School Registration Set For Friday, August 20

Students will return to school on Friday, August 20 to begin the 1976-77 school year. Registration for the schools of A. E. Baker will be between 1450-1500 hours at the doors of the public schools during the week of August 16-18. Buses will not run Friday, August 20, with buses beginning their regular schedules on August 23.

Students are advised to wear medium color clothing—no extreme colors. Boys should wear ties buy no coats.

Make-up pictures will be made at a later date for those who miss Friday, Tyer said. Also, the annual staff will be selling notebooks during registration.

JUNIOR HIGH SCHOOL

Registration for junior high school will also be conducted all day Friday, according to principal Bob Aldredge. Students may register anytime between 9 a.m. and 4 p.m. at the secretary's office.

Aldredge says he expects enrollment to be about the same as last year, around 240 students. Junior high students will be offered three new courses this year: seventh grade health, eighth grade speech, and a beginning Spanish course.

ANDREWS WARD

Registration at Andrews Ward which houses grades four, five and six will be 9 a.m. until noon Friday, according to Preston Watson, principal.

New students should report to the principal's office. Returning students have already been informed where to report to, Watson said.

Watson expects enrollment at his school to be down since last year because last year's class which moved into junior high school is larger than this year's incoming fourth grade class.

DUNCAN ELEMENTARY SCHOOL
Registration for elementary students will also be conducted from 9 a.m. until noon Friday, according to Bob Copeland, principal.

Returning students were informed during preregistration in May where to

report for registration. New students should report to the principal's office.

The school will be enrolling migrant children four-years-old as of September 1, kindergarten students five-years-old as of September 1, first graders six-years-old as of Sept. 1, second and third graders.

The four-year-old migrants, kindergarten students, and first graders must bring birth certificates and immunization records to registration, Copeland says. A proof of immunization with a doctor's signature must be shown at registration.

State requirements regarding immunization for all public school students are as follows: 1) diphtheria-tetanus, ages five through 11, at least three doses DTP or TD of which at least one dose has been received since the fourth birthday; 2) oral polio, a minimum of three doses of which at least one dose has been received since the fourth birthday; 3) measles, one dose of vaccine or history of measles illness; 4) rubella, one dose of vaccine.

A state department of education ruling forbids local districts from registering four-year-old migrants, kindergarten students or first graders without a birth certificate and immunization record.

Student's birth certificates will be recorded at the Duncan office and returned to parents.

LUNCH PRICES

School lunch prices will remain the same throughout the school system, Supt. Baker said.

Classes at South Plains school also begin August 23, according to South Plains school trustee Kendis Julian.

LION GOVERNOR BILL HOGGE of Plainview is pictured as he presented pins to Floydada Lions at their annual picnic Thursday evening at the Country Club. School Board Approves New Budget

By Wendell Tooley
Faced with a four percent increase in operation costs for another school year, the Floydada school board after lengthy discussion reluctantly raised school taxes five cents in order to keep the school system in the black.

Meeting on Thursday night (as scheduled for the public budget hearing) the board met with barely a quorum with Betty Holmes and Gene Arwine absent.

Without the tax increase the school (according to the new budget) would come up with an \$18,380 deficit.....income of \$1,421,216 and expenditures of \$1,449,596.

The five cent increase will bring in around \$31,000 which will give a surplus of around \$12,000 on the new budget. This raises the tax rate from 90 cents to 95 cents per \$100 valuation and the bond interest and sinking fund remains at 15 cents per \$100 valuation.

The increase is about 4.8%, compared to some 28% increase last year.

Much of the increase is in natural gas and electricity. Of course the new school law requires more income from local instead of state funds.

There was no increase or decrease in the amount of school teachers on the payroll in the new budget.

The budget was presented to the board by business manager-tax assessor collector Tom Cathey and accounting coordinator Leonida Cleveland.

BUS SCHOOL
After considerable study and discussion the board voted to pay the \$44 per person for the school bus driver school which begins Monday at 6 p.m. in the high school. The board felt that all bus drivers should have the training which is state law required September of 1977.

TEACHERS HIRED
The board hired Don Stegall to replace Dale Bullock as agriculture teacher. Bullock goes with the Olney schools and Stegall taught in Arkansas last year. Phyllis Smith was hired to replace Sylvia Ferguson Davis as

second grade teacher. Sandra Rainey was hired as aid to Andrews Ward principal Preston Watson. Judy Campbell as aid to Duncan Elementary principal Bob Copeland. Hilda Vasquez was employed as aid to Joyce Williams.

In other business the board approved the free lunch program and set school lunches at the same price as last year, 85 cents for teachers, 70 cents for high school students, and 50 cents for grade schoolers.

The board opened two bids for school bus maintenance, and accepted the lower bid of Consumers Fuel Association.

Twenty Seven Make

Swine Flu

Vaccination Plans

Mrs. Billie Jordan called a meeting Thursday evening at Lighthouse Electric concerning the mass inoculation for Swine Flu, which will be offered in Floyd County probably in October.

Twenty-seven persons met to see the film and to get an overview of the plans and procedures recommended for the proposed clinic.

Committees were appointed and volunteers began to sign-up for the various pre-clinic preparations as well as working assignments for the actual clinic. Many more volunteers will be needed to help and may contact Mrs. Jordan or any of her staff to sign-up.

Judge Holmes thanked Mrs. Jordan and her staff for volunteering to promote and carry-out the work of the mass inoculation. Watch your newspaper for further information concerning this program.

Harmony Community Homecoming Set

Harmony community extends a invitation to persons interested in attending its annual homecoming Thursday, August 19.

Persons who attend its homecoming should bring a basket supper. Visitation will start at 6 p.m. Supper will be eaten at 8 p.m.

Hosts will be Mr. and Mrs. Carl Bailey, Mr. and Mrs. Edward Baird and Mr. and Mrs. Roy Hale.

Handgun Shootoff Sunday

There will be a Handgun Shootoff Invitational, centerfire only Sunday, August 15, 1 p.m. on the C. C. Whittle place, three miles south of Floydada on the Ralls highway.

Entry fee is \$5.00, 25 round shootoff in three classes... trophies for each class winner. The shootoff is sponsored by the Howard Flying Service.

BAND PRACTICE BEGINS MONDAY
FHS band director Dennis Teasdale reminds all high school band students that band practice begins Monday night at 7 o'clock. Practice will continue Tuesday, Thursday and Friday evenings at the same time. "You all come!"

Lockney, Floydada Lions

Set For Softball Clash

by Art Ratzlaff
With an 0-1 season under their belt, the Floydada Lions club has challenged the Lockney Lions club to a game of slow pitch softball in Floydada Thursday on the freshman diamond across the street from the Floydada High School. The Floydada club lost by 1/2 point to the Floydada Kiwanis club August 5.

officials for the event which will begin at 7:30 p.m. Coaches will be the sweethearts of the two clubs.

SOYBEAN CONTEST DEADLINE MONDAY
All farmers interested in entering the state soybean contest should make application not later than 5 p.m. Monday at the county agent's office. Many benefits for the winner and his family.

Supervisory Development

Course Set For Four Nights

On August 23 a supervisory development course entitled "Training for Maximum Productivity" will begin at 6:30 p.m. at the Massie Activity Center, sponsored by the West Texas Regional Training Center of the Texas Engineering Extension Service.

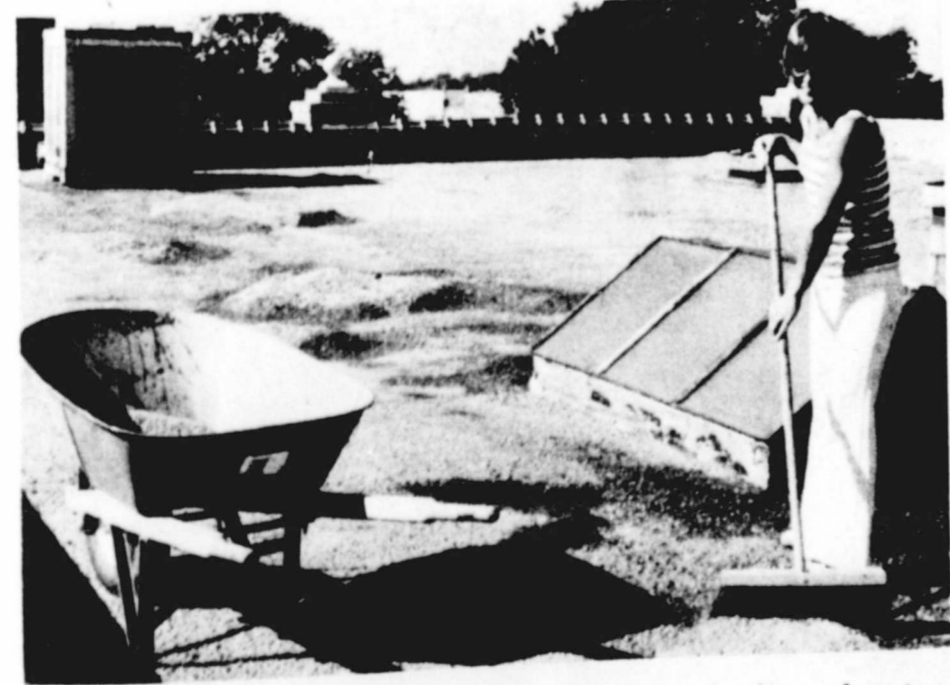

The four-night course has objectives to sell the advantages of employee training to those responsible for productive results, to improve understanding of the learning process, and to demonstrate a current, effectual, and proven method of on-the-job instruction.

The cost for the 12-hour course is \$40 per person. If you are interested, call 983-2827 or come to the Massie

Activity Center at 6:30 p.m. on Monday, August 23, for the first session.

Objectives of the course are to sell the advantages of employee training to those responsible for productive results, to improve understanding of the learning process and to demonstrate a current, effectual and proven method of on-the-job instruction.

Topics will include psychological factors in learning, demonstrations of various methods, factors that cause individual differences in learning ability, valuable tools for a systematic method of training, and application of the principles of on-the-job training for the improvement of instructional skills.

WOMAN ROOFER....maybe the only one in Texas is pictured on top the Hesperian building. She is Annice Brown, who works for the Wee Byee Roofing Company of Plainview. She also helped re-roof the Floydada City Hall building. She is working her way through court Floydada City Hall building. She is working her way through court reporting school in Plainview. Farmer Testifies Natural Gas Hearing

Irving City Atty. Don Rorschach said the commission has proven it is not looking out for consumers by going out months, thus far, without deciding on complaints that Lone Star Gas Co. was overcharging customers in his area through fuel adjustment charges.

Allowing automatic gas cost adjustments on consumers' bills is "proof posi-

tive the regulatory agency is abdicating its responsibility to regulate rates," Rorschach said.

Thomas E. Taylor, director of public utilities for Dallas, said pass-throughs should be limited to 85 per cent and should not include advances and prepayments.

He said the commission should stop allowing inclusion of advances and prepay-

ments—originally designed to encourage drilling of new gas wells—in calculating rates.

Today's high prices are sufficient to encourage drilling, Taylor said.

"Other institutions are available to provide loans to producers to finance the drilling of wells. If gas utilities want to engage in the loan business, the customer should not bear any expense associated therewith," Taylor said.

Summer Fruits, Vegetables: Adequate Supplies Predicted

AUSTIN—July fruit and vegetable crop statistics for Texas indicate that summer potato production will be slightly down from last year but summer onion harvest will increase.

The summer onion crop, which is harvested in the Trans-Pecos area and on the High Plains, is expected to reach 1.980 million hundredweight (cwt.), up from last summer's 1.404 million cwt. crop.

Agriculture Commissioner John C. White said.

Summer potato production is estimated at 2.046 million cwt., down from last year's production of 2.150 million cwt. Acres intended for harvest are set at 9,300 with a yield of 220 cwt. per acre, White said.

According to the crop report, the state's peach crop estimate remains unchanged from last month, at 23 million bushels. Watermelon

acres for harvest also remain unchanged at 55,000.

Harvested acreage for several crops shows an increase over last year's figures: green peppers are up

to 1,900 acres from only 1,500 acres in 1975; cantaloupes, up 200 acres to 5,500; and spring and summer tomatoes, up 300 acres to 5,000.

VICKI LYNN POWELL

Society

Vicki Powell, Steven Craig Engagement Set

Miss Vicki Lynn Powell and Lt. Steven M. Craig have chosen September 11 as the date of their wedding which will be in Perkins Chapel at Dallas.

The couples' parents are Mr. and Mrs. Louis Powell of 7156 Hunter's Ridge, Dallas and Dr. and Mrs. Charles Craig of Floydada.

Miss Powell is graduate of Ridgeview High School of Atlanta, Georgia and Texas Christian University, with a B. A. degree in Fashion Merchandising. While at T.C.U., Miss Powell was a member of Alpha Delta Pi Sorority, the Campus Alumni Board, and Angel Flight. She received the distinction of being chosen Homecom-

ing chairman, was honored as Outstanding Student Leader, and recognized on the Dean's List.

Lt. Craig is a navigator in the Air Force and presently stationed at Dyess Air Force Base in Abilene. He is a graduate of Floydada High School and received his B.S.

degree in physical education from Baylor University in 1973. While at Baylor he was a member of Tau Alpha Sigma Fraternity and the Air Force ROTC. His senior year he was Corp Commander and received the Commandant award.

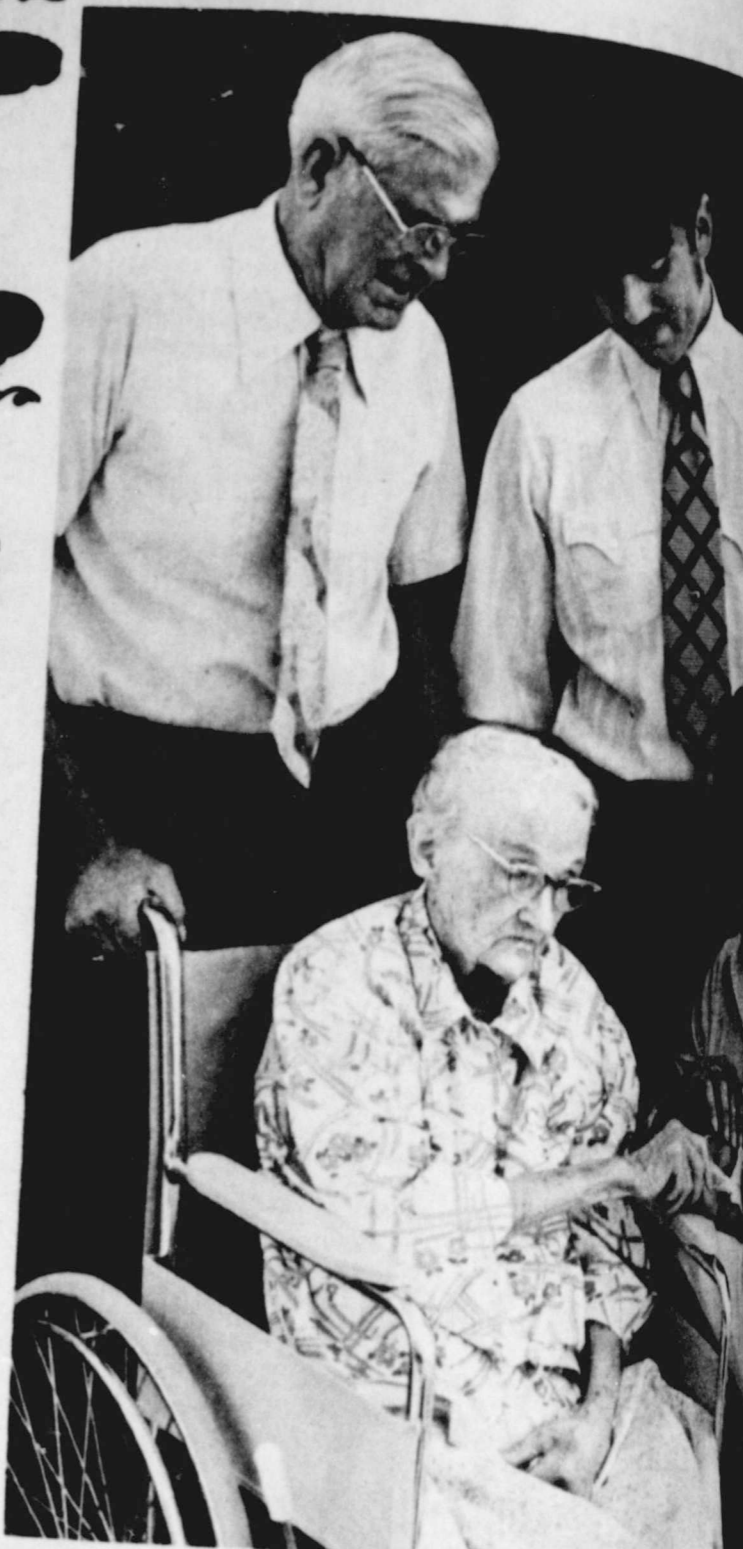

Senior Citizens Enjoy Covered Dish Luncheon

The Senior Citizens met at the Lighthouse Electric Wednesday, August 11, for a covered dish luncheon and a

program. Mrs. Edna Phillips introduced the speaker of the day, Mr. Jim Word.

Mr. Word gave a very interesting talk concerning the establishment and progressive growth of the museum. He told how the building in which the museum is located was given to the county by the Surginer family - early day settlers of Floydada. The first project in the development of the museum was the building of the replica of the Old Montgomery Ranch House which was located in the Blanco Canyon near the Lakeview community. This was directed by Mr. Eli Neff and the work done by the Green Thumb program. Another project is the Memorial Plaques honoring the early day settlers of the county. The building of display cases for the display of family historical relics has been done and all are being used.

Mr. Word stated that the museum is very interested in collecting family historical records and old family photographs and pictures. Another project sponsored by the museum is the Artist-of-the-month program. A different Floyd

FIVE GENERATIONS - and they all live in Floyd County. From youngest: Mrs. G. H. Kellison, who'll be 90 in November; Mack Hickerson; Blake Hickerson; and Rhanni Hickerson.

County artist is invited to place a display of his or her art work in the museum each month.

Other interesting things mentioned were dug out homes, old rock corral fences, and old Spanish shepherders all in the canyon south of Floydada.

There were twenty-two senior citizens and two visitors, who enjoyed this luncheon and interesting program.

Letter To The Editor

Dear Editor,
I was disappointed and saddened when the Hesperian published earlier this week one of the applications being made for two "private" Floydada community. For a number of years I have talked on various occasions but until now have never been projected.

This is a sad day because it will mark the decadence of a fine community. Sad for the set on bringing these clubs to our area and evil being sown will one day come to be lives. It is sad for our community because effected by it. There will be families that destroyed...undoubtedly, lives that shall be Those who drink shall be hurt and many shall also pay in heartache and physical pain. If you would want any proof for growth look at our neighboring city of Lubbock rate and all the attendant moral decay since liquor by the drink came in.

I'm fully aware that these clubs are operated with the law, but I'm also aware of dispensing establishment, legal or otherwise within the law of God. I was made to ask myself "Legally, possibly nothing, but morally, Christian citizen of this community, I must MY PROTEST AGAINST THEM. I can't support or condoning any business purpose of selling alcoholic beverages. I pray that consideration shall be given to bring these "private clubs" to our applications shall be withdrawn. With Christian love and a deep concern for ages in our community, I am.

BRIGHTEN UP YOUR MORNING - Breakfast doesn't have to be a dull meal. The Texas Department of Agriculture home economist suggests serving Cinnamon Surprise Buns. The "surprise" is that the marshmallow in the center of the bun melts during baking, leaving a hollow bun coated with cinnamon-flavored syrup. Scrambled eggs, chilled watermelon-cantaloupe salad and tall glasses of ice-cold milk round out the meal.

Cal Farley's Boys Ranch sets 32nd annual rodeo

It will soon be rodeo time at Cal Farley's Boys Ranch where 370 boys have been getting ready for their 32nd nationally-known contest between pint-size cowboys and bucking stock. It is a Labor Day weekend celebration and approximately 10,000 people are expected to drive to the Ranch over the two-day period, Sept. 5 and Sept. 6.

Nearly 150 boys will be riding the calves, steers, Brahma bulls and broncs in the Boys Ranch Rodeo Arena, competing for trophies and belt buckles. Even the 3-to-6-year-olds will be awarded prizes for riding their stick horses around the barrels. Older boys will be riding professional rodeo stock under

R.C.A. rules. The rodeo is also a homecoming for the approximately 3,000 boys who have lived at the Ranch since it was started by Carl Farley in 1939. They are members of the Boys Ranch Alumni Association and some travel long distances to watch a kind of rodeo in which they, too, were once contestants.

An added attraction will be Texas-size barbecue beef plates that will be prepared and sold by the boys for only \$1.50. Reserve box seat tickets at \$2.50 are on sale at the Boys Ranch Office, 600 West 11th Street in Amarillo. General admission will be \$1.50 for adults and 75 cents for children under 12-years-old. Performances are scheduled for 2:30 p.m. each afternoon.

Underway For Fall Treatment of Boll Weevil

extensively by surveyors who enter each field on a weekly basis to determine the presence or absence and degree of infestation of boll weevils and bollworms," Dean says. "They are also used by ground personnel directing the aerial applicators and by the aerial applicators themselves as they apply insecticides throughout the area.

Dean says the general survey which will be carried out by as many as 30 to 40 survey teams is scheduled to get underway above the Caprock Aug. 9. These teams provide the information on a weekly basis which serve as the basis for decisions in programming fields for treatment.

Diapause Boll Weevil Control Program officials emphasize that bollworm counts will be made right along with weevil counts as the surveyors work each field. Every consideration will be given to bollworm problems or potential bollworm problems when treatment decisions are made. Surveys to verify infestations will begin below the

Caprock Aug. 16. "With the possible exception of some selected fields above the Caprock, the target date for the beginning of insecticide applications is Sept. 6," Dean adds. "This delayed starting date should greatly reduce the

Onion Crop Increase in '76

AUSTIN—Summer onions from Texas are hitting the markets and supplies should be good, according to statistics recently released by Crop and Livestock Reporting Service.

Texas is the nation's top producer of the summer fresh market crop.

Production is expected to hit 1,980 hundredweight (cwt.), approximately 41 percent more than the 1975 crop of 1,404 cwt., according to Agriculture Commissioner John C. White.

Yield per acre will hit 300 cwt., an increase of 30 cwt. over the 270 cwt. per acre yield last year. Harvested acres are set at 6,600, a 1,400-acre jump from the total for the previous year.

Harvest began at Pecos during late May and is expected to continue through August.

On the High Plains, onions are developing well, although some farmers have reported insect damage, White reported.

Harvest in Presidio, which began during the first week in May, is now complete.

PRETTY PROJECT

You can give a little doll you love a lovely little dollhouse you've built yourself. Nearly four feet high and built to scale, it has a traditional sunburst window, gingerbread trim and flower-filled window boxes. '75 Field Crop Statistics Available in Free Publication

AUSTIN—The 1975 Texas Field Crops Statistics book has been published, Agriculture Commissioner John C. White has announced.

The free 89-page booklet includes statistics on all field crops except small grains and cotton.

Such information as production, farm use, sales and value of corn, grain sorghum, soybeans, rice,

peanuts and hay is included.

The statistics book also contains information on the number of farms and land in farms in Texas and the United States, and the number of farm workers in Texas.

For a free copy of 1975 Texas Field Crops Statistics, write Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

Legend has it that the lign aloe plant is the only one descended from the Garden of Eden and that Adam took a shoot of it with him when he left.

FACTS

- ✓ Repairing damaged cars is the biggest single item paid for by automobile insurance.
- ✓ Cost of fixing a new car has risen over 20 percent in one year.
- ✓ Prices on certain crash parts—grilles, radiators, water pumps, trunk lids, bumpers—have risen over 50 percent since July 1, 1973.
- ✓ Subcompacts, designed to provide the most economy, are also the most expensive cars to repair.

* Prices based on Chevrolet Impala, 4-door hardtop, AM radio, automatic transmission, air conditioning, power steering, power brakes, V-8 engine, whitewall tires, (bumper pads and guards, 1976 model only).

Floydada Girl Moves To Germany

(Excerpts from letter from Ann Battey Henneman to Mr. and Mrs. David Battey Jr.)

Dear Mother and Daddy, I made it here just fine. I arrived here (Frankfurt, Germany) at 10:00 a.m. (July 29, 1976). We are six hours ahead of you. My flight all the way was very nice, however, I was exhausted when I arrived here. The plane I flew over on was called Seaboard World, which is an airline used by military charter. We left Charleston, S. C., at 6:45 p.m. July 28, flew to J. F. Kennedy International Airport where we were delayed about two hours due to heavy air traffic. From there we flew up the coast all the way to Newfoundland. I could see the lights but nothing else because it was

night. We flew over the North Atlantic and over Ireland, England, the top of France, the Netherlands, and then down to Frankfurt. Everything looks so beautiful by air.

I am about adjusted and caught up with my sleep. It took about a week for me to get regulated to the time change. I kept wanting to fall asleep in the middle of the day because back in the states it is still night.

I guess I did bring some rain to Germany when I came. It has rained a little nearly every day that I've been here. It is rather chilly also. I am thankful for my Levi jacket. People here are already wearing sweaters and jackets. The temperature is something I will have to get used to. Everything stays rather damp because of the humidity. I tried to

wax the living room floor which is linoleum and it just wouldn't dry. I waited two days for it to dry, but the floor was still sticky. I got some ammonia and just mopped up the wax. It may not be shiny, but it sure is clean.

Our house is real cute. We are having fun fixing it up. We went to Weisbaden this past weekend. The military has a huge shopping center there. We bought two small German lamps for our bedroom. When we bring them back to the states we will need to have them rewired for 110 volts. Here everything is 220 volts. We have several transformers that we use to plug our 110 appliances into so we can use

them without any problems.

On the way to Weisbaden we got lost in Frankfurt. We somehow managed to get on the wrong autobahn, which is like our interstate highways. It took us about 3 1/2 hours to find our way out. The main problem is that all the signs were written in German, of course and we can't read German yet. However, we got to see some of Frankfurt. We even saw a horsedrawn beer wagon.

Our house is beginning to look a little homier now. It is rather strange, because Germans don't build storage closets. There are no closets in the house. The base furnished wardrobes and pantry cabinets. On base we

will have closets. We are hoping to move on base in about six months. We are having fun though. I think everyone should live on the economy for at least a little while. As you can see from the diagram I drew, the refrigerator is in the bedroom.

We went to the commissary last night to buy groceries. Food is a lot cheaper here than I had expected. The only problem is in the fresh produce and meat. You have to stock up on meat whenever it is available. They had a lot of chicken and ham. We are going to try one of the local German stores and see what we can find in the way of fresh fruits and vegetables.

Clothes and shoes are sized differently here. I wear a size 34 dress and 34 shoes, which is the equivalent of size 7. The shoes are all wide. People here don't have narrow feet like me. I may have to order from Sears a lot during the next three years.

Most Germans in this area are very stockily built and large boned. Also I have noticed some Italians here as well as Turks. In fact, our next door neighbors are Turks.

Allan and I have a cute Volkswagen station wagon. It is royal blue and a 1970 model. It has a new engine in it with only about 15,000 miles on it. It runs great. Whoever had it took very

good care of it. We were told it belonged to an older German couple. It should be just fine for our three years here.

Incidentally, when we went to the commissary last night, I found some good Jimmy Dean sausage from Plainview, Texas. I thought that was great!

The town we live in is called Morfelden. We have explored it, and found it to be a very quaint little village. It is just as you might picture a little German village. All of the houses are colorfully painted with flower boxes everywhere. We bought some plants, but I can't tell you what they are. We also bought three little cactuses. Everybody here loves cactus. The base is large and very nice. We have just about anything you could need, and everyone is very friendly.

THE WORLD FAMOUS

Britannica Junior Encyclopaedia

NOW AVAILABLE AT AN UNBELIEVABLY LOW PRICE!...PLUS DOUBLE BONUS OFFER SAVES YOU \$5.98

GET VOLUMES 24 AND 25 FREE WITH PURCHASE OF VOLUME 2 AND 3

There are many special and attractive features that are found only in the Britannica Junior Encyclopaedia.

• **Britannica Junior Follows School Curriculum**

This is the only set sold in supermarkets that is recommended by the American Library Association for use in the home as well as in school and public libraries. Also on the recommended list of virtually every state, province (Canada) and other educational authority issuing such a list. Educational authorities consider Britannica Junior one of the finest reference sources available for children to use.

• **Special Mini-Encyclopaedia**

Volumes 24 and 25 — the Ready Reference Index — is the key to all the information in the set... 24,695 fact entries (actually short articles in themselves); 50,020 page references. It aids the user by providing an instant reference source that often gives all the information needed on a subject. Ready Reference Indexes such as this are usually found only in sets selling for over \$200.

• **More Than 780 Contributors**

The Britannica Junior is prepared under the supervision of the editors of the Encyclopaedia Britannica, with hundreds of contributors from universities, high schools, elementary schools, industry and government.

• **More Than 12,000 Illustrations**

Many in full color, to make subjects fun and learning easy. Plus a sturdy, long-lasting library-style binding, with handsome gilding, fine quality printing on heavy vellum paper.

• **Covers a Vast Field of Knowledge**

Each article presents detailed information and background knowledge on a variety of subjects. Emphasis on science, black history, international affairs, plus detailed treatment of many countries.

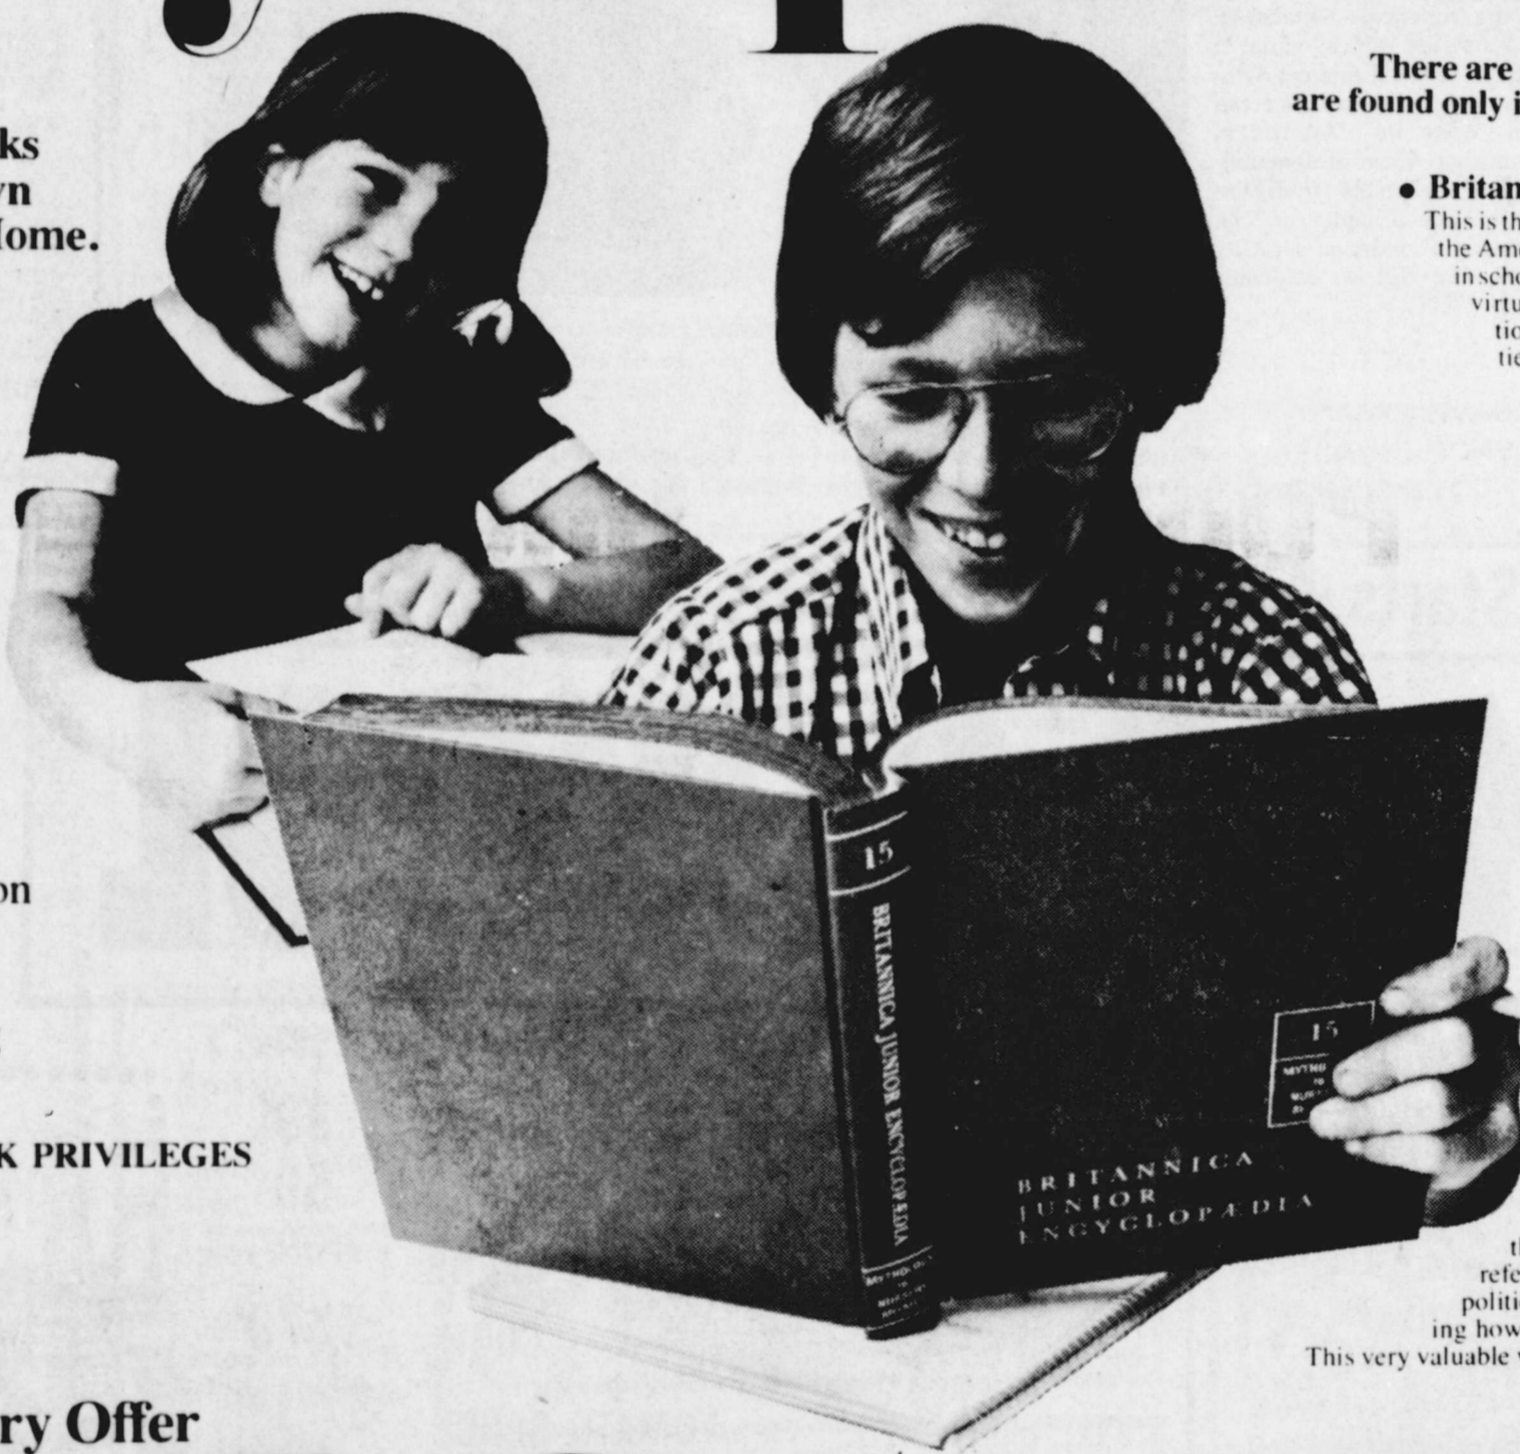

• **Complete World Atlas in Full Color**

Volume 23 is a complete World Atlas with gazetteer that adds additional value to this ideal young students' reference set. Over 140 full-color plates, including both political and physical maps, as well as a special section showing how the earth might look to an astronaut circling in orbit. This very valuable volume is offered as part of the set at regular low price.

A Beautiful Set Of Books You'll Be Proud To Own And Display In Your Home.

Britannica Junior Encyclopaedia is written in clear, concise language and is curriculum oriented. The topics are arranged alphabetically and cross-references lead the reader to related subjects. Material is organized to allow quick access to information for answering questions, preparing homework assignments, or enriching knowledge.

YARD OF THE WEEK-Mr. and Mrs. Kyle Glover 404 S. White have been named recipients of the Yard of the Week award by the Women's Division of the Chamber of Commerce. This is a carefully casual yard, planted with many native plants as well as a wide variety of exotic flowers, ranging from desert cacti to the state flower of Hawaii, the hibiscus, and a beautiful bouganvillea vine usually found in the yards on the gulf coast. Mr. Glover says that the cactus survives South Plains winters but the tropical plants must be moved into the greenhouse before the first fall cold weather. There is a rose garden, a rock garden and a particularly bright point in the yard on the corner of Kentucky and White streets where a large area, planted with red and white geraniums, helps frame a view of a rustic "wishing well." (Staff Photo)

'76 Looking Like Record Year For Texas Livestock Exports

AUSTIN—This year is shaping up as a record year for livestock exports, reports Agriculture Commissioner John C. White. Statistics for the first half of 1976 show that so far, 23,775 head have moved through the six livestock export pens of the Texas Department of Agriculture. This compares with only 25,417 for all of 1975. Value of the animals, including cattle, swine, goats, sheep and horses, has approached \$15 million, White said. "The flow of animals through the quarantine and inspection facilities has been described as 'steady' by pen managers," Commissioner White commented. Mexico continues to be the top importer of animals checked through the Texas facilities, with 16,661 cattle of various breeds shipped to

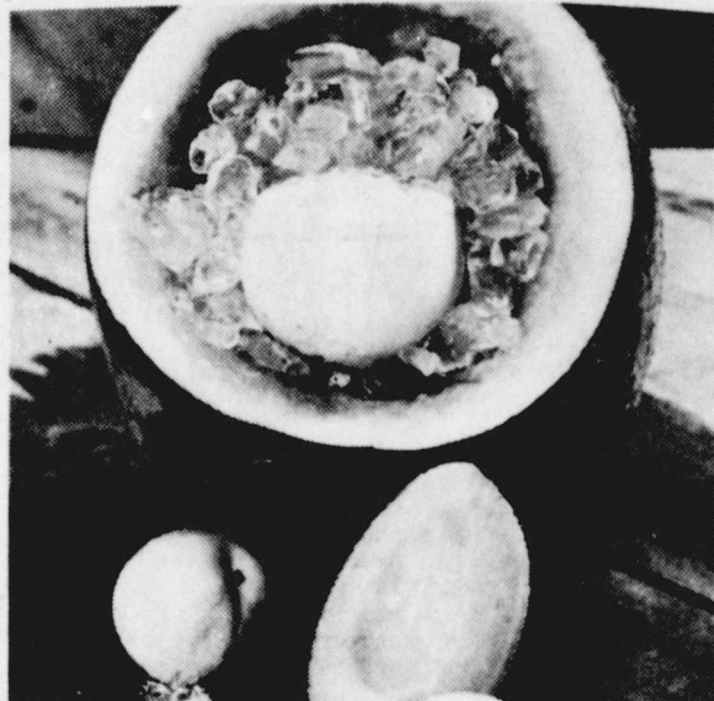

that country during the first half of the year. Other livestock which have entered Mexico from the pens include 144 Nubian goats, 1,667 swine, 3,888 sheep and 465 horses. In the bovine category, dairy cattle led the way with 1,724 Brown Swiss, 13,851 Holstein and 109 Jersey exported internationally. Seven hundred Brahman, 365 Hereford, 302 Santa Gertrudis, 201 Charolais, 174 Angus, 64 Beefmaster, 46 Brangus, 20 Limousin, 26 Red Angus, 23 Simmental and six beefalo were the meat breeds exported. The remainder of the exported livestock are as follows: Swine: Yorkshire, 501; Hampshire, 453; Duroc, 396; Landrace, 190; Chesterwhite, 119; and Spots, eight; sheep: 2,549 Rambouillet, 1,173 Suffolk and 166 Hampshires;

horses: 392 quarter horses, 14 American Saddle Bred, one Appaloosa, two Arabian, three Morgan, four Peruvian Paso, 18 Shetland and six thoroughbred. Other countries besides Mexico importing livestock included Brazil, Paraguay, Venezuela, Guatemala, South Africa and the Philippines. **WOMEN FIGHTERS** Women were vital fighters in the American Revolution, and continue to be essential in the Bicentennial Against Arthritis. Find out how you can join. Write for "Arthritis in Women: A Case of Discrimination," available from the West Texas Chapter of The Arthritis Foundation at 3701 North Big Spring, Midland, Texas 79701. **SAVE GAS, SHOP IN FLOYD COUNTY**

News & Reviews

Floydada First Baptist Church Library
Perhaps there is no grief more crushing than watching a child suffer and die with a disease such as leukemia. The sense of helplessness is overwhelming. Does the Christian faith make a difference? This is the question that John Claypool shares honestly with his congregation in the eighteen months that his eight-year-old daughter suffered and fought a losing battle with acute leukemia. In **TRACKS OF A FELLOW STRUGGLER** he shares his own attempts to cope with this "encounter with darkness." He does not write an "answer" book to the mysteries of life but shares his insights of what God has to say to him in those darkest hours of human experience.

That all will suffer grief is one of the absolutes of life. It is a paradox that we refuse to prepare ourselves for this life experience by pretending that it will not come to us. Do not wait until the heavy blows of sadness are upon you to deal with this question. **TRACKS OF A FELLOW STRUGGLER** is only one of a number of helpful books that could make a tremendous difference in your life. There are many griefs in life to deal with besides death. How successfully we cope with these affects the quality of life for ourselves and those around us. Reach out for the strength that the experiences of others can give you through good books. God has always chosen people to be his partners in his work for good everywhere. Here, from the Bible, are 16 stories about some of these people. Mary Alice Jones has been involved with children and their questions about religion for many years and is the author of **BIBLE STORIES: GOD AT WORK WITH MAN**. Some of those included in this book are Abraham, Moses, Amos, Jesus, who proved God's love for man; Friscilla, who began a small Christian church in her home; and many others. Congratulations to Todd Denton, Danny Crawford, Kenny Crawford, Shannon Edwards, Wally Davis, Cindee Davis, Rob Pratt and Brad Rainer for reading 13 books in Uncle Sam's "Reading Ring's the Bell" Club. Those who were absent last Sunday morning when the certificates were presented, may pick them up in the Church library.

DRESSINGS FOR FRUIT SALADS-To spark interest in fruit salads, the Texas Department of Agriculture home economist recommends trying Heavenly Cream Dressing, Citrus Peanut Dressing and Honey Fruit Salad Dressing. Although simple to make, the trio of dressings adds a dramatic flair to Texas watermelon, cantaloupe, strawberries and peaches.

Ft. Riley, Kan. (AHTNC) July 19-Cadet Douglas L. Garrett, son of Mr. and Mrs. Austin Garrett, Floydada, Tex., is receiving practical work in military leadership at the Army Reserve Officers' Training Corps advanced camp at Ft. Riley, Kan.

The six-week ROTC advanced camp provides an opportunity for cadets to develop and demonstrate leadership capabilities in a field training environment. Most cadets are fulfilling their advanced camp requirement during the summer between their junior and senior years in college. However, there will be a number of graduating seniors who will receive Army commissions at the completion of camp.

Cadet Garrett, a student at Texas Technological University, Lubbock, is one of more than 48,000 cadets from colleges and universities across the nation, enrolled in Army ROTC training. The cadet is a 1971 graduate of Floydada High School. His wife, Vernetna, lives in Lubbock. (U.S. Army Photo)

Your Farm May Qualify

AUSTIN—With less than a month to go before the August 16 deadline, applications for the Texas Department of Agriculture's Family Land Heritage Program are coming slowly. "This year, fewer than 30 farmers and ranchers have qualified for the program," Agriculture Commissioner John C. White said. "We

hope that families who think they qualify will send in applications." White urged Texans whose families have owned and continuously operated the same land for 100 years or more to apply. To qualify, persons must live on and work the land, or, if they live off it, they must actively manage it. If all the land was ever rented out, it will not qualify, nor will acreage devoted exclusively to timber or hunting leases. Applications are available from the county judge's office, Texas Historical Commission county chairmen or from the Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711. Applications and supporting documents of ownership must be presented to the county judge for

C. W. Starkey, Flomot, admitted 8-11, continues care.
 To clean a grease-laden oven, place a pan of water and one to two tablespoons of ammonia in the oven and let it stay overnight. Sponge off the grease in the morning.

Cedar Hill News

Glenda Kaye Thompson
 Sunday, Belle Lemons visited Mrs. May Taylor after church. Mrs. Grace Keeter of Plainview also visited Mrs. Taylor.
 The Tom Fortenberry's have had company this week their daughter Patsy Boone and her husband Lafayette and their two girls Pam and Danita spent their vacation here at Cedar Hill this week.
 Tuesday, Jimmie Kay Sales came and stayed until Saturday with Connie Welch.
 Friday, Syd Brown of Floydada visited the Albert Mize's.
 Friday, Denise Riggs of Lubbock came and spent the weekend with the Jackie Thompson family.
 Tuesday, Steve and David Fortenberry spent the night at their uncle's house. Their uncle is Durrell Fortenberry. Durrell's boys Brian and John spent the night their grandparents Robie and Ruth Fortenberry.
 Friday, Alice Beauchamp came to spend a few days with the Tom Fortenberry's.
 Friday night Mrs. May Taylor visited her sons home.

Frank Barrow Graduates From Banking School

The Southwestern Graduate School of Banking graduated 218 bank officers last week at McFarlin Auditorium on the Southern Methodist University Campus in Dallas, Texas. The graduation ceremony concludes the third session of the Class with graduates having completed case studies, a course of extension work between sessions, and a thesis of major report. Of this group 192 are Commercial Banking Majors and 26 are Trust Majors from 21 states. Among the graduates, fifteen women will receive degrees, 12 majoring in Commercial Banking and three in Trust. Seven hundred forty-three bank executives attended the 1976 Session of the Southwestern Graduate School of Banking, which was completed with the graduation ceremonies. The Session was attended by 255 Seniors, 224 Intermediates, and 279 Freshmen from 29 states. The faculty of 241 included bank presidents, chairmen of bank boards, and other bank officers, attorneys, executives of commercial and manufacturing corporations, administrators of bank regulatory agencies, and professors of finance and banking.
 Floydada's Frank Barrow, senior vice-president, First National Bank is a commercial major graduate.
