Grand Jury indicts 15

MORE FOR THE INDIANS is marked up as Larry Thompson leads a host of pursuing Springlake Earth Wolverines into paydirt land in their clash in Wolverine Stadium Friday night. This was the final score in the 18-6 win

chalked up by the Tribe in its season opener. The Indians take on a highly regarded swarm of Tulia Hornets in their home opener here Friday night.

The Cochran County Grand Jury, sitting in all-day session in 121st District Court Monday, returned 15 true bills and passed on one of the 16 cases presented for their consideration.

Victor E. Jackson acted as foreman of the jury, which was presided over the 121st District Judge M.C. Ledbetter.

Indictments returned by the jury included:

Mike Silvas, on a charge of theft by bailee. He is alleged to have taken a motorcycle belonging to Larry Cook for the repairing it and to have converted it to his own use without permission of the owner. The offense occurred on or about August 25, 1973.

Silva's bond was set at \$2,000. He is reported by the sheriff's office to still be at large with his whereabouts unknown.

Joe Louis Bautista was indicted on a charge of assault with intent to murder. He allegedly assaulted the person of J.D. Wiseley, of Morton on or about June 18, 1973. Butista is presently free on \$1,000 bond.

Donnie Ray Harvey, 24, of Morton, indicted on a charge of violations of the check law. The indictment states Wiseley

Donnie Ray Harvey, 24, of Morton, indicted on a charge of violations of the check law. The indictment states that he made an instrument on a personal check belonging to Danny Wiseley in the amount of \$70 and passed it to Carla Banning. The offense allegedly took place on or about July 28, 1973.

Harvey's bail was set at \$1,000, however, he is reported by the sheriff to be in the Lubbock county jail

Cochran article published by pair

Two former Morton teachers have published a magazine article that contains considerable history of Cochran County and the Lazy "S" Ranch of C.C. Slaughter.

"C.C. Slaughter's Sir Bredwell" by David J. Murrah and Elvis E. Fleming is in the August 1973 issue of "The Cattleman" magazine.

The article relates how Slaughter established the Lazy "S" Ranch in Cochran County in 1898 as a home for his prize

The Morton Indians opened their 1973 gridiron slate Friday night by taking the measure of the Wolverines at

Springlake-Earth by a score of 18-6. For the Indians it was sweet revenge, as these pesky Wolverines had taken an initial

encounter the year before by a score of 13-0.

Picked by the experts to beat Morton, Springlake-Earth was never really in it after the opening kickoff. Morton scored early and late but was never really pressed in holding off the charges of the host team.

Suffering from an apparent attack of opening game jitters, the Indians played much more erratically than they did in two practice games, possibly because they realized that this one "counted" and the others were just for experience.

Missed assignments and several penalties bogged down the Indian attack during the early going, but the Indian defense was brilliant in keeping the Tribe's head above

Commissioners appoint airport advisory board

Cochran County now has an airport advisory board. A slate of advisors for the purpose of counseling the county government on matters pertaining to airports and air transportation was appointed

last week by the county commissioners court.

Appointed as county-at-large member and chairman of the board was Mike Doss. Other advisors and their precincts are: Noel Crow, Precinct One; Raymond Devours, Precinct Two; Winfered Scott, Precinct Three and B.H. Tucker, Precinct Four.

The main immediate task of the new board will be to advise the commissioners court on an airport improvement project that is now underway. The commissioners court, under the direction of county judge Glenn Thompson has requested a grant from the state and federal governments for the purpose of extending the present runway to 4,000 feet, installation of runway and taxiway lighting and improvement of the taxiway and apron surfaces.

Total amount of the grant requested is approximately \$288,000. Of that amount, the federal government would contribute 75 per cent, the state 12½ per cent and the county 12½ per cent. The county's share would amount to approximately \$39,000.

The grant request is being made under the Airport Development Acceleration Act of 1973, which in turn, comes under the Airport-Airways Development Act of 1970.

New Export Facility...Turkey Production Increases...Red Meat

New livestock export facilities for Texas will become a reality soon. The state of Texas has entered contracts for construction of the new facilities to be located at Brownsville and El Paso.

The new facilities, along with those already constructed in the state, will boost Texas further into the realm of international agriculture. About \$40 million a year is now added to the Texas economy through the livestock export business.

The new facilities will meet standards set by the U.S. Department of Agriculture and will include sheltered and curbed pens, vats for dipping, laboratory and office space, and hydraulic-operated chutes.

Other export pens are in operations at Houston, Eagle Pass and Del Rio.

TURKEY producers in Texas are expected to produce 16 per cent more

turkeys this year than last year, Texas Crop and Livestock Report Service notes.

The current crop is estimated at 9,091,000 birds compared with 7,581,000 in 1972.

Nationwide, turkey production is expected to be two per cent higher last year. Minnesota is the leading production state in the nation. Texas ranked in the top 10 several years.

The increase in turkeys in Texas 1973 is in the heavy bred varieties decrease of 5,000 birds is reported light breeds.

RED meat production in Texas commercial slaughtering plants is up 10 per cent in July from the previous month and is one percent above the amount produced in July, 1972.

until the offense could hit on all cylinders. The Indians neared the game, they smoothed considerably and began to play as they had at Hobbs. The Indians donated more to the Wolverines via their own efforts than the host team. Totaling 125 yards, the Indians held, face mask holding, and personal fouls and kept the game from the initial score until the fireworks of the fourth quarter. By their own efforts, the Wolverines managed only 95 yards during the game, seeing their triple option and passing attack largely shut down by an alert Indian defense. Tony Soliz got the first touchdown for the Indians by scoring from the one yard line on a smash over right tackle. The extra point try was not good. This 6-0 score then stood on the scoreboard until the early part of the fourth quarter, when with just over ten minutes remaining in the game, Larry Thompson raced

up the middle for 25 yards and a touchdown to run the score to 12-0, Morton. Again, the extra point try was no good. With a little over five minutes remaining in the game, Springlake-Earth got its only points for the night as their fullback, Doug Jones, plunged over from the one to run the score to 12-6. A try to run the ball across for extra points failed and this score stood for a little over two minutes. Mark Fluitt scored the final points for either side by taking a pass from quarterback Ralph Mason on the thirty and scampering in to paydirt at 2:51 of the fourth quarter. No points after the TD's were scored and that was the ball game. The Indian kicking game was a study in frustration as the Tribe missed all of their extra point tries and failed on an attempted field goal in the first half. As coach Winters put it, "This was the coaches fault, we just hadn't practiced it." Fluitt had several fine punts to keep the Wolverines in their own end of the field much of the

game. For their outstanding work in the game, Fluitt was named Offensive Player of the Week, and Johnny Rozell was named Defensive Player of the Week. Time after time, as the players would unravel from a pile-up after a tackle, there would be John on the bottom, having gotten in on stopping the play. Mark's performance was truly outstanding with his running, pass receiving, and punting. These Tribesmen now join four others in the run for Player of the Year awards. Looking forward to tomorrow night, the Indians will probably start about the same team as the one starting at Springlake-Earth. They will face a much tougher team, the Tulia Hornets, a team that defeated them last year 21-0. Morton fans can be on the watch for Danny Quintanilla, a fine linebacker; offensive guard Randy Singer, and running back Raymond Williams. Tony Edwards, the Hornets All-State performer is gone, but the forward wall will be a challenge to the

Indians. The Hornets beat another District 3AA team last week in downing the Olton Mustangs 22-8. All of the scores for Tulia came on long runs, one of them a kickoff return, so the Indians will have to contain this type of attack if they hope to beat the Hornets. Game time will be 8:00. Tonight the freshmen and junior varsity football teams will be entertaining the Muleshoe teams with the games slated to begin about 5 o'clock. The seventh and eighth grade teams will be playing those teams in Muleshoe. Negotiations are presently underway between the county and landowners bordering the airport boundaries for additional land needed for extension of the runway. Judge Thompson stated that

a public meeting will be held in the near future for the purpose of explaining the airport project to the residents of Cochran County. Time and place of the meeting will be announced in the Tribune as soon as they are made known.

"You will show me the path of life, in thy presence is fullness of joy..."
HERE IS THE PATH
PSALM 16:11

How
I shall love the Lord thy God with all thy heart, and with all thy mind, and with all thy strength, and with all thy might, and thy neighbor as thyself.
Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose... and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long preserve and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The Consumer Alert

By John L. Hill, Attorney General
AUSTIN—Although the federal mail fraud statute—one of our oldest consumer protection laws—has been on the books for 99 years, the fertile minds of confidence men keep producing schemes that lead to consumer disappointments and law enforcement actions.
One of the most famous of mail frauds undoubtedly was the simplest. The promoter advertised in newspapers and

Booster club plans activities for year

The Morton Athletic Booster Club held its weekly meeting last Tuesday night in the school cafeteria. Getting underway at 7:30, the meeting featured films of the Springlake-Earth game and a preview of the game to be played this week against the Tula Hornets.

In a running commentary during the film, coach Roy Winters pointed out the strengths and weaknesses of the Indian performance against Springlake-Earth. Coach Winters emphasized that the Indians would have to play better against Tula to hope to win. The team has been working hard to iron out the mistakes of their last game and should be in pretty good physical condition for the Tula game.

With program advertising completed, and with efforts to increase the membership of the club continuing, the business meeting was directed toward fund raising for booster purposes.

The club made the decision to hold salad suppers prior to two of the home

magazines: "Last Chance, Seen \$1." His postoffice box number followed.

By the time government officials put a halt to that, the fellow had gathered in \$200,000 worth of dollars which had been rushed by mail by people who didn't want to miss out on that "last chance." No charges were filed, however, since the advertiser had not misrepresented anything, and hadn't promised anything he did not deliver.

Most of the frauds which are perpetrated cost the victims much more—not only in money, but in terms of time and effort.

Among the most vicious, I believe, are the fake job promises.

The Attorney General's Consumer Protection Division has been the recipient of complaints from persons who followed through on advertisements about employment guidance, only to have their hopes dashed. Typically, the advertiser offers information about "job opportunities" to the person who will send \$3 or \$4 to learn more.

In some cases, the mailing of the money is the last episode, but the average consumer just chalks the loss off to experience.

Other schemes are more complicated, and more lucrative. They may involve a notice that the sender of the original fee has been "accepted," and for a couple of dollars more, he or she is urged to return an "application" to rush along the referral process.

If the consumer doesn't hear anymore after that, real disappointment sets in. By then enough time and effort and hope has been invested that the person really feels cheated, and turns to an agency such as our Consumer Protection Division, or a county or district attorney, or the U.S. Postal Inspector.

While enforcement of the federal mail fraud statute is a function of the postal service, deceptive advertising is illegal under the Texas Deceptive Practices—Consumer Protection Act as well, and our state and county prosecutors can take action. The new act even provides for a court order to refund the consumer's

games — Homecoming and Dad's Night — and will send out invitations to the visiting teams those nights.

In other action, the club will be selling bumper stickers featuring the name "Morton Indians" beginning in a couple of weeks. These will be sold for \$1.00 each. Pictures will be made this week of the varsity and junior varsity teams and these will be available next month at \$2.00 each. Plan now to support the Boosters as they support the Indians by buying these stickers and pictures.

Next week's meeting of the club will begin at 7:00 p.m. and conclude early to allow for the revival at the First Baptist Church.

Be a Booster. We need you to help boost the Indians as they represent us in their games. The football team was impressed with the attendance at Springlake-Earth, so keep up the good work.

money.

Another advertised practice to beware of is the "Learn-at-home" or "work-at-home" plan which promises you fabulous financial rewards if you will send in some money to learn how to sell, raise minks, write advertising copy—there are many twists to this.

Usually, you are required to buy some "materials" for the study or manufacture described.

Remember that there is no easy way to learn at home or to earn at home. The money and time you spend will be your own, and there is no guarantee that your efforts will sell.

We know that some reputable schools and "cottage" manufacturing industries do provide real educational services and parttime employment on a mail-order basis. The fraudulent operator is banking on your confidence in the honest operations when he advertises his.

Deceptive consumer practices always have seemed to me to be the worst sort of fraud.

But at a time when inflation, economic distress and unemployment are major problems, cruel misrepresentations of learning and earning plans are especially outrageous.

If you have any doubts, or complaints, do notify the Attorney General's Consumer Protection Division office in Austin, Houston, El Paso, Lubbock, San Antonio, or Dallas, or your better business bureau, or county or district attorney.

Former teacher Most Cochran residents rites Monday employed near homes

Services were held Monday at 2 p.m. in the First Church of the Nazarene in Plainview for Miss Hazel Bell Crouch of Plainview.

Miss Crouch, 81, died about 5:30 a.m. Saturday in a Brownfield hospital. She came to Plainview with her parents in 1909 from Illinois and taught school 44 years in several schools including those in Morton, Brownfield, Dawn and Farmington, N.M. She was a member of the First Church of the Nazarene.

Survivors include two brothers, Russell B. Crouch of Plainview and Roland G. Crouch of Houston; and a sister, Miss Icela Mae Crouch of Plainview.

Of Cochran County's working population, how many have jobs near where they live? How many travel out of the area to their places of employment? How do they get there?

According to the latest figures from the Department of Commerce, Cochran County provides a means of livelihood within its own borders for the major portion of its working force. The number who travel out of the county is relatively small.

A total of 90.1 percent of the local area's employed people have in-county jobs, it is shown.

This is a larger proportion than is found in many sections of the country. In the United States as a whole, 74.8 percent work within their own county and, in the State of Texas, 84.0 percent.

The number of job opportunities in home areas varies greatly from community to community. It depends to a considerable extent on geography, on population density, on residential or commercial character and on the amount of industrialization.

With families leaving the busy urban centers in droves in recent years to seek a different kind of life in the less crowded outer areas, there has been an increase in traveling time between home and place of employment.

In Cochran County, as in most localities, the private car is the chief reliance for this daily trek to work.

No less than 75 percent of the local men and women who are employed travel to their jobs by car or by car pool, it is estimated.

On the other hand, some 19 percent work at home or near enough to their places of employment to walk to work.

Nationally, the figures show, 77.7 percent of the working population travel by automobile, 5.5 percent go by bus or streetcar, 3.0 percent by railroad, subway or elevated train and 0.4 percent by taxicab.

Of the remainder, 7.4 percent walk, 3.5 percent work at home and 2.3 percent are unreported.

In some localities, where traffic congestion is most severe, the expanded use of mass transportation, especially buses, is being urged to cut down on gas consumption, air pollution and road tieups.

Square Dance

A meeting will be held at 7:30 p.m. September 15 at the County Activity Building to form a Square Dance Club. Regular square dance lessons will begin at 8 p.m. All interested persons are invited to attend.

Panhandle muleys offer good sport

Think that the Trans-Pecos region of Texas has the only mule deer hunting?

Guess again, for the Panhandle muleys are offering hunters considerable sport.

According to Parks and Wildlife Department wildlife officials, during the peak hunting year of 1970, some 1,014 deer were killed in the Panhandle.

The bag was evenly divided between whitetails and mule deer.

Traditionally, mule deer in Texas ranged from the mountains near El Paso, east to Val Verde County and north to the Canadian River.

By 1950, the Panhandle herds had dwindled to the point where only 96 mule deer were killed.

Trapping and transplanting activities by the Parks and Wildlife Department in cooperation with concerned landowners increased the herds and in 1956 the harvest was 249 animals.

Last year, the tally levelled off at 332 mule deer.

Hunters planning and looking forward to fall and winter hunting trips might consider the Texas Panhandle if they are looking for mule deer action.

CHILE LIBERATED

On Sept. 18, 1810, Chile was liberated from Spanish rule.

FOR PEOPLE WHO THINK

We have learned in recent articles Jesus spake as the Father gave him command, and that He gave this word (from the Father) to the twelve disciples which he specifically chose—John 12:38-50 and John 17:8,14—there are more but these are enough. Also—that every person who aspires to be a true disciple of Christ (could an untrue disciple be saved?) MUST continue in his word—read John 8:28-32. Also that only those who are truly the disciples of Christ are called Christians with the approval—by the authority—of God's word—read Acts 11:26. (Once is enough for God to say a thing to make that thing eternally true—the FACT about the matter) Also, that Jesus taught prepared, and commissioned those twelve disciples to be those who would be the WITNESSES (give testimony) of Christ, and sent them to carry out his commission to them—read Matthew 28:18-20; Mark 16:15,16; Luke 24:46-49; Luke 15:26,27; Acts 1:1-8. The meaning of the word "apostle" as used in the New Testament is "one sent". Hence, these whom Jesus commissioned and sent out into the world to "give testimony" (read—John 17:14-18 or better yet read the whole chapter).

That which the "apostles" spake, exemplified (or a recorded example in the New Testament approved by the apostles), or that which is NECESSARILY inferred in the New Testament is ALL that can be taught or practiced by ANY group of Christians ANYWHERE; or, in the individual lives of Christians. We have learned that this "constitution" CANNOT BE CHANGED without incurring the wrath of God. This is the "perfect law of liberty" of which James wrote—James 1:25. This is the "word" that will judge each one of us in the final Day—John 12:48. This IS the teaching of Jesus Christ (his "doctrine"). We are limited to this doctrine—2 John 9. We MUST NOT go BEYOND this body of teaching (that which is written—1 Cor. 4:6—ASV). ANYTHING not authorized by THIS WORD cannot, in any sense, be anything except INIQUITY—which results in exactly what Jesus said it would—read Matt. 7:21-23 AGAIN.

Remember—you are sincerely invited to attend the assemblies at Taylor and S.W. 2nd.

With this explanation Johnson... concluded that 'The merchant's and the mill's problem with performance can be solved, largely, with more iron-clad contracts. But the producer's problem is much more complicated, and is the principal problem to which this group should address itself.'

...the not, dry weather during the first three weeks of August... Weevil grubs and larvae in squares that fell from the cotton plant to the ground during this period simply died from heat and lack of moisture... Dean said, "and while that kind of weather wasn't good for the area crop as a whole it certainly proved a boon to the boll weevil program."

Dean went on to say that officials were highly pleased with the performance of this year's aerial spray contractors and that "this first 41,000 acres was covered in fine style, beginning August 27, in a little over two days." The contract for spraying Unit I in the program, which lies North of Highway 82 along the Eastern edge of the Plains, was let this year to Palmer Aero Services of Harrisburg, Arkansas, South of Highway 82, in Unit II, the contract is held by Slaton Flying Service of Slaton.

The 41,000 acres treated in the first aerial pass of this year's program are located primarily in Dickens and Motley Counties, with smaller acreages in Floyd, Briscoe, Crosby, Borden and Kent Counties.

Looking Back

New officers of the 1936 Study Club entertained with a formal dinner, honoring the in-coming president, Mrs. Albert Morrow, Wednesday evening in the home of Mrs. Joe Gipson. Other new officers for the club year are: reporter, Mrs. J.D. Hawthorne; historian, Mrs. Scott Hawkins; parliamentarian, Mrs. Truman Doss; corresponding secretary, Mrs. Mary Gowdy; secretary-treasurer, Mrs. Charley Craves; second vice-president, Mrs. R.C. Ross; and first vice-president, Mrs. Joe Gipson.

Miss Dorothy Ann Hargrove, daughter of Mr. and Mrs. L.F. Hargrove, a senior at Eastern New Mexico College, is one of the seventeen students attending the school who has been selected to augment the staff of the college library for the current year, according to the new librarian, Edwin C. Mirise.

Mr. Hardy Jones of San Angelo is visiting his daughter, Mrs. C.H. Silvers.

Bleachers are expected to be ready for the football game Friday night. The new bleachers will seat 700 spectators. They are being constructed under the direction of Jack Nelson with volunteer help every afternoon after 5 p.m. Everyone is asked to come out and help in this worthwhile project, bring your hammer.

Old sidewalks around the courthouse have been torn out to make room for the new and wider concrete sidewalks. Sand and gravel have been hauled in for paving of the streets around the square.

The program, designed to prevent the spread of cotton's number one pest into the vast High Plains cotton acreages above the Caprock, was initiated by PCG in 1964 and weevils have been successfully knocked back off the Caprock each year since. The program is jointly financed by cotton producers in PCG's 25-county territory through a per-acre contribution each year, and by the Plant Protection Division of the U.S. Department of Agriculture, with some equipment and personnel being supplied by the Texas Department of Agriculture.

Asked about the effect on the program of rainy weather which blew into the Plains on September 6, Dean said "We got such good and such timely coverage in the first application that, barring a draw-out period of bad weather, we shouldn't be hurt at all."

Non-toxic ultra low volume Malathion is the insecticide used in the control effort. Weevil populations are kept extremely low and thus confined to a relatively small area by breaking the weevil's reproductive cycle in the Spring and then killing as many as possible of the remaining populations in the Fall before they go into winter hibernation.
