

Welcome Rain Just In Time For Rowcrop Planting

Over in Roy, New Mexico, where it was dry as a bone, 17 inches of snow was received...and it was still snowing Wednesday morning.

Here in Floyd County many farmers had already planted some rowcrops, but most of the planting was yet to come.

Henry Hinton at Dougherty received 1.2, McCoy Gin reported two inches, Barwise Elevator two inches, Jack McIntosh east of Floydada 1.15, Crosby County 1.60.

The rains were still falling in parts of the county Wednesday afternoon. Most reports across the county ranged from 1.5 to 2.5 inches.

At both Sterley and Lone Star, "about two inches" were reported. Ronnie Thornton measured 1.6" at his place in the Providence community, and at the Aco Seed farm near Aiken, the total was 1.12". At Muney, 1.75" fell.

community reported 2 1/2 inches of rain and "a twister or something" at about 8:30 Tuesday morning which pulled a barn from its concrete foundation and left the building upside down in a field 10 to 15 yards from the foundation.

Citizens Vote In Primaries Saturday

Local Races Insure Large Turn-Out

HOSPITAL'S NEW AMBULANCE...is displayed by (l to r) driver Joe Garza, EMT nurses Jean Jarrett, Shirley and Molly Stringer.

There are around 4800 registered voters in Floyd County and it's anybody's guess how many will take time to vote in the Democratic and Republican Primaries, Saturday, May 6.

The complete ballot is published for the voter's convenience in this edition and covers everything from Governor to Justice of the Peace offices. It is a large ballot because it also includes propositions on loans with higher interest rates and pari-mutual wagering.

BAND DIRECTOR RUSTY SHERMAN congratulates Kelly Turner, recipient of the coveted "John Phillips Sousa" award Saturday night during the annual band banquet held in Duncan Cafeterium.

Candidates Give Views

to give the voter more information on the candidates for judge and commissioner the following questionnaire:

1. How do you think this money should be spent?
 4. How do you rank the importance of these needs? Jailhouse, Library, Agriculture office building.

6. If you are running for re-election to your office, what have you accomplished for the progress of Floyd County since you have been in office?
 7. Do you think revenue money should be spent for road grading equipment...or should this expense come from tax money?

Another barometer of a big voter turn-out is the extra large absentee ballot count of 153 when absentee voting deadline Tuesday night arrived.

FHS Band Members Honored With Annual Banquet

FHS Senior Kelly Turner captured the coveted "John Phillips Sousa" award Saturday night in Duncan Cafeterium, scene of the annual band banquet honoring Whirlwind musicians and twirlers.

Suzanne Dyess was recognized as the "Outstanding Junior," and Jett Cheek was honored as the "Outstanding Sophomore."

Settlers Want Canopy For Slab

The Old Settlers Association has decided a canopy is needed over the slab on the south side of the square to keep the sun and rain off the activities for the annual event.

Estimate of cost for the canopy is between \$3,000 and \$4,000. The need was discussed in a meeting of the group Friday night at the Farm Bureau office.

Parade prizes include \$20 for best Pioneer float, \$10 second, \$5 third. The best commercial float will receive \$15, second \$10 and third \$5. The best club float will receive \$20, second \$10 and third \$5.

The totals should begin coming in about 8 p.m. Only the governor, county judge, county sheriff, commissioner for precinct 4 races will be posted.

Baseball Tryouts

All 15 and 16-year olds who will not reach the age of 17 by August 1 are encouraged to attend baseball tryouts today, Thursday, May 4, at 7 p.m. at Mrs. C.O. Woody, spokesperson for the tryouts said that more are needed to sign up for this year's summer baseball program because of the relatively small number of participants in 1977.

Tammie Chesshir received the "Director's Award." Band president Sheldon Sue welcomed the large crowd that had come to witness the "Willie Wonka and the Chocolate Factory" setting and Terry Wilson gave the invocation.

President of the Association Aldine Williams presided and the group discussed many aspects of making the May 27th event a very successful one.

There will be another shoot out at 3:30 and 4:15, and the square dancers begin at 4:30.

If unable to attend, participants should call C. O. Woody after 5:30 p.m. at 983-2950.

FHS Thinclads, Netters Earn Regional Placings

By Doug Simpson
 In spite of dominance by more experienced and top-seeded teams, FHS fared well in last weekend's regional tennis and track meets on the campus of Texas Tech.

Five individuals brought home placings from the meet, including Zane Jones and Bobby Whitaker's 4th place victory in doubles tennis and a trio of Whirlwind thinclads.

Whitaker and Jones were defeated on the following day in the match for third place.

AT PIGGLY WIGGLY REMODELING GRAND OPENING Monday morning were (l to r) Mayor Parnell Powell, Travis Cobb, Art Freeberg, store manager Donnie Galloway, Chamber of Commerce President Fred Thayer and Mr. Pigg.

The twirlers were recognized by sponsor Jaine Synatzske. The program consisted partially of a comic routine by Turner and Calvin Dick. Also presented were the concert-winning tape performed at contest recently at Dimmitt and the film from the marching contest in Lubbock.

Kitchen Shower Honors Miss Kristie Ford

Miss Kristie Ford, bride elect of Brad Tooley of Floydada, was the honoree at a kitchen shower given in the Jack Frizzell home on Friday evening April 21st. Mrs. Jimmy Glen of Edmondson and Miss Joy Frizzell were co-hostesses.

Games were played before guests were served from a table covered with a blue bandana cloth. Refreshments consisted of cookies, sandwiches, cheese balls, nuts and lemonade. Serving pieces were blue enameled dishes. The centerpiece was a tea kettle filled with yellow daisies, baby's breath and greenery. A similar arrangement in a blue enameled pitcher was on the registration table, which also had "Life's Recipe" on an easel.

Corsages made of hand crafted flowers and dainty miniature kitchen utensils were presented to Miss Ford and mothers of the betrothed couple, Mrs. Jerry Ford of Lockney and Mrs. W. M. Tooley of Floydada. Other special guests were Miss Ford's grandmothers Mrs. Coszette Parker of Wellington, Mrs. Raz Ford of Lockney and her great grandmother Mrs. Pearl Parker of Lubbock.

Others calling during the evening were:

Misses Janis Marr, Dorothy Welch, Patsy Burt, Lara Smith, Kay Tannahill, Teresa Duvall, Cindy Frizzell, Denise Johnson, Deneen Johnson, Karen Ford, Heather Holt, Kelly Ford, and Wendy Tooley. Mmes. Kenneth Holt, Jack Frizzell, Tonya Marble, Rick Bixler, and Buck Ford.

Miss Ford and Tooley will exchange wedding vows June 24 in the First United Methodist Church of Lockney.

ENGAGEMENT ANNOUNCED...Mr. and Mrs. Richard Sudduth of Crosbyton announce the engagement and forthcoming marriage of their daughter, Richie Lynn to Kelton Dee Gowens, son of Mr. and Mrs. Donnell Gowens of Floydada. The couple plans a July 15 wedding.

Donnette Marble Texann Of Year

Donnette Marble was recipient of three awards last Thursday night at the annual awards assembly at South Plains College, Levelland. She was chosen as TexAnn of the Year by the South Plains College faculty and named Outstanding Student by the Business Administration.

Donette was also named to Who's Who at South Plains College. She could not receive her awards in person as she was in Waco to play in the All-Star basketball game sponsored by the Waco Chamber of Commerce.

Her parents, Mr. and Mrs. Don Marble, of South Plains, attended the Assembly and reception at Levelland and also attended the game at Waco on Friday night. Donette is the granddaughter of Mrs. Nita Holland of Lockney.

Mrs. Carol Bell First Lady Of The Year

Floydada Chapter of Beta Sigma Phi, Alpha Mu Delta, announce that Mrs. Carol Bell has been chosen as "First Lady Of The Year in Floydada. She was chosen by a secret panel of judges.

A reception will be held at the Wall Street annex of the First Baptist Church on May 14, from 3:30 to 5:00 p.m. at which time Mrs. Bell will be awarded a certificate of recognition by Mrs. Kay Powell, president of Alpha Mu Delta.

Mrs. Bell is employed by Floydada Independent School District as a Junior High School history teacher. She is a member of Iota Tau Chapter of Delta Kappa Gamma, professional organization for teachers. She organized and sponsored Junior Historians at Floydada Junior School and helped conduct student interviews with early Floyd County settlers and descendants on the history of Floyd County for a tape library. Active in Floyd County Museum Historical Association, the American Heritage Association and Regional History Fair, Mrs. Bell is an outstanding Floyd County woman and "First Lady of the Year".

TO WED IN AUGUST...Mr. and Mrs. Newell Burk announce the engagement and approaching marriage of their daughter, Nannette, to Leslie Soto son of Mr. and Mrs. Tony Soto. Both families reside in Floydada. Miss Burk and Soto are planning an August wedding and will make their home in Plainview, attending Wayland Baptist College. Soto is on a track scholarship. Miss Burk is employed by Newell Burk CPA in Floydada.

what to do to look "perfect". They play up their figure assets and play down their flaws through careful choice of cloths and accessories.

A figure expert passes along these tips: For women with large bosom choose V, oval and square necklines. The simple style top is less revealing in non clingy fabrics. Balance top heaviness by wearing skirts with some fullness or attention-getting details such as large pockets. Avoid high or fussy necklines. For the women with small bosoms try lighter colored tops with darker skirts or pants, wrap blouses, dresses or smock tops. Those with narrow shoulders (some say sholders) should wear dresses or tops that emphasize width at the shoulder line (wing collars, boat necklines, extended shoulders); bodices with some fullness. A short necked person should wear v-neckline top and dresses

are best. Avoid the turtle-necks, high collars, chokers or scarves at the neck. The wide hipped person looks better in a dress or top that attracts the eye upward. Balance the figure with tops that add width. Pants should be cut from a natural waistline on non-cling fabrics. Don't wear hip-length tops or skirts that are too full or tight.

Pants and longer skirts are a good disguise for heavy legs. Keep fashion interest above the waist and wear simple shoes with enough bulk to balance the leg. Hosiery should match or blend with skirt or dress. If you are short waisted look for the easy-cut dress and separates because top and bottom size may not be the same. Beltless styles are good. If you must wear a belt make sure it is a narrow one. The person with the thick middle and too much tummy should wear the unfitted empire style, tents and tunics. Don't wear tight fitted skirts or those with trim or which buttons down the center front.

Most of us save plastic containers with lids for one purpose or the other and find the labels on the lids are stubborn to remove. Try placing the lids in the freezer for about 15 minutes and the labels will peel off easily.

will be the fiftieth consecutive year the Plainview Business and Professional Women's Club has sponsored this event. The theme chosen is "Echoes of Gold." The first celebration took place March 14, 1929 in the City Auditorium in Plainview when Mrs. Adella Drew served as president. Miss Judy Smith, the current president of the Plainview BPW Club, stated all activities this year will be held in the Hale County Agriculture Center.

The reception beginning at 10:00 a.m. at the Hale County Agriculture Center in Plainview, is a big feature and is a time when the real "old timers" get together to reminisce and exchange stories of the past. Mrs. Bula McGowen, chairman of this committee and her assistants are expecting many pioneers from near and afar to arrive soon after 10:00.

One of the few remaining parades in Plainview will be staged at 2:30 p.m. originating at the Santa Fe Depot on north Broadway. Those participating are asked to be on hand by 2:00 p.m. Parade will move south on Broadway to the American Legion Hall where it will disband.

Durward Lynch will be parade marshal. The color guard will also head the parade and the Plainview bands will march. Some floats have already been entered and Miss Lou Ella Scarborough, chairman of the parade committee, stated additional floats are welcome on that date. Antique cars, riding clubs, and miscellaneous riders are some of the other attractions scheduled for the parade. Winners will be announced at the night program.

The Concessions and Country Store will be open all day at the Hale County Agriculture Center and Mrs. Verne Shields and Mrs. Doris Henderson are the Chairmen. Sandwiches, pies and cakes will be available at lunch time. Also a bake sale will be included. A special item this year will be a drawing of a handmade quilt by Mrs. Laura Hayes. All proceeds from this drawing go to the Scholarship Fund given by the Plainview BPW Club to a Plainview High School senior girl.

The evening activities will also be held in the Hale

County Agriculture Center. From 6:00 to 8:00 p.m. the chuck wagon supper will be served. "Take out" plates will also be available. The meal will consist of son-of-a-gun, barbecue, sour dough biscuits and all the trimmings. Mrs. Ruth Renegar, a chairman of the Foods Committee, gives assurance that plenty of food is being planned for and that this year the members of the BPW Club will prepare the food and assist in the cooking. The club members will "rock the beans" on Thursday afternoon with the cooking beginning early Saturday morning.

The program, chaired by Mrs. Jan Tye, will begin at 8:00 p.m. and will feature Plainview performers Keith Longbotham and Paul Newberry, entertaining with songs and music of past years.

To highlight the evening's activities, the reigning Pioneer Woman of the Plains, Mrs. Minnie Locke, Plainview, will relinquish her title to the new honoree. Prizes will be awarded to the couple who have been married the longest, the oldest pioneer present and to the pioneer (over 60) traveling the farthest distance to attend the Round-Up.

The square dance will conclude the Pioneer Round-Up again this year. Mrs. Helen Pemberton, chairman of the committee, has announced that Sid Perkins of Amarillo, will be the caller. She stated that all who like to square dance, waltz, polka and participate in other couple dances are invited to do so. The Agriculture Center is air conditioned and will be comfortable for dancing from 9:00 p.m. until 12:00 midnight.

Tickets, adults \$3.00 and children, 12 years of age and under, \$2.00 (tax included) includes the supper, program and square dance, and may be purchased from any member of the Plainview BPW Club or secured at the door. Miss Mildred Tucker is ticket chairman. People of all ages are most welcome and are cordially invited to attend and help make this 50th Pioneer Round-Up of May 6th the best yet.

Other committees appointed to help carry out activities during the Pioneer Round-Up are as follows: Registration, Ola Stark; Serving, Betty Veal; Door, Wilma Courtney; Club Float, Dorothy Morton; and Publicity, Jo Ann Clements.

Tom Landry Agrees To Gambling In Texas

DALLAS-Dallas Cowboy Tom Landry said Sunday that legalization of gambling in Texas would damage professional sports in the state.

"Every one of the professional sports commissioners, including Pete Roselle of the National Football League, oppose gambling," Landry said. "It has a tendency to influence players, officials, coaches and fans, just as it does jockeys, veterinarians, trainers, horse owners and race fans where pari-mutuel gambling is legal."

"The NFL," he said, "strictly prohibits association with any gamblers—legal or illegal—or any betting on football games. Association gives gamblers an edge and more opportunity for manipulation," he said.

"My major problem with legalized gambling," added the coach of the Superbowl champion Cowboys, "is that it puts a sanction on gambling. I believe the majority of people who watch professional sports are not gamblers, but whenever you legalize gambling in one area,

such as horse racing, fans tend to go to other sports."

He said, "The emotional energy outcome of gambling and the reaction about defeat or point in an area of people who are normally gamblers." "It affects the observation of the right thing to do had image to Texas fans legalization of gambling in a dum.

LETTER TO THE EDITOR

As an E.M.T. and nurse with Caprock Hospital District, I would like to express my sincere appreciation to all those who supported and backed the purchase of our new ambulance. I especially want to thank the city and county, Board of Directors and those who made donations to the ambulance fund.

I think it would be correct to say that this speaks for all E.M.S. personnel that we feel you have made our job easier, and if one life can be saved it is well worth it.

It is our sincere hope that the citizens will utilize the services of Caprock Hospital District so that we may have a medical facility that we can all be proud of. If you need emergency service or ambulance service call 983-2875.

Thank you again Floydada for coming through in our time of need.

Angie Alfaro, a senior at Floydada High School, has been selected as Home Economics Cooperative Education employee of the week. This is Angie's second year in H.E.C.E.

Angie is employed at Dairy Queen. Her training sponsor is Mouri Crovitz.

Angie has been a member of F.T.A. for three years, served as reporter in F.H.A. her freshman year, and was 1st runner-up for homecoming queen her junior year.

Angie plans to go to Lamesa, Texas after graduation and would like to become a teacher's aid.

One for the people.

As Chairman of the State Insurance Board, Joe Christie slashed proposed insurance rate increases by more than \$500 million and he shocked the politicians by asking the Legislature to reduce the Board's budget.

His opponent, who has only lived in Texas 11 months out of the last 19 years, is the hand-picked candidate of Big Oil, and he votes their way every time no matter what effect it has on Texans' utility bills or the skyrocketing rate of inflation.

A State Income Tax. A Hangman's Noose For Texas.

If you think taxes are choking you now, consider the possibility of a State income tax. It would be a noose around your neck. Around the neck of every Texan. And around the future of Texas.

A vote for John Hill is a vote for:

- bigger government.
- more government spending.
- more inflation.

AND FOR A STATE INCOME TAX.

A vote for Dolph Briscoe is a vote for:

- fiscal responsibility
- less — not more — government.
- continued economic growth.

AND FOR NO NEW TAXES.

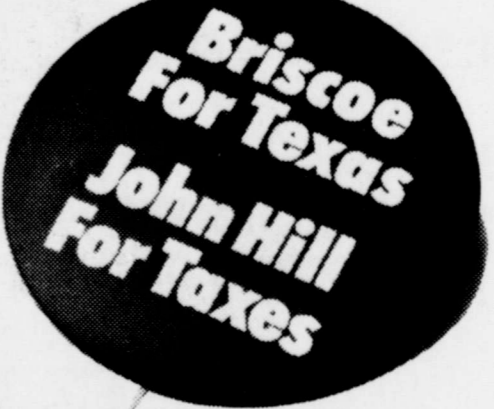

- We don't need New York-style government in Texas.
- We don't need Washington-style bureaucracy in Texas.
- And we don't need a big spending liberal activist as Governor of Texas.

LET'S KEEP DOLPH BRISCOE AS OUR GOVERNOR.

"We are already footing the bill for run-away government in Washington. As Texans we should not have to foot the bill for run-away government in Austin.

"I don't think Texas should spend itself into a state income tax. That is exactly what will happen if Mr. Hill fulfills only some of his political promises."

Classroom On Wheels

Health care personnel in 40 West Texas counties will be going to school in a classroom on wheels when they enroll in Continuing Education courses offered by the University of Texas at El Paso College of Nursing.

The College, which has been offering Continuing Education in the region since 1974, received the custom-built vehicle April 27. It is 33 feet long and 14 feet wide, seats 16 students, and is equipped with the latest audiovisual and other teaching helps. It even has a small library.

"In the past we have held classes in dayrooms, dining halls, and wherever space was available," explained Sister Aloysius Williams, director of Continuing Education. "This sometimes inconvenienced patients or staff members who ordinarily used those rooms. Now we do not have to inconvenience anyone and our classroom has everything we need."

That includes a dummy "patient" in a bed in the rear of the vehicle.

Nurses in rural areas, said Nursing Dean Eileen Jacobi, ordinarily cannot leave their posts to attend programs offered in El Paso or elsewhere. "The nurse in a rural area must be professionally quite versatile," she added, "functioning in many capacities and in various departments within a health care institution—operating and delivery rooms, emergency room, giving medications, supervising others, and so on."

Through the Continuing Education program, person-

nel employed at health care institutions are taught how to render improved patient care. They are taught new techniques and are kept abreast of changes and progress in medicine and nursing home.

The 40-county area served by the College of Nursing covers 69,000 square miles, extending from El Paso to

the Big Bend on the south and to Cottle County in the northeast. In the region are 124 health institutions of which 82 are in isolated areas. Ten of the counties have neither a hospital nor a nursing home.

A. B. Templeton, president of the UT El Paso, extended special thanks to State Senators Tati Santie-

steban of El Paso and W. E. "Pete" Snelson of Midland, for their work in the Legislature to bring the classroom-on-wheels to a reality. "The area served by Senators Santiesteban and Snelson forms a large part of the area served by this program," Dr. Templeton said. "We at UT El Paso cannot adequately thank

them for the hard work they put into this mobile classroom and with the strong nursing staff we have in our College of Nursing, I have no doubt whatever that we will be doing a great job in the 40 counties we will be serving."

The College of Nursing has three faculty members who are primarily involved in Continuing Education, but all 32 faculty members are committed to participate in the program both in El Paso and in the rural region. They have various areas of expertise such as coronary care, burn care, and infection control.

"We also have national resources to provide expertise in many subject

Wool Production Declines in '77

AUSTIN--Texas wool production in 1977 fell to 21 million pounds, the smallest clip in 58 years, Agriculture Commissioner Reagan V. Brown has announced.

"Figures from the Texas Crop and Livestock Reporting Service show that 2,930,000 sheep and lambs were shorn during 1977, down five percent from 1976," Brown said. "This was also the smallest number clipped since 1919."

"The average price of 82 cents per pound is the highest since 1973, when wool averaged 88 cents," Brown said. "However, the U.S. Department of Agriculture estimates the parity price for wool to be \$1.43 per pound, well above what Texas producers received."

Worried About Lack Of Military Strength

backed up with the power, militarily, to protect it from all who would take it from us. Our best attack weapon is freedom, internationally and individually. We must set our national priorities straight, and recognize the fact. Once we do, we can cut wasteful administration of our military procurement and planning, and create a national will to protect our freedom from a position of

strength. It is about time that someone chastized the legislators of our country for pushing aside the business of safeguarding the principles founded on freedom, individual liberty and the rule of peace. Someone has to be the spark to ignite and carry through with results regarding our defense posture. After elected to the United States Congress from the 17th Congressional

District, I intend to be that spark." A staunch advocate of a strong national defense, Rhodes served during the Korean conflict as a member of the U. S. Navy. He currently is a member of the Military Affairs committee of the Abilene Chamber of Commerce. The Abilene Democrat is seeking to replace the retiring U. S. Representative, Omar Burleson of Anson.

Don't Be Fooled By Phony Landscape, Plant Experts

AUSTIN--With the approach of spring, many Texas homeowners may become unsuspecting targets of bogus "landscape experts" and "fly-by-night" plant salesmen known to be operating in the state, Agriculture Commissioner Reagan V. Brown has warned.

Agriculture office. The Department licenses all legitimate Texas nurseries under a program to control pests and diseases in the state, he noted.

including single and double blooms. Dahlias prefer deep, fertile, well-drained soil in a sunny location. For large blooms, space plants 3 to 4 feet apart and allow only one stalk per root to develop.

DAHLIAS ARE IDEAL FLOWERS—The dahlia is the ideal flower for the gardener or home landscaper, contends a landscape horticulturist with the Texas Agricultural Extension Service. It grows vigorously, is relatively free of insects and diseases, and comes in a variety of colors and sizes,

FLOYD DATA Barry Stansell is reported to be up and around after sustaining a broken ankle last Thursday. Stansell was digging up a flower bed when he accidentally stepped in a hole, falling on his left leg. He came home Sunday from Lubbock Methodist Hospital.

John Hill Opposes State Income Tax

When he announced for Governor, Attorney General John Hill said that he would oppose — and would veto — a state income tax or any other new tax bill. He has repeated that pledge many times since. Anyone who says that Hill would support a state income tax is just trying to mislead the public.

As Attorney General, John Hill cleaned up political corruption in Duval County, sued the phone company to stop an increase in rates and worked for a national energy policy that would be fair to Texas.

As Governor, John Hill will use the state's budget surplus to reduce property taxes and to help pay more of the cost of our public schools. There will be no state income tax and no other new taxes if Hill is elected Governor.

Floydada Nursing Home Happenings

By Dorothy Neff
Monday was a fun day. We played some new games, bowling and broom relay. Some of the ladies cut out quilt blocks. We also had several playing dominoes.

Hope Hammonds had a nice surprise Monday, her son Jim from California came for a visit.

Agnes Anderson came home from the hospital Tuesday. We're proud to see her up and about the place again.

Tuesday night everyone enjoyed singing by Art and gang.

Wednesday was field trip time and Bernice Knight, Robbie Bratton, Florence Badgett, Molly Jones, Anis Franks and I went to Plainview to inspect the new shopping center. T.G.&Y. had just what Anis needed "rug yarn." Everyone enjoyed the trip. However we missed having a bus load.

Mrs. Anis Franks has a granddaughter! Carra Sue Franks arrived April 23,

weighing 6 lbs. 4 ozs. Carra Sue has twin brothers six years old.

Thursday was bingo day. Agnes Anderson, Clara Williamson, Pearl Carrick, Anis Franks and Victoria Asher won two games each. Molly Jones and Dora Henderson won one game each.

Since May is Nursing Home Month, we will not have our noon buffet. There will be a meeting Wednesday, May 3 at 11:00 in the lobby of this home for our volunteer program. Officers will be elected at this time. So we urge everyone interested to be present.

We would like to thank each of these visitors:

Survey Reveals Most Texas Gasoline Pumps Are Accurate

AUSTIN—An average of 93 Texas motorists out of every 100 have been getting an accurate measure of gasoline at the state's pumps, according to a two-month survey by the Texas Department of Agriculture, Commissioner Reagan V. Brown has announced.

"The other seven motorists were purchasing from 'haywire' pumps that might be giving too much or too little gas or actually 'burping air' into the tank along with the gasoline," Brown noted.

The pump inspections conducted by Texas Department of Agriculture field men included 24,385 devices in 74 Texas cities, Brown said. A total of 1,643 pumps were condemned for

repairs. Some 730 were delivering a short measure and 548 were dispensing too much gas, he said. Some 365 were rejected for other causes.

"All inaccurate pumps are immediately locked down and condemned for repairs," Brown said. "We find some instances of deliberate fraud, but most violations are the result of careless maintenance. Essentially, our inspection program is not a police action to ferret out criminals, but a service to see that equity prevails in all commercial transactions."

He added that anyone suspecting that a pump is not accurate should call the Department. Weights and Measures inspectors will check the pump at once.

The insecticides Bolstar, Ambush, Pounce, and Pydrin, previously unregistered, were granted emergency registration last year because of severe bollworm infestations in certain areas of the state, Brown said.

Because of uncompleted research on the longevity of these insecticides, no other crops except cotton may be planted in these fields.

"It is necessary for persons who buy, use or supervise the use of Environmental Protection Agency restricted pesticides to be certified by the Texas Department of Agriculture," Brown said. "Anyone not certified will be unable to buy these pesticides."

Information on training may be obtained from your nearest Texas Department of Agriculture district office or from your local county agent. Cities with TDA district offices include: Lubbock, San Antonio, Pharr, Odessa, Dallas, Tyler, Fort Worth, Houston, Beaumont, Brenham and Corpus Christi.

Brown Notes Cotton Crop Restrictions

AUSTIN—Agriculture Commissioner Reagan V. Brown cautions all farmers who applied insecticides under emergency permits to cotton last season that cotton is the only crop that can be grown on the land this year.

Licensed for Use Of Pesticides? Time Is Short

AUSTIN—Agriculture Commissioner Reagan V. Brown reminds farmers, ranchers and others engaged in the use of pesticides that certification should be completed before chemicals on the restricted list reach dealer's shelves.

BOATING: Reduces Deaths

Coast Guard Approved Life Jacket

Mishawaka, Ind. — (PWS) — The nation's 53 million boaters and the Coast Guard have reason to be glad. For the past several years, the rate of boating mishap fatalities has declined steadily.

Based on the latest statistics, the number of fatalities for every 100,000 boats used in the U.S. has dropped from 20 to 14 in ten years. Although the Coast Guard credits the public for having a better boating safety education, the public also must commend the Coast Guard for two giant steps it recently took to help keep us alive on the waters.

Prior to 1973 when the amended Federal Boat Safety Act took effect, some smaller boats, such as canoes and kayaks, were not required by law to have a life preserver on board. Now, all boats — from rafts, canoes and sailboats to yachts and steamships — must carry the right preserver for the right person if the waterway is under Coast Guard jurisdiction.

New Styles
The second development is in the life preservers themselves. New styles of personal flotation devices have been Coast Guard approved. These are more attractive, durable and easier to use. While most with regulations to carry a life preserver are not available, they are not available, they are not available, they are not available.

These improvements encourage personal life jackets and thus, help of boating more.

New Loans Set
AUSTIN—Texas farmers may now obtain Commodity Credit Corporation (CCC) loans to build high-moisture forage and silage structures and to remodel existing structures.

Stenholm Discusses Three Major Issues In Congressional Race

Stenholm, Democrat for the 17th District, is expected to be the candidate of the May 6 primary for the citizens of the county area the issues which he has chosen to discuss are definitely a difference in the candidates in this race," Stenholm told people as he visited with them. "It is always easier to agree with all groups, to be all things to all people; but we simply cannot continue to promise more and more of everything to everybody." Stenholm was referring to three issues which "must be brought into focus; issues on which I want people to understand clearly how I stand," he said.

"I believe strongly in quality education, but more federal money is not the answer," he stated. Seven questions were asked all the candidates on the Texas State Teachers Association evaluation published in the April issue of TEXAS OUTLOOK magazine. Stenholm disagreed with the other candidates on two of the issues.

Number One—More federal aid to education. Stenholm's answer was, "No." Explaining his reasoning, he said, "We do not need an arbitrary level of minimum federal participation in our local schools. I think we need less federal involvement in all areas of our daily lives. If we are to have federal funds, they should flow as directly as possible to the local school district with a minimum of federal control."

Number Two—Separate Department of Education. Stenholm again answered, "No." He explained, "We cannot afford another federal bureaucracy. The need for funds at the local level for all purposes is too great to permit any additional loss of tax revenue at the Washington level. Due to the rural nature of the 17th District, we would have difficulty meeting the criteria of an urban dominated Department of Education."

Number Three—Inflation. Stenholm advocates balancing the budget and reducing bureaucracy as the best way to fight inflation. He proposes a "Sunset Law" similar to the one Texas now has. Under such a law, each federal agency, such as OSHA and EPA, would be required to periodically justify its existence. He suggested a review every five years.

Commenting further on balancing the federal budget and reducing bureaucracy, Stenholm stated that he had not promised to open an office anywhere, as one candidate had. "In my opinion, this would violate the spirit of the law which forbids offering any enticement to any individual in return for their support. I have promised to bring the office of the Congressman to all the District in the most economical way feasible. We do not need additional Congressional staff people working directly in cultivating and locating industries," he explained.

"I can visualize real problems with staff people getting involved when several towns in the District are

in direct competition for a new industry. Congress can do most by creating an environment favorable to business, and leave the industrial prospecting to regional and individual chambers of commerce and industrial foundations. Once a project is underway, the Congressman can expedite the decisions to be made by governmental departments and regulatory agencies," explained Stenholm.

"We must establish clear priorities," he continued. Stenholm noted the growing concern about our posture in world affairs. "After all, our domestic internal problems become insignificant if we do not command respect among world powers and remain number one in military strength. The fiasco over the Panama Canal has brought this sharply into focus," Stenholm stated.

"We must be strong and stand up for American interests world-wide. I support a strong Air Force, Navy and Army, second to none. If the neutron bomb is in anyone's arsenal, I want it to be ours," he added. "There are many good arguments for many good programs. The question is whether we can afford all of these things. All programs must be studied carefully and many eliminated," continued Stenholm. "If we are to control inflation."

The 39-year-old Stamford resident was born and reared on a farm in Jones County in the 17th District, a farm on which he is the third generation Stenholm to work. In addition he has experience as a teacher, businessman, church and civic leader as well as political experience which has led him to state and national involvement.

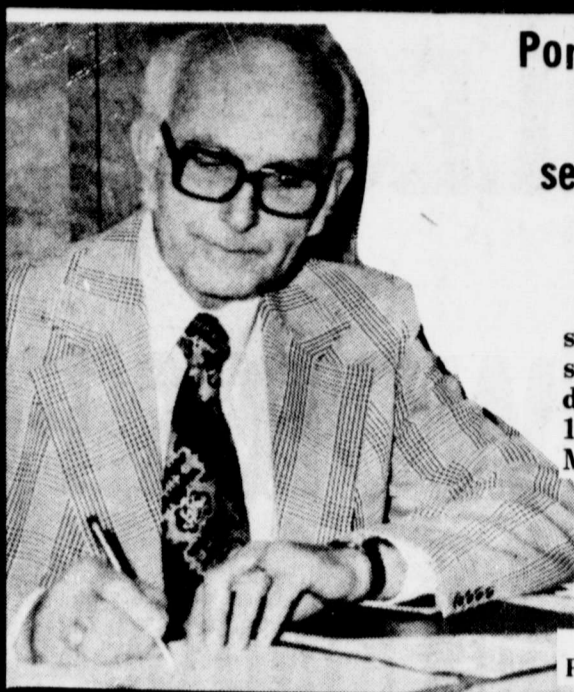

Stenholm tells everyone he meets that he is "asking that the people of the 17th District give me a two year contract to serve you in Washington. If at the end of two years, I have not fulfilled your expectations, I would expect you to work as hard for my defeat as I am asking you to help me today."

"Let's Keep The Government (At All Levels) Out Of The Cattle Business"

SAYS **FOSTER WHALEY** Democratic Candidate For State Representative

MATURITY OF JUDGMENT A PROVEN RECORD OF ACCOMPLISHMENTS

FOSTER WHALEY as County Agricultural Agent used his boots on a couple of bureaucrats; one tried to close down a cotton gin, the other tried to sell compulsory soil and water conservation to the local soil conservation district.

FOSTER WHALEY was the first to alert Texas' major farm organizations of this statewide effort. He wrote the resolution for his local farm organization's opposing compulsory soil and water conservation.

IN THE PEN ABOVE, Foster Whaley hedged the first cattle ever hedged in Gray County, and among the first ever hedged south of the Canadian River. He then taught this technique to thousands of feedlot managers, cattle feeders, farmers and 4-H members. Many 4-H members attended college on profits they earned from his help.

FOSTER WHALEY, as State Representative, will continue to boot any bureaucrat in State Government who gets over zealous in regulating our industries, organizations and agriculture.

The Floyd Philosopher Takes Look At Inflation And Makes Some Woe-Begone Predictions

Editor's note: The Floyd Philosopher on his Johnson grass farm takes a look at inflation this week.

Dear editor: According to several recent polls, inflation is the Number One problem in the U.S. or at least it's the one more people worry about. Actually the Number One problem may be something else, like something we're eating and scientists haven't had time yet to find out it's bad-for us, although you know they're working on it.

At any rate, the newspapers I've been reading reveal that inflation is not confined to just Floydada and the rest of the country, it's world-wide. For example, the rate of inflation in Argentina is now 60 per cent a year. It was double that but the Economy minister shortened the yardstick it was being measured by. We could use that guy in Washington. He has discovered a handy device to improve a bad situation, like reducing crime by eliminating burglary laws, like reducing speeding violations by increasing the speed

limit, by purifying Congress by abolishing South Korea.

I don't know what the exact rate of inflation is in the U.S. this week, but last week when I paid \$1.30 for a 15 cent tractor bolt I knew it was still holding its own, and I got to thinking.

If inflation is world-wide and things keep going up and up to where a medium-size car costs \$100,000 and an average new home costs \$100,000, not to mention groceries, clothes, utilities, education, tractors, movies, speedboats, Congressmen and other essentials, then of course wages, salaries, and other earnings will have to go up too.

The only answer of course is to tie all earnings to the Cost of Living Index. The higher things go, the more you get paid.

Thus in a few years despite the fact the average income will be about \$50,000 a year, everybody will have to be on welfare to get by.

Yours faithfully,
J.A.

Louie took a plane back to Utah the same day but Mary Lou remained for a longer stay here to attend to the affairs in the estate of the late Mrs. C. A. Caffee.

Lee Burton took his mother, Mrs. C.W. Burton to Lubbock Monday afternoon

for her checkup. She got a good report from her doctor. Mr. and Mrs. Bill Beedy came home Thursday from their ranch near Claude where they spent a week with their son, Charles. While there they worked cattle.

Ag Exports Mean Much To Texas

COLLEGE STATION-If the large volume of agricultural products being shipped overseas should suddenly come to a halt, both Texas and the nation's economy would suffer severely.

Dr. Carl Anderson, marketing economist with the Texas Agricultural Extension Service, notes that overseas sales of agricultural products generate employment and income as well as boost capital investment.

"Texas is one of the leading states in farm exports, ranking fourth last year with an estimated export sales volume of \$1.76 billion," points out Anderson.

"This represented 27 percent of all cash receipts from farm and ranch marketings in the state. Texas led the nation in shipments of cotton, cottonseed and animal fats, was second in rice, hides and skins, and third in peanuts, nuts and meats other than poultry."

The economist emphasizes that the total volume of agricultural exports in 1977 contributed roughly \$3.5 billion to the Texas economy.

Farm exports from Texas in 1976 totaled \$1.55 billion. On a national scale, Anderson says that overseas sales of farm products totaled \$24 billion during 1977.

Exports accounted for production from some 100 million acres of cropland, or about 30 percent of the total acreage harvested. Western and Europe and Japan absorbed 52 percent of all U. S. farm export sales.

"It is estimated that U. S. farm exports support well over a million fulltime civilian jobs, and the added business stemming from agricultural exports is about equal to the value of the products shipped abroad," adds Anderson.

"Agriculture makes up about a fifth of all U. S. exports and contributes significantly to the U. S. merchandise trade balance. Due to soaring costs of imported oil, the U. S. nonagricultural merchandise trade balance has shown huge deficits in recent years. Even with agricultural exports exceeding agricultural imports by about \$10 billion the past year, the U. S. trade deficit plunged from \$9.3 billion in 1976 to \$31.4 billion last year."

What's the outlook for continued high levels of farm exports?

Anderson believes that shipments may reach a record volume of 110 million tons in 1978 but that the total value of farm exports will be down to about \$22.5 billion due to lower prices. Exports of wheat, feedgrains and soybeans should increase while the volume of cotton moving overseas should remain steady.

And an active farm export policy must continue, he contends.

"Without a high volume of farm exports, American farmers would reduce pro-

duction either by private action in response to low prices or under public policy designed to control production.

During the past year exports accounted for the disappearance of about two-thirds of the rice crop, more than half of the wheat harvest, about a third of the cotton and soybeans, and more than a fourth of the sorghum and corn crops.

"Yes, farm exports are vital to both the American farmer and this nation," argues Anderson. "They help the farmer make a living while at the same time boosting the economy and footing the bill for much of the oil brought into this country."

Jerry Chappell of Duncan, Oklahoma, was hurt in a fall from a pickup a week ago Saturday, and spent some time in the hospital in Duncan. Jerry is the husband of Darla Milton, daughter of Mr. and Mrs. Grisby Milton of here. We hope by now he is doing well.

Mrs. Frank McClure, who has been in Central Plains Hospital for six weeks, was taken to the home of her daughter, Mrs. Jean McClure in Plainview, where she and Mr. McClure will reside for some time until she is able to return to her home in South Plains. We are glad to know she is doing well.

AG EXPORTS—Agricultural exports mean much to both Texas and the nation because they generate employment and income as well as boost capital investment, points out an economist with the Texas Agricultural Extension Service. Texas was the fourth leading state in farm exports last year, with a sales volume of about \$1.76 billion. This contributed \$3.5 billion to the Texas economy. Nationally, farm export sales totaled about \$24 billion in 1977.

ACCIDENT CONTROL—When applying pesticides, the Texas Agricultural Extension Service recommends these safety procedures: check the operating condition of application equipment; apply according to the label; clean the equipment after use, wash up and change clothes; properly dispose of empty containers; and store leftover chemicals in original containers under lock and key.

4-Hers Capture Top District Honors In Lubbock

Floyd County 4-Hers captured top district honors in Lubbock Saturday, and the right to enter state competi-

tion at 4-H Roundup June 5-7 in College Station.

About 500 4-H youth competed in the one day event which included 30 method demonstration contests. Awards were presented in the auditorium of Coronado High School.

Senior division teams qualifying for State Roundup were: Dawn Daniel and Darlene Broseh in Dairy; Jody Foster, John Fortenberry, Byron Brock, Kevin Turner, Timmy Cooper, Ty Williams, Ronee Thornton, Stephanie Turner, Rise Taylor, and Mona Henderson in Share-the-Fun; and Jill Whitfill, who placed third in Family Life Education, narrowly missing State.

Junior Division teams from Floyd County won numerous top honors. The teams placed as follows: In Agronomy, Heather Holt and Monty Teeter took first place. In Family Life Education, Sherese Cannon, Stephanie Bybee, Tiffany Duvall, Rusty Teeter, and Jeff Bayley took first place. Kim Carthel and Jerri Ann McCormick placed first in Family Resource Management, and Shawndra Bybee and Crissy Carthel placed first in Farm and Ranch Management. Other first place awards went to Earl Broseh and Ritchie Thornton in Home Environment Education, Lisa Terrell and Matt Mitchell in Horticulture Production and Marketing, and to Shonda Brock and Libby

Williams in Pork Demonstration.

Larry Tannahill took a second place award in Mechanical Hand Skills, and Karlyn Foster and Dane Daniels placed second in Safety. The Junior Division teams do not compete past the District level.

Mrs. Linda Terrell served

as project leader and coach for these 4-Hers. The 4-H members have represented their county and local 4-H clubs very well in stiff competition. Already, two rounds of district competition have been staged. The 4-H Food Show was last November, and Judging contests were two weeks ago

(April 15). Winners from those events will join this Saturday's winners as this district's delegation to Texas as 4-H Roundup.

Texas Doesn't Need a Governor Who Says "No New Taxes"...

Texas Needs a Governor Who Will Reduce Taxes!

Texas Needs Preston Smith.

Texans have paid too much in taxes! For the last six years Texas has been operating with a tax surplus that has skyrocketed to more than 2 Billion dollars.

It's easy for other candidates to say "no new taxes" when they have been taking more money out of your pocket than is needed to run your state government.

You've been overcharged!
Preston Smith will reduce taxes.

- Preston Smith will reduce Texas schools!
- Preston Smith will reduce a state energy program!
- Preston Smith will reduce agriculture in Texas!
- Preston Smith will reduce the rising crime rate!

Preston Smith will take pride in state government!

Texas Needs Preston Smith

(Paid for by the Committee to Elect Preston Smith Governor, Preston Smith-Treasurer, Suite 301, Stephen F. Austin High School, 701 Congress, Austin, Texas 78701)

Speir Says Pari-Mutual Gambling Will Increase Problems

AUSTIN--Col. Wilson Speir, director of the Texas Department of Public Safety in Austin, joined a growing number of state law enforcement officials who believe legalizing pari-mutuel gambling would increase organized crime and decrease Texans' quality of life.

"I personally feel that such legalization (of pari-mutuel betting) would cause more problems for our people than it would solve. I believe that legalization of one type of gambling would not discourage other illegal gambling. I simply feel it would increase our crime problem," Speir said, emphasizing this as his personal opinion and that he is not speaking for the Department of Public Safety.

Law enforcement officials fear organized crime would increase with legalized pari-mutuel betting. Although organized crime is currently in Texas, the legalized betting would make organized crime's efforts more profitable.

Carol Vance of Houston, district attorney, Harris County, said, "What we really need are stronger state laws to help us combat organized crime...not legalized gambling which would bring more of the wrong element into Texas."

Jim Bowmer, a Temple attorney, said illegal gambling would increase because placing bets with bookmakers would yield more money than the racetracks. The bookmaker gives a credit, pays no taxes and gives higher odds. According to Bowmer, the bookmaker is often connected with a national "mob." He believes placing a bet with an off-track bookmaker by telephone will increase organized crime.

Law enforcement officials point out that other states have legal pari-mutuel betting and their experience

hasn't been good. These states had increased organized crime and government corruption.

Ed Joyce, former chief of the organized crime section, U.S. Department of Justice, told a Texas legislative committee in 1977 that organized crime increases with legalized pari-mutuel betting.

Pro-gambling groups claim Texas would get tax revenue if pari-mutuel betting was legalized. The state, however, will spend money to police the community, R. E. Coons, former Sherman county attorney, Texoma, Texas, said.

"Pari-mutuel gambling is deceptive in that it really causes more law enforcement expense than the profits it creates," he said. No amount of policing can keep organized crime from increasing in Texas if pari-mutuel betting is legalized, Bowmer said, because Texans don't have the type of police force to cope with a new problem. If the state adds to the problems, then it will add to the expense, and money will be spent to police the community, he said.

Bowmer believes Texas needs to spend money on current criminal problems instead of creating a new problem.

Nationally, the average tax revenue from legalized gambling is only six-tenths (.6) of a percent of a state's budget. Statistics show that states surrounding Texas which have pari-mutuel betting receive less than one percent of their revenue from gambling. That doesn't include money spent policing the racetracks and the cost of the bureaucratic machinery needed to run gambling.

Will Wilson, Austin attorney and former Texas attorney general, said legalized pari-mutuel gambling is a parasite, which feeds on the economic and moral fiber of

the state.

"It (pari-mutuel betting) doesn't add anything economically. The expenses and problems that come with it take away from it what it gains," he said.

E. L. McClendon Jr., Polk county attorney, believes corruption at all levels accompanies gambling. As a result, family members would be affected.

"It seems that gambling and corruption go hand and hand," he said. "Many innocent people are hurt because of gambling of all types."

Bowmer believes the quality of life would decrease if pari-mutuel betting was legalized because people would lose money at the racetrack and not have necessities. When gambling was legal in Texas in the 1930's, merchants had difficulty collecting bills, he said.

Gary Price, district attorney, Brownwood, said, "All Texans will lose one way or the other, particularly children of the working man."

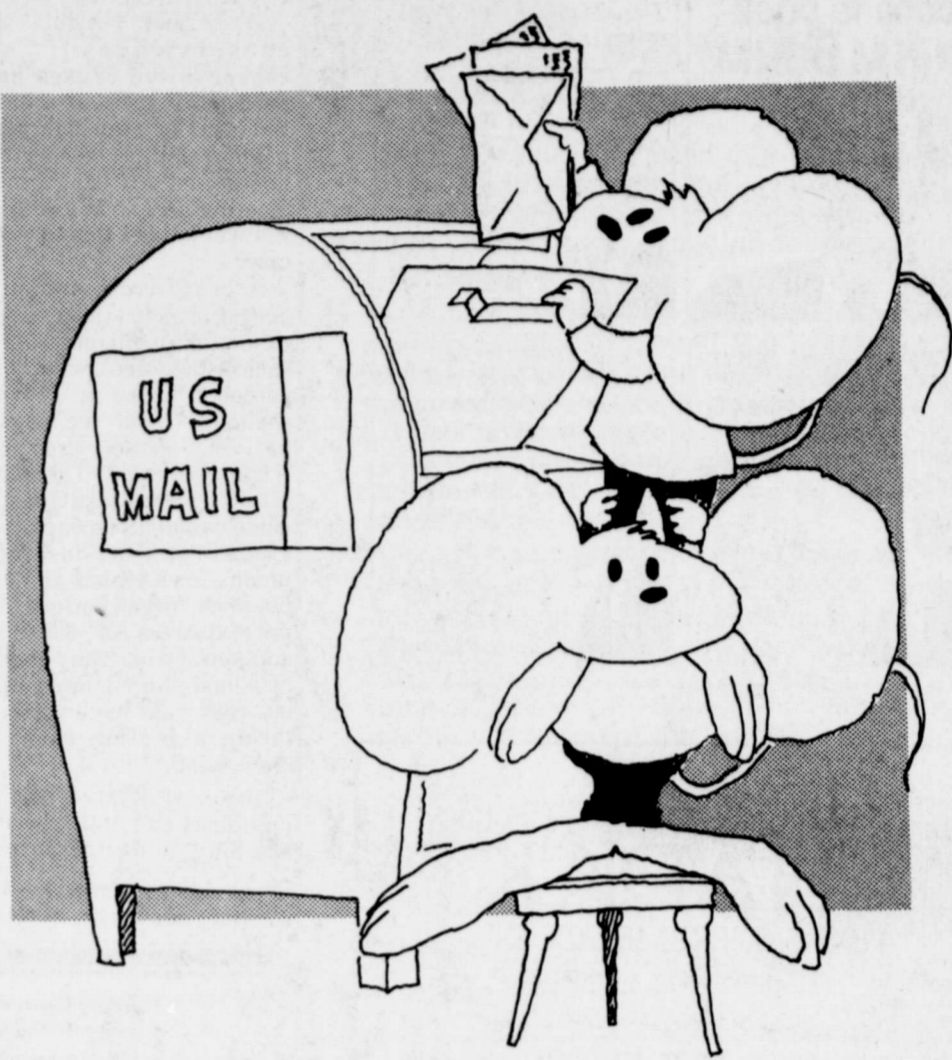

Former Texas Gov. Jimmie Allred's widow, who lived during the days of legalized horserace gambling in Texas, urges Texans "to heed the hard experience of the past."

Mrs. Joe Betsy Allred, 72, of Wichita Falls, said her husband worked successfully for the repeal of pari-mutuel gambling in 1937 "because it created racketeering, economic hardship and damage to families."

"I lived in Texas during those days," Mrs. Allred said. "I felt then that pari-mutuel gambling hurt the people of Texas, and I still feel that way."

Mrs. Allred said, "Only a small part of those promised revenues were actually realized by the state" and resulted in her husband urging the legislature in 1935 to repeal pari-mutuel gambling.

As It Looks From Here

Omar Burleson, M. C. 17th District, Texas WASHINGTON, D. C. — It is just possible that conservatives and conservative causes have been more successful in the last year or two than many might think. It seems that liberal and left wing groups meeting here in Washington last week think this to be the case.

A broad cross section of liberal organizations agreed to join in an alliance to help each other meet what they perceive to be a growing challenge from the conservatives, whom they call "right wingers." The participating organizations include women's groups, religious organizations, labor unions, civil rights and civil liberties organizations, representatives of consumer and politicians. They reportedly had the common opinion that "we have all been taking a beating from the right wing."

The new alliance will set up offices and staffs here in Washington for the purpose of providing a clearing house for the exchange of infor-

ation on the activities of conservative groups and what they can do around the Country to counteract their influence.

The alliance, according to reports, will set up regional and local seminars and workshops to promote liberal causes, and will put interested groups in contact with speakers and experts to promote their views. The new alliance adopted no formal name as yet, although the scant reports on the meeting have been calling it the "Interchange."

A representative from Wisconsin was quoted as saying that the liberal groups represented "had only recently come to appreciate the nature and extent of the threat from the new right." The spokesman, a Midge Miller, said she had been campaigning for the women's equal rights amendment and was disturbed by the efficiency and financing of the right wing opposition.

The "right wing" has identified with such organizations as the National Right to Work Committee, Young Americans for Freedom, Americans Against Union Control of Government, Organized Opposition to the Panama Canal Treaties, and other organizations which

the liberals consider to be ultra-conservative. In addition to the equal rights amendment and abortion issues, other policies on which the conservatives have had an impact are consumer protection legislation, labor law reform, anti-gun control, spending on social programs, defense preparedness and many others.

Among the groups represented in the meeting in Washington a few days ago were the AFL-CIO, the National Organization for Women, the National Women's Political Caucus, the National Council of Churches, the National Education Association, the National Consumer's League, Congress Watch, and the American Civil Liberties Union. Many of these groups, if not all, pledge money and other resources, including personnel, to work in behalf of the new alliance. The Country will probably be hearing from this new activity in the future.

The fact that these liberal-radical people are concerned at the conservative influence is no big comfort but it does give some encouragement that the trends of the last several years may be slowing.

the BRISCOE record

☆ Dolph Briscoe became governor a little more than five years ago, and soon thereafter, the Texas Boom began. During the Briscoe years, the income of the average Texan has risen 52 percent.

☆ Before coming to office, Governor Briscoe promised improved Government services without a penny's increase in the taxes Texans pay. It was a promise he had the know-how and skill to keep.

without raising taxes,
Governor Briscoe increased public school spending by \$3 Billion. The result: improved vocational, technical and bi-lingual education.

without raising taxes,
Governor Briscoe found the money to expand programs for the aged by 200 percent.

without raising taxes,
Governor Briscoe was able to increase medical education funding by 250 percent.

without raising taxes,
Governor Briscoe increased the amount of money devoted to the care of the mentally ill and retarded by 174 percent.

without raising taxes,
even the Texas gasoline tax — which is still the lowest in the Nation — Governor Briscoe funded the first long-range highway program in the State in 22 years.

without raising taxes,
Governor Briscoe established a comprehensive anti-crime program aimed at violent, habitual criminals.

☆ The Governor's record is a reflection of Dolph Briscoe's philosophy of government, which is built around a central, unshakeable tenet: Government's job is to serve citizens without intruding unduly into their lives and pocketbooks.

President Speaks Against Gambling

April 27—More than 100 ministers at a meeting at Bishop's in Dallas were told that legalized gambling hurts the inner city.

Dr. Allen, pastor of the 9,000-member First Baptist Church in the heart of downtown San Antonio, spoke at the 48th annual Lacy Kirk Williams Ministers Institute.

Those of us who pastor in the center of cities know that every kind of profiteer is trying to leech on the people," he said. "The Black community is beset with many forms of this greed, but none is more despicable than the wealthy playboy profiteer who seeks to increase the value of gambling by making it legal.

Where Will The Republicans Vote?

According to an announcement by John Farris there will be two voting boxes in the county for the May 6 Primary.

Albert Scheele will be conducting the election at Junior High School in Lockney and David Battey Jr. in the county agriculture building on the southeast corner of the square in Floydada.

Q-I used my home loan eligibility shortly after World War II and recently sold that home. Can I use my VA loan guaranty again to buy another home now?

A-If your previous loan has been paid in full, you are eligible for another VA loan guaranty.

Q-Is there any kind of VA education or training available for veterans who have serious service-connected disabilities and whose termination dates have passed?

Q-Congress has eliminated termination dates under the VA vocational rehabilitation program for veterans with serious service-connected disability who need education or training to obtain suitable work. Under the VA vocational rehabilitation program, the VA pays for tuition and other training costs, and the veteran receives a monthly living allowance during training.

Q-I was disabled in WWII and the VA gave me \$1600 toward the purchase of an automobile in 1949. Now that this allowance has been increased to \$3300, am I entitled to the difference on another car?

A-No. But the VA may assist in providing or maintaining adaptive equipment on your present or future cars. Adaptive equipment

tempted to hope for the big win. The numbers racket flourishes in our center cities. Bookies are easily available. Every effort needs to be exerted to shut away the attempt to glamorize gambling.

The SBC president told the Black ministers that gambling answers no basic need except the recreation of the rich.

"I hope you'll encourage your people to vote against legalized gambling in our state," he said.

will not be provided a claimant for more than one conveyance at a time and for not more than three conveyances in a two-year period.

Education assistance allowances for eligible veterans pursuing education at institutions outside the United States is exactly the same as for veterans pursuing education at institutions in the U.S., Jack Coker, Director of the VA Regional Office in Waco, says.

However, an eligible veteran may not pursue a program of education at an educational institution located outside the United States unless such program is "pursued at an approved educational institution of higher learning."

That is the criterion set down in Chapter 34, Title 38 of the U.S. Code. Title 38 also gives the Administrator of Veterans Affairs the discretionary power to deny or discontinue educational assistance under Chapter 34, if the Administrator finds that enrollment in a foreign institution is not in the best interest of the student or the U.S. government.

In order to avoid unnecessary delays in receiving educational assistance, a veteran desiring to attend a foreign institution should first determine if the specific course in which he is interested has been approved by the VA.

A dollar earned is a dollar saved...

As State Treasurer, Warren G. Harding has increased earnings from the investment of state funds. These earnings represent savings to Texans by reducing the need for tax increases.

- \$1.8 billion in state funds invested in interest bearing accounts in over 1,300 Texas banks
- 90.4 percent of available funds invested at the end of March—the highest monthly average in Texas history
- 24 percent increase in earnings from October through March compared to same period in the previous year
- \$126 million estimated interest earnings for Texas this year—highest in history of state.
- More than 25 years experience as Dallas County Treasurer. Past President, National Association of County Treasurers & Finance Officers. Recipient of Outstanding Treasurer's Award of the United States.
