MORTON, TEXAS, THURS., MAR. 12, 1964

Three for three

MORTON VOTERS will have three names for the offices on ballots in the city election on March 7. Candidates, looking over the council

room at City Hall are, Kenneth Thompson, candidate for councilman, Dean Weatherly, candidate for mayor and Tom Rowden, candidate for councilman. TRIBUNE Photo

## Three city candidates file

Huggins, acting as spokesman for the Eastside Church of Christ, asked the council for an order on property between the church and Highway 116. Huggins said the church wished to utilize the vacant area when NE Taylor street is vacated as a parking area. Attorney Fred Stockdale was asked to check into the legality of granting such a request. Members of the council expressed their support for the request, if legal. An ordinance requiring parallel parking on Highway 214 within the

city by state law. No date was set for the regulation to go into effect.

A recent request by H. Y. Christian and L. W. King was briefly discussed. The men met with the council at the last regular meeting and asked that a street be opened abutting property owned by them and Mark Kennedy. The land is located near the Morton Gin Company. Oden reported Kennedy had been contacted and would meet with the council at the next regular meeting to discuss the proposed street. To open a street, owners of property abutting the proposed street would be required to deed sufficient footage to the city for the street.

Three candidates for three city offices were certified by the council. Dean Weatherly, candidate

for mayor, Tom Rowden and Kenneth Thompson, candidates for councilmen, were certified and will appear on ballots for the city election April 7.

A petition with 12 signatures were presented by Mayor Jack Wallace. Wallace stated the petition came in the mail and asked that the name of R. W. Hill be placed on the ballot as candidate for mayor.

City Secretary Elra Oden was instructed to contact Hill, who reported he did not wish his name placed on the ballot as candidate and that he knew nothing of the petition.

The council members discussed the paving project with A. L. Purcell who reported results of persons contact concerning the paving.

## Council approves additional officer as radio operator

The City of Morton will employ an additional policeman whose duties will be night police radio dispatcher.

The dispatcher will man the base radio station located in the sheriff's office in the court house from 9:00 p.m. until 5:00 a.m. Members of the Morton City Council voted unanimously to hire the additional policeman at a meeting Monday night.

Presently, a city policeman is on duty 24 hours a day. The Morton Police Department uses the Cochran County Sheriff's base radio station and is dispatched by the sheriff's office radio during the night.

There is no officer on duty at the sheriff's office at night. Persons wishing to contact an officer at night must either call an off duty officer at his home by telephone, or seek out the policeman on duty in the patrol car.

With the addition of a dispatcher, persons requiring police assistance will be able to call the office by telephone. The dispatcher will then be able to direct the policeman in the patrol car by radio.

The dispatcher would also aid in the event of a fire. Persons would

be able to call the office, report the fire to the dispatcher, who would sound the alarm and direct firemen to the scene. Presently, to report a fire at night, a person must either go to the fire station and sound the siren, find the policeman in the patrol car, or call an off-duty city employee or member of the fire department who must get dressed, drive to the station and sound the alarm.

Members of the council discussed installing a remote control for the fire siren at the sheriff's office, enabling the dispatcher to summon firemen quicker.

A dispatcher will also aid the night policeman. With no dispatcher, the officer on duty has no way to obtain assistance, if needed.

The two-way radio in the patrol car will reach the Levelland Police Department base radio station, sometimes, depending on the location of the patrol car and atmospheric conditions.

Councilmen, discussing the new position, stated the dispatcher would be a regular policeman.

Qualifications for the dispatcher would be the same as those for any other member of the police department.

Salary for the new position will be determined by the applicant's experience, based on the present Morton Police Department salary scale.

City Secretary Elra Oden is presently accepting applications for dispatcher.

## Booster banquet Friday

The annual athletic banquet, honoring the boy and girl athletes of Morton High School, is scheduled for Friday night, March 13, at the school cafeteria. The event is sponsored by the Morton Athletic Boosters.

Merrill Green, assistant football coach at Texas Tech College in Lubbock, will be guest speaker.

One of the highlights of the evening will be the revelation of the Most Valuable Football Player, and the names of those athletes chosen as "Hustling-est" by their teammates. The griddler receiving the "most valuable" award will be presented with a traveling trophy by last year's recipient, Lester Dupler. The trophy was donated some years ago by Mr. and Mrs. Fred Morrison.

The announcement of the two "hustling-est" Indians, one each for football and basketball, and the "hustling-est" Maiden will be made by Gene Snyder, publisher of the Morton Tribune, who inaugurated the award in 1962. Their names will be engraved on a plaque presented last year to the high school by the Tribune.

James Dewbre, president of the booster club, will act as master of ceremonies. Superintendent of Schools Eli Douglas will give the invocation, and the two head coaches will introduce the players in their respective sports. John Paul Jones is the head grid mentor, while Ted Whillock is in charge of both boys' and girls' basketball. Assistant coaches in the Morton schools are Dave Corley and Kirby Lackey.

Tickets for the banquet are on sale at the First State Bank and

the Morton Tribune, and although sales are lagging somewhat, a good crowd is expected for the banquet. Mrs. M. C. Ledbetter is in charge of decorations, and Mrs. Ray Griffith is chairman of the program.

Officials of the booster club emphasized this week that the banquet was to honor the girl athletes as well as the boys. At times in the past, some of the girls stayed away from the event, feeling that it was just for the boys. This is definitely not the case, the club representatives stated.

Merrill Green, feature speaker, played on three national champion-

ship teams in Oklahoma, and was a star on the Fort Sill grid squad after graduation from OU.

Green, a native of Oklahoma, was a star halfback from Coach Bud Wilkinson's teams of 1950, 1952 and 1953, missing all of the 1951 season because of a knee injury. He scored Oklahoma's only touchdown in the 1951 Sugar Bowl Game with Kentucky, and in his senior year, Green scored the winning touchdown on an 86-yard gain against Texas, and against Colorado, tallied a last period score

## ★ Toastmasters

An organizational meeting will be held in the Prairie Room of the Wig Wam tonight at 6:14 to form a Morton Toastmaster's Club. A representative of the organization will be available to explain the function of Toastmasters International, a club that helps members become more effective speakers. Officers will be elected at the meeting tonight.

## Transferred to Lubbock

Jack Loran resigned as president of the board of trustees of the Morton Independent School District Monday night. Loran, in a letter of resignation submitted at the regular monthly meeting, explained he was being transferred to Lubbock in May.

Loran thanked the trustees and expressed his pleasure at having the opportunity to serve with the board. He stated the only reason for his resignation was the transfer.

Henry Williams was appointed to

was unanimous.

Bids to supply the school system with gasoline were opened at the Monday night meeting. The low bid of \$2.040 cents a gallon for regular gasoline was submitted by the Humble Oil Company of Levelland.

Merritt and Son, Mobil distributor and Windom Oil, Phillip's 66 distributor, were the only two Morton firms submitting bids.

The school board voted to solicit bids for the purchase of gasoline after a survey conducted by a neighboring school indicated the bid system resulted in lower prices.

The bid by the Levelland firm was the lowest and accepted. Members of the board discussed making the purchase from an out of town firm and conceded that the Levelland firm did own property in Morton and paid school taxes to the Morton Independent School District.

The members also stated the local distributors were notified and given an opportunity to submit bids for the gasoline.

The possibility of obtaining a truant officer to serve the three county school districts was discussed. A truant officer, if employed, would be paid on a pro-rata share, determined by the number of students, by the Morton, Whiteface and Bledsoe Schools. Douglas reported the truant officer, if hired, would be concerned with attendance of students enrolled in school, but absent, as well as those youngsters not enrolled.

The local tax equalization board will meet May 4 and May 5. The board will meet on May 23. A list of potential members of the equalization board was presented by Tax Assessor-Collector

tor Dub Hodge. The names were approved by the board and Hodge instructed to contact the persons and secure five persons for the board.

Members of the board will be selected to give representation to each portion of the county in the school district as well as the city of Morton.

## Science students awarded 60 firsts at recent exhibit

Blue ribbons were awarded 60 students of Morton High and Junior Schools at the Science Exhibit held in conjunction with Open House activities during Public Schools Week.

The ribbons were awarded in two divisions, for each classification, high school and junior high. Division were physical science and biological science.

Blue ribbons in the high school physical science division were awarded Doug Corey, Everett Jones, Linda Lynch, Carol McCuiston, and Carol Williams.

## Absentee voting will begin Monday for local elections

Absentee voting in the April 4 school board election will begin Monday and continue through Tuesday, March 21.

Due to a change in the law, ballots are to be cast at the business office at the Morton Junior High School.

Absentee voting in the city election will begin Wednesday, March 18, and continue through April 3.

Absentee voting in the primary election will begin April 12 and continue through April 28.

Persons desiring an absentee ballot for the primary election may send a request to the county clerk's office and a ballot will be mailed to the voter.

Local offices to be filled in approaching elections include mayor, two city councilmen, two trustees of the school board, state representative, sheriff, county attorney, county tax assessor, and two county commissioners.

Steve Bracken

serve as president of the board for the one month remaining on Loran's term as president. New officers will be elected at the next regular meeting, after the school board election April 4.

Trustees are elected to serve two year terms. Officers are elected from the trustees by the trustees to serve one year terms.

Weldon Newsom was appointed as trustee to serve the remaining year of the term held by Loran. Newsom, elected a trustee two years ago, did not seek re-election in the approaching school board election, but accepted the appointment for an additional year.

Contracts of all teachers of the Morton Independent School District were approved for the next school year. The teachers will be notified and contracts will be signed in July for the 1964-65 school term.

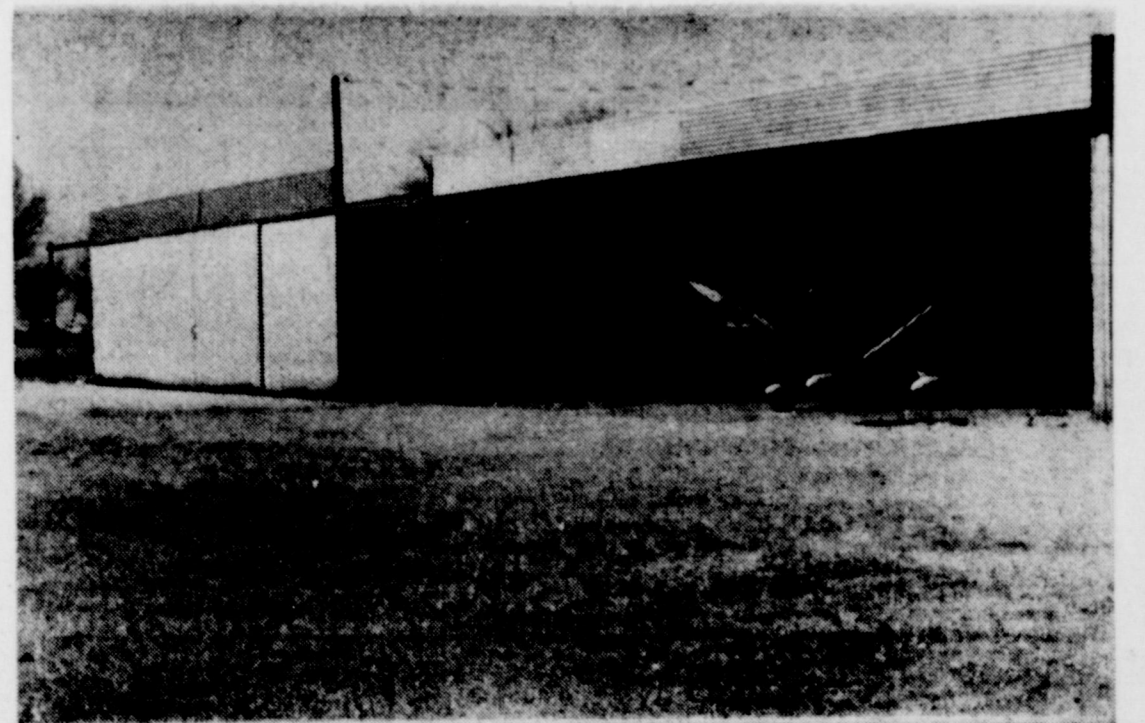

The Morton High School will not field a girls basketball team next year. Members of the board and Superintendent Eli Douglas discussed the declining interest in the sport at some length before the decision was made.

Lack of interest in students and spectators was listed as the reason for dropping the sport. The vote to discontinue the sport

Rough place to land

COCHRAN COUNTY AIRPORT may be improved in a joint city-county project. The city has voted to participate with the county

on a 50-50 basis to improve the airport. Proposed improvements include a longer runway and paving of runways, taxi and parking areas. TRIBUNE Photo

## Airport improvements likely

The Cochran County Airport may be improved in a joint city-county project. Proposed improvements include longer runways, paving of runways, taxi strips and parking areas.

A delegation of ten local commercial and private pilots met with the Cochran County Commissioner's Court Monday morning.

The pilots stated the need for the improvements, explaining the Cochran County Airport was the only airport in a county seat in the South Plains that did not have paved runways.

Other improvements suggested by pilots were longer runways. Present facilities are not adequate for the traffic using the airport.

Commercial spray planes are sometimes required to leave the local airport empty. Land on a road or suitable strip for loading, as the runways at the airport are not long enough for the loaded

planes to get off the ground. Larger planes are now using the airport. The planes, when loaded with passengers, require longer distances for take-off than are now available.

Planes using the county airport are often grounded during wet weather because of the condition of the runways.

The pilots stressed the proposed improvements would also aid the area in obtaining industry.

Members of the commissioner's court asked the pilots to contact the city and ascertain if the city would cooperate in improving the airport. The pilots were invited to meet with the commissioners again, report on the decision of the city council, and the county commissioners would give an answer.

No official action was taken by the commissioners, although the members individually stressed the

need for improvements to the airport.

The commissioners stated they would grant the city of Morton water rights on the airport property if the city decided to cooperate in an improvement program.

The delegation of pilots met with the city council Monday night and asked for the city's cooperation.

Mayor Jack Wallace reported the city was operating within the budget and could participate. Councilmen R. C. Strickland expressed his opinion the joint county-city venture to improve the airport facilities would be a worthwhile project, even without the water rights offered by the county.

A motion by Neal Rose to participate in the improvements on a 50-50 basis with the county, subject to the securing of water rights on the county property, was unanimously approved.

## Passing thoughts and shifting sands

Any adult can look back at his life and see where if time had been taken for self-improvement, life would have been much easier. How many times have adults said these words, "If I had only known if I could have seen ahead. If I had only listened to my parents." It all sums up to this — our way of life depends strictly on how we prepare for the future. There is an old saying, "Aim high in life, keep aiming high."

Fifty years ago if you could dig a ditch straight and were a good worker you could become superintendent of a company. Now a days if you can dig a ditch straight, if you have no education, you will get more ditches to dig until a ditch digging machine replaces you.

More than ever in the history of our country, the need to stay in school is more demanding. During the days of developing our country, our western lands were waiting for our individual. He didn't have to be educated to homestead a piece of land. Now in exploring outer space a splendid education is necessary. When you receive your college diploma, the field of science takes over and trains you more.

The parents of a child who makes "straight A" in school should indeed be thankful. Yet, few parents realize how tactful they must be, how much patience it must take, in gradually making that child realize that the education period is not over upon receiving the high school diploma. The high school diploma now days only opens the gates of education just a little, it points the way towards college. Well can we oldsters remember when an eighth grade or high school education was all that was necessary. Not any more. Many of us stood to one side in the employment line while a college graduate walked by us.

Many college students fail to realize that college is no longer an educational resort where you have four years of fun. Yet it is surprising how many students get a degree, and in the field of labor have little knowledge how to use that degree. Industries have solved this problem — train the graduate how to use his degree. It is necessary to do this now in this day of automation.

Some schools have found that rather than hold children back that make high grades they can mass them into groups, and with an educational plan that is measured to their standards, let them progress ahead. In this manner they are not held back with children who make lesser grades. This certainly does not mean that the child who makes lower grades should be denied in any manner, in fact many students who struggle hard in school to attain good grades, often make good college material. "Straight A" does not mean the boy or girl who achieves such grades is going to perform wonders in college.

"Drop outs" from school are filling unemployment lines. High wages and the offer of a job cause lots of high school students to leave school. Little do they realize that the chances are good they will not remain on that job all their life. Its the urgency in youth that compels the high school student "to get started off and make some money". There are lots of jobs available today in the labor market — if you are well trained. Employers want an individual they can advance. They don't want one they have to "freeze" to a job and with the probability of eventually having to "let him go". It is certainly true that the student who quits school soon learns the sad facts of making a living. He is a bench warmer while the game of life and progress plays on.

Cupid plays a big part in education. "Oh, we can marry. Why wait? Yea we can go on to school. We are different. We know an education is necessary." It generally winds up with one going to school, generally the boy while the girl is working. They soon find they obtained the marriage certificate a lot easier then the diploma. Then when junior comes along the school is selfed, and the new dad stands aside as thousands of "drops out" do and watches while the college graduate climbs the ladder to success. Cupid should learn to wait. The boy meets girl stuff will always be with us but education and its demands can pull a lot stronger bow than cupid at times. The lack of education often brings on the lack of money, and the lack of money often brings John

## John Deere Day

LEFT TO RIGHT are Hollywood and TV stars Margaret Hamilton, Charlie Weaver, Donna Douglas, and Gene Sheldon, soon to appear in the 1964 John Deere Day program at the auditorium of County Activities Building on Thursday, March 19. The program will also feature film demonstrations of new John Deere farm tractors, garden tractor, combines, tillage equipment, and many other new John Deere implements. The show is free to farmers and their families.

## Information about World's Fair here at Willis Insurance

Make your plans well in advance if you intend to visit the New York World's Fair of 1964-65.

That's the word from fair officials who estimate that the average visitor would need 10 to 12 full days to make a complete tour of this New York extravaganza, which will be the biggest world's fair in history.

With this in mind, there's good news for persons in the Morton area who plan to visit the fair, thanks to the opening of an Official World's Fair, Information Center here. The Willis Insurance Agency, designated as an official center by The World's Fair Corporation, represents The Travelers Insurance Companies, a major participant at the fair with its "Triumph of Man" exhibit.

The public is invited to visit the agency for free literature on the fair. In addition, this official center can supply information on fair tickets and on motels, hotels and dining accommodations near the fairgrounds. More than 200 major exhibitors from throughout the world will participate in the fair which opens April 22.

and Jill into divorce courts. Name an industry where education is not necessary and you have an industry without an expansion program. Our colleges are prowled by representatives of industries seeking that certain boy or girl they can train to be an executive. These representatives are hoping they can find the boy or girl who is pushing cupid and all else to one side, and are educating themselves straight down the line to where they find what they want in life. Then they become "The laborer is worthy of his hire. A workman that needeth not be ashamed."

There is no prouder moment in life for the young couple who postponed marriage till they each acquired their college diploma. Then when they marry and the first child is born they know the value of security. Now all they have to do is argue with the grandparents on how to raise the one and only grandchild. The educated young couple will soon find that their educational training did not prepare them for the problem of arguing with grandparents, on how to raise a child and educate the youngster.

## C. W. Turner announces opening of new self service laundry facilities

The formal opening of Turner's Quick Wash Laundry has been scheduled for Monday, according to C. W. Turner, owner-operator. The new business, located in the old Foster Plumbing Building, features all new laundry equipment. Included are automatic and wringer type washers. Turner, a resident of California for 15 years, recently returned from Korea as a maintenance man for an overhead power distribution system. We'll wash and rough dry and will be available, as well as operated equipment for doing up to do their own laundry. "Pick up and delivery will be offered at an extra cost," Turner said. **County savings bonds monthly sales report**

Savings Bond sales in Cochran County totaled \$5,737 during January 1964 according to Mr. W. W. Williamson Chairman of the Cochran County Savings Bonds Committee.

"During the coming few months a great many taxpayers will be eligible for tax refunds from their 1963 income tax. We would like to remind these people that they have the option of taking their 1963 refund in Savings Bonds. There are two big advantages of taking refunds in Savings Bonds: The taxpayer will be more apt to hang on to his refund if it is taken in Savings Bonds, plus the fact that if they keep the bonds until they mature the person receiving the tax refund will get back \$4.00 for every \$3.00. Then too, the purchase of Savings Bonds helps provide for our country's future as well as our own." Chairman Williamson stated.

torney stated the trapper could not place poisoned bait on any property without being asked by the owner and receiving permission from the owner.

It was explained duties of the trapper are determined by the legislature, not by the county.

After discussion, it was determined the trapper was operating legally when the bait was set. Boring asked Mrs. Cunningham if the dogs were pets. She stated they were. Boring then reported, legally, the trapper had no way of knowing pets would stray that far away from the house.

The trapper, paid jointly by the county and the government, works in Cochran County to exterminate coyotes. The trapper has worked in the county about three years, the position created after a delegation of ranchers asked the commissioner's court for assistance in eliminating coyotes and wild dogs harassing and killing cattle.

The trapper has no specified distance from houses to set out poison, but has been instructed by the commissioners to use his discretion and not place the bait where it might kill pets. Never is the poison placed on a ranch without the knowledge and consent of the owner.

After the commissioners reported they did not think it in the public interest to abolish the position of trapper, Mrs. Cunningham reported she would obtain a petition asked that the trapper be removed from the county.

No specific number of signatures are required on such a petition, according to the commissioners. They informed Mrs. Cunningham they would take such a petition, when presented, under consideration.

A THOUGHT . . .

"You Can't Pay a Little and Get a Lot"

When you buy for price alone, you can never be sure. If you deal with the lowest bidder it is well to add something in the way of protection for the risk you run . . . but if you do that, you have had enough to pay for something better in the first place. Economic laws of business prohibit paying a little and getting just what you pay for.

**Here Is What You've Been Looking For... BEST TIRE DEAL IN MORTON**

**DUNLOP ELITE**

... the premium nylon Safety Shoulder Tire!

In addition to being America's first Safety-Shoulder tire, the Dunlop Elite offers you a host of other premium tire features. New Maxgrip polybutadiene tread compound imparts unusual road gripping qualities to the tire, absorbs tire vibration and deadens cornering squeal. The broad, flat tread pattern puts more rubber on the road for surer starting and stopping in all kinds of weather. Wide center ribs and sturdy, siped outer ribs give you increased stability, positive steering control—especially at turnpike speeds. And the tread is deeper for extra miles of carefree, comfortable driving. Naturally, the distinctive new twin slimline whitewall styling is in keeping with the thoroughbred qualities of this remarkable new tire. But the Elite is not merely an exciting new premium tire... it is an entirely new driving experience. Stop in for a test drive on a set of Elites... you'll see what we mean!

**Big Double GUARANTEE**

★ AGAINST ANY ROAD HAZARD EVEN LOW or FLAT RUN

★ AGAINST ANY DEFECT IN WORKMANSHIP or MATERIAL

**Patented New Safety Shoulder**

Makes Your Driving Safer

Ever had the blood-chilling experience of running off the road at high speed... even for just a second or two?

Dunlop construction alleviates this danger with tread ribs on the sides of the tire. Treads that climb down pavement edges and right back up without losing their grip. When you go off the edge of the road there's no lurch, no sickening jolt. They lean into turns, giving you traction where ordinary tire treads quit, especially at high speeds or on wet roads.

We call these new side treads SAFETY-SHOULDERS... a brand new concept in tire construction. So new, in fact, it's patented... You'll find SAFETY-SHOULDERS on the Dunlop Elite premium nylon tire. Pat. No. 3,024,825

# Tyson-Williams vows exchanged

MRS. DARNEL ALVIN WILLIAMS

Miss Floy Jean Tyson became the bride of Darnel Alvin Williams Friday evening in the home of her parents, Mr. and Mrs. George Tyson, Maple. The Rev. Jerry Haley of County Line officiated for the double ring rites.

Mr. and Mrs. C. A. Williams of Sudan are parents of the bridegroom.

Traditional bridal music was provided by Sandra Kenley and Mrs. Jerry Haley, soloist. Candles were lighted by Barbara Williams, sister of the bridegroom and Troy Tyson, twin brother of the bride.

Mrs. George Holley, friend of the bride, was matron of honor. She wore an off white knit suit with red accessories and carried a long stemmed red rose.

David Williams of Lubbock served as his brother's best man.

The bride, given in marriage by her father, wore a street length dress of white slipper satin with scoop neckline and petal point sleeves. The slim skirt featured an overskirt of silk organza. Her finger tip veil of silk illusion was attached to a headpiece of white rose petals. She carried a cascade arrangement of red and white sweetheart roses atop a white Bible.

A reception for the bridal party and 30 guests was held in the home immediately following the ceremony.

For a wedding trip to Ruidoso the bride changed to a white jumper with matching silk blouse and black patent accessories.

Mrs. Williams is a 1963 graduate of Three Way High School and her husband a 1959 graduate of Bala High School. He is engaged in farming.

Guests attending the wedding and reception from out of town were:

Mr. and Mrs. W. B. Price, Denison; Mr. and Mrs. T. J. Darham, Lubbock and Mr. and Mrs. Dutch Young, Denver City.

This week's favorite recipe was submitted by Mrs. Elzie Browne. It is a nice moist cake and good with or without icing, also may be used as base for fruit cake.

### Applesauce Cake

- 1 3/4 cup flour
- 1 teaspoon salt
- 1 teaspoon cinnamon
- 1/2 teaspoon cloves
- 1 cup sugar
- 1 cup unsweetened applesauce
- 1 teaspoon soda
- 1/2 cup melted shortening or cooking oil
- 1 egg
- 1 cup raisins

Sift flour, salt and spices with sugar in bowl and make a hollow in the center. Dissolve soda in applesauce and pour in center of dry ingredients. Pour in melted shortening or oil and drop in an unbeaten egg. Stir around slowly until flour is well mixed with applesauce and other ingredients; then fold in raisins. This recipe is good base for a fruit cake, just add desired fruits and chopped nuts. Bake applesauce cake in tube pan at 300 degrees for about an hour.

She had planned to be a Navy nurse but the current changed after about 16 months of nurses training and she is now a busy mother, homemaker and career woman.

It was while she was resting at her mother's home in Amarillo from the strenuous life of a student nurse that Nathalie Lee met Elzie Browne, whom she married nine months later.

Nathalie was born in Oklahoma but spent most of her youth in towns up and down the Ft. Worth and Denver Railroad, as her father was a railroad man subject to frequent transfers, moving his family with him.

She finished high school in Claude after attending high schools in Amarillo and Pampa.

Prior to entering nursing school in Austin Nathalie had worked for the telephone company in Amarillo, a laundry in Claude and during World War II she was employed by Pan-Tex, Amarillo. It was while she was at Pan-Tex that she met Elzie, who was employed at the Amarillo Air Base.

Mrs. Browne has been employed by the City of Morton since 1961. She keeps the water accounts with the title of secretary but she shares duties with other employees. She worked for awhile in the Cochran Power and Light office.

A member of the First Baptist Church and Sunday school teacher for more than 20 years Mrs. Browne now teaches a 13 year old Intermediate Girls Sunday School Class.

She likes to sew but says she

MRS. ELZIE BROWNE

doesn't care very much about cooking.

Her mother, Mrs. Stella Lee, took vocational nurses training here in Morton and is now actively engaged in nursing in Amarillo. While here Mrs. Lee lived in the home of Mr. and Mrs. Charles Taylor.

Nathalie has an adopted brother, Jackie M. Lee. He and his wife, the former Mary Taylor, niece of Walter Taylor, and their two sons live in Lubbock.

Mrs. Browne says she enjoys a quiet, peaceful family life but is

ambitious for further study. She acquired college credits in nursing school and plans to continue studies on a college level when time and family life permit.

Mr. and Mrs. Browne lost their first baby but have two daughters, Patricia, 14 and Beverly, 12 years of age. A bull dog, Buster, also is included in the family roster. His mother before him belong to the Brownes or vice versa.

Browne is maintenance foreman here for the State Highway Department. The family moved to Morton from Brownfield in 1957.

# Study club addresses by Rev. Bill Hobson

The Rev. Bill Hobson, pastor of the First Missionary Baptist Church, was guest speaker Thursday afternoon at a meeting of 1936 Study Club.

Mrs. James St. Clair hosted the meeting. The speaker was introduced by Mrs. Joe Gipson, program chairman.

Business was conducted by Mrs. Hume Russell, president.

Hobson used the program theme "With Improvement of Educational Opportunity" as the basis for his talk. Stressing cooperation between parent and teacher, he said, "Wisdom and understanding of the child by parents and teachers is two of the most important things

a child should have. Parents take an interest in what the child is learning. Parents also familiarize themselves with the child or when appropriate just material is offered to effect a remedy."

The hostess served a ment plate to Mrs. D. E. ham, Mrs. W. C. Benson, Doyle K. Brook, Mrs. O. Mrs. Gipson, Mrs. J. A. King, Mrs. L. F. Hargrove, Mrs. King, Mrs. Gage Knox, Mrs. Nicewarner, Mrs. Neal Russell, Mrs. Kenneth Russell, Mrs. C. H. Silvers, Mrs. Willis and Mrs. Esca F.

I haven't had a full night's sleep since the BAILEY COUNTY ELECTRIC COOPERATIVE ASSN. was organized. Those henhouse lights come on early and stay on late and all we have time for is eating and laying eggs. Of course, the young chickens are growing faster and fatter on the schedule.

I'll admit it's warmer in the winter, we have running water and yard lights to scare away the varmints, but a lady needs her sleep. As for the people in the big house, even with TV, Hi-Fi and an electric workshop they get more sleep than I do. I used to be able to sneak 40 winks when the power failed but service is so good I don't get that any more.

Personally I'm against the BAILEY COUNTY ELECTRIC COOPERATIVE ASSN. Their service is great for people but I'm chicken. I'd rather have my shut eye.

# THANKS...

We appreciate the tremendous response by folks of the Morton area during our mid-winter sales contest which ended Tuesday, March 10. Results of the contest aren't in as yet, but no matter whether we won the trip to the World's Fair and to London and Paris or not, we want to express our sincere thanks to those who purchased new Fords and Pickups during this period.

We've had a lot of fun and we have sold a lot of cars and pickups, but frankly we're glad the pressure of the contest is over.

But even though our contest period has ended, we're still offering deals on NEW FORDS that will save you money. Come see us anytime!

## '64 Chevy II Super Sport with V8 power

...and just the place to enjoy it

Find out for yourself what this Chevy II can really do. If there are hills nearby, let it give them a good going-over. Then see it give slow-moving trucks the run-around. With its new extra-cost V8 you need but give the accelerator an inch, and this Super Sport will take a mile.

And this great highway performer looks the part it plays so well. A glance at its all-vinyl interior and door-to-door carpeting will tell you that. There's your choice of either the floor-mounted Powerglide or Four-Speed Synchro-Mesh

transmission. Both are optional at extra cost, along with a Positraction rear axle, AM-FM radio, and many other accessories. And for all its new power, Chevy II rides so softly it seems to glide along the highway. That's because it has high-mounted independent coil springs in the front and Mono-Plate single-leaf springs in the rear.

With everything Chevy II Super Sport has going for it, it's no surprise your Chevrolet dealer is anxious to show you its price tag. Because that's the only thing about it that isn't super.

# IN A HURRY!

It's Sunday! An exciting day! I've planned so many interesting ways to present God's love to the wee small people I'm teaching. How they love God and His church! They are always there early. Must hurry! My young ones want to be there early too. How pleased our Father in Heaven must be to see so many preparing excitedly and happily to have a worship experience with Him.

See you there in a very little while!

Psalm 26:8 "Lord, I have loved the habitation of thy house, and the place where thine honor dwelleth."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

for projects  
year's work

Specialized meetings are scheduled for this week for Cochran 4-H members. Members wishing to participate in safety and training are invited to attend a meeting on the caliche pit, one mile west of Bledsoe. Cochran County Extension Director Thompson advises 4-H members to bring no ammunition to the meeting. Targets will be provided for those who shoot. Members are asked to bring their own bolt action weapon. Meeting dates will be announced for future rifle training practice at the meeting.

For safety and care meetings are scheduled for Wednesday, March 13, at 4:00 p.m. at Bedwell. Lessons three and four program book will be distributed. Future training programs on tractors and regular dates will be set. Meeting for Horse and Pony members has been called by Henderson, adult 4-H. The meeting will be at the Henderson farm, west of Girlstown, Saturday, March 14.

## County farmland survey completed by SCS and A&M

Soil Scientists of the Soil Conservation Service, in cooperation with Texas A&M University, have compiled a survey of Cochran County land.

According to William M. Koo, Soil Conservation Service Soil Scientist, the soil survey was completed in November 1960. A report has been written on the soils of the county and contains much information about the soils, how they react, recommended conservation treatment of the soils, predicted yields, engineering interpretations, and a discussion of rangeland uses. Considerable information on the early history, climate and industry of Cochran County is also included.

This report may be of interest to the rancher, farmer, engineer, student, teacher, tax assessor, land appraiser, banker or the home gardener.

The information below is only a part of the information that the soil scientists obtained during the course of the survey.

"As they traveled over the county," said Koo, "it was fairly easy to see the differences in landscape from place to place". Some of them are shape, steepness and length of draws, kinds of wild plants and in the kind of agriculture. With the more obvious differences there are other less easily noticed variations in the pattern of soils. The soils differ along with the other parts of the environment.

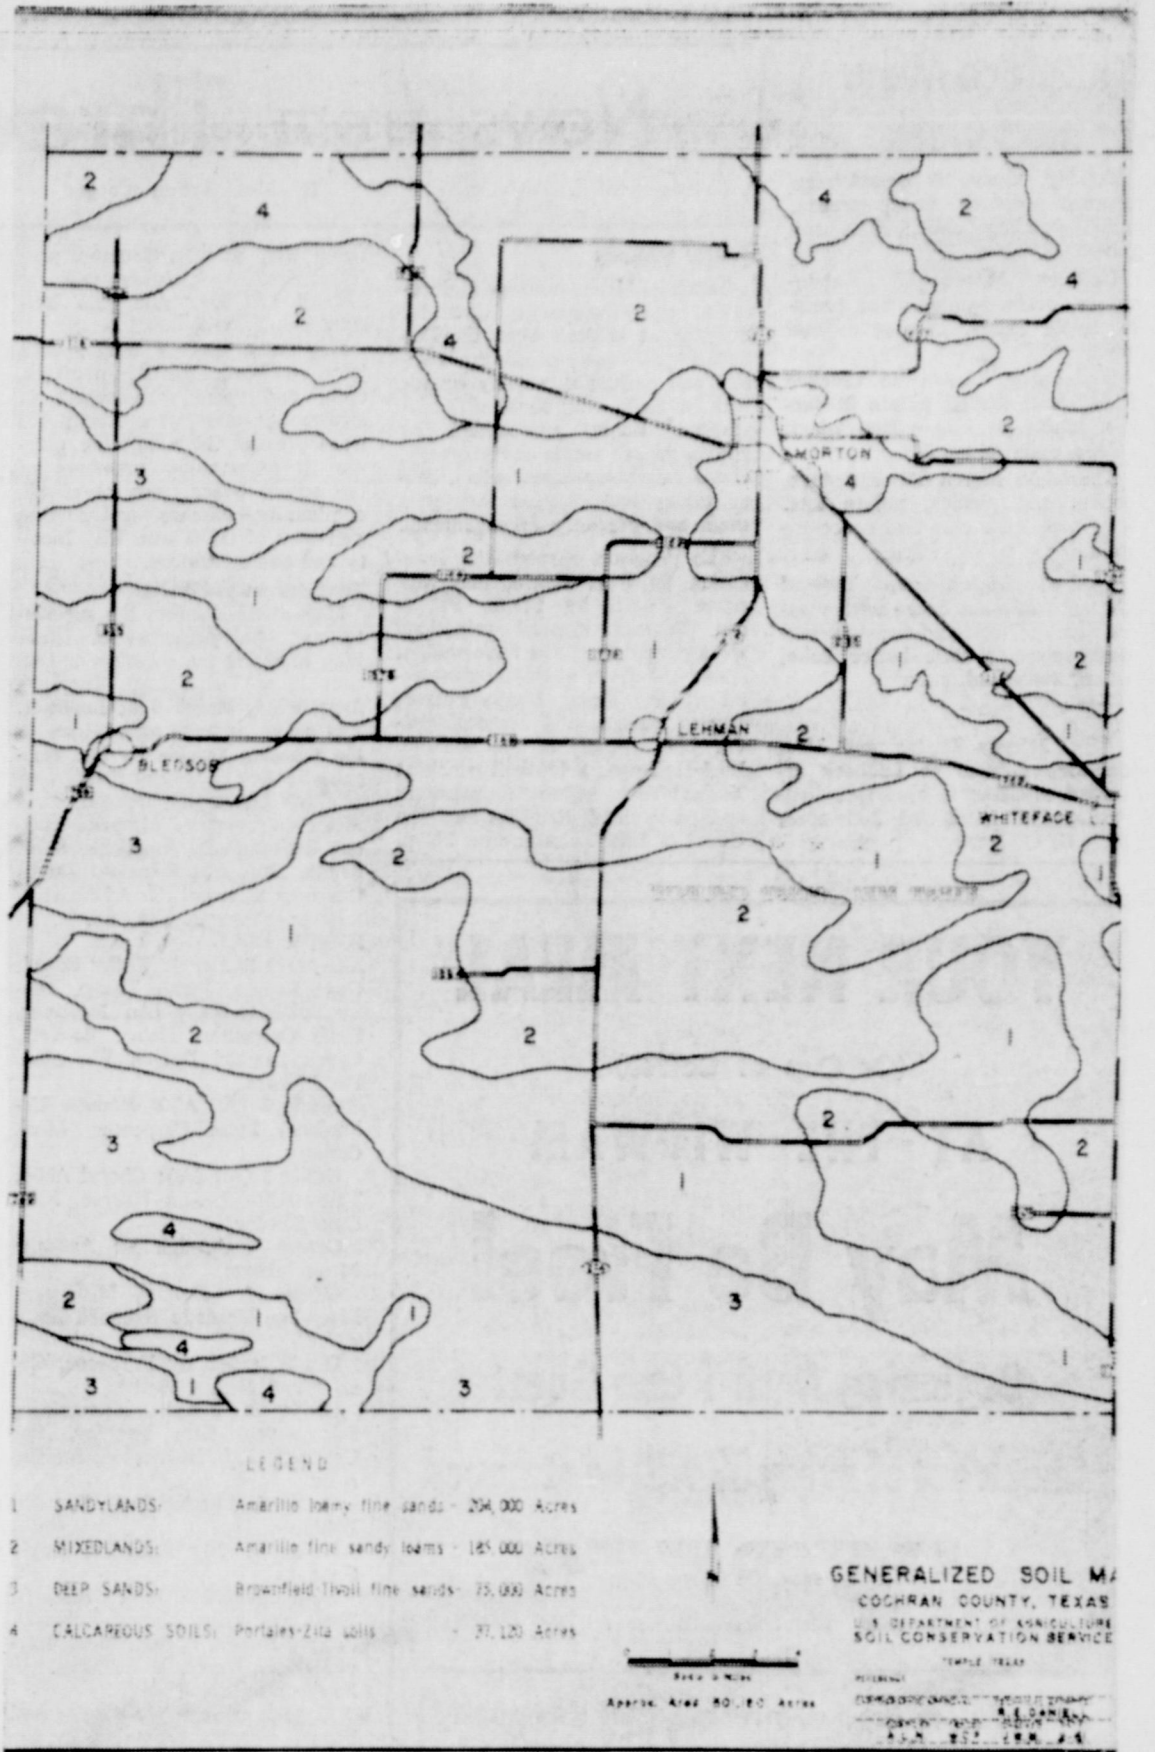

The soils of Cochran County are divided into four broad distinct landscapes: mixedlands, deep sands, calcareous soils, and sandyland soil.

Each broad landscape is subdivided into different soil patterns. By drawing a line around the different patterns of soils on a small map, one may obtain a General Soil Map like the above map. Each kind of pattern is sometimes called a soil association. The pattern, of course, is not strictly uniform in each association, but the same soils are present in somewhat the same arrangement. Such a map is useful to those who want a general idea of the soil who want to compare different parts of a county, or who want to locate large areas suitable for some particular kind of farming or other broad land use.

The four general soil areas or kinds of soil patterns in Cochran County will be discussed separately in conjunction with a three dimensional diagram which shows the soil patterns. Each soil association includes several different kinds or types of soils. Each kind of soil is given a proper name and is named after some prominent landmark or city where the soil was first known to occur. As an example, Amarillo soils were named after Amarillo. The loamy fine sand is the surface soil texture or the amount of sand, silt or clay particles.

The different soil associations will appear in succeeding editions of The Tribune.

The report will be available in about six weeks. It will be distributed by Cullen Dansby, Work Unit Conservationist, through the local Soil Conservation District and Homer Thompson, County Agent.

## County Agent's report

By HOMER THOMPSON  
SCREWORM REPORT

Program officials are referring to the period Feb. 24-Mar. 2 of last year as "That Was The Week That Was." That marked the first complete week with no screwworms being reported since the eradication program began, and was cause for considerable pleasure and optimism.

This year, the program is rolling along with a record-breaking five week period with no infestations, and only one screwworm case (the authenticity of which is viewed with considerable doubt by most eradication officials) being reported in nearly 10 weeks.

61,967,450 sterile screwworm flies were released between Feb. 16-22.

A check for \$11,000 from Oklahoma livestock producers brought contributions to the screwworm eradication program from that state to more than \$62,000.

Ellis Freeny, president of the Oklahoma Animal Health Foundation and executive secretary of the Oklahoma Cattleman's Association, presented the check to Marvin J. Bridges, executive director of the Southwest Animal Health Research

Foundation, at the annual meeting of the Oklahoma Foundation early in February.

Oklahoma stockmen praised eradication workers for the immediate attention that was given to screwworm cases reported in Oklahoma during 1963. Prompt dispersal of sterile flies and spraying of livestock in infested areas re-

sulted in only 20 screwworm cases being experienced in Oklahoma last year as compared to 444 in 1962.

Mrs. Perry Spell flew in from Liberty Wednesday for last rites on Thursday afternoon of her uncle, Loy L. McBee. She visited in the home of her parents, Mr. and Mrs. A. M. McBee and family, Route 2.

Mr. and Mrs. LeRoy Johnson and granddaughter, Laura Gail Latimer, were business visitors Monday in Lubbock.

## News from Three-way

By Mrs. Arthur Cooper

### Athlete banquet

Colors of green and gold decorated the Community Activity Building at Morton when the Pep Squad girls entertained the football and basketball varsity squads with a banquet February 29. A wooden Eagle, surrounded by golden yellow mums and greenery, decorated the speakers' table. Other tables had candles with gold mum and greenery arrangements.

The program opened with invocation by Rev. Heard, and welcome speech by Donna Furguson. Several musical selections were played by "The Nomads", a string-and-drum quartette composed of Troy Tyson, Danny Petree, Jimmy Petree, and Jesse Esquivil. The speaker of the evening, Burl Huffman, a football coach at Texas Tech, brought excellent and entertaining thoughts on "The Game of Life". Coach Sam Mayo,

Three Way athletic director, presented the team members of boys' football, and boys' and girls' basketball varsity squads.

The menu was of steak, with juice cocktail, salad, potatoes, corn, and rolls, with desert of strawberry shortcake. About 125 were present, including the players, their parents, members of the school board, pastors of the community, coaches, and several members of the Three Way faculty and administrators.

### Teachers attend meet

Most of the faculty, the superintendent, and principal of Three Way attended the meeting of District 13 of Texas State Teachers Association, March 6 at Lubbock. The main address was given in the morning session by Dr. Imogene Bentley Dickey of North Texas State University, Denton. That afternoon teachers attended various departmental meetings. Supt. Archie Sims and Principal James Courtney attended the Administrators Luncheon in addition.

Junior play

A rollicking comedy "Bolts and Nuts", will be presented in the gymnasium - auditorium of Three Way School next Friday evening beginning at 7:30, by the junior class of Three Way High School. Admission will be 75 cents for adults and 50 cents for students. Characters are: Benita Bolt - Doona Furguson; Lottie Spinks - Shirley Bateas; Rebecca Bolt - Sandra Kenley; Martha Grubb - Tomas Herrera; Twink Starr - Marvin Long; Dr. Hippocrates - Tommy Dupler; Henry Gruber - Tommy Terrell; Phineas Plunkett - Roy Oxford; Miss Prunella Figg - Pam Bowers; Cadwaller Clippy - J. L. Lemons; Mrs. Gertie Glossop - Charlotte Sherard; Wilbur Glossop - Gary Toombs; Jack Gordon - Jesse Moore. The director is Miss Eleanor Dunn, and

the announcer is Harold Carpenter.

### Jackets ordered

Twenty-two athletes lettered in Three Way High School varsity play, and will receive jackets soon. Boys who lettered in football and basketball are Harold Carpenter, Billy Dewbre, Tommy Dupler, Tommy Gish, Johnny Harris, James Kindle, Marvin Long, Roy Oxford, Kenneth Petree, and Tommy Terrell. Basketball girls meeting the requirements include Julia Burkett, Gracie Davila, Doyleen Davis, Karen Eubanks, Donna Kay Furguson, Madalyn Galt, Jamie Henderson, Geneva Huff, Kay Lemons, Katherine Masten, Janice Toombs, Wenonah Williams, Sharon Wittner, and manager Linda Klutts.

Four basketball players made the District team, for District 6-B. Tommy Terrell, forward, placed on the boys team; Donna Kay Furguson, guard, and two forwards, Sharon Wittner and Madalyn Galt, merited positions on the girls teams.

### Public School Week

School officials were very pleased with the response of parents and patrons who visited the school system at Three Way during Public School Week, March 2-5. An accurate count of visitors was not possible because not everyone registered. In the classrooms, regular classwork and special exhibits were observed; many also were guests at the lunch room. On Thursday, a science exhibit and program, "The Importance of Gyroscopes in the Modern World", was given by Glen Thorne.

### W.S.C.S starts study

Mrs. Leon Reeves was hostess to the Woman's Society of Christian Service on March 4. Mrs. Cass Stegall held the business session. Mrs. Reeves then gave the introduction to the new study book, "The Christian family and Its Money". Mrs. Rayford Maston read scripture. Rev. Ruth Cooper presented chapter one in the book, and Mrs. Reeves gave the closing prayer. Others present were Mrs. Cecil Cole and Mrs. Tommy Galt.

### Community Club

The Three Way Community Club met on February 27 at the Club House for regular meeting, with five present, Mrs. Carrie Huff held the business session. The club is sponsoring sewing classes held in the Home Economics room of the Three Way School, beginning on March 12. Mrs. Darrel Corkery, local home economics teacher, will teach the class, and assist the ladies in choosing, cutting, fitting and sewing a dress or other garment. Any woman interested may attend.

The club members worked on rug-making after the business session ended. Present were Mesdames Huff, Datch Powell, Paul Powell, Arthur Cooper, and Melvin Hale.

### Homemaker of year

"Homemaker of the Year" award went to Glenda Tarlton for Three Way School. The award is given to a homemaking student rating high in classwork, and rating highest in a special test, and is given by Betty Crocker, of General Mills.
