Rep. Clayton accuses Muskie of water bill 'manipulation'

Rep. Bill Clayton, executive director of the National Water Resources Institute, has accused U. S. Sen. Edward Muskie of political manipulation in the Senate-passed Federal Water Pollution Control bill now pending before the House of Representatives.

Clayton, who blasted the senator from Maine during a press interview at the just concluded Interstate Conference on Water Resources at Boston, Mass., said the bill would delegate to the federal government many powers and authorities that should rightly belong to the states.

and it would be impossible for the states to finance.

Clayton was named first vice-chairman of the Conference which is joining in an informal association with the State Sanitary Engineers and the Pollution Control Administrators of each of the states in an effort to establish better understanding between the various elements of water resource development and management. The Interstate Conference on Water Problems is an organization made up of water officials from all of the 50 states. They are chiefly concerned with the development, protection, use, re-use, management and cleaning the water of their respective states.

The entire Conference, Clayton said, was greatly concerned about the pending Federal Water Pollution Control bill, and officers of the conference, including Clayton, met for a full-day workshop with the House Public Works Committee staff to see if language might be incorporated into the House version of the measure to prevent the erosion of states rights.

Clayton was recently appointed chairman of the Intergovernmental Relations Committee of the National Legislative Conference, an organization involved with

Cotton samples running behind last year's total

The first cotton sample for the 1971-72 season was classed September 9, 1971, by the USDA's Consumer and Marketing Service, Cotton Classing Office in Lubbock. W. K. Palmer, Officer-in-Charge, reported that only 1,200 cotton samples from the current crop had been received through Friday, October 29th.

This compares to a total of slightly over 32,000 samples at this time last year. The current crop is two to three weeks later than normal due to unfavorable weather conditions during the spring and summer months.

★ Bake Sale . . .

Morton Order of Eastern Star will hold a bake sale Wednesday, November 17, starting at 9 a.m. at Doss Thriftway. Get some extra "goodies" to freeze for the holidays.

Most of the early harvested cotton has been long staple cotton which was machine picked and hail damaged cotton which was stripped. Quality of this early cotton varies widely depending on the condition of the fields at the time of harvest.

Farmers belonging to organized improvement groups are eligible for a free classification on each bale of cotton they produce. A class card is issued on each sample submitted indicating the official grade, staple and micronaire reading. The information can be used to determine the approximate value of the cotton by referring to current price quotations in the Western Region Weekly Review on Cotton Market News.

Quality data on cotton classified by the Lubbock office is published each Tuesday by the Western Region office. Grade, staple and micronaire information is based on ten percent of the cotton classed.

The league-leading Littlefield Wildcats, fresh from their big victory over Floydada, invade Morton to take on the Indians in the final regular season game for both teams. A victory Friday night would assure the 'Cats of a berth in post-season action. A Tribe victory would bring great satisfaction.

A special feature of the season's final game might be a recognition ceremony for graduating members of the squad and a Father's Appreciation Night.

Five seniors, each of whom has given three years of service to the Morton football program, will be graduating, and each one is a starter. They will be introduced in ceremonies prior to the kickoff so that Indian fans can pay their respects for their efforts and give them a proper sendoff as they graduate to greater gridiron wars at the college level.

All fathers of sons on the Freshman, Junior Varsity and Varsity squads will be introduced, along with their sons, for recognition by the fans. The ceremony is being sponsored by the Morton Athletic Booster Club with Hub Cadenhead, president, in charge of arrangements.

The five graduating seniors include: Allan Joyce, offensive and defensive halfback; Keith Embry, quarterback and defensive safety; Elton Patton, offensive halfback and defensive tackle; Kevin Kuehler, fullback and defensive guard and Bryant Lewis, split end and defensive halfback.

Littlefield had to go down to the wire to beat the Whirlwinds. The final score was 0-0 and penetrations were tied at one apiece. The Wildcats led in first downs 13-9 and by virtue of a district rule which governs tie games the 'Cats were declared the winners.

The Wildcats are coming off a dismal 1-9 season in which their only victory was at the expense of the Morton squad in the last game of the season. A coaching change which brought Jerry Blakely from Olton has made a great reversal in Littlefield football fortunes.

The 'Cats offense is a tandem I and the tailback in the I is an outstanding individual. Ralph Funk has been the key man in the Littlefield attack as is seen by the fact that he carried the ball 40 times against Floydada last week. Funk who is a 195 lb senior is the leading touchdown producer on the South Plains this year. He has scored around 130 points so far and in one game this year Funk scored six TDs. Opposing coaches rate Funk as the best back in the district.

Littlefield also has a fine fullback in senior Dennis Hartley. He is a tough runner and is the blocker who usually leads Funk through the line. Hartley is also a fine pass receiver and he has excellent speed after he catches the ball.

The Wildcat offense has 9 seniors and 2 juniors so they will have the edge in experience over the Indian offense. The basic game plan for Littlefield is to take the ball and run it down the opposing teams throat, and they have been extremely successful in doing just that this year.

The 'Cats defense is led by 217 lb senior tackle Danny Estrada. Lending support are linebacker Matt Giles and safety man Hartley. The pass defense is very good as Hartley has intercepted several passes and returned one for a TD.

The fans should be treated to a fine game this week as the Indians try to end their season the way it started out — with a resounding victory.

Littlefield heads District 3-AA grid teams down stretch

Coach Jerry Blakely isn't counting unhatched chickens. Roosevelt may be just down the road a few miles, but it's too far. Blakely's concern is Morton.

Morton and the District 3-AA championship.

Blakely paced the west sidelines in Littlefield's Wildcat Stadium Friday night and saw his host Wildcats battle to a scoreless draw with Floydada. From the scoreboard, the teams went to penetrations, which were all even at one apiece, and thence to first downs. Here, the Wildcats were ahead 13-9, so the victory was awarded to them. District 3-AA decides ties on penetrations and first downs. Only when these statistics are even will a game go down as a tie.

That victory left the district in a two-way tie between the Wildcats and Floydada, but it also gave the Wildcats the playoff spot in case both teams win this week to share the championship.

Littlefield's foe this week is Morton, and although Blakely could look ahead to Roosevelt, the 4-AA playoff team and his bi-district foe, Blakely isn't looking that far in advance.

"It'll be all for naught unless we beat Morton," said Blakely, "so we're taking dead aim at them. If we win that, then we'll take dead aim at Roosevelt — but not until we beat Morton."

Littlefield was a game back of Floydada entering the game last week. Now, however, it could wind up in a four-way tie. To create this situation, Morton would have to beat Littlefield, Abernathy best Floydada and Lockney win over Friona. This projection would leave the Wildcats, Floydada, Abernathy and Lockney tied for the championship.

Littlefield had to come up with its best defensive effort of the season to get the tie, said Blakely.

"We just played great defensively, but so did Floydada. They have a fine team. Offensively, we didn't play that bad, we

played good enough to look outstanding against some people. But you have to play great against Floydada to score.

"Just before we got the ball the last time, we told our quarterback (Jay Trammel) to check with the officials to see about the first down count. We thought we were ahead two or three but weren't sure.

"But we found out we were ahead 13-8 and felt if we could get one first down we'd run out the clock. But we didn't, they got the ball and we were fortunate to hold them to one more first down before the game ended."

At same time the two leaders were battling, Abernathy kept its hopes bright by blanking Dimmitt 14-0. Friona bombed Morton 39-6, and Lockney outscored Olton 26-21.

An auction will begin at 7:30 p.m., and a Dance will be held from 9 p.m. till . . . with music by a western band will complete the day's festivities.

Everyone is welcome and invited.

only that, Clayton said, but if passed in its present form, the resulting program would be impossible to administer

Tel employees to get wage increases delayed by freeze

The Office of Emergency Preparedness has ruled that portions of the new contract between the company and Communications Workers of America can go into effect.

The 3,000 employees in the five states served by the company will receive wage increases November 12 for the pay period from October 24 to November 6. Subsequent wage increases to June 20 will be computed and will appear on paychecks as soon as computations are completed.

The effective date on the contract was delayed because of the Presidential wage-freeze imposed August 15.

The ruling that since temporary agreements on the new contract was reached August 15, those portions of the contract which were to have been effective prior to August 15 can become effective after August 15 can become effective until after guidelines issued by the Wage-Price Board following the freeze period.

The company and union announced agreements on the three-year contract August 4, retroactive to June 20. Ratification of the union membership was completed August 23 and the contract signed September 22.

Local residents get share of gov't money

How large a segment of the population in Cochran County derives all or part of its income from the Federal, state or local government?

How many local residents are holding down public jobs or are getting social security pensions or are getting funds from other governmental agencies?

As in other parts of the country, the proportion of local residents receiving income from such sources is large.

According to computations made by the Tax Foundation, a non-profit organization that reports on the fiscal aspects of government, about 72.8 million people in the United States — more than a third of the nation's population — are getting income from public treasuries.

This covers only those who are receiving general income support. Not included are private institutions and individuals who are being aided by such special purpose programs as farm support, scholarships, job training and other assistance.

The largest single category of Cochran County residents whose support comes from government, in whole or in part, are the social security beneficiaries. As of January list, they numbered 618.

Second in line, in point of number, are public employees. Approximately 280 men and women in the area are on Federal, state or local payrolls, according to the latest figures.

Veterans, also, represent a sizeable portion of the population.

tion of the people deriving income from government sources. The report shows that 5.5 million of them, nationally, are getting compensation or pension checks from the Federal government.

Of those in Cochran County, an estimated 170 living veterans, or survivors of former veterans, are receiving such checks.

In addition, income is going to local residents through various other public agencies. Included are people on the retirement rolls of Federal, state and local governments, those who are now in military service and those who are getting unemployment insurance and other benefits.

Even though, as the Tax Foundation points out, some persons may be getting income under more than one program, the validity of the figures would not be affected materially, it states.

state legislatures. He expressed a hope that the Interstate Conference on Water Problems and the National Legislative Conference can unite their thinking and efforts in the field of water resource development and management, and that the states can move forward without intervention from the federal establishment.

Serving in these two key positions, Clayton said he felt would give a very definite advantage to Water, Inc., giving the organization first hand knowledge of what is going on in these two Conferences on the one hand, and giving Water, Inc., sounding boards on the national level on the other.

Keep More of Your Marbles In the Home Game

*After all . . . here's where you get to
take your turn at shooting*

Our big-city neighbors offer invitations to us every day to put our marbles in their bigger and fancier rings . . . so they can take out more for themselves.

But the game that OUR winnings have to come out of . . . is the HOME game. And . . . the more of our marbles we put into THIS game, the more WE get a chance to take out.

Maybe you've noticed the city folks bragging

about how much trade volume they take away from the small towns like ours in their "trade area" . . . getting our marbles into their pockets for keeps.

Trading at home . . . and making it more attractive for our neighbors to trade here . . . is the direct and positive route to better jobs, better property values . . . better schools, better living . . . a better community for US to live in.

a father, deference; to your mother, conduct that will make her proud of you; to yourself; respect; to all men, charity." Francis Maitland Balfour.

We heartily endorse a very recent suggestion by Congressman George Mahon that all Congressmen should take a pay cut as a positive contribution to the fight against inflation. After all, they set the theme for all these exorbitant wage raises when in 1969 they voted themselves a 40% raise and doubled the annual salary of the President.

We are sure that, if it ever became an issue for public debate, the foot-dragging, Democratic controlled and liberal infested Congress would try to put the blame off on the administration. This is nothing more than ridiculous.

At any rate, it seems like a good idea — but we are not going to stand on our head until the suggestion bears fruit.

We have had repeated requests from several different sources to make mention of the large number of loose dogs that run the streets of Morton constantly, some of them in packs of five or six. We are certainly aware of these dogs and feel that something should be done about them.

However, until we have more time to study the situation, we are going to make no recommendations or otherwise express ourselves. We will look into the matter as best we can.

We have a recent article published by the Muleshoe Journal in which a three-year-old boy had been bitten by a strange dog for the second time in a week. A SERIES OF Raies shots had been deemed necessary for the boy at last week.

Anyone who has ever seen, or has had described to him, a series of rabies shots, can certainly imagine the effect upon a three-year-old child (for that matter, on a 33-year-old child).

The whole point is that there is no right or reason for these dogs to be roaming the streets. They can be dangerous, and the larger ones to adults as well as children.

There is a drive presently in progress for donations to Boys Ranch which is located at Pettit, and we can think of very few projects that are as deserving as this one. They now have 42 boys there and they are in need of just about anything you might mention. The only things they appear to have at the present time is love and protection.

We must remember that this is not

ASCS Farm News

The Cost of Living Council announced on October 28, that the regulations which made the 90-day program a "freeze" will be modified to make the system more effective. Donald Rumsfeld, Director of the Council, stated that there will be no automatic ending on November 13 of present freeze rules on wages, prices, and rents. They will be changed only by the introduction of new regulations, thus preventing a gap that would occur if present rules were allowed to end before new ones had been instituted.

Rumsfeld noted that, as stated in the President's Executive Order of October

15, the provisions of the economic stabilization program which have been in force since August 15 will continue until they are specifically modified by the Pay Board Price Commission, or the Cost of Living Council. However, changes will occur only through explicit action taken by competent authority. It is anticipated that initial modifications to the freeze rules will be announced prior to November 13.

The October 15 Executive Order states, in part:

"Pending action under this Order, and except as otherwise provided in section 202 of the Economic Stabilization Act of 1970, as amended, prices, rents, wages, and salaries are stabilized effective as of August 16, 1971, at levels not greater than the highest of those pertaining to a substantial volume of actual transactions by each individual, business, firm, or other entity of any kind during the 30-day period ending August 14, 1971, for like or similar commodities or services. If no transactions occurred in that period, the ceiling will be the highest price, rent, salary, or wage in the nearest preceding 30-day period in which transactions did occur. No person shall charge, assess, or receive, directly or indirectly, in any transaction, prices or rents in any form higher than those permitted hereunder, and no person shall, directly or indirectly, pay or agree to pay, in any transaction, wages or salaries in any form, or to use any means to obtain payment of wages and salaries in any form, higher than those permitted hereunder, whether by retroactive increase or otherwise."

are five Morton citizens who will be a very important segment of a close here Friday night. Of course, the five senior varsity players who will be taking the field for the last time as high school athletes when the Tribe meets the Little Rock Wildcats in the season finale in In-

stadium. We wish to pay our deep respect and admiration, and we are sure the entire citizenry will join us in this, to these young men who have given their every time they have taken the field that very often was not the thing to do what with thin margins, enough schedule ahead and losing behind them — but we never saw them or even slack off their effort. There were in there all the way to the whistle and going for the win all the way.

is the kind of boys that the better America is made of. They set an example for the younger ones, your boys to look up to and in a very subtle way, help shape the character of those who follow them. These young men, who have given so much leadership this year and through their varsity years, include:

- Joyce, No. 22, offensive and defensive back; Keith Embry, No. 10, offensive and defensive back; Elton Patton, No. 40, offensive halfback; Kevin Kuehler, offensive fullback and defensive end; Bryant Lewis, No. 80, split end and defensive halfback.

category of "Why-didn't-I-oh-oh!"

is a little play used by newspaper in Rome which was being played by incompetencies by the contents in its "Letters To The Editor."

paper's editor, being besieged by

unsigned letters (which it, as most papers, won't print) and by those asking that the author's name not be revealed (which most papers will print), found the perfect solution when he received one of the latter. He thus won the hearts of his fellow editors everywhere: He printed the man's name and refused to run his letter.

We just might try this with the next really ding-a-ling epistle we receive.

SIKESTON, MO., STANDARD: "This has been the greatest nation in history because of three things: The American system of free enterprise (profit motive); the land and climate and the kind of religious, creative, hard working people who settled and made this country. Seven percent of land and six percent of people — 71 percent cars — 56 percent telephones — 88 percent TV sets — 90 percent, not the government. Business did it in spite of its government, which has been antibusiness for 30 years. Foreigners did not do it and youth didn't do it. The 'squares' over 30 and their parents did it. And then gave much of it to the world and to our youth, neither of which appreciated it (which, to any student of human nature and history, is not surprising)."

Can you believe that there are in the neighborhood of two million deer in Texas that is what the Fish and Wildlife Department people tell us. Furthermore, they say we eager nimrods are not eager enough and are falling down on the job. They want many, many more deer harvested during this year's hunting season to prevent over-grazing and the stunting of the species.

They say the Texas deer kill this year will represent approximately 7 (seven) million pounds of boneless meat. Wow! I have been out on the trail sometimes (usually half lost) and had visions of mountains of juicy venison awaiting me at camp but 7 million pounds — that taxes even our food-oriented imagination. However, all procrastinating aside, you sportsmen's duty is clear: get out there and get that meat on the table!

The best thing to give . . . to an opponent, tolerance; to a friend, your heart; to your child, a good example; to

The Biggest

By LIBBY MUDGETT

THE PRESENT moment, our nation is suffering from a big disagreement about management, which isn't unusual. The government wants it administered one way, and Congress wants it administered another way, and so far the biggest has won at least they think they have.

THE WAY farming. Just let a big management come up among the managers, which isn't unusual either, and the farmer's wife win.

When your rinky tin tin, she doesn't win the biggest, so the farmer wins the biggest.

WOULD YOU that grain was too big? You didn't know until we took in a combine. Nobody saw it and now that you have the combine men to leave it alone back when it's ready."

"It's ready now."
 "It is NOT ready now. Not when you get docked."
 "It's a very small dock."
 "Any dock is too much. That's good grain and I say leave it there until there's no dock."
 "And the grain price will go down further."
 "The grain price goes down between trips to the elevator, but not as much as a bloody docking."
 "Sometimes it does."
 "I just have a feeling that it won't this year."
 "We can't farm by your feelings."
 "Try it."
 "Can't afford to."
 "You can't afford not to. Look how long and hard we worked planting, plowing, and watering that feed, just to have some-

ENGAGEMENT ANNOUNCED . . .

MRS. WILLIAM HERMAN RISINGER of Woodville has announced the engagement of her daughter, Blanche Baker, to Donald Wayne Shaw, son of Mr. and Mrs. Ross B. Shaw of Morton. Miss Risinger attended Texas Tech University and is a 1969 graduate of Sam Houston State University. She is employed by the Dal-Art Film Exchange Inc. of Dallas. Shaw is a 1968 graduate of Texas Tech University and is employed with Texas Farm Bureau Insurance Company in Plainview. The couple plan to be married February 15 in the First United Methodist Church of Woodville.

body dock us for it because you don't have any patience."
 "Patience has nothing to do with it. You know that any kind of bad weather will ruin it."
 "I do not. It depends on what KIND of bad weather."
 "I say ANY kind."
 "People that think a bird in the hand is worth two in the bush never get anywhere."
 "People that think you hill is always greener are the ones that never do."
 "That's not true. Farming's the biggest gamble in the world, so gamble a little more and leave that grain there to ripen."
 "Taking a docking is the sensible way to take some of the gamble out of the weather."
 "What if we go ahead and get all that

green stuff out just because you're chicken and the weather turns out to be beautiful and the grain price goes up?"
 "It won't."
 "How d'ya know?"
 "I told you Japan just bought three month's supply of grain from another country because the U.S. couldn't ship them any because of the West Coast dock strike."
 "So Red China might run out and now that they're in the U.N. they'll probably buy from us, and there you won't have any to sell 'em because you were in too big a hurry to get docked."
 "There's no use you going down to the field to tell the combine men to quit. I've already told 'em to ignore you."
 "It must be nice to be the biggest and win, or think you do."

Women in film, TV topic at 1936 Study Club meet

Mrs. D. E. Benham and Mrs. Iva Williams presented a program on women in film and television at the November 3 meeting of the 1936 Study Club.

The club met in the home of Mrs. Joe Gipson.

Mrs. Benham gave an account of the professional life of Mrs. Lee Gerber, from

her book "How to Talk With Almost Anyone About Practically Anything." Mrs. Gerber, better known as Barbara Walters, is an interviewer on the NBC Today program. Mrs. Benham told of her interviews with statesman, royalty and celebrities the world over.

Mrs. Williams spoke on the life of Shirley Temple Black and of her transition from child star of the thirties to wife, mother and her interest in public service. Mrs. Williams also spoke briefly about workshops, principally "Sesame Street."

Mrs. Maurice Lewallen presided over the business meeting following the program and welcomed Mrs. Arthur Mason, guest.

Members attending were: Mmes Benham, Glenn Thompson, Cyrus Fields, Luke Hargrove, Hume Russell, Joe Nicewarner, Williams, Gerhome Holloway, W. C. Benham, James St. Clair, B. H. Tucker, Lessye Silvers, W. W. Smith, Lloyd Miller, Mary Rice, Bill Sayers and Lewallen.

Two from Morton receive induction into honor society

Thirteen South Plains College students were initiated into the National Honor Society for Junior Colleges, Phi Theta Kappa, Thursday night, Nov. 4, at Christ United Methodist Church.

The students were Carlene Brown, Billie Jo Raines, Billie Schwartz, Nixie Sullivan, Levelland; Sandra Courtney, Helen Lynch, Morton; Mary Ann Glumpler, Barbara Huckabee, Littlefield; Dwain Davis, Ropesville; Ginger Inman, El Paso; Mark LaCroix, Southbury, Connecticut; Janice Michulka, Spur; Rodney Moore, Lubbock. Faculty sponsor of the organization is Bill Billingsley of the Social Science Department.

Presiding over the initiation was Ruth Anne Blankenship, president of SPC Chapter of Phi Theta Kappa.

Following the ceremony, a reception for the new members and their families was hosted by other members of the Society.

To be eligible for Phi Theta Kappa, a age of 3.5 and retain a grade point average of 3.2.

Three local students Baylor band members

Three Baylor University students from Morton are members of the Baptist university's Golden Wave Band for 1971-72.

They are Shonnie Diane Avery, daughter of Mr. and Mrs. Weldon Avery of Route 1; Dan and Diane McCasland, son and daughter of Mr. and Mrs. Harold Drennan of 801 E. Grant.

Miss Avery is a sophomore elementary education major; McCasland, a senior music education major; and Miss McCasland, a sophomore nursing major. They are 1970, 1968 and 1970 graduates respectively, of Morton High School.

The 150-member band, which lives up to its name by appearing in bright gold-colored uniforms, will present special half-time shows at all Baylor home football games and at several home basketball games this year.

In addition to performing at the home games, the band will go on the road for Baylor's football bouts with Texas Tech at Lubbock and Rice in Houston.

Americanism program given for study club

Members of the Town and Country Study Club met in the home of Mrs. W. A. Hovey Wednesday, November 3, for a program on Americanism.

Mrs. Cheryl Ingris spoke on the responsibilities and obligations of the employees of the United States Defense Department and Mrs. W. G. Freeland spoke on the responsibilities and rights of the American citizen as a defender and interpreter of the American Constitution.

Twelve members were present for the meeting.

Mrs. S. E. Williams will host the next meeting. The program will be "Education and a Changing World."

White-Embry plan December wedding

Mrs. T. B. White has announced the engagement and approaching marriage of her daughter, Judy Kay, to Garry Neil Embry, son of Mrs. E. Embry.

Miss White is a 1967 graduate of Morton High School, attended Lubbock Christian College and Key Punch Schools in Lubbock.

Embry attended Morton High School before entering the U. S. Air Force. He is now employed by Long S. Gin.

The couple plan to be married December 31 in the Eastside Church of Christ in Morton.

Friends are invited to attend.

Mr. and Mrs. Bill Morris of Willington, Delaware are guests of Mrs. Morris' mother, Mrs. L. L. Price. She will be remembered as the former Ruth Price.

Mr. and Mrs. L. W. Barrett were dinner guests Saturday in the home of their son, Mr. and Mrs. A. C. Stanley, of Seminole. They spent the night with her daughter and family, Mr. and Mrs. Claude Fincher, also of Seminole. They also attended the 65th reunion of First Baptist Church, where Mrs. Barrett was a member many years ago.
