What Happened To The 1978 Wheat Crop?

Wendell Tooley, wheat harvest in progress or completion in Floyd County Texas High Plains, many wheat elevator operators are reporting low test weight and low yields.

The weeds in much of Floyd County wheat crop many loads tested normally the test weight was 58 to 64.

There are a number of possible reasons for the low test weight and yields according to Dr. J. W. Bushland and Etter indicate that the area agronomist with the Agricultural Extension Service may have resulted in the problem factor but most of the adverse factors were probably the major factor in the poor performance of the crop in 1978. Like the previous years, a combination of factors heavily stressed wheat.

The factors contributing to the low test weights are the low temperatures in the wheat streak mosaic virus and yellow dwarf virus, septoria and other organisms, root rot and other diseases in the latter part of the season.

Observations of research on different levels of nitrogen and water stress in wheat have shown that the poor performance of the crop in 1978. Like the previous years, a combination of factors heavily stressed wheat.

season was very dry. In 1977 rains commenced on April 14 while in 1978 the drought continued until May 2, about the time wheat would normally be heading. This additional two weeks of stress caused cells to die and leaves were partially desiccated. When rain came the dead areas of leaves and stem provided a means for septoria and related organisms to enter and infect the stressed wheat plants.

FLOYD COUNTY PRODUCTION SOUTHWEST GRAIN at Aiken handled about 1/3 of its wheat business from Floyd County farmers. This elevator handled about one third of the crop that it handled last year. The wheat was good quality. Comment by the manager that the wheat farmer must have a price of \$3.50 to \$4.00 a bushel to risk planting a wheat crop. At planting time last fall the price was around \$2.15.....so many Floyd farmers did not plant any or very little wheat.

MUNCY ELEVATOR at Muncy reported about 17 percent of last year's crop was handled this year. Tests averaged 58 to 59, and "lucky to make anything considering the dry weather during the growing season."

PROVIDENCE FARM SUPPLY reported about 50 percent of last year and a good test of around 60, most of the crop irrigated.

LOCKNEY COOPERATIVES reported about 15 percent of last year, test average from 58 to 59.

PATTERSON GRAIN figured they handled about 20 percent of last year, with a test average of 56. "Our farmers couldn't afford to tie up good irrigation land on a cheap crop like wheat" was a statement from this elevator operator.

PRODUCERS COOPERATIVES in Floydada reported this year's crop about 15 percent as good as last years. Bill Cagle said "quality was terrible" and there may be a seed wheat problem. Old Timers report this crop the closest thing to a "near miss" as back in the 1930's.

LON DAVIS GRAIN and D & P GRAIN report this year's crop 18 to 20 percent as good as last year.

BARWISE ELEVATOR reports about 25 percent of last year's crop.... quality fair, yield down, acreage 'way down.

The deficiency price on the government program will run around \$3.40 per bushel. The release price on the reserve program will amount to about \$3.29 per bushel.

THE RAINS CAME TOO late for the wheat, but just in time grow the big weeds.

Speedy Trial Act Is Now In Affect

The month of July is upon us and so, too, is the Speedy Trial Act. Passed by the 65th Texas Legislature, the Speedy Trial Act took effect July 1. For months now there has been a scramble in county and district courts to bring their dockets up to date.

The principle behind the act is the quicker you try a person the more effective your law enforcement system is. The law is aimed at keeping state dockets up to date. From July 1 on, a person charged with a law infraction (misdemeanor as well as felony) has a right to trial within, at the most 120 days and as little as 30 days.

The actual time of trial requirements are 120 days from arrest for felony; 90

days from arrest for Class A misdemeanors; 60 days for Class B misdemeanors; and 30 days from arrest for Class C misdemeanors.

The smaller the offense, the sooner a person goes to trial, although priority requirements detail that criminal cases must be given priority over civil cases and criminal cases where the defendant is in jail must be given priority over all cases.

There also are new bond requirements, as outlined by the act. A defendant in jail must be released, either by personal bond (signature) or reduced bond, if the state is not ready for trial within 90 days for a felony, 30 days for a Class A misdemeanor, 15 days for a Class B misdemeanor, and five for a Class C misdemeanor.

Permissible grounds for delay include if the defendant is involved in other proceedings, is incompetent, if there is a request for continuance by the defendant, if the defendant's whereabouts are unknown or are known but he or she cannot be arrested, if the defendant is detained in another state, or if delay is justified by exceptional circumstances.

Such provisions are contained in the new act and around the state judges and prosecutors have been giving full attention to the July 1 effective date. County Attorney Kenneth Bain Jr.

has been working towards meeting the July 1 date since the first of the year and Monday reported that he had cleaned up his docket in order to be current when the new law became effective.

It appears that the County Attorney will be more affected through the trying of misdemeanor cases than the District Attorney, who usually handles the felony cases.

"Judge George Miller and I have been working all year as if we were under the new law, and therefore have most of the felony cases handled," District Attorney Randy Hollums said Monday.

"Of course we have some cases hanging where the arrest has not been made, and a few other cases that we must still handle," Hollums continued.

In Floyd County, the new act means more docket calls and more jury weeks, and of course more money for conducting more courts. Where the Grand Jury has been meeting about every six months, it will now meet about every two months.

"We will probably see more appointed attorneys in order to meet the speedier deadline" Hollums said.

Hollums said in the past it has been the defendant or the defendant's lawyer who have tried to delay cases coming to trial.

Floyd Cotton Acre Yield Leader In 1977

Official county-by-county figures from the Texas Crop and Livestock Reporting Service (TCLRS) show 1977 cotton production in the 25 High Plains counties represented by Plains Cotton Growers, Inc., Lubbock, at an all-time high 3,215,400 bales of 480 pound net weight.

Total production exceeded the previous area record, 2,888,700 bales, set in 1973, by over 300,000 bales.

Planted acreage according to TCLRS was 3,749,600, of which 3,638,800 acres were harvested. Yield per harvested acre came to 424.1 pounds, compared to

365.6 pounds in 1976 and an average of 383.5 pounds per acre for the ten-year period of 1967 through 1976.

The planted acreage figure was the second highest in history, behind the 3.9 million acres planted in 1952.

Lubbock County, with 346,000 bales, led the area in production. Second, third and fourth placed were taken by Gaines (292,000), Hockley (261,000), and Terry (238,000). The top four producing counties in 1976, respectively, were Dawson, Gaines, Lynn, and Lubbock Counties.

Per-acre yield leaders in 1977 were Farmer (556), Lubbock (527), Swisher (500) and Hale (497).

Swisher planted 88,600 acres; harvested 68,500 acres yielding 500 pounds per harvesting acre; producing 71,300 bales.

Castro planted 53,300 acres; harvested 53,200 acres yielding 487 pounds harvested acre; producing 54,000 bales.

Briscoe planted 63,100 acres; harvested 63,000 acres yielding 396 pounds per harvested acre; producing 52,000 bales.

Floyd planted 181,600 acres; harvested 174,500 acres yielding 495 pounds per harvested acre; producing 180,000 bales.

Burglars Steal Truck, Chemicals

A total loss of \$26,833 was reported to the Floyd County Sheriff's Department in a burglary at Riverside Chemicals in Mundy the night of June 30.

Sheriff Fred Cardinal said he and his deputies are still investigating the theft, but have not been able to recover the 1973 GMC fertilizer truck, 28 boxes of miloguard, five 5 gallon cans of Trodon, 10 cases of Aatrix, 1140 pounds of Temiko, and two 5 gallon cans of Roundup.

The truck and chemicals were stolen from the Riverside warehouse.

cover the 1973 GMC fertilizer truck, 28 boxes of miloguard, five 5 gallon cans of Trodon, 10 cases of Aatrix, 1140 pounds of Temiko, and two 5 gallon cans of Roundup.

The truck and chemicals were stolen from the Riverside warehouse.

Do Senior Citizens Get Enough Exercise?

Nettie Lowrance feels that many Senior Citizens are missing some fun and better health by not attending her exercise program at the Senior Citizens Center.

"We do have a good program, so we will be looking for you, please

come, try to make time for this important exercise program. It is indeed necessary for Senior Citizens to have an exercise program. This program is available on Monday, Wednesday and Friday at 10 a.m." Nettie told the Hesperian this week.

Lockney Youth Dies In Head-On Collision

A grinding, head-on collision early Monday morning took the life of a young Lockney man and critically injured a former Lockney couple.

Dead is Ralph Alvarez, 17, who lives with his grandparents, Mr. and Mrs. Joe Salas, Sr. He died in Central Plains General Hospital in Plainview about four hours after the wreck.

Critically injured were Cruz and Donna (Sams) Perales of Seagraves. Both are in stable condition in the intensive care unit of Central Plains General Hospital. Also injured in the Perales car was Cruz's sister, Maria Perales, 14, of Lockney. She is in satisfactory condition in the same hospital.

Mrs. Perales is the daughter of Mrs. Roselle Sams of Lockney. Cruz and Maria are children of Mr. and Mrs. Santana Perales, also of Lockney. Cruz and Donna's three-month-old son, Jason, was with the elder Perales' at the time of the wreck.

The mishap occurred about 12:22 a.m. in the east-bound lanes of Highway 70 just west of Seale Drive-In Theater. Both cars were two-door hardtops and were totally demolished. Lockney Fire Department worked 30 minutes to free Alvarez from his car, and Mrs. Perales was pinned in the

wreckage about 45 minutes.

The fire department ambulance took the Perales' to the Plainview hospital, and Alvarez was transported to the same hospital by Barrett Ambulance Service of Plainview.

Funeral

Funeral services for Thursday are to be at 8 a.m. today (Thurs) at San Jose Catholic Church in Lockney. The Rev. Rex Nicholls of Sacred Heart Catholic Church in Plainview is to officiate.

Burial will follow in Lockney Cemetery. Pallbearers are to be National Guardsmen of the Plainview unit.

Alvarez was born Sept. 7, 1960, in Lockney, where he had lived all of his life. He joined the National Guard in November and was on active duty for six months at Fort Leonard Wood in Missouri and Fort Benning in Georgia. He had only recently returned to Lockney.

Survivors include his mother, Mrs. Teddy Alvarez of Plainview; his father, Paul Alvarez of Boulder, Colorado; two brothers, Samuel and Roy; both of Lockney; a sister, Maria Partida of

Plainview; his maternal grandparents, Mr. and Mrs. Joe Salas Sr. of Lock-

ney; his paternal grandmother, Mrs. Manuela Alvarez of Kress, and a

great-grandmother, Mrs. Altigracia Zavala of Waco.

RALPH ALVAREZ of Lockney was riding in the car on the left when it was in collision with the car LTD II owned by Cruz and Donna Perales of Seagraves. Alvarez died several hours after the accident.

Social Events

MRS. JIM HUGGINS

Editor Takes A Bride Miss Bramlet, Mr. Huggins Marry

Wedding promises were exchanged by Miss Carol Ann Bramlet and James "Jim" Harold Huggins Saturday evening in a 7:30 o'clock ceremony.

The daughter of Mr. and Mrs. Wayne Bramlet of Lockney and the son of Mr. and Mrs. Harold Huggins of Floydada were united in marriage in a double ring service directed by Earl Cantwell of the Rock Creek

Church of Christ.

James, who is editor of The Lockney Beacon, and his bride will make their home in Lockney. He is a graduate of Floydada High School.

Mrs. Huggins was graduated from Lockney High School and also earned an associate degree as a medical assistant from Lubbock Christian College.

Setting for the wedding

was the garden of Mr. and Mrs. Glen Watson in Lockney. Backdrop for the pledging of vows was a grapevine-covered fence. At the top of the fence was a mixed bouquet of apricot-colored gladioli, blue carnations, yellow daisies and spider mums and tropical foliage tied with a bow of rainbow hued ribbon.

Guests were registered by Mrs. Ronnie Shackelford of

Plainview. Assisting guests in being seated were ushers Gary Stennett of Lockney and the bride's cousin, Emil Ross Shipman of Happy.

A chorus composed of Mr. and Mrs. Gary Stennett and several members of Main Street Church of Christ sang the program of music. Mrs. Dan Smith was soloist for "Follow Me" as the mothers were seated. Mr. and Mrs. Stennett sang the duets "I Walk Beside You" and "One Hand, One Heart," with the entire chorus singing "One Hope, One Faith," "I Pledge My Love" as the processional and "Top of the World" as the recessional.

Also in the chorus were Mrs. Wilbur Mize, Mrs. Jerry Miller, Mr. and Mrs. Douglas Degge, Miss Janie Carter, Keith Stansell, Eddie Joe Foster and Van Bradley.

Mrs. David Wright of Tulsa, Oklahoma, wore an apricot-colored southern-style dress of organza as she attended her friend as matron of honor. The floor-length skirt was made of tiers with white lace insets. A wide, self ruffled, edged in white lace, was worn off the shoulder to form the low neckline and cape-like sleeves.

The groom's sister, Miss Sharon Huggins of Floydada wore a green dress styled identically to that of the matron of honor. Both wore white garden hats tied with yellow daisies and streamers to match their dress. They carried baskets of mixed flowers.

Flower girl was the bride's cousin, little Miss Tammi Walton of Canadian. Her long dress was of dotted swiss.

Best man was Larry Noland of Floydada, and groomsman was the bride's brother, Larry Bramlet. The groom, his attendants and the father of the bride wore light blue tuxedos trimmed with deeper blue piping.

Wayne Bramlet escorted his daughter to the nuptial area and presented her for marriage. Her wedding gown was of white eyelet. The scoop neckline was ed-

ged in a ruffle extending over the shoulders to the back. The full skirt flowed from a high waistline. A wide flounce enhanced the hemline which extended into a chapel-length train. A headpiece of white eyelet held the finger-tip length veil of illusion that was scattered with daisy appliques.

The bride's bouquet was a nosegay of mixed flowers. Following tradition, her "something old" was the handkerchief she carried. It belonged to her late grandmother, Mrs. Grace Schaeffer of Happy. "Something new" was a heart-shaped necklace, centered with a diamond, that was a gift from the groom. She wore the engagement ring she had borrowed from her grandmother Mrs. Eula Bramlet. "Something blue" was a garter. In her shoe she wore pennies minted in the birthyears of both the bride and the groom, a threepence, which was a gift of the groom's cousin, John E. Huggins of Lubbock, and a sixpence.

Following the wedding, the nuptial festivities continued with a reception in the garden. The serving table was laid with a white cloth and an overlay of tulle caught at the table corners with apricot-colored bows. The white, tiered wedding cake was accented with icing flowers in pastel colors. Mixed, fresh flowers encircled a white candle to form the centerpiece. Embedded in the candle was a picture of the bride and groom and their wedding invitation. Presiding at the serving table were Mrs. Larry Waite and Mrs. Jess Walton, both of Canadian, and Mrs. Keith Morris of Dumas, all cousins of the bride.

In a houseparty were Mrs. Tommy Montandon, Mrs. Roland Watson and Miss Janie Carter.

The newlyweds' wedding trip was to Eagle's Nest, New Mexico.

The groom's parents hosted the rehearsal dinner at Main Street Church of Christ.

MRS. JOHN CHARLES FARRIS

Double Ring Vows Unite Susan And John C. Farris

A double ring ceremony read Saturday night, July 1, in Christ The King Church, Dallas, united in marriage Miss Susan Hall and John Charles Farris. The Rev. William Botik performed the 8:00 p.m. vows.

Parents of the couple are Mr. and Mrs. James Macdonald Hall of Winnetka, Ill. and Mr. and Mrs. T. Kinder Farris of Floydada. Mr. Noel Geomannes, organist, and Mr. John Nelson, trumpeter with the Dallas Symphony, presented the wedding selections.

The bride, given in marriage by her father, wore a designer gown of ivory silk organza featuring drop shoulder neckline encircled with an organza ruffle which formed the delicate cap sleeves. A bias ruffle ran from the waist diagonally across the front of the slightly gathered skirt and continued around the bottom and the sweep of the train. Flower petal alencon lace with pink silk rosebuds were re-embroidered on the bodice and outlined the top of the ruffle. Susan's cathedral illusion train was held by a wreath of fresh flowers. Miss Susan Knight of Chicago, Ill. attended the bride as maid of honor. Other attendants were Mrs. John Isacke, Gorham, Maine, Mrs. Jerome Lowe, Evanston, Ill., and Miss Elizabeth Farris, sister of the groom. Thomas K. Farris, Jr. served his brother as best man. Groomsman were George R. Farris, Houston, brother of the groom, James M. Hall, Jr., Los Angeles, Calif., brother of the bride, and Miles Davis of Dallas. Serving as ushers were Lawrence Hall and Thomas Hall, brothers of the bride. Attending the couple as flower girl and ring bearer

were Tammy Jo and John Vincent Farris, Floydada, niece and nephew of the groom. A reception honoring the couple was hosted by the bride's parents following the ceremony at the Brook Hollow Golf Club in Dallas.

Both the bride and the groom are graduates of Southern Methodist University where the bride was a member of Delta Gamma

Sorority. She is an art instructor at King School in Dallas. She completed her Bachelor's degree in September at the University of Dallas. Mr. and Mrs. Farris reside in Dallas. Mr. Farris is employed at Placid Oil Co.

WEDDING DATE SET...September wedding date set by Miss L... Hereford and Carl Gibson of... Matchett is the daughter of Mrs. L... Hereford, and the late Robert J. Matchett is the son of Mr. and Mrs. Jack Gibson of Texas. The bride-elect is a 1974 graduate of Hereford High School and a May graduate of Texas State University. Gibson is a graduate of Lockney High School and is also a graduate of West Texas State. He is presently manager at Far-Tex Custom Feeders in Texas. The couple will exchange vows at Baptist Church, Hereford.

MRS. LINDAN MORRIS

Mathis-Morris Vows Pledged

The wedding ceremony during the service Saturday at the West College Street Church of Christ was officiated by Mr. Lincoln Morris.

The bride was dressed in a white gown of sheer organza and re-embroidered Chantilly lace. The moulded bodice featured a flounced neckline and butterfly sleeves designed in Chantilly lace and sprinkled with tiny seed pearls. A self-fabric bow was at the center back of the waistline.

Her circular skirt swept to back fullness, forming a chapel-length train. Lace appliques were scattered down the front of the skirt and were defined in seed pearls. The entire hemline and train were designed in flounce style and were edged in the wide-patterned Chantilly lace.

To complete her ensemble, the former Miss Mathis wore a picture hat sewed with circular tucks. It was trimmed with matching lace and featured blue flowers and a long blue sash. On the center back of the hat was a silk illusion bow which fell into fingertip length veiling. The veiling was trimmed in the wide, matching Chantilly lace.

The bride's jewelry was a diamond necklace, a gift of her grandmother Carthel, and matching earrings which were presented to her on her 18th birthday by her parents. She wore, for "something old", her grandmother Carthel's original wedding band. Her dress was "something new". "Borrowed" was the white

lace Bible cover belonging to her sister-in-law, and "blue" was the ribbon on her hat.

The bride's bouquet was a nosegay arrangement of blue forget-me-nots accented by phalaenopsis orchids tied with bridal satin. She carried a white Bible given to her as a child by her grandparents.

Reception

The reception was held in the church fellowship hall. Attendees at the bride's table were Mrs. Tommy Lovell of Plainview, the bride's cousin, Miss Donna Spencer, Miss Brenda Meadows and Miss Shelley Bowen, both of Canyon, Miss Nettie Stephan of Abilene and Mrs. Jimmy Glenn of Edmonson.

The bride's table was covered with a blue satin cloth. An overlay of white tulle was edged in lace and accented with white hearts. The white wedding cake was tiered over a fountain flowing with blue water atop a layer of cake. Smaller, circular cakes were at the base of the cake. Tiny blue flowers of icing surrounded white icing roses to highlight the cake. On the smallest tier of the cake were two white wedding bells before an archway.

A silver punch bowl, crystal appointments, blue bell-shaped mints, nuts, and blue napkins ensigned with the couple's names completed the table decor.

Serving at the groom's table were his cousins, Miss Louise Koontz of Logan, New Mexico, Mrs. Don Terrell and Miss Vanessa Morris, both of Plainview. A white lace cloth over blue covered the circular table. The chocolate cake was iced in gold with deep brown trim. A silver service was used to serve coffee. Also on the table was a crystal punch bowl surrounded by fresh fruit.

Members of the houseparty were the groom's aunts, Mrs. Ronald Morris and Mrs. Gene McLain, both of Plainview, and Mmes. Boyce Mosley, Delton Jack, Joe Cunyus, Raymond Lusk, Bobby Carthel, Jerry Cannon, Gale McPherson, Durward Jack, and the bride's aunts, Mrs. Ted Carthel and Mrs. Leo Mathis of Plainview.

After a wedding trip to Acapulco, Mexico, Mr. and Mrs. Lindan Morris are at home at 909 West Ross Street in Floydada where he is employed with Floydada Seed and Delinting. Mrs. Morris is a 1976 graduate of Lockney High School and attended West Texas State University at Canyon. Her husband was graduated the same year from Floydada High School. He has attended Angelo State College at San Angelo and West Texas State University.

Parties

Recent courtesies honoring the couple included the rehearsal dinner in the fellowship hall of West College and Third Church of Christ.

Mr. and Mrs. Dean Morris, parents of the groom, were hosts for the dinner. Decorations were made by Mrs. Morris.

The bridesmaid luncheon was held June 24 in the home of the bride's grandmother, Mrs. Hershel Carthel in Plainview. Co-hostesses were Mrs. Ted Carthel and Mrs. Mike Mathis.

Mrs. Jerry Williams and Mrs. Raymond Lusk were hostesses for a kitchen shower June 23 in the home of Mrs. Williams.

Another courtesy was a lingerie shower at the home of Mrs. Ronnie Jensen in Plainview May 22. Co-hostesses were Mrs. Warren Mirtsching, Mrs. Don Allen and Miss Charlotte Almon.

A spice shower in Canyon was hosted by Miss Dar Lee McPherson for college friends of Miss Mathis.

The couple received two miscellaneous gift showers. They were held in the home of Mrs. L.B. Brandes at Providence and Mrs. C.C. Whittle at Floydada.

A special guest at the pre-nuptial parties and at the wedding was Miss Susanne Sandstrom of Vasa, Finland, who lived with the Warren Mathis family as an exchange student in 1975-'76.

Lackey Reunion

Saturday

The Lackey Reunion is to be held Saturday, July 8, at the Massie Activity Center. All friends and relatives are invited to bring a covered dish and join the festivities.

COTTON STUDY ON WATER AVAILABILITY—Certain soils have "shallow reservoirs" of available water that must be replenished frequently while cotton is blooming and fruiting to avoid yield reductions, according to a study by the Texas Agricultural Experiment Station. Such soils include the medium-textured types of the Rolling Plains and the fine-textured ones found in South Texas. These soils have limited water-holding capacity and can restrict root growth. Increasing organic matter and certain tillage techniques help.

ACCIDENT CONTROL: Lawn mower rotary blades are sharp knives traveling up to about 200 miles per hour. They can cut your lawn quickly and easily but can also cause serious injury if the lawn mower is used carelessly, cautions the Texas Agricultural Extension Service.

Women's Golf Play Day Tuesday

All women are invited to play golf at the regular Women's Play Day at the Floydada Country Club each Tuesday.

Tee-off time is 9:30 and the covered dish luncheon at the clubhouse follows.

Everyone is reminded to bring a covered dish.

Louise Barton of Matador won the ball for low score day.

Previously, Floydada's

Sally Wylie was winner with a 38 score for the round. She also had the most "one puts for the day."

Reports indicate that the July 25th women's golf tournament is already full up.

"Food Fun For Juniors" Announced

Classes will be held in July and August in the kitchen at Lighthouse Electric Cooperative, 201 W. California St., Floydada, for youths who have completed the 5th or 6th grades in school.

"Food and Fun for Juniors" is a summer program with week-long classes meeting from 9-11:30 a.m. Monday through Friday. Boys and girls are urged to attend free of charge and

will be taught by Kathy Burk, home service advisor for Lighthouse.

Those wishing to enroll may call 983-2814 by July 11.

There is a USDA proposal to require that net weight be accurate at the time the product is sold to the consumer, rather than

accurate only at the time it leaves the processing plant, says Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

MEAT IMPORT SITUATION—Although the meat import level for 1978 was recently increased by President Carter, U.S. cattlemen are still the net winners through foreign trade, says a livestock marketing specialist with the Texas Agricultural Extension Service. Income effects on producers from the greater imports of 1978 should be minimal. The U.S. exports more beef and cattle by-products in dollars and cents than it imports. The majority of exports are hides, tallow, variety meats and by-products which have a low demand in this country.

As It Looks From Here

Omar Burleson, M. C. 17th District, Texas

WASHINGTON, D. C. — THIS IS THE SEASON WHICH GIVES US THE PLEASURE of having many visitors in the Capital. Thus far, we have had groups of Future Farmers of America, 4-H Clubs, trips sponsored by the REA, a Senior Citizens group and many families and individuals. It is nice to have people from back home and try to do the little things which make their visit here to Washington as enjoyable as possible.

THERE ARE OTHER SIGNS OF THE SEASON all around us and things particularly which identify the tourists are not just the State tag on their automobile. Everywhere on the streets and highways they can be identified. Some proof of the visiting citizen to his Nation's Capital can be seen by watching the driver who is trying to manipulate circles, underpasses and overpasses. The car can be any age or condition. One of the easiest identifying factors are roof racks, some with baggage and even canoes. Fishing poles and a bicycle are not common to the long-distance tourist and this rig can usually be identified with the local going to the Blue Ridge Mountains or Chesapeake Bay. They are definitely different from those coming from the other direction.

A JAUNTILY FLAPPING TARP, flattened by rope or elastic bands over the kind of swaying mound, can be compared to something like a camel caravan in the Sahara. A line-up of passengers which include children with coloring books in their laps are an absolute give-away. Children fighting over cookies, with or without coloring books, are also highly suggestive.

A DOG — ANY BREED — looking out a back window with an expression of self-satisfaction is a sure sign. Even some bring their cats. He or she can be seen staring doomfully out of a basket on a pile of blankets.

IN SOME CASES, NO MATTER HOW MANY PASSENGERS OR HOW FEW, there is often times a tunnel of openness between the front seat and the rear window. If a clue is needed that the travelers are going farther North into cooler climates, it may be had from the number of duffel bags, suitcases, sweaters and other paraphernalia that takes up the rest of the space in the car.

PARKING IS A PROBLEM IN ANY CITY but it seems to be an especially serious one in Washington. There just seems no way to keep up with the need for more places to leave the automobile. All sorts of ideas are continuously proposed to provide parking space around the U.S. Capitol. It is pretty obvious that if such a convenience should be provided for visitors, it would have to be upstairs or below the ground. There just isn't anything left otherwise.

THE VISITORS EITHER HAVE TO LEAVE THEIR CARS where they are staying, get a bus or taxicab to the Capitol or else they may have to park several blocks away. The walk in midsummer humidity is not always the best. In addition, if there is clothing hung in the car or baggage, it may not be there upon their return.

ANYWAY, IT'S NICE TO HAVE VISITORS FROM HOME and we look forward to more as the vacation season goes on.

PLAN FOR THIS WINTER'S FEED—Cattlemen should be looking for available sources of protein supplement and keeping a close check on prices. Smart and early shopping for supplemental feed can mean long-range production savings, says a beef cattle specialist with the Texas Agricultural Extension Service. Protein sources hit seasonal lows as pressures green up and then show higher prices in the summer and early fall. Protein supplement is one of the largest out-of-pocket expenses in a cattle operation.

Meat Import Situation Discussed

COLLEGE STATION—Despite the recent increase in the meat import level for 1978, U.S. cattlemen are still the net winners through foreign trade.

That's the opinion of Dr. Ed Uvacek, livestock marketing specialist with the Texas Agricultural Extension Service.

Uvacek explains that the Meat Import Law of 1964 provides for a fixed level of imports and allows increases or decreases based on domestic production. Most exporting countries, however have entered into voluntary restraint agreements with the U.S., which keep imports below the trigger levels of the quota.

This past March the voluntary restraint agreement level for 1978 was set at 1.29 billion pounds. President Carter's recently announced increase raised that level by 200 million pounds. In contrast, the trigger level for the Meat Import Law is 1.3 billion pounds.

Uvacek points out that about 35 percent of the total increased level of imports scheduled for this year has already been brought into the U.S. during the first four months. The remainder, therefore, will have to be spread out over the next eight months. The bulk of the increases came in March and April when prices were already in an upward spiral.

Research indicates that cattlemen's incomes are more indirectly affected by imports through the sale of cull cows, contends Uvacek. "Put into this context, then, it seems obvious that the income effects on producers from the greater imports for 1978 should be minimal," he adds.

The U.S. exports more beef and cattle by-products in dollars and cents than in imports. The majority of exports are hides, tallow, variety meats and by-products which have a low demand in this country. Thus, U.S. cattlemen have more to gain in the game of international trade.

CONGRESSMAN OMAR BURLESON is pictured with youth from who were participating in the Government-In-Action tour sponsored by electric cooperatives in America. Sponsor Miss Kathy Burk of Electric in Floydada is seated at left, and Kelley Higginbotham is seated left. Next to her is Judi Bean. The group was gone June 9 to 12.

Comments Invited On Rural Clean Water Program

A public meeting will be held in Austin on July 10 by the U. S. Department of Agriculture's Soil Conservation Service to solicit public comments on the Rural Clean Water Program, according to George C. Marks, state conservationist for

SCS in Texas. The Rural Clean Water Program, authorized by the Clean Water Act of 1977, provides assistance to farmers and ranchers in establishing soil and water management practices to control pollution. Written or oral state-

ments on the proposed program should be sent to the state conservationist, George C. Marks, 2022 E. St. Austin, Texas.

SPORTS SHORTS

NEWS 'N' NOTES (by Sharon Hillis)

In 1933, Arch Ward, sports editor of the Chicago Tribune, conceived the idea for a baseball All-Star Game. Although baseball owners resisted the idea initially, the first All-Star Game was played in Chicago's Comiskey Park that July.

Today the All-Star Game is one of baseball's most popular events. In what has become the nation's largest non-political election, the fans will again elect the starting lineups for this year's game to be played in San Diego on July 11.

The voting, underwritten by the Gillette Company's Safety Razor Division, runs until July 2. Ballots are free at retail stores featuring a Gillette All-Star display and at major and minor league ballparks.

District 4-H Dress Revue Set "OLD SOUTH" Theme. Members from 4-H Clubs throughout the South Plains will model their own creations in this year's District 24-H Dress Revue July 6 as they compete for honors and the right to represent the district in state competition.

"Old South" is the theme of the event which is to be held in the Home Economics Building and University Center at Texas Tech, County Extension agent Sharon Hillis, said.

Representing Floyd County will be Jill Whitfill, daughter of Mr. and Mrs. W.E. Whitfill in the Senior Division. Connie Coffman, daughter of Mr. and Mrs.

Tom Coffman will represent the Junior II Division from Floyd County while Heather Holt, daughter of Mr. and Mrs. Kenneth Holt represents the Jr. I Division. All are from Lockney.

Already these entrants are winners of county competition. Contestants are judged on their sewing and construction skills, overall appearance, modeling abilities, and their 4-H record books.

A luncheon will be served for dress revue participants, parents and guests following contest activities. Revue and presentation of awards begin at 2 p.m. in the auditorium of the new Home Economics building.

In addition to the naming of the top seniors who will compete in the State 4-H Dress Revue this September, awards also will go to the contestants making the best all-cotton outfit and the best all-wool garment.

Two junior level contests will be staged at the same time as senior competition, Ms. Hillis said. These younger 4-H members, ages 9-11 and 12-14 will not compete beyond the district level. For them, the event offers experience and leadership development.

Parents, 4-H leaders, and special guests will be on hand for the occasion. The public is invited to the 2 p.m. dress revue.

Yankees Shock Cubs 5-4 In T-Shirt Play

By Doug Simpson
The Yankees of the T-Shirt League took advantage of a number of walks and withstood a surging White Sox attack to post one of the more notable upsets of the baseball season Tuesday night, 5-4.

The Yankees' triumph was their first of the season and threw the T-shirt League into an "anybody's race" once again. The White Sox now stand 6-2 on the year, and the Cubs own a threatening 5-3 mark.

Lionel Salazar contributed hitting power for the Sox, and Joe Collins was winning pitcher for the Yanks. Jerry Dale Nelson took the loss

on the mound.

In a contest played Monday night, Freeman Jones and Leif Younger contained Cub batters as the Pirates downed them 9-6, dimming the Cubs' hopes for a league title. Leif Younger, Shannon Barbee, and Darin Martinez contributed hitting power for the pirates.

Julio Flores took the loss on the mound for the Cubs.

A's Advance In Tournament; Nudge Petersburg Nine, 5-4

By Doug Simpson
Todd Vickers unloaded a 1-out, 2-on game-winning double to lift the Floydada A's baseball team to a thrilling 5-4 victory over Petersburg in local tournament action last weekend.

The triumph vaulted the A's into the winner's bracket along with Plainview, and the two clubs met each other Wednesday night for the right to compete in the

championship tilt Saturday. Result of the Floydada-Plainview contest were unavailable at presstime.

Lubbock High School's David Rush captured the win on the mound for the

A's by allowing only 2 hits, 2 walks, and striking out 9 Petersburg batters.

Domingo Sedillo was Petersburg's losing hurler. Petersburg and New Deal battled in the loser's bracket game Wednesday and the winner will battle the Floydada-Plainview view winner for the championship.

Petersburg led in the ball game's 7th inning by a 2-1 count, when Steve Westbrook's sacrifice fly scored Vickers from third, tying the score at 2 apiece.

The visitors took the lead again in the extra inning by 4-2 on a home run shot by Tony Salazar.

But the A's rallied once again in the last of eighth, sparked by a series of hits.

To start off the comeback, Larry De Leon walked, followed by a single by Carmen Soliz. Johnny Soliz popped out for the first out of the inning, but Randy Fry singled to load the bases. Westbrook then singled to score De Leon, making the count 4-3, and it was at that point that Vickers instigated his game-winning heroics.

A C.B. radio will be raffled off Friday night and tickets may still be purchased from any member of the A's baseball club.

CLOSE PLAY!...Yankees' pitcher Heath Roberson (far right) tags out Pirates' baserunner Freeman Jones in close play at the plate Tuesday night in T-Shirt League play. At far left is Pirates' batter Bobby Watson. (Staff Photo)

Simpson Transferred To Michigan

Doug Simpson has transferred from the Corpus Christi, Texas area for the past 18 months, will be moving to Bay City, Michigan according to J. W. Demaree, manager of the company's Columbus sales district.

A native of Floydada, Texas, Simpson graduated from Floydada High School in 1971. He received a bachelor's degree in animal science from Texas Tech in 1975.

Senior Citizens Enjoy Trip To State Convention

Ten Senior Citizens from Floydada enjoyed attending the state convention in San Antonio last week.

Over 9,000 attended the convention from all over the state. The convention was known as "The Governor's Conference On Aging."

There were 120 from this area who travelled by bus. The group enjoyed the

bus ride, good food, the programs and exhibits at the conference.

There are over 1900 persons in Floyd County over 60 years of age.

Attending from Floydada were: Mrs. O.L. Lowrance, Mable Epperson, Mrs. Mable Foster, Mr. and Mrs. Henry Price, Mrs. Lilly Handy, Mr. and Mrs. T.R. Corley, Mr. and Mrs. W.A. Lovell.

Floydada Nursing Home Happenings

Cooler temperature made it much more enjoyable to get outside this week and Wednesday noon. Henry Love, Green Bostick, Anis Franks and I went to the Dairy Queen and ate lunch. We want to thank Laralla Bradley for helping with transportation.

We had a real nice trip to Petersburg Wednesday afternoon, we went to Sandhill then to Harmony. The crops are really looking nice. Those enjoying the trip were Henry Love, Green Bostick, Anis Franks, Robbie Bratton and Effie Smith.

We would like to thank Jerry Thompson of Thompson Pharmacy for the large box of chocolate candy.

Also thanks to Bill and Nell Watson for the fresh beans, squash, potatoes, and onions. The residents ate them for lunch Friday.

Producers Co-Op elevator sent us a can of hard candy by Otis Anderson Thursday. The residents really enjoy little extras.

We have two new residents, Mrs. Ruby Leonard of Floydada. Ruby lives in room 9 of the west wing and Mrs. Mary Jordan, Mother of Dr. Jack Jordan of Tulia lives in room 2 of the west wing. So come out and visit with these ladies! Help make them feel at home.

Didn't have too many out for bingo Thursday. However Willie Stambough hit the jack pot and won four games. Agnes Anderson did real good with three games, and Ray Reed and Mary Jordan won two games each.

Visitors for the week were: Mrs. Jerry Richardson, Texas City, Tex.; Mrs. Reubeu Richardson, Lake Arthur N.M.; D.R. Richardson, Lorene Reasoner, Murl Mayfield, Mrs. Noman Hamilton, Doris Snodgrass, Mr. and Mrs. Bill Smallwood, Matador; Thanie Smallwood, Matador; Lois Jones, Troy Smallwood, Matador; Jade Jones, Matador; Mrs. George Smith; Mary Emma Matthews.

What... heats, broils, roasts; sizzles, broasts; bakes, stews; fries, and barbecues?

GAS COOKING OUTDOORS

Outdoor cooking sure makes sense in the summertime. It keeps the heat out, so your grill stays cool. You save on air conditioning. Plus there's no charcoal or lighter fluid to buy. Gas reaches cooking temperature fast and cooks full family dinners, everything from steaks to ovens can cook, with that great outdoor flavor.

Install a gas grill on the patio. It sure makes sense in the summertime!

OBITUARY

Henry T. Galloway

Services for Henry Tinnon Galloway, 73, of Floydada, were at 10 a.m. Wednesday in the Victory Baptist Church, Floydada.

The Rev. Emmitt Clappitt, pastor, officiated. Burial followed in the Floydada Cemetery under the direction of Moore-Rose Funeral Home.

Galloway died about 6:30 p.m. Sunday in Caprock Hospital at Floydada following a brief illness.

The Jack County native married the late Maggie McCracken May 31, 1937, in Roosevelt County, N.M. She died June 13, 1976.

He moved to Floyd County in 1917 from Jack County. Galloway was the caretaker of the Floydada Cemetery and a Baptist.

Survivors include three sons, Jerry, Connie and Donnie, all of Floydada; a sister, Mrs. Lennie Marshall of Amarillo; and six grand-

children.

Pallbearers were Joe Green, Henry James Martin, Wess Martin, Bud Edwards, Carrol Sims, and Russell Reeves.

Beulah O. Burton

Services for Beulah Orsburn Burton, 84, of Floydada were at 4:30 p.m. Monday in the First Baptist Church, Dr. Floyd C. Bradley, pastor, officiating.

Burial was in Floyd County Memorial Park under the direction of Moore-Rose Funeral Home.

Mrs. Burton died at 3:10 a.m. Sunday in Caprock Hospital after a brief illness.

Mrs. Burton moved to Floyd County from Brownfield in 1919. She was a member of the First Baptist Church where she taught Sunday school.

Survivors include a son, Lee of Floydada, two daughters, Maurice Burton of Floydada and Viola Green of

Waco; a brother, Fred Orsburn of San Antonio; two sisters, Ina Sargent of Fort Worth and Mildred Holmes of Grand Prairie; seven grandchildren; and five great-grandchildren.

Pallbearers were Noman Hamilton, Thomas Warren, R.G. Dunlap, Greg Anderson, Steve Reeves, and Don Patillo.

Dr. Ronald E. Cogswell

Dr. Ronald E. Cogswell, 77, died Thursday in Rochester, Minn.

Services were at 2:30 p.m. Monday, July 3, in the Ninth and Columbia Street Church of Christ in Plainview, with Dr. James O. Baird of Oklahoma City officiating, assisted by Dr. Terry Johnson, president of Oklahoma Christian College. Burial was in Lakeview Cemetery near Floydada by Moore-Rose Funeral Home.

Dr. Cogswell was born in Hillsboro. He married Grace Alexander in 1927 in Dallas. He practiced medicine in Dimmitt from 1931-1966 when he moved to Plainview. He was a Plainview physician and a member of the Church of Christ. Hale

County Medical Society, Texas Medical Association, American Medical Association, and Southern Medical and Medical Education Foundation. He did his post graduate work at Polyclinic in New York, Tulane Medical University at New Orleans, John Hopkins University in Baltimore and the Mayo Clinic in Rochester where he concentrated his studies in proctology.

Survivors include his wife, Grace and several nieces and nephews.

Mrs. John McDuff

Services for Mattie T. McDuff, 89, of Crosbyton will be at 10:30 a.m. Thursday in Moore-Rose Funeral Home Chapel here with the Rev. Hollis Payne, pastor of Calvary Baptist Church officiating.

Burial will be in Floydada Cemetery under the direction of Moore-Rose Funeral Home.

Mrs. McDuff died at 10:45 p.m. Monday in Lubbock's West Texas Hospital after a long illness. She had been staying at the home of a daughter in Lubbock for some time because of her health.

Born in Alabama, Mrs. McDuff moved to Floyd County in 1907. Her first husband, George McPeak, died in 1957 and she married John McDuff in 1961. She was a member of Calvary Baptist Church here.

Survivors include her husband, of Crosbyton; a son, Ronald McPeak of Salinas, Calif.; two daughters, Reba Bristo of Keys, Okla., and Mrs. Margaret Kinsey of Lubbock; two stepdaughters; a sister, Laura Derman of Lubbock; 14 grandchildren; 15 great-grandchildren; and 10 great-great-grandchildren.

Mrs. J.B. Bartley

Services for Avis M. Bartley, 74, of Floydada were Wednesday at 2:30 p.m. in First United Methodist Church here with the Rev. James Smith, pastor, officiating.

Burial followed in Floyd County Memorial Park under the direction of Moore-

Rose Funeral Home.

Mrs. Bartley died at 4:10 p.m. Monday in Caprock Hospital after a short illness.

Born in Vinson, Okla., she married J.B. Bartley June 1, 1919, here. He died in 1968.

Mrs. Bartley was also a member of First United Methodist Church.

Survivors include a daughter, Margaret Edmiston of Floydada; three grandchildren and four great-grandchildren.

Pallbearers were Pete Hickerson, Greer Christian, Cleat Crabb, Carl Jarrett, Burl Huckabee and Everett Perry.

Fishing Report

FISHING REPORT -- period through June 25, 1978 (compiled by Canyon fishery lab)

GREENBELT LAKE

channel catfish are biting with fish size running from two-to-six pounds. Black bass fishing has been good. Several walleye were caught and a few small northern pike were caught along with one 11-pound northern. Sunfish are abundant in the shallow water. Crappie fish-

MRS. IRA SULLIVAN of Floydada caught her channel catfish at lake Theo on a minnow lure. Francis Rose is a good witness to some back in May when Mrs. Sullivan caught a pound bass.....all the same day on a lure.

ing has been fair in deeper water. The lake depth is 72 feet and the water temperature is in the low 70's.

MACKENZIE LAKE

The lake is slowly clearing and is now 102 feet deep and the water temperature

is 74 degrees. Channel catfish is fair to good. Eye and bow are taken through water is mainly blue. Flats are beginning to

Facts from a pro on driving to survive.

Q. On the highway I usually drive at the speed limit. What should I do if someone wants to pass?—L. J., Pasadena

A. Move to the right even if you are driving at the speed limit. It's safer to be passed on your left. Trying to block another driver could also lead to an accident. Many drivers have adopted the European signal of flashing their lights at the car ahead to remind the driver to move over. It's safer for both of you and easy on the nerves.

Q. How can I tell if something minor is wrong with my car before it gets worse?—P. H., Carthage

A. Keep a tally on your fuel mileage. Start by writing down the odometer reading when you fill up. At the next fill-up, check the odometer reading again and record the new reading. Then divide the number of miles you've driven since the last fill-up by the number of gallons it takes to fill the tank again. The result will be your total mileage for that tankful.

A car will get better mileage on the highway than it will in town, and one driver may get better mileage than another. But any drastic change in your car's normal mileage is an indication that something is wrong, even though it may mean just a tune-up. An out-of-tune engine will use about 15 per cent more fuel than a well-tuned one.

Q. Is it true that steel-belted radial tires can't be used for high speed driving?—S. R., Quitman

A. No. There were some problems with domestically produced steel radials that led to bad publicity. But those were problems with particular brands, not with steel radials in general. Good, high-quality steel radials will last longer and provide better traction than any other tire. With proper inflation, they also will increase fuel mileage.

If you have a question on driving, send it to: Texas Office of Traffic Safety, P.O. Box 1165, Austin, Texas 78767

New Books At The Lockney Library

PATHS OF THE by Pierre Schoendorfer is a best-seller in the story of a journey across the North American continent through his own past.

FROM HOME, by Laura Ingalls Wilder, 1915. Many years had she traveled the Midwest as a covered wagon.

THE WEST goes west from California by a married man who writes home to his wife in Alamo.

THE GODS' CHILDREN by Anita Bryant and her practical advice on reconciling disagreements and scripturally for the mother who are mutually

Europe—and the high seas between them.

ALL HEADS TURN WHEN THE HUNT GOES by John Farris, author of **THE FURY** features the supernatural, family curses and horror.

STREET OF THE FIVE MOONS by Elizabeth Peters has a tall, buxom but extremely intelligent heroine who has appeared before in

a Peters book. This time she has an ally a dangerous attractive and totally unscrupulous English lord in the hunt for the forgers of fabulous jewels in Europe.

THE HUMAN FACTOR by Graham Greene is a member of "the firm", relegated to processing intelligence from England's former African colonies, has a

concern for security that is almost a religious passion. And a security lead does occur....

THE CHIEFTAIN WITHOUT A HEART by leading writer of ladies' romance, Barbara Cartland who takes us to ancient Scotland where old customs and superstitions create a tale of danger and romance.

REBEL DOCTOR by Elizabeth Seifert continues her books about doctors and the women who love them. This story centers again on Bram

Rhodes and Darcy and the time is three years after they had said good-bye.

DARK INHERITANCE by Carola Salisbury is a Gothic novel that involves a dead tavern keeper's daughter and a wealthy family.

CHILDREN'S BOOKS Easy reader's books by Margaret Hillert newly received are **PLAY BALL, WHAT IS IT, THE COOKIE HOUSE** and **THE GOLDEN GOOSE**.

Also for children in this

reading-stage is **NOAH'S ARK, ILLUSTRATED** BY Peter Spier, a winner of The Caldecott Medal.

FARM INCOME PROSPECTS PERK UP—Net realized farm income in Texas may be up some 15 to 20 percent in 1978 from the depressed level in 1977, points out an economist with the Texas Agricultural Extension Service. Brisk demand and less than expected production have substantially boosted prices and potential earnings for livestock producers. Improved earning prospects for crop farmers are due to larger benefits from govern-

ment programs, deteriorating production prospects because of drought conditions in some areas and too much moisture in others, and strong export demand.

Taking birth control pills does not protect women from getting venereal disease, warns Carla Shearer, health education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Economy & Business

Executive View/Marshall Loeb

The Cattlemen's Complaint

Traveling out in America's fat cattle country, through Iowa, Idaho and Colorado, the visitor from the city hears the other side of the emotional story of the meat price inflation.

Like almost all U.S. farmers, the cattlemen is aggrieved. For four years the prices that he collects have buckled like a sick calf, while the costs of everything he buys—gasoline, fertilizer, tetracycline for ailing heifers, tractors from Peoria and bull semen from France—have climbed like corn in August. And just when he had started to make a comeback, a politically motivated peanut farmer from Georgia cut him off at the knees by letting in a lot of imports.

Urban shoppers, stunned as they are at beef prices climbing 4% in April alone and perhaps another 5% in May, should not lightly dismiss this plaint. To do so risks biting the hand that feeds. The U.S. cattlemen is the descendant of the romantic cowboy, and for the most part he preserves those storied virtues of ruggedness, independence and dawn-to-dark hard work. But he is also a modern businessman, worried about cash flow and capital costs and, of course, interest rates. Says a typical cattle raiser in Oregon: "My family has been in this business for three generations, and we haven't been out of debt for one year."

Tens of thousands of cattlemen survived only on the sufferance of country bankers from 1974 through 1977, when any businessman could see that the cost of raising steers and cows was higher than the price for selling them. Cattlemen cut their herds from 132 million in 1975 to 115 million now, and the iron law of supply and demand levied a heavy fine on the supermarket shopper. When average prices of beef cuts jumped from \$1.63 per lb. in March to \$2.09 per lb. in June—far faster than the cost of living—Jimmy Carter's advisers urged him to open the import gates.

It was then that Dick McDougal, a Lovelock, Nev., rancher who heads the National Cattlemen's Association, flew to Washington to huddle with Robert Strauss, the celebrated Texas shooter of the bull. McDougal made this case to Carter's No. 1 inflation fighter: beef prices have gone up about as far as they will go. So, just let the cattlemen alone, and he will build up his herds. But if more imports come in, the rancher may well reduce his herds still more—and prices, after a short dip, will climb through the early 1980s.

A few days later, Carter raised annual import quotas from 1.3 billion to 1.5 billion lbs. Now that seemingly enormous amount works out to 1 lb. per American for the rest of this year and will probably clip a few pennies a pound off hamburger. Beef prices in general are expected to level out or decline a bit in the months ahead. But the psychological blow to ranchers has been devastating. The value of their cattle has dropped \$6 billion since Carter's import decision, says McDougal, who adds, "We feel betrayed."

There have been misunderstandings aplenty in this classic clash, and lessons to be learned on all sides. First, the ranchers, who overreacted to a rather modest increase in quotas, should recognize that freer trade will ultimately benefit them. America's potential for export to a beef-loving world is enormous, and ranchers cannot exploit it while clamoring for rigid quotas.

Second, the Administration should help cattlemen to realize that potential by getting tough with countries that bar beef. If the Japanese refuse to lower their high barriers against America's meat, the U.S. can put quotas on Toyotas.

Third, instead of fighting the other meat exporters, notably the Australians, the U.S. should join with them in pressing for large increases in meat quotas by Japan and the Common Market.

Fourth, the Congress can reduce the farmers' costs by easing some of the stringent, and sometimes silly, environmental rules that restrict use of herbicides, pesticides and fertilizers.

Finally, the public can recognize that the farmer, too, is victimized by inflation and stop complaining so loudly about the big bite at the meat counter.

Lucky Texans Will Consume Much Of State's Peach Crop

AUSTIN—Bring out the ice cream freezers and put the shortcake in the oven! There will be plenty of peaches available this season, according to latest estimates. Agriculture Commissioner Reagan V. Brown has noted that Texas peach growers anticipate a 938,000-bushel crop this year, only six per cent off last year's one million-bushel record breaker. "Most of this fruit will find its way to markets within the state, which is a big reason for the superior quality of our home grown varieties," Brown said. "Because Texas peaches do

not travel great distances to market, they are allowed to ripen on the tree. They are redder, juicier and better tasting than peaches shipped in from out-of-state." The 1978 peach harvest, delayed slightly by drought and a cool spring, is expected to peak around the Fourth of July weekend and last until August, Brown noted. Texas sheep and lambs sold through livestock auctions during May totaled 167,000 head, a five-per-cent jump from a year ago, Agriculture Commissioner Reagan V. Brown has reported.

As It Looks From Here

Omar Burleson, M. C. 17th District, Texas

WASHINGTON, D.C.—ANYONE WHO EVER SERVED IN THE NAVY is familiar with the saying that, "if it moves, salute it— if it doesn't, paint it." THE IDEA MAY WELL APPLY TO SOME GOVERNMENT PROGRAMS. Too many projects seem to be undertaken in a spirit of "why not", rather than "why". THE FEDERAL HIGHWAY ADMINISTRATION HAS A PRETTY GOOD RECORD of building and managing our interstate road system. It has, in most

instances, cooperated with State highway departments, and, particularly, with those who have a good system such as Texas. THE HIGHWAY ADMINISTRATION HAS NOW, HOWEVER, COME UP WITH A STUDY which seems to be a sort of scholarly exercise that makes illiteracy look good by contrast. It has awarded a contract for \$222,000 to a private think-tank which proposes to ask a couple of thousand automobile drivers at nine sites in three States their opinion on such matters as side splash from trucks on wet roads. They want to know if it is a problem. They want to know if large trucks block a driver's view. Are big trucks too slow going up hills and fast coming down, they ask. MOST DRIVERS OF AU-

Farm Income Prospects Perk

COLLEGE STATION -- Things are looking up a bit for Texas farmers and ranchers due to improved farm income prospects.

"Net realized farm income in Texas is up some 15 to 20 percent in 1978 from the depressed level in 1977," believes Dr. Carl Anderson, economist in marketing with the Texas Agricultural Extension Service. "This upturn in farm and ranch earnings should help relieve some of the cash flow problems producers were experiencing earlier this year."

"Brisk demand and less-than-expected production have substantially boosted prices and potential earnings for livestock producers," notes Anderson. "Also, prospective earnings of crop farmers have improved from the gloomy outlook several months ago. The improvement reflects larger benefits from government programs, deteriorating production prospects because of drought conditions in some areas and too much moisture in others, and strong export demand."

According to the economist, farmers and ranchers are benefiting from a marked climb in commodity prices over the past few months. In mid-May the index of prices received by Texas producers was up almost 17 percent from the January level. Meanwhile, the index of prices paid by farmers for commodities and services, interest, taxes and wage rates rose 5 percent.

Meat prices have risen even more, notes Anderson. Since January, the index of prices received for meat animals in Texas has increased by more than a third. With cash receipts from cattle and calf marketings in Texas typically accounting for 70 percent of all sales from livestock and poultry, sales from livestock and livestock products were up almost a fifth in the first

three months of this year over the same period last year.

"Livestock sales bolster farm earnings substantially since they account for a little more than half of all cash receipts from agriculture in Texas. Higher prices for cattle and calves, hogs, lambs, broilers and mohair along with increased poultry production point to sizable gains in receipts from most livestock commodities in 1978," believes Anderson.

On the other hand, receipts from crop marketings have not kept pace with year-earlier levels, points out the economist. Texas cotton prices in the first five months of this year averaged a fourth less than in the same period of 1977. However, because market prices fell below target prices for some 1977 crops, farmers have received an increase in government payments.

"As far as the remainder of 1978 is concerned, crop developments hinge on the uncertainty of weather and the level of grower participation in the grain reserve and set-aside programs," contends Anderson. "Greater participation in the feed-grain program, together with increased yield risks from dry weather and late plantings would likely bolster prices and receipts because of the implications for reduced production."

Production costs are also expected to rise considerably in 1978, adds the economist. Feed costs will probably increase because of slightly higher grain prices and larger purchases. Expenses for purchased livestock will be sharply higher. A case in point is that the average price for calves in Texas during May was 65 percent higher than a year earlier. Other costs such as interest expenses, depreciation, repairs and hired labor will likely continue to increase.

The estimated farm-level value of the cotton crop in the Plains counties in 1977, according to Plains Cotton Inc., Lubbock, comes to \$825.7 million, up from \$790 million in 1976 for the much smaller but higher priced crop of 1977.

The 1976 crop totaled 1,986,500 bales of lint and seed, valued at almost \$300 per bale of lint and seed.

The 1977 crop topped all previous yields at 2.2 million lint and about 1,286,000 tons of seed. But prices for both commodities, to an estimated \$228 per ton of seed, averaged about \$72 per ton of seed.

Estimates of average lint prices received by farmers for the crop were gathered by PCG from several knowledgeable sources. Guesses ranged from a 46-cent low to a high of 52 cents averaged 47.5 cents per pound.

The all-time high value for a cotton crop in the Plains counties was reached in 1973 when the total value was 2,888,700 bales, plus farm program payments of \$900 million into the Lubbock area economy. About the 1978 cotton crop, PCG Executive Director Donald Johnson says "It looks now as if we have outstanding acres as we harvested last year, but the crop, generally, and the continued shortage of lint make it more than likely that yields will fall well below last year, and some of our present acreage will be harvested before harvest."

The 25 PCG counties in 1977, according to the Livestock Reporting Service, harvested an average of lint per acre from 3,638,800 acres.

On price prospects for this year's harvest, Johnson says strong cotton exports coupled with doubts about production in the U.S. and other major producing areas "have given the market to date considerable strength."

He cautions however that there is no certainty prices will hold or rise for the remainder of the year. Poor crops in Russia and China could yet prove a right weather the U.S. crop, including that from the Plains, could also be a surprise.

"Even so, with the overall supply-demand situation ideal crop conditions and the market's recent downward pressures, we have to be somewhat optimistic about prices this fall."

Feedlot Activity Increase Pegged To Higher Sales

AUSTIN—The number of cattle and calves on feed increased in Texas during May, as dry ranges, meager stock water supplies and healthy beef prices sent many head to auction, Agriculture Commissioner Reagan V. Brown has reported.

There were 1,740,000 head of cattle and calves on feed during the month, Texas Crop and Livestock Reporting Service figures show, up 18 per cent from a year ago and three per cent above the month of April.

"Cattle movement in many areas of the state was very active during that period," commented Brown, "mainly because ranchers simply couldn't afford to keep up the heavy feeding schedule caused by the drought. With cattle prices strong, it was a matter of survival for ranchers to market their herds whether they wanted to or not. "During the past few weeks, we have had good rains in most parts of the state," he continued. "Now ranchers needing to restock those herds will be facing the same strong market when buying replacement cattle."

Brown stated that he feels the Administration is only giving lip service to allowing supply and demand to govern market conditions. "This move to allow 200 million more pounds of beef into the country will not reduce beef prices by much, and will damage cattlemen's confidence in the future."

Brown said demand for beef had remained good, despite higher retail prices, with cattle feeders marketing 435,000 head of fed cattle during May. Marketings were 35 per cent above a year ago, but only two per cent above those of the previous month. Feeders placed 504,000 head into lots during the month, 33 per cent above May, 1977, and 44 per cent above the previous month.

Texas Food and Fiber

Texas Department of Agriculture Reagan V. Brown, Commissioner

AGRICULTURE COMMISSIONER REAGAN V. BROWN termed the recent decision to increase foreign beef imports "very unwise and shortsighted," adding he is disappointed that no effort was made to consult with cattlemen or officials in Texas, the largest cattle producing state in the nation.

"Just when cattlemen are regaining the losses of four years and are trying to get out of debt is no time to bring in more beef," Brown said. "It will do more harm than good by discouraging them from rebuilding their herds, thus keeping supplies short."

Brown stated that he feels the Administration is only giving lip service to allowing supply and demand to govern market conditions. "This move to allow 200 million more pounds of beef into the country will not reduce beef prices by much, and will damage cattlemen's confidence in the future."

Brown said demand for beef had remained good, despite higher retail prices, with cattle feeders marketing 435,000 head of fed cattle during May. Marketings were 35 per cent above a year ago, but only two per cent above those of the previous month. Feeders placed 504,000 head into lots during the month, 33 per cent above May, 1977, and 44 per cent above the previous month.

By combining district headquarters in some cases, and adding new offices in others, we can expedite the many agricultural and consumer services conducted from these facilities," Brown

Sleep while your want ad works...

was officially dedicated north of Quitaque at Caprock Canyons State Park near Lake Theo recently. State Archeologist Curtis Tunnell told the crowd at the dedication ceremony that he considered this marker to be one of the 10 most important historical State of Texas. The marker was placed on the site of the Folsom find that is now being excavated on the sloping banks of Lake Theo. The Folsom site dates back over 10,000 years, and is one of only three that have been found in the United States. Billy Harrison, who is Curator of the Panhandle Plains

Historical Museum in Canyon, and in charge of excavation, is convinced that this massive kill and butcher site will eventually prove to be discovered by modern man. Here is the text provided by the Texas Historical Commission of Curtis Tunnell's occasion:
"Your presence at this dedication is appreciated. In my opinion, this is one of the most important historical markers ever placed in Texas. Its purpose is not to meet a county quota or to commemorate the finding of some stone artifacts. The

purpose is to permanently mark an important event in human history in the New World. This site is not only significant on the local and state level, but is certainly of national significance as well. No more than 10 sites such as this are known in all of North and South America. The events that occurred here, and the artifacts found, are older than the Crusades to the Holy Lands; they even predate the civilizations of Greece and Rome; in fact, this site was ancient when the first pyramids were being built along the Nile in Egypt.
"Picture a time about

10,000 years ago (radiocarbon date for Folsom Culture): The climate here was much wetter and a good deal colder than it is now. These valleys were filled with vegetation choked ponds; and pine forests covered the border of the plains, where only cedar and mesquite are found today, as shown by pollen samples from pond deposits. The deep-grass plains teamed with herds of mammoths (elephants), giant bison, camels and many species of antelopes. Saber-tooth tigers and dire wolves preyed on the grazing herds. The area resembled closely the famous Serengeti Plains

of Africa today.
"On the place where we stand, about 15 feet below the current surface, was a small community composed of several families—people just like us. They were dressed in skin clothing and lived in huts made of bison hides. The men had just been successful in killing several giant bison near the pond (represented by the grey deposits seen across the gully), and there was great rejoicing and excitement in the little band. The women and children would move the camp from its previous spot nearby and several weeks would be

spent processing the meat and hides. An abundance of food, clothing, tools and shelter would be derived from this successful hunt.
"Years later, the climate began to change. A long period of hotter and drier weather arrived. Great droughts dried up the ponds, killed the forests, burned the grass and exterminated many of the vast herds of animals. The hunters followed some of the remnant bison herds into the eastern woodlands and survived to become ancestors of the modern American Indians. Dust from the dry lakes on the plains covered this old

camp—the stone tools and bison bones—to a depth of 10 to 15 feet. There it lay, forgotten through the millennia.
"In recent years, active gulleys exposed the ancient campsite and made it available for careful archeological study. The ancient people would never have dreamed that their little camp would one day receive a commemorative marker from their descendants.
"Who can guess what may be happening on this site 10,000 years from now?"

South Plains News

By Mrs. Murray Julian

South Plains, July 1. Rains dotted our community on Thursday and Friday afternoons with varying amounts. Along the Silverton Highway south of South Plains farmers there re-

ceived around half an inch. In South Plains we received about a quarter an inch. It was a nice cotton shower, and several places got enough to do some real good for the crops.

6:30 - 9:30 a.m. and 5:30 p.m. until?

Glen Wood was sufficiently recovered from his stay in the hospital at Central Plains in Plainview and they brought him home on Wednesday morning. He is getting along fine at this time.

Mr. and Mrs. W.S. Simmons of Truscott are arriving this Saturday to spend the week end here with her sister, Mr. and Mrs. Sylvan Kinnibrugh. They are going to Muleshoe this Saturday to visit their aunt, Mrs. Mae Glascock, who is in the rest home there. Mrs. Ray Dill and of Lockney will accompany her sisters, Mrs. Kinnibrugh and Mrs. Simmons.

Rev. Fred Blake and his daughter Mrs. A.C. Sharbutt of Denver, Colorado, who is visiting them this

past week, went Friday to see Rev. Blake's aged mother, Mrs. C.E. Blake, who is in a rest home, there at Bronte.

Clarence Foster was dismissed from the Caprock Hospital on June 23rd, and this week end his daughter, Mrs. H.S. Calahan Jr. is taking him to San Angelo to get him settled in the Cactus Inn, a retirement Home for Baptist. We hope that he does well, and is happy in his new home.

Mrs. J.E. Woodson of Snyder and Mrs. Eddie Branch of Fort Worth came here Thursday afternoon to visit with their sister, Mrs. Frank McClure and Frank. Mrs. McClure is recovering from illness, and is taking therapy at the Central Plains Hospital in Plainview several days a week.

The G. A. Girls of the Baptist Church here returned on Thursday evening from the Baptist Encampment where they had been in camp since Monday morning. They report a good time, and no rain storms which usually occur while they are down there. Those going were Courtney Brown, Mitzi Julian, Cindy and Penny Mulder and Terry Bailey.

Mrs. Eulalia Mires of Spearman will arrive here this Saturday to spend the week end of the Fourth of July with her parents, Mr. and Mrs. A. P. Sanders in Lockney and here in South Plains with her brother and family, Mr. and Mrs. Hansel Sanders, and other relatives. Her two children have already been here visiting with relatives.

Mr. and Mrs. Murray Julian celebrated their wedding anniversary on Monday, June 26th, in Plainview at a dinner given by their son and family, Mr. and Mrs. Kendis Julian, Kristi, Mitzi and Tim.

I. H. Parks, who had been in the Methodist Hospital in Lubbock three weeks after surgery on his leg, was able to come home on Thursday, and we hope that he gets along well.

Mrs. Sylvan Kinnibrugh and her sister, Mrs. W. H. Simmons of Truscott are planning a trip to Odessa on Wednesday to see another sister, Mrs. W. H. Smith, and spend a few days with her.

Harold Hamm was in the

Lockney General Hospital sixteen days this past Thursday, and is still there taking treatment on his left leg, on which he suffered a bad burn, following an accident at the home. We hope that he, too, can soon be recovered so he can go home.

July birthdays we know of here in South Plains are those of Sandy Powell, July 4th, Nathan Johnson, July 8th, C. V. Blake, July 13th, Krisit Julian, July 15th, Kendis Julian, July 18th, and Troy Dee Johnson, July 20th. Anniversaries to be celebrated this July are those of Mildred and Harold Hamm, July 3rd, Hazle and Fletcher Powell, July 4th, Doris and Tillman Powell, July 10th, Donna and John Rushing July 12th, Kathy and Nathan Mulder, July 14th and Kendall and Dorothy Cummings July 22.

Mr. and Mrs. Murray Julian received word of the death of her brother-in-law, B. C. Auman, of Fort Pierce, Florida, who suffered a stroke about three weeks ago, and never recovered from that. He passed away at 11:20 this Saturday morning. He was 84 years old, and was in a Fort Pierce Hospital. He was originally from Albuquerque, New Mexico, but has been making his home in Florida with his daughter, Mrs. J. E. Dickson. Funeral services are pending, and burial will be there at Port Pierce, after the Fourth of July.

Rev. and Mrs. Fred Blake and daughter Mrs. A.C. Sharbutt, Al and Candy of Denver, Colorado, plan to leave this Sunday evening for Fayetteville, Arkansas for a visit with another daughter of the Blakes, Mr. and Mrs. J.T. Bolding, Mike and Sherry.

Mrs. Ruby Higginbotham and her brother, Mr. and Mrs. Warren Cypert and Mr. and Mrs. Clarence Jatslaw all of Giddings, near Austin, left Tuesday for Carlsbad, New Mexico where they enjoyed a tour of the Carlsbad Caverns during the day and they returned home Wednesday. The Cyperts and relatives were house guests of Mrs. Higginbotham during this week, and the weekend before.

Older People Have Much To Give

COLLEGE STATION - Older people in a family have much to give, says a family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

They influence their children and their grandchildren in many ways, Vivian Blair points out.

Because older generations in this country have mainly lived in one place, one town, and maybe only one house, they have a feeling of identity and responsibility with all about them.

However, in the last few decades the population has become highly mobile. Many people have lived in several towns and houses or apartments, the specialist explains.

They do not have this feeling of identity and responsibility to the people and things about them.

Grandparents can, to some degree, provide these things, Mrs. Blair suggests.

They can provide family history, family heritages and family relationships as a stabilizing influence in the life of the young.

Grandparents can help provide identity and responsibility, she says.

For auto repairs, ask for a written, itemized list of all parts, labor and other charges—along with the bill. Also, ask to have replaced parts returned to you, suggests Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

The Floyd Philosopher Claims It'd Be Unconstitutional For Him To Repair His Screen Door

Editor's note: The Floyd Philosopher on his Johnson grass farm abandons world affairs this week and discusses a personal situation.

Dear editor:

There are times when national and international affairs have to take care of themselves while a person concentrates on his own problems at home.

For example, my office out here used to be a smokehouse before science produced hogs that produce bacon already sliced and wrapped in celophane. It's a fine office, about 9 by 12 feet, has a roll top desk and one chair. A second chair would only encourage a visitor to sit down. It didn't cost 2 million dollars like a U.S. Senator's office, but on the other hand it's debt-free and wasn't financed with tax money.

There is one thing about it though that bothers the few people who have come by to see me. The concrete floor has buckled a little and the screen door, which opens to the inside, scrapes the bottom when it's about half-way open, causing inexperienced visitors to bump their head. Some people are so set in

their ways they expect all to open all the way back.

"Why don't you have that fixed?" asked.

My answer is, the Supreme Court would allow it.

You see, the railroad people at Grand Central Station in New York want to convert the historic office building or a part of it into something, but the city of New York declared it's a Historic Landmark. The Supreme Court has ruled that case it can't be altered.

My office has been declared a landmark. Who did it? The City used. Just throw back your hat and declare it.

Therefore you're not going to defying the United States Supreme Court by sawing off the bottom of my screen door with a chainsaw, destroying its historical shape, enough to let me in and out, without keeping out flies, that's all I want for.

FLOYD DATA

Mr. and Mrs. Ersel Matthews of Corpus Christi arrived in Floydada on June 16 for a visit with her parents, Mr. and Mrs. W.G. Collins and her brother, Wayne Collins and family.

The following Monday Mr. and Mrs. Matthews and W.G. Collins left for a trip to Denison, Bonham, Leonard, and Wolfe City. The next day they visited Van Collins in Waco and were met there by Kent Matthews, son of the Ersel Matthews.

After returning to Floydada, Matthews left on June 29 for his home in Corpus Christi. Mrs. Matthews stayed for a longer visit, returning home on July 3.

The group was joined in Floydada on June 30 by Mr. and Mrs. Keith Matthews, also a son of the Ersel Matthews. They stopped off in Floydada on return to their home in Portland, Texas after a trip to Glorieta, N. M.

FRED A. CARDINAL OF FLOYDADA awarded a certificate for his participation in the Annual Sheriffs' Conference on July 4th held at the Criminal Justice Center at State University in Huntsville. Making presentation is Dr. George Beto, former Texas Department of Corrections professor at the Center.

SPORTS SHORTS
Robert Louis Knecht, 13, did 7,026 consecutive push-ups to set a world's record in 1976. His nine-year-old brother Richard John did 25,222 sit-ups for the world record in 1972.

Many people still believe athletes use up their muscle tissue during strenuous exercise, but actually, according to nutrition experts reporting in Foremost Foods' Professional Nutritionist, they may increase the size of their muscles as long as they also increase slightly the amount of protein they eat.

The first wallpaper is believed to date from 1509. It was uncovered at Master's Lodgings, Christ's College, Cambridge University, in 1911.

LEGAL NOTICE
ATTENTION LANDLORD
The Housing Authority of the City of Floydada is operating a program to assist eligible families with their rents. The eligible family will contribute a portion of their monthly income toward their rent and the Housing Authority will pay the remainder. Since the Housing Authority will sign a contract with landlords in which it promises to pay part of the rent on the eligible family's behalf, a landlord can be assured that the Authority's portion of the rent will be paid on time each month.

If one of the eligible families contacts you and is interested in renting one of your units, please remember the following:
(1) The Housing Authority of the City of Floydada has determined that the family is eligible and has agreed to assist the family.
(2) You would not be asked to do anything different from your normal management practices.
(3) Your units need only meet minimum standards to qualify.
(4) There are certain financial protections available to you as a program participant that would not be available in any other rental situation.
(5) You are not binding yourself or your property for an extended period of time. Although a lease will be signed, you can choose a 30 day termination clause and provision is made for a fair, quickly executed eviction if necessary.
(6) If you decide to rent to a tenant in the rental assistance program, you incur no future obligation to rent to any other applicant who may approach you.
(7) This program will be of benefit to you, the family, and the community.

Our staff is ready to assist you and the eligible family and we assure you that the process is not complicated. If you have any questions, please call me at 983-3171 or come by our office at 302 East Tennessee, Floydada.

Ina McDowell
Executive Director
Housing Authority.
7-6-78c
