## Whirlwinds, Cats Square Off In 4-AA

### Idolou Game Friday Night

DUG SIMPSON  
feel that this season's chase has been one of the best. The trend still is what has occurred over the years.

Idolou has not lost a game, rolling along at a 5-0 record. The 'Winds' season and 2-1 in district.

regular season game of the 'Cats came from the Whirlwinds 14-14 and led to the playoffs with a 2-0 record.

Idolou has not lost a game, rolling along at a 5-0 record. The 'Winds' season and 2-1 in district.

There are three teams still in the race that may stay there another week after tomorrow's contest.

Bornets, Wildcats, and Idalou are in the playoffs. If Idalou wins and knocks off Lockney next week, it is undisputed champions.

### Book Chat

My prediction on the weather for the year is... I swore off but I think I'll try one more time.

Don't know, and what is it? The meaning of indifference.

WINTER? I haven't felt it yet, but reports from the north indicate that they're not as cold as usual...other reports indicate a cold winter; spinning their webbs, woolly worms have been seen; squirrels are out of their shells and are hoarding up; an unusual, there is thicker fog; fur of coyotes is thicker; birds are migrating; the monarch butterflies are earlier this year. If it is correct, it could be a record.

Weather may not start to warm... the warm dry weather. (It says here).

PRICES ARE NOT what they were last year, but our production is still good. The way it is still profit in cotton and the market seems to be on the rise.

North of here show a lot of rain... while banks on the south continue to show increasing economy" is in a bad way.

Our farmers will have a hard time carrying their crops this year. The bell is long this year and it is long as there is no killing frost yet. The price of the hot peppers are high. Price has been high. Onions, cucumbers, and peppers are high. The onion production is low. We're talking farming, we're looking the pumpkin business. Robertson had a great crop of pumpkins. The hot September weather has been a help. The weather was able to market the pumpkins.

defeated them a couple of games ago by 12-0. Floydada can represent by beating Idalou and counting on an ensuing upset by Abernathy next Friday against Tullia.

In any event, the most probable result is a three-way deadlock and the eventual flipping of a coin to determine the representative.

Will the Whirlwinds be intimidated by their opponents' #3 ranking? "We have played a tough schedule all season long and this game won't be any different," Coach Wilson stated in an interview Tuesday afternoon.

His swift footed setbacks, Larry Murphy and Ricky Hobbs, have led an outstanding rushing game all year long, in spite of an off night against Abernathy a couple of weeks ago.

The front wall is solid with 229-pound senior Kelly Anthony and 190-pounder Armando Galaviz leading the attack at quarterback.

Receivers Kelly Vineyard and Buckles Bryant caught two passes between them for 108 yards in that game.

Idalou operates out of a Power I offensive formation, with Paige Burt-smith, also a highly-skilled basketball and track participant, leading the attack at quarterback.

Idalou operates out of a Power I offensive formation, with Paige Burt-smith, also a highly-skilled basketball and track participant, leading the attack at quarterback.

The Wildcats 5-2 defensive unit sports a five-man line, with two linebackers and four backfieldmen. Noseguard Eddy Ferguson, at a modest 145 pounds, tackles Bobby Jackson and Kenny Phillips, and ends Dwain Bunting and Robert Anisco make up the front line of defenders.

The secondary consists of a virtually inexperienced but capable crew of juniors, sophomores, and one senior. Ross Rucker and Vineyard man the corner spots, while Bryant and Alan Emery fulfill the safety roles.

The Whirlwind lineup will be the same, with Ricky Day and Rusty Cagle alternating at the halfback slot, and Rick Covington and Joe Covington sharing the fullback duties.

Brad Feuerbacher will start at left end and tackle Paul Radloff will go both ways again for injured Kenneth Griggs.

It's unbelievable, what's happened at our school...really a freak accident" is the way Duncan Elementary principal Bob Copeland began describing three wrecked vehicles in front of the school Wednesday morning.

It seems that a five year old girl climbed into the red Chevrolet pickup of Jack Eubanks, somehow shifted the manual gear into reverse, backed past eight parked cars, then backed into the Ford pickup of Wayne Campbell.

Eubanks and Copeland were in the school visiting when Mrs. Barker Chunn rushed in with the little girl and said, "This little girl has wrecked three cars!"

It is possible that damage to the vehicles will run into the thousands of dollars.

Mrs. Chunn said when she first saw the accident, she expected the gas tanks to explode because there was a hissing sound and immediately took precautions for her child and the girl in the pickup.

Copeland and Eubanks are still wondering how the little girl pushed in the clutch and shifted gears.

How's the young driver?...seems she received only a bump on the head.

THE SCHOOL ADMINISTRATION OFFICE got a surprise visit from the Title I four year olds and Plan A program Monday as they celebrated Halloween. Little witches and goblins sang to the office personnel and principals...and in return received a candy treat from school superintendent

A.E. Baker, Migrant teachers were Mrs. Gail Hale and Mrs. Mary Martinez. Plan A teachers were Mrs. Joyce Williams and Mrs. Hilda Vasquez and the children were assisted by Miss Gean Christopher and her class. Other pictured include: Mrs. Bill Brown. (Staff Photo)

## Five Year Old Creates Havoc At Duncan Elementary

It's unbelievable, what's happened at our school...really a freak accident" is the way Duncan Elementary principal Bob Copeland began describing three wrecked vehicles in front of the school Wednesday morning.

It seems that a five year old girl climbed into the red Chevrolet pickup of Jack Eubanks, somehow shifted the manual gear into reverse, backed past eight parked cars, then backed into the Ford pickup of Wayne Campbell.

## Larry and Debbie

Love Fund Set Up

In a meeting Tuesday night the members of Alpha Mu Delta decided to start a love fund for Larry and Debbie Guffee. Debbie remains unconscious following brain surgery in University Hospital at Oklahoma City. Her baby daughter, Candace Marie is in the children's hospital nearby.

Debbie is the 22 year old daughter of Mr. and Mrs. Si Medley. Larry is the 23 year old son of Mr. and Mrs. Corkey Guffee.

The amount resulted from ticket sales and some donations to the center. "We were pleasantly surprised with the good turn-out considering there was no school Friday and Abernathy crowds usually aren't too large," Tooley said.

## Thieves Take \$65 From Locker Room

Coach L.G. Wilson reported Tuesday that about \$65 had been stolen from the football players' locker room last Friday during the Abernathy-Floydada game.

Apparently, the thieves had got into the locker room during the game and had just gone through and taken some of the players money and left.

When asked for comment, Wilson said, "It's not how much money that was taken that bothers me so much as it is the principle of the thing."

## No Absentee Amendment Votes

At noon Monday there had been no absentee voting on the seven Constitutional Amendments proposed by the State Legislature...voting day is Tuesday, November 8.

Balloting began October 19 and will continue until 5 p.m. Monday, November 7, the day before the election.

A review of the amendments is published in this edition by speaker of the House of Representatives Bill Clayton.

The amendments apply to the Court of Criminal Appeals; Veteran's Land Fund Bonds; denial of bail to persons charged with certain felonies; tax relief for cultural, historical or natural his-

persons who plan to be out of town on election day can cast an absentee ballot prior to the election in the County Clerk's office in the courthouse. Hours are from 8:30 a.m. to 5 p.m. Monday through Friday.

## Spaghetti Supper Nets \$1,000

According to an exclusive interview a Hesperian reporter had with Wendell Tooley, president of the Floyd County Day Care Center, the spaghetti supper Friday night netted around \$1,000.

Our board members always give very freely of their time, the cafeteria personnel, just so many in this community for this very worthy project each year...and we are most appreciative," Tooley added.

## Ray Farabee Seeks Re-Election

recently appointed Senator Farabee to the Legislative Budget Board which meets during the interim between sessions to prepare the budget for the State. He also serves on the Senate Finance Committee, the Jurisprudence Committee, and the Natural Resources Committee, which deals with issues concerning agriculture and energy.

The Texas Farmers Union presented Senator Farabee with the Senate Member Outstanding Legislative Service Award in 1975 and he recently received the Vocational Agriculture Teachers Association's Texas Distinguished Legislator Award.

Senator Farabee, in announcing his candidacy, said, "My first term in the Legislature has been productive and worthwhile. I was fortunate to receive excellent committee assignments and have sponsored legislation which is now law that benefits both the 30th District and the State of Texas. I would like to continue my public service in the Texas Senate. I want to utilize the experience and seniority which comes with a second term to serve the people of this area."

In 1975 TEXAS MONTHLY magazine selected Senator Farabee as the outstanding newcomer to the Senate and in 1977 named him as one of three senators among the ten best legislators in Texas. In making this selection, TEXAS MONTHLY cited him as being "conscientious, hardworking, smart, fair, independent, someone who does his homework."

Senator Ray Farabee

State Senator Ray Farabee announced his candidacy today for re-election to the Texas Senate representing the 30th District. The 30th Senatorial District covers a twenty-nine county area in North Central and Northwest Texas including Floyd County. Farabee, who is 45 and a Democrat, was elected to the State Senate in 1974 and is now completing his first term of office.

Lieutenant Governor Bill Hobby

## Over 5,000 Letters Mailed In Historical Book Project

Floyd County historical book project letters to present and former Floyd County residents are finally in the mail. The last group of letters was posted Wednesday.

Project chairman Virginia Taylor says that 5382 letters were mailed to

persons in 45 states, 5 foreign countries, "just about every town in Texas," and many towns in New Mexico, Oklahoma and California.

The Floyd County Museum will host a family history-writing workshop very soon. This date will be announced next week.

Mr. and Mrs. Jess Grigg

**Griggs Celebrate 25th Anniversary**

Mr. and Mrs. Jess Grigg of Floydada will be honored with a reception Sunday afternoon, November 6 from 2:00 until 5:00 p.m. at their home at 824 West Ross. This event is in observation of their 25th wedding anniversary which is November 4.

Hosting the reception will be their children and spouses, Mr. and Mrs. Mike Grigg, Mr. and Mrs. Mark Grigg of Lubbock, and Mr. and Mrs. George Harris of Cone. Special guests will include Mr. and Mrs. Grigg's grandson, Randy Harris, and Mrs. Grigg's parents

Mr. and Mrs. J.M. Dean of Snyder.

The former Sara Jane Dean and Jess Grigg were married November 4, 1952 in Anton, Texas and moved to Floydada in 1964. Jess is the son of the late Mr. and Mrs. R.C. Grigg of Anton and Sara is the daughter of Mr. and Mrs. J.M. Dean of Snyder.

Jess Grigg is employed by J.A. Miller and the Mrs. Grigg is Nursery Coordinator at the First Baptist Church.

Friends and relatives are invited to the reception.

**Buses Chartered For Houston Rally**

Chartered buses to the pro-family, pro-life rally being held in protest to the IWY Convention in Houston on November 19 will leave the bus depot in Plainview at 6 p.m. November 18 and return November 19 immediately after the rally. Cost will be \$32.15 for round trip. Anyone who is unable to attend but wishes to financially help someone else to go is asked to contact Dixie Johnson, 652-2344 or Annabel Bramlet, 652-3441. Reservations should be made by November 7.

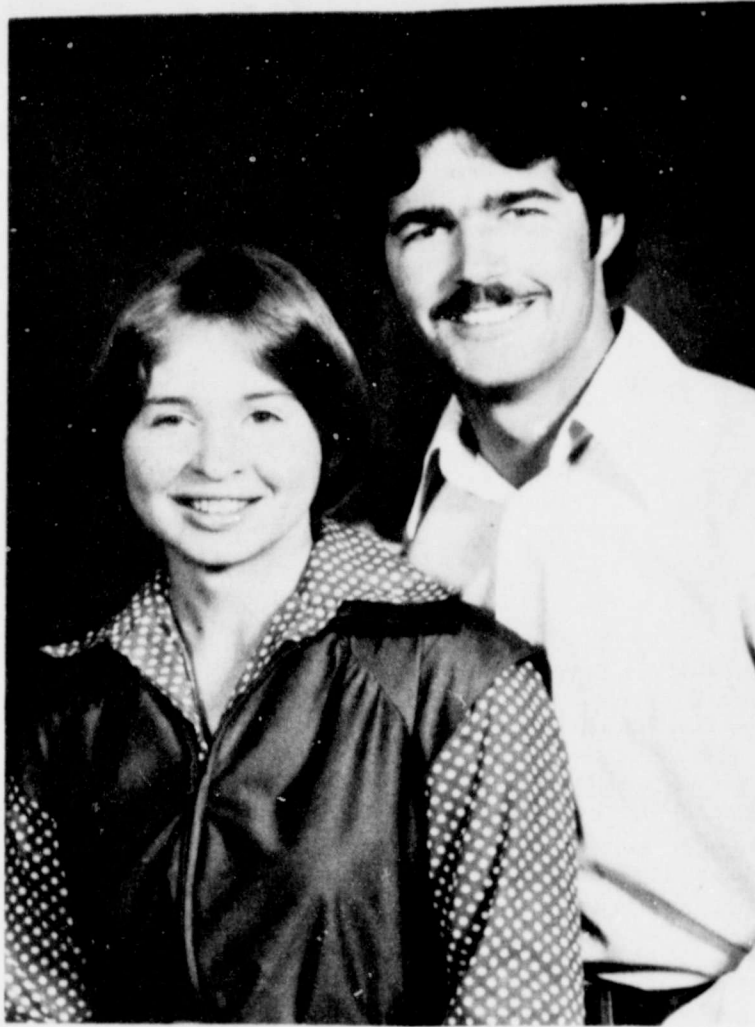

There are resolutions to be signed which will be sent to the President and to Congress from the pro-family, pro-life rally. If you have not been contacted and wish to sign, call one of the above numbers.

**What One Person Can Do**

**DOROTHY BOLDEN, CHAMPION OF DOMESTIC WORKERS**

Dorothy Bolden started work at the age of nine. She did housework in the environs of Atlanta for 42 years, so she knew what she was talking about when she eventually made herself the voice of domestic workers in the state.

Ms. Bolden is one of 10 women interviewed for Nancy Seifer's book, "Nobody Speaks for Me! Self-Portraits of American Working Class Women." She first spoke up in the 1960's when children in her low-income neighborhood were forced to go to school in a condemned building. She lost her fight then for a new school; but as a parent, she raised the issue at the Atlanta Board of Education's weekly meeting

Mr. and Mrs. John Mills (Janie Pyle) announce the arrival of their baby girl, Leslie Ann, born Oct. 22, at Southwest Hospital in Houston, weighing 4 pounds, 3 ounces. She has been in intensive care at Herman Hospital since birth and is reported doing better at this time.

Grandparents of Leslie Ann are Mr. and Mrs. C. Paul Mills, Lubbock and Virginia and Louis Pyle of Floydada.

**Hints for HOMEMAKERS**  
Tested Tips To Help You

By Samantha

These days there is so much interest in keeping fit, chances are everybody at your house is jogging, playing tennis, biking, hiking... you name it! And since track suits, tennis tops and other active sportswear tend to collect such persistent grime, you may be in more danger of developing a laundry elbow than a tennis elbow!

Coping with ground-in dirt, grass stains, bicycle grease and perspiration can make doing the laundry a serious chore. And with permanent press so popular for play clothes—and so tenacious about hanging on to oil and grease stains—it can be a real hassle. Clearly a time when you need help from Lestoil, the famous grease-dissolving liquid cleaner that makes light work of really tough laundry problems.

Gentle and safe even for delicate washables like the prettiest tennis dresses, Lestoil has special dirt-removing properties that float away stubborn stains and grime in the wash. These tips from the Lestoil Home-maker's Service will help you breeze through the toughest laundry and get back on the track—or the tennis court—in no time.

Always inspect each item carefully so you can zero in on problem spots that need pre-treating. Apply Lestoil full-strength to grease, tar, perspiration and grass stains, rub in and wait 5 to 10 minutes before laundering.

THE ENGAGEMENT and approaching marriage of Miss Lisa Lynette Scheele and Davis Ben Peckenpaugh has been announced by her parents, Mr. and Mrs. Albert Scheele of Providence. The prospective groom is the son of Mr. and Mrs. Wendel Peckenpaugh of Perryton. The couple has chosen December 31 as the wedding date. Vows will be said in Trinity Lutheran Church at Providence. Miss Scheele, a graduate of Lockney High School, is a junior at West Texas State University where she is a secretarial major and a member of Delta Zeta sorority. Mr. Peckenpaugh was graduated from WTSU. While at the Canyon university, he was an agriculture major and a member of Lambda Chi Alpha fraternity. He is farming at Farnsworth, near Perryton.

for six years until one was built. "God gave me my tongue," says the feisty woman, "and I'll use it until He seals it to the roof of my mouth."

She used it for domestic workers in the area, who in 1965 were making only \$7 a day. She felt they needed organization. Community and civil right leaders said they couldn't handle it. So she did. With the support of her husband, she gave up her job and went at the problem full force. Salaries rose to \$20.

The Department of Health Education and Welfare is benefiting from the exper-

### Banana Fritters For Chanukah

The word "Chanukah" means dedication. The joyous Jewish holiday known as Chanukah commemorates the rekindling of the lights of the Temple when the holy place was rededicated after the Maccabean warriors had recaptured it from the Syrians.

To recall this victory Chanukah is celebrated every year for eight nights and eight days. The Menorah, a special nine-branch candelabrum, is used for the occasion. One candle is lighted each night and the ninth branch holds an extra candle from which the others are lighted.

Fritters and latkes (pancakes) are traditional foods for the Chanukah season. The Banana Fritters sug-

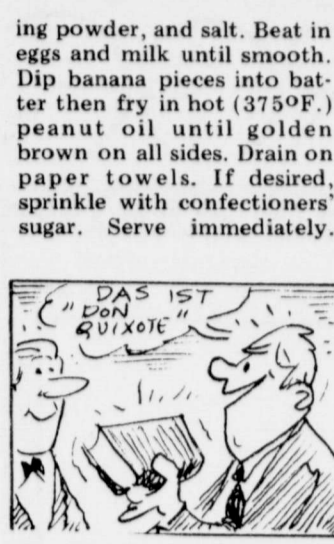

gested here are deep-fried in peanut oil which Jewish cooks prefer because it can be heated to high temperatures without smoking or burning. Planters Peanut Oil is the all-purpose cooking and salad oil that is acceptable in Jewish kitchens any time of year because it is kosher and pareve.

#### BANANA FRITTERS

Makes 8 servings

- 1 cup unsifted flour
- 2 tablespoons sugar
- 2 teaspoons baking powder
- 1/2 teaspoon salt
- 2 eggs
- 1/2 cup milk
- 8 bananas, cut into 3/4-inch pieces
- Planters Peanut Oil

Combine flour, sugar, bak-

The book, "Don Quixote," has been more widely translated than any other book except the Bible.

A noted pediatrician told the delegates to the conference that he deplored the feeding of skim milk to babies as a weight reduction tool.

Dr. Samuel DJ. Foman, professor of pediatrics at the University of Iowa College of Medicine, said many physicians and parents feel that skim milk will prevent obesity or trim down the babies.

"But, the trouble is, a baby just can't drink enough skim milk to meet the caloric needs," he said. "It's equivalent to a crash reducing diet in an adult and an unsatisfactory method of nutritional management in a baby," he said.

Dr. Foman said there is a tendency to introduce foods other than milk products—or prescribed formulas—too early in life. Over feeding, he said, is a big problem in babies. Parents have a tendency to get the last drop out of the bottle or feed a baby the last bite out of a bowl of food without regard to a baby's desire to feed. Dr. Foman, who advocates breast feeding, said that in breast feeding the baby normally determines when he has had enough.

The eating habits of pregnant women have long been shrouded in myths and half-truths and superstitions, according to Dr. John Duhring, University of Kentucky Medical Center.

"Research indicates the

things a pregnant woman needs is a good balanced diet and probably iron," he said. "The necessity for other supplements such vitamins is very much in doubt at the present. In fact, it may actually be that some vitamins, especially in high doses, may actually be harmful to the growing fetus and may produce birth defects," he said.

Dr. Willard Krehl of the Thomas Jefferson University Medical College stated that not enough was being done to improve the nutritional needs of patients in hospitals.

The Philadelphia physician called on Texas hospitals to make nutrition a primary concern. Dr. Krehl said hospitals should have interdisciplinary teams of professionals to deal with nutritional problems.

Harvard medical professor Dr. Ronald Arky informed the delegates that there are nine million people in the United States with a kind of diabetes brought on just by being overweight. "What seems to a very common genetic tendency, maturity-onset diabetes, is brought forth by just mild obesity," he said. "It's essential for those with a family history of diabetes to start early to prevent overweightness," Dr. Arky said.

This has been Accent on Health, a public service presentation of your Texas Department of Health.

### Accent On Health

At a "Nutrition Through-out The Life Cycle" conference held in Austin recently, thoughts, impressions and observations of some of the nations' leading authorities

on nutrition were heard. The nutrition conference was sponsored by the Texas Department of Health, the Texas Public Health Association and the Department of Health, Education and Welfare, Region VI.

The 400 delegates who attended heard internationally known authorities speak on the nutritional needs at the different stages of life. They also heard Dr. Raymond T. Moore, deputy director of the Texas Department of Health outline the purpose of the conference. Dr. Moore said recommendations made at the meeting are expected to be turned into an integrated nutrition program to benefit Texans of all ages.

Nutritional professor Dr. Betty Alford said that most elderly persons run into nutrition problems not because their needs change, but because they eat too much.

"The elderly need about the same amount of proteins, vitamins, minerals, and water as young people do, but the elderly need reduced amounts of energy or calories," said Dr. Alford. "Therefore, the elderly are more likely to develop obesity because they eat at the same levels that they had eaten before," she said.

Dr. Alford said factors related to nutrition problems of the elderly include established food attitudes, diminished ability to obtain food, decreased energy requirements with continued needs for other nutrients, and the more frequent need for therapeutic diets.

The biological age of a pregnant teenager should be given more consideration than her chronological age in

making a nutritional assessment. Dr. C. E. Gibbs told the audience.

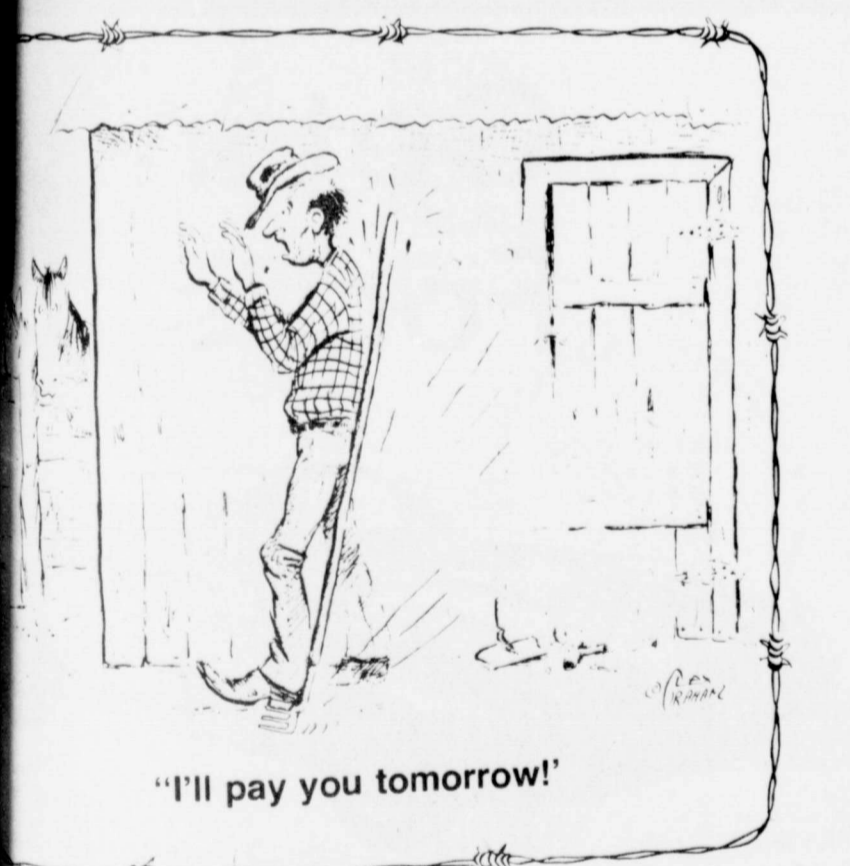

Dr. Gibbs, professor in the Department of Obstetrics and Gynecology at The University of Texas Health Science Center in San Antonio, said the linear growth of a female typically stops about two years after the start of her menstrual cycle.

He said the relationship between growth and nutrition hinges on how close pregnancy occurs to the start of the menstrual cycle. The increase of caloric in-

take may be all that is necessary, generally speaking after two years, said Dr. Gibbs. He said some of the main deficiencies found in adolescent pregnancy are in iron, calcium and vitamin

**VA NEWS**

Governor Dolph Briscoe has signed a proclamation designating November 11, 1977, as the official Veterans Day in Texas. According to D.G. Ayres, Veterans Service Officer for Floyd County and State Co-Chairman for this area, all veterans organizations and individuals who care to do so are encouraged to participate in any local activities planned to honor our veterans on November 11, 1977.

Even though the Federal government still recognizes the fourth Monday of October as Veterans Day, the State of Texas two years ago

changed back to the original date of November 11. Originally known as "Armistice Day," November 11 was for many years set aside to honor those who served during World War I. Since 1954, November 11 has been known as "Veteran Day," a time to honor all U.S. citizens who have served their country during times of war.

Governor Briscoe has named Aubrey L. Bullard, Executive Director of the Texas Veterans Affairs Commission, as Veterans Day Chairman for our State. Chairman Bullard is encouraging all citizens of Texas to actively participate in any local Veterans Day celebra-

## Barbee Places

### 6th In PP&K

### Dallas Contest

Shannon Barbee, son of Mr. and Mrs. Larry Barbee of Floydada, recently performed at the Dallas Punt, Pass, & Kick contest for the right to advance to state and national competition, and placed a very respectable 6th with an overall effort of 133 feet.

Barbee had earned the right to compete in the Dallas contest by placing first in 8-year old divisions at the Floydada and Lubbock contests.

The contest is sponsored annually here by Reed Ford.

## Netters In Lubbock Tournament

FHS tennis coach Tommy Baxter took several players to the Lubbock Invitational Tennis Tournament last Friday and Saturday and gained some good experience for his players.

All Floydada players were entered in the C Division and the boy's doubles team of Zane Jones and Bobby Whitaker made the semi-finals. Whitaker was bothered with a bad shoulder on Saturday.

**BOY'S DOUBLES**  
Greg Pruitt and Oscar Barrera beat Plainview's Richie Norriell and Erick Jackson 6-0, 6-1. In the second round they lost to second seeded Clint Oden and Donald Minor of Morton 6-2, 6-3.

Whitaker and Jones first defeated an Atkins duo 6-2, 6-0. Then they defeated Edward Hernandez and George River of O.L. Slaton 7-6, 7-6. In the quarter finals they beat Kenneth and Larry Carr of Estacado 6-4, 3-6, 6-1. In the semi finals they lost to Oden and Minor 6-1, 6-2.

Monte Lyons and Bobby Green beat Kirk Wilson and Lonnie Harris of Plainview 6-2, 6-4. In the second round they lost to David Farrell and Joe Ware of Mackenzie 6-2, 6-0.

**BOY'S SINGLES**  
Whitaker beat Chester Zermeno of Wilson 6-0, 6-2, then lost to Greg Mason of Evans 6-3, 4-6, 6-4.

Bobby Green lost to Clint Oden 6-4, 6-2. Barrera lost to Tom Laver of Atkins 5-7, 6-1, 6-2. Carl Rojas of Evans beat Monte Lyons 6-1, 7-6. Chuck Peak of Evans beat Pruitt.

**GIRL'S SINGLES**  
Tana Tyer and Valynnda Chandler lost to Cathy Taylor and Nora Sanders of Estacado 6-0, 7-5.

**GIRL'S SINGLES**  
Tana lost to Rosalind Hamilton of Dunbar 6-4, 6-1. Rosalind is Dunbar's number one singles player. Valynnda beat Terri Jo Hays of Roosevelt 6-1, 6-0, then lost

### NEWS & REVIEWS FIRST BAPTIST CHURCH MEDIA CENTER

Harry Golden tells that when his father visited him, his first words were not "How's business, family etc." but pulling from his pocket a clipping he would say angrily, "Did you see that editorial in this morning's paper? Let's answer it!" Harry concludes with: My father was involved in mankind, and that is why he lived into his 80s. A man is like a tree: he dies on top first.

When we see how many adults have not read a single book in years, we cannot help but wonder how long before the roots die with the leaves so obviously shriveled and dry.

Make it a matter of personal discipline to read at least one book this year. For those who enjoy reading voraciously, it is difficult to understand the person who lives a lifetime without the enrichment reading brings. As hard as it is for us to admit, we find the time to do those things that are most important to us. It would not be fair to insist that every citizen should become a prolific reader. However, it would be a valuable service if we could encourage every person to occasionally read a good book. The non-reader is not the only one stuck in a rut. There are many persons who limit the subject of their reading to such a degree that they are not much better informed than the person who doesn't read at all. Decide this year to develop and encourage good reading habits for yourself and your family. Begin by setting realistic goals. Let a library staff member help you select a subject that really appeals to you. If you tire quickly of reading, find a book that is short and has good size print. The length of a book is no indication of its importance. Great ideas can be imparted in a few words. Select exciting children's books to read aloud to your children. In about three minutes you can read aloud ANIMALS SHOULD DEFINITELY NOT WEAR CLOTHING! and the entire family can laugh about the marvelous illustrations. Reading I WON'T GO WITHOUT A FATHER could lead to a serious family discussion about the child living in a one parent family and what your family could do to help in situations like this. KID BROTHER is a good book to read to the youngest child in the family. It might help parents and older brothers and sisters to be more sympathetic.

It is easier to sit in front of the T.V. set or place the children there and passively submit to whatever is on the tube. It is more rewarding to take an active interest in sharing good books within the family. These rewards are later reaped in the classroom as the child who loves good books is invariably a step ahead.

VISITOR FROM ENGLAND.....Martin Kenward of Camberley, England was a Floydada visitor this week. He is pictured with Mr. and Mrs. Bud Goen, and is the nephew of Mrs. Goen, a native of England. Martin has been in Dallas observing Texas Instruments plants and is employed by GEC in England. He has his Master's Degree in electrical engineering and works with handicapped youth in his spare time. He was amazed at the flatness of the Plains and lack of trees. It was his first trip to Texas. He flew home Wednesday. (Staff Photo)

## Grady Freeman Wins Contest

Grady Freeman, of 308 South 5th, Floydada, guessed incorrectly on only the Friona-Muleshoe, upset and the Valley-Nazareth contest to take top prize of \$10 in this week's Hesperian football contest.

Greg Pruitt, of Route 4, Floydada, was once again able to make it into the money-winnings by missing four contests and hitting the tiebreaker category right on the nose with a 33-point prediction and a Floydada victory. He will receive \$6.

Lockney's Juan Garcia also missed four games and guessed close with 35 points to claim third prize of \$4. Contestants also missing four matchups but guessing further off on the tiebreaker qualified for honorable mention status. They are Lockney's Dale Galloway and Floydada participants Jenny Paty, Lucio Vasquez, Beth Vinson, and Bill Kincaid.

## Floydada Nursing Home Happenings

By Dartha Westbrook

We have really had a full week at our home, beginning with Monday 24 when we made 12 Jack-o-lanterns. This was a first time for most of the residents and myself, but they looked pretty good. Thanks to B.A. Robertson for the pumpkins. They really made the tables look great. Tuesday we worked on a new craft item, baskets from Christmas cards. Wednesday we took a field trip to Matador. Those making the trip were Dora Langford, Henry Love, Agnes Anderson, Florence Badgett, Mollie Jones, Viola Marshall, and Will Mooney. Thursday was Bingo day, and Delia Campos was in charge as I had to be in Lubbock. Those playing and winning were Pearl Carrick and Mollie Jones with 2 games, Hope Hammonds, Ray Reed, Agnes Anderson, Willie Stambaugh and Clara Williamson with 1 game each. We didn't play as long as usual, but thanks to Delia for helping out, because they surely hate to miss Bingo.

The Sunshine Class of First Baptist Church brought fruit and cup-cakes to our residents Thursday afternoon. We do appreciate them so much for this monthly treat they give our residents. Thanks to everyone who helped with devotions or visited in our home. We appreciate it so very much.

On Saturday, Art Ratzlaff, Wendell Tooley, Mona Dean and Gean Christopher came out and entertained our residents with their singing and playing. Thanks gang, we surely enjoyed it.

We have a new resident, Nettie Knight from Matador. We hope she will be very happy with us.

# A New England Fall Foliage Tour

By Bonnie Julian  
South Plains, Texas

Autumn in New England is spectacular! I can truly vouch for that. The colors are just splendid, and dashed around over the little hillsides, which they call mountains. There are richer reds, yellow golds, bright crimsons and more lovelier colors than a painter could ever make.

The tour we took was a 13 day trip which began, for us at Arlington, as we boarded a Transcontinental Bus with 42 of us aboard, at 7:00 a.m. September 29. We had spent the night at Cibola Inn in Arlington. We left home on Wednesday in a softly falling rain, and Thursday morning began a trip and about ten days of the thirteen, we were in rainy and cloudy weather. Crossed Lake Hubbard, and went into Texas, where we had our first lunch, and by afternoon were in Little Rock, Arkansas, where we drove by the State Capitol. We spent the first night in Memphis, Tennessee, where thunder and lightning, and the sounding of sirens kept several of us awake. It rained all night.

Early next morning our day began as we drove by the Elvis Presley's mansion, and all of us got out to have pictures made by the musical gate, and to see the beautiful grounds and mansion. At Nashville, we spent a wonderful hour at the beautiful "Parthenon", a full sized replica of the Acropolis of Athens, a masterpiece of early Greek structure. Beautiful gardens of flowers were in their best dress here. We entered the "Blue Grass State" of Kentucky and spent the next night at Old Kentucky Home Motel at Bardonia. In the morning as we had about finished our breakfast, our host told us the skies were blackening, and we all ran for the bus as rain poured down on us. We toured My Old Kentucky Home State Park where old fashioned dressed girls showed us through the Old Rowling Place, a mansion of great beauty. Rain soaked us as we waded through feet of leaves around the park.

The night before we had a wonderful evening, as we toured the Fitch Monument, saw the Old Slave Block where slaves were sold at one time, went through the Old Talbot Inn, saw a "Round Square", had supper at "The Stable" where we had an evening of music and song with "John and Peg". The buffet style supper was great, and after such a wonderful night here in this beautiful place, we did not mind the rain. We saw hundreds of whiskey distilleries, and we toured one.

The Barton Museum of Whiskey History. We visited St. Joseph's Cathedral, and heard about Stephen Foster, who lived there, and everyone hoped to go back there sometime, to hear more about the poets and famous people who once lived there.

This fourth day out we had black skies again, but we went past Lexington, and saw the beautiful horse farms of Calumet, etc. Lovely fields, and white fences were everywhere. Corn grows in abundance through all this country. We spent the night at Columbus, Ohio. Our host and hostess were Mary Lu and Henry Vance, a wonderful couple from Grand Prairie. We have had so much fun with them because this morning, we found they had forgotten their luggage back at Rodeway Inn in Columbus. As the bus returned to the inn, there, in front of the inn, on the sidewalk, sat their luggage! We were all so happy to see it, and yet we teased them all during the trip.

Today we drove by Cleveland, and Cincinnati, and saw the coliseum where the Cincinnati Reds play! We went through miles and miles of grape vineyards and then we hit Lake Erie, and drove along its eastern edge for many miles into Pennsylvania and the fall colors there were getting very lovely. We saw many beautiful leaves through Kentucky and some in Ohio, but especially in Pennsylvania. We drove through Buffalo, New York, and on to Canada, and to Ontario, and the great and majestic Niagara Falls.

We took our bus and went to the skyline, after supper that night, in the rain and we went on top of the Skylon Towers, a great and beautiful tall structure, where the view of the Falls was magnificent. They turned the lights on the Falls and colors

of gold to greens, blues, purples, etc. were beyond description. It rained so very hard on us all the time we were at the Falls, and in Canada.

Day five found us up early at Niagara Falls where we

again saw the Falls, and we toured Goat Island, all got off the bus for pictures of the raging Falls, and one last look at the wonder and majesty of the place. It is a Fairy land come true. Goats were originally put on the

Goat Island to keep the wolves from eating them. We left there and went to New York thruway to Syracuse, and we saw Rochester, and began to see fields of purple and green cabbages, pumpkins, grapevines, and

leaves, there were gold and crimson, reds, rusts, pinks, browns and purplish hues. Lunch was served in Syracuse and it had rained on us all day. We were on Highway #81 to go to the 1,000 Islands on the St. Lawrence

Seaway which is on the eastern end of Lake Ontario. It was cool and nice all the way there. We boarded a sight seeing boat, Uncle Sam VII, with a commentator, and we cruised many miles through the beautiful little islands. One I remember was Heart Island on which the Bold Castle still stands, though never completed, and many luxurious

homes of the very rich are on these islands, which can be reached only by boat or by helicopter. We all took pictures of the bridges, one which is on the Canadian side.

This was the night we stayed at Alexandria Bay, New York, and I loved that place most of all that we stayed in. It was Rivers Edge Motel. Day six we saw our

Green Mountains. That evening we drove the bus on to a lovely, calm Lake Champlain, 167 miles long, to Burlington, Vermont where we had a lovely night and a banquet in an old home, made into a restaurant. The following day found us in Vermont country, as we went into Vermont, through apple country to Middle-

bury, and Granville, where we stopped to purchase wood products, maple sugar and syrup, and some got bird houses, which were indeed hard to carry on and off the bus! We stopped at Waitsville, to see the "Old Covered Bridge" and to walk on the 2nd oldest bridge in Vermont. We stopped in Montpelier, the smallest capitol building of all 50

states, where the gold dome of the capitol shone no brighter than the beautiful red maple tree in front of the capitol in all its glory of crimson leaves. This place was the home of Admiral Dewey.

We drove through the most gorgeous little valleys with trees so beautiful through this lovely state of Vermont, you cannot believe

the peacefulness of it all, nor the beauty, until you see it. This was the highlight, to me, of all the places we saw, on the trip. Little homes, and little towns, clean, shining, set amidst such colors and brightness of reds, golds, and russets, and we had glorious sunshine all day long. This was indeed wonderful, as New England has had so much rain this fall.

We went through the rock of Ages Quarry, one of the largest quarries in the world, near Graniteville. We had a small accident near West Danville, Vermont, but we rested at a lovely farmhouse overlooking a beautiful lake and trees in such color that we didn't mind the delay, and we were soon on our way, after we were helped out of the

roadside mud, into which we had to pull because of road grader and men working too close to the road.

We missed going through the maple sugar factory at St. Johnstown, but we were all filled with the glory of the day, and spent the night in Littleton, New Hampshire. We were in five of the lovely New England states, and sure enough next morning

we again woke to rain as we went through White Mountain into Franconia Notch. We rode the breath taking tramway to the top of Cannon Mountain, and we visited Profile Lake and Great Stone Face, or Old Man of the Mountain, which is 1,200 feet above the lake. We got back into history as a girl commentator came on bus as we entered Massachusetts and came into Boston, and we saw the lovely Paul Revere's Home, Faneuil Hall, visited Old North Church, Christian Science Buildings, and other great buildings there, got aboard "Old Ironsides" now in Dry Dock, and spent the night in Boston after an exciting history-filled day.

Day nine found us in Rhode Island and in Connecticut, and the lovely colors were everywhere, and we got into New York City visited Times Square, Greenwich Village, The Bowery, which is frightful, Chinatown, which is scary, too, Wall Street, Park Avenue, United Nations Building where we saw them in session, and to the Statue of Liberty.

Day 10 we all had breakfast and were saddened because one of our party, a lady fell and hurt her hand, then a man fell, coming down to breakfast, at the Abbe Victoria, and hurt his knee. Then as we were ready to leave for the day, an older lady fell and broke her hip, which was hard on her and all of us, who felt so badly to having to leave her in New York, but Mary Lu took her by ambulance to hospital there, and came back with policeman. The lady's son would soon be with her, and we did then get off on our bus trip by around noon, and snacked at lunch time, as we had a long way to go.

We left New York by Lincoln Tunnel, and thru New Jersey Turnpike, on to the famous Pennsylvania Turnpike. Beautiful country greeted us here as we drove through the Pennsylvania Dutch Country. And in the Allegheny and Appalachian Mountains. We were again in rain all day. We went over the Susquehanna River and we watched for "Hex" signs on barns and buildings here.

We crossed the monogehela River, and were into Wheeling, West Virginia, which is the home of the "Old Stogie" cigar. We were on road until ten that night, as we had made arrangements to get to Cambridge, Ohio. The Ramada Inn here was lovely, and we stopped in London, Ohio the next day I bought an "Ohio" plate to remind me of this lovely place. Cloudy, cool weather, but no rain was our day's outlook, and we went through Indiana, and into Indianapolis, where we all stopped at the great Speedway and we had a good laugh at Murray, as he stayed too long looking at the old race cars in the museum, and was last on the bus! The country side here is beautiful, and we saw hundreds of pigs just outside Terre Haute, and saw dry fields of corn everywhere, and heavily wooded areas of greenery, with only sprigs of red showing. We spent this night at Effingham, Illinois.

Day 12 found us in St. Louis Missouri, "Gateway to the West" and we drove into town where all of us went into the archway. Most of this great structure is underground. This was a holiday so many children were there, too, to go up in the archway, which is many hundreds of feet high. This was a great thrill to be in a little cage, sit down, and ride to the top of the big arch, overlooking the beautiful city. The wind was blowing hard here. One little girl said, as I came out of the cage, "Was it scary?" She had big round eyes, and yes, it was scary up there.

We spent this night in Joplin, Missouri, in a lovely inn, and the Yankees and Dodgers will be in the World Series! It was 45 degrees as we woke to a nippy world on this last day of our tour. It was a heavily wooded place here, too, and the leaves not turned very much. We drove clear through the beautiful state of Oklahoma, on this last day. It was lovely at Tulsa, where we stopped for a treat, and all across the state to Texas where we left our new found friends in Arlington and Fort Worth, and said good-bye to everyone. We had the most gorgeous trip to a fairy-land world, with Abraham Williams, a fine bus driver, and host so gracious and sweet, Mary Lu and Henry. We went through 18 states, and drove around 4,500 miles. Would I go again? You just believe I would. It was

# Floydada Couple Enjoys Pioneering In Alaska

By Wendell and Mary Tom Tooley

An adventure in time but almost out of space (as far as distance is concerned) was the feeling conveyed to us by Sammye and Fred Rink as they spun tale after tale of their year and a half in Juneau Alaska. They are home now, visiting Chris and Vanda Rink, and seeing that the new grandson gets a good start. Christopher

Lee's Floydada grandparents are Winnie and Ray Gene Carthel.

When folks in Juneau tell you the location they say "up the road" and literally they mean it because Juneau has one long main road, just 44 miles in length and everything is measured by that road. And another interesting factor is that that road can be reached only by ferry or by air.

The pioneer spirit one senses in

talking to this excited couple is quite real. They not only convey the spirit of actual outdoor adventure with miles of walks over the wilderness terrain, but also the pioneer spirit of the people. They are a breed all their own very akin to the early pioneers. And they are seemingly just as dependent upon one another spiritually and socially. They become family to one another, in the absence of their own.

Sammye, who went to Juneau in a nursing position has now become Director of Nurses at Bartlett Memorial Hospital.

The Rinks enjoy the fellowship of worshippers at Faith Lutheran Church there although they are quite ecumenical in their outreach. Fred has built two altars for the Catholic Church and is commissioned to build another as soon as he returns.

Of about 400 graduates in Juneau High School last year about 300 of them had only attended school there for their Senior year. It is a land of transients, people with a yen for adventure.

"People who need people" was the song I heard as I listened to Sammye and Fred relate their experiences and relationships...and I also heard the universal heartbeat of people yearning for solitude and simplicity.

### FOOD PRICES REASONABLE, LODGING HIGHER THAN A CAT'S BACK

"I believe groceries are about the same price as Floydada prices....canned goods may be a little cheaper in Juneau," Fred said after shopping here this week. "But lodging is something else....a small apartment in Juneau is \$500 per month and you must have your own furniture," Fred added.

Many of the nice homes in Juneau have very little furniture (which is a high priced item) and when the people come together for fellowship, many sit on the floor.

Fred, now a carpenter, built some small pieces of furniture from packing crates.

He also picked up some commercial fishing for a period of time and really enjoyed it, although it is hard work. The government allows commercial fishermen 48 hours of fishing a week, and there is very little sleep or rest during the 48 hour period as the fishermen try to net all the salmon possible. Salmon bring \$1.00 per pound, and it isn't unusual to catch as much as 8,000 pounds on one trip.

"Many commercial fishermen make as much as \$60,000 just in the fishing season," Fred added.

Carpenters make \$16.00 an hour and double pay for overtime. Most work weeks are 38 to 40 hours and ten official holidays a year. Most people have off Saturdays and Sundays.

### HOUSE SITTING

Some people make money baby sitting, but in Juneau Fred and Sammye have received a lot of free lodging as they live in different homes while the owners go on trips. They have lived in 16 different homes in the past year and a half.

They take care of the owner's dogs and cats as well as the home.

### TRANSPORTATION

Gasoline costs around 65 cents a gallon....there's no problem about the 55 mile speed limit, with such limited paved roads.

There is one daily newspaper in Juneau. Juneau is a town about the size of Plainview, and the Capital city for the state of Alaska.

### BEARS AROUND

Fred was trout fishing near Juneau one day in one of the beautiful rivers of the area when he looked up and a huge mother bear with a couple of cubs approached. He had no gun, only his fishing pole. He froze, the bear approached within ten feet, they just stared at each other. Then the bear made a gruff noise, turned and walked away.

From that time on Fred wears his gun when he goes into the forest.

### LAND EXPENSIVE

Because of the small amount of land near the seaford and the surrounding border of snow covered mountains land is plenty high priced. One acre costs as much as \$25,000. Fred priced a small two bedroom home on one acre and would you believe, a mere \$100,000?

### WEATHER

Most people visualize Alaska as cold and snowy all the time. Weather in Juneau is if anything milder than Floydada weather. There is a warm Japanese current down the coast and lowest temperature last winter was 20 degrees. There was no snow until Christmas, then only ten inches.

Seventy degrees is about the maximum during the summertime. Of course there is plenty of rain....about 120 inches per year.

### GOVERNOR

Fred and Sammye visit with the Governor of Alaska on the street or at parties. "The Governor is about 57 years of age, sometimes wears Levi pants and jacket to work....visits up an down the street sorta like the Mayor does in Floydada," Fred said.

## Farmers get 1% increase

WASHINGTON (AP) — Prices farmers get for raw products as they move into the consumer pipeline rose one per cent between Sept. 15 and Oct. 15, the first increase in five months, the Agriculture Department said Monday.

The department's Crop Reporting Board said higher prices for oranges, cattle, lettuce, wheat and dry edible beans accounted for most of the increase. Prices were lower for soybeans, eggs and cotton, offsetting some of the increase for the other commodities, officials said.

Despite the gain from mid-September, farm prices as of Oct. 15 were down one per cent from a year earlier. Farmers' expenses, meanwhile,

held steady during the month but still averaged five per cent more than a year ago.

Farm prices are not considered sensitive indicators of future retail food price trends since they can vary widely from month to month and among individual commodities. Also, expenses of middlemen who transport, process and merchandize food account for about 60 per cent of family grocery bills.

The latest increase in the farm price index interrupted a string of declines which began with a five per cent slump between May 15 and June 15. Prices dropped another two per cent by July 15, three per cent by mid August and one per cent by Sept.

### FLOYD DATA

Former Whirlwind quarterback Jay Womack underwent knee surgery last week at Highland Hospital in Lubbock and is in room 318.

Although he initially injured his knee in Whirlwind football, the surgery became necessary after track workouts at South Plains College where Jay is on the track team.

### FOLIAGE FROM 7

great, we both think so. We won't forget friends, Billie and Walter Hanna from Floydada, who were on the trip but whom we did not know before. We did not see one bit of smog on our trip, and we enjoyed wonderful services on the bus each Sunday. It was wonderful!

# 7 amendments explained by Rep. Clayton

**[EDITOR'S NOTE: Speaker of the House Bill Clayton explains the pros and cons of the Amendments that are included on the Nov. 8 election ballot.]**

Dear Friend:

The year has flown by and November election date is just around the corner. Although candidates will not be running for office on the Nov. 8th election date, there will be an array of amendments presented to the people proposed as additions to the Texas Constitution. As always, I would like to inform you on some of the issues proposed in the seven constitutional amendments that you will be voting on. To do this, I'll present a brief background as to the proposal and then an argument or two for the issue and an argument or two against the issue.

After looking over the list of amendments and the pro/con arguments, I am hopeful that you will be able to cast your ballot more intelligently. If the enclosed does not answer all the questions you may have concerning the amendments, then please contact me or my office and we would certainly be delighted to give you a more detailed analysis on any or all of the amendments that you would like.

We will present the amendments to you as they will appear on the ballot.

**AMENDMENT NO. 1** proposes to amend Article 5 of the Texas Constitution to provide for a court of criminal appeals with nine judges and permit the court to sit in panels of three judges each. The court currently has four judges and a presiding judge and sits as a whole. The court of criminal appeals was established in 1876 and has jurisdiction in criminal

cases. The workload of the court of criminal appeals has been increasing steadily as have crime rates and criminal cases on appeal.

Those who support the amendment would argue that to increase the number of judges of a court and let them sit in panels of three is the most efficient and economical method of relieving the pressure on our system of appellate review in criminal cases. This enhances the constitutional right of a speedy trial after the district court level.

Those who argue against the proposed amendment say that a state as heavily populated as Texas is continually increasing its appellate load in the criminal arena which raises a question in the minds of many as to whether only one criminal court will be able to handle the situation in the years ahead.

**AMENDMENT NO. 2** on the ballot would provide an additional \$200 million in bonds for the Veterans' Land Board and would allow surviving spouses of veterans to purchase tracts of land under the Veterans' Land Act. The bonds have never been an expense for which tax monies have been used. The total \$500 million of bonds and obligations which the Texas Constitution now authorizes for the Veterans' Land Fund has already been issued, thereby depleting the fund. Therefore, if the program is to continue, an additional amount must be authorized.

The proponents of this amendment claim that since this program is self-sustaining, there is no reason to discontinue this benefit to deserving veterans or to their surviving spouses.

Those against the amendment claim that the federal government already provides generous benefits for veterans and compensation of veterans is a federal, rather than a state, responsibility.

**AMENDMENT NO. 3** would allow a district court to deny bail to a person accused of a felony committed while he was on bail for a prior felony indictment or to a person who has been previously convicted of a felony and is accused of using a deadly weapon in the commission of a second felony. The amendment would provide that bail may be denied for 60 days only, the accused would be expressly given the right to appeal the order denying bail, and the court of criminal appeals would be required to give preference to his appeal.

Those who favor the amendment claim that his bail denial procedure will reduce the crime rate. They also point out that the amendment provides adequate safeguards to insure that this procedure will not be abused.

Those against the amendment fear that too much power is given to the police and will lead to abuse and violation of personal freedoms. They also point out that this amendment is not needed because the current practice of setting bail high keeps dangerous criminals off the streets.

**AMENDMENT NO. 4** authorizes the legislature to grant tax relief for preservation of cultural, historical, or natural history resources. Cultural, historical, or natural history resources are presently not eligible for either a property tax exemption or other property tax relief. Under current practice, some historical sites owned by non-profit organizations which have been formed for "charitable purposes" receive exemptions from ad valorem taxes. This amendment would specifically authorize the legislature to provide tax relief for such sites, regardless of ownership, as a means to encourage preservation.

Those in favor of the amend-

ment point out that historical sites often attract tourists from other parts of the state and from out of state. They also point out that the Legislature could revoke the tax relief should the need arise and that local governments would merely be authorized, not forced, to provide tax relief.

Those against the amendment fear that granting tax relief to one group will result in shifting the tax burden to homeowners. They also point out that tax relief alone will not preserve our historical resources.

**AMENDMENT NO. 5** would allow the Legislature to authorize producers of poultry, livestock, and other raw agricultural commodities to form associations and collect assessments of their product sales. The rate of assessment would have to be voted on by the member producers. The assessment would not be considered a tax if the Legislature provides that a refund is available upon request. This amendment is intended to overcome a Supreme Court of Texas decision in 1975 which struck down the mandatory fees because they conflicted with Article VIII, Section 1, of the Texas Constitution, which prohibits an occupation tax on agriculture.

The proponents of the amendments claim that all producers of a particular commodity who decide to establish a board and levy the assessment will benefit. Without mandatory fees, all boards are forced to cut back on programs. If a particular producer is strongly opposed to the mandatory fee, he may request a refund.

Those opposed claim the mandatory fees do constitute a tax and that there is too much red tape involved in a refund procedure.

**AMENDMENT NO. 6** would give the Legislature power to authorize state and national bands

to exercise banking privileges by use of electronic devices at remote locations. The Legislature must provide for sharing of these electronic devices on a reasonable, non-discriminatory basis. Article XVI, Section 16, of the Texas Constitution, prohibits branch banking. Each bank may conduct business only at one location, which must be stated in the bank's charter. The adoption of this amendment would authorize the Legislature to allow banks to set up electronic fund transfer (EFT) terminals at various remote locations. An EFT terminal at a retail store, for example, would allow a customer to pay for goods by instantly transferring money from his bank account to the store's account instead of paying with cash or by check or credit card. If amendment no. 6 is adopted, the Legislature would have time to study developing EFT systems in other states before preparing legislation at the next regular session in 1979.

Proponents point out that EFT terminals would provide the consumer with a convenient method of payment, would reduce paperwork and mailing costs, and would immediately detect insufficient funds to cover a purchase, benefiting the merchant and saving the customer from a possible overdraft charge. They also point out the benefit of banking day or night.

Those opposed to the amendment argue that the consumer will not be benefited by EFT. The ability to stop payment is eliminated. The cost of installing EFT terminals would probably be passed on to the consumer, raising prices.

**AMENDMENT NO. 7** will make several significant changes in the Judicial Qualifications Commission. The name of the commission

## Loan Rate Announced For Upland Cotton Crop

**By Reuters**  
WASHINGTON — The 1978-crop loan rate for upland cotton will be 44.0 cents per pound for strict low middling 1 1/16th inches at average domestic location, the U. S. Department of Agriculture announced Monday.

The loan level, set in accordance with provisions of the recently signed farm bill, reflects 90 per cent of the adjusted average price quotation for Northern Europe, the USDA said.

Under provisions of the farm bill, the

USDA said, the loan level must reflect the smaller of (1) 85 per cent of the average price for SLM 1 1/16th quoted in the designated U. S. spot markets during the four-year period ended July 31, or (2) 90 per cent of the average for the first two full weeks of October of the five lowest priced growths quoted for strict middling, c.i.f. (cost, insurance, freight) Northern Europe, as adjusted.

The USDA said world market prices have declined in recent months, thus making the European quotes the control-

ling factor in the loan level determination.

The loan level would have been 50.28 cents per pound if it had been based on 85 per cent of the four-year average U. S. spot market price, the USDA said.

The basic loan level for the 1977-crop was 44.63 cents per pound, with premiums and discounts for differing grades and staple lengths.

Loan premiums and discounts for the 1978 crop will be issued later, the USDA said.

The USDA said loans will be available for a term of 10 months for the first day of the month in which the loan is made.

However, the 1977 farm bill provides that loans may be made available for an additional eight months unless the average price of SLM 1 1/16th-inch cotton in U. S. spot markets for the preceding month exceeds 130 per cent of the average spot price for the preceding 36 months.

The USDA said the fall-back provision

for basing the loan rate on the European price was included in the farm bill to take into account possible declines in world

market price levels for upland cotton, thus making the U. S. growth

### TAX FACTS

The Administration's proposed Crude Oil Equalization Tax (COET) would be added to the price of controlled domestic crude oil, bringing U.S. prices more in line with the world price of crude. How much revenue would be generated by COET and where would these funds go?

Although estimates vary, anywhere from \$12 to \$19 billion could be generated annually by the Crude Oil Equalization Tax. At least some portion of this tax revenue would be used to offset the energy cost of the government's social security programs.

Lockney Independent School District is offering 1966 International school bus, 66 passenger, for sale. Bids will be opened on November 14, 1977, at 10:00 a.m. in Superintendent W.H. Hallmark's office, identified as "bus bid." Mail bids to W.H. Hallmark, Superintendent, Independent School District, Box 428, Lockney, Texas 79241.

Small text on the right edge of the page, including real estate listings and other notices.

# South Plains News

By Mrs. Murray Julian

The South Plains Branch of the Lockney Cooperatives, Inc. Cotton Gin has 312 bales of cotton on the yard this Monday afternoon, October 31, and 3,001 bales have been weighed and gone through the office.

There will be a Garage Sale held in South Plains on Friday and Saturday at the garage where the family of Julian Arredondo lives. Mrs. J. P. Taylor and Mrs. Harold Hamm are in charge of the sale items.

Mrs. Arby Mulder spent the weekend in Amarillo with her daughter and family, Mr. and Mrs. Jerry Taylor and children.

Rev. and Mrs. Nathan Mulder and children, Cindy, Penny, Jimmy and Cory went to Altus, Oklahoma over Saturday to spend a little vacation time with his family, and Sunday morning they went on to Wellington, where they attended church services.

Thursday night of last week the South Plains School held a Halloween Carnival, and even though there was a light rainfall, there was a good attendance. There were many entertaining things for the adults as well as the children, such as fortune telling, spook room, darts, and the cake walk, with many delicious cakes, was a popular place. Judges for the costume judging were Mr. and Mrs. Mark Sanders and Mr. and Mrs. Jesse Evans. In the preschool group, Justin Marble won first prize; in the 1st and 2nd grades, Cory Mulder received 1st prize; in 3rd and 4th grades, Penny Mulder won first prize; in the 5th and 6th grades, Mitzi Julian won first prize, and in the High School category Kristi Julian won the first prize. In the adult division Blake Kitchens and his father, Ronald Dale Kitchens carried off first honors.

The South Plains PTA takes this way to extend many thanks to everyone who worked helping with the games for the carnival, who helped serve snacks in the kitchen, and everyone who helped in any way to make the carnival a big success. The PTA uses part of the money which was taken in for the Christmas fruits and sweets which are a part of the Christmas program, and they also use some of the money for the teacher's school projects and other things needed in the class rooms.

The teachers had a meeting on Friday, and a work-day, so there was no school Friday for the pupils here nor in Lockney.

We extend our sincere sympathy to Mrs. Don Marble and her family and to Mrs. Robert Holland Sr. of Lockney in the death of Nancy's father, and Mrs. Holland's husband. Holland died in Plainview at the Central Plains Hospital on Wednesday of last week, and services were held on Thursday at the First Baptist Church in Lockney, with interment in Floyd County Memorial Park. He had been ill for a long time.

Mr. and Mrs. Don Marble and Brett had her folks here with them on Friday and Saturday, Mr. and Mrs. Ed Musser and sons from Marango, Illinois, Mr. and Mrs. Robt Lee Holland Jr. and family of Hallettsville, and her mother Mrs. R. L. Holland Sr. The Mussers were to leave for their home in Illinois on Saturday.

Rev. and Mrs. Fred Blake went to Levelland on Wednesday of last week where Rev. Blake was in charge of services for Paul Leonard McLean, 67, of Denver City, who had died on Tuesday. Services were held this Wednesday at the Calvary Baptist Church in Levelland, with interment there later. Services were held at 2 p.m. although the family did not return in time for prayer services. Rev. Nathan Mulder held prayer meeting at the South Plains Baptist Church while they were gone.

Mr. and Mrs. Kendis Julian, Kristi, Mitzi and Tim and Mrs. Murray Julian attended the First Baptist Church in Plainview Sunday, October 24, where Mitzi played in a church music recital, with judging on her performance of hymn playing for the congregational singing, etc. Many others from over the area were in the Church Recital. E. C. Cox, of Lockney, father of Mrs. Alvin Nichols, had surgery last Tuesday at the Central Plains

ns Hospital in Plainview. The family is sitting at the bedside of the very ill father. Cox will be 94 Dec. 20th.

Mr. and Mrs. Garvin Beedy and children, who have been living in Floydada have moved to the Garvin Beedy home in our area this past week, and the children will be in schools this coming

week, starting Monday. One will attend South Plains School and the other three will be going to Floydada. We extend a welcome to the family in all areas here. They will live where the Don Sutterfields lived. The Sutterfields moved to Lockney. October 30th, High Attendance Day in the Sunday Schools over the area was shown to be a disappointment, as our goal was not reached. We were striving for a high of 64, but due to a brief shower, and cold temperatures, and a good many over the community ill with coughs, colds, flu and other

ailments, we could not reach our goal, but we will be trying again. Wednesday at 2:30 p.m. Royal Service for the WMU of the Baptist Church will meet. Mrs. Nina Sanders will be furnishing refreshments for the Mission Friends, Royal Ambassadors and the Girls in Action this Wednesday afternoon. Mr. and Mrs. Sylvan Kinniburgh had dinner Sunday with their daughter and family, Mr. and Mrs. Hank Dickens and son in Plainview. Remember Hobby Club will meet at the home of

## John Calahan Joins Optimist Club

The following article was taken from the Stephenville, Texas "Optimist Outlook" as it concerns a former Floyd county resident, John Calahan, plant physiologist in the Biology Department at TSU is the newest member of The Club. Calahan grew up in the booming metropolis of South Plains, Texas, although, since South Plains did not have a high school (there were only 8 in his eighth grade graduation class), he finished his pre-college days at the nearby county seat of Floydada...near Plainview...near Lubbock. After finishing Texas Tech, he was surprised to overhear a few wheels at
