## Grapes as major crop gets boost

**LEANSWEEP--**The Colt 45's of the Morton Little League proved they are real champions--first by leading up the regular season in first place--and then winning the four-game championship tournament to be officially named League Champions. The Colts were coached by Richard Houston, at left, rear row,

with assistance from Wilson Hodge, not pictured. Members of the team, in unknown order, include: Ronnie Patton, James Dent, Bart Simmacher, Ricky Houston, Keith Layton, Robert Sabala, Barry Hodge, Robert Marines, Bruce Crowley, Dwayne Dent, Glen Patton, Todd Zuber and Jerry Williams.

### WIN TITLE TOURNEY

## Colts Little League champs

Tuesday night the Colt 45's convinced everyone that they are the true champions of the Morton Little League with a 3-2 win over the Cards in the final game of the championships tournament.

The regular season standings left the Colts in first place followed by the Cards, Cubs, Pirates, Giants and Sox. Monday night opened the local tournament with first place going against

third and second and fourth meeting.

The Cards came out on top against the Pirates 10-2 and the Colts squeezed by the Cubs 5 to 4. Cadenhead and Layton were the winning pitchers.

Tuesday night's action pitted the Pirates against the Cubs for third place. The Pirates came out on top, 16 to 4.

In the championship game

between the Colt 45's and the Cards excitement was the word as the score at the end of three

## Researchers give local conditions approval stamp

The feasibility of grapes as a major additional crop for the High Plains area received area-wide attention as interested persons from several surrounding counties and at least two states attended a meeting on the subject in Morton Tuesday night.

Momentum for the grape as an extra money crop was generated by the meeting which featured a talk and slides on grape production by personnel of the Texas Agricultural Experiment Station at Lubbock and by persons who have construction of a winery in Lubbock well in the planning stage.

Dr. William N. Lipe, Asst. Professor in charge of grape production research at the experiment station, presented a comprehensive explanation, together with many excellent slides, of the experimental production of grapes having been carried on at the station for several years.

Dr. Lipe's experiments have convinced him that this area, while not ideal, is very well suited for both wine and table grape production. In his talk and with the use of visual aids, he outlined many techniques and methods of planting, pruning, fertilizing and irrigating that will assure the 30-50 acres already planted in the county will be successful.

Dr. Clint McPherson of Texas Tech University outlined plans for a 10,000 gallon capacity

**ADVICE FROM THE EXPERTS** -- There was a good deal of expertise within a group of horticulturists and researchers who toured several grape vineyards in Cochran county Tuesday. Here they are inspecting vines in a five acre plot on the D.E. Benham farm east of Morton. Later on a meeting was held in the county activities building where area grape production as a major crop was discussed. Left to right above are: Don Bales, president of West Texas Sandy Land Grape Association, who conducted the tour; Dr. William N. Lipe, Asst. Professor from the Texas Agricultural Experiment Station, Lubbock; Roger Schlotterback, Hobbs, New Mexico; Dr. Clint McPherson, Texas Tech University; George Martin, grape association vice president and Robert R. Reed, Asst. Professor of Horticulture, Texas Tech University.

## Estimated 54 persons to lose lives over 4th

"Traffic speeds are up and more people are expected to be on Texas highways this Fourth of July Holiday," advises Major C.W. Bell, Regional Commander of the Texas Department of Public Safety.

Fifty-four persons are

expected to die in the three-day holiday period starting at 6:00 P.M. July 3 and ending midnight July 6.

"It is most tragic that the start of the Bicentennial Anniversary of our country may be one of the most wasteful in terms of loss of human life," reiterated Major Bell. "We will have Operation Motorcade in full scale operation throughout the holiday period with every available trooper on the road at all times.

Major Bell added that two violations will lead to the greatest loss in life; they are speeding and drinking while driving. "Every driver should be aware of both the condition of the road and vehicle as well as his personal condition before he gets behind the wheel. Also, he should drive as if his life depended on it, because it does." With more and more drivers on the road, and with more persons showing a higher disregard for the speed limits, Operation Motorcade will

## Misses Smith, Neal dress review winners

Mary Smith of the Morton 4-H Club and Pamela Neal of the Whiteface 4-H Club were the senior and junior winner, respectively, of the 1975 Cochran County 4-H Dress Revue held on Tuesday, July 1, in the County Auditorium.

The two girls and their mothers will attend the District 2 4-H Dress Revue at the Southpark Inn in Lubbock on July 14.

## County youths attend leadership workshop

Young leaders from Cochran county 4-H clubs participated in a district 4-H leadership lab June 29-30.

Site of the three-day summer workshop was South Plains Junior College. Those attending from Cochran County were, Barry Zuber, Gene Linskey, Mark Dewbre, Guy Hall and Jeff Groves. Roy Jones, County Extension Agent; Wyn Crone; Suzanne Gillespie; Nancy Wilkinson, and Gail Gladden, county extension Agent.

A team of older teens conducted sessions throughout the lab.

The youths, supervised by 4-H club leaders and agents, performed a variety of activities ranging from group learning and

discussion sessions to game tournaments and special morning and evening ceremonies. Emphasis was on a human relations approach to communication skills.

Activities were geared toward helping young leaders learn to express themselves and their ideas, and to develop solutions to problems through group processes. Time for relaxation and fun was provided the teens with opportunities to make new friends.

The annual leadership lab helps 4-H youth to develop skills for working with younger club members and provides opportunity for them to broaden their friendships and develop leadership qualities.

**QUALIFYING FOR LEADERSHIP**--A group of youths from Cochran county 4-H Clubs recently attended a leadership lab at South Plains College in Levelland for the purpose of sharpening up their leadership skills. They were accompanied by county agents Roy

N. Jones, left, and Gail Gladden, right in the rear row. The new youth leaders attending the workshop included, front row, Barry Zuber, Gene Linskey, Mark Dewbre, Guy Hall, and Jeff Groves. Rear row, Wyn Crone, Suzanne Gillespie and Nancy Wilkinson.

## 'Olive Branch Petition' Colonies last futile effort for peace

On July 3 two hundred years ago, George Washington, newly appointed commander-in-chief of the Continental Army, arrived in Cambridge, Massachusetts, to take command of the forces here.

He found upon his arrival a totally untrained collection of citizens called an army with virtually no equipment, no discipline, and very little financial support. Washington found himself trying to create an army out of almost nothing to challenge the greatest power in the world. Even the world's

greatest optimist would have been dismayed by the prospects.

Two days later on July 5 Congress tried one last time to settle its differences with Great Britain. The so-called "Olive Branch Petition" was written by John Dickinson, one of those who fervently hoped for reconciliation with the guarantee of all American rights. Dickinson may have been treated unkindly by history because some of the super-nationalists considered him an appeaser. Such was not the case. He was not willing to give up what he considered to be his rights as an American to attain that peace.

The document professed the attachment of the American people to George III as their sovereign, expressed their hopes

for harmony, and begged the king to prevent further hostilities. Several weeks would pass before the document could cross the Atlantic and reaction could be reported back to Philadelphia. However, we know that the effort was in vain because George III rejected it out-of-hand.

Perhaps even Dickinson realized that this was a futile gesture. At any rate, while efforts for peace were made arrangements were also carried out to further arm American forces, even though another full

year, almost to the day, would pass before independence was proclaimed.

In Spanish Texas, after a short period of looking for suitable land in the vicinity of San Antonio the former residents of Adaes were permitted to present their petition to the viceroy. For the trip to Mexico Gil Ybarbo and Gil Flores were chosen to represent the settlers.

In Mexico the proceedings became very confused. At first they were granted permission to resettle the area in direct conflict with the king's orders.

Then, shortly thereafter, the permission was rescinded, but with the implication that it might still be possible for them to move.

In the midst of this confusion Governor Ripperda allowed them to move and establish a settlement approximately 100 leagues from Natchitoches.

The whole episode emphasized the problems of communication and the overlapping authority in the Spanish system in Texas. Donald W. Whisnehunt, history professor, Eastern New Mexico University.

### Tips on Wood Finishing

#### HANDLING THE "BRASS TACKS" OF REFINISHING

In preparing any piece of wood furniture for refinishing, the first step should always be to remove shelves, drawers and hardware. All too many novice do-it-yourselfers end up with inferior results because they try to avoid this simple and important step.

For the seconds it takes, stripping furniture of knobs, hinges and decorative hardware saves time and frustration later during sanding and refinishing.

It also offers an excellent opportunity to refurbish hardware that has become dirty or tarnished. A quick and effective method of cleaning old brass and other lustrous metal hardware is to dip each piece into liquid paint or varnish remover. In most cases, this restores the original brightness without additional polishing. A spray metal lacquer may be used to protect and add to the shine.

More handy advice on wood finishing is contained in a 16-page booklet, "Tips on Wood Finishing." For a free copy, write Minwax Company, Inc., Dept. PR 2, 72 Oak Street, Clifton, N. J. 07014.

## Summer camping programs scheduled at 4-H center

Summer is camping time for 4-Hers all over Texas. And the Texas 4-H Center in Brownwood is offering a camping program that promises both fun and learning.

"Beginning in July, four camping programs designed for different age groups will be offered at the new 4-H Center," announces Marshall Crouch, 4-H and youth specialist for the Texas Agricultural Extension Service and program coordinator at the Center. "Programs feature leadership training, recreation, nature studies, special activities, outdoor sports, swimming and crafts."

The weeklong sessions are July 7-11 and July 14-18 for 12-14-year-olds, July 21-25 for 10-11-year-olds, and July 28-Aug. 1 for those 15 years old and older.

Each week's program will include practical "learning by doing" experiences, points out Crouch, with leadership provided by a staff of qualified counselors.

"Getting young people together

for 4-H camping experiences can mean new friendships, new skills and new ideas. And the personal growth and development of the youthful camper is a head start toward the process of maturity," contends the Texas A&M University System specialist.

"The combination of recreation, skill and the enthusiasm of a good staff along with a closeness to nature can shape a program affecting the lives of many young people."

The Texas 4-H Center itself offers modern dining, sleeping and recreation facilities on a 78-acre site overlooking Lake Brownwood.

Cost per camping session at the Texas 4-H Center is \$30.35, including full insurance coverage and all meals, adds Crouch.

Additional information on summer programs at the Texas 4-H Center is available for local county Extension agents, the State 4-H and Youth Office at Texas A&M University or the Texas 4-H Center, Box 880, Brownwood 76801.

take on an even more important role in an attempt to control the highway slaughter.

The Texas Department of Public Safety urges each and every driver to do his part this holiday period by "Driving Friendly" and practicing Defensive Driving to stay alive.

Governor Dolph Briscoe called on Texas motorists to exercise special caution over the Fourth of July weekend and to observe the 55 mph speed limit. Noting the predicted death increase, Governor Briscoe said his office has implemented a well rounded media campaign to help make drivers more aware of the dangers of holiday driving.

"Besides this heavy media use, increased enforcement of traffic laws will be evident. We also urge the motorist to make use of the many rest stops provided by the Jaycees and by the Texas Highway Department," said Briscoe.

Briscoe went on to say it was most important for drivers to volunteer to drive with care. He

said 46 people were killed over the holiday last year and the number will likely increase over this next Fourth. "Texas reflects leadership in many areas, but we continually accept the deaths of over 3,000 people each year on the streets and highways of this State. Two hundred years after the beginning of the American Revolution, traffic accidents have become a greater threat to American lives than were the British guns in 1775. Therefore, I continue to urge your assistance to drive carefully and avoid this needless killing.

"I simply ask one thing. Please, take the extra time during this holiday period to be careful, slow down and enjoy the holiday and let's work toward a fatality free Fourth. Use the free rest stops during extended driving and know your limits of alcohol. Speeding also increases the opportunity for a crash. So by observing the law, resting and reduced drinking, the probability of a safe trip can be increased," concluded Briscoe.

innings was 0-0.

Then Noel Casarez broke things wide open to score in the top of the fourth. The Colts came through with a score by Ricky Houston on a single hit to right by Barry Hodge. The game was tied 1-1 at the end of the 4th.

Patton scored on an error and Simnacher came in to make the score 3-1 at the bottom of the fifth. Kent Fluitt scored for the cards in the top of the sixth, but the Cards couldn't manage another run and the game finished 3-2 in favor of the Colt 45's.

Bart Simnacher was the winning pitcher, Kent Fluitt was the losing pitcher.

The Colt 45's are coached by Richard Houston, assisted by Wilson Hodge.

Colt 45 players are Ronnie Patton, James Dent, Bart Simnacher, Ricky Houston, Keith Layton, Robert Sabala, Barry Hodge, Robert Marines, Bruce Crowley, Wayne Dent, Glen Patton, Todd Zuber and Jerry Williams.

The Little League season All-Stars were also announced and include from the Colt 45's: Keith Layton, Ronnie Patton, James Dent, and Bart Simnacher. From the Cards: Kent Fluitt, Noel Casarez, Adrian Casarez, Billy Cadenhead and Roger Brown. From the Pirates: Duane Hodge and David Masten. From the Cubs: Freddie Mendez. From the Giants: Randy Hall and Todd Willingham.

Alternates are Robert Sabala of the Colt 45's and Dean Turney of the Cards.

The All-Stars first game will be July 14. The time and place will be announced later.

winery to be constructed southeast of Lubbock on FM1585 that is slated to be in production

by late 1976. The 10,000 gallons will be its initial capacity, which will be later expanded to the 50,000 gallon level.

The plant, to be named "Llano Estacado Winery" has a construction completion date of July 1976 and the company expects to have locally produced wines on the market by the spring of 1977. As its capacity grows, the winery will contract for the grapes of area farmers, Dr. McPherson said.

He further stated that it will take approximately 15 acres of grapes to produce the 10,000 gallon capacity and approximately 100 acres of grapes will produce the projected 50,000 gallons of wine.

Prior to the meeting, which was held in the county activities building beginning at 8 p.m., the two doctors, with an entourage of local growers and grape association officials, made a tour of several local vineyards to inspect their progress and to make recommendations for increased production.

County committee plans management newsletters

The Cochran County Family Living Committee and County Extension Agent have planned a series of newsletters for the coming year pertaining to money management. There are five mailouts per series plus an evaluation sheet to be returned to my office at the end of the series.

Please indicate the series you would like to receive and return it with your name and address to the County Extension office, Box 993, Morton, Texas 79346.

The newsletters and a description of each are as follows:

1. Stretching your Food Dollar - July-Aug. 1975. Meeting food needs, planning family meals and planning shopping to save food dollars.

2. Truth or Consequences of Credit - September-October, 1975. How to establish credit, how much credit can you afford as well as the sources of credit, hour rights and responsibilities and consumer credit laws.

3. Money Manager's Magic -

A home. Buy now or wait?

By Mark Wyatt, Executive Vice President, Levelland Savings and Loan Association.

Is this the right time for you to buy a home? Only you can decide. Because you alone know your housing needs and your ability to finance them.

But as home loan specialists we can help. By answering some of your questions about today's housing needs.

Is a home a good investment? Clearly it is. In fact, owning your home is still one of the best investments you can make. It gives a feeling of pride, security, and satisfaction. And, if inflation continues, your home's value will increase. In addition, taxes and interest are tax deductible, and (under certain conditions) you can save up to \$2000 on your 1975 Federal Income Tax if you buy a newly-built home this year.

Will home prices come down if I wait? Nobody knows. But we do know what's happened to prices in recent years. And it looks like we're going to have more inflation.

Is financing available? It certainly is, at Levelland Savings and Loan Association. At very reasonable interest rates. Without a lot of waiting. In fact, our "person to person" service is the fastest in the area. And we offer you low closing costs, and no pre-payment penalties.

For years Levelland Savings and Loan Association has helped make this an area of homeowners. And, if you're considering buying a home, we'd like to help you.

First, see your realtor. Then think Levelland Savings.

## REDDY'S TIPS ON HOME FREEZING

SELECT FOODS OF HIGH QUALITY. Remember that freezing retains quality, but can not improve it.

CHOOSE BEST VARIETIES OF FRUITS AND VEGETABLES. Some are better adapted to freezing than others.

FREEZE GARDEN PRODUCTS PROMPTLY. Freshly harvested fruits and vegetables rapidly lost quality at warm temperatures.

USE PROPER PACKAGING MATERIALS. All foods in the freezer must be protected against air and escape of moisture.

FREEZE FOODS IMMEDIATELY AFTER PACKAGING. If there must be a delay, keep them refrigerated.

STORE FOODS AT 0 degrees F. OR BELOW. Avoid fluctuating temperatures.

OBSERVE RECOMMENDED STORAGE PERIODS. Plan a constant turnover of the freezer contents so no foods are kept too long.

## IS THE CHURCH PART OF YOUR LIFE?

He is a mighty small man—almost too small to leave his footprints in the sand. But he is starting out on his own. He is exploring, seeking, learning. Where will his footsteps ultimately lead him?

There are so many courses a child may take—so many that a person of any age can follow. But it is never too late to change direction, even if it seems as if a dead end has been reached. The beauty of life is that the word itself is synonymous with hope.

If the direction your footsteps have been taking you is disappointing, then turn toward the Church. Remember, the Church has survived for centuries against odds that would have annihilated a lesser force. That in itself is reason enough to give it a chance—to see what it has to offer.

# County Agent News

By Roy N. Jones

What High Plains folks hope will be yellow gold is beginning to glow over the area as 300,000 acres of sunflowers come into bloom during the next few weeks. Yet another obstacle awaits sunflower growers who are breathing more easily now that they've past the first of two peak periods of the carrot beetle emergence. That obstacle is the sunflower head moth.

Larva of the sunflower moth, once they've hatched on the blooming flowers, feed on the tender growth, sometimes destroying an entire crop. They are the most severe pest of sunflowers in the United States, according to Dr. Robert C. McIntyre, area entomologist with the Texas Agricultural Extension Service.

On the High Plains, carrot beetles are another primary pest of sunflowers.

A composite, such as the sunflower, is actually a group of flowers with each flower developing into an individual seed, McIntyre says. Flowering begins on the outer diameter of the head progressing to the center. A field of well-adapted hybrid sunflowers normally

complete the bloom period in 12 to 15 days. This is the only time that sunflowers are susceptible to attack and damage by the moth, which is colored light buff to silver.

Eggs are deposited within or between the individual flower tubes. Young larvae hatching from these eggs begin feeding immediately and remain on the surface of the flower for a couple of days. They spin silken webs as they feed, forming a mat of frass, silk and dried blooms on the face of the head. As the larvae become older, they begin tunneling into the developing seeds and fleshy receptacle of the head. Each larva damages or destroys an average of nine seeds, the entomologist figures.

Dr. George Teetes, research entomologist with the Texas Agricultural Experiment Station at Lubbock, has found several chemicals to be effective in controlling the moth. He and co-workers have also looked into the timing and interval spacing of insecticide applications which might protect the delicate flowers during the bloom period. Methylparathion, Thiodan (R), and Supercide (R) are the three insecticides labeled for use on sunflowers against the moth. Tests have shown that methyl parathion and Thiodan (R) give effective control when applied at one pound AI (actual insecticide) rate per acre in a schedule of two to three applications at a five-day interval. Supercide was found effective at 1/2 pound rate per acre in the schedule.

The three insecticides are cleared for a total of three applications per growing season for sunflower larvae control, McIntyre adds. Two or three applications are generally required because a field of hybrid sunflowers generally takes 12 to 15 days to bloom completely.

He says growers should check 25 plants at different locations throughout their field during the bloom stage. If adults or young worms are observed the first application should be made at 20 per cent bloom. The additional applications should be applied at the recommended interval if adults or young worms can be found on follow-up field checks.

Growers should remember, McIntyre emphasizes, that methyl parathion will cause foliage damage (burn) to certain sorghum varieties. They should make their insecticide selection with this thought in mind, if they have sunflowers planted directly adjacent to sorghum.

Mrs. Tommy Dale Garrett (Nee: Kim Bracken)

## Wedding vows pledged in Seagoville Church

Teresa Kim Bracken and Tommy Dale Garrett exchanged wedding vows in a double ring candlelight ceremony in the Seagoville Church of Christ, June 8. Steve Bracken, father of the bride, performed the 8 p.m. vows, assisted by Howard Byerly, uncle of the bride, Alpena, Michigan.

The bride is the daughter of Mr. and Mrs. Steve Bracken, 204 Shadywood Lane, Seagoville. The groom is the son of Mr. and Mrs. Dale Garrett, 753 Hall Rd., also of Seagoville.

Given in marriage by her

father, the bride wore a white formal gown of French designed scalloped Chantilly lace in a ruffled splendor. The gown was fashioned with a Sabrina neckline and long fitted sleeves. Lace ruffles swept from the hemline into a cathedral train. The illusion veil, descended from a fitted crown, which also held a short face veil. She carried a bouquet of yellow roses and baby's breath, centered with a white orchid.

Mrs. Rhonda Edmonds, sister of the bride, served as Matron of Honor. Elaine Prestridge, Carla Fisher, Segoville, and Tammie

Baker cousin of the bride, Morton, were brides maids.

They wore dresses of yellow taffeta with a sheer overlay of white with clusters of yellow roses. The dresses had short puff sleeves and "sweetheart" necklines, bordered at the hemlines with a ruffle. They wore large scalloped brimmed hats with yellow trim and each carried yellow long stemmed roses.

Jerry Bearden, Seagoville, was best man and groomsmen were, Sherman Pyle, Jimmy Weldon, nd Skipper Mills, all of Seagoville. Garry and Larry Garrett, brothers of the groom, and Stephen Bracken, brother of the bride served as candlelighters. Freddy Garrett, brother of the groom, Ricky Thrasher and Tommy May, brothers-in-law of the groom, were ushers.

Robin Garrett, niece of the groom, was flower girl. Her dress was fashioned in the same manner as the bridesmaids. Dan Bracken, brother of the bride, was Ring Bearer.

Mitzi Baker, Morton, cousin of the bride, presided at the bride's book.

Music was furnished by the church chorus, directed by Gene Edmonds of Mesquite. Selections included "More" "Hawaiian Wedding Song" and "If", all sung before the wedding. "Sunrise, Sunset" was sung while the bride's and groom's mothers were being seated. "You Make Me Feel Brand New" was sang as the bride and groom were lighting the Unity Candle. Other selections were "Love Story", "New Wedding Song", "True Love", "Let It Be Me", and "Whither Thou Goest".

Reception was held at the Teen Towne House. Tonya Kirk, Tracy Sorrells, and Melinda Mills of Seagoville served at the bride's table. Kathy Swindle served at the groom's table. Their dresses were of yellow dotted swiss, fashioned in the same manner as the brides maids, dresses.

After a short wedding trip, the couple will reside at 2402 Hwy 175, Lot 19, Seagoville.

Out of town guests were Mr. and Mrs. G.F. Cooper Jr., Mr. and Mrs. S.J. Bracken, Morton, Mrs. Dollye Morris, Greg Hardin, Seminole, Okla., Mr. and Mrs. Howard Byerly, Alpena, Michigan, Alfred Byerly, Wanette, Okla., Mr. and Mrs. Frank Helen, Denton Arkansas, and Harry Reervers of Orlando, Florida.

## Jaclyn Claye

has her say...

DEAR JACLYN CLAYE: My husband retired from his business a few months ago and he is beginning to drive me crazy. It was always his ambition to retire at age fifty and he managed to do it. The trouble is, although he has stopped operating his own business, he hasn't stopped wheeling and dealing. A simple trip to the supermarket has now become his idea of high level negotiation. Just last week he came home with half a butchered cow simply because he got "one hell of a price" on it. Jaclyn, I don't need 300 pounds of high grade beef. The man can't leave things alone and he has taken to running my household. And I hope you don't suggest that he get another job, because the weirdo holds half a million dollars in common stock and just an average paycheck would be an insult to him. But if you can suggest some kind of worthwhile project for him I sure would like to hear about it. Signed, M.S.

DEAR M.S.: I guess it is fairly apparent to you that you have been living with an over-achiever all these years. But in appreciation, I'd like to say that he is the kind of man that made this country great. He delights me. You mention his stock holdings in your letter and that might be the key. There are limitless numbers of stock brokerage houses in this country that would be pleased to have a semi-retired human dynamo on staff. Point him in that direction and I feel certain that he will be coming home with much more than just an average paycheck, if not the whole darned company. There are simply thousands of women who would love to have your problem. You are one of the luckier ones.

DEAR JACLYN CLAYE: I stayed with my boyfriend for most of the winter months but I have since broken off with him and all of that is in the past and so I don't need any moralizing. But the problem is that I left my contact lenses at his place and he is holding them as ransom to get

me back. I wouldn't feel right about going back with him just to get my contact lenses again but unless you can tell me something better, I am going to have to do it. Signed, BLIND AS A BAT.

DEAR B.A.A.B.: I'm sure you didn't intend it that way but yours is the most hilarious letter I have received all week. The contact lenses are your property and it is as simple as that. If you can't arrange for a male member of your family to pay your ex a visit to retrieve your property, it might be well to ask a police officer to accompany you. The local constabulary is always willing to help in "domestic" matters such as this and further, most of them can accomplish such a mission without laughing themselves off the front porch.

DEAR JACLYN CLAYE: I had the great honor of giving birth to the first male child in our family in several generations. The trouble is that my mother and father have taken to spoiling the child beyond all belief. Not a day goes by in which the little guy is not given a gift or otherwise worshipped as some kind of divine creature. Both myself and my husband are reasonable people, but I'm afraid there is going to be some real trouble around here if my parents don't soon settle down. I would hate to hurt their feelings but if you could suggest a way for me to bring my parents back down to earth, I would appreciate it. Signed, NEW MOM.

DEAR NEW MOM: You don't mention the child's age in your letter, but I assume he is still an infant. If such is the case, I wouldn't worry about it, just yet. But as time goes by, I would slowly but firmly tell your parents that spoiling a child is really the worst kind of neglect. Start to tell them, now. And work slowly.

I will be open for business Tuesday, July 8. I appreciate your patience and well wishes during my recent surgery and recovery.
