HARVEY ALLEN AND JUNE WARE ELECTED

Record Setting Three Women On School Board

June Ware joins Martha and Betty Holmes of the school board, establishing a record for the school system of three women serving on the board at one time.

Mrs. Ware and Harvey Allen will be sworn in at Friday night's board meeting, and will begin work with the board on hiring teachers for another school year. Allen returns to the board after serving a term of three years.

Officers will be elected in the Friday night board meeting. President of the board Gene Arwine did not seek re-election.

Superintendent A. E. Baker said a board meeting Monday night would also be needed to complete the job of hiring teachers for another year.

A moderate turn-out of 444 voters voted on five candidates for the two vacancies on the board in Saturday's election. Allen received 218, Mrs. Ware 214, Johnny West 180, Jerry Battey 136 and Paul Westbrook 110.

More About New Chamber Of Commerce Manager

Sunday's Hesperian featured a picture of Floydada's New Chamber of Commerce manager Lance Barrow. Later, a biographical sketch arrived by mail and here's more information about Lance.

He is 23 years of age, will graduate from Abilene Christian University with a BA degree in Mass Communications on April 30.

While at ACU he was a member of the Wildcat football team, member of the student government, sports director of KACU-TV, host of Coach Willard Tate basketball TV show, sports an-

nouncer for ACU basketball games, member of the student advisory board and member of Trojan Social Club.

He attended the University of Wisconsin and played football there during his Freshman year, transferred to ACU in 1974.

He is currently employed with CBS sports as a spotter for Pat Summerall and will continue in this capacity while manager of the Chamber of Commerce here.

He will assume his duties here May 15 and is engaged to marry Melissa Moore of Dimmitt August 12, 1978.

Cindy Stenholm Coming To Floydada

Cindy Stenholm, wife of Democratic candidate for the 17th Congressional District Charles Stenholm, will lead a group of approximately 40 volunteers visiting in Floydada Monday, April 10.

The visit was arranged by John Dunlap of Floydada and J. T. (Buster) Terrell of Lockney, Stenholm's Floyd County Campaign Coordinators.

Mrs. Stenholm will also be a special guest of the Floydada Chamber of Commerce Womens Division at 7 p.m. that evening.

The group of Stenholm volunteers will be in town to meet the citizens, answer questions concerning Stenholm and distribute campaign literature. The general public is invited to visit with the volunteers.

A farmer and a Stamford native, Stenholm's campaign platform is based upon five major issues and concerns facing the American citizen today: inflation, energy, agriculture, senior

citizens and government regulations.

Speaking on these issues, Stenholm stated, "We must eliminate waste and balance the budget. We must deregulate oil and gas and increase domestic production. Farmers must have more stable markets and a fair return on their investments, or every citizen suffers. We must make the social security system secure and keep down hospital costs. We must eliminate government intervention in our daily lives."

Stenholm graduated from Tarleton State Junior College and received a M.S. in agricultural education from Texas Tech University. He has worked as a farmer, a teacher and a businessman. Active in church, civic and political affairs, much of his involvement has included local, state and national issues.

Netters Compete In Amarillo

By Doug Simpson
For the first time in five meetings, the successful FHS doubles combination of Zane Jones and Bobby Whitaker upset highly-touted Clint Oden and Donald Minor of Morton in the finals of the Amarillo Relays tennis tournament Friday and Saturday.

Jones and Whitaker defeated the pair of Indian netters by the margin of 6-4, 6-3, allowing the whirlwinds to tie for first place in the overall team standings with Morton and Lockney.

The victory marked the tenth consecutive match in which Whitaker and Jones have successfully triumphed and the second straight tournament, leaving them with an impressive record of 22 wins and 6 losses for the entire season.

In girls doubles, Lisa West and Valynnda Chandler fell to a pair of Nazareth players, eventual second place winners, in the third round of the tourney.

Jill Poage and Tracy Tyer met defeat in the quarterfinals also by a Nazareth duo that won the tournament.

Oscar Barrera was defeated in the third round by highly-regarded Howard Moore of Lockney.

A complete rundown of results will be published in Sunday's Hesperian.

Superintendents To Decide On 5-Girl Ruling

By Doug Simpson
Superintendents of schools from across the state of Texas will soon vote on the much-debated issue of whether girls' basketball should operate under the 5-member or 6-member ruling.

During April of 1977, the school superintendents had apparently made the decision to alter the present 6 girl ruling and switch to 5 person girls' basketball. The ruling had been approved by a margin of 26 votes.

But the group called for a second meeting because many schools that had not even participated in the girls' basketball program cast votes. Some schools involved in the program failed to even vote. This time around, a more accurate count of opinions is expected since only member schools will be allowed to vote on the issue.

Superintendent of schools, A. E. Baker cast his vote against the 5-girl ruling for two reasons.

"I am for the 6 girl ruling," Baker recently stated in an interview. "Six-member basketball is definitely a girls' game and identified as a girls' game. Secondly, I feel that this would give more girls the opportunity to play."

But what about the girls who may receive the opportunity to play college basketball and would benefit from the change?

"The girls' basketball program is not solely for the purpose of benefitting po-

ential scholarship players," Baker said. "The Scholarship is simply a fringe benefit."

Baker felt that more schools would cast their votes this year since more people are aware of the ruling.

Baker also was asked his opinion of how the 5-girl ruling, if passed, would affect Floydada basketball.

"I don't think there would be any affect on us, since we have the same chance as anyone else."

According to Rogers, those attending represent 30 PCAs and 6 agricultural credit corporations in Texas which obtain their loan funds from the FICB of Houston. make the analysis and have a satisfactory estimate, she suggests.

However, if the home was constructed before 1930, a professional appraisal may be needed.

If the insurance does not cover the replacement cost, the policy limits may need to be raised, or else, the homeowner must pay some of the replacement cost in event of a partial loss.

To keep pace with inflation, ask about the Inflation Guard Endorsement, which increases policy limits by a fixed percent--usually one or two percent quarterly--to assist in keeping coverage with construction costs, the specialist continues.

Also, personal possessions in the home may not be adequately covered. As a general rule, most household possessions are automatically insured for 40 to 50 percent of the coverage on the home.

As an extra safeguard, insure valuable possessions separately. These might include furs, special collections, paintings, silver, fine jewelry and certain musical instruments, she adds.

COLLEGE STATION--Property insurance needs an update to keep pace with inflation, says one family resource management specialist.

Most people have some form of insurance on their property, but few understand what their policies do and do not cover, Linda McCormack with the Texas Agricultural Extension Service, The Texas A&M University System, explains.

Since a family's largest and most important invest-

ment is usually the home, they need to insure it against the most common risks.

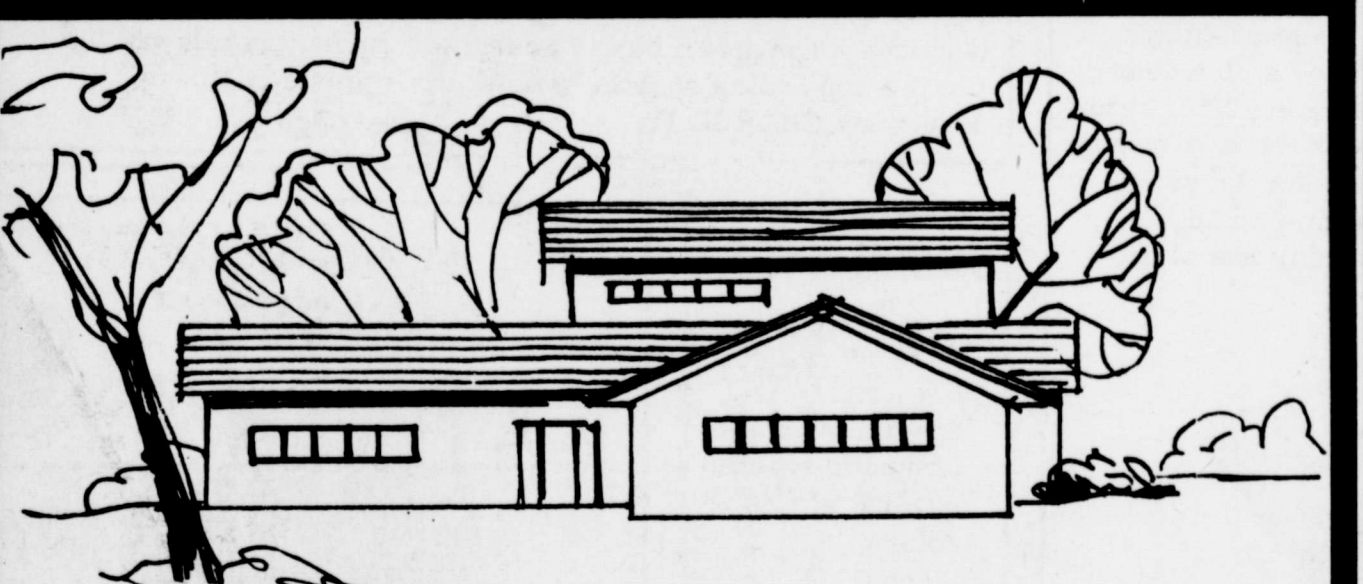

The amount of property insurance depends on the value of the home and household goods. Some policies require that the dwelling be insured for at least 80 percent of the home's replacement value.

To determine the home's replacement cost, contact an insurance company and ask for a dwelling evaluation worksheet. In most instances, the homeowner can

I ONCE KNEW A 67 YEAR OLD FARMER WHO OWNED A BIG HOUSE...

During the recent months of unrest by farmers and ranchers, a common observation by city dwellers has been "those farmers are not broke...look at those big houses they live in." Sure, some farmers do have nice homes...and many farmers' wives work as clerks, secretaries and school teachers to help pay for those houses.

Have you ever looked at the new homes in town? Do those who live in town have a God-given right to a nice home while farmers are supposed to live in one with four rooms and a path?

And check the age of occupants. Scores of new homes in town are owned by couples married 5 years or less. While many farmers have worked a lifetime to purchase a similar home.

One thing about a farmer...when he makes money he spends it...sometimes on a house, drapes, carpet or furniture...or other goods and services. And that helps all of us.

Agriculture is basic in Texas. America needs a strong Agriculture.

By Doug Simpson
With leading medalist Mitzi Hale at the helm, the FHS girls' golf team completed Monday's third round of district play at Abernathy leading by 19 strokes. The 4-AA tournament will

team still remains in strong position for a regional play-off berth (top teams compete in regional) and in contention for the top spot should the Whirlwinds stumble. Idalou finished the round in third followed by Abernathy, and Idalou's number two team.

Hale fired a 16-over par 88 total, while teammate Jayma Lewallen registered a 105 total score and hung on to the second medalist spot. Shonda Fulton shot a 118, followed by Melissa Hale with 126, and Lisa Welborn with 127. Single scores include Pam Lipham-109; LaDelle Noland-120; and Stayce Day-120.

Whirlwinds Dominate Tulia Relay

By Doug Simpson
Coach Linden Weese's varsity Whirlwinds tracksters amassed 102 total points and collected first place medals in a whopping five events, en route to the championship of the Hornets Relays last Friday at Tulia. The victory marked the second consecutive meet win for Weese and his FHS team.

In the field events, who else but Kim Curry and Paula Ratliff, an almost automatic point boosting combination, were the dominating names. Curry, with a 38 foot, 9 1/4-inch throw, captured first place, and Ratliff achieved the third spot. Ironically, Ratliff finished in the top spot in the discus throw, followed by Curry in third place. The result was a 32-point contribution by the pair.

Rosemary Barnes landed a first place in the long jump with a 34/23 and 3/4 performance. To finish out the firsts, Caren Campbell leaped 5 feet, 2-inches in the high jump for first place and Karen Turner, with a 17-0 effort, achieved the top position in the long jump. Barnes also netted a second place medal in the high jump.

The sprint relay team, composed of Beverly Coleman, Sylvia Coleman, Donnette Williams, and Carmen Coleman, achieved second place with 52.2 clocking. Sylvia Coleman notched third place in the 220 dash, and Williams crossed the tape in second in the 100-yard dash. Jaime Guest finished 2nd in the 80-yard low hurdles with a time of 11.4.

Coach Joe Paty's Whirlwinds notched fifth place in the track meet, scoring 57 points and capturing a total of 6 first, second, and third place medals. The sprint reliable relay foursome crossed the tape in second place behind Dimmitt with a time of 45.3. The 440-relay team is composed of Ricky Day, Marty Daniel, Greg Jones, and Junior Arredondo.

Whirlwinds Finish 5th At Tulia

By Doug Simpson
A sound and well-balanced effort by Lockney's Longhorns netted 91 and 1/2 points and the championship of the annual Tulia Relays Friday.

Day also notched a second place result in the 440, with a 51.9 clocking. Mac Collins and Paul Radloff of FHS placed 2nd and 3rd in the shot put, Collins outdistancing Radloff by 3 and one-fourth of an inch. Radloff also achieved a third place performance in the discus event, with a throw of 130 feet, 3/4 inches. Rusty Cagle landed the only first place medal of the day for the Whirlwinds with a 12-6 leap in the pole vault.

SOYBEAN DRILL DELIVERS ON TARGET

Accurately and Dependably

Adjustable To Match Your Conditions—The Tye Drill plants solid, narrow row, single row, and double row on a seed bed, in the furrow, or on flat land. It's easily adjustable for almost any combination of row spacings and tire lanes.

An internally fluted, adjustable meter dispenses the seed accurately and gently without cracking or grinding. The Tye double disc openers deliver the seed in front of the disc bearing, gently putting the seed on the bottom of the furrow where moisture is available, without seed scatter. Adjustable spring pressure helps hold openers at uniform planting depth. Gauge-wheel wheels attach to each individual opener to help control planting depth and firm the seed bed.

Hook up with a three point hitch for fast operation and ease of transport from field to field without drill damage.

Drills are available in four widths: 80", 160", 240", and 320". The Tye Drill accurately plants soybeans, wheat, rye, grain sorghum, milo, rice, barley, oats, winter forage, beans, alfalfa, safflower, field peas, cotton, millet, sunflowers, fescue, and baby lima beans.

F U Condemns Administration Farm Relief

WACO* Tx. - The Texas Farmers Union is terming Administration proposals for farm relief "inadequate to meet the dramatic needs of agriculture" and calling upon Texas House members and Senators to push forward with emergency legislation, mustering support to override a Presidential veto if necessary.

TFU President Jay Naman states that the provisions of the combined Talmadge-

McGovern-Dole now before a Senate-House conference committee offer some much needed relief for farmers caught in the continuing cycle of depression. The state farm leader, however says the Administration's plan avoids meaningful aid and its strategy offers "minimal net effect which is itself months down the road."

"Farmers would never have taken to the streets if they had not needed immediate, substantial improvements which would affect the current crop year," said Naman. "For many thousands of families 1978 will be their final chance to make it or bust. Certain Senators and Congressmen have realized this, but President Carter continues to promote a 'hang in there' approach which covers his entrenched policy to protect the budget regardless of the fate of the family farm. His programs are unacceptable.

Farmers Union has supported the Senate legislation as it contains possibilities for immediate improvement in 1978 farm income and has particularly heralded the adjustment in loan rates for major crops as "a step in the right direction of the very minimum in necessary protections."

The Administration announcement on March 29 for small payments to retire

very limited crop acres is expected to dull efforts of legislation which directs greater expense on larger acreage and also includes improvement in price supports. The threat of a Presidential veto over any action greater than the Administration plan will have a definite effect on the work of the conference committee as well as the final floor votes, especially in the House of Representatives.

"There is no question that the House-Senate conferees can work out an acceptable and meaningful compromise," Naman said. "The crucial thing is to retain the highest of the target and loan rates now provided in the Senate bill."

"While I do not wish to belittle the soybean loan increases to \$4.50 a bushel or the recent milk support increase, there is nothing in

Floydada Nursing Home Happenings

By Dorothy Neff
I'd like to thank Dartha for filling in for me last week so I could go visit my mother. I enjoyed the trip, but it's nice to be back home. Mrs. John Spears brought us two big boxes of puzzles, and lots of nice scraps I know the residents will enjoy working with the puzzles. The Easter basket that the Alpha Mu Delta Club sent for decoration was just beautiful, and everyone enjoyed it very much. We have two new residents. Jay Biggs and Winnie Long. Icy was a resident here several years back. She is in room two on the north hall. Winnie comes to us from Matador. She is in room four, on the north hall. If you know either of these ladies go by and visit with them. We took our first field trip of the year Wednesday afternoon. There were eight residents who enjoyed the trip. Hope Hammonds, Agnes Anderson, Victoria Asher, Dora Henderson, Anis Franks, Willie Stambough, Henry Love and Green Bostick. Tuesday, April 11 at one o'clock we will show a film "Neighbor" in the lobby of this home. Anyone interested in a volunteer program for this home and would like to take part is present. Tuesday, April 11 next noon buffet. Big winners in the Clara Williams Franks with three Ray Reed, Mrs. Pearl Carrick, Agnes Anderson, Henderson with the Thank to the Methodist Church Sunday for the treats. Our visitors include: Clay Anderson, Simeon Neff, El Paso, Patterson, Goodwin, Alex Alexander, Evelyn and Clara Lubbock, Mrs. Wood and Thaswood, Matador, Mrs. I. level of sunflower moth infestation. Sunflowers planted the first three weeks of May and blooming during mid-July experienced very low levels of infestation. Sunflowers planted during June and July had moderate levels of infestation during bloom in August and September. Regardless of planting date, fields should be in-

spected during bloom to see whether or not moths are present on the sunflower head. If moths are found, an insecticide should be applied when the field is at 20 percent bloom. A common mistake made by growers is waiting too long to make the first insecticide application. Several effective insecticides are registered for sunflower moth control.

Wheat Producers Urge Congressional Action On \$4.00 Wheat

Individual members of the Senate-House Conference Committee on an Emergency Farm Bill, scheduled to meet in Washington, Monday, April 3, were sent

telegrams today by Otis Harman, President of the Texas Wheat Producers Association, urging them to continue Congressional bipartisan efforts to strengthen farm income by passing

out workable farm program provisions. Such action would have the effect of over-riding a "too little, too late" announcement by the Carter Administration earlier this week, Harman said.

The Association urged the conferees to increase wheat target prices to "at least \$4.00 per bushels," up from the current \$3.00 level and to raise wheat loan rates from the current \$2.35 level to "at least \$3.00 per bushel." The organization further called for an increase in 1978 set-aside wheat acres to a level to reduce, not add to, carryover stocks.

Harman also urged the Congress to reject the Administration's request for lower release prices than on farmer-held stocks on 220 million bushels of wheat USDA intends to buy as an "Emergency International Reserve." Wheat producers oppose such a reserve on the basis that it is not warranted

since there is no International Wheat Agreement (efforts failed March 22 to obtain one) calling for the United States to assume such a dominant role in world stocks management. Officers of the National Association of Wheat Growers, including Winston Wilson of Quanah, will be in Washington working with the Senate and House office staffs and members of the Conference Committee when it begins announced sessions Monday, April 3, the Texas Wheat Producers Association President said.

The Organization is supported by individual producer membership from throughout the commercial wheat producing area of the State and has been instrumental in passage of the current farm bill, passed last August and the drafting of the Emergency Farm Bill provisions passed by the Senate just before the Easter recess, Harman said.

Toll Free Number For Parks And Wildlife Department

LUBBOCK--Have you always wanted to know where Dinosaur Valley State Park is located, or is there overnight camping at Caprock Canyons State Park near Quitaque? Well, a new WATS toll-free telephone line has been initiated by the Texas Parks and Wildlife Department and it is 1-800-252-9327. Most of the information about P&WD activities are answered by local game wardens, state offices, or other department personnel. However, there are times when the local P&WD representative is out of town

or busy and you need the information as quickly as possible. The above toll-free number is recommended for questions concerning department activities such as fishing, hunting, parks, water safety and hunter safety. Since the P&WD representative answering the toll-free number cannot answer every question, he will refer you to the various P&WD specialists in each division. If there is a local P&WD representative in your area, his or her name and phone number can be obtained by calling the Austin toll-free number 1-800-252-9327.

Spring is here and hopefully our cold weather has gone. With warm weather coming plants and pests alike are beginning to get active.

You can start this year's pest control with a delayed dormant spray before the leaves unfold on deciduous trees. Using an oil insecticide spray on ornamental and fruit trees will control many troublesome pests, such as scales, spider mites and some aphids.

You can apply a delayed dormant spray from the time leaf buds swell until some green tips start showing.

Before buying a dormant spray material read the label completely. Come by and we will help you with your spraying needs. See you at your Complete Farm Store.

LOCKNEY TEXAS

8 seek Burleson's seat in Congress

By GARTH JONES
Associated Press Writer

Eight West Texans want to fill the shoes of veteran Congressman Omar Burleson, D-Texas, a hard line conservative who has been elected 16 times from the 33 counties that make up the 17th Congressional District.

Four of them, three Democrats and one Republican, seem to be a step ahead of the others mainly because of successful fund raising but it's still an open race.

In addition to the hot May 6 race there apparently will be a June 3 runoff among the Democrats before a good contest in November.

A.L. "Dusty" Rhodes, 45, an Abilene attorney and millionaire, is among the Democratic front runners with his pledge to spend "whatever it takes" to win the seat. He was the first to announce his candidacy and claims his main concern is the ever-mounting problem of government interference. He blames inflation on wasteful government spending

and calls for a cutback in the federal "giveaway program."

Fike Godfrey, 54, Abilene rancher, was executive vice president and manager of the West Texas Chamber of Commerce and reported has the support of most oil men in the district, plus support from the Abilene business establishment. Godfrey, a Democrat, calls for stronger national defense and says farmers should be allowed to store their surplus crops under bond as an insurance against a crop failure in the future.

Charles W. Stenholm, 39, Stamford farmer and a former Democratic state committeeman, wants 100 percent parity for farmers in the marketplace. "Our problem is overproduction," he says. "We need a minimum of 25 percent set-aside of all major crops to bring production in line with demand." Stenholm, a Democrat, has made wide use of billboards and other media aids.

Republican Bill Fisher, 34-year-old Abilene attorney, grew up in Gladewater but moved to Abilene

in 1976, after earlier spending four years in college there. He became involved in President Ford's campaign and in 1977 became county GOP chairman. He favors deregulation of the oil and gas industry saying government regulation provides no incentive to seek alternative energy sources.

Democrat Jim Baum, 41, manager of a Big Spring radio station (KBYG), has a well-organized campaign and has been busy with door-to-door campaigning throughout the district. His answer to the economy problem is to cut out deficit spending. He agrees with most of his opponents on the energy problem — "The government has taken the incentive out of exploration. If our people don't look after the oil and gas industry, nobody else is," he said.

James Snowden, 56, Democrat, a product of Tye, just west of Abilene, has run mostly a one-man campaign. A retired federal civil service employee, he is now a city councilman and former Tye mayor.

He said his reason for going to Congress is to see some trends I see as being there." He is still for the B-1 bomber and thinks that defense comes first. He says oil and gas deregulation is a real estate broker in the area. McCulloch, a Democrat, said he decided to run for Congress while he was in the area. "Our Congress set the example," he said. He has spent four years in Vietnam as an asset, "one solely for Congress."

James Sharp, 26, Big Spring, is the youngest in the race. A former assistant director of the U.S. House, by appointment of Congressman Burleson

VA NEWS

If certain health problems prevented your beginning or completing your education under the GI Bill, a new law may make it possible for you to turn back the clock and enroll again, VA Regional Director, Jack Coker, has announced.

The new program is available to veterans, spouses or surviving spouses whose eligibility for GI Bill education benefits expired on June 1, 1976, or later, but who had not used all their schooling entitlement when mental or physical disability interfered with their training.

The disability must not have resulted from the individual's willful misconduct, Coker emphasized. He cautioned potential applicants they must provide medical evidence that mental illness or physical disability was responsible for their being unable to begin or complete schooling before the expiration of their GI Bill eligibility.

Under the law, veterans have ten years from the date

PERSONALS

Mr. and Mrs. Walter Hollums. 4-6c

I appreciate each vote I received in the School Board Election Saturday. I am also grateful for the friends and neighbors who supported my campaign. I am determined to be worthy of the trust which has been placed in me.

It is my intention to promote responsible tax management; being constantly aware that it is taxpayer's money and it should be spent in a business like manner. It is also my desire to work with teachers, students and parents for a quality education with just consideration for each individual.

Thank you very much.
