VOLUME 26 — NUMBER 19

THURSDAY, JUNE 23, 1966

## Continual downpours, hail and wind batter area

The typical dusty skies and dry winds of West Texas gave way to water and hail for the third straight week as storms brewed over Cochran County for most of the past seven days.

Area farmers are beginning to show signs of concern as the prolonged cool, wet weather shows no sign of ceasing an end. County agent Homer Thompson reported some evidence of cotton seedling disease in the county and predicted more as the damp weather drags on.

Records of the Soil Conservation Service in Morton show a total

moisture accumulation of 2.57 inches for a period beginning at 7 a.m. June 16 and ending at 7 a.m. June 22. Larger amounts of rainfall and varying reports of hail were common in other areas of the county.

Seventy-eight hundredths of an inch of moisture was recorded Friday morning in the city. Storms Friday night and Saturday morning brought another .36 if an inch accompanied by strong but unrecorded winds. Sunday morning's reading showed an additional collection of .44 inches of rain and reports Wednesday morning showed .36 of an inch more.

Vic Jackson, manager of the Star Route Gin six miles west of Morton reported 2.5 inches of rain from the downpour beginning Friday and .70 of an inch more Saturday.

He also investigated at least five fields lying on a line running four miles south of the gin in which crops were destroyed by heavy

### ★ File for beer

An application was filed Wednesday for a license to sell beer in Whiteface. The application was filed by George Burnett in a legal notice in the Tribune and through the other legal processes usually followed in such applications. The permit request was made to operate the business under the name of the "Beer Depot". Although Cochran County has been legally dry for many years, the permit was filed under a vote that was made many years ago to allow beer sales in Whiteface. The law was not repealed when the county voted dry and now such cases are being studied by the Attorney General.

### Resignations by six teachers accepted by board

The Morton Board of Education accepted the resignations of six school employees and discussed new appointments for several others at its regular meeting in the Board Room at Morton Junior High School Monday night.

A school budget of \$674,137 for the year ending August 31, 1966 was also examined and approved by Board members.

Resignations accepted included those of Charles and Mary Rose Bowen, Owen and Linda Houston, Miss Dorothy McCowen, and Mrs. Patsy Biggs.

School Supt. Ray Lanier announced that next year's teaching staff would be decreased by three employees — one high school teacher and two elementary school teachers — meaning a saving of approximately \$20,000 in the next budget.

He further announced the appointment of Paul Davis as high school counselor and the appointment of Elvis Fleming to the post of high school history teacher. Robert Taylor from the Friona school system is scheduled to assume Fleming's present duties as eighth grade history teacher.

The Board also discussed the proposed appointment of band director John Stockdale as director of both the school band and choir next year, but no action was taken on the matter.

### Chamber board opposes statewide water plan, eyes CAP proposal

In a three-hour session Monday evening, the Morton Area Chamber of Commerce board went on record against the proposed Texas Water Development Plan, took a long look at the Community Action Program and hired a new secretary.

Following a report on last Friday's hearing by the Texas Water Development Board in Lubbock, the directors unanimously opposed the present plan for use of Texas water and asked that letters be drafted asking that West Texas be given further consideration in the statewide plan before its submission to the legislature.

Most of the meeting was devoted to hearing a tape recording of a talk made in Brownfield Thursday night and attended by six Cochran County residents. The speaker was Joe Meador, who works for the Texas office of the Office of Economic Opportunity. Meador explained the various programs which can be established on local or area levels to battle poverty. The programs can be assisted by federal funds if desired.

Following a lengthy discussion, it was decided to investigate the possible programs further before making any decisions.

The board also decided to table a proposal by A. N. Wall for a community celebration and fair, pending additional study.

Glenda Yancey of Morton was approved as the new secretary for the Chamber, upon recommendation of manager Jesse George. She replaces Shirley Hartline, who moved from Morton.

A visit was tentatively set for Thursday by directors and members of the Chamber's agriculture and industrial development committees to Lorenzo and Abernathy. The local group will discuss cotton spinning mills which have agreed to locate in two area towns.

Directors heard a progress report on the Chamber's efforts to interest national food companies in growing contracts for vegetables by local farmers.

### GONE WITH A GLOW

### 'Black light' insect traps guarding plants

Two Cochran County farmers began planting a new "crop" in their fields this week in an effort to protect their existing ones from moths.

Unlike the conventional plants, the new ones do not grow — they glow.

The plants are really black light insect traps designed to attract and destroy insects which feed on cotton, maize, and many other crops.

The protective contraptions may be seen standing in rows eight to 10 acres apart on the farms of Vernon Blackley southwest of Morton and Karl Griffith on the east edge of town. The traps are being installed in a cotton field on Griffith's farm and in fields of cotton and maize on Blackley's farm.

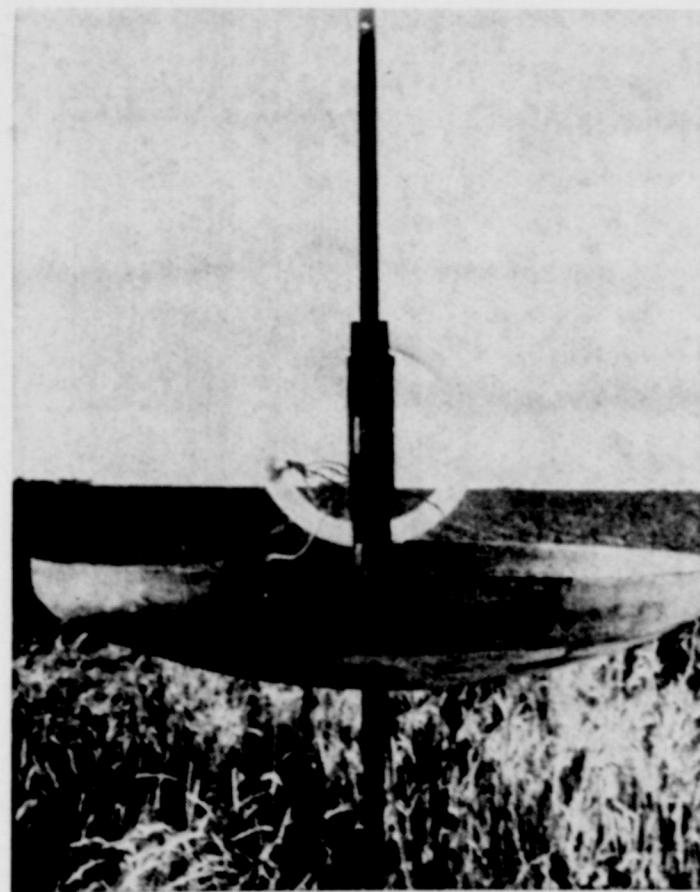

Each is composed of a metal reservoir containing diesel fuel and is supported by a steel pole set into the ground. A circular tube is attached to the pole which gives off a black light, attracting moths at night. The light appears pale blue to the human eye and is only visible to men and moths after dark.

Once attracted to the light, the moths fall into the fuel held in the reservoir directly beneath the light.

The reservoirs are 32 inches in diameter, have a fuel capacity of 14 gallons, and may be adjusted on the poles from ground level to several feet in the air to stand above the protected crop, according to Walter Shaw, owner of the Letha Lite Co. of Pecos which supplied the insect traps.

The black light technique of attracting harmful insects has been used successfully to protect tobacco crops in Georgia and the Carolinas for many years, Shaw said, and insect traps are common sights in parts of Southwest Texas today. He added that black light traps have been proved effective against grasshoppers, cotton boll worms, cotton leaf worms, army ants, and tobacco worms as well as moths.

Shaw estimated the cost of operating a black light insect trap at one cent per day per light. The lights are cabled into standard 110-volt outlets and remain on at all times during the growing season.

New crop protection . . .

BLACK LIGHT insect traps are being planted by Cochran County farmers this week as a new means of controlling moth damage to cotton and maize. Insects are attracted to the traps by the black light and fall into deadly reservoirs of fuel. TRIBPIX

## Jaycees to aid Girlstown, delegate to youth meeting

Morton Jaycees voted to sponsor a drive to raise money for Girlstown and discussed plans for several other future projects at their regular meeting Tuesday night at the Wig Wam Restaurant in Morton.

Money for Girlstown will be raised through the sale of 600 stadium seat cushions by Jaycees to area residents. Forty squares of advertising space will be made available on the cushions to cover their original cost to the club. More than half the advertising space has already been purchased by local

and state businesses.

Jaycee members discussed the possibility of buying a bus for the girls with the profits from the cushion project. Royce Hanna was appointed chairman of the drive.

Club members also voted to send a junior high or high school student representative to the annual state and national Jaycee Youth Conference in Austin August 18-21. The expense-paid trip will give the youngster an opportunity to learn more about the workings of

## Consumers are saluted by Morton merchants

You have made Morton the finest shopping center in this region. Your shopping habits and buying skill have thrown the spotlight on Morton and caused other communities to cast envious eyes in our direction.

The merchants advertising on "Salute of Values" page in this edition of the Morton Tribune have long been aware of your value, and recently have come to appreciate you even more when they compare sales receipts and bank deposits with other communities through the state.

Your knowledge of merchandise keeps these merchants busy constantly looking for bigger and bet-

ter values to pass on to you. These firms are proud of their new merchandise. They pride themselves that they can supply your every need. They also take great pleasure in knowing you can find or obtain the identical items in Morton that you can find in any shopping center — and, in most cases, for less money.

You can shop in Morton with confidence. The shopkeepers here are your friends. Their purpose is to supply you with the best quality merchandise at the lowest possible price.

Shop the "Salute of Values" page for your family needs. Be in Morton this week for a tremendous "Salute of Values" from these fine merchants:

Doss Thriftway, Hanna's Department

### Saverance leaves S&L position here

Sidney Saverance, assistant vice-president of Levelland Savings and Loan Association of Morton and Levelland for the past two and a half years, will resign his post June 30 to take a position with the Federal Land Bank as assistant manager of the Roby Association in Abilene.

No replacement for Saverance has yet been named.

He plans to move to Abilene at the end of the month with his wife Annette and assume his new duties July 1.

### Cotton and milo all planted; rain bogs harvesting

County Agent Homer Thompson reports the Cochran County cotton crop to be 100 percent planted with 56,000 acres now up. Sorghums were 90 percent planted at last report.

Wheat in this county is not yet ready for harvest, according to Thompson, and the Texas Employment Commission reports wheat harvests in Littlefield and Muleshoe have been temporarily halted by recent rains.

Texas wheat production, based on June 1 prospects, is forecast at 61,905,000 bushels by the Texas Crop and Livestock Reporting Service. This is 2,905,000 below the May 1 forecast. Yield is expected to average 21.0 bushels per acre compared with 22.5 last year.

In other talks, John J. Vandertulp, chief engineer for the TWDB, spoke on present and proposed surface water development in West Texas; Harold D. Holloway discussed saline water conversion and plans to establish a saline conversion plant in West Texas; Herbert W. Grubb discussed pricing of irrigation water.

Both Vandertulp and Grubb declared the cost of imported water from East Texas likely would be too high to make it feasible for irrigation use.

See WATER, Page 6

### Adult sewing class starts at school

A basic sewing course was begun last week for Morton and area women, taught in the clothing lab of Morton High School by vocational home economics teacher Mabel Sanders.

Many of the 10 women enrolled had no sewing skills at all at the outset of the classes June 13, but Mrs. Sanders expressed confidence that all will have advanced measurably by the conclusion of the classes June 23.

Each class member is assigned a project of making a simple garment, is taught to follow guide sheets, lay patterns on fabric, and sew simply fitting fabrics.

Those enrolled in the sewing course are Mrs. Joe Warren, Mrs. George Hargrove, Mrs. Marvin Robinson, Mrs. Bobby McGehee, Fern Weatherly, Nellie Pritchard, Linda Brown, Janis Buchanan, Margie Griffiths, and Brenda Hall.

### Rev. Kenneth Wyatt assumes pastorate duties at First Methodist

Rev. Kenneth J. Wyatt assumed his new duties as pastor of the First Methodist Church here, accompanied by his wife and two children, Mark, and Jill S.

He served the First Methodist Church of Paducah for three years and was his latest appointment.

The Rev. Wyatt, 36, is originally from Stephenville. He is a graduate of McMurry College in Abilene and has done graduate work at Baylor University in Waco, the University of Denver, and Liff University of Theology in Denver.

### Grain warehouse under construction for Enochs region

A one million bushel grain storage plant costing an estimated \$180,000 is now under construction at Enochs.

The storage plant, owned by the Farmers Cooperative Elevator Co. of Muleshoe, will serve the Morton Trade Territory, the south end of Bailey County, and perhaps the eastern edge of New Mexico, according to H. L. Ward, spokesman for the company.

The new plant is technically known as a flat storage warehouse and is designed primarily for milo but will also be used to store soybean and wheat. Now in its fourth week of construction, it is scheduled to be receiving grain sometime in August, Ward reports.

The project is situated on an acre lot purchased from the By-estate.

An immense foundation containing 1000 yards of concrete, now being completed, will soon be topped by a plain steel warehouse rising 60 feet into the air. The structure, built by Plains Steel-headers, general contractors for the project, will cover 37,240 square feet and house two upright storage tanks. Each tank will have a storage capacity of 15,000 bushels of grain and measured 24 feet in diameter and 45 feet high.

The entire project will be financed by stock subscriptions of co-op members and through cooperation with the Houston Bank for Co-

Going up . . . CONCRETE FOUNDATION for a one million bushel flat storage grain warehouse is nearing completion at Enochs. The new \$180,000 plant will be owned by the Farmers Cooper-

ative Elevator Co. of Muleshoe and will serve the Morton Trade Territory, the south end of Bailey County, and possibly the eastern edge of New Mexico. TRIBPIX

## 50-year water plan leaves Cochran County area dry

was changed again just prior to the meeting, but it was too late for many of the prepared statements to be present.

However, the board announced that it will hold another meeting in Lubbock in September and will accept statements at that time. It is expected that a large number of groups, organizations and individuals will be on hand at that time to present statements opposing the plan as it has been conceived.

The board explained that the area which likely will not share in the benefits of the long-range water plan lies within the boundaries from Paso to San Angelo,

to Abilene and Wichita Falls and north to the Oklahoma border.

Joe G. Moore Jr., executive secretary of the TWDB, explained during the meeting that the so-called "2020 plan" is a 50-year program to conserve Texas water and place it in the areas which will need it most.

Opening the meeting, Edward G. Weber of Amarillo said, "The report shows a 1959 value of agricultural production (for the High Plains area) at just under 500 million dollars. It projects a high of 616 million dollars in 1980, but still sees agriculture as a half-billion dollar business in 2020. And production of a half-billion

dollars in farm products will be a major contribution to this state — and our nation."

Paul T. Gillett, hydrologist for the TWDB, traced the history and potential for West Texas irrigation. He said that studies showed that slightly more than 37 million acres of Texas could be irrigated, with 21.92 million acres in West Texas and 14.48 million of these in the High Plains area. In 1964, actual irrigation covered 7.7 million acres, 5.75 million of these in West Texas including 5.07 million in the High Plains.

In the year 2020, without water limitation, it is expected that irrigation would cover 17.78 million

acres in Texas, with 10.77 million in West Texas and 8.63 million acres in the High Plains. Without supplementing available water sources, by the year 2020, Texas irrigation would include 5.91 million acres, with only 2.48 million in West Texas and 2.19 million acres irrigated in the High Plains.

With supplemental water, in the year 2020, Texas irrigation could be expected for 13.23 million acres, with 9.90 million in West Texas and 8.57 million acres irrigated in the High Plains.

Thus it is clear that supplemental water will be needed if the West Texas area, and particularly the High Plains, retains its sta-

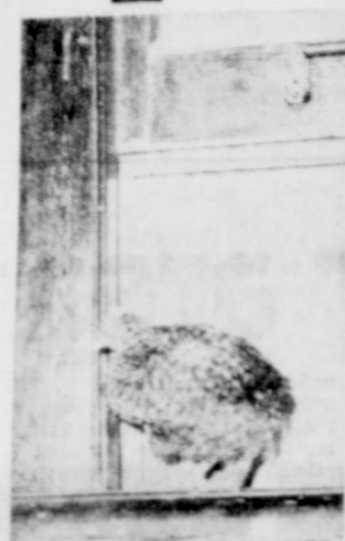

H. A. TUCK JR., Managing Editor

West Texans, including some from Cochran County, ironically received morning showers last Friday to hear a report on Texas water plans.

In summary, they found out that the Texas Water Development Board have let out all of this information. Recommendations call for movement of water from Northeast Texas through the various waterways and basins in a generally north and west direction.

There was confusion about the meeting. It was called originally an open meeting, then was announced as a closed meeting. This

**T**hru the telescope by Tuck

Shown above is one of the scrawniest, most forelorn chickens we have seen in a long time. The bird was spied last week on the courthouse lawn, looking hardly larger than the sparrows that control the trees. Since it was a dull day in the office, the Tribune staff launched what might become known as "The Big Chicken Hunt". The chicken, about the size of a pigeon, darted frantically among the cars and hid among the shrubbery, all the while being pursued by the slightly hysterical news and business department. Staffer Jimmy Cartwright was in the van with camera to record the safari for posterity. What with the chicken trying to escape, most of what he recorded was, not posterity, but posterior. After a suitable interval, allowing the courthouse employees time to find the cause of the commotion, the beast was brought to bay. It was deposited on my desk, flapping slightly and completely bare of feathers on head and neck. There were back ground suggestions that it be named "Tuck" because of a certain alleged similarity on top but this was over-ruled. The bird had been captured, but no one wanted it. So it seemed only right to return it to the courthouse. And since, by law, the sheriff is officially designated as keeper of the courthouse building and grounds, the bird was ceremoniously carried to Hazel Hancock's office and delivered into the care of bird fancier Walter Sandefer. We hope that the jail wasn't housing more than one or two prisoners, for that bird wasn't large enough to feed more than that, even including the bald head and neck.

Maiden run . . . THE FIGHT of man and machine against the mosquito went into its first round in Morton Friday as the fogging machine got its first test. Fogging will be conducted throughout the city on a weekly basis as soon as weather permits. TRIBPix

### Doug Corey leaves for summer in Great Britain

Douglas Corey, a 1965 graduate of Morton High School and a sophomore pre-law major at Texas A&M University will become a freelance good will ambassador to Great Britain next month taking part in the 1966 summer program of the Experiment in International Living. He is the son of Mr. and Mrs. Robert C. Cross of 405 S.E. 8th St. Morton.

Doug will leave Morton June 29 on a two-month trip that will give him an opportunity to tour the island and live as the guest of a British family. The international education experiment has sent over 4,000 representatives annually between the United States and 58 foreign nations of the world since its initiation by Donald B. Watts 34 years ago. The exchanges are intended to promote world-wide friendships and understanding of varying cultures and customs. The first month of Doug's educational adventure will be spent as the "son" of a British family, probably in Stockport, Cheshire, he said. The second month of his travels will be spent touring the island and living in hostels, roadside rooming houses for youths, resembling the British inns of olden days. Doug's first stop will be at the International Experiment's School of International Training at Putney, Vt., where he and his fellow travelers will receive a brief orientation course before going abroad. Trees are a crop, according to the Texas Forestry Association. Trees grow, are tended, and harvested like any other farm crop. Texas Tech's enrollment has increased 102.4 per cent during the past 10 years.

### Weather

from Page One  
hail brought by the weekend storms. Jackson estimated hail damage to cotton in the immediate area at from 500 to 700 bales.

Wiley Moore, assistant manager of the Muleshoe Co-Op Gin reported considerable hail damage to crops two miles either side of a six mile line running south of Muleshoe. An additional .40 inch of rain was reported there from Tuesday's showers.

Hail was also reported in the Lazbuddie community 15 miles northeast of Muleshoe. Over an inch of rain was recorded through Tuesday in Whiteface by M. L. Collins, office manager of the Whiteface Co-Op Gin. Measurements ranging as high as 2.50 inches of rain were made for the same period six miles south of Whiteface and as high as 3.00 inches of rain seven miles to the southwest. No hail damage was reported in the area.

Mrs. Thelma Lindsey of the State Line Butane Co. in Maple reported a total of 2.00 inches of rain from showers Friday and Saturday. Tuesday's downpour added another 3.30 inches to the total. No reports of hail in the Maple area were received.

Woody Dickerson, manager of the Alamo Cotton Co. seven miles east of Morton, had a total reading of 5.80 inches of rain in the past week with only minor scattered hail. Latest reports from the Lubbock weather bureau indicate that sunshine can be expected to remain mostly behind the rain clouds for at least the next couple of days.

The raw cotton in the average cotton product makes up about one-sixth of its value.

### Jaycees

from Page One  
government. Murray Crone, Bill Crone, and Harold Ogle presented a report of the Boy Scout Summer Camp program and details of last week's camping trip to New Mexico by Boy Scout Troop 601, sponsored by the local Lions Club.

A suggestion was made to sponsor a campaign to raise funds for the George White District of the South Plains Council. The Council is charged with the upkeep of Boy Scout camps in the region. No action was taken on the suggestion.

Plans were discussed to investigate the purchase of Christmas trees for a fund raising drive in December.

### Cochran folks receive fair catalogs for SP event

Catalogs outlining details of the 1966 Fair have been completed and recording star Tennessee can Singers, a double attraction that already is generating considerable interest throughout South Plains.

Charles L. Adams Jr., president of the fair association, said the informational catalogs were mailed to persons and firms who have sponsored displays at previous fairs, to all area high schools and to individuals who have made inquiries about the exposition, one of the largest in the Southwest.

Additional copies may be obtained free of charge by writing to or appearing at the fair association office, 163 E. Broadway, Adams pointed out.

Many of the details regarding the 1966 fair have been completed, including the booking of television and recording star Tennessee can Singers, a double attraction that already is generating considerable interest throughout South Plains.

Appearing in Fair Park Coliseum on the fairgrounds, Ford Singers will present two shows, at 3:30 p.m. and 7:30 p.m. all six fair dates.

All performances will be "the-round." Officials estimated the fair year will draw 250,000 persons up from last year's turnout of 225,018.

## Chamber office has Maid of Cotton blanks

Applications are now being accepted by the Lubbock Chamber of Commerce for the 1966 South Plains Maid of Cotton Contest. Cochran County girls meeting general qualifications for the contest are eligible to compete.

The winner of the contest will be automatically eligible to try to follow in the footsteps of last year's South Plains winner, Nancy Bernhardt, who went on to win the 1966 National Maid of Cotton title.

Application blanks for the contest may be secured from the Morton Chamber of Commerce or the Lubbock Chamber of Commerce at 902 Texas Ave. in Lubbock.

Due to the fact that Nancy Bernhardt was the 1966 National Maid of Cotton, she has been touring extensively. The South Plains selection has been removed from its usual April date to August 29-30. This will allow time for her successor. The Maid of Cotton selection will take place at the Lubbock Municipal Auditorium at 8 p.m. Tuesday, August 30.

General qualifications and policy for the 1966 Maid of Cotton selection includes the following items: Application blanks must be filled out and returned to the Chamber offices by 5 p.m. August 15, 1966. In addition the maid applicants must:

Never have been married; be between the ages of 19 and 25, inclusive, as of December 1, 1966; and be at least 5 feet 3 1/2 inches tall, without shoes.

Have been born in one of the following cotton-producing states: Alabama, Arizona, Arkansas, California, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia; or have been born in a cotton-producing county in Illinois (Alexander, Jefferson, Massac, Pulaski, Williamson, Madison); or Nevada (Clark, Nye).

Have her home residence in one of the following South Plains counties: Bailey, Borden, Briscoe, Castro, Cochran, Crosby, Dawson, Deaf Smith, Dickens, Floyd, Garza, Hale, Hockley, Howard, Lamb, Lubbock, Lynn, Motley, Parmer, Swisher, Terry, Yoakum; or be a student in a school or college in one of the above mentioned counties, but be a resident of Texas.

Be photogenic. Not have been a prior winner of the South Plains Maid of Cotton Contest.

Be in excellent health. Be willing and able to meet people.

Realize that background, personality, and appearance are of equal importance in the selection of the Maid of Cotton.

Understand and agree that the right to conduct a preliminary elimination if number of entries exceed the number of candidates that can be properly presented at the judging, August 29 & 30. Any preliminary elimination will be conducted as soon as possible after the closing date for accepting applications.

Understand and agree that all decisions of the judges will be final.

Agree, if selected as South Plains Maid of Cotton, to appear before the audience at the National Maid of Cotton Selection finals in Memphis, Tennessee, as the South Plains Maid of Cotton of Lubbock, Texas, dressed in cotton apparel; and agree to appear before the judging committee (not before the audience) in a bathing suit.

Be willing and able to make an international tour beginning early in January and lasting until August if selected as the National Maid of Cotton.

Be willing to travel on regular commercial airlines.

Agree to travel with a chaperon designated by the National Cotton Council of America.

Understand that she must pay all expenses incidental to her appearance in Lubbock for the finals. It is not necessary to appear in cotton or buy cotton clothing for any part of the Lubbock selection.

Realize that the purpose of this contest program is to stimulate interest in cotton and its products.

If not a resident of the 23 counties listed above in rule No. 4 and you are a student at one of the schools or colleges in the 23 counties, agree if selected, as South Plains Maid of Cotton to list the towns in which the college is located where you attend as your home address in any publicity, news interviews, or other information from the time of your entry until such time as you no longer have any ties of any kind with the South Plains Maid of Cotton Committee of the National Cotton Council.

It also must be understood that there is no financial remuneration for the contest winners. However, the South Plains Maid of Cotton will receive an all-cotton wardrobe worth \$1000, an all-expense paid trip to the national finals in Memphis, Tennessee, for herself and the chaperon of her choice; and will be a guest at the 1967 Cotton Bowl and may have an opportunity to appear in the parade. The first and second alternates each will receive \$100 gift certificate.

In addition, the local Maid of Cotton will make several appearances in local and area cotton festivals after her selection in Lubbock.

Sponsoring the contest is the

## Chain reaction . . .

END OF A CHAIN that started when a pick-up slid in a ditch near the Morton Country Club Saturday morning. The tractor shown

bogged down came to the pick-up's rescue, but got stuck while freeing the other vehicle. A tracked tractor was called into service to free the tractor and end the chain. TRIB/ix

## Cochran County Garden Club has recent discussion on 'Geraniums'

The Cochran County Garden Club met in the home of Mrs. Hattie B. Spotts on June 20, 1966 with Mrs. Charles Jones presiding.

The resignation of Mrs. Bill Hovey was accepted with regret.

Mrs. Wayne Porter distributed Flower Show schedules to be used in connection with the Annual Fall Flower Show. The title of the show will be "Poetic Jewels" and will be on October 8, 1966. It was noted that several changes had been made, including the addition of categories for fruits and vegetables in the Horticulture Division and a new award, the Award of Creativity, in the Artistic Division.

Mrs. J. L. Schooler is General Chairman of the show this year.

Mrs. W. B. McSpadden was in charge of the program on Geraniums. She said that Geraniums have been house plants for many years because they provide bright blooms even indoors. She listed some of the colors as pink, salmon

pink, white, red, brick red, cerise and others. They require full sunlight at all times and cuttings should be made in May for winter bloom.

Mrs. McSpadden said that Geraniums require a soil which is low in nitrogen and high in phosphorus and potash. She said that after cuttings are rooted they should be potted in 3 inch pots and moved to larger pots as they grow and should be re-potted in early autumn in fresh soil for abundant winter bloom. Geraniums should not be watered too liberally as the plants will give better bloom if somewhat dry.

Mrs. Charles Jones who is District Geraniums Chairman continued the program by showing unusual scented leaf Geraniums. She said that by rubbing the leaf on a scented Geranium the fragrance would be produced. Some of the fragrances noted by members were Old Rose, Ginger, Lemon and Peppermint. The plants brought by Mrs. Jones will be taken to the

Roberts Memorial Nursing Home as a part of the Therapy Project. Mrs. Jones, who is Therapy Chairman told members that she had recently taken small Caladium plants to residents at the Nursing Home.

It was announced that Mrs. Charles Jones had joined the Geraniums Society and Hattie B. Spotts was a new member of the National Iris Society. Other members expressed a desire to join plant societies in order to be better informed on new varieties and culture of a specific plant.

Mrs. C. B. Jones, Beautification Chairman, reminded members of the general cleanup day on Tuesday at the Morton Memorial Hospital grounds.

Those present for the meeting were Mesdames: W. B. McSpadden, Charles Jones, Clyde Brownlow, Wayne Porter, Hattie B. Spotts, Roy Hill, C. B. Jones, Kenneth Thompson, Murray Crone, R. L. DeBusk, and Bobby Travis.

## Legion studies baseball plan, oratory contest

The possibility of creating an American Legion baseball team for youngsters 16 to 19 years old was discussed at a called meeting of the Jesse R. Bond American Legion Post 374 at the Legion Hall in Morton Sunday.

Plans were also discussed to send a local entry to the next annual Boys State in Austin and to sponsor an American Legion oratorical contest for high school students here next fall.

Contestants in the annual oratorical contest will present an eight to 10 minute speech on the Constitution with the local winner vying for a scholarship of over \$200 at the district competition.

No definite action was taken on any of the proposed action.

Homer Thompson, leader of the local post, accepted a Special Certificate of Distinguished Service on behalf of the Jesse R. Bond post and a Membership Award for exceeding the assigned membership quota for 1966.

Visiting members attending the meeting were A. V. Petty of Lubbock post 575; John Moore, Arthur E. Licht, and Lloyd W. Elms of Littlefield post 301; Tom Wheeler and Everett Miller of Plainview post 260; and E. P. Schmit of Slaton post 438.

Local members present included Roy Hill, Homer Thompson, Walter Sander, John Singleton, L. G. Reed, Winston Jerden, and Elmer Elms.

South Plains Maid of Cotton Committee of the Chamber of Commerce, headed by Bob Pottee, Secretary of the Lubbock Cotton Exchange.

All inquiries concerning the contest should be directed to Grey Lewis, Manager of the Conventions and Special Events Department of the Chamber of Commerce.

## Farm home improvement loans being accepted

Farmers Home Administration is now accepting loan applications from rural families who need to improve their housing. Marvin Elliott, the agency's supervisor for Cochran County, reports.

Funds may be used to finance homes, building sites, and essential farm service buildings.

Under the new program private capital will provide the bulk of the funds with the Farmers Home Administration making the loans and guaranteeing the repayments of principal and interest to the investors.

Legislation implementing the new insured loan program was contained in the Housing and Urban Development Act of 1965.

The Act authorizes the Farmers Home Administration to insure loans totaling \$300 million each year for families in low or moderate income levels. These loans will bear interest at 5 percent with up to 33 years to repay.

Additionally, loans bearing percent interest can be insured for families with incomes above the moderate level.

Elliott said that loans are available to families living on farms and in rural areas including towns of 5,500 population to construct, improve, or repair rural homes and related facilities, or farm service buildings or to provide water for farmstead and household use.

Elliott said that families with weekly take home pay as small as \$45 can now obtain loans to improve their housing through construction of a new home, purchase of a previously occupied home or repair or remodeling of present dwellings.

Families needing credit to improve their present housing may use loan funds to add bathrooms,

central heating, modern kitchens, and other home improvements, as well as to enlarge or remodel farm service buildings and put in related facilities such as yard fences, drive ways and sidewalks.

A rural resident may use loan funds to buy a previously occupied house, or to buy a site on which to build his home, or to build or repair a home on land he owns.

Insured rural housing loans are made to applicants who are unable to obtain the required credit from other sources.

Further information on insured rural housing loans may be obtained at the county office of the Farmers Home Administration located in the County Activity Building at 200-E West Taylor, Morton, Texas.

## Out of Orbit

# Sox capture Morton Little League championship with Tuesday victory

**Sox 20, Cubs 7**

The Sox rushed into the Little League championship Tuesday afternoon with a resounding 20 to 7 victory over the Cubs. The Sox scored 4 runs in the 1st inning and 2 runs in the 2nd inning to take a 6 to 0 lead before the Cubs could get started. The Cubs did not break into the run scored column until the bottom half of the 3rd inning when they scored 4 runs. The Sox scored 6 runs in the 4th inning to increase their margin by 12 to 4. The Sox closed out the scoring as they scored 4 runs in the 5th inning and 4 runs in the 6th inning. The Cubs could tally only 2 runs in the 4th inning and 1 run in the 6th inning. Eddie Turney had two doubles for the Sox. Dub Hill, Larry Clawson, Steve Thompson, and Mario Gomez all collected two singles apiece for the Sox. Keith Embry hit four singles in five times at bat for the Sox. Ron Risenger collected a home run in his first time to the plate. Pete Soliz, Tommy Tuck, and Cornell Thompson collected one hit apiece for the Cubs. Jack Sublett started on the mound for the Cubs, going 3 innings, giving up 6 runs on 9 hits. Jack was relieved by Larry Thompson in the 4th inning. Thompson gave up 6 runs on 3 hits. Tommy Tuck relieved Thompson in the 4th inning and allowed 8 runs on 5 hits. The Sox collected a grand total of 17 hits. Eddie Turney pitched the entire game for the Sox, giving up 7 runs on only 3 hits.

The Cards led the Giants by a 9 to 2 score with the Giants batting in the bottom half of the 2nd inning. The game was called on the account of rain. President Herman Bedwell said the game was re-scheduled for next Thursday at 7:30 p.m.

**Sox 10, Cards 9**

The Cards threw a scare into the Sox championship hopes by giving them a run for their money in a 10 to 9 ballgame won by the Sox. At the end of the 4th inning the Sox led by a 10 to 2 score. The Cards came back to score 3 runs in the 5th inning and 4 runs in the 6th inning. Eddie Turney started on the mound for the Sox, going three innings. Mario Gomez relieved Turney at the start of the 4th inning. Turney allowed 2 runs on 2 hits and Gomez gave up 7 runs on 5 hits. Rush Coffman pitched the entire game for the Cards allowing 10 runs on 8 hits, including a home run by Ron Risenger in the first inning. Mario Gomez and Terry Cartwright collected two singles apiece for the Sox. Ron Risenger hit a home run, a double and a single in three times at bat for the Sox. Rush Coffman and Jerry Silhan garnered two singles apiece for the Cards. The Sox now have three games to play while the second place Colts have three games to play. The Sox have lost two games while the Colts have lost four games. If the Sox win two of their next three games or the Colts lose a game while the Sox win one the Sox will automatically win the championship.

**Pirates 8, Giants 6**

The Pirates had to take the Giants right down to the wire to win by an 8 to 6 margin. The Pirates jumped off to a 2 to 1 lead in the first inning, only to have the Giants go ahead by a 3 to 3 score. The Pirates again took the lead by an 8 to 6 margin in the 6th inning. The Giants could not score in the bottom half of the 6th, losing by 8 to 6. Ronny Arnold started on the mound for the Pirates pitching 5 innings, giving up 3 runs on 1 hit, a home run by Larry Neutzler. Mike Giliam took over from Arnold and allowed 3 runs on 1 hit, another home run by Larry Neutzler. Larry Neutzler started on the mound for the Giants and was relieved by Willie Harrison. Larry Neutzler collected two hits for the Giants, both home runs. Chipper Sheard collected a triple for the Pirates. Sheard also made two good catches to end big innings for the Giants.

**Giants 10, Colts 9**

Wendell Kelly scored the only run scored in the 7th inning as the Giants beat the Colts in extra innings by a 10 to 9 margin. The Colts jumped out in front by a 2 to 0 score in the first inning. The Giants came back to take a 5 to 2 lead after 4 innings of play. The Colts scored 3 runs in the 5th inning and 4 runs in the 6th inning to bring the game to a 9 to 9 standstill. Bryan Lewis started the 7th inning for the Colts and walked the first four batters he faced, including walking Barry Key with the bases loaded, scoring Kelley who also walked. Willie Harrison pitched the final inning for the Giants, allowing no runs on no hits as he set the Colts down one, two, three. Randy Bedwell took the mound for the Colts and pitched the six innings he was allowed. Randy allowed 9 runs on 4 hits. Lewis relieved Bedwell in the 7th inning, giving up 1 run on no hits. Larry Neutzler started on the mound, going six innings and giving up 9 runs on 7 hits. Harrison retired the Colts in order in the bottom half of the 7th inning. Sid Hunt and Bryant Lewis collected two hits apiece for the Colts. Larry Neutzler again was the big gun for the Giants as he collected three hits, including two home runs. Neutzler has hit two home runs in each of the last two games.

**Pirates 15, Cards 14**

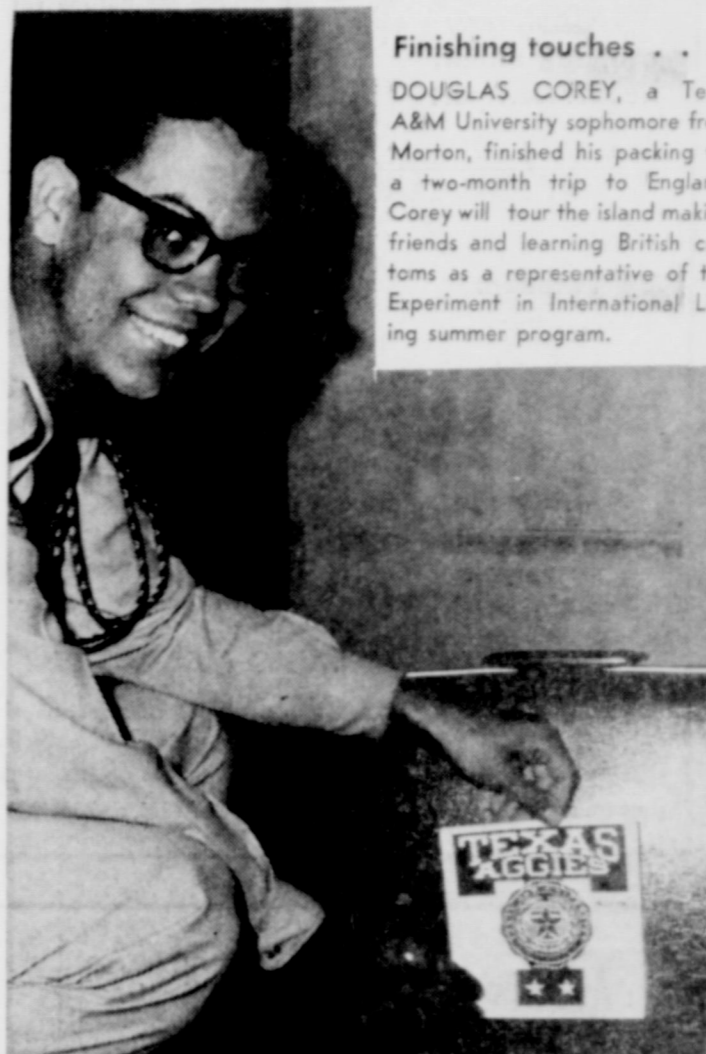

The Pirates held off a determined stand against the Cards as the Pirates finally took the game by a 15 to 14 margin. It looked like the Pirates were having an easy game until the Cards scored 9 big runs in the 5th inning to remain only 1 run behind. The Pirates jumped way out in front by scoring 9 runs in the 1st inning. The Pirates were coasting along with a comfortable 14 to 4 lead until the Cards erupted for their 9 run inning. The Pirates scored only one run in their half of the 5th inning, but the Cards could only score one run in their half of the sixth inning. The Cards still trailed by one run and the Pirates did not have to bat in the bottom of the 6th inning. Jerry Silhan started on the mound for the Cards and was relieved by Terry Jones in the 4th inning. Silhan gave up 13 runs on 6 hits and Jones allowed 2 runs on 2 hits in the 2 innings he pitched. Ted Thomas started for the Pirates at pitcher and was relieved in the 4th inning by Dub Bryan, who was relieved by Ronny Arnold in the 5th inning and Mike Giliam relieved Arnold in the 5th inning. Charlie Marina and Rony McCall hit home runs for the Pirates. Dub Bryan collected two singles for the Pirates. Steve Cox, Jerry Silhan, and Steve Newton collected two singles apiece for the Cards.

The Morton (Tex) Tribune, Thursday, June 23, 1966

Page 3

## Finishing touches . . .

DOUGLAS COREY, a Texas A&M University sophomore from Morton, finished his packing for a two-month trip to England. Corey will tour the island making friends and learning British customs as a representative of the Experiment in International Living summer program.

## Seagraves sets youth rodeo dates

A Little Britches Rodeo is scheduled for Friday & Saturday, June 24 and 25, at the Gaines County Rodeo Arena in Seagraves. Performances will begin at 8 p.m.

each night.

Boys and girls 16 years old and under are eligible to compete in pony bronc riding, ribbon roping, barrel racing, steer riding, goat

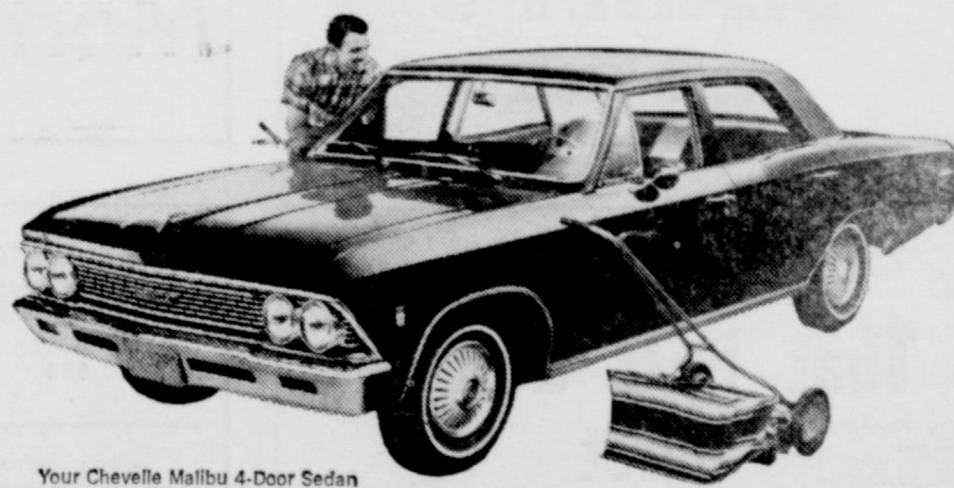

tying, and pole bending.

Livestock is furnished by the Little Britches Rodeo Co.

Trophies will be awarded to first and second place winners, with rosettes going to third, fourth, and fifth place winners in each event.

Let the grass grow, George (but not under your feet).

## Your Chevrolet dealer is mowing prices right now!

Your Chevelle Malibu 4-Door Sedan will come with eight safety features now standard, like seat belts, front and rear. Always buckle up.

Look at all that comes standard on your new Malibu: Body by Fisher • Rugged deep-twist carpeting • Sump-tuous interior, with vinyl door panels and sidewalls for easy care • Little things like an electric clock and glove compartment light • Trusty Chevrolet engines like the Hi-Thrift Six or a 195-hp V8.

Look at all you can add to make your Malibu even spicier: AM-FM multiplex stereo radio for beautiful music wherever you go • More spice? Mag-style wheel covers are nice • Turnpike drivers ask for cruise control. It maintains a constant speed automatically.

Big-saving summer buys on Chevrolet, Chevelle, Chevy II and Corvair.

### 4-H Club members have beach party

Thirty-five Morton 4-H'ers enjoyed a theme party "Beach A Go Go" Monday night at the County Activity Building. The Senior 4-H members who are to attend Electric Camp hosted the party.

Guests were met at the door and assigned to a beach team for competition games. Bobby Combs, Jan Thomas, Marilyn Cade and Cheryl Fincannon were beach leaders. Ronald Hale acted as master of ceremonies and directed the evening's activities. W. C. Dawson was in charge of props and clean-up. Surfing music helped set the scene.

### Teachers form square dance club

A new square dance club especially for teenagers was formed at the Precinct County Barn Tuesday night.

Youngsters present selected the "Swinging Teens" as the name for the new group. By-laws and rules were drawn up and club officials and adult sponsors were elected.

President is Dennis Clayton, vice president is Steve Pierce, secretary is...

Hosts for the event were distinguished by their old-time bathing costumes. This same party will be given in July to about 140 4-H'ers at Scott Abel Electric Camp.

### Water

### from Page One

Harvey O. Banks, a San Francisco, Calif., engineer, told the audience he was hired to provide information to the TWDB about importation of water from other states. The three likely sources, he said, were the Mississippi River, the Missouri River near Kansas City, and the Columbia River Basin on the Washington-Oregon border.

Summarizing, Moore told the group that the TWDB would assist West Texas in getting federal assistance for importation of water and would set up a regional office in the area to provide research, conservation plans and water use recommendations.

During the afternoon, a number of critics of the plan spoke and several others announced they would present objections during the September meeting.

Congressman George Mahon was sharply critical of the plan and urged immediate steps be taken to secure additional water supplies for West Texas. "As water goes, so will go the High Plains of Texas," Mahon stated. "It is the most serious domestic problem to be faced by the High Plains... We cannot wait until the eleventh or twelfth hour to take action, because it takes time and money to undertake these large projects."

"I am alarmed that this plan does not adequately recognize the problems in West Texas in regard to water," Mahon continued. "At present, we are the leading irrigation area of Texas and nation with a vibrant and vigorous economy. But the plan we heard outlined this morning seems to show only a decline in the future."

"I feel that the board does not take into consideration that some of the areas (in south-central Texas) are to be built up at the expense of this area... It's easy to be glib about the surplus water in the Mississippi and the Missouri and the Columbia, but none of my colleagues (in Congress) are willing to give it up, to help West Texas."

"This is a Texas project and we cannot sit idly by and spend our money to develop other areas and get nothing in return. We must fight for our existence in West Texas," Mahon concluded.

State Rep. Bill Clayton of Springlake promised a formal statement later as he said, "Water is our lifeblood and we have been concerned about water here for years. We must have it to survive."

One of the sharpest attacks came from Lubbock attorney G. H. Nelson, a member of a special water committee established recently in Lubbock to oppose the present TWDB plan for 2020. He charged that the water board had failed to pursue all the avenues open to them and that they had found it too easy to ignore the water needs of West Texas in favor of other areas of the state.

Mr. and Mrs. O. A. Graves and children, Philip and Sharon, were visiting recently in Crossroads, N.

Mr. and Mrs. H. A. Tuck have their niece, Vicki McClellan, from Lubbock visiting them this week.

While visiting her parents, Mr. and Mrs. Dave Singleton of Knox City, Mrs. Wayne Bracken of Morton had a swimming accident Sunday. She is in the Levelland clinic undergoing tests.

## Youth Week underway at First Baptist Church

Monday through Friday, June 20-24, has been declared "Youth Week" by members of the First Baptist Church of Morton.

Four half-hour programs have been planned for 7:15 p.m. each night of the week including Bible studies, discussions of missionary work, counseling sessions and lectures in dress and charm for youths aged 13 through 24.

The Bible study programs are being presented by Rev. Robert Moore, pastor of McKinzie Terrace Baptist Church in Lubbock.

The missionary discussions are presented by Miss Helen Nixon of Whiteface who is a missionary to Argentina currently touring parts of the United States. Her series of programs includes a discussion of the customs of people in Argentina, presentation of slides of that country, and the outlining of steps involved in becoming a missionary.

The counseling sessions are conducted by Jesse Peritt, member of the First Baptist Church of Lubbock. His counseling topics range from a discussion of modern day moral issues to the threat of communism to Christianity in the world today.

A course in proper dress and grooming called "Sparkle and Charm" will be presented to girls Monday through Thursday nights, while a similar course for boys called "Sparkle and Shine" was presented Monday and Tuesday nights.

The girls' programs are conducted by Mrs. Harold Drennan and Mrs. Weldon Newsum. The boys' programs were conducted by Jimmy St. Clair.

Two films depicting the dangers of communism are also a part of the week's activities for boys. A film entitled "The Communist Threat" was shown Wednesday night, and another film entitled "The Red Trap" is scheduled for Thursday.

A comic style show will be staged by all the girls and boys on Friday night.

# Progress Report

## Texas' Last Frontier

Compiled by Morton Area Chamber of Commerce

The annual Clean-Up, Paint-Up Campaign, sponsored by the Chamber during May, saw good results in sprucing up the area. Residents with renewed vigor pitched in with renewed vigor and the merchants cooperated wholeheartedly. Extra clean-up around the courthouse added a deal to the effort. All in all, more could have been accomplished — as always — we say "well-done". Thanks to all and all for the extra fine cooperation, and especially to committee chairman, Mrs. Bobby Traylor, for her many hours devoted to the project.

Work discussion has been heard past weeks on the possibility of opening the Strickland Lake area to a park. The Jaycees are backed 100% by the Chamber their efforts to secure the land work towards its improvement.

The dream of such a park, with its limited possibilities as a true city spot in Morton, could well come a reality with concerted efforts of all extended to that end.

Your Chamber is continuing to vigorously the possibility of using locally, cucumbers and potatoes under contract of food companies. Contact has been made recently with a large Lubbock concern, who appears definitely interested, and additional letters have been written with the aim to get meetings in the near future with representatives. The major problem of an outlet for such produce grown here could be solved through contract planting, and such specification would be a welcome boost to our economy.

Members of the Agriculture and Commercial Committees of your Chamber are to leave this morning (Thursday) for Lorenzo and Abernathy to probe further into the possibility of securing a spinning mill in Cochran County. There is need for five such mills in the area. Lorenzo and Ralls each have such a plant, there are two in Lubbock, and one is under construction at Abernathy. The local representatives plan to tour the plants and meet with plant and county officials to push this possibility.

The far-flung Community Action Program, with its many facets, is being carefully checked into by the Chamber. Several local persons attended an informative meeting in CAP Monday night in a field, and prospects and desirability of the county's participation in the program are being indicated.

Following last Friday's regional meeting at Lubbock on the state-wide Water Plan, and after lengthy discussion, your Chamber has finally gone on record as being able to endorse the plan as it stands, although recognizing basic need. The plan, as proposed, excludes the West Texas High Plains areas. This, it is felt, cannot be justified and your Chamber is urging the Water De-

velopment Board to re-examine and re-evaluate the Plan to include future arrangements for additional water supply in our portion of the state.

Last Thursday's Tribune carried a line "Letter to the Editor" from Art N. Wall, who posed the suggestion of combining the Last Frontier Rodeo, Little Britches Rodeo, and the County Stock Show into one big celebration and show, where old-timers could gather for reunion, and young and old alike would find a full fare of activity and entertainment. Directors, on meeting Monday night, welcomed the suggestion as one with much merit, and will be looking into the idea more fully in the future. Suggestions for improvements of our community and its activities, such as that made by Art, are always welcome, and he is to be commended for his community interest.

July 4th, a Monday will be observed throughout the nation as Independence Day, one of the most important of our country's observances. The 4th of July is designated by your Chamber as one of the holidays recommended to be observed by closing of retail stores. Businesses and offices are urged to call the Chamber today as to whether they will be closed on Monday.

Your Chamber regretted losing the capable services as secretary of Mrs. Shirley Hartline, who has moved to Muleshoe, but is happy to welcome Mrs. Glenda Yancy. Mrs. Yancy will begin her new duties Monday and you are urged to stop by and welcome her. She has recently moved to Morton, and is a sister of Mrs. Jack Hampton.

The community extends a warm welcome to our newcomers. Rev. Kenneth J. Wyatt and family have moved from Paducah to Morton, Rev. Wyatt being the new pastor at the Methodist Church. They are at home at 419 W. Taylor. Mrs. J. H. Cooke, now living at 107 NW 5th, resided formerly in Phoenix, Ariz., and the Vernie Armstrong family has moved to 205 SE 4th from Portales. From Lubbock is Bruce Reardon, 301 E. Fillmore, and the George Holley family is living at 801 E. Buchanan after moving from Maple. A temporary Montonite is Glenn Honeta, news editor for The Tribune this summer, who will return to his studies at Texas Tech this fall.

A listing of houses for rent in the area has been started by your Chamber, as an aid for newcomers moving to the area. So far, the file has been conspicuously empty, so we ask you to make use of this additional service by calling the office if you have a house or apartment for rent. The Chamber will also serve as a clearing-house for employers and employees.

### Morton sailor is back from Vietnam

Electronics Technician Seaman Bobby J. Sander, USN, son of Mr. and Mrs. Charles Sander of Morton, has returned from Vietnam waters to San Diego, Calif., aboard the attack aircraft carrier USS Ticonderoga, ending seven months of combat operations as a unit of the Seventh Fleet in the South China Sea.

While on station off the coast of Vietnam, attack aircraft from his ship flew over 10,000 combat missions in 115 days.

The 22-year-old 42,000-ton carrier emerged from yard overhaul in San Francisco prior to deploying to the Western Pacific to support American and South Vietnamese ground forces, and launch strike sorties against selected targets in North Vietnam.

### Legal Notices

#### NOTICE OF BOARD OF EQUALIZATION MEETING MORTON INDEPENDENT SCHOOL DISTRICT

In obedience to an order of the Board of Equalization regularly convened and sitting, notice is hereby given that said Board of Equalization will be in session at its regular meeting place in Morton, Cochran County, Texas, at 9:00 a.m., beginning on Thursday, July 7, 1966, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in the said Morton Independent School District, until such values have finally been determined for taxable purposes for the year 1966, and any and all persons interested, or having business with said board, are hereby notified to be present.

DONE BY ORDER OF THE BOARD OF EQUALIZATION of Morton Independent School District, Cochran County, Texas, at Morton, Texas, the 20th day of June, A.D., 1966.

E. E. Thomas, Secretary, Morton Independent School District, School District, Published in the Morton Tribune June 23, 30 and July 7, 1966.

### County has three rural accidents in May, THP says

The Texas Highway Patrol investigated three accidents in Cochran County during the month of May according to Sergeant A. E. Roberts Highway Patrol Supervisor of this area.

The crashes resulted in an estimated property damage of \$6,325. The rural traffic accident summary for this county during the first five months of 1966 shows a total of nine accidents resulting in no persons killed, five persons injured, and an estimated property damage of \$8,915.

The number of traffic deaths in Texas has risen steadily since 1960 with 2254 deaths to 3028 deaths in 1965.

For the first five months of 1966, 1137 persons have died in traffic compared to 1032 deaths for the same period of 1965," the Sergeant stated. This 10 per cent increase is very alarming, and when you realize our heavy volume traffic months are still ahead, we must anticipate increasing problems in the xxixwrx pixruxw."

### Morton delegates attend Guild meet

Attending the twenty-fifth meeting of the Wesleyan Service Guild in Fayetteville, Ark., June 17 thru June 20 were Mrs. W. J. Wood and Mrs. Pfeiffer Ramby of Morton and Mrs. Clay Jones of Brownfield. The group served as elected delegates from the Brownfield District of South Central Jurisdiction of the Methodist Church. The conference was held at the Western Assembly grounds on the Mt. Sequoia just out of Fayetteville, Ark.

There were 500 delegates from 16 Methodist Conferences representing Kansas, Texas, Missouri, Nebraska, Louisiana, New Mexico, Oklahoma and Arkansas. Speakers at the conference included Miss Lillian Johnson, executive secretary of the Guild, from New York City, Miss Lucy Gist, deaconess and director of the Bethlehem Center of Charlotte, N.C., and Mrs. Hazel Dobney, jurisdictional secretary, from Pine Bluff, Ark.

The Sunday morning Tabernacle service concluded the conference. Mrs. Dorothy Stinson and children from Lubbock and Mrs. Ruby Woods and grandchild from Slaton visited in the home of Mr. and Mrs. J. W. Arnett over the weekend.

### Two area youths enlist for term with Air Force

Timmy Petree, 18, son of Mr. and Mrs. Curtis Petree of 212 SW 3rd Street, Morton, and Kenneth G. Overland, 18, son of Mr. and Mrs. G. L. Overland of Bula, were enlisted in the United States Air Force on June 15, announced Staff Sergeant Wayne Harr, local Air Force Recruiter in Lubbock.

Based on the results of aptitude tests administered prior to their enlistment, both Timmy and Kenneth selected and were enlisted in the mechanical field. They have been assigned to Lackland Air Force Base in San Antonio where they will be reassigned where they will receive their training and become specialists in the mechanical field.

Both young men are 1966 high school graduates. Timmy graduated from Morton High School and was a member of both the track and football teams. Kenneth graduated from Bula High School and was a member of the football, basketball, volleyball, track and baseball teams. He was also a class officer and a member of the FFA.

Birthday . . .

W. D. FLEENER, 57, was in Methodist Hospital at Lubbock when his birthday came around. But the nurses on the sixth floor west wing surprised him on his birthday, June 11, with a decorated cake. Personal photo

### Farewell luncheon for Mrs. Willis

Mrs. E. L. Willis was honored with a farewell luncheon Friday in the home of Mrs. P. B. Ramby. Mr. and Mrs. Willis and their family have recently moved to Lubbock where Mr. Willis is in the insurance business.

Friends who attended the noon affair included Mrs. M. C. Ledbetter, Mrs. Joe Nicewarner, Mrs. Dona Doughty, Mrs. W. L. Foust, Mrs. W. J. Wood, Mrs. Hattie B. Spotts, Mrs. J. A. Mullinax, Mrs. Joe Gipson and Mrs. P. B. Ramby, all of Morton. Mrs. Ann England of Portales, N.M., also attended. Mrs. Gipson assisted as co-hostess.

### ATHLETE'S FOOT TREAT IT FOR 48c

Apply instant-drying T-4-L, a batch of chemicals in alcohol. Feel it take hold to check itch, burning in MIDFOOT. In 3 to 5 days, infected skin sloughs off. Watch HEALTHY skin appear! If not delighted IN ONE HOUR, your 48c back at any drug counter. TODAY at Morton Drug Store

### Study club seeks area's top recipes

Favorite recipes of women in the Morton area are requested by the Emma Smith Junior Study Club. Recipes may be for any food and several may be submitted by one person.

Recipes may be written or typed and will be used to compile a cookbook. Jennie Allen, recipe committee chairman, asked that no abbreviations be used and full instructions be given so that few errors will be made in printing.

Recipes may be sent to Jennie Allen, Box 937 or Mrs. Bill Foust, 508 S.E. 9th both of Morton.

Visiting Sunday in the home of Mr. and Mrs. W. E. Akin, were their daughter, Mrs. Van Newson, and her son Rusty.

### Does Your Child Have Nothing to Do?

Is your "to-be" first or second grader missing friends and school?

Would he like to join an afternoon class to meet three times a week for two weeks from 2:30-4:30 at the Stockdale School?

Salute the Flag, sing, march, paint, make things, be in a rhythm band, dramatize stories, play games and just have fun.

Cost \$10 per child (less for 2 in family) Phone 266-6646 for Reservations

### Local FHA members attend leaders' meet

Seven members of the Morton chapter of the Future Homemakers of America attended the 1966 Leadership Workshop on the campus of Texas Tech June 14 and 15.

Principal speaker in the two-day meeting was Jenny Mathews, graduate student at Texas Tech, who told the girls that prospects for success are unlimited for those possessing the qualities of a leader.

"This nation needs the potentialities you possess," she said. "FHA is a stepping-stone for further development."

Girls attending the workshop from the local FHA chapter were La Nelda Romans, local chapter president; Ginger McCasland, first

vice-president; Edith Davidson, fourth vice-president; Connie Stowe, secretary; Sharon Hall, treasurer; and Charlotte Jones, historian.

A local FHA workshop was held Monday in the clothing lab of Morton High School to begin work on Degrees of Achievement in FHA at the chapter and state levels. The workshop included writing of individual Declarations of Intention and a listing by club members of planned activities in the family, the school, and the community for the coming year.

A picnic for all the girls and their mothers is planned following the workshop at 5:30 p.m. in the county park. June 30 is the final day of the summer phase of the high school homemaking course, Mrs. Sanders reports. Girls enrolled in summer homemaking classes to receive half a high school credit have until the last week in August to turn in projects assigned in the program.

### Camp Post hosts Whiteface Scouts during busy week

Boy Scout Troop 673, sponsored by First Methodist Church from Whiteface, checked in at Boy Scout Camp Post June 12 under the leadership of Tom Abbott. Assisting Tom Abbott were Darwood Marshall, Max Dickerson, Dale Pond, Kenneth Wilson, W. D. Ashmore, M. L. Moseley, George Martin, and O. D. Peden.

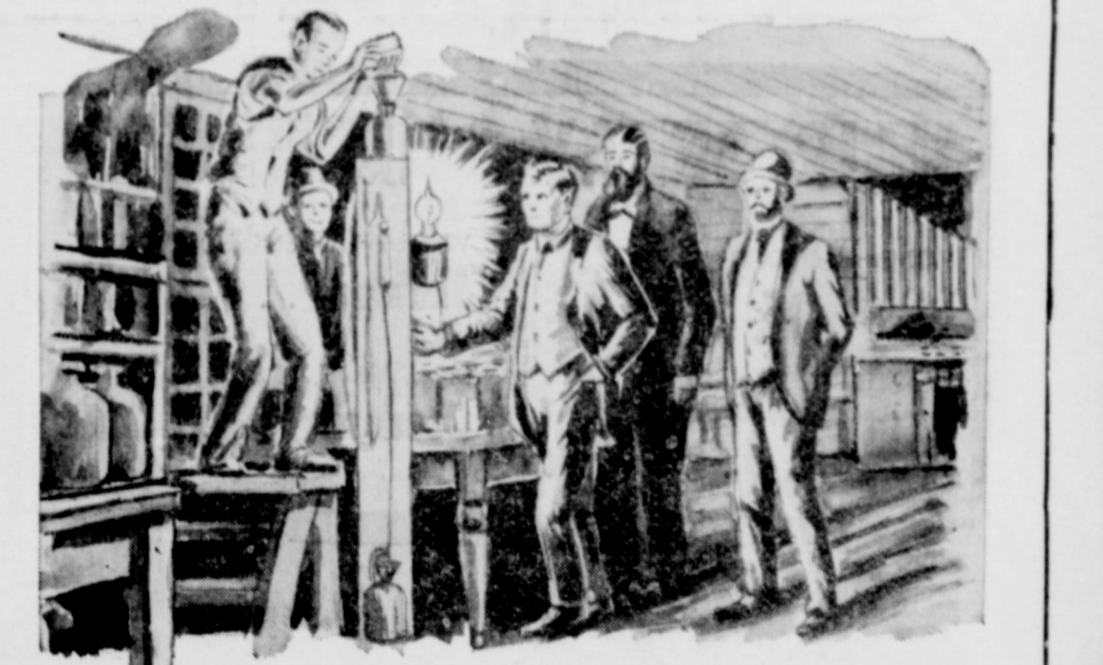

The Troop was in camp one week enjoying the many Scouting activities and having fun doing the outdoor skills of Scouting.

Mr. and Mrs. Buddy Franks and son, Kevin, visited in Lubbock over the weekend with Franks' mother, Mrs. Johnny Mixon.

## 58 YEARS FROM THE BENCH...

## ...TO THE BARN

It took 58 years for Thomas Edison's marvelous incandescent lamp to find its way from his laboratory to the rural areas of Texas.

Big cities electrified quickly. But the job of rural electrification in this area wasn't even started until a few years ago when rural people organized BAILEY COUNTY ELECTRIC COOPERATIVE and built their own electric system.

Today, this first-class electric utility has transformed rural life. So versatile are the uses of electric power, it is doubtful even the "Wizard of Menlo Park" could have foreseen its great demand.

And as the demand continues to increase, the member-owned BAILEY COUNTY ELECTRIC COOPERATIVE is planning ahead for improved facilities to deliver the power that is Helping Texas Grow.

## Bailey County Electric Cooperative

### SAFE DRIVER

MRS. O. L. TILGER 901 East Grant

Was selected as Morton Safe Driver of the Week by local police officers. We salute her for helping to make Morton a safer place to live, work and play.

Week are from left, Rev. Robert Moore, pastor of McKinzie Terrace Baptist Church in Lubbock; Helen Nixon, missionary to Argentina; and Jesso Perritt, member of the First Baptist Church in Lubbock. TRIBPix

**Officer installation is held by Service Guild**

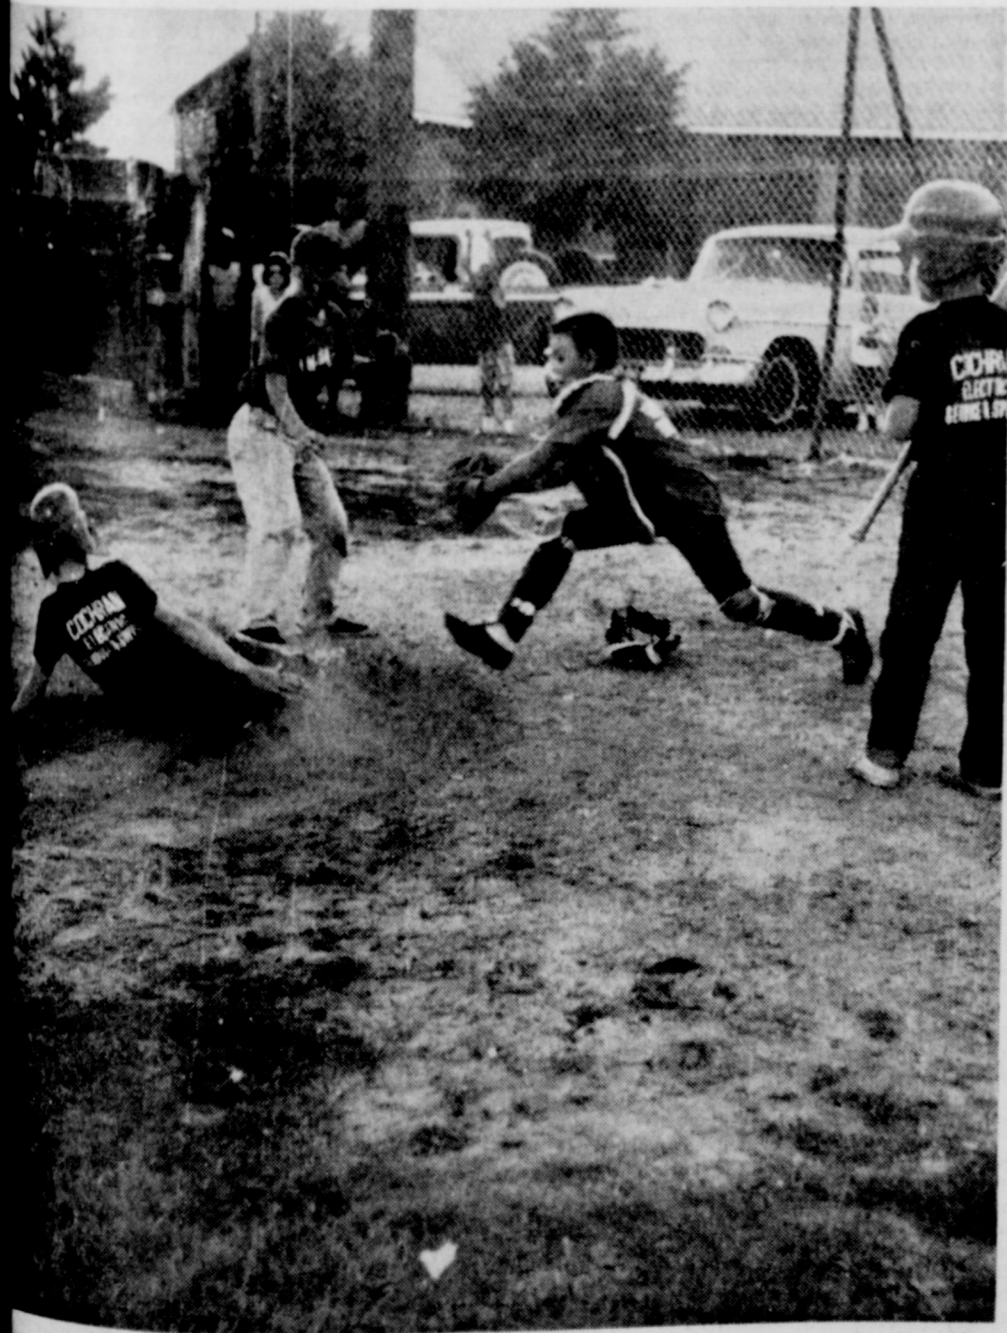

Wesleyan Service Guild officers for the year 1966-67 were installed in an impressive candlelight service on Sunday, June 12, at the First Methodist Church.

Officers of service were made, Rev. Charles Gates installed as officer as she lighted her tap-dancing symbolic color. The coordinator, Mrs. Charles Gates, opened service with music and the presentation of the purposes and mission of Wesleyan Service Guild in the life of the church, the community and the world.

**★ Band uniforms**

The band department of Morton High School is missing pieces to several uniforms, band director John Stockdale reported this week. Articles of clothing still to be returned to the school include four pairs of pants numbered 31, 40, 45, and 86; two coats numbered 31 and 45; and one overlay numbered 69.

Visiting in the home of Mr. and Mrs. Jack Cartwright Monday was their daughter, Mrs. Linda Check.

long stretch fails . . . MINOR LEAGUE catcher for the Indians fails to get back with a passed ball and a Met slides home safely. But the Indians got

more runs across the plate last Friday as they downed the Mets with relative ease. The four minor league teams play their games on Fridays in Little League Park. TRIBPix

**Engaged . . .**

MISS NETHA DIANNE HARRINGTON'S engagement to Willard W. Ware is being announced by her parents, Mr. and Mrs. B. C. Harrington of Sundown. He is the son of Mr. and Mrs. Warren Ware, 709 E. Lincoln, Morton. Miss Harrington is a graduate of Sundown High School and is a student at South Plains College in Levelland. Mr. Ware was graduated from Morton High School and also is a student at South Plains College. The wedding will take place August 7 at the First Methodist Church in Sundown at 5 p.m. TRIBPix

**Peggy Patterson exchanges vows with Mr. Ramp in Lubbock Saturday**

Wedding vows were recited by Peggy Maudine Patterson and John R. Ramp at 8:00 p.m. Saturday June 18, in the home of Rev. J. E. Harrell in Lubbock. The Rev. J. E. Harrell officiated the single ring ceremony.

Mr. and Mrs. Leon Patterson of Morton are the parents of the bride. Parents of the groom are Mr. and Mrs. H. R. Ramp of Morton.

The bride wore a two-piece pearlized pink suit with matching shoes. Her flowers were white carnations. Bride's attendant was Mrs. Harvey Zuber, sister of the bride. Best man was Ray Perker.

Miss Patterson is a graduate of Morton High School and attended South Plains Jr. College for two years.

Mr. Ramp is a graduate of Whiteface High School and attended South Plains College for two years.

**BIRTHS**

Mr. and Mrs. Jessie Wynn Tyson, 708 East Grant, are proudly announcing the birth of a son born June 18, 1966. The little lad has been named John David and weighed 7 pounds, one and 3/4 ounces. He is the Tyson's first child.

Grandparents are Mr. and Mrs. A. J. Mullinax of Morton and Mr. John C. Tyson of Maple.

Mr. and Mrs. L. M. Baldwin and Mr. and Mrs. E. J. Baggett and Marilyn and Gary Paul have been to New Mexico for a visit.

**Engagement of Miss Janice May told by parents**

Mr. and Mrs. Earl Wesley May of Route 3, Levelland, announce the engagement of their daughter, Janice Aline, to Mr. James Boyd Hogue, son of Mr. and Mrs. Boyd Hogue of Levelland.

The couple will wed July 15 at 7:30 p.m. in the Fairview Baptist Church, eight miles southwest of Levelland. The bride-elect is a 1964 graduate of Whiteface High School and of South Plains College, majoring in music. Her fiancé is a 1964 graduate of Levelland High School and attended South Plains College as a drama major.

Future college plans include Hogue attending Pasadena Playhouse in Pasadena, Calif., and tentative plans are being made for the bride to attend a college in one of the nearby suburbs of Los Angeles.

**Morton girls at Rainbow Assembly in Corpus Christi**

Pam Reynolds, Grand Immortality of the Grand Assembly of Texas, is attending the annual state Assembly of Rainbow for Girls this week in Corpus Christi. She is accompanied by her parents, Mr. and Mrs. J. C. Reynolds of Morton, and Donna Allsup and Jeannette Rowden, local assembly members.

Purpose of the four-day meeting is to learn the true meaning of womanhood. The convention agenda includes teas, Grand Assembly meetings, and a tour of Padre Island.

Pam's trip is sponsored by the Morton Order of the Masonic Lodge and the Eastern Star. This meeting marks the sixth annual state assembly that she and Mrs. Reynolds have attended.

Pam is the past Worthy Advisor of the Morton Assembly of Rainbow for Girls and Mrs. Reynolds is a past Mother Advisor for the group.

The local representatives left Morton Saturday morning and plan to return Thursday afternoon.

Visiting in the home of Zed Robinson Sunday were Mr. and Mrs. J. W. Beckum and their son Ronnie of Amarillo. Also visiting were Mr. and Mrs. H. L. Harrell from Murphyboro, Tenn., and their sons, Jeff and Steve. Also present were Mr. and Mrs. Jimmy Robinson and children from Odessa.

Mr. and Mrs. Fred Perry from Lubbock visited Sunday in the home of Mr. and Mrs. Don Allsup.

## Plains left high and dry

Friday's meeting of the Texas Water Board and the 2020 water committee in Lubbock was an informative one, but it pointed up only that the High Plains is going to have to battle for its rights in this state.

The Board, changing its plans twice in a period of less than a week, took some statements following presentation of the sweeping plan for Texas water use through the year 2020. Consequently, many individuals and organizations were unable to present formal statements at the meeting. This was regrettable. However, the board has slated another meeting in Lubbock later this year and many have said they will have formal statements at that time.

We applaud Congressman George Mahon, who made a special trip from Washington to attend the meeting. During his brief statement, Congressman Mahon criticized the board for leaving West Texas "high and dry" in regard to water development and use. Mahon didn't pull any punches as he told the group that West Texas deserved better consideration than it had gotten from the planning group.

We also agreed wholeheartedly with attorney G. H. Nelson of Lubbock, who sharply disagreed with the state board on the cost of getting additional water to West Texas and for allocating future water to farming areas of central and south Texas which are not using irrigation practices at this time. He told the group that it was remiss in telling West Texas to look to federal programs and other states for its water 40 to 60 years from now.

In many ways, West Texas has always been a stepchild where Texas agencies have been concerned. But, in the past, this hasn't mattered too much. But when a so-called statewide plan for allocation of water ignores almost a third of the state, this is too much.

West Texas is the state's richest agricultural area and one of the finest in the nation. It contributes much to the state's economy through its farm production. All of these factors, we are told, are unimportant to the state's future.

The Texas Water Development Board said that West Texas might be able to get water from the Mississippi River, the Missouri River or the Columbia River Basin. But Saturday's newspapers reported that Kansas expected to be short of water within the next 20 years and was eyeing the Missouri River excess to offset the shortage.

If West Texas is expected to get water from other sources, how about letting us get water from East Texas and let the state import water from the Mississippi to the south Texas areas? This would be closer for us.

As to cost, perhaps West Texas should be allowed to determine what cost would be too high for water 50 years from now. At any rate, the statewide plan should include something definite for this area, rather than something for the rest of the state and nothing for us.

We urge every citizen, whether farmer, businessman or public official, make plans now to attend the next meeting and to present well-planned statements. Every farm group and business association and municipal government should state its views positively.

The Texas Water Development Board should be made to realize that it cannot ignore the lifeblood of this vast area and thus reduce it once more to an unchartered region that once appeared on maps as part of "The Great American Desert."

## Modern Major General

There's a famous Gilbert and Sullivan ditty which depicted a "modern major general" of Victorian Great Britain as something of a pompous and self-adoring buffoon. We doubt that this has ever been an accurate picture of very many American military men and we are positive it doesn't apply to one contemporary major general in the U. S. Army.

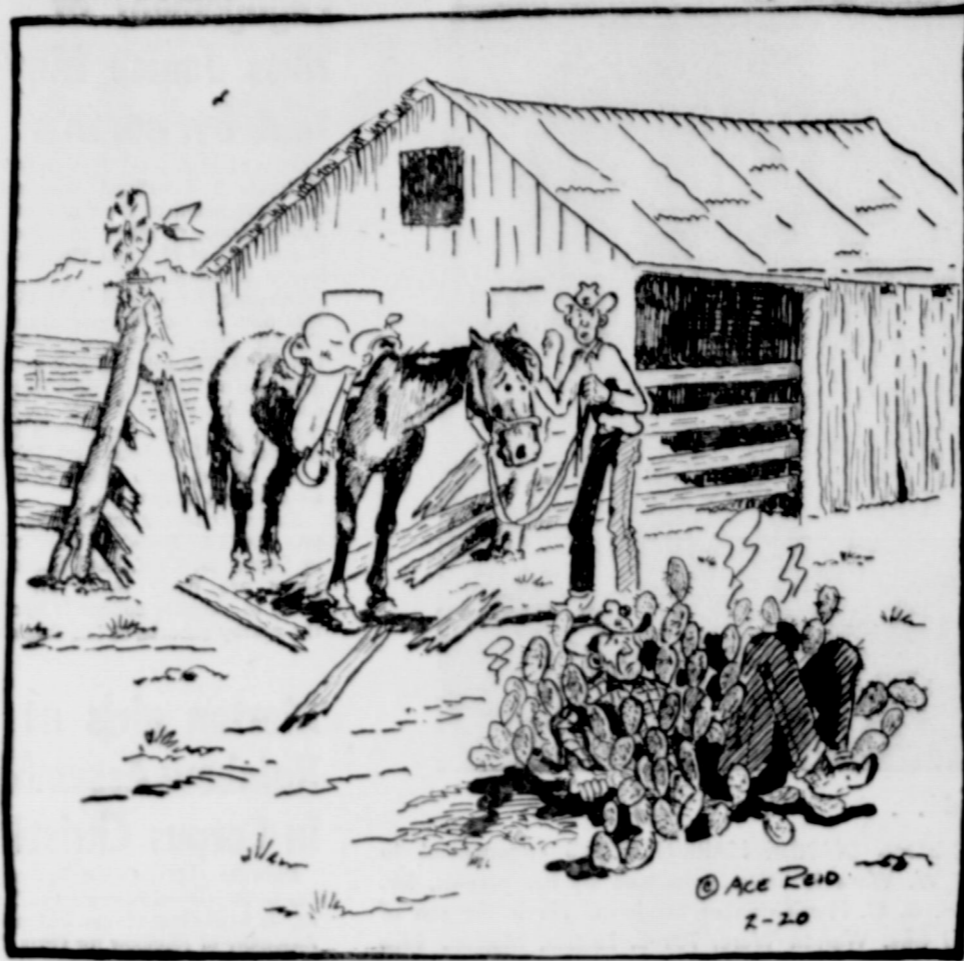

Major General Stanley R. Larsen, on leave from his field command in Vietnam, recently made so bold as to state publicly that up to six North Vietnamese regiments (as many as 10,000 troops) have been assembled in "neutral" Cambodia for a possible assault against our forces in South Vietnam. Civilian officials in the Departments of State and Defense said General Larsen didn't know what he was talking about, but since Secretary of State Rusk has himself frequently mentioned the Communists' use of "neutral" Cambodia for assembly and supply of their forces in South Vietnam, we're satisfied that there must be some substance to the general's warning. And in view of the previously revealed, "we have the right to lie to the American people" attitude of certain top civilian officials at the Pentagon, we can hardly accept their word as proof that the general was wrong.

Neither do we accept General Larsen's subsequent "retraction" as disproof of his original statement. It was carefully worded: "I am just a soldier . . . I'm not going to question my superiors about what they say. The Defense Department has a lot more information to go on than I have."

There would be little that General Larsen could hope to accomplish by arguing the point. He has already placed his own

## COW POKES

## VIEWS . . . of other editors

### Why start now?

This week Deaf Smith County commissioners faced a difficult problem based on whether the county should establish a welfare food plan in conjunction with state and federal programs, or whether they should continue on their present basis on a county operated welfare department.

The commissioners, after much consideration, declined to accept the federal plan.

To analyze the situation, we find that the county did not contact the federal or state department; instead, the welfare bureau seems inclined toward "selling" this area on establishing a bread line. At least, they have made a survey, have determined that we qualify, and have recommended that a welfare food program would be beneficial to the area. Similar programs are in effect in 96 counties in Texas as at the present time.

In the past Deaf Smith has maintained and operated its own welfare program and, according to the decision this week, it will continue to follow the same course. Welfare cases, so far as we know, have been carefully screened, and we would guess that few residents have actually suffered the pangs of starvation. The commissioners no doubt considered facts that establishment of a large scale federal welfare program would attract hundreds of additional indigents into the area from other communities, ultimately taxing our police, sanitations and hospital facilities. In addition, entrance into the program, would require that all county welfare operations meet certain standards and rules which are established on the federal level.

Many people, of course, do not agree with the commissioners, which is an inherent American right. Perhaps the most dramatic phase of the situation occurs if we turn the calendar back to the "dirty thirties", when this community represented the heart of the Dust Bowl, when willing workers could not find a job, and when practically every town in the United States had a "Soup Line" many blocks in length. Back in those days, Deaf Smith County was one of the few areas in the nation which did not enter the newfangled relief program with zest. The county may have distributed a few items from time to time but, as we recall, the county did not maintain a full time welfare department, and most people took a bit of pride in the fact that they were pretty well "taking care of their own". WPA was another federal program which failed to take roots in this area; it was passed up by the city and by the county and for a long time by the school district which, along toward the last, did build the old gymnasium at what is now Stanton Jr. High.

Call it what you will, but it would have seemed a bit off if Deaf Smith County, after weathering the dust bowl and drought in the nation's greatest depression, had found it necessary to reverse its economic outlook at a time when the area is classified as one of the wealthiest in the country, one of the nation's greater periods of prosperity.

You might even say it would have been traitorous to our heritage.

Hereford Brand

career in jeopardy by publicly bringing out facts which he must have known Washington wants to keep under cover. This is hardly the way to acclaim and promotion for a "modern" major general.

Major General Larsen, it appears, is one of the "old-fashioned" officers who places the well-being of his fellow soldiers before his own chances for promotion or acclaim by the political powers that be. We are grateful,

### Driver responsibility again

The problem of automobile insurance . . . its rising cost and what the State Board of Insurance refers to as "the growing tendency" of some insurance companies to cancel out or refuse to renew auto coverage on certain classes of drivers . . . is becoming an increasingly urgent one in Texas.

One thing is virtually certain . . . the cost of insurance is going up. Another rate boost is coming, due to increasing accidents, injuries and deaths, and higher repair and hospital costs. Rates were boosted 13.4 per cent last year . . . a clue to what to expect this year.

Among the solutions now being considered by the Insurance Board is a revival of the "penalty system" which was abandoned four years ago after a brief trial and strong public opposition; alteration of the assigned risk plan to force all companies to take a proportionate share of "sub-standard" risk coverage; a request for more uniform traffic regulation and enforcement procedures from county to county; and modifications in methods of classifying drivers.

Nobody, of course, can say whether the "penalty system" will work or not . . . it hasn't been a real test. Not a uniform test, that is. And it won't ever get one until proposal number three . . . establishment of uniform traffic regulations and enforcement on a state-wide basis . . . is put into effect.

It's pretty hard to condemn insurance companies for wanting to cancel or refuse insurance to drivers whose accident records have proved them to be poor risks . . . this is simple good business practice. Nor do we feel any great qualms for those proven poor-risk drivers who are forced to pay higher prices for insurance from the "assigned risk pool." They are, after all, a substantial part of the reason for the high cost of insurance for all of us.

Certainly it makes sense to require all insurance companies licensed to operate in Texas to accept their proportionate share of "assigned risk" coverage as a part of their public obligation for the privilege of doing business. But the cost of such insurance ought to be proportionate to the risk . . . no company ought to be forced to do business at a loss.

But most important of all, we think, should be strict enforcement of Texas' driver responsibility law. No one should be permitted to operate a motor vehicle in this state without a provision for public liability.

The answer, it seems to us, is not denial of insurance to the poor-risk driver . . . but denial of the right to drive to the driver who has proven himself such a poor risk that he is uninsurable.

The privilege of survival for the careful driver is much more important than the privilege to drive of the chronically careless one.

Canadian Record  
The problem might be parents. What some of us parents don't seem to realize is that we owe our youngsters more than the kids have sense enough to ask for.

This editorial was prompted by a letter from an unhappy teenager. Here is the letter, word for misspelled word:  
"If I ever had my way with this town I would exchange a lot of things. Take for example, there

would be things for us young people to do like more parties.

"But the old people around here have to have their way, so they turned around and complain cause we get in trouble, but you sure don't see them trying to do very much about it.

"That is way so many girls get pregnant and have to get married at the years between 14 and 18 or even have kids at them ages.

"There is also the reasons for these young kids or boys going to jail for the main reasons nothing to do.

"There is alot of kids in this town who will agree.

"So you old people get busy and do something instead of always complaining, cause your daughter or son as got in trouble.

One Who Know"

Our first reaction to such a letter is to tell the writer to bake a cake, scrub a floor, join a club — and learn how to spell and write a sentence. But such an answer has become as hackneyed as the there's-nothing-to-do complaint.

The problem is not in the answer itself. It's a good answer. When a 16-year-old tells you she's liable to get pregnant because there's nothing else to do, it seems perfectly valid to suggest any number of alternatives, including cold showers.

But the kid should get advice from her parents, not from Ann Landers or some other newspaper writer.

It is easy for us old crocks to tell our youngsters about all the things WE did when we were young. But they couldn't care less and why should they?

We can remember our parents hauling us about chopping wood and hauling ice. They might as well have told us to go shoe a horse. The point is, things change. Adults change them, but holler foul when their youngsters reflect these changes.

The big things kids have today is wheels.

If a boy doesn't have almost unlimited use of a car, he is nothing. He can't get a date, for gosh sakes, Dad. Parents don't want a nothing for a son. What would the neighbors say? So Junior is turned loose on the streets and highways to go where?

THAT is the problem. Too many parents don't know where Junior and Susie have gone.

The kids have a rolling motel room, snug and private, courtesy of Ma and Pa, and hours to kill.

Take a look at the traffic accident statistics.

Then look at the various statistics which reflect the pitfalls of early marriages.

And then decide which is more risky, driving or parking?

Sometimes the little big shot tire-squealers and the short-skirted hair-in-the-faces bug us.

But most of the time, the disdain should be reserved for the parents who don't give their kids anything except the keys to the car and to the house.

Our letter-writing friend says the old folks should build the kids a three-ring amusement palace.

This one needs a lot more than that and we hope the parents give it before it is too late.

Olton Enterprise

"The trouble with success is that the formula is the same as one for nervous breakdown."

## Highlights and Sidelights —

# Insurance policies are eyed

AUSTIN, Tex. — Auto insurance rates in Texas may rise an average of \$2.11 a year per motorist, State Insurance Board is weighing testimony given at a public hearing on rates last week. Decision probably will be announced soon, since new rates usually are effective August 1.

Look for these rate changes if the Board follows staff recommendations:  
Liability (bodily injury and property damage) up 11.9 per cent, private passenger \$50 deductible collision, up 2.4 per cent.  
Full comprehensive coverage, up 0.3 per cent.  
Private passenger \$50 deductible, comprehensive coverage up 17.7 per cent.  
Rates, of course, will vary widely among 26 rating districts.

Among strong recommendations to the Board were:  
A driving record classification plan to reward the safe driver with lower rates and hit the "bad" driver with higher premiums.  
A more flexible rate schedule for drivers under age 25 — with highest rates for young males of 17.

A private passenger classification plan to produce a lower rate for drivers with less exposure to accident conditions.  
A means by which a driver in the "assigned risk plan" could purchase additional coverage over normal \$10,000-\$20,000 limits.  
Board earlier announced it was considering feasibility of requiring companies to write an equitable portion of all lines and classes of insurance in order to provide coverage for drivers over 65 and under 25 who face increasing difficulties keeping policies in force.

FRUIT FLY REPORTED — The first Mediterranean Fruit Fly has been discovered in Texas — in Brownsville area.  
Agriculture Commissioner John White said the dangerous pest has been positively identified. Medfly can cause economic loss by stinging or implanting eggs inside the fruit, causing widespread spoilage.  
Total of 15 inspectors from Texas Department of Agriculture and U.S. Department of Agriculture Plant Pest Control Service have been sent to the Valley to place an additional 1,000 traps and determine extent of infestation.

COURTS SPEAK — State Supreme Court held that Big Spring must stick by 1937 contract in which it agreed to provide as much as 300,000 gallons of water a day to Big Spring State Hospital for 10 cents a thousand gallons.

Supreme Court agreed to review a San Antonio malpractice suit involving a physician's obligation to warn a patient of all dangers of an operation. Patient in the case lost his hearing after an operation, claimed he didn't understand all dangers involved before he agreed to surgery.

HEALTH RULES — State Health Board has adopted tentative rules governing standards for frozen desserts sold in Texas and regulations to check disposal of wastes from boats.

Dessert rules apply to ice cream and substitutes, sherbets, water ices, ice milk and other products. A public hearing on proposals will be scheduled later.  
Proposed watercraft regulation would require holding tanks for all marine toilets on boats. Sewage could be removed only by pumping it into onshore facilities. Rule also would outlaw boatsmen throwing garbage, rubbish and litter into waters. Aim is to prevent water pollution.

APPOINTMENTS — Thomas E. Riggs of Waco and Clifton B. Dinkard of Eden will be director and assistant director of the new Veterans Administration Data Processing Center in Austin. Center will have more than \$3,000,000 worth of data processing equipment to serve the nation's 165 VA hospitals and 26,000,000 veterans.

Dr. Jim W. Tunnell, director of instruction for McAllen Public School system, has been named project leader for Governor's Committee on Public School Education. He will head an evaluation of educational programs in Texas public schools.

OIL PRODUCTION — Because of gloomy testimony and statistics, the Texas Railroad Commission again has reduced Texas oil production after a statewide prorator

hearing.

July order will hold production wells to 33.3 per cent of total ability to produce. This is down 12 per cent from June's rate and 17 per cent below the April high of 40 per cent.

A recalculation of the actual production resulting from the 12 per cent cut-back produced an estimate that it will be 2,734,835 barrels a calendar day from allowables of 2,118,647 barrels a day.

Translated into actual barrels of oil in the pipelines, the new production figure is just below the 2,749,135 the wells produced in January.

SHORT SNORTS — Atty. Gen. Waggoner Carr has ruled that salvage dealer must, upon demand, surrender license plates and certificates of titles to motor vehicle obtained for scrap disposal, real or any sort of salvage.

Texas Supreme Court rules that Texas Highway Commission may dispose of unused right-of-way land that does not revert back to original owner.

Seek area talent for July 4 show  
Talent from the Morton area being sought again this year to appear in the 6th Annual 4th of July Celebration in Muleshoe, sponsored by the Muleshoe Chamber of Commerce.

Singers, dancers, instrumentalists, combos and other group entertainers are invited to compete in the big talent contest. Prizes both adult and juvenile division will be awarded.

Over 6,000 are expected to attend the free public celebration. Many families come as early as 5 p.m. to spread their picnic supper on the football field and enjoy the musical entertainment which precedes the talent show.

The contest begins at 7 p.m. July 4 and will be followed by fireworks display.  
Entries are being accepted at Rogers, Albertson, manager of Cobb's Department Store in Muleshoe, and must be received by 7 p.m. July 4. No entry fee is being charged.

## Registration is underway at SPC for the fall term

Registration began June 15 for new students for the fall semester at South Plains College in Levelland. Some 264 returning students have already been registered for the fall term.  
Each new applicant must have on file his application for admission, a high school transcript, and a test score from one of the national college entrance examinations before he will be granted a pre-registration appointment. Each new student is notified by mail when to report for a scheduling interview.  
Last summer, some 964 students were pre-enrolled for the fall term. Students who are not able to pre-register will register on September 16 and 17.  
Additional information concerning registration may be obtained by writing or phoning the college.

## Bookmobile area schedule given

The High Plains Bookmobile will be in the following areas this week:  
Wednesday, June 22: Whiteface, 9:40 - 10:40; Lehman, 11:05 - 11:30; Bledsoe, 12:00 - 1:00; Maple, 2:15 - 3:30.

## Straight as an Arrow

In Archery you score only when you hit the target. To score well, you must have straight arrows.

When you attend church, it makes it easier to stay on the straight path. The church wants to help you in all ways of life, but can only do so, if you stay within its circle. Attend church and know the joy of a good life.

"For God is not the author of confusion, but of peace, as in all churches of the saints."

Coleman Adv. Serv.
