# 4800 Registered Voters In Floyd County...How Many Will Vote?

## Your Vote Is Important!

...will be primary elec-  
For many offices it will  
election day as the  
will not face any other  
in the November gen-  
...will be an important  
you as a citizen. As an  
citizen you will be  
your vote to continue

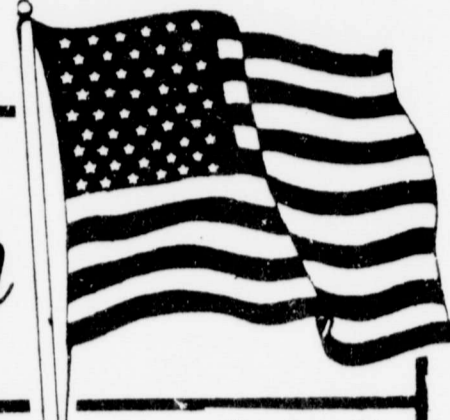

every one of those freedoms for  
which so many people you never  
knew have given their blood,  
sweat, tears and their lives to  
preserve for you.  
How important is one vote?  
Well, in 1645, one vote gave  
Oliver Cromwell control over  
England.  
In 1649, one vote caused

Charles I of England to be  
executed.  
In 1776, one vote gave America  
the English language instead of  
German.  
In 1839, one vote elected Mar-  
cus Morton Governor of Massa-  
chusetts.  
In 1845, one vote brought Texas  
into the Union.

In 1868, one vote saved Presi-  
dent Andrew Johnson from im-  
peachment.  
In 1876, one vote changed  
France from a Monarchy to a  
Republic.  
In 1876, one vote gave Ruther-  
ford B. Hayes the Presidency of  
the United States.  
In 1923, one vote gave Adolph

Hitler leadership of the Nazi  
Party.  
And in 1941, one vote saved  
Selective Service—just 12 weeks  
before Pearl Harbor.  
A wise man once said, "Liberty  
means responsibility—this is why  
men dread it."  
Do you dread it? Or do you  
consider liberty your responsi-

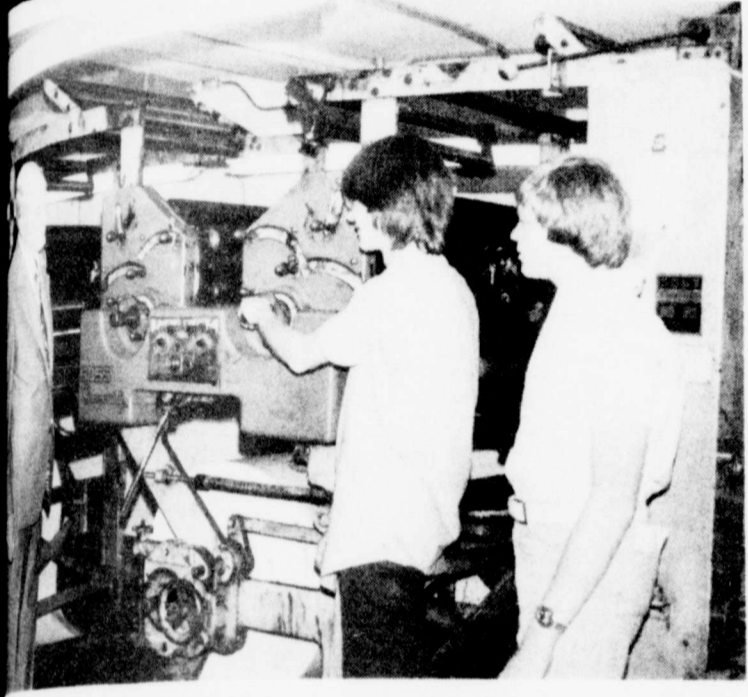

lity—to be preserved where it  
counts most: in the ballot box?  
Is one vote all that important?  
You bet your free life it is!  
YES, YOUR VOTE IS VERY  
IMPORTANT.

## Floyd Economy Gets \$1 1/2 Million Boost

Floyd County's economy received a  
welcome boost this week with the  
mailing of approximately \$1 1/2 million  
in agricultural payments to some 1,222  
producers by the local ASCS (Agricultural  
Stabilization and Conservation  
Service).  
"This money represents payments  
we are making to farmers under the  
1971 Agricultural Act for their 1977  
plantings," Tom Moore, manager of  
A.S.C.S. explained.

The 30-year ASCS veteran, who has  
been manager here for 24 years, said  
the payments will definitely boost  
Floyd County's economy, with most of  
the money staying in the county, even  
in the case of the absentee owners who  
received checks.  
"Those landlords who don't live here  
will still spend a lot of their payments  
with Floydada vendors when they buy  
underground tile, improve their water-  
ways, and make other improvements,"  
Moore explained.

Asked what amounts the payments  
ran to Floyd County farmers and  
absentee owners, Moore noted that  
"the checks ran from literally a few  
dollars to a high of \$20,000, the maxium  
we are allowed to pay by law. The 1,222  
checks averaged about \$1,227 each,"  
Moore added.

Floyd County farmers are now  
signing up for the 1978 crop year under  
the 1977 Agricultural Act. Under this  
program farmers can elect to divert  
their plantings (plant less) or plant  
fence to fence, in the case of cotton or  
soybeans, but not for feed grains or  
wheat, Moore said.

## Deputy Corners Bootleggers After a High Speed Chase

A high speed chase in excess of 100  
miles per hour ended Friday morning  
with the arrest of two Floydada  
residents by Deputy Sheriff James  
Hale after the pair was caught with  
a considerable quantity of beer and  
some liquor in their car.

Hale said he finally caught the two  
men, after a six-mile chase, at a private  
residence two miles west of Muncy. A  
search of the car revealed 15 cases of  
Coors beer, a case of another brand of  
beer, and approximately one-half gal-  
lon of Segrams VO whiskey.

Charges are pending against the  
pair, Hale said.

SIXTEEN CASES OF BEER and  
a large bottle of whiskey confis-  
cated Friday morning after a 100  
mph plus automobile chase over  
six miles of highway.  
(Staff Photo)

## Dinner Concert Sunday

The Floydada Band Boosters will  
sponsor a Sunday salad dinner at  
Floydada High School cafeteria on May  
7th prior to the Floydada Band Spring  
Concert. The serving line will open at  
11:30 a.m. and remain open until 1:30  
p.m.

The concert will start at 2:00 and last  
until around 3:30 with the 6th grade  
beginner band, the Junior High Breez-  
er Band, the High School Stage Band,  
and the award winning sweepstakes  
High School Band all performing.  
Cost of the salad dinner will be \$1.00  
for students and \$2.00 for adults.  
Proceeds from the dinner will be used  
to help purchase the new band uni-  
forms for the high school band. The  
new uniforms have already been or-  
dered and expected to arrive prior to  
the opening of school next fall. The  
public is invited to attend both the  
dinner and the admission-free concert.

ONE MORE TIME.....BE SURE  
TO VOTE SATURDAY.....

## Anne Jones Enjoys Rodeo Hobby

Anne Jones, wife of Joe Jones, enjoys  
an unusual hobby of participat-  
ing in local and area rodeos. Just  
recently she was named "Best All  
Round Cowgirl" at the Texas Tech  
Intramural rodeo and she has partici-  
pated in some good size rodeos at San  
Angelo and Pecos.  
She won the barrel race at Pecos.  
Anne knew when she married Joe  
that they would enjoy the hobby  
together...and now they often partici-  
pate in team roping events.  
Anne has a new roping horse that  
she is training and used in the Tech  
Rodeo. His name is Baldy. At the time  
of their marriage she owned a very  
valuable roping horse by the name of  
"Hesa Easy".  
Anne comes by her hobby naturally  
as she was reared (raised) on a ranch at

Ozona, Texas.  
At the Tech rodeo, which was open  
to students and exes, Joe, her husband,  
could not participate because he has  
the Texas A & M "brand". This did not  
stop Anne from participating in team  
roping as she roped with Monroe  
Shannon of Lockney, George Quisen-  
berry of Floydada, Wayne Dende of  
Petersburg and Bob Schulte of Nazari-  
eth.  
In order to win the "Best Cowgirl"  
title she participated in barrel racing,  
breakaway roping and team roping.  
Her best time in the goat roping was  
10.03 seconds.  
Joe and Anne live on the home  
place where Mr. and Mrs. Tate Jones  
lived east of Floydada before moving to  
town.  
only boned, chilled meat.

## Sales Tax Rep. In Floydada Thursday

AUSTIN—State Comptroller Bob  
Bullock announced he is sending a  
representative from his Lubbock office  
to Floydada on Thursday, May 11th to  
assist local taxpayers and answer  
questions about state taxes.

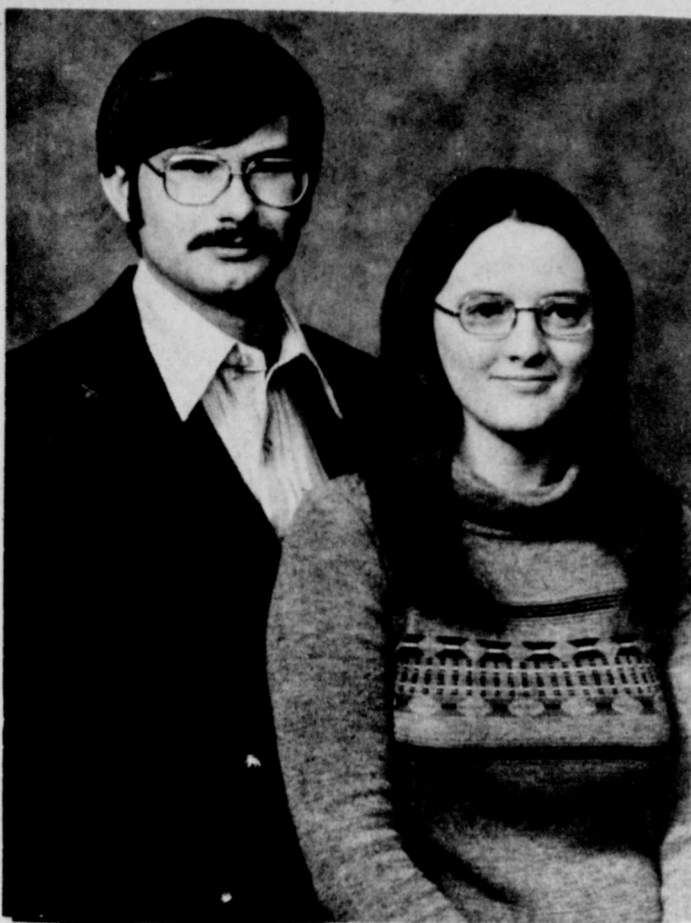

will be there to assist them," Bullock  
said.  
"We're trying to cut the red tape in  
this office and we believe these  
face-to-face sessions with taxpayers  
help do just that," Bullock added.

Bullock said Enforcement Officer  
Benito Rocha will meet with local  
taxpayers at the Floydada Court  
House, Room 103 from 10 a.m. to 12  
p.m.

Bullock reminded those taxpayers  
who are unable to meet with his  
representative on May 11th that they  
can still get their questions answered  
quickly by calling his TOLL-FREE tax  
information number in Austin. That  
number is 1-800-252-5555.  
The Lubbock office, headed by  
Donald F. Paxton, serves Lubbock and  
surrounding counties.

ANN TILMAN - Tr. Tech.  
ANNE JONES on "Hesa Easy".

MR. AND MRS. DONALD HEUN of West Point, Neb., have announced the engagement of their daughter, Joan, to Stephen Hendrix, son of Mr. and Mrs. Bill Hendrix of Floydada. The couple plans to be married July 22 in the First Baptist Church of Floydada. A 1975 graduate of West Point High School, Miss Heun is now employed by the sheriff's office at Amarillo. After graduation from Floydada High School in 1971, Hendrix attended South Plains College at Levelland, where he majored in law enforcement. He is currently employed by Hereford Police Department.

**FLOYD DATA**  
Gracie Riggles is returning to Hayes, South Dakota with her son to live. She has been in the Heritage Home in Plainview for some time.

**Luncheon Honors Tolya Hickerson**

Tolya Hickerson, salutatorian of the 1978 graduating class of Floydada High School, was honored with a luncheon Saturday in the Gold Room of Hemphill Wells. Mrs. Connie Bearden hosted the event.

Serving tables held pink roses with place cards, and bisque china roses and vases were plate favors.

Attending were special guests, Mrs. Mack Hickerson, mother of the honoree, and her grandmothers, Mrs. Buck Hickerson of Floydada and Mrs. V. H. Kellison of Lockney.

Other guests included Kelly Ann Hagood, Jill Probasco, Lisa West, Carla Burselson, Julie Hickerson, Stacey Smith and Shelley Bearden.

**The Very Newest**

Mr. and Mrs. Dan Smith welcomed their first child, a daughter, Saturday.

Tikka Melan was born at 7 p.m. Saturday in Central Plains General Hospital, Plainview. She weighed 9 1/2 lbs. at birth.

Mrs. Smith is the former Reeda Cay Lawson, daughter of Mr. and Mrs. Reed Lawson of Lone Star.

Paternal grandparents are Mr. and Mrs. Bryan Smith of Sterley, and Mrs. R. W. Smith of Lockney is the baby's only great-grandparents.

medical treatment in Lubbock Methodist Hospital.

**Jan Mize Named Outstanding Junior Clubwoman Of TFWC**

Jan Mize, a member of Athena Junior Study Club of Lockney, has been named outstanding junior clubwoman of Texas State Federation of Women's Clubs for 1978.

Mrs. Mize received the award April 27 during the TFWC State Convention banquet at the Sheraton Inn in Austin.

She has held every local club office except president. Two years ago, she was district arts chairman, and for the past two years, she

has been state arts chairman. To win the outstanding clubwoman award, women must have held offices at the local, district and state levels.

Athena president Sandra Turley said in her nomination of Mrs. Mize for the award: "While putting her family first, she was able to accomplish her many club work achievements."

Mrs. Mize and Mrs. Turley from Lockney attended the state convention April 27.

**Green Thumb News**

The Green Thumb workers of Floyd Co. are only a few among the more than 1,000 senior citizens who are employed by Green Thumb in Texas.

Allen Rendon is foreman of the mens crew who work in Floyd County. They are busy winterizing houses for the elderly, low income citizens of Floyd County.

All the Green Thumb employers in Floyd County will be required to attend an area training meeting in Lubbock on May 16. Time and place to be announced later.

Georgia Finley and Mary Cross are employed as hostesses at the Floyd County Historical Museum. They would like to announce that the museum will be open from 1 p.m. to 5 p.m. for the next two weeks May 1st to the 15th since Mary will be on vacation. Thereafter it will be open at the usual hours.

Mrs. Mabel Epperson has been hired by Green Thumb to serve as hostess at the Senior Citizen Center.

**Keep unripe tomatoes** at room temperature away from direct sunlight, advises Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Too much sunlight prevents development of even color, she cautions.

**Healthy Families Welcome**

**Opportunity To Relate**

COLLEGE STATION -- Capable, healthy families welcome the opportunity to relate face-to-face with others, says a family life education specialist.

In these families, the atmosphere is one of numerous options, openness, acceptance, helpfulness and rational thinking, Jenny Reinhardt with the Texas Agricultural Extension Service, The Texas A&M University System, explains.

Attitudes which support the development of an enthusiasm for human encounters include:

-People are mistake-makers.

-An individual can fail without a negative self-image.

-It is okay to be candid, open and vulnerable.

-Ideas of others are to be

respected.

Generally, ideas that are different are accepted as important.

Individuals are entitled to their opinions.

It is not one individual's responsibility to cause others to change their opinions.

Mutual respect allows openness and increases the possibility of new and useful input.

Expression of true feelings is important.

It is okay to interrupt a speaker and for that speaker to override the interruption and finish.

Total agreement is not expected.

People are responsible for taking care of themselves.

Oil-base paints and latex water-base paints can be purchased according to how much shine they have.

Remember, however, the overall effect is natural and blended into the complexion, she adds.

A muted wash of color on the cheek is attractive. Place color just below the cheek

bone for a fashion low-cheek look that glows.

Choose the best suits the Miss Rhoades specialist.

To accentuate the entire eye area or more natural blend into the skin, use a deeper shade on the inner outward.

This gives a slight effect to the subtle, flattering lift and wear area, use soft pinks or champagne.

Brows are a natural, blended face and brushed Lips are sheer moist. Luscious fresh colors range pastels to clear coordinated with array of color out.

Create a soft mood or a bold while with color choice. Also, coordinate with garment specialist adds.

Soft, muted perfect for new fashions, while brighter colors message for bright fashion.

communications received about the Beta Sigma Phi State Convention to be held in El Paso, June 23rd. A thank you note was received from Girlstown for the items taken to them last week.

Committee reports were given and it was announced that girls who signed up for the volunteer program at the rest home should attend a meeting Wednesday, May 3rd at 11:00.

Our next meeting will be May 16th at Donna Henderson's home and Vickie Latta will be giving the program.

Members then voted on nominations for the Scholarship to be given to a graduating senior for further education at the Awards Presentation at High School May 9, 1978.

Final plans on the "First Lady of the Year" reception were discussed. Everyone is invited to this reception to be held at the First Baptist Church Wall Street parlor, Sunday, May 14, from 3:30 until 5:00.

New committees were then discussed for the following year.

Members present were Daphna Simpson, Brenda Watson, Pat Cates, Ilene Kendrick, Diana Gross, Julie Hickerson, Kaye Powell, Donna Henderson, Vickie Allen, Lynn Daniel, and LuAnn Collins. Special guest was June McLaugh; and Jennisse Smith.

Those joining the honor were Mrs. J. H. Lubbock, and Mrs. J. H. Lubbock, and Mrs. J. H. Lubbock, and Mrs. J. H. Lubbock.

**Today's Make-Up Techniques**

COLLEGE STATION -- Don't let yesterday's make-up techniques spoil the spring and summer fashionable look, says Beverly Rhoades, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Lighthearted and natural is the theme of today's look in cosmetics, she continues.

Colors are sheer—but a bit stronger.

And, the entire face is a balance of color—no one feature should strongly dominate, the specialist advises.

Choose foundation colors to blend into the complexion over a light base of moisturizer to keep skin fresh looking all day. Liquid foundation gives the sheerest look, but cream or cake foundation gives greater coverage.

Use foundation colors to "contour" the face into the desired effect.

Darker or deeper colors create a receding effect while light colors tend to advance and emphasize features.

Remember, however, the overall effect is natural and blended into the complexion, she adds.

A muted wash of color on the cheek is attractive. Place color just below the cheek

bone for a fashion low-cheek look that glows.

Choose the best suits the Miss Rhoades specialist.

**Birthday**

Nola McCrave celebrated her 80th birthday Sunday, April 2, at a birthday dinner at the Lubbock home of her son, Larry McCurdy. Those joining the honor were Mr. and Mrs. J. H. W. Lubbock, and hosts, Mrs. Larry McCurdy, Cindy, and Cody Lubbock.

FLOYDADA HIGH SCHOOL GRADUATES.....Among those identified are Judge F. P. Henry, White Fagan and Sally Adams Johnson.

## FDA To Prohibit Sale Of Certain Foods In School Cafeterias

The U. S. Department of Agriculture has announced regulations to prohibit the sale of certain foods in school cafeterias. The regulations, which go into effect on August 1, 1978, are designed to protect children's health by limiting the consumption of high-calorie, low-nutrient foods.

The regulations define candy as a processed food consisting of sugar, corn syrup or other sweeteners. These may be combined with other ingredients such as chocolate, dairy products, egg products, fruits, nuts, flavorings and colorings. Candy items include hard candy, creams, jelly and gum-like candies, marshmallows, nougats, fudges, coffees, caramels, glazed candies, chocolates, and chocolate coated candy, fruits and nuts.

**Fishing Report Good At Mackenzie Lake**

Fishing is good at Mackenzie Lake where the depth stands at 82.8 feet, public relations director John McCammon reported this week.

"One man caught a large string crappie, and the bass fishing has been fair, they are running 1 1/2 to 2 pounds," McCammon said. He also noted that the catfish are taking trotline bait.

A Silvertown resident caught a 12-pound channel cat on a trot line and a few one and 1/2 pound walleye are also being caught.

Water temperature Thursday was 66 degrees, McCammon said.

### V A News

Administrator of Veterans Affairs Max Cleland announced today appointment of Rosa Maria Fontanez-Marquez as Deputy Assistant Administrator of the VA's Office of Human Goals.

The Veterans Administration became the first federal agency to establish an Office of Human Goals earlier this year and the official signing of the VA "Statement of Human Goals" was held March 23.

As Deputy Assistant Administrator of OHG, Miss

## Deadline For Free Family Histories Passes

Although May 6 was final deadline for free inclusion of family histories in the Floyd County History Book, families who did not act in time still have an option.

They can purchase space in a special section of the book for \$150 per page, or lesser amount for a portion of a page.

### Frank Moore

Services for Frank Moore, 69, of Crosbyton, were held Friday in First Baptist Church in Crosbyton with the Rev. Bobby Rine, pastor, and Dr. Floyd Bradley, pastor of the First Baptist Church in Floydada, officiating.

Burial was in Crosbyton Cemetery under the direction of Adams Funeral Home.

Moore, a retired farmer, died at 8:30 a.m. Wednesday in Crosbyton Clinic Hospital after a sudden illness.

He was the brother of Doyle Moore of Floydada.

Moore, a native of Arkansas, married Edith Dick in Cotton Center in 1939 after moving to Crosby County in 1926 from Arkansas. He was a member of the Downtown Bible Class, the First Baptist Church and a former member of the Lighthouse Electric board of directors.

Survivors include his wife; his mother, Mrs. Lena Moore of Crosbyton; three sons, Frank Knox of Crosbyton, Charles of Corpus Christi and Mike of Lubbock; four brothers, Ola and Arvis of Crosbyton and Doyle of Floydada and Reed L. of Ralls; two sisters, Mrs. Horace Rathel and Mrs. C.F. Flemings, both of Crosbyton; and seven grandchildren.

To conserve water, avoid buying clothing that must be laundered separately, advises Marlene Odle-Kemp, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Caffeine—a chemical found in the leaves and beans of the coffee tree—acts as a cerebrospinal, circulatory and renal stimulant.

**Ted Allen Head Coach At Clarendon**

CLARENDON—Ted Allen, an assistant football coach and head track coach at Magnolia High School, has accepted the head football coaching position at Clarendon High School, according to an announcement yesterday by Clarendon Independent School District Supt. Jeff Walker.

Allen, a native of Floydada and a graduate of West Texas State University, replaces Jerry Wilson who resigned earlier this year.

The 34-year-old Allen began his coaching career as an assistant football coach and head track coach at Floydada where he served for four years.

He served stints in those same positions at Brady (two years), Mineral Wells (two years) and Levelland (four years) before moving to Magnolia this past season.

"Boy, I sure am (excited about returning to Panhandle-area)," Allen said. "It's a good opportunity for me because, after all, in coaching the purpose is to improve your position. Every coach desires a head coaching position, and looks forward to testing himself."

Allen is married and has two children.

Allen was chosen from a field of "a-round 30 inquiries", according to Supt. Walker. Allen will assume his duties at the end of this school year.

**Stovall Appointed**

Lawrence Stovall just returned home from Hershey, Pennsylvania, where he was appointed to the executive committee of the National Utility Training and Safety Education Association.

Stovall will serve with other executive committee members from Minnesota, Iowa, Kansas, Wisconsin, North Carolina, and Virginia. To be eligible for active membership, a person must currently be primarily engaged in job training, safety education, and/or instruction.

The National meeting this year will be held in Hershey, Pennsylvania on September 10 through 14 with an expected attendance of over 300 people.

# electric heat pump

- heats  
The electric heat pump is a remarkable device that uses about one half as much electricity to heat your home as a conventional electric heating system. This means substantial savings on your winter heating bills.
- cools  
Operating costs for summer cooling are about the same as conventional central air conditioning systems. During summer a heat pump works like a regular air conditioner. A blower pulls hot air from the house and passes it through a filter to remove dust and dirt. The air then flows across a cooling coil to cool and de-humidify the air. It then moves through ducts to all rooms in your home.
- conserves energy  
During winter months this cycle is reversed. For the heating cycle, the heat pump does an unusually efficient job. The only electricity it uses is to run the fan and the compressor. This is why heating costs are dramatically lower. Heat is removed from outdoors and pumped inside to heat the house. This is the feature that surprises most people, until they realize that there is always some heat in winter air.
- saves money  
Original installation costs for a heat pump are usually slightly more than for separate heating and central air conditioning systems. But depending on your installation, costs may be about the same—or even less than for separate systems.  
A properly engineered heat pump . . . large enough to do the job . . . will mean important savings to you.

# FARM & RANCH NEWS

## Floydada Farmer Gets Full Picture On Cotton Inc.

RALEIGH, N.C.—A group of Texas farmers who have made their presence felt in Washington in recent months traveled east again the other day on a different kind of mission.

The group included more than a dozen High Plains and Rolling Plains cotton producers who have taken key roles in the American Agriculture Movement (AAM) and its intense lobbying effort in the nation's capital.

This time their destination was the Raleigh research center of Cotton Incorporated and their mission to get the full story on how the fiber company of American cotton producers works to build markets for cotton and cut producers' costs.

The Texans came loaded with questions—and a few misconceptions—about Cotton Incorporated's organization, financing, functions and relationship with other organizations. Meeting with a number of Cotton Incorporated staff members headed by president J. Duques Wooters Jr., they spent a full day and the better part of a night getting their questions answered and hearing about all facets of Cotton Incorporated's broad program of research and marketing.

While many of the Texans came to Raleigh with skepticism, they returned home with enthusiasm, according to one of the organizers of

the trip, Glenn Toombs of Fluvanna, Texas.

"This visit definitely opened their eyes," said Toombs, shortly before departing. "They're interested now in helping Cotton Incorporated get the job done and in going back to their local AAM offices and making sure the other farmers understand what Cotton Incorporated is really doing for them."

Toombs said the trip was paid for by a number of business leaders, primarily in the Lubock area, who were interested in helping the key AAM leaders get a better understanding of Cotton Incorporated and its programs. The sponsors included banks, cotton merchants, ginners, mills, warehouses, co-ops and "interested farmers."

"They didn't feel that Cotton Incorporated should have to fund the trip," Toombs explained, "because they felt Cotton Incorporated needed every dollar available to it to carry out its vital programs for the cotton producers."

Toombs, himself an AAM leader who spent five weeks lobbying in Washington and who testified before both House and Senate agriculture committees, said the recent turmoil in agriculture has exposed considerable confusion and misplaced unhappiness about the role of Cotton Incorporated.

The group that visited

Raleigh, he said, went home with the full understanding that Cotton Incorporated "is our own company" and that "if we want markets for our cotton we have got to give our company the funds to do the job for us."

During their visit, the Texans got this message loud and strong from John L. Gramling, Jr., a cotton producer who is both a director of Cotton Incorporated and an AAM leader in South Carolina.

Gramling told the group that farmers can't depend on the government or anybody else—"we've got to look after ourselves." The way to do it, he said, is through organizations like Cotton Incorporated. "If we don't fully support our company," he said, "the only people we're hurting are ourselves."

In a nutshell, the Texans had it clarified that Cotton Incorporated is a private fiber company that works solely for and is controlled solely by the cotton producers of America; that its activities are restricted to research and promotion; that it is prohibited by law from lobbying and has no formal connection with any organization that has the responsibility of influencing legislation; that it is governed by a board of directors composed of 42 cotton producers, the number related to bales produced in each state; and that all its funding comes from the producer checkoff of \$1 plus four-tenths of one per cent per bale.

Cotton producers participating in the tour came from Big Spring, Haskell, Floydada, Morton, Wellman, Stamford, Paducah, Denver City and Fluvanna, Texas, and Lovington, N.M.

In Bulgaria it was considered bad luck for boiling milk to spill over into the fire.

TEXAS AG LEADERS VIEW TEXTILE RESEARCH—Cotton Incorporated's Wolfgang Strahl (center) shows experimental fabrics to a group of American Agriculture Movement leaders during a recent visit to the Raleigh, N.C. research center of the fiber company of American cotton producers. Looking at the fabrics are (left to right) Doyle Parnell of Guthrie route, Paducah, Joe Osmonds of Star route 1, Fluvanna. Strahl is the associate director of textile product research. The AAM leaders were in Raleigh to see what the research and promotion company is doing to increase cotton markets and cut production costs.

## Dry Lakes Time For Improvement

LUBBOCK — If your pond or lake has shrunk or is dry, now is the time to improve fishing for when the rains finally arrive.

Fish don't like barren, bathtub-like bottoms. They like weeds, brush, boulders or other form of cover. So while the lake is low and some shoreline areas are exposed, gather up some old tires, cedar brush, or almost any type of structure which will stay put and offer hiding places for fish.

When the rains come, these artificial "fish attractor" reefs will become coated with algae and micro-organisms which attract tiny baitfish such as sunfish. After a few weeks in the water, the little fish will also utilize the additional cover to escape predators which also are attracted to the structure by the prospect of food and cover.

Drilling a green crop of rye and other cover before the rains come will furnish additional cover for fish and help hold down the tendency of West Texas lakes to become muddy from wave and wind actions.

Erection of fences to control livestock on the upper or shallow ends of your lake will also help control muddy water. The deep-water end of the lake will keep the livestock on shore and not in the water while they drink.

Proper pond fertilization can work to produce more pounds of fish per acre. A soil test done by any soil testing agency will tell you how fertile your lake is concerning minerals and nutrient. Lands surrounding a lake supply that lake with these beneficial additions, but too much runoff or use of

chemicals for weed, insect or livestock projects could cause serious damage to your pond's plant and fish lifecycles.

For best results, fertilizer should be applied in early spring. Fertilizer should not

be used during hot weather due to dense plankton bloom causing low concentrations of dissolved oxygen and possible fish die-off.

Contact your local fisheries biologist for more information on pond management.

## FLOYD COUNTY NOXIOUS WEED CONTROL DISTRICT ATTENTION ALL FARMERS

Due to increased cost of operation, effective May 1, 1978 the FLOYD COUNTY NOXIOUS WEED CONTROL DISTRICT will add a minimum service charge of \$5.00, afterwards the service charge will be \$5.00 per acre. THE FLOYD COUNTY NOXIOUS WEED CONTROL DISTRICT was founded in 1957. Since that time there has been no increase in revenue to support the District. We regret the addition of this service charge, but it is absolutely necessary for the continued operation of your WEED CONTROL DISTRICT. In a recent meeting of the Board of DIRECTORS of the FLOYD COUNTY NOXIOUS WEED CONTROL DISTRICT voted unanimously to add this service charge. Other local WEED CONTROL DISTRICT are making a similar charge.

government — at ALL times considering  
the taxpayers' interest.

G. B. JOHNSTON, JR.  
FOR FLOYD COUNTY JUDGE

PAID FOR BY FRIENDS OF G. B. JOHNSTON, JR.

Soldiers in ancient Rome ate garlic in the belief that it gave them courage in battle.

Some people used to believe that staring at candles would strengthen the eyes.

Farm law changes approved April 26 by a House Conference Committee have the solid support of Cotton Growers, Inc., Lubbock-based cotton producer organization. If passed and signed by the President the bill would bring the method of setting the cotton loan to the method called for in PCG legislative policy note of January of 1977, officials note. In addition the bill would put a four-year 48-cent minimum on the loan "which is still too low but is certainly better than the one we have now," says PCG Executive Vice President Johnson.

The 1977 law required the Secretary of Agriculture to set the loan at the lower of two levels, one to be calculated as a percentage of U. S. spot market prices, the other from the Liverpool "A" Index, a compilation of normal prices.

PCG has sought, since the 1977 Farm Act was passed, to have the U. S. loan based solely on U. S. prices.

The legislation now pending still includes in the process a calculation of both domestic and European prices for each would be revised. And perhaps importantly, Johnson points out, the new legislation would not require the Secretary to set the Index calculation.

"While we still would prefer a law that doesn't tie foreign prices in the U. S. loan calculation formula continues," if the new Conference Committee measure law we will at least have a chance to convince the Secretary the 'A' Index figures should not be used when the figures would set the loan at a level below the level of domestic prices.

The "A" Index calculation used to set the 1978 loan was equal to 90 percent of the average index for the weeks of October, as specified in the law. The new law for this calculation to be based on the 15-week period to October 15 each year.

Current law, the 1977 Act, calls for setting the loan of (1) 90 percent of the adjusted "A" Index average percent of the three-year average of U. S. spot market prices. The Conference Committee measure becomes law the calculation will be based on the previous five years of high and low years and averaging the remaining three.

Ninety percent of this three-year average of U. S. prices would become the maximum level at which the Secretary would have authority to set the loan between the two.

Following the formula set out in the pending change says, would result in the loan for 1978 being raised to the statutory minimum. For 1979, depending on what for the remainder of this year, the loan would be between the 48-cent minimum and about 51 cents per pound.

Additional information is available in the P&WD pamphlet entitled "The Ecology of Farm Pond Fertilization." Call 1-800-252-9427 for the nearest representative in your area.

## THE ANSWER FOR SET-ASIDE ACREAGE COVER CROP

## DEKALB STAR

A widely adapted, high-yielding cover crop with excellent early vigor. ST-4 has high sugar content making it especially palatable to livestock. It's a late type with low prussic acid. Good for any forage use. Really makes the tonnage.

Male sterile; therefore, will not produce viable seed unless pollinated from other source.

## Regulations For Boats

Type-111 PFD is an approved USCG device similar to type-11 with at least 15.5 pounds of buoyancy, but has a lesser turning ability to allow for comfortable design for water activities such as water skiing. Recommended for in-water sports.

Type-IV PFD is an approved USCG designed to be thrown to a person in the water and not worn. It is

designed to have at least 16.5 pounds of buoyancy. This device is acceptable for boats less than 16 feet and canoes and kayaks and as a throwable device for boats 16 feet and over in length.

Additional information is available in the Digest of the Texas Water Safety Act which can be obtained at all P&WD offices and from your local game warden.

## Burleson Offers Information Concerning Service Academy Nominations

WASHINGTON, D. C. — Congressman Omar Burleson reminds young persons who are interested in competing for nominations to the service academies, for the class entering July 1979, he uses a competitive method of selection so that all young persons who meet the necessary requirements may be considered.

The service academies are

the Naval Academy at Annapolis, Maryland; the Military Academy at West Point, New York; the Air Force Academy near Colorado Springs, Colorado; and the Merchant Marine Academy at Kings Point, New York. These institutions offer a fine education and a great opportunity for service to their country by young persons who wish to

follow a military career.

In order for Congressman Burleson to consider applicants, a candidate must meet these requirements: (1) Must be a U. S. citizen; (2) Must be over 17 and a legal resident of the 17th Congressional District; (3) Must be under 22 years of age on July 1, 1979; (4) Must never have been married; (5) Must be physically fit,

including excellent eyesight; (6) Must have a good high school record.

Burleson stresses that political influence is not a factor in his nominations to the Academies. The important thing is not who you know but what you are.

Interested young persons who meet the above requirements should write Congressman Omar Burleson, House of Representatives, Washington, D. C. 20515, no later than July 16. Examinations will then be scheduled as a rating device to set up slates for nomination. The competition is keen but Congressman Burleson wants to assure that all young persons who are interested in a military career may have an opportunity to compete for nomination.

## LAWN GLOW READY-LITE

Sheds A Lot of Light On Some Important Situations

The Lawn Glow Ready-Lite is the perfect light for your yard. It is made of heavy cast aluminum, with either a durable finish, for longer life and lasting beauty, or a white enamel finish, for a clean, bright appearance. It is the automatic electric yard light. A photocell turns it on at night when you need it, and off during the daytime. And you can control the amount of light you desire. The Ready-Lite may be used with any size of bulb sizes to get just the degree of light you desire. Just put it on your order form. No down payment and you may pay as 24 months to pay.

Solons Pass Farm Target Price Bill

WASHINGTON — The House gave final approval Thursday to legislation granting the administration discretionary authority to increase target prices for wheat, feed grains and cotton in years when government programs to reduce planted acreage are in effect.

was killed in the House last month after a veto threat from President Carter.

It is expected to result in immediate action by the administration to raise the target price for this year's wheat crop from \$3 to \$3.40 a bushel.

However, officials have indicated no increases will be forthcoming for feed grains or cotton because those crops have already benefited from economic aid un-

der a new program of acreage diversion payments.

If the wheat support price were raised to \$3.40, it could boost wheat farmers' income for this year by nearly \$600 million. Another provision of the bill that is expected to bring about a minimum four-cent a pound increase in the cotton loan rate could cost an extra \$100 million.

Congressional budget experts peg the

overall cost of the bill at \$1.58 billion for fiscal 1979 through 1983. The other emergency farm legislation rejected by the House on April 12 would have cost \$5.7 billion just for 1978 crops, a price tag that prompted the Carter veto threat.

The legislation allows the administration to raise target prices to compensate
