Semi-finalist In National Merit Scholarship Program

Approximately 15,000 students have been named Semifinalists in the twenty-third annual National Merit Scholarship Program. These academically talented students will have an opportunity to continue in the competition for about 3,900 Merit Scholarships to be awarded in the spring of 1978.

FHS Senior Kelly Turner has been notified that he is one of the 15,000 semi-finalists. Kelly is serving his fourth year on the FHS student council, two years on the National Society, has received numerous band awards. He plans to study for an engineering degree at Tech. He is the son of Mr. and Mrs. Robert O. (Shorty) Turner.

Semifinalists are named from over 1 million students enrolled in 17,500 high schools who entered the 1978 Merit Program by taking the 1976 Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT). Semifinalists are the highest-scoring students in each state; the number named in a state is

proportional to that state's percentage of the nation's total graduating senior

'Winds Entertain Unbeaten Post Friday

(by Doug Simpson)

Hoping to rebound from a 12-6 loss to powerful Canyon, in an effort considered anything but disappointing, and to further the experience of a few starters atop the underclassmen ranks should be very good reasons to get excited about a crucial encounter with undefeated Post this Friday night at Wester Field.

But according to Whirlwind head coach L.G. Wilson, a third factor should be included in motivating his players for the showdown, slated to get underway tomorrow night at 8 P.M.

"We consider our non-conference schedule as difficult as any AA school in Texas," Wilson commented Tuesday afternoon. "Our schedule is certainly tougher than any other team in our

district." Coach Wilson rates the toughness of Floydada's schedule as an important asset to the club when district competition rolls around in a few weeks.

"If you are not down physically or mentally by district play, I would consider playing teams like we are playing this year an advantage. Post is an experienced ball club, they are very quick and aggressive," Coach Wilson added.

The Antelopes are coming off an excellent season in '76, and return a sizeable list of senior letterman off a quarterfinalist squad. Thus far in '77, Coach Jackie Brown's team is on the right track to representing district 5-AA again, with an unblemished 2-0 mark following convincing wins over familiar faces Lockney and Coahoma:

The 'Winds are currently 1-1 on the year.

Size-wise, Post is one of the smaller teams Floydada will face throughout the season. The heaviest player on the 32-man roster weighs in at 180 pounds, with the lightest at 136.

Offensively, the 'Lopes operate out of the straight T formation, with two-year quarterback, talented Brad Shepard leading the pack. Another senior, and strong candidate for various post-season honors is tailback Randy Baker, quick and powerful in the dangerous Post backfield. The other tailback is Cliff Kirkpatrick, while Butch Booth fulfills the fullback position.

Shepard is not hurting in throwing targets either. All-district candidates

Commissioners Cancel Cannery And Trapper

Monday. The budget was adopted at the past session when presented by county auditor Olin Watson Jr.

Commissioners also renewed the lease on the agriculture building from the Soil Conservation for a period of one year; set a budget hearing on revenue sharing for October 10 at 1 p.m.; agreed to pay up to \$125,000 on expenses for extension agent Sharon Hillis to attend the 4-H Seminar in Kansas; voted to cancel the county trapper's contract effective December 31, 1977 and voted to close the Floydada Cannery in 1978 and leave the Lockney Cannery in operation.

All commissioners were present and all motions voted on carried unanimously with the exception of the trappers contract renewal. That motion was vetoed by Grigsby Milton Jr. Voting for the cancellation of contract were Jack Lackey, Bob Jarrett and Aaron Carthel.

The county will save \$6,000 on the trapper and \$3,000 on the cannery. No one attended the budget hearing.

Scott Wins Contest

Larry Scott of 2429-B 23rd, Lubbock, missed only the Muleshoe-Lubbock Cooper contest to make a clean sweep of the Hesperian football contest and the \$10 first prize. Scott missed considerably on the tiebreaker total point guess with 45 (total points was 18) but was able to guess almost perfectly on each of the 23 games.

Taking second place prize money of \$6 was Terri Gentry of Route 4, Floydada, with only two missed contests, and a total point guess of 28, as well as predicting Canyon to win.

Gentry nosed out Grady Freeman, Floydada, who also missed two games, but was off on the tiebreaker by picking Floydada to win. Freeman will receive \$4.

Contestants receiving honorable mention status are: Joel Aaron, Lubbock, Randy Hale, Floydada, Danny Bradford, Canyon, Jenny Paty, Floydada, Beth Vinson, Floydada, Jack Ragland, Lockney, Sammy Bradley, Floydada, Joy Denton, Floydada, Jerry Cannon, Lockney, Gladys Jones, Floydada, Lorene Newberry, Floydada, Greg Pruitt, Floydada and W.L. Carthel, Lockney. (all missed three contests). Winners may pick up their prize money at the Hesperian Friday.

Burglar Arrested At Thompson Pharmacy

City policeman Leroy Chowning was at the right place at the right time about 3:30 a.m. Sunday when he saw a man coming out of the front of Thompson Pharmacy with a bag full of stolen goods.

Ed Wester is local Round-up Chair-

man. Scoutmasters Jimmy McGaugh and Wilson Bond will also be present to aid in the sign-up of the scouters.

"We feel that our community has outstanding scout leadership and we have a good program for our boys, so we encourage everyone to join our Round-up Thursday night at 7:30" Thomas concluded.

"THEY LIKED WHAT THEY SAW". . . industrial specialists from many area towns toured Floydada Tuesday and made some favorable comments on Floydada's possibilities for gaining new industry. Here the group is pictured in front of the A&M building before going to the Redman's Restaurant for a steak dinner.

ANSWERS:

For the highest Fashion I.Q. rating, you should have answered "no" to the odd-numbered questions and "yes" to the even-numbered questions. But don't be discouraged if your rating is not as high as you'd like. Every woman can develop a good fashion sense; it just takes a little bit of work. Study ads and store displays; experiment with your clothes and accessories. You'll soon discover the looks that are best for you.

Auxiliary, EMT

Sales Event Successful

The Caprock Hospital Auxiliary and Emergency Medical Technician's garage and bake sale was such a success they plan to have another in the near future.

"The response was so good, both in donating and purchasing the items that we plan to have another soon," Mrs. Lillian Smith, president of the Auxiliary said.

"All the baked goods and items donated for the garage made the event a great success," Mrs. Smith said, and the Auxiliary and EMT appreciates everyone's generosity."

49 Million Americans Are Single

COLLEGE STATION—49 million Americans are single, reports Debby Johnson, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System. Some choose to be single, while others inherit it through death of a spouse, marital dissolution or other circumstances.

Today the single state is much more acceptable, and chances for happy marriage are far greater for those who marry at a later age, says the specialist.

Many singles are happy about many aspects of their lifestyle. Miss Johnson says. For example, they do not have to explain getting home late; they have more privacy; they can keep on with their habits without having to tolerate annoying habits of others.

Singles also can pursue their own interests, have friends of the opposite sex without fear of a mate's jealousy, and set their own schedules without consulting anyone.

And unmarrieds may make their own decisions, keep living quarters clean or messy, eat whenever and whatever they choose, and try new places and experiences.

However, it is not necessarily all pleasure, says the specialist. For many, it is hard to face the truth that there is no special one who cares. There is loneliness, pity to be endured, and a lot of eating alone.

Living alone is also expensive. Taxes, housing, food, transportation—all come out of one pocket.

There is often no one to complain to, nor to boast to; no one to come home to, nor to say "I'm sick" to.

Singles may treasure their independence, but with this may come the absence of emotional closeness with someone of the opposite sex.

Residents with their fine music. Everyone really enjoys their type of playing. Thanks so much to both of you.

Wednesday was our field trip, and we looked at some more crops. Dora Langford, Agnes Anderson, Hope Hammonds, Florence Badgett, Mabel Foster (the driver) and I made the trip this week. We always enjoy this event.

Of course Thursday was Bingo day, and we had another large group to play, including Hope Hammonds, Clara Williamson, Pearl Carrick, Colesta Caffee, Halie Bertrand, Ray Reed, Agnes Anderson, and Willie Stambaugh. PHIL Silver's recent appearance on "The Tonight Show" was supposed to be highlighted by a film clip from his "The Chicken Chronicles" film—a comedy involving a ptomaine chicken take-out stand operated by Silvers. The clip showing Phil dumping a batch of burned chicken into a Col. Sanders bucket never ran. And if you're wondering why, it might help you form a conclusion to know the advertising spot that immediately followed Phil's appearance featured none other than Kentucky Fried Chicken.....

"SHENANDOAH" is coming to Lubbock Christian College. Four performances of the long-running Broadway hit will be in Moody Auditorium on the campus November 4, 5, 11 and 12. That date is some two months off but announced in time to make plans, if you wish to attend. The story portrays a close family that strives to stay out of the

Civil War until they are pushed out of their home. College drama youth will present the play.

ANOTHER function approaching is the second season of plays at the Plainview Civic Theatre; "Dames at Sea" on September 23-24; "Angel Street", Nov. 10-12; "Come Blow Your Horn", Feb. 9-11 and "The Rainmaker", April 20-22.

FORMER resident, Mrs. Robert McGuire, who makes her home in England, was visiting briefly in the Hesperian Tuesday with son, Don of Lubbock. Mrs. McGuire had been in the States for some two months visiting friends and relatives. She departs for England today where she makes her home with another son, Bob.

THE condition of Kyle Compton, 16 year old grandson of Mr. and Mrs. A.G. Eubanks of the McCoy Community, remains critical. The youngster was one of several injured in a five car pileup on Slide Road in Lubbock Labor Day weekend. Mrs. Eubanks said her grandson underwent brain surgery Sunday after his condition worsened. He remains in the intensive care unit of St. Mary of the Plains Hospital in Lubbock. Kyle is the son of Mr. and Mrs. Steve Compton of Lubbock. The youth also suffered broken legs in the accid-

ent, Mrs. Eubanks said.

AS we get older and sometime smarter...and hear young mothers complaining about their work load we think back of our cluttered years and remember a poem of that title:

An empty swing sways gently in the breeze, barren trails grow green again at last, flowers untrammelled stand erect and proud, the cluttered years are now part of the past.

No fingerprints to mar the shining windows, no cookie crumbs scattered on the floor. Broken toys long banished from the hallway, no sagging hinges on a squeaking door.

No shouts of joy or fear or childish laughter; so peaceful, yet all this solitude brings tears. For now I know the sweetest times of life are those noisy, frantic, happy cluttered years!

As one grandmother said the "Where's all that 'sad' peace and quiet? I have grandchildren living in the same town!"

SOME Floydada women making a trip through Claude, Texas recently thought Christmas had already arrived in that city. Possibly it has in one sense because they are filming another movie there, entitled "Christmas Sunshine." The entire town is decorated in a Christmas theme for the filming.

class. The Semifinalists, most of whom will complete high school and enter college in 1978, represent the top half of one percent of the nation's most academically talented young people. To be considered for scholarships, Semifinalists must advance to Finalist standing by meeting further requirements. These requirements include being fully endorsed and recommended for scholarships by their secondary school principals, presenting school

records that confirm high academic standing, and substantiating their high qualifying test scores with equivalent scores on a second examination. Over 90 percent of the Semifinalists are expected to qualify as Finalists and to receive Certificates of Merit next February. All winners of Merit Scholarships will be chosen from the highly able group of Finalists. Semifinalists who attain Finalist status will compete for at least 1,000 National Merit \$1000 Scholarships.

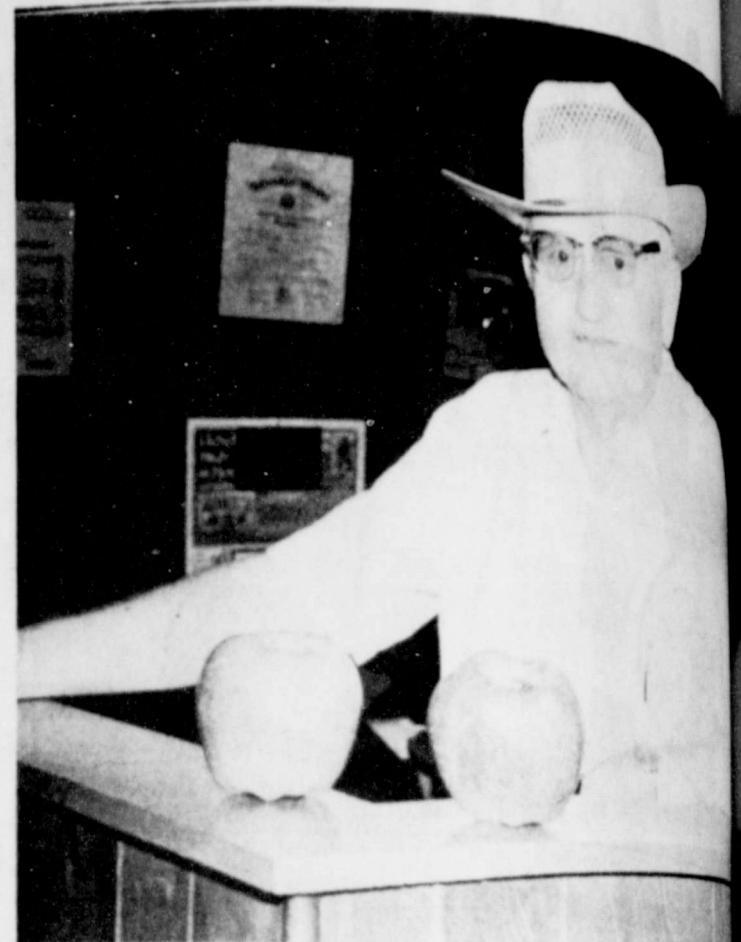

Each Finalist in a particular state will compete with all other Finalists in that state for one of these scholarships that are allocated on a state representational basis (the procedure used to name Semifinalists). The National Merit \$1000 Scholarships are one-time, non-renewable awards supported by grants to NMSC from business and industrial organizations. A Selection Committee of professionals in college admissions and counseling is convened annually to select the 1,000 winners.

Late TD By Post Edges 7th Breezers

The Post Antelopes capitalized on a costly fumble inside their own 15-yard line by responding with a go-ahead score with less than a minute to play to defeat Coach Mike Brownlee's 7th graders at Wester Field Tuesday night, 14-6. The loss evened the Breezers' season ledger to 1-1 and occurred in true come-from-behind fashion, as the visiting 'Lopes battled back from a first quarter deficit and a 6-6 deadlock for much of the contest to capture the triumph.

The only Floydada touchdown came in the game's initial period with hard-running Bruce Williams going over on a 20-yard gallop on the very first drive of the contest. The Breezers took the opening kickoff and marched 60 yards in just eight plays for the score. Post scored in the second quarter to even things up at 6-6, and the score remained at that until Post's decisive last-ditch TD.

Following the game, Coach Brownlee recognized the Antelopes as a very strong club offensively and defensively, and praised the individual efforts of Breezer backs Bruce Williams, Donnell Weeks, and Mike Salazar, along with the performance of signal-caller Marty Covington, and defenders Grant Turner, Todd Beatty, and linebackers Williams and Salazar.

Evans Heaton and Ronald Bratcher man the split end posts and should contribute to a very well-balanced passing attack. On the line, tackles Jeff Greene and Chuck Bass, along with center Leslie Looney, and guards Virgil Morris and Danny Gunn will be expected to guide Antelope running backs and give Shepard adequate pass protection.

Defensively, halfbacks Heaton and Kirkpatrick lead the squad, along with front four members Jeff Greene and Steve Davis. Also performing on the defensive line tackle; Bud Jones and end Steve Blair.

Erik Howard assumes responsibility at the noseguard spot, while the two linebacking positions are filled by Gunn and Baker. At the corners, Tim Morris and Carlos Varella make up the rest of a well-balanced secondary. Post runs a 5-2 defensive formation, and is basically small but extremely quick.

Only a pair of changes are due in the Whirlwind starting lineup for this week, with Charles Bradford assisting Mark Beedy at tight end, and Sheldon Sue filling in defensive tackle for Paul Radloff. Last week against Canyon, Radloff started both ways, but will

only start offensive Antelopes. Jon Jones ways at guard and as well as Larry Jones, half back. The Whirlwinds above 500 in a good advantageous way. Inexperience of the by playing a strong

Eighth Breezers Wallop Post 30-6

Hard-running fullback Mark Nutt teamed with signal-caller Todd Beedy, accounting for four touchdowns and an impressive 30-6 win over the Post Tuesday at Wester Field.

The Breezers, now 1-1 on the year, benefitted greatly from a consistent defensive effort, along with big plays on offense.

Beedy lifted Floydada into the lead on the game's first drive with a 10-yard left end TD scamper. Nutt converted the two points to give his team an 8-0 lead, at the time, a seemingly comfortable advantage.

But the Antelopes quickly responded on the ensuing kickoff with a long scoring march, capped by a 10-yard off tackle scoring run. The PAT attempt failed, however, and the score remained 8-6, also the score when both clubs headed for the locker room at intermission.

Nutt opened scoring in the third stanza with a spectacular 60-yard touchdown romp. The try for two points was successful and the Breezers held a comfortable 16-6 lead.

Finally, with time running out in the final period, Nutt went over again, this time from three yards out, and Beedy spotted Darrell Gooch in the end zone for two points. The TD had been set up previously on a 40-yard gallop to the three, by Nutt himself.

Following the contest, coach Arlon Barnes praised the excellent offensive performances of Nutt, Beedy, Gooch, Chris Fulton, Wynsdale Davis, Tommy Ross, and Ricky Heflin. Defensively, Barnes also mentioned the efforts of Robert Nixon, Tony Rodriguez, Lee Parker, Billy Parker, Nutt, Beedy, Fulton, Bobby West, Brent Duke, and Norman Allen.

At the beginning of the 4th quarter, Beedy scored a run-pass-option play to increase the advantage to 22-6. The PAT failed.

Mr. and Mrs. Gene Warren of Halfway visited Sunday with his grandmother, Mrs. Elmer Warren. Mrs. Warren and Martha were in Lubbock Thursday to see Wade Warren at Methodist Hospital, and Mrs. Warren, who is with her husband.

Mrs. Fred Battey, Mrs. Ola Warren and Mrs. Elaine Stout spent Monday putting up garden produce at the Thomas Warrens. Mr. and Mrs. C. Sanders of Canyon spent Friday night with the Thomas Warrens.

Mr. and Mrs. Paul Murrif quietly celebrated their 53rd wedding anniversary Friday.

Mrs. Battey's Sunday dinner guests were Mrs. Dineola Jones, Mrs. Ola Warren, and Mrs. Kate Crabtree.

Mrs. Crabtree and Mrs. Mabel Smith visited Mrs. C.O. Spence one day.

Let us remember in prayer our friends who are sick: Mrs. Spence and Wade Warren. Also remember Mrs. Jackson's little great grandson who had surgery.

Preston Smith

Tosses Hat

Former Governor Preston Smith Wednesday announced that he is a candidate for the Democratic nomination for Governor of the State of Texas.

Governor Smith's statement follows:

"Six years ago Texas stood at a crossroad. We had laid the groundwork that would lead to an equitable school finance system, a new property tax structure and a statewide energy policy. Personal leadership by the Governor's office, an enlightened legislature and meaningful board appointments, combined with citizen effort gave us a jump on the most important decade in the history of Texas.

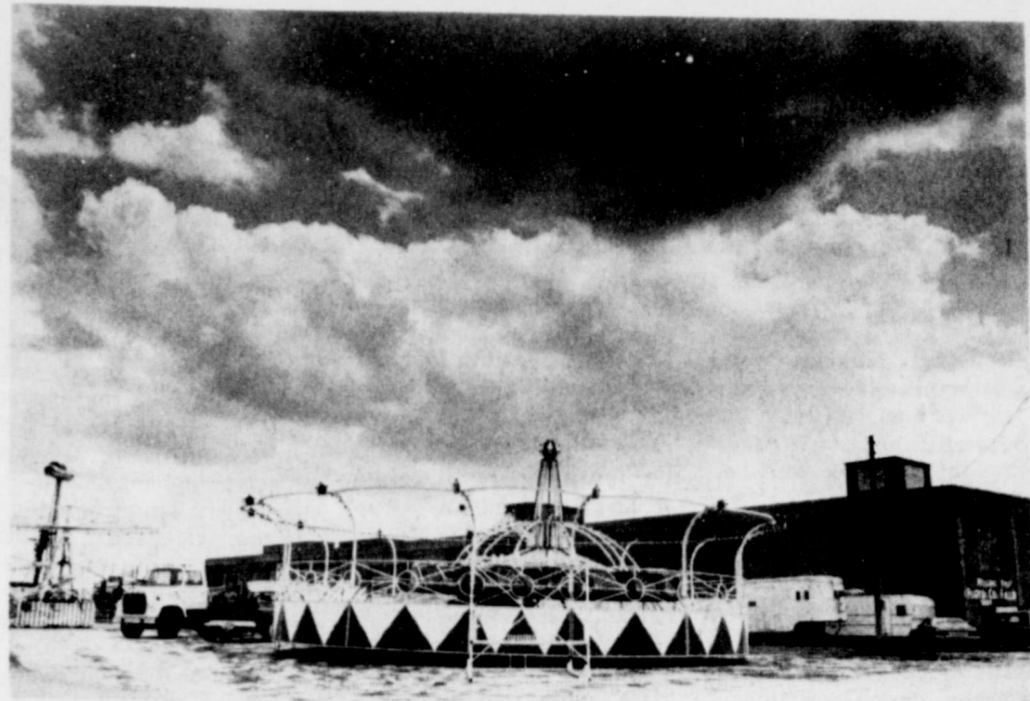

"Today, however, after six unproductive years, three legislative sessions, and countless board appointments we still stand at that same crossroad. The caretaker Governor who has held office for nearly six years has not seen fit to provide or inspire the type of leadership that would move Texas forward.

"Every Texan has a wide range of motivations. We can feel fear, doubt, insecurity, and prejudice when there is a leadership vacuum, but we have the capacity for courage, hope, compassion, confidence and understanding when our leadership is dynamic.

"A governor can extract either group of these characteristics from the people by his action or inaction. Our present caretaker Governor has chosen not to lead or inspire us at all but rather to leave us at that six-year-old crossroad with our head in the sand.

"We have no new state taxes, but find me a man or woman in Texas whose local taxes haven't gone up because of inflation. The present state pay-a-you-go budget is running at an all-time high not because of sound management processes but because of windfall returns on Texas oil and inflation on goods and services generated by the state. If the present governor wants to take credit for no new taxes he should also take credit for the financial devastation caused by inflation.

"During these years our caretaker Governor has adopted a "get tough" policy for criminals, so the criminals have gotten tough and the crime rate is as high as it has ever been.

UNDER A THREATENING SKY, the fairgrounds in Lockney were nearly deserted Tuesday, a sharp contrast to the expected activity today, tomorrow and Saturday, when the Floyd and Surrounding Counties Fair will be in full swing. The cloudy conditions brought forth memories of the unpleasant weather that has plagued the fair in recent years (except last year) (Staff Photo)

A Pesticide Applicators Training

Program Begins Monday

Commercial and non commercial applicators interested in training programs for the categories in Field Crop Pest, Fruit and Vegetables Pest, Weed and Brush Control, Farm Storage Pest Control, Seed Treatment and Animal Pest Control will have an opportunity to participate in a workshop scheduled for September 19, 20, and 21 at the Texas A&M Engineering Extension Center in Floydada. The workshop will begin at 8:30 a.m. and conclude by approximately 4:30 each day.

The initial session of the workshop will include subject matter applicable

to all categories of commercial and non commercial applicators.

Sessions that follow will deal with category specific subject matter.

If you wish to participate in this training program, please contact Doyle G. Warren, Floydada County Extension Agent, (983-2806) by Friday September 16, 1977.

The complete program appears on an inside page of this edition.

NOTE: Educational materials for ornamental pest control will not be offered, but testing for this certification will be available.

PRESTON SMITH

"To date there has been no property tax reform and the Texas Energy Policy

consists of turning off lights in state buildings after dark as the absentee Governor goes to Washington every six months or so to protest an action by the federal government that has hurt Texas. We should be in on the planning and we will be if I'm elected Governor next year.

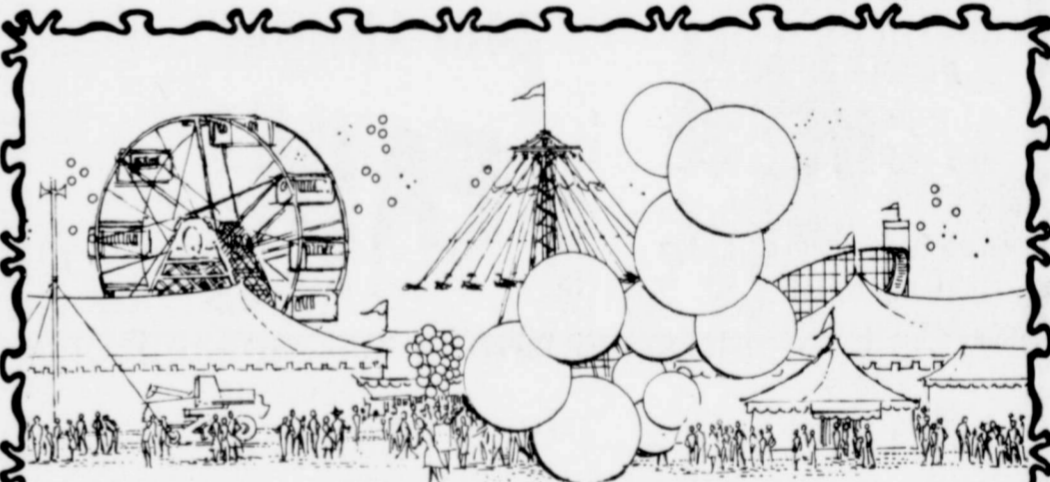

"No governor can run every facet of state government, but an effective governor gets positive, commonsense leadership by the appointments that are made to oversee the state's public agencies. During my previous term as your Governor, concern for the needs of the people of the state and leadership qualities were the

prerequisites that appointments were based on. Today, however, residency in Uvalde County or the amount of campaign contribution to the caretaker Governor seem to be the qualities sought.

"Indeed we read almost daily of appointments left unfilled, appointees serving long after their term has expired, and in one instance we read of an appointment of a person already deceased.

"In recent months I have been traveling across the state advocating bringing state government back to the people. The overwhelming response in favor of this proposal has brought me here today.

"Yes, I want to be Governor of Texas again.

Hale Seeks To Avoid Seeding Cancellation

Despite the fact that the Texas Department of Water Resources terminated the weather modification permits for two South Plains cloud seeding firms last Wednesday, the results of overwhelming opposition to cloud seeding voiced by the counties involved in recent voting, Plainview officials appear hellbent on defying the will of the majority.

The TDWR cancelled the permits of Atmospherics, Inc., of Littlefield and Plains Weather Improvement Association of Plainview.

The "people's" decision came last month when residents living within the seeding area overwhelmingly de-

feated weather modification in the seven Panhandle county elections 9340 to 1671.

The vote ranged from 123 to 1 against hail suppression in two Randall County precincts to a 57 per cent margin in favor of cloud seeding in portions of Lamb County.

The Lamb County permit was included in the TDWR cancellation as was that of Hale County where both the Plainview City Council and Hale County Commissioners Court voted to allow weather modification.

Other counties affected by the cancellation order include Bailey, Castro, Cochran, Deaf Smith, Lamb, Oldham, Parmer, Briscoe, Crosby,

Floyd, Hockley, Lubbock, Randall and Swisher.

The election, provided for by legislation passed last spring has given the opportunity to the people of the area to finally settle the long-standing dispute over state regulation of hail suppression. This would be the first time in seven years there will be no hail suppression programs in the High Plains area.

Proponents of cloud seeding contend that cloud seeding decreases hail and increases rainfall. Opponents say weather modification literally "kills" a storm cloud, thus depriving farmers of rain that would have fallen.

An official of Plainview-based PWIA said that the group may take the TDWR to court if they terminate hail suppression activities in Hale County. Hale County Commissioners Court refused to call an election after it was presented with an election petition, contending that "there's nothing to vote on."

"If they take away the Hale County permits, we will fight them with all ferocity," said Royce Carthel, an officer of PWIA. "If necessary we will fight it all the way to the highest court because hail suppression was never voted down in Hale County."

Bruce Bigelow, acting counsel for the TDWR, said that as he interprets the weather modification statute, it would be two years before operators could apply for another permit in the target areas which voted against the operation.

Speaker Bill Clayton of Springlake issued a statement saying the elections "have given the opportunity to the people of our area to finally settle the long-standing dispute of state regulation of hail sup-

pression."

"The people have made their wishes known and the DWR is informing the companies involved of the peoples' decision by letter."

Officials from PWIA met Friday in Austin with the new commissioner of the DWR to point out "flaws" in the commission's interpretation of the law which resulted in the cancellation of the permits.

Two questions were raised, according to Carthel. The hail suppression proponents questioned the setting of varying election dates instead of one particular date for the vote. Also pointed out was that the permit of PWIA was cancelled before a vote was taken in Hale County.

PWIA officials are attempting to get the WRC to reinstate their 1977 permit for all of Hale County, the southwestern part of Floyd and the southeastern part of Castro counties.

Another meeting is planned soon between PWIA, the full Department of Water Resources Commission and opponents of weather modification.

Opponents argue that in order for a particular area to participate in cloud seeding effectively, the cloud seeding must be done NOT just over the target area but also over adjacent areas that are opposed to cloud seeding. Opponents also contend that if the rain cloud over a particular area is aborted, it consequently affects the area down stream that might be due for a shower. Since most Swisher rain comes from the southwest, if clouds are seeded over Hale, Lamb and Castro counties and dissipated, Swisher's chances of rainfall are diminished.

The battle lines are drawn primarily between areas with good underground water and dryland areas. The areas with underground water are said to be willing to forego rain in order to prevent hail since they can depend upon irrigation. The dryland areas must depend upon rainfall even at the risk of hail.

Clark And Son Recover From Auto Accident

Colorado artist Dane Clark and his ten-year-old son Brooks were in a one car accident about 1:30 Saturday afternoon. Clark lost control of the car near Denver, and it crashed into a boulder. Both were knocked unconscious and the car was totalled.

Clark was dismissed from the hospital Monday after facial plastic surgery and his son did not regain consciousness until sometime Tuesday. Both are expected to be okay.

Clark's mother, Mayme, and his sister, Mrs. J.E. Waller, both of Floydada flew to Denver Sunday. Mayme remained and Mrs. Waller returned to Floydada Monday night.

"HORSE" AND RIDERS... 2-year-old Rance Golightly and his mother Penny Golightly of Floydada are the riders, Cathy Barnett (left) and Lisa Mosley of Lockney are the spectators. Rance's impromptu ride came Wednesday as the group was decorating the fairgrounds entertainment building in Lockney for the Floyd County Fair Queen Pageant, scheduled at 7:30 Thursday.

Good Management Decisions Essential In Agriculture

For a Texas farmer, deciding what and how much to produce is no simple decision.

Nowadays any farmer who wants to make a profit has to take a lot of things into consideration before making any decisions. He must analyze not only the market situation in the U.S., but the market outlook in the world and how it will affect whatever crop or crops he intends to produce.

For example, before a wheat producer plants his crop, he should look at the current and projected prices of grain in the U.S. and the world. What price can he expect at harvest time? How much grain is being consumed in the U.S.? The world? Are world grain stocks high or low? Will foreign countries be producing more or less

grain? Is the export potential for grain good or bad?

Other things producers should consider when making production decisions include long-range weather forecasts, the projected world birth rate and the possible effects of government programs on market conditions.

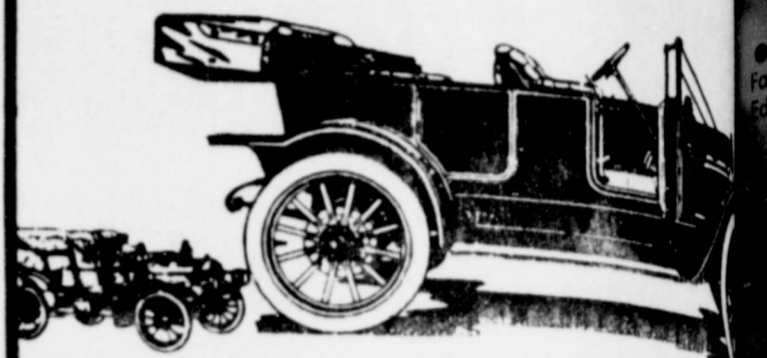

Only when a producer has analyzed all relevant information can he make wise management decisions on crop production. Then he can estimate how much it will cost to produce the crop and how much profit he can expect.

Decisions must also be made on various cultural practices, such as the use of fertilizer and herbicides, when and how to market the crop, and whether or not to use forward or futures con-

tracts.

To make the best decisions in all these cases, we point out the necessity for keeping good production and cash flow records.

Without good records, farmers are just 'shooting in the dark' in making management decisions. Records of past years will hopefully reflect where improvements can be made. And cash flow records are essential for establishing a good credit rating. Credit agencies often place a lot of emphasis on accurate cash flow records when granting loans.

Breathing Exercise Class Set For Children With Respiratory Problem

You don't die from Asthma, but for the \$2,000,000 children in the U.S. who suffer from it, Asthma is like being suffocated. It's scary!

Each fall the American Lung Association of Texas, in cooperation with the Physical Medicine and Rehabilitation Department of Texas Tech School of Medicine, sponsors a Breathing Exercise Class for children 8 to 12 who have Asthma or other Chronic Respiratory problems. Such children with instruction, plus daily practice at home, can be

taught to use their abdominal muscles to improve their breathing. They then become less apprehensive during an attack and frequently can decrease the length and severity of the attacks.

Rod Tank, Physical Therapist at TTU School of Medicine and Director of the Asthma Program, has announced that the 7th Series of these classes will begin on Saturday, Sept. 17. Classes are held in the Physical Therapy Room of Thompson Hall on the TTU Campus, from 9-30 to 11:00 a.m. The course consists of 6 weekly

lessons and are devoted to breathing exercises, physical exercises and mildly competitive sports and games.

Assisting with the instruction are: Nick Stephens, LPT and Libby Gardner, LPT, both at TTU School of

Medicine; Dr. Steve Arnold, Psychologist with the Human Development Center and graduate students of Dr. Ruth Rodgers, Dept. of P.E., TTU. Dr. James R. Crisp is Medical Advisor.

A \$10 registration fee is charged each child. However, a Scholarship Fund is established for children whose families are unable to pay.

For applications or further information contact the American Lung Association of Texas, 1961 Texas Ave., 806/763-0951.

Numerous Factors Bear Close Watching To Gauge Where Cotton Market Is Going

A clear picture of where the world cotton market is going from its present low level probably won't emerge for several more months, say economists at Cotton Incorporated.

Based on current production and consumption estimates, they say, "it is difficult to build a strong case for substantially higher (cotton) prices until well after harvest of the North Hemisphere crops."

In the meantime, they say, U.S. producers will probably commit much of their 1977-78 crop to the government loan, "a useful device to carry an inventory and space out sales."

The length of time that cotton remains in the loan, say the Cotton Incorporated

analysts, will depend heavily on three factors:

U.S. final production prospects for 1977-78.

Selling and marketing policies in 1977-78 on the part of foreign cotton exporting countries.

Perceived 1978-79 planting prospects and business conditions.

The analysis is contained in the current (September, 1977) issue of the COTTON SUMMARY, monthly publication of Cotton Incorporated's Economic Research and Development division. Cotton Incorporated is the fiber company of American cotton producers.

David W. Cox, vice president for economic research and development, points out that world cotton prices are suffering from the double blow of optimistic world production prospects coupled with slow world textile activity.

While weather, insect and other problems have had an impact in some areas of the Cotton Belt, "as of the end of August, it (still) appears that the U.S. crop will be big and early," Cox reports.

However, he points out, "uncertainty will continue until very late in the season because of the tremendous acreage of cotton in the late maturing and late harvesting regions of West Texas. The amount of cotton stored in modules will also be substantial, and gins in Texas, California and Arizona will be operating well into 1978, making it difficult to pinpoint precise production levels until much later than normal."

For at least another month, Cox says, the U.S. production forecast of 13.5 million bales will be contin-

ued.

The outlook for foreign production is much the same story, he adds. Most major foreign producing countries have continued to report favorable conditions since the crop was planted, indicating that a total world crop of 64.6 million bales is still a likely target, and could even be surpassed.

Looking at the cotton consumption picture, the Cotton Incorporated economists say that U.S. consumption of 6.8 million bales is forecast for 1977-78, a slight increase over 1976-77 consumption of 6.7 million bales.

On the world scene, they say, the combination of low textile industry profits in foreign countries, high cotton prices in the previous season, and unsettled general economic conditions is expected to restrict cotton consumption to 54.7 million bales, down slightly from the earlier prediction of 55.1 million bales, but 400,000 bales higher than in the 1976-77 cotton year just ended.

This means, Cox points out, that export levels of U.S. cotton above 4 million bales will depend on stock rebuilding in foreign importing countries.

"Foreign importing countries will rebuild stocks and increase purchases from the United States if they perceive improved textile business and/or low world cotton planting in 1978-79," he adds.

"In any case, nothing is likely to be certain until early 1978, and the course of events affecting the cotton market over the next 12 months is highly dependent on 1978-79 crop loan rates and government policies. If loans are high enough to insure relatively strong U.S. plantings in 1978-79, foreign stock rebuilding during the 1977-78 season will be delayed."

All in all, says Cox, "with the present unpromising business conditions and the approach of a large world harvest, there is little reason for optimism regarding the cotton market until beyond harvest."

"World planting intentions for 1978-79 will carry added significance for later season selling opportunities for the 1977-78 cotton crop as well as for the 1978-79 crop," adds the Cotton Incorporated economist.

All-Male Image of Farmer Doesn't Hold True Anymore

In the past, most people thought of a typical Texas farmer as being determined, hard-working, persevering—and male.

But today, says Texas Agriculture Commissioner Reagan V. Brown, the push for greater rights and opportunities for women has vaulted them into prominent positions in many industries, including farming. From their previous roles as the unsung heroines of agriculture, women are taking increasingly active parts in owning, operating and managing farms throughout the state, according to census figures and U.S. Department of Labor statistics.

In fact, Brown states, the trend is part of a larger movement that has seen an ever-expanding percentage of all women working outside the home. Another factor is the new, more attractive image that agriculture has gained in the past few years, and the decrease of sheer, back-breaking labor needed to produce agricultural products.

But probably the largest factor leading to the involvement of women in operation of their agricultural lands is inheritance. Each year more and more land is left to wives and daughters who feel a loyalty in keeping and working the land themselves. Some say that as much as 50 per cent of the land in Texas may be owned either directly or indirectly by women, although there are no clear statistics available. A good portion of this was probably gained through inheritance.

Since the establishment of

the Family Land Heritage Program in 1974 by the Texas Department of Agriculture there have been over 438 women honored who are owners of the Texas land on which they live. The basic requirement is that members of the family must have worked as much as 10 acres of the farm or ranch themselves continuously for 100 years or more.

It will be the "Wonderful World of Scouting" for over 6100 Cub Scouts, Scouts and Explorers in the South Plains area this year.

The local Scouting council, which serves 20 counties in west Texas, will use the theme for many of its activities and events this year, according to Bob Dunbar, Council President.

Serving as chairman for the "Wonderful World of Scouting Roundup," which will kickoff with School Night for Scouting on September 15th is Bob Nash of KFYO Radio in Lubbock. Mr. Nash, with

the assistance of Lubbock School Superintendent, Ed Irons, is organizing the School Night for Scouting in every elementary school in the Council, Dunbar stated. "The purpose of School Night is to enroll new members into Cub Scouts, ages 8 to 10 and Scouting ages 11 through 17," Dunbar said. Those wishing to enroll their son in Cub Scouts or Scouts should attend their neighborhood elementary school, 7:30 PM on Thursday, September 15th - SCHOOL NIGHT. The next scheduled "Wonderful World of Scouting" event will be the 1977 Scout-

O Rama, November 12th. This year's show will be held in the Lubbock Civic Center and in the Hale County Agriculture Building

in Plainview, according to Lubbock City Manager, Larry Cunningham who is serving as Chairman for the Council. The National Chairman for the "Wonderful World of Scouting" is Jim McKay, the celebrated sportscaster for ABC. The South Plains Council provides many program materials, training, and service to the Cub Scout Packs, Scout Troops and Explorer Posts which are chartered to local organizations. The activities in the Council and its seven Districts support the program in the Scouting units, Dunbar said.

clutter which has accumulated through the years," she said, "then I should like to just rest and relax."

After three years of keeping the Matador Tribune in publication, I feel that the season has arrived when it is time to turn the leadership over to others. I can no longer cope with the problems of new methods and regulations, alone. I could not have come this far without the able and faithful cooperation of Mary Renfro and Glenda Williams, and the Wednesday night help of Hazel Donovan, Rodney Williams, "Snow" Crenshaw and others.

Nor could the paper have continued during Douglas' illness without the aid of Rita Groves, Pat Seigler, Virginia Hoyle and many others who volunteered their services. Later, Mary Ann Woosley came to our rescue at a crucial time.

Your new publishers, Diana and Ray Freedman are young, capable and enthusiastic. They are publishers of three other newspapers and will, I am sure, give you a better, more modern newspaper, in keeping with the changing times. They are Texans by choice-- he is a native of Iowa, and she, of Indiana. They moved to Earth from Waco, about a year ago. They have a son, Eric, age 10.

The transaction has been made between last week's issue and this, and will come as a surprise to most of our readers.

I wish to take this means of thanking all of you for words of encouragement and your support, not only during the past three years, but during the years from the time Douglas started in the business in 1932 at Roaring Springs, until his death September 27, 1974.

Very Sincerely, Lila Meador

South Plains News

By Mrs. Murray Julian

SOUTH PLAINS SEPT. 9th.

Sunshiny weather the past week has helped cotton and maize grow to maturity. Spray planes have been flying over the fields the past two weeks and nearly every farmer has had his cotton sprayed for boll worms. Some of the maize has already started turning red, and combines are being prepared for the harvest which is just around the corner. This morning a cold north-eastern wind has blown in, and the temperature is 62 degrees. Tuesday morning, Sept. 5th, it was 58 degrees here, so fall is not far away.

Mr. and Mrs. Brad Smith of Lubbock arrived back with their household furnishings and a big trailer house last week. The work on the new house has not been completed, so they are staying for the time being with her parents, Mr. and Mrs. L. N. Johnson. We welcome them to our vicinity, and invite them to

attend Baptist Church services, and to be a part of the community. Mrs. Smith is our own Shari Johnson Smith. They have been staying in Lubbock while Brad finished his college classes at Texas Tech. He received his degree in the summer. They are making their home now on the paved highway south of the L. N. Johnson ranch, and right east of the Tillman Powell home.

We are sorry we left out last week one of the South Plains band members in the Floydada Whirlwind Band. Breck Stapleton is a member of the Whirlwind Band, which makes seven from South Plains.

Mrs. Ross McWilliams of Canton has been staying the past two weeks here with her daughter, Mrs. Kelvin Cummings, and the new grandson, Kendall Kelvin II, who was born Aug. 29th. Jolene and son came home a week ago Thursday from Central Plains Hospital.

Mrs. Al Rheubes, from

Anchorage, Alaska, arrived last Wednesday for a visit with relatives, including her grandfather, George West. Her little girls, Marla June and Alesa, arrived here about ten days ago for a visit with kinsmen. Mrs. Rheubes' parents are Mr. and Mrs. E. T. Evans of Amarillo.

Mrs. George (Myrtle) West has been in Central Plains Hospital the past two months, and is in a wheel chair, unable to walk much. Her health is fair, otherwise Mr. West goes back and forth to see her every other day.

Mrs. Frank McClure arrived home from Lockney General Hospital last Tuesday, after she spent over a week there. She is getting along fairly well.

Mr. and Mrs. Buster Dunham of Amarillo came last Wednesday to spend the day with her sister, Mrs. L. T. Wood.

Mike Reeves, who makes his home with aunt and uncle, Mr. and Mrs. Hansel Sanders, is back in college classes this fall at West Texas State University at Canyon. He worked in Canyon all summer and also attended college. Mike is classified as a junior.

Mr. and Mrs. Arby Mulder left last Thursday for Amarillo where they visited with their daughter and family, Mr. and Mrs. Jerry Taylor and children. Ronnie had been in the hospital but is home and doing fine now. The Mulders arrived home Saturday.

Mrs. Connie Johnson was hostess in her home for a Home Interior party Thursday afternoon, Sept. 8. One of the guests was Miss Janice Everist, who is visiting here this week from Belfair, Washington.

Mrs. Ruby Higginbotham and son, Mr. and Mrs. Alton Higginbotham of Floydada went to Lubbock Sunday afternoon to visit Mrs. Helen Dunlap and Mrs. Hazel Powell who are in Methodist Hospital.

Mrs. Fletcher Powell (Hazel) entered Methodist Hospital in Lubbock Wednesday, and underwent major surgery Thursday. Mrs. Powell was able to be brought home Tuesday and

is getting along well at this time. She will go back for a checkup Sept. 26th. Her children, Mrs. Gary Gilbreath and sons and Mrs. Shirley Jones, and Brandy all of Perryton were here for the surgery, and have been visiting for several days. Mrs. Gilbreath attended Baptist Church services last Sunday morning.

Mr. and Mrs. Jerry Chappell of Duncan, Oklahoma were here over the week end visiting with her parents, Mr. and Mrs. Grisby Milton, Jr. Sunday guests at the Milton home were all their children, The Chappells, Mr. and Mrs. Bud Edwards and sons, and Mrs. Donita Powell and daughters all of Floydada. Mr. and Mrs. Chappell were visitors Sunday morning at Baptist Church services.

Mr. and Mrs. Arby Mulder left Thursday for Albuquerque, New Mexico, where they visited until Saturday with his brother and wife, Mr. and Mrs. O'Dell Mulder, who have been ill. O'Dell was going into the hospital in Albuquerque for tests this Monday.

We extend sincere sympathy to Mrs. Mary John Harris of Rock Creek, whose husband, Jack, passed away a week ago Tuesday in Lockney Hospital after an illness of several years. Services for Harris were held Thursday of that week, in Silverton First Baptist Church. Mrs. Harris and her family, Mr. and Mrs. Lenton Lanham once lived in South Plains.

Hobby Club members will meet Wednesday, Sept. 14, at Upton Grocery, and leave at 11:30 a.m. for a trip to Plainview, where they will have lunch at the Holiday Inn. Later all will go to the Museum.

Mr. and Mrs. Jack Smitherman went to Canyon Friday to visit with Aileen's brother, Elma Cummings, who has recently undergone major surgery, and is quite ill at this time. Elma was a school teacher in this area at one time, as he taught at Lone Star, and other schools around. He lived in this vicinity while growing up.

E. C. Cox, father of Mrs. Alvin Nichols, has been ill in Lockney Convalescent Home, and they have been visiting him often the past two weeks. Mr. and Mrs. Glen Whitfill from Sweetwater were here Thursday and Friday of last week with her parents, Mr. and Mrs. Nichols, enroute home from a weeks vacation in Lake City, Colorado.

Austin Beedy became ill last week while doing spray work, and was taken to Central Plains Hospital. He was told he would have to quit his spray work, due to his health.

Mrs. Arby Mulder's sisters, Mr. and Mrs. Dale McLaugh, and Mr. and Mrs. Pete Land from Clarendon came Sunday to have dinner and spend the day with the Mulder family.

Denee Johnson is attending classes this fall at South Plains College in Levelland. Twin Denise Johnson, is going to Clarendon Junior College in Clarendon. They are the daughters of Mr. and Mrs. L. N. Johnson of South Plains.

Around 50 were present for Sunday morning Baptist services, Sept. 11. Tuesday morning the Baptist Women Week of Prayer will be held at the church at 9:00 a.m. Laborers together—God's Harvest in Texas," is the theme for the Week of Prayer for State Missions. Girls in Action and Mission Friends will meet at 4 p.m. Tuesday afternoon.

What One Person Can Do

EDDIE FISCHER, FRI
END OF THE POOR

The summer in a Guatemalan village was over. Time to return to college. But Eddie Fischer sold his plane ticket and stayed. It was eight months later that he began the 4,000-mile journey to his home outside Philadelphia - on foot.

Eddie Fischer knows what giving is. His family took in a Vietnamese family of nine to spend nearly a year with the 12 Fischers.

In the Spring of 1976, he heard someone tell what Jesus meant in his life. It hit home. He decided to spend the summer in Guatemala which he had once visited with his father. On that visit, he had seen what poverty is. With some construction experience and a

little Spanish, he and his brother went to a village where the earthquake had left most people homeless.

The young men found they could build a house for a family of four in 10 days and taught the people to do the same. Next came a tiny church, then a clinic - which Eddie persuaded the government to equip. By summer's end, he was sure he wanted to spend his life working in Central America as a Jesuit priest. But now he had to finish a job. Using his ticket money to bolster the dwindling funds for materials, 21-year-old Eddie Fischer stayed and saw the project through.

Then he saw worse need in another town where the quake had contaminated the water. He devised an incentive plan and rallied the men into teams to install a water system. But they needed money. So on Easter Sunday, 1977, Eddie Fischer began the long walk home to appeal for \$300,000 to help the town.

He reminds people along the way, "Jesus said that if we gave a drink to the least of His thirsty brothers, we'd be giving it to Him. You can send me."

The Floyd Philosopher

Works Up A Deal To Settle The Great,
Debate Over The Panama Canal

Editor's note: The Floyd Philosopher on his Johnson grass farm joins the squabble over the Panama Canal, from a safe distance.

Dear editor:

Because everybody needs something to talk about till the regular football season starts, the month of August was devoted to talking about the Panama Canal. Fans with losing teams will probably continue talking about it all Fall.

The canal is not one of my major worries. I've never been through it and have no plans to. Yet it generates a lot of hot debate.

People in favor of keeping it say we built it, we paid for it and it's ours. Others say so what, if the Panamanians want it, let them have it; our big oil tankers and war ships can't squeeze through it anyway.

But in all the discussion I've not heard anybody get to the main point: is it making any money? Do we charge ship owners enough to pay for the upkeep? How many hot

checks are we holding from Russian ships going through it? If there are a good many, have we thought of making it coin-operated?

Just because we bought and paid for the canal is not necessarily an argument for keeping it. There are ranchers in this country who bought and paid for cattle three years ago they wish they could get their money back on now. There are city people who bought certain stocks they'd now like to unload on somebody else.

Before I make up my mind on the Panama Canal I'd like to see an operating statement on it.

But if the Panamanians insist they've got to have the thing, that they're fully capable of operating it, I've figured out a deal. They can have it if they'll take over Amtrak in this country too. If that doesn't seem quite fair, we could maybe throw in the Postal Service also.

What are the prospects for your football team this year?

Yours faithfully,
J.A.
