDT combination controls resistant boll weevil, as well as the bollworm, cotton leaf worm, garden webworm, lygus bug and other mirids, cotton fleahopper, thrip, cotton leaf perforator, stinkbug, tarnished and rapid plant bug, fall armyworm, cutworm and grasshopper.

For your convenience, STROBANE and DDT are available in several formulations for spray or dust applications. For better control of more cotton insects, use STROBANE-DDT.

Comment from the Capital — THE BIG "BENEFIT" BILL by Vant Neff

Ever think how closely our high cost of living is tied to the high cost of employment? Once upon a time, the cost of employing a person was just the salary he was paid for the work he did. Not today. Hidden payroll costs now include such extras as pay for holidays and vacations, pensions, health insurance, life insurance, Social Security, taxes for unemployment benefits and workmen's compensation. About half of these "fringe benefits" don't show up in the employee's pay envelope, but they're paid for by the employer — in addition to regular wages.

Fringe benefits have shot up more than twice as fast as wages in the past ten years. They're still going up. This year, the cost of hidden benefits hit 3 billion dollars, bringing the total bill footed by employers to nearly 30 billion dollars. Present estimates indicate the bill will bounce up another 3 billion this year.

WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

It is possible that due to this being an election year, Congress will not complete all the vital projects before adjourning. But there is no doubt, when a tax revision bill is considered, definite consideration will be given this matter of taxation of cooperatives.

But an enterprise qualifying under the present loose law as a cooperative theoretically pays out its profits in the form of patronage dividends.

# Hi-Plains Hi-Lights

NEWS from the High Plains  
Research Foundation

## Tests Show Potash, Nitrogen Increase Wheat Yields

The 1960 yield data from two wheat fertilizer tests were released by Delbert Langford, associate agronomist, of the High Plains Research Foundation. The two varieties used in the tests were Early Triumph, a standard high yielding variety, and Tascosa, a new hard red winter variety with exceptional adaptability for the High Plains area.

The following observations were made in these tests: (1) nitrogen alone increased yield an average of 19.08 bushels per acre above no fertilizer; (2) phosphate alone gave an increase of 16.66 bushels per acre; and (3) potash in combination with nitrogen and phosphate did not increase yield.

While the phosphate alone wasn't the most profitable fertilizer application, this is the first time at the Foundation that phosphate alone has given a significant increase in yield. This indicates that as these Pullman clay loam soils are cropped heavily year after year, there is a greater need for phosphate fertilizer.

The average yield of the Tascosa variety in fertilized plots was 61.56 bushels per acre and the Early Triumph averaged 52.17.

The fertilizer treatment which produced the highest yield in the test was not the most profitable. The fertilizer treatment giving the highest average yield was 120 lbs. nitrogen and 80 lbs. phosphate. This returned \$23.99 per acre above the cost of fertilizer, but with only 40 lbs. of nitrogen alone, the yield was almost as high and the net return per acre was \$30.55.

This year's wheat fertilizer data at the High Plains Research Foundation are good indications of what results can be expected from fertilizing wheat on Pullman clay loam soil. The application of fertilizer on winter wheat is indicated to be a profitable practice, but additional research is required to determine specific fertilizer recommendations.

### VISITING SON

Mrs. Venita Butler of Dallas is spending 2 weeks at Morton with her son S. B. Sims and family.

### RETURN FROM CALIFORNIA

Mr. and Mrs. W. C. (Babe) Vandlingham and children returned Sunday from a trip to California where he has been attending a school for bowling alley management and Mrs. Van and children have been vacationing.

## Southern Commissioners of Agriculture Urge Legislation for American Farmer

An urgent request that Congress adopt necessary legislation to enable the American farmer to achieve 100 percent parity in income was among the most far reaching resolutions adopted by the 14 state Southern Commissioners of Agriculture at their 1960 meeting in San Antonio.

It was emphasized by the Southern Commissioners in their resolution that "in past several years net farm income has shown a rapid decline from \$15 billion to \$11.5 billion, and farm mortgage indebtedness has increased from \$7 billion to \$11 billion, and farmers are not receiving their share of the national wealth."

The Commissioners also made it clear that in their opinion "present farm programs are obviously inadequate to meet farm needs."

No attempt was made to spell out any particular course of legislation or to restrict Congress in coming among the most far reaching resolutions adopted by the 14 state Southern Commissioners of Agriculture at their 1960 meeting in San Antonio.

Instead, the resolving clause stated simply: "Now, therefore, be it resolved, that the Southern Commissioners of Agriculture in convention assembled at San Antonio, Texas, June 10 - 13, 1960, urgently request the Congress to adopt necessary legislation to enable the farmer to achieve 100 percent parity income."

This is one of the resolutions which was forwarded to Rep. Chester A. Bowles (D-Conn), chairman of the platform committee before the 1960 Democratic National Convention in Los Angeles.

Another notable resolution adopted by the Commissioners observed that "credit is a necessary implement in helping small family sized farms, and interest rates to the farmer are too high." It was resolved that Congress be urged to "appoint a committee to study the needs of small farmers for credit and that appropriate legislation be enacted."

The Texas Commissioner of Agriculture was elected president of the Southern Commissioners, succeeding Agriculture Commissioner S. E. (St) Corley of Mississippi.

Raytheon Company revealed today that it has under development an electronic oil well heater which may aid in the recovery of some of the vast oil reserves which cannot be brought to the surface by present methods. It is estimated that these inaccessible resources comprise seven times the amount of oil as that which has been considered economically recoverable up to this time.

Raytheon engineers are working under terms of an agreement announced today with Petro-Electronics Corp., of Denver, Colorado. Bill Tomberlin, veteran independent oil producer is president of Petro-Electronics. Engineers of this company are contributing their geological and oil production experience to the cooperative development program.

The Interstate Oil and Gas Compact Commission reports that in the United States alone oil reserves of 182 billion barrels are beyond the reach of conventional oil industry techniques.

Petroleum engineers have proved that the yield of many oil wells can be increased if heat can be applied to the oil bearing rock thousands of feet underground. If the temperature of the molasses like oil in some of these inactive or slow producing wells can be raised 20 degrees in a two foot area around the well bore, petroleum engineers feel it can be brought to the surface.

The new study, being conducted by Raytheon's Commercial Apparatus and Systems Division, is directed toward producing a unique system employing special electronic generators of very high frequencies, in the microwave band. The microwaves emitted are designed to provide the quick acting penetrating heat that petroleum engineers seek.

Raytheon engineers will package 5,000 to 10,000 watts of power into a capsule just six inches in diameter so that the experimental device can be lowered into a low producing well in northwestern Montana, site of the first field tests scheduled for late this summer. The well selected for the first test is 3,500 feet deep. Subsequent tests will be conducted in wells of other depths and formation types.

The principal of microwave heating was introduced by Raytheon when the electronics company created the Radarange microwave oven shortly after World War II. These high speed ovens that can cook complete meals in minutes, are widely used in restaurants and institutions. They are rapidly gaining acceptance in homes where they are included in the electronics ovens offered by leading domestic range manufacturers.

Everyone is invited to bring a basket lunch.

Mr. and Mrs. Doyle Goldsmith and children of Ft. Sumner, N. M., spent the weekend with their grandfather, J. F. Bass.

Reunion Aug. 7 At Mackenzie Park

The S. M. S. Ranch - Calgary reunion is scheduled to be held at Mackenzie State Park in Lubbock on Sunday, August 7th, it has been announced by Lila Swanner, Whiteface, secretary of the association.

Raytheon engineers are working under terms of an agreement announced today with Petro-Electronics Corp., of Denver, Colorado. Bill Tomberlin, veteran independent oil producer is president of Petro-Electronics. Engineers of this company are contributing their geological and oil production experience to the cooperative development program.

The Interstate Oil and Gas Compact Commission reports that in the United States alone oil reserves of 182 billion barrels are beyond the reach of conventional oil industry techniques.

Petroleum engineers have proved that the yield of many oil wells can be increased if heat can be applied to the oil bearing rock thousands of feet underground. If the temperature of the molasses like oil in some of these inactive or slow producing wells can be raised 20 degrees in a two foot area around the well bore, petroleum engineers feel it can be brought to the surface.

The new study, being conducted by Raytheon's Commercial Apparatus and Systems Division, is directed toward producing a unique system employing special electronic generators of very high frequencies, in the microwave band. The microwaves emitted are designed to provide the quick acting penetrating heat that petroleum engineers seek.

Raytheon engineers will package 5,000 to 10,000 watts of power into a capsule just six inches in diameter so that the experimental device can be lowered into a low producing well in northwestern Montana, site of the first field tests scheduled for late this summer. The well selected for the first test is 3,500 feet deep. Subsequent tests will be conducted in wells of other depths and formation types.

The principal of microwave heating was introduced by Raytheon when the electronics company created the Radarange microwave oven shortly after World War II. These high speed ovens that can cook complete meals in minutes, are widely used in restaurants and institutions. They are rapidly gaining acceptance in homes where they are included in the electronics ovens offered by leading domestic range manufacturers.

Everyone is invited to bring a basket lunch.

Mr. and Mrs. Doyle Goldsmith and children of Ft. Sumner, N. M., spent the weekend with their grandfather, J. F. Bass.

Reunion Aug. 7 At Mackenzie Park

### TEXAS TIMBER TOPICS

Nearly everyone has heard of "dry rot" in wood, and yet there is no such thing. Rot or decay is accomplished by the action of fungi as they consume wood for food. These fungi cannot grow without water. Wood must have a moisture content of at least 20% before fungi will attack it. Thoroughly dry wood will not rot.

Some fungi can remain dormant or inactive for years without doing any damage. Then, when the conditions of moisture & temperatures needed for their growth occur, these fungi become active. Other wood destroying fungi transport the water needed for their wood consuming activity through tubelike strands or tunnels which establish contact with the ground.

To prevent decay, wood should be installed dry and be kept dry. Proper construction practices can help maintain such conditions and eliminate decay damage and expensive repairs to houses and other wooden buildings. Remember, dry wood will not rot.

and hire an auditor to keep track of the receipts from concessions operated in state parks. Cavness also urged that the next Legislature act on a Legislature Council report presented to the 1959 session making recommendations for the counting, expanding and abandoning of various parks.

Parks Board has designated a new state park to be known as San Marcos State Park to be located near the proposed Canyon Dam site on the Guadalupe River. SCHOOL REPORT CARD - State Commission on School Accreditation has weighed Texas public schools against state standards and found 54 wanting.

Inspection teams recommended disciplinary action against 20 schools and warnings of a need for immediate improvement by 34 more. If a school loses its accreditation, the work of its students cannot be transferred to accredited schools with full credit.

Commission recommendations will be reviewed by the State Board of Education at its September meeting. TRAFFIC TOLL CUT - While nationally the drop in traffic deaths for this year is one percent, Texas has improved by nine percent.

Texas traffic deaths up to mid July of this year totaled 1,049, compared to 1,152 for the same period last year. A veteran highway patrol officer said he believes the new auto insurance rates which jump sharply for motorists with accidents or violations on their records, have contributed substantially to the better record.

But radar, he said, had the same effect until people got used to it and became indifferent again.

WILL ATTEND ENMMI NEXT SEMESTER Andy T. Wilson, son of Mr. and Mrs. Van Greene of Morton, will enroll at Eastern New Mexico Military Institute this fall, he said Friday.

Andy may be nearly alone from Morton, though this city has sent a lot of boys to ENMMI the past four years. He said Ray Tucker will return to enroll in Morton; Tommy Wall got married; and Lowell Hatcher is transferring to Oklahoma Military Institute, since his parents moved from Morton last year.

Wilson said he will enroll at NM MI around the 1st of September.

County Reaches 48.2 Pct. of Goal In Bond Sales

"Savings Bond Sales through June 1960 totaled \$34,103", W. W. Williamson, chairman of Cochran County Savings Bonds Committee reported recently. "Our county has now reached 48.2 percent of its 1960 goal of \$50,000 June Sales were \$3,126."

South Plains Scout May Get Place On Scientific Arctic Expedition

An explorer Scout from the South Plains Council may have the opportunity to go on an expedition to the Arctic.

The announcement came as a result of a new arrangement by the Boy Scouts of America with the Government to send a scout with a scientific expedition, as Dr. Paul Siple and Richard Chappell have represented scouting on past expeditions.

According to Cliff Cummings of the South Plains Council, a local scout between the ages of 17 and 19 will be nominated to serve as a junior scientific aide at Camp Century in Greenland next fall and winter. The young man selected must be physically qualified to live in Arctic conditions where temperatures will range as low as 60 degrees below zero. He must also be a high school graduate.

Mr. Cummings asked anyone interested to forward an application and supporting material to the Boy Scout Service Center, box 3055, Lubbock, Texas by August 10th.

The winter research program at Camp Century consists of projects in civil engineering, Geology, Glaciology, Meteorology, and polar medical problems. The camp will be operated by a military contingent of about 65 commissioned officers and enlisted men under the command of a U. S. Army Corps of engineers Captain. In addition, there will be about fifty scientists, engineers, and technicians engaged in research work.

The expedition will leave the United States about October 15, 1960 and return around April 15, 1961.

The Scout representative will be selected on August 30 from among those recommended by each of the

## LITTLE LEAGUE BASEBALL

### Giants Use Strong Finish In Make-up Games to Climb in League Standings

#### CARDS IN COME BACK TO 5 WIN OVER CUBS

The Little League Cards, after getting the Cubs a 5-0 lead at the end of two innings, scored four runs in the bottom of the fourth game to knot the game and went on to win a 6-5 triumph.

The league champs did it through Cub errors. Gordon McDaniel and then stopped for the first two innings, before the champs took advantage of two Cub errors in the game. Then in the bottom half of the 6th inning, they won the game with a single, a double and an overthrow at 3rd base that sent the winning run scampering home.

The victory had no effect on the league standings.

#### GIANT ROCK SOX BY 10-0 MARGIN

Breaking loose for three runs in the 3rd inning and seven in the 4th, the Little League Giants blasted the Sox 10-0 behind the effective hurling of Freddie Turley, Saturday.

Each team had only one hit going into the 5th inning, a 0-0 contest. Then a walk, an error on the pitcher and another walk loaded the bases. One wild pitch by the Sox ended the game, as far

as the Sox were concerned. When the Sox got through throwing the ball around after the wild pitch, three runs had scored, the bases were empty, and the Giants still had only one hit.

The Giants poured across 7 runs in the final inning, using four hits, two walks and three more errors.

The Sox garnered only three hits in the game, two of them back-to-back singles in the final inning.

#### GIANTS TRIUMPH OVER PIRATES

The Little League Giants put on their hitting clothes Monday and pounded out a 16 to 9 triumph over the Pirates in the first of five rescheduled make-up games which will close the season.

Giants batters lashed out 13 hits in the contest that saw them fall behind 2-0 in the first two innings, and then go to work with a sustained batting offense.

They shelled Kenny Palmer from the mound in the 3rd inning and continued their attack against Jim Street.

The Pirates, trailing 15-3 came up with a last ditch attack in the 5th and 6th innings against Penn Tom Burke, who relieved Freddie Turley on the mound for the Giants . . . but they were too far behind to catch up.

## LITTLEFIELD WINS 9 TO 0 . . . MYSTERY OF CURVE BALL CONFOUNDS MORTON AS THEY ARE OUSTED FROM LITTLE LEAGUE MEET

Two home runs and curve ball pitching completely stymied the Morton Little League All Stars and took them out of the District playoffs at Littlefield, Thursday.

Actually, one home run was enough. The Littlefield group won the game, 9 to 0. But the second home run added a little frosting to the cake.

Star of the game for the Littlefield team was a Negro pitcher, Wilmer Williams, who broke off sharp curve balls past the Morton batters all afternoon, despite the fact that the process was obviously hurting his arm.

Morton collected only one hit in the game, a bloop single by outfielder Kenny Palmer, that should have been caught but fell between the shortstop and left fielder, then gambled on getting to second base, and again should have been out, but the second baseman let him slide in under the tag.

But that was Morton's only golden moment of the afternoon. They collected two walks and got another man on second base on a two base error by the left fielder. Then, with two men in scoring position, manager Weldon Newsom put Gordon McDaniel back into the game as a pinch hitter, and the stroke of genius almost paid off. Mac hit the first pitch a line drive, the hardest hit ball of the day for Morton, but it was right at the 3rd baseman for the final out that snuffed out the final threat.

Littlefield, who had beaten Morton in the regional playoffs at Canyon in 1958, 3-2; and who had edged out Morton last year, 7-6; wasted no time in settling Thursday's issue. Gordon McDaniel, Morton pitcher, was too nervous to find the plate. He walked the first batter, got behind to the second man, James Black, and then fed him the cripple. Black powered it out of the park for a two run homer.

In the second inning McDaniel issued another walk, second baseman John St. Clair let one roll through him, and McDaniel fed another gopher pitch to Jerry Pack Smith. That was a 3 run homer and Morton trailed, 5-0.

Penn Tom Burke relieved on the mound for Morton and pitched fairly steady ball for three innings, allowing two more runs before Joey Newsom wound up the pitching chores for Morton.

Defensively, the Morton lads were nervous. David Newsom booted one at shortstop and dropped another; St. Clair let one roll through and threw another one wild; Kenny Palmer let loose one wild throw in right field and pitcher Joey Newsom dropped one at home plate. But even so, these errors did not beat Morton. The

program was titled "The Christian Youth Leisure." Attending were Mesdames: Galt, Stegall, Reeves and Smelser.

Spending Sunday at Portales with the T. G. Gaddys were Mr. and Mrs. L. W. Chapman, Mr. and Mrs. Cass Stegall, Mr. and Mrs. Tommy Galt and Mr. and Mrs. George Shuman.

Kathy Reeves of Portales is visiting this week with her grandparents, Mr. and Mrs. Leon Reeves.

Mrs. Wanel Long of Midland visited the past weekend with her parents, Mr. and Mrs. C. B. Hightower.

Annonie Hightower is working in Midland this summer and will attend Midland Commercial College this fall.

#### Posse To Ride

#### Twice This Week;

Blanked at Snyder last Wednesday by real tough competition, the Cochran County Sheriff Posse will try twice more this week to bring home rodeo parade trophies.

The Posse will ride at Earth today (Thursday) and will journey to Hereford for parade competition again Saturday.

**MORTON'S DOLLAR DAY MONDAY**

damage was already done.

It was Williams' pitching that sounded defeat for Morton. The tall boy used his curve ball only to puzzle Morton batters in the first two innings. He pitched like a big leaguer, throwing a fast ball, a curve, and a change up pitch. But as the game progressed and he became aware that the Morton batters had never seen a curve ball and didn't know what to do, he began throwing mostly curve balls. The last two innings he threw nothing but the curves.

He actually had only one called strike on a curve all afternoon. But he must have had 30 swinging strikes at the pitch that was

usually outside the plate about a foot. Morton batters didn't know what it was, since the Morton Little League discourages curve ball pitching from a youngster, for fear of hurting his arm. They would see the pitch coming in and swing at it in amazement, wondering why they didn't hit it. On the one called strike, the batter jumped out of the way and the ball curved across the plate.

But when the game was over, Williams, who had his hour of glory, walked off the mound with his arm hurting from the tremendous strain that curve ball pitching places on the elbow. Littlefield just had too strong

and well balanced team for the Morton boys who weren't mentally ready for this one. For Morton the whole thing was a rush affair, the playoffs coming a week early.

the all star team having only two short workouts, the boys badly in need of some batting practice.

was little Richard Garza, catcher, who handled two pop flies in fine fashion, and repeatedly guarded home plate on bad pitches, throwing, etc.

## 4-H DRESS REVUE

The District 4-H Dress Revue will be held in the Ballroom of the Student Union Building on the Texas Tech Campus at noon Friday, July 29.

Lois Courtney will compete in the Senior Division of the revue. Girls in the senior Division are 14 years old or older. Each County in the district will have an entry and the top five will compete in the state contest which will be held October 8 in the Women's Building at the State Fair of Texas. The first place winner there will receive a free trip to the 4-H Congress in Chicago in late November.

Laquita Masten will compete in the Junior Division at the District revue. The Juniors compet-

ed for the first time last year. They added so much to the show that a place was made for them again this year.

The revue will be preceded by a luncheon sponsored by the Plains Co-op Oil Mill, Lubbock.

Attending the revue from Cochran County will be Lois Courtney, Mrs. W. K. Courtney, Laquita Masten, Mrs. James Masten, Mrs. Bill Wood, Mrs. Billy Wood, Earl Cox, who will be Lois' escort in the revue, and your H. D. Agent.

## 4-H ELECTRIC CAMP

Preparations are about complete for the 4-H Electric Camp which will be held at Scott Abel 4-H Camp in New Mexico, August 1-5. The camp is being sponsored by the Southwestern Public Service Company and their of-

ficials and Home Economists will be there to direct the camp.

The 4-H Club Girls who will attend from Cochran County are Lois Courtney, Laquita Masten, Colene Hinson and Kay King. Mrs. Ted Bryant, Adult Leader, will also attend, also several 4-H Club Boys and the Extension Agents.

Most of the 4-H members, leaders and Agents from the eleven chosen counties will go to the camp on chartered buses.

## H. D. PICNIC

The annual picnic for Home Demonstration Club members, their families and friends will be held in the Cochran County Park, Saturday evening, August 6.

Each family will bring a picnic lunch and tea for their families and friends. All club members will receive letters with more details.

## SAFETY COUNCIL SPEAKS OUT ON FARM POND SAFETY

The farm pond or stock tank has become a familiar sight in

Texas. These ponds are important sources of pleasure and that indispensable commodity — water. Unless proper safety measures are taken, however, these same useful ponds can become a source of tragedy, says the Texas Farm and Ranch Safety Council.

To emphasize the seriousness of farm pond hazards, the Safety Council points to a recent nation wide tabulation of causes of farm deaths. Texas ranked sixth in the number of deaths caused by drowning. This is one "Top Ten" list, they added, that Texas should not be on.

Anyone who has a pond or tank on his land should observe, and enforce, the following safety precautions. These measures could save a lot of grief, reminds the Safety Council.

Post safety instructions for boating, swimming and skating. Mark safe swimming areas.

Place lifesaving devices such as ring buoys, ropes and long poles around swimming areas.

Do not allow anyone who cannot swim to get into the water. Know accepted methods of artificial respiration.

Fence pond so that children cannot play around pond without supervision. Make sure that an adult supervises all recreation around pond.

## FOOD FOR CAMPING TRIPS OR OUTDOOR MEALS

For a camping trip, a picnic, or a meal in the backyard, food cooked in aluminum foil is delicious and easy to do. You can bake and serve in the foil and save on dish washing.

Vegetables, meats and fruits can be "pressure cooked" in their own juices this way, with only a bit of seasoning, shortening, butter or bacon added for flavor and moisture.

For best results, these suggestions are offered:

Wrap carefully — piece of foil should be large enough to allow for drug store wrap. Place food in center. Add butter or fat and

seasonings. Fold edges until tight on food. Double the layer around the food by repeating the process with another piece of foil.

Place package directly on a bed of hot coals. Never use a flaming fire (except when using reflector oven).

Cooking time will vary with type of wood, wind strength and other factors. Recipes can give only approximate time. Turn food package at approximately half its cooking time.

Serve contents delicately from the wrap, doing away with a dish or plate.

## USING FROZEN BREAD

Use frozen bread when you must make sandwiches several hours ahead of time. It is easier to spread than fresh bread. The chill from the frozen slices will keep the filling fresh. When slices thaw, they have the characteristics of fresh bread.

## VISITORS AT FIRST METHODIST

Guests Sunday morning at the First Methodist Church, Morton, include Mr. and Mrs. O. D. Cokerham of Sudan, Mrs. J. O. Glassford of Cleburne, Miss Jean Spurlock of Amarillo, Charles Adams of Canadian, and Elanor Dunn of Amarillo.

## Coming to the Rose Theatre

Charlton Heston (left) and Gary Cooper struggle to save the ill-fated freighter, Mary Deare, in a storm-tossed sea in MGM's exciting drama, "The Wreck of the Mary Deare," film version of Hammond Innes' best-selling novel. Much of the CinemaScope and color picture was shot on location in London, Southampton and the English Channel. Guest stars in an impressive cast include Michael Redgrave, Emyln Williams, Cecil Parker, Alexander Knox and Virginia McKenna.

## SCHOOL TAX —

Continued From Page One

another building costing more than \$30,000 or \$40,000.

At present, the Morton school district's valuation, is far below that of other area schools in comparable size school districts. (see chart page one).

Re-emphasized was the fact that the school district can not under law build any more buildings, regardless of the valuation, without the necessary bond issue election. The final decision will and must be up to the voters of the district. Rumors to the contrary are false.

Also re-emphasized was the fact that while the valuation of the district has been raised from around \$7,055,000 to around \$12,000,000 the actual tax money collected from the \$1.20 rate (as opposed to last year's \$2.00 rate) will be very close to the same amount last year. The budget for the coming year is to be very nearly the same as this year's \$374,552.00.

Why then, the question is asked, is the value of some property being raised so much, and why will the taxes be substantially higher. The answer is simple — much of the property, even under the old system, was so far undervalued with other property, that the equalization program, and not the change in tax program, is what is reflected in the raise.

The Board members also agreed once again, that in any attempt to re-evaluate and re-classify property, mistakes will always be made by the evaluators. But these mistakes take only time and consideration to correct, if the property owners will meet with the tax equalization board, as law stipulates, and point out the mistakes.

To say that the cost of operation of schools will go down, during a period when the country over schools are not nearly as well equipped as they should be, and teachers are far underpaid, would be foolish figuring. The cost will go up, each year. But every effort has been made in the new budget to keep the cost of operation as constant as possible. Any increase will be only a very small percentage.

Board members examined some of the classification cards on property that had been called to their attention. In some instances they felt mistakes had been made and expressed assurance that the Equalization Board will adjust the mistakes to their proper valuation.

They examined a chart brought to the Board last year by Supt. John Barnes, showing the evaluations of other local school districts in this area, and their tax rate. It showed Morton to be far down the ladder in value, and far up the ladder in tax rate. The action being taken this year will adjust these two positions.

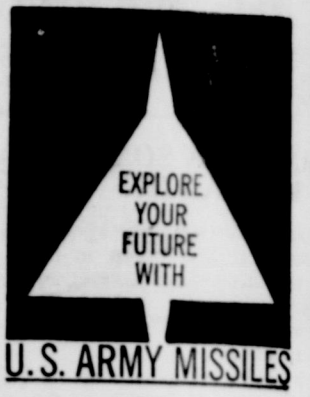

The Board meeting without Supt. John Barnes, who is out "hunting" teachers to fill the 15 openings on his staff, made no motions at the meeting. They did hear a composed news article stating their ideas on the subject.

They also felt the public had been in some instances mistakenly informed about the program — and in some instances, uninformed.

One of the ideas they found

existent was that persons who made the property inventory, from which the classification cards were drawn up, set the value of the property. This was completely false. A classification board of three farmers on rural property and three Mortonites on city property, did the property classifying, which applied to it the values set up by the school board for types of property.

Two members of that classification board are also serving on the equalization board.
