FARM BUREAU WEEK proclamation is signed by Floyd County judge J. K. Holmes as president Eddie Teeter and Farm Bureau queen Teresa Duvall witness the signing. (Staff Photo)

Farm Bureau Week

POTENTIAL FOR POWER

The farmer and rancher of today is in a unique position that offers potential for great power.

For we have in this great country something that is the envy of the world -- an agricultural industry that produces in abundance.

In this time of exploding populations, we possess a substance infinitely more powerful than a thousand hydrogen bombs -- protein! The oil reserves in all the fabled lands of Araby don't begin to compare with our capacity to produce food!

At the heart of today's production miracle is the farmer and rancher. This fact does not automatically impart power to him. George Meany wants the final say on farm exports. Henry Kissinger would use food as a weapon of international diplomacy. The consumer demands to be heard. What's to keep agriculture from being a public utility?

Farm Bureau is one organization that believes farmers and ranchers should speak for agriculture. It develops its policies in a democratic manner in county, state and national conventions. Historically, the Farm Bureau has put the nation's welfare at the top of its priorities.

GREETINGS:

Agriculture is becoming more important to the economy of Floyd County, our State and Nation: Many of our citizens are dependent directly or indirectly upon agriculture for their livelihood. All consumers benefit from the productive efficiency of modern agriculture.

Farmers and ranchers have learned to promote their industry through organization. Four out of five agricultural producers in the Nation who belong to a general farm organization are members of Farm Bureau.

Farm Bureau is an independent, non-partisan, non-governmental voluntary organization of families united for the purpose of analyzing their problems and formulating solutions to those problems.

Therefore, I, Keller Holmes, County Judge of Floyd County, do hereby designate March 1-6, 1976 as FARM BUREAU WEEK in Floyd County, and urge our citizens to give due recognition to this observance honoring the Floyd County Farm Bureau.

In official recognition thereof, I hereby affix my signature this 26th day of February, 1976.

/s/ J. K. Holmes
Floyd County Judge

COUNTY SPELLING BEE

Floyd County spelling bee winner will be determined Tuesday night at 7 o'clock in Lockney Junior High library. Mrs. Sally Carthel of Lockney is bee coordinator and will pronounce words for the spellers.

Two spellers and an alternate from the fifth-sixth grades of both Lockney and Floydada, and two spellers and an alternate from the seventh-eighth grades of both towns will participate in the bee.

Ribbons will be awarded to school winners of each division and a ribbon will go to the winner of the over-all bee. The Floyd County best speller will represent the county in the Lubbock competition.

Lockney's representatives include Wade Jackson and Ralph Scheele, sixth graders with Esmeralda Vasquez as alternate; Randy Davis and Dwight Jackson of the eighth and seventh grades with Julie Ferguson as alternate.

Floydada representatives are Tommy Myrick, 7th grade and Jimmy Jones, 8th grade, alternate, Stayce Day all of Junior High; and sixth graders from R. C. Andrews, Todd Denton, Susan Hendrix, and alternate Norman Allen.

CONSERVATION FARMER OF THE YEAR is Kenneth Willis. Presentation is made by Gilbert Fawver. (Staff Photo)

Will Serve On Hospital, School Boards, City Council?

line is fast approaching school board, the board and the City m. Wednesday. these offices will be 3.

BOARD

terms of Doyle Walls.

Aldine Williams and Alton Higginbotham are up on the hospital board. Each man has served two terms and none of the three has filed for re-election.

A petition signed by 25 qualified voters of the hospital district is necessary to file for election to the hospital board. The petition should be submitted to board secretary Doyle Walls.

Rock Chat

invite and urge everyone to visit the schools this week.

JOYCE STEWART is a good neighbor...we've been using her plate burner while ours was broke down. We received three supposedly correct parts for the machine and none worked...so back to Stewart Printing on Friday to burn plates.

THESE TOO EARLY BLOOMING apricot trees aren't going to waste...we're making bouquets out of the blossoms...look and smell great!

WE COULD CONDUCT a "man on the street" interview and get all sorts of opinions at this point of the Patty Hearst trial. Each Associated Press release sorta sways me from one verdict to the other. Some days she seems innocent and brainwashed, other days when she declares the Fifth Amendment, I'm not sure. Friday, the front page headlines said "Doctor Testifies Patty Told The Truth."

AN EDITORIAL

This newspaper feels that there should be a meeting to put all the Bi-Centennial plans together.

No doubt there are several committees working for various organizations on some of the Bi-centennial program. We feel that there should be representatives from all groups in Floyd County and an overall calendar worked out for the celebration...or celebrations.

Tennis Club Supper Tuesday

The Floydada Tennis Club invites all interested persons to its first meeting for the 1976 year. This will be on Tuesday, March 2, at 6:30 p.m. in the Fellowship Hall of the First United Methodist Church in Floydada. A salad supper is planned, and those attending are asked to bring a salad. Drinks will be furnished. There will also be a nursery provided so that the whole family can come.

An interesting program has been arranged for by the club's program chairmen, Mr. and Mrs. Lon Davis, Dale Hayden of the Sport Haus in Lubbock will present a preview of 1976 tennis equipment and will also show a short film. This will be particularly interesting and helpful for beginners and for those who have not yet started to play but would like to.

Among business to be discussed is a club tournament being planned in March, according to Eleanor Hendrix, activities chairman.

Everyone is invited to attend and bring a salad. Anyone who would like to know more about the tennis club and its activities should call club president, Frank Barrow at the First National Bank, or any tennis club member.

Senate Wants

Seven Months DST

The Senate approved a bill Wednesday providing seven months of Daylight Saving Time this year and next, which if becomes law, most Americans would set their clocks forward one hour on March 14 and turn back the hands one hour on October 10.

Unless some sort of time bill clears both houses of Congress soon, the nation will go back to the old pattern of six months DST and six months' standard time each year. DST would run from April 25 until October 31.

The date in some Almanacs show the time change on Feb. 29th, due to leap year. Other years, that normally would be the first Sunday in March, at which time the Commerce Committee wanted it observed, through the second Sunday in November, but this proposal was rejected by the Senate.

One Senator said he believes the legislation giving the nation daylight saving time from the first Sunday in March through the second Sunday in November for an experimental two-year period could be justified solely on grounds in terms of increased recreational opportunities. But, he said, he believes that the time has come for the government to overhaul the time zone lines that divide the nation and sometime states.

If Congress passes no new legislation this year, Daylight Saving Time would automatically revert to the six month period called for in the 1966 Uniform Time Act. It sets Daylight Saving Time from the last Sunday in April to the last Sunday in October.

Willis Conservation Farmer

The Floyd County Soil and Water Conservation District has selected Kenneth Willis as the 1975 Conservation Farmer of the year. He was selected for the award based on his complete program of resource conservation on his farm located in the Baker community.

Kenneth and his wife Barbara and two children, Kenny, age 15 and Kristi, age 13, live on the farm. Mr. and Mrs. Willis have two other daughters, Brenda who is married and Karen who is attending West Texas State University.

Kenneth graduated from Texas Tech in 1949 with a degree in Animal Husbandry. He started farming in 1950 and purchased part of the farm in 1952. He became a district cooperater with the Floyd County SWCD in March of 1953. Willis installed 2,314 feet of 12" concrete underground irrigation pipeline in 1956. At a later date he purchased 160 acres which was located between his two farms and this connected all of his land together.

Willis had the 160 acres only a short period of time when he contacted the Soil Conservation Service and the Floyd County SWCD to find solutions to his conservation problems. A field by field survey was made to determine what conservation practices would solve his problems, and what would best fit his farming operations by treating every acre.

On November 27, 1974, Willis entered into the Great Plains Conservation Program to receive cost share assistance to accomplish his goal of a good conservation program. The GPCP covers a three year period to treat the land. In August of 1975 a 2980 feet diversion terrace was installed to intercept runoff of rainfall before it would cross sloping land causing erosion. In September of 1975, 5840 feet of parallel terraces were installed below the diversion terrace to prevent further erosion.

In February 1976, Willis installed 3823 feet of 8" plastic underground irrigation pipeline to complete his irrigation system and to tie all his

irrigation wells together in one system. The system was also installed to

Lockney Care Center Capers

By Linda Cumbie

This has been a beautiful week here at the center. The residents have thoroughly enjoyed going on walks in the warm sunshine. This sort of weather makes us want to get outside and plant our gardens.
Again this week, we have had great devotionals. Last Friday, Bro. Jim Hatley, one of our State Missionaries, was with us. He led our singing and gave a great devotional. On Tuesday, Dixie Johnson led our singing and Sylvia Yearly played the piano for us. We have had a wonderful week in our devotional time. Also on Friday, Bro. Crowder from Flomot played the

Free Anti-Pollution Booklet Available At Davis Lumber

A new, free eight-page illustrated booklet entitled, "The Story of Willie Bacteria, or How To Take Care of Your Septic Tank or Cesspool" is now available to owners of septic tanks and cesspools from Davis Lumber Co., 801 Main Street, Lockney.

In a light vein, illustrated by cartoons, the booklet explains the workings of the septic tank and cesspool in simplified fashion. It de-

scribes the bacterial action of the disposal system and what is necessary for its proper functioning.
Chief attraction in the booklet is a humanized "Willie Bacteria" who is responsible for maintaining the efficiency of the disposal system. When the septic tank or cesspool user ignores the fact that "Willie" is working to keep the disposal system free from disease, and saturates him with an overdose of detergents, acids, lyes, caustics and other irritants, "Willie" is very unhappy, and more often than not, just stops working.
But there is a bright side to the story too, for "Willie Bacteria" has found a way to educate the septic tank or cesspool user, so that "Willie" can do his job under modern up-to-date working conditions, and prevent the fuss, mess, inconvenience and expense of a clogged disposal system.

The booklet was produced by The FX-Lab Company, Inc., 1275 Bloomfield Ave., Industrial Park Bldg. #2-13, Fairfield, New Jersey 07006.

piano.
We have worked in crafts on Friday, Monday and Wednesday. We are still making the "air fresheners".
Tuesday we went on the bus with Mable Foster and Edna Phillips. We went to Floydada for ice cream. Those making the trip were Juan Garcia, Anna Dietrich, Myrtle Burke, Maggie Payne and our aide Debbie. A swell time was had by all.
Thursday we played Bingo. Had several playing with us. Our big prize winner was Lewis Roberts. He won a bag of mixed candy.
Several of our residents have been ill with colds and flu. Hope everyone will be feeling better before long.
This week, Mrs. Leola Fortenberry and Lola Grider are in the Lockney General Hospital. We wish them a speedy recovery and hope they will be back with us before long.

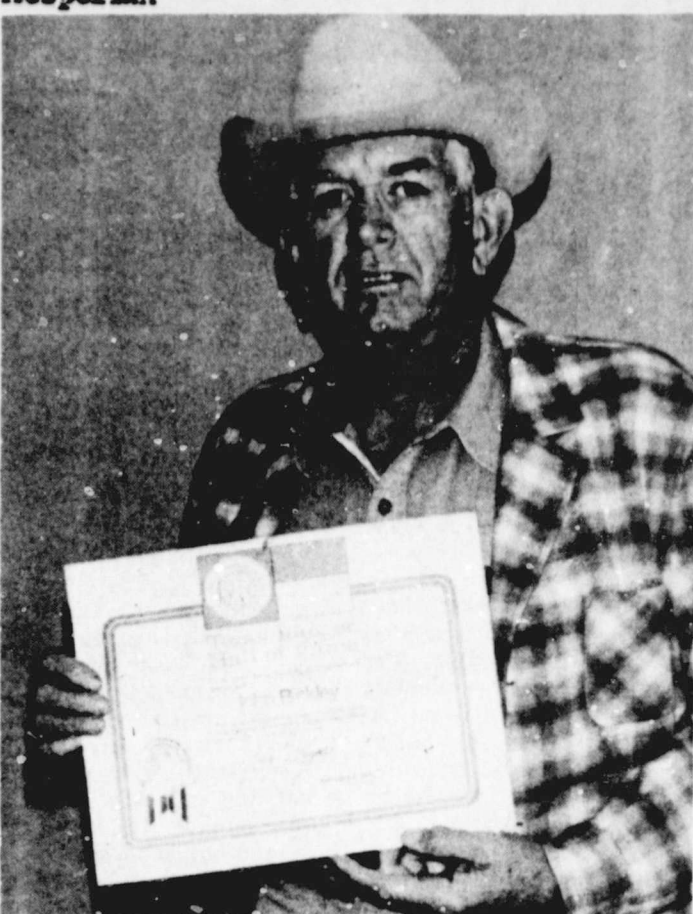

We want to welcome Mamye McGhee back home with us after a stay in the hospital at Plainview.
We have received new drapes for our center this week. They are very pretty hanging in the rooms. We are so proud of them.
The beautiful flowers were shared with us this week from the wedding of Louie Bybee and Cynthia Stoerner.
Maude Kellison went to Amarillo last week to spend a few days with her daughter.
Alpha Kitchens went to Plainview to the doctor on Thursday with her son.
Thanks to Herman King for bringing us egg cartons this week.
Mr. Garcia said he had alligator meat for supper the other night. He said it was very good.
Again this week we have had many local and out-of-town visitors. Thanks for visiting with us.
Will close for now. May God Bless!
Til next time

Wreck Victim Recuperating

James Bailey, 32 year old employee of Marble Bros., at South Plains, is reported to be recuperating satisfactorily in Lubbock Methodist Hospital where he was conveyed Saturday night by Caprock Ambulance Service, with injuries sustained in a wreck.
The mishap occurred some four miles north of Floydada on the Silvertown Highway about 10:30. A spokesman for Marble Bros., said Bailey had been repairing a tractor and had started home. He told them

he met a vehicle and when he dimmed his lights they went out and he lost control of his pick-up on a curve. The vehicle overturned and was demolished and Bailey was thrown from the pick-up and sustained a cracked hip, along with bruises and abrasions.
He underwent hip surgery Sunday in Methodist Hospital.

A new synthetic fiber produced in Japan by an emulsion spinning process is a "biocostituent" fiber-50 percent vinyl alcohol and 50 percent vinyon composition. This fabric is inherently

flame retardant and does not release highly toxic fumes when ignited and forced to burn, according to Beverly Rhoades, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Resist the urge to "top off" the car's gas tank. Gasoline is wasted by spilling over or dribbling out of the overflow pipes when driving away from the gas station. Mrs. Linda McCormack, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System, says.

A "TIGHT" HOUSE SAVES MONEY

Insulation might have been optional when electricity was 1¢ per KWH. But at today's rates insulation can pay for itself many times over. For example - an uninsulated house can cost 50% more to heat than one with insulation.
The Lighthouse Electric Cooperative suggests that you check your own heating and cooling bill, then "button up" your home with good insulation and lots of it. A tight house conserves energy and saves you money.

Lighthouse Electric Cooperative

Society

Athena Junior Study Club Meets

On February 12 Athena Jr. Study Club gathered in the home of Mrs. Ted Carthel. The course of study for the evening was ATHENA As American as Homesteading.

The club was visited by Miss Carrie Roberts and Lynn Griffin, Lockney High School seniors. As members of Mrs. Elaine Smith's speech class at LHS, they each gave a poetry reading in preparation for an area tournament to be held on the Texas Tech campus.

Mrs. Jerry Cannon introduced Marvin Sartin, Texas Agriculture Extension Agent from Lubbock. Mr. Sartin gave a slide presentation entitled "Estate Planning." The program outlined the need for wills, steps to follow when preparing a will, and the necessity for seeking legal counsel. He was then presented with a homemade apple pie prepared by Mrs. Lloyd Widener, Jr.

Refreshments were then served by Mrs. Carthel and Mrs. Jim Warren, co-hostesses. Prior to the business meeting, Mrs. Warren informed the club members of their personality traits

determined by the heart color pasted to the back of their valentine cards which they received upon arrival.

The meeting came to order with Mrs. Paul Koonsman giving the prayer. Roll call was answered by naming an item that should be included in a will.

Departmental chairmen reporting included Mrs. James Poole, International Affairs, collecting the unusual news items brought by members, which were obtained from a variety of sources. She then distributed copies of foreign newspapers and had members translate a few sentences from these papers, illustrating that certain aspects of news reporting are universal such as the comics, weddings, and law and order articles. She also indicated that most Americans in this part of the country can recognize Spanish words simply from the association of the Mexican culture.

Mrs. Sue Zorger, Education, reminded members that the next scheduled meeting would be held in Plainview and that car pools would be formed to conserve energy.

Mrs. Joe Taylor passed out blank tapes and interview questionnaires to the members participating in the Oral History of Lockney project. She also distributed order forms received from the fashion seminar held in Floydada recently, which enabled members to order brochures on various fashion techniques.

Copies of the poetry entries were distributed with winning selections being announced. First Place Awards went to Mrs. Roy Turley - Inspiration, Mrs. Jerry Williams - Any Style, Mrs. Bill Hunter - Bi-Centennial, and Mrs. James Poole - Humorous.

Mrs. Zorger announced that a gift would be sent to Mrs. Shipp in lieu of a retirement tea. Mrs. Shipp has served the community for many years as manager of the Lockney Variety Store.

Additional business included collecting gifts brought for Bingo prizes to be donated to the Lockney Nursing Home, and gifts for donation to the Speech and Hearing Clinic in Amarillo. Club members voted to contribute to the TFWC funds for Mrs. Harriet Whately and Mrs. Harold Green.

Mrs. Cannon presented

Eighteen Entries In Little Miss Bi-Centennial Contest

Eighteen contestants have entered the Little Miss Bi-Centennial Pageant sponsored by the Floydada Chapter of Alpha Mu Delta, to be held in Floydada High School auditorium Saturday night, March 13 at 7:30.

A second rehearsals for the misses, ranging in ages from three to six years old, will be at 6 p.m. March 11 in the auditorium.

Entries, their ages, and their parents are as follows: Kelli LaBaume, 5, Mr. and Mrs. Jon LaBaume; Heather Powell, 3, Mr. and Mrs. Tom Powell; Ludustria Leatherman, 5, Mr. and Mrs. Jerry Leatherman; Tiffany Reames, 3, Mr. and Mrs. Marvin Reames; Kristi Cleveland, 5, Mr. and Mrs. James Cleveland; Branda Breed, 3, Mr. and Mrs. Joe Mac Breed; Paulette Jackson, 4, Mr. and Mrs. Cecil Jackson; Norma Barrimentos, 6, Mr. and Mrs. Salvador Barrimentos; Shayla Barbee, 4, Mr. and Mrs. Larry Barbee; Heather Henderson, 4, Mr. and Mrs. Bud Henderson; Aimee Green, 3, Mr. and Mrs. Phil Green; Hollie Daniel, 4, Mr. and Mrs. Danny Daniel; Jennifer Turbeville, 3, Mr. and Mrs. David Turbeville; Ange

Shurbet, 5, Mr. and Mrs. Don Shurbet; Leslie Buntin, 4, Mr. and Mrs. Gary Buntin; Cathy Langley, 5, Mr. and Mrs. Neil Langley; Shannon Bloys, 3, Mr. and Mrs. Kenneth Bloys; and Michelle Warren, 6, Mr. and Mrs. Doyle Warren.

Entries will be judged according to most pageants by judges. Girls will appear in their choice of Bi-Centennial costumes, which will be judged by ballot from the audience. They will also appear in formal wear.

A Little Miss Bi-Centennial will be named, then presented her crown, a \$25 Savings Bond, a plaque and a bouquet of roses. There will also be a prize for the first, second and third runner-up and the winner of the best costume.

The pageant winner will ride on the Alpha Mu Delta float during the county fair and will participate in the county-wide Bi-Centennial events.

Tickets to the pageant will be priced at \$1 for adults, 50 cents for students, and children under six admitted free. All proceeds after expenses will go to the service projects of Alpha Mu Delta.

Club last Tuesday, Mrs. W. W. Trapp opened the program by reading a poem "Slow Me Down, Lord." Giving a "shopping hint" was roll call, followed by the hostess giving the devotional.

Mrs. Ernie Widener gave the program on "The Metrics Are Coming," presenting some very informative information on the metric system, stating the only metric unit for weight is gram-while our present system has several units for weight, such as ounce, pound, ton, etc.

She said the metric unit for length is meter, which is just over a yard. Antimeter will take the place of inches. A centimeter is 1/100 of a meter (.01). There are 100 centimeters in one meter as compared to 36 inches in a yard. A millimeter takes the place of ounce.

Mrs. Widener continued that the U.S. is a large industrial nation that is heavily involved in international trade, and the only major nation still using the old system, England was the last nation to change metrics.

A millimeter is smaller than a centimeter. A kilometer measures distance. The cars will be marked with kilometers per hour, rather than miles per hour. If you are driving 50 MPH, with the metric system you would be driving 80 KMA.

Mrs. Williams said once you become familiar with metrics, figuring weight, length and volume will be as easy as counting money.

Mrs. Bill Smith continued the program on the topic of "The Money Savers," giving

Zack Cummings and Sandra Dorman
**Dorman-Cummings
Wedding In June**

Mr. and Mrs. John Dorman of Lockney and Mrs. Sterling Cummings of South Plains announce the engagement and approaching marriage of their children Sandra and Zack.

Vows will be repeated June 18 in First United Methodist Church of Lockney. Both Sandra and Zack are students at West Texas State University in Canyon.

Caprock Hospital Auxiliary Will Meet Monday

The Caprock Hospital Auxiliary will meet Monday, March 1, at 9:30 a.m. in the dining room at the Hospital. All members and associate members are urged to attend. Visitors are always welcome.

Single Adults To Hold Luncheon

All Single Adults are invited to bring a covered dish and stay for a luncheon following church services Sunday in the First Baptist Church in Floydada. The event will be held in Fellowship Hall of the church.

Singles from the surrounding area including Floydada and Lockney are invited.

R. C. ANDREWS FIFTH GRADERS "police the area".

R.C. Andrews Fifth Graders Clean-Up School Ground

R. C. Andrews fifth grade Science Classes have been studying the effects of pollution on the environment. They decided to have a clean-up campaign around the school, removing trash from the school grounds to show that they care about the conditions of their surroundings.

In their study, they learned that, if they want to keep the school grounds clean, they would also have to "educate" those who use the school about the problems of pollution. They made a series of tapes which were played over the intercom for one week. They had a "pollution prevention poll" in which they polled all students in an effort to get them to commit themselves to the project. The response was excellent. They also made posters for the 1956 Study Club "Keep America Beautiful" poster contest.

Then, on Friday, February 27, the entire fifth grade went outdoors and patrolled the school block for litter. Beautiful! poster contest. Then, on Friday, February 27, the entire fifth grade went outdoors and patrolled the school block for litter.

This is LaDonna Heflin in 5 B. Do you know how fast the world population is growing? There are more than 3 billion people in the world today. There are about 12 acres of land for each person now. By the year 2000 there will be more than 6 billion people in the world. Then there will be only 6 acres for each person. With more and more people and less and less land, we have to stop pollution. If we don't stop pollution we will not have oxygen to breathe, clean water to drink, or enough good land to grow crops.

In the next few days the 5th grade will be making some comments and suggestions about stopping pollution. We hope you will listen and learn.

This is Terri Marquis in 5C. Do you sometimes throw your candy and gum wrappers on the ground, instead of in the trash can? Today we're going to tell you what the paper does when you throw it down. Green plants give oxygen to the atmosphere. The wrapper you throw down blows into a yard and keeps plants from growing in that spot. It may take two or three years for that candy wrapper to rot and turn into fertilizer. Meanwhile, it is stopping anything from growing there and giving us oxygen.

when you throw it down.

Green plants give oxygen to the atmosphere. The wrapper you throw down blows into a yard and keeps plants from growing in that spot. It may take two or three years for that candy wrapper to rot and turn into fertilizer. Meanwhile, it is stopping anything from growing there and giving us oxygen.

You may think that your candy wrapper isn't much, but think of all the people in our town who are throwing papers. Also, think about all the times you have done it. Think of all the acres of ground that must be covered with trash, instead of growing green plants that give us oxygen.

If you want to keep breathing, the next time you have some trash, THINK, then throw it in the basket.

This is David Carr in 5A. THE FLOYD COUNTY HESPERIAN

Published each Sunday and Thursday at 111 E. Mo. St. Floydada, Texas 79235. Second class postage paid at Floydada, Texas 79235. Wendell Tooley, editor. Subscription rates: Local \$8.50 a year, out of state area: \$9.50.

OBITUARY

Velma Spence

Services for Mrs. Velma Beatrice Spence, 88 year old early day Floydada resident, were held Friday afternoon.

Earlier, you learned what happens when you throw a piece of paper on the ground. Remember, green plants give off oxygen, and when the ground is covered with paper, green plants can't grow.

Did you know that when you throw a can on the ground and no one picks it up, that can may stay there for as long as a hundred years!

Kids are not the only ones who pollute. Parents pollute, too. What can you do about it? Suppose your parents are about to throw some trash out the car window. It's not polite to tell your parents what to do. Instead, ask them nicely if you can hold the trash until you get home. Or, suppose your brothers or sisters throw some trash down and won't pick it up. What will you do? You pick up after them, and then explain to them about pollution.

We need to keep America clean so the people who come after us will have clean air, clean water, and clean land.

in the First Baptist Church. Mrs. Spence died in Lockney General Hospital about 12:15 a.m. February 26th. She had been a resident of the Floydada Nursing Home for several years.

A native of Mississippi, she was born February 7, 1888 to John Thomas and Lucy Mae Carithers. She and A. L. Spence were married in Ballinger August 19, 1906 and moved to Floyd County in 1919. Her husband died December 8, 1946. She was also preceded in death by a daughter, Opal Noland, November 19, 1960.

Mrs. Spence made her home in California with a son for several years, then resided with a daughter in Floydada and one in Lubbock before becoming a resident of the Nursing Home.

She was a member of the Baptist Church.

Survivors include three daughters, Mrs. Jerry (Inez) Crosthwait of Lubbock, Mrs. Burl (Doris) Huckabee of Floydada, and Mrs. O. J. (Betty) Schmitt of Rialto, California; two sons, Donovan C. Spence, Norco, Calif., and Dennis M. Spence of Fontana, Calif.; a brother, Clifford Carithers of Wellington, Kan.; 11 grandchildren; 17 great grandchildren and one great great grandchild.

Dr. Floyd C. Bradley officiated for the service. Interment was in Floydada

Cemetery under the direction of Moore-Rose Funeral Home. Pallbearers were Kenneth Huckabee, Joe Richard Noland, Gerald Powell, Sam Spence, Mark Noland and Ozell Chappell.

Mrs. Schaeffer

Services for Mrs. Grace Schaeffer, 87, of Happy were held Friday in First United Methodist Church, Happy, with the Rev. Roland Moore, a Methodist minister, officiating. Burial was in Memory Gardens Cemetery by Schooler-Gordon Funeral Directors of Canyon.

Mrs. Schaeffer, mother of Mrs. Wayne Bramlet of Lockney, died Wednesday.

She was a native of Terrell and had lived in Happy 73 years. She married Emil Schaeffer in 1921. He died in 1972. Mrs. Schaeffer was a member of First United Methodist Church and the Order of the Easter Star.

Survivors include one son, four daughters, two brothers, 11 grandchildren and five great-grandchildren.

FLOYD DATA

Floydada Men Help People Of Guatemala

By Wendell Tooley

Although a couple of Floydada doctors were already planning to go down and help the people of Guatemala with their dental and medical needs, the mission became larger when the earthquake killed and injured thousands.

Physician Jack Jordan and Dr. Charles Craig then asked Floydada farmer Louis Lloyd to take another plane in order to take in more medical supplies.

It's about a thirteen hour flight via Brownsville to Guatemala. Louis and Dr. Jordan were in one plane, Dr. Craig in the other. Most of the flying was over the east Mexico beach at a level of eye contact with the terrain.

However, there were some mountains crossed when the men flew near 10,000 feet.

Louis said he helped the doctors as much as possible. Since there was no

electricity there was no teeth work except medication and extraction for Dr. Craig.

Louis said there were not many earthquake victims in the village where they worked. Dr. Craig said the people were in pretty good shape, but the devastation was unbelievable, the sort like the Floydada bank. There were no cars, the mayor and the Mennonite missionary each had a motorcycle for transportation. There were very few bicycles, and most of the natives walked everywhere they went.

The natives could not speak English... Louis's "fractured Spanish" wouldn't work either... so he resorted to sign language.

The villagers work their small corn and bean fields with hoes. Their food consists of corn, black beans, some pork, chicken and eggs... as well as vegetables. Louis said corn harvest had just been finished when they were

down there.

The people are still reluctant to sleep in their homes, afraid an earthquake would bring the roof and walls down upon them. Therefore many get cold sleeping outside each night.

The Floydada men ate American dried food... Louis said he did the cooking. Louis said the old people were about five feet tall, but younger villagers were taller, possibly due to better food. Families were not large, due to a 35% infant mortality rate.

"You would not have believed the airport there," Jordan, 51, said. "Airplanes were landing and taking off, two at a time, and helicopters hovered over the area hoisting slings full of supplies."

Supplies from many countries, primarily the United States, were arriving by the ton.

"It really made you feel good to be an American," Craig, 57, said.

The Texans had two plane loads of drugs, antibiotics and bandages.

Craig, a 21 year resident of Floydada who has two children, and Jordan, a father of three who has spent almost his entire 22-year medical career here, have been making trips to Central American countries to set up volunteer medical clinics for 12 years.

It started, Craig explained, when the Flying Dentists, a national organization, joined with the Christian Dental Society for World Service to offer dental care to underprivileged people.

Jordan became involved when Craig asked him to fly both of them to Central America in 1965. They've been going annually ever since.

By the time they arrived in Guatemala, most of the injured quake victims had been hospitalized, and phone lines and utilities were back in service in the cities.

So they went ahead with their

original plan to open a clinic in the adobe home of a Mennonite missionary and his family near Guatemala City.

They set up shop in the living room of the small dwelling. Lloyd serving as both Medical and dental assistant, doing everything from seating patients to filing down dentures.

Dentist Craig found himself amazed at the poor condition of very young Guatemalan children's teeth. Sugar cane and candy have been introduced in the country only recently but the youngsters' teeth already were showing the effects.

Jordan said he treated the usual cases of worms infections and gave inoculations.

Jordan remembered that destruction didn't appear severe from the air. "You could see a lot of crumbled brick and building pieces. But when you got down on the ground, you could see the devastation, the cracked buildings, the rubble."

The Texans slept outside every night, fearing the possible collapse of shelter. They returned home last Monday, bringing back only a few gifts, including rich Guatemalan cloth for

their wives. "Albert Schwab... man must do something... you must do it... the enjoyment... the way I feel... Jordan agreed... because I feel... world a little better... At least one... vouch they've left...

Books & Reviews

Baptist Church Library

Most frustrating problems for people who teach or have leadership position in a civic organization is the lack of "know-how" in making effective use of the average person's use in making visual aids. MAKE AUDIOVISUALS by John Hack was written to fill this need. In it are many quick and easy lettering signs and making posters with a minimum of talent, equipment and expense. For those making freehand cut-out letters or for those interested in tape recording or making pictures, there are chapters on each. The little book many of you might like to own for your library is Daniel Fuller's illustrated first-hand life and work of his father, Charles E. Fuller, a pioneer in the use of gospel broadcasting and the theological seminary which bears his name. GIVE THE WINDS A MIGHTY VOICE, a book of deep intentions that motivated his father to

strive by faith, and often against seemingly insurmountable odds, to keep the broadcast going. You'll remember with pride, the man, his work and his God!

New from the Broadman Reader's Plan series is MODERN STORIES OF INSPIRATION by Bill Sephens. It tells about a minister discovering God, a potential suicide prevented by the thoughtfulness of a friend, a condemned murderer who was converted and raised money for a prison chapel. There are true stories of these mentioned and many more, including those of Jimmy Carter, Connie Smith, and other well-known personalities. These books are especially designed for the busy person who finds his reading time very limited. Another in this series, GOD'S BIG LITTLE WORDS by Robert J. Dean, takes some little words from the Bible and shows their enormous potential: "Life-Our Most Precious Possession"; "Joy-Celebrating Life"; and "Peace-Everyone's Dream." This would make good devotional material.

Teenagers need some straight answers in matters of sex, and Dr. Shedd pulls no punches in giving these answers. In THE STORK IS DEAD, Charlie W. Shedd, pastor-father-teenage authority says "The Stork is dead-Let's talk turkey!" Realizing the day for the half-truths is past, he deals with explicit issues. It is written for teenagers, to teenagers, in a language teenagers can understand. (It is also a good chance for parents to "tune in" on teenage viewpoints.) For young people contemplating marriage or just married, Dr. Shedd's LETTERS TO KAREN and LETTERS TO PHILLIP are also good.

Available in cassette tape are Dr. Howard Hendricks

series of talks on marriage and the home. These include husband and wife relationships and discipline in the home with children. Dr. Hendricks is a favorite of many and listening to these would certainly be worthwhile.

Evangelistic Rally In Floydada March 9th

Evangelist James Robison of Fort Worth, will be preacher for a one-night evangelistic rally Tuesday, March 9, 7:30 p.m. in the First Baptist Church, Floydada.

The rally, sponsored by various area churches, is expected to draw an attendance of 1,000 persons. The meeting is open to the public and other churches, according to Dr. Floyd C. Bradley, Pastor of the church and chairman for the rally.

Sharing the program spotlight with Robison will be other members of his evangelistic team including gospel singer John McKay, organist Richey Craig, and pianist Rick Jackson.

Guest soloist will be Mrs. Jeanne Rogers. She is a regular performer on the evangelist's weekly television program, "James Robison Presents," as well as soloist for many crusades. Robison's half-hour, syndicated TV show, "James

Robison Presents," is carried over Channel 11, Lubbock, each Sunday at 8:30 a.m.

At 32, Robison has preached his simple gospel message face-to-face to some six million people. Since he began preaching at the age of 18, he has preached in more than 400 crusades. During 1975 he conducted some 20 crusades. A few of the cities and areas where crusades were held were Mobile, Alabama; Anderson, South Carolina; Greenville, South Carolina; Crossville, Tennessee; Salisbury, North Carolina; Lawton, Oklahoma; Baton Rouge, Louisiana; Atlanta, Georgia; and McAllen, Texas.

Robison has rapport with young people and speaks to some 200,000 high school

students each year on such subjects as personal responsibility, youth problems, and moral character.

INCREASING FOOD PRODUCTION - U. S. farmers would likely respond if the call went out to increase food production. But their decision would hinge on two factors - new land would have to be brought into production and prices for agricultural products would have to increase, says an economist for the Texas Agricultural Extension Service. About 266 million acres of forests and rangelands could be converted to cropland, mainly in the Northern and Southern Plains and in the Corn Belt. Prices for agricultural products would have to increase to give farmers an incentive to produce. This, of course, would mean increased food prices.

Pioneer Officials Explain Natural Gas Situation

Hereford, February 16 - Pioneer Natural Gas Company officials met with the Hereford City Commission here tonight to discuss Pioneer's cost-of-gas adjustment.

This meeting developed as a result of a series of questions brought up by the Commission in Hereford and submitted to Pioneer several months ago and Pioneer's request to bring the city up to date on gas supply. Pioneer's detailed 40-page answer to Hereford's inquiry formed the basis for discussion.

C. David Culver, Pioneer Vice President responsible for the Company's gas supply, gave a comprehensive description of the natural gas situation as it exists today in Pioneer's service area. Culver discussed the competitive situation for new gas supply in

the Delaware and Anadarko Basin, Pioneer's main supply areas.

It was later pointed out that while Pioneer's cost of gas in the field had increased from 15.97 cents in November, 1970 to 88.88 cents in January, 1976, this increase was below many other companies competing for new gas supply in the same area as Pioneer. It was also reported that only 16.5% of the gas available on a daily basis could be purchased at the older lower fixed prices of contracts signed before July 1, 1973.

Pioneer officials quoted from a report made to the West Texas Municipal Utilities Commission by its chairman, Fred Poe, which for the first time is available for public discussion and use. In this report Mr. Poe up-dated the report he had made in 1974 and pointed out that he had spent a considerable amount of time reviewing Pioneer's overall operations as far as gas supply and cost was concerned.

In summarizing his findings, Mr. Poe said, "I do not like the increased prices, but I must admit that I feel like Pioneer is still doing a good job at a fair price to us with circumstances as they are. I see no possible way to keep the prices from continuing to rise until we reach the market price. No producer will make long-term contracts today and because of the demand, purchases today will extend lines to areas they would not have considered five years ago. Because of these factors, no one is going to get gas at much below the open market or going price."

Poe's report continued, "Because of some contracts coming up for renegotiation in the very near future, I think we will have above

average increases the next three or four months, and then perhaps some leveling off with an overall increase during the next 12 months of 30 to 35 cents per mcf. This means the homeowners bills will go up another 20% to 25% next year."

"I do not know of anything to do at the moment to curtail the increase," Poe said.

Poe pointed out that as of October 1975, Pioneer's average domestic rate compared to other cities as follows:

- West Texas System (Pioneer) - \$1.47 per Mcf.
- El Paso (Southern Union) - \$1.58 per Mcf.
- San Angelo (Lone Star) - \$1.58 per Mcf.
- Fort Worth (Lone Star) - \$1.55 per Mcf.
- Childress (Lone Star) - \$1.61 per Mcf.
- Houston (Houston Natural) - \$2.54 per Mcf.
- San Antonio (City Public Sv.) - \$2.77 per Mcf.
- Austin (Southern Union) - \$3.18 per Mcf.
- Brownsville (Rio Grande Valley) - \$2.38 per Mcf.

Pioneer officials pointed out that the results of a special study made at the request of representatives of the City of Hereford, showed that there has been a serious earnings deterioration since the rates were set in 1970. The analysis revealed that Pioneer is presently operating in Hereford with an earnings deficiency.

It was further developed that Pioneer does not receive any monetary benefit from money received from the cost-of-gas adjustment. All money collected from the customer for this "adjustment" is paid directly to the producer of the gas.

The Company stated that because of billing lag, increased taxes and gas losses, Pioneer was actually

recovering only about 70% of the pass through cost, and the Company was absorbing the additional 30% increase in cost.

Company officials emphasized several times during the proceedings that it was necessary for Pioneer to continue to meet current market prices in the field if its supply of natural gas to cities in West Texas is to be maintained.

Today's home sewers may find 60-inch woven fabrics available, particularly in polyester denim and chambray. Beverly Rhoades, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System, reports.

Willson-Morris Lectures Set

Christians in the Lubbock area are especially invited to hear Doug Kostowski, California minister and youth worker, speak in a five-lecture series, LCC's annual Willson-Morris lectures March 1 and 2. Kostowski, well-known for his work among campus and youth groups, as well as for his emphasis on the ministry to the cities, will be speaking five times in the two days. Topics will be centered around the theme, "Fellowship."

Local Christians are encouraged to attend chapel with the LCC student body at the 10 a.m. worship period in Moody Auditorium. At those hours Monday and Tuesday, March 1 and 2, Kostowski's topics will be "Life Together" and "Hospital for Sinners," respectively.

An afternoon meeting for preaching students and other interested persons is planned for Monday afternoon at 3 p.m. when the topic will be "Desiderata: Priorities for Ministry." The meeting will be in the chapel of the C. L. Kay Christian Development Center.

Also Monday there will be a devotional message at the Student Senate-sponsored devotional at 9:30 p.m. in the Lobby of the Moody Auditorium. The lesson will be entitled, "Where Will You Be When You Get Where You Are Going?"

The series will close with a luncheon meeting for area preachers at noon in the

Chaparral Room of the Betty Hancock Student Center. Kostowski will talk then on "Making the Bible Come Alive."

Kostowski currently preaches for the Inglewood congregation in the greater Los Angeles area, where he also appears on the weekly Herald of Truth telecast.

The Willson-Morris Lectures were endowed by the J. M. Willsons of Floydada, Texas, to honor Dr. Don Morris, former president and chancellor of Abilene Christian College. The purpose of the series is to bring to the Lubbock campus speakers of unusual ability and expertise in the area of Christian values and family life.

SHOWMANSHIP Award for sheep went to Clay Hamilton.

Conservation Essay Winners Announced

Leanne Abbe, Floydada High School and Patti Christy, Lockney Junior High School were named first place winners in the 1975 Floyd County Soil and Water Conservation District essay contest.

More than 400 essays were received from both the senior and junior contest. For the first time in the history of the essay contest, two divisions were set up for students in the senior high school age group and the junior high school age group. Misses Abbe and Christy received \$25 for their first place essays. Second place winners were Marilyn Smith, Lockney High School and Renee Sanders, Floydada Junior High School, they received \$15 each. Third place winners were Nanette Burk, Floydada

High School and Jimmy Jones, Floydada Junior High School, they received \$10 each.

Presenting the awards at a group meeting of Lockney High School and Junior High School students Wednesday morning were Herman R. King, director for zone 1 of the Floyd County SWCD and Jon J. La Baume, district conservation with the Floyd County Soil Conservation Service.

Presenting the awards Friday evening at the Floydada High School and Floydada Junior High School were G. L. Fawver, chairman of the Floyd County SWCD board and Jon J. La Baume.

Honorable mention went to the following for finishing in the top six of each contest. Minnie Cantu and Becky

Watson-Lockney Junior High School, Edith Reves and Mitzi Terrell, Lockney High School and Troy Marquis, Floydada Junior High School and Jodie Eastham, Floydada High School.

The Floyd County SWCD board wishes to thank all the students, the teachers, and the schools for making the contest a success.

The board wishes to say a big **Thank You** to Mark Martin of Martin and Company in Floydada for providing the \$100 cash awards for the students.

Since only one essay can be entered into regional and state judging, the judging committee selected the essay prepared by Miss Leanne Abbe and the essay has been sent to the Fort Worth Chamber of Commerce to be judged in the Texas Conservation Awards Program.

LARGE COTTON CROP IN TEXAS—Cotton acreage should take a big jump in Texas this year, contends a cotton specialist for the Texas Agricultural Extension Service. The U. S. Department of Agriculture has projected a 10 percent increase in the cotton crop—a half million more acres than last year's crop of 4.3 million acres. However, total planting could move as high as five million acres if sorghum and soybean prices soften before planting starts. Cotton acreage should double in the Rio Grande Valley over 1975 plantings. Large increases are also expected in the Coastal Bend and in the Central Texas Blacklands. Nationwide, cotton acreage should increase about 17 percent over 1975 plantings.

CONSERVATION ESSAY WINNERS (top photo) Leanne Fawver, Nanette Burk and John LaBaume. (second photo) Jimmy Jones, Renee Sanders and Mrs. Teresa Hollums. Christy, Herman King. (bottom photo) Marilyn Smith, Her-

Fairview News

By Mrs. Clyde Bagwell

Feb. 25, 1976

Mr. and Mrs. Lee Burton went to Slaton Wednesday to attend funeral services for Mrs. Johnson.

Mr. and Mrs. Earl Hucabee of Dumas spent Thursday night in the home of her sister and family, the Lee Burtons.

Mr. and Mrs. Charlie Jarrett visited Sunday afternoon with Mr. and Mrs. Lindsey Graham.

Mr. and Mrs. Gus Hammonds visited Sunday afternoon with Mr. and Mrs. Ray Cook.

Major and Mrs. Keith Whitfield, Debra and Brian of Arlington flew here Saturday and stayed until Sunday morning with his mother, Mrs. Ray Cook and Mr. Cook.

Friday afternoon, Mrs. Kate Crabtree and Mrs. Eva Newsome visited at Caprock Hospital with Mrs. W. C. Cates.

Mrs. Clinton Fawver and Melissa visited Monday with Mr. and Mrs. Roy Fawver in Floydada.

Wednesday Mrs. Kate Crabtree and Mrs. Hunter attended the meeting of the senior citizens.

Sunday afternoon Mrs. Kate Crabtree visited Mrs. Mable Smith and later to the

home of Mr. and Mrs. Kay Crabtree and family.

Mr. and Mrs. Ernie Hankal of Weslaco, Mr. and Mrs. A. S. Mize, Mr. and Mrs. Walton Wilson, Mr. and Mrs. Harvey Allen, Mike and Norman were guests in the home of Mr. and Mrs. Bill Tye Sunday night.

Mrs. B. C. Hinsley visited Mrs. Clyde Bagwell Sunday afternoon.

Mr. and Mrs. C. H. Wise visited Mrs. J. L. Day and Wayne Thursday afternoon at their home.

Mrs. Day was home for a few days stay from Floydada Rest Home.

Saturday morning, Mr. and Mrs. L. L. Denton of Albuquerque, New Mexico, visited in the home of his sister, Mr. and Mrs. C. H. Wise. The Dentons went on to Littlefield to visit his brother and family, the J. P. Dentons.

Mr. and Mrs. L. L. Denton have recently moved to Albuquerque from Rupert, Idaho where they lived for many years.

Mr. and Mrs. George Burnett of Amarillo were down Friday and spent the day with Mr. and Mrs. Rucy Irwin. Mrs. Gene Pace of Skelltown came Thursday

and stayed until Sunday with her mother, Mrs. Irwin is among those that caught the flu bug. Monday Mrs. George Burnett came back and will remain for several days with Mrs. Irwin.

Mrs. Joy Guest visited Monday in the Irwin home.

Carl Nelson and his daughter, Mrs. Alden Carthel of Dimmitt, called Sunday to see how Mrs. Irwin was feeling.

Heart Drive To Continue

The American Heart Association, Floydada Unit, are continuing their door to door drive through the first part of next week, according to president, Frank Barrow.

Heart Fund chairman, Randy Hollums, reports the drive is being conducted by students of the Floydada DECA chapter. The group solicited the west part of the city Thursday night and the remaining area will be canvassed during the days next week.

Hollums expressed his appreciation to the students for their efforts in this community service project and to the many contributors, who have made this campaign successful thus far.

Cancer Crusade Chairmen Named

Members of the Floyd County Unit, South, of the American Cancer Society met Thursday night at Lighthouse Electric and named chairmen for the Cancer Crusade designated for the month of April.

Mrs. Dan Hagood was named head of the residential drive; Mrs. Mar Fowler, Crusade chairman and Tommy Farris, business chairman.

The business fund drive will begin the 29th of March, and the house to house drive on Crusade Sunday, April 4.

All workers are asked to meet at Lighthouse Electric

INSUR-MATION

DAVID CATES 983-3273
JAMES RACE 652-3869

How does life insurance affect Social Security benefits?

Life insurance and Social Security work hand-in-hand to provide an adequate income for future needs. Potential benefits from Social Security, alone, may fall short of providing sufficient income for family and retirement needs. Social Security laws say, in effect, that working for a living, his benefits will be taken away... unless he is content to work for a relatively small income. Life insurance supplements Social Security with an income... without carrying the penalty of loss of benefits. Taken as an annuity, life insurance will not affect your Social Security benefits... enabling you to retire with enjoyment.

SILVERTON YOUNG FARMER AWARD ANNOUNCED.

Bill Rumpy, chapter advisor, presented the Outstanding Young Farmer Award to Jimmy Myers as recipient of the coveted chapter award at the 12th annual Silverton Young Farmer-Young Homemaker Awards Banquet held Saturday, February 21, in the Silverton school cafeteria. Myers farms eight miles southeast of Silverton and will compete for the Area I Outstanding Young Farmer Award at the Area I Young Farmer convention and banquet to be held in Lubbock in September.

The Agribusinessman Award went to Steve Barbour, co-owner-operator with his father of Silverton L. P. Gas Inc. G. W. Chappell captured the Outstanding Associate Member Award. Chappell is a charter member of the Silverton Young Farmer chapter and is an active member and supporter of the club.

Outstanding Service Award went to Wayland Fitzgerald, who has always supported and assisted the Young Farmer organization.

Jeff Jones, son of Mr. and Mrs. Troy Jones, received the Outstanding Future Farmer of America 1975-76 Award. Jones is an active member of Silverton's FFA chapter, holds an area FFA office, and is junior advisor for the local chapter.

Receiving plaques for Gold Star 4-H Girl and Boy were Jo Jo Jarrett, daughter of Mr. and Mrs. Claude Jarrett and Thomas Perkins, son of Mr. and Mrs. Thomas Lee Perkins.

The Young Homemakers presented plaques of "appreciation and support" to Mayor and Mrs. Fred Mercer, L.O.A. Jr. Study Club, Silverton Young Farmers, Tope Riddell, Cletus Grady and Hester and Sons Gulf.

Becky Francis, a senior at Silverton High School and daughter of Mr. and Mrs. Alvie Francis, was selected as Silverton Young Homemaker's Little Sister. Miss Francis will represent Silverton, the Young Homemakers and FFA at the Area I Convention and Banquet at Lubbock in September. Presenting the awards for the Young Homemakers was Miss Katy King, local advisor.

Master of ceremonies was G. W. Chappell. The invocation was given by Rev. Freddie Stice. Mrs. Fred Minyard and Jimmy Myers, presidents of the Young Homemaker and Young Farmer clubs, gave progress reports.

State Senator Ray Farabee, Wichita Falls, was guest speaker for the occasion. Senator Farabee's 29 counties make up the 30th senatorial district.

The main topic of Senator Farabee's speech was on rural health care. In December 1975, there were 23 counties, 53,000 population, which did not have a doctor. "Without Doctors, How Do They Live?" Twenty or thirty years ago counties had at least one doctor and one dentist, and not all that long ago dentists were the local barbers.

In 1954 the Texas Constitution was amended to support and have rural Texas medical education. In 1973, Texas passed and funded to carry Texas Rural Medical Act with \$130,000. Now the board of rural people will interview people who are interested and want to go to medical school and who can not afford to will now have a chance. The board has a \$3600 contract for the ones who need financial assistance. For each year these people practice in rural areas, a percent of debt will be deducted.

There is also the Fifth Path Way Program, where people who can not get in medical school in USA might be able to get in medical school in another country.

H.S.A. is an organization for development of health resources in areas where they were not.

There is Bill 635, better known as the Medical Mal Practice Bill, which may help to improve some problems. Hopefully Texas won't find problems that other states have, such as doctors on strike due to mal practice insurance, etc.

Senator Farabee summarized what we can do. (1) Support the program of Rural Medical Education Act - greater appropriations identifying bright young people with this money aid. (2) Don't sit around waiting for a doctor to come to Silverton. There

are several alternatives such as nurses, para medics, medical school at Texas Tech, etc. (3) Stimulate rural development to encourage the doctor that there are opportunities and interesting styles in rural areas. "Don't just sit around thinking of reasons you can't do something because believe there's plenty of 'em and you can't do it. If you wait you will wait forever. Think of ways that can be done and try to improve ways of the area," said Senator Farabee.

Special out-of-town guests were Area I Young Farmer Advisor and Mrs. Walter Labav, Plainview; Area I

Young Farmer President and Mrs. Bobby Ritchey, Freenship; Howard Smith, on, Dirmitt, past president of the State Association of Young Farmers of Texas; Mr. and Mrs. Tony Whitfill, representatives of Light-house Electric, Floydada; Mack Ashmore and three young ladies from Girlstown USA, Whiteface; and local guests were Supt. and Mrs. Bill Willis, Rev. and Mrs. Freddie Stice, Silverton Riding Club President and Mrs. Harvey McJimsey, First State Bank vice president Mabry Greenhaw, Area I State Vice President Calvin Shelton, L.O.A. Jr. Study Club officers, Mr. and
