## How Can Floyd Population Grow If Births Decrease?

By Wendell Tooley  
The population of Floyd County has been on the decline the last ten years and when the birth statistics were recorded for 1976, it appears there is more decline coming. The birth rate dropped some 90 babies in 1976 from 1975. There has been a definite trend of young married couples back to the smaller towns all over the nation and this has happened in Floyd county. However, these young couples seem to be following the national trend of having fewer children.....maybe only one or two children per family.

	1969	1970	1971	1972	1973	1974	1975	1976
Births	361	372	384	393	353	355	377	287
Deaths	99	39	77	87	79	77	85	98
Marriages	121	89	99	113	105	122	99	96
Divorces	34	21	36	24	27	31	33	32

**FLOYD BABIES BORN ELSEWHERE?**  
Of course many Floyd parents have their babies delivered in hospitals outside Floyd county. Definite records on this are unavailable. There is some truth to the fact that Plainview mothers go to the Lockney

hospital for delivery because the Lockney hospital rates are less expensive than the Plainview hospital. **OTHER STATISTICS**  
Marriages in the county remain about the same.....99 in 1975, 96 in 1976. Deaths were up just a little last year.....98 in 1976.....85 in 1975.

## Building Ends Second Highest This Decade

The year 1976 will rank as Floydada's second best for construction on the basis of dollar volume in the 1970 decade. Total building permits in 1976 reported by the city office were \$1,162,654. This is just slightly lower than 1975's \$1,284,000.

Most of the building permits issued in 1976 and 1975 were for residence construction. Only major commercial building was the migrant housing in 1975, The First National Bank and Texas A&M building in 1976. For comparison the following amounts of building permits are recorded

in the other years of this decade: \$504,375 for 1974, \$305,025 for 1973, \$434,875 for 1972, \$453,586 for 1971 and \$141,018 for 1970. Prospects are bright for continued residential and commercial building in 1977.

## Attendance Good At SPHS Meeting

# Floyd Health Care Discussed

About 50 Floyd County citizens - doctors, nurses, hospital and nursing home administrators, pharmacist, and other interested people - attended a public meeting conducted by South Plains Health Systems Thursday night in the Lighthouse Electric building in Floydada. John O. Peck, Floyd County's representative on the SPHS board of directors and vice chairman of the board, said he was pleased with the attendance, which he said was second-highest of any county meeting held so far (Lubbock and Hale counties, included in the 15-county area represented in SPHS, have not yet held meetings.)

Purpose of the meeting was to allow county residents to discuss the quality and availability of local health services with the planning team from SPHS, which is a designated health planning agency for the federal government.

Several of those present voiced concern about increasing government control of local health services, and Peck agreed. "I have great concern about state and federal governments' attempts to constantly involve themselves in areas where they're not wanted," he said after the meeting. He noted that "...up until this point we've been able to operate without such controls, and I feel we don't need them

now..." But the law (Public Law #93-641) mandating the organization of health system agencies such as SPHS has passed, and according to the Floyd County representative, "...I feel we have to make the best of it and operate for the best interests of our 15-county region to give the best services possible, as mandated by Public Law #93-641."

At the meeting, Peck introduced Ronald Warner, president of South Plains Health Systems, and Mary Rucker, Health Planner for SPHS, who presented a slide program explaining the law and the health systems organization. She mentioned a Congressional finding that "The achievement of equal access to quality health care at a reasonable cost is the priority of government," and stated that national health expenditure has risen 1000 per cent in the last 25 years.

Some of the "priorities for Floyd County established in discussion at the meeting included these:

- Reduce red tape involved in health care.
- Access to care for indigents.
- Continuing education programs for medical personnel.
- Keep local hospitals operating.
- Increase manpower (physicians, nurses, technologists).

Degree nursing programs needed. Access to medical schools by local students.

Mental health problems need equal consideration with physical.

Nursing home representatives want representatives on the board who are solely interested in nursing homes.

The group listed health care resources now available in Floyd County, and voiced the opinion that present health services should be kept here and should not be relocated to larger cities. Health care services now available in Floyd

County include two hospitals; five physicians; two dentists; one optometrist; two ambulance services; two nursing homes; five pharmacies; services of Central Plains Mental Health and Mental Retardation Center; nursing services through the school systems and West Texas Home Health Services.

Anyone in Floyd County who has a further suggestion or comment is asked to pass it on to Peck or to contact Warner at South Plains Health Systems, Inc., 1217 Avenue K, Lubbock, Texas 79401.

## Variety Revue Coming

Floydada Band Booster's club this week received a distinguished visitor, C. A. Frank, owner and manager of the C. A. Frank theatrical agency of Hutchinson, Kansas.

The purpose of Mr. Frank's visit to Floydada was to make advance preparations for the appearance of the world-famous and highly successful stage production "The Zogi Variety Revue," a stage presentation with special music, produced by Clarence and Gladys who also star in the cast. Times of London said of this show, "Certainly one of the best." The Chicago Daily News Foreign Service said, "The State Department could spend millions and not be able to build

the international good will this company is doing."

Mr. Frank, whose office has handled many smash hit theatrical productions, considers "The Zogi Variety Revue" so important and unusual that he has personally taken over the management of the tour. He reports that this production is playing to packed houses and that this is the first time in several years the show has been available for one night stands.

Floydada Band Boosters are happy to report that successful arrangements have been completed to present this outstanding attraction in Floydada on February 10, 1977 and urges everyone to remember the date.

## Valentine Page Of Grandchildren Planned

Would you like for your grandchild to be a Valentine? And would you like to see the youngster's picture printed on this newspaper's Valentine page in the edition just before that favorite holiday?

The 1977 page of Valentine hearts, each carrying the picture of someone's grandchild, will be published in the Sunday, February 13 edition.

The offer is limited to grandparents and here is what they do:

Bring or mail a picture, preferably billfold size, to this newspaper; not later than Tuesday, February 8 at 5 p.m., along with the youngster's name, the name of the parents and names of as many grandparents as the child may have.

This is for children ages one day

through six years. The child's face will appear on a special Valentine on the greeting page.

Either black or white or clear colored photos may be used. It is not necessary that the children live in this county. They may live anywhere in the world. There is a charge of \$5.00 per picture and the photos will be returned

following publication.

This is a unique way for grandparents to help their grandchildren say, "Happy Valentine" to the rest of the family. It is also an opportunity for proud grandparents to show readers of this newspaper they have the finest, prettiest or most handsome grandchildren to be found anywhere!

The Lubbock Cotton Exchange's Spot Quotations declined approximately \$25.00 per bale from the previous week. The base price for grade 41, staple 34, mike 3.5 through 4.9 was 62.35 cents on Friday, January 7, down 475 points from the previous Friday.

## Caprock Chat

By Wendell Tooley

RECEIVED A LETTER from Dr. Ford down San Antonio way. She cited my remarks about the Arab and Japanese newspapers been talking about. So....she sent me a few copies of the Buenos Herald....and I can read it in the English edition. One dated November 2 and the other reads, "Carver, Ford Dig For Voters."

There was a front page picture of Ford standing on top of an obelisk speaking to a crowd. Most of you remember Eva is a daughter of Argentina and she reports she has bought some property in Argentina.

JIMMY CARTER isn't all that. I noticed he has invited one of Methodist Bishops, Bishop William Cannon, to deliver the invocation at inauguration, January 20.

Bishop Cannon is one of Methodism's best....I had the privilege to see him at Philadelphia and Portland last year.

receiving the invitation from President-Elect Carter, Bishop Cannon "I am proud of a leader, a president-elect who all along has listened to his people, our people, his people on prayer."

can hope, we can expect, we can and we can work, and our nation is that this will be a new American life, a new era for all of us, that we may achieve justice, we may all be compassionate one another, and that we may discover love among ourselves because we found the love of God."

### States Revenues Flow Into Treasurer At Flood-Tide Levels

AUSTIN-Comptroller Bob Bullock said Wednesday that state revenues are continuing to flow into the treasury at flood-tide levels, totaling \$1.6 billion during the first three months of

fiscal 1977. Bullock said that September, October and November revenues were 11 percent more than during the same period in fiscal 1976, which itself was an all-time record

year. In his January financial statement, the Comptroller reported that fiscal 1977 sales tax collections are 15 percent ahead of 1976 levels, and that the natural gas production tax is reaping 36 percent more revenue.

"Meanwhile," said Bullock, "state expenditures during the first three months of fiscal 1977 totaled \$1.7 billion, only \$4.5 million more than was spent during the first three months of fiscal 1976. Partly as a result, the state closed out its books at the end of November with a cash balance of \$1.4 billion.

The Comptroller's January financial statement also reports on a Brookings Institution study that ranked Texas 43rd among the states in expenditures on state and local governmental services, and a Tax Foundation study showing Texas ranks 31st in

government. The program for the society's meeting was presented by Ivan Barber, MD, and Dan Rodriguez, ARRT, both of Lubbock, who talked on "Cardiopulmonary Resuscitation and Status Asthmaticus."

### Understanding Your Child

LET HIM TAKE TIME TO FIND HIMSELF. One of the biggest errors many parents make—one that fortunately is easily corrected—is that of expecting a child to succeed on the parents' own terms.

Psychologists say it's far more important for the health of the child and for a healthy parent-child relationship for youngsters to succeed in things they regard as important.

## Patsy Schulz, Rick Tomison Wed In Providence Saturday

Mr. and Mrs. Rick Tomison are making their home at 432 C Ave. B. in Hereford following their wedding Saturday evening, January 8, in the Trinity Lutheran Church in Providence. The bride is the former Patsy Schulz, daughter of Mr. and Mrs. Monroe Schulz of Route 1, Floydada. The groom is the son of Mr. and Mrs. Ocie Tomison of Paducah.

Rev. A. E. Meld, minister of the church, performed the 5 o'clock twin ring ceremony before a prayer bench accented with branched candelabras at either side entwined with blue miniature carnations, white bows and greenery. Tammy Schulz of Andrews, niece of the bride, and James Smith, Paducah, nephew of the groom, were candlelighters.

Penny Bertrand was organist and accompanied Terry Sue Sims of Lubbock who sang "Annie's Song" "Walk Hand in Hand" and "The Lord's Prayer." As the bride was being escorted by her father, she paused to present her mother with a long stemmed red rose. As she and the groom were leaving the wedding scene, she paused to present a red rose to the groom's mother.

Presented in marriage by her father, the bride was gowning in a white crepe floor length dress with an overlay of chiffon. The gown, made by the bride's mother, was complemented with Belgium lace which accented the bodice and neckline. Her floor length veil of illusion was bordered in matching lace and was attached to a flat headpiece of ribbon and lace. She carried a bridal bouquet of blue and white carnations

## Ranching Family To Be Honored

LUBBOCK -A family whose philanthropies are widely known in Missouri, Oklahoma and Texas will be honored Sunday, Jan. 23, by the Ranching Heritage Association. The Association will serve as host for an autograph party for the book, "A Ranching Saga: The Lives of William Electious Halsell and Ewing Halsell."

The public is invited. The book was written by Dr. W. Curry Holden, Professor emeritus of history at Texas Tech University. The autograph party, 3-5 p.m.,

will take place in the David M. Devitt and Mallet Ranch building of the Ranching Heritage Center of The Museum of Texas Tech University.

On exhibit at the same time will be drawings of Jose Cisneros, which illustrate the two-volume chronicle of the two Halsells, father and son. Expected to be present are members of the Halsell family from Kansas City and numerous people who worked for them over the years. The family's philanthro-

pies have included educational and cultural institutions and churches. The Halsell Foundation was the first contributor to the establishment of the Ranching Heritage Center, a 12-acre outdoor exhibit of authentic ranch structures restored to depict the history of ranching in the American West.

Ewing Halsell also took particular interest in the Claremore, Okla., memorial for humorist Will Rogers, who learned to rope with Ewing and who was a life-long friend.

Serving as hosts and hostesses for the autograph party will be the Executive Committee of the Ranching Heritage Association and Mrs. and Mrs. Johnny Murrell of Earth. Murrell was a ranch manager for Ewing Halsell, who died in 1965.

Holden was acquainted with Ewing Halsell. His book is drawn from personal knowledge, extensive records of the Halsell Collection, oral reminiscences, newspaper accounts, legal documents, correspondence and by personally traveling the trails the Halsells followed.

It was published last fall by Trinity University Press, San Antonio.

Cisneros' drawings will be on exhibit in the Mallet Building during the autograph party, and then the exhibit will be moved to The Museum of Texas Tech University for showing until mid-March.

# Texas May Lose Cotton Board Seats

BOCK, Tex. (UPI) — Texas is in danger of losing two of five representatives to a national cotton board if the U.S. Department of Agriculture regulations are put into effect according to the Plains Cotton Growers Inc.

Simply means we would not have much influence on the cotton board now have. It could be important in some issues and other issues it is not be important at all," said Fanning, assistant to the executive vice president of the Lubbock organization.

Under the formula, Texas has five members, California and Mississippi two each and the other 11 states one member each.

The USDA proposal to revise the membership uses the same formula, but would base it on the five most recent years, Fanning said Wednesday.

But because Texas averaged 30 percent of the nation's cotton production in the 1961-65 period and 29 percent under the proposed 1971-75 base, the state would lose representation.

Fanning said the Plains Cotton Growers does not object to using the five most recent years in determining the board's composition, but it did file an alternate proposal revising the formula.

The cotton growers plan would increase board membership from 20 to 26. Texas would have six members, California four and Mississippi three. Arkansas would have two members and the other states would continue to have one member each.

Fanning said the proposed regulations made by the USDA did not set the number of board representatives, but "the figures just came out that way."

90-member cotton board is composed of cotton producers appointed secretary of agriculture from the producing states. It is responsible for managing Cotton Incorporated, does research and market development with money supplied by members.

One of the 14 cotton producing states is entitled to at least one board member, plus an additional representative determined by a formula based on the number of bales produced in a year during 1961-65.

Commission of Texas has announced that the U. S. Bicentennial Administration will release a final matching grant of up to \$15,000 to each state.

The money is to be granted to an endorsed Bicentennial entity in the state—a community, county, university or state association.

Other stipulations for receiving the money are that it must be matched on a dollar for dollar basis with non-federal funds by the entity applying for the funds, that it be used for only one project, and that the project be completed by June 30, 1977.

In addition, the money must be used for a specific project and not for planning or development.

Applications should be mailed to the ARBC of Texas, Suite 210 University Hall, University of Texas at Arlington, Arlington, Texas 76019, and must be received by February 1, 1977.

# Letter To The Editor

## GI Insurance Dividends Mailed

The Veterans Administration announced today it will pay a record \$403.4 million in GI insurance dividends during 1977.

VA Administrator Richard L. Roudebush said the 1977 payments represent an increase of \$26.6 million over the dividends paid in 1976. Dividend payments will be made on the anniversary date of the individual policies. First checks will be mailed next week, Roudebush said.

Payments go to holders of three types of government insurance policies: United States Government Life Insurance, National Service Life Insurance and Veterans Special Life Insurance.

Roudebush said \$368.1 million of the total dividend will be paid to 3.5 million World War II veterans who maintained their GI insurance policies. The average payment to these veterans will be \$104, an increase from the 1976 average payment of \$95.

Some 114,300 World War I policy-holding veterans will receive \$23.1 million in dividends, an average of \$202, up from \$193 paid this year.

Approximately 550,000 Korean Conflict veterans who kept their GI policies in force will receive \$12.2 million in dividend payments, Roudebush said. This is an average payment of \$22, up from \$18 this year. This is

the third annual dividend paid to Korean Conflict veterans.

Roudebush pointed out that dividends on GI insurance policies in force will be paid automatically. He stressed that there is no need to contact the VA, explaining that an inquiry about a dividend could delay payment.

Dividends represent a return to policyholders of funds not needed to pay the cost of the insurance. This includes both excess interest earned and any savings realized because actual deaths were fewer than projected rates.

Dividends on most VA insurance policies have increased in recent years because the funds have been earning interest at higher

# Republicans have healthy treasury

WASHINGTON (AP) — The Republican party has a healthy bank balance and a \$1 million trust fund to pay any leftover bills of a campaign in which President Ford's organization appears to have shortchanged itself.

A party official said \$1.8 million raised by the Republican National Committee and earmarked for the Ford campaign went unspent because nobody asked for it.

"If we'd known they weren't going to use it, we could have spent it on congressional cam-

paigns," the official said.

In addition, the Ford campaign apparently spent substantially less than the law allowed in public funds.

The final accounting is not yet complete, and there may still be campaign bills to be paid. Final reports on the expenditures of both President Ford and President-elect Carter are due by Jan. 31.

The reports of unspent Republican campaign funds came Tuesday amid maneuvering over selection of a new GOP national chairman on Friday.

## Fire Destroys Mobile Home

SILVERTON — A 12 by 35 foot, one-bedroom mobile home was destroyed by fire here early this morning and its owner, Paul Franks, lost everything but his clothing.

Silverton Volunteer Fire Department answered the call at 1:30 a.m. today. Cause of the blaze has not been determined.

Franks had moved the mobile home to a lot at his sisters, Mrs. Hattie Steel, 1004 10th St., and had been getting it ready for occupancy. He was to have moved into the home from Lockney today.

## Soil Very Dry States

## Jon LaBaume

Jon L. LaBaume, official weather observer for the National Weather Service reported this week that Sunday morning's low was one degree above zero.

On Monday morning the low was one degree below zero. Sunday's high was only 14 degrees. The snow measured 0.11 of an inch of moisture, but due to drifting it really will not amount to any moisture for the farmers.

LaBaume, district conservationist for the Soil Conservation Service, stated the soils are very dry in the South Plains area and some good wet snow and rainfall is needed. LaBaume's rainfall records show that 1.33 moisture was received in October, .47 in November and no moisture in December, making it a very dry late fall and early winter. He reminds farmers to leave any residue on the land for protection and practice minimum tillage for water conservation.

In one college track meet, Jesse Owens broke five world records and tied a sixth—all in about one hour's time!

# Quarterly Sales Tax Reports Due January 21

BY BOB BULLOCK

January 31 is an important date for some 250,000 Texas retail merchants whose quarterly sales tax reports are due by that date.

We would appreciate your help in reminding them of the deadline. And I think they would too.

Late returns create problems for everyone.

I want to take this opportunity to thank you for the public service help you have given this office over the past year. It has been a real service to the taxpayers within your circulation or broadcast area and to the state.

## Omar Burleson Gets Second Term On Budget Committee

WASHINGTON: D.C. — The Democratic Caucus of the U.S. House of Representatives today voted Congressman Omar Burleson (D) of Texas to a second term on the Budget Committee. Burleson was elected to serve on the Budget Committee as a representative of the House Ways and Means committee.

seven Members of Congress designated for consideration to serve on the Committee for four years to maintain continuity.

Under the system of assigning Members of Congress to the Budget Committee, Ways and Means and Appropriations have three designated Members by reason of the importance of these committees. Even though the Committees may recommend the election of their Members or represent them in the budget process, they must be elected by the Caucus.
