Notices of Election in The Hesperian and election is to be held on 1978 in each of the counties of Floyd County on dissolution of Floyd County Weed Control District, and election judges for the General Election to be held on the same day.

entitled to vote in the District election if:  
1. He is a registered voter.  
2. Owns land which appears on the tax roll of the District.  
3. Resides within the District, that is, in Floyd County but outside the city limits of Lockney or Floydada.

In brief, if you live in Floydada or in Lockney, you are not entitled to vote in the District election because you are not a resident of the District, even though you may own land on the District tax roll.

WE WERE JUST NEIGHBORING with some folk here in town Tuesday night and the discussion got around to home fire alarms. Then we got to sharing ideas about what we would try to save if our house caught on fire. If you could just rush in and save one item, what would you try to save.

Call Duffy or me at 983-3737 and we'll share your idea with others... should make an interesting feature. (Let's say when you discover the fire the family, dogs and cats are safely outside the house, but you have time to run back and bring something out of the burning home).

"ANNIE GET YOUR GUN" opens in the Floydada High School auditorium at 8 p.m. tomorrow night. The production will also be featured again on Saturday night at 8 p.m. Here Calvin Dicke (Frank Butler) and Tammy Payne (Annie) try out their "shootin' arns" (Staff Photo)

As most voters probably already know, a voter can vote for all of the candidates of a particular party, that is, vote a "straight ticket", by checking the square which appears at the head of that party's ticket on the ballot, without the necessity of voting for the individual candidates on the party's ticket.  
If the voter chooses to vote a split ticket, that is, vote for some candidates on one ticket, and for other candidates on another or other tickets, the voter must vote for each individual candidate by checking the square opposite the candidate's name.  
The old method of marking ballots, by marking out the names of all candidates excepting the names of those for whom the voter wishes to vote, is still legal; as applied to voting a

"straight ticket", such method requires the voter to strike or mark out all tickets except the ticket for which he wishes to vote.  
Voters have the privilege, as always, of writing in the name of any candidate they choose for any office on the ballot, by writing in the name of the candidate opposite the title of the office in the "Write-In" column which appears on the ballot; however, if you elect to write in the name of a candidate, you cannot mark your ballot as a "straight ticket", but will have to vote for the individual candidates for all other offices for whom you wish to vote on whichever ticket such candidates may appear.

## Athenians Explore The Math Of Real Estate

On Thursday evening, October 26, thirteen members of the Athena Jr. Study Club met in the parlor of the Main Street Church of Christ building. Janie Klein served as hostess and Judy Schacht was co-hostess. Guests present were Donice Hays, Karen Mathis, and Mrs. Sally Miller, mother of Sally Carthel.

Sheree Cannon opened the meeting with a devotional. She told a story entitled, "Remember Who Paints the Picture" and read Psalm 127:1. Martha Sue Lusk then led the group in reciting Proverbs 31:10-31.

Members responded to roll call by reading a piece of

original prose or poetry. Martha Sue Lusk presented the evening program on "The Math of Real Estate."

She reported on attending the "Parade of Homes" in Lubbock recently. Most of the homes in the show were priced from \$25,000 to \$75,000. These new homes included fireplaces, entrance halls, large bathroom and mirrored sky-lites. She reported that the current cost of building a house averages \$31.00 per square foot. With that information, each member figured, on scratch paper, what their present home would cost if it were being built in 1978.

Following refreshments,

the annual Craft Auction was held. Items sold totalled \$71.95.

The next Athena meeting will be November 9 in the home of Barbara Mathis. President, Virginia Owens, told members to bring a handful of change to their meeting. Why?? No clues were given!

Members attending the Oct. 26 meeting were: Sheree Cannon, Sally Carthel, Ann Favar, Jill Golden, Kathy Hunter, Janie Klein, Karen Koonsman, Martha Sue Lusk, Barbara Mathis, Donnie Meriwether, Virginia Owens, Judy Schacht, and Sandra Turley.

## Becomings By Duffy

I had just about given up watching the mail for reader response on the ERA question, but when I arrived at work Tuesday morning, the following article was inserted into my own typewriter. The writer remains anonymous, but perhaps his (or her) essay (or satire) will light the spark that will light the flame of opinion expression.

**Readers Response**  
The trouble all started when women got the vote...I

said then no good could come of it. Sure enough, look what's happened now. It wasn't enough to let them gals vote...now they want more. Give her an inch and she'll take a mile. If we had kept her in the kitchen where she belonged we wouldn't have all this now.

How can you satisfy them now? How are we a goin to run this country without ma at home cookin' the vittles and keepin the kids in line? ERA is the beginnin of the end of an era (ERA)...an era when man was king and women knew it. Now if he's gonna be king he's gotta prove it...who wants to live like that, I ask you. He should rule by divine right, just as he always had.

**NEWS 'N' NOTES**

(by Sharon Hillis)

**POPCORN POPPERS**  
Popcorn popping's made easier for "gadget lovers" with new poppers featuring minimal or no use of oil. In addition, little or no oil cuts down on calories. Popcorn is relatively low in calories any way—one cup of popped corn has only about 25 calories, and with oil and salt added, the calories add to about 40 to 50.

**NO-OIL POPPERS**  
One new popcorn popper version uses no oil—corn is popped by a steam of hot air. The popped kernels come out of a chute into a bowl or bag.

**LESS-OIL POPPERS**  
Another version claims to use up to one-third less oil than other poppers by utilizing a hotter temperature

and a rotating rod to stir the kernels. The corn gets coated uniformly with no burning.

**MICROWAVE POPPERS**  
For microwave appliance owners, a third new choice is available—a special popcorn popper designed especially for the microwave. The popper yields two to three quarts of popped corn in three and one-half minutes in a 675 microwave oven—with no oil needed. The microwave popper has a base supporting a covered cone. The base focuses microwaves at the bottom of the cone. Prior to this appliance, popcorn popping wasn't recommended for microwave appliances.

**PRACTICALITY**  
Before dashing out to buy any of these appliances, consider how often the appliance would be used, ease of cleaning and storage facilities. Those which do not use oil will be easier to clean than others. Check to see how easy the base is to clean if it is not immersible. Compare the cost and decide if what is already owned will serve as well as a new gadget. Then, settle back and enjoy the popcorn.

**Floydada Teachers Attend District Convention**

"Commitment, Involvement and Action" was the motto of the eleventh annual T.S.T.A. District XVII Convention held in the Lubbock Civic Center on Friday October 27. Teachers attending from Floydada enjoyed music provided by the Plainview High School Band. During the program, Mrs. Dale Tyer from Floydada gave the tribute to "Departed Colleagues," and the address was given by Dr. James "Doc" Blakely of Wharton.

Exhibitors' booths were open from 8 a.m. until 4 p.m. Sectional meetings were held after the general session at different locations in Lubbock.

T.S.T.A. House of Delegates of District XVII met Thursday October 26 at Coronado High School. Four voting delegates from Floydada T.S.T.A. attended: Tom Powell, president elect; Roberta Hardin, president; Fleeta Adams, vice-president; and Linda Colston, secretary.

Mrs. Dale Tyer read the Necrology report; and Jane Bean was elected to the District Executive Committee.

been in the hospital for several weeks, but is now home doing fine. Those taking the trip were Anis Franks, John Lloyd and Juanita Bailey.

We're happy to report Mrs. Ruby Leonard is home from Caprock Hospital and doing fair.

We have two new residents, Mr. John Lloyd and Mrs. Iris Colston both of Floydada. Come out and visit with them. I know they will enjoy your visit.

Thursday Ray Reed and Mamie Gray tied in bingo with three games each. Clara Williamson, Anis Franks and Victoria Asher tied with two games each.

Mrs. W.M. Hambright, Mrs. Tate Jones and Mrs. George Smith of the First Baptist Sunshine Sunday School Class gave each resident a sack of fruits and cookies. We thank this group of ladies for their love and concern.

Mrs. Hazel Ginn went home Monday afternoon. We enjoyed her so much what little time she spent with us, and we wish her the very

best at home.

Friday morning several of our residents made sugar cookies, using a pumpkin cookie cutter for the occasion. We served cookies and punch to all residents that afternoon at our Halloween party.

We would like to thank each one who had a part in making our bake sale a great success. The residents enjoyed every minute. I know with so many people interested, it will only be a short time until we get our projector. "Thanks again" for all your help.

Remember our Home Interior Party? Well, we have our gift now, and it is hanging on our fire place in the front lobby. So if you visit the home, take a good look at it. It's beautiful, and we enjoy it very much.

Imogene Gray has been here visiting her mother,

Mrs. Myrtle Roy. She returned to her home in California this week, but she left behind some lasting memories.

For two weeks, she helped with every decoration, with our Halloween party, and our bake sale. We

love her dearly, and look forward to her next visit. Thanks to all our visitors for the week: Mrs. W.M.

MARVIN WRIGHT, center, won \$5,000 in Piggly Wiggly Sweepstakes. He is flanked by Ron Wendover, Piggly, Wiggly district manager, left, and Jerry Tordeuer, store manager.

Man Wins \$5,000 Piggly Wiggly Sweepstakes

Things were going just like they had every day for Marvin Wright, a resident of Wichita Falls, Texas. He continued his daily routine of being husband, father and worker at a local produce distribution company. But things changed recently when he received a phone call from Aubrey Jones executive Vice President of Piggly Wiggly.

in Piggly Wiggly's Bingo Magic Game. On hand to present Wright with his check were Ron Wendover, Piggly Wiggly District Manager, and Jerry Tordeuer, Piggly Wiggly store manager at the store where Wright and his family shop.

So collecting Bingo Magic discs paid off, enabling the lucky Wichita Falls resident to place his name in the drawing for the sweepstakes

prize along with other Piggly Wiggly shoppers who were eligible. Piggly Wiggly also offers its Bingo playing customers a chance to win \$1, \$5, \$10, \$100, or \$1,000 by following rules found on the Bingo collector card.

It's not too late for the big money, though. There still are two opportunities left to give you a try at the \$5,000 jack pot. On Nov. 3, 1978 and Jan. 8, 1979 there will be two more lucky \$5000.00 winners.

Surprise! Farmers in debt

WASHINGTON (AP) — Probably it's no surprise to farmers, but the government says they owe more money than at any time in history.

The Agriculture Department says that as of last Jan. 1 the nation's farm debt was \$118.8 billion. That was up a whopping \$16.1 billion — 15.7 percent —

from Jan. 1, 1977.

A new report, "Balance Sheet of the Farming Sector" for 1978, said that the farm-debt jump was "by far the largest annual change since 1940."

However, the experts said that compared with the huge assets of farmers their debt is not as bad as it sounds and is

much less, on a proportionate basis, than debts owed by manufacturing corporations when put alongside their assets.

Although farm debt has crept up even in the best of years, one reason for the big increase in 1977 was the continued climb of farm production costs at a time when prices for many commodities were depressed. Net farm income — the amount left over from gross sales after expenses are deducted — declined slightly last year to \$20.1 billion. In 1973, when commodity prices were much higher on the average, net farm income set a record at \$29.9 billion.

The report said that total farm assets rose again to another record of \$708.3 billion as of last Jan. 1, a gain of \$53.4 billion or 8.2 percent from a year earlier. Three-fourths of the increase was due to higher real estate values. Although most farm assets

are tied up in the form of real estate and other property, their comparison with indebtedness is considered one of the more important indicators.

A fallacy, however, is that land and many other assets are not actually money in the bank. Real estate can be used as collateral to borrow money, for example, but is not a liquid asset unless a farmer sells out.

Regardless of its limitations, a derived "debt-to-asset" ratio expressed as a percent continued to be prominent in USDA examination of farmer well-being.

Simply, the ratio is arrived at by dividing debts by assets. Thus, on Jan. 1 the debts of \$118.8 billion and assets of \$708.3 billion convert to a ratio of 16.8 percent, the highest in six years.

All air-cooled engines are NOT created equal

It's easier to call an engine "heavy duty" than it is to build it that way. Many "heavy duty" industrial engines simply don't survive the test. They consume expensive fuel at an alarming rate; they are prone to break down or overheat and their life expectancy is measured in hundreds of hours. If any engine in the world qualifies as heavy duty, it's a Deutz. Deutz engines are built to last. They are built to last with one great feature: half a million dollars worth of engineering and precision engineering.

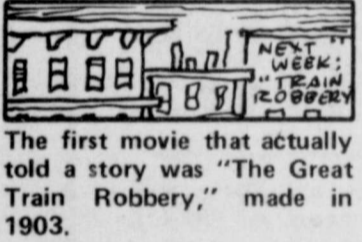

If you can find an engine that uses less fuel than a Deutz Buy it!

PLAINS COTTON GROWERS, INC.  
 Cotton Growers, Inc., Lubbock, are member to go to the polls and vote his November 7.  
 endorsing political candidates, PCG is plus the added importance this year of a referendum on the fate of the "tax relief" will appear on the November 7 ballot as constitutional amendments. Designated as No. 1, it reads "... a constitutional amendment to ad valorem taxation of agricultural certain property from taxation, and in total property tax revenues."  
 ranchers the amendment offers hope for homeowners, the elderly and disabled.

"There is definitely a need to relieve the heavy and unfair tax burden borne by Texas farmers and ranchers," stated PCG Executive Vice President Donald Johnson in a recent interview. "As pointed out in an analysis of the problem by the Texas Farm Bureau," he continues, "the property tax in Texas was intended as a general tax on all property and all wealth but has become primarily a tax on real estate. And since farmers and ranchers own and use more real estate than most others they have been paying an unfair share of the State's property taxes." Passage of the amendment November 7, Johnson says, will not necessarily mean an elimination of the inequities of property taxation. "What it will do," he adds, "is give the State legislature a mandate to provide for taxation of land used for the production of crops, livestock and timber on its value for development speculation or other purposes."  
 The exact method of figuring land value for tax purposes on its productive capacity will be determined by the legislature, and Johnson makes the point that the fairness of that method will depend to some extent on who is sent to the legislature in the November 7 elections.  
 "Which simply means that people in agriculture should cast every eligible vote on election day to assure the success of those candidates best able and qualified to represent their interests."

organizations they represented.  
 They issued the following statement:

"We believe John Hill has demonstrated a genuine concern over the problems facing Texas farmers and ranchers. John Hill has proven an ability to do something about these problems. He went to the U. S. Congress to fight for better farm prices this Spring. John Hill was a major force in Helping us get tax relief during the Special Legislative Session after it had failed last year and he has responded to price fixing complaints in the cotton seed industry by conducting a thorough investigation."

"John Hill also went to bat in Washington for our irrigation farmers in the Panhandle, South Plains and Trans-Pecos to prevent unfair low priority ratings for irrigation farm use of natural gas during periods of gas rationing. John Hill's agricultural platform includes strengthening the agricultural staff in our state's office of federal-state relations in Washington to give us a more aggressive role in speaking up in the nation's Capitol for agricultural producers in Texas."

"John Hill will also devote part of his own office staff in Austin, to agricultural issues in order to maintain contact with farm and ranch groups. He will be their spokesman in Austin."

"John Hill will continue to fight for expanded export opportunities for Texas agricultural products, limits on beef imports, and a national farm policy that encourages family farmers—instead of discouraging the family farm."

"We as farmers and ranchers in Texas, wish to go on record as supporting John Hill for Governor of Texas."

LUBBOCK TENNIS TOURNAMENT

# Green Makes Quarter Finals

Bobby Green led Floydada tennis players in the Lubbock Fall Invitational Tennis tournament as he made his way to the final eight of an 82-player field before bowing out.

Green lost 7-6, 7-6 in the quarterfinals of the boys singles to David Wright of Lubbock Mackenzie after fighting back in both sets only to lose in tiebreakers.

Green's finish was the best for the FHS teams in the 239-entry field.

Green came back from a 5-4 deficit to tie the first set, then fell 5-1 in the tiebreaker. In the second set, the FHS senior was down 5-4, 40-love and came back to tie things and even take a 4-3 lead in the 9-point tiebreaker. However, he missed on two chances to win the second set when he missed the sideline on two overhead smashes.

"Even though Bobby lost, he played well. His shot selection was good and his groundstrokes kept him in the match."

"We are definitely building for the future with our young team. Our younger players are beginning to show signs of improvement."

David Galvan, freshman and Tommy Myrick, sophomore, both made it to the third round before bowing out. Galvan pushed his final opponent to 7-5, 6-2 before falling and Myrick made his opponent go to 7-6, 6-2. "Inexperience is the only thing holding these two back."

Monte Lyons, junior, also made a good showing by advancing through the third round in singles.

With the exception of one senior, the girls team is very young with sophomores and freshmen carrying the load. Freshmen Stacy Graham and sophomore Julie Faulkenberry had the highest finish as they reached the third round of girls doubles before losing out.

The big Lubbock tournament closes out the fall tournament season for the

tennis team. Except for duals the team will not see action again until February.

## Billy Fulton Honored On

### Seed Sales

Billy W. Fulton of Floydada, was honored recently for outstanding sales achievement in 1978 as a dealer for PIONEER (R) brand seeds. And to mark the occasion, he received a specially designed Silver Dollar Award from Pioneer Hi-Bred International, Inc.

"Only 15 to 16 percent of the approximate 800 Pioneer dealers eligible for this award will qualify each year," Jim Lindsey, president of the Plainview, Texas based company, noted in announcing this year's honorees. "And we're particularly proud of Billy W. Fulton because he was qualified in his first full year as a Pioneer dealer."

To make this kind of achievement requires considerable individual effort, Lindsey continued. And he noted that the most vital ingredient for the success of Pioneer is people like Billy W. Fulton and the approximate 100 other 1978 winners.

Pioneer markets planting seed in the Southwest for sorghum, corn, cotton, wheat and alfalfa through dealers in Texas, Oklahoma and New Mexico. The Plainview based firm is a division of Pioneer Hi-Bred International, Inc., Des Moines, Iowa.

## Most newspapers pick Hill over Clements

"John Hill may be the best candidate for governor in decades. Judging from his record, he should win easily over his Republican opponent, whose chief qualification is money. Unlike his opponent, Hill is not given to outrageous promises, intemperate personal attack or underhanded tactics. He will work hard for the best interests of the state and its people."

— Austin American Statesman

"The more Mr. Clements has explained his blunt viewpoints — even those views we could agree with — the more he has raised doubt as to how effective a bulldozer could be in Texas government. Conversely, John Hill has grown in our evaluation as a man who not only is the best state attorney general in recent history, but also is a man with the intelligence, savvy and ability to serve Texas well as governor."

— Abilene Reporter-News

"We believe Hill will bring vitality and leadership to state government. Hill is not an advocate of big government. Nor is he a free spender. He has pledged that no new taxes will be levied if he is elected. His anti-inflation program is the kind of fiscal conservatism Texans can accept gleefully."

— Corpus Christi Caller

## You can do it!

Weatherstripping and caulking around doors and windows stop energy leaks.

In time, even tiny air cracks can add up to large heating and cooling losses. But sealing all those energy-robbing cracks isn't all that hard.

You can do it yourself, or hire an experienced handy man to do the job.

You can make your home energy efficient using basic tools and readily available materials... even unhandy people can caulk and weatherstrip their own homes to keep energy costs down.

# Choral Piece Dedicated To Pioneers

FLOYDADA—He's lived all the pioneer West could throw at him. It left a twinkle in Calvin Steen's warm brown eyes and lines grown to laughter in a tanned face.

Maybe, that's one reason the "West Texas Suite" by two Texas Tech professors was dedicated to Steen and his late wife, Blanche, as typical West Texas pioneers.

He lived the dry land farming which helped put the "fields so dry, crops so rotten, even weevils won't have my cotton" into the bicentennial choral work by Drs. Everett A. Gillis and Mary J. van Appledorn premiering Tuesday in Monterey High School auditorium.

All the problems of weather which "won't respond to prayer and it won't go away" failed to daunt his spirit or make him lose faith in his chosen home. In fact, it was one reason he came West.

He was 17 when he left the "deep piney woods, chills and malaria" of Louisiana for Floydada. A flat dry land where "everybody was so healthy."

Whatever the challenges—dust, drought or flood—of his new home, the healthy part upheld its reputation.

Crawling off the freight wagon on the last lap of his journey to an uncle's home, he found a small town of about 1,200 just beginning to grow up.

There were two automobiles—he thinks they were Pierce-Arrows, but isn't sure—challenging hacks, buggies and wagons for right-of-way on the trails.

"Nobody wanted to give up the road to a car and the driver didn't want to give it up to a wagon," Steen grinned.

One challenge for right-of-way, he recalled, wound up with a dead mule on a mail hack and the hack tongue through the car radiator.

It was the right-of-way of the Rock Island railroad, where Steen was building telephone lines, that road challenges turned lethal. Two teamsters hauling supplies to workers were racing when one fell overboard and broke his neck.

Steen had worked around on farms for a couple of years before signing up to "dig holes, put up posts and cross arms and string telephone wire" from Amarillo to Vernon, from Amarillo to the Oklahoma line near Shamrock and then from Amarillo to Dalhart.

He lived with other workers in tents set up in the right-of-way and caught the train into whatever town was close to "go to the picture show and maybe buy some clothes" on payday.

He was in Floydada when the train arrived in April 1910, putting an end to freight wagons rolling from the railhead at Plainview. Floydada became the railhead for other communities until rails went their way, heralding the end of freight wagons and wagon yards.

Trains were a part of his WW I service, too, particularly a little train taking him to the front in France.

It took five days crossing the country with 30 doughboys to a boxcar, sitting on bedrolls or taking turns in the open door for a bit of fresh air.

Chow time was field rations in the boxcar unless the train stopped long enough for hot food. And, there was always hot coffee waiting when the train stopped for water.

Field rations, he said, consisted of "corn willie and hardtack which was pretty good if you were hungry enough."

His buddies in the 90th Division heavy artillery ate the "sort of corned beef

hash" and dunked hardtack to make it chewable many a time with supply trucks unable to reach them.

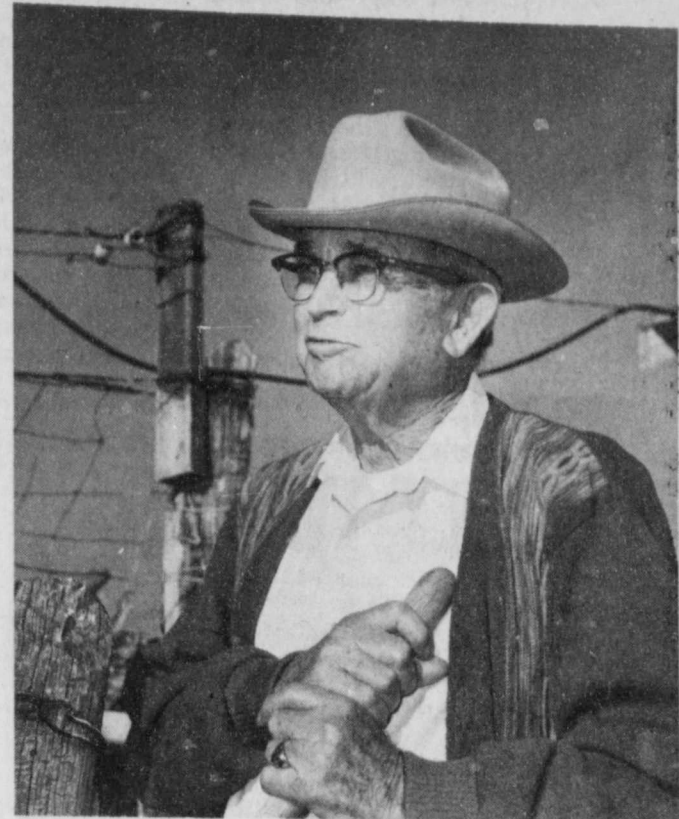

Armistice Day, his division, expecting to start home, was called to attention to learn they "had been honored" as a part of the army of occupation going to Germany.

"We weren't supposed to go around kicking anybody, just break up gatherings and be sure they brought in all their guns and airplanes. We had big piles of stuff all over."

Back home he worked "26 years without losing a day" for a grain company. After the company closed he started farming full time on land purchased while working for wages.

In 1948, the Steens built a home just outside Floydada, a home filled with the sound of Mrs. Steen's music and paintings, things which made the house too lonely after her death.

His life is there in the land, in Floydada a few blocks away and in the memories that bring a gleam to eyes never tired of looking at yesterday or planning tomorrow.

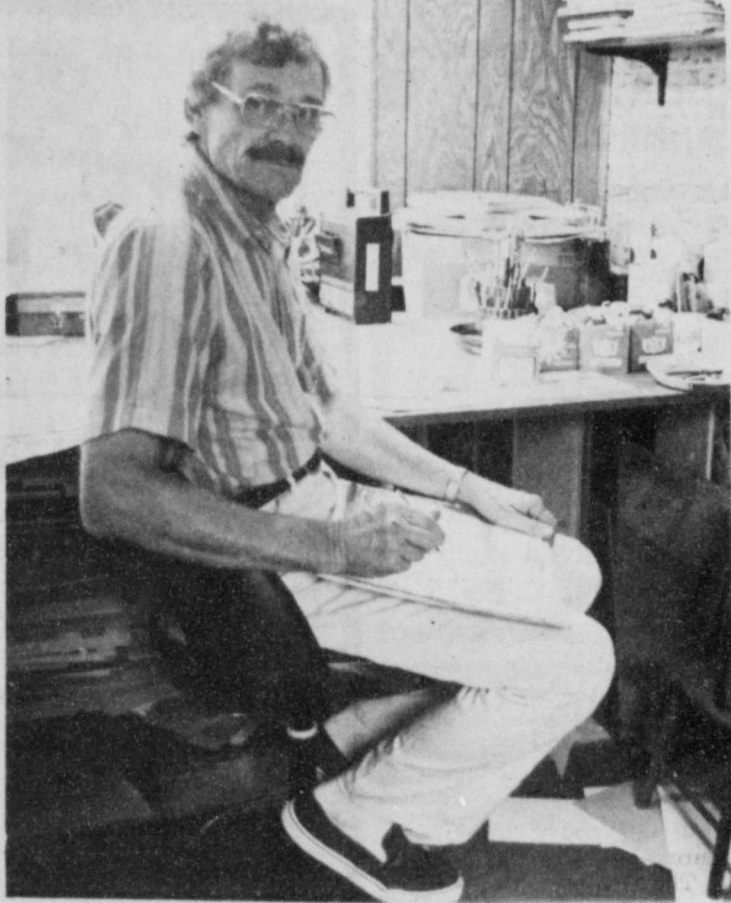

Calvin Steen

RANGE FERTILIZATION ATTRACTS DEER—Fertilizing ranges can provide high quality forage for white-tailed deer, notes a wildlife specialist with the Texas Agricultural Extension Service. Also, planting food plots of wheat or oats will attract deer while at the same time providing high quality forage for livestock. Demonstrations in Llano and Gillespie counties show high rates of a nitrogen-phosphorous fertilizer (120-90-0 or 180-90-0) can boost range forages for both deer and livestock.

# Memorial, Tribute, Business History Pages Still Available In County Book

There is still a short time left in which to submit memorial or tribute or business history pages for the Floyd County Historical Book.

Purchase of these special pages may be arranged by calling the museum in Floydada or by calling Mrs. Joe Taylor in Lockney.

Memorial pages honor deceased friends or loved ones. A good way to honor someone recently deceased would be to buy a portion of a page or an entire page instead of sending flowers.

Tribute pages enable a person to

honor the life of someone who is still living.

The business section will give histories of the businesses of Floyd County.

All of these special pages entitle the project committee to more general space in the historical book.

Book sales continue at the original price of \$24.50 plus tax. In a very short time, the price will be increased to \$37.50 plus tax. At time of delivery of the books, no books will be available for sale. Only the number of books pre-sold will be ordered from the publishers.

By Mrs. J.E. Green

October 30—We've had such good weather but today it is cloudy and windy.

Mrs. Ava Jackson spent Sunday with Mrs. Leo Fritzel who was not feeling well.

Mrs. O.C. Vinson has gone south-to Stephenville and Harlingen with her daughter where she has spent the winter for several years. We always miss her.

Mr. and Mrs. Fred McDougale of Crosbyton visited Sunday afternoon with her parents Mr. and Mrs. Henry Brewer. The Brewers are proud of another great granddaughter, the new baby of Mr. and Mrs. Ken Robison of Lubbock. She has been named Susanne.

Mr. and Mrs. Hartline had a visit last week from her grand nephew from Alabama Willie Ken Redden.

Mrs. Paul Stout and daughter of Muleshoe visited during the weekend with homefolks, the Thomas Warrens, and attended some of the revival.

One afternoon Mrs. Thomas Warren, Mrs. Ola Warren and Mrs. Fred Battey visited Thomas who is in Methodist Hospital for a checkup.

Mrs. Claud Carpenter is in a Lockney hospital after a flare up last Thursday. She is reported better. Claudine and Joe Conway are here. We hope Mrs. Carpenter will soon be much better.

Sunday was Mrs. J.D. Welborn's birthday. All her children were present: James David and Nancy of Fort Worth; Donna and Clarmon Booth and daughter of Lubbock; Eunice Lewis, Bobby and family and Jo Anne Gooch, all of Floydada.

The Dale Miller's house guest at present is his mother, Mrs. Edna Davis of Paul's Valley, Oklahoma.

Mrs. H.O. Cline and Mrs. C.M. Meredith were in Plainview one afternoon last week.

Mrs. Meredith's brother and wife-former Centerites, C.D. and Hope Rutledge-are having health problems. He has had heart surgery and now Hope is in the hospital. They live in a south Texas town.

Mr. and Mrs. Melvin Ross of Gruver spent Friday night with his mother Mrs. R.C. Ross. They were on their way to Colorado City to spend part of the weekend with their daughter and husband.

Mr. and Mrs. Julian Edmondson of Phillips accompanied by their daughter and family, the Bell Kallmars of Alamogordo, New Mexico, visited Mrs. Fred Battey Wednesday. They had spent the night before in Matador with other relatives.

Mrs. Green visited Sunday briefly with Miss Vera Meredith and with the Pecks.

Our sympathy is with the loved ones of Ted Bell who so suddenly passed away this weekend.

## HEAT PUMP

"THE ELECTRIC SAVINGS MACHINE"

### SAVING FOR THE FUTURE

Coin banks help teach children how to save for the future. You can do the same for the future, too, with the electric heat pump. That's why we call it the electric savings machine. This efficient heating/cooling system can do as much as two units of heat for every one heat unit of electricity it uses. The savings don't stop there. With fuel costs expected to rise during the two decades, the electric heat pump is a smart investment that will save energy today and in the future.

It's never too soon to start saving... with the electric heat pump. Today before your future gets here. You'll be glad you did.

To The Voters of Floyd County Concerning The Candidacy of Foster Whaley for State Representative

I have known Foster Whaley for 30 years. I know him to be honest, reliable, conservative, congenial and a hard worker.

He is capable as is evidenced by his accomplishments. He started out on a shoe string and has been most successful, financially.

He does not need to be State Representative to make a living. This makes it possible for him to refuse all financial offers, as he has done during this campaign, made by State Political groups.

All of his life he has been associated with farming and ranching and knows the problems and needs of the farmer and livestock producer.

He is well informed on the issues of the day, especially on our educational system and our tax structure. He is diplomatic, agreeable yet persuasive. He knows how to get things done and above all he KNOWS HOW TO SAY NO!

I have become well acquainted with Foster while serving on the Gray County ASC Committee, as a farmer, as Supt. of Top o' Texas Jr. Livestock Show, Pampa, Texas since it was founded in 1941. I believe he is the MAN FOR THE JOB.

If you agree this is the kind of a representative we need in Austin, let's elect Foster Whaley on November 7th.

Sincerely,

*Clyde L. Carruth*

October 30—After our rains the first of last week we have had mostly clear skies and mild temperatures. Nights are somewhat on the chilly side. Farm work goes on and cotton harvest is in full swing in many places; some fields are too green for harvesting.

All our hearts were saddened at the news of the death of Ted Bell. We all deeply sympathize with his family in their deep sorrow. Ted was greatly admired by all who knew him and his beautiful paintings were enjoyed by all. Ted's funeral was Monday afternoon at First Baptist Church.

Carolyn Burton and Mrs. J.T. Myrick went to Amarillo Wednesday and visited Mr. and Mrs. D.D. Myrick and Mrs. Steve Myrick and children Matt and Mandy.

Mr. and Mrs. Eugene Watts and baby visited in Lubbock Saturday night with Mr. and Mrs. Sam Bass. Scotty and Kim stayed with their grandparents Mr. and

Mrs. T.L. Perry. Mr. and Mrs. Leslie Fawver visited Friday night with Mr. and Mrs. T.L. Perry.

We express sympathy to the family of Calvin Steen who passed away at noon Sunday at Heritage Nursing Home in Plainview where he had lived for several months.

Calvin was one of Floydada's "Old timers". His funeral was Tuesday at the First United Methodist Church at 2 o'clock.

Those visiting during the past week with Mr. and Mrs. Lindsey Graham, were Mr. and Mrs. Jimmy Collins Jr. of Lockney, Nicki Thomas, Mr. and Mrs. Charlie Jarrett and Lee Burton.

Mrs. Mattie Jameson visited Saturday morning with Mrs. Clyde Bagwell.

Wednesday Mr. and Mrs. E.W. Walls made a business trip to Plainview and on the way home they came by Lockney and visited Mr. and Mrs. D.D. Tate.

Mrs. C.H. Wise visited Mr. and Mrs. Carl Young Sunday afternoon.

Large crowds attended each service at First Baptist Church during the revival there last week.

Anne Swepston attended the Eastern Star Grand Chapter at Houston from Saturday October 21 to Fri-

## Stenholm Campaign Caravan

Several local residents joined about 45 citizens of Stamford and nearby communities today as a bus caravan campaigning for Charles Stenholm for Congress visited Lockney and Floydada. Stenholm and his wife Cindy were among the bus load of volunteers meeting the people, answering questions and distributing campaign literature.

The visit was arranged by Alton Higginbotham of Floydada, area coordinator; and J.T. (Buster) Terrell of Lockney and John Dunlap of Floydada, Floyd County coordinators for Stenholm.

Stenholm, 40, is the Democratic nominee for the 17th Congressional District. He won the June 3 runoff with a landslide, two to one victory. He is seeking the post being vacated by the retiring, veteran legislator Cong. Omar Burleson.

A farmer-businessman from Stamford, Stenholm holds an M.S. in agricultural education from Texas Tech University. He has taught vocational agriculture, worked as the executive officer of Rolling Plains Cotton Growers and general manager of Stamford Electric Cooperative. He is a director of the First National Bank in Stamford.

Stenholm has served as president of the Stamford United Way, Stamford Little League, Texas Electric Cooperatives Association, Rolling Plains Cotton Growers and the Stamford Chamber of Commerce. He is a former member of the Texas State ASC Committee and State Democratic Executive Committee.

Stenholm's civic, church and political activities have led him to local, state and national recognition.

## West Texas To Celebrate Birthday Of Farm Teaching Method

LUBBOCK—October 30 marks the 75th anniversary of the completion of the first successful farm demonstration in the nation.

It was the success of this venture on the Walter C. Porter farm near Terrell, east of Dallas, that led to the creation of the Cooperative Extension Service nationally and the Texas Agricultural Service in this state.

Farmers, ranchers and homemakers in West Texas

will join in recognizing this milestone in agricultural history by holding a special observance here Tuesday, October 31.

The South Plains observance will be held in the board room of the Plains Cooperative Oil Mill, 2901 Avenue A. It will begin at 9:30 a.m. with a coffee and includes a ceremony recognizing outstanding farm demonstrators and home economics cooperators from

each of the 20 counties in Extension District 2.

The recipients are representing the more than 375 producers and homemakers in the district who conducted demonstrations this year in cooperation with their county Extension agents, said Billy C. Gunter and Mrs. Catherine Crawford, district Extension agents.

A documentary film on the Porter Farm, "I am thinking of the Harvest,"

will receive its premiere showing in the area.

A similar program for the 20 Panhandle counties which comprise Extension District 1 also will be held at 9:30 a.m. Tuesday, October 31. It will be at the Texas A&M University Agricultural Research and Extension Center, 6500 Amarillo Blvd. West, Amarillo.

Many other observance of Farm Demonstration Month are being held throughout

the state. A special statewide salute was held October 12 in Dallas and at the Porter Farm.

Dr. Seaman A. Knapp, a former president of Iowa State College and a special agent for the U.S. Department of Agriculture, went to Terrell in 1903 at the request of area citizens to set up a demonstration to "improve farming methods."

Knapp asked them to find a demonstration site and a

farmer who would farm precisely as he recommended. Local citizens selected Porter from several unteers, and also raised \$1,000 to cover losses that might arise from farming with methods. But the was not needed.

The farm demonstration was a financial success. The technique spread to other areas. Soon demonstration were in many counties. They are still popular! There are 4,300 established in last year, including county in District 2.
