had received over an inch of rainfall. The rain was swept into the area on a cool front that included high winds and tremendous electrical display. Flooding was reported in Amarillo and Lubbock underpasses. Over two inches were received in the Matador area. Floyd County had received only 12 inches of moisture for the year, missed getting any appreciable rainfall during the downstate floodings last month.

It was still raining Wednesday in some areas of the county and wheat farmers still look for more rainfall. Cattlemen also need the rain to get grass back into good condition before wintertime. Weather "experts" felt the cool front and rain would break the September heat wave that was hitting the 90's most days. By noon Wednesday most of the county had received a fine two inch rain with a good steady drizzle falling in downtown Floydada after lunch.

He graduated from Floydada High School, then went on to Hardin Simmons University where he played football and graduated with a major in history. He taught for a short period in Holiday School, before coming to Floydada schools in 1945 as a high school history teacher and assistant coach.

In 1947 he became high school principal, and in 1962 was selected to be school superintendent. **MANY HONORS** He received many honors in his years of service to his community and vocation. He served on the state UIL board, he was a past president of district 17 Texas Association of School Administrators, he received a state honor in 1972 as "Outstanding School Administrator" from the DECA Clubs of America, and was honored as the "Employer Of The Year" at the Chamber of Commerce banquet three years ago. He was a past president of the Rotary Club, served on the Chamber of Commerce board, and was both a boy's and men's Sunday school teacher in the Baptist Church. ### No School Today

In honor of Floydada School Superintendent A.E. Baker, there will be no school in Floydada today. This includes no athletic activities that had been scheduled tonight. Perhaps a good rain would help the 'Winds' Friday night. The Antelopes return 13 lettermen, including two offensive and three defensive starters from last year, and went 8-2 for the season. "They are well coached, and they execute very well. Probably their top running back is Cliff Kirkpatrick. Kirkpatrick is a 5-10, 150-pound senior wingback who also plays defensive halfback. He's one of the Antelope's returning offensive starters. The other is center Leslie Looney (6-0, 175 senior.) Post's returning defensive starters are Kirkpatrick, Carlos Varela (5-9, 140, senior rover) and Tim Morris (5-9, 150, senior cornerback.)

**DEFENSE:** Ends Danny Cedillo and Neal Becker, tackles Tim Radloff and Junior Cuevas, inside linebackers Greg Jones and Ricky Luna, corner linebackers Jimmy Jackson and Jay Waller, halfbacks Troy Marquis and Marty Daniels, safety Kary Helms, slot back Brad Feuerbacher and Tracy Womack and extra points Joey Luna.

**OFFENSE:** Tight end Mark Beedy, split end Kary Helms, left tackle Keith Nixon, right tackle Rex Reeves, left guard David Welborn, right guard Kenny Willis, center Paul Radloff, quarterback Todd Vickers, right halfback Jr. Arredondo, fullback Mac Collins, slot back Brad Feuerbacher and Tracy Womack, punter Tracy Womack or Jimmy Jackson.

WHIRLWIND CAPTAINS for the Post game: Kenny Willis, Danny Cedillo and Kary Helms.

The Mighty Whirlwinds travel to Post this week. We started the season out great. Last week we let one slip by, but the Green Machine is on the move once again. We hope to see everyone at Post to support the Whirlwinds. Our spirit has been kinda low in the stands, so

let's everyone really get down and show the 'Winds' we're behind them all the way. The pep rally will begin at 3:25 and the game starts at 8:00. We hope to see everyone there. Varsity Cheerchicks

## Todd Denton Wins Football Contest

Three contestants missed only five games in the second football contest of the season and only the tie breaker Floydada-Muleshoe game could determine the proper order of the winners. Todd Denton, Box 639, will receive the \$10 first prize, because he was the only one of the three to correctly pick Muleshoe to win. Second place prize of \$6.00 goes to Carrie Davis, Star Route who guessed the total score at 28 points. Sammy Bradley of Route 4 will

receive the \$4.00 third prize and he guessed the total score of the game to be 23. The total score of the game was 34 points. Honorable mention goes to the following contestants who missed only six games: Bill Sanders, Claude Estes, Dwayne Wilson, Neal Becker, Lucio Vasquez, Boyd Lee, Bill Kincaid and Todd Denton. Winners may pick up their checks at The Hesperian anytime after noon Friday.

I took over the Hesperian in December of 1962....so we have shared some 15 years of school board meetings. Through the years we were in accord most of the time and I always felt Estle was a very dedicated school superintendent. He was soft spoken, yet firm....he has helped many a school teacher who needed some counseling along the way. I always knew Estle wanted Floydada to be known all over the state not only for outstanding athletics, but winners in the scholastics. The friendship and loyalty of his staff, principals, teachers and school

board was exemplified when he was chosen "The Employer Of The Year". He started the first high school student council and the chapter's National Honor Society was named for A.E. Baker. Estle was a friend and a nice guy....our thoughts and prayers go with his family in this time of sorrow.

**STATE AGRICULTURE COMMISSIONER** Reagan Brown made a speech over in Petersburg the other night and I want to share with you some of the highlights of his talk: Brown, calling farmers the most misunderstood minority, said that out of 12 million people, farmers comprise only three per cent. He said that as late as 1920 the farm and ranch families made up 67.6 per cent of the population. "The farmers provide enough food and fiber for not just two or three other people, but 56," said Brown. "The farmers story is a great one," said Brown. "But if you picked up any newspaper, listened to the radio, or viewed television in recent months, you are well aware that food prices are going up." Americans spend 18.6 of their disposable income after taxes for food, according to Brown. "But in Japan and England it's about 30 per cent; in Russia about 55 per cent and in Asia it may run as high as 85 per cent," said the Commissioner. "That's a part of the story that should make front page headlines on every newspaper in the country!" "We have one of the highest levels of living in the world," said Brown. "And that level of living is because of, and not in spite of, the price of food," he said. Brown said that much of the blame

At area test centers on those five dates it takes students about three hours to complete the ACT Assessment's four exams covering subject areas of English, math, social studies, and natural sciences. On any of the five test dates, most local students will take the tests at Wayland Baptist College, Plainview, Tx.

Mrs. Cagle said the test scores provide an assessment of general educational development and the questionnaire section information focuses on academic and nonacademic accomplishments and interests, anticipated needs, as well as career and educational interests and plans. The basic student fee for using the ACT Assessment Program this year remains \$7.50.

In addition to being used by students and their high school counselors, the extensive information provided by the ACT Assessment is also used by colleges for academic advising, admissions counseling, course sectioning and placement, student services, and institutional research.

The students' ACT Assessment reports are sent to only those colleges specifically designated by the respective students.

One of several educational services provided by The American College Testing Program (ACT), the ACT Assessment Program is used each year by more than 900,000 students as part of their education and career planning.

### John Hill is attacking State Budget waste . . .

"I've already started my search for waste in the state budget. I want to be ready to tackle overspending the minute I take office as Governor in January. My budget office already is paring down big state agency budget requests, to keep spending within available revenues. We'll have to live within our means, because I'll veto any new taxes."

**PUBLIC NOTICE**  
SUMMARY OF PROPOSED  
**CONSTITUTIONAL AMENDMENTS**  
**GENERAL ELECTION NOV. 7, 1978**

**"The Tax Relief Amendment"**  
(H.J.R. 1)

H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.

The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homestead of persons 65 years of age or older and certain disabled persons. If a person 65 years of age or older qualifies for this exemption, the total amount of public school taxes imposed on that person's homestead may not be increased.

The amendment prevents local governments from increasing property taxes unless the governing body provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of the reevaluation of his property and the amount taxes will be increased.

The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.

The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for property tax purposes is required to originate in the taxing

**authority where the property tax is imposed.**

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment providing for tax relief for residential homesteads, elderly persons, disabled persons, and agricultural land; for personal property exemptions; for truth in taxation procedures, including citizen involvement; for a redefinition of the tax base; for limitations on state spending; and for property tax administration."

**NUMBER ONE (S.J.R. 50)**

S.J.R. 50 proposes an amendment to the Texas Constitution to delete the archaic reference to the "Deaf and Dumb Asylum." The amendment would allow the State of Texas to purchase products and services done by handicapped individuals in nonprofit rehabilitation facilities without complying with bid requirements applicable to other state contracts. The amendment also would eliminate the formality of the approval of certain state contracts by the Governor, the Secretary of State and the Comptroller of Public Accounts.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment deleting the archaic reference to the 'Deaf and Dumb Asylum,' allowing certain products and services of handicapped individuals to be used by agencies and departments of state government, requiring the procurement of other products and services required in the operation of state government to be made under bids awarded to the lowest responsible bidder, making all such procurement processes subject to laws enacted by the legislature, and eliminating the requirement that the Governor, the Secretary of State, and the Comptroller of Public Accounts of Texas be personally involved with such transactions."

**NUMBER TWO (S.J.R. 55)**

S.J.R. 55 proposes an amendment to the Texas Constitution to permit local governments to issue bonds for the reconstruction or acquisition of facilities (land, equipment and improvements) designed to develop employment opportunities. These

We were so busy this week that we didn't even get to play bingo. The residents didn't mind much.  
We spent most of Tuesday afternoon peeling peaches that Mrs. John Walters sent to us. The residents enjoyed peach slices two or three times this week along with a peach cobbler. Margaret Daniels sent out a sack of fresh tomatoes which were served to the residents several times.

Mrs. Weems Norman brought us some good books for the residents to read and enjoy. We want to thank each of these ladies for their thoughtfulness.  
Mrs. Susie Mooney has in her room a friendship quilt that was made in 1956 when she a member of the Stitch and Chatter Club. If you come out go by and ask to see it. She loves to show it off.  
Thursday was birthday party time again. We had seven honorees this month: Green Bostick, William Mooney, Claude Hughes, Carrie Cumbie, Florence Badgett, Effie Smith and Dacia Manning. Everyone had a nice time. Cake and punch were served to all residents.

**LA ENMIENDA PARA ALIVIO DE IMPUESTOS (H.J.R. 1)**

H.J.R. 1 propone una enmienda a la constitución de Texas permitiendo a la legislatura que exente propiedad personal intangible; requiriendo que la legislatura exente ciertos artículos caseros y efectos particulares; y permitiendo a la legislatura que exente todo o parte de la propiedad o impuestos a los seguros, de la imposición de impuestos estatales y locales sobre propiedad.  
La enmienda requiere a la legislatura que disponga la imposición de impuestos sobre tierras agrícolas y rancheras basada en su capacidad productiva en vez de su valor de mercado y permite a la legislatura que disponga la imposición de impuestos a los seguros de madera basada en su capacidad productiva.

NO. 1 (S.J.R. 50)  
S.J.R. 50 propone una enmienda a la constitución de Texas para eliminar la referencia arcaica al "Instituto de Sordos y Mudos." La enmienda permitiría al estado de Texas que compre productos y servicios de individuos incapacitados en facilidades de rehabilitación no lucrativas sin cumplir con los requisitos de oferta que se aplican a otros contratos estatales. La enmienda también eliminaría la formalidad de la aprobación de ciertos contratos estatales por el Gobernador, el Secretario de Estado, y el Contralor de Cuentas Públicas.

Smaller Crop Brightens Cotton Price Outlook

COLLEGE STATION—Prospects for a smaller cotton crop than was expected earlier this year have improved the price outlook despite sagging demand. With deteriorating crop prospects in West Texas and California, U.S. production may be down to about 11 million bales instead of the 11.8 million estimated by the U.S. Department of Agriculture Crop Reporting Board on Aug. 1. The 1977 crop totaled 14.4 million bales. "The shortfall points to a price level somewhat higher in the second half of 1978 than the average of 49 cents per pound received by Texas producers during the first half of the year," notes Dr. Carl G. Anderson, cotton marketing specialist with the Texas Agriculture Extension Service. "However, supplies are expected to be adequate to meet disappearance. This means that carry-over of cotton at the end of the 1978-79 season will be only slightly less than the 5.4 million bales on hand when the season started." While the close balance between production and takeoff will cause the market price to be sensitive to news about any changes in worldwide production, the overall price increase will likely be small. Due to the sluggish demand, a much larger drop in production than now anticipated will have to develop to trigger a substantial jump in price, believes Anderson. Even though planted acreage in Texas is close to that of last year, the crop is suffering from lack of moisture and hot weather. So it may fall short of the 3.7 million bale crop estimated by the Texas Crop and Livestock Reporting Service in early August. This compares with 5.5 million bales last season and 3.3 million bales in 1976. However, production prospects are better in other major cotton growing areas. "The higher price earlier this year has apparently encouraged foreign producers not to reduce cotton acreage as much as planned earlier," notes Anderson. "Foreign production is expected to slightly exceed the 49.3 million bale crop estimated for the 1977-78 crop year." Foreign consumption is also expected to change little and will likely exceed production by about 5 million bales during the present year. That would be about the same size as the gain in 1977-78 and should maintain a strong export market for U.S. cotton, believes the marketing specialist. Cotton consumption in foreign countries is lagging as slow economic growth and a high rate of inflation are reducing the purchasing power of consumers, especially in Japan and several European countries. "In the U.S. mill consumption of cotton continues to shrink while use of man-made fiber is increasing," reports Anderson. During the first 10 months of this season, mill use was 5.3 million running bales, 4 percent less than in the same period a year earlier. During the same period consumption of man-made fibers by mills with cotton system spindles totaled 1.71 billion pounds, up 8 percent from the year before. "Economic conditions will likely continue to curtail the demand for cotton in the year ahead," says Anderson. "Current indicators point to a sharp slowdown in U.S. economic growth. An escalating inflation rate suggests less capital spending and a slackening in personal income growth that will dampen economic activity." In the past, an economic

Elizabeth Hill Clarence Denson Funeral services for Elizabeth Hill, 86, of Wichita Falls are scheduled at 11 a.m. today (Thursday) at the Hampton-Vaughan Funeral Home Chapel in Wichita Falls. Burial will be in Lockney Cemetery, with graveside services at 6 p.m. today. Mrs. Hill died Tuesday in Wichita Falls. She was born August 3, 1892 in Lockney and had lived in Wichita Falls since 1941. Her husband, T.B. Hill, died in 1961. Mrs. Hill was a member of the 10th and Broad Church of Christ in Wichita Falls. Services for Clarence Denson, 66, of Brownfield were at 2 p.m. Tuesday in First Baptist Church at Brownfield. Burial was in Terry County Memorial Cemetery under direction of Brownfield Funeral Home. Denson died at 12:30 p.m. Sunday in Methodist Hospital following a short illness. The Anderson County native moved to Terry County in 1934. He owned farming interests in Terry and Crosby counties and was owner-operator of Denson Wrecking. He was a member of the Brownfield Sheriff's Posse and First Christian Church of Palestine. The Floyd Philosopher Thinks He Has Found A Way To Get The World To Rid Itself Of Bombs

Editor's note: The Floyd Philosopher on his Johnson grass farm has been thinking hard about the world's plight, his letter this past week suggests. Dear editor: Although everybody may not have turned in all his figures, the latest calculation is that the world is spending 400 billion dollars a year on armaments, with enough bombs already on hand to kill everybody ten times over. It's one of the worst ways I can think of to rid New York of its dog problem. If the world would suddenly disarm, think what could be done with all that money, although you don't have to think hard because the politicians would be miles ahead of you figuring out what to do with it. Here's the situation: Russia and the United States and a lot of other countries if they can borrow the money have guided missiles in place, each aimed at a pre-determined city, a Russian one aimed at Washington, a U.S. one aimed at Moscow, and on down the list of other cities and targets throughout the world, although it's possible Floyd County towns may not have made the list yet. Those bombs cost real money and the cost-benefit ratio of hitting Floyd County towns might exceed governmental efficiency standards. In other words, the world has got itself in a precarious mess and something needs to be done about it. Now the idea of all nations voluntarily disarming is a beautiful theory but isn't suited yet to the human species. What it'll take is forced disarmament and I think I've hit on the way to do it. As I understand it, a laser beam has now been perfected that'll shoot down an incoming guided missile. Aim the beam traveling at the speed of light at a missile and POW, the bomb inside explodes. There's the key to world disarmament. If you can make a laser beam that'll explode an enemy bomb in mid-air, why can't you make one that'll explode it on the ground in enemy territory on in a silo or in a submarine under the sea? With such a beam, a hydrogen bomb in hand would be a million times worse than two in the bush. Who'd want one of the things in his country? When all somebody had to do was push a laser button and have it blow up in your face? There'd be the widest scramble you can imagine to get shed of the things. The laser beam may be the hope of man, until he can invent a laser-proof bomb. Yours faithfully, J.A.
