### Golf Girls Place In Regional

Floydada Golf Girls had a great season, but came down last Thursday in regional play-offs taking third place. The girls just couldn't make up the last five strokes, all tried hard and most played well, according to Coach Dale Tyer, but they couldn't catch first place Dalhart who had a total of 839, nor Kermit, who was second with a total of 897. Floydada had a total of 902 for the 36 holes.

Mrs. Tyer said Kermit also came down in regional play. All in all, it was a good season when you consider each team at regional represented several who were eliminated through district play.

Holly Robertson was high medalist coming in 4th in regional. Her total for 36 holes was 211. She shot a 97 Wednesday and 114 Thursday. Jayma Lewallen was 10th with a total of 219. She shot 115 Wednesday and 104 Thursday. Holly Hartsell had a total of 235; Mitzi Hale 237 and Shandra Young 252.

#### MAY 1 DEADLINE

May 1st is deadline for transfer of students from rural areas to Floydada Independent School District, according to school officials.

Applications for transfer may be filed at the administrator's office on Main Street in Floydada.

### Brook Chat

By Wendell Tooley

our people were paying for their Hesperians taken from the newsstands.

The other day I was asked, "Have you ever checked to see if any Hesperians are being stolen from the newsstands?" I admitted that I had not.

Well, curiosity got the best of me, and after making careful tabulations on each newsstand for the past two weeks, I am overwhelmed to learn that only half the people are paying for Hesperians they take from newsstands. Now, not all are this bad, the average is more like one fourth of the people.

I just can't believe that Floydada people would steal...so it must be the people passing through Floydada from other towns.

But still, my faith in people has been shaken considerably...I have always tried to believe the best of everyone. So, for the sake of good management, you thieves have forced me into paying \$50 to \$60 for some of those cranky coin operated machines.

You have forfeited your privileges of honor system newsstands...

I SUPPOSE we'll have to go out and trade our V-8s in for four cylinder autos. President Carter really impressed me in his talk Monday night that the energy situation is not only bad...but gonna get plenty rough in the years to come.

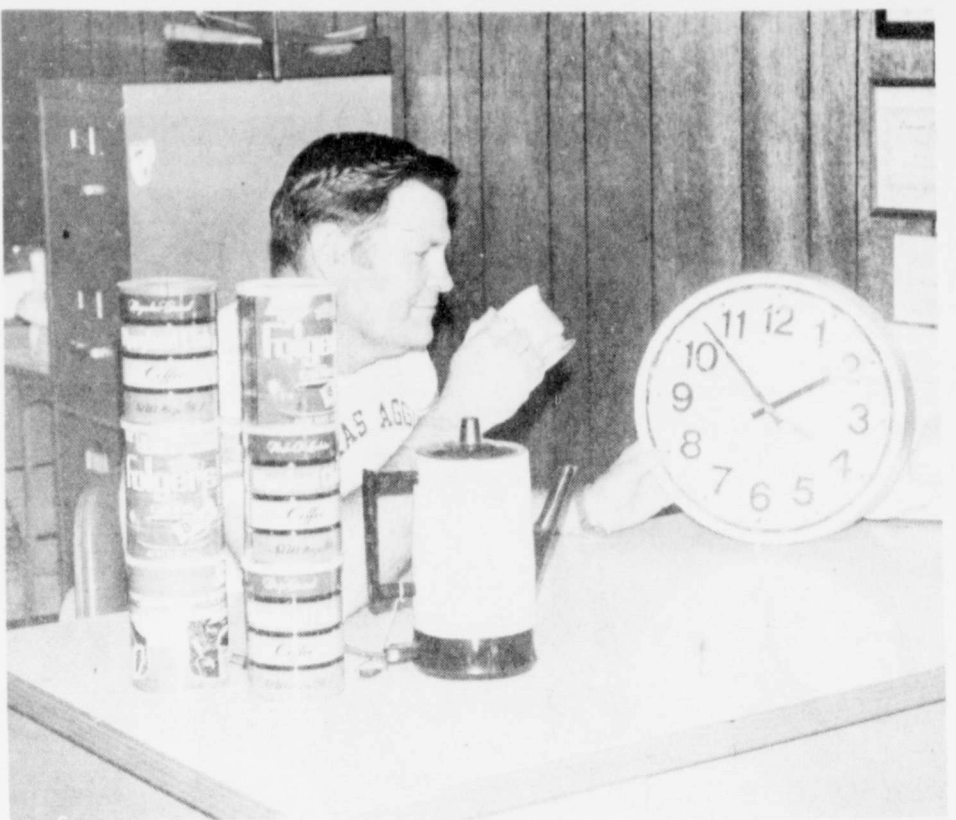

### Tennis Club Meet

#### Tuesday Night

According to an announcement by Tennis Club president Turner Hunter there will be a meeting of the club Tuesday night in the bank community room at 7:30 o'clock.

Activities chairman Jerry Neeley is expected to report on the progress of the mixed doubles ladder tournament.

Hunter urges all members and prospective members to attend the meeting.

TOUGH ON AGGIES...one of Floydada's most prominent Aggies, White's Auto owner R. L. Giesecke, has stocked up with plenty of coffee as he gets ready for the annual changeover from standard to daylight time this weekend. R. L. figures he will have to stay awake until 2 a.m. Sunday, the scheduled time of the changeover, to set his clock forward an hour at that time. (Staff Photo).

### A & M Students Sleeping All Over Town

The new motel under construction on the Ralls highway can't be completed too soon for students attending A & M's West Texas Regional Training Center classes.

Thirty students attended a workshop on Safe Drinking Water Act here this past week. The Fieldian was full, some stayed at the hotel, some stayed in Lockney and Plainview.

The workshop on the Safe Drinking Water Act of Texas which goes into effect June 24, 1977, was held at the West Texas Regional Training Center

April 19-21, 1977. Thirty students representing 23 towns were present, including Berger, Spearman, Dumas from the northern Panhandle to Ft. Stockton, Alpine, Burkburnett and Breckenridge and others in the more immediate area.

Instructors included J. Winston Hayes and Robert L. Langston from the College Station office and Willard Davis of Floydada as well as Ron Freeman and Robert Adcock of the Region 1 Texas Department of Health Resources in Canyon, Stanley Thomp-

son of Region 4 Texas Department of Health Resources in Abilene, and Ned Brookes of Region 2 Texas Department of Health Resources in Lubbock.

The workshop included an introduction to the Act, explanation of the terminology, interim standards and a discussion of the health effects of contaminants. On Wednesday the impact of the act, enforcement of the new standards, regulations and testing procedures were discussed. Methods and costs of removing contaminants were covered on Thursday.

### Ronnie Wall Top DECA Student

DECA student Ronnie Wall was honored as the outstanding DECA student of the year for the second year at the 13th Annual Employer Appreciation Banquet in Duncan Elementary Cafetorium Tuesday night.

Ronnie went to state and national competition last year and this year went to state convention at Dallas as area voting delegate.

Only other DECA student to go to state was Keith Tooley in advertising.

Carlen Young gave the invocation. Phyllis Johnson welcomed the guests, employer Jerry Thompson responded to the welcome. Ronnie introduced the officers, and special entertainment featured Turkey's Orhan Erisir who played the piano and told about Turkish music.

The DECA officers reviewed the year's activities, DECA advisor Benny Locke made the presentation of the plaque to Ronnie. DECA Sweetheart Kathy Green was introduced and Ronnie was the DECA Beau.

In conclusion, Ronnie gave an impressive reading "What Am I?" while patriotic slides were shown.

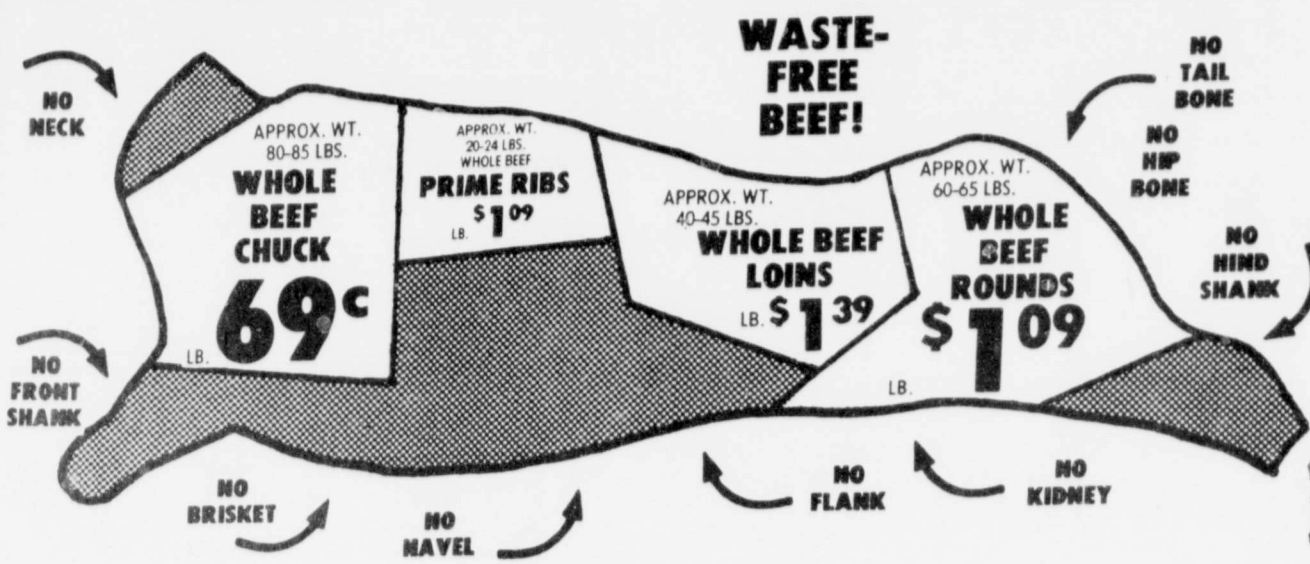

THE PARK FUND was given by the people of the Mt. Zion Baptist church after selling tickets on Monday night. Pictured left to right: Rev. ## And Jordans Provided A Variety Of Experiences On Trip

pyada to  
desia to  
Brazil to  
variety of  
of the Louis  
Jordans  
was plan-

in Rhode-  
frica with  
and return-

high in the cool, green  
providence of Natal. What a  
beautiful drive-tree lined  
roads and wild flowers on  
rolling hillsides. Through  
this is the fall season Easter  
lilies were beginning to  
bloom by the side of the road  
as later poinsettias and

others would. Forrestry is a  
big industry there and trees  
grow to cutting size in 7  
years. Rainfall average is 80  
inches.

On Monday we left by car  
for a 2000 miles trip across  
South Africa. The terrain  
changes from rolling grass-

land to mountains to rich  
fertile farm land. We saw  
thick forests, sugarcane  
fields, tobacco, cotton, vege-  
tables (mainly corn), pine-  
apple and sisal.

We had overnight stops in  
Lesotho and Swaziland,  
small independent countries

within South Africa. The  
weekend was spent in little,  
round, thatched-roof huts in  
Kruger National Park. Kruger  
is an internationally famous  
park and the largest game  
reserve where many species  
of wild animals were seen.

Another interesting stop  
was Kimberly where we  
were treated to a tour of the  
Diamond City's fascinating  
past by seeing the Museum,  
the Big Hole, the old town as  
it was in 1800, a diamond  
cutter and then a trip down  
into an actual working mine

and processing of the dia-  
monds.

Other places visited were  
Vereeniging, Witriver, Hu-  
luwe, Zululand and Val  
where we had lunch and  
visited Rodney and Kit Rey-  
nolds and their two children,  
Lane and Libby. Val is 90  
miles SE of Johannesburg.  
Back in the Hilton area we  
visited Pietermaritzburg, 20  
kilometers from Hilton and  
the capital of the State of

Natal. It is a charming city  
with many sites of interest.  
The largest all-brick build-  
ing in the world is located  
there. Numerous places of  
scenic interest are nearby—  
Midmar Dam is the heart of  
inland small boat sailing,  
Howick Falls, where the  
Umgeni River drops 365  
feet, numerous parks, a Bo-  
tanical Garden and Mus-

### Lighthouse Needs Recipes

#### For New Cookbook

BY KATHY BURK

Lighthouse Electric Cooperative would like to have your favorite recipes for our new cookbook. In the past, Lighthouse has printed three books of collections of recipes, and they have been so popular that the Board of Directors has decided to have a new book, with all new recipes, printed.

Everyone has favorite recipes that their family loves, and these are just the recipes that we would like to have in our book.

Micro-wave ovens are being used more, and we would like for all of you who have found recipes that turn out well in the microwave to share them with us.

Small appliances are becoming more popular with everyone trying to conserve electricity. If you have good recipes for the crock pot, electric skillet, fondue pot, blender, etc., we would like to have them in our book. If any of you have a new crepe maker you might want to share some of your best crepe recipes.

Recipes that start with a mix are very popular. Also we would like to have some good recipes for wild game and Mexican dishes.

It is amazing how many people are on different kinds of diets—including weight reduction, low-cholesterol, low-sodium, and diabetic. We would love for you to

share any good recipes you have for these diets.

Just send your recipes to: Lighthouse Electric Cooperative, Box 580, Floydada, Texas 79235.

Please include your name, community, and telephone number. Check your recipe carefully for the correct amount of all the ingredients and make sure your instructions are clear and complete.

For anyone interested in purchasing Volumes I, II, or III they are available for \$2.10 each from the Lighthouse Electric Cooperative office in Floydada. Book Four should be available around the first of November.

### Caprock Hospital Auxiliary, EMT Plans Project For New Ambulance

A special called meeting of the Caprock Hospital Auxiliary and the Caprock EMT Association was held Monday night in order to combine forces for a money making project for Old Settlers Day. Money raised from the project will be used toward purchasing a new ambulance for Floydada.

Plans call for a booth to be erected on the southwest

corner of the Court House square to serve refreshments during the day, May 28th. The group also plans to have an ambulance standing by with qualified personnel in case of an emergency.

Remember when you purchase something from these organizations you may be helping to save someone's life.

Members of the 1950 Study Club and their special guests including seniors of Girls Town at Whiteface and their sponsor enjoyed Pops Nite concert at Lubbock Tuesday night, April 19th.

Cantors (a 55 voice choir) under the direction of Marjorie Newton. Selections were from "Oklahoma", "Carousel", "Camelot", "Man of La Mancha", "Gaité Parisienne" and "South Pacific".

Highlight of the program according to a club member was the singing of bass soloist, Terry Cook, a native of Plainview, who gave selections of "If Ever I Would Leave You" and "The Impossible Dream".

In the group from Girlstown were Sharen Neumeyer, Christi Patterson, Kathy Skinner, Sherri Jackson, Claudia Breaux, Renee Desbiens and sponsor, Mrs. Wanda Cooper.

The club was well represented at a recent City Federated Club sponsored program in Floydada on Crime In Our Society, a film and lecture by Fred McWhorter, Regional Coordinator of Texas Crime Prevention.

No one is liked by everyone. Be yourself rather than spending time and effort trying to live up to others' expectations, advises Mrs. Ilene Miller, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

## Floydada Bank Sponsors Exhibit For Local Artists

Artists from Floydada and the outlying communities are going to have an opportunity to display their works of fine art when the First National Bank sponsors the Floydada Fine Art Exhibit in the lobby and community room during the first week in May.

A committee of local artists has been working for some three months in making plans and outlining ways to best exhibit the art works that are available in our town and adjacent area. Approximately 30 artists have expressed enthusiasm about the exhibit, and will have two works each on display in all media: oil, watercolor, acrylic, pencil, charcoal, pastel, ink.

The exhibit will open on

Sunday afternoon, May 1st, with an open house at which time the public is invited to meet the artists and view the art show for the first time, between the hours of 2:00 and 4:00 p.m. at the bank. Many of the paintings and drawings will be offered for sale to the public, however, buyers will be asked to leave the art in place during the week of the show.

Monday through Friday, May 2nd through 6th, the exhibit will be shown during banking hours, 9:00 a.m. through 3:00 p.m. each day. This will be an excellent opportunity for small groups of interested persons to visit the exhibit.

The Art Committee working with Mrs. Kinder Farris includes artists Jo Goen, Ted Bell, Winnie Carthel, and Dewane Franklin. This committee will receive en-

tries on Saturday afternoon, April 30th, from 2 to 4 p.m. in the community room of the bank (south door). For any additional information concerning the exhibit, please call Jo Goen or Winnie Carthel.

Clay Henry, president of the bank, commented, "We, at First National realize the importance of cultural advantages in our community, and we are proud to take this step in encouraging our local artists in their talent and ability."

"Books are a finer world within the world." Alexander Smith

cluding "marriage" and a  
doption privileges.  
The flexible interpreta-  
tion would be to allow some  
distinction between male  
and female, ie, restroom,  
showers, barracks (as Bar-  
gara Aldave, Assistant Pro-  
fessor of Law, U.T.A.  
suggested). Dr. Graglia  
pointed out, however, that  
this would mean the govern-  
ment would have to rein-  
state the "separate but  
equal" doctrine in sex cases  
which was totally unaccept-  
able in the racial cases. His  
conclusion was that all local  
and state authority in these  
matters would be relinquish-  
ed to the federal courts and  
ultimately the Supreme  
Court.

Assistant Attorney Gen-  
eral John Heath asserted  
that on the question of the  
legality of rescission, the  
case of Coleman vs Miller  
places the judgment in the  
hands of the U. S. Congress.  
James Brandon, Amarillo  
Attorney at Law, declared  
that U. S. Attorney General  
Griffin Bell's opinion that a  
state cannot rescind was a  
political statement com-  
pletely foreign to his juris-  
diction. Brandon confirmed  
that it would be the Cong-  
ress to decide.

The Constitutional Com-  
mittee, some of which were  
Joe Robbins, Lubbock, and  
Bob Close, Perryton, voted  
to place the Smother's Bill in  
a sub-committee.

commissioners to use some  
of that \$1,000,000 revenue  
money we are to get for  
reinstating our bus from  
Plainview to Vernon through  
Floydada! If we could  
have the small bus for two  
days each week it would  
help us older folks to get  
out of town to see our loved  
ones many miles elsewhere.  
I mean for anybody who has  
given up driving except  
around town, or for children  
or anyone, of course, but I'm

AFRICA FROM PAGE 3

We talked with many  
different people; visited  
schools, churches and hospi-  
tals. In many ways life was  
the same as here. The black  
African appears happy,  
healthy and well dressed.  
Business is good and South  
Africa is working toward  
solving their problems. It is  
an important nation, one we  
should have as an ally.  
Perhaps that is the reason  
other "forces" are making  
such a strong move to take  
over the country. We hope  
that the U.S. will not be  
blinded to the real situation  
there.

Our final stop came after a  
long afternoon of flying with  
the sun and 10 hours later—  
Rio de Janeiro. We saw the  
famous beaches of Copaca-  
bana and Ipanema, Sugar  
Loaf, and the very impres-  
sive 120 foot statue of Christ  
the Redeemer, on a 2,300  
peak overlooking the city.  
Rio's most famous landmark.  
A perfect finale for a very  
interesting and informative

## WHERE ARE WE IN CANCER RESEARCH

The Floydada Unit of the American Cancer Society is conducting its annual educational and fund-raising Crusade this month, and it's only fair to ask: Where are we in cancer research?

"Since it first began intensive support of cancer research after the Second World War the ACS has invested some \$400 million in cancer research of many kinds," an ACS spokesman explained. "What have we gotten in return? Here are some answers."

"At the time the ACS research program got underway, only one-out-of-every-four cancer patients could be saved. Today, that ratio is up to one-out-of-three. And, there is realistic potential for saving half of all the people who get cancer by applying the knowledge we have today about early diagnosis and prompt treatment," he said.

Surgery and X-rays remain major methods of treatment, but from the research laboratories have come more than 50 drugs that can kill cancer cells, and chemotherapy is now being used to either control or cure eleven different tumors. Equally important, medical science has become more sophisticated in learning how to combine chemotherapy with surgery or radiation therapy.

"The whole pattern of chemotherapy is changing," the spokesman explained, "sometimes a seemingly small adjustment in a treatment plan can make a big difference. For example, we are learning that it's better to wait four to six weeks after surgery to give certain patients with colon-rectal cancer a cancer drug. Very courageous and careful medical scientists have shown us how we can safely give lethal, a powerful cancer drug in combination with an antidote. At this moment, we are following a three-drug program to help women who show signs of spreading cancer at the time their breast cancer is first treated. The earlier application of chemotherapy for patients with different forms of cancer is one of the latest trends in cancer treatment today."

## NEWS 'N' NOTES

(by Sharon Hillis)

Folacin, or folic acid, is an essential nutrient to prevent anemia.

This compound is present in small amounts in a variety of foods. The name folacin derives from the Latin word "folium" meaning leaf, because folate is abundant in green leaves and in its early history, a potent concentrate was made from spinach.

The best food sources of folacin are raw fruits and vegetables, because cooking destroys folate. Asparagus, endive, broccoli, lettuce, spinach and liver are excellent sources. Other leafy greens, blackeyed peas, dry beans and citrus fruit are good sources.

The daily need for folacin is 400 micrograms for males and females 11 years of age and older, except during pregnancy when it doubles.

Some studies have indicated women taking oral contraceptives may need extra folate.

Folic acid deficiency results in magaloblastic anemia. This anemia is characterized by a reduction in the number of normal red blood cells and the release of large nucleated cells low in hemoglobin.

Too much folacin will mask the symptoms of pernicious anemia another type of anemia caused by lack of Vitamin B12 and delay diagnosis until serious changes in the nervous system become apparent. For this reason, multiple vitamin and mineral supplements are limited by law as the amount of folic acid they contain—these amounts will not mask a pernicious anemia.

Michael Sangster of Great Britain registered the fastest tennis serve ever recorded when in 1963 he served a tennis ball 154 mph.

## News & Reviews

### First Baptist Church Media Center

Fear can do strange things to people. In the preface to CONQUEST OF FEAR, the author, Dr. M. F. Graham says: "It is my purpose to tell a story—a story about one man as it really happened, outside him and inside, a man who never really learned how to live until brought face to face with death and was caught up in the paralyzing, stultifying, cold, clammy grip of fear! And from the telling of this story, God similar discoveries to the one I have made, and in so doing begin living anew, whether or not those others are victims of physical disease. For fear is no respecter of one's physical status. And its conquest need not await some terrifying moment when one stands looking into the gaping maw of his own grave."

From the day that Dr. Graham learned about his heart disease until you read the postlude you will learn a great deal about heart disease and his new insights into care and treatment as well as the renewal of faith that brought him through his depression and fear.

GODS SPIRIT IN YOU by Dr. Landrum Leavell reveals the motivation of all Christian living, but as the series of sermons preached at First Baptist Church in Wichita Falls clear with his interpretations, sure of his convictions and never contentious or unloving in stating them. This is a very readable book in the Broadman Reader's Plan series. If you are not acquainted with this series this would be a good book to begin with.

FAIRVIEW, April 18-My! wasn't our rain wonderful? The north side of the community had the most rain during the four day period, from near 3 inches to 2 1/2 inches fell over that way. The rain was lighter as it went east and south. From 2 inches to 1 1/2 fell. Here in town we had near 1 1/2 inches. Everyone is happy over the rain and gardens are being planted and all out side work will begin soon.

The revival meeting at First Baptist Church, Floydada, is having good crowds for the wonderful music and wonderful preach-
