enjoyed the back yard hot dog supper. In other business chamber of

commerce manager Doug Frazior explained to the club requirements for building two tennis courts in the park across from Floydada High School. He has a \$5,000 grant to be used on tennis courts and he asked the club to match

Wendell Tooley reported that the bids on the courts would run around \$10,000 for plexi-pave surface and Tooley also reported he had asked the school board to supply the back stop

fencing for the two courts. The club voted to study the plan for

a month and make a decision at next month's meeting.

Speical guests were Mr. and Mrs. Gary Steves. Gary is new high school tennis coach. Barrow appointed the following nominating committee for new officers: Jackie Eubanks, Vickie

Rainer and Flo Davis. Barrow presented plagues of appreciation to Jean Hale and Eleanor Hendrix for coordinating one of the most successful Floydada tennis tournaments ever....there were 247 entries in this year's tournament.

Nina Copeland reported a little over \$2200 in the club fund.

Winds Four TDs, Brownfield 0

By Wendell Tooley A big crowd of Whirlwind fans were in attendance Friday night to see the Whirlwinds scrimmage AAA Brownfield. And.....the fans were well pleased with what they saw....four Whirlwind touchdowns, none for the Brownfield Cubs.

The 'Wind passing attack was most impressive as quarterback Jay Womack handed off to Rusty Cagle who threw a bomb to Morris Keele. Morris was almost on the goal line and fullback Calvin Reese dived over the middle of the line for the touchdown next play.

Randy Ratheal caught a long pass from Womack for a touchdown and Rusty made another on an end run.

only defense, he intercepted a Cub pass

COACH COMMENTS Coach L. G. Wilson said he was pleased with the defensive play of his team and felt the overall team looked fairly good for this "stage of the game." He said that Ricky Carthel would have seen more action, but sprained an ankle. He said he thought he would still utilize the platoon system with only three or four players going both ways. SCRIMMAGE FRIDAY

Everyone is invited to watch the varsity 'Winds scrimmage the Plainview Bulldog JV at 4 p.m. Friday here. Coach Wilson said he had six more JV and one more Freshman come out for football since school started.

Pension Checks In Floyd Hit \$3,174,000

NEW YORK. How much do Floyd County residents stand to gain from the boost in Social Security payments, which has just gone into effect?

What will be the average size of retirement checks to local beneficiaries under the new schedule?

Based upon the latest figures from the Socail Security Administration, which show the number of recipients in the area and the amount they have been getting, their benefits during the remainder of this year will be approximately \$96,000 greater than

The increase represents a 6.4 percent hike for those getting Social Security benefits as well as for most of the people receiving Supplementary Security payments, which aid the aged, the blind and the disabled in those states that participate in the supplemental program.

The added benefits, which will affect 37 million people in the two programs, will cost \$5.3 billion over the year, according the the Social Security Administration.

The increase was mandated by a

change in the law, which became effective last year, under which any future increases in benefits are to be tied to increases in the cost of living.

The determining factor is the Labor Department's Consumer Price Index and the amount it goes up between the first quarter of one year and the first quarter of the next.

Under the new scale, the annual payment for a retired worker rises from an average of \$2,448 to \$2,616 and, for the average couple, where both are receiving benefits, from \$4,176 to \$4,464.

retiring at age 65, goes from \$4,368 to \$4,648. The new minimum will be \$1,295 as against \$1,216 previously.

What it adds up to, for Floyd County as a whole, is that pension payments to local residents will amount to approximately \$3,174,000 in the current fiscal year, as compared with \$2,983,000 last year.

As for Social Security taxes, they remain the same. The only adjustment this year has been to levy taxes on the first \$15,300 of income instead of on

Electric Plant Peaks

Floydada's electric plant hit an all time high peak production mark about 3 p.m August 13 a total of 3650 KW.

City manager Bill Feuerbacher said that the big V-12 engine is just about ready to go and should furnish an additional 1500 KW power. Feuerbacher received some bad news this week as Pioneer Natural Gas jumped the cost of natural gas to the plant some

Feuerbacher said it was hard for the plant to make a profit with fuel prices continually going up. The city's bill to Pioneer last month was \$22,000.

·· Bob Reeves Carries On A Rich Tradition

by his great-grandmother Elizabeth Wilson in 1890. This and his two Bob) Reeves a additional sections have him involved gical college in ranching, farming and in quarter claims a rich horse interests. He is also a chime-clock goes as far back

Too, he is the great-grandson of J. H. Reeves who settled in the south part of Briscoe County in 1882 and established a rural post office known as Reeves, Texas, long since gone.

Bob calls attention with pride to the fact that on August 16, 1861 Great-grandfather Reeves enlisted as a private in Company G,36 of the Mississippi Infantry in the Confederate Army. He was captured at Hatcher's Run June 7, 1865 and was released at Point Lookout, Maryland after taking the oath of allegiance.

Naturally, the present Reeves brands the Drag R (R-) first used by his great-grandparent. This brand represents Briscoe County on the stone mosaic in the Crosbyton museum.

Equally interesting, a road made by pioneers and freighters, dimmed by the ravages of time, diagonals from the south to the northeast across the Reeves' place. It runs by the north side of a rock quarry that furnished rock for a rock corral that was used by neighbors and other ranchers in an early day when there were no fences

and when cattle ran on an open range. Well-known freighter "Burro James" used this road when he trailed one wagon and pulled another by 12 burros, six in breast. His regular route began in Estilene and ran through Turkey. Gasolene, Quitaque, Silverton, Reeves and Lockney. He loved people and was loved. His patience was a marvel.

'After my great-grandmother settled here, her son Bradford operated the home stead site. He went one day to check on the place. After the visit was over, an old fellow shot and killed Bradford with a shotgun as he was getting in the car. He was such a jolly old fellow, no one could understand why he committed the crime. The man's oldest son came to see what had happened, grabbed the shotgun, bent the barrel over a post and made a futile attempt to do something for Bradford by rushing him to a doctor."

It was by invitation that Oscar Reeves, Bob's grandfather, became first tax assessor and collector of Briscoe County at the time of its organization. He was on crutches all of his life having been severely handicapped from polio when he was two. Travelling by buggy, he became a successful rancher buying and selling

"Once Grandfather Reeves caught a lobo pup and gentled it partly. Later he became afraid of it and chained it in the orchard. One day Grandmother was watching two of my aunts coming from school facing a norther. One had a coat over her head backing into the norther. She was backing straight into the lobo which was snarling and leaning out on his chain. Aunt was topped just in time, but my grandfather saw to it that was the last of the lobo," he relates.

In spite of his handicap, Oscar Reeves at one time operated 40 sections of ranch land south east of Silverton. Linguish Falls a popular early-day site in the canyons was on his place.

At length, Grandfather Reeves decided to build a home in Plainview in order to educate his family and give them some cultural advantages. This was in 1908.

This three-story residence was built on 11th and Columbia streets. Much later, at the time it was torn down, the "Plainview Daily Herald" ran a picture referring to the house as a landmark "being razed." The structure had stood for more than a quarter century. Oscar Reeves "purchased the block on which the house is located in 1907 and built the residence there. It was one of the first homes built on W. 11th Street which was called Restriction Street

originally," the Herald states. When Bob's father, Sim Reeves, married Sallie Austin in 1925, they moved to the Wilson home place and farmed and ranched using the same brand that had been his great-grandfather's and grandfather's. Sim died in 1969. His sons, Robert and Raymond have taken over the homesteaded land. Their mother operates a ranch near

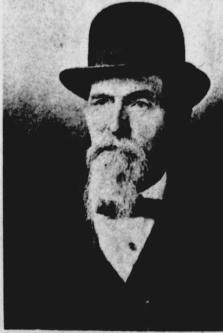

Memphis. "In August, 1970, a Confederate marker was placed at the grave site of Joseph Harvey Reeves in Citizens Cemetery of Clarendon, Texas. Present were: one grandson, one great-grandson and three great-granddaughters."

Bob Reeves, a former engineering teacher in Texas Technological College

at Lubbock began teaching "because I wanted to. I stopped teaching and started back to ranching and farming because I

couldn't get the country out of me." This fourth-generation West Texan smiles when he says that.

GREAT GRANDMOTHER Elizabeth Wilson homesteaded the land where Bob Reeves lives. Great Grandfather Joe Harvey Reeves came to Briscoe County in 1882.

Its just as well tho. I can imagine what the area would have looked like if the situation hadn't been taken care of. Ruth said she had a wonderful and exciting time in the Kansas City area. She attended a Prayer Breakfast at which time Dr. Bill Bright, president of the Campus Crusade of Christ, spoke, and Pat Boone sang. She also saw President Ford and his wife, Ronald Reagan and Nelson Rockerfeller Despite the bad parts, demonstrations and vulgar signs, Ruth said the good things remain in her mind from the convention, mainly how courteous the police force was. She said if she or her daughter in law, Mrs. Ray Walker of Dallas, were in a situation of needing directions about the city and asked a policeman, they never failed to get a polite smile and answer.

More Young People Choosing Rural Life

WASHINGTON,--"How do we keep our young people from leaving?" This has been asked by rural people ever since the flight to the cities began in the early 1940's. But Dr. Walter A. Gunt-

harp, administrator of the Rural Development Service in the U.S. Department of Agriculture (USDA; says, "Because of the new trend of rural populatin retention and growth, the question of young people leaving for the city is of less concern now in most rural areas. In 1966, 68 percent of the black sophomores hoped to live in an urban area. By the time they were 6 years older, in 1972, only 50 percent of the same

study sample preferred an urban residence. Cosby pointed out that the 1972 data on black youth's residence aspirations indicates a turnaround in this group's perception of where opportunities for a better life exist. "For decades," he said, "black young people

as Beale all said another factor involved in the increased preference for rural living among the young is a basic change in their orientation to higher education. They are placing less emphasis on going to 4-year colleges or universities. Instead, trade schools and junior colleges are becoming more important to them. And since both types of schools are expanding in rural areas, more rural young people can pursue

As It Looks From Here

Omar Burleson, M. C. 17th District, Texas

WASHINGTON, D. C .-Because of the Republican Convention last week in Kansas City, there has been no Congressional activity. Of course, the bureaucracy grinds on, as usual.

Therefore, this is a bit of nonsense about cats-not the 'Cool Cats" with two legs-but the four legged kind. According to the Cat Fancier Association, there are sixty million cats in this Country. (Wonder who went out and counted them?) Anyway, cats are interes-

ting. Whether you like them or not, there was a time when no respectable barn would be without them, for a good purpose. Istanbul, Turkey, sitting astride the Bosporus Straits, depends on cats for rat control. They are everywhere- on the streets, alleys and underfoot in restaurants. If they jump on your table, you give them a bite and gently push them off. In Guayaquil, Ecuador, vultures are not only tolerated, it is against the law to molest them in any way. They have no sewage system and the vultures are the garbage collectors.

Now-back to cats. They have been around about as long as we have. Mohammed had a cat. Cardinal Wolsey kept a cat. Pope Pius XII had quite a few. Victor Hugo and Baudelaire had cats and wrote about them. Martin Luther and Lenin liked cats.

Until 1492, America had no cats. Columbus and his crew brought them. Then, as now, cats were aboard all merchant ships to meet the old old problem of rat incursion. English, Dutch, French and Spanish colonists brought more cats to the new world. They proved their worth in preventing rodent damage to grains. Wagon trains, pushing west ward, carried cats with them. Indians were plaqued by rats and other vermin. They traded furs for these wonderful helpers.

As our enterprising forefathers pushed into the wilderness, establishing mining and lumber camps, they considered cats as an asset. They sold for as much as \$50.00 each. Stories abound of "catnappers" -- stealing cats in the east and shipping them west for good profits.

Some have allergies. Some just do not like them. Genghis Khan, Napoleon and Mussolini hated cats. Other historic figures seem-ed to feel otherwise. Thomas Jefferson and George Washington had numerous felines at Monticello and Mount Vernon. Lincoln felt kindly toward cats.

It is said that nobody "owns" a cat. They are not reputed to have a loyalty to man as do dogs. Their independence and unpredictability are well known, but they are here to stay-all 60 million-so they say.

Now that we are in a presidental campaign, numerous questions are being asked. While we ask the candidates how they stand on National Health Insurance and other expanded roles of Government, per-haps we should ask how they stand on cats.

We must make sure, as best we can, that we do not have the fur pulled over our

We are delighted that a retailer of the size and stature of Montgomery Ward is adopting our 'Natural Blend' fabric with such enthusiasm," Hahn comments.

Ward's management sub-

Cotton Incorported is supporting the new shirt with TV advertising on the "Today" show and with a toll-free telephone number that television viewers can call to find out the closest Ward outlet.

Hahn notes that Montgomery Ward will also make a special effort to sell the shirt during the Christmas season with newspaper advertising inserts, as well as with continued TV advertising.

Ward's management has given the shirt its highest possible rating for sales effort, Hahn points out. All stores are stocking the shirt and giving it the highest Thursday, August 27, 1976, Page 7

Mrs. J. B. Allen was visited Friday afternoon of last week by her daughter, Mrs. Tress Tannahill and her daughter, Mrs. Sherri Taylor and two daughters, from Friona. On Friday afternoon of

last week, A. B. and Opal Blount and sister, Mrs. Johnnie Newman from Lubbock, visited in the home of their cousin, Johns Cox, his wife, and the Caleb Coxes.

Mr. and Mrs. Pat Frizzell and Gay, accompained by Mr. and Mrs. Doug Meriwether and Monty, spent the weekend at Quartz Mountain Lodge near Altus, Oklahoma. They were met

Thursday, August 27, 1976, Page 8 Okla. last week in preparation for the Fall semester. Melanie attended summer classes for eight weeks at Southwestern this summer.

Mrs. Laura Shaffer of Donaldson, Arkansas visited her sister-in-law, Mrs. Maude Kellison, on Sunday, and other Kellison relatives in the Lockney area.

Mr. and Mrs. Glen Watson had as guest on Sunday, their grandson, Lonny Watson from Dallas. Visiting in the Johns Cox's

home on Sunday and with the Caleb Coxes were John's brother Mr. and Mrs. T. B. Cox of Canyon; his sister Mrs. Alvin Nichols; and his cousin Miles Cox of Hart. Mr. and Mrs. T. B. Cox also visited with Mr. and Mrs. Sid Thomas Sunday. Messrs. and Mmes. Buck

Kellison, Leslie Ferguson and R. C. Mitchell left the airport at Lubbock at 8:00 a.m. August 14th for Seattle, Washington, where they joined the "Fritz Smith Tour Group" and flew to Ketchikan, Alaska and spent their first night. On the 15th they took a 15-hour ferry ride to Juneau. Along the way they saw porpoises and whales in the ocean. At Juneau, the men took a plane tour over the Juneau area and saw the glaciers from the air. They flew to Anchorage, Nome and Kotzebue; they crossed the Arctic Circle on the Kotzebue flight. The group then returned to Anchorage. It was while staying at a hotel in Anchorage that they felt an earthquake measuring 5.9 on the Richter scale centered near there and the Kodiak Islands area. They flew back to Seattle on Saturday, left the group and returned to Lubbock Sunday night, August 22nd. They report having had pleasant weather while in Alaska, having seen many beautiful flowers while there, and having had a enjoyable time.

Mr. and Mrs. Royce Hayes from Leoti, Kansas are visiting for two weeks in the home of his parents, Mr. and Mrs. G. A. Hayes, and other relatives in the Lockney-Plainview area.

Mel Holcomb of Floydada and Mrs. Marjorie Martin visited her sister, Mrs. Max Marble and her husband and boys, Marlin and Larry, at Floyd County Philosopher Doesn't Like Either Pak Party's Platform, Writes One Of His Own

Editor's note: The Floyd Philosopher on his Johnson grass farm has drawn up a political platform of his own, but of course he's not running for anything.

Dear Editor:

The same as everybody else except the people who wrote them, I have not read the entire platforms of the Democratic or Republican parties, but I have paid enough attention to catch on to some of the main planks and I am forced to say that don't suit me. I knew they wouldn't suit me before they were written. A man who can't develop his own prejudices ahead of time isn't going to have any fun with politics. Might as well try to keep a delegate from waving a sign. Anyway, just to be doing, I have drawn up a platform of

my own, facing up to the issues as I see them: TAX LOOPHOLES: Some people are in favor of closing

the tax loopholes. I don't want them closed, I want them pointed out.

CHILD CARE: A good idea. All children should take care of their parents.
