The tentative schedule now calls for school to start August 29 with six teacher "in service days." The other schedule (if Legislature does not

change law) will start school earlier, August 22 with ten in service days.

"The Legislature should act on school financing, in service days, and teacher salaries not later than May 23...and then we can make some

decisions on local taxes, teacher's salaries and hiring some new teachers we have in mind," superintendent of schools A. E. Baker told a Hesperian reporter this week.

## Boosters Grocery Bonanza Rules Set

How many grocery carts can you fill with edibles in five minutes? Or maybe you had rather have \$200 credit toward the purchase of groceries. The choice is yours, a five minute grocery bonanza shopping spree at Buddy's Food or \$200 credit, that is if your ticket is the winning number drawn Saturday afternoon, May 28th just after Old Settlers Parade on the concrete slab.

Tickets at \$1 may be purchased from any band student or a member of the Band Boosters. You do not have to be present to win and anyone is eligible.

The following rules have been set up by the committee of the shopping spree. First, the shopping spree will be subject to advertised limits; the winner may fill as many grocery carts in the five minutes allotted as long as the full one is returned to the front of the store; items must be all edibles, no drugs, notions, cigarettes, paper good, soap, etc. There will be a limit of six pounds of coffee and \$50 worth of fresh, frozen or canned meats.

The winner may designate a certain day and time for his or her shopping spree or he/she may request \$200 credit from Buddy's Food.

Another set rule is that if the winner takes the shopping spree and something is spilled or broken by he or she, all debris must be cleaned up in the store, however, not during the five minutes allowed to shop.

**The Floyd Philosopher**  
**Has No Solution On What To Do**  
**About The President's Mail**

Editor's note: The Floyd Philosopher on his Johnson grass farm discusses a Presidential problem this week, sort of.

Dear editor:  
 According to an article I read in a newspaper the other day, President Carter is getting about 75,000 letters a week from people around the country. It might be even more, but you know how the mail service is these days.

Anyway, I got to thinking about this. Seventy-five thousand letters! If each letter averages just 100 words, that's 7,500,000 words, or divided into books of 50,000 words each, 150 books.

Now no man can read 150 books a week and still have time to run the country and teach a Sunday School class too. So obviously somebody else reads the letters and answers them. It's like nine million people trying to call the President when he held his famous phone-in a while back. Only about a dozen actually got to talk to him. Those 75,000 letters a week constitute a problem for which I have no solution. It's one of those problems like energy or the Middle East which, after you get through stating it, you're too tired to go any further.

But speaking of mail, I understand some people are suggesting the post office department adopt an electronic system of delivering the letters. Instead of being actually carried from one town to another, the letter is photographed and transmitted by wire to its destination, where another machine reproduces it exactly like you wrote it and seals it. A mailman then delivers it to the proper address, as soon as he can get around to it.

The system has a few drawbacks, like what about privacy, although I guess clerks could be required to turn out the lights when they're feeding your letter into the transmitting machine so they couldn't see what you wrote.

This reminds me of an experience a depot agent in a small town had back in the days when we had trains and the agent, being the only telegrapher in town, handled telegrams.

One cold rainy day he received a telegram on his wires for a woman. He telephoned her and said he had a telegram for her but since it was too cold and rainy outside for her to come by and pick it up, would she like for him to read it to her?

"Don't you dare open my telegram!" she shouted.

Yours faithfully,  
 J.A.

# Criminal Warning Decal Gets A Face Lift

For the past two years the law enforcement agencies

and home-owners in the South Plains have utilized the circular red and black operation identification decals. Studies revealed that at least six different decals were in use across the state. As a result, the Texas Crime Prevention Institute in San Marcos working with various State Crime Prevention programs established a new state wide logo and program title. This new logo corresponds with the logo used by Minnesota and it is our hope in law enforcement that

other states will follow for a complete national effort. The new program title, Texas Crime Watch is already in use for radio and television spots and the new rectangular black and blue logo has recently been utilized in the South Plains on posters. As a concerned citizen we know you are wondering if the old decals on your doors and windows will still be effective. The answer is yes. The old circular decal is still just as effective to alert

criminals that the property inside your home or car is marked. We would encourage you to eventually change to the new decal as the old ones fade or need replacement, but remember you are receiving the same amount of protection with either one. We also want to remind you that marking your property and use of the decals will not prevent your property from being stolen by itself. There are other Crime

Prevention Programs you need to take advantage of. For more free information

on Operation Identification and other Crime Prevention programs, contact your Crime Prevention Unit, a part of the Floyd Co. Sheriff's Dept. at 983-3232.

## Bounty of Summer Harvest

AUSTIN—Grocery baskets will soon be "brimming over" with fresh fruits and vegetables, according to Agriculture Commissioner Reagan V. Brown, as this year's harvest moves into high gear.

"Our good Texas-raised products are among the best buys at the marketplace," Brown said, reminding consumers that "miles-fresher foods from Texas are the best food values both economically and nutritionally."

In the Coastal Bend area, Brown said, the cucumber harvest is already underway in a few fields and watermelons are developing well as harvest approaches. Cabbage, carrot, onion and potato harvest continues in the Lower Rio Grande Valley, with the citrus harvest nearing completion.

The Texas Crop and Livestock Reporting Service shows most vegetables and fruits making good progress throughout the state, with some replanting of melons and squash due to water damage along the Upper Gulf Coast and cool temperatures retarding growth on earlier fields of beans and peas in the East Texas area.

In the San Antonio-Winter Garden area, wet weather slowed field activities in some section, but onions and cucumbers are making good growth.

One of the best peach crops in years is expected. Producers are thinning their crops and, with continued favorable weather, harvest should be underway by the middle of May.

There is real danger that a cut on the hand could lead to staphylococcal contamination of food during meal preparation.

give a different and fashionable touch to a simple dress or top.

Both wide and narrow belts with buckles—or other types of fasteners—are popular, too, the specialist said.

"On many wide belts, especially the waist-cincher type, we're seeing interlocking closures in interesting texture or color.

"On narrower belts, the buckle may be a disc or other decorative shape with a hidden fastener on the back. These work nicely with simple, understated belting, such as fabric that matches the garment or simple leather belting."

For belts with rich detail, however, simpler buckles are more attractive, Miss Vanderpoorten added.

"Also, some buckles have a rough-and-ready appearance—and these coordinate best with heavier suede and other leather-type beltings. Their special waist accent gives casual clothes a lot of interest."

For another exciting effect, today's belt wearer can "pair up" an unusual buckle with a complementary fabric for the belt—such as a nautical buckle over fabric of stars or anchors printed in a straight line to make the belt, she suggested.

## W'S 'N' NOTES

(by Sharon Hillis)

Pressure Canner--A pressure canner in safe working order is the key to "get ready" plans for home canning all meats and vegetables (except tomatoes) in order to prevent spoilage due to botulin toxin.

A "Make Sure" checklist for safe working pressure canners appears below.

Take off removable petcock and safety valves, wash and dry thoroughly. Soak in vinegar to remove any corrosion.

Use a toothpick or pipe cleaner to clean openings in lid of canner.

Use fine steel wool and soap to wash bottom part of pressure canner.

To remove any odors and stains, combine juice of one lemon—or two tablespoons vinegar—with two quarts of water. Process at five pounds pressure for five minutes.

Grease (using vegetable oil) the closing surfaces of metal-to-metal-sealing pressure canners if lid is difficult to remove or steam escapes.

Replace gasket if rubber has hardened to make sure the canner is air tight.

Check dial gauge on pressure canner. Clean weighted gauge thoroughly.

## Belt Variety Has 'Cinch' On Fashion

COLLEGE STATION—A variety of belt styles accent fashionably slim waists this season, Margret Ann Vanderpoorten, a clothing specialist, reports.

Style-conscious consumers can choose ready-made belts—or create their own, she suggests.

Miss Vanderpoorten is with the Texas Agricultural Extension Service, The Texas A&M University System.

"Some belts simply tie—these may be in solid color cording, leather, or in fabric to match a garment.

birth years of the couple.

During the processional the bride paused and presented her mother with a yellow rose, and gave the groom's mother an identical yellow rose during the recessional.

Attending the bride as maid of honor was Miss Bonnie Sain of Lubbock, sister of the bride. She wore a formal length princess style gown of blue organza with white flocked daisies, fashioned with a sweetheart neckline and short puffed sleeves. The gown was accented with a self fabric sash that tied in the back with streamers extending to the deep ruffle of the skirt. In her hair she wore a bow of yellow and blue ribbon accented with baby's breath and streamers. She carried two long stemmed yellow roses with yellow and blue ribbon streamers.

Candles were lighted by Tim Sain, brother of the bride, and Shelley Sain, sister of the bride. Miss Sain wore a dress identical to the maid of honor. In her hair she wore flowers of yellow daisies, flocked baby's breath and ribbon streamers of yellow and blue. Her brother wore a black tuxedo with a baby blue ruffled shirt, black bow tie, and a boutonniere of miniature yellow daisies.

Serving his brother as best man was Johnny Harris Sr. of Floydada, brother of the groom. Ushers were Oran Sain, of Canyon, cousin of the bride, and John Jacobs of Plainview, brother-in-law of the groom. The father of the bride, ushers and the best man were attired in baby blue tuxedos, trimmed in black, baby blue ruffled shirts, black trousers and black bow ties. Each wore a yellow daisy boutonniere.

The groom wore a candlelight tuxedo trimmed black with a baby blue ruffled shirt, black trousers, black bow tie and a boutonniere of soft yellow rosebuds.

Mrs. Sain, mother of the bride, wore a blue tulle floor length gown with long chiffon sleeves and a white carnation corsage. Mother of the groom wore a red and white floral floor length gown and a yellow carnation corsage.

Guests were registered in the bride's book by Mrs. John Jacobs of Plainview,

sister of the groom.

Following the ceremony, a reception was held in the Fellowship Hall of the church. The table was laid with a floor length white chintilly lace cloth over yellow. The bride's bouquet was the floral centerpiece. A three-tiered wedding cake was decorated with soft yellow roses, sugar doves, white wedding bells and topped with a miniature bride and groom. The cake, banana slush punch, nuts and mints were served from crystal and silver appointments by Mrs. Danny Parsons of Plainview, niece of the groom and Mrs. Oran Sain, Canyon, cousin of the bride.

Miss Sonya Milligan passed out memory scrolls and Miss Shelley Sain passed out blue rice bags.

For a wedding trip to Carlsbad Caverns in New Mexico, the bride wore a navy blue tulle gown with a white and navy blue checked tie belt and a yellow rose corsage.

The couple will make their home in Paducah.

The bride is a graduate of Muleshoe High School and Wayland Baptist College and teaches remedial reading in Paducah Grade School.

The groom attended Floydada schools and is manager of Ponderosa Meat Company in Paducah.

Out-of-town guests included Mr. and Mrs. B. E. ### Deborah Gay Sain And Buddy Williams Wed

Miss Deborah Gay Sain and Buddy Arnold Williams exchanged wedding vows in a candlelight ceremony, Saturday April 9 at 4 o'clock in the Trinity Baptist Church of Muleshoe.

Rev. V. L. Huggins of Memphis, Texas performed the double-ring ceremony before an altar setting of a large bouquet of emerald and flat fern, flanked on either side by spiral candelabras entwined with greenery and holding white lighted tapers. Family pews were marked with blue and yellow bridal bows.

Parents of the newly weds are Mr. and Mrs. Walter Sain of Muleshoe, Mrs. Sybil Williams of Floydada and F. P. Williams of Quanah.

Mrs. Charles Bratcher, organist, and Mrs. Wendell Speck, pianist, provided traditional wedding music

and accompanied Miss Becky Sain of Lubbock, sister of the bride, as she sang the "Wedding Prayer" at the close of the service.

The bride, given in marriage by her parents and escorted to the altar by her father, wore a formal length wedding gown of candlelight maracine jersey knit. The moulded bodice featured a Queen Anne neckline etched in motifs of Venice lace and long fitted sleeves which fell to petal points, trimmed in matching lace. From the lace encircled crescent waistline floated the full circular skirt which extended to a chapel length train in the back. Matching lace bordered the hemline. Completing her ensemble was a fingertip two-tiered veil of candlelight silk illusion with the lower tier edged in lace. The veil was attached to a headpiece of lace and tiny pearls.

The bride carried a cascading bouquet of soft yellow sweetheart rosebuds with white miniature carnations, Lilly of the Valley, and flocked baby's breath, accented with ribbons of white lace and cream streamers. Carrying out the tradition for something old she wore a gold wedding band 72 years old that belonged to her late grandmother Sain; something new was her bridal ensemble, something borrowed were her shoes, from her sister and something blue was her satin garter, made and given to her by her aunt, Mrs. Mae Provence. She also had pennies in her shoes minted in the

ENGINEERED STRIPES, THE 1977 LOOK. D-G separates contrast stripes and solid aqua or lemon for a bright summer outfit, all in double knit polyester. The tub pocket blazer \$40. Shell, soft interlock knit \$13.00. Pants \$17. 3-17, 4-18.

### Neurotic Behavior

Sally, a 28-year old mother of two children, was having periods of unhappiness. The periods occurred daily, to the point that she would cry and withdraw from friends and even family. The children even got

on her nerves to the extent that she would seclude herself in the bedroom away from everyone. Sally really wants to be happy but sees everyone involved in other things to the point that she is sure no one really cares for her.

Given the above behavior, Sally may be suffering from neurosis. The neurotic person observes life, not as it is, but as she/he would like it, or fears it, to be. While everyone has emotions, the neurotic person-

ity has a tendency of shutting up and withdrawing from that which she/he may fear. Emotions like automobiles, can carry us forward or destroy us.

Consider the following attitudes or emotions, and evaluate the discrepancies with the responses. **Love:** (Normal) most people want to be loved. Take Ginger for example, she wants to be able to give and receive love in a mature fashion. She is able to accept the fact that love is a "giving" rather than a "holding" emotion. (Neurotic) Sally is the type of person who must be constantly reassured at the inappropriate times of another's love, suffers neurotic fears of insecurity and unworthiness.

**Anger (Normal)** Ginger becomes angry on occasion when provoked. As is the case of all emotions, the

appropriateness of the emotion and the way it is handled indicate the quality of mental health. (Neurotic) Sally becomes angry inappropriately. She feels "done against" quite often, and remains angry for a long period, of ten not able/willing to forget it.

While no doubt everyone has some neurotic behaviors, sometimes the problems mount to the degree that a person is persistently unhappy. The point at which a person enters therapy may directly relate to the success of treatment.

This is the first in a series of articles on Mental Health/Mental Retardation, produced by the Central Plains MH/MR Center. If a reader would like a general mental health question considered, you are asked to contact Audette Kincaid, Community MH Worker,

For Floyd County. She may be reached by dropping by the Family Service Center at Floyd County Courthouse or by calling 806-983-2584.

## Former Floydada Man To Retire As Superintendent Anchorage Schools

A former Floydada man, who grew up here, played football here and migrated to New Mexico for one year in order to play another year of football, is retiring as superintendent of Anchorage, Alaska Schools at the end of this term. Joe Montgomery described as the best friend the children and their parents could ever have, has been superintendent of schools in Anchorage since 1971 going there as a teacher in 1941. He has seen the system grow to be a \$100 million a year operation, from two schools, 23 teachers and 2,000 students to 70 schools, 40,000 youngsters, and 2,100 teachers and administrators.

A public reception in Montgomery's honor was held recently in Anchorage with former students among those attending who have had their children graduated from the schools in Montgomery's district. Not only did Montgomery play football in Floydada back in the 30's, he later played at Eastern New Mexico University before transferring to Colorado State University. He and a college friend flipped a coin when they graduated, to decide whether to go to South America or Alaska and Alaska won. When his summer job ended in Alaska, a teaching job was offered and he stayed. Then came Pearl

Harbor and World War II, and Montgomery became a bomber pilot flying 24 missions over Europe.

Following the end of the war he returned to Alaska, first as a junior high teacher and later a principal. He later joined the district's central administration as assistant superintendent, becoming the top man in 1971. He took a couple of years out during this time to become a partner in a Chrysler-Plymouth dealership in Anchorage when he was finding it difficult to support a growing family on a teacher's salary, but he was drawn back to education in 1950.

Ebba, his wife, a native of Anchorage, said she is looking forward to her 59 year old husband's retirement, although she knows he "isn't going to sit down for long." They plan to continue living in Anchorage.

The Montgomerys have two daughters who are married. One lives in Anchorage and the other in Washington. They also have four grandchildren. A brother of Montgomery, Robert, also teaches in Anchorage, and their sister, Mrs. Willie B. Eakin lives near Petersburg in Floyd County. Their parents were the late Mr. and Mrs. Joe D. Montgomery of Floydada and after his death, Mrs. Montgomery later married A. M. Dorsey.

## Senior High Conservation Essay Winners Named

Dean Hinton, Floydada High School, was named the first place winner in the senior high school division of the Floyd County Soil and Water Conservation District essay contest.

Each year the Floyd County Soil and Water Conservation District sponsors a conservation essay contest for Senior and Junior High School age students. In each contest Mark Martin and Company in Floydada awards the students with cash prizes. A total of \$100 is given for both contests in each division.

The theme of the essay this year was "Soil and Water Conservation in Floyd County-Present and Future."

Dean received a \$25 cash prize for his first place winning essay, second place was awarded to Grant Hambricht and he received \$15. The third place winner was from Lockney and the award will be presented to that winner next week in Lockney. Dean and Grant are both students at Floydada High School.

Presenting the awards Tuesday morning during the Floydada High School Awards Program was R. G. Dunlap, member of the Floyd County SWCD board. Honorable mention went to Dorman McCormick and Charles Bradford, both of Floydada High School, for finishing in the top six in the contest.

Completion of this training earned the individual credits towards an associate in applied science degree through the Community College of the Air Force.

Airman Mitchell is a 1975 graduate of Floydada High School.

A basketball attendance record was set in Olympic stadium in West Berlin, where 75,000 fans showed up to watch the Harlem Globetrotters in 1951.

### "The Coming Invasion Of Israel"

#### At Nazarene Church

Everyone is invited to see the film "The Coming Invasion Of Israel" showing at the Church of The Nazarene Sunday evening at 6 p.m. The film will be over in time for everyone to go to Baccalaureate services which begin at 8 p.m.

This hard hitting film deals with today's headlines from the Middle East. Using the Bible as its authority, in Daniel 11 and Ezekiel 38-39th chapters, it reviews and reveals God's plan for Israel as that nation faces grave crisis in the months to come.

One of the phenomena which characterizes the modern world is the rapid rise of Russia to the place of one of the great nations of the world. Only twenty years ago Russia was a broken nation... Its manpower destroyed, its cities in ruins, and its industries disorganized. Today, unquestionably, Russia is one of the great military and political powers of all history. What does the Bible say about this great power? How does this nation fit in God's plan? These and other questions are dealt with in this unusual film.

### Check Cattle For Pinkworm

With bright, sunny days in the offing, pinkeye often becomes a problem in cattle herds. Pinkeye, caused by a yet unidentified organism, can lead to varying stages of ulceration of the animal's eyes and even blindness. The impaired vision and discomfort restrict the animal's ability to graze and can result in serious weight losses, points out Doyle Warren, county agent with the Texas Agricultural Extension Service.

Once an outbreak occurs, other animals in the herd can become easily infected by flies or eye gnats that travel from an infected animal to those that are healthy. To keep pinkeye problems at a minimum, Warren offers these suggestions:

1. Check animals closely as often as possible to observe any excessive watering or discharge from the eyes. Animals with light colored markings or white skin may show a stain or matted hair below the eye. Separate any suspected animals and treat them early in the course of the disease to prevent a herd problem.
2. Try to control flies and gnats with sprays and dust bags. Good fly control may help prevent pinkeye and will also minimize the spread if it occurs.
3. Clip pastures before seedheads develop on grass. Seedheads may irritate the eyes of cattle and increase the chances of infection.
4. Adequate amounts of

vitamin A help keep tissues healthy. Good pastures generally provide sufficient vitamin A. However, when pastures dry up and get brown, supplementary vitamin A should be provided. Shaded loafing areas allow cattle to get out of the direct sunlight and can prove valuable in most areas of Texas. Many treatments have been utilized to control cases of pinkeye, including antibiotics, corticosteroids, and foreign protein therapy. If treatment is used, the preparation should be applied to both eyes, and treated or exposed animals should be kept separately from the rest to minimize the spread of infection, emphasizes Warren.

Since there are other problems of the eye that might resemble pinkeye, cattlemen should consult a veterinarian to determine the specific problem. Research on an experimental vaccine consisting of a formalin-killed culture of the agent considered to be the cause of pinkeye has been in progress since 1963. However, the vaccine is still

### Lockney 4-H'ers To Participate In District Dress Revue

Darlene Broseh, Jill Whitfill and Libby Williams were first-place winners in the Floyd County 4-H Dress Revue Monday night. Miss Broseh, daughter of Mr. and Mrs. Kenneth Broseh, was the winner in the Senior division and will compete in the district 4-H dress revue July 7 in Lubbock. The top 25 percent at district go to the state revue in Abilene next September. Miss Whitfill, daughter of Mr. and Mrs. Bill Whitfill, was first in the Junior II division, and Miss Williams, daughter of Mr. and Mrs. Jerry Williams, was the Junior I winner. They will model at the district revue but will not compete. All three first-place winners received special gifts and plaques from the county 4-H, in addition to certificates, group ribbons and individual gifts given each participant and first-throu-

gh sixth-place ribbons in each division. Other top dress revue participants included, in the Junior I division: 2. Heather Holt 3. Betty Kay Cates 4. Norma Perez 5. Shawnda Brock 6. Nicki Race; and in Junior II: 2. Karen Mathis 3. Amy Shaw 4. Stacy Graham 5. Patti Campbell 6. Melanie Foster. Also participating were Crissy Carthel, Amy Koonsman, Rosario Segovia, Stephanie Bybee, Sherese Cannon, Karyn Foster, Shelley Sesson and Kayla Emert in the Junior I division; and Kay Reay, Julie Reece and Barbara Moore in Junior II. The scoring was close—everybody scored over 90 on a 100-point maximum scale, and all received blue group ribbons. Two pre-4-H'ers—Shandra Bybee and Karen Ford—modeled projects but were not eligible for competition in the county revue.

The U.S. Department of Labor has contracted for a study of terminations of pension and profit sharing plans since the enactment of the Employee Retirement Income Security Act of 1974.

### Park Offers Fishing

QUITAQUE — Caprock Canyons State Park located just north of Quitaque is one of the newest parks in the Texas system and the clean, cool waters of Lake Theo are drawing many visitors. Although the 15,000-plus acre park is not developed

for overnight camping or extended backpacking, day-use picnickers, anglers and sightseers are enjoying the scenic caprock country.

"Fishing has been good for crappie with a few largemouth bass being caught this spring," said Marquis Robertson, park superintendent.

"There is no day-use or entrance fee since the park is not fully developed," Robertson continued.

The present day-use hours are from 8 to 5 daily but, the summer hours from 8 to 9 will into effect on May 28.

Boaters are restricted to outboard motors under 12 horsepower and boats under 19 feet in length. All Texas water safety rules and regulations apply on the lake and are enforced by both parks personnel and Texas game wardens.

All persons requiring a Texas fishing license are asked to buy one before entering the park to fish as none are available at the headquarters office.

More information about Caprock Canyons State Park is available by writing the park at P.O. Box 204, Quitaque, TX 79255 or by calling 806/455-1492.

# Fairview News

By Mrs. Clyde Bagwell

**FAIRVIEW, May 16** — Farmers are ready to plant cotton but the unsettled weather we are having keeps them wondering just what to do. The high winds we are having are hard on tender gardens.

Mr. and Mrs. L. B. Cozby and Mr. and Mrs. Bobby Cozby and daughter, Kara went to Tokio, Texas Thursday, May 12 where they attended the wedding of Tokio Baptist Church for Carol Cozby, daughter of Mr. and Mrs. L. B. Cozby, and Jet Wilmeth. The young couple will make their home at Tokio where the groom is engaged in farming. Carol was born and reared in Fairview Community. The previous weekend on May 7, Mr. and Mrs. L. B. Cozby and Mr. and Mrs. Bobby Cozby and Kara were in Tokio to attend a wedding shower for the young

## Floydada Nursing Home Happenings

By Faye Walters

Boy! Has this been a busy week at the Nursing Home. Starting with Monday following a great Open House Sunday, we had a wonderful art show by Winnie Carthel. She had some of the most beautiful paintings and she was so gracious to all the residents. They really enjoyed the paintings as well as Winnie. She was a real delight to everyone and they are looking forward to seeing her again.

Tuesday night we had home made ice cream and enjoyed some real good music by Art Ratzlaff, Harvey Allen, Dewayne Wilson and Charles Overstreet.

We also had some beautiful singing by Art Ratzlaff, Gean Christophor, Mona Dean and George Finley. Then when everyone was about ready to go home, we had some specials by "our resident," Annie Smith. She sure got a big hand by everyone.

I think everyone enjoyed the ice cream, especially the residents as it had been a long time since some of them had tasted home made ice cream.

Wednesday we had some good domino games. Ray Reed, Hope Hammonds, Pearl Carrick, Agnes Anderson, Mollie Jones and myself all played as the weather was too bad for our field trip.

Then Wednesday the Assembly of God Church came out to the home and had their church services here.

There was some beautiful singing and a good message brought especially for our residents. I think all enjoyed it as some have been unable to go to church for a long time.

Thursday afternoon Lou Burleson brought Judi Bean, Kelli Lyons and Kelly Marble to the home and put on the play "Crosspatch" for the residents. It was wonderful to see how much they enjoyed it.

We appreciate these people so much for sharing their talents with us.

Friday night Wilson Bond showed us some beautiful slides of Canada including flowers and sunsets there. He told about each as he showed them. They were really enjoyed by all and we would like to have him come back and show more when he can.

We appreciate all our visitors who came to our Nursing Home Week. Activities as well as our regular visitors...The list is too long to print, but God bless all of you who visited.
