

Holly Hartsell, Joel Hendrix Wed In Candlelight Ceremony

Holly Ann Hartsell and Joel Brian Hendrix repeated wedding vows May 19 in the First United Methodist Church in Floydada. Rev. Jim Smith performed the twin ring ceremony at 7:30 p.m.

The bride is the daughter of Mrs. Fern Hartsell of Floydada and Truitt Hartsell of Plainview. Mr. and Mrs. Bill Hendrix, Floydada are parents of the groom.

Mrs. Pat Patterson, Tahoka, aunt of the bride, was organist and Wren Patterson, also aunt of the bride, Topeka, Kan., was soloist.

The candlelight ceremony was performed amid yellow glads and daisies and apricot satin bows. The 20 candle pyramid candelabra was flanked by arched candelabras, and on either side were standing brass urns of yellow glads, daisies and bows. The choir loft held palms of emerald foliage and bridal aisle were marked with apricot satin bows and streamers.

Presented in marriage by her father, the bride wore a candlelight gown of satepeau, Venise lace, cluny lace, and tiny seed pearls. The moulded bodice featured a high wedding band collar covered with Venise lace flowerettes, and the sheer yoke featured an old fashioned brussels lace design. Venise lace flowerettes and seed pearls edged the yoke and trailed to a point just beyond the waistline. Long

full sleeves were sprinkled in Venise and cluny lace, and a wide cuff edged in cluny lace fitted tightly over the hand.

The empire waistline was defined in lace and swept to back fullness, forming a chapel-length train. Alternate rows of cluny and Venise lace completely encircled the bottom of the Milady Creation. The entire flounce hemline and train were edged in the two laces.

Her two-layer veiling was caught to a Venise lace Camelot capulet. Venise lace flowerettes encircled the veiling and lace motifs were sprinkled throughout the veil, as it descended to fingertip length.

She carried a cascade bouquet of yellow sweetheart rosebuds, stephanotis, and baby's breath tied with candlelight satin ribbon.

Her attendants wore identical long saffron gowns of silesta knit. The moulded bodice featured flounce necklines, with optional off-the-shoulder look, which trailed to a float back. The empire waistlines fell to long A-line skirt. They carried colonial nosegays of yellow and apricot daisies and wore small wisps of baby's breath in their hair.

Beth Stovall was maid of honor. Bridesmaids were Hope Hartsell, sister of the bride, and Susan Hendrix, sister of the bridegroom. Kamalyn Taylor, Lubbock, cousin of the groom, was

flower girl and Mark Hatley, Floydada, was candlelighter. The flower girl carried a white fluted basket with rose petals and wore baby's breath in her hair.

Billy M. Fulton, Floydada, was best man. Serving as groomsmen were Keith Maricle, Floydada and Steve Hendrix, Hereford, brother of the groom. Ushers were Rex Yeary, Lyle Suggs and Tony Hesson.

Guests were registered by Julie Poage.

For the reception in fellowship hall Mrs. Billy M. Fulton, Mrs. Rex Yeary and Kathy Green served punch and cake. The table was covered with an ecru lace cloth over pale yellow and

held a seven branch candelabra surrounded by the attendants' bouquets.

For travel to El Paso, the bride changed to a biege pant suit accented with a yellow rose corsage.

Mr. and Mrs. Hendrix are Floydada High School graduates and attended South Plains College. She is employed at Farmer's Home Administration in Floydada and he is employed by Connie Bearden. They are making their home at 730 West Grover, Floydada.

The rehearsal supper hosted by the groom's parents, was held at Redman's.

Plant Mums Now For Fall Color

COLLEGE STATION -- Although the fall season seems far away, it's time to plan for some color for the home landscape this fall. Chrysanthemums can fill the bill.

"Chrysanthemums can provide color and variety in the fall months after many annual flowers have passed their prime, says Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service. "Rooted cuttings of chrysanthemums planted in late May or early June will have a shorter growing season resulting in smaller plants that need little staking if properly pinched."

Plant chrysanthemums in fertile soil in an area that gets plenty of sun. An elevated site is best because it lessens the possibility of harm from frost. Before planting, broadcast 2 to 3 pounds of a complete fertilizer such as 8-8-8 or 12-12-12 per 100 square feet of bed area. Work this into the top 6 inches of soil.

"About six weeks after planting, apply a sidedressing of one-half pound of ammonium sulfate fertilizer per 50 feet of row and water thoroughly. The additional fertilizer will promote vigorous growth during the summer. You may want to reapply fertilizer in mid-August," suggests Janne.

Watering is important throughout the growing season to keep plants healthy and growing vigorously.

Use a mulch of sawdust, bark, wood chips or peat moss around the plants to

conserve soil moisture and reduce weeds.

"To produce compact plants with many flowers, pinch out the terminal inch of each new shoot when it is about 3 inches long. This causes the lateral buds to grow, thereby producing short, compact plants that require little or no staking," notes the horticulturist.

Some plants may need to be pinched back as much as three times, but they should not be pinched back after late July.

For large flowers with long stems, Janne suggests removing all side buds from stems in late August. This allows most of the food produced by the plant to go directly to the terminal bud, producing a large flower. The stems usually require staking.

Every year more than 100 Americans are killed by lightning, and several hundred others injured; more victims than claimed by tornadoes or hurricanes.

Pro golfers know of the hazard. It's the recreational golfer out having a good time on the fairway who gives it little thought and becomes a perfect lightning rod.

2. Many of these lightning victims are on golf courses when the accidents occur, says the National Weather Service of the U.S. Department of Commerce.

Jerry Sadler, 70, is a twice-elected former Land Commissioner. Here's what three of the state's leading newspapers have to say about him:

The Austin American-Statesman: Voters deserve to know whom they will be choosing between in the runoff June 3. Poerner is not a household name. Sadler is a household name.

The Dallas Times Herald: "Sadler is a target of ridicule and derision." **The San Angelo Standard Times:** "Under Sadler, the Railroad Commission just might become the laughing stock he once made of the General Land Office."

John Poerner, 45, is a respected businessman and rancher. John Poerner was elected to three successive terms in the Texas House before being named Executive Director of the Governor's Committee on Aging and Director, Education Resources of Texas.

His honors include being named "Citizen of the Year" in his hometown of Hondo, receiving a "Distinguished Legislator" award from the Vocational Agriculture Teachers Association, and being named to the "Agriculture Hall of Fame" at Southwest Texas State University.

He was recently appointed to the Railroad Commission by the Governor. "Poerner is a solid, competent individual with a record of 10 years of dedicated public service," says the *Houston Chronicle*. "(We urge) his election."

Dusty Rhodes to Congress

Beginning June 3, you can make a difference in the way you live.

While you are reading this, two men are campaigning to be your Congressman. One is qualified for the job and one is not.

One man knows the issues. And he understands what they mean to you because he has talked and visited with thousands of people listening to their problems and needs.

One man has the background and experience to represent all types of people in all kinds of businesses. He's done just that for 20 years.

One man can talk about business, farming, ranching and oil as well as education for the young and benefits for the elderly because he has been personally involved in each of those areas. He is not limited to just one field - one special interest group.

One man has worked hard to get where he is today. He's been successful in his work and he has shown compassion to those who need help.

One man has the ability to fight for us. He knows how to persuade and convince people. He can win the tough battles for us - the ones that may affect us the rest of our lives.

"I want to be a Congressman you can talk to. The only way to

represent you is to listen to what you have to say." Dusty Rhodes

Area Teachers Endorse Rhodes

By JERRY REED
Staff Writer

Dusty Rhodes has been endorsed by the political action committee of the Texas State Teachers Association in Taylor County (TAPAC.)

TAPAC, which interviewed Rhodes and his seven rivals for congressman in March, announced the endorsement Tuesday at Rhodes' Abilene campaign headquarters.

Lynn Nichols, dean of students at Abilene High School and TAPAC chairman, said members were pleased with Rhodes' attitude toward business, agriculture "and particularly your attitude toward education."

"I deeply appreciate this endorsement," Rhodes said in responding. "I hope to be challenged by it."

He pledged to support TSTA's goal of "a better educational environment, not only for the students but for the teachers."

His aim as congressman would be to "actively, agreeably and persuasively represent this district."

Asked what benefits the TAPAC endorsement would bring his campaign, Rhodes said, "These folks are going to help in a voluntary way."

Did the endorsement carry any promise of campaign funds?

"We have not talked about financial support," Rhodes replied.

Nichols quipped, "You don't ever ask a teacher for money." Other teachers chuckled. TAPAC will make sure, Nichols said, that "the word will go out to 1,135-fellow educators that he's the man..."

TAPAC interviewers asked each congressional candidate 21 questions, all centering on education, on March 4.

Did any of Rhodes' responses especially please the committee?

"I can answer that personally," said Nichols.

"Probably the one answer...(was), 'I will always be available to listen to your problems' " he said.

Rhodes did not promise TAPAC to do as the committee wished, Nichols said.

ENDORSES RHODES TO CONGRESS

While the political dust from the May 6 primary is settling, the June 3 runoff draws closer. One of the tests on the ballot in Montague, Cooke, Wise, Jack, Young and other counties of the 17th District will name the Democratic candidate to replace Congressman Omar Burleson of Anson.

A. L. "Dusty" Rhodes, an Abilene Lawyer, announced his candidacy for Congress last August, just a week after Burleson announced he would retire at the end of the current term. In the months since, Rhodes has been busy talking to hundreds of citizens from all walks of life about what the 17th District needs in the way of congressional representation.

The 45-year-old Rhodes is also engaged in banking, oil and gas, farming and retail merchandising.

During the campaign, Rhodes has found voters of the district are concerned about energy, farm prices and inflation. But the main thing on peoples' minds is the amount of red tape and governmental control over more and more aspects of our lives. People have been saying to Rhodes: "We just want you to go up there and hold the line; do all you can to cut back on spending and federal controls."

The Times believes that Rhodes knows what the voters of the 17th District want in Washington, that Rhodes believes what West Texans believe, and that Rhodes will work in their behalf.

Rhodes believes he can make a difference in Washington and so do we. Voters of the 17th should send him to Congress.

Safety Tips For Rider Mowers
Using your rider mower to whip your lawn into shape can be fun-but you should always remember that your machine's no toy. Here's some advice from the experts

BE ALERT for holes and other yard hazards that could tip your mower.

at the Outdoor Power Equipment Institute for making your mower as safe as it is practical.

1. Be alert at all times-for holes and other yard hazards, and for the safety of anyone passing by (especially when you're backing up).

2. With a riding mower, cut up and down slopes to diminish the chance of tipping over.

3. Whenever you dismount from the mower, make sure the engine is off and has stopped completely.

4. Mowing should be a solo act. A passenger could put you off balance-or distract you at a bad time.
5. Know your operator's manual. You can forget important safety practices from year to year.
With the help of these tips-and a little common sense-you can have the neatest (and safest) lawn in town.
