

# 15 Percent Males Not Working Looking For Job

Floyd County's male population of 16,000, how many are non-working?

Many of them are not in the labor force and are not working, not disabled and not in school.

In most sections of the country, the number is increasing year by year.

Based upon the latest figures from the Commerce Department and the Department of Labor, there are approximately 500 men, locally, in

this inactive category. Of the total, some 220 are under 65 and 280 over 65. They constitute 15.0 percent of the area's male population over age 16. The average nationally, by way of comparison, is 14.9 percent.

Most of them are people who have private sources of income or who have acquired sufficient resources or financial support to enable them to get along without working.

There are some people who are unable to work because of physical or mental handicaps. There are also a number of people who could work but don't choose to, relying on the rest of society to provide for them.

Throughout the United States as a whole, there are now close to 15 million men in this non-work, non-school group, according to the latest findings. It compares with 13 million in 1970.

The majority of them are retirees. A recent Census Bureau report indicates that there has been a steady decline over the years in the percentage of older men who remain in the labor force. It shows that only 22 percent of those over 65 are still on the active rolls, as against 42 percent in 1940.

In Floyd County, approximately 41.9 percent of the men in that age bracket are not working or are looking for work.

As for the others, the non-workers, what keeps them going financially? Their major support comes from private and public pension funds and from Social Security.

In addition, many men reach the retirement stage with cash savings, income-producing securities, life insurance annuities, veterans benefits and other assets.

## Wheat Grazing Deadline Extended

According to an announcement from the Floyd County ASCS office the deadline on wheat grazing has been extended from March 20 until April 1.

This also means that a farmer has until April 1 to decide what wheat acreage he will leave in production in regard to his wheat allotment.

For further information, farmers may contact the ASCS office in Floydada.

## Day Care Center Reservations Should Be Made Now

The Floyd County Day Care Center in Floydada only has a daily capacity of 35 children, so anyone wanting the center to care for their children this summer, should make reservations now.

Betty Fuller, who is in charge of the center, reports that any old broken or good used wheel toys would be welcomed and there is a repairman who will rebuild them just like new for the children.

a little boy raised his hand and asked, "Teacher, how do you spell 'gun'?" Having been instructed to avoid such subjects in class, she refrained from her usual practice of writing new words on the board. Instead, she leaned over and whispered, "G-U-N."

A few minutes later the little boy's hand was again waving in the air. "Teacher, how do you spell 'die'?" Quietly, she spelled D-I-E and then, curious and a bit worried, she asked him, "What are you planning to do?" His wide-eyed response was, "I'm 'gun' die Easter eggs!"

# City Council Considers Cable T V

The city council listened to Hurshel Tyler, representative of Weather Scan Inc. for over an hour Tuesday night as he outlined his plan for bringing cable TV into Floydada.

Tyler said the charge per month to the TV viewer would be around \$8.50...the Cable would not only bring in Lubbock TV programs, but others out of Dallas. It would also provide a channel for local churches that want to televise services live to the people of this community in black and white or color.

The council told Tyler they were interested in bringing the cable to Floydada, and would begin study of his contract.

In other business the council visited with representatives of Perdue, Brandon, Blair, Shiever and Fielder in regard to their collecting delinquent taxes for the city. Charge for collecting the taxes is 15%. The council voted to place the tax collection job with the law firm.

The council approved the plan of chamber of commerce manager Doug Frazier for major improvements to the Annie Taylor and city parks. The government pays half the cost, local civic organizations pay the other half, and the city takes on the expense of watering and upkeep of the parks.

Frazier said he needed about \$3500 from local organizations and will begin final work plan with the government to complete the required paper work.

The council voted to charge a \$1.00 per water meter for the April-August period for park improvement and mosquito control.

**WATER RATES CUT**  
The council voted to cut water rates 40% for the April-August meter reading period to encourage its residents to

## Tennis Club Salad Supper

All members of the Floydada Tennis Club and anyone who wants to join the club are invited to a salad supper in Fellowship Hall of the First United Methodist church Tuesday night at 7 o'clock.

Everyone is to bring salad. Activities chairman Jerry Neeley has a speaker for the program which follows the supper.

## Bailey Asks Not To Be Reappointed Mackenzie Director

Mackenzie Water Authority director O. C. Bailey of Lockney, whose appointment is out April 1, has asked the Lockney city council not to appoint him for another two-year term.

Bailey served the city of Lockney for four years (1961-65) as mayor and has been a director for the Mackenzie Water Authority for 13 years. One of

the organizers of the Mackenzie Authority, he is one of three original Mackenzie directors still serving on the board (the others are Lon Davis and S. W. Ross of Floydada).

Bailey helped organize Lockney Consumers Fuel Association and was manager there six years. He has been vice president of Lockney First National Bank. His projects as mayor included paving of 116 city blocks; building the new city hall; and getting the highway department to pave Locust Street.

An ordinance will be drawn up by

Randy Hollums requiring mobile home building permits so city personnel can keep a record as to when, where and size of the mobile home located within the city limits.

The council also approved an improved Blue Cross-Blue Shield hospital insurance policy for its employees. All councilmen were present except Leroy Burns.

## Sales Tax Rebates Set Record

AUSTIN-Comptroller Bob Bullock announced Tuesday that city sales tax rebates for the first quarter of 1977 totaled a record \$89.5 million, up 18.5 percent from the same three-month period last year.

Bullock said that the record rebates--which exceeded the previous quarterly high by more than \$5 million (second quarter, 1976)--were based on record sales during the 1976 Christmas season.

(Most retailers file their sales tax reports on a quarterly basis. These reports for the Christmas quarter were due January 31 for processing and are now reflected in the March allocations.)

"We knew that Christmas sales were going to be up, but, frankly, this was more than we dared hope for," said Bullock. "This is a late but welcome

Christmas gift for city treasuries across the state."

Bullock said his office has sent 867 Texas cities checks totaling \$59 million as their March share of city sales tax collections. This is an 11.7 percent increase over the same month last year.

Bullock also announced that his office has adopted a new rule change that will reduce the paperwork for some 20,000 "mom and pop" grocery store owners and other small retail businesses.

Effective immediately, those small retailers who collect \$300 or less a year in state sales taxes will be allowed to

file their returns and remit the tax money to the state once a year instead of every three months.

Only those sales tax permit holders who collected \$100 or less a year in state sales taxes have been eligible in the past to take advantage of the yearly filings, the Comptroller said.

The rule change will also ease the workload for his office, cutting state costs for handling the returns, Bullock said.

Floydada received \$12,426.87; Lockney \$6,028.37; Crosbyton \$6,255.84; Tulia \$19,696.72; Dimmitt \$20,726.76; Ralls \$6,325.64; Spur \$5,271.30.

## Absentee Voting

Absentee voting in the school board election began at the downtown school office Monday, March 14 and ends Tuesday, March 29.

The election will be held on Saturday, April 2 from 7 a.m. to 7 p.m. with five persons seeking election to three vacancies. The term is for three years.

It should be noted that the school office will be closed a week during the spring break March 21-25.

#### REPORT FROM NOXIOUS WEED CONTROL

By David Duvak

At the present time the District is applying herbicides on fence rows, irrigation wells and around farm buildings. David urges all landowners that are interested in this type work to contact the District Office. The District would like to have this type work finished by the last of March as around April, bindweed will be emerging and the District will need to devote all their time on the treating of bindweed. By having your fence row as clean as possible, you will get a much better kill.

stitute bill in the Texas Senate which would allow individual counties to decide whether or not they want cloud seeding in order to accomplish weather modification.

The bill is now in committee where it has been declared an emergency. The chief impact of the bill would be to call an election in which all residents may vote before a seeding permit is granted.

**TREES NEED LITTLE FERTILIZATION** —Shade trees are often overlooked when it comes to fertilization, but most only require fertilizer once every three years anyway, points out a landscape horticulturist with the Texas Agricultural Extension Service. When fertilizing a tree, base the application on the branch spread. Apply about six pounds of actual nitrogen for every 1,000 square feet of branch area. Divide the total amount of fertilizer needed into three applications—late fall, early spring and mid-summer. After spreading the fertilizer under the tree, water the soil thoroughly.

## IRRIGATE YOUR WIDE OPEN SPACES WITH OUR 360 THRIFTY-RAIN PIVOTAL SPRINKLER SYSTEM.

If you have relatively level land, and you've been putting off buying an electric-drive pivotal system because of price, we've got just what you've been waiting for. The new Gifford-Hill 360 Thrifty-Rain™

Finally, there's an electric-drive system that's within the budget reach of farmers who would ordinarily buy either hydraulic or water-drive systems. The 360 Thrifty-Rain™ is a "long span" version of our classic 360. The basic difference being the distance between towers (164 ft. on the Thrifty-Rain™ 124 ft. on the standard 360).

The 360 Thrifty-Rain™ 164 ft.

The standard 360 124 ft.

By using longer spans, we reduced the number of towers necessary to cover the same

acreage. That means less cost to manufacture. And less cost to you!

The 360 Thrifty-Rain™ is also equipped with heavy duty drive systems. Both the original 360 and the 360 Thrifty-Rain™ feature a unique computer-designed sprinkler head spacing and nozzling concept that provides uniform water distribution and reduced pumping costs. Both systems use heavy-walled 6" O.D. pipe for extra strength.

Consequently, the 360 Thrifty-Rain™ is structurally stronger than other "long span" systems on the market today. It operates efficiently even under high wind conditions, and can handle up to 10% grades.

Standard 360 spans are interchangeable with 360 Thrifty-Rain™ spans. That means you can use standard spans to allow flexibility of tower location and accommodate special terrain problems.

So if you've got wide open spaces to irrigate, and you don't want to pay for capabilities you don't need, get a Gifford-Hill 360 Thrifty-Rain™. And save yourself some money to boot.

## Farm-facts

A Weekly Report Of Agri-Business News

Compiled From Sources Of The TEXAS DEPARTMENT OF AGRICULTURE  
John C. White, Commissioner

### A Closer Look... Farm Workers Decrease In Number... Meat Production.

That three per cent increase in crop prices to Texas farmers as well as the five per cent increase in livestock prices needs a closer look to put it in its proper perspective as they relate to farmer prices and the general economy.

The increases occurred during the month ending Feb. 15. At that time, farm parity was 69. A month ago it was 68, while a year ago it was 72.

A look at the Texas commodity price shows what has happened to Texas farm prices during that time compared to a month earlier.

Wheat prices averaged \$2.42 per bushel; this is down 15 cents from a month ago. Sorghum prices averaged \$3.56 per hundredweight; this is down ten cents from a month ago. Compare those with parity and you get an even bigger discrepancy. Parity for wheat is \$4.98; parity for grain sorghum is \$5.72.

Cotton did show an increase of 2.4 cents per pound to average 62.5 cents. But parity for cotton is 82.84 cents per pound.

So farmers still have a long way to go in getting parity for their major crops.

The same is true when you look at the livestock price structure. True, hogs did go up 50 cents, beef cattle prices went up almost \$2, calf prices jumped almost \$4.

But that's not all the story. Hogs did average \$38.50; a year ago they were \$44.90 and parity for hogs is \$54.90. Beef cattle parity is \$57.70; calf parity is \$67.40, thus the \$34.60 average is more than \$30 under parity.

In poultry prices, broilers averaged 27 cents compared to 24.5 cents a month ago; egg prices, at 74.5 cents a dozen, are up a penny from a month ago, and turkey prices, at 33 cents a pound, are down a penny from a month ago.

### FARM LABOR FORCE ON TEXAS FARMS AND RANCHES

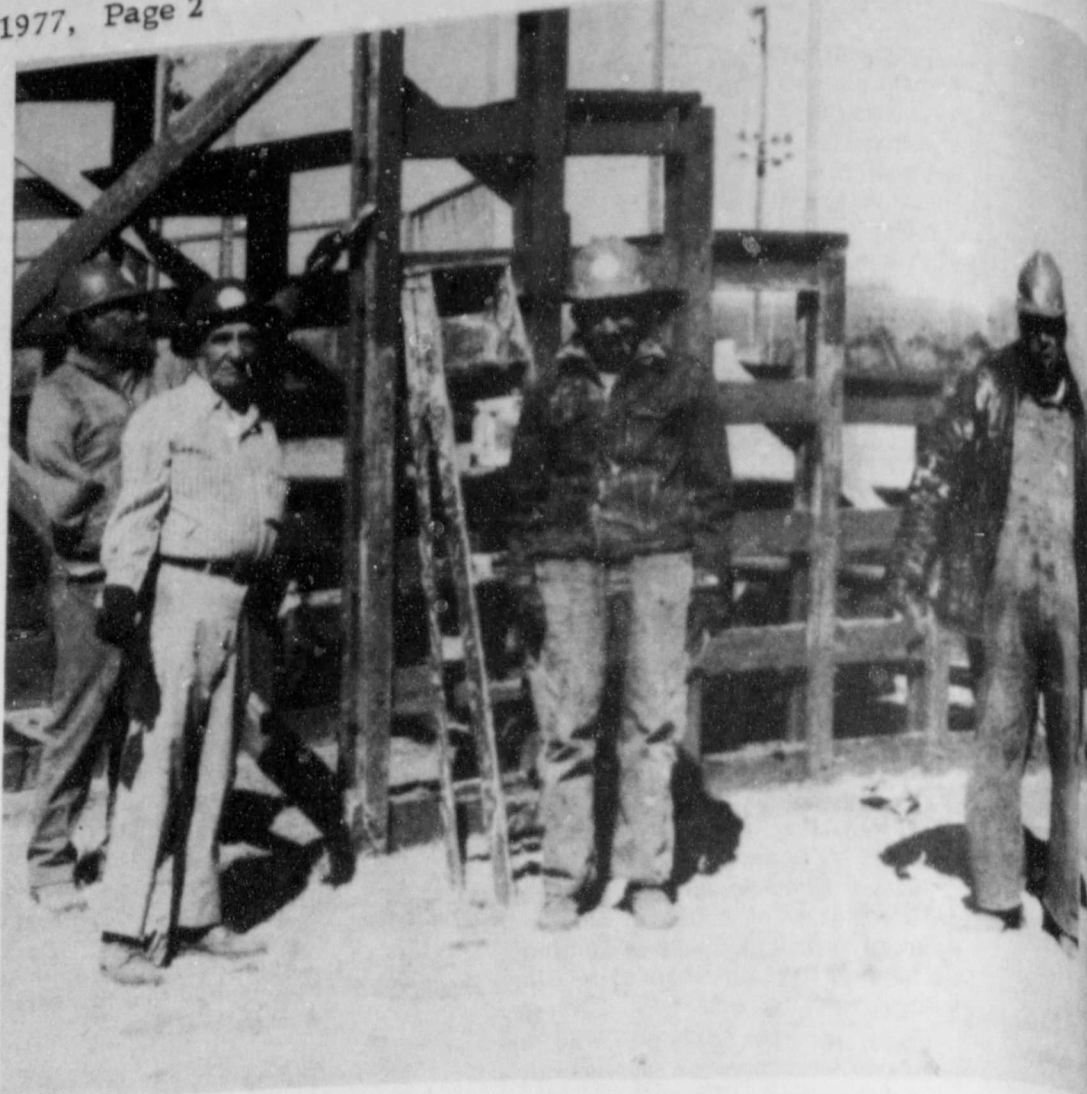

showed a decrease of six per cent compared to the survey period of a year ago. The agricultural labor force numbered 211,000 during the survey week. Farm and ranch operators and unpaid family workers totaled 146,000, down eight per cent from the previous period, and the number of hired workers, at 65,000, was down two per cent.

### RED MEAT PRODUCTION IN TEXAS

decreased one per cent from a year ago, the Texas Crop and Livestock Reporting Service notes.

The 305.5 million pounds compares with 308.7 million pounds a year ago.

Nationwide, beef production was two per cent below a year ago while pork production was six per cent above a year ago. A decrease of 12 per cent in lamb and mutton production was also noted.

THE GREEN THUMBERS work all over Floyd county and are pictured here dismantling old house projects in Floydada. They will begin a dismantling old house project in Agustin Munoz, Allen Rendon, foreman, Jose Palanco, Andres Soliz, safety monitor not pictured is Francisco Granado.

All indications point to a "reasonably strong but weather-sensitive cotton market for 1977 and perhaps into 1978," according to Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc.

This was the gist of Johnson's remarks March 10 at a Lubbock County meeting called to elect a Producer Director to PCG for 1977 and 1978. About 50 cotton producers and cotton-related business people in attendance re-elected by acclamation W.B. Criswell of Idalou, a director since 1970 and current PCG President.

PCG has two directors from each of 25 counties surrounding Lubbock, one a cotton producer and the other an agribusinessman, elected at county meetings on alternate years for two-year terms. Criswell is serving his second year of a two-year maximum term as PCG President. A new president will be elected following the commodity organization's annual membership meeting in April.

After the election Johnson pointed out to the group that a combination of tight world cotton supplies and doubt about the size of U.S. and foreign production increases for 1977 is holding cotton prices firm and should continue to do so at least through 1977.

"However as planting dates grow closer the market will be more volatile," he cautioned.

The U.S. Department of Agriculture said U.S. producers intended to plant 1.2 million and 10 percent more cotton in 1976.

But Johnson noted that through higher prices for land-competitive crops, "something less" than 12.8 million acres of cotton are expected to be planted this year.

Commenting on prospects for a cotton crop year ending in 1977, Johnson expressed his views. "USDA is scheduled to release its report on the House Agriculture Committee hearings on cotton production, respectively, he reported.

PCG and other cotton organizations are scheduled to meet on February 24 and 25 in Lubbock. Johnson said he desires for higher loans and target prices for cotton. "USDA has not revealed no strong push for major changes in the current law."

The 1977 crop will be produced in 1974, with a loan price at Middling one inch, 3.5 to 4.9 cents per pound against the 4.30 target price for 1976. The 1977 target price is 4.30 cents per pound.

Should prices received by all farmers in 1977 average below the 1976 average, a deficiency payment would be eligible for a deficiency

They have lived in Floyd county more than 40 years. Mr. and Mrs. Pricer have one daughter who is a graduate of Floydada High school, three grandchildren, and one great granddaughter.

## Alpha Mu Delta Chapter Elects New Officers For 1977-78

The Alpha Mu Delta Chapter of Beta Sigma Phi held its regular meeting March 15 in the home of Ilene Kendrick and elected new officers. President Becky Pingleton called the meeting to order and led the opening ritual.

Roll was called and the minutes of the last meeting were read by Teresa Whittle. The election of the 1977-78 officers was first on the agenda. Officers are nominated by the members and a secret ballot is taken. New officers are: president, Brenda Watson; vice president, Donna Henderson; recording secretary, Jo Ann Patterson; corresponding secretary, Kaye Powell; treasurer, Ilene Kendrick; and extension officer, Becky Pingleton. These officers will take their positions at the first May meeting.

Information from West Texas State in Canyon was received concerning the Woman of the Year competition. Our chapter was asked to nominate someone and enter her in the contest. Members nominated Vicki Thrasher from the Alpha Mu Delta Chapter of Beta Sigma Phi. The winner will be announced in April at a banquet for the nominees and guests.

Kaye Powell reported the financial status of the chapter, and it was voted to pay all outstanding bills.

Standing committee re-

ports were given by Ilene Kendrick, program; Brenda Watson, social; Donna Henderson, service; Barbara Koch, membership; and Teresa Whittle, publicity.

The chapter presented housewarming gifts to Kaye Powell and Ilene Kendrick to congratulate them on their new homes.

All members voted to donate to the Love Fund set up for the Hernandez girl and her family.

Vicki Allen read the "Heritage Heartbeat" (a small devotional) to the members.

The program concerning religions was presented by Ilene Kendrick. Members assisted Ilene by presenting posters and reports on the different types of religions and their backgrounds throughout the world.

Assisting Mrs. Kendrick with the hostess duties were Donna Henderson, Vicki Latta, Judy Cornelius and JoAnn Patterson.

Sandwiches, chips, brownies, coffee and punch were served from a table decorated in observance of St. Patrick's Day.

Members present were Becky Pingleton, Barbara Koch, Teresa Whittle, Brenda Watson, Kaye Powell, Vicki Allen, Dixie Harris, Donna Henderson, Ilene Kendrick, Vicki Latta, Jan Nichols, and Vicki Thrasher.

### Athena Attends Convention

Members of Athena Jr. Study Club attending the recent Caprock District Convention in Lubbock were Virginia Taylor, Sue Zorger, Sandra Turley, Sheree Cannon and Sally Carthel. The program for the Friday night banquet was a style show featuring First Ladies Fashions. Athena's president, Sandra Turley wore a 20 yard nightgown of the type worn by Martha Washington. Sue Zorger, another Athena member, modeled an elegant long dress and cape of the Julia Pierce era. The show included styles from Martha Washington down through Mrs. Woodrow Wilson. Oral reports were given at various times during the meeting by Sheree Cannon, district chairman for Public Affairs; Sally Carthel, district chairman for the Outstanding Club Program; Jan Mize, state Arts Chairman; and Sandra Turley was one of five club presidents to report in the Junior session. A memorial service was conducted by Virginia Taylor on Friday afternoon. Awards won by Athena and its members for the year and presented at the convention included: Third high point club, 100% subscription to the Clubwoman magazine, first in appropriateness of year book cover, the second in Outstanding Club Program. Virginia Owens was presented as Athena's candidate for Outstanding Leadership Development and won first place in the Caprock District. Winning chairman reports were second place in Public Affairs, Nida Peck chairman, and third place in Public Affairs, Donnie Meriwether reporting chairman. Athena's Americanism report by Sally Carthel, chairman, won second place. Two members won first with their poetry entries. Jan Mize won first with her poem "Mad Ads" in the humorous division and Charlotte Mitchell won first with her entry in the any style division, "I Like Kids". Sandra Turley won first with a brush oil entry in the Arts Show and a first in the palette knife oil division.

### Floydada Nursing Home Happenings

By Faye Walters  
CONTINUED FROM  
LAST THURSDAY

We have had real good exercise classes and everyone seemed to enjoy them. Tuesday was manicure day again and we were busy all afternoon. Wednesday we took a field trip. It was such a beautiful day. We also enjoyed ice cream. Taking the trip were Viola Weems, Dora Langford, Agnes Anderson, Florence Badgett, Hope Hammonds, Ida Martin, myself, and driver, Grady Freeman. It was sure nice for our people to get outside again. We are happy to have Gordon Appling home from the hospital but sorry Cleta Bradshaw and Mark Jordan are still there. We would like to thank the Sunshine Sunday School class for bringing treats to all our residents. They are so thoughtful of our dear people and we know the Lord will richly bless them. Thursday was fun day with Bingo as usual. Top winners were Ray Reed and Clara Williamson with three games each; Hope Hammonds, Hallie Bertrand, Agnes Anderson and Willie Mae Stambough all won two games. We appreciate every visitor we had this week which included, Alma Ruth Nelson, Mrs. George Wexler, Mr. and Mrs. Clay Anderson, Mrs. C. W. Jones, Otis and Dorothy Anderson, Mrs. Paul E. Wilson, Sue Moore, Wayne and Bertha Appling, Mr. and Mrs. Hubert E. Davis, Flora Fawver all of Floydada; Mr. and Mrs. David McCulley and Florene Teal, Lubbock; Kimberlie and Marcie Tatch, Colorado.

### The Floyd Philosopher Finds Trying To Raise Your Horizons Doesn't Work Out Well For Him

Editor's note: The Floyd Philosopher on his Johnson grass farm tries to look further afield this week, to not much avail. Dear editor:

It is taken as almost the gospel truth that a person should widen his mental horizons, shouldn't pull himself into a narrow circle and ignore what's going on in the rest of the world, but every time I try it I wind up puzzled and confused. For example, take disarmament. Every once in a while Russia and the United States get together to talk about limiting the production of strategic weapons, which I think are guided missiles with multiple warheads that go off in all directions, or something like that. I know they aren't bows and arrows. The object of this, I think, is to save money and guarantee that in a war one side can't kill more people than the other, a sort of one-bullet, one-person deal, I guess you'd say. You might check this with the Supreme Court. Knowing Russia's ability to sign an agreement with one hand and violate it with the other, and its refusal to let anybody keep tabs on its weapons production, and recognizing that both the U.S. and the Soviets are going to do everything they can to see that the other one doesn't get ahead, both working on new weapons ideas as fast as they can—knowing this, then it seems to me that a disarmament agreement is like trying to get

your opponent in an upcoming prize fight to agree to train less.

I'm sure I must be wrong about this, but that's what comes from looking beyond the fences on your own farm. The shape my fences are in, I don't like to look even that far.

Another thing I can't understand is the controversy over letting the Concorde land in this country. Frenchmen are crying that if it can't land here, they can't sell the big planes, and if they can't sell, it'll be an economic disaster. Americans living near airports say the things make too much noise, keep them away.

Have you ever had a helicopter fly low over your house? Do you live near a railroad track? Do big trailer trucks change gears near your home? You ever had a motor boat roar by you while you were fishing quietly from the bank of a lake? How do you suppose a visiting dignitary feels when a 21-gun salute goes off behind him? You ever heard one kid scream at another in a small house on a rainy day? You ever been to a political convention?

Noise is like a popular singer who can't sing. After he yells the first few notes, anything beyond that is no worse.

People who want to travel from one country to another ought to go quietly by sailing ship, although I've been told that late at night the tall masts make a weird creaking sound.

Yours faithfully,  
J.A.

### FANCY THAT!

Energy experts say that if American industry could increase energy efficiency by 10 to 15 percent, we could save about 4 million barrels of oil a day—enough to run the state of California for 32 hours at today's consumption rate.

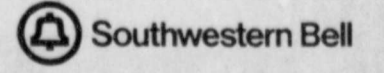

Plant shade trees and vines on the south and west sides of your home to provide protection against summer sun and let in natural light in the winter.

Experts at International Paper's energy conservation program, Operation Badger—which stands for Better Actions Develop Greater Energy Reductions—predict America's coal production could increase from current production of 640 million tons a year to over one billion tons in 1985.

"Hello?" "Hi Marge, this is Suzie!" "Suzie, Suzie, Suzie! What a pleasant surprise!" "How are ya?" "I'm doing just fine. How are things with you?" "Oh, things are terrific around here since you left!" "I'll bet. You know I miss you guys." "How do you like your new house?" "Oh, Suzie, it's terrific." "Did you get what you wanted?" "That and more." "Well?" "Well what?" "Tell me about your stupid new house." "Suzie, it's fabulous." "Did you get the big back yard you wanted?" "Three acres with a pond!" "Do you have a garden?" "We have a greenhouse!" "Do you have a nice kitchen?" "A huge kitchen with all new appliances!" "Do you have some aspirin?" "Aspirin?" "Yeah, you're making me sick." "You should complain. You're not exactly living in a dump." "How does Fred like his new job?" "Suzie, he's a new man." "He likes it?" "He loves it. Absolutely loves it." "That's good." "How is Jack?" "Fine. He's going through a do-it-yourself phase right now." "Oh, good." "Everytime I ask him to do something, he yells 'Do it yourself!'" "Oh, not good." "When are you coming to visit us?" "When are you going to invite us?" "You know you have a standing invitation." "Yeah, but we'd rather sit." "I'm serious. When are you coming?" "Name a date." "How about in a few weeks... say the week of the 29th?" "Wait a minute, let me get my calendar... the 29th?" "That's a Saturday." "Yeah. Sounds good." "Okay, it's a deal. We'll be expecting you." "What do you want us to bring?" "Just your sense of humor." "No." "No?" "Just joking." "Funny." "You missed a great party at the Smiths' last night." "They had a party? They never have parties." "They've been waiting for you to move away." "What happened?" "Well, for starters, Jackie's dog ate the main course before any of the guests arrived." "You're kidding?" "No. Then the air conditioning went on the blink." "No wonder they never had any parties. What did everyone do?" "We starved and perspired a lot." "Sounds awful." "Speaking of starving, how's the old diet?" "I'll tell you if you tell me." "12?" "Oh, Susan! You've been cheating!" "No I haven't." "Well how can you lose weight if you've been eating?" "How about you?" "I'm not telling." "Come on." "One fxxvie five." "What?" "One fxxvie five." "Marge, you're mumbling." "One fxxvie five." "One forty five?" "Less." "One thirty five?" "See, that's not so bad." "That's terrible." "I know." "What's your excuse?" "A perfectly understandable insecurity resulting from having to adapt to new surroundings." "New surroundings. The only new surroundings you're gonna have to adapt to is the lard surrounding your midsection." "Hey, look. Go easy kid. I don't have you to nag me any more." "Well, it hasn't been easy for me either." "You wouldn't believe the food prices here." "Oh?" "Low." "Low?" "Low." "No wonder you're eating so much." "I'm not kidding..." "Neither am I!" "...I'm saving about 15 dollars a week over what I used to pay." "You're kidding!" "I'm not kidding." "Sounds like you got a raise, too." "Right. 15 dollars to blow on anything I like... toilet paper, floor wax and soap." "Don't forget laundry detergent." "Right." "Hey, you took something of mine when you left." "Your yellow sweater?" "Did you take my sweater?" "Sorry, I wasn't going to tell you." "That's okay. You keep my sweater and I'll keep your skirt." "Skirt?" "You know, the one with all the animals on it?" "Oh, yeah. I'd forgotten about that." "Is it a deal?" "Well trade when you come to visit." "Sour puss. I'm sorry I even brought the subject up." "What were you going to say?" "I was going to say that you took my Suzie Fu Yung recipe." "Did I?" "Yes." "I'll give you that too when you come." "Good?" "See? Just think of all the nice things awaiting you when you come." "I can't wait. Hey, I have something for you." "What?" "A riddle." "Shoot." "What has four holder-uppers, four puller-downers, a pair of lookers, and a swishy-wishy?" "I don't know, what?" "I'll tell you when we come to visit." "Oh, no you don't!" "Bye." "Come on, tell me!" "Bye." "Suzie!"

## OBITUARIES

### Margrey Potts

Funeral services for Margrey May Potts, 84, of John Knox Village in Lubbock, were held at 2 p.m. Friday in Lockney First Baptist Church. The Rev. Charles Broadhurst of Lubbock officiated, assisted by the Rev. John Jenkins, pastor of the Lockney church.

Burial was in Plainview Memorial Park under direction of Moore-Rose Funeral Home of Lockney.

Mrs. Potts died about noon Wednesday after a long illness. She was born May 19, 1892 in Alliance, Nebraska and moved to Floyd County in 1911. She married J. B. Potts December 1, 1912. He died in 1960.

Survivors included two daughters, Mrs. Gladys Hay of Lubbock and Mrs. Norene Roberson of Olton; two sons, Melvin Potts of Lampasas and Joe B. Potts, Jr. of Abilene; one sister, Mrs. Grace Colson of Lockney; 10 grandchildren and 10 great-grandchildren.

### F. De La Cruz

Services for Florencio De La Cruz, 73 year old Floy-

dada resident, were tentatively scheduled for Saturday, March 19 at 4 p.m. in the St. Mary Magdalen Church in Floydada with Father Richard Casey officiating. Burial was scheduled to be in Floydada Cemetery under the direction of Moore-Rose Funeral Home.

De La Cruz died Thursday in Lockney General Hospital.

A native of Mexico, he was born December, 1903 and married Mary Coronado in Edenburg, Texas on September 14, 1942. They moved to Floyd County some ten years ago from Levelland. He was a retired farmer and a member of the Catholic Church.

Survivors include his wife; three sons, Stephen and Lorenzo both of Floydada and John of South Plains; three daughters, Susan Hernandez and Francis De La Cruz of Floydada and Teresa Valdez of Big Spring; 31 grandchildren and two great grandchildren.

Poison ivy rash can be recognized as clusters of small blisters of various sizes, on reddened shiny skin.

## What One Person Can Do

JUDY GILLIOM, EDITOR

Judy Gilliom cannot even write her own name, yet she is the editor of a bimonthly magazine with a national circulation of 13,000. Several years ago, she fell off a kitchen stool and suffered a sharp blow on the back of her neck that left her paralyzed below the shoulders.

After two major operations and almost a full year in a rehabilitation institute, Ms. Gilliom regained enough control of her biceps to allow some limited movement in her arms. Even though her fingers remained immovable, she wanted to return to her job as editor of Hearing and Speech Action in Washington D.C.

"My old boss approached me after a lot of thought about the problems involved," says the determined Ms. Gilliom. "I was terrified. Both of us had misgivings, but I knew that I could never forgive myself if I didn't try."

She turned her nursing home bedroom into an office, complete with power wheelchair, specially adapted cassette dictator-transcriber and the usual file cabinets and book shelves.

Once again, she is the busy editor. Mornings, she dictates articles and editorials. Afternoons are usually spent on the telephone with writers, the printer or her boss. Evenings, Ms. Gilliom visits friends or goes to movies or the theater in her specially outfitted van.

Judy Gilliom has not let her physical handicap excuse her from using her talents and skills. "Facts are facts," she says. "Wishful thinking is a waste of time." It's easy to find excuses for not doing what we have the talent to do. Do you make excuses?

# French Firm Leases Lands

By JAY JORDEN  
Globe-News Staff Writer

22,000 acres of Briscoe County range and have been leased by a mining company within three years, the Globe-News learned yesterday.

Records on file in the Briscoe Courthouse in Silverton in French American Metals (FRAMCO) has leased 22,397 acres for mining uranium, and other fissionable

6,500 acres of land have also been leased in Swisher County, ap-

parently for the same purpose, the county clerk in Tulsa said yesterday.

The president of the Denver-based firm yesterday confirmed the amount of the leases, which he said would allow both openpit and shaft mining if uranium is discovered on them.

The Briscoe County leases, which also include about 7,291 acres of permits with an option to lease, are for 10-year periods, Mrs. Bess McWilliams, Briscoe County and district clerk, said.

"These people who leased the property knew what the lease(s) said and I haven't heard any complaints about French geologists running around on anyone's land," she said.

The leases, for a 10-year exploration

program, include a 20,000-acre ranch, Michel Berville of Denver, president of FRAMCO, said.

"It takes ten years from when you start an exploration program," Berville told the Globe-News, "to (the point) you reach the stage of the first ore coming out of the mine."

Five leases totaling around 6,500 acres in Swisher County, consummated as early as 1975, have been filed in courthouse records, Mrs. Nell Cosby of Tulsa, county clerk, said.

The mining leases, some of which were made for "\$10 and other valuable consideration," provide for "exploring, prospecting, and core drilling for and development and mining by the methods being desirable by the lessee of ore, minerals, metals and materials of all kinds, including but not limited to uranium, thorium, vanadium, niobium, copper and other fissionable or associated minerals," their text read.

"We have tried to get the leases, and

# Three Rural Accidents In February

The Texas Highway Patrol investigated three accidents on rural highways in Floyd County during the month of February, 1977 according to Sergeant Ken

Evans, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and one person injured.

The rural traffic accident

summary for this county during the first two months of 1977 shows a total of seven accidents resulting in no persons killed and four persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for February, 1977 shows a total of 414 accidents resulting in 13 persons killed and 275 persons injured, as compared to February, 1976, with 416 accidents resulting in 17 persons killed and 243 persons injured. This was two less accidents, four less killed, and 32 more injured in 1977 at the same period of time.

The 13 traffic deaths for the month of February, 1977

occurred in the following counties: Two each in Lubbock and Randall; and one each in Archer, Wichita, Carson, Deaf Smith, Foard, Hall, Ochiltree, Oldham and Farmer.

### CONSERVING ENERGY

Tips From Whirlpool Home Economists

When the proper laundering steps are followed, hot, warm, or cold water can each give good cleaning results. But for energy-conserving homemakers, cold water for washing will save the most energy. It's important, however, for good cleaning results, to know that special pre-treatment of soils and stains is necessary when using cold water. Use a liquid detergent or make a paste of detergent and water to pre-treat the soiled area. Rub gently and then wash as usual. Heavy duty liquid detergents are recommended for cold water washing. Powdered detergents do not dissolve easily in cold water, so if you use this type, dissolve it in warm water first and then add it to your cold wash water.

When driving in the rain, choose the driest lane. The right lane gets more traffic than the others and is generally the driest.
