

## Coleman, Silhan top MHS scholars

RICHARD COLEMAN  
Valedictorian

The top two graduating seniors at Morton High School were named by school officials this week and were announced as the Valedictorian and Salutatorian of the 1973 senior class.

They are Richard Coleman, son of Mr. and Mrs. Leonard Coleman of 605 E. Grant, Morton, Valedictorian and Debra Silhan, daughter of Mr. and Mrs. Frank Silhan of 606 E. Hayes, Morton, Salutatorian.

Coleman carries the highest grade point average in the class at 3.97 on the four point scale and Miss Silhan's second highest with a grade point average of 3.80 on the four point scale.

The pair of scholars lead a class of 63 seniors who are scheduled to graduate

Friday, May 18.

Richard has resided in Morton most of his 18 years and received all of his twelve years of education in the Morton school system. He has been active in a wide variety of activities during his four high school years and capped off these activities by serving as Student Council President during his senior year.

The Valedictorian was an active member of the Morton High School Band for four years and was chosen to the All-Regional Band during both his junior and senior years, and served on the band council as a senior. He was a member of the National Honor Society in both junior and senior years, was on the annual staff

his third and fourth years, was on the Morton UIL debate team as a sophomore and senior and competed in the UIL Slide Rule competitions as a junior and senior.

Coleman was high point junior usher for the 1972 graduating class Baccalaureate services, participated in the UIL one act play competition in his senior year and was voted the boy most likely to succeed from his graduating class.

Miss Silhan also attended Morton public schools for twelve years. One of her main activities in high school was playing in the band in which she participated during her freshman, junior and senior years. During her sophomore

year she was a member of the Pep Squad and could not participate in the band.

Two of her greatest honors were serving as Editor of the high school annual and being voted the girl most likely to succeed by her graduating class. She was on the annual staff two years, a member of the National Honor Society for two years, a Future Teacher of America member for two years and participated in Future Homemakers of America activities during her freshman and sophomore years.

In her junior year Miss Silhan participated in the UIL spelling

## 73 Farm income sets record

BACK GOES THE BAT! and the season is on. So it was today as the Morton Little League got underway. The teams in the league will vie for honors over the next weeks until the final outcome is decided early in June. Here a St. Clair Giant tee's off against a ball

thrown by a Cochran Power and Light batter of the Cubs to get the season underway. Nobody knows how the season will come out—but everyone knows that the boys will be putting out their very best efforts.

Morton area farmers and ranches shared in a record setting year in the total value of crop and livestock income for 1972, according to figures released this week by Texas Agriculture Commissioner John C. White.

High Plains farmers and ranchers being heavy producers of livestock, cotton and feed grains, presumably received a lion's share of the total state receipts, though no exact figures were given by area locations. In releasing the figures, White expressed confidence that the nearly four billion dollar figure for the 1972 crop year can be surpassed in 1973.

Cash receipts for 1972 crops and livestock totaled \$3,803,000,000, Commissioner White announced.

From figures compiled by the Texas Crop and Livestock Reporting Service, the breakdown included totals of \$1,442,000,000 in crops and \$2,361,000,000 in livestock, Commissioner White reported.

Value of production figures revealed increases over 1971 for all major crops except American Pima cotton, hay, and grapefruit.

Weather influenced some of the increases. Fewer acres were planted in grain sorghum, but good weather produced a four-million-dollar crop. Yield per acre was down to 373 pounds in rice because of bad weather, but better prices raised the year's total to \$146 million. Peanuts and pecans both had increases because of improved weather, with peanuts at \$66 million and pecans at \$25.5 million.

When cotton was destroyed by hail, acreage in soybeans was doubled, producing an increase of \$11 million over 1971's \$8-million figure. Increased acreage also accounted for higher production value in wheat, set at \$67

### Girls softball

An organizational meeting for girls' softball will be held May 15 at 4 p.m. in the home of Mrs. J.C. Reynolds, 508 E. Grant.

All mothers who have daughters wishing to play ball are urged to attend this meeting.

## PC graduation Friday

Mortonites will be graduating with South Plains College, May 18 in home.

Gerald Grusendorf will be graduating with High Honors and Mrs. Virgie M. Long, nursing student, will be an Honor

graduate. South Plains College will confer degrees on 295 graduating sophomores at 10 a.m.

Bill Vardeman, Superintendent of Levelland Independent Public Schools, will deliver the address. Academic Dean

## Oil marketers mull energy crisis fixes

Windom of the Windom Oil Company in Morton has returned home attending the annual convention of the Oil Marketers Association in

Association were told. "We are doing everything possible to bring about an equal distribution," Association president Alton Barker of McAllen said.

See OIL Page 3

## Local students honored by TTU

Two area students recently received high academic honors at Texas Tech University.

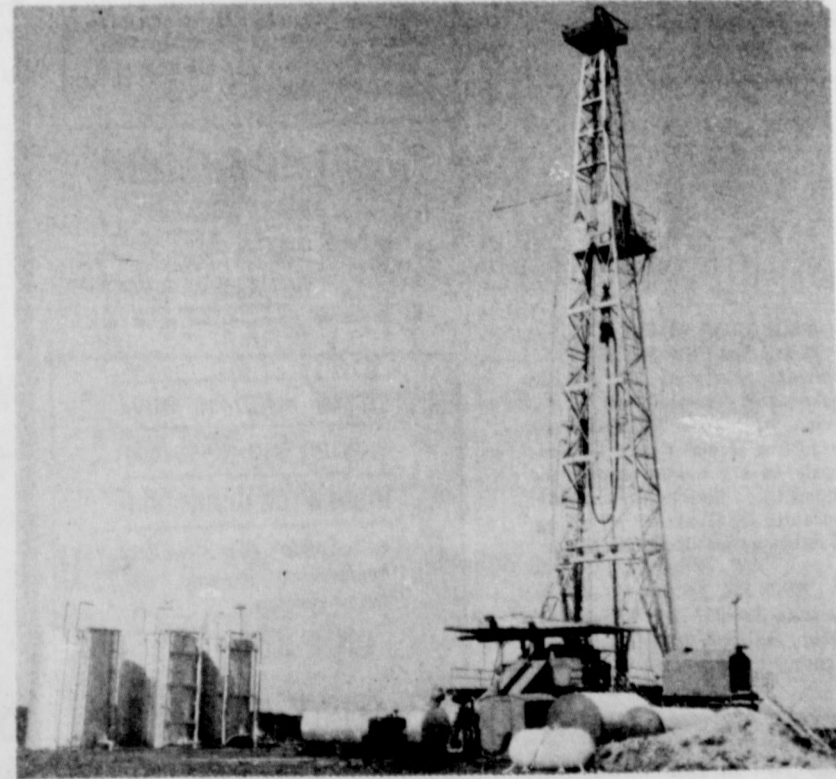

Gwin Lewis Jamerson, a senior in the College of Education, has been initiated into Phi Kappa Phi national academic honor society.

Karen Ray Rozell, a senior in the College of Art and Sciences, has also been initiated into Phi Kappa Phi.

Phi Kappa Phi honors individual achievement at the junior, senior and graduate levels. Juniors selected for membership in the society must be in the top two per cent of their class. Seniors selected must be in the top ten per cent.

Miss Jamerson is the daughter of Mr. and Mrs. G.D. Lewis, Star Route 2, Box 41, Morton.

Miss Rozell is the daughter of Mr. and Mrs. Daniel Rozell, 608 W. Garfield, Morton.

THE ABOVE PICTURED DRILLING RIG recently raised its silhouette on the Cochran County skyline approximately three miles southwest of Morton. The wildcat well is being drilled by the ARD Drilling Company of Midland who have a permit for a total depth of 9,800 feet. The rig was moved here from Kenna, New Mexico and has another location staked approximately one mile south of its present position to be drilled when this well is completed. A spokesman at the site indicated that it will take approximately 30 days to reach the 9,800 foot depth. The drilling crews will commute daily from Hobbs, New Mexico.

A GROUP OF VERY EARNEST LIONS posed momentarily for the Morton Tribune last Wednesday prior to attacking the entire town with fangs bared and roars wide open. Never fear, however, they were merely carrying on the annual Broom Sale (which the picture tells you includes everything but the kitchen sink) on behalf of their project to aid the blind. Project director Roy Gentry, center with mop, led the highly successful operation. His helpers here include, from left, Gary Willingham, Wayne Wilcox, Marcus Hooks and L.B. Childs.

## Chamber announces calendar for year

A calendar of events to be carried on by the Morton Area Chamber of Commerce was announced at the regular semi-monthly meeting last week.

The calendar of activities was drawn up by chamber board member Ray Luper and is based upon a year-round schedule, divided into quarters, that the chamber board has been formulating for the past several months in an effort to revitalize the chamber program.

The schedule, which is as yet incomplete and subject to revision

throughout the years is as follows:

See CHAMBER Page 3

### Magazine publishes Fleming article

Civil War letters written by an ancestor of Mrs. Courtney Sanders of Morton are the subject of a recent article in the journal "Military History of Texas and the Southwest."

The letters were written by Mrs. Courtney Sanders.

See ARTICLE Page 2

## Special dividend said hoax

According to an announcement made by Walter G. Sandefur, Veterans Service Officer for Cochran County, a false report is currently being circulated across the country urging veterans to apply to the Veterans Administration for "special" insurance dividends.

"This false story seems to surface every two or three years," Sandefur said, "however, any veteran who is legally entitled to an insurance dividend from the government will receive an official individual notice of the amount of his entitlement and should pay no heed to rumors."

The Veterans County Service office has moved from the courthouse to the Cochran County Activity Building and the new telephone number is 266-8801. Any veteran needing assistance may contact Sandefur at the new location.

## Water import plan officials 'optimistic'

Water, Inc. officials expressed a collective note of optimism following a briefing on the West Texas-Eastern New Mexico Import Project studies in Lubbock, A.L. Black Water, Inc. president from Friona called the report "progress" despite an assertion that when viewed under traditional Bureau of Reclamation standards for evaluating such undertakings, the import plan would not be justified.

Norman Flaigg, Texas area planning officer for the Bureau presented the briefing to the more than 400 persons attending the special Water, Inc. board of directors meeting at the Ko-Ko Palace. Flaigg said that the Mississippi River Commission had determined that there is water in the Mississippi River in excess of foreseeable needs and that some eight and a half million acre-feet per year might be available for the import project, providing however, that the diversion be made during the three high-flow spring months. He noted that such

See WATER Page 3

**GLENN W. THOMPSON** of Cochran County who is County Judge has just completed a special Civil Defense Director's Seminar at the Department of Public Safety Training Academy, Austin, Texas. The Seminar was held May 1-3, 1973, with Civil Defense Directors from 25 locations in the State attending. Thompson is shown above with state coordinator C.O. La, Jr.

The primary purpose of the seminar was to provide information and guidance to local Civil Defense Directors and Coordinators so that local governments may achieve readiness capability to cope with any disaster or hazard.

Instruction was provided in the organization of Federal and State governments in meeting disaster so as to inform local directors of assistance available and channels of communication to obtain the assistance.

Staff members from the Division of Defense and Disaster Relief and the Defense Civil Preparedness Agency, Region Five, Denton presented the course of instruction.

**SCHOLARS FROM PAGE ONE**

competition and was high point usherette during the 1972 graduating class Baccalaureate services.

Both distinguished graduates have advanced education in their future plans. Coleman plans to attend either Southern Methodist University or Texas A&M University in the field of engineering. He has tentatively chosen chemical engineering as her major field. He plans to stay in touch with the many friends he has made while growing up in Morton, but concedes that his chosen professional field will probably take him away from this area.

While he enjoyed his school years here, he freely admits that he has a strong desire to "get out into the world and stand on my own two feet."

Debra has announced June wedding plans, but intends to take up her education at a later date. She hopes to attend Texas Tech University for study in the field of education with the future goal of becoming an English teacher.

**OIL FROM PAGE ONE**

Speakers at the convention included R.E. Galland of Dallas, President of American Petroleum; Robert Greene, President of the National Oil Jobbers Council; and Fred Allvine, Associate Professor of Marketing at the Georgia Institute of Technology.

**SPC FROM PAGE ONE**

Nathan Funn and Technical-Vocational Dean Frank Hunt will certify the graduates to the Board of Regents for degree conferral.

L.C. Kearney Jr., Chairman of the Board of Regents, will present the diplomas and certificates. SPC President Dr. Marvin L. Baker, will present the honor graduates.

During the commencement ceremonies all graduates that have been selected to membership in Phi Theta Kappa, national junior college honorary fraternity, will be recognized. In addition, the Vera Sue Spencer Award, established by former President and Mrs. Thomas Spencer in memory of their daughter, will be presented to an SPC coed who had demonstrated outstanding leadership, loyalty, and support for South Plains College. The award consists of a cash award.

The 295 degrees to be conferred include 109 Associate in Arts, 64 Associate in Science, 8 Associate in Business Administration, 53 Associate in Applied Science and 1 Certificate of Proficiency.

The commencement exercises will begin with the traditional, colorful faculty professional. Graduates will follow.

Immediately after the graduation ceremonies, the graduates and their relatives, friends, and other guests will be honored by the SPC Faculty Women's Club in a special graduation reception.

Patricia Brown

Glorietta Grey

TWO STUDENTS FROM MORTON are among the 981 candidates for degrees at West Texas State University. Patricia Ann Browne, left above, and Glorietta Elizabeth Gray are seeking the Bachelor of Science degree. Both are elementary education majors. Spring Convocation will begin at 4:30 p.m. May 12 in the Amarillo Civic Center Coliseum.

**CHAMBER FROM PAGE ONE**

**First Quarter:**  
January—General membership meeting of all chamber members and the annual chamber banquet.

**February**—Hold a sustained membership drive.

**March**—Stage an exhibition basketball game similar to the one this year between the chamber and the Morton Lions Club.

**Second Quarter:**

April—General membership meeting and conduct annual Easter egg hunt.

May—Sponsor either a Bingo game or professional wrestling matches.

June—Plans incomplete.

**Third Quarter:**

July—General membership meeting of all chamber members.

August—Country Fair in conjunction with the annual rodeo.

September—Plans incomplete.

**Fourth Quarter:**

October—General membership meeting of all chamber members. Possible fall merchandise fair.

November—Plans incomplete.

December—Annual Christmas promotions, Christmas parade and merchants prize drawing.

Other chamber activities will be added as they are approved by the board of directors and announcement of them will be made public.

**WATER FROM PAGE ONE**

diversion would be contingent upon its having no adverse effect on the Louisiana estuarine system.

Faig presented two cost-to-benefit calculations, one the traditional Bureau calculation showing the project not to be economically justified, the other based on the Water Resources Council's proposed project formulation standards showing benefits in excess of costs. The WRC standards are being seriously considered at the national level and prospects of their adoption in the near future are likely.

"For the first time we were told specifically that there is water that could be available," George McCleskey, Water, Inc., first vice-president of Lubbock, said.

"We were told that the project was not feasible when certain standards are applied," he continued. "But when all the standards are applied, I believe the plan will be seen as very feasible," he said.

"We will continue to press for the plan and I believe that eventually it will be approved and the whole world will see its benefits," McCleskey said.

Water Inc.'s first president, John Kendrick Brownfield, said, "Despite the fact they've underrated the area's ability to pay for water, the question is not whether we can afford it, but whether we can afford not to follow through on it."

## COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

### Grain Stocks Decline...San Saba and Gillespie Leading Counties...Egg Production Has Ups and Downs....

Stocks of the four feed grains—corn, oats, barley and grain sorghum—in Texas and throughout the Nation continue to show declines, with wheat at the lowest level since 1968.

In Texas, a decrease of 47,000,000 bushels of the four feed grains were reported with grain sorghum declines being responsible for most of the downturn. Only oat stocks are above those of a year ago.

Wheat stocks in Texas, "tored in all positions as of April 1 are 15 percent below a year ago. Disappearance during the January-April quarter is estimated at 37,700,000 bushels, up sharply from the 3,000,000 bushels disappearance for the same period last year.

Grain sorghum stocks are estimated at 145,400,000 bushels; this is 25 percent below a year ago.

Corn stocks are estimated at 15,800,000 bushels, down four percent a year ago.

Soybean stocks are estimated at 5,900,000 bushels, 44 percent below a year ago.

THE TOP counties in Texas in production of fruits and nuts are San Saba

and Gillespie. San Saba takes the 1972 honor in pecan production, and Gillespie County is the state's number one peach producing county for 1972.

Texas for 1972 was the nation's leading state in pecan production. The state ranked seventh in 1972 in peach production.

Total pecan production for Texas during 1972 was 65,000,000 pounds. Most of the production was in the south central and cross timber areas.

Other top counties in pecan production in Texas during 1972 were Gonzales, Comanche, Hood, Guadalupe, Colorado, Lavaca, DeWitt, Bell and El Paso.

Other top counties in peach production in Texas during 1972 were Upshur, Camp, Parker, Montague, Eastland, Clay, Comanche, Limestone and Lampasas.

This year the peach crop will be produced mostly in Central Texas and East Texas as the late freeze has either damaged or destroyed the crop in north Texas and on the High Plains.

Pecan trees are blooming in many areas of the state. Some damage is expected due to the late freeze which will reduce the crop in some northern sections of the state.

EGG production in Texas continues to have its ups and downs, the Texas crop and Livestock Reporting Service notes.

Egg production during March was 11

Regardless of the facts, when asked about conditions on the Marble Brothers Farm in Floyd County the standard reply from Dom Marble of South Plains for years has been "Never saw it better."

Now at the start of the 1973 planting season the answer rings true, not only on the Marble farm but all across the Texas High Plains.

Seldom if ever has the area been in better shape to start a crop. The same

percent below a year ago but 20 percent above last month. Nationwide, egg production was down six percent from the past year.

GROSS income from dairying in Texas during 1972 was up eight percent from the previous year. Texas farmers received a gross income from dairy products of \$243,000,000. A total of 3,300,000,000 pounds of milk was produced in the state during 1972.

Total milk production was up four percent from 1971.

CONTINUE to submit screwworm samples to the fly laboratory at Mission, authorities request.

Thus far, 1973 is turning out to be a good year in screwworm control. But livestock producers are urged to increase the sending of suspected screwworm samples to the fly lab in Mission. County agents and vocational agriculture teachers have vials in which the samples may be sent.

rain and snow that stretched a six week harvest period into almost six months and caused untold losses on the 1972 crop has left the Plains with the best underground moisture conditions in many years. And a high level of subsoil moisture historically has foretold bumper crops.

Moreover, supplies of major farm commodities grown on the Plains are not out of line with demand nor does it appear they will get out of line, so there are excellent prospects for good prices this fall on cotton, feed grains, wheat, soybeans, and livestock.

All of which is prompting Marble, who is Secretary-Treasurer of Lubbock-based Plains Cotton Growers, Inc., to supplement his usual reply with "It looks now like this may be the year to be farming on the Plains."

Flooded farmlands and continuing rains in Mississippi, Missouri, Louisiana, Arkansas, Tennessee, Georgia and Alabama have greatly reduced chances for high production in an area that earlier was expected to produce around 6 million bales of cotton. Latest estimates say production in these states may be cut by 20 percent or more.

On the other side of the cotton picture there are indications of increased cotton acreage and good production forecasts coming from California and Arizona. And, given ideal weather, the cotton crop in the Mid-South and Southeast could still reach the 6 million bale mark.

"But should the total U.S. crop fall significantly below 12.5 million bales, as now seems entirely possible," Marble notes "we could be well paid for our efforts to achieve maximum yields and the highest possible quality for our 1973 crops."

Six "real cotton farmers" and a cotton research scientist from Israel, traveling at their own expense, visited the High Plains May 3 and 4 as guests of Plains Cotton Growers, Inc., Lubbock-based cotton producer organization.

And according to PCG's Cotton Fanning, who acted as guide for the group, "Never have we had visitors who showed a keener, more perceptive interest in the machinery and production techniques used in Plains cotton production."

The group first visited at the Texas A&M Research and Extension Center and USDA's ginning laboratory North of Lubbock. But it was "down on the farm" where they really became serious.

Ronnie Dulin and Jim Bob Smith spent some five hours showing the Israelis their farming operations. South of Lubbock on May 3, then Roy Forkner of the Canyon Community gave them another 5-hour tour on May 4. "And it is my guess they will profit from everything they saw

and heard," Fanning said.

Each of the six farmers is in charge of cotton production in an Israeli "Kibbutz" which might best be described in English as a "commune." Each "Kibbutz" has from 100 to 200 families with each member of every family assigned to a specific phase of communal life. One member is in charge of cotton production, another handles corn, another wheat. Some women do the cooking, another group is charged with child care and others wash dishes, do laundry, mend clothing, etc.

Each Kibbutz member is supplied food from a common dining hall and is given clothing from the common Kibbutz store. If a member wants to take his wife on a weekend trip he "checks-out" a Kibbutz-owned car, draws money from the Kibbutz treasury, leaves his children with the Kibbutz nursery, and off he goes without care in the world.

According to Elazar Kletter, the cotton research scientist and leader of the group, Kibbutz members share equally in all proceeds from crop production and other enterprises without regard to individual crop production and other enterprises without regard for in

# Lasso<sup>®</sup> for cotton . . . Convenient weed control.

Cotton farmers are taking a good long look at Lasso, the preemergence herbicide by Monsanto.

Because Lasso is convenient to use. First of all, you don't have to incorporate Lasso. You apply Lasso at planting. It's far less likely to blow away, then, and you've saved yourself an incorporation trip through the fields.

Lasso comes in easy to use liquid. You apply Lasso preemergence on the surface. Broadcast it, or for real economy, band it on. However you apply Lasso, you'll get

effective control over Carelessweed, and almost a dozen other annual grasses and broadleaf weeds that compete with cotton.

And Lasso doesn't persist in the soil. So if you get hailed out, for example, you can come right back in with soybeans or corn with no carryover worries. Take a good long look at Lasso. It's the herbicide that's convenient for you at planting.

# ASCS news

By John W. Hall, C.E.D.

STEVEN NEWTON

JIMMY RISINGER

"Farmers in Cochran County should get their fertilizer stocks now whether they need the material immediately or not", says Danny Key, a local farm program official.

"Our information indicates that in general, fertilizer supplies are adequate to meet farm needs," says Danny Key, Chairman of the Cochran County Agricultural Stabilization and Conservation (ASC) Committee. "However, there may be some difficulty in distribution of available supplies."

Chairman Key explains that ASCS officials, as Members of their local USDA State and County Emergency Boards, have been monitoring the fuel and fertilizer situation across the county. As a result, the ASCS office is closed-tuned in on both the local situation and the overall national picture this year.

"Secretary of Agriculture Earl L. Butz is depending on ASCS to monitor the local fuel and fertilizer situations, and we are making weekly reports back to the Secretary through our regular channels," Chairman Danny Key said. "The department uses this information to determine what special action may be necessary."

On the basis of these weekly reports, the Department has determined that transportation "crunches" could occur in a number of places unless farmers move now to fill their fertilizer needs, the ASCS official said.

One reason for this is that local dealers cannot replenish their fertilizer stocks until they've moved out supplies on hand, the County Committee Chairman pointed out. This means that even though fertilizer companies may have plenty of backup stocks elsewhere, they can't move them into Cochran County until local space is available.

"Farmers in Cochran County could be in real trouble this year, because our surveys indicate that local supplies are extremely short," Chairman Danny Key said.

Farmers who lack storage facilities for fertilizer may want to take a look at temporary bins or other emergency methods, the ASCS official said. "It's certainly better to do a little extra planning now than be caught short later," he points out.

"Transportation is often important in getting fertilizer to farms," Danny Key

said "because basic material often has to move across the country."

"Most phosphate used in the East and Midwest comes from Florida," Danny Key points out. "That's a long way from here, so it has to move through a number of supply channels before it reaches the farm where it's used."

Another problem this year is that wet fall weather last year kept farmers from plowing down fertilizer then, creating greater demand this spring. A third reason is that most acreage has been freed up to meet domestic and worldwide needs for feed and fiber, creating a bigger demand for production inputs this year than normal.

"All of these factors together can spell real trouble," the ASCS official said. "Unless farmers act now to get their fertilizer and keep fertilizer supplies moving throughout the entire transportation system, remember, that even though taking delivery of fertilizer before you put it down can mean handling it twice, it's better to double-handle your fertilizer than to be caught short this year when price prospects are good in most areas of the country."

## Libraries dramatize loss of federal aid

On May 8, at 10:00 a.m. the Cochran County Library dimmed its lights joining libraries across the country in dramatizing the effect of drastically reduced federal support for libraries.

The Cochran County Library is participating in a nationwide program whose purpose is to increase the public's awareness of libraries and their services. "Dimming the lights on the Public's right to know" is the theme for the special campaign sponsored by the American Library Association. The campaign is designed to acquaint users with the possibility of cuts in service and in some areas the closing of libraries.

Librarians feel that the elimination of funds in the President's proposed 1974 federal budget will severely hamper the library's ability to provide needed information and services.

Local and state governments must replace these funds with General Revenue Sharing all or in part from some other source if libraries are to meet the growing informational, educational and recreational needs of the public.

Mrs. Spotts notes that programs affecting several groups of users in this community, instituted through grants of federal funds, will have to be curtailed or eliminated if cuts are not restored or other funding sources found.

The building up of our reference section which we started last year and is still carried on locally will be affected. Even libraries which have received no direct federal grants have benefited from federal funding through the interlibrary loan program with Lubbock and the Texas State Library Communications Network.

The trends toward self-determination and self-help place a greater reliance upon the library as the only independent information agency at a time when support for this institution is being seriously threatened.

### TREASURE HUNT

More than 50 skin divers recently searched the River Stour at Sandwich, Kent, for the town's silver plate believed to have been placed there for security 300 years ago when Cromwell's troops threatened the town, but all the divers found were empty bottles and pottery fragments.

## Top students at Bula named

With top students at Bula High School boys this year, with Jimmy Risinger named as valedictorian, with an average of 91 and Steve Newton with an average of 88, class salutatorian. Jimmy is the son of Mr. and Mrs. W.C. Risinger and was vice-president of the Senior Class, a member of the student council, an outstanding athlete in football, basketball and all-district honors in sports. He was also selected as Best

All Around by the student body and most studious by the faculty.

Steve Newton is the son of Mr. and Mrs. R.T. Newton. Steve was secretary-treasurer of the Senior Class, President of the Student Council and also won All-District honors in both football and basketball. He was selected as Mr. Bula High School by the student body as well as senior class favorite.

## Thoughts

From The Living Bible

"Be sure to celebrate the Feast of Unleavened Bread for seven days, just as I instructed you, at the dates appointed each year in March; that was the month you left Egypt. Every firstborn male is mine—cattle, sheep, and goats. The firstborn colt of a donkey may be redeemed by giving a lamb in its place. If you decide not to redeem it, then its neck must be broken. But your sons must all be redeemed. And no one shall appear before me without a gift. Even during plowing and harvest times, work only six days, and rest on the seventh."

## ABOUT LOCAL FOLKS

by Dutch Gipson

Lloyd Miller will fly to Hawaii to meet his wife, who has returned from a cotton mission with the agricultural department.

Rob Richards and Mrs. Pat Kelley arrived in El Paso a few days last week. Richards' daughter, Mr. and Mrs. Hal Pugh.

Mrs. Jim Richardson of her house guests over the week with their daughter and family and Mrs. Roy McClung and children, Tracy, Sara and Gena.

Mrs. Jimmy St. Clair are in Market in Dallas this week.

Richards was a weekend visitor of daughter, Peggy, and family in El Paso. Peggy accompanied her father back to Morton.

Mrs. G.F. Co. visited her mother, Mrs. Betty Wynn in Mangum, Okla. from there she went to DeLeon for a visit with her sister Mrs. A.A. Nance to Possum Kingdom for a visit with her husband, Mr. and Mrs. Willis.

Informal get-together was given last night at Fellowship Hall of First Baptist Church honoring Mr. S. Butler who are leaving in the near future to establish a new home in Little Falls. Refreshments were served and many good wishes were extended to them. A money tree was also to the Butlers. Approximately 100 guests attended.

Tommy Willis died Wednesday.

May 3, in a Roswell hospital. Burial was Friday at Ft. Sumner. Survivors include her husband, a son who lives in Lubbock and a daughter who lives in Roswell.

Mrs. Rodney Hobson and son, Shawn, arrived in Morton Monday for several days of visiting with her parents, Mr. and Mrs. Chester Miller. Mrs. Hobson is enroute to England to join her husband who was recently assigned there.

Morton Chapter 841 O.E.S. met in regular session Tuesday, May 2. Routine business was taken care of and plans were made for open installation at Masonic Hall June 7 for officers of O.E.S. A special tribute was given to Chapter mother, Mrs. W.L. Miller. Hostesses for the evening were Mrs. Alice Shelton and Mrs. Jean Williams.

Mr. and Mrs. Hardy Rhync have returned from a visit in Durant, Oklahoma where they visited with her mother and other relatives.

Mike Egger, son of Mr. and Mrs. Owen Egger will appear on the TV show "The Dating Game" May 17. Mike lives in Los Angeles where the show is taped.

The W.S.C.S. of First United Methodist Church honored their graduating seniors with luncheon Sunday, May 6.

### DIPLOMATIC RELATIONS

On May 13, 1965, West Germany established diplomatic relations with Israel, and nine Arab nations countered by breaking German relations.

MRS. RODRIQA REYES (Elia Casares)

## Casares-Reyes exchange vows in Catholic church

St. Ann's Catholic Church was the setting for the marriage of Miss Elia Casares and Rodriqa Reyes April 22. The Rev. Alfredo Becerra officiated the double ring ceremony.

Parents of the couple are Mr. and Mrs. Aurelio Casares and Mr. and Mrs. Polo Reyes.

Presented in marriage by her father, the bride wore a formal gown of white bridal taffeta accented with sheer lace and a ruffel of lace at the hem of the gown. She wore a chapel length veil and carried a bouquet of sequins and seed pearls.

Miss Dora Casares, sister of the bride, was maid of honor and Raimundo Elisondo served as best man.

Bridesmaids were Mrs. Francis Ontiveros, Mrs. Juanita Sanenz, Mrs. Roselinda Vasquez, Mrs. Maria Casarez, Mrs. Juanita Pesqueda, Mrs. Linda Trinidad, Mrs. Francis Enyquez, Mrs. Delfina Venegas, Mrs. Benita Zertuche, Miss Sylvia Sanenz, Miss Janie Prieto, Miss Juanita Conteras, Miss Brenda Trejo, Miss Yolanda Villarreal, Miss Esperanza Gonzales and Miss Helen Pesqueda.

Groomsmen were Andrew Ontiveros, Pedro Saenz, Johnny Vasquez, Daniel Casarez, Andres Pesqueda, Frank Trinidad, Fernando Enriquez, Manuel

Veneqas, Toby Zertiche, Billy Chambliss, Issaias Avila, Alberto Hernandez, Charlie Vasquez, Thomas Gonzalez, Lorenzo Morin, Jr. and George Trejo, Jr. Mary Helen Zertuche and John Paul Reyes were ringbearers and Sandra Casares and Anna Fuentes were flower girls.

Traditional wedding music was presented by Mrs. Earl Polvado. The couple will reside at 315 W. Hayes.

## Installation for Study Club

Officers for the 1936 Study Club were installed by Mrs. Gene Benham in ceremonies held in the home of Mrs. Glenn Thompson May 3.

Using a terrarium as a theme, Mrs. Benham told each officer as she installed them, the part they played in the club terrarium, and presented each of them a living plant.

Officers installed were Mrs. Gerhome Holloway, president; Mrs. Lesse Silvers, 1st vice president; Mrs. Lois St. Clair, 2nd vice president; Mrs. John McGee, secretary-treasurer; Mrs. Lloyd Miller, corresponding secretary; Mrs. Joe Gipson, parliamentarian and Mrs. M.C. Ledbetter, reporter.

In the business meeting members presented Mrs. Iva Williams, outgoing president, with a gift and voted to donate \$25 to Boy's Ranch at Pettit.

## Little Folks

The public is cordially invited to attend the Little Folks School graduation Sunday, May 13, at 2:30 p.m. at the First Missionary Church.

## Bookmobile schedule

# County Agent News

By Roy L. McClung Jr.

Recently turned in on young growing bermuda grass pastures affected by bovine pulmonary edema.

first day and gradually increase the time, taking at least a week to reach full use.

If cattle become affected, gently remove them from the pasture and place the visibly affected ones in a dry lot. Locate the remainder on a field of dry, mature grass. Excitement may cause the affected ones to die and others to show symptoms.

Call a veterinarian as soon as possible for advice on treating the affected animals. Drugs such as antihistamines, stimulants and corticosteroids help but should be utilized in proper dosages without unduly exciting the animals.

Stockmen can help prevent losses by closely observing cattle individually and watching for early symptoms in animals recently turned in on lush green pastures. The sooner affected animals are spotted, the more opportunity there is for taking effective preventive measures.

Generally, cattle should not be returned to green pastures for at least 10 days to two weeks, and then for only short periods.

Screwworm cases on Texas are on the upswing, bearing out the fears of officials of the Screwworm Eradication Project that continued warm, wet weather would boost activity of the flesh-eating livestock pest.

As of May 1, 89 cases have been confirmed in the state this year. Twenty-one cases popped up during the past two weeks as the screwworm flies began moving northward from overwintering areas in northern Mexico and southern Texas.

Of special notice is a case confirmed in San Saba County on April 27. This case, plus a previous San Saba case and one in

adjacent Llano County—all in Central Texas—could be a sign of things to come. They are the northernmost cases to be confirmed this year.

The weather is going to be a key factor this year in determining the screwworm situation. With all the moisture over much of the state at the present time, the situation could change rapidly, he warns.

The agent urges all livestock producers in the county to keep a close check on their herds and to inspect closely any cuts or wounds on animals. A sample of any worms found should be sent to the Screwworm Lab at Box 969, Mission, Texas 78572, for identification. If the worm is identified as a screwworm, sterile flies will be dropped over the area where the case originated.

Prompt reporting by producers is critical to the effectiveness of the eradication program. It's the key ingredient for avoiding a screwworm epidemic such as the one which swept the state last year.

Producers submitted a record 508 non-screwworm samples to the Mission Lab in April. These samples, plus 34 which proved to be screwworm cases, made April an excellent reporting month.

The U.S. case total now stands at 97, with Arizona recording 7 and New Mexico, 1.

## Bledsoe news

The Senior Citizens' Organization met May 3 in the County Barn. Mr. and Mrs. Ed Beisel, Mr. and Mrs. Isaac Chaddick, Mr. and Mrs. W.B. Dunn, Mrs. W.G. Griffin, Mr. and Mrs. Lee McCamish, and Mr. and Mrs. Luther Neeley were present.

Ricky Davis celebrated his fifth birthday Monday. Friends who enjoyed refreshments with Ricky and his sister, Vicky, were: Eldonna and Rusty McCormack; Jon Gandy, Lori, Diana, and Meri Bea McCormack; Janet, Velinda, and Darla Davis, and Scotty Gandy.

Mrs. Jennie B. Denny has been visiting in Arlington with her son and his family, the Jon Dennys.

Brenda Kahlich and son, Kevin, have returned from Germany and are visiting with her parents, the M.C. Halls. Brenda's husband, David, is stationed in Wiesbaden, Germany.

Mr. and Mrs. Randy Gandy and Scotty and Shanna were in Dallas recently visiting with friends.

Faye Ainsworth, Mr. and Mrs. Alvie Harris, and Mr. and Mrs. Jim Wayne spent several days visiting in McAllen with the Harris' daughter and family.

The Larry Buchanans visited in El Paso last weekend with his brother and family, the Marlin Buchanans.

Mr. and Mrs. Wallace Stalup and Ricky and Sean visited the Eldon McCormacks.

Stewart and Linda Davis were weekend guests of her parents, Mr. and Mrs. Loy Brown.

Joyce and Kristie Sutton spent a few days in Leveland this week with their aunt and uncle the Arnie Baileys.

Mrs. Nora Davis has been visiting her daughter and family the Buddy Lewis' in Gonzales.

Milton Brown has moved from Bledsoe to Dallas.

Spec. 4 Doug Burns, son of Mr. and Mrs. Ed Burns, returned home April 21 after serving in Korea. After flying to Austin to visit with his sister and family, the Curtis Dicksons, he will report to Fort Hood.

The Busy Bee 4-H Club will hold its regular meeting immediately after school today at the County Barn.

The piano recital to be presented by students of Exa Kaye Gober has been rescheduled for 8 o'clock in the evening Saturday, May 12 at the Bledsoe Baptist Church.

## Consumer alert

One of the most important cogs in our credit-based economy is the well-managed credit bureau.

In many Texas communities, retail merchants sponsor their own bureau. In some places, they depend upon and cooperate with reputable independent bureaus.

The function of a credit bureau, regardless of who runs it, is to be an objective third party, performing the task of gathering information from business with whom the consumer has traded, and making that information available to other creditors.

The credit bureau is important to you, because it literally is the keeper of your financial reputation. An error in credit reporting could result in the loss of a property choice, a purchase bargain—or a job.

In the past, there were frequent reports of abuses by some unscrupulous or careless keepers of credit records. The Congress responded to those reports by enacting the Fair Credit Reporting Act, which sets standards for proper operation of credit bureaus and firms which engage in credit record checks.

The Fair Credit Reporting Act prohibits the collection of credit data for any purpose other than for the granting of credit.

If a merchant is given a "bad" report on your credit rating, you should be informed, and you have the right to inquire as to the reason.

If you have innocently overlooked payment on any account that gives you an opportunity to take care of it, and clear your record. If, for some reason, you have had to delay payments to your creditors, the negative report could prompt you to clear up the problem.

In the event that someone merely has ignored his responsibility as a credit user, of course, knowledge of an unfavorable report would give him the impetus to reassess his financial situation.

The Texas Legislature went an extra step in 1971, and passed a law to make it a misdemeanor crime to "knowingly" give a false credit report.

That left room for human error, which could occur in a credit bureau as easily as it could in any other type of business operation.

Honest mistakes do happen. I know of one case in which a man with an excellent salary and an excellent payment record moved into a new city. He bought his wife a washer and dryer on installment, and before the first installment was due, the merchant's delivery truck arrived to repossess the appliances with the explanation that the man was behind in his payments.

It turned out that the firm had our friend confused with another man who bore exactly the same name—middle initial and

### 'Miraculous' cures face sales ban

Amulets, bracelets, "guaranteed" cures against baldness and creams which have "miraculous" properties are on a list of articles which will disappear from Italian pharmacies and shops.

Health Minister Remo Gaspari made the decision recently after a months-long investigation by a special team which reported that some of the products not only were useless but in some cases also were dangerous to health.

**GERMANS SURRENDER**  
Germany surrendered unconditionally to Western Allies and Soviet Union at 2:41 a.m. in Gen. Dwight Eisenhower's headquarters at Reims, France, on May 7, 1945.
