Coach John P. Jones of the Indians is still doing some shifting in an attempt to come up with a combination that can go. Larry Smith will move into an offensive tackle slot this week, and Lamell Abbe and Danny Culpepper will share duties at end. Jerry Elliott, who injured a knee in the opening contest with Olton is ready to go, but sophomore Ray King has just about beaten the letterman out of his center position. The two boys will likely share pivot duties.

Kenny Palmer has been moved to halfback, and Jimmy Waters will run out of the fullback slot. John St. Clair at quarterback and Jimmy Joyce at wingback will complete the backfield.

The remainder of the offensive lineup will remain the same as in the past, with Eddie Hollaway at Lyons and Mike Irwin at guards. The defensive line-up has also been shuffled a bit with Mike Irwin moving to middle guard, and Eddie Lyons taking on a line-back spot. Game time for the annual homecoming affair is 8::00 p.m.

Eight Students of the Morton Industrial Arts department participated in an assembly line demonstration Wednesday night at

the Panhandle South Plains Fair. The South Plains Industrial Arts Teachers Association sponsored an exhibit on the west side of the Childrens' Barnyard Building. The exhibit featured projects built by students from area junior high and high schools.

There were two assembly lines ran by junior high ahd high school students. The junior high assembly line produced tea towel hangers, and was being run by students of Lubbock Junior Highs. The high school assembly line constructed spice racks which along with the tea towel hangers were given to viewers of the demonstration.

Wednesday night the high school demonstartion was performed by students from Morton High, including Billy Freeland, Mike Mc-Dermett, Larry Ward, Joey Newsom, Dennis Lemmons, Larry Jeffcoat. Robert Hollenshead and Terrell Hanson.

Histroy of homecoming dates back

ing festivities of Morton High School ready to be staged this Friday, thoughts of other such homecomings are naturally in the minds of MHS ex-students.

For some, it means turning back the clock to 1953, when the first Homecoming was started, beginning a fine tradition which has continued to the present.

It was a cold, wet miserable day for that initial event, and despite the weather and a loss by the Indians to Stanton, the first celebration was termed a success.

And it is due to that success, stemming from the efforts of those who worked so diligently - and those who have contributed to each successive Homecoming - that another Homecoming is ready to

It was back on October 21, 1953, that a group of ex-students got together to discuss the formation of an ex-student organization. They decided to have homecoming Nov.

Heading the group to spearhead that first event was Roy Tarver, Jr., a 1938 graduate. Elected to assist him were Mrs. Wayne Walt-hall, vice president, and Nelda Nations, secretary-treasurer.

Activities that year included a parade - led by the Indian band and with floats from classes and clubs - pep rally in the school gym, a supper in the agriculture building and of course, the football game.

Program at the dinner featured talks by Truman Doss who spoke on the first football team: E. L. (Snoball) Willis, who talked about the first basketball team; Elmo Smith, reminiscing about the first senior trip, and Rupert McCasland, who was an instructor during the first school years.

It was held Oct. 27, with a pep rally, parade, dinner and football game in the observance.

Jimmy York, a 1949 graduate, living in Lincoln, Ark., was honored as the ex traveling the longest distance to attend and Joe Carroll of Roswell N.M. was honored as the teacher coming the furthest

The Indians defeated the Mules, 31-14, that year. Early coronation

The tenth annual observance, on Oct. 26, 1962, featured coronations of the football queen and band sweetheart at a morning assembly. Previously and since they have been crowned at the football game halftime

The pep rally, parade, dinner and football game again were features of the celebration.

At the dinner, Major Howard Nettles of Fort Huachuch, Ariz., was honored as being the ex from the fartherest distance; and the 1932 class was recognized as being the oldest class represented.

Jack Russell was president of the 1962 celebration. Other officers were Steve Bracken, first vice president: Royce Hanna, second vice president; Dud Hodge, third vice president and Betty Akin, secretary-treasurer.

Hill presides

Officers for the 11th observance, Oct. 18, 1963, were Jug Hill, president; Mrs. Doris Simpson, first vice president; John Stockdale, second vice president; Ralph Ware, third vice president; and Mrs. Deloris Davis, secretary-treasurer,

Awards were given to Mr. and Mrs. Andrew Essary of Lamesa for being the ex-teacher coming longest distance, and John Zieinskey of Ausburg, Germany, as the ex coming the fartherest.

The Mules stampeded the Indians 24-0 before the huge homecoming crowd.

Last year Last year, E. L. Willis headed the ex-student association, with Kirby Lacey as first vice president; Truman Doss, second vice president; Mrs. Earl Polvado, third vice president; and Mrs. Dwayne Smith, secretary-treasur-

City Council meets and hears trom ginners

The City Council met Monday evening and heard from two gin ners about what is being done to curb the dust and dirt problem created by area cotton gins.

The ginners, Mark Kenedy and E. O. Willingham, said that the heart of the problem stemmed from them not being able to burn the cotton burrs. They said that the farmers instruct them to pile the burrs up and that they actually have no other choice but to do so. They added that they were taking measures to try to cut down on dirt from their gins and wanted to cooperate with the City Council. In other business, the minutes were read and approved, and Fire-

R. B. Cunningham, city patrolman talked briefly to the council about placing a state radio receiver in the city police car. He stated that he would be willing to pay for it himself and that he wanted permission of the council to install it in the city police car.

Councilman Kenneth Thompson said he felt that if a radio receiver was needed by the city, the city should be the one to pay for Councilman Walter Taylor added that he thought it should be bought by the city if the city policeneeded it to do their job proper-

Cunningham stated that with the present receiver in the police car. he can't hear broadcasts from the Department of Public Safety in Lubbock. He said that lots of times they broadcast information on persons believed to be in this area and he has no way of hearing it. He said that the Department of Public Safety also broadcasts tornado warnings for this part of the cuntry and he felt that Mortn would benefit from receiving this information. Cunningham added that the cost of a second hand receiver that he knew about was

The Council decided to wait until the next regular meeting when the mayor and the other members were present to make some decision on the receiver.

Those present for the meeting were City Secretary Elra Orden, and Councilmen Kenneth Thompson, E. C. Seany, Tom Rowden, Walter Taylor. The meeting ad journed about 9:00 p.m. at the City

Only mar to an otherwise most successful event was the loss of the football game, 28-20 to Post.

Truman Doss is president of the association and is heading the celebration this year. Other officers are Mrs. Earl Polvado, first vice president; Joyce Hanna, second vice president; George Hargrove, third vice president and Mrs. Wiley Hodge, secretary-treasurer.

Activities planned include a parade, pep rally, football game, and the reception and business meeting following the grid clash.

MORTON TEXAS, THURSDAY, SEPTEMBER 30, 1965

What is "police brutality"?

Abuse of authority is deeply repugnant to Americans. Their forebearers fled Europe to escape tyranny. A primary concern of the founding fathers of our republic was to protect citizens against tyrannical authority. So it is not surprising that there is considerable sensitivity to the recent charges of "police brutality" that have been sweeping the country as an aftermath of riots in major cities. Many wonder if the police have been guilty.

Because of the cry of brutality that has been raised against the police instead of the rioters, searching inquiries have been conducted in the most notorious trouble spots. U.S. News & World Report recently made a diligent study of the problem and has come up with highly significant findings-findings that indicate an organized technique to discredit law and order across the nation. The U.S. News study showed no evidence of any "wave" of brutality on the part of police toward citizens in the cities of the United States. On the contrary, "What research does reveal is that civilian brutality' against the police is being practiced rather widely." For example, the riot in Los Angeles of a few weeks ago was touched off because of an officer's arrest of a man on a drunk driving charge, yet the cry went up of police brutality to justify an orgy of looting, arson and mayhem.

There have undoubtedly been cases of brutality, but verified instances are being lost in a sea of inaccurate or trivial accounts of mishandling by police. Senate Democrat leader Mike Mansfield has decried the "loose charge of police brutality," and added, "The police are not privileged to take sides or discriminate as among laws. Their job is to uphold all laws and, on the whole, they do an excellent job of it." The question is what is brutality? As defined by some of the rioters, it becomes a grotesque insult to the intelligence of law-abiding citizens. One case cited by U.S. News tells of a brutality complaint to the Department of Justice from a Negro woman in the South who said her son had been abused for merely stealing a bag of peanuts. Inquiries showed that what her son stole was a huge burlap bag full of peanuts in a trailer truck-and that he had stolen the truck too. Then there was a stout lady who, with demonstrators, lay down in the street to resist arrest. Her complaint:

"Police had not picked her up 'gracefully' in taking her to the van." Then there are also charges of "verbal brutality" in which police officers are accused of using rough language. In Berkeley, California, in 1964, student demonstrators at the University of California staged disorders in defiance of university authorities and police. A student "Police Brutality Committee" began grinding out propaganda before the first arrest, and students were primed to start chanting brutality as soon as the police appeared on the scene. Berkeley police captain William Beall said: "Brutality is the first thing that occurs to people to yell when they are trying to undermine authority . . . A policeman dreads the moment when someone will yell 'brutality'. That charge robs him of his dignity. It takes away everything he's trying to do-what he believes in.

An official of the International Association of Chiefs of Police. Charles E. Moore, told the Senate Internal Security Subcommittee that the demonstrations at Berkeley were a classic example of techniques used by communists to "destroy the public confidence in the police-when you destroy the symbol of authority and of the laws you bring about anarchy."

The career of a policeman is hazardous at best. Unless he has the support of all law-abiding citizens, his job becomes virtually impossible as well as hazardous. FBI figures on police brutality cases that come into federal courts tell a story in themselves. Between mid-1964 and mid-1965, 1,700 complaints of police brutality were referred to the Federal Bureau of Investigation. Forty seven such cases were presented to federal grand juries. Five cases led to conviction in federal courts. On the other hand, the FBI records, as published by U.S. News, indicated that 57 policemen were murdered by criminals in 1964 alone; 197 in the last four years. The number of policemen murdered annually in line of duty has doubled since 1960. There were 18,000 police officers assaulted in 1964. That was one out of every 10 policemen in the country. In 1964, 7,738 were injured in assaults, or one out of every 24. These are figures for city, county and state police.

The trained, legally constituted police officer is our first line of defense against crime and violence. In many ways, the police force provides a rewarding career for young dedicated officers. But it is no sinecure and as U.S. News concludes, "Prospects are that conditions for the policemen are not likely to show much improvement in times ahead."

Unbridled monopoly power

The unions have been using the last ounce of their political power in an effort to bring about a major change in the Taft-Hartley Act. That change is to eliminate Section 14(b), which authorizes the states to enact Right-to-Work laws. If the effort is successful, every worker in major industry will have to join and pay dues to a union, regardless of his wishes and beliefs, or lose his job.

We will see what happens. But if Taft-Hartley is to be changed and amended, there are certain other steps which urgently need to be taken. As the Los Angeles Times puts it, "It should be amended to prohibit discrimination by unions on the basis of race, color or

"BEANS, agin! Either the boss is tight or he wants all his cow hands to be vegetarians!"

other editors VIEWS

The average reader may not realize it, but newspaper people sometimes do some serious selfexamination and soul-searching.

For instance, we sometimes wonder:: Is this story important enou to publish? Is this editorial sound enough in its reasoning to deserve reading? Is this whole newspaper good enough to be circulated to the public? Or should we wait until we can do a better job of it before we publish anything?

Sometimes, it seems that the readers think every bit of the paper should be perfect before printed. Of course, it would be nice if it could be that way.

But how many others are perfect in everything they do? Does a farmer, for instance, get a perect stand in every cornfield? Does he always apply exactly the right amount of fertilizer at the right time? Does he refuse to harvest the crop unless it is perfect in every respect?

This could apply to all jobs and

We in the profession of journalism know that our papers are never as good as we would like for them to be. Some of us, at least, carry a burden on our consciences because they are not better. Most of us continually hunt for ways to make them better.

But please don't expect them to be perfect. Try to understand that newspapers, like every other product of human beings, are not and can not be perfect. In fact, because what we do is published for the public to see, our imperfections are sometimes better known than any others.

So we hope you will deal gently with us as you judge the result of our efforts

Move against child molesters "Beware of Strangers" is the title of a leaflet distributed among students in the Post schools by the city police department. Students and parents are advised to read he leaflet carefully and to abide by its rules.

Distribution of the leaflets in the schools here is part of a nationwide program by police departments and other law enforcements groups to stamp out child molesters.

Here are the rules listed on the eaflet. It would be well for any adult to read them, whether or not he has children. Child molesting s a crime that every law-abiding citizen should be interested in helpng stamp out.

Who's next? Any challengers?

Governor Connally has done the expected and announced he'll seek re-election in 1966. In the process he is likely to push hard for adoption this November of the fouryear term for governors, as proposed in an amendment of the state constitution Texas voters will ponder (among nine others that

The chain reaction was immediate Saturday::

Atty. Gen. Waggoner Carr announced he'll go after John Tower's US Senate seat, seeking the Democratic nomination in '66. Lt. Gov. Preston Smith an-

to state politics now until the day he retires from public office. It seems he can hold any elective office in Texas he chooses, for as long as he intends to remain on political scene How many years more that will be is uncertain.

Prior to Saturday's announcement it was said the governor yearns to return to his ranch at Floresville for the relative ease of private life. Presumably this yen still exists. But the governor's plans after another term (which he surely will win) can not be guessed

It's not easy to walk away from power, public attention and prestige. The desire for a private life genuine in Connally, unless all reports err.

But as he himself has observed, it's not easy to step down when much of the state's press urges you (with no prompting from him) run for another term.

Other statewide races may be expected now to form. Oscar C. Dancy, Cameron County Judge for more than 40 years, has told the Caller-Times he might have a go at the lieutenant governor's job.

Liberal state Sen. Franklin Spears has been mentioned for the attorney general's race. Houston district attorney Frank Briscoe may make the AG race with Carr's backing. Briscoe has been mentioned for a Congress campaign as has George Bush, Republican.

Secretary of State Crawford Martin also may jump into the AG race, as the conservatives' candidate, the Dallas News has writ-

Preserving right to work

Senator John Tower of Texas hit a responsive chord in Perryton this week when he told a group of visitors that the battle to preserve section 14B of the Taft Hartley Act is not lost, by a long way.

The senator pledged his continuing fight to preserve section 14B which keeps the right-to-work laws in force in the 19 states where the citizens have passed them.

Senator Tower has placed himself squarely in the forefront of the fight in the Senate and while his counterpart, Sen. Ralph Yarborough, is expected to fight on the other side, most of the folks out here in our area agree that organized labor should not have the power they are seeking right

Organized labor is playing for big stakes, and the pressure put upon Congressmen has been terrific. This pressure worked in the House, where repeal of 14B was lished, but it has hit a in the Senate where some U.S. Senators, particularly the Republicans, are not intimidated by lab-

In our case, Sen. Tower owes the labor unions nothing. His election was bitterely opposed by the unions. His voting record in the Senate has been attacked by the unions. His fight to preserve 14B will win him friends among the rest of us rather than alienate any labor union support.

The labor unions are riding high in the saddle and are even becom ing arrogant in the use of their power. They are running rough shod over Congress because they have the power of the Johnson ad ministration behind them.

We hope some voter reaction sets in against this union control. Senator John Tower might play an important role in fanning this re-

AUSTIN, Tex. - Battle lines are forming! In the political arena,

Big gloves already have been laced on the champ vote-geter -Gov. John Connally. He's in the ring and squared away - ready to battle any challenger. Question now is - will he win by default? It's possible. He has a record few will challenge.

Very likely there will be a freefor-all in most other races. Texas' second highest state office could be an exception. There Preston Smith holds forth in rather firm command as Lt. Governor.

Popular young Waggoner Carr already has proclaimed his interest in becoming U. S. Senator and is agilely dancing around the ring readying for the first sign of Democratic opposition to Republican John Tower's post. This may come from Congressman Jim Wright who is skipping rope to get in shape for something bigger. But so far he hasn't entered any ring.

Secretary of State Crawford Martin has set up his training camp for Carr's to-be-vacated post as Attorney General of Texas. Most likely he will have Connally's blessing, since he was the Governor's appointee as Secretary.

State Sen. Franklin Spears of San Antonio is trying to decide whether he wants to take on Martin. Other possible candidates for Attorney General are Former Sen. Frank Owen of El Paso, Sen. Galloway Calhoun of Tyler, and Harris County District Atty. Frank

U. S. Sen. John Tower told Austin reporters that Texas Republicans will concentrate their statewide efforts on the senate race in 1966, and will field no active candidate for governor. In reference to his own race and local legislative and congressional contests. Tower predicted a good year for the GOP.

Announcements this early could mean one of two things: a burned out field by '66 - or several Battles of the Centruy.

As opponents warm up, only time will tell. From the Capitol Dome and the focal point of all races - Austin

But County Commissioners perform many functions of more farreaching importance than the maintenance of roads. The court supervises the spending of all the county funds, sets tax rates and acts as a board of equalization to determine all property valuations for tax purposes, issues bonds and warrants and, in effect, acts as the board of directors for a corporation which annually spends a quarter of a million dol-

lars of the people's money. It seems to us both logical and legal that the stockholders in such a corporation should have an equal voice in the election of its di-

Canadian Record Keep up your guard

Death had a field day in 1964 on American highways. Last year, according to the an-

nual report of The Travelers Insurance Companies, 48,000 lives were lost on the highways and 3 .-340,000 persons suffered injuries. And a look to the future is even

more disconcerting. More cars are being added to already congested highways. More miles are travelled each year in automobiles. With this in mind, it is a frightening likelihood that even more persons will be killed or injured in highway accidents. The American highway system

is being enlarged daily, but construction can't keep up with the number of cars being produced. Cars are made to last longer. the post war baby boom has skyrocketed the number of young drivers on the roads, and the young driver is blamed for a greater proportion of the accidents than other age groups. Driver error, lack of judgement

and excessive speed all are major factors in the accident statistics. Fog. rain and snow are becoming less incident to the figures. In 1962. for example, less than 85% of the death and injury producing accidents occurred in clear weather. In 1963 the figure climbed to more than 86%, and in 1964 to about

This indicates that the driver is beginning to take it easy in bad weather, but at the same time is becoming more reckless in clear Perhaps the safety message con-

cerning fog, rain and snow have gotten across to the motorists. At the same time, however, he has developed a false sense of security in good weather. This false sense of security can kill him.

Never let down your guard while driving. It could kill you! Many groups co-operate in noting safety. The Jaycees in Fort Stockton and other Texas communities operate their death-watch

stations for helping motorists keep alert on each major holiday, and deserve much credit for their ef-Fort Stockton Pioneer

DEATH PENALTY OUT? -Some attorneys contend that the new code of criminal procedure abolishes the death penalty for crimes in Texas.

They believe that absence of procedures for assessing punishment - where the state asks for execution of a criminal - makes it impossible for a death penalty to stand up in appellate court even if assessed by a jury.

A member of the State Legis-

lature, Rep. Bob Armstrong of Austin, is asking Governor Connally to submit proposed revisions in the controversial code to a special session of the Legislature. Complains Armstrong: the revision goes too far in requiring accused persons to be warned of their rights against giving statements to

SEEK FEDERAL FUNDS -Twenty-five Texas school districts filed early applications for a share of the \$81,000,000 provided under a federal act aimed mainly at helping under-privileged children. Aid will be dispersed at the rate of about \$195 a pupil for those from families with incomes of less than \$2,000 a year.

First districts applying were Houston, San Antonio, San Angelo, Poteet, Lipan, Fannindale, Paducah, Longview, Dimmitt, Del Val-Crystal City, Taft, Gonzales, Rochester County line, Dickinson, St. Jo. East Lamar, Cunningham Rural High School, Deport, Laneville, Graham, Jasper, Bandera, Giddings and Witharrall.

REDISTRICTING - Attorney General Carr and the Republicans still are swapping legal broadsides over congressional redistricting. Carr, in a new brief filed with

the Houston federal court, urged judges to give lawmakers another chance at reapportionment in 1967 if the 1965 redistricting act is invalidated. He repeated his earlier opinion that the law adopted this year meets the court's specifications, however, since population variance among the 23 districts is below 15 per cent.

A new GOP brief chides that the redistricting act borders on "sheer lunacy" and demands that it be redone by electrical computors rather than politically-minded legislators. CONFERENCE - Some 500 Tex-

ans are expected to attend a tourdevelopment conference in Austin on October 14. Purpose is to insure better cooperation between state and community efforts to promote travel.

Governor Connally will keynote the sessions. Other speakers will include Jon McCarty, chairman of Texas Tourist Development Agency advisory board; pollster Joe Belden; Kern Tips, TTDA advertising account executive; Tom Taylor, State Highway Department travel and information division head; J. Weldon Watson, Parks and Wildlife Department Director; John Ben Shepperd, president of Texas State Historical Survey Committee; and Don Epperson, Texas Tourist Council executive director.

Historical Society of county convenes here on Thursday

ty met Thursday, September 23 at 5 p.m. in the Chamber of Commerce building. Judge Johnny Love gave the invocation. Mrs. H. B. Barker, chairman, presided.

It was announced that a copy of H.S.R. Number 243, sponsored by State Representative Jesse T. George in the 59th legislature, had been framed and hung in the Chamber office.

The resolution pays tribute to Elvis E. Fleming and the Cochran County Historical Society for the publication of Fleming's book, "Texas' Last Frontier". The author gave a financial report on proceeds from the publication and announced that there are no copies of the book available, having all been sold.

Fleming also reported on his duties as Regional Coordinator for Texas State Historical Society. He said that a State Sub-Chairman from Cochran County would be announced soon.

Fleming urged members of the local society to attend the state meeting in Odessa October 28-31. Mrs. Barker appointed Mrs. Alvie Harris and Mrs. Lem Chessher to meet with the Commissioners Court to discuss a possible site

for a County Museum. Mrs. Chessher reported that plaques to be placed at the graves of law men killed in the line of duty were available from the State Society. She was appointed to investigate the possibility of placing such a plaque at the grave of D. T. Smith, former Deputy Sheriff, killed by a gunman in 1938 and buried in Morton Me-

morial Cemetery.

A quote from Flemings' book stated as follows, "Possibly the greatest tragedy in Cochran County was the murder of Deputy Sheriff D. T. Smith. Smith, 45, had come to Cochran County in 1924 with his wife and three children. He served as County-District Clerk for six years, his popularity with Cochran Countians was evidenced by the huge crowd that attended his funeral at First Baptist Church in Morton, where Smith had been the first Sunday School superintendent in 1928."

Bula journalists . . . MEMBERS of the Bula High School journalism class, who are writing school news once each month for publication in the Morton Tribune under the identity of "Bula Buzzline," are shown as they confer on assignments. In front row, left to right, are Kenneth Overaland, Gordon

McDaniel and Samy Nichols; second row, Brenda Clawson, JoLinda Robertson and Barbara Autry; standing, Nelda Seagler, Supt. Marion J. McDaniel, class instructor, and Lana Carol Aduddell.

REACHING NEW

Man has explored most of the earth, and has now set out to conquer space.

While achieving these marvelous works, let us not forget our creator.

"When I consider thy heavens, the work of thy fingers, the moon and the stars, which thou hast ordained; what is man that thou art mindful of him? and the son of man, that thou visitest him? For thou hast made him a little lower than the angels, and hast crowned him with glory and honour. Thou madest him to have dominion over the works of thy hands; thou hast put all things under his feet ..."

ATTEND CHURCH SUNDAY

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

necessary yardage. Portales couldn't move, and were forced to punt, with Morton again assuming the offense at midfield. A St. Clair to Danny Culpepper pass put the Indians in good position on the 18 yard stripe. The local eleven moved to a first down at the five, and were on the three when the first quarter

Fullback Kenny Palmer moved the ball to the two, and then was stopped for no gain. St. Clair then rammed into the endzone on fourth down. Lyons PAT gave the Indians their 7-6 lead.

Morton's defensive alignment was caught asleep again after the kickoff, and after they had thrown James for a two yard loss on the first play from scrimmage, Jim Van Winkle broke loose for 47 yards to the Morton 24, and then on the next play carried the remaining 24 yards for the go-ahead score. A pass attempt for the twopoint conversion was not good, and with 9:12 remaining in the half the count was 12-7.

Morton fumbled on the next series of plays, but Portales couldn't turn the break into a score as they lost the ball on downs on the Morton 33. The Indians couldn't

On third down with nine yards to go, the Rams attempted a pass which Kenny Palmer intercepted at the mid-field stripe, but he fumbled the ball when tackled, with Portales recovering for a new first down, The Rams advanced

The Indians obliged their visitors again, as St. Clair fumbled on the first play, with Portales again recovering, this time on the Indian 22. Two plays leter, the kams attempted a fie'd goal on the last play of the half, but the Morton defense blocked it.

Morton appeared to have things solved as they took the second half kickoff and marched to a first down on the Ram four yard stripe. A motion penalty set the local eleven back, and they failed to get the score, Portales taking over the ball on the three yard line.

The Indian defense bristled up and forced the Rams to punt from the three. However, Indian Timmy Petree dropped the ball on the attempted punt return, with the alert Rams once again recovering, this time on the Por-

Three-way Eagles win 26-0 decision over Loop

er Loop Friday night 26-0 in their first home game before a large crowd that had turned out for

The Eagles scored in every quarter with junior halfback Tommy Black starting off in the first goal line from 25 yards out. Freshman quarterback Bruce Pruitt threw an eight yard pass to senior right end Johnny Harris to score in the second quarter.

After the half, Pruitt connected with another freshman, left end endell Williams for an 18 yard pass play and a score. In the fourth quarter, Tommy Black scored on a 21-yard running play. Junior half back Bill Dewbre, then ran over for two points.

The Eagle Coach, J. W. Aldridge, commended several of his players. He said that on defense right guard Johnny Harris, and left line backer Tommy Black looked

On offense he said senior Shorty Hale, center, and left guard Deaun Carpenter, also a senior, did a good job. He said, "These two players haven't been starting, but Friday they filled in for two injured teammates, and did a real good job." Aldridge said that Tommy Gish, a defensive right end played Friday night in competition for

Whiteface didn't score in the first half. Coach Dale Read said, "We had a bad first half. We should have scored but didn't. Maybe our lack of experience was the cause." Whiteface scored twice in the

last six minutes of the game. Armando Alaniz, a senior quarterback, ran across the goal from 35 yards out, and Darrell Kitchens, junior fullback scored after the Whiteface team had moved the ball 51 yards in three plays. The two teams were even on penetrations, having two each. Both teams had about 11 first downs.

Read said that two of his players did an outstanding job. They were line backer Alvin Knott and tackle Kenny Roberts.

Read said that Ropes had a lot of speed and some big boys which gave his team some trouble.

good results.

Pruitt was the leading ground gainer for the Eagles with a total of 117 yards. He completed seven out of twelve passes. The Eagles penetrated five times, and Loop none. The Eagles made 19 first downs, as against Loop's six

Coach Aldridge said that in this Friday's game with Bula he would have two of his players back off the injured list. They are senior half back Monte Toombs and junior guard James Kindle. Aldridge said that he expected the game with Bula to be "tough, but good." He said, "Bula always gives us a tough battle. Maybe it is because the two school are so close to each other. But, anyway, they might have a little more experience and weight than we have.

Aldridge said that his freshman quarterback Bruce Pruitt was coming along nicely and getting plenty of experience in the games.

Bula drops 48-16 decision Friday

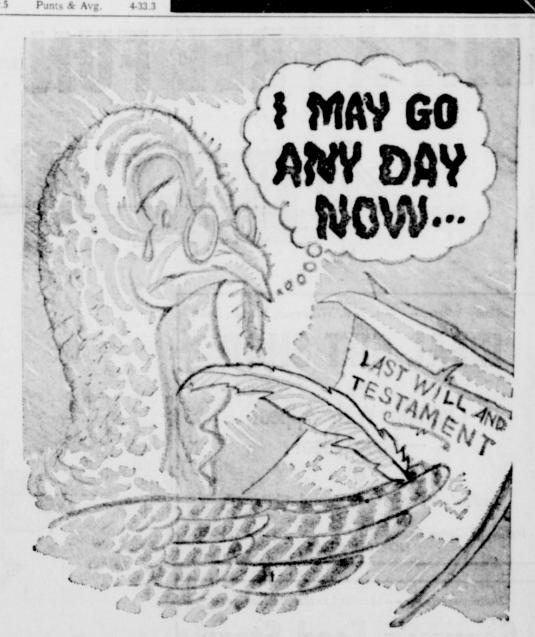

Bula fell to Patton Springs Friday night 48-16 at Patton Springs. Two touchdowns were made by Bula back Sammy Nickols, one in the second quarter from about 10 vards out and one in the last part of the third quarter from five yards out.

Bula Coach C. W. Fincher said that Patton Springs had quite a few seniors and juniors and quite a bit of speed. He said, "Their speed is what hurt us mostly. They had some big boys, but their size wasn't much of a factor in

Sponsors for the National Honor Society are Mrs. Ruth Sheard and Mrs. Elizabeth Leavitt.

There was a time when I could feel safe until November. But the member-owned Bailey County Electric Cooperative has changed all that. With food freezers in so many homes, poultry processing plants, electric brooders and all that modern electric wizardry, they are processing turkeys all year long. I'm lucky I've lasted this long. In case I end up in your giblet gravy, just remember this . . . the Bailey County Electric Cooperative may be fine for rural people, it may be helping Texas grow and it may be the greatest example of rural people working together to brighten their lives. But it has played havoc with my life expectancy.

YM Study Club has year's first meeting

Mrs. George Hargrove, in the home of Mrs. Richard Biggs on September 23, was the start off of the 1965-66 season for the Y-M

Red and white, the club's colors, were used in decorations. Arrangements of red and white dahlias were used as center pieces for the serving table and the individual tables.

Dinner was served by Mrs. Biggs, Mrs. Kenneth McMasters, Mrs. James Cogburn, Mrs. Cullen Dansby and Mrs. Dexter Nebhut.

Following the dinner, the president and officers were introduced by Mrs. Dansby. The theme for the club this year is "Stars of Destiny". Mrs. Dansby compared each office with a constellation letting Polaris (North Star), the brightest star in the universe, represent the President, Mrs. Hargrove, denoting her strength and leadership for the coming club

Mrs. Hargrove gave her message to the club asking, "Is your lamp lit?" Each one should do their task with enthusiasm and energy. One of the most important factors in having a good year is to do everything well. Let each of us come alive to achieve the goals for which Y-M was organized."

Members were urged to attend Federation Day on October 2 at the County Activity Building. Copes of the new yearbooks were
