## KICKOFF DATE

## Friona's United Fund Drive Begins Tuesday

The budget committee for the ed on an advertisement for the convened last week and approved a request by the Friona school officials to include support of the foreign exchange student fund (American Field Service) in the amount of \$500 in the 1968 budget.

This had previously been included in the budget, but with the lapse of the program the past few years, the item had been dropped.

Addition of the \$500 item makes the 1968 goal now \$6,364 exactly \$500 more than the 1967 goal of \$5,864.00.

The drive kickoff is set for 9 a.m. Tuesday, November 19, at the Community Room of the Friona State Bank. However, according to A.L. Outland, drive chairman, the drive emvelopes and cards are now ready at the city office, and workers may pick up their envelopes and work their areas ear-

Outland says he hopes the drive can be completed by 12 noon on Thursday, November 21. Assistant chairmen for the drive are: A.L. Black, predrive chairman for businesses: ber 27, at Calvary Baptist Hollis Horton, municipal; and

Robert Neelley, rural. "We help our own when we give the United Fund Way" is the motto, Outland pointed out. Fund drive workers are list-

Later a plot of ground containing nine acres of pasture land enclosed with a barbed wire fence was purchased from the late James P. Wilson. This property was located across Highway 60 north of the present location of Murphree's Texaco Station and was bounded on the north by the present location of Fourteenth Street.

As interest in the project grew memberships were sold at \$100 per family; individuals contributed funds; men's civic clubs and women's clubs sponsored pie suppers, box suppers, to be done and a great deal of

Plans were drawn for a hospital which was estimated to cost about \$100,000. When it became known that it would take at least \$150,000 to build and equip a hospital, members of the board of directors began to look for a suitable building which they could purchase.

Since Parmer County Community Hospital had qualified under its charter as a nonprofit organization, it was eligible to make application for a complete hospital unit, which had been used at the prisioner of war camp near Summerfield, Soon after the application was made, the board of directors received notification that they had been granted the building without cost.

Of course, a lot of work had rummage sales, cake walks and cost was involved in moving and

of this was done by volunteers. Early in 1947 a doctor had been secured, equipment had been installed, nurses and other

were admitted. From this un-impressive beginning the hospital has grown to its present size and importance to the community. About ten years after the first building was completed a new building was ready for occupancy

on its present location. The first patient in the new building was J.B. McFarland, who had been one of the organization's staunchest supporters since its beginning.

In reminiscing about his connection with the hospital in an official capacity, Buske said, "It is impossible for anyone who was not in on the ground

re-locating the building. Much floor to begin to realize the amount of time, effort and energy spent by everyone in the county to make the hospital a reality."

He continued "My work with the hospital has been the most challenging and rewarding project I've ever worked on. Parmer County residents are the cream of the crop and always respond generously when called upon to support any cause which they consider beneficial to the community."

Buske and his wife, the former Myrl Crow, are long time residents of Friona, Their children are Deann Styles, Bristol, Tennesee; Lila Gay Vars, Canyon, Phila May Weatherly, Friona; and B.K., who is a student at the University of Texas Law School, Houston, They also have eight grandchildren.

"Lord God of Hosts, be with us yet,

Lest we forget - Lest we forget.' (Kipling's Recessional) A literary critic once remarked that had Kipling's writings been confined to the "Recessional," he would be remembered

as one of the world's outstanding poets. The Recessional is a beautiful and inspiring poem -- but what

would we do without the rousing "Barrack Room Ballards", or "Gunga Din" or "Jungle Tales"? To my way of thinking Rudyard Kipling's ability to express his

thoughts in a variety of styles merely emphasizes his unique talents and the lasting popularity of his work attests that mine is not a lonely opinion.

"Lest we forget -- Lest we forget" -- Can we Americans ever forget the myriad blessings that enable us to stand tall among nations?

No; because to forget would be criminal and we are not a criminal nation despite the indictments of a few shallow brained

We are sometimes inclined to overlook certain advantages and are therefore guilty of "sins of omission" -- but to forget?

Monday of this week was Veteran's Day, or Armistice Day to us old timers who well remember the first one in 1918.

Quiet ceremonies conducted in thousands of cities and towns across the country gave grim testimony that the brave men and women who died to preserve our freedom will never be forgotten. The dust has barely settled after one of the hardest fought political battles of this century.

Does the defeated party forsake the arena dejected and dis-

No, instead we unite behind our new administration and continue to work for world peace and the preservation of dignity

Concerned as we are with national and world problems -not to mention outer space -- let's not hold our heads so high in the clouds as to overlook some very local attractions. The first that comes to mind is Miss Mary Rando's rendition

of "I Am the Nation." This young lady has inspired a countless host of people to become better Americans.

The sense of Patriotism this Friona high school senior generates overpowers the disruptive influence of a whole generation of Hippies, Yippies and their goony followers.

I have had the honor of appearing with Mary a few times and I am always proud, and justified, to introduce her as "Friona's Voice of Freedom."

More power to her and her loyal young fellow Americans

Something else that must not be forgotten -- the many organizations that keep our city ticking. Churches, schools, medical care, city government, commercial and agricultural enterprises

## Clark, Kaltwasser Named Gold Star Award Boy, Girl

Highlight of the 1958 County 4-H Achievement Banquet at Bovina High School cafeteria Saturday was naming of the Gold Star Girl and Gold Star Boy for Parmer County.

Gold Star Boy honors went to Loy Dale Clark of Lazbuddie. He has been a member of 4-H for the past six years. His primary interests have been in Livestock. He has shown his barrows in most of the major shows in the state and has always placed high with them. Loy Dale received the runnerup showmanship award at the State Fair in 1967.

Other projects he has participated in are horses, sows, for pig production and pasture production. Loy Dale has also excelled in leadership. He has served as president ofhis local club; vice president of the county 4-H council; chairman of the Achievement Day committee; junior leader and a member of the livestock judging team in district competition for the past four years. He is the son of Mr. and Mrs. Wayne Clark.

Cheryl Kaltwasser, daughter of Mr. and Mrs. Gilbert Kaltwasser of the Oklahoma Lane community and a member of the 4-H club for the past six years was named Gold Star Girl for 1968. Her outstanding accomplishment has been in leadership.

She has held the office of president, vice - president, council delegate and council secretary in her club. As junior leader in foods and nutrition for two years she exhibited outstanding leadership ability. In 1965 she was the county winner in the junior foods concame a member of the 4-H Club included foods, clothing, home management, parliamentary procedure, child care, ento-

mology and money management. A large number of 4-H club members were presented with lous county and district elispecial award pins for their accomplishments in the various project areas. They were as follows:

## Census To Ask About

## **Election Participation**

Census Bureau interviewers will ask about voter participation in the 1968 election during the Bureau's monthly survey of households here the week November 18, Director Francis H. Wilmer of the Bureau's regional office in Denver

announced today. Surveyed householders will be asked if they were registered, if they voted, if they cast a vote for President, if something prevented them fro voting in 1968, and if they voted in the 1964 presidential election. No questions will be asked about party or candidates. Answers will provide a statistical analysis of the voting habits of persons of voting age. The survey is similar to one made

shortly after the 1964 general election.

The questions on voting will be added to the Bureau's reguiar monthly queries about jobs that provide data to the U.S. Department of Labor for use in determining unemployment

Households in the survey are part of a representative sample throughout the nation, from which the Bureau collects daa. All answers are confidential, and the information obtained may be used only for statistical purposes.

The Interviewer's who will visit households in this area during November 18-23 is Mrs. Laura L. Hart of Route 2, Fri-

SHORT OF A MIRACLE

The Coliseum-wonder that it is-is also visible proof of the limit of man's accomplishments. We consider it nothing short of a miracle that something built by man has endured that long. Yet those things created by God remain endless and eternal.

God's works should, indeed, fill even the wisest of us with wonder, with awe, and with gratitude. We tend to take them all too much for granted. We tend, at times, to forget them-and even to forget

Fall harvest is just about history for the 1968 cotton and grain sorghum farmers in Parmer County. The snow and consequent moisture last weekend slowed down the cotton harvest and gins have not been running for a few days. With a few days of dry weather, all the cotton will be harvested.

Think some of our farmer friends and their wives will enjoy the following: Fun With Figures

What can a bale of cotton do -- 500 pounds lint average? If all the lint from just one bale went into sheeting, and no waste in processing, it would make 327 percale sheets per bale. Or. 293 muslin sheets -- all 81" by 103".

Pillowcases would roll out of a bale of cotton like Topsy. One bale of cotton would make 1,895 percale pillowcases. Handkerchiefs really up the figures. From one bale of cotton, a textile mill can make 11,635 handkerchiefs.

When you look at a 10 cent spool of sewing thread, ever wonder express a desire to have elaborate celebrations on the anniverhow many spools you could make with a bale of cotton? There's 42,000 yards of 50 ply thread in a pound, or 21,000,000 yards per bale,

It would take just 2.09 bales of cotton to make a single thread to circle the earth at the equater -- and have just enough to tie a knot.

The ten cent spool of thread referred to would probably have been more accurately described as a one hundred yard spool of thread. The ten cent spool of thread, which contained 100 yards of thread, was replaced by a fifteen cent spool with 125 yards of thread. Then the price was raised to mineteen cents a few years later.

Activity in the Reeve Lake vicinity gets more and more interesting as time goes on. Each week the possibility of a shopping center looks more feasible. A sizeable area is being raised and levelled a few feet each day and onlookers can begin to vision buildings and parking areas in the space which has been a pasture for many years.

Except for flags flying up and down Main Street and at other places of business and homes, the bank, post office and public utility offices being closed and a few conversations which began "Do you remember what happened fifty years ago?" things went on much as usual in Friona Monday,

From outward appearances many people probably reached the conclusion that "Nobody really cares that men lost their lives in World War I." This may not necessarily be the right con-

Anyone who was past the age of ten on November 11, 1918 can surely remember the day the Armistice was signed. Had a poll been taken as World War I soldiers enlisted about fitting memorials for those who died, I doubt that any of them would have

## Shower Honors Mro Steve Knox

A miscellaneous shower in the home of Mrs. Raymond Fleming, 1501 West Eleventh Street from 2 to 4:30 p.m. Saturday was a courtesy for Mrs. Steve Knox, the former Susie Carmichael.

The serving table was covered with a white linen cloth In Magazine and centered with a floral arrangement of yellow and white carnations. Punch, cake, nuts and mints were served.

Hostesses with Mrs. Fleming were Mesdames Rudolph Renner Jr., Maurice Tannahill, Claude Blackburn, C.W. Tannahill, N.D. Bartlett, Ernest McGee, W.R. Riethmayer, Eugene Boggess, Roland Barton and Clyde Woodard.

Firm Listed

John Hand,

Gib's Cleaners of Friona got in on a bit of advertising on the national level, as the firm is listed in the current issue of the Saturday Evening Post under Sanitone's "Master Cleaners" list.

sary of the Armistice.

There are more fitting ways we could remember these men. Since the died in an effort to preserve the American way of life, perhaps we should strive harder to bring about peace and promote the brotherhood of man. Each of them probably were sold on the idea that "A better world begins with me,"

If Americans today would adopt that motto and do the many things, even though they be very small, to make our world a better place, the controversey over whether we should or should not have a parade would probably never arise again. . . . . . . . . . .

Firewood salesmen can soon have a heyday in the vicinity of the 400 block of West Fourteenth Street, Remodeling, which I'm told will include wood burning fireplaces is under way in the homes of Mr. and Mrs. David Carson, Dr. and Mrs. Loyd Shackelford and Mr. and Mrs. Steve Struve.

The Carsons are extending their family room, adding another bedroom and bath and doing some re-modeling. The Struves have a partition removed and will soon have logs burning to enjoy during the long winter evenings. The Shackelfords are doing some re-modeling and re-decorating.

The temperatures during the last few days have really made "sitting by the fire and eating popcorn," sound like a perfect way to spend an evening.

In the past week I have been privileged to attend two meetings which were conducted mostly the young people in our community. The annual 4-H Club Achievement Banquet in the Bovina High School Cafeteria Saturday evening was well planned and club members did most of the work involved,

Members of Friona High School's Dawn and Dusk chapters of Future Homemakers of America presented a style show in the auditorium Monday evening. FHA girls conducted the program, modeled garments they had made and served refreshments to guest afterwards.

With the future of our country in the hands of such capable, interested and energetic young adults, those of us who are older need not worry too much about it.

## Wheee -- A New Winter Sport

Surfing on snow!

Snurfing is the new winter sport that takes its name from a word combination of snow and surfing. It is also a first cousin to both slalom skiing and skateboarding. The younger generation, according to the Brunswick Corporation, producers of the Snurfer, finds this new winter recreation as kicky as skateboarding and just about as quick to learn.

The Snurfer, 4 feet long by 7 inches wide and 9/16" thick, resembles a ski but the user rides it standing free without benefit of boot bindings. A hand tether at the front end and a shaped keel at the stern end of the Snurfer are the keys to direction control and balance. With the tether the rider can "lift" the Snurfer while shifting foot pressure at the

For the buff interested in cutting sharper corners, a racing model equipped with a metal keel insert is available. A special Snurf Wax

adds extra speed. Youngsters, teenagers and young adults who have tried snurfing have all gone over-

The Snurfer operates on a minimum of snow and may even be used on sand.

The Snurfer makes its first big splash with the first big (or even little) snow! Then watch a new fad S-W-E-E-P the slopes and the country. (NP Features)
