

General Election

James E. Carter

Gerald R. Ford

There are 4,745 qualified voters in Floyd county. How many will take the time to vote in the General Election Tuesday?

The polls will be open from 7 a.m. until 7 p.m. Tuesday and a list of every voting place in the county appears on another page of this newspaper. A sample ballot also appears in this edition for the voter to study before Tuesday.

From Alaska to Hawaii, and from California to New York, residents of the United States will go to the polls next Tuesday to elect a President for a four-year term. State, district and county positions also are to be filled in the November 2 general election.

Since there are no contested county or district races, interest generated locally is focused primarily on the Presidential race.

Incumbent Gerald R. Ford, the Republican standard-bearer, and his chosen running mate, Robert Dole, are

pitted against the Democratic team of Jimmy Carter and Walter Mondale for occupancy of the White House from 1977 through 1980. Also appearing on the ballot for President and Vice President are American Party candidates Thomas J. Anderson and Rufus Shackelford, Social Workers Party candidates Peter Camejo and Willie Mae Reid, and Independent Presidential aspirant Eugene J. McCarthy.

Lloyd Bentsen, the present officeholder and a Democrat, is being opposed by three other candidates for the position of United States Senator from Texas. Pitted against Bentsen are Republican Alan Steelman, Marjorie P. Gallion of American Party and Pedro Vasquez of the Socialist Workers Party.

Only one other race appears on the Floyd County ballot. That is for railroad commissioner, a post presently held by Ben Ramsey, who is retiring at the end of this term. Seeking the post

after being nominated by their respective parties are: Jon Newton, Democratic; Walter Wendlandt, Republican; Raza Unida, Fred Rodriguez Garza; and Pat O'Reilly, Socialist Workers.

United States Representative Omar Burleson of the 17th District of Texas heads a list of persons, mainly incumbents, who are unopposed for election.

WRITE-IN CAMPAIGN

One of the most extensive write-in campaigns ever waged in Texas is underway for Associate Justice Supreme Court, Place 2. Don Yarbrough gained the Democratic Party nomination in the primary. He is unopposed on the ballot, but Sam Houston and Tom Loran are announced write-in candidates. Houston and Loran charge that Yarbrough won the nomination because of a similarity in his name and former prominent Texas politicians. They add that Yarbrough is the defendant in 16 civil suits.

Aprock Chat

REALLY BELIEVE that both Gerald Ford and Governor Carter are good honest Christians. Neither is as impressive or presidents like Thomas Jefferson, Abraham Lincoln, Franklin

Congress. In conclusion, our greatest hope is that you will take time to vote Tuesday. It is not so important that you agree or disagree with us...but it is important that the will of the people be known in this very important election.

MANY PEOPLE SAY, "Well, I'm not taking time to vote Tuesday...my vote won't count anyway." I would like to point out the following situations, when one vote was mighty important:

-In 1645, one vote gave Oliver Cromwell control of England.

-In 1649, one vote precipitated the execution of Charles I of England.

-Because of one vote in 1776, we now speak English instead of German. Ja Wohl!

-In 1839, one vote elected Marcus Morton the Governor of Massachusetts.

-In 1845, one vote brought Texas into the Union.

-In 1868, one vote saved president Andrew Johnson from impeachment.

-In 1876, one vote changed France from a monarchy to a republic.

-Also in 1876, one vote elected Rutherford B. Hayes President of the United States.

-In 1923, one vote gave Adolf Hitler leadership of the Nazi party.

-In 1941, one vote saved Selective Service just 12 weeks before Pearl Harbor.

THE THURSDAY AND FRIDAY snow was greater than we have here all winter some years. One old timer says it was back in 1918 when it last snowed this much in October.

WE ARE ALSO VOTING for freedom. Persons who refuse to make a choice between the candidates and cast a vote are in fact choosing to give unreasonable power over their lives to those who do vote. Failure to exercise control over one's destiny at the ballot box is a first step toward encouraging totalitarianism.

In most of the nations of the world, citizens do not have the right to make a choice...even the limited choice between two major candidates and a handful of minor candidates. If we fail to vote, we fail to recognize and affirm our freedom.

I SUPPOSE AT MY AGE Christmas comes earlier every year. However, Thursday I saw a Christmas tree going up in a store and hear "Jingle Bells" on the radio....

I guess the early snow is creating the Christmas spirit earlier.

"MY INTELLECT as well as my instincts lead me...to the conclusion: that men have a positive yearning to be good - to love and be loved...latent in many men; it surfaces sporadically in others; in certain rare individuals it is uppermost at all times. Some men keep it covered up defensively lest its exposure render them somehow vulnerable. In order to avoid disappointment, they refuse to hope."

Albert Rosenfeld

A GOLFER phoned his favorite opponent and told him sadly their next match would have to be postponed.

"My doctor advised me to give up golf," he explained.

"Why didn't you ask me first? His opponent asked solicitously. "I could have saved you a doctor's bill."

Pension Checks In Floyd County Above Average

NEW YORK:-How much money is going to residents of Floyd County each month in the form of Federal pension checks?

How do their checks compare, on average, with those going to people in other areas?

On the basis of the latest official figures from the Social Security Administration, the pension payments locally are relatively high.

They have been getting larger over the years by virtue of the frequent upward revisions legislated by Congress and, more recently, because of their being tied in with the cost of living. In July the benefits were increased by 6.4 percent, in line with a first quarter rise in the Consumer Price Index.

As of the beginning of this year, payments to beneficiaries in Floyd County were at the annual rate of \$1,907 per recipient. This compares with \$1,183 four years earlier.

Elsewhere in the West South Central States, the average was \$1,897.

Just how much goes to a pensioner or to members of his family depends upon his annual income during his active years and, in turn, upon his contributions to the retirement fund.

The comparatively large benefits that most local people become eligible for upon retirement reflects the fact that their earnings, during their working careers, were better than average.

The number of retired or disabled residents qualified to receive Social Security payments has been growing larger, year by year, due to revisions of

the law that have reduced the age of retirement and have brought in classes of workers who had been ineligible before.

The current report lists the total in Floyd County on the receiving end as 1,730. In 1971, by comparison, there were 1,511.

Mary Martin In Library

If you want an exciting look at Hollywood and the New York Theater during the 1940's through 1975, read Mary Martin's new book, "My Heart Belongs." It will bring back many a memory.

First of all, it is the personal story of the Weatherford, Texas girl who became a Broadway star from her first song, "My Heart Belongs to Daddy" and continues through 1973 with her last Broadway hit, "I Do, I Do."

But it is the Texas names and pictures which will catch the interest of Floyd County relatives and friends. There are the Martin Family and their relatives of Weatherford, Jack Amlong and his orchestra (remember those years of WBAP broadcasts from the crazy water hotel in Mineral Wells? Mary Martin sang with the band). Fort Worth, Billy Rose, Casa Manana, the Dallas opening

The title is from Mozart's most celebrated serenade, and the story is adapted from "Smiles of a Summer Night" by the renowned Swedish filmmaker Ingmar Bergman.

The show not only waltzed off with the New York Drama Critics Circle Award when it appeared in 1973, but it also garnered six Tony Awards, and Burns Mantle named it one of the year's 10 best plays.

It begins with the premise that the summer night smiles three times—"first, for the young who know nothing; second, for the fools, who know too little; and, third, for the old, who know too much."

Jack Kroll of "Newsweek" called it a "subtle, funny,

touching and even profound exploration of love." Richard Watts in the "New York Post" termed it as possessing "not only style and imagination and an attractive score but also a somewhat unusual quality that combines humor with a touch of sadness."

Walter Kerr in the "New York Times" called the musical "a thing of considerable grace, with the courage of its quaintness." Clive Barnes of the "Times" called it "heady, civilized, sophisticated and enchanting."

Julie Wilson has received rave notices for her performance in "A Little Night Music," as well as for her appearances in night clubs, on television and in such hits as "Follies," "Kiss Me Kate," "Kismet," and "Company."

Probably the best known hit from the musical is "Send in the Clowns." The music and lyrics are by Stephen Sondheim, whose earlier

Merry Christmas and oops! I mean Happy Halloween with all this white we have been having I get mixed up.

We sure have had some nice devotionals this week. Monday and Tuesday Wayne continued the lessons on God's Psychiatry. Thanks. Mayme McGhee has played the piano for us so beautifully. Thanks Mayme.

Tuesday Mable Foster and Edna Phillips from Floydada, took Jr. Williams, Mary Lillard, Mr. and Mrs. D. W. Burke and myself to the Baptist Camp Grounds outside of Floydada. All the trees were changing colors. This was very beautiful. We all enjoyed the trip very

much.

After the trip the children from the Main Street Church of Christ came and sang songs for all of us. Thanks to Janie Klein these children are all very important to our residents.

Wednesday was a delightful morning. The Methodist folks came and brought our devotional. The afternoon brought much pleasure by Mayme McGhee playing our piano. All the residents enjoyed singing. We had the fireplace glowing and the music putting sunshine in our hearts.

Thursday morning Bro. Clay Muncy came and led our devotional. Fred and Jewell Fortenberry came. Thanks to all of you'll.

Once again bingo brought fun to our residents. Our big winner was Mary Lillard. She won a jar of candy corn.

I want to take this opportunity to thank everyone

who I have met at the home, for being so kind and helpful to me while I was activity director. Your kindness and friendships will always mean a lot to me.

Lydia Molina will be bringing you the capers next week. She is very excited and will be very good for the residents.

Until next time.
God bless and keep smiling

Cartter Aide Cites Farm Labor Stance

Proposition 14 has been hotly contested by land owners. Aspects of the measure include a requirement for employers to provide union organizers the names and addresses of all employees at any indication that an organizing effort is being made.

It also would give union representatives free access to private property to conduct organizing efforts.

Allan Grant of Vasalia, Calif., president of the American Farm Bureau Federation, has charged that the proposal is an issue with far-reaching implications for farmers and ranchers throughout the country.

"If Proposition 14 is adopted by the voters in California, a far-reaching precedent will be established that is bound to affect farm labor legislation adopted in other states and on any such legislation passed at the national level."

He asserted that the proposition is a frontal attack on the basic civil and property rights of farmers.

"If union organizers are permitted by law to enter private property to carry on whatever organizing activities they see fit, then farmers no longer have any property rights," Grant contends.

Concerning Carter's plan to build agricultural commodity reserves, Smith said the presidential contender would support "up to" a 60-day supply for domestic consumption with "at least" 50 per cent being controlled by producers.

He presented no specific circumstances under which the government would release its share of reserve stocks or the release price at which the government-controlled commodity would be fed into the marketplace.

"This is something that must be taken into consideration in conferences with interested commodity leaders and also members of Congress," Smith explained.

But he emphasized that Carter would not use government stocks to manipulate prices.

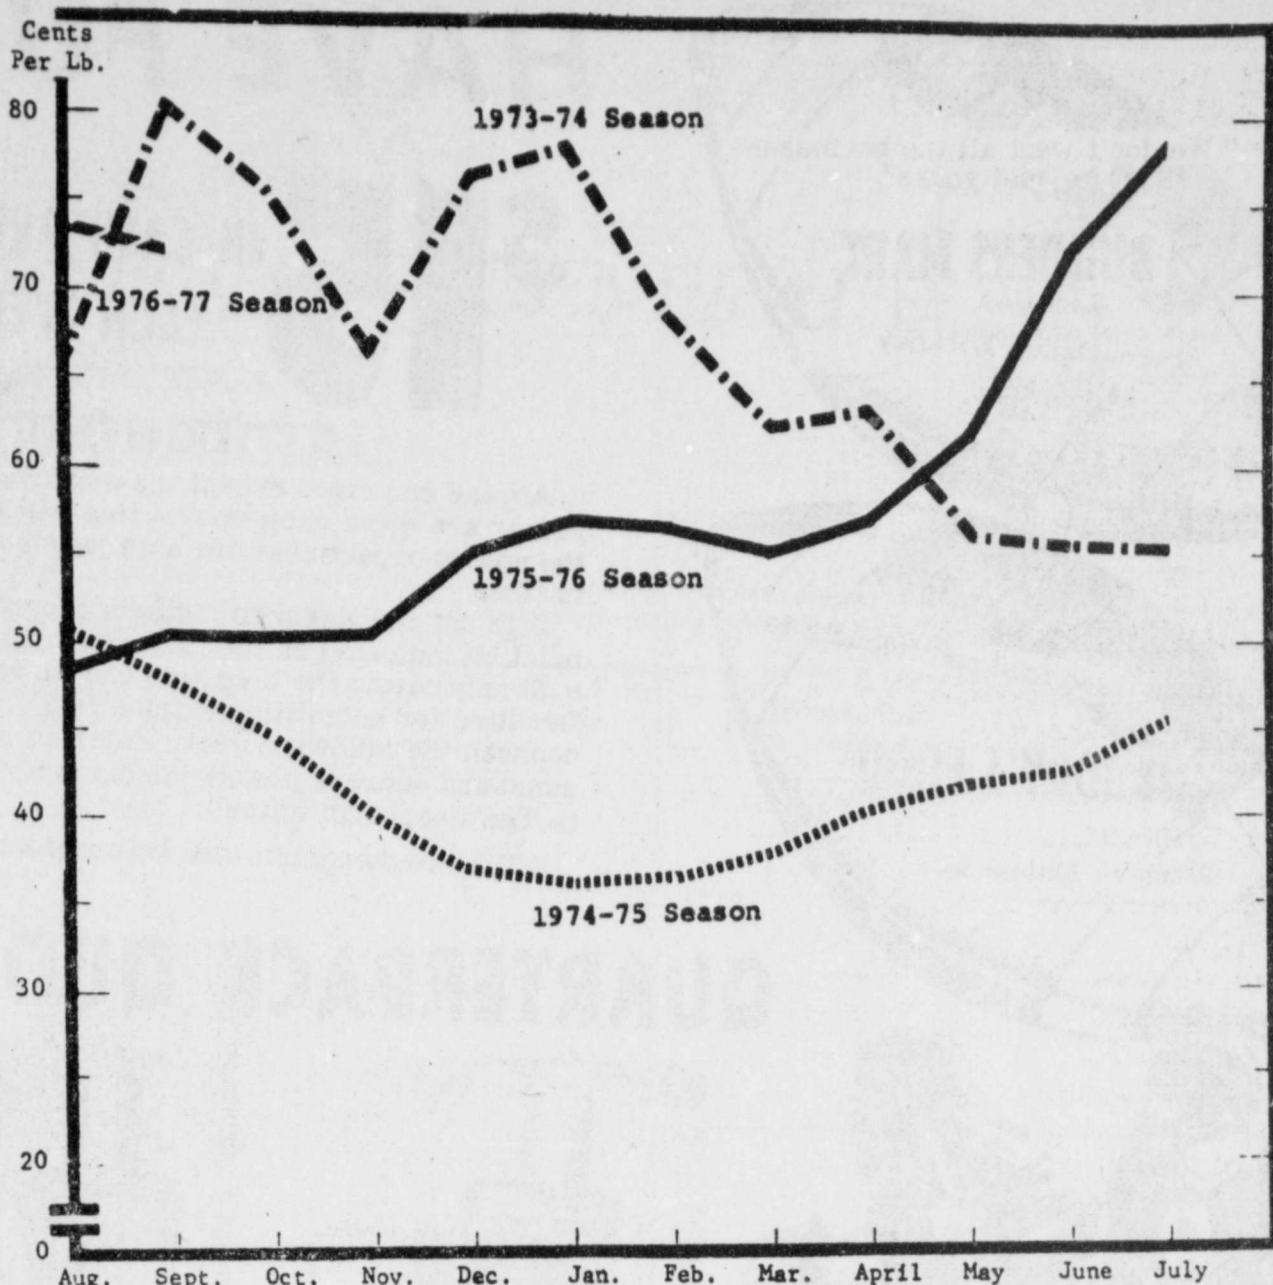

Talmadge commented that he was "not overwhelmingly enthusiastic about large quantities of reserves being in the hands of the government" because of their effect as a price depressant.

"Now I want adequate reserves, but I want those reserves primarily in the hands of the farmer and not in the hands of the government," he said.

Talmadge and Smith agreed on what level they felt target prices and Commodity Credit Corp. (CCC) loan rates should be set. Both advocated a target price about equal to the cost of production with the CCC loan at 80 per cent of that cost.

"Jimmy Carter has said we must have realistic target prices," Smith pointed out. "In farmer language this means out-of-pocket costs — not to guarantee a profit, but to guarantee that he will not go bankrupt."

Talmadge and Smith arrived by private plane in Lubbock and were escorted to Hale County by L. S. "Don" Anderson of Slaton.

COTTON PRICE TRENDS — Monthly average spot prices for grade 41, staple 34 (strict low middling, one and one-sixteenth inches) cotton in the 10 markets are plotted on this U.S. Department of Agriculture graph for the past three seasons for the first two months of this season. Spot prices fluctuated widely during the first half of the 1973-4 season, then dropped sharply. During the 1974-5 season, spot cotton prices declined the first

half of the year, then turned around and advanced the remainder of the season. Prices trended upward most of the 1975-6 season, ending at 78.73 cents per pound. In August, the first month of the current season, the monthly 10-market average was 73.25 cents, up nearly 25 cents from August 1975. Prices weakened in September, falling to 72.26 cents per pound.

Law May Facilitate SBA Loans Family Farm Owner-Operators

which the two agencies will take to cooperate in such assistance.

It makes clear that farmers seeking loans will be encouraged by the field offices of both agencies to use FmHA lending programs whenever the applicant meets FmHA eligibility standards and the program meet the farmer's needs.

But it also says both agencies will work together and help the farmer find the best program for his needs.

Specifically it provides that:

— Potential applicants are not to be referred back and forth between FmHA and SBA.

— Neither agency will refuse a loan request from an applicant who prefers to file with that agency.

— Applicants who are denied FmHA assistance for any reason, including lack of FmHA funding, may contact SBA for assistance.

The FmHA programs available, with maximum amounts, are: operating loans, \$50,000; farm ownership loans, \$100,000 (total debt of \$225,000); soil and water loans, \$100,000 (total debt of \$225,000); recreation loans to turn farms into public recreation areas, \$100,000 (total debt of \$225,000).

Four other programs with no fixed ceilings are: rural housing loans, business and industrial loans for pollution control, grazing association loans, and irrigation, drainage and soil and water association loans.

The four SBA programs, with maximum amounts are: regular business loans, \$50,000 (\$150,000 maximum from SBA funds with rest from private lender with SBA guarantee); economic opportunity loans for economically or socially disadvantaged, \$100,000; water pollution control loans to meet federal or state requirements imposed under the federal

water pollution control act, no fixed ceiling; and other "substantial economic injury" programs, various or no ceilings.

Nelson said he has been informed by the SBA that all of its offices would be ready to handle potential applicants for farmer-financing loans by the end of October or shortly thereafter.

Good News For Citrus Lovers... Crop Production Forecasts... Wheat Pasture Outlook.

If you like citrus, a report from the Texas Crop and Livestock Reporting Service should make you happy.

Texas' 1976-77 citrus crop based on Oct. 1 conditions is forecast at 17,700,000 boxes. This year's production is expected to be five per cent more than a year ago and 49 per cent above the small crop of 1974-75.

COTTON PRODUCTION FOR TEXAS is now forecast lower than a month ago due to weather conditions. Sorghum and corn estimates are unchanged from a month ago.

Upland cotton production is now estimated at 3,000,000 bales, down four per cent from a month ago but still above the 1975 production.

Sorghum production is unchanged at 318,000,000 bushels. This is 15 per cent below last year, however.

Harvest of the crop is now about 75 per cent complete.

Corn production is still set at 161,000,000 bushels, with record yields reported.

Peanut production is set at 27,000,000 pounds, which is 70 per cent under a year ago.

Peanut production is now forecast at 475,850,000 pounds, which is three per cent more than last year.

Rice production is now expected to be four per cent more than a year ago.

PROSPECTS FOR WHEAT PASTURE in Texas are good in most areas due to recent rains. Very little grazing has been available until recently.

Lower Grain Prices?

Farmer's much emphasis on the "why," Texas Grain Sorghum Producers Board offers

the following situation report which should give some explanation.

FENCE TO FENCE PLANTING: Increased plantings of grains are taking a heavy toll on price scales. The combined 1976 production of grain sorghum and corn in the Texas High Plains is estimated at 274.5 million bushels, an increase of 45.36 million bushels over the previous five-year average of production (or enough to fatten 1.14 million head more of 600-pound steers than are now fed). The same trend of production is noted nationwide.

SHORTAGE OF STORAGE: Nationally the amount of storage facilities is far from adequate and in most cases already full. Lack of storage forces grain into the market.

MISSISSIPPI RIVER LOW: Corn is backing up due to the Mississippi River barges not being able to haul full loads.

HARVEST SEASON SLUMP: Harvest time is normally a weak price period; however, with increased corn production and inadequate drying and storage facilities, more pressure to sell for what is offered becomes increasingly common which forces prices downward.

LACK OF CONFIDENCE IN MARKET: Because of

the presidential veto last year, there is no real speculative interest compared to two years ago.

OUTLOOK

Grain sorghum production estimated are down from 758 million bushels in 1975 to 714 million bushels for 1976. Corn production is as forecast on October 1 at 5,865 million bushels in comparison with 5,767 million bushels in 1975.

Why would an industry build productive capacity to fill 100 percent of a market in which it supplies less than 70 percent of the demand?

"Ask the man-made fibers industry," says Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock, "because that's exactly what the man-made makers have done."

Recent figures from the Textile Economics Bureau, Inc., reprinted in Modern Textiles magazine, show U.S. man-made fibers manufacturing capacity at 10.9 billion pounds of non-cellulosics, rayon, acetate and textile glass fibers.

"That's a quarter of a billion pounds more than the total fiber consumption of U.S. textile mills in 1975," Johnson points out.

It's true that textile fiber consumption was down in 1975, from the 1973 high of 12.5 billion pounds to only 10.639 billion. But by May of 1977 man-made capacity will have risen by almost 14 percent to 12.4 billion pounds, "within an eyelash of the record 1973 consumption figure," the Modern Textiles story reads.

"It's obvious from this that cotton's competitors in the fiber market expect a return to earlier consumption levels and a resumption of the uptrend," says Johnson.

"But if they are to utilize full capacity," he continues, "they also will have to take a big part of the 3.06 billion pound market that cotton held in 1975, and that's clearly what they intend to do."

This is why, according to Johnson and other cotton industry officials, the man-made manufacturers are spending 40 times as much on research (\$230 million) and 17 times as much on advertising (\$60 million) as cotton.

"And it is also why," believes Johnson, "that our own fiber research and market development company, Cotton Incorporated, so desperately needs the added funds that will come from favorable vote in the CI referendum in December this year."

The referendum would authorize an additional producer assessment of four-tenths of one percent of bale value, over and above the current \$1 per bale. It should just about double the CI budget for research, advertising and promotion.

"And it should more than double the odds against synthetics taking over the cotton markets that keep us all in business," concludes Johnson.

On the lighter side, Rosalynn plans to introduce down-home square dancing at White House social functions. And she will follow in the Fords' footsteps by breaking the long tradition of separate husband-and-wife bedrooms in the White House. "I'll do like we did in Georgia," smiles Rosalynn. "We'll give the First Lady's bedroom to Amy."

JIMMY CARTER

*knows what it's like
to make a living in
the country.*

***“Farmers don’t want a guaranteed profit,”
Jimmy Carter says. “But they want a fair shake.”***

The Nixon-Ford Administrations have given the West Texas farmer \$6.00 milo in 1974 and 1975 costing \$10,000. In 1976 the Ford Administration has given us \$3.65 milo and \$25,000 tractors.

The present administration tells us we have a free supply and demand of farm goods without government control under Ford cry for all out production by the farmer.

Nixon-Ford PROMISED free markets. They DELIVERED four embargoes in three years- - one under Nixon, three under Ford. embargoes that collapse farm prices.

Both the cowman and the hogman have supplied meat for this country at a loss since the Republican ceiling of '73. ABOUT IT It is those of us in agriculture- - THE FARMER AND THE STOCKMAN- - who feed the nation. Can we continue to do so without

. . . Food Producers, Think . . .

It's time to put in the White House a man who understands the problems of Agriculture
