Summer Wheat Harvest Begins

Two good crops will be in the field on the farm. The total wheat harvest bushel tally will be off what it could have been had not hail struck the area northeast of Floydada and south of Dougherty.

is a low low \$1.91 per bushel, and will go in the government loan at around \$2.07 plus protein rating.

Custom combine operators will begin moving into Floyd county today according to one elevator operator.

LOCKNEY AREA

The first 1977 load of marketable wheat brought to a Lockney-area elevator arrived at Lockney Cooperatives South Plains facility at 5 p.m. Monday.

Alvin Nichols, the producer, donated the \$25 premium from the Lockney Chamber of Commerce to the Lockney Volunteer Fire Department.

The "first wheat" was cut from a dryland field three miles south and a mile east of South Plains. The 26,420-pound load tested 13.28 percent moisture. Test weight was 60 pounds. Nichols estimated the yield, from a hail-damaged field, at about 18 bushels per acre.

PLAINVIEW(spc)--The first 1977 wheat crop in Hale County is yielding 40 bushels per acre on dryland.

County Agent Ollie Liner reported on the yield of wheat delivered by Mike Price of Plainview from land 2 miles west of the Happy Union Community.

"The county average for dryland wheat is 12 to 15 bushels and the county average for all wheat, dryland and irrigated, was 34 bushels in 1976," Liner said.

The grain tested 13 percent moisture content when it was delivered Friday to the Happy Union Elevator.

Liner credited the yield to good winter and spring moisture.

Plainview has received 12.91 inches of rain since the first of the year, compared to 4.24 inches for the same period in 1976.

THIS FIELD OF WHEAT south of South Plains was making a little over 15 bushels per acre. It is dryland and received some hail damage. Producer

of the wheat is Sylvan Kinnibrugh, combine operator Jerry Calahan. (Staff Photo).

Busy Saturday For Sheriff's Officers

Floyd Sheriff Fred Cardinal and his deputies experienced a busy and exciting Saturday as they arrested a lot of people with alcoholic beverages and investigated a drunken brawl near McCoy.

Deputy David Hart in Making a routine traffic stop on the Ralls highway Saturday afternoon arrested Ernest Johnson of Floydada and he was charged in J.P. Court with transportation of alcoholic beverages and is out on \$1500 bond. (five cases beer, one case wine)

Later that day two liquor control officers from Lubbock and the sheriff's department arrested Buddy Jenkins at his home in northeast Floydada and charged him with possession of alcoholic beverages. (16 half pints of whiskey and some beer). He is out on \$1500 bond.

Saturday night Floydada's Ruby Jones outran Lockney deputy Olin Poteet, but the liquor control officers caught and arrested her in Floydada. She was charged with possession of alcoholic beverages and released on \$1500 bond. (10 cases beer). Poteet first

sighted Ruby in her auto on the Ralls highway headed toward Floydada.

BRAWL

Saturday night, the sheriff's officers, highway patrol, city police and justice of the peace answered a call at McCoy that there was a drunken brawl and there was one dead and three injured. The location of the house was described as three miles west and four or five south of McCoy. Two ambulances were dispatched to the scene. However, on arrival the officers discovered only one injured man and the rest had "taken off" No arrests were made.

Auto Accident Bill \$732,000

NEW YORK: From an accident standpoint and from a cost standpoint, are Floyd County car owners better off than those in other areas?

What are the chances of a local resident being involved in some kind of automobile accident during the course of a year?

Data showing the accident records in every state and the economic loss entailed have been compiled by the Highway Users Federation, the National Safety Council and others.

According to their statistics, one car in every ten will figure in an accident annually. As for the average motorist, he will have two every eight years, one of them through his own fault.

Nationally, in 1976, there were 47,100 traffic fatalities, close to 2,000,000 disabling injuries and an economic loss of more than \$20 billion.

In Floyd County there has been an average of 3 motor vehicle deaths per year, according to the Government's last three annual reports. In addition, for every one who was killed, there were about 40 who were seriously injured, it is estimated.

In the state of Texas as a whole, the cost of all this, in terms of medical expenses, property damage, loss of wages and the like, is placed at \$1,290 million.

This boils down, according to the findings, to \$155 per motor vehicle

registered in the state.

Elsewhere in the United States, the average cost is \$144 per vehicle. In the West South Central States it is \$159.

For the 4,720 passenger cars in Floyd County, the cost per year totals approximately \$732,000, based upon the area figures.

Because of the 55 mile-per-hour speed limit imposed a few years ago to cope with the gasoline shortage, the nation's accident rate dropped dramatically. More recently, however, many drivers have been ignoring the restriction and the rate, as a consequence, has been rising.

Voter Registration Money

AUSTIN--Comptroller Bob Bullock mailed checks totaling \$826,677 to 251 Texas counties Tuesday as payment for issuing and processing voter registration certificates from February 1, 1976 through January 31, 1977.

The payments ranged from a low of \$6.80 to Donley County to \$117,141 to Dallas County, Bullock said.

The counties are paid 40 cents by the State for each voter registration certificate issued or canceled, he explained.

Floyd received \$344, Crosby \$465, and Hale \$2,002.

Tax Rep. In Floydada Thursday

AUSTIN--State Comptroller Bob Bullock announced he is sending a representative from his Lubbock office to Floydada on Thursday June 9, 1977 to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Raymond Bogus will meet with local taxpayers at the Floyd County Court House Room-103 from 10:00 a.m. to 12:00 p.m.

"If Floydada-area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing tax forms, Mr. Bogus will be there to assist them," Bullock

said. "We're trying to cut the red tape in this office and we believe these face-to-face sessions with taxpayers help do just that," Bullock added.

Bullock reminded those taxpayers who are unable to meet with his representative on Thursday June 9, 1977 that they can still get their questions answered quickly by calling his TOLL-FREE tax information number in Austin. That number is 1-800-252-5555.

The Lubbock office, headed by Donald F. Paxton, serves Lubbock and surrounding counties.

Accident At

Livestock Auction

A pickup driven by Steve Lloyd crashed into the side of a cattle trailer loaded with cattle just in front of the Floydada Livestock Auction shortly after noon Tuesday.

The pickup that was pulling the cattle loaded trailer was driven by Foy Lee Riddle.

Lloyd was traveling south, and according to highway patrolmen who investigated Riddle was traveling north and turned west into the south bound lane.

Front of the Lloyd pickup received extensive damage.

Postal Employees

Accumulate Over 2,000 Hours Sick Leave

Three Floydada postal employees have been recognized by their Sectional Center Manager, Elmer J. Reed, Jr., for the accumulation of over 2000 hours of sick leave. Reed enclosed a U.S. Postal Service tie-tack and a letter of recognition to Randy Gafford, Rural Carrier, Route 2 with 2635 hours; Doyle Turner, Supervisor of Postal Operations with 2159 hours; and Kyle Glover, Rural Carrier Route 1 with 2016 hours--which stated, "Congratulations!" This accumulation shows that you are sick leave and safety conscious. It is nice to know that you are aware of the values and benefits of sick leave. Please accept this tie-tack in appreciation for your concern for the United States Postal Service."

Postmaster Ed Wester said, "It takes twenty years of service to accumulate 2000 hours, so it takes a healthy person plus dedication to achieve this." He said the Floydada Office has accumulated 16,343 hours of sick leave for the thirteen employees, an average of 1257 days each person, which requires 12 1/2 years of daily attendance. "That is an excellent record itself, and I'm thankful for healthy, dedicated, safety-minded people," Wester stated.

ACCORDING to Mayor Parnell Powell the streets and alleys have been sprayed ten times for mosquitoes. He says that you can get a complete kill, and the mosquitoes continue to come in from outside the city limits. He just wanted you all to know.

PRESIDENT CARTER may be more interested in balancing the budget than saving the wheat farmer. However, when the wheat farmer goes broke and goes on welfare, look for the budget to get unbalanced again. It seems to me there are many better ways of balancing the budget than "busting" the wheat farmer.

WHEN A HUSBAND returned home from work one evening he noticed a severe burn on his wife's ear. "What in the world happened to you?" he inquired. "Well," she began, "while I was ironing I was watching television and became absorbed in a soap opera. Suddenly our phone rang--and I answered the iron."

SOS This Is The

As in no other year since the eradication program began in the southwest in 1962, this year ranchers and the state and federal governments stand an excellent chance of stamping out screwworms once and for all.

Screwworms—the larvae of the screwworm fly and a deadly parasite of all warm-blooded animals—continue to plague the southwest in spite of efforts to push the fly south of the U.S.-Mexico border. Some years have been good years in the battle against screwworms. Other years, such as 1972, have been bad. But each year brings the renewed hope that screwworms can be eliminated from the United States forever.

Why is this the year to wipe out screwworms? Several things make this year unique:

(1) The weather is on our side. The cold winter has kept most screwworm flies dormant, inhibiting mating and thereby reducing the fly population ranchers will have to face in the spring.

(2) The new screwworm production plant near Tuxtla Gutierrez, Mexico, opened in July 1976 and has been producing millions of sterile flies ever since. Over 200 million sterile flies now are being raised each week in Mexico. Added to the Mis-

sion production, that gives the program about 400 million sterile flies each week to use in the stamp out effort: (3) A new strain of sterile flies—many feel the best strain ever—was introduced last spring and seems to be a strain of "super flies." Scientists believe that this "009" strain is the first time a complete strain change has ever been made at Mission. This means we now have flies which fly and mate at the same time the wild fly does—in short, a competitive, aggressive sterile fly.

These three points, added to the ongoing hard work at the Mission, Texas, screwworm plant, make 1977 THE year for ridding the U.S. of screwworms.

There's only one catch. Sterile flies cannot do the job alone! It is not an excuse, it is the simple truth. Sterile flies only work when the fertile population is low. The fertile population is kept low by rancher cooperation such as treating all wounds and postponing wounding operations. The screwworm pro-

water to "freshen" them, Hamm cautioned. Soaking or slow washing dissolve nutrients and sugars which ruins the flavor. As soon as you have prepared the foods, chill as quickly as possible, using a covered refrigerator pan or plastic bags if your refrigerator is not moisture-controlled, she explained. Hamm added that enzymes which destroy vitamin C are inhibited by acid, so that the addition of lemon juice or vinegar as vitamin C-rich foods such as avocado helps to prevent vitamin loss and discoloration. Also, contact with any equipment which contains copper destroys vitamin C in the food instantly, turning the surface brown. "Fresh salads provide essential nutrients and bulk to the diet and, when prepared with care, are a flavorful addition which are important to every meal," Hamm said.

NEWS 'N' NOTES

(by Sharon Hillis)

CHILDREN'S CAR SEATS

In a car, children need the vital protection only a car seat or harness can provide—but all are not safe for every child or car.

bone structure. Adult lap belts can cause internal injuries under some circumstances. However, an adult seat belt is better than no restraint device at all. Also, not all child carriers are safe. Be sure to buy "crash tested" restraints. Some restraints that "meet or exceed federal standards"

Mr. & Mrs. W.M. Hambricht

are not crash tested—and that is the only way to be sure the child restraint you buy is safe.

INFANTS
For infants up to 15 pounds, look for a tub-like infant carrier that faces rear. Expect the infant to outgrow the infant carrier between six and nine months of age, although use it as long as it fits the baby comfortably.

Some infant carriers are designed to convert to a child seat, thus saving the cost of a second, larger restraint.

Some civic groups rent infant carriers—ask community groups about this service or if they will consider it as a civic project.

For children who can sit erect, there are several styles, including a molded seat with an impact shield, a chair with a harness, and a harness alone.

CHILDREN 15-30 POUNDS—In buying a harness type restraint, be sure the straps are wide. For children who weigh between 15 and 30 pounds, the molded seat with an impact shield that the adult lap belt fastens around is a good choice.

Children who weigh over 30 pounds may become restless and find the impact shield too restraining. Some

styles offer both an impact shield and harness.

CHILDREN OVER 30 POUNDS—Chair styles with harness are especially comfortable for children weighing more than 30 pounds. Look for seat backs high enough to protect against whiplash—and padded wings at eye level for protection in a side collision.

The harness-only type of restraint is much less expensive than other types and is effective protection.

However, it is best used in the center rear seat where there is less chance the child will be hurled against doors and other internal surfaces in a crash. Of course, that means the harness is not appropriate in subcompact cars without a rear center seat belt.

In addition, as parents shop for children's car seats or restraints, they may want to be sure the restraint will fit their child and allow for some growth, fit into their car—try it in the car before buying—and be easy to install and transfer from car to car to fit the needs of the family. Also, be sure all adults in your car fasten their own safety belts. Many small children have been hurt when an unbelted adult crushed them in a crash.

Hamilton Family Reunion

The Hamilton reunion was held Sat. June 4th in Quitaque at the community center. This center is beautiful and is an asset to any community. The Hamiltons all grew up in Quitaque but none live there now. So in the afternoon many friends dropped in to visit.

Those present were Mr. and Mrs. Noman Hamilton and daughter Mrs. Bobby Rainer and daughters Kay Lyn and Mary Ann of Floydada, Mr. and Mrs. Keltz Garrison and Mr. and Mrs. E.J. Hamilton of Plainview, Mr. and Mrs. B.K. Hamilton of Granbury, Mr. and Mrs. Paul Hamilton of Denton, Mr. and Mrs. George Setliff, Mr. and Mrs. David Setliff and sons, Bruce, Doug and Crain of Turkey, Mrs. N.V. Hamilton of Tyler.

Others present were Miss Hope Hamilton of Dallas, Mr. and Mrs. Kenneth Hamilton of Weatherford, R.C. Self of Elida New Mexico, Mrs. Sabra Ann Self of Portales, New Mexico, Mr. Valton Oakley of Lytle, Texas, Mr. and Mrs. James Ronald Garrison and daughters Kathy and Kendell of Lubbock, Mr. and Mrs. Jerry Hamilton of Orogranda, New Mexico, Mr. and Mrs. Jack Meeks of Fort Worth, Mr. and Mrs. Bob Self of Olney, Mr. and Mrs. Robert Hamilton and son Kris, Mr. and Mrs. Hiram Vaughter of Amarillo.

Lakeview News

(By Penny Golightly)

Wheat harvest is upon us, and I will be working at the Lakeview D. and P. Grain. I will try to have the news in next week, but I know everyone else will be busy with wheat also.

I learned more about polo and polo horses today (5th) from Greg Bishop. We were discussing horses and we got on the subject of Monty Williams riding polo horses for a polo team on the Harold Berry ranch near Truscot, Texas. Mr. Harold

Berry has a son, Joe Berry, on the polo team. The team travels to the north and north eastern United States and to South America. Monty rides the young horses to get them ready for the sport. Joyce tells me the Harold Berry family is very down to earth considering the places they have traveled. The ranch family and working members do things the way they used to be done. For example when the farrier (horse shoer) comes, they all quit ranch work and go fishing. When they get fishing out of their systems, then they shoe the horses.

Mr. and Mrs. Q.D. Williams visited friends in Morton Sunday. They brought home Joanie and Brittany. Memorial day Mr. and

Mrs. Howard Bishop had a cook out at their ranch in Roaring Springs. People present were Mr. and Mrs. Dee Adams, Mr. and Mrs. Q.D. Williams, Mr. and Mrs. Bob Cooper, Mr. and Mrs. Norman Muncy, Mike and Greg Bishop, Roland, Janice, and Misty Adams camped out on the Bishop ranch, but they were gone before the others arrived.

Mr. and Mrs. Donny Guess (former Cheryl McClintock) their two children Amy and Bryan Guess were home for the weekend. They visited Mr. and Mrs. Dwane McClintock, Dayne, Penny and cousin Rance Golightly. They came to see our registered filly, but had a surprise for all of us. They had brought a new van.

Mr. and Mrs. Holt Bishop went to Electra, Texas on the Memorial weekend. They went to see Mrs. Bishop's son and his family Mr. and Mrs. Gary Holt.

Mr. and Mrs. Leonard Alexander attended a family affair honoring Mr. and Mrs. W.M. Hambright on their Golden Wedding Anniversary Sunday. It was given by Mr. and Mrs. Hambright's children, Mr. and Mrs. Gordon Hambright, Mr. and Mrs. Bob Hambright, and Mr. and Mrs. Billy Joe Hambright in the First Baptist Church.

Mrs. Odell Breed is in the Central Plains hospital in Plainview. She had an ulcer

operation last Tuesday. Last Monday at the Byron Kendrick's home was a family reunion. The reunion was Ilenes' mother's side. Members of the family present were Mr. and Mrs. Fred Thayer and family, Mrs. Ruth Evans, Mr. and Mrs. Walter Easter, Mr. and Mrs. Milton Evans, Mr. and Mrs. Danny Daniel and family, Mr. and Mrs. W.R. Daniel, and Keith Thomas and family from Floydada. From Amarillo was E.T. Evans, and Mr. and Mrs. Larry Adams and family were there also from Kentucky.

Mr. and Mrs. Brewer enjoyed a nice Sunday visit with H.T. Ayers of Lubbock. Deanna Watson daughter of Mr. and Mrs. Dean Watson attended Bible school today (June 6th) at the First Baptist Church in Floydada.

Pesticide Applicator Training Workshop

LUBBOCK-- A training workshop for commercial and non-commercial agricultural applicators of pesticides has been scheduled for June 15-16 at Plains Coop Oil Mill in Lubbock, according to County Extension Agent Doyle G. Warren.

The educational workshop though not part of the official certification process, is being conducted by the Extension Service to train commercial and non-commercial applicators in three categories of agricultural pest control. These are field crop pest control, fruit and vegetable pest control, and weed and brush control. The workshop is being limited to an audience of 150 persons of a first come first serve basis.

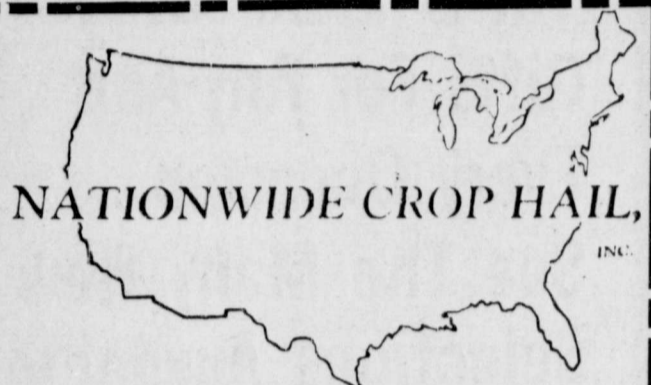

The first session of the workshop will include subject matter applicable to all categories of commercial and non-commercial applicators. Sessions that follow will deal with category specific subject matter.

A certification examination is to be conducted on June 17 by the Texas Department of Agriculture at the same location, says Warren.

Persons planning to attend the workshop must preregister by writing to Dr. Pat Morrison, TAEX, Route 3, Box 213AA, Lubbock, Texas 79401, indicating their intent to participate in the workshop. Details will be provided by return mail along with study

materials. For members of their organization, the Texas Plant Food Institute will sponsor a similar workshop June 28-29 at the Lubbock Civic Center, Warren adds. The Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, enforced by the Environmental Protection Agency, includes among other requirements "(1) classification of all uses of pesticides as either restricted use or general use and (2) certification of applicators (private and commercial) as a requisite to the legal use or supervision of use of restricted-use pesticides." Voting Procedures For Beef Checkoff Program

There has been much discussion about the proposed Beef Research and Information Program, which will be voted on this spring by beef and dairy cattle owners. The registration period for producers to qualify in the election is set between 6-6 and 6-17, and the actual voting dates are 7-5 and 7-15. Eligible producers should

contact their county Agricultural Stabilization and Conservation Service office to receive a registration form. The county ASCS offices will conduct the referendum, explains Doyle Warren, County Extension agent.

"There are two separate parts of the referendum, registration and voting," he reminds. "A producer must register during the first period and must make another trip to vote during that designated period."

At least 50 per cent of the cattle owners who register must vote—and 2/3 must vote affirmatively—in order for the referendum to be valid. Those eligible include 4-H youths, FFA members, men and women who own livestock.

"There is no age limit or minimum requirement of the numbers of cattle owned in order to qualify to vote. Any questions about bonafide ownership can be resolved by tax records, sales slips, registration papers or any other valid papers showing ownership of livestock," adds the county agent.

A partnership, cooperative, corporation or similar business is considered as only a single entity for the purpose of voting in the referendum. Where a husband and wife own cattle jointly, this will be considered a single entity

and only one may vote. If each owns cattle separately and has documented proof of ownership, this is considered as two entities and each may vote.

In the event that a person owns cattle in a county other than where he lives, or if he cannot make it to the polls during the registration or voting period, it will be possible to write or tele-

phone the county ASCS office for an absentee ballot, explains Warren.

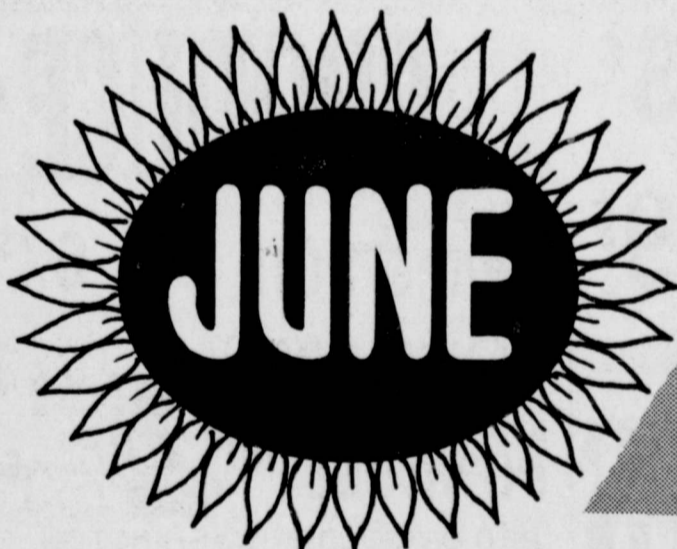

If approved, the Beef Research and Information Program will allow establishment of projects for advertising, promotion, education, producer information and consumer information with respect to the use of cattle, beef and beef products.

OBITUARIES

Roe Jones

Services for Roe Jones, 75 were held Tuesday in the First Baptist Church with the Rev. Floyd C. Bradley, pastor, officiating. Burial was in the Floyd County Memorial Park under the direction of Moore-Rose Funeral Home.

The Johnson County native died at 3 p.m. Sunday after a lengthy illness.

He served as manager of Producers Cooperative Elevator 1948-1964 and on the City Council 1957-1968. He also served on the Consumers Fuel Assn. board.

Survivors include his wife; four daughters, Mrs. E.R. Melton of Plainview, Mrs. John Perry of Petersburg, Mrs. Ted Hale of Adrian and Mrs. James Huckabee of Stephenville; one brother, Tate of Floydada; two sisters, Mrs. Macel Harkins of Crosbyton and Mrs. Inee Otten of El Paso; 10 grandchildren and two great-grandchildren.

Mrs. Ona Burns

Funeral services for Mrs. Ona Burns, sister of F.A. Faulkenberry, were held in Paducah Sunday afternoon at 2 p.m. at the First Baptist Church.

Mrs. Burns died Saturday, June 4 at 6 p.m. at the hospital in Paducah following a long illness.

Family attending from this area were C.H. Wise, Doris Kitchens, the F.A. Faulkenberry family, and Don Faulkenberry all of Floydada, Wayland Faulkenberry and S.K. Porter of Lubbock.

Cattle

Producers

Can Call Toll-Free Hotline

The Texas Beef Development Taskforce (BDT) has established a toll-free "Hotline" to answer questions from cattle producers about the Beef Referendum.

Registration for the long-awaited Referendum is taking place June 6-17 at nearly 2,000 county ASCS offices across the nation. Cattle producers who wish to vote must register before the June 17 deadline. Actual voting will take place back at the ASCS offices between July 5-15.

"Beef producers who have a question about the program can call 1-800-682-4106 weekdays between the hours of 8 a.m. and 8 p.m.," says Texas BDT Chairman J.D. Sartwelle of Sealy.

The Referendum, if approved by two-thirds of the cattle producers voting, would authorize the first nationwide self-help program for the beef industry. Using the value-added system, each cattle producer would contribute 3/10 of 1% (30 cents per \$100) of the value of each animal sold. This rate would raise \$30 million to \$40 million per year for beef research, education and promotion, says Sartwelle.

The Floyd Philosopher Comes Up With A Plan To Get The Whole Country Out Of Debt In No Time

Dear editor:

There's an argument going on in Congress on whether mail delivery on Saturdays should be eliminated.

The Postal Service says it could save \$400 million a year by eliminating Saturday deliveries. A prominent Senator favors it, asking "Why do we need six-day delivery? Mail I get on Saturday could very well wait until Monday."

This opens up some far-ranging possibilities. If you can wait till Monday to get Saturday's mail, why can't you wait till Tuesday, or Wednesday, or Thursday? Or one day next week? Or next month?

If the Postal Service can save 400 million dollars by eliminating Saturday delivery, it could save six times that, or \$2,400,000,000 by eliminating the whole week. This would sure throw a kink in mail service, but there are some who claim it wouldn't be noticed.

By eliminating all mail delivery, the Postal Service could thus save about two and a half billion dollars a year. That's just a start in a national economy drive. For example, it now costs about a billion dollars a year to operate Congress. You get the drift.

Or take the courts. The court system in

Or take the courts. The court system in this country has never shown a profit. Neither has the highway system. I don't know of a single public school that's done it. Raising kids is one of the least profitable businesses there is. Show me a penitentiary that's paying its way. Everybody knows that big cities are one of the worst investments a mass of people can make. You ever hear of a weather bureau showing a profit? A public park? Without generous tax support, how many county governments could stay in business? Or state governments?

By eliminating Saturday mail delivery and setting the domino theory of economy in action, this country could get out of debt in no time.

Yours Faithfully,

Local Boys State Delegates Arrive In Austin

Austin, June 8-The thirty-seventh annual American Legion Boys State sponsored by the Department of Texas and held on the Campus of The University of Texas, got under way today as 930 high school boys from all parts of Texas, and two from Mexico, began registration. C.G. McKinzie, State Commander, announced. Among those registering from Floydada were Jim Frank Potts and Charles

tions as a member of his party, he attends its precinct, county and state conventions and votes in its primary. Boys State helps to develop civic leadership and pride in American citizenship. This program arouses a keen interest in the detailed study of our government. These civic workshops stress the importance of maintaining our form of government and bring better understanding of our national traditions and beliefs to the more than 28,000 young men who are participating this year.

In Boys State, The American Legion provides the type of program where the young citizen has the opportunity to learn for himself that his government is just what he makes it. The boy "learns to do by doing." The program takes on added significance since the vote has been extended to 18 year olds. Most Boys States are in the 16 to 17 age category. Highlight of Boys State will be a trip to the Capitol on Tuesday morning where each elected Boys State Official will be given an opportunity to serve in his respective office for a day. Boys State enrollment this year brings the total to 21,035 high school juniors who have attended since 1940, when Boys State was first inaugurated in Texas.

Floydada Nursing Home Happenings

By Faye Walters

This has been a regular summer week. Some days were really hot. But we didn't get any hail or tornadoes and we are all thankful for this. Our devotions have been very inspiring this week and we would like to thank everyone who took part in them.

I am very proud to live in a place like Floydada where the people still love the Senior Citizens and will take the time to come to the Nursing Home and bring the word and gospel singing to them. This is very important to them and many are no longer able to go out to their churches to worship.

Our exercise classes have been good this week but several have been unable to attend because of various reasons. Agnes Anderson has been in the hospital, Pearl Carrick's back has been bothering her and Ida Martin has had some trouble with a shoulder.

Wednesday we took a nice field trip. Taking this trip were the driver Mr. Freeman, Ray Reed, Mollie Jones, Dora Langford, Florence Badgett, Hope Hammonds, Dora Manning and myself. We saw some pretty crops and some that weren't even up yet.

Thursday we played bingo and everyone had a good time. Top winner was Hope Hammonds with four games, Ray Reed, Hallie Bertrand, and Clara Williamson all won two games each; Henry Love, Terry Westbrook and Agnes Anderson won a game each.

Henry Love and Agnes Anderson only played a little while. Agnes had just come from the hospital in Lubbock. She will return there Monday. Clara Williamson's family had a reunion and she enjoyed it so much. We are happy for her. We appreciate all our visitors this week which included:

- Mrs. George Wexler, Alma Ruth Nelson, Lurene Gee, Mrs. Donnie Holladay, Suzanne and Michell of Amarillo, Mrs. Hubert Davis, Mrs. Otis Anderson, Mrs. Paul E. Wilson, Sue Moore, Mrs. Cora Smallwood of Matador, Thanie Smallwood, Otis Anderson, Ruth Marier Parr Nolonax, Brela Parr of Gainesville, Mr. and Mrs.

Have you ever wondered, "What are all of professional sports?" According to an article in SPORT magazine, professional athletes actually fulfill those qualities and are more physically conditioned and coordinated than most participants in all fields of endeavor. Football players, but they possess a rare blend of speed, combined with a keen eye and coordination, topped off with a determination to succeed in those rare qualities?

In many cases, however, there are smaller fields of competition which require an effort that must put forth just as much as the big professional players. One such effort is entitled, "A Wind Against Us" by John Wood, a Vermont graduate, currently gathering a bicycle, getting to know people and their attitudes against people, and he is able to travel 200 miles per day, with a 150-200 mile range. Albuquerque with plans to reach Los Angeles. Wood claims that so much exercise is not only physically, but emotionally taxing. He hopes to publish a book, that will be more forms of exercise.

"In Texas there are only two sports: Football and spring football!" Congratulations to Randy Bathard, who has won a scholarship to run track at South Plains. Doubts as to his making a substantial program there.

Remember Langston Williams, the athlete in 69, 70, and 71? He is now a coach at Monterey High School in Lubbock. Williams led the basketball team several records in track and field during the year. Continue to support the summer baseball team. There are lots of ball games yet to be played and excitement to follow!

Understanding Your Insurance

THE COST OF AUTO COVERAGE
If you're one of the more than 100 million drivers in the United States you have plenty to grieve about. New car prices have gone up 21 percent over the past four years. Gasoline, 70 percent. And auto insurance, 32 percent.

A \$4,438 automobile costs \$19,979 when repaired part by part as your auto repair shop must do, according to one study.

The main reason for rising auto insurance costs is particularly severe inflation in two areas—auto repairs and medical expenses. One recent study of auto repair charges gave some hair-raising facts:

A \$4,438 automobile costs \$19,979 when repaired part by part. Citing the study's conclusions, The Travelers Insurance Companies points out that if this particular car were involved in a crash and 25 percent of the parts had to be replaced, the total repair cost would not be 25 percent of the new car price. It would be 25 percent of \$19,979—that's \$4,995 or \$557 more than the original price.

And then there are medical costs. Hospital room rates, for instance, went up 250 percent in 1966-1975. In the same period, doctors' fees increased 105 percent.

All this shows up in your premium rate. Much will have to be done to give auto policyholders a fair shake. Some of the steps include holding down repair costs, tightening laws against theft, and encouraging improvements in highway and car safety.
