I AM GLAD TO HEAR from you teenagers...and like I said in my column last week, it's a shame that the adverse actions of a few reflect on so

From the above letters it seems that if the MAC were open to teenagers, the problem of what to do will be solved. This is no problem, just let me, or the MAC board, know what night or nights

of the week you want to use the MAC. When the MAC was first opened, a member of the FHS student council was on the board in order that a schedule could be worked out for the high school students. The only requirement being that the dances...or whatever, be sponsored by someone who would take the responsibility of securing band and the clean-up details to follow. It seemed that no one would take the responsibility.

So...let the MAC board know what you want to do...and when you want to do it and the details will be worked out.

The MAC was built to be used by all the people in this community...including the teenagers.

According to the MAC by-laws the FHS student council president and secretary are automatic members of the MAC board and supposed to be attending the monthly MAC board

FHS counselor Mrs. Emily Johnston is president of the MAC board and I am sure she will work with the teenagers in scheduling the use of the MAC.

IN THIS day and time, it is difficult to find people who don't mind standing up and being counted...and it shows a lot of maturity for you students to sign the above petition joining me, the mayor, the city council, and this community in trying to solve our problem on the drag.

Once more...let's define the problem. The problem isn't the 50 or 60 students who enjoy good clean fun and visitation up and down the drag. The problem is the five or six who break glass, leave bottles and cans on the parking lots, and who are involved in vandalism.

Gift Coffee **Honors Miss** Roxanne Fry

Miss Roxanne Fry, brideelect of Bobby Willis, was honored April 10th with a gift coffee in the Floydada Branch of Plainview Savings & Loan.

Guests were registered by Mrs. Laron Fulton and received by the honoree, her mother, Mrs. Dan Fry of Floydada and mother of the bridegroom, prospective Mrs. Dave Willis Paducah.

The serving table, laid with a white linen cloth, trimmed with lace, held a centerpiece of yellow and white daisy rings with five elevated votive cups of clear frost holding yellow scented candles. The arrangement was later presented to the honoree along with an electric coffee maker and

mixer from the hostesses. Mrs. Dale Kincer and Mrs. Jim Jackson presided at the silver tea and coffee service and also served assortments of bread, mints and nuts. Yellow napkins, bearing the names "Roxanne and Bobby" in gold, completed the

When Texas Democrats go to the polls, May 1, they will be faced with something new - an opportunity to select delegates to the National Democratic Convention. Previously these

delegates were named at the state convention. Voting in the Texas primary will not be for the presidential candidate directly, but for

delegates pledged to the candidate. In the 30th Senatorial District, three presidential slates have qualified. Each slate has hree delegate candidates. One cannot vote a straight ticket by just placing an "X" in one of the boxes. Each delegate candidate must be voted for individually.

The voter is not bound to vote for all three delegate candidates pledged to one nominee. He may, if he wishes, choose any combination of three of the nine delegates. These nine delegates and the presidential candidate they are committed to are listed here:

Dear Mr. Tooley,

It was with great interest that concerning the commissioners' mee take positive action on improving the County Library. From talking with understand that from each revenue county has received, a certain portion the improvement of the library and the the improvement of \$80,000.00. If that saved for improvements and possibly "street level" location, why delay are decides what the revenue sharing progra From all appearances, we should have s anything we like in the way of library

If improving the library would not be in the county, then how can impro South Plains benefit those of us who h corner of our county? Mr. Milton's interesting since this is an election year for re-election. Why hasn't he insisted of the \$80,000.00 be used to impro reports, the road has been in need of As to the point that better library

benefit the entire county, I feel that spe helpful because anything that improve great benefit. And many of us could a along these lines. I sincerely appreciate the positive s

FHS Track Girls Go To Regional

Floydada High School's girls' track team scored 104 points at the district track meet in Idalou and sent two relay teams and three individual competitors on to the regional UIL meet this Friday and Saturday in Odessa.

Qualifying for the regional meet were Beverly Coleman, who won the district 220-yard dash; Donnette Williams, first in the 60-yard dash; Kim Curry, second in the shot put; the Whirlette 880-yard relay team, which placed first; and the 440-yard relay team, second at the district meet. First

and second-place finishers at district advance to regional.

Relay team members (same runners for both events) are Donnette Williams, Martha Rendon, Ronnette Kitchens and Beverly Coleman. Kathy Davis will make the Odessa trip as alternate for the relays.

The Whirlettes also scored points in these district events: 80-yard hurdles - 3. Jaine Guest; 4.

Bicycle Safety Rodeo Slated Saturday Mon

A bicycle safety rodeo will be conducted in front of R. C. Andrews Elementary School Saturday, April 24 at 10 a.m. The rodeo, sponsored by the Community Action Center and conducted by George Finley, is for all kindergarten through sixth-grade students who ride bicycles.

On Friday, children in Duncan and Andrews schools will see a movie about bicycle safety, presented by Sheriff Bud Rainey, as a "kick-off" activity. Bicycle rodeo activities on Saturday will include a safety check and an obstacle course. All those who

participate may win a ribbon. There will be someone on hand to adjust bicycle seats free of charge. Local merchants will be present to sell bicycle accessories so children can

equip their bicycles with such items as reflectors, handlebar grips, horns, pedals, etc. Sunny McDonald, board member of the Multipurpose Service Center of

Floydada, Lockney Get City Sales Tax Rebates

AUSTIN-- Comptroller Bob Bullock mailed checks totaling \$11.9 million to 516 cities and towns last Thursday as payment for their April city sales tax rebates.

Bullock said he has remitted \$87.4 million to the 845 municipalities collecting the one-cent sales tax so far this year, compared to \$80.4 million remitted during the same period last

"Both city and state sales tax collections are growing far faster than inflation alone," the Comptroller said.

He noted that 1975 city sales tax collections totaled \$263.9 million, nearly 10 percent more than the \$240.8 million collected in 1974; and state

sales tax collections in 1975 totaled \$1.266 billion, 12.5 percent more than the \$1.126 billion collected in 1974.

Bullock attributed the increases mainly to increased consumer spending and improved collection procedures by the Comptroller's Office. "Because tax collections are running

so high, I've been able to project that state government can easily get by another two years without a tax increase," he said. "And with careful planning, we might be able to avoid new taxes for years to come.'

Net payment to the City of Floydada was \$2,224.72. The City of Lockney received \$1,403.41.

As It Looks From Here

WASHINGTON, D.C. JUST A WEEK AGO, A LOT OF PEOPLE WERE struggling to get their income tax returns in the mails. It is still pretty fresh on our minds and it is no

MOST PEOPLE REAL-LY DO NOT SEEM TO MIND PAYING what they feel to be their fair share of taxes. A lot of people, however, mind how their tax money is spent. If we thought we were paying no more than what is reasonable and if we felt our money was spent wisely and prudently by Government, all of us would be much happier about paying.

A PRIVATE RESEARCH GROUP KNOWN AS THE TAX FOUNDATION HAS PROCLAIMED this time next week "Tax Freedom Day." It is not a holiday but is designated by this group as the day the "average taxpayer" will have finished working to pay his taxes -Federal, state, and local for the year and can begin to feel that what he makes the remainder of 1976 is his own.

THIS ORGANIZATION HAS COME UP WITH SOME ESTIMATED FI-GURES which appear to be fairly accurate. Attention is called to what it takes in terms of work hours to pay all taxes. Two hours and 35 minutes are required, out of an eight hour workday, to pay this average worker's taxes to all levels of taxing authority. One hour and 41 minutes of that two and a half hours is the Federal share; state and local governments get the other 58 minutes.

at the Weed Control District office.

The district has been getting some applications for control of bindweed, and still has a few applications for the treating of fence row. "We like to have this type work finished by the last of March," Lipham said, "but we will try to work these in. Then we will need to devote all our time to the treatment of bindweed.'

The state highway department will not furnish the Weed Control District with chemicals for treating highway right-of-way as it has in the past, Lipham noted.

THOSE WHO WANT TO REMIND US THAT WE ARE MUCH BETTER OFF THAN ANY other country because people are taxed at a considerably higher rate, may be a little like telling a man who fell off of the roof and broke one arm and one leg that later he can laugh

WE WOULD HAVE TO AGREE WITH JUSTICE OLIVER WENDELL -HOLMES WHO SAID that taxes are what we pay for a civilized society. This is true but it doesn't stop us from complaining at the way much of our tax money is spent. If those who spend our tax money regarded it as their own and treated it as money, our complaints would be fewer.

IT RECENTLY CAME TO LIGHT THAT A LOCAL OFFICIAL SPENT \$30,000 to refurnish a six-room office, the function of which was to oversee welfare payments. The defense offered by the official was that the money did not come from local government funds but from the Federal Government. This suggests that in too many instances, as long as it is Federal funds, it is not real money.

LOOKING AT IT IN ONE WAY, only about half of anyway-it only buys half of what it should. Simple economics tell us that the value of our income is as equally important as the

money to keep your head above water these days, some government statistics claiming it takes \$15,000 a year for a family of four. Therefore there's a problem that's been

worrying me. Somewhere in some attic or laboratory some guy right now may be thinking up a new game. Let me explain.

As you know, our forefathers 200 years ago didn't have to put up any basketball hoops or lay out any football fields and build stadiums, as those games weren't invented then. I don't have the figures, but it takes millions and millions of dollars a year to finance football, considering all the fields, stadiums, uniforms, coaches, bonds, pep squads, etc., not counting

Three special committees

All of the state's volunteer leaders which total 14,533 will be members of the Volunteer 4-H Leaders Association of Texas, noted Dr. Warren Mauk, 4-H and youth specialist for the Extension Service.

"Purpose of the association is to promote the development of voluntary leadership in 4-H," he

Kay Williams, Floyd County Family Living chair-woman; Lynn Bourland, family resource manager for the state Extension Service: and Mac McGavock, adviser to the Family Living Committee, urge the public to attend the county fashion show 8 p.m. Friday at Lockney Elementary Cafetorium.

George Reid, president of Spin Away, Inc. of Dallas will talk on selection, use, acre, and labeling of fashion fabrics, and fabric selection for today's designs.

Miss Jeri More, from Simplicity Pattern Company will bring fashions for men, women, youth and children to be modeled by county residents.

"A lot of cooperation has gone into this fashion revue by all citizens in the county," said Mrs. Williams.

"Floyd County businesses are contributing a great deal of time and effort to make this fashion show a success," adds McGavock.

Sharon Hillis, county Extension Agent, also encourages the public to attend.

Mauk pointed out that the formation of a state 4-H volunteer leaders organization had been under consideration for several years by both volunteer leaders and the professional staff of the Extension

"Formation of the state association is a historic event culminating several years of thinking and evaluating," said the 4-H and youth specialist. "The leaders enthusiastically accepted the idea of a state organization and felt that a milestone had been reached in its formation. They are dedicated to promote 4-H and develop volunteer lead-

Mauk noted that leader education and development programs will receive major emphasis by the new association. He also pointed out that the association will enable volunteer leaders to promote 4-H on a parallel with the Texas 4-H Council and the Texas 4-H Youth Development Foundation.

Rural Electric Cooperatives **Favor Session** By LARRY SPRINGER

A-J Austin Bureau

AUSTIN - Often themselves the target of angry consumer complaints about soaring electric bills, representatives of the state's rural electric cooperatives have told a senate sub-committee they would favor a special session of the legislature to deal with the increasing cost of natural gas.

Austin attorney Walter Richter, representing the Texas Electric Cooperatives, said the high electric bills now being mailed to rural electric cooperative customers are a direct result of the high prices electric generating companies must pay for natural gas which is used

Richter said that while repealing the sales tax on natural gas bills and lowering gas production taxes may offer some small savings to the consumer, a special session should address the real issue which is the cost of the gas itself.

Though not unnanimous in their support of these issues, Richter said a majority of the state's electric cooperatives favor the follow-

-Turning regulation of natural gas over to "a responsible body." Richter said that since two members of the Texas Railroad Commission have indicated that they would rather not deal with gas regulation, the legislature should put control of the gas industry under some agency. He said the cooperative association is not ready at this time to recommend turning over regulation to any specific body, such as the Public Utilities Commission.

-Requiring public hearings before gas costs can automatically be passed through to the consumer. Richter said some agency should assure that only actual gas costs are included in the pass-through

-An end to the so-called "take or pay" contracts.

-Incentives for energy conservation. Richter said he personally favors monetary penalities for electric customers which fail to take measures to conserve power. -Continued reserach toward developing alternative sources of en-

-Repeal of the sales tax on natural gas sales.

Richter said that while the cooperatives group does not favor weilhead regulation of gas prices as a rule, he did say that something should be done to keep those prices from spiraling as high as the more than \$2 per one million BTUs now being paid by consumers in Austin and San Antonio.

The last thing the cooperatives want to do is favor anything that would deter gas exploration," he said. "At the same time, we have an obligation to the consumers.

Richter told the Consumer Committee that while persons operating the cooperatives understand the reasons why gas and electricity prices have risen, the cooperatives are having a hard time convincing consumers that the costs are justified.

He told the senators that the cooperatives "need more arguments to give to consumers to get them off of our backs."

Sen. Lloyd Doggett of Austin told Richter that he didn't think there is any argument which is going to appease consumers in his district which have experienced up to a 1,000 per cent increase in Dovle Hines, representing the Guadalupe Valley Electric Coopera-

tive. Inc., said his cooperative disagrees with the statewide organization on several points. The legislature should "disallow" 100 per cent pass-through of

pot gas purchases by any gas supplier. Hines said. He said the state should develop some form of wellhead regula-

tion, even if its only a moratorium on further increases. Hines said his cooperative particularly is upset with the lack of regulation of natural gas by the Railroad Commission and stressed that he would favor transfer regulation of both gas and oil matters to the Public Utilities Commission.

Sen. Bill Meier asked Hines if he really believes that an appointed body such as the utilities commission will be more responsive to the rate question than an elected body such as the Railroad Commis-

Hines said he believes that public concern is so intense of this issue that the governor would make his appointments in a "mindful and prudent manner.

Richter said the electric cooperatives wrongly catch most of the tlak from the consumers simply because the co-op names are on the

He said that 98 per cent of the electric cooperatives are only distribution systems which buy electricity at wholesale rates from power generators such as the Lower Colorado River Authority. Those wholesale rates contain gas cost pass-throughs which must be passed

Later in the meeting, a citizens delegation from Midlothian, partially served by the Brazos Electric Cooperative, told the committee that rural cooperatives are "extorting" money from consumers who have no other source of power to turn to as an alternative.

rain we received during last week was wonderful, first rain of any amount we had received this year. Most everyone received from 2 inches to near 2 1/2 inches. Thursday afternoon during the storm period for awhile it was so dark that several reported their chickens went to roost, thinking it

was night. Easter Sunday was a beautiful day and large crowds attended church services.

Texans' Natural Gas Rate **4X** Yankees²

It's time for East coast non-producing states to pay more taxes on Texas natural gas, Texas Railroad Commission candidate Terence

O'Rourke said today. "Natural gas customers in Floyd County must pay for

The Floyd County Hesperian Texas production taxes at rates up to four times as high as tax rates that apply to out-of-state customers of gas produced in Texas,"

O'Rourke stated. O'Rourke, a Houston attorney and former Texas assistant attorney general, noted that natural gas production in the Floyd County area last year reached 11,542,277 thousand cubic feet (Mcf).

"Natural gas produced in this area helps heat the homes and factories of the East coast states, but because of the 'Yankee tax loophole' in Texas law, customers in these East coast non-producing states pay less taxes on this gas than we in Texas do," O'Rourke said.

"Because of federal price controls, natural gas going out of state costs 52 cents per thousand cubic feet

(Mef) and the tax for out-of-state customers is based on that amount; but Texas we pay up to \$2.00 pe Mcf and our tax is figured on \$2.00 rather than 52 cents.

"It is time for people in these East coast states. states which would rather deplete our resources than develop their own-to pay as much tax as we do and it is time for the legislature to close this loophole in our state law," he added.

O'Rourke commented that in fiscal 1975, \$194,057,458 in taxes was paid on gas in Texas, while out-of-state customers paid only \$65,309.

"I ask that the legislature change the law and tax out-of-state gas customers on the same basis as gas consumed in Texas," 0'. Rourke said.

"If this were done, the state production tax paid for
