FIFTEEN CENTS

## Tribe nabs Friona title, tops Lobos

A HAPPY BUNCH of Morton Indians that with their individual and team trophies celebrating their defeat of Friona Saturday night that earned them the championship of the Friona tournament. The Tribe earned its way to the championship game by defeating Hart and Lubbock Estacado prior to taking on pre-tourney favorite Friona. The Indian record now stands at 10-0 following a win over Levelland Tuesday night.

## Next action Denver City Tournament

If there was a suspicion in the minds of some Morton Indian basketball watchers that the Tribe has been floating along this early season on this past reputation, they should have their fears dispelled by now.

The Indians showed hustle, talent and excellent team balance in owning a taller and more experienced Levelland team in Indian Gymnasium Tuesday night. Taking charge at the outset, the Tribe was in the lead all the way as they pulled out to a twelve point margin at 87-75 at the final bell.

The home towners were ahead by four at the end of the first period at 20-16 and saw two points of the lead erode by half time when they held the slim margin of 38-36. They increased their

## Clem Kuehler Promotion announced

The Pillsbury Company of Minneapolis, Minnesota has announced the employment of a new scientist, Clem Kuehler. He is the son of Mr. and Mrs. Louis Kuehler of Morton.

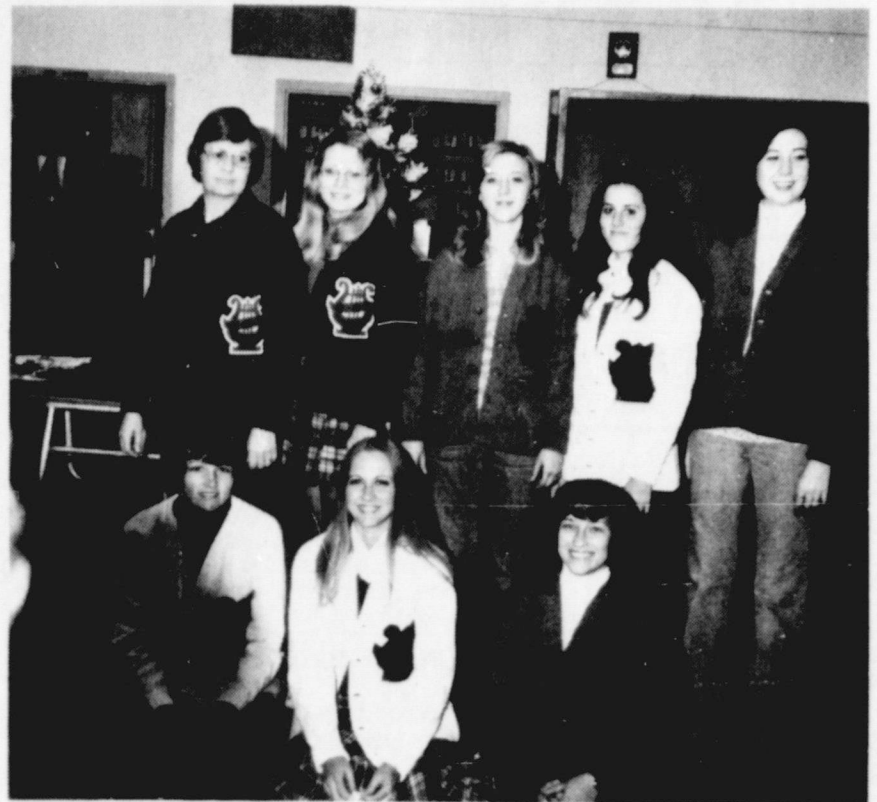

Kuehler is a graduate of Morton High School, Texas Tech University and received his PHD degree in Food Science from Michigan State University.

He is married to the former Lynn Freeland, daughter of Mr. and Mrs. W.G. Freeland of Morton. The couple have two sons, Vince, three, and Ted who is two weeks old.

## Christmas Greetings

The Emlea Smith Junior Study Club is taking names for the Christmas Greeting page in the Tribune.

Anyone who would like their name included may call Mrs. Sharon Hester at 266-5187 or Mrs. Sue St. Clair at 266-5303.

THE MHS CHOIR SENIORS received their letter sweaters last week and among the recipients was Mrs. Dexter Nebhut, left rear, who received her Choir Mother letter. Mrs. Nebhut is Secretary-Treasurer of the Band Boosters Club and has been an avid booster for 13 years. Seniors kneeling include: Pricilla Minor, Sabrina Wells and Malinda Webb. Standing, Mrs. Nebhut, Sue Watts, Evonna Vanstony, Robbie Sanders and Terri Nebhut.

## Plains cotton harvest said past halfway mark

The cotton harvest in the local area passed the half-way mark during the first week in December, according to C.R. Wharton, in charge of the USDA's Cotton Classing Office in Levelland. "We were at the half way mark during the first week of December last year, too," he added.

The USDA's Agricultural Marketing Service reported 22,000 samples were classed at the Levelland office during the week ending Friday, December 6. This brought the total classed for the season to 37,000. At this time last year 103,000 samples had been classed, Wharton said.

Grades 41 and 51 were the predominant grades at Levelland. Grade 41 made up 36 percent, while grade 51 accounted for 31 percent. Fourteen percent of these samples were reduced one grade because of bark. Twenty-seven percent had a staple length of 31 and 30 percent stapled 32.

## SPC prepares for vocational nursing class

A new class in vocational nursing is now being organized for the spring semester at South Plains College.

Students planning to enroll in the class are required to take an aptitude exam which is given on the first and third Monday of each month. The next exam will be at 12:45 p.m. Monday, December 16, in the guidance and counseling office at SPC. There is a test fee of \$1.

Prospective students should be between the ages of 18 and 50 and should have either a high school diploma or a GED certificate, said Mrs. Barbara Bennett, assistant coordinator of the vocational nursing program at SPC. Mrs. Helen Brown is coordinator.

Students also will need to have a physical exam and a personal interview with either Mrs. Brown or Mrs. Bennett, Mrs. Bennett said.

The one-year vocational nursing program is divided into 27 weeks of classroom instruction and 23 weeks of training in an area hospital, Mrs. Bennett noted. Upon completion of the program, the student will have to pass a state board exam in order to be qualified as a licensed vocational nurse.

Standmire, Silhan named

## Two Indians on honor lists

Standmire and Silhan are in for this year's All-District 3-AA All-District and the Avalanche named its choices of

the Class AA All-South Plains team.

Morton placed one player on each of the teams, with Kenneth

## Thompson meets with highway commission

Cochran county Judge Glenn Thompson represented the county in a meeting with the Texas Highway Commission Monday.

Judge Thompson was the lone Cochran county representative in a large West Texas delegation that appeared before the commission to urge completion of a four lane divided highway between Lubbock and Dallas, extension of Interstate 27 across Lubbock and the extension of a four lane highway from Lubbock to the New Mexico border.

The Judge's presentation was in support of the last of the three recommendations. He outlined the vast benefits that could be derived from the improved transportation route into New Mexico by business, industry and agriculture alike.

He was advised by those in high authority that this project is

## New cotton service begins

The USDA's Cotton Classing Office at Lubbock announced a 24 hour Cotton Reporting Service, starting on Monday, December 9. Interested persons may dial 806-763-7870 for the latest cotton market prices and classing report day or night.

A similar report has been available at the Fresno, California Classing Office. Numerous calls are received daily at Fresno and reports indicate the service is successful.

Paul R. Dickson, in charge of the Lubbock office, invited persons interested in this service to inform him of their needs, as "we want this service to reflect the needs of the public."

Standmire making the All-South Plains roster as a defensive back and Larry Silhan being a unanimous choice to the All-District 3-AA team as an offensive lineman. Silhan was also listed as an honorable mention on the All-South Plains team.

Regional contenders from the Olton Mustangs dominated both of the dream teams, with Mustang fullback Joe Alcorta, running back Glen Johnson, and offensive lineman J.D. Caudle being named to the All-District offense.

Mustang linebacker Glen Johnson and defensive lineman Greg Gregory shared the All-District defensive list with Wildcat Turner and Hopping and outstanding gridgers from Dimmitt and Friona.

Other unanimous coaches' choices for the All-District team include running back Robert Mayberry of Dimmitt, Friona's

BRIGHTER THAN THEY APPEAR — After all, no one looks brighter and chipper at the time of the morning than this photo was taken. Caught with their yawns showing at 6 a.m. Wednesday were the newest selectees to the Morton High School chapter of the National Honor Society as they underwent their initiation at a breakfast in the Eugene Vanstony

home. They include, sitting, Diane Ford, Gay Waters, Earlene Evans, Sondra Click and Julie Brown. Kneeling, Mary Jo Hudson, Diana Kuehler, Cheryl McClung and Leo Rice. Standing, Sherrill Taylor, Chip Sayers, Kenneth Egger, Malcolm Coleman, Donna Cox, John Hodges, Max Wynn and Mrs. Bill Johnson, sponsor.

## Post mortons

By Bill Sayers

Well, you can't expect to all your days in peace and quiet — we all have to deal a little now and then — looks like again we will go down to Austin and sit with that drafty old Gregory and bear witness as they teach the rest of the Class AA basketball players.

As we have the prospect of Gregory, we were pretty much reached for the phone after the Levelland game Tuesday to our reservations at the Agri in Austin.

As we are still on the basketball, we would to express strong sentiment of the attitude and of the Lubbock Estacado team, which we are in a fit of peak upon to the Indians here last did their best to wreck in general and carried off that was not nailed to the gymnasium.

As was had enough, but they had mayhem to our boys they invade their territory game in east Lubbock December 17. We understand that the Indians beat them again Friona tournament that frustrated their threat for December 17.

As loud and clear — who them or their type of? Why not cancel it? We already beaten them twice, why not forget them — and to include them on next schedule?

As old Bavarian friend, Von Vienerchnitsel, we Germans say that our have no business other the three K's — kinder, Kueche — In POST Page 4

A defensive ditch about eight feet deep and encircling about 50 acres of the Roman town at Brampton, in Norfolk, England, has been discovered by archaeologists. — CNS

## New president, directors elected at TFB convention

Voting delegates of the Texas Farm Bureau elected a new president and two new directors at the organization's 41st annual convention held in Dallas recently. They also approved TFB policies for 1975 and recommendations to the American Farm Bureau Federation on national issues.

Some 1,074 voting delegates — a record number — from 170 counties participated in the deliberations. Total registration and the convention was nearly 1,500.

Elected as president of the 166,126-member organization was Carrol G. Chaloupka of Dalhart. The new directors are Doug James, Lubbock, District 2, and Jack Osborne of Pampa who was selected to replace Chaloupka as director for District 1.

Immediately following the convention, the new TFB Board of Directors met to elect a vice president and secretary-treasurer from among their own number. Bill Reid of Lamesa was elected vice president, and W. Reed Lang of Rio Hondo was named secretary-treasurer.

Chaloupka succeeds J.T. (Red) Woodson of Gober who has been president four years. Chaloupka was first elected to the TFB Board of Directors in 1969 and following year was named secretary-treasurer. In 1972, he was elevated to the vice presidency.

A native of Yale, Iowa, Chaloupka is a graduate of Yale High School and the American Institute of Business in Des Moines.

He farms and ranches some 10,000 acres near Dalhart raising wheat, grain sorghum and

livestock. He served three years as president of the Dallam County Farm Bureau.

Chaloupka is a member of Central United Methodist Church in Dalhart. He is also a Scott Rite Mason and Shriner. He has a wife, the former Doris Peters of Dawson, Ia., has a daughter, Mrs. Sam Perry Dallas, and a son, Steven who is a student at Texas Tech University at Lubbock.

James is 31 and is a native of Lubbock and a graduate of Texas Tech University with a BS degree in animal husbandry. He has been farming since 1958 and produces cotton and sorghum on about 2,700 acres, serves on the county Agriculture committee.

The new TFB director is married to the former Lina Luber of Lubbock and they have two children.

Osborne, who is 49, was born on the place he now farms in Pampa. He has farmed continuously since finishing school except for two years in the navy. Osborne farms 2,400 acres producing milk, wheat and livestock. He is married to the former Nell Northcutt from Texas and they have two children, Scott, 25; and Jan, 24.

Reid was elected to the Board in 1969 and chosen secretary-treasurer in 1972. He has held that position until this year. He has been a cotton and wheat producer since 1953. He is married to the former A. Barron of Lamesa and they have three sons and a daughter.

Lang was elected a director in 1972. He farms 550 acres in cotton, grain, citrus and avocados. In addition he operates his own packing shipping facility for gift packages. Lang is married to the former Violet Norman of Hondo. They have a son and a daughter.

### Morton JV, Bula take Whiteface tourney honors

Morton's junior varsity and Bula raced to team championships in the Whiteface Invitational basketball tournament that ended Saturday.

Morton whipped Bledsoe 73-67 in the boy's championship and Bula zipped past Sundown 62-45 for the girl's crown.

Rusty Lamar paced Morton's JV with 21 points and Gary Young's 18 topped runner-up Bledsoe.

In the third-place contest, Sundown, behind Mike Waygood's 23 points, beat Whiteface 63-41. Leslie Bills had 20 for Whiteface.

Bovina won the consolation championship by defeating Bula 52-29. Elbert Shelby hit 20 for Bovina while James Snitker paced Bula with 10.

Lisa Risinger's 33-point performance took Bula to the girl's championship over Sundown by 62-45. Suzanne Hogue

had 20 for the losers.

In the consolation title game, Whiteface nipped Three Way 47-45. Tonie Smith paced Whiteface with 23 points and Debbie Ferguson led Three Way with 26.

In the girl's third-place battle, the Whiteface junior varsity slipped past Lazbuddie 38-37. Kathy Fells had 24 for Whiteface and Judy Hicks' 21 topped Lazbuddie.

Boy's all-tournament selections included Bledsoe's Terry Rawls, Morton's Ricky Lewis, Whiteface's Leslie Bills, Sundown's Mike Waygood and Three Way's Richard Sowder.

Bula dominated the girl's elite team with Lisa Risinger joining Barbara Nance of Sundown and Three Way's Debbie Ferguson at forward while Bula's Suzan Layton and Rhealyn Casey were honored as guards along with Whiteface's Pam Henry.

effective game, contributing 19 points and 14 big rebounds. He shot over 50 percent, with 7 of 12 field goals and five of ten free throws, before bowing out via the foul route in the last minute of the contest.

Ray Thompson was next in line in the scoring department with 6 of 11 field shots for 12 points and chipping in three rebounds and three steals.

Sam Johnson bucketed 4 of 6 field shots and 3 of 4 charity shots for a total of 11. He also intercepted 10 rebounds and pulled off three steals.

All nine squadsman saw action, with all but J.P. Cornish putting in substantial time — and gaining substantial experience.

The Tribe had earlier demonstrated considerable poise and polish as they moved easily up the winners bracket of the Friona Tournament and capped off their earlier performance by topping the pre-tourney favorite Friona Chiefs for the championship.

The Chiefs are rated ahead of the Indians as No. 1 in District 3-AA, with Morton forecast in the second slot. The ease with which they handled the Chiefs Saturday night would indicate that their positions should perhaps be reversed.

Mike Williams turned in a stellar performance with a team high of 16 points, 14 rebounds and five steals. Sam Johnson was his closest competitor with 4 of 7 field goals and 3 of 6 charity shots for an 11 point total. They were the only Indians in double figures.

The Indians earned the right to meet the Chiefs for the championship by rolling over the

inept Class A Hart Longhorns by the tune of 95-34 in a Thursday afternoon game and downing the Lubbock Estacado Matadors 83-66 in a Friday afternoon game.

While the Varsity team was competing at Friona, the Junior Varsity was doing their own thing by taking the championship in the Whiteface tournament.

The next action for the Indians will come in the Denver City Tournament scheduled for Friday and Saturday, December 13-14.

Morton will lead off in the tournament as they tip off against Jal, Nw Mexico at 12 noon Friday. Other teams entered in the tourney include Brownfield, Eunice, New Mexico, Kermit, Coahoma, Denver City and Monahans.

### POST

FROM PAGE ONE

American that's children, church and cookery. Could be, that solid piece philosophy could apply right you know where. —

Barry (Goldwater) stated in the paper yesterday that while he would forgive his opponent of 1964 (Rockefeller) for past actions that he would vote against his conformation as vice-president on the grounds that he had used his personal fortune to further his political career.

Really, Goldwater, how black can the pot be and still call the kettle black? —

Do you sometimes feel as if you were on a financial merry-go-round as you pay out your hard-earned cash in taxes to the point where you can hardly afford the already high prices for consumer goods and services, watch those taxes being spent by the government on a food stamp program — and then see the coal miners line up at the free food stamp window to finance them so they can demand ever higher wages and benefits — which the mine operators have to meet because they know the miners can stay out forever with food stamps and other government benefits to rely on — So the operators settle quickly, knowing that they can raise their prices and pass it on back to — you guessed it — the taxpayer who started the whole thing in the first place by conscientiously paying his taxes. It's not only confusing, but it hurts a lot too.

### INDIANS

FROM PAGE ONE

end Dale Clevelland, linemen Larry Silhan of Morton, Roy Don Rector and Kenny Stowers of Friona and Dimmitt's kicker, Ricky Wright on the offensive team.

Mayberry was also named to the defense as safety along with Friona's linebacker Davy Carthel.

Besides nabbing the majority of the post-season All-South Plains honors, Mustang coach Ed Miller was named Coach of the year and Mustang offensive and defensive All-Districter and two-way All-South Plains choice Glen Johnson was touted Player of the year.

Besides Olton's Johnson, Dimmitt's running and defensive back Robert Mayberry got tabbed for two-way choices on the All-South Plains squad.

Johnson rushed 6.2 yards on his 236 attempts for 1,483 yards, ran up 16 touchdowns, caught two passes for 18 yards, snared three out of three aerial for 78 yards and another TD.

On defense, Johnson averaged 15.3 tackles a game from his linebacker berth and intercepted two passes.

Olton offensive guard Caudle was named to the All-South Plains offense, and the Littlefield Wildcat's Rick Hopping grappled one of the All-South Plains defensive linemen posts and Cat Bill Turner was named punter on the defensive team and honorable mention running back on the offense.

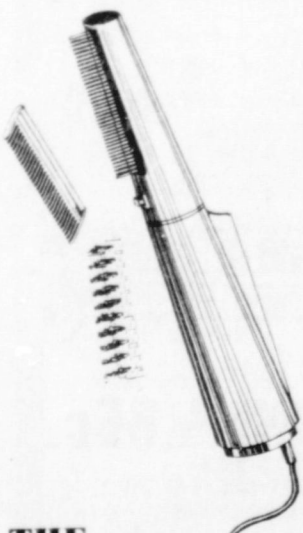

### TRIBE

FROM PAGE ONE

momentum in the third stanza, with a 62-56 lead and gradually pulled ahead to the final 87-75 score.

Though displaying their cool for the greater part of the game, the Tribesmen did display some ragged edges at times, and showed the effects of the hard press the Lobos applied throughout the game. Coach

A weekly public service feature from the Texas State Department of Health

## Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Cancer of the cervix is one of the easiest forms of cancer to cure — if found early — and the Texas State Department of Health is going all-out to detect cancer in two big regions of the state.

Armed with a three-year, \$732,787 grant, a screening program is being launched among the young and older low-income women for cancer of the uterine cervix in East Texas and far West Texas. The grant from Health, Education and Welfare's National Cancer Institute will provide for 24,000 screenings in the six-county Region 3, headquartered in El Paso, and the 35-county Region 7, with headquarters in Tyler.

The Texas grant is part of a \$10 million study being undertaken by 12 health departments.

About 60,000 American women will develop cancer of the cervix, the narrow lower portion of the uterus, or womb. An estimated 7,800 women will die from the disease.

In Texas last year cancer kept its place as the number two cause of death behind heart disease. Total cancer deaths totalled 17,546, according to the State Health Department's Bureau of Vital Statistics. Cancer of the cervix accounted for 379 of those deaths.

Dr. Philip W. Mallory, deputy commissioner for Health Maintenance of the State Health Department said "The number of uterine cancer deaths doesn't indicate the amount of needless suffering brought on because the disease isn't detected early or is neglected."

"The important thing in this disease is to detect it early because it is curable. The cure rate with early detection is probably as high as 95 percent," said Dr. Mallory.

A simple Pap test can detect cervical cancer while the disease is still localized. The test results may also indicate need for additional tests for more advanced forms of cervical cancer.

"With combined efforts everyone, we have the capability not only to educate but to detect cancer early and to get treatment and proper follow-up," said Dr. Mallory.

### COTTON

FROM PAGE ONE

Eighteen percent of all cotton tested at Levelland micronaire readings in the premium range of 3.5 to 4.9 accounted for the other 82 percent.

The Pressley Strength averaged 83,000 pounds square inch.

Prices quoted by the Levelland Cotton Exchange for the predominant qualities in the 4.9 premium micronaire range were: Grade 41, staple 31 - 35.15 cents per pound, and staple 35.15. Grade 51, staple 31 - 35 and staple 32-32.60 cents pound.

Prices paid to farmers their cottonseed ranged from \$130 to \$135 per ton.

### MEETS

being looked upon with favor and urged by them to keep up the work in advocating it.

Judge Thompson's son, Mexico State Senator Thompson, is strongly advocating to his state high commission that extension TSH16 into New Mexico to link with the proposed Interstate which would run from Cameron, Texas to Las Cruces, New Mexico would be of great benefit to his state.

Senator Thompson also reports a favorable atmosphere for his project in his state.

"THE FULL LINE CONVIENCE STORE"

STRETCH YOUR FOOD STAMP DOLLARS AT  
**MARINA'S MINI-MART**  
219 N. MAIN AVE. OPEN 7 DAYS A WEEK  
THE FULL LINE CONVENIENCE STORE

**SPC STUDENT FROM MORTON MAKES IT ON HIS OWN** — Charlie Marina, 20, recently opened his own grocery store in Morton, Marina's Mini Mart. Charlie attended South Plains College, taking mid-management courses in preparation for his business venture. This week he is celebrating his first anniversary in the grocery business in Morton.

## College classes big help to local grocery operator

Charlie Marina literally started at the bottom—mopping floors a few years ago. Today, however, he is enjoying a position many other 20-year olds might envy.

Charlie is owner of his own grocery store, Marina's Mini Mart, in Morton.

Charlie had worked in grocery stores for nearly four years as a teenager, "mopping floors, carrying out groceries, just about everything," he said. In addition to his job, he also was attending Morton High School, where he graduated in 1972. The next semester he began taking mid-management courses at South Plains College.

"The classes were real helpful," he noted. "I couldn't have gotten as far and as fast as I did without the mid-management training," Charlie added. "They (the instructors) get right to the point. They really help you to learn how to reason things out for yourself," he said.

The ambitious young man decided to put his mid-management training to practice and, with advice from his father, Simon Marina, some interim financing and a loan from the Small Business Administration, he was in business. "We started out doing real well," Charlie said of the store opening 10 months ago. He and his wife Debra have a three-year-old son, Tony. They

reside at 406 SW First in Morton.

There are five store employees in addition to Charlie who man the cash register, work in the meat market, do the stocking and the various other tasks that keep a grocery store running smoothly.

Charlie found that some customers were taken aback at first by his youth. "It takes a little time to adjust to," Charlie admitted. But most store customers now have fully accepted him in his management position.

Charlie had to make an adjustment himself. "It was hard to give orders at first and make them stick," he recalled. "You have to get these things done, so you shouldn't let anything get in the way."

## Feed supplies, prices seen remaining critical

"Feed supplies and prices will remain the critical concerns of the livestock industry in the coming months," says Dr. Ed Uvacek, livestock marketing specialist for the Texas Agricultural Extension Service.

Reduced grain and soybean production has resulted in rising feed prices and cutbacks in livestock feeding, points out the Texas A&M University System

## Local firm sponsoring national rodeo finals

Hesston Corporation, Hesston, Kansas, and the local Hesston dealer, Woolam Implement Company, 205 E. Washington, Morton, are co-sponsoring the first live telecast of the National Finals Rodeo final night performance in Oklahoma City.

Two hours of the final night, Saturday, December 14, will be telecast from 8 p.m. to 10 p.m. (CST), over a special Hesston TV Network.

Rex Allen and Mel Lambert will provide the commentary for this sometimes called the "World Series of Rodeo."

The season's top 15 money winners in each men's event are eligible to participate.

The number one ranked all-around cowboy with nearly \$62,000, Tom Ferguson, is entered in the calf roping and steer wrestling events.

Larry Mahanis ranked fifth in the all-around standings and is entered in the bareback competition.

Other events include saddle bronc riding, bull riding, and team roping.

The Hesston TV Network was especially created by Hesston and Associated Advertising Agency, Inc., Wichita, Kansas, and is being telecast under exclusive rights granted by the Rodeo Cowboys Association, Inc.

## TSTA to ask Legislature for huge education fund

The Texas State Teachers Association will ask the Texas Legislature for a salary schedule which next year (1975-76) would put Texas teachers \$595 above the national average paid teachers in all states.

Salary is only part of a major measure proposed by TSTA, according to Mrs. Carolyn Harrell of Gonzales, chairman of the TSTA Legislative Committee.

The total bill — estimated unofficially to cost \$2 billion for the next biennium — would revise the school finance system, reduce class sizes, provide state-funded compensatory education for the educationally disadvantaged, continue the special education program for the physically and mentally handicapped, provide increased funds for poorer districts, and allocate more state aid for school transportation for maintenance and operation.

Cost of the salary portion of 1 the bill was unofficially pegged at from \$800 million to \$1 billion. Official cost estimates will be made by the Texas Education Agency.

"This basically is a bill to improve education, not just teacher salaries," Mrs. Harrell said.

The TSTA plan for revising school finance includes basing the local fund assignment of costs on market value of property, as Atty. Gen. John Hill ruled recently must be done. This is the plan for which TSTA fought

unsuccessfully in the 1973 legislative session.

The 1973 TSTA proposal was developed after long study, Mrs. Harrell pointed out. Since that session, the TSTA committee has worked continuously to revise the proposal to meet current needs.

The 152,000-member teacher group — second largest in the nation — also will support Governor Dolph Briscoe's planned request for emergency funds to aid school operations and to assist inflation-hit retired teachers.

TSTA pushed hard for a special session to meet these needs prior to the 1975 regular session.

Meeting in Austin recently, the TSTA committee voted to seek an \$8,200 starting salary for teachers. Effective just this year, beginning pay for a teacher with a bachelor's degree is \$6,600. Last year it was only \$6,000.

Texas last year ranked 37th among the states in teacher salaries, \$1,706 below the national average. Estimates for 1974-75 have not yet been made.

After 12 years of teaching, the proposed schedule would put a Texas teacher with a bachelor's degree at \$15,910.

A key part of the proposal is a cost-of-living adjustment

expected next year.

"There has been a decrease in the slaughter of grai-fed cattle this fall, while the slaughter of non-fed cattle and calves have increased substantially," points out the specialist. "Fed cattle prices should increase during the first half of 1975 as the market for cows and non-fed steers and heifers decreases."

Although feeder cattle supplies will continue large into next year, prices should improve over this fall, believes Uvacek. Feeder prices are expected to show some strength as the spring season approaches.

"Slaughter lamb prices may average above those of last year due to a drop in slaughter, but rising feed costs will keep the price of feeder lambs down," says the specialist. "Lamb prices early next year will continue under pressure."

## Morton students attend SPASC meet in Levelland

Thirteen students from Morton were among the 355 participants in the annual District V Convention of the South Plains Association of Student Councils conducted Wednesday, December 4 on the campus of South Plains College.

The convention featured an address by Rev. Leon Hill of Amarillo, small group sessions where student council problems were discussed, business meetings, and a political rally.

Attending from Morton were Vicki Hall, Mary Jo Hudson, Robbie Gattis and Diana Kuehler, delegates; and members Schelle Key, Wyn Crone, Joel Coffman, Vicki Simpson, Gay Waters, Vicki Cooper, Sherita Fluitt, Tommy McClintock and Greg Bell.

In the election of officers for the coming year, Plains High School won the presidency; Freshman the Vice-Presidency; Morton High School was elected Secretary and Littlefield High School won the seat of Parliamentarian.

each year, beginning in 1976, to keep teachers abreast of inflation. The projected salary ranking assumes that those local school districts which enrich the minimum salaries will continue to do so at their present rate.

"This is not as high as the salary requests presented to us recently by some teacher groups," Mrs. Harrell said, "but it does fulfill the request made by our House of Delegates. We have tried to balance education needs with state resources."

## December wedding plans announced

Mr. and Mrs. Jimmy Ellis of Amarillo have announced the engagement of their daughter, Melanie Gail Ellis, to Corky Long of Amarillo, grandson of Mr. and Mrs. C.B. Hightower of Levelland, formerly of Morton.

Miss Ellis is employed by Colbert's. She is a Symphony Belle and a member of the Junior Quarter Horse Association. Long is an employee of Luskey's Western Wear in Amarillo.

A December 27 wedding in the Amarillo Polk Street United Methodist Church Chapel is being planned.

## "IGNORANCE IS CRAZY."

"I've never had cancer. But I'd be crazy to ignore it. I know many cancers can be cured if they're detected early. But you've got to know the warning signals: Change in bowel or bladder habits. A sore that does not heal. Unusual bleeding or discharge. Thickening or lump in breast or elsewhere. Indigestion or difficulty in swallowing. Obvious change in wart or mole. Nagging cough or hoarseness.

"If one of them appears, see your doctor right away. The odds are you don't have cancer. But only your doctor can tell you that for sure."

John C. White, Commissioner

Mrs. John Gunter presented her pupils in a recital Saturday afternoon at the United Methodist Church in Enochs.

Mr. and Mrs. Kenneth Fox and children from Clovis, N.M., visited her parents, the H.W. Garvins, Saturday afternoon.

Mr. and Mrs. Andy Vinson from Clovis, N.M. and Mr. and Mrs. Wayne Crow, spent the weekend with their parents, Mr. and Mrs. Dutch Powell.

Mr. and Mrs. Glenn Bankston and boys from Midland spent the weekend with her parents, the W.H. Eubanks.

Mrs. Rayford Masten and Mrs. Beadie Powell were in Lubbock Wednesday to visit Mrs. Masten's mother, Mrs. Vera Roberts, who has been a patient in University Hospital in Lubbock for several weeks. Mrs. Roberts was moved back to a rest home Saturday.

Mr. and Mrs. D.S. Fowler

visited the E.G. Freds and the John Gunters Sunday afternoon.

Mr. and Mrs. George Tyson visited their daughter and family, the D.A. Williams, in Enochs Sunday.

Mr. and Mrs. J.L. Toliver from Haskell spent the weekend visiting the T.D. Davis family. Mrs. Toliver is Mr. Davis' sister.

Mr. and Mrs. H.W. Garvin attended church with their daughter, the James Gillette family in Lubbock, Sunday.

Mr. and Mrs. Rayford Masten spent Friday night in Levelland with their daughter, the Lamar Pollards. Their grandsons spent Saturday with their grandparents at Maple and their parents spent Saturday night in the Rayford Masten home.

Mr. and Mrs. Bobby Adams from Morton visited in the P.L. Fort and Bonnie Long home Sunday afternoon.

**It's That Time Again... From Huge to Just Modest... Feed Grain Supplies Continue to Decline... A Meeting in December.**

IT'S TIME for the annual count-down on the farm about crops and livestock in Texas. About 75,000 Texas farmers and ranchers are receiving now the annual crop and livestock questionnaire from the

Mrs. Charlie Locke was a medical patient in a Littlefield hospital last week.

Marvin Long from Canyon visited his parents over the weekend.

Most of the cotton and grain in the community has been gathered.

Mrs. Bill Key and Bonnie Long attended the Golden Wedding reception in Muleshoe Saturday honoring Mr. and Mrs. Claud Coffman.

Texas Crop and Livestock Reporting Service. This report is important. Therefore, it is important that these questionnaires be filled out as accurately as possible and returned as quickly as possible.

The estimates will be used in establishing a complete picture of Texas agriculture. It's as important for the producer as it is for the consumer.

The figures are also used in determining county by county agricultural statistics. Incidentally, the 1973 county-by-county farm statistics are now available for Texas.

Agricultural producers in Texas lead the nation in cooperation in type of crop and livestock questionnaire response. These questionnaires now being mailed out should not be confused with the 1974 census of agriculture to be taken by mail early in 1975.

REMEMBER the predictions earlier this year of a "huge" crop of wheat for 1973 and 1974? Well, now that the figures are in

and now that Mother Nature has done her thing, the wheat crop is still a record — but of only modest proportions.

Fact is, the current production estimate for the nation is now just four per cent above last year's record crop; this is well below expectations. In Texas, the latest wheat estimate is 52,800,000 bushels. This is just about half of what the state's wheat farmers produced in the previous year.

Despite the record harvest throughout the nation, total wheat supplies will be six per cent less than a year ago.

As for prices, producers are being told that they can expect strong prices for the balance of the 1974-75 crop year.

FEED GRAIN supplies, a big item for Texas livestock producers as well as a crop which provides a good amount of income for the state's agriculture economy, are down more than 20 per cent from last year.

Texas is the nation's leading state in grain sorghum production as well as cotton. If present indications are followed through, there will be a big expansion in sorghum acres in Texas during 1975.

This increase is brought about by declining prospects for cotton next year. As much as a 40 per

cent reduction in cotton acreage is seen for Central Texas in 1975.

Meanwhile, the 1974 crop of feed grains — corn, sorghum, oats and barley — now estimated at only 165 million tons. Old crop carryover is 188 million tons in the United States. Corn production is 18 per cent below last year. The grain sorghum crop, estimated nationwide in million bushels, is down a third from a year ago.

All these facts point to a reason why feed prices for dairy and cattle feeders and poultry producers have risen sharply.

A MEETING to inaugurate a special Christmas program of meat, poultry, dairy products was held in early December. At that time complete plans for the program were announced. The program was to give meat, poultry and dairy products as gifts during the Holiday Season.

ROCKEFELLER GIFT. On Dec. 11, 1946, John D. Rockefeller Jr. announced that he had offered a six-block parcel of land along the East River for a United Nations headquarters. (The offer was accepted the next day.)

"Thou wilt show me the path of life: in thy presence is fulness of life..."  
PSALM 119

## HERE IS THE PATH

shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind, and thy neighbor as thyself.  
Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose, and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

## Water Inc. pressing local membership drive

Members in the 1974 Water, membership drive have been an intensive new campaign in Cochran County. The effort is a part of an overall membership drive and is swelling the regional association's membership by 1,200.

membership drive, "Action Today for Water Tomorrow," is more than an empty phrase," said Van Greene who heads up the campaign in the local area. "Although we in Water, Inc., are doing all that is possible to speed up implementation of the project to import water into the area, the fact remains that a long lead time is required and if we wait until our wells run dry, it could well be too late," he said.

Water, Inc., activities include work with state and federal agencies, coordination of efforts with other water organizations and public education. Its finances are derived entirely from membership dues. Its membership represents a cross-section of the area it serves (West Texas and Eastern New Mexico) and its activities are directed toward solving future water problems for the entire area.

Working with Greene in the local area are James St. Clair, Bud Thomas, Lloyd C. Miller, James Walker and D.E. (Gene) Benham.

## Crops parallel prices in decline from last year

NOT ONLY ARE prices paid to farmers down from last year but production in most major crops is also down. Production of corn, rice, sugar cane and sugar beets, and pecans is expected to be up over the not-so-good crops of 1973; but production of cotton, grain sorghum, peanuts, soybeans and sweet potatoes is not expected to be as good as in the good year of 1973, says the Texas Crop and Livestock Reporting Service. Dry conditions during the planting season plus a wet fall when low temperatures came early have caused the prediction of lesser yields in most major crops.

COTTON IS an example of what has happened with most major crops in Texas. The USDA estimated October 1 that 3,100,000 bales would be made in Texas this year, compared to 4,673,000 bales last year. And the October 1 estimate was 80,000 bales less than the previous monthly estimate and is still too high, according to some Texas estimates. Cool, wet weather set back cotton on the High Plains in September, and October's weather has not given it a chance

to recover. The yield this year is expected to be 310 pounds of lint an acre, compared to 431 pounds an acre in 1973; and the estimated 4,800,000 acres to be harvested are 400,000 fewer than last year, although more acres were expected to be and were planted last spring than were planted in 1973. Cotton picking is expected to pick up in West and North Texas now that frost is causing defoliation. September rains slowed harvest as well as cotton growth. In the Lower Rio Grande Valley, South Texas, and the Upper Gulf Coast, harvest is over and many farmers have plowed up stalks in preparation for the next crop. Cotton prices ranged from 38 cents a pound (on the Plains) to around 47 cents, although trading was slow. Cottonseed prices over Texas ranged from \$80.30 to \$99.90 a ton during the first part of October.

SORGHUMS, The Number 2 crop in Texas, have also suffered a decline in production. Now it is estimated that Texas will produce 295,000,000 bushels with harvest about 60 per cent complete, a rate of harvest

(equivalent to 4.4 pounds) a 200 grams of these (7 ounces), and a liter of milk (1.06 quarts).

These and other changes in our present, non-decimal system of units will ultimately have to take place, according to Department of Commerce analysts.

There is increasing pressure in this country, from the business, educational and scientific communities, to take the plunge. They propose a gradual conversion over a 10-year period.

As it stands now, more than 90 percent of the countries of the world now use the metric system. The United States is the only major industrial country that does not.

That fact puts us at a disadvantage as far as international trade is concerned, it is claimed.

Many oppose the change, however. They contend that conversion would cost many billions of dollars and would upset our economy for years to come.

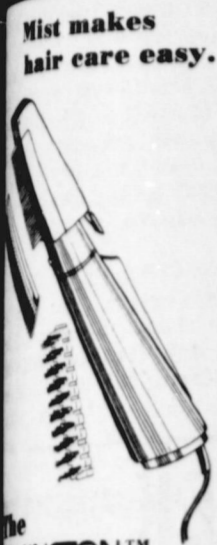

behind last year's. In 1973 sorghum production totaled 417,000,000 bushels off 6,950,000 acres. This year 5,900,000 acres are expected to be harvested... Texas is expected to produce almost 70,000,000 bushels of corn this year off 775,000 acres, compared to almost 61,000,000 bushels last year off 640,000 acres. This yield is expected to average 90 bushels an acre, compared to 95 bushels an acre in 1973. The corn harvest is about 70 per cent complete... Cutting of the second crop of rice is underway in most of the growing areas. Yields average around 4,500 pounds an acre, compared to 3,740 an acre in 1973; and Texas production this year is predicted at 25,335,000 hundredweights, compared to 20,530,000 cwt. last year.

WHILE THE 1974 harvest heads down the home stretch, planting of the next wheat crop is progressing. Texas Crop and Livestock Reporting Service estimated that wheat seeding was 78 per cent complete by October 15, rate slower than last year due to rain. Early stands are good, and moisture is reported enough to send the new crop into winter in good condition. Some Low and High Plains cowmen have had some grazing on wheat... Oat planting is also about three-fourths complete, and some grazing of oats in the Blacklands and East Texas has been

available... Range conditions over the State are reported to be about 80 per cent of normal, West Texas and Panhandle areas not having fully recovered from the effects of dry weather. Rains in September and October, however, improved range conditions all over the State.

19TH STATE  
On Dec. 11, 1816, Indiana became the 19th state to enter the Union.

## Metric system could be closer than countians think

What are the chances of the metric system coming to Cochran County?

What is the likelihood of the local area eventually turning away from the current units of weights and measures — inches, pounds, quarts and the like — and adopting such newer units as centimeters, meters, liters and grams?

The first concrete step toward that end has just been taken, nationally, with the enactment of a Federal bill authorizing the expenditure of \$40 million over the next four years to introduce the metric system to today's school children.

According to the National Education Association, many

schools across the country will now be pushing in earnest to make metrics part of their curriculum.

Cochran County children would be told, for instance, that because of the energy shortage the speed limit on highways has been reduced to 88 kilometers per hour, which is the same as 55 miles an hour.

They would also learn that their family car gets about 6 kilometers to the liter, instead of 14 miles or so to the gallon, and that the 2,250 passenger cars in their area consume an average of 2,720 liters of gas in the course of a year.

The Cochran County housewife, in shopping for food, will be buying 2 kilos of meat

## The Consumer Alert

by John L. Hill  
Attorney General

AUSTIN — Within the next few weeks, many of us will be asked to contribute to a charitable organization since various fundraising organizations concentrate their efforts in the period from now through Easter.

There are three ways people can help a charitable cause: by donating money, by donating services, or by donating the use of their name to advertising or fundraising drives.

Most of us are familiar with the appeals of well-known charitable organizations, and few of us question the value of the work they do.

The Attorney General's Consumer Protection Division has persons contacted by unfamiliar charitable organizations to check carefully before committing money, time, or the use of your name.

Attorneys suggest that you ask these questions before agreeing to support such a group: What are the organization's objectives? Do you believe they are realistic? Are they realistic? Are their fundraising campaigns charitable programs well-run?

Who heads the group and who are its central officers? Are the local officers or representatives? Are they fully committed to the organization and its aims? What services do the organization provide in your community? Are they effective? Is the group regarded by friends and associates? Has the organization met state or state regulations for charities soliciting funds? How does the charity solicit funds?

Some organizations use methods of fundraising that are questionable at best. Some send out goods through the mail, then later request — or demand — payment. Our attorneys remind consumers that state and federal laws say you don't have to pay for or return returned merchandise.

Another practice to be on guard against is misrepresentation of a group as employers or "disabled," "retired," "senior," or "student" workers when in reality only a few, if any, such workers are employed. If approached by a group with such an appeal, you should inquire what percentage of workers is employed, or what percentage of profits is paid to workers.

In recent years, some organizations have been raised by concerned citizens as to how the funds collected by their charities actually go to their stated goals and how much is spent on administrative

costs, salaries, and the cost of raising funds.

While low operating costs may tend to make a group seem efficient, it's important, say experts, to remember that many factors must be considered in evaluating such figures. The purpose of the charity, whether it employs professional fundraisers or depends on volunteers, costs of printing informational material, and whether the organization is an old, established one or a new one — all of these things affect operating costs.

Most of us are eager to support worthwhile organizations, but we want to be sure that our money or our time is being well spent.

The Better Business Bureau or Chamber of Commerce can provide both individuals and businesses with information on charities that may be conducting fundraising drives in local communities.

And the Attorney General's Consumer Protection Division can help you if you have a complaint against an organization or firm that has engaged in misleading or deceptive practices.

AUSTIN — The first norther to sweep into Texas this year brought with it a rash of consumer problems about antifreeze.

The Attorney General's Consumer Protection Division has received several complaints from individuals who have purchased and added "antifreeze" to their car radiators, only to discover that what they added didn't perform properly.

As most car owners know, antifreeze is added to water in a car radiator to lower the freezing point. Some types of antifreeze (known as coolants) are needed year-round in may late-model cars to protect not only from freezing, but from boilovers. Without antifreeze, the plain water in a car radiator can freeze when it reaches 32 degrees, cracking the car's block as it expands and necessitating a major — and very expensive — repair job.

The Attorney General's office is the legal representative of the Texas Department of Agriculture, the state agency charged with registering and testing the antifreeze offered for sale in this State.

Agriculture Department officials tell us that this is an unusual year for antifreeze, a petroleum by-product with a base usually of either ethylene glycol or methylene glycol. While antifreeze prices and suppliers generally are stable from year to year, many persons feel the country's current oil shortage will cause antifreeze to be in short supply. So increasing consumer demand has driven up the price of the product and many new manufacturers are entering the market to meet these demands.

Some of these new manufacturers are unaware that they must have their product tested by the Agriculture Department, pay an annual registration fee of \$20 and label their containers with ingredients of the mixture and a protection chart that gives the freezing points that can be obtained by using differing amounts of antifreeze.

Manufacturers who have registered antifreeze previously but who have altered their formula since the last registration must submit new samples for testing by the Department. Agriculture Department inspectors throughout the State periodically check to see that all antifreeze offered for sale meets these conditions.

The Attorney General's Consumer Protection staff has received reports of some out-of-state manufacturers who have misrepresented a combination of salt water and dyes as antifreeze. Such a mixture wouldn't freeze and crack a block, but it could perhaps do even more damage to a car by corroding vital parts.

While it is not yet known if this product is being marketed in Texas, our Consumer Protection attorneys and the Agriculture Department warn that businessmen, as well as individual consumers, should be wary of itinerant antifreeze salesmen.

Businessmen approached by such salesmen should check first with the Agriculture Department to determine if the product has been properly tested and registered.

**PARENTAL INVOLVEMENT** members are pictured at a meeting in the Morton Elementary School. Mrs. Connie Gray, Mrs. W.C. Benham, Mrs. Neal Rose and School principal, Harold Drennan, explained the migrant program to those attending.

A study group of the National Cotton Marketing Study Committee met December 4 in Memphis, Tennessee, and developed recommendations for improving cotton sampling, classification and standards.

The group's proposals will be submitted to the full committee prior to its next meeting in New Orleans, Louisiana, on January

6, 1975. A total of eight such study groups, established in line with the major problem areas identified by the industry and the U.S. Department of Agriculture, will make recommendations for consideration at the January 6 meeting.

Don Marble of South Plains, member of the Sampling,

Classification and Standards Study Group and President of Lubbock-based Plains Cotton Growers, Inc., reported after the Memphis meeting that this group would recommend:

1) That the integrity of the bale package be maintained by taking only one sample from each bale, and that this sample accompany the bale through the marketing system to its final destination;

2) That quality evaluation by whatever means be developed to the point that a single classification will be accepted by the industry without the necessity for multiple testing; and

3) That certain cotton quality standards be eliminated when the volume of such qualities falls below a predetermined insignificant level at all classing offices.

Realizing the long-range nature of the sampling recommendation, the group will also propose that any sampling done after the initial sample is taken be done hydraulically on the open or uncovered side of the bale.

In discussion of the proposal for a single classification, Marble said the group agreed that a revision of the present standard should be considered as a means to providing the simplest possible system that would indicate only those quality differences needed in cotton marketing and utilization.

At Marble's suggestion, the study group also discussed the possibility of having all bales classed both manually and by instrumentation, with both results put through a computer to determine if the two were equal or within a given tolerance. Such a system would call for reclassification any bale which did not fall within the allowable tolerance.

The other groups working under the Marketing Study Committee include those studying Functions and Operations of Spot Markets and Market News Services, Forward Crop Contracting, Seed Cotton Storage, Bale Packaging, Warehousing and Transportation, Export Marketing, and Labor, Health, Safety and Environment.

## Bookmobile schedule

The High Plains Bookmobile will be in your area on the following dates.

Tuesday, December 17, Morton, 9:30-11:45.

Wednesday, December 18, Circleback 9:00-9:45; Bula No. 1, 10:15-11:15; Bula No. 2, 12:00-12:45.

By Mrs. Dan Gerber

Preparing a baby's meals used to be a tedious, time-consuming task. Instead of selecting baby food from supermarket shelves—all ready to serve—you had to cook and strain solid foods. Today you can depend on commercially prepared baby foods made scientifically with special equipment, processes and quality control that cannot possibly be duplicated at home. To meet Gerber standards, each product must pass tests for purity, safety and wholesomeness.

What about seasoning ingredients in baby food, consumers often ask? Since research has found that infants do have a well-developed sense of taste, prepared baby foods do contain carefully controlled amounts of sugar and salt, amounts well below those found in similar adult foods.

Contrary to some popular writings, the water content of baby foods is carefully adjusted and controlled to provide the proper consistency for feeding and for easy assimilation. Water is used, too, to adjust caloric density, an important factor in controlling infant obesity.

Our attorneys also suggest that consumers purchase antifreeze from reputable dealers and check to see that the label contains required information about the formula of the contents and the protection that can be obtained. If it doesn't, call this to the attention of the store manager or owner.

It's a good idea to check the protection chart on the antifreeze label each time you buy it, too, since some companies have reduced the amount of the base in their product this past year, and more antifreeze will be needed to obtain the desired result.

Reports have also been received from other states of unconscionable actions regarding price gouging for antifreeze. Although prices for antifreeze generally are up in Texas due to increased demand, our attorneys have received no complaints about price gouging. Questions about any seemingly unreasonable prices for antifreeze should be directed to the Attorney General's Consumer Protection Division.

### LOSE UGLY FAT

Start losing weight today or money back. MONADEX is a tiny tablet and easy to take. MONADEX will help curb your desire for excess food. Eat less — weigh less. Contains no dangerous drugs and will not make you nervous. No strenuous exercise. Change your life... start today. MONADEX cost \$3.00 for a 20 day supply. Large economy size is \$5.00. ### Garden club presents show

The Whiteface Garden Club presented their "Mini-Holiday Parade" Flower Show Saturday, December 7 in the Whiteface Community Center. The Horticulture division had a total of 68 entries, resulting in 38 first, 16 second, and 4 third place awards.

The Artistic Division was compiled of 29 entries. They were 6 first, 5 second, 5 third and 2 honorable mention ribbons awarded. The Doorway Wreath, all dried; first place, Fredda Schooler; second place, Charlene Bentley, and third place Donnalita Schooler. Dining Table, first place, Fredda Schooler; second place, Faye Jennings; third place, Ruby Abney, and honorable mention, Cathy Davis. Television, first place, Mrs. Jerry Marks; second place, Fredda Schooler and third place Billie Burris. Mantle, first place, Mrs. Elmer Orr, second place, Wanda Stocks; and third place, Billie Burris. Wall Hangings, first place, Mrs. R.D. Hensley; Religious, all fresh flowers, third place, Mrs. E.E. Jennings. Fresh and Dried, first place, Billie Burris; second, Jean Bills; and honorable mention, Ruby Abney.

The Best of The Show Award was presented to Mrs. Van Schooler for a wreath consisting of pine cones and other beauties of nature.

The Award of Merit was presented to Mrs. E.E. Jennings for a large blooming Maternity plant in the Horticulture Division.

The Horticulture Sweepstake Award was presented to Mrs. S.J. Bills on winning 14 blue ribbons on potted plants.

Mrs. Murray Crone and Mrs. Don Samford of Morton judged the Flower Show.

### There's Nothing Like a Bike for Christmas But Be Sure You Purchase the Right One

So you're going to buy someone a bike for Christmas. So are more than a million other Americans according to the Bicycle Institute of America.

You're concerned about the bike you are going to buy. What kind, what size, how much? The models available from American manufacturers approach infinity. How to make a decision?

The first consideration should be what the bike is to be used for. And then, which member of the family is going to use it.

A young child can't use and shouldn't have the same bike as his father. There are many reasons for this. In the first place, the greatest cause of accidents among youngsters on a bike is improper fit of the bicycle.

Some parents buy bikes for the child to "grow into." They couldn't be more wrong. Feet slip off pedals. Dismounting is difficult. The child is not truly in command of his vehicle. Accidents.

Well, what is the proper size? The Bicycle Institute relies on information supplied by knowledgeable experts in both the fields of safety and proper bicycle usage. These authorities recommend that when the operator is straddling the bike with both stockings feet flat on the floor, there should be at least an inch of clearance between the crotch and the top tube of the bicycle.

This doesn't mean a new bike every year for youngsters. The seat and handlebars can be raised as the body grows. But it's important to start off right. This rule for frame size applies to every age group, starting with youngsters and up through senior members of the family.

To measure a girl for proper fit, have her wear slacks or shorts and measure her on a boy's bike. When you have determined the right size, simply get her that bicycle in a girl's model.

Probably the most frequently asked question by prospective purchasers has to do with price. One wonders how much he has to spend to get a "good bike."

A good bike can be defined as one that performs efficiently and meets high standards of structural integrity. In other words, it does well whatever you want it to do.

Prices vary widely from one category of bike to another and also within categories. Stripped-down models of some bikes can be bought as inexpensively as \$35.00. Custom-made, highly sophisticated detailer models can cost several hundreds of dollars.

There are bikes costing upwards of \$800. But only a highly sophisticated competitive cyclist or tourist who rides thousands of miles a year can really notice the tiny differences built into a bike with each step up in price.

It's best to start relatively low. If the cyclist really gets into the sport and uses his bike with great frequency, he'll know when it's time to move up in class. And he'll have a fairly good idea of exactly what he wants. Remember, parents! You started out on the old-fashioned "truck" bike with balloon tires, no gear shifts and heavy metal construction. You loved your first bike. And so will your children.

Grown-ups, who don't require that supreme ecstasy of finding something unexpected under the tree, should look at the bicycles themselves. If possible, they should test ride them. While ten-speeds are the biggest sellers today, many cyclists would prefer the simpler three-speeds. They are simpler to operate and, if the bike is to be used only sparingly, they are simpler to maintain. Let the giftee decide what he wants.

To be certain you get a bike manufactured to the highest standards, look for the BMA/6 seal under the seat post. Members of the Bicycle Manufacturers Association have developed a rigid code of manufacturing requirements which must be met before any models of their bicycles leave the factory.

### THE FAMILY LAWYER

#### "Follow That Car!"

Suppose a policeman jumps into the back seat of your automobile and shouts: "Follow that car!"

Are you obliged to obey? Generally speaking, you are indeed. Under the ancient "hue and cry" doctrines of the common law, an officer may commandeer any vehicle that he needs to catch a fleeing felon.

As Judge Benjamin Cardozo once put it: "The horse has yielded to the motorcar as an instrument of pursuit and flight. Still, as in the days of Edward I, the citizenry may be called upon to enforce justice, not faintly and with lagging steps but honestly and bravely and with whatever implements and facilities are at hand."

You may even be obliged to help in making the actual arrest (at least, say some states, if you are an "able-bodied male over 18 years of age"). To refuse, without good reason, could make you guilty of a misdemeanor.

On the other hand, in the event that you do lend a hand, the community owes you certain legal benefits in return.

For example: A man was called upon by the sheriff to help in arresting an armed fugitive. In the ensuing gunplay, he suffered a bullet wound in the shoulder.

He was therefore entitled, a court ruled afterward, to collect workmen's compensation—just like any county employee injured in the line of duty.

In another case, a clerk in a store helped a policeman make an arrest that turned out to be an error. In short order, the clerk found himself facing a damage suit for "false arrest."

But the court held him not liable. The court said making him pay damages for an innocent mistake, in no way his fault, would be shabby thanks from society to a good citizen.

## About Local Folks

By Dutch Gipson

Neal Rose is home from Methodist Hospital in Lubbock. He underwent major surgery about two weeks ago.

Mrs. Grace Wilson accompanied her nephew, Rev. Doyle Pruitt and family, from Levelland to San Angelo and spent Thanksgiving with her sister, Mrs. Alpha Harron. They returned home Friday.

Mr. and Mrs. Elmo Bush from Post visited over the weekend with her brother, the W.O. Fluitt family, and other relatives.

### Mrs. Benham reviews book

Mrs. D.E. Benham reviewed the book "Something More" by Cathrine Marshall Tuesday for members of the Elizabeth Greer Circle. The meeting was held in the home of Mrs. James Price.

Is God in everything was the underlying theme of the book and learning to praise God in all situations was stressed. "We know that Jesus is real and is with us and holds out to us Something More," Mrs. Benham stated in concluding her review.

Mrs. D.A. Ramsey read the Christmas Story from Luke 2:1-20.

The serving table and party rooms were decorated with handmade Christmas decorations.

Attending were Meses Owen Egger, Ramsey, W.W. Smith, Allie Reeves, J.N. Burnett, Benham, Bobby Adams and the hostess.

Mr. and Mrs. W.J. Collier have been in Tucson, Arizona visiting their son and family, Mr. and Mrs. Billy C. Collier, and other relatives.

New National Honor Society members are: Cheryl McClung, Kenneth Eggar, Max Wynn, Leo Rice, John Hodges, Chip Sayers, Malcolm Coleman, Julie Brown, Diane Ford, Diana Kuehler, Earlene Evans, Gay Waters, Sherrill Taylor, Donna Cox, Sandra Click and Mary Jo Hudson. They were inducted into the society early Wednesday morning at a breakfast in the Eugene Vanstory residence.

### Mrs. Campbell hosts meeting

The Enochs Home Demonstration Club met in the home of Mrs. Iva Campbell on December 10 for their Christmas Party and salad supper.

Mrs. Dorothy Nichols led in several games and Kevin Key and Michael Nichols acted as Santa for the occasion. Members revealed the names of their secret pals. Mrs. Wilma Petree led the group in singing Christmas Carols.

Those present were Meses Winnie Byars, Lillian Fort, Dorothy Nichols, Zelma Fred, Bonnie Long, Mr. and Mrs. Chester Petree, Mr. and Mrs. F.B. Key, Mr. and Mrs. E.F. Campbell, Kevin Key and Michael Nichols.

### QUEEN BORN
