Citizens Urged To Attend Health Systems Meeting

In an effort to improve public accessibility to quality health care at reasonable prices, the United States Department of Health, Education and Welfare has designed a nationwide system of regional health planning agencies. "The concept, said Peck, "Is one of localization. It seems the government

services - working together." Asked how the local populus was to approach such issues, Peck said, South Plains Health Systems is currently scheduling a series of public meetings in cities and towns throughout the 15-county area we serve. At these meetings, local citizens will be asked to help our staff members pinpoint local health care priorities, and offer their suggestions to help the planning process along."

The public is invited to attend any part or all of these meetings, and the youth are especially invited to hear young Avaritt.

According to Peck, "the information gathered at these meetings and from individual citizens will be used to formulate a long-range health care

development plan for the South Plains which will, hopefully, reach the goal set by the Department of Health, Education and Welfare. That being, to improve public accessibility to quality

health care at reasonable prices." "The thing that we, as individuals, need to keep in mind," said Peck, "is that the health planning team can't fully understand all the situations that exist in our communities unless we accept our responsibility as free people and speak up.

her father down an aisle marked with hurricane lamps tied with white bows. She was presented in mar-riage by her father at the alter which was floored with white satin. Gowned in white soft jersey designed with a Queen Anne neckline, the bridal gown featured an empire bodice of reembroidered Alecon lace and seed pearls. The long tapered sleeves of the gown were also trimmed with Alecon lace and pearls. An A-line skirt swept to back fullness and formed a chapel length train. In proposing the National cient Health Care Act of 1977, the veteran Texas legislator, who serves on the House Ways and Means Health Subcommittee, told Congress that the goal of better health care for all Americans can be attained now "if we enlist all our resources, private and public, in a meaning ful and workable partnership to frame solutions that are both realistic and effective."

Burleson said he believes priority this legislation offers us "the most effective, efficient and economical way to improve health care and extend its availability to all Americans. My bill would build on the present health delivry and insurance system with improved Federal standards and guidelines. It would not only improve protection for all Americans, but it would also help control the cost of health care. This bill would achieve these goals without destroying the pre-sent health care system which has served our nation well. It would not create a burdensome and expensive Federal bureaucracy and it would not impose unconscionably higher taxes on our already overtaxed citizenry. It is time to improved our present health delivery and insurance system, not

This year's output of chewing tobacco was estimated at 84 million pounds, up from less than 80 million two years ago. The production of snuff tobacco remained unchanged.

Production and consumption of small and large cigars as well as pipe tobacco decreased. Consumption of large cigars fell from 8.2 billion in 1970 to just over 5.3 billion this year.

Farm Prices Lower

WASHINGTON (UPI) - Prices farmers get for the crops and animals they raise rallied in December but still wound up lower than a year ago.

That report from the Agriculture Department Thursday did nothing to alter the department's forecast that food prices will stabilize this winter, rise in the spring and wind up in 1977 averaging 3 to 4 per cent above this year's - a modest increase by recent standards.

The department reported that raw farm prices rose 3 per cent in the month ending Dec. 15, breaking a fivemonth slump which had brought farmers' prices down 12 per cent.

Nonetheless, the year-end price level was 4 per cent below where it stood this

The farm price report generally

serves as a rough indicator of coming-trends in retail food prices but does not always point to immediate changes. Supermarket prices are affected by other factors such as marketing costs.

Government economists predict retail food prices will be fairly stable during the winter but will rise in the

For 1977 as a whole, retail prices are expected to average 3 to 4 per cent above this year - not quite as much as the relatively moderate increase in

The 3 per cent rise in average farm prices in December came after declines in four of the previous five months.

The increase was led by prices for hogs, cattle, corn, soybeans and eggs. Those increases were partly offset by lower prices for wheat, oranges, milk and vegetables.

A comparison of farm prices with the

cost of things farmers buy also showed farm product values rose from 66 per cent of the "fair earning power" parity

level in November to 68 per cent of The November level was the lowest since 1933 and the cause of much farm

Many economists discount the value

of the parity ratio as an indicator of the health of the farm economy because it is based partly on economic relationships going back more than half a century.

But many farm leaders point to the parity figures as a sign that farm commodity prices have been losing ground to farm costs.

You may think I'm criticizing all this, but you're wrong. I want the system extended. For example, take farming. Say a farmer makes, in a good year that comes along once in a great while, \$20,000, without any free trips to town and back. But finally he retires or, so to speak, gets beat, not by the voters but by a combination of the weather, insects, low prices for what he sells and high prices

for what he buys plus high taxes to support his government in the manner it's accustomed to. Shouldn't he get a pension of about half of what he used to earn, say \$10,000 a The trouble with farmers is that not enough of them are dunderheads.

Yours faithfully,

Farmers worry of missing man and their wheat

IOWA PARK, Tex. (AP) -About 40 North Texas wheat farmers say they are concerned about their grain stored by an ********** Iowa Park grain dealer who reportedly fell overboard from a

cabin cruiser in the Gulf of Mexico early Monday.

U.S. Coast Guard officials at Port Aransas said a three-hour air and ground search failed to turn up any trace of Robert Johnson, 43, of Iowa Park.

Farmers who gathered at Johnson's grain office here Monday said they were worried because the office had been closed for several weeks and a note on the door said it would

By Faye Walters

This first week after Christmas has been a good one, and all our staff at the Nursing Home hope 1977 will be the best and happiest year for all our residents that they have ever had.

I think some times we tend to forget just how much we owe these Senior Citizens at our home. They deserve so much from us all. When we think of all the hard times they endured so we might have things as easy as we do now, it makes us wonder what the world will be like in another fifty years and how much thanks we will receive for what we do now.

We have all enjoyed the devotions this week, but was sorry some of the people could not be here.

I would like to say a special thanks to two of our Floydada pastors who have been so good to come every week and minister to our residents. Melvin Byrd from the City Park Church of Christ and Gary Cook from the Assembly of God Church. We realize these men are very busy but they always find time some how for our old people. May the Lord bless them.

We also thank the other pastors who come out on Sundays.

Wednesday we had a real nice field trip and enjoyed ice cream. Taking this trip were Hope Hammonds, Agnes Anderson, Florence Badgett, Viola Weems, Mr. Freeman, Dora Langford and myself.

Thursday was fun day with Bingo. Top winner was Hope Hammonds with four games; Hallie Bertrand, Agnes Anderson, Della Finley, and Clara Williamson and Ray Reed each won two games.

We are happy to have a new resident. Bill Reasoner. Sure hope he will be happy here. We are sorry we have one

resident in the hospital, Willie Mae Stambough. Hope she will be home soon. Our administrator and his wife have been to east Texas

to visit his folks. We hope

they had a nice trip. We are thankful for all our visitors this week which included: Suzanne, Michelle, and Dustin Holladay, Amarillo; Mrs. Lloyd Patterson, Goodwill, Okla.; Mrs. Arthur Cheves, Plainview; Mrs. Clifford L. Davis, El Paso; Josephine and Verdie Smith, Lockney; Mr. and Mrs. Otis Anderson, Wiley Rogers, Joe Peck, Mrs. Paul Wilson, Corine Mankins and Sue Moore all of Floydada.

Whirlettes Finish Fourth In **Muleshoe Tournament**

By Doug Simpson The Floydada Whirlette varsity cagers journeyed to Muleshoe on December 30, 31, and January 1, in hopes of getting back on the winning track and picking up a bit more road experience before play begins for keeps on Friday against 4-AA foe Lockney, but came home empty-handed, despite a temporarily sound performance versus first round victor Littlefield. The Whirlettes had suffered 39-23 and 58-43 defeats when the final buzzer sounded, ending their hopes for a consolation trophy and leaving them with a dismal 2-13 record, going into district competi-

second period, as the only points the visitors could manage were a single bucket apiece by forwards Kim Curry and Kathy Davis. Going into the dressing room at the midway point, the Wildcats had erupted for 17 points and led 26-14. The third stanza, a slight-

ly more evenly matched portion of the contest, saw the 'Cats outscore the Whirlettes 13-9 and extend their advantage to 16 points.

Floydada's defense stiffened a bit more in the final frame, but little could be done on the opposite end of the floor by the Whirlettes, who entered the consolation bracket of the tournament following the contest, to do battle with host Muleshoe on New Year's Day.

The impressive Mules exploded in the opening period for 21 points and 15-point lead, and Floydada could never really recover from Muleshoe's lightning fast start, as was evident in the second period, when the hosts were able to maintain

The Tigers jumped off to an early lead by taking advantage of the Whirlwind's inability to penetrate offensively and by controlling the contest with its offensive rebounding. Frenship outscored its opponents 18-6 in the opening period, but could not maintain that adavantage in the second quarter, as the visitors were ble to successfully execute their fast break offense more often. With time running out in the first half, Guard Steve Westbrook rebounded a missed shot by Frenship, glanced at the scoreboard clock which then showed three seconds, dribbled across the enemy's center line, and unloaded a 38-foot jump shot, which much to everyone's surprise graced the net for two points and a seven-point deficit going into the locker room at intermission. In the third stanza, the Whirlwind's fail-

Coach Rollie Rinker's troops managed to bring down a whopping 51 rebounds, but registered a horrid 20 percent for field shots and could make but 22 percent of its shots from the line. Those factors proved to be the big difference, as the Roughriders captured an impressive 59-33 win.

Boys Ranch outscored its opponents 19-12 in the first quarter, mainly by making use of its ability to break the Whirlwinds' full court press and race down the floor to set up an awesome fast

The Whirlettes, now 2-14 for the season and slated to open district play on Friday versus 4-AA foe Lockney, committed numerous turnovers in the early stages of the contest that resulted in several easy buckets for Canyon and an early un-

quarter by rebounding well offensively. The Floydada offensive attack could do no better than 6 points and a pair of rebounds in the second quarter, as the Eagles capitalized by almost blasting their

opponents out of the gymnasium. Canyon's point total was somewhat limited this

similar result, as the victors outscored their opponents 19-12 to win by an impressive 48-point differential. Floydada's only points came from forwards Kathy Davis and reserve ace Jill Poague.
