IRS bite big in county

HOW IT IS A BAND—but a band of what, is the question. The Emlia Smith Junior Study "Thumpin' Band From Hillbilly Land" caught in this somewhat informal pose as they practiced Tuesday for their command performance at half time of the Lions Club-

Chamber of Commerce basketball shoot-out which will take place in Indian Gymnasium tonight. The Tribune has intended to identify each Ms, but decided against it due to the strong possibility of a libel suit if a mistake were made.

Up several million\$\$

To what extent will Cochran County residents be enriching the Federal coffers, come April 15th, through their income tax payments?

The government counts on their contributions being larger than they were last year, when local returns of personal income and employment taxes were close to \$2,506,000.

That is the approximate amount that was turned in locally, based upon an unofficial breakdown of the Statewide collection figures released by the Internal Revenue Service.

From the State of Texas as a whole, Uncle Sam received over \$8,354,000,000 last year, the IRS figures show. Of this total, taxpayers in Cochran County paid an estimated 0.03 percent.

The returns, generally, are expected to be bigger this year because of the wage gains chalked up by most families in 1973 and because more people were employed nationally than in 1972.

As a result, the budget submitted by the Administration looks for personal income and employment taxes to yield a record \$202 billion this year.

That is \$24.8 billion more than in 1973, when the tax haul was \$177.2 billion.

Local taxpayers will be
See IRS Page 5

RALPH MASON AND DAVID BERRARA have proved a strong combination in high school tennis competition this year and have a second place in men's doubles in the Lubbock tournament this weekend and a third in the Denver City Tournament last week to show for their efforts. These are not the first trophies the duo has brought home to MHS and probably will not be the last.

Rita Scott first in naming contest

Rita Scott of 715 W. Hayes was chosen by the Morton Area Chamber of Commerce Board as first place winner in the Tribune Friendly Faces

Contest. Rita correctly identified all the faces and the business they represented. Final decision was made on her "Why I like to Live and Shop in Morton" entry. Although it's not the largest, the newest, the nicest town around...There's no other place, where greater people can be found."

Capping ceremony slated at SPC

A candle lit capping and pinning ceremony for the 1973 fall vocational nursing class at South Plains College is scheduled for Thursday, March 21.

Ceremonies will begin at 2 p.m. in the Student Union

See CAPPING Page 5

The second place award went to the Morton High School Faculty. They too correctly identified the faces and their essays was "As Morton teachers, we appreciate the many times Morton merchants have been extremely generous with their time and money in

Balloters must find which box to vote

There will be seven (7) ballot boxes provided for county voters who will go to the polls in the county Democratic Primary May 4, county Democratic Chairman Dorothy Barker announced this week.

There will be only one box for Precinct I and two boxes for each of the other three precincts. ALL Precinct I voters will cast their ballots at the one box located in the meeting room of the county courthouse—down stairs and across from the Library.

The other three precinct voters will use boxes as follows:

- Precinct II, voting box II in the Whiteface gymnasium.
- Precinct III, voting box III, in the county barn at Bledsoe.
- Precinct IV, voting box IV, in the county barn at Star Route.
- Precinct V, voting box V, in Eastside Elementary School on E. Jefferson Avenue in Morton.
- Precinct III, voting box VI, in the Morton City Hall.
- Precinct IV, voting box VII, in the banquet room of the county activities building in Morton.

The main point to remember is that if you were not affected by the recent re-districting of the county—that is, if you are

Registration deadline looms

Monday, April 1st, is the last day for registering Texas motor vehicles, according to

R.W. Townsley, Director of the Motor Vehicle Division of the Texas Highway Department.

Townsley noted that owners of motor vehicles must display 1974 license plates by 12:01 a.m. Tuesday, April 2, to avoid penalty.

"Unfortunately, many owners choose to wait until the last minute when the lines are longer," said Townsley. "When, in fact, county tax

offices and substations have been open for registration since February 1."

Townsley encouraged vehicle owners already possessing new plates to put them on. "It's the best advertising we can get in reminding owners that the registration deadline is fast approaching."

For those not yet registered, nothing is changed in the registration procedure from last year. The renewal form and payment are all the vehicle owner must present at the time of registration.

If the registration form has been misplaced, the owner will

Fertilizer distribution big problem

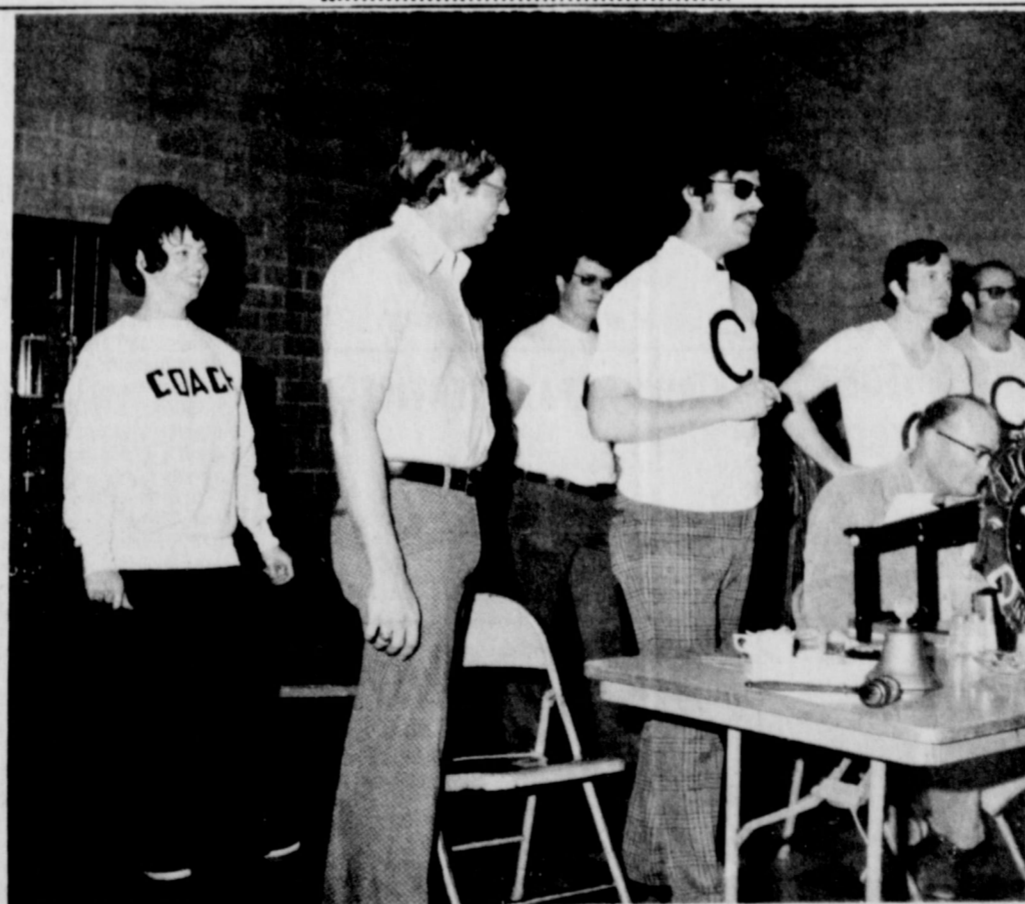

Rep. Bill Clayton, (D-Springlake), today asked the House Agriculture Committee to begin an immediate investigation into the possibilities of establishing state-wide licensing requirements for fertilizer dealers. Rep. Clayton, who recently led a state investigation into the current critical shortages in agricultural fertilizers, reported that such licensing provisions may be the only effective means of monitoring fertilizer sales and transactions.

In Austin, Rep. Clayton stated, "In conjunction with the study of licensing provisions, I plan to initiate inquiries into several other areas where our state

Shooting club

A meeting will be held Tuesday, March 26, at 7 p.m. in the Levelland Savings and Loan Community Room for the purpose of forming a Rifle and Pistol Club. All interested persons are urged to attend.

RANDY THOMAS, the "Big C" in the foreground, hurled his challenge into the Lions' teeth at their meeting last Wednesday to meet the Chamber of Commerce in a basketball shoot-out in Indian Gym at a date convenient to them. The Lions accepted and set the date and time for 8 p.m. tonight, Thursday, March 21. Several Chamber members backed up Thomas,

including their two coaches, Chris Bell, left, and Jean Sayers, who is snapping the photo. An apparently bewildered Lions Club President, Jimmy St. Clair, second from left, timidly observes the rough and ready Chamber Champs as they throw down the gauntlet, but recovered his composure in time to accept the challenge.

GO HOME THE CHIEFS. Pracilla Minor and herita Fluitt have been a wide swatch in high tennis competition this year. The duo won a tournament championship in doubles in Lubbock this weekend and took third in the Denver City tournament last week. They are a strong factor in the area tennis scene this year.

Cage shoot-out, athletic banquet attract many

Events, both of an athletic nature and both of a social nature, should create a considerable interest among citizens as scheduled for the next few days.

First, of course is the cage shoot-out, BANQUET Page 5

NOTICE AFFORDING OPPORTUNITY FOR PUBLIC HEARING CORRIDOR (LOCATION) AND DESIGN (COMBINED HEARING)

The Texas Highway Department is planning the construction of F.M. Highway 3305 in Cochran County, beginning at State Highway 214, 5.5 miles north of Morton and going east approximately 4.4 miles along an existing county road.

Work on the proposed project will include grading, drainage structures, caliche base and asphalt surface treatment. Proposed usual right of way width is to be 80 feet.

Maps and other drawings showing the proposed location and geometric design, environmental studies and any other information about the proposed project are on file and available for inspection and copying at the Resident Engineer's Office in Brownfield, Texas.

Information about the State's Relocation assistance Program, the benefits and services for displaced and the relocation assistance office as well as information about the tentative schedules for acquisition of right of way and construction can be obtained at the Resident Engineer's Office.

Any interested citizen may request that a public hearing be held concerning the social, economic and environmental effects of the proposed location and design for this highway project by delivering a written request to the Resident Engineer's Office on or before April 5, 1974.

In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing.

THE FAMILY LAWYER

Cruelty Behind Bars

Block Thirteen in a certain prison was known as the "cruel hole." Inmates were kept there for years—in dark, 6 x 8 cells. Once a day they were allowed outside for 15 minutes during which time they had to bathe, wash their clothes, and exercise.

But when these conditions were called to the attention of a federal judge, he ordered changes made at once. He said the situation was a form of "cruel and unusual punishment," forbidden by the United States Constitution.

Traditionally, courts have maintained a "hands-off" policy toward the administration of our prisons. They have felt that conditions inside bars were generally outside of their jurisdiction.

But in recent years, that attitude has been changing. Repeatedly, prisoners have won cases based on the "cruel and unusual" clause of the Constitution.

A broad spectrum of complaints has come under closer judicial scrutiny — corporal punishment, forced labor, restrictions on visitors, inadequate food, faulty sanitation, insufficient medical supplies or personnel.

Courts are still wary, however, of getting too deeply involved in the day-to-day problems of running a penal institution. Thus, a prisoner failed to establish "cruel and unusual" punishment because he had been deprived of the right to wear his civilian clothes. And in another case, a court found no constitutional problem when a prisoner's long hair was cut to standard length.

The court said: "A man in jail is not a free man. His right to wear long hair is weighed by the interests of the state in maintaining sanitary conditions and discipline. The Eighth Amendment expresses the notion of civilized man that the prohibition of long hair is not barbarous."

Thoughts

From The Living Bible

"In solemn truth I tell you, anyone believing in me shall do the same miracles I have done, and even greater ones, because I am going to be with the Father. You can ask him for anything, using my name, and I will do it, for this will bring praise to the Father because of what I, the Son, will do for you. Yes, ask anything, using my name, and I will do it! If you love me, obey me; and I will ask the Father and he will give you another Comforter, and he will never leave you. He is the Holy Spirit, the Spirit who leads into all truth."

Caribs are a vanishing tribe

Only about 400 Carib Indians,
 for whom the Caribbean
 was named, still survive,
 living on a reservation on the
 rugged British island of
 Dominica.

Once fierce and feared, un-
 conquered for more than 100
 years after the West Indies
 was discovered, they were
 mainly responsible for wiping
 out the peaceful, agriculturally
 inclined Arawak Indians.

IRS will compute taxpayer returns

Many taxpayers again may have the
 Internal Revenue Service compute their
 income tax and retirement income credit,
 John J. Sloan, Administrative Officer for
 the Lubbock area said.

He said the IRS on request will compute
 the tax for persons with incomes of
 \$20,000 or less, who take the standard
 deduction, and whose income is solely
 from salaries, wages, tips, dividends,
 interest, pension and annuities.

If the taxpayer also wants the IRS to
 compute his retirement income credit, he
 should include the basic information on
 Schedule R and attach it to his Form 1040.
 Mr. Sloan said. He should also enter

"RIC" on line 17, Form 1040. Instructions
 on Schedule R explain which items need to
 be provided.

For those persons who qualify, the IRS
 will compute the tax, whether the return
 is a Short Form 1040A or the regular 1040.
 The tax instructions explain what
 information should be entered on the
 return, Mr. Sloan said.

After this information is entered on the
 return, the taxpayer should sign it and
 send it to the IRS Center in Austin, Texas.

He said the IRS will then compute the
 tax and send the taxpayer either a refund
 or a bill for the tax due, whichever is the
 case.

Mahon, Briscoe speak at WTCC meet

Emil C. Rasmussen of Midland,
 President of the West Texas Chamber of
 Commerce, announced recently that the
 two featured speakers at the 50th Annual
 Convention of the West Texas Chamber of
 Commerce in Odessa will be Gov. Dolph
 Briscoe and Congressman George
 Mahon, Chairman of the House
 Appropriations Committee, United States
 Congress.

The three-day convention will convene
 April 18 in the Inn of the Golden West with
 registration at 12:00 noon in the lobby.

The theme of the 56th Convention will

be "West Texas...Energy-Energetic
 Leadership."

Committee meetings have been
 scheduled for 1:30 p.m. Thursday.

A special Thursday afternoon feature
 starting at 2 p.m. will be a West Texas
 Bicentennial Leaders Meeting with John
 Ben Shepperd of Odessa presiding. He is a
 WTCC Past President and Assistant to
 the President, El Paso Products
 Company. The event is being sponsored
 by the West Texas Chamber of Commerce
 Cultural Affairs and Tourist and Travel
 Development Committees, the
 Presidential Museum and the American
 Revolution Bicentennial Commission of
 Texas and of Odessa.

Congressman George Mahon will be the
 principal speaker at the opening banquet
 on Thursday evening. O.R. Clements of
 Odessa, WTCC Vice President of District
 VI, will serve as master of ceremonies.
 Mr. Clements is General Manager of
 Manufacturing, El Paso Products
 Company.

Gov. Dolph Briscoe will address the
 convention at the annual banquet in the
 ballroom of the Inn of the Golden West.
 Master of Ceremonies will be Jay Alvey,
 of Odessa, a WTCC Director and Vice
 President of the First National Bank of
 Odessa.

Many benefits offered by trees

"Trees are our biggest environmental
 improvement bargain and offer
 homeowners many benefits," says Dr.
 William Welch, landscape horticulturist
 for the Texas Agricultural Extension
 Service.

Trees furnish protection from
 extreme heat, cold, wind, drought and
 floods. At the same time, they reduce air
 and noise pollution while providing

shelter and food for birds, animals and
 man.

A source of year-round beauty, trees
 also increase property value and indicate
 community pride, points out the Texas
 A&M University System specialist.

In general, planting a tree
 demonstrates a feeling of continuity with
 the past—and anticipation for the future,
 notes the horticulturist. When cared for

properly, a well-placed, carefully-
 selected tree provides pleasure for many
 generations.

Careful selection involves choosing
 trees adapted to the area—and which
 meet specific needs, adds Welch. And
 now—late winter and early spring—is a
 good time to set out trees for most of
 Texas.

County Extension agents have specific
 information on selecting and caring for
 trees.

CAPPING

FROM PAGE ONE
Held in auditorium.
Thirteen students have completed their academic work and will begin the final phase of their training Monday, March 25. They will work in hospitals around town, receiving on-the-job training and training in the nursing profession.
Guest speakers at the ceremonies will be Don Brown, dean of the Office of Continuing Education, and Hank Hunt, dean of the physical-vocational-occupational division, both in SPC.
Mrs. Helen Brown, assistant instructor in nursing at the College, will award caps to female students and a pin to the only male student in the national nursing program, Mr. Bennett, part time nursing instructor, will light candles for the event.
Other students receiving their caps will be Sandra Mer, Linda Roberts, Sue Olson, Patricia Platt, and Key Townes, all of

Levelland; Jessie Posey and Jean Seiber, both of Muleshoe; Pamela Linder of Morton; Angelina Luebano and Leta Havens, both of Crosbyton; Lillian Brown of Reese Air Force Base, and Marla Martin of Seagraves.

IRS

FROM PAGE ONE
shouldering their full share of this increase, it is expected, reflecting the higher level of income in the area in the past year.

On that basis, the Cochran County collections next month will come to approximately \$2,857,000, it is calculated.

The Administration's new budget, for the fiscal year that begins in July, 1974, calls for bigger income tax receipts next April than ever before, although the rates will remain the same.

It is based upon the expectation that personal income, nationally, will continue on its upward course and will reach new heights.

The budget anticipates \$220 billion next year in personal income and employment taxes, an increase of \$18 billion over the current level.

For the local population to produce its proportionate share of this addition, total earnings in the area will have to rise by about 9.0 percent.

FERTILIZER

FROM PAGE ONE
government may not have fulfilled its obligations to the farmers and consumer public of Texas. I am asking the Fertilizer Control Institute at College Station to re-evaluate their reporting and recording methods to find out why there was so little forewarning of the shortage, as well as why the Institute's estimates of the shortage differ so drastically from the actual amount of fertilizer available in Texas."

Clayton expressed his concern over the alleged exportation of fertilizer products into Mexico, products which then are apparently shipped to Texas and sold at a much higher price. Clayton stated his office is asking for coordination of an investigation into these

questionable exports with the Agriculture Commission, the Attorney General's office and the House Agriculture Committee.

Rep. Clayton also reported that in furtherance of his campaign to find solutions to the fertilizer shortage, he would be petitioning the Council of State Governments to determine if there is any legislation in any state that might be used as a model for Texas in controlling deceptive trade practices in fertilizer dealings. The Council will meet in Florida in May.

Rep. Clayton urged all persons with information or questions on the fertilizer situation to contact him or the Department of Agriculture at 512-475-6686.

REGISTRATION

FROM PAGE ONE
be required to bring his certificate of title and last year's license receipt.

Townsley reminded that beginning in 1975, Texas will change over to the 5-year license plate. "We're already manufacturing the '75 plates. That's how much leadtime we have to give ourselves."

In 1976, instead of buying a new license plate, motorists will purchase a 1- by 2-inch adhesive-type sticker that will be placed on the upper left corner of the plate," said Townsley. "In 1977, the sticker will be stuck to the upper right corner, then alternated for the following years. "In 1977, the sticker will be stuck to the upper right corner, then alternated for the following years."

According to Townsley, the 5-year plate will feature an entirely new design, including the use of vowels for the first time. Since 1965, when the three-letter system was adopted, only consonants were used. However, with an ever-increasing number of motor vehicles, the entire alphabet will now be employed. As an example, the first 1975 license plate will be AAA 10.

Townsley says the 5-year license plate will save Texas taxpayers an estimated \$10.5 million over a four year period, since annual license plate production will no longer be necessary.

BANQUET

FROM PAGE ONE
Lions Club vs Chamber of Commerce basketball confrontation which is slated for 8 p.m. tonight in Indian

Gymnasium.

The second is the Morton Athletic Booster Club All-Sports Banquet set for 7:30 p.m. Tuesday in the Morton schools cafeteria.

Both of these events are a springtime highlight in the community and are usually very well attended. The basketball shoot-out was a riot of laughs last year and promises much new to be added this year.

The athletic banquet, at which our school boy and girl athletes are honored in all sports, is always a pleasurable event and with the extra added attraction of Gene Mayfield, West Texas State University head football coach and Athletic Director, as main speaker, it should be doubly attractive.

Note the places and times and let's all attend these two fine events.

BALLOTERS

FROM PAGE ONE
still in the same precinct—you will vote where you always have voted. If you were redistricted, you will vote in either Box V, VI, or VII, depending which precinct you were transferred into.

In order to cut down on confusion, with the possible adverse effect on the election, it is very important that each voter knows where to cast his ballot.

You can obtain this information by calling or visiting the county tax assessor-collector's office or the county clerk's office, Mrs. Barker stated.

Free Press In High School

Two high school seniors wrote and mimeographed an "underground newspaper," then distributed copies to students just outside the school grounds. The principal, incensed, suspended them from their classes. The two students, equally incensed, took the matter to court.

At the hearing, the principal pointed to a rule of the Board of Education forbidding students to hand out any printed material without his approval.

But the court decided that the Board's rule was a violation of freedom of the press. Ordering the students reinstated, the court said such a rule could even prevent one student from handing another student a bible.

"The purpose of education," observed the court, "is to spread, not to stifle, ideas and views."

This version of student rights is now followed by most courts. In particular, they look with tolerance on political, social, and economic criticism. As one judge commented, in upholding the placing of an anti-war advertisement in a high school newspaper:

"Free speech is not confined to classroom discussion." On the other hand, the law recognizes that some limits may be justified by the necessities of orderly education. "Time and place" rules for distributing literature are generally held to be within the school's authority. Extreme vulgarity, too, has been condemned.

Furthermore, courts usually allow a tighter rein on high school students than on college students. In one case, a court upheld disciplinary action against a high school student because of a scurrilous leaflet denouncing the principal. The court said:

"Activities of high school students do not always fall within the same category as the conduct of college students, the former being in a much more adolescent and immature stage of life and less able to screen fact from propaganda."

"The line of reason must be drawn somewhere."

'Cattle rustler' lynched in Africa

Police have arrested 238 men, women and children in the Bukoba region of northern Tanzania on suspicion of lynching a suspected cattle rustler.

A man whom the villagers believed had rustled cattle took sanctuary in the local courthouse where officials locked him up but an angry mob stormed the building, smashing down the doors and windows, and killed him. —

"Thou wilt show me the path of life, in thy presence is fulness of joy."
PSALM 16:11

HERE IS THE PATH

shall love the Lord thy God with all thy heart, and with all thy strength, and with all thy mind, and thy neighbor as thyself.
Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose . . . and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedom which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Easter Seals presented to Briscoe

The first sheet of 1974 Easter Seals has been presented to Governor Dolph Briscoe by Lydia Gonzales of Edinburg, 1974 Texas Easter Seal Child, in behalf of the Easter Seal Society for Crippled Children and Adults of Texas and its affiliates.

Lydia, pictured with Governor Briscoe, presented the seals to officially open the annual Easter Seal Appeal in Texas on behalf of the 20,570 handicapped adults and children who were served in 1973 by statewide network of Easter Seal affiliates.

The Texas Easter Seal campaign, which will continue through Easter Sunday, April 14, is to raise funds to help in the treatment and rehabilitation of crippled children and adults in Texas. The Easter Seal Society of Texas and its affiliates will conduct the traditional Mail Appeal, House-to-House, and Neighbor-to-Neighbor Campaigns, and a variety of local events throughout the state. Over 35,000 volunteers, led by John Gary and 234 local Easter Seal Appeal Chairmen, will participate in the traditional appeal. Through these volunteers, the Texas Easter Seal Society is represented in every county in Texas.

'Hot cars' a new craze in France

A car-burning fad in France has spread to the south with nine cars set on fire in Nice over a recent weekend.

As in Paris where more than 70 cars had been burned by mid-February, the prime targets for arson were canvas-topped beach buggies.

FOUR ALFALFA CUBERS, representing an investment of close to \$150,000 move through WL-306 alfalfa fields west of Hereford. The extreme leafiness of the variety makes it ideal

for cubing. The alfalfa is grown and cubed especially for the feedlots in the Hereford area. Photo, courtesy Germain's, Inc.

GOVERNOR DOLPH BRISCOE is pictured above as he received first sheet of 1974 Easter Seals from Lydia Gonzales, a 1974 Texas Easter Seal Child. The Easter Seal Appeal on behalf of the crippled children and adults in Texas is presently in progress and will continue through April 14.

Precautions outlined for tornado season

Tornado season is approaching in Texas, and certain precautions can save lives, warns Wayne Keese, agricultural extension agent for the Texas Agricultural Experiment Station.

Tornadoes are violent wind storms that grow out of threatening thunder clouds. In Texas, the peak tornado season occurs during the months of April, May and June, but tornadoes may occur anytime.

Although tornadoes may occur at any time of the day or night, they are more frequent during the warmer hours of the day, says Keese.

When the possibility of a tornado exists, the National Severe Storms Warning Center in Kansas City, Mo., sends out a tornado watch to the area. The message is broadcast by radio, television and National Weather Service stations in the area.

A "tornado watch" alerts people to the possibility of a tornado, explains the A&M University System meteorologist. "When a watch is announced for an area, there is no need to stop normal activities except to watch for weather advisories and watch for threatening weather. Be sure a battery-powered radio is available in case power is lost."

A "tornado watch" identifies a specific area, buy everyone in the area should be alert for changing conditions.

When a tornado has actually been detected by radar, a "tornado warning" is issued. The warning tells when a tornado was sighted, the time it is likely to move, and the time it is expected to move through the warned area, explains Keese.

If a tornado warning is issued for your area, move immediately to a cellar, basement or civil defense shelter. If you are in a home or other building with no basement, go to the lowest level in the center of the house or other building. Take shelter in a small room or closet or under heavy furniture.

Keese also lists other safety precautions. At home, open a few windows to allow for sudden air pressure changes. Then find shelter.

Stay away from windows and buildings with wide, free-span roofs. In open country, escape by moving at a right angle to the tornado's path. If there is no time to escape, lie flat in a ditch or ravine but do not stay in your car.

Get far enough away from a trailer or mobile home to avoid injury if it is overturned. When you observe a tornado, report it promptly to the nearest law officer or National Weather Service Office. Otherwise, do not make calls so that lines can be kept open for emergency information.

After a tornado, always wear shoes and gloves in cleanup operations and damage inspections. Watch for hazards like broken or downed electrical wires and broken gas pipes. When entering a storm-damaged building, watch for ceilings and walls that may be ready to fall.

Never light a match, smoke or carry open flames into a building until you are sure there are no gas leaks. Do not sight-see in disaster areas. Your presence will only hamper rescue and cleanup operations.

LEGAL NOTICE
Pork Referendum and Producer Board Election

Being certified by the Commissioner of Agriculture of the State of Texas for this purpose, the Texas Pork Producers Association, 2422 Tahoe, Sherman, Texas 75090, proposes a referendum election on May 14, 1974 under provision of Article 55c, Vernon's Civil Statutes, on the proposition of whether or not the pork producers in the State of Texas shall assess themselves a maximum amount of 10 cents per head on all slaughter animals to be collected at the point of first processing or sale and to elect members of a 15 member commodity producers board to administer proceeds of such assessment to be used for research, predator control, disease and insect control, education, and promotion designed to encourage the production, marketing, and use of pork.

The referendum and election will be held by mail ballot which will be provided to all eligible voters not later than 15 days prior to the election. Ballots must be mailed to the polling place at Sherman, Texas before midnight on the date of the election.

Any person within this state engaged in the business of producing, or causing to be produced, slaughter hogs for commercial purposes is eligible to vote, including owners of farms and their tenants and sharecroppers, if such person would be required to pay the assessment proposed.

Any person qualified to vote at the referendum may place his name in nomination for membership on the proposed commodity producers board by application to the above organization signed by himself and at least ten other persons eligible to vote in the referendum. Such applications must be filed at least 30 days prior to the election date.

Any person qualified to vote who does not receive a ballot prior to April 30, 1974 may obtain one at his local County Agent's Office.

WAREHOUSE FURNITURE SALE

AS YOU KNOW CHAPARRAL DIST. CO. SUPPLY WEST TEXAS & EASTERN NEW MEXICO FURNITURE DEALERS WITH QUALITY FURNITURE ON A WHOLESALE BASIS. CHAPARRAL IS ABOUT READY TO MOVE INTO ITS NEW HOME AT 610 HOUSTON ST. PRESENTLY CHAPARRAL HAS FURNITURE THAT IS NO LONGER ON BASIC WITH ITS DEALERS, THEREFORE DISCONTINUED BY CHAPARRAL. THIS QUALITY FURNITURE MUST BE SOLD-SACRIFICED TO THE PUBLIC. IF YOU NEED A NEW SOFA-CHAIR-BEDROOM SUITE-LA-Z-BOY OR LIVING ROOM TABLE YOU CAN BUY IT AT BIG SAVINGS DURING THIS WAREHOUSE FURNITURE SALE. CHAPARRAL DISTRIBUTING CO. IS A SUBSIDIARY OF STACY-MASON, INC.

MR. AND MRS. WINSTON JERDEN announce the engagement of their daughter, Becky Jean, to Mike Hunter, son of Mr. and Mrs. Bobby Hunter. They are both graduates of Morton High School and presently attending school at Wayland Baptist College in Plainview. The couple plans to be married June 7 in the First Baptist Church in Morton.

Bledsoe News

The Bledsoe Community Improvement Committee and the Bledsoe 4-H Club invites everyone to attend a Boston Pop Concert to be presented by the Goddard High School Band of Roswell, New Mexico, on Friday, March 22, at 7:30 p.m. in the Bledsoe High School Gymnasium. The concert will feature twirlers and "The Typewriter Song" along with a number of current songs. The Goddard Band, under the direction of Mrs. Mike Ford, is traveling a long distance and going to a good deal of trouble to present this spring concert to Cochran County, so please make a special effort to be there. The concert is free to the public. Refreshments will be available at the concession stand.

At a recent School Board meeting teachers' contracts were renewed for Sandra Gandy, Flora Bryant, Judy Detriske, June Gandy, Lee Purcell, Derrill Hale, and Bill Rodden. The Board also accepted the resignation of Mike Sutton.

During the Open House held at Bledsoe Schools, students from the 7th and 8th grades presented the one-act play "Ide the Gooberville Stage." James Vanbeber, Daryle Weaver, Darla Davis, Keith Rhynes, Shari Hale, Treva Bilbrey, Perry Trull, Kerri Adams, Carolyn Stroud, Leesa Bilbrey, Terri Adams, Larry Banning, and Nancy Griffiths made up the cast for this entertaining performance.

Terri Adams placed second in the Junior High and 9th Grade District Tennis Meet at Cotton Center last Monday.

Patti Hall was high point player when the girls Little Dribblers teams swatted the Green Hornets 25-18 on March 14 and again when Bledsoe won 20-15 over the Gold Diggers on March 15.

Bookmobile schedule

The High Plains Bookmobile will be in your area on the following dates:
 Wednesday, March 27—Whiteface No. 1, 9:30-10:30; Whiteface No. 2, 10:30-10:40; Lehman, 11:05-11:30; Bledsoe, 12:00-1:00; Maple, 2:15-3:15.

Whiteface News

Jim and Ann Martin, former residents of Whiteface and recently living in Levelland, have moved to Amarillo where Jim is employed with Num Electric. Ann and Jim spent the weekend with his parents, Mr. and Mrs. George Martin. George and Lillian also had their other two sons and families from Ruidosa, N.M. visiting over the weekend. They are the Lynn Martins and Dennis Martins.

Dan Sams and Bill Bowers were inducted into the U.S. Navy in San Diego March 13.

One of the larger crowds in recent years attended the Whiteface School Band Concert Thursday night. They were rewarded with the playing of some 80 musicians including the 6th grade, junior high and high school bands as well as various solo and ensembles.

Polly Woodley is home from Cook Memorial Hospital. Gracie Price is still a patient there.

Visiting in the C.A. Kitchens last week were her sister, Mrs. Wilson, and Mrs. Wilson's son, and his family all from Tulsa, Okla.

Irene Peden had surgery March 19 at West Texas Hospital in Lubbock.

Dessie Bowden has returned from a visit in Steamboat Springs, Colo. Her daughter, Bettye Maze and family.

Italy declares war of the flies

Italy has declared war on flies in its central and southern regions, hoping to avert another cholera outbreak like the one last year which claimed 27 lives in that area. Local authorities will be warned to make sanitary disposal of garbage and to have sufficient disinfectants available.

Hospital notes

Patients admitted to Cochran Memorial Hospital from March 12 through March 19, were: Lillie Steed, Bertha Miller, Allie Reeves, Bennie Jones, Katie Jones, Donald Bales, Johnny Arnold, Margaret Polvado, Ray Thompson, Benina Morales, George Burkett, Ed Latimer, Harvey Thompson, Ofelia Sepulveda, Yolanda Avitia, Julia Dewbre, Margie Zapata and Eloise Miller.

Look Who's New

Mr. and Mrs. Walter Ray Miller announce the arrival of their infant son born March 19 at 7:15 p.m. and weighed 5 pounds and 11 ounces and was 20 inches long.

FOR PEOPLE WHO THINK

From the Christians who assemble at Taylor and SW 2nd Sts. ---Greetings:

The title of these articles means exactly what it states. People who will not exert themselves to THINK will never be secure in anything. THINKING is NOT just reading and then weeding out all that doesn't already "fit" our conclusions on a matter. THINKING that produces proper understanding requires, first of all, complete and unmodified HONESTY that searches out FACTS that form the foundations for all true learning. The SINCERE person determines that he (or she) will make such learning the ruling principles of all action and practices in life. THINKING people will make sure that the real dependable source of FACTS must be that source that knows more about a matter than all other sources.

ALL the above was that which completely describes truly faithful apostle Paul. Were this not true He would never have left his previous concepts of what was right in the sight of God. Read Galatians 1:11-17; Philippians 3:1-11 and there are more. Paul knew that the maker of all this universe, particularly this earth and man that inhabits it, was and is the only source of true life here and hereafter. Paul had an all pervading love for the TRUTH. God's own mind (Spirit) instructed him to write just exactly what will happen to those who do not truly love the truth. Read 2 Thessalonians 2:5-12. All thinking people will read this and be warned of that which shall surely come to pass.

In view of the above, and concerning those of whom we have learned in previous articles--those who had heard the good news (gospel) of Christ and in believing it had obeyed it from the heart and then following the instructions of the apostles; just how were they instructed to worship God and just how were they told to behave toward one another and all others upon the Earth. Are we determined to study and learn the truth and to accept and practice it? Each of us WILL answer that question by the way we shall continue in these attempts as long as we have opportunity. Please remember your welcome to attend the assemblies at Taylor and SW 2nd Sts.

C.R. MANSFIELD, Evangelist
 CHURCH OF CHRIST

SANCAP. BECAUSE YOU HAVE ENOUGH SOIL PROBLEMS ALREADY.

If the soil in West Texas was the same as the soil everywhere else maybe the herbicides they use would be good enough for you.

But you've got different soil. Sandy soil. And different problems.

You need an herbicide specifically made for sand, loamy sands and fine sandy loam soils. You need Sancap®.

If you used it when we introduced it last season, you know what it can do.

STOP CARELESSWEED AND RUSSIAN THISTLE COLD. Without hurting your cotton.

With just ordinary rainfall or irrigation. And all you have to do is broadcast Sancap over your field at planting or within two days after.

No incorporation, either. Sancap. The only herbicide made for sandy soil. We made it especially for your soil and problems.

And not anybody else's. Agricultural Division, CIBA-GEIGY Corporation, P. O. Box 11422, Greensboro, NC 27409.

CIBA-GEIGY

The only herbicide made for sandy soil.
**YOU DON'T HAVE TO USE A
 COTTON HERBICIDE MADE FOR
 SOMEONE ELSE'S SOIL.**

ROB PINNELL, junior from Matton, Illinois, was selected by his teammates the "Most Valuable Player" for Eastern Illinois University's basketball team. He was top rebounder with 204, second in scoring with 318 points and a 12.2 average, and first in field goal percentage connecting on 123 of 224 for 549. He is the grandson of Mrs. W.B. Lackey of Morton.

ASCS news

By John Hall, CED
Sign-up for the Rural Environmental Conservation Program began on March 18, 1974 and will end on March 22, 1974 announced John W. Hall, Executive Director, Cochran County ASCS Office. Requests for cost-sharing will be taken at the county ASCS Office.
The Rural Environmental Conservation Program, authorized in the 1973 Agricultural and Consumer Protection Act, is designed to aid farmers in establishing needed conservation practices on their farms. "With the emphasis on all-out production it is imperative that conservation of soil and water be included in a farmer's cropping plans," Hall said. Cost-sharing is available for practices to control soil erosion, conserve water, prevent pollution of water and air. Some of the practices eligible for cost-sharing are construction of diversions, terraces, and waterways, establishing or improving vegetative cover.
Also included in the program are practices to establish permanent wildlife habitat. This includes planting shrubs for cover and feed, and shallow water developments.
"Farmers are urged to stop at the ASCS office to sign up or get additional information about the practices," Hall said.

Tech names Watts to Dean's list

Jackie Watts, son of Mr. and Mrs. Kenneth Watts, was named to the Dean's Honor List at Texas Tech University for the fall semester.
Watts is in the School of Chemical Engineering and is a 1971 graduate of Morton High School.

ASC meets for luncheon

The Cochran County Unit of the American Cancer Society met March 19 for a luncheon at the Tic Toc Restaurant. Harold Drennan, president, presided over the meeting.
Mrs. James St. Clair was presented a letter opener, bearing the sword emblem, for outstanding work done during the 1973 Crusade. A plaque, bearing the sword emblem, was presented to Hi Duncan for the work he had done for the Cancer Society.
Bill McDavitt, District Chairman, reported that Cochran County was number eight in the Top Ten for the State in public education. Cochran was one of two in the District who were listed in the Top Ten. He also reported that every county in the District had a Crusade Chairman for 1974.
Drennan reported that \$170. was made on the chili supper held recently and a special thanks was extended to Doss Thriftway, Ramsey's Food and Marina's Mini Mart for donating chili for the supper. He also reported that to date \$665. has been given as Memorials.
Mrs. T.K. Williamson, chairman for the April Crusade, announced that she was getting works for the forthcoming event and she would host a coffee Wednesday, March 27, at 10 a.m. for all workers to pick up their packets.
The next meeting will be held May 21 and will be a unit meeting with all members urged to attend. At that time new officers will be elected.
Attending the luncheon were: Drennan, McDavitt, Mrs. St. Clair, Mrs. Williamson, Mrs. M.C. Ledbetter, Mrs. W.L. Foust, Mrs. Willard Henry, Mrs. Dexter Nebbut and Mrs. Leonard Coleman.

In New England, burdock leaves were once used as a fever remedy. They weren't so hot!

Mrs. Rampley speaks at Whiteface Club

Whiteface Study Club met March 7 in the home of Mrs. Vern Beebe.
The program was given by Mrs. O.C. Rampley, President of Caprock District. Mrs. Rampley, dressed in a Hobo costume, gave the history of General Federation of Women's Clubs in the form of a Travelogue depicting glances of Conventions in several different countries as a Hobo would see them through a window.
A Certificate of Appreciation for participating in the Mothers March for the March of Dimes in Whiteface was presented to the club by Mrs. R.D. Hensley.
The Club voted to donate \$50.00 to Sherry Jackson, a first grader who is ill and in Galveston for treatment.

Officers for the new year were elected as follows: Mesdames Marvin Lasater, President; Richard Souter, First Vice-President; Cliff May, Second Vice-President; R.D. Hensley, Recording Secretary; Carroll Lanier, Corresponding Secretary; Royce Elam, Treasurer; Jack French, Parliamentarian; Freddy Butlar, Reporter; and Roy Akin, Historian.
Refreshments were served to Mrs. O.C. Rampley and members: Mesdames Larry Baldwin, Vern Beebe, Royce Elam, Marshall Cooper, Joe Bob Allen, Roy Akin, Cliff May, Carroll Lanier, Sam Rankin, Marvin Lasater, Darwood Marshall, R.D. Hensley, by hostesses Mrs. Jack French and Mrs. Kenneth Sams.

With the release of the Spring planting intentions report by the U.S. Department of Agriculture March 14, High Plains observers are stepping up calculations and speculations as to how much cotton may be planted in the 25 county area surrounding Lubbock.
As of March 1 the USDA report showed farmers intended to put 14,718,300 acres in cotton, a sizeable 19 percent increase over the 12,416,100 acres seeded in 1973 and a small rise from the 14,505,000 acre planting intentions reported by USDA as of January 1.
In Texas farmers indicated to USDA that 5,900,000 acres would go to cotton production. That's up 9.2 percent from the 5,400,000 planted in the Lone Star State in 1973 and a 100,000 acre increase over plans revealed to USDA January 1.
The major part of the national increase, if farmers carry out March 1 plans, will occur in the Mid-South, where flooding reduced 1973 plantings, and in the Far-West states of California and Arizona.
Current thinking on the High Plains, according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock, is that producers in the 25

PLG counties may raise planted acreage by about the same percent as Texas, perhaps as much as 10 percent. An increase of that magnitude would put between 3 and 3.1 million acres under cotton on the Plains.
Official 1973 planted acreage figures for all counties on the Plains have not been released, but information from Agricultural Stabilization and Conservation Service offices indicate that just over 2.8 million acres were sowed last year. The December 1 final estimate of "acreage for harvest" from the joint PCG-Lubbock Cotton Exchange estimates committee, which allowed for acreage planted but later abandoned, was 2,709,836 acres.
"Over three million acres planted to cotton on the Plains in 1974 is a definite possibility" says Johnson, "but at this juncture there are any number of factors that could greatly alter the picture."
The biggest of these factors of course is rainfall, he says, pointing out that one-third or more of the area expected to go into cotton is totally dependent on timely rain to make planting possible. Most of this "dryland" area lies South and West of Lubbock where heavy planting in 1973

Thoughts

From The Living Bible
Oh, dear children, don't let anyone deceive you about this: if you are constantly doing what is good, it is because you are good, even as he is. But if you keep on sinning, it shows that you belong to Satan, who since he first began to sin has kept steadily at it. But the Son of God came to destroy these works of the devil. The person who has been born into God's family does not make a practice of sinning, because now God's life is in him; so he can't keep on sinning, for this new life has been born into him and controls him—he has been born again.
1 John 3:7-9
Religious Heritage of America

DISCRIMINATION BANNED
On March 22, 1972, by a vote of 84 to 8 the Senate approved a constitutional amendment banning discrimination against women.

left little room for expansion this year.
As one observer put it "Dryland farmers last year planted their back yards to cotton and unless they plow up their front lawns they can't plant much more cotton in 1974."
A sizable increase, in some areas as much as 25 percent, is now indicated in the sections lying generally North and East of Lubbock where irrigation water is more abundant. "But even here a large increase is not assured," Johnson cautions.
Cotton must compete for irrigated acres with grain sorghum, corn and other cash crops, he points out, "and much will depend on the action of prices for the various commodities between now and planting time and on producer evaluations of price prospects at harvest."
"So 3 or 3.1 million acres will be planted to Cotton on the Plains only if moisture is forthcoming to permit full planting of dryland farms and only if prices, the availability of fertilizer and other factors do not upset present plans for irrigated acreage between now and planting time."
"And these are big 'ifs,'" he concludes.

Something To Cry About... Sheep and Lambs On Feed Are Down But Up... Livestock Slaughter Increases... Feeder Cattle Prices Decline.

If you like onions (and who doesn't) here's something to cry about. The Texas spring onion crop for 1974 is forecast at 18 per cent above last year's crop. This year's spring crop is expected to be the largest since 1967 and the third largest on record.

Peak movement of the crop is expected in April. The quality of the crop appears to be excellent in the Rio Grande Valley. Harvest in the coastal bend area is expected to get underway in April. At Laredo, the crop is making good growth with the first harvest due during the early part of April. In the San Antonio-inter garden area cold weather has reduced stands some. But the crop is making good progress and harvest is expected to get underway there in April or May.

Acres for harvest this year are estimated 21,000, which is an eight per cent increase compared to a year ago. Yield per acre is expected to be up nine per cent from last year.

A 53 PERCENT increase in sheep and lambs on feed is noted by the Texas Crop and Livestock Reporting Service as of March 1 compared to 1973. Drylot sheep feeders with a lot capacity of 2,000 head or more had 113,000 sheep and lambs on feed for slaughter as of March 1. This is four per cent below the number on feed as of February 1.

Current intentions to market are: March 46,000; April 44,000; and May 23,000. April and May intentions are incomplete because additional lambs could still be placed on feed and marketed during this period.

RED MEAT production in Texas increased four per cent compared to a year ago. A total of 201,000,000 pounds of meat was produced in the state during January.

Cattle slaughtered numbered 317,000, calves 8,700, hogs 131,000 and sheep and lambs 116,000 head. Cattle and sheep and lambs increased but calves and hogs dropped below a year ago.

Nationwide, commercial production of red meat was two per cent more than a year earlier and 12 per cent more than December of 1973.

FEEDER cattle prices are being affected due to losses of feedlot operators. This has been happening since mid-January. A number of reasons are listed as the cause of this new round of confusion in the livestock industry.

Compared to fat cattle prices, feeder cattle were over-priced.

The number of feeder cattle available is also another cause of the feeder cattle price situation. January sales of cattle and calves at Texas livestock auction markets were 17 per cent above a year ago.

Most of these were feeder cattle. Another weakening factor for feedlots was a drop in the fed cattle market. Choice 900 to 1,100 pound steers sold direct from feedlots averaged \$50.45 per hundred weight during the first week of February. By the last week of the month, prices had dropped 13 percent to around \$44 per hundredweight.

Feedlot operators, meanwhile, are losing \$135 to \$155 per head, which is \$35 to \$55 per head more loss than they experienced in late 1973. FARM export totals are rising again. Agricultural exports for the fiscal year ending June 30 are expected to total about \$20 billion. This would be almost \$1 billion above the estimate made last November.

The \$20 billion export figure would also be almost \$7 billion above a year earlier.

Farm Parity at 94 Per Cent... Eight at or Above Parity... Texas Cattle Numbers Increase Again... Value Up, Too.

Farm Parity is inching again toward 100 percent. The latest parity ratio from the Texas Crop and Livestock Reporting Service is now set at 94. In December, it was 89 per cent. Parity has been at 100 per cent during one brief period last year, the first time in almost 20 years.

So even though parity is going up, agriculture producers have a long way to go before reaching financial equality with the rest of the economy.

In Texas during December, eight commodities out of more than 200 which are produced in the state, were at or above parity. The all farm products index of prices received by Texas farmers as of January 15 was 10 per cent above the previous month and 50 per cent above a year earlier.

Only one category of livestock was above parity. That was sheep at \$19.50 per hundredweight, or \$6.20 above parity. Hogs at \$38.90 were \$1.40 under parity. Beef cattle at \$45.60 were \$1.90 under parity. Calves at \$53 were \$8.60 under parity. Lambs at \$38.30 were \$9.20 below parity.

Wheat at \$5.19 per bushel was \$1.50 above parity. Corn at \$2.74 per bushel was 29 cents above parity. Oats \$1.49 per bushel was 30 cents above parity. Grain Sorghum at \$4.15 was two cents under parity.

Cotton at 58 cents per pound was eight cents under parity. Mohair at \$2 per pound was 67 cents over parity. Wool at 90 cents per pound was 32 cents under parity.

Eggs at 66.2 cents per dozen were slightly above parity.

TEXAS cattle and calf numbers as of January totaled 16,250,000 head. This is eight per cent above the previous level of 15,100,000.

Beef cow numbers at 6,470,000 is up

MISS JOSEPHINE TORO became the bride of Lessel E. House at 4:30 p.m. Saturday, March 9, in the First Assembly of God Church in Leesville, Louisiana. The Rev. James P. Thomas officiated. Parents of the couple are Mr. and Mrs. Caesar E. Toro of Leesville and Mr. and Mrs. L. W. House of Morton. The couple will make their home in Germany where he is presently serving with the U.S. Army.

four per cent from last year. Milk cow numbers at 350,000 is down three per cent.

The number of cattle on feed for January 1 was 2,205,000, down two per cent from last year's level.

Total inventory value of all cattle and calves on Texas farms and ranches as of January 1 totaled \$4.6 billion; this is 31 per cent higher than a year ago.

The 1973 calf crop in Texas is estimated at 5,900,000 head, 10 per cent above the previous level.

Nationwide, the number of cattle and calves is up five per cent from a year earlier. It's the highest on record and is the seventh year of consecutive increase.

The 1973 calf crop nationwide is estimated a record high of 49,000,000, up three per cent from a year ago.

Texas, Missouri, Nebraska and Oklahoma rank in that order in the size of the 1973 calf crop among the 50 states. These four states accounted for more than a fourth of the total calves born in the nation.

RECEIPTS of all livestock at auction markets inspected by the Texas Animal Health Commission totaled 9,400,000 head in 1973, compared to 9,100,000 head a year earlier.

Cattle and calf receipts were seven per cent above 1972. Sheep and lamb receipts were down eight per cent. Hogs were down 17 per cent. Goats were down 10 per cent from 1972 levels.

The 1973 outshipments of Texas cattle and calves shipped to other states totaled 3,700,000 head, down 10 per cent from the 1972 annual number.

Sheep and lamb outshipments totaled 602,000 head. This is up 23 per cent from a year earlier.

TROOPS SENT

On March 16, 1690, Louis XIV of France sent troops to Ireland to fight for James II of England.

About Local Folks

By Dutch Gipson

Visiting Sunday with their parents, Mr. and Mrs. O.D. Chesshir, were Mr. and Mrs. Donald Rhea Chesshir and son, Don, of Floydada.

Mrs. Myrtle Franklin and Miss Inez Cloud of Visalia and Exeter, California are in Morton visiting their sisters, Mrs. Willie Rose and Mrs. Ruth Watts, and other relatives.

Mrs. Minnie Childs and her children, Mr. and Mrs. Mike Nichols, returned Wednesday from a visit with her brother and wife, Mr. and Mrs. Willard Cox, in San Marcus.

Mrs. Owen Egger visited last week with her daughter and family in Midland, Mr. and Mrs. Leon Jeffcoat.

Mr. and Mrs. T.G. Gaddy of Portales are now citizens of Morton. They have purchased the Skinner Butler home on East Fillmore.

Mr. and Mrs. Aldon Mullinax returned home last week after spending several weeks fishing in Del Rio.

Mr. and Mrs. Charles McDermott

visited Saturday night and Sunday morning with their son and family, Mr. and Mrs. Mike McDermott, to celebrate his birthday.

Mrs. Bill Williamson of Vernon spent the first part of the week visiting in the home of Mrs. Tyle Williamson. Here she made preparations to return to Morton.

Mrs. Nora Scates has recovered from the back injury received when she fell. She is home from Cook Memorial Hospital and says she appreciated those who visited with her there.

Mr. and Mrs. Bobby Travis and family enjoyed as their house guests over the weekend his mother and father who live in Cisco.

Mr. and Mrs. Aldon Mullinax visited with their children, Mr. and Mrs. Garret of Hale Center over the weekend.

Jerry Schaeffer drove to Lamesa Wednesday morning and accompanied by Sandra, and young son home. She has been in Lamesa with her father since the death of her mother last week.

FREDDY FIXIT CAMPBELL & BAER

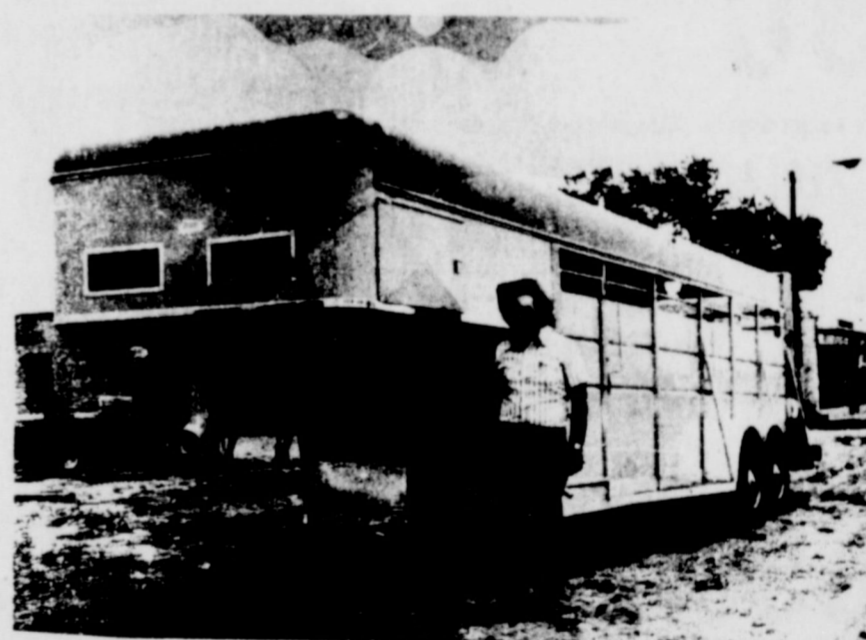

BICYCLE HANDLE BAR GRIPS ARE HANDY TO PLACE ON TOOLS THAT NEED A FIRM GRIP WHEN YOU ARE USING THEM. SCREW-DRIVERS, PRUNING SHEARS AND MANY OTHER TOOLS WILL TAKE THESE GRIPS. THE GRIP WILL BE EASY ON YOUR HAND AND WILL BE MUCH MORE EFFECTIVE IN USE. IT'S AN INEXPENSIVE WAY TO REALLY GET A GOOD GRIP ON YOUR WORK.

Make a Stand!

Trust each cotton seed and seedling to Terraclor Super-X soil fungicide

Protect your cotton from seedling disease—from seed rot, seedling root rot, pre- and post-emergence damping off. Terraclor Super-X controls the Rhizoctonia, Pythium and Fusarium fungi that so often ruin your stand.

Use Terraclor Super-X soil fungicide in-furrow or in hopper box. It's available in liquid, dust or granular form... or granular with systemic insecticide. See your chemical supplier, or write Agricultural Division Olin, P.O. Box 991, Little Rock, Arkansas 72203.

The rare bird in the business

The Consumer Alert

by John L. Hill
Attorney General

Every consumer has seen advertisements that say "regularly \$10, now only \$7.99" for the price of one. This is a deceptive method of price comparison, and an effective method of comparison advertising, the advertiser's current prices are compared with past or future prices offered by others in the market. This is misleading because price comparisons are made in making decisions, since they show what can be saved on a purchase during a special period. Merchants use price comparisons to advertise legitimate cost savings, though, may base their advertising on inflated prices, which is misleading.

Austin — Whoever said Americans quit reading with the advent of television overlooked the fact that thousands of books are delivered each day within the United States to members of book clubs.

There are general interest book clubs and clubs that cater to special interests in such fields as science fiction, witchcraft, cooking, gardening, the classics, mysteries, westerns, and handicrafts.

While the subjects offered by book clubs run the gamut, the methods by which they market their books generally fall into only a few categories. Two of the most common are the negative option and the continuity program.

Under the negative option plan, subscribers are sent notice of a book the club is readying for mailing. If the subscriber does not want the book, he must notify the club before a certain date or the book will be sent to him automatically.

The continuity program is a plan often used by publishers of encyclopedias or other reference books. This method of distribution involves mailing subscribers individual volumes of a set of books or other publications on an approval basis.

Book clubs often provide a valuable service for older persons, invalids, or people who simply prefer the convenience of selecting books for their home library by mail instead of shopping in a store.

But attorneys in my Consumer Protection Division say that a few book clubs have been known to attract new subscribers by tactics that might be misleading.

Recently the Federal Trade Commission has been investigating complaints against one of the publishers offering a continuity program subscription for sets of nature and history encyclopedias.

Subscribers to the program were led to believe that they would have the chance to review each book separately to decide whether or not they wanted it and to pay for only one volume at a time.

In fact, only the first few volumes had been sent individually while the rest were sent in a bulk shipment.

And, in addition, after subscribing to the program, members found that other obligations had been imposed upon them that they were unaware of when they joined.

Other complaints about negative option plans have led the FTC to issue a new trade regulation rule that will go into effect in early summer.

Many of the complaints were from subscribers who found that mail delays and computer errors resulted in their receiving books they didn't want or in being billed for books shipped after they had cancelled their subscription.

The new trade regulation on use of negative option plans by sellers in commerce says that book clubs employing this subscription methods must state plainly in promotional material all conditions of membership, including the following:

- Exactly how members must notify the club they do not want a selection
- Whether there is any obligation to purchase a minimum number of books
- That a member may cancel at any time.
- That members will have at least 10 days to mail notice of rejection of a book.

MARY DIDN'T HAVE ONE LAMB, but three lambs at school. Gina McClung is shown with two classmates bottling three baby lambs. She thought her first grade classmates would like to share her experience.

All of these obligations, plus the others set out by the new rule, should assure book club members that they will understand all the rules of the game when they join a club.

Consumers who have any questions about book club subscription programs should consult attorneys in my Consumer Protection Division, or call their local county or district attorney or Better Business Bureau.

Mrs. Lewis rites held in Lamesa

Funeral services for Mrs. Vera Dorothy Lewis of the Patricia Community near Lamesa, mother of Mrs. Jerry Schaeffer of Morton, were held at 2 p.m. Saturday in the Branon Funeral Home Chapel in Lamesa. The Rev. A. E. Burns, pastor of the Klondike Baptist Church officiated.

Burial was in the Lamesa Memorial Park under the direction of Branon Funeral Home.

Mrs. Lewis, 73, died around 5:30 p.m. Thursday in Lubbock's Methodist Hospital after a lengthy illness. She was a member of the Baptist Church and had lived at Patricia for 26 years. She was a native of Garden City.

Survivors include her husband, Ed; two daughters, Mrs. Verla Chaffin of Lubbock and Mrs. Schaeffer; two sisters, Mrs. Ann Brunson of Albuquerque, N.M., and Mrs. Lulu Sumrall of Fort Stockton; three brothers, Allen Holder of Rankin, Arthur Holder of Chino Springs, Calif., and Marion Holder of Lubbock; three grandchildren and one great-grandchild.

Convention resumes Executive branch scrutiny Friday

The Texas Constitutional Convention resumed consideration of the proposed article on the Executive Branch on Friday, reported State Representative Bill Clayton (D-S ringlake).

The Convention delegates had completed work on the major portion of the article before the tragic death of Convention Delegate Hawkins Menefee on Wednesday, after which the delegates recessed two days for memorial services.

Once finished with the article on the Executive, the Convention will begin consideration of the Finance section of the proposed constitution.

Representative Clayton reported that he felt debate on this article would be quite extensive.

Clayton also reported that the Convention's toll-free information number, 1-800-292-9600, not only is available to answer questions about the Constitution and the Convention, but also may be used by the citizens of the state to register their opinion on various issues before the Convention.

"For example," Rep. Clayton stated, "if someone in West Texas wants to express his opinion on putting the 'right-to-work' provision in the new constitution, all he or she has to do is to call the 'free' phone number and tell the operator of his or her opinion." The results of the phone-in survey are tabulated daily and weekly.

A fiber glass home in your future?

Easy disassembly for rearrangement or addition of rooms or for moving to another site are some advantages claimed by MHI, Inc., for its Poly-Pod building modules, measuring 12 feet high by 12 feet long, providing 100 square feet of floor space and weighing 800 pounds.

Each Poly-Pod consists of five sections — roof, floor, three walls molded of polyester reinforced with fiber glass and resting on a circular concrete support which houses piping and utility lines.

Western region cotton markets spiral downward

Spot cotton prices were lower in Western Region cotton markets this week, according to the Agricultural Marketing Service, USDA.

Supplies of cotton remaining in growers' hands were limited. Most growers continued to resist offering prices, although some small, end of season, lots traded. Most merchants were not aggressively seeking to purchase grower-owned stocks.

Some between merchant trading was done as shippers attempted to fill sales made earlier in the year. Domestic mill demand was weak and restricted to specific qualities for prompt or nearby delivery. Foreign mills appeared in no hurry to purchase at the present time.

Merchants and shippers in many locations continued to have problems

Robert Taylor attends school

Local United Fidelity Life Insurance representative Robert Taylor was in Baton Rouge last week attending the Dynamics Lab of the School of Insurance Marketing of Louisiana State University. Taylor is with the United Fidelity Life South Plains Agency in Lubbock and works with branch manager Floyd E. Kernes, CLU.

Purpose of the seminar, which began Monday and will conclude Friday, is to acquaint United Fidelity Life underwriters with innovative techniques in the sales and service of life insurance.

COMMUNICATION GAP

Among the problems facing the fledgling nation of Papua-New Guinea is the fact that its two and a half million people, many barely touched by civilization, speak some 700 different languages

meeting shipping dates because of warehouse congestion and lack of shipping space. Contracting of the 1974 crop was very slow, although growers were beginning to show interest at some locations. Asking prices, however, were generally above what buyers were willing to pay.

Planting was nearing completion in South Texas, and was slowly getting under way in California. Portions of Oklahoma, New Mexico, and the Texas Plains received badly needed moisture during the week. According to most reports, rainfall was spotty and did not come in sufficient amounts in most locations to assure adequate planting moisture.

Timely, mostly beneficial, rains fell over the Coastal Bend area of Texas toward the middle of the week. Elsewhere, growers were busy preparing land. Pre-planting irrigation was being done in many locations.

Prices quoted for selected qualities, 3.5 to 4.9 mike, in the six Western Region spot markets are as follows:

- Dallas, 50.25 this week; 51.25 last week; Strict Low Middling Light Spotted (42) Staple 31.
- Houston, 59.00 this week; 64.00 last week; Middling Light Spotted (32) Staple 34.
- Lubbock, 45.70 this week; 48.70 last week; Strict Low Middling (41) Staple 30.
- El Paso, 64.75 this week; 70.75 last week; Strict Low Middling (41) Staple 36.
- Fresno, 66.20 this week; 72.15 last week; Middling (31) Staple 35.
- Phoenix, 56.80 this week; 62.75 last week; Strict Low Middling (41) Staple 35.
