

Mrs. Vernon Lee Martin Jr.

Miss Sandra Thompson, Vernon

Martin Wed Saturday In Lockney

Miss Sandra Kay Thompson and Vernon Lee Martin Jr. were married Saturday in a 3-p.m. double ring ceremony in the First Baptist Church of Lockney. The bride is the daughter of Mrs. Edna Thompson of Lockney, and the groom is the son of Mrs. and Mrs. Vernon L. Martin of Cedar Park, Texas.

Miss Sandra Kay Thompson is a mandarin neckline adorned with seed pearls, Juliet sleeves trimmed with matching alencon lace and English net. The Empire waistline fell into a fluid triple layered skirt with a full chapel train. The half cap of alencon lace held a double-tiered butterfly veil edged with seed pearls. Her bouquet was a cascade arrangement of yellow roses, white daisies and gypsophila, softened with streamers of candlelight lace.

Maid of honor was Miss Margaret Schacht of Lockney. She wore a dress of yellow qiana crepe featuring an empire waistline, high neckline, and flowing floor-length skirt. She carried an Edwardian arrangement of daisies and ming fern. Best man was Steve Jennings of Leander, Texas. Ushers were Weldon Jones of Hale Center (nephew of the bride) and Berry Hooten of Lockney. Mrs. Carolyn Montague of Silvertown was organist. Mrs. Ann Ford of Lockney sang "More," "The Twelfth of Never" and "The Wedding Prayer." Mrs. Patsy Jennings of Leander and Mrs. Sandy Jones of Hale Center served

Society

National 4-H Week

This is National 4-H Week. 4-H reaches out to all young Americans, no matter where they live. On farms or in big cities—in small towns or in the suburbs. 4-H gives kids a chance to learn-by-doing. To develop practical skills they can carry with them all through life.

Room in Floydada to present a program on What is 4-H? A slide set developed by Martha Couch, Area 4-H & Youth Specialist, entitled: Freedom to Be-In 4-H will be presented as well as other materials dealing with the 4-H program.

Would you as parents like to find out more about 4-H? You will have the opportunity to do just that on October 3, 1977 at 7:30 p.m., County Extension Agent Sharon Hillis, and Assistant County Extension Agent Laura Jacobs and Birch Lobban will be at the First National Bank Community

If you're a parent with a youngster in 4-H, you know how much it can mean to your son or daughter. 4-H is something you can ALL get involved in—something that can bring you together. If you're not a 4-H family now, you can be. Come find out what 4-H is, you'll be glad you did.

"A World Of Home Economic"

Theme Of 4-H Extravaganza

"A World of Home Economics" is the theme for a 4-H Home Economics Extravaganza for volunteer leaders conducted at the Texas 4-H Center, Brownwood, Texas, October 11-13, 1977. The Extravaganza is something extra special for 4-H leaders. Training will be given in five areas of emphasis. The leader will choose one area of training for the 3-day training.

"Clothing's Optical Illusion" will provide opportunity to explore how design elements color, line, and texture affect you and those you observe. Family Life sessions will deal with "Personality Development-how 4-H youth can explore their environment to improve society."

at the reception. The serving table was covered with an organdy and lace cloth. The punch bowl was silver, and a silver candlestick on the table held yellow candles, baby's breath and daisies. The three-tiered wedding cakes was decorated with yellow roses.

Receptions guests were registered by the groom's sister, Brenda Martin of Cedar Park. The newlyweds went to the Texas coast for a wedding trip.

FLOYD DATA
Mr. and Mrs. W.A. Johnson of Quitman left Thursday for their home after visiting in Floydada with Jewel Reeves and with other relatives and friends in Idalou.

Adams Family Has Reunion

The Virgil Adams family had their annual family reunion Sunday, September 25 in the Massie Activity Center at Floydada. They spread a covered-dish lunch for the noon meal. Those in attendance were: Virgil and Ruby Adams (the parents) of Plainview; and the following children, and grandchildren residing at home, Red and Frankie Adams of Amarillo; Johnny and Pat Adams, Johnny Wayne, Cindy, Tammy and Tracy; Red and Jane Archer, Wilmer, Janie and Cathy; Gordon and Dimple Adams, Justin and Joey - all of Lockney; Ruby Nell and Tommy Cavitt, Lubbock. The Virgil Adams married grandchildren and their families in attendance were: Jackie and Bryana Adams, Chris, of Amarillo; Tommy and Nita Adams, John, Brylin and Todd from Amarillo; Ricky and Ann Adams, Brandon and Brion from Amarillo. Mr. Virgil Adams' sister and husband, Dawsie and Tom Sullivan from Clarendon and their son, W. T. Sullivan of Claude were in attendance. Three visitors present were: Susan Savage, Aimee and Max Green, all of Lockney.

"An Evening Of Miracles, Musicals"

At Plains Baptist Assembly Tuesday

"An Evening of Miracles, Musicals and Missionaries" is the theme for the Caprock Association's WMU annual meeting Tuesday night at Plains Baptist Assembly. The 22 pastors in the association and their wives will

be honored guests. A salad supper is to be served at 7:30 followed with the program at 8:30. Other coming events at Plains Baptist Assembly for October includes a Day Camp for grades 1-3 on October 1st from 10 a.m.

The Very Newest Homebuilders Meet With Mrs. Trapp

Mr. and Mrs. Bill Towler of Plainview are parents of their first son, Bryan Keith, who was born Tuesday, September 27, at 2:36 a.m. in Central Plains Hospital in Plainview. The baby weighed 6 lbs. 13 1/2 oz. at birth. Grandparents are Mr. and Mrs. Wiley Jackson, Plainview, and Mr. and Mrs. Orville Towler of Floydada. Great grandparents are Mrs. Clio Irby of Konawa, Okla., and Mr. and Mrs. M.L. Phillips, Plainview.

Time is one of the most valuable things we possess, told members of the Homebuilders Home Demonstration Club Tuesday at their meeting held in the Floydada home of Ruth Trapp. Mrs. Holt was guest speaker and brought the program "Leisure and Our Inner Resources."

John A. Lloyds Hold Reunion

The John A. Lloyd children have been holding reunions in Floydada this week after the arrival of Johnny Lloyd from Hilton Natal, Republic of South Africa last Saturday and the arrival of Mrs. Wayne (Janet) Webb on Sunday from her home in Annandell, Va.

An array of handmade items suitable for Christmas gifts were displayed and discussed. Some of the items displayed were table runners, made of eyelet and quilted material; towel painting items; Christmas stockings made of various materials; plain bath towels decorated with appliques; kitchen aprons and an assortment of smaller items.

On Wednesday the group lunched and visited in the Louis Lloyd home; on Thursday at the Fred Lloyds; Friday at the G.W. Smiths and on Saturday at the Ray Lloyds.

Members were reminded that Christmas is only three months away, and adjourned from the meeting with determination to start on handmade gifts.

Donna Cates Graduates Cum Laude

Donna Cates graduated Cum Laude recently receiving a Political Science degree from Texas Tech and a minor in History. Miss Cates, a 1969 graduate of Floydada High School, is employed at Tech and working on her Masters Degree in Political Science. She is the daughter of Mr. and Mrs. Johnnie Cates of Floydada.

Refreshments were served to Mrs. Raymond Williams, Elmer Norrell, Gordon Mayfield, Raymond Evans, John Walker, Ernie Widener, Weldon McClure, Bill Smith, guest, Mrs. Holt and son, and the hostess. Next meeting will be a county-wide affair of home demonstration clubs with Homebuilders as hosts. Guests are especially invited to attend to hear Mike Wortman of Cagle Furniture, Lubbock, demonstrate "Interior decor for your home." A salad luncheon will be served at the noon hour.

NEWS 'N' NOTES

(by Sharon Hillis)

Something special is happening in Floyd County, October 4, 1977 is the day of the Floyd County Home Demonstration Clubs county-wide meeting. Sponsored by the home demonstration club council and hosted by the Homebuilders club, this promises to be an exciting program. Mike Wortman of Cagle Furniture in Lubbock will be presenting the program. He will be bringing some new and interesting ideas on accessorizing the home.

An invitation is extended to all Home Demonstration Club members and any other interested homemakers to attend the meeting, bring a salad and stay for lunch. The program will be held October 4, at 9:30 a.m. at Lighthouse Electric Cooperative in Floydada. Mark your calendar now.

FLOYD DATA
Mr. and Mrs. Ralph Ethridge of Cashmere, Wash., left for home Friday after visiting in Floydada several days with his cousins, Mrs. Johnney Cates and husband and Mrs. Leslie Fawver and husband. They also spent some time at Lockney Nursing Home with his aunt, Mrs. D. W. Burke, who is reported much improved.

the heat pump

"THE ELECTRIC SAVINGS MACHINE"

3 ways energy can be saved in the home.

- 1 By improving the thermal integrity of the structure itself: by adding insulation—installing double glazed windows, reducing hot and cold air infiltration.
- 2 By installing efficient energy-saving systems and appliances.
- 3 By adopting wise use habits.

EFFICIENT USE OF FUEL RESOURCES.

The heat pump uses electricity efficiently because it can deliver as much as two units of heat for every one heat unit of electricity it uses during the heating season. The heat pump makes efficient use of fuel resources because it uses electricity for heating and cooling, and thus allows use of the nation's more plentiful fuels like coal. Southwestern Public Service is now reducing its dependence on natural gas as a fuel and is building plants that use coal to make electricity. Using fuels like coal preserves the nation's scarce petroleum resources for other uses. The heat pump saves electricity... and saves you money. It's the electric savings machine!

Water Conservation Director To Be Elected October 4

An election for a director to serve in zone 4 on the Floyd-Crosby county Water Conservation District Board is scheduled for October 4th at the Booth Spur Elevator located in the Baker Community. According to G.L. Fawver, Chairman of the board, the election will be held at 8:00 p.m.

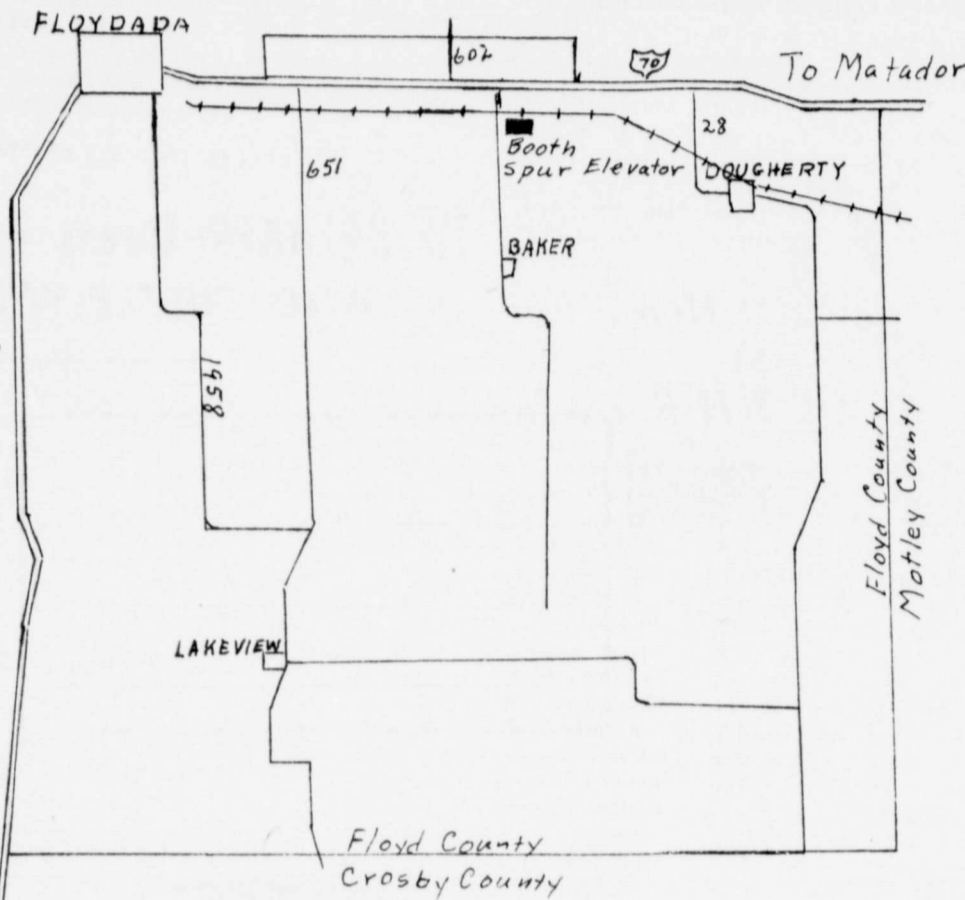

Current members of the board of directors of the Floyd County Soil and Water Conservation board are G.L. Fawver, R.G. Dunlap, Herman R. King, Gerald D. Lackey, and Cecil Purcell.

The purpose of the Floyd County SWDC is to promote sound soil and water conservation programs on farm and ranch lands within the district.

The district board of directors coordinates the conservation efforts of various local, state and federal agencies and other organizations and has the authority to enter into working agreements with these governmental agencies and private concerns to carry out its program.

State law decrees that to be eligible to vote in a soil and water conservation district director's election, a person must own agricultural land within the subdivision where the election is being held. The person must also live in the county and be at least 21 years of age. Qualifications state that a

candidate for the office of district director must own land in the zone, live in the county, be at least 21 years of age and be actively engaged in farming or ranching.

ZONE 4

Garden. Smith said the bodies would be buried in a grassy area between a fountain and a crescent-shaped stone wall containing four stained glass windows depicting religious scenes.

To test your refrigerator door: put a dollar bill on the frame and close the door against it. If the bill drops out, or can be pulled out easily, the door needs adjustment or the gasket need replacing, says Dr. Carolyn McKinney, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

GROCERY AISLE ETIQUETTE

COLLEGE STATION- Courtesy makes grocery shopping more pleasant, says Marilyn Haggard, foods and nutrition specialist, the Texas Agricultural Extension Service, The Texas A&M University System.

Check your own supermarket behavior, Miss Haggard suggests.

A courteous shopper:

- 1) Pushes cart to the right side of the aisle.
- 2) Makes certain that the cart is out of the flow of traffic before comparing prices on the shelf.
- 3) Handles produce as little as possible.
- 4) Examines and selects purchases without mishelving and scattering other items.
- 5) Selects all items before getting in checkout lane.
- 6) Refrains from pulling in "quick check" lanes if more items than allowed are in cart.
- 7) Respects limits set on special price items.
- 8) Has food stamp and non-food stamp items separated.
- 9) Has checkbook and identification or cash handy for payment.
- 10) Smiles at the checkout clerks. They sometimes have long days, too!

TWO FOOT, FOUR INCH CAT...was taken from Lake Theo last Sunday by Rosie Lee Jones, of Floydada, who is pictured holding her catch.

FLOYD DATA

In Floydada this week visiting were Mr. and Mrs. Alton Morris of Anaheim, Calif. The couple spent some time visiting Mr. and Mrs. Wayne Collins, Calvin Steen and Mr. and Mrs. Walter Collins. Morris is a grandson of the late J.T. Morris who

had an early day business in Floydada. His mother, the late Nell Steen Morris was a sister of Mrs. Walter Collins. Mr. and Mrs. Morris went on to Fayetteville, Ark., to visit members of her family before they return to California.

Seventh Breezers Salvage 6-6

Deadlock With Littlefield

The 7th grade Breezers scored on a 5-yard option run by Donnell Weeks minutes following the opening kickoff and relied on defense for the remainder of the contest to salvage a 6-6 tie with Littlefield Tuesday night at Wester Field.

The outcome now gives Coach Mike Brownlee's troops a season mark of 2 wins, one loss, and a tie.

Floydada's only touchdown was actually set up by a fumble recovery by Bruce Williams on the contest's opening kickoff. From there, quarterback Marty Covington engineered a 25-yard scoring march highlighted by Weeks scoring outburst. The all-important point after conversion,

which could have made the difference, was unsuccessful.

The Wildcats scored their TD on a pass play just before time expired in the first half. The two point conversion attempt also failed, and the score stood at 6-6 standoff.

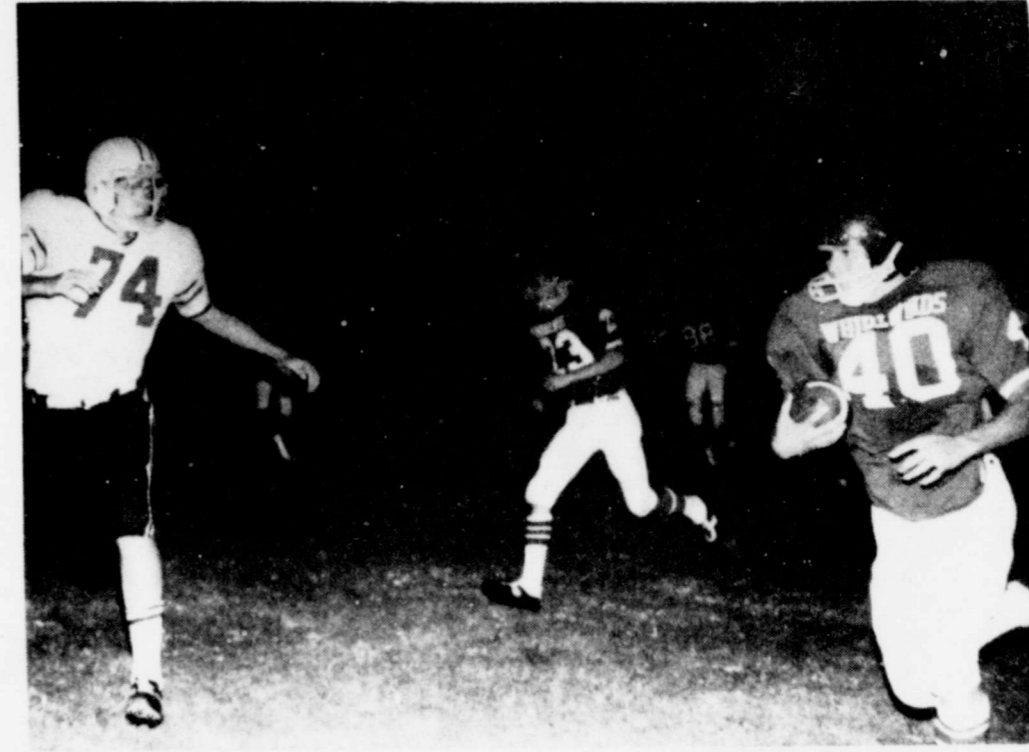

"B" TEAM

The "B" squad performed prior to the contest and defeated Littlefield by the score of 6-0. Ruben Trevino got the only touchdown in the game on a pass play.

Following the 1st-string contest, Coach Brownlee mentioned the performances of Covington, Weeks, and Williams.

JUNIOR CUEVAS KICKS...in second quarter of Littlefield game Friday night. (Photo by Bill Kincaid).

JUNIOR ARREDONDO RETURNS PUNT IN JV GAME THURSDAY. PHOTO BY DOUG SIMPSON.

Freshman Whirlwinds

Whip Littlefield, 20-6

The 9th grade Whirlwinds snapped a 6-6 first half deadlock with a pair of second half touchdowns by Moody Younger and Hector Mercado to capture their second victory of the season, over Littlefield, by the score of 20-6.

Floydada, now 2-2 on the year, benefitted tremendously from a pair of interceptions in the third and fourth stanzas of the contest, which set up the go-ahead and clinching TDs.

Younger got his team on the scoreboard early with a 1-yard quarterback keeper play for the score with 4:00 remaining to be played in the initial period. The PAT was no good.

The Wildcats came back the following quarter with a 20-yard scoring pass to notch things up at 6-6 when the two teams headed for their respective locker rooms.

Younger helped set up the Wilds' third score of the game on the decisive third

period by picking off an enemy aerial and returning it to the 50-yard line.

From there, he engineered a scoring drive from midfield that ended in six points, with Mercado going over from ten yards out. Michael Self tallied the point after on a three-yard burst up the middle, making it 14-6.

It was John Fortenberry who helped set up the final score of the evening with another interception and return. Younger completed the drive with less than a minute remaining on the scoreboard clock on a 15-yard bootleg scamper to seal up the win. A pass for the PAT was incomplete.

Following the contest, coach Mike Cocanougher praised the individual performances of Jeff Rainey, Moody Younger, Michael Self, and Mercado, the entire offensive backfield. He also mentioned the efforts of Kevin Noland and Tim Radloff on defense.

Arredondo Leads Romp With 3 TDs

JV Winds Trounce Wildcats, 27-0

Arredondo's Three TDs Trigger Victory (14 Pt.)

JV Whirlwind coaches Mark Vinson, Daniel Coward, and Arlon Barnes think they may have discovered a new means of acquiring needed momentum for the beginning of district play.

It's a very simple principle, really. And the method was especially evident after their troops had gone out and given Littlefield a humiliating 27-0 defeat before lots of happy onlookers at Wester Field Thursday night.

If preparing for next week's district opener with Lockney was indicated by

the way the Whirlwinds performed throughout the game, the game plan must have been to simply go out and play hard on defense, come up with the big plays on offense, and just go out and have a good time. And that they did!

It was the second consecutive shutout for Floydada, now 3-1 on the season. Again, it was chiefly accomplished through a solid running game, triggered by the rushing tactics of backs Ray Toney, and Junior Arredondo, plus a very well established kicking game, and an almost impenetrable defense. Littlefield never threatened inside the Floydada 20-yard stripe.

Arredondo opened scoring in the contest with 6:19 remaining in the first period. This was a 53-yard scoring outburst over right tackle, followed by Joey Luna's point after to give the Whirlwinds a 7-0 stripe.

Arredondo opened scoring in the contest with 6:19 remaining in the first period. This was a 53-yard scoring outburst over right tackle.

Arredondo scored again in the second stanza, this time on a 64-yard gallop to crease the lead by another six points. Luna's PAT was unsuccessful because of a busted play, high snap.

As both clubs headed for the locker rooms, the score stood at 13-0.

During the stanza, Floyd-

ada put its third six-pointer of the evening on the board after a couple of series of downs lacking offensive punch had taken place.

Wide receiver Rodney Rathel had been wide open on the right side-line for a couple of plays prior to the big play, and someone had noticed the miscoveage so on the next play, a third down situation, his number was called. Rathel caught the pass easily and trotted 45 yards for the score that gave the "Winds a comfortable 19-0 advantage. Luna tallied the point after to make it 20.

But the hosts were not finished for the evening. Arredondo picked off a Wildcat desperation pass with time running out in the final period and galloped 32 yards home to tack on the last TD. Luna was successful with the conversion boot.

COMPUTERS HELP WITH CITY PROBLEMS--

Through a computer hookup at Texas A&M University, Texas cities are obtaining financial as well as technical assistance in solving problems and improving their well-being, says a community resource development specialist with the Texas Agricultural Extension Service. Called the Federal Assistance Program Retrieval System (FAPRS), it can provide the latest information on federal grants, loans and related support. The system has handled some 112 requests since its initiation about a year ago.

Most divorced persons will remarry, says Debby Johnson, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System. About 3/4 of the women and 5/6 of the men remarry within three years, the specialist reports.

Stephenson OK Thanks To ASU Trainer

Stephenson

Randall Parker, a Rams student trainer and Michael Brooks, a student manager, Matthews bandaged Spicer's legs, arms, and hands. His parents then rushed him to the hospital where he underwent surgery.

"He's going to be all right," said his grandfather, "thanks to the efforts of the trainer." The boy will have to have additional surgery, on his left hand however, Sigman said.

Spicer had gone out to his parent's van to get his bathing suit, and was running back to the motel with a friend when the accident occurred.

"He saw the door, and tried to stop," Matthews said. "But he couldn't, and slid on through." Matthews said Spicer's hands, arms and legs went through the glass, and he cut himself

while trying to pull them out.

Spicer's parents, Mr. and Mrs. Stan Sigman Jr., had been staying at the motel until they could move into their new home this week. Sigman works for Southwestern Bell, and had recently been transferred from St. Louis, Mo. to Oklahoma City. The youth was born in Floydada during the time his father was Wire Chief with the Southwestern Bell Telephone.

Matthews, son of Mr. and Mrs. W. F. Matthews, 206 Greer, is currently working on a masters degree in physical education at Angelo State University. A 1973 graduate of Central High School, he received a bachelor's degree in physical education last August from West Texas State University.

FARM & RANCH NEWS

Cotton Will Market 10¢ Above Synthetics

"I feel we can sell cotton for 10 cents (a pound) above synthetics and compete without any trouble!" J. Dukes Wooters, president of Cotton Incorporated, told a sparse but interested group of approximately 80 cotton producers and agri-business people here Thursday night. He warned that "if we get much above that (price), we have problems."

Since polyester has a list price of 60 cents a pound and a "street price" of 58 cents, this means that cotton would be attractive to mills at approximately 70 cents a pound.

Wooters further added that, in his opinion, "price fluctuation hurts the market." Suppressed cotton prices harm the producer, and excessively high prices hurt the mills and force them to synthetics.

The knowledgeable CI prexy told the gathering in Pioneer Memorial Building during his only South Plains public address this year that he believes the mills are "playing a waiting game" at present. They anticipate that at harvest time many producers will be forced to sell cotton at low prices.

Numerous mills shifted to polyester last year due to the "price difference," he stated. "Mills are looking for economy."

Wooters was questioned from the floor about his statement that synthetics presently bring 58-60 cents and cotton could be competitive at a dime over, but "I haven't seen 70 cent cotton recently." The cotton executive explained that "Nobody will buy a product and pay a penny more than they have to. Mills think they have producers over a barrel."

COTTON DUST STANDARD CREATED BY COMPETITION

Cotton Incorporated has budgeted \$1 million for byssinosis study, the audience was told. The reason for this is that the Occupational Safety and Health Administration (OSHA) of the U.S. Department of Labor has proposed a cotton dust standard which could cost the mills \$1 billion to meet proposed standards.

Byssinosis is an illness supposedly contacted by workers through cotton dust.

This subject struck a nerve with Wooters, who suggested that the proposed OSHA standard was prompted and encouraged by synthetic companies. This is indicative of the "vicious competition" present in the fabric industry.

Noting that "we certainly do not want to see a single worker become ill because of cotton dust," Wooters brought out the fact "people carry more dust into plants on their shoes than the standard allows" inside mills.

NEW PRODUCTS

The Cotton Incorporated president showed a CI film entitled "building a fiber company" before he addressed the gathering, which included primarily Crosbyton, Ralls, and East Plains residents. He pointed with pride to many new products and finishes which have been introduced to the public due partially to the efforts of Cotton Incorporated. "The Natural" had been adopted by CI as its trademark.

Several shirt companies now are producing the popular 60-40 percent blend shirts. A CI survey revealed that "the public is willing to pay \$1 more for cotton blend sheets" and cotton is making inroads in the sheet industry.

After studying fire resistance available in cotton, thanks to CI studies, New York City officials have made it mandatory that all uniforms worn by NYC firemen are of the fire resistant cotton material, "a superior product."

All-cotton knit shirts are coming on the market, Wooters noted. They feature no ironing, permanent color, and no shrinkage.

"Cotton Incorporated represents the oldest fiber and is the newest fiber company," Wooters said of the cotton producers' company which was founded in 1971.

INDUSTRY INNOVATIONS

Mill machinery normally can handle 75 pounds of lint cotton per hour. A

small South Carolina mill has introduced equipment with 10 times that speed, making cotton even more attractive.

Working closely with mills, "Cotton Incorporated is building confidence of the mill people." One reason is the interest. A CI chemist was able to save one mill \$35,000 on a dye process.

"Superior selling and more advertising are the keys to increasing the cotton market," the guest speaker stated. He explained that Du Pont's budget calls for \$27 million in advertising and \$100 million in research. The CI budget is \$20.5 million.

In discussing the budget, he noted that TV advertising costs increase approximately 20 per cent annually.

The president emphasized that Cotton Incorporated works with all phases of cotton, from planting, to insect control, to harvesting, to marketing and numerous other items.

NOT ENOUGH LAND?

Tactics and propaganda of "synthetic companies" draw fire from Wooters. He pointed out that last year spokesmen for synthetic companies were cautioning mills that "there is not enough land to produce a sufficient amount of cotton." Now we have a cotton surplus, he added.

Several of the questions addressed to Wooters from the floor and his answers:

Q. How can producers attain a more balanced price?

A. Cotton Incorporated advises selling one-third of the crop at planting time, one-third "about half way through," and the final one-third after harvest. "If you flood the market, you depress the market."

Q. Why is polyester now used in men's underwear?

A. Strictly a cost factor. Low cotton inventory last year drove up the price and made synthetics more economical for manufacturer use.

Q. How can we promote cotton?

A. Producers urged to support their own product by buying cotton. All-

cotton shirts comprise only 3-5 percent of the shirt market.

Q. The film suggested that CI has extremely competent people on its staff.

A. "It is my philosophy to get a person who does the work of two . . . and pay this person 1 1/2 times the normal salary. We get the best people possible." However, Cotton Incorporated apparently is "not paying too much" because it has lost one-third of its key personnel in five years to better paying positions.

Q. Question (from youngster) Is cotton or polyester stronger?

A. Polyester is stronger. "It is good for tires, but I don't want any next to my body!"

Q. Question concerning additional new products.

A. "Cotton-wool blend will be introduced to mills, and if the mills are interested this new fabric will be placed on the market in the fall of '78."

CROSBY COUNTY COTTON CLUB ARRANGES VISIT

Wooters visit here was arranged by the Crosby County Cotton Club. Mrs. Lawrence (Bonita) McDowell of Mills, club president, emceed the program. She introduced guests, including one person from Memphis, Tenn., and representatives of various other cotton organizations and area media.

Wooters was presented a Hank Smith coin set as a commemorative of his Crosbyton visit by Joe Cargile, president of Crosbyton Chamber of Commerce.

Gary Ivey, secretary of Plains Cotton Growers and a Crosby County PCG director, introduced Wooters. "I've never met anyone who shows more dedication for his job than this gentleman," Ivey remarked.

Gene Reed ran the projector for Wooters slide presentation.

often we unconsciously commit similar errors while being preoccupied with a nother person's driving habits, safety engineer

COTTON Incorporated president J. Dukes Wooters, center, presented a Hank Smith coin set to Joe Cargile, president of Crosbyton Chamber of Commerce (speakers). The coin set Wooters as a memento Crosbyton visit.

with the Texas Agricultural Extension Service. We need to take positive action when we see driving errors. This means learning from the incidents and applying the results to our own driving or "cleaning up our own driving act."

ACCIDENT CONTROL
Forage and other harvesters are potentially lethal. Stop equipment and wait until all moving parts have stopped before unplugging or making adjustments, cautions the Texas Agricultural Extension Service.

Now!
What you pay to lease a Zimmatic depends on the price of corn.

Here's another first from Lindsay - the Zimmatic Corn Crop Lease. Instead of a fixed lease payment, you pay for your Zimmatic based on the price of corn. If corn prices plunge, so does your lease payment.

By offering this new lease, Lindsay is sharing some of the same risks that you face every year. Corn prices fluctuate, which affects your profit picture. That's why Lindsay developed the exclusive Zimmatic Corn Crop Lease - a revolutionary program that tailors your lease payments to the changing price of corn, from one year to the next.

The Zimmatic Corn Crop Lease is designed so you can lease a Zimmatic without using your normal operating credit sources - your Zimmatic pays its own way by turning on your production.

Texas Food and Fiber
by Reagan V. Brown, Commissioner
Texas Department of Agriculture

AGRICULTURAL PRODUCTS

This year's drought has made all of us aware that the great American food machine could not continue to operate without irrigation. Research scientists are turning to every possible source for water, and the promise of the use of sea water for agricultural production is becoming more of a reality every day.

After more than five years of work, researchers at the University of California at Davis have had encouraging results in growing both barley and tomatoes using sea water. By 1978 they will be experimenting with wheat production. Certain crop strains with total sea-water tolerance may be on the market within ten years.

This is welcome news, especially to those in Texas who have long viewed the Gulf of Mexico and the vast quantities of brackish water in West Texas and the Gulf Coast as possible sources of irrigation water. Salt water could have vast importance for the result of the world as well.

AGRICULTURAL BRIEFS
CROP PRICES SET-ASIDE TO AFFECT '78 PLANTINGS—Price changes for wheat, cotton and feedgrains and the new wheat set-aside program will affect 1978 planting decisions, contend economists with the Texas Agricultural Extension Service. If the new farm program is enacted, producers will be required to set-aside 20 per cent of their wheat acreage to qualify for price support

The salt-tolerant crops could also be used where small but gradually accumulating deposits of salt from fresh-water irrigation threaten to destroy present fertile farming regions.

There are limitations, however. Such irrigation ideally should be employed only below altitudes of 100 feet to avoid high pumping costs. The crops also must be grown in sand. In normal soil, sodium and other salt compounds would eventually build up, preventing water from reaching the plant roots.

By studying the characteristics of a plant that make it salt-tolerant, researchers hope to breed these characteristics into crop strains for use on inland farms in an effort to guard against salinity problems.

We in Texas hope that research continues. It could well help Texas solve, at least partially, its agricultural water problems.
